“Retirement” shall mean the termination of employment of a Participant who has attained at least the Normal Retirement Age. The Participant may work beyond Normal Retirement Age, in which case Employer Contributions, Nonelective Contributions, and Voluntary Contributions shall continue to be allocated to the Participant’s Account.

Section 2.25. ORC

“ORC” shall mean the Ohio Revised Code, as amended.

Section 2.26. Rollover Contribution

“Rollover Contribution” means those amounts transferred to this Plan as are described in Sections 4.5 and 7.9.

Section 2.27. Termination Date

The “Termination Date” shall mean the date on which the earliest of the following events occurs: (a) a Participant’s Retirement, (b) a Participant’s termination of employment as a result of Disability, (c) a Participant’s death, or (d) a Participant’s termination of employment for any other reason.

Section 2.28. Total Service for Vesting

“Total Service for Vesting” shall mean the sum of each separate Year of Service for Vesting credited to the Participant. In the case of a Participant who has a One Year Break in Service, all Years of Service for Vesting after such Break in Service will be disregarded for the purpose of vesting the Employer Account that accrued before such breaks, and all pre-break service will be disregarded for the purposes of vesting the Employer Account that accrues after such breaks.

Section 2.29. Voluntary Contribution

“Voluntary Contribution” shall mean those contributions made by a Participant pursuant to Section 4.3.
ARTICLE III. ELIGIBILITY TO PARTICIPATE

Section 3.1. Initial Entry

All Eligible Employees as of the date the Board of Trustees of the Employer establishes the Plan (the “Establishment Date”) shall have a period of 120 days from such date in which to elect to participate in the Plan. An Eligible Employee shall have a period of 120 days from the date upon which the employee first is credited with an Hour of Service in which to elect to participate in the Plan. Such election shall be effective on the Eligible Employee’s employment commencement date and shall be irrevocable when made for Eligible Employees commencing employment on or after April 1, 2001. Eligible Employees failing to elect participation in the Plan may not subsequently elect participation unless they have had a One Year Break in Service and are reemployed as Eligible Employees. For existing employees who became Eligible Employees due to a change in position, references in this Section to employment commencement date and to the date upon which the employee is first credited with an Hour of Service shall mean the date upon which the employee became an Eligible Employee.

Section 3.2. Continued Eligibility to Participate

A Participant will continue to participate in the Plan as long as the Participant remains an employee of the Employer.

Section 3.3. Resumption of Participation

In the event a Participant is re-employed prior to incurring a One-Year Break in Service, such employee will participate in the Plan immediately upon becoming an Eligible Employee of the Employer.

Section 3.4. Eligibility Determinations and Employer Powers

The Employer shall have full power (a) to interpret and construe this Plan in a manner consistent with its terms and provisions and with IRC Section 401 and other applicable qualified plan provisions of the IRC, and to establish rules and procedures conforming to those provisions; (b) to determine all questions of eligibility and of the status and rights of Participants; (c) to determine the amounts to be contributed to each Participant’s Account; and (d) to employ such agents, attorneys, actuaries, accountants, auditors, investment counsel, and clerical assistants as it may deem necessary. In all such cases the Employer’s determination shall be final and conclusive upon all persons. It is recognized that unusual circumstances may occur and questions may arise that are not specifically covered by any provision of this Plan, and the Employer shall have the right to resolve all such questions.

Notwithstanding the above, the Employer’s power and responsibility under this Plan shall not extend to, nor have any control over, those responsibilities and duties of the Provider.
ARTICLE IV. CONTRIBUTIONS

Section 4.1. Nonelective Contributions

An Eligible Employee who becomes a Participant under this Plan in accordance with the provisions of Article III shall be deemed to have authorized the Employer to deduct from such Participant’s Compensation, prior to its payment, a certain percentage of such Participant’s Compensation, as a Nonelective Contribution to the Plan. Such contributions shall be credited to the Participant Account.

The Nonelective Contribution percentage shall equal the percentage of the Participant’s Compensation which, but for the election to participate in this Plan, would have otherwise been contributed to the State Retirement System that applies to the Participant’s position; provided that the Nonelective Contribution percentage shall not be less than three percent.

The amount of the Nonelective Contribution shall be picked up by the Participant’s Employer as provided for in IRC Section 414(h)(2). The Employer may choose to apply for approval from the National Office of the Internal Revenue Service concerning the applicability of IRC Section 414(h)(2). The Participant shall not have the option to receive this picked up contribution directly and such contributions shall be paid by the Employer directly to the respective Provider selected by the Participant.

Section 4.2. Employer Contributions

Employer Contributions shall be made as set forth in Section 1.10. Such contributions shall be credited to the Employer Account.

Notwithstanding Section 4.1 and the preceding paragraph of this Section 4.2, in no event shall the amount contributed under Sections 4.1 and 4.2 be less than the amount necessary to qualify the Plan as a state retirement system pursuant to IRC Section 3121(b)(7) and the Treasury Regulations adopted thereunder.

Each Participant will share in Employer Contributions for the period beginning on the date the Participant commences participation under the Plan and ending on the date on which such Participant severs employment with the Employer or is no longer a member of an Eligible Employee.

Section 4.3. Voluntary Contributions

Effective April 1, 2001, except as required by Ohio law, voluntary non-deductible employee contributions to the Plan shall no longer be permitted. Voluntary non-deductible employee contributions made prior to April 1, 2001 shall be held and administered in accordance with the terms of the Plan.
Section 4.4. Corrective Distributions

If the limits under IRC Section 415 are exceeded for any taxable year, and such excess is a result of a reasonable error in estimating a Participant’s annual Compensation or from other facts and circumstances that are permitted under any regulation or other ruling of the U.S. Department of the Treasury, then the Account of the Participant will be adjusted by the amount of the Employer Contributions for the next Limitation Year in accordance with Section 5.3(a)(4).

Section 4.5. Rollover Contributions

(a) Any Participant may make a Rollover Contribution to this Plan; provided, however, that the plan from which the funds are to be transferred must permit the transfer to be made, and provided, further, the Provider is reasonably satisfied that such transfer will not jeopardize the tax exempt status of this Plan or create adverse tax consequences for the Employer. Rollover Contributions shall be made by delivery of such amount to the respective Provider. All Rollover Contributions must be in cash or property satisfactory to the Provider, whose decision in this regard shall be final.

(b) If the Provider accepts such transfer of funds, it shall allocate them to the appropriate Participant Account of the transferring Participant, or to a separate or segregated Account established for such purpose (“Rollover Account”). If the funds are allocated to a Rollover Account, they shall be invested separately, and any appreciation, depreciation, gain, or loss with respect to the Rollover Account, and any related expenses, shall be allocated to such Rollover Account. For all other purposes such funds shall be treated as if they had been allocated to the Participant’s Account.

(c) Rollover Contributions shall not be considered to be Participant contributions for the purpose of calculating the limitations under Section 5.3.

(d) Any amount that is credited to a Participant’s Account pursuant to a Rollover Contribution or transfer under Section 4.6 of this Plan shall be one hundred percent (100%) vested and nonforfeitable at all times. In all other respects, the portion of a Participant’s Account attributable to such a Rollover Contribution or transfer shall be subject to the terms of this Plan.

Section 4.6. Transfers from a Plan of the Employer

Any Participant who has participated in a plan under IRC Section 401(a) or 403(a) attributable to such Participant’s current employment with the Employer may elect to transfer all or a portion of the amount accumulated under such other plan to this Plan provided such transfer may be effected in a manner consistent with the terms of such other plan(s) as well as the terms of this Plan. Such transfer shall only be permitted if such transfer qualifies as a tax-free transfer under generally accepted interpretations of the IRC. The portion of a Participant’s Account attributable to such a transfer shall be subject to the terms of this Plan as if the contributions from which the transferred amount are derived were made under this Plan.
ARTICLE V. ADMINISTRATION OF ACCOUNTS

Section 5.1. Investments

The amounts allocated to a Participant’s Account shall be invested in Annuity Contracts for Participants provided by the respective Provider. The terms and conditions of such Annuity Contracts shall be considered part of, and shall be construed as having been incorporated into the Plan. Participants will invest their Accounts based upon the investment options available under the Annuity Contracts and may make their investment selections pursuant to the terms and conditions contained in the respective Annuity Contracts. If any provision of an Annuity Contract conflicts with the Plan, the terms of the Plan shall control.

Section 5.2. Intra-Plan Transfers

Subject to the Provider’s rules for transfers and the ORC, a Participant may specify that a part or all of such Participant’s Account may be transferred among different investment options offered under such Annuity Contract or may be transferred to the Annuity Contract of another authorized Provider. Transfers between Providers are subject to the ORC and each Provider’s rules for such transfers.

If a Participant makes an election to change to a new Provider, a Participant may specify that a part or all of such Participant’s Account be transferred to the new Provider. Provided however, a Provider is not required to immediately transfer any part of the Participant’s Account invested at the Participant’s election in a fixed annuity account if the contract under which the investment was made permits the Provider to make such a transfer over a period of time not exceeding ten years and the contract was filed with and approved by the Ohio Department of Insurance, as described in ORC Section 3911.011.

Section 5.3. Limitations on Allocations to each Participant

(a)

(1) If a Participant does not participate in, and has never participated in, another qualified plan maintained by the Employer or a welfare benefit fund, as defined in IRC Section 419(e) maintained by the Employer, or an individual medical benefit account, as defined in IRC Section 415(l)(2), maintained by the Employer, which provides an annual addition as defined in Paragraph (c)(1) of this Section 5.3, the amount of annual additions which may be credited to the Participant’s account for any Limitation Year will not exceed the lesser of the maximum permissible amount or any other limitations contained in this Plan. If the Employer Contribution that would otherwise be contributed or allocated to the Account of the Participant would cause the annual additions for the Limitation Year to exceed the maximum permissible amount, the amount contributed or allocated will be reduced so that the annual additions for the Limitation Year will equal the maximum permissible amount, and such reduction shall be contributed, if possible, in a future Limitation Year.
(2) Prior to determining the Participant’s actual Compensation for the Limitation Year, the Employer may determine the maximum permissible amount for a Participant on the basis of a reasonable estimation of the Participant’s Compensation for the Limitation Year, uniformly determined for all Participants similarly situated.

(3) As soon as administratively feasible after the end of the Limitation Year, the maximum permissible amount for the Limitation Year will be determined on the basis of the Participant’s actual Compensation for the Limitation Year.

(4) If, pursuant to Paragraph (a)(3) of this Section 5.3 or as a result of an allocation of Forfeitures, there is an excess amount, the excess will be disposed of as follows:

(i) Any Voluntary Contributions (plus attributable earnings), to the extent they would reduce the excess amount, will be returned to the Participant.

(ii) If after the application of Subparagraph (i) an excess amount still exists, and the Participant is covered by the Plan at the end of the Limitation Year, the excess amount in the Participant’s Account will be used to reduce Employer Contributions (including any allocation of Forfeitures) for such Participant in the next Limitation Year, and each succeeding Limitation Year if necessary.

(iii) If after the application of Subparagraph (i) an excess amount still exists, and the Participant is not covered by the Plan at the end of a Limitation Year, the excess amount will be held unallocated in a suspense account. The suspense account will be applied to reduce Employer Contributions for all remaining Participants in the next Limitation Year, and each succeeding Limitation Year if necessary.

(iv) If a suspense account is in existence at any time during a Limitation Year pursuant to this Section, it will be administered in accordance with the Provider’s investment policies. If a suspense account is in existence at any time during a particular Limitation Year, all amounts in the suspense account must be allocated and reallocated to Accounts of Participants before any Employer or Participant contributions may be made to the Plan for that Limitation Year. Excess amounts may not be distributed to Participants or former Participants.

(b)

(1) This Subsection (b) applies if, in addition to this Plan, the Participant is covered under another qualified defined contribution plan maintained by the Employer, a welfare benefit fund, as defined in IRC Section 419(e) maintained by the Employer, or an individual medical benefit account, as defined in IRC Section 415(1)(2), maintained by the Employer, which provides an annual addition as defined in Paragraph (c)(1) of this Section 5.3, during any Limitation Year. The annual additions which may be credited to the Account of a Participant under the other plans, individual medical benefit accounts and
welfare benefit funds for the same Limitation Year will not exceed the maximum permissible amount reduced by the annual additions credited to the Account of a Participant under this Plan for such Limitation Year. If the annual additions with respect to the Participant under this Plan are equal to or greater than the maximum permissible amount, no amount will be contributed or allocated to the account(s) of the Participant under such other defined contribution plans, individual medical benefit accounts and welfare benefit funds for the Limitation Year.

(2) Prior to determining the Participant’s actual Compensation for the Limitation Year, the Employer may determine the maximum permissible amount for a Participant in the manner described in Paragraph (a)(2).

(3) As soon as administratively feasible after the end of the Limitation Year, the maximum permissible amount for the Limitation Year will be determined on the basis of the Participant’s actual Compensation for the Limitation Year.

(4) If, pursuant to Paragraph (b)(3) or as a result of the allocation of Forfeitures, a Participant’s annual additions under this Plan and such other plans would result in an excess amount for a Limitation Year, the excess amount will be deemed to consist of the annual additions last allocated, except that annual additions attributable to a welfare fund or individual medical benefit account will be deemed to have been allocated first regardless of the actual allocation date.

(5) If an excess amount was allocated to a Participant on an allocation date of this Plan which coincides with an allocation date of another plan, the excess amount attributed to this Plan will be the product of:

   (i) The total excess amount allocated as of such date, times

   (ii) The ratio of (a) the annual additions allocated to the Participant for the Limitation Year as of such date under this Plan to (b) the total annual additions allocated to the Participant for the Limitation Year as of such date under this and all other qualified defined contribution plans.

(6) Any excess amount attributed to this Plan will be disposed in the manner described in Paragraph (a)(4) of this Section 5.3.

c) For purposes of this Section 5.3, the following words and terms shall have the meanings indicated:

(1) “Annual additions.” Annual additions means the sum of the following credited to the Account of a Participant for the Limitation Year:

   (i) Employer Contributions;

   (ii) Participant contributions (Nonelective and Voluntary Contributions);
(iii) Forfeitures;

(iv) amounts allocated to an individual medical benefit account, as defined in IRC Section 415(1)(2), which is part of a pension or annuity plan maintained by the Employer are treated as annual additions to a defined contribution plan. Also, amounts derived from contributions paid or accrued which are attributable to post-retirement medical benefits, allocated to the separate account of a key employee, as defined in IRC Section 419A(d)(3), under a welfare benefit fund, as defined in IRC Section 419(e), maintained by the Employer are treated as annual additions to a defined contribution plan; and

(v) allocations under a simplified employee pension.

For this purpose, any excess amount applied under Paragraphs (a)(4) or (b)(6) of this Section 5.3 in the Limitation Year to reduce Employer Contributions will be considered annual additions for such Limitation Year.

(2) “Compensation.” Compensation has the meaning selected in Section 1.3 of this Plan.

For purposes of applying the limitations described in Section 5.3 of this Plan:

(i) Compensation paid or made available during suchLimitation Year shall include any elective deferral (as defined in IRC Section 402(g)(3)), and any amount which is contributed or deferred by the Employer at the election of the employee and which is not includable in the gross income of the employee by reason of IRC Section 125 or 457.

(ii) For Limitation Years beginning on and after January 1, 2001, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includable in gross income of the employee by reason of IRC Section 132(f)(4).

(3) “Maximum permissible amount.” For Limitation Years beginning on or after January 1, 2002, maximum permissible amount means the lesser of (a) 100 percent of the Participant’s Compensation, within the meaning of IRC Section 415(c)(3), for the Limitation Year, or (b) $40,000 as adjusted for increases in the cost-of-living under IRC Section 415(d).

(d) Adjustments to Compensation: Effective for Limitation Years beginning on or after July 1, 2007, Compensation for purposes of this Section 5.3:

(1) shall be based on the amount actually paid or made available to the Participant (or, if earlier, includable in the gross income of the Participant) during the Limitation Year; and
(2) shall include amounts paid by the later of two and one-half (2½) months after the Participant’s severance from employment (as defined below) with the Employer or the end of the Limitation Year that includes the date of the Participant’s severance from employment with the Employer, if:

(A) the payment is for unused accrued bona fide sick, vacation, or other leave (but only if the Participant would have been able to use the leave if employment had continued); or

(B) the payment is received by the Participant pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid to the Participant at the same time if the Participant had continued in employment with the Employer and only to the extent that the payment is includable in the Participant’s gross income; or

(C) the payment is regular compensation for services during the Participant’s regular working hours, or compensation for services outside the Participant’s regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the Participant while the Participant continued in employment with the Employer.

(3) may include amounts earned during the Limitation Year but not paid during that Limitation Year solely because of the timing of pay periods and pay dates, provided

(A) such amounts are paid during the first few weeks of the next Limitation Year;

(B) such amounts are included on a uniform and consistent basis with respect to all similarly situated Participants; and

(C) no such amounts are included in more than one Limitation Year.

(4) shall not include amounts paid as compensation to a non-resident alien, as defined in IRC Section 7701(b), who is not a Participant in the Plan to the extent the compensation is excludable from gross income and is not effectively connected with the conduct of a trade or business within the United States.

In addition, for Limitation Years beginning on or after July 1, 2007, Compensation for purposes of this Section shall not reflect compensation for a year greater than the limit under IRC Section 401(a)(17) that applies to that year.

Anything herein to the contrary notwithstanding, in correcting an “excess 415 amount” in a Limitation Year beginning on or after July 1, 2007, the Employer may use any appropriate correction under the Employee Plans Compliance Resolution System, or any successor thereto.
An Eligible Employee has a “severance from employment” when the Eligible Employee ceases to be an employee of the Employer maintaining the Plan, and an Eligible Employee does not have a “severance from employment” if, in connection with a change of employment, the individual’s new employer maintains such Plan with respect to the individual. The determination of whether an Eligible Employee ceases to be an employee of the Employer maintaining the Plan is based on all of the relevant facts and circumstances.

Section 5.4. Designation of Beneficiary

Each Participant may, pursuant to the forms provided by the Provider, designate from time to time in writing one or more Beneficiaries, who will receive the Participant’s vested Account balance in the event of the Participant’s death. Designation of one or more Beneficiaries shall become effective upon receipt of the fully completed forms by the Provider and shall supersede all prior designations made by the Participant. If the Participant dies without having made a Beneficiary designation, the Provider shall distribute such benefits in the order provided in the Annuity Contract.

Spousal rights to benefits are set forth in Section 1.12.

Section 5.5. Loans to Participants

If the Plan permits loans under Section 1.11, the following shall apply:

(a) Loans shall be made available to all Participants on a reasonably equivalent basis.

(b) Loans shall not be made available to highly compensated employees in an amount greater than the amount made available to other Eligible Employees.

(c) Loans must be adequately secured and bear a reasonable interest rate.

(d) The repayment of the loan shall be made with payments that provide for a substantially level amortization of principal and interest over the term of the loan. Such payments shall be required to be made not less frequently than quarterly.

(e) In the event of default, foreclosure on the note and attachment of security will not occur until a distributable event occurs in the Plan.

(f) If the spousal consent option in Section 1.12 applies, a Participant must obtain the consent of his or her spouse, if any, to use the Account as security for the loan. Spousal consent shall be obtained no earlier than the beginning of the 90-day period that ends on the date on which the loan is to be so secured. The consent must be in writing, must acknowledge the effect of the loan, and must be witnessed by the Provider or notary public. Such consent shall thereafter be binding with respect to the consenting spouse or any subsequent spouse with respect to that loan. A new consent shall be required if the Account is used for renegotiation, extension, renewal, or other revision of the loan.
(g) Loan repayments may be suspended under this Plan as permitted under IRC Section 414(u)(4).

(h) The foregoing provisions shall be the standard loan provisions of the Plan. However, different loan terms may be permitted provided that the final determination shall be made by the Provider on a uniform and nondiscriminatory basis. Accordingly, the provisions of this Section 5.5 may be supplemented and/or replaced by more specific or different written provisions adopted by the Provider as part of the Plan’s loan policy.

ARTICLE VI. VESTING

Section 6.1. Participant Account and Rollover Account 100 Percent Vested

Participant Accounts and Rollover Accounts shall be 100% vested at all times.

Section 6.2. Employer Account Vesting on Death, Retirement, or Disability

If a Participant’s employment is terminated due to his or her death, due to his or her Disability, or on or after the Participant’s attaining Normal Retirement Age, 100% of the Participant’s Employer Account shall vest in the Participant (or in his or her Beneficiary, as the case may be) and shall be distributed in accordance with the provisions of Article VII.

Section 6.3. Employer Account Vesting on Termination

Except as provided in Section 6.2, a Participant’s Employer Account shall be vested in accordance with Section 1.13. Upon a One Year Break in Service, forfeited Employer Accounts shall be used to reduce future Employer Contributions.

ARTICLE VII. DISTRIBUTION OF BENEFITS

Section 7.1. Method of Distribution of Accounts

(a) A Participant may elect to receive distribution of his or her vested Account in one of the forms selected by the Employer in Section 1.15. If the Participant fails to make an election, and the Employer has not elected the Joint and Survivor Annuity Option in Section 1.15, the Participant’s vested account shall be distributed by the Provider in the form of a lump sum. Notwithstanding the preceding, if a Participant terminates service, the entire amount of such vested Account shall be either distributed to the Participant by the Provider or rolled over by the Participant within the time specified in Section 7.2. The Provider shall be responsible for distributing a Participant’s Account and for making such distributions pursuant to the provisions of the Plan.

(b) If the spousal consent option in Section 1.12 applies, the Participant and the Participant’s spouse (or where either the Participant or the spouse has died, the survivor) must consent to any distribution of such vested Account. The consent of the Participant and the Participant’s spouse shall be obtained by the Provider in writing within the 90-day
period ending on the annuity starting date. The annuity starting date is the first day of the first period for which an amount is paid as an annuity or any other form.

Notwithstanding the foregoing, only the Participant need consent to the commencement of a distribution in the form of a Joint and Survivor Annuity. Neither the consent of the Participant nor the Participant’s spouse shall be required to the extent that a distribution is required to satisfy IRC Section 401(a)(9) or IRC Section 415. In addition, upon termination of this Plan, if the Plan does not offer a annuity option (purchased from a commercial provider) and if neither the Employer nor any affiliated employer maintains another defined contribution plan (other than an employee stock ownership plan as defined in IRC Section 4975(e)(7)), the Participant’s vested Account will, without the Participant’s consent, be distributed to the Participant.

(c) If distributions are made in installments, the amount of the installment to be distributed each year must be at least an amount equal to the quotient obtained by dividing the Participant’s entire interest in the life expectancy of the Participant or the joint and last survivor expectancy of the Participant and his designated Beneficiary. Life expectancy and joint and last survivor expectancy are computed by the use of the return multiples contained in Treasury Regulations Section 1.72-9, Table V and VI or, in the case of payments under a contract issued by an insurance company, by use of the life expectancy tables of the insurance company. For purposes of this computation, a Participant’s life expectancy may be recalculated no more frequently than annually, but the life expectancy of a nonspouse Beneficiary may not be recalculated.

Section 7.2. Time of Distribution

7.2.1 Subject to Section 7.3, Joint and Survivor Annuity or Pre-Retirement Survivor Annuity, the requirements of this Section 7.2 shall apply to any distribution of a Participant’s vested Account and will take precedence over any inconsistent provisions of this Plan. All distributions required under this Section 7.2 shall be determined and made in accordance with the Treasury Regulations under IRC Section 401(a)(9), including the minimum distribution incidental benefit requirement. Distributions may commence as soon as administratively feasible following a Participant’s Termination Date or Disability.

7.2.2 General Rules

(a) Effective Date. The provisions of this Section 7.2 will apply for purposes of determining required minimum distributions for calendar years beginning with the 2003 calendar year.

(b) Precedence. The requirements of this Section 7.2 will take precedence over any inconsistent provisions of the Plan.

(c) Requirements of Treasury Regulations Incorporated. All distributions required under this Section 7.2 will be determined and made in accordance with the Treasury Regulations under IRC Section 401(a)(9) and the minimum distribution incidental benefit requirement of IRC Section 401(a)(9)(G).
TEFRA Section 242(b)(2) Elections. Notwithstanding the other provisions of this Section 7.2, distributions may be made under a designation made before January 1, 1984, in accordance with Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of the Plan that relate to Section 242(b)(2) of TEFRA.

7.2.3 Time and Manner of Distribution

(a) Required beginning date. The Participant’s entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant’s required beginning date (as defined in Section 7.2.6 below).

(b) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant’s entire interest will be distributed, or begin to be distributed, no later than as follows:

(1) If the Participant’s surviving spouse is the Participant’s sole designated Beneficiary, then, distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70-1/2, if later.

(2) If the Participant’s surviving spouse is not the Participant’s sole designated Beneficiary, then, distributions to the designated Beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(3) If there is no designated Beneficiary as of September 30 of the year following the year of the Participant’s death, the Participant’s entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant’s death.

(4) If the Participant’s surviving spouse is the Participant’s sole designated Beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse begin, this subsection (b) (other than subsection (b)(1)), will apply as if the surviving spouse were the Participant.

For purposes of this subsection (b) and Section 7.2, unless Section 7.2.3(b)(4) applies, distributions are considered to begin on the Participant’s required beginning date. If Section 7.2.3(b)(4) applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under subsection (b)(1). If distributions under an annuity purchased from an insurance company irrevocably commence to the Participant before the Participant’s required beginning date (or to the Participant’s surviving spouse before the date distributions are required to begin to the surviving spouse under Section 7.2.3(b)(1)), the date distributions are considered to begin is the date distributions actually commence.
(c) Form of Distribution. Unless the Participant’s interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution calendar year distributions will be made in accordance with Sections 7.2.4 and 7.2.5. If the Participant’s interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of IRC Section 401(a)(9) and the Treasury Regulations.

7.2.4 Required Minimum Distributions During Participant’s Lifetime

(a) Amount of Required Minimum Distribution for Each Distribution Calendar Year. During the Participant’s lifetime, the minimum amount that will be distributed for each distribution calendar year is the lesser of:

(1) the quotient obtained by dividing the Participant’s Account balance by the distribution period in the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9, Q&A-2 of the Treasury Regulations, using the Participant’s age as of the Participant’s birthday in the distribution calendar year; or

(2) if the Participant’s sole designated Beneficiary for the distribution calendar year is the Participant’s spouse, the quotient obtained by dividing the Participant’s Account balance by the number in the Joint and Last Survivor Table set forth in Section 1.401(a)(9)-9, Q&A-3 of the Treasury Regulations, using the Participant’s and spouse’s attained ages as of the Participant’s and spouse’s birthdays in the distribution calendar year.

(b) Lifetime Required Minimum Distributions Continue Through Year of Participant’s Death. Required minimum distributions will be determined under this Section 7.2.4 beginning with the first distribution calendar year and up to and including the distribution calendar year that includes the Participant’s date of death.

7.2.5 Required Minimum Distributions After Participant’s Death

(a) Death On or After Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is a designated Beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant’s death is the quotient obtained by dividing the Participant’s Account balance by the longer of the remaining life expectancy of the Participant or the remaining life expectancy of the Participant’s designated Beneficiary, determined as follows:

(i) The Participant’s remaining life expectancy is calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.
(ii) If the Participant’s surviving spouse is the Participant’s sole designated Beneficiary, the remaining life expectancy of the surviving spouse is calculated for each distribution calendar year after the year of the Participant’s death using the surviving spouse’s age as of the spouse’s birthday in that year. For distribution calendar years after the year of the surviving spouse’s death, the remaining life expectancy of the surviving spouse is calculated using the age of the surviving spouse as of the spouse’s birthday in the calendar year of the spouse’s death, reduced by one for each subsequent calendar year.

(iii) If the Participant’s surviving spouse is not the Participant’s sole designated Beneficiary, the designated Beneficiary’s remaining life expectancy is calculated using the age of the Beneficiary in the year following the year of the Participant’s death, reduced by one for each subsequent year.

(2) No Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is no designated Beneficiary as of September 30 of the year after the year of the Participant’s death, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant’s death is the quotient obtained by dividing the Participant’s Account balance by the Participant’s remaining life expectancy calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(b) Death Before Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. If the Participant dies before the date distributions begin and there is a designated Beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant’s death is the quotient obtained by dividing the Participant’s Account balance by the remaining life expectancy of the Participant’s designated Beneficiary, determined as provided in Section 7.2.5(a) above.

(2) No Designated Beneficiary. If the Participant dies before the date distributions begin and there is no designated Beneficiary as of September 30 of the year following the year of the Participant’s death, distributions of the Participant’s entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant’s death.

(3) Death of Surviving Spouse Before Distributions to Surviving Spouse Are Required to Begin. If the Participant dies before the date distributions begin, the Participant’s surviving spouse is the Participant’s sole designated Beneficiary, and the surviving spouse dies before distributions are required to begin to the surviving spouse under Section 7.2.3(b)(1), this Section 7.2.5(b) will apply as if the surviving spouse were the Participant.
7.2.6 Definitions

(a) Designated Beneficiary. The individual who is designated as the beneficiary under Section 5.4 of the Plan and is the designated Beneficiary under IRC Section 401(a)(9) and Section 1.401(a)(9)-4 of the Treasury Regulations.

(b) Distribution calendar year. A calendar year for which a minimum distribution is required. For distributions beginning before the Participant’s death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant’s required beginning date. For distributions beginning after the Participant’s death, the first distribution calendar year is the calendar year in which distributions are required to begin under Section 7.2.3(b)(1). The required minimum distribution for the Participant’s first distribution calendar year will be made on or before the Participant’s required beginning date.

The required minimum distribution for other distribution calendar years, including the required minimum distribution for the distribution calendar year in which the Participant’s required beginning date occurs, will be made on or before December 31 of that distribution calendar year.

(c) Life expectancy. Life expectancy as computed by use of the Single Life Table in Section 1.401(a)(9)-9, Q&A-1 of the Treasury Regulations.

(d) Participant’s Account balance. The Account balance as of the last Valuation Date in the calendar year immediately preceding the distribution calendar year (valuation calendar year) increased by the amount of any contributions made and allocated or Forfeitures allocated to the Account balance as of dates in the valuation calendar year after the Valuation Date and decreased by distributions made in the valuation calendar year after the Valuation Date. The Account balance for the valuation calendar year includes any amounts rolled over or transferred to the Plan either in the valuation calendar year or in the distribution calendar year if distributed or transferred in the valuation calendar year.

(e) Required beginning date. The required beginning date is April 1 of the calendar year following the later of the calendar year in which the Participant attains age 70½ or the calendar year in which the Participant retires.

(f) Valuation Date. The last day of each Plan Year and any other day determined by the Employer.

7.2.7 Waiver of Required Minimum Distribution

Notwithstanding this Section 7.2 of the Plan, a Participant or Beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of IRC Section 401(a)(9)(H) (“2009 RMDs”), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs, or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the
the Participant’s right to make and the effect of an election to waive the Joint and Survivor Annuity form of benefit; (iii) the rights of a Participant’s spouse; and (iv) the right to make, and the effect of, a revocation of a previous election to waive the Joint and Survivor Annuity.

(2) For any distribution notice issued in Plan Years beginning after December 31, 2006, any reference to the 90-day maximum notice prior to distribution in applying the notice requirements of IRC 402(f) (the rollover notice), IRC Section 411(a)(11) (Participant’s consent to distribution), and IRC Section 417 (notice under the joint and survivor annuity rules) shall become 180 days.

For any distribution notice issued in Plan Years beginning after December 31, 2006, the description of a Participant’s right, if any, to defer receipt of a distribution also will describe the consequences of failing to defer receipt of the distribution. For notices issued before the 90th day after the issuance of Treasury Regulations (unless further Internal Revenue Service guidance otherwise requires), the notice will include a description indicating the investment options available under the Plan (including fees) that will be available if the Participant defers distribution.

(3) In the case of a Pre-Retirement Survivor Annuity as described in Subsection 7.3(c), the Provider shall provide each Participant within the applicable period for such Participant a written explanation of the Pre-Retirement Survivor Annuity in such terms and in such manner as would be comparable to the explanation provided for meeting the requirements of Paragraph (e)(l) applicable to a Joint and Survivor Annuity.

The applicable period for a Participant is a reasonable period ending after the individual becomes a Participant.

(f) Effective with respect to Plan Years beginning after December 31, 2007, a Participant who elects to waive the qualified Joint and Survivor Annuity form of benefit, if offered under the Plan in Section 1.15, is entitled to elect the “qualified optional survivor annuity” at any time during the applicable election period. Furthermore, the written explanation of the Joint and Survivor Annuity shall explain the terms and conditions of the “qualified optional survivor annuity.”

For purposes of this Section 7.3(f), the term “qualified optional survivor annuity” means an annuity:

(i) For the life of the Participant with a survivor annuity for the life of the spouse which is equal to the “applicable percentage” of the amount of the annuity which is payable during the joint lives of the Participant and the spouse, and

(ii) Which is the actuarial equivalent of a single annuity for the life of the Participant.
Such term also includes any annuity in a form having the effect of an annuity described in the preceding sentence.

For purposes of this Section 7.3(f), the “applicable percentage” is based on the survivor annuity percentage (i.e., the percentage which the survivor annuity under the Plan’s qualified Joint and Survivor Annuity bears to the annuity payable during the joint lives of the Participant and the spouse). If the survivor annuity percentage is less than 75 percent, then the “applicable percentage” is 75 percent; otherwise, the “applicable percentage” is 50 percent.

Section 7.4. Distribution After Death of Participant

(a) In the event of the death of a Participant after distribution of the Participant’s vested Account has begun, but prior to completion of such payments, the full amount of such unpaid Vested Account shall continue to be paid in the form of the previously established installments except that the Beneficiary may request that the remaining account be paid in a lump sum.

In the event of the death of the Participant prior to the start of any payment of his or her Account, distributions shall be made in the form and at the time or times selected by the Beneficiary pursuant to Sections 7.1 and 7.2, as applicable.

(b) For distributions after December 31, 2009, a non-spouse Beneficiary who is a “designated beneficiary” under IRC Section 401(a)(9)(E) and the Treasury Regulations thereunder, by a direct trustee-to-trustee transfer (“direct rollover”), may roll over all or any portion of his or her distribution to an individual retirement account the Beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must satisfy the definition of an eligible rollover distribution.

Although a non-spouse Beneficiary may roll over directly a distribution as provided in this Section 7.4(b), any distribution made prior to January 1, 2010 is not subject to the direct rollover requirements of IRC Section 401(a)(31) (including IRC Section 401(a)(31)(B), the notice requirements of IRC Section 402(f) or the mandatory withholding requirements of IRC Section 3405(c)). If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a “60-day” rollover.

If the Participant’s named Beneficiary is a trust, the Plan may make a direct rollover to an individual retirement account on behalf of the trust, provided the trust satisfies the requirements to be a designated beneficiary within the meaning of IRC Section 401(a)(9)(E).

A non-spouse Beneficiary may not roll over an amount which is a required minimum distribution, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance. If the Participant dies before his or her required beginning date and the non-spouse Beneficiary rolls over to an individual retirement account the maximum amount eligible for rollover, the Beneficiary may elect to use either the 5-year rule or the
life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(e), in determining the required minimum distributions from the individual retirement account that receives the non-spouse Beneficiary’s distribution.

Section 7.5. Distribution After Death of Beneficiary

In the event of the death of a Beneficiary (or a contingent Beneficiary, if applicable) prior to the completion of payment of benefits due the Beneficiary from the Plan, the full amount of such unpaid vested Account shall at once vest in and become the property of the estate of said Beneficiary.

Section 7.6. Transfers from Plan

The Participant may direct the Provider to transfer part or all of the Participant’s vested Account to a retirement plan, as described in IRC Section 401(a) or Section 403(a).

Section 7.7. Inability to Locate Participant or Beneficiary

If the Provider cannot locate the Participant or Beneficiary to whom the vested Account is to be distributed, and reasonable efforts have been made to find such a person, including the sending of notification by certified or registered mail to his or her last known address, the Participant’s vested Account may be forfeited, subject to state law, and used to reduce Employer Contributions; provided that, if the Participant is subsequently located, such Forfeiture shall be restored and the restoration shall be made first out of Forfeitures, if any, and then by additional Employer Contributions.

Section 7.8. Qualified Domestic Relations Orders

Notwithstanding any other provisions of Article VII, any Account of a Participant may be apportioned between the Participant and an alternate payee, either through separate Accounts or by providing the alternate payee a percentage of the Account of the Participant. The Provider may direct distributions to an alternate payee pursuant to a qualified domestic relations order in accordance with IRC Section 414(p)(1) as modified by IRC Section 414(p)(11) prior to the date on which the Participant attains the earliest retirement age, provided that the Provider has properly notified the affected Participant and each alternate payee of the order and has determined that the order is a qualified domestic relations order as defined in IRC Section 414(p)(1), as modified by IRC Section 414(p)(11) (“Qualified Domestic Relations Order”). The alternate payee shall be paid his or her separate Account or his or her percentage of the Account of the Participant, computed as of the Limitation Year, or if the Plan is valued on a daily basis, as provided in the order, in a lump-sum payment notwithstanding the value of such lump-sum payment unless the domestic relations order specifies a different manner of payment permitted by the Plan; and the alternate payee shall not be required to consent to such lump-sum payment. The Provider shall adopt reasonable procedures to determine the qualified status of domestic relations orders and to administer the distributions thereunder and shall comply with the provisions of the ORC pertinent to Qualified Domestic Relations Orders.
Effective April 6, 2007, a domestic relations order that otherwise satisfies the requirements for a Qualified Domestic Relations Order will not fail to be a Qualified Domestic Relations Order: (i) solely because the order is issued after, or revises, another domestic relations order or Qualified Domestic Relations Order; or (ii) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant’s death. A domestic relations order described in this paragraph is subject to the same requirements and protections that apply to Qualified Domestic Relations Orders.

Section 7.9. Direct Rollover

Notwithstanding any other provision of the Plan, the Provider shall advise any distributee entitled to receive an eligible rollover distribution, at the same time as the notice required to be given pursuant to the IRC (or such other time as is permitted by law) of his or her right to elect a direct rollover to an eligible retirement plan, pursuant to the provisions of this Section 7.9. To elect a direct rollover the distributee must request in writing to the Provider that all or a specified portion of the eligible rollover distribution be transferred directly to one or more eligible retirement plans. If more than one direct rollover distribution will be made, the notice specified in the first sentence of this Section 7.9 must state that the distributee’s initial election to make or not to make a direct rollover will remain in effect unless he gives the Provider written instructions, on the forms provided by the Provider, to change the election, in which case the new election will remain in effect until changed.

The distributee shall not be entitled to elect a direct rollover pursuant to this Section unless he or she has obtained a waiver of any applicable Joint and Survivor Annuity, as required pursuant to Section 7.3.

For purposes of this Section 7.9, the following definitions shall apply:

(a) A “direct rollover” is a payment by the Plan to the eligible retirement plan specified by the distributee.

(b) A “distributee” includes an employee or former employee. In addition, the employee’s or former employee’s surviving spouse and the employee’s (or former employee’s) spouse or former spouse who is the alternate payee under a Qualified Domestic Relations Order are distributees with regard to the interest of the spouse or former spouse.

(c) An “eligible retirement plan” is an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan, an individual retirement account described in IRC Section 408(a), an individual retirement annuity described in IRC Section 408(b), an annuity plan described in IRC Section 403(a), an annuity contract described in IRC Section 403(b), or a qualified plan described in IRC Section 401(a), that accepts the distributee’s eligible rollover distribution. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relation order, as defined in IRC Section 414(p).
For distributions made after December 31, 2007, a Participant or Beneficiary may elect to a direct rollover of an eligible rollover distribution to a Roth IRA as described in IRC Section 408A(b).

(d) An “eligible rollover distribution” is any distribution from this Plan after December 31, 2001 of all or any portion of the balance to the credit of the distributee, except for distributions (or portions thereof) which are:

(1) One of a series of substantially equal periodic payments (not less frequently than annually) made over the life of the employee (or the joint lives of the Participant and the Participant’s designated Beneficiary), the life expectancy of the Participant (or the joint life and last survivor expectancy of the Participant and the Participant’s designated Beneficiary), or for a specified period of ten years or more;

(2) Required under IRC Section 401(a)(9) (relating to the minimum distribution requirements);

(3) Not includable in gross income (determined without regard to the exclusion for net unrealized appreciation in employer securities described in IRC Section 402(e)(4)); or

(4) Any hardship distributions described in IRC Section 401(k)(2)(B)(i)(IV) and Treasury Regulation Section 1.401(k)-1(d)(3).

A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in IRC Section 408(a) or (b), or to a qualified defined contribution plan described in IRC Section 401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

In addition to, and subject to, the foregoing terms and conditions (with the exception of those provisions regarding the acceptance of rollover contributions from conduit individual retirement accounts), effective January 1, 2002, the Plan will accept Participant rollover contributions and/or direct roll overs of distributions made after December 31, 2001, from the types of plans specified below, subject to the Provider’s ability to account separately for such amounts.

**Direct Rollovers:**

The Plan will accept a direct rollover of an eligible rollover distribution from:

- [X] a qualified plan described in IRC Section 401(a) or 403(a).
- [X] an annuity contract described in IRC Section 403(b).
X an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

Participant Rollover Contributions from Other Plans:

The Plan will accept a Participant contribution of an Eligible Rollover Distribution from:

X a qualified plan described in IRC Section 401(a) or 403(a).

X an annuity contract described in IRC Section 403(b).

X an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

Participant Rollover Contributions from IRAs:

The Plan will accept a Participant rollover contribution of the portion of a distribution from an individual retirement account or annuity described in IRC Section 408(a) or 408(b) that is eligible to be rolled over and would otherwise be includible in gross income.

Notwithstanding any of the foregoing, the Plan will not accept any portion of a rollover contribution or a direct rollover that includes after-tax employee contributions.

The amount transferred to the Plan must be transferred within sixty (60) days of the date such individual received the eligible rollover distribution, provided, however, that for distributions made after December 31, 2001, the Secretary of the Treasury may waive the 60-day rollover period if the failure to waive such requirement would be against equity or good conscience, including cases of casualty, disaster, or other events beyond the reasonable control of the individual as provided under IRC Sections 402(c)(3) and 408(d)(3).

Section 7.10. Withholding Orders

(a) Withholding Orders Upon Theft in Office or Sex Offenses

In accordance with ORC Section 3305.09, any payment that is to be made to the Participant or his or her Beneficiary(ies) under this Plan shall be subject to any withholding order issued pursuant to ORC Section 2907.15 or division (C)(2)(b) of ORC Section 2921.41. The Provider of the Annuity Contract shall comply with that withholding order in making the payment.

Upon notice pursuant to ORC Section 2907.15 or division (D) of ORC Section 2921.41 that a Participant is charged with a violation of ORC Section 2907.02, 2907.03, 2907.04, 2907.05 or 2921.41, no payment shall be made to the Participant or his or her Beneficiary(ies) under this Plan prior to whichever of the following is applicable:
(1) If the Participant is convicted of or pleads guilty to the charge and no motion for a withholding order for purposes of restitution has been filed under ORC Section 2907.15 or division (C)(2)(b)(i) of ORC Section 2921.41, thirty (30) days after the date on which final disposition of the charge is made;

(2) If the Participant is convicted of or pleads guilty to the charge and a motion for a withholding order for purposes of restitution has been filed under ORC Section 2907.15 or division (C)(2)(b)(i) of ORC Section 2921.41, the date on which the court decides the motion;

(3) If the charge is dismissed or the Participant is found not guilty of the charge or not guilty of the charge by reason of insanity, the date on which final disposition of the charge is made.

(b) Withholding Orders for Support

Any payment that is to be made to the Participant or his or her Beneficiary(ies) under this Plan shall, to the extent required by Ohio law, be subject to any withholding order for spousal or child support issued pursuant to the provisions of the ORC. Payments made on and after April 1, 2001 shall, to the extent required by law, also be subject to ORC Sections 3111.23 and 3115.32.

(c) Provider Responsibility

The Provider shall be solely responsible for compliance with any withholding orders issued under Paragraphs (a) or (b) above.

ARTICLE VIII. AMENDMENT AND TERMINATION

Section 8.1. Rights to Suspend or Terminate Plan

It is the present intention of the Employer to maintain this Plan throughout its existence. Nevertheless, the Employer reserves the right, at any time, to the extent permitted by the ORC, to discontinue or terminate the Plan, to terminate the Employer’s liability to make further contributions to this Plan, and/or to suspend contributions for a fixed or indeterminate period of time. In any event, the liability of the Employer to make contributions to this Plan shall automatically terminate upon its legal dissolution or termination, upon its adjudication as a bankrupt, upon the making of a general assignment for the benefit of creditors, or upon its merger or consolidation with any other entity. If there is more than one Provider selected in Section 1.7, the Employer’s liability to make contributions as to any Provider shall terminate upon the Provider ceasing to be a designated provider.

Section 8.2. Successor Organizations

In the event of the termination of the liability of the Employer to make further contributions to this Plan, the Employer’s liability may be assumed by any other organization which employs a substantial number of the Participants of this Plan. Such assumption of liability shall be expressed
in an agreement between such other organization and the Employer under which such other organization assumes the liabilities of the Plan with respect to the Participants employed by it.

Section 8.3. Amendment

To provide for contingencies which may require the clarification, modification, or amendment of this Plan, the Employer reserves the right to amend this Plan at any time.

The Ohio State University (hereinafter referred to as the “Volume Submitter Practitioner” or “Practitioner” in this Section 8.3) shall have the authority to amend the Plan on behalf of all adopting employers, including those employers who have adopted the Plan prior to this amendment, for changes in the IRC, Treasury Regulations, Revenue Rulings, other statements published by the Internal Revenue Service, including model, sample or other required good faith amendments, but only if their adoption shall not cause such Plan to be individually designed, and for corrections of prior approved plans. These amendments shall be applied to all employers who have adopted a volume submitter plan of the Practitioner.

The Practitioner shall no longer have the authority to amend the Plan on behalf of any adopting Employer as of either: (1) the date the Internal Revenue Service requires the employer to file Form 5300 as an individually designed plan as a result of an employer amendment to the Plan to incorporate a type of plan not allowable in the volume submitter program, as described in Revenue Procedure 2005-16, or (2) as of the date the Plan is otherwise considered an individually designed plan due to the nature and extent of the amendments. If an employer is required to obtain a determination letter for any reason in order to maintain reliance on the advisory letter, the Practitioner’s authority to amend the Plan on behalf of the adopting employer is conditioned on the Plan receiving a favorable determination letter.

The Volume Submitter Practitioner shall maintain, or have maintained on its behalf, a record of the employers that have adopted the Plan, and the Volume Submitter Practitioner shall make reasonable and diligent efforts to ensure that adopting employers have actually received and are aware of all Plan amendments and that such employers adopt new documents when necessary. This paragraph supersedes other provisions of the Plan to the extent those other provisions are inconsistent with this paragraph.

Section 8.4. Vesting on Termination of Plan

Upon termination or partial termination of the Plan by formal action of the Employer or for any other reason, or if Employer Contributions to the Plan are permanently discontinued for any reason, there shall be vested 100% in each Participant directly affected by such action the amount allocated to the Accounts of each such Participant, and payment to such Participant shall be made in cash or in kind.

Section 8.5. Plan Merger or Consolidation

In the case of any merger or consolidation with, or transfer of any assets or liabilities to, any other plan, each Participant in this Plan must be entitled to receive (if the surviving plan is then terminated) a benefit immediately after the merger, consolidation, or transfer which is equal to or
greater than the benefit he would have been entitled to receive immediately before the merger, consolidation, or transfer (if this Plan had terminated).

ARTICLE IX. MISCELLANEOUS

Section 9.1. Laws of Ohio to Apply

This Plan shall be construed according to the laws of Ohio, to the extent Federal laws do not control.

Notwithstanding any provision of this Plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with IRC Section 414(u).

In the case of a death occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in IRC Section 414(u)), the Participant’s Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed employment and then terminated employment on account of death. Moreover, the Plan will credit the Participant’s qualified military service as service for vesting purposes, as though the Participant had resumed employment under the Uniformed Services Employment and Reemployment Rights Act of 1994 (“USERRA”) immediately prior to the Participant’s death.

If the Employer elects, then for benefit accrual purposes, the Plan shall treat a Participant who dies or becomes Disabled on or after January 1, 2007 while performing qualified military service with respect to the Employer as if the Participant had resumed employment in accordance with the Participant’s reemployment rights under USERRA, on the day preceding death or Disability (as the case may be) and terminated employment on the actual date of death or Disability.

If the Employer elects, the Plan will determine the amount of employee contributions and the amount of elective deferrals (if applicable) of a Participant treated as reemployed for purposes of applying IRC Section 414(u)(8)(C) on the basis of the Participant’s average actual employee contributions or elective deferrals for the lesser of: (i) the 12-month period of service with the Employer immediately prior to qualified military service; or (ii) the actual length of continuous service with the Employer.

If the Employer elects, for years beginning after December 31, 2008: (i) a Participant receiving a differential wage payment as defined by IRC Section 3401(b)(2), shall be treated as an employee of the Employer making the payment, (ii) the differential wage payment shall be treated as compensation for purposes of IRC Section 415(c)(3) and Treasury Regulation Section 1.415(c)-2 (e.g., for purposes of IRC Section 415), and (iii) the Plan shall not be treated as failing to meet the requirements of any provisions described in IRC Section 414(u)(1)(C) (or corresponding Plan provisions), by reason of any contribution or benefit which is based on the differential wage
payment. Differential wage payments, if applicable, (as described herein) will also be considered compensation for all Plan purposes.

Section 9.3. Participant Cannot Transfer or Assign Benefits

Except as provided in Section 7.10, none of the benefits, payments, proceeds, claims, or rights of any Participant hereunder shall be subject to any claim of any creditor of the Participant, nor shall any Participant have any right to transfer, assign, encumber, or otherwise alienate, any of the benefits or proceeds which he or she may expect to receive, contingently or otherwise under this Plan.

Notwithstanding any restrictions on the time of distribution which would otherwise apply under this Plan, distributions with respect to a Qualified Domestic Relations Order may be made at any time required by the Order.

Section 9.4. Reversion of Contributions Under Certain Circumstances

In the event that the Commissioner of Internal Revenue determines that the Plan is not initially qualified under the IRC, any contribution made incident to that initial qualification must be returned to the Employer within one year after the date the initial qualification is denied, but only if the application for the qualification is made by the time prescribed by law for filing the Employer’s return for the taxable year in which the Plan is adopted, or such later date as the Secretary of the Treasury may prescribe.

If a contribution is made by an Employer by a mistake of fact, the contribution may be returned to the Employer within one year after the payment of the contribution.

Notwithstanding the above, earnings attributable to amounts described in paragraphs one and two of this Section 9.4 shall not be returned to the Employer; losses attributable to such amounts shall reduce the amount returned.

Section 9.5. Filing Tax Returns and Reports

The Provider shall prepare, or cause to have prepared, all tax returns, reports, and related documents, except as otherwise specifically provided in this Plan.

Section 9.6. No Discrimination

Neither the Employer nor any Provider shall take any action that would result in benefiting one Participant or group of Participants at the expense of another, or discriminating between Participants similarly situated, or applying different rules to substantially similar sets of facts.

Section 9.7. Number and Gender

When appropriate the singular as used in this Plan shall include the plural and vice versa; and the masculine shall include the feminine.
Section 9.8. **Records and Information**

Each Provider shall keep a complete record of all its proceedings and all data necessary for the determination of Account balances.

Section 9.9. **Information to Participants**

Each Provider shall maintain separate Accounts for the Participants. It shall give each Participant, at least once every year, information as to the balance of his Employer Account and Participant Account, if applicable.

Section 9.10. **Powers**

The Employer shall have the power to determine all questions that may arise hereunder as to the eligibility of employees to participate in the Plan and as to the vesting of Participants. The Employer shall the power to interpret and construe the Plan. Any such actions shall be final and conclusive upon all persons.

[Continued on next page.]
IN WITNESS WHEREOF, the Employer has caused the Plan to be executed as of the date written below.

COLUMBIA/S1824488v.2
TOPIC: Approval of the Amendment of The Ohio State University Alternative Retirement Plan

BACKGROUND ON THE PLAN:
The University’s Alternative Retirement Plan (the “Plan”) is an alternative to participating in OPERS (for staff) or STRS (for faculty). The Plan is a “tax-qualified” retirement plan – i.e., participants do not pay taxes on their account balances (including earnings) until those balances are distributed. To remain tax-qualified, the Plan must meet certain requirements under the Internal Revenue Code. As such, the Plan must be amended to comply with the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 (“HEART”), the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”) and other applicable laws and regulations.

SUMMARY OF CHANGES:
The provisions of PPA, HEART and WRERA resulted in required amendments to the Plan, as summarized below.

- Nonspouse beneficiaries are permitted, effective January 1, 2010, to make direct rollovers into an IRA that is treated as an inherited IRA.
- Participants may elect a qualified optional survivor annuity if they waive the qualified joint and survivor type of benefit.
- The rollover notice period, the participant’s consent to distribution notice period, and the notice period under the joint and survivor annuity rules will be increased from the 90 to 180 days.
- A court order does not fail to be a Qualified Domestic Relations Order (QDRO) merely because of the time it was issued, or because it modified a prior court order or QDRO.
- If a participant dies while performing qualified military service, the Plan must provide that the deceased participant’s beneficiaries are entitled to any survivor benefits that are contingent upon termination of employment on account of death.
- If a participant dies or becomes disabled while performing qualified military service, the Plan may provide that the period of qualified military service will be counted for purposes of benefit accruals or contributions and vesting.
- If the University pays military differential wage payments to participants, the Plan must include such payments in the definition of compensation used for Internal Revenue Code requirements, but not necessarily for plan allocation purposes.
- For the 2009 plan year, participants and beneficiaries were permitted to elect between receiving and not receiving required minimum distributions at age 70-1/2.

In addition, the different definitions of compensation in the Plan are being amended to comply with applicable law and to ensure consistency in administration with the University’s Retirement Continuation Plan.
November 4, 2011 meeting, Board of Trustees

The amendments have been approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel.

PURPOSE OF THE RESOLUTION:

The resolution would:

- Approve the amendment of the Plan;
- Authorize the Senior Vice President for Business and Finance and Chief Financial Officer to sign the amendment and any other documents needed to carry out the resolution; and
- Delegate authority to adopt and effectuate certain technical amendments that arise due to IRS required non-discretionary revisions to plans or revisions required by the Ohio Revised Code (“ORC”) to the Senior Vice President for Business and Finance and Chief Financial Officer, in consultation with the Office of Human Resources and the Office of Legal Affairs, without further review or resolutions by the Board.
Amendment to
The Ohio State University Alternative Retirement Plan

WHEREAS, The Ohio State University (the “Employer”) maintains The Ohio State University Alternative Retirement Plan, as amended and restated on February 4, 2010 and effective as of January 1, 2002 (the “Plan”); and

WHEREAS, pursuant to the authority of Section 8.3 of the Plan, the Employer desires to amend the Plan as described herein with respect to: the Pension Protection Act of 2006; the Heroes Earnings Assistance and Relief Tax Act of 2008; the Worker, Retiree, and Employer Recovery Act of 2008; and other applicable laws, regulations and administrative authority.

NOW, THEREFORE, effective as stated herein, the Employer hereby amends the Plan as follows:

Part I: Amendments with respect to the Pension Protection Act of 2006:

1. Section 7.3(e)(1) of the Plan shall be amended, effective as stated herein, by the addition of the following paragraphs to its end:

“For any distribution notice issued in Plan Years beginning after December 31, 2006, any reference to the 90-day maximum notice prior to distribution in applying the notice requirements of IRC Section 402(f) (the rollover notice), IRC Section 411(a)(11) (Participant’s consent to distribution), and IRC Section 417 (notice under the joint and survivor annuity rules) shall become 180 days.

For any distribution notice issued in Plan Years beginning after December 31, 2006, the description of a Participant’s right, if any, to defer receipt of a distribution also will describe the consequences of failing to defer receipt of the distribution. For notices issued before the 90th day after the issuance of Treasury Regulations (unless further Internal Revenue Service guidance otherwise requires), the notice will include a description indicating the investment options available under the Plan (including fees) that will be available if the Participant defers distribution.”

2. Section 7.3(f) shall be added to the Plan, effective for Plan Years beginning after December 31, 2007, as follows:

“(f) Effective with respect to Plan Years beginning after December 31, 2007, a Participant who elects to waive the qualified Joint and Survivor Annuity form of benefit, if offered under the Plan in Section 1.15, is entitled to elect the “qualified optional survivor annuity” at any time during the applicable election period. Furthermore, the written explanation of the qualified Joint and Survivor Annuity shall explain the terms and conditions of the “qualified optional survivor annuity.”
For purposes of this Section 7.3(f), the term “qualified optional survivor annuity” means an annuity:

(i) For the life of the Participant with a survivor annuity for the life of the spouse which is equal to the “applicable percentage” of the amount of the annuity which is payable during the joint lives of the Participant and the spouse, and

(ii) Which is the actuarial equivalent of a single annuity for the life of the Participant.

Such term also includes any annuity in a form having the effect of an annuity described in the preceding sentence.

For purposes of this Section 7.3(f), the “applicable percentage” is based on the survivor annuity percentage (i.e., the percentage which the survivor annuity under the Plan’s qualified Joint and Survivor Annuity bears to the annuity payable during the joint lives of the Participant and the spouse). If the survivor annuity percentage is less than 75 percent, then the “applicable percentage” is 75 percent; otherwise, the “applicable percentage” is 50 percent.”

3. Section 7.4 of the Plan shall be amended by the addition of subsection (b), effective for distributions made after December 31, 2009, as follows:

“(b) For distributions after December 31, 2009, a non-spouse Beneficiary who is a “designated beneficiary” under IRC Section 401(a)(9)(E) and the Treasury Regulations thereunder, by a direct trustee-to-trustee transfer (“direct rollover”), may roll over all or any portion of his or her distribution to an individual retirement account the Beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must satisfy the definition of an eligible rollover distribution.

Although a non-spouse Beneficiary may roll over directly a distribution as provided in this Section 7.4(b), any distribution made prior to January 1, 2010 is not subject to the direct rollover requirements of IRC Section 401(a)(31) (including IRC Section 401(a)(31)(B), the notice requirements of IRC Section 402(f) or the mandatory withholding requirements of IRC Section 3405(c)). If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a “60-day” rollover.

If the Participant’s named Beneficiary is a trust, the Plan may make a direct rollover to an individual retirement account on behalf of the trust, provided the trust satisfies the requirements to be a designated Beneficiary within the meaning of IRC Section 401(a)(9)(E).
A non-spouse Beneficiary may not roll over an amount which is a required minimum distribution, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance. If the Participant dies before his or her required beginning date and the non-spouse Beneficiary rolls over to an individual retirement account the maximum amount eligible for rollover, the Beneficiary may elect to use either the 5-year rule or the life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(c), in determining the required minimum distributions from the individual retirement account that receives the non-spouse Beneficiary’s distribution.”

4. The Plan shall be amended, effective April 6, 2007, by the addition of the following paragraph to the end of Section 7.8:

“Effective April 6, 2007, a domestic relations order that otherwise satisfies the requirements for a qualified domestic relations order will not fail to be a qualified domestic relations order: (i) solely because the order is issued after, or revises, another domestic relations order or qualified domestic relations order; or (ii) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant’s death. A domestic relations order described in this paragraph is subject to the same requirements and protections that apply to qualified domestic relations orders.”

5. The Plan shall be amended, effective for distributions made after December 31, 2007, by the addition of the following paragraph to the end of Section 7.9(c):

“For distributions made after December 31, 2007, a Participant or Beneficiary may elect a direct rollover of an eligible rollover distribution to a Roth IRA described in IRC Section 408A(b).”

Part II: Amendments with respect to the Heroes Earnings Assistance and Relief Tax Act of 2008:

1. The Plan shall be amended, effective as stated herein, by the addition of the following paragraph to the end of Section 9.2:

“In the case of a death occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in IRC Section 414(u)), the Participant’s Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed employment and then terminated employment on account of death. Moreover, the Plan will credit the Participant’s qualified military service as service for vesting purposes, as though the Participant had resumed employment under the Uniformed Service Employment and Reemployment Rights Act of 1994 (“USERRA”) immediately prior to the Participant’s death.”
If the Employer elects, then for benefit accrual purposes, the Plan shall treat a Participant who dies or becomes Disabled on or after January 1, 2007 while performing qualified military service with respect to the Employer as if the Participant had resumed employment in accordance with the Participant’s reemployment rights under USERRA, on the day preceding death or Disability (as the case may be) and terminated employment on the actual date of death or Disability.

If the Employer elects, the Plan will determine the amount of employee contributions and the amount of elective deferrals (if applicable) of a Participant treated as reemployed for purposes of applying IRC Section 414(u)(8)(C) on the basis of the Participant’s average actual employee contributions or elective deferrals for the lesser of: (i) the 12-month period of service with the Employer immediately prior to qualified military service; or (ii) the actual length of continuous service with the Employer.

If the Employer elects, for years beginning after December 31, 2008: (i) a Participant receiving a differential wage payment as defined by IRC Section 3401(h)(2), shall be treated as an employee of the Employer making the payment, (ii) the differential wage payment shall be treated as compensation for purposes of IRC Section 415(c)(3) and Treasury Regulation Section 1.415(c)-2 (e.g., for purposes of IRC Section 415), and (iii) the Plan shall not be treated as failing to meet the requirements of any provisions described in IRC Section 414(u)(1)(C) (or corresponding Plan provisions), by reason of any contribution or benefit which is based on the differential wage payment. Differential wage payments, if applicable, (as described herein) will also be considered compensation for all Plan purposes.”

Part III: Amendments with respect to the Worker, Retiree, and Employer Recovery Act of 2008:

1. Section 10.7 shall be added, effective as stated herein, to the Plan as follows:

“10.7 Waiver of Required Minimum Distributions.

Notwithstanding Article X of the Plan, a Participant or Beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of IRC Section 401(a)(9)(H) (“2009 RMDs”), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs, or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the Participant, the joint lives (or joint life expectancy) of the Participant and the Participant’s designated Beneficiary, or for a period of at least ten (10) years (“Extended 2009 RMDs”), will receive those distributions for 2009 unless the Participant or Beneficiary chooses not to
receive such distributions. Participants and Beneficiaries described in the preceding sentence will be given the opportunity to elect to stop receiving the distributions described in the preceding sentence.”

Part IV: Other Amendments:

1. The Plan shall be amended, effective as of January 1, 2012, by the addition of the following subsection (v) to the end of Section 5.3(c)(1):

“(v) allocations under a simplified employee pension.”

2. The first two paragraphs following Section 2.6(c)(viii) shall be deleted in their entirety and replaced with the following, effective as of January 1, 2012:

“Notwithstanding the foregoing, Compensation shall not be reduced by the amount of exclusions that are not currently includable in the Participant’s gross income by reason of the application of IRC Sections 125, 132(f), 402(e)(3), 403(b), 414(h)(2) and 457.

An employee who has satisfied the eligibility requirements for Employer Contributions and Nonelective Contributions during a Plan Year shall be entitled to such contributions only with respect to Compensation earned on or after the date he becomes a Participant.”

3. The Plan shall be amended, effective as of January 1, 2012, by the addition of the following provision to the end of Section 5.3:

“For purposes of applying the limitations described in Section 5.3 of the Plan, Compensation shall not include amounts paid as compensation to a non-resident alien, as defined in IRC Section 7701(b), who is not a Participant in the Plan to the extent the compensation is excludable from gross income and is not effectively connected with the conduct of a trade or business within the United States.”

4. Item 6 of Appendix A shall be deleted in its entirety and replaced with the following Item 6, effective as of January 1, 2012:

“6) For Sections 2.6(a), 2.6(b) and 2.6(c), an election is made pursuant to ORC Section 3305.05 or 3305.051.”

Part V: The remainder of the Plan remains unchanged.
IN WITNESS WHEREOF, the Employer hereby adopts this Amendment to the Plan, this ___ day of ____________, 2011.

THE OHIO STATE UNIVERSITY

By: ______________________________

Geoffrey S. Chatas
Senior Vice President for Business and Finance and CFO
TOPIC: Approval of the Amendment to The Ohio State University Retirement Continuation Plan

BACKGROUND ON THE PLAN:

The Retirement Continuation Plan (the “RCP”) was amended and restated effective as of January 1, 2011, and subsequently amended effective as of July 1, 2011. The RCP is maintained for faculty and staff members whose retirement contributions to the state retirement system are limited under IRS rules and whose compensation, as determined by the University, exceeds those IRS limits. The RCP is a “tax-qualified” retirement plan – i.e., participants do not pay taxes on their account balances (including earnings) until those balances are distributed.

SUMMARY OF CHANGES:

The RCP is being amended to add installment distributions to its permitted methods of distribution (currently only lump sum payments and annuities are permitted). In addition, the definitions of compensation in the RCP are being amended to comply with applicable law and to ensure consistency in administration with the University's Alternative Retirement Plan.

The amendments have been approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel.

PURPOSE OF THE RESOLUTION:

The resolution would:

- Approve the amendment to the RCP, effective as of January 1, 2012;
- Authorize the Senior Vice President for Business and Finance and Chief Financial Officer to sign the amendment and any other documents needed to carry out the resolution; and
- Delegate authority to adopt and effectuate certain technical amendments that arise due to IRS required non-discretionary revisions to plans to the Senior Vice President for Business and Finance and Chief Financial Officer, in consultation with the Office of Human Resources and the Office of Legal Affairs, without further review or resolutions by the Board.
SECOND AMENDMENT TO
THE AMENDED AND RESTATED OHIO STATE UNIVERSITY
RETIREMENT CONTINUATION PLAN

WHEREAS, The Ohio State University (the “Employer”) maintains The Ohio State
University Retirement Continuation Plan, as amended and restated effective as of January 1,
2011 and amended further effective as of July 1, 2011 (the “Plan”);

WHEREAS, pursuant to Section 11.01 of the Plan, the Board has the right to amend the
Plan; and

WHEREAS, the Employer desires to amend the Plan as described herein.

NOW, THEREFORE, effective as of January 1, 2012, the Employer hereby amends the
Plan as follows:

1. Section 1.07 of the Plan is hereby deleted in its entirety and replaced with the following
Section 1.07A:

Section 1.07A – Compensation for Purposes Other than Section 1.18 or Article V

Shall have the same meaning as the applicable one of the following:

(a) If the Employee is a member of OPERS or is a participant in the ARP and
would be subject to Chapter 145 of the Ohio Revised Code, as amended (“ORC”), had
the Employee not made an election pursuant to Section 3305.05 or 3305.051 of the ORC,
“Compensation” shall mean “earnable salary” as defined in division (R) of Section
145.01 of the ORC; or

(b) If the Employee is a member of STRS or is a participant in the ARP and
would be subject to Chapter 3307 of the ORC had the Employee not made an election
pursuant to Section 3305.05 or 3305.051 of the ORC, “Compensation” shall mean
“compensation” as defined in division (L) of Section 3307.01 of the ORC. For purposes
of this Section 1.07A(b), “Compensation” shall be determined without regard to STRS
Rule 3307-10-01.

Notwithstanding the foregoing, Compensation shall not be reduced by the amount
of exclusions that are not currently includable in the Participant’s gross income by reason
of the application of IRC Sections 125, 132(f), 402(e)(3), 403(b), 414(h)(2) and 457.

In determining the amount or allocation of any contribution that is based on
Compensation, only Compensation paid to a Participant for services rendered to the
Employer while employed as an Employee of the Employer shall be taken into account.

This Plan shall not consider a Participant’s Compensation for any Plan Year in
excess of the limitation under Section 401(a)(17) of the Code.
Effective January 1, 2009, an individual receiving a differential wage payment, as defined by Section 3401(h)(2) of the Code, shall be treated as an Employee of the Employer making the payment (rather than an Employee who has incurred a severance from employment); and the differential wage payment shall be treated as compensation for Plan purposes, including Section 415 of the Code and any other Code section that references the definition of compensation under Section 415 of the Code.

If all Employees of the Employer performing service in the uniformed services described in Section 3401(h)(2)(A) of the Code are entitled to receive differential wage payments (as defined in Section 3401(h)(2) of the Code) on reasonably equivalent terms and, if eligible to participate in a retirement plan maintained by the Employer, to make contributions based on the payments on reasonably equivalent terms (taking into account Sections 410(b)(3), (4), and (5) of the Code), then the Plan shall not be treated as failing to meet the requirements of any provision described in Section 414(u)(1)(C) of the Code by reason of any contribution or benefit which is based on the differential wage payment.

2. The following new Section 1.07B is added to the Plan:

Section 1.07B – Compensation for Purposes of Section 1.18 and Article V

Shall mean wages as defined in Section 3401(a) of the Code and all other payments of compensation to an Employee by the Employer (in the course of the Employer’s trade or business) for which the Employer is required to furnish the Employee a written statement under Sections 6041(d), 6051(a)(3), and 6052 of the Code. Compensation must be determined without regard to any rules under Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Section 3401(a)(2)).

For purposes of applying the limitations described in Section 1.18 and Article V of this Plan:

(a) Compensation paid or made available during a Limitation Year shall include any elective deferral (as defined in Section 402(g)(3) of the Code), and any amount which is contributed or deferred by the Employer at the election of the Employee and which is not includible in the gross income of the Employee by reason of Section 125 or 457 of the Code.

(b) For Limitation Years beginning on or after January 1, 2001, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includible in gross income of the Employee by reason of Section 132(f)(4) of the Code.
Effective for Limitation Years beginning on or after July 1, 2007, Compensation for purposes of this Section 1.07B:

(1) shall be based on the amount actually paid or made available to the Participant (or, if earlier, includable in the gross income of the Participant) during the Limitation Year; and

(2) shall include amounts paid by the later of two and one-half (2 1/2) months after the Participant’s severance from employment (as defined below) with the Employer or the end of the Limitation Year that includes the date of the Participant’s severance from employment (as defined below) with the Employer, if:

(A) the payment is for unused accrued bona fide sick, vacation, or other leave (but only if the Participant would have been able to use the leave if employment had continued); or

(B) the payment is received by the Participant pursuant to a nonqualified unfunded deferred compensation plan, but only if the payment would have been paid to the Participant at the same time if the Participant had continued in employment with the Employer and only to the extent that the payment is includible in the Participant’s gross income; or

(C) the payment is regular compensation for services during the Participant’s regular working hours, or compensation for services outside the Participant’s regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the Participant while the Participant continued in employment with the Employer.

(3) may include amounts earned during the Limitation Year but not paid during that Limitation Year solely because of the timing of pay periods and pay dates, provided

(A) such amounts are paid during the first few weeks of the next Limitation Year;
(B) such amounts are included on a uniform and consistent basis with respect to all similarly situated Participants; and
(C) no such amounts are included in more than one Limitation Year.

(4) shall not include amounts paid as compensation to a non-resident alien, as defined in Section 7701(b) of the Code, who is not a Participant in the Plan to the extent the compensation is excludable from gross income and is not effectively connected with the conduct of a trade or business within the United States.
In addition, for Limitation Years beginning on or after July 1, 2007, Compensation for purposes of this Section 1.07B shall not reflect compensation for a year greater than the limit under Section 401(a)(17) of the Code that applies to that year.

For purposes of this Section 1.07B, an Employee has a “severance from employment” when the Employee ceases to be an employee of the Employer maintaining the Plan, and an Eligible Employee does not have a “severance from employment” if, in connection with a change of employment, the individual’s new employer maintains such Plan with respect to the individual. The determination of whether an Employee ceases to be an employee of the Employer maintaining the Plan is based on all of the relevant facts and circumstances.

3. New Section 1.18 is added to the Plan as follows (and all subsequent sections in Article I are renumbered):

Section 1.18 – Maximum Permissible Amount

Shall mean the Annual Addition that may be contributed or allocated to a Participant’s Account under the Plan for any Limitation Year which shall not exceed the lesser of:

(a) $40,000, as adjusted for increases in the cost-of-living under Section 415(d) of the Code, or

(b) 100 percent of the Participant’s Compensation, within the meaning of Section 415(c)(3) of the Code, for the Limitation Year.

4. Section 5.01(a) of the Plan is hereby deleted in its entirety and replaced with the following:

(a) Notwithstanding any provisions of the Plan to the contrary, the Annual Additions which a Participant is entitled to under the Plan shall not, in any Limitation Year, exceed the Maximum Permissible Amount.

5. Section 5.01(c)(3) of the Plan is hereby deleted in its entirety and replaced with the following:

(c) For purposes of this Section, “Annual Addition” shall mean:

1. Employer contributions;
2. Employee contributions;
3. Forfeitures;
4. Amounts allocated to an individual medical account, as described in Section 415(i)(1) of the Code, which is part of a defined benefit plan maintained by the Employer;
5. Amounts derived from contributions paid or accrued, which are attributable to post-retirement medical benefits allocated to the separate account of a key
employee under Section 419A(d)(2) of the Code in a welfare benefit plan maintained by the Employer; and

(6) allocations under a simplified employee pension.

Restorative payments allocated to a Participant's Account, which include payments made to restore losses to the Plan resulting from actions (or a failure to act) by a fiduciary for which there is a reasonable risk of liability under applicable federal or state law, where similarly situated Participants are similarly treated do not give rise to an "Annual Addition" for any Limitation Year.

6. Section 7.02 of the Plan is hereby deleted in its entirety and replaced with the following:

Section 7.02 – Methods of Distribution

A Participant or Beneficiary may elect that his benefit be paid in the form of a lump sum, an installment distribution or an annuity, subject to the terms of the applicable Annuity Contract(s) and Custodial Account(s) issued by the Funding Company.

7. Section 7.03 is hereby deleted in its entirety and replaced with the following:

Section 7.03 – Distributions After Death

If the distribution of a Participant’s interest has begun in the form of an installment distribution or an annuity and the Participant dies before his entire interest has been distributed to him, the remaining portion of such interest shall be distributed as provided in the Annuity Contract or Custodial Account.

If a Participant dies before he has begun to receive any distributions from his Account, his death benefit shall be distributed to his Beneficiary in the form of a lump sum no later than December 31 of the calendar year following the calendar year in which the Participant died, or, if the Beneficiary so elects, in the form of an installment distribution or an annuity, with the first payment being made no later than December 31 of the calendar year following the calendar year in which the Participant died. Any such installment distribution or annuity shall be subject to the terms and conditions of this Plan. If the Beneficiary fails to make any election, he will be treated as if he elected a lump sum distribution.

In the case of a death or Disability occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in Section 414(u) of the Code), the survivors of the Participant are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed and then terminated employment on account of death.

8. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Plan.
9. All other terms and conditions of the Plan shall remain in full force and effect.

IN WITNESS WHEREOF, the Employer has executed this Second Amendment.

BACKGROUND

In 1978, The Ohio State University acquired property on Eiterman Road, Dublin, Ohio, containing approximately 17.7 acres from the Carol S. Kennedy Trust and the City National Bank and Trust Company, Successor Trustee. The property was gifted to Ohio State without a specific benefactor being designated. Land uses and development in the immediate area consists of office properties, single family residential properties, multi-family properties, retail properties, industrial properties, and institutional uses. The property has appreciated in value due to its Dublin location and commercial building growth that has taken place in the immediate area.

There are no current plans for the University to use the property for its own purposes. In the interim the tillable acreage portion of the property is being rented for farming use. Appropriate University offices have determined that it’s in the University’s best interest to sell the property.

The two most recent appraisals of the property were completed in July, 2009 and January, 2010. The average value of the vacant land indicated by the two appraisals is $111,000 per acre. The highest and best of the property, as stated in the appraisals, is for non-speculative commercial development.

Ohio State has the opportunity to sell the property to the City of Dublin and to close the transaction before the end of this year. The City of Dublin has offered to purchase the property for $100,500 per acre, subject to their due diligence inspections and obtaining any necessary approvals of the purchase by the appropriate offices. The purchase price is within 10% of the appraised value and in light of current economic conditions the price is considered to be at fair market value.

Authorization is requested to finalize negotiations with the City of Dublin, to enter into a purchase agreement with terms and conditions acceptable to the University, and to complete a sale of the property to the City of Dublin in the best interests of the University. The proceeds from the sale of the property will be deposited in the General Funds account for use by the University.
APPENDIX XVII

ACCEPTANCE OF THE GIFT OF REAL PROPERTY

456 PARTRIDGE BEND
POWELL, OHIO

LOCATION AND DESCRIPTION

The property consists of approximately 2.5 acres of improved real property located at 456 Partridge Bend, Powell, Ohio. The Property contains a custom built frame, single-family residence of approximately 4,764 square feet. Title to the property is held in the name of Steven S. and Barbara B. Fishman. The Donors have requested the University hold the property for three years.

APPRAISAL

Two appraisals conducted in September 2011 by R.A Myers and Associates, Inc. and Porter and Peck Appraisers valued the property at $880,000 and $850,000, respectively. The owners are donating the property to the University and funding the costs of the survey and title insurance policy. All costs associated with operating and maintaining the property will be funded by the Athletic Department.

USE OF THE PROPERTY

Title to the property will be taken in the name of the Board of Trustees of The Ohio State University. The property will be used as transitional housing for faculty and staff until the property is sold in approximately three years.

Cheryl Krueger is a business leader whose entrepreneurial success is matched by her tremendous commitment to community. She was the founder, president, and chief executive officer of Cheryl & Co., a multimillion-dollar gourmet food and gift corporation, which she sold in 2005. She served as president from 1981 through 2009. She recently founded KRUEGER & CO. Consulting, Inc., and serves as its chief executive officer. Its primary focus is to help companies develop creative marketing and sales strategies as well as evaluate product development pipelines, operations, logistics, and financial performance.

Ms. Krueger is a graduate of Bowling Green State University, where she earned a bachelor's degree in 1974. After college, she worked at Limited Brands, learning the retail business. In 1981, she and her college roommate opened the very first Cheryl's Cookies in Columbus, offering six kinds of cookies. The company broadened its offerings to include gourmet food and gifts, and became Cheryl & Co. That company grew to include retail stores, an Internet business, a catalog business, and a business gift division. In 1999, Ms. Krueger was recognized as the top female entrepreneur in the nation by Working Woman magazine.

Ms. Krueger has served on the Bob Evans Farms board of directors since 1993 and is chair of its nominating and corporate governance committee. She served on the board of directors of the Federal Reserve Board for District 4 and chaired its operations committee.

Much of Ms. Krueger's volunteer efforts revolve around personal outreach and education. She is past president of the foundation board of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, where in 2009 she received the Champion Award in recognition of her dedication and outstanding contributions. She also serves on The Ohio State University Foundation Board.

Ms. Krueger is a member of the World Presidents Organization (WPO), an organization comprised of leading corporate executives, and she is an eight-year member of the board of trustees for The Columbus Academy, where she serves as chair of the private college preparatory school's capital campaign. She is also an honorary board member of the Seal of Ohio Girl Scout Council.
Zdeněk P. Bažant  
DOCTOR OF ENGINEERING

D r. Zdeněk P. Bažant is the Walter P. Murphy Professor of Civil Engineering and Materials Science and the McCormick Institute Professor at Northwestern University. He was the university’s founding director of the Center for Geomaterials from 1981 to 1987. A world leader in solid mechanics research, Dr. Bažant is most widely known for his discovery of the size-effect law, which determines the effects of the size of a quasi-brittle structure on its strength and modes of failure, important, e.g., for concrete, rocks, tough ceramics, fiber composites, and bone. He also has made substantial advances in structural stability, fracture mechanics, structural safety, durability, and moisture effects in concrete structures, and the micro- and nano-mechanics of structural damage and deformation.

The true measure of a successful engineering scientist is the extent to which his findings are applied to real engineering design problems. Dr. Bažant’s groundbreaking discoveries have found wide application in structural analysis of large concrete structures. His work has been used in industry and government laboratories, in various commercial software for predicting structural failure in checking the safety of composites in Boeing and Airbus aircrafts; in assessing automobile crashworthiness; in designing concrete nuclear containment, bridges, and tall buildings; in testing the pavement soundness by the Texas Department of Highways and in terrorist attack simulations by the U.S. Army Corps of Engineers.

Dr. Bažant’s prolific work has resulted in more than 17,000 citations. He has published six books, edited 17 books, and presented 78 distinguished lectures. For his contributions to materials science, Dr. Bažant has received numerous honors and awards, including the Timoshenko, Nadai, and Warner Medals of the American Society for Mechanical Engineers, the von Karman, Newmark, and Biot Medals of the American Society of Civil Engineers; and the Prager Medal of the Society of Engineering Science. He is a member of the National Academy of Sciences, National Academy of Engineering, American Academy of Arts & Sciences, and the Italian, Austrian, Czech, and Spanish national academies.

Dr. Bažant was born and educated in Prague. He received his civil engineering degree from the Czech Technical University in 1958 and his PhD in engineering mechanics from the Czechoslovak Academy of Sciences Prague in 1963.

Edgar W. Ingram III and Martha S. Ingram  
DISTINGUISHED SERVICE AWARD

Edgar W. (Bill) and Martha S. (Marcia) Ingram have worked to improve and enrich lives throughout central Ohio and beyond for many years. The Ingrams’ extraordinary philanthropy, leadership, and record of volunteer engagement are legendary in Ohio, and are particularly evident on the campus of The Ohio State University. Their support for Ohio State, through the Ingram-White Castle Foundation, has greatly benefited Ohio State’s Comprehensive Cancer Center, Wexner Center for the Arts, WUSU, and the Chabad House, and has provided numerous scholarships for students. The Ingrams’ remarkable generosity is most apparent in their substantial support for the remodeling of the William Oxley Thompson Library, as well as the creation of the Ohio’s G. Ingram Spirit of Women Park at the Medical Center.

Bolstered by Mr. and Mrs. Ingram’s leadership, the Ingram family has become the public face for the needs of countless children affected by autism spectrum disorders. In 2008, Mrs. Ingram chaired the inaugural Columbus Autism Speaks Walk, held at Ohio State’s Jerome Schottenstein Center, and she has remained in a leadership role for this event. The annual walk has raised a combined total of nearly $5 million for the advancement of autism research. In January 2011, Mr. and Mrs. Ingram announced a gift to Ohio State and Nationwide Children’s Hospital to establish the Ingram Comprehensive Center for Autism Spectrum Disorders in support of collaborative autism research.

Mr. Ingram is president and chief executive officer of White Castle System, Inc., and a trustee and president of the Ingram-White Castle Foundation. He is the third generation of his family to assume leadership of the business his grandfather founded in 1921. He previously served as a member, and later chair, of the governing committee of the Columbus Foundation and currently serves on the boards of directors for The Ohio State University Foundation, the James Foundation, and Bob Evans Farms, Inc. He earned his bachelor’s degree in business administration at Bowling Green State University in 1972.

For the past two decades, Mrs. Ingram has served on a variety of boards to support the arts, health care, and the Columbus community, including Nationwide Children’s Hospital, Grant Riverside Hospital, the Center of Science and Industry, and Columbus BalletMet. She earned her bachelor’s degree in human relations from Ohio Wesleyan University in 1974.

Industrial and Systems Engineering

Raed Ali M. Almhmedi, Jeddah, Saudi Arabia
B.S. (King Abdul Aziz University)
Electrical and Computer Engineering

Merrie Ann Varughese, Kerala, India
Bachelor's (Vellore Institute of Technology)
Environmental Science

Rachel Michelle Badauff, Crawfordsville, IN
B.S. (Rose-Hulman Institute of Technology)
Chemistry

Abhijit Bansal, Ghaziabad, India
B.Tech. (National Institutes of Technology)
Electrical and Computer Engineering

David J. Barna, Akron
Mechanical Engineering

Adarsh Arvind Bavani Shankar, Dinigul, India
B.Engr. (Anna University)
Mechanical Engineering

Andrew Steven Bittlemann, Columbus
B.S. (Case Western Reserve University)
Civil Engineering

Whitney Savannah Bowen, Pickerington
B.S.Agr.
Animal Sciences

Emily Ann Burbacher, Perrysburg
B.S. (University of Toledo)
Evolution, Ecology, and Organismal Biology

Adam C. Burley, Trenton
B.S.Chem.Eng.
Chemical Engineering

Oleksiy Busaryev, Odessa, Ukraine
Diploma (Odessa National Polytechnic University)
Computer Science and Engineering

Erin Elizabeth Caricofe, Woodbridge, VA
B.A. (College of William and Mary)
Rural Sociology

Santino Carnevale, Cranston, RI
B.A. (Boston University)
Materials Science and Engineering

Thomas Castillo, Weslaco, TX
B.S. (Texas A&M University)
Mechanical Engineering

Chun Sik Chae, Seoul, Korea
B.Engr. (Chung-Ang University)
M.S. (Kwangju Institute of Science and Technology)
Electrical and Computer Engineering
Commencement Convocation, December 11, 2011

Stephen C. Chen, Chungli, Taiwan, ROC
B.S. (National Taiwan University)
Electrical and Computer Engineering

Ting Chen, Wuxi, China
B.Engr. (Tongji University)
Mechanical Engineering

Leandro Henrique Cruppe, Jundiaí, Brazil
Animal Sciences

Shanon Marie Davis, West Des Moines, IA
B.S. (University of Northern Iowa)
Mechanical Engineering

Shu Ding, Hangzhou, China
Bachelor's (Sun Yat-sen University)
B.Engr. (Zhongshan University)
Chemistry

Sarah Donley, Northport, AL
B.S. (Bowling Green State University)
Animal Sciences

Stylianos Dosopoulos, Kozani, Greece
Diploma (Democritus University of Thrace)
Electrical and Computer Engineering

Brock A. Droll, Decatur, IL
D.D.S. (Southern Illinois University Carbondale)
Dentistry

Terri Lynn Easter, Columbus
B.S.Elec.Eng. (Gannon University)
M.Educ.
Geological Sciences

Christopher M. Eastman, Cleveland
B.S. (Xavier University)
Environment and Natural Resources

Spencer J. Elmore, Layton, UT
D.D.S.
Dentistry

Ryan Vincent Everett, Canfield
Mechanical Engineering

Haind Fadel, Zawia, Libya
B.Med. (Seventh of April University)
Vision Science

Collin Reed Ferguson, Columbus
B.S. (United States Military Academy)
Industrial and Systems Engineering; Mechanical Engineering

Erica Lauren Fisher, Mason
B.S.FoodSci.
Food Science and Technology

Anup K. Gampa, Dayton
B.S.Ind.&Sys.Eng.
Agricultural, Environmental and Development Economics

Jose Luis Gonzalez Mendez, Coatzacoalcos, Mexico
B., M.S. (Instituto Tecnológico y de Estudios Superiores de Monterrey)
Mechanical Engineering

Paige N. Gott, Nova
B.S.Agr.
Animal Sciences

Harish Govindarajan, Chennai, India
B.S. (Vellore Institute of Technology)
Materials Science and Engineering

Erin Leigh Gross, Salem
B.S., D.D.S., Ph.D.
Dentistry

Nicole Denise Guzman, Columbus
Bachelor's (Universidad de las Américas Puebla)
Bachelor's (Instituto Tecnológico y de Estudios Superiores de Occidente)
Chemical Engineering

Mark Anthony Haverick, Belleville, NJ
B.S. (Montclair State University)
Chemistry

Jared Blake Hawkins, Toledo
B.S. (University of Toledo)
Geological Sciences

Yaser Hamdy Helal, Ludington, MI
B.A. (Ohio Wesleyan University)
Physics

Alicia Kathleen Hess, Hedgesville, WV
B.Bus.Admin. (Marshall University)
Agricultural, Environmental and Development Economics

Kevin Hinkle, Marengo
B.S.Chem.Eng. (University of Dayton)
Chemical Engineering

Justin Andrew Holewinski, Columbus
B.S.Cptr.Sc.&Eng.
Computer Science and Engineering

Jennifer A. Holt, Columbus
B.S.
Physics

Clifford Jason Hoschouer, Springville, UT
B.S.Aero.&Astro.Eng.
Industrial and Systems Engineering

Marcy Lynn Howdysell, Columbus
B.A. (Albion College)
Physics

Xudong Hu, Mudanjiang, China
B.S.Civ.Eng. (Northern Jiaotong University, Beijing)
Civil Engineering

Chien-Chen Huang, Taipei, Taiwan, ROC
B.Bus.Adm., M.S. (National Cheng Kung University)
Industrial and Systems Engineering

Sihang Huang, Shantou, China
B.S. (Guangdong University of Technology)
Electrical and Computer Engineering

Shiyin Huo, Harbin, China
Bachelor's (Tsinghua University)
M.A.
Computer Science and Engineering
Commencement Convocation, December 11, 2011

Steve Thomas Jamison, Vandalia
Mechanical Engineering

Adam Kenneth Janke, Monticello, IN
B.S. (Purdue University)
Environment and Natural Resources

Wei Jiang, Tianmen, China
B.S. (Nankai University)
Computer Science and Engineering

Kimberly Johnson, Chesterland
B.S.Alld.Hlth.Prof.
Allied Medical Professions

Susan Eileen Johnson, Toledo
B.S. (University of Wisconsin-Madison)
Nursing

Sarah Elizabeth Johnston, Toronto
B.S. (University of Akron)
Anatomy

Tushar Shriram Kabre, Mumbai, India
B.S., M.S. (Ramnarain Ruia College)
Chemistry

Evan J. Katz, South Euclid
B.S.Elec.Eng. (Ohio University)
Electrical and Computer Engineering

Amrit Singh Khalsa, Dublin
B.S.Elec.Eng.
Electrical and Computer Engineering

James Paul Kirch, Columbus
B.S.Civ.Eng.
Civil Engineering

Scott David Kottman, Columbus
Food Science and Technology

Elyssa Belding Krivicich, Geneva, NY
B.A. (College of Wooster)
Geological Sciences

Jenna Perry Kuhls, Rolesville, NC
B.S. (North Carolina State University)
Allied Medical Professions

Nicholas Allen Kullman, Bexley
B.S.Weld.Eng.
Welding Engineering

Ashutosh Kumar, Purneua, India
Bachelor's (Indian Institute of Technology Roorkee)
Materials Science and Engineering

Kishore Kumaraswamy Sai, Bangalore, India
Bachelor's (Visvesvaraiah Technological University)
Electrical and Computer Engineering

Andrew Joseph Landgraf, Columbus
B.S.
Statistics

Maureen Connell Langlois, Toledo
B.A. (Washington University in Saint Louis)
Environmental Science

Kangche Lee, Taipei, Taiwan, ROC
B.S. (National Chengchi University)
Computer Science and Engineering

Jing Li, Hefei, China
Bachelor's (Hefei University of Technology)
Master's (University of Science and Technology of China)
Computer Science and Engineering

Likai Li, Jintan, China
B.S. (University of Science and Technology of China)
Industrial and Systems Engineering

Chung-Han Lin, Yonghe City, Taiwan, ROC
B.S., M.S. (Chang Gung University)
Electrical and Computer Engineering

Brandon J. Little, Felicity
B.S.Env.&Nat.Res.
Environmental Science

Chang Liu, Beijing, China
B.S. (Beihang University)
M.S.
Computer Science and Engineering

Kewei Lu, Luoyang, Henan, China
B.Engr. (Wuhan University of Technology)
Computer Science and Engineering

Kashyap Maduri, Hyderabad, India
Bachelor's (Birla Institute of Technology and Science)
Civil Engineering

Jill Gillespie Mangum, Columbus
B.S. (Brigham Young University)
Anatomy

Bharath Muralidhara Maravekere, Bangalore, India
Bachelor's (Visvesvaraih Technological University)
Electrical and Computer Engineering

Kyle D. Maurer, Lima
B.S.Civ.Eng. (Ohio Northern University)
Civil Engineering

Jonathan Robert Mazal, Columbus
B.A., B.S.Alld.Hlth.Prof.
Allied Medical Professions

Amanda R. Meddles, Milford Center
B.S.Agr.
Agricultural, Environmental and Development Economics

Sarah Shawky Mikhail, Lewis Center
B.Dent.Surgy. (Alexandria University)
Dentistry

Amanda K. Miller, Mansfield
B.S.Nurs. (University of Toledo)
Nursing

Nathaniel D. Miller, Mansfield
B.S.Agr.
Horticulture and Crop Science

Mark Robert Milliren, Chesterland
B.S.Mech.Eng. (Mercyhurst College)
Mechanical Engineering
Commencement Convocation, December 11, 2011

Nicholas Gaetano Minutillo, Thorofare, NJ
Bachelor's (Saint Joseph's University)
Physics

Alvin Isaac Morgan, West Chester
B.S.Elec.&Cptr.Eng.
Electrical and Computer Engineering

Hana H. B. Muftah, Al Badia, Libya
Bachelor's (Omar Almukhtar University)
Veterinary Preventive Medicine

Ajay Ashok Mulay, Ahmednagar, India
B.Engr. (University of Pune)
Computer Science and Engineering

Andrew R. Muntz, Huron
B.S.Agri.
Horticulture and Crop Science

Ashish Nagavaram, Hyderabad, India
B.S. (Jawaharlal Nehru Technological University)
Computer Science and Engineering

Kartik Natarajan, Delhi, India
Bachelor's (SASTRA University)
Computer Science and Engineering

Andrew Michael Nicol, Bexley
B.A.Honors (College of Wooster)
Mathematics

Tanya Marie Nocera, Butler, PA
B.S. (Allegheny College)
Biomedical Engineering

Raghuram Onli Srinivasan, Bangalore, India
B.Tech. (National Institutes of Technology)
Computer Science and Engineering

Lucia Consuelo Orantes, Guatemala City, Guatemala
B.S.Agri.Eng. (Escuela Agricola Panamericana el Zamorano)
Entomology

Lindsey Beth Osting, Dublin
B.S.Nurs. (Otterbein College)
Nursing

Ross Phillip Owen, Newark
B.S. (Miami University Oxford)
Mechanical Engineering

Claire Paisley-Jones, Wooster
B.A.Honors (College of Wooster)
Environmental Science

Alycia Marie Palmer, Galion
B.S. (Heidelberg College)
Chemistry

James Park, Columbus
B.S. (Konkuk University)
Electrical and Computer Engineering

Kenneth Bruce Patton, Columbus
B.A. (Swarthmore College)
Physics

Marilisa Pena, San Antonio, PR
B.S. (University of Puerto Rico)
Food Science and Technology

Cheng Peng, Wuhan, China
B.A. (Wuhan University)
Human Ecology

Di Peng, Shanghai, China
B.S.Aero.&Astro.Eng. (Beihang University)
Aeronautical and Astronautical Engineering

Adam K. Pilz, Uniontown
B.S. (University of Akron)
Agricultural, Environmental and Development Economics

Ruogu Qin, Tianjin, China
B.Mech.Eng. (Shanghai Jiao Tong University)
Biomedical Engineering; Statistics

Pravin Krishna Ramesh, Madurai, India
B.S. (Regional Engineering College - Bharathidasan University)
Mechanical Engineering

Carla Patricia Ramirez Garcia, Columbus
B.Bus.Adm. (Marshall University)
Agricultural, Environmental and Development Economics

Amy Jennifer Raplinger, Green Bay, WI
B.S. (University of Wisconsin - Eau Claire)
Physics

Rebecca Ross Reesman, Chelsea, MI
B.S. (Carnegie Mellon University)
Physics

Dale A. Rhoda, Worthington
B.S. (Northeastern University)
Master's (Duke University)
M.S., M.Appl.Stats
Public Health

Cara J. Riley, Columbus
B.A. (Georgetown University)
D.D.S. (Harvard University)
Dentistry

Loren Jackeline Rivera Vega, San Pedro Sula, Honduras
B.S. (Escuela Agricola Panamericana el Zamorano)
Entomology

Michael Kenneth Rupp, Columbus
B.S. (Purdue University)
Electrical and Computer Engineering

Jai Samuel Salzwedel, Seattle, WA
B.A. (Willamette University)
Physics

Vignesh Santhanagopalan, Chennai, India
B.Tech. (Anna University)
Computer Science and Engineering

Jeremiah Santos, Westerville
B.S.Elec.&Cptr.Eng.
Electrical and Computer Engineering

Jeremiah P. Schley, Proctorville
B.S.Eng.Phys.
Biomedical Engineering
Commencement Convocation, December 11, 2011

Jameson L. Scott, Sikeston, MO
B.S.
Geological Sciences

Siavash Sefidbakht, Hilliard
B.S. (Shiraz University)
M.S. (Sharif University of Technology)
Mechanical Engineering

Timothy Alan Sheldon, Uniontown
B.S.Civ.Eng.
Civil Engineering

Dekel Shlomo, Rehovot, Israel
B.S. (Ben-Gurion University of the Negev)
Civil Engineering

Agung Prasetyo Siantar, Surabaya, Indonesia
B.S.Bus Adm.
Agricultural, Environmental and Development Economics

Matthew Dane Sievert, Midlothian, VA
B.S., M.S. (Virginia Commonwealth University)
Physics

December 9, 2011 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND SIXTY-FIRST
MEETING OF THE BOARD OF TRUSTEES

Columbus, Ohio, December 9, 2011

The Board of Trustees met Friday, December 9, 2011, at The Ohio Union, Columbus, Ohio, pursuant to adjournment.

**    **    **
December 9, 2011 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, December 9, 2011 at 1:07 pm.

Mr. Wexner:

Good afternoon, I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene today at approximately 3:30 pm.

I hereby move that the Board recess into Executive Session to consider personnel matters related to the appointment and compensation of a public employee; matters required to be kept confidential by Federal and State Statutes; and consultation with legal counsel regarding pending or imminent litigation.

***

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, December 9, 2011 at 3:18 pm.

Mr. Wexner:

So that we are able to conduct the business of our meeting in an orderly fashion, if you would please shut off the ringers on cell phones or iPads or whatever might make noise, it would be helpful and that will enable us to have the meeting with the proper decorum and conduct the business at hand.

***

PRESIDENT'S REPORT

President Gee:

Thank you. We have nothing but good news as a matter of fact, and I do intend on having my remarks remain very short.

As you know, finals week is over, actually it is over just about right now, and the campus has become a very quiet place as it always does over the holidays. But let me remind you that Sunday is commencement and we will be alive again with 2,332 new Ohio State graduates and tens of thousands of their proud parents, families, and friends. As I calculate that now, that makes it about 520,000 living alumni. If you think about that, that is an extraordinary number of people all the way around the world. As always, I look forward to shaking their hands and taking photos with them and having a great time.

I want to note just a couple of additional things. The first is that Ohio State has yet again led the nation. This is a very important issue that we led the nation again this year in the number of faculty elected as Fellows of the American Association for the Advancement of Science, one of the two most important organizations in this country. Twenty of our faculty has just been elected to that prestigious group. We have a most remarkable track record as well for the past decade. The University has ranked first or second each year
in the number of scholars chosen for this award. They cross a broad range of disciplines from chemistry to astronomy to history to economics to physics, linguistics, mechanical engineering, neuroscience and endocrinology among other fields. One more fact on this topic is that I mentioned Ohio State ranked first with twenty faculty members. Rounding out the top three were Vanderbilt University with fourteen and the University of Michigan with thirteen. All of that testifies, of course, to Ohio State’s immensely powerful force, so I am very proud of those faculty members just selected.

The other topic I want to comment on is Athletics, and I will do so in a much larger context. Earlier this week it was announced that sixty-six Ohio State student athletes have been named to the Academic All-Big Ten Conference Team; the most of any university in the Big Ten, I will note. We congratulate those students who come from virtually every intercollegiate sports area of the University. Last week our men’s basketball team against Duke had thousands of us up late, as you all know, long past our bed times, and it was well worth it. Our team played, by the way, like champions and the final note is that Coach Matta, on his subsequent game, crossed his three hundredth career win as a head coach; very young but very able.

As the world knows, the University has hired a new football coach. Ohio State alumnus Urban Meyer has joined our staff and we welcome him home. In the days following the announcement, Governor Kasich was asked about it and the video clip of his remarks was sent around campus. The governor said glowing things about Coach Meyer and about Coach Fickell. Governor Kasich also said this about the University, and I quote, “It has a great football and great basketball team, but do-not-mistake, Ohio State is building world class academic programs and is very exciting.” Now he is absolutely right, of course, but I want to just note this publicly that we are deeply fortunate to have a governor that recognizes the excellence of our academic programs and their incalculable value, and I hope that each and every one of us will tell him how much we appreciate that comment.

Before I conclude my remarks, I want to publicly thank and congratulate Luke Fickell, who has demonstrated great passion and true leadership. I am pleased that he will continue to be part of our coaching staff. Coach Fickell and his team are focused on one goal: beating the University of Florida in the Gator Bowl. I am counting down the days to January second, and I am looking forward to seeing an enormous crowd of folks at that game in Jacksonville. With that, Mr. Chairman, I will close by saying this is a season to be especially mindful of our blessings. I think we all are, and I am particularly mindful of the opportunities that you give me each and every day to lead Ohio State, and I am grateful for them.

Mr. Wexner:

Thank you. Me too! After those comments it seems a little awkward to shift to Audit and Compliance, but maybe you can relate them to the healthy state of our union.

***

COMMITTEE REPORTS

Mr. Fisher:

Thank you, Mr. Chairman. The Audit and Compliance Committee did meet recently here along with some guest Trustees who attended our meeting. Number one on the agenda is item six on the consent agenda. The committee, after further dialogue with PricewaterhouseCoopers, did move to accept and file the audit for 2010-11. I think you have a copy of that at your place. We also had an update from Protiviti relative to our ongoing work on reviewing compliance and a program of compliance for the future. Everything there is on time and you will have a very full report at the February Board meeting.
December 9, 2011 meeting, Board of Trustees

Mr. Wexner:

Questions? I talked with Bob Schottenstein about the progress that our advisors are making and it is pretty exciting stuff. I think they are pleasantly pleased with the things we are doing and the opportunity to be hopefully best in the world and set new standards. I do not know if you want to amplify.

Mr. Fisher:

Plus, Mr. Chairman, I would again report that they are continually impressed with both the cooperation and input with all personnel across campus relative to the various entities and all the compliance components that we have to deal with and are very, very pleased with the cooperation and engagement. We are looking forward to a good report in February.

***

CONSENT AGENDA

ESTABLISHMENT OF A BACHELOR OF SCIENCE IN PUBLIC HEALTH DEGREE PROGRAM

Resolution No. 2012-42

Synopsis: Approval of the establishment of a Bachelor of Science in Public Health degree program is proposed.

WHEREAS Universities across the country have developed or are developing undergraduate degree programs in public health, in part in response to an emerging need and demand for highly educated and trained public health professionals; and

WHEREAS this will be the first undergraduate degree offered by the College of Public Health that aligns with broad University directions in interdisciplinary cooperation and internationalization of the curricula; and aligns with directions recommended by the Association of Schools of Public Health; and

WHEREAS the degree program has well-defined educational goals and objectives for both its public health core components, as well as for its two specializations, Public Health Sociology and Environmental Public Health; and a well-developed plan for implementation and oversight; and

WHEREAS the proposal was developed with and has the strong endorsement of the College of Arts and Sciences; and

WHEREAS the proposal was reviewed by the Council on Academic Affairs, and approved by the University Senate at its meeting on November 17, 2011:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Bachelor of Science in Public Health degree program is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

DEPARTMENT NAME CHANGE FROM DEPARTMENT OF HUMAN AND COMMUNITY RESOURCE DEVELOPMENT TO THE DEPARTMENT OF AGRICULTURAL COMMUNICATION, EDUCATION, AND LEADERSHIP

Resolution No. 2012-43
Synopsis: Approval to change the department name of Human and Community Resource Development to the Department of Agricultural Communication, Education, and Leadership is proposed.

WHEREAS the Department of Human and Community Resource Development has existed since 1917 and offered curricula in agricultural education, or agricultural and extension education; since 1984 has offered an undergraduate major in agricultural communication; and in 2010 developed an interdisciplinary minor in leadership studies; and

WHEREAS in 2008-09 the Dean of the College of Food, Agricultural, and Environmental Sciences began a review of the Department, and the faculty in Rural Sociology moved to the School of Environment and Natural Resources, and a select committee was established to determine how the remainder of the Department should be configured; and

WHEREAS after a review of names at peer institutions, the proposed name was chosen and a strategic plan for the Department was developed with academic programs aligned with the new name for semester conversion; and

WHEREAS use of the term "leadership" in the Department name does not preclude other academic units from using it for current or future unit or program names; and

WHEREAS the proposal has the support of the Department faculty, and of the College of Food, Agricultural, and Environmental Sciences; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on November 17, 2011:

NOW THEREFORE

BE IT RESOLVED, That the name of the Department of Human and Community Resource Development be changed to the Department of Agricultural Communication, Education, and Leadership, is hereby approved effective immediately.

***

DEPARTMENT NAME CHANGE FROM DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING AND GEODETIC SCIENCE TO THE DEPARTMENT OF CIVIL, ENVIRONMENTAL AND GEODETIC ENGINEERING

Resolution No. 2012-44

Synopsis: Approval to change the department name of Civil and Environmental Engineering and Geodetic Science to the Department of Civil, Environmental and Geodetic Engineering is proposed.

WHEREAS the Department of Civil and Environmental Engineering and Geodetic Science had administered two distinct programs, Civil Engineering and Geodetic Science, since 1994, but in 2004 half of the faculty in Geodetic Science transferred to the School of Earth Sciences; and

WHEREAS in 2009, a Memorandum of Understanding was approved that moved the administration of the Geodetic Science and Surveying Graduate Program to the School of Earth Sciences, and then in 2010, a specialization in Geoinformation and Geodetic Engineering was developed for the Civil Engineering graduate program, and these programs align with the focus areas of the faculty in the two academic units; and

WHEREAS no changes are requested for the degree programs administered by the Department; and
WHEREAS the proposal has the support of the Department faculty, the College of Engineering, and the School of Earth Sciences; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on November 17, 2011:

NOW THEREFORE

BE IT RESOLVED, That the name of the Department of Civil and Environmental Engineering and Geodetic Science be changed to the Department of Civil, Environmental and Geodetic Engineering, is hereby approved effective immediately.

***

SCHOOL NAME CHANGE FROM SCHOOL OF ALLIED MEDICAL PROFESSIONS TO THE SCHOOL OF HEALTH AND REHABILITATION SCIENCES; AND TO CHANGE THE DEGREE PROGRAM NAMES TO BACHELOR OF SCIENCE IN HEALTH AND REHABILITATION SCIENCES, AND MASTER OF SCIENCE IN HEALTH AND REHABILITATION SCIENCES

Resolution No. 2012-45

Synopsis: Approval to change the school name of Allied Medical Professions to the School of Health and Rehabilitation Sciences, and to change the program names to Bachelor of Science in Health and Rehabilitation Sciences, and Master of Science in Health and Rehabilitation Science is proposed.

WHEREAS the School of Allied Medical Professions was established in 1966 with its current name, to provide baccalaureate degrees in allied medical professions and reflect its administrative location within the College of Medicine; but the School has expanded its undergraduate programs to include some that do not lead directly to a “profession” and has implemented M.S. and Ph.D. programs for which the term “sciences” better describe program content and outcomes; and

WHEREAS a review of national trends reveal that many benchmark institutions have adopted this new title, and the School can become more competitive with this name; and

WHEREAS the School requests that the names of its Bachelor of Science and Master of Science degree names be changed to align with this title, and the Graduate School has supported the latter; and

WHEREAS use of the term “health” in the School title does not preclude other academic units from using it for current or future unit or program names; and

WHEREAS the proposal has the support of the School faculty and the College of Medicine, and there were no formal objections to the proposal from any other college; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on November 17, 2011:

NOW THEREFORE

BE IT RESOLVED, That the name change from the School of Allied Medical Professions to the School of Health and Rehabilitation Sciences; and to change the degree program names to Bachelor of Science in Health and Rehabilitation Sciences and Master of Science in Health and Rehabilitation Sciences, is hereby approved effective immediately.

***
December 9, 2011 meeting, Board of Trustees

ACCEPTANCE OF THE REPORT OF AUDIT FOR 2010-2011
Resolution No. 2012-46

Synopsis: The report of the audit of the financial statements for The Ohio State University for 2010-2011 conducted by PricewaterhouseCoopers LLP is recommended for acceptance.

WHEREAS with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with PricewaterhouseCoopers LLP in 2011 for an annual audit of the University for fiscal years 2010-2011 through 2014-2015; and

WHEREAS the PricewaterhouseCoopers LLP audit of the University for 2010-2011, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, and certain constructive service comments have been discussed with the Audit Committee; and appropriate procedures and responses are being developed as a result of these comments:

NOW THEREFORE

BE IT RESOLVED, That the report of the PricewaterhouseCoopers LLP audit for The Ohio State University for 2010-2011, including the report on the audit of the University's financial statements and the summary of constructive service comments to management, be accepted.

***

PRESIDENT’S EVALUATION
Resolution No. 2012-47

Dr. Reid:

First of all, there is a formal written evaluation which will become part of the minutes. It is an extensive evaluation and I will spare the Board from reading every word of it, but I will summarize the key points.

Each year, of course, the President’s performance is evaluated and that is typical of most colleges and universities. What is not typical, but is more of a best practice, is to include input from the Board as well as individuals who work closely with the President, so that is what Ohio State decided to do and actually did.

The process of the evaluation actually began with President Gee submitting a report of his own achievements according to the six objectives that he had, and then we had our University consultant, Dr. Richard Chait from Harvard, put together a series of questions that would be asked among the Board members as well as individuals who work closely with the President. There were seven University executives outside the Board of Trustees who were queried about his performance. With that, Dr. Chait put together a preliminary report. We brought that to President Gee and certainly discussed the implications of that with his full feedback. Then it was discussed with the Board one more time and now today is the finalization of that process, so that is what this report will actually represent.

What I would like to do is just touch on a few of the things that were the most salient points from his review. I would like to start with just the overall evaluation of President Gee. It was quite positive and the evaluations ranged from strong to very strong with regards to performance. The breadth and complexity in demands of the President’s job were recognized as were the many of his noteworthy accomplishments. Those included recruiting top talent, providing exceptional educational opportunities for students,
increasing the level of research, constant advocacy for the University, and solidified relationships with the State.

There are certain aspects of the President’s performance that the raters believed left some room for improvement. Those were related to strategic planning, enhancing the President’s leadership team and making them more functional as a team, enhanced communications both internally and externally, and the NCAA violations in the football program. With regard to the later, in particular, this diminished the focus on the University’s many outstanding programs and contributions. However, setting that aside, the University’s overall performance in other respects has been excellent under President Gee’s leadership.

So just some of the accomplishments, I would like to read as well as some of the areas for improvement. Again, he was deemed a visionary, a big picture person, one who is willing to take big bets, an unbelievable talent, a strong intellect with charisma and vision. That led to accomplishments among those six items that he focused upon including forging One University, putting students first, focus on faculty success, recasting the research agenda, committing to communities, and simplifying University systems and structures.

Under One University he developed a One University master framework which was excellent in terms of guiding the University toward thinking holistically about strategic and financial items. He created a new University advancement model which has resulted in the strategic, University-wide integration and coordination of alumni relations, communications and marketing. With regard to students first, he has continued to oversee the transition to semesters, he has laid groundwork for a new housing plan, there are new enrollment records for academic quality, and also there is a great partnership with Columbus State Community College which has been established.

Regarding faculty and talent and culture, there are notable accomplishments here as well. He has brought on a number of important hires including new deans in engineering, medicine, nursing, and dentistry. He has also recruited Brian Cummings to greatly accelerate the University’s technology and commercialization efforts. He has forged a partnership with Colorado State University, which will lead to strengthening of the Institute for Energy and Environment and also has brought on other leading minds in neurology, oncology, history, and English. Research prominence has certainly increased with his leadership of the technology commercialization office functions which now operates as cradle to grave.

In terms of outreach and collaboration, many things are notable, including strong partnerships with the new governor as I mentioned and, as usual, he has travelled to, in this case, over half of the eighty-eight counties in Ohio. Pelotonia, as we know, is another success and then, in terms of operating and financial soundness and simplicity, many notable accomplishments were there, including securing the largest philanthropic gift in University history, which was a $100 million pledge from our Board Chairman and his wife, Abigail. In addition to that, the Medical Center, which was a one billion dollar investment on the University’s end, has been kept on track and on time and on budget.

Those are just a summary of the many, many accomplishments of President Gee over this last year. In addition, like any performance review, in addition to citing the accomplishments, there is also constructive feedback. The constructive feedback for President Gee falls in four areas. First is strategic planning. To that end, there was a need to get a strategic plan that allowed the University to align itself around a limited number of strategic imperatives and that took a little bit longer than had been anticipated. The second area is in the President’s senior leadership team to get these talented, individual leaders to function as a highly performing team, not just as individuals. Third, is in the area of internal and external communications to increase transparency and consistency in communication with leadership, and also with the University’s external communications to key parties. Then last, or fourth, is the NCAA matter with the football
team. All Board members and other reviewers certainly addressed the recent experiences with the NCAA. During that crisis, the President did exhibit leadership by fully cooperating with every aspect of the investigation, utilizing self-imposed sanctions, and creating a lasting process of greater oversight accountability. On the over hand, there was no question that mistakes were made by the President, the Athletic Director, and others. As a result of these issues, the University suffered reputational damage and shaking confidence among key stakeholders in the public. The issue also distorted the image and reputation of the University and diminished focus on its many outstanding programs.

The process moving forward has already started and that includes a focus on six key areas that President Gee brought to the Board and that includes resource generation including revenue production as well as expense reduction, the implementation of a new advancement plan, developing and implementing a plan for an enhanced undergraduate student experience, developing and approving and effectuating a University talent strategy, developing academic initiatives that are aligned with three discovery areas, and fully achieving the Medical Center’s long-range plan. Those have already been put into place and measures around those are already occurring.

Now, I would like to talk about compensation. In determining the appropriate compensation for the President for the present year, it is important to weigh both his performance from the past year along with other important considerations, including the President’s current ranking with respect to the market for other top university presidents, the current economic condition of the University, the state of Ohio in education, and the compensation increases recently allocated to University faculty and staff. Furthermore, the Board utilizes expertise of an outside compensation professional to conduct a comprehensive, reasonableness assessment of all aspects of President Gee’s compensation.

The faculty and staff of the University recently received an aggregate salary increase of 2%. We recommend that President Gee receive a similar salary increase of 2%, which would amount to $16,363 over his current salary of $818,167.

President Gee’s compensation also includes performance-based aspects so the performance-based compensation arrangement established with the President upon his return to the University in 2007 provides for a 35% payment for achieving target level performance, up to a 40% maximum for exceeding target performance, and up to an additional 10% for achievement of important multiyear goals. The President and this Board share a high set of expectations for performance. We recommend that President Gee receive performance-based compensation amounting to $143,179, which represents a payment equivalent to 17.5% of his base salary. Consistent with this Board’s prior commitment, President Gee’s bonus will not be paid by Ohio tax payers or student tuition dollars, but rather through the academic excellence fund that was created to assist with the retention and recruitment of the highest caliber academic and administrative leaders and is funded by private giving.

Overall, in conclusion, Ohio State University is an outstanding institution because of President Gee’s leadership. He is truly a visionary leader who adeptly handles the breadth, complexity, and demands of the job; however, this challenge is not his alone to face. We, as a Board, will continue to partner with President Gee and his leadership team to address the most significant challenges and strategic opportunities that this University faces. I am pleased to bring these recommendations forward for the Board’s consideration and I invite your discussion. When we have reached a decision, a motion will be required for approval for the President’s compensation actions.

Would any colleagues on the Compensation and Talent Development Working Group like to add any additional comments? Mr. Chairman, I ask for a motion to accept the report and recommendations of the working group.
December 9, 2011 meeting, Board of Trustees

(See Appendix XIX for background information, page 339.)

Mr. Wexner:

Is there any discussion about the motion? Does anyone want to comment? I appreciate the thoroughness of it and your work, and I think the Board together shares the good and the bad, which as it happens, I think it was a very good year. We got substantially better and got substantially better through Gordon’s leadership, and I think the breadth of the evaluation being balanced, in terms of being open and transparent, recognizing the issues that the University confronted, I think is very important because I think we have to model that behavior amongst ourselves and clearly for the whole University and the public to which we are responsible, so I appreciate the thoroughness and the dignity of the report.

Dr. Reid:

Thank you, Mr. Chair. I would also like to say on going forward, President Gee is already taking measures around those comments and pulling his team together and other things, so we are on a good track.

Mr. Wexner:

Any other comments, questions? Alan.

Mr. Brass:

I would just like to thank Janet for a wonderful job chairing the Compensation and Talent Working Group. We have many meetings, but with her expertise and her background, she has done a wonderful job this year. I would like to echo something and that is that the success we have is due to the partnership between President Gee and the executive staff and this Board and that needs to just be repeated over and over again because it is a great partnership and we thank you.

Upon motion of Mr. Wexner, seconded by Dr. Wadsworth, the Board of Trustees adopted the foregoing motion by a unanimous show of hands.

***

Mr. Wexner:

What I would like to do is go around the room, we always have good luck starting at that end, and we had a brief meeting today, but this is the end of the calendar year, and I think it was a very good year. I think we got better. The University got better. A lot of things got better.

Ms. Heidersbach:

Like I said last meeting, I think it is the point of convergence, I made the allusion what I learned in class where everything is just sort of coming together, and I think that is reflected again in this meeting, just coming together of leadership, coming together of talent. I think the Board and President Gee and the leaders of the University are doing a really good job of moving the University forward.

Mr. Price:

Given that this is my first meeting as a new Charter Trustee, I am very pleased to be here. I am very appreciative of the orientation that I am still undergoing, and I would like to thank those individuals for their time and effort in trying to get me up to speed. I look forward to serving as we move forward here. I think it is a very challenging period for the
December 9, 2011 meeting, Board of Trustees

University. Under President Gee’s leadership, I think we have some really great things that we can continue to achieve going forward here. In closing, I would like to wish everyone happy holidays and I look forward to seeing you in a new year.

Mr. Smucker:

I just would like to add to what has been said. When you go through a review like this, it crystallizes the amount of accomplishments that have been made, and I think that this is a time where we really rejoice in that. Certainly, we all have troubles and problems to work on, but clearly, what we have identified here in this process is clarity around excellence and eminence that this organization has and I think we can never take that for granted.

Again, I would like to compliment this Board and particularly President Gee for his leadership and the team that you have put together will carry us forward many, many years. Thank you.

Dr. Wadsworth:

It is about a year for me being a Trustee. It has been a wonderful year. I have made a lot of new friends and great partnerships. I think the University has made significant advances this year. It truly has. We have also generated and are generating significant financial assets for the future. I think that is really important because it is a complicated, tough world out there and we need to be able to invest in the future, and we are creating the opportunity under President Gee’s leadership to do that.

Dr. Reid:

I would like to just take a minute to commend President Gee. Leaders are always called so, but you never really see what they are made of until there is a crisis, and we certainly went through a crisis this last year. With that being said, we had so many great accomplishments and I want to thank you for your leadership in regard to that and also the senior team that works around you, compliments to them.

Judge Marbley:

I would like to echo what has been said. This was a year not without both tumult and travail and what I would say is, but for your leadership and that of your senior team, we would not continue to thrive as we did. Because during all of this troubled time, what seems to have been lost in the public discussion, is that we once again got in a top class. This class that came in eclipsed the class that preceded it and that has happened for the tenth year in a row. At the end of the day, we are a great academic institution, rife with talent, and it is a shame that that was not the public focus.

I want to commend you, President Gee, on your leadership, because it is easy to lead in times of prosperity. That is the easy part. It is far more difficult to lead in troubled times, and you did that. I want to also add one note about our Athletic Director who was instrumental in bringing in Urban Meyer and getting this cleared up. Because what he did was led us through these troubled times. We did have some problems, and he led us through those problems, and he led us through those problems while dealing with some really tough, personal issues such as the death of his mother and that is something that also needs to be commented upon and he needs to be complimented for his leadership.

There was a real study in leadership, and I think you and your team did a wonderful job all year. Thank you.
December 9, 2011 meeting, Board of Trustees

Mr. Fisher:

Well, Gordon, I would like to say it is a joy to work with you, and I am glad you are our president. As I look back, I heard the media kind of characterize, I think either today or yesterday, that this was one year of a lot of events. I think this Board has dealt with the good, and we want to make that better; and we have dealt with the bad, and we are going to make that better. I feel good about the work of the Board in that regard.

Mr. O'Dell:

I would like to say that it has been a very challenging year. I think we have made great progress. It was a challenging year at the University, for higher education nationwide, for the state and for the country, but we have made a lot of progress. President Gee, with your leadership and your team’s leadership, we have seen our way through this difficult year, and I look forward to 2012 with a great deal of enthusiasm and confidence.

Mr. Mitchell:

This year we still found a way to more forward, and I think that is just a testament to you, President Gee, and to your leadership team. As always, it is easy to get caught up in the smaller things, but I think, as a University, when you look one year, last year, to this year on the same date, we have move forward in great ways and we are poised to do so in the future as well.

Mr. Jurgensen

Yesterday I had an opportunity by happenstance to have a meeting with Gordon on another matter and to sort of repeat something that he and I talked about yesterday, which is appropriate, I think, at this time of the year, which is a very reflective time. The point is that the conduct of our personal lives and the conduct of our life in institutions in never linear. Nobody gets to great in a straight line. Most of you know that a lot of my pastime is devoted to the game of golf, and Bobby Jones probably said it best. He said “I never learned a thing from a match I won.” That is what I think about this year. So what is important is what we learned from all the things that did not go the way we had hoped they would go. I think it is too early to say much about that, but one thing for sure is certainly that all of us are sensitized to the things that did not go the way we hoped. Sometimes you get do-overs in life and sometimes you do not, and you have to live with the things you say and the decisions you make. We are going to do that. I think actually there is a silver lining in all of this. I think there is a silver lining in the football situation. I think there is a silver lining in the way we handled it, and I think we can become great.

Mrs. Kass:

I would just like to say difficult times help us get stronger and better and reflection is good, as we all know. We have been doing a lot of that. I think this time of year is a time for gratefulness, and I know I am grateful for all that we have here at Ohio State. I am grateful for our President, our Chairman and the Board and the way we operate. I am grateful for that and all the wonderful people that we have at this institution. We have great opportunities and I look very forward to continuing our work as the new year begins.

Mr. Brass:

All of us believe very strongly in family. Our Ohio State University family just happens to be a very large one, and I think we feel the same. It is a very complex organization. It has got a lot of tentacles out all over the place. It is one of the most difficult things to manage, and when you have a crisis or you have a downturn or you have complexity, you find out what our leaders all about, and our students and our faculty and our mission
December 9, 2011 meeting, Board of Trustees

are much better off because of the leader that we have. I also would like to wish everyone a happy holiday.

Mr. Hicks:

Well, it has been a very interesting year as I think everybody has reflected upon, but for one issue that obviously occupied a lot of our time and attention and the attention of other folks. When you look at our academic standing, when you look at the success in our Medical Center, when you look at the new advancement model, when you look at the unbelievably generous gift of you and Ms. Wexner, Mr. Chairman, this has been an absolutely remarkable year and a positive year but for one exception possibly. I do think this is a time where we kind of take stock of our blessings and we are all blessed, I think, to serve on this Board. It is truly an honor to do so. I think that the State of Ohio is blessed to have an institution like The Ohio State University here. But for Ohio State, the State of Ohio will not be greater in the future. Personally I am blessed to have Gordon Gee as my friend. Gordon Gee is the leader of the institution I am so proud to be an alumni of, so thank you, Mr. Chairman.

Mr. Shumate:

There is not really anything special that I could add. I just would make the statement that I continue to be truly impressed with our faculty, our students, and our staff. It is really an honor to be part of the Ohio State family.

Dr. Horn:

I have only been at this table for about six months, but I cannot help but be impressed by the passion and energy and seriousness with which everyone at this table takes their work for this University. I have also been at the University for about twenty-one years. Gordon and I came at the same time. For whatever reason, he did not want to be President all twenty-one years, so he has come and gone, but the other thing that has really been impressive is how far this University has come in that time, whether you look at the students that come in, the faculty that we have, the curriculum programs, the research agenda we have, the national and international reputation that we have, you have got to be impressed by the distance that we have covered and excited about the distance that we still have ahead of us.

President Gee:

Thank you very much. First of all, let me thank Janet personally as well as professionally. I think I am very blessed to have Janet as my friend and also as a leader of this effort. We decided that what we were going to try to do is we are going to try to hold ourselves at a very high standard as an institution, and it really has to start with you holding yourselves to a higher standard and, Mr. Chairman, that is where I congratulate you. I think your leadership has been absolutely superb, beyond superb. I think that you have held our feet to the fire, sometimes painfully so, and I say that with great affection. The Board has held itself to a very high standard so; therefore, we have nothing but to hold ourselves to a very high standard. Janet, through this review process, which I hope will not take so long next time only because of the fact that we had to do it the first time around to get it really right, I just thank you and I thank members of the working group because they all did a wonderful job and gave me tremendous feedback for which I am better.

The second thing, Mr. Chairman, that I will note is the fact that someone wrote something for me the other day and noted that I have been university president for nearly half of my life and that kind of struck me. That made me feel young and old at the same time. That made me feel really energetic and at the same time challenged. But I can say this very honestly that probably in those thirty-two years, I have never had a year that has been more empowering and more humbling and I think that that is an important issue.
From the perspective of the University, if we look at it in a bifurcated way, this University is on a trajectory that very few institutions are on. I can say that unequivocally just by the numbers, the quality of our faculty, the quality of our staff, the quality of what we are doing, the kind of tremendous support we are seeing privately, the $100 million gift that we competed against everyone in the world for for our cancer center, the activity that is going on around the world on behalf of Ohio State, the fact that we have leaped ourselves into the front ranks in terms of international and globalization efforts. I could go on and on, and the fact that we have attracted some of the most talented people in the country if not in the world to come and join us both as faculty and as leaders, and the administrative team, the folks that work with me every day, all are superb, more than superb, they are really quite remarkable.

On the other side, the humbling fact is the fact that the University is bigger than an individual. It is bigger than any one individual, and when that comes home to rest with you when you are in my position, it is very painful. In my own instance, we made tremendous mistakes. We stumbled out of the blocks on this NCAA thing about as badly as you can, and I particularly stumbled out of the blocks. I am not proud of that. We made some initial mistakes. What I am proud of, though, is instead of panicking, we went to the drawing board. We have a Chairman that said, “I don’t pick football coaches. You fix the problem.” We had members of our Board who rallied around and said “we are going to get this thing right, and we are going to join together and get this thing right.” The net result is the fact that we stumbled at the beginning and we ended in a most remarkably magnificent way. The NCAA has yet to render its end result, but I feel very confident that we have done everything that we possibly can. We strengthened ourselves. We strengthened our ability to make decisions. We have worked more closely together. We have found ways to turn adversity into opportunity. I think that is a character of greatness on the part of the institution.

I stand before you today thankful for the support that I receive from each and every one of you, the friendship that I share, and with real humility for the opportunity that you continue to give me.

Mr. Wexner:

Thank you. I appreciate our friendship. Gordon and I have been together for twenty-one or twenty-two years and I look at my calendar for precision, so we are old and long and good friends.

In listening to everyone’s comments, I was thinking that in families, sometimes something bad happens in families or teams crumble. That is just how life is. My dad must be smiling because he always used to say, “well, you can get bitter or you can get better,” and I think, collectively, we got better in virtually every part of the University, the student experience, the quality of academics, faculty, thinking, and planning. We all do learn by our errors, and I am trying to get better at this. My kids say that I must be very tough because they remind me that I am not easy as a dad, but I am trying to get better. I know that we are trying to get better. I know that we have gotten better, and we have momentum. So I look at the 2011 year for the University, and it was a “W” clearly. I look forward to 2012 with optimism and excitement, knowing that we have momentum and it is just great. Happy New Year, and just a happy and healthy holiday. Thank you.

Thereupon the Board adjourned to meet Friday, February 10, 2012, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner
Chairman

David G. Horn
Secretary
December 9, 2011 meeting, Board of Trustees

The Ohio State University
Presidential Evaluation and Compensation
Report to the Board of Trustees

Board Meeting of December 9, 2011
Dr. Janet Reid, Chair, Board Compensation and Talent Development Working Group

INTRODUCTION

Each year, the Board of Trustees conducts an annual review of the University President’s performance over the previous year. Within the last decade, this has become an accepted part of governance oversight for many universities and is advocated by the Association of Governing Boards of Universities and Colleges (AGB). An AGB survey (2008) shows that 90% of the queried institutions conduct an annual assessment of presidential performance. While the practice of presidential assessment is prevalent, a comprehensive assessment, defined as one that takes into account the input of the Board of Directors and staff or other stakeholders is more rare. For the Presidential review covering the academic year of autumn, 2010 through summer, 2011, Ohio State expanded the body of reviewers to include Trustees and a cross section of leaders who work closely with the President.

Although an annual evaluation may be retrospective in nature, it is fundamentally a prospective tool. That is why this evaluation of the President’s past year performance also includes discussion of what will be necessary for achieving the University’s mission and vision over the next few years. The President and the Board are fully aligned in identifying and achieving the most significant imperatives guiding this University for the coming years.

PROCESS

The Board fully recognizes the importance of strong leadership in determining the success of the University. It is vital to our success that we appropriately value the experience and expertise of our University leadership.

With this in mind, the process that was utilized in the assessment of the President is described below:

First, President Gee submitted his report of achievements, including a scorecard of priority items, based on the strategic goals and milestones established last year for fiscal year 2011, namely July 2010, June 2011.

Then, the Compensation and Talent Development Working Group engaged the University’s Board consultant, Dr. Richard Chait from Harvard University, to interview 18 trustees and 7 University executives who work closely with the President regarding the President’s performance over the past year. These interviews had three purposes. The first was to assess President Gee’s performance during the past year and to provide feedback to him. The second was to give the President guidance regarding the University’s strategic goals and associated measures for the coming year and those immediately following. The third was to enable the Board to be an even more valuable partner to the President and his senior leadership team.

I, as Chair of the Compensation and Talent Development Working Group, together with other members of the Working Group, met with Dr. Gee on a number of occasions to discuss the common themes that emerged through the course of these interviews. The Board then met collectively to discuss the content of the evaluation and the President’s compensation based upon his performance from the past year.
December 9, 2011 meeting, Board of Trustees

OVERALL SUMMARY OF THE PRESIDENT’S EVALUATION

President Gee’s overall performance evaluation was quite positive with summary evaluations that ranged from strong to very strong. The breadth, complexity and demands of the President’s job were recognized, as were his very many noteworthy accomplishments. Examples included:

- The recruitment of top talent;
- Providing exceptional educational opportunities for students;
- Increasing the level of research and teaching output;
- Constant advocacy for the University; and
- Solidified relations with the State.

There were certain aspects of the President’s performance where we believed there was room for improvement. Those related to strategic planning, enhancement of the President’s leadership team, enhanced communications (internally and externally), and NCAA violations and the football program.

The NCAA matter, in particular, diminished the focus upon the University’s many outstanding programs and contributions. However, the University’s overall performance in other respects has been excellent under Dr. Gee’s leadership.

EVALUATION DETAILS

I. OVERALL FEEDBACK AND KEY ACCOMPLISHMENTS

Overall, the Board’s evaluation of President Gee was quite positive with assessments that ranged from strong to very strong. He was described as “visionary,” a person with an unusual capacity to see the “big picture” and “take big bets.” Several Trustees and senior leaders commended the President’s “unbelievable talent,” “strong intellect,” “charisma,” and “vision.”

He was cited as the University’s greatest cheerleader and strongest supporter, and he is recognized as having built very strong relationships with faculty, students, alumni and friends of the University.

Details of additional accomplishments are cited in the “Excellence to Eminence” Priorities and Accomplishments section below.

II. “EXCELLENCE TO EMINENCE” PRIORITIES AND KEY ACCOMPLISHMENTS

Over the past year there have been a number of meaningful achievements and significant progress made toward fulfilling the President’s six strategic priorities that have guided the University from “Excellence to Eminence” since President Gee’s return to the University. These priorities are:

1. Forge One Ohio State University
2. Put Students First
3. Focus on Faculty Success
4. Recast Our Research Agenda
5. Commit to Our Communities
6. Simplify University Systems and Structures

I would like to briefly highlight a sampling of President Gee’s most significant achievements over the past year in each of these areas.

One University

The President focused upon creating One University where everyone is driven and aligned by a shared, trans-institutional common vision.
Notable Accomplishments:

- The One University Master Plan Framework has guided the University toward thinking holistically about strategic, financial, and physical planning issues, ensuring that the academic mission drives all activities in an integrated fashion.

- The new University advancement model has resulted in the strategic, University-wide integration and coordination of alumni relations, communications, marketing, and development functions. This will better foster positive relations and opportunities for engagement with all of the University’s key stakeholders. Aspirational goals will be better aligned with available resources, laying the groundwork for a comprehensive plan designed to move Ohio State forward.

Students First

The President made it a priority to put “Students First.”

Notable Accomplishments:

- He has continued to oversee the smooth transition from quarters to semesters that facilitate greater opportunities for students.

- He has laid the groundwork for a new housing plan that will foster greater student experiences and learning outcomes.

- New enrollment records for academic quality and size have been achieved. Additionally, there has been an increased emphasis on the recruitment of international students.

- He executed a new partnership with Columbus State Community College, creating the Preferred Pathway Program, which will guarantee access to an Ohio State degree for qualified students transferring from Columbus State.

- He led the restructuring and renaming of the Office of Minority Affairs to the Office of Diversity and Inclusion, paving the way for Ohio State to step to the forefront of national and international conversations about and actions toward increasing diversity and inclusion.

Faculty and Staff Talent and Culture

The President has focused on assembling a talented leadership team who recruit, support, and retain a world-class faculty and staff who are national leaders in their fields. The Board and others cited this accomplishment, in particular, as being one that directly enhances the quality of an Ohio State education and results in major contributions to multiple fields of research.

Notable Accomplishments:

- In the past year, he brought on board a number of important hires, including new deans in the Colleges of Engineering, Medicine, Nursing, and Dentistry.

- The President successfully recruited Brian Cummings to greatly accelerate the University’s Technology Commercialization efforts.

- In a unique partnership with Colorado State University, Dr. Gee hired Dr. Ronald Sega to lead the Institute for Energy and the Environment and the President and Provost’s Council on Sustainability.
We have attracted some of the leading minds in this country in fields such as neurology, oncology, history, and English.

The President also remains committed to the University’s culture transformation efforts.

**Research Prominence**

President Gee continues to support and encourage innovative and groundbreaking research opportunities that contribute to the greater good for the State of Ohio, the United States and the world.

**Notable Accomplishments:**

- The President reconfigured the Technology Commercialization office functions to create a “cradle to grave” management system for University faculty’s research innovations and inventions.

- Now, through the partnership with Colorado State, there is a commitment to support mutually beneficial agricultural and energy research across the United States.

- Research productivity has improved significantly over the previous year.

- The President helped facilitate a new partnership with the Procter and Gamble Company, working to advance individual projects under the umbrella of a statewide collaboration agreement with the University System of Ohio and P&G.

- Dr. Gee helped lead the realignment of departments, programs and resources around three overarching research discovery themes as the focus areas that will be guiding the University’s selective research investments in the years ahead.

**Outreach and Collaboration**

Under the President’s leadership, the University continues to develop partnerships focused on local, state and international communities.

**Notable Accomplishments:**

- The President fostered a strong partnership with the new Governor and other key State government leaders. He successfully led the advocacy effort on construction reform, resulting in landmark change in the way public sector construction projects will be delivered in the future.

- President Gee, once again, traveled to over half of Ohio’s 88 counties to demonstrate to lawmakers and other Ohioans how, in so many ways, the University is indispensable to Ohio’s future. The Board particularly appreciated his tireless advocacy.

- Pelotonia continues to grow as a signature event within the Central Ohio community, generating over $13 million dollars for cancer research this year alone.

- The University continues to expand and further develop the International Gateways model, expanding operations in China and creating a new Gateway Office in Mumbai, India.
Ohio State continues to reap substantial benefits from the existing partnerships with Battelle, The Royal Shakespeare Company, and others.

**Operating and Financial Soundness and Simplicity**

The President understands the importance of moving the university to a more robust financial position with new sources of revenue and streamlining University operations to function more efficiently and effectively.

**Notable Accomplishments:**

- President Gee helped secure the largest philanthropic gift in University history, a $100 million pledge from our Board Chairman, Leslie Wexner and his wife, Abigail Wexner.
- He has kept the almost $1bn Medical Center Expansion Project on time and on budget.
- He also helped to secure an additional $100 million grant from the federal government to fund the radiation oncology addition to the Medical Center Expansion Project.
- In the past year, the University issued approximately $800 million in “Build America” bonds to help fund the Medical Center Expansion, at the lowest interest rate ever achieved at Ohio State and which will result in over $130 million in savings over the life of the facilities.
- The number of University donors now number more than 20,000 over the previous year, resulting in new records for total new fundraising activity, total private support, and total number of annual donors.
- Recently, the University issued $500 million in “Century Bonds,” becoming the first public University to take advantage of the market in such an innovative way.
- Ohio State is beginning to realize substantial savings as a result of the President’s focus on internal deregulation, cost-containment, and cost reductions. The University’s streamlining efforts are being validated by external reviewers. In reaffirming the University’s AA1 credit rating with a Stable Outlook in anticipation of the Century Board issuance, Moody’s Rating Service noted in their report:

  “The University’s relatively new financial management team has substantial diversified experience outside of higher education and brings a commitment to planning and emphasis on use of metrics to increase productivity and cost efficiency. These efforts are already starting to yield results. Operating efficiencies driven by a more centralized control of cost centers are being implemented.”

**III. CONSTRUCTIVE FEEDBACK**

The interviews also resulted in constructive feedback to the President in four key areas: 1. strategic planning; 2. forming his senior leaders into an even more effective team; 3. strengthening internal and external communication; and 4. the NCAA and the OSU football program.

1. **Strategic Planning**

As to strategic planning, the process must provide the Board with a clear and concise view of the President’s paramount priorities. In order for the University to function most
effectively, the President and the Board must be unambiguously aligned around a limited number of strategic imperatives. And to that end, the President will focus upon attaining that alignment with the creation of an overarching strategic plan from which will flow his and the Board’s key priorities over the next few years. Further, the Board anticipates that it and the President will shift more focus to the attainment of measurable results as outlined in the strategic plan.

2. Enhancing the President's Senior Leadership Team

Board members mentioned that President Gee has been entrusted with identifying the right people to partner with him in achieving the University’s goals. The expectation is that the President will recruit, retain and develop top talent. It is also expected that these talented individual leaders will also function as a highly effective team under the direct leadership of Dr. Gee. Board members mentioned that the success of the institution overall is greatly dependent upon how effective Dr. Gee’s success in this area. Therefore, his overall performance assessment will continue to include measures of his team leadership.

3. Internal and External Communications

Board members encouraged the President to continue to strengthen open and transparent communication and promote collaborative decision-making with his senior leadership team. The enormity and complexity of leading this University cannot be understated. Trustees felt strongly that President Gee cannot and should not do it alone. He must be able to rely on his most trusted advisors to handle the day-to-day implementation of his objectives.

In addition, the Board members believe that the Board itself is an important resource to help the Administration achieve those objectives, and more regular and holistic information sharing and updates to the full Board would help ensure that its members are better able to do so. Additionally, the Board must ensure that we continue to be thoughtful and purposeful in communicating with all of our stakeholders, and have asked the President to consider ways to enhance that effort.

Separately, but importantly, the University, must be consistently focused on sending the right internal and external messages in the appropriate way to drive the Institution forward. Suggestions were made that in developing a more strategic and deliberative communications plan, the President might consider enhancing communications leadership and associated infrastructure, and engaging additional expertise as needed.

4. The NCAA Matter and the Football Team

All Board members and the other reviewers addressed the recent experiences with the NCAA and the football program. During that crisis, the President exhibited leadership by:

- Fully cooperating with every aspect of the NCAA investigation;
- Utilizing self-imposed sanctions that were independent of NCAA sanctions; and,
- Creating a lasting process of greater oversight and accountability.

On the other hand, there was no question that mistakes were made by the President, the Athletic Director, and others. As a result of these issues, the University suffered reputational damage and shaken confidence among key stakeholders and the public. The issue also distorted the image and reputation of the University and diminished focus upon its many outstanding programs and contributions and increased focus upon football and its issues.
IV. PROCESS MOVING FORWARD

After much dialogue between the President, the Board and other leaders, the goals for the next one to three years will align with the President’s original imperatives, which he set upon his return to Ohio State in 2007, and which were the basis for the current evaluation. Yet, they differ in that they are evolved so as to address critical needs going forward. By clearly identifying these imperatives, the President and the Board will be able to use their time for maximum effect on the University’s behalf.

As agreed to by Dr. Gee and the Board of Trustees, the areas in which we will focus most intently for the coming years are:

- Resource Generation (including revenue production and expense reduction)
- Implementation of the Advancement Plan that was previously set forth by the President and approved by this Board
- Developing and implementing a plan for an enhanced undergraduate student experience
- Developing, approving and effectuating a University talent strategy that addresses the recruitment of new talent as well as the development and retention of current talent and of teams
- Developing academic initiatives aligned with the 3 discovery areas (energy + environment, health & wellness, food & food security)
- Fully achieving the Medical Center’s long range plan

These imperatives are ambitious undertakings. Many details are still being developed. Success will require maximum dedication and effort at all levels of the University. The Board firmly believes that President Gee is the right leader to achieve these imperatives and take Ohio State where it should go.

COMPENSATION

In determining the appropriate compensation for the President for the present year, it is important to weigh the President’s performance from the past year along with other important considerations, including the President’s current ranking with respect to the market for other top university presidents; the current economic condition of the University, the state of Ohio, and higher education; and the compensation increases recently allocated to University faculty and staff. Furthermore, the Board utilizes the expertise of an outside compensation professional to conduct a comprehensive reasonableness assessment of all aspects of Dr. Gee’s compensation. The faculty and staff of the University recently received an aggregate salary increase of 2 percent. We recommend that President Gee receive a similar salary increase of 2 percent, which would amount to an increase of $16,363 over his current salary of $818,167.

PERFORMANCE-BASED COMPENSATION

The performance-based compensation arrangement established for the President upon his return to the University in 2007 provides for a 35% payment for achieving target-level performance; up to 40% maximum for exceeding target performance; and up to an additional 10% for achievement of important multi-year goals.

The President and this Board share a high set of expectations for performance. We recommend that President Gee receive performance-based compensation amounting to $143,179, which represents a payment equivalent to 17.5% percent of his base salary. Consistent with this Board’s prior commitment, President Gee’s bonus will not be paid by
December 9, 2011 meeting, Board of Trustees

Ohio taxpayers or student tuition dollars, but rather through the Academic Excellence Fund that was created to assist with the retention and recruitment of the highest caliber academic and administrative leaders and is funded by private giving.

CONCLUSION

Overall, The Ohio State University is an outstanding institution because of Dr. Gee’s leadership. He is a truly visionary leader who adeptly handles the breadth, complexity and demands of the job. However, this challenge is not his alone to face. We, as a Board, will continue to partner with President Gee and his leadership team to address the most significant challenges and strategic opportunities that this University faces.

I am pleased to bring these recommendations forward for the Board’s consideration and I invite your discussion. When we have reached a decision, a motion will be required for our approval of the President’s compensation actions.

Would any of my colleagues on the Compensation and Talent Development Working Group like to add any comments?

Mr. Chairman, I ask for a motion to accept the report and recommendations of the Working Group.

The Board of Trustees met Thursday, February 9, and Friday, February 10, 2012, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **
February 10, 2012 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, February 9, 2012 at 8:41 am.

Good morning, I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 9:00 am.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding appointment, employment and compensation of public officials, to consult with legal counsel regarding pending or imminent litigation, and to consider matters required to be kept confidential by Federal and State Statutes.

Upon motion of Mr. Wexner, seconded by Judge Marbelly, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbelly, Kass, Reid, Jurgensen, and Smucker.

***

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, February 10, 2012, at 9:00 am.

Good morning. I would like to reconvene the meeting of the Board of Trustees. Before we take the roll call to go into Executive Session, I want to announce that the full Board will reconvene at 10:00 am today.

I hereby move that the Board recess into Executive Session to consider matters required to be kept confidential by Federal and State Statutes.

Upon motion of Mr. Wexner, seconded by Dr. Wadsworth, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marbelly, Kass, Jurgensen, Wadsworth, and Smucker.

***

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, February 10, 2012, at 10:05 am.

Mr. Wexner:

I want to call the meeting to order and convene the Trustee meeting. David, do you want to note the attendance of the Board?
Dr. Horn:

A quorum is present, Mr. Chairman.

Mr. Wexner:

Good, thank you. I would like to remind everybody to please turn off their electronic devices, cell phones, and other things so they do not disrupt the meeting. We have a full agenda today, so if we can control the disturbances, it will be appreciated. The minutes of the November and December meetings have been distributed. I would assume there are no additions or corrections and the minutes can be approved as distributed. I hear no objections. Evann, do you want to begin with the Student Recognition Awards please? Thank you.

***

STUDENT RECOGNITION AWARDS

Ms. Heidersbach:

Thank you, Mr. Chairman. If I could, I would like to call Drew and Graham up to the table, please. A little known fact, I just found this out; they were actually roommates in their freshman and sophomore years, and they just found out that they were both getting this award today, so that is kind of fun.

Let me first introduce Drew Enigk from the College of Food, Agricultural, and Environmental Sciences. Drew is a senior majoring in Animal Sciences from Cincinnati, Ohio. He is active as an honors student in the College of Food, Agricultural, and Environmental Sciences (CFAES) and serves as their ambassador as well as a member of the Animal Sciences Community Alliance. Drew is a member of Sphinx Honorary and treasurer for Phi Kappa Phi Honor Society. Drew has completed three research projects during his undergraduate career, including his honors thesis, which is a cross-sectional investigation of non-kin affiliation in Bonobos. He has participated in three University study abroad programs to Australia, Costa Rica and Mexico and is a member of the Office of International Affairs Study Abroad Student Advisory Committee. In November of 2011 he traveled to Brazil as part of the Brazil Research Exchange Program to present on Comparative Behavior of Grevy’s Zebras and Somali Wild Asses. Drew was also selected as a recipient of the Wolfe Scholarship to study abroad.

He is an exceptional student, outstanding role model and extraordinary leader and has contributed in many meaningful ways to his Department, the College, and the University. Upon graduation Drew plans to continue his studies of animal behavior by pursuing his PhD in biological anthropology as a graduate student beginning this fall. His graduate program will provide him with the opportunity to conduct field research on wild primates in Africa or South America for his dissertation.

Joining Drew today is Mariette Benage, the Student Success Coordinator in the Department of Animal Sciences. Thank you for being here, Drew.

Next we have Graham Welling. Graham is a senior in the honors program, double majoring in City and Regional Planning and Russian. He is an outstanding student who has thrived academically, as well as an active citizen and emerging leader and has embraced OSU as a gateway to the world.

He is deeply interested in international development in Russia and has pursued deep studies in the Russian language during his time at OSU. In the spring of 2010 he participated in a quarter-long language emersion program through OSU in Russia. Graham then arranged for an internship with the Institute of Urban Economics in Russia in the summer of 2011. Graham was responsible for investigating legal regulation of
February 10, 2012 meeting, Board of Trustees

development, smart growth, and the formulation of master plans in Perm, Russia. Through his internship he was able to write a journal article, in Russian, about the development plan for the city, which has been submitted for publication in a Russian law journal.

Graham has been active in service and extracurricular activities at OSU as well. He is the Vice President of the Russian Club. He was selected as the Center for Slavic and Eastern European Studies 2011-12 Fellowship. Graham participates in the ESL conversation partners program. He serves on the Committee of 88 and is involved in TerrAqua, which is a student group involved in water-quality and conservation projects. In addition to his academic and service activities, he works for the Campus Area Bus Service as a bus driver.

Graham is on track to graduate Magna Cum Laude this spring and hopes to have a career with a company or NGO involved in planning and development in Russia or Eastern Europe. Joining Graham today are his parents Douglas and Victoria Welling. Thank you for being here. Please join me in congratulating both of these exceptional students. Graham and Drew, if you have anything to say, please share with the group here.

Mr. Enigk:

First of all I would like the thank the College of Food, Agricultural, and Environmental Sciences for nominating me and also the Board for selecting me for this award. When I started my undergraduate career my plan was to make a difference and make my mark at Ohio State, but I never pictured myself being in front of the Board of Trustees my senior year, so this is just an amazing opportunity.

My accomplishments would not have been possible without my amazing mentors, Dr. Guatelli-Steinberg and Mariette. I first met Mariette through my freshman year survey class, and she has been wonderful. She connected me with my first research mentor and encouraged me to apply for the Saint Louis Zoo internship. Also, I would not be the current Sergeant-at-Arms of the Sphinx Senior Class Honorary had it not been for her stellar letter of recommendation.

I met Dr. Guatelli-Steinberg my junior year after beginning to pursue a minor in physical anthropology. I thank her for all of the time that she has allowed me to come to her office and discuss the endless fascinating aspects of primatology. I thank her also for motivating me to become a primatologist. I cannot thank you enough for all of the outstanding letters of recommendation that you have provided me with for the Marshall Scholarship, the National Science Foundation of Graduate Research Fellowship, and graduate schools.

I would also like to extend my gratitude to Chairman Wexner, President Gee, and Dean Moser, and all of the other leaders, faculty, staff, and benefactors of Ohio State who work tirelessly to make this such an amazing institution. I am truly honored to have been selected for this esteemed award and tremendously proud to have attended The Ohio State University. As I move on to graduate school and the future that lies beyond, I will undoubtedly draw upon the confidence that has been instilled in my time here at Ohio State and uphold the tradition of excellence that this fabulous institution promotes. Thank you.

Mr. Welling:

Good morning everyone. I would like to say that I am pleased and honored to be here and to represent the College of Engineering and the Knowlton School of Architecture. I would like to express my gratitude to all the faculty and staff at the Knowlton School of Architecture and, of course, in my other major, Russian, for selecting me for this prestigious honor. Again, I would like to thank President Gee and all of the members of
February 10, 2012 meeting, Board of Trustees

the Board for their great leadership and continuing to make this University the great
place that it is.

When I first started here, I started in Environmental Science, actually in Drew’s college
and, in coincidence of coincidences, we were freshman and sophomore year
roommates, and he remains a good friend of mine to this day. In my studies of Russian,
I found that Russians call Moscow, a city of eleven to twenty million, no one seems to
know exactly how many, a large village because no matter how many people there are,
you always seem to run in to people you know at all occasions. I think that Ohio State
also exemplifies that giant village experience as well. For how big this University is, for
how many directions you can go in any one day, for how many clubs, sports, activities,
all the places you can be, you always seem to run in to the same people, the great
people, all the time and that, I think, is what makes this University great.

Again, I am pleased to be here and I would like to thank all of the faculty and staff. Thank
you.

***

PRESIDENT’S REPORT

President Gee:

Ladies and gentlemen, thank you very much, and to the students, congratulations to you
and to the family and friends. With 65,000 outstanding students, to pick and choose
among them is very difficult, but what great representatives you are, and we are thankful
for that.

I will start by saying in my report to the Board that the two months since our last meeting,
we have had a lull for the holidays, but I can assure you that as you can tell from the
energy and all the things that are happening including all the cranes and other things
going on here and all of our construction that we are now back to our proper roar. So I
am going to be very brief today because we have a long agenda. In many ways, the past
several weeks have had a common theme of partnerships a word that I love and one
that I want to underscore with higher education, our communities, businesses,
supporters, and elected officials.

Early last month we celebrated the launch of PACT, Partners Achieving Community
Transformation, which has been created to reinvigorate the city’s near East side
neighborhood, where our University Hospital East is located. PACT, for those of you
who do not know, is a collaboration among Ohio State, the City of Columbus, the
Columbus Housing Authority, and the near East side residents, and it demonstrates the
living mission of the University’s founding purpose to enrich lives and improve
communities, that is our land grant heritage.

Our economic development work in that area and in the neighborhood adjacent to our
campus, received a tremendous boost last week, when we announced our
groundbreaking new $125 million partnership with Huntington National Bank. Moreover,
Huntington is also investing in our students, our faculty, and our staff. Through this
partnership, the bank has provided $25 million to us that we are using for things such as
scholarships, classroom improvements, new instructional technologies, and career
services for students and alumni. This is the most comprehensive arrangement of its
kind in the country, and I am deeply grateful to Steve Steinour, Huntington’s visionary
leader, and to Geoff Chatas, our Senior Vice President and Chief Financial Officer, for
their work to forge this partnership It is a great partnership and is something that we can
all celebrate today.

That collaboration is the most recent tactic in our comprehensive strategy to ensure that
Ohio State’s excellence, and the boundless opportunities it provides to young people, is
not just sustained, but also deepened and accelerated. I first began talking about our financial strategies in my October address to the faculty, and I have been hitting the road to evangelize about them during the past couple of months. It is, I believe, the fulcrum, the center, of the University’s ability to fulfill its role as a great public university, as a leading public university, in the 21st century. The other critical piece of the equation is, to be sure, access and attainment. And here again, partnerships play an essential role. Last month, I was honored to co-host a forum with the College Board at the Ohio Statehouse that focused on those issues.

Through new partnerships with Columbus State Community College and community college partners around the state and beyond, we are making promising headway. We are also addressing the issue nationally, and it should be, because of the conversations that are taking place as you well know in this environment. There is a commission that has been created on the future of higher education, and I am honored to be chairing that commission. The commission is a novel one for one important reason: it includes presidents of every type of college and university, two-year colleges, small private ones, and comprehensive public universities. Our work is just beginning, but together we intend to lead a broad-sweeping national discussion about the role of higher education in America’s future.

Increasingly, much of my time is spent working in concert with our state’s elected leaders, through such things as the JobsOhio Board and, recently, working with other higher education leaders in the state on a collaborative proposal for capital projects at our institutions. I will say that I am honored that some of those efforts were highlighted by Governor Kasich in his State of the State address this past Tuesday.

Despite the cold, and it is cold in the winter in Columbus, winter quarter is one of my favorite times at the University because it is when I have the opportunity to celebrate the accomplishments of our faculty award-winners. As a university president, this is my one bit of acceptable cloak-and-dagger, bursting in on faculty while they teach or during a department meeting. We all know special teachers are so important to recognize because they change the course of our lives. If we are fortunate, we have had several of them. In my own instance, I had a fourth-grade teacher who enchanted me. I can remember my first taste of Greek mythology. And then I can remember undergraduate and graduate advisors who really set my own life’s course. At Ohio State, I know we are fortunate to have scores of these special teachers.

I will say that this has also been the season for birthday celebrations. My Chairman surprised me last week by leading hundreds of attendees at the annual Tech Columbus awards program in a chorus of “Happy Birthday” in my honor. Of course, I was up leading it myself as you can imagine, but earlier in the day, the students surprised me with some cupcakes and some dancing. And, tonight, of course, we join in celebrating the 200th anniversary of our great city. I am looking forward to turning the attention toward something other than my own age, I can assure you.

As I close, I want to say that I am particularly looking forward to another milestone celebration. On February 20th, Ohio State will lead the 50th anniversary commemoration of John Glenn’s historic orbiting of the Earth aboard Friendship Seven. Those of us of a certain age recall that day and how perilous an endeavor it was. I will always remember what they said when he took off in that Roman candle, “God speed John Glenn.” It really resonates with me, even today, and as we know, safe return was anything but guaranteed.

John Glenn was then, and is today, the very best of what this state and this nation has to offer, a man of determination, bravery, and profound dedication to public service. He walks our campus every day. All of us are eagerly looking forward to celebrating Senator Glenn, his wife, Annie, his great life partner, and their shared leadership and engagement at Ohio State.
February 10, 2012 meeting, Board of Trustees

With that, Mr. Chairman, I conclude my report. Much good news to report today.

Mr. Wexner:

Thank you.

As you were talking about John Glenn, we should all be proud that not only did John have a heroic career in the Marine Corps, obviously flying in space and being a distinguished United States Senator, but when John retired from the Senate he and I had become acquainted he began a conversation saying that he wanted to put his archives someplace.

The Smithsonian, Harvard, and Princeton had asked him for his archives because of the great things that he had done. He had started, when he was in college, collecting and saving all kinds of maps and letters and notes and I said, “That’s really interesting, John, where are you going to place your archives?” He said, “I don’t know. I don’t want to impose, but do you think there is a chance I could keep them at Ohio State? It is so important to me.” He didn’t go to Ohio State, but he connected the state with Ohio State. I remember calling Gordon and I said, “I just had the most extraordinary conversation.”

The legitimacy of John’s connection to us should be known. He does walk the campus, but he really wanted to walk the campus and wants to be part of the University.

I told a story yesterday that I want to tell again. I told the Board that I was invited to speak at the Tech Columbus dinner and I knew that Gordon was going to introduce me. I also knew that it happened to be his birthday. In the introduction, I got everybody to stand about 1,000 people and sing “happy birthday” to Gordon. I had another plan in mind that I wanted to share with this group, and it is something else I wanted to talk about.

Recently, recent is how you judge time, Ohio State recruited a great coach, a really great coach, and that coach has a proven record of successes and is a coach that was admired. The coach also came back to Ohio from being, if you will, in the wilderness, and that coach came back to really change the game up the game, and promised to make changes in the way the game is played here. That coach focuses on talent, assistant coaches and players. The primary focus of the coach was to recruit and obtain the best assistant coaches that knew how to play the game, but also knew how to recruit talent, and he clearly has done that.

When that coach came back I was not part of the recruiting process one of the things that attracted him to us was the specialness of the University and the great students that are produced in Ohio. The population of students that come largely from public education is just a great place to recruit talent. Being part of this institution and being the beneficiary of one of those daughters or, in this case, a son of Ohio, to benefit from this institution was quite meaningful to me. The punch line of course is, as I can imagine what you are thinking, is that I was describing Gordon Gee.

I would just take this moment as Gordon and I are appreciating John Glenn and the University, to appreciate Gordon on an anniversary of his birthday, so happy birthday again.

Changing chapters, Bob Schottenstein, working with the University administration, has spent a significant amount of time as chairman of the Audit and Compliance Committee and, most recently, doing a thorough review of University-wide audit and compliance issues. Bob, I would like you to talk about that please.

***
February 10, 2012 meeting, Board of Trustees

UNIVERSITY-WIDE COMPLIANCE REPORT

Mr. Schottenstein:

Thank you very much, Mr. Chairman. Just following on what you said, I think all the members know, and for the benefit of those who are with us today, during the past eight months the Audit and Compliance Committee has met virtually monthly focusing on a comprehensive University-wide assessment of all compliance functions.

I think everyone here knows that undertaking was prompted by problems that first occurred in our athletic department a little over a year ago. At the time it was the view of both this Board and the Audit and Compliance Committee and supported wholeheartedly by the entire University, including our President, the administration, and the athletic department that we should use that incident as an opportunity to take a hard look inward at our processes, which we felt were good but we wanted to look at them to see if we could make them better.

With that in mind, and with a goal of trying to create a compliance practice and a compliance system that was very strong, very robust, that contained checks and balances and maximum opportunities for independent review, we undertook to hire outside consultants who are here with us today the law firm of Dewey & LeBoeuf and the consulting firm, Protiviti. Those outside consultants were supported superbly by an internal working group co-chaired by our CFO, Geoff Chatas, as well as our General Counsel, Chris Culley, and I cannot underscore enough the quality of the work performed by that internal working group, the hundreds and hundreds of hours that they spent working with the consultants to help get us to today.

The work that was done included a thorough review of our current practices how we currently manage compliance across all systems and all areas of the University, including understanding the organizational structure, who was involved in compliance, who reports to whom, and how those reporting lines moved through the system, as well as a very in-depth benchmarking of how other universities, financial institutions and health care facilities managed compliance.

We knew this was going to be a multi-phase process. The analogy that we have used at the committee level, which I think is helpful and I will share it today, is that it is a little bit like building a house. First you have to dream, plan, and design, and then, once you get the architecture done, you start construction, and at some point, you move in and live in it.

The process that culminates today is the end of a dreaming, planning, and design function. So we are here today to, in effect, prove the architecture of a new compliance model for Ohio State. Let me make really clear that we are still at the beginning, and if this architecture is approved today, we will then undertake, over the next 12 or so months, construction. There may be a little remodeling and a few change orders along the way, but I think we have a very strong design. I know the committee feels that way, and that we have moved to a place where we believe we will have as robust and as sound a compliance process that exists within higher education. That is a place where we think Ohio State should be.

I also want to underscore, and this was a comment that President Gee made to me this is real change, and it is going to require real change within the institution. This is not about creating another bureaucracy. This is substantive and it is procedural with the highlight of it being a move to a much more centralized compliance process. With that introduction, what I would like to do is call on either Mr. Chatas or Mr. Culley to introduce our consultants from Dewey & LeBoeuf and Protiviti who are going to provide the Board with the highlights of their final report.
Hello. I am Jim Pajakowski, Executive Vice President with Protiviti. I will give you an overview of the project and our findings and recommendations.

At the top of this chart is a quote that we took and extracted from the June 24 Board meeting. What it did was set you on a course to hire us, Protiviti, as well as Dewey & LeBoeuf, to engage in a project to help you look at the compliance process here, University-wide, and make recommendations for its improvement.

In doing that, we followed some guiding principles. Those guiding principles were as follows. First of all, we were told that you aspire not just to get to average but to get to leading practice. You wanted to form a model from this experience that could be looked upon as a practice that others would aspire to across the country. Secondly, we were told to look outside of higher education for examples of how you could improve, or for benchmarks of how you might improve the compliance process but to do so in a way that does not lose sight of the fact that this is a university. Universities have unique cultures.

Recently in Economist magazine, there was an article on the changing role of higher education. In it was a quote attributed to Clark Kerr from the University of California that I thought was interesting and sums up the culture of universities in a somewhat humorous way. It goes like this; “It is sometimes thought the modern university is a series of individual faculty entrepreneurs held together by a common grievance of parking.” The point is we wanted to make sure we shaped recommendations that were specific to this university and would work here.

And finally, you wanted us to provide recommendations that would lead to a compliance function that had greater independence and more authority to do its role. We followed a methodology and Mr. Schottenstein went over it. I will point out a couple additional things.

We identify 12 areas that we called Categories of Requirements. Those range from functions and departments, such as the Medical Center, Research, and Athletics to compliance areas such as environmental safety, technology and the American Disabilities Act. There were 12 of these areas, and we looked at each of them. We looked at many documents; we talked to a lot of people; and we conducted many group sessions to vet our observations, insights, and preliminary recommendations.

We also did extensive benchmarking both within the University and around the country, probably most intensely within the Big 10, but we also went outside and looked at health care as an industry and financial services as an industry.

We came up with eight recommendations. I will make a few overarching comments. I am not going to go into all of the detail with limited time, but I will walk you through these. First of all, you need to look at these eight recommendations not as individual actions but as a unit that needs to be done comprehensively to cause the effect that you want to cause.

The first two establish a new organizational structure within Ohio State University. The first is appointing someone in a Vice President position to head up a new department, which we have suggested be called the Office of University Compliance and Integrity. At the committee level, there is still some debate as to the proper title, but I think everybody agrees on the structure.

This is a chart of the way compliance works today, so this is how lines report up and where responsibility for compliance exists, and we want to move to that. I am not going to get into the details, but I am going to make a couple points. Going to this should increase the amount of transparency, the degree of communication, greater streamlined
efforts and, ultimately, create a more powerful and efficient compliance process. That is the intent.

The other six recommendations address the major functions of a compliance effort from risk assessment, establishing a code of conduct and communicating expectations, putting policy in place, managing change in the organization and addressing the impact that change has on the compliance function, putting in effective training programs, and ultimately, monitoring and investigating.

We have recommendations for each one of these to improve the maturity level to align with this new structure and to make each of them more effective than they are today. I will note that we did not find anything to be particularly ineffective today. You actually have a pretty good process in place but this takes it to an even better level.

Finally, there is a lot of change here, so with this we also have two additional recommendations as you go about this process, which we think will take about a year or so to put in place. One is that you put a project management structure in place to deal with the number of moving parts and the number of activities that are going to take place and be necessary, and that you put in a communication plan. Everybody is going to be impacted by this at some level some very little and some quite a bit and that needs to be taken into account. The communication plan needs to explain this change in ways that people understand. I think it needs to communicate the value, the benefit, and the impact. I do not think there is anybody here or associated with the University, there may be resistance to this, I know there will as it is just natural who will argue with this if they understand that this is about protecting the good name and reputation of this school and that benefits everybody that is going to be impacted by it.

That pretty much wraps up our comments. I would like to leave you with one analogy, which is a little different than the house analogy this is a car analogy. At Protiviti, a lot of work that we do is around risk management and compliance functions and we ask the question why do you think they put brakes on a car? The common answer is to slow it down. We do not think that way. We believe that brakes exist on a car to allow it to go faster. I think you need to keep that in mind as these recommendations are put in place because this is intended to be a braking system for the University, not to slow it down. This is an institution that is growing. This is an institution that wants to lead. This is an institution that wants to move fast, but they ought to do it safely and they ought to do it in a way that protects the University. That is what this system will do for you. Thank you.

Mr. Schottenstein:

Thank you very much. Let me just say a couple things and then ask if there are any questions.

First, the report, which is very detailed, was approved unanimously by the Audit and Compliance Committee yesterday. I want to underscore a couple of things. One, we are now at the beginning of this construction or implementation phase. The first part of that will be the hiring of this new chief compliance officer, which is expected to occur sometime in the next 60 days.

The other thing I want to underscore and this is a very significant change from where we were to where we are headed is that the new Office of Compliance will report directly to the Audit and Compliance Committee with dual reporting for administrative and other functional purposes to the Chief Financial Officer and the Office of the General Counsel, which is an integral part of the recommendation.

The last thing that I would like to say and then if there are any other members of the committee that would like to comment, obviously they should is that the point was made, and it became very clear to us in this process, which I’m not sure we understood it fully
before we started what compliance really means. It is very hard; it is the guardian of our reputation; and I think we feel this is a really positive step forward.

I do not know if any other members of our Committee want to comment, but I also want to say that this is in the form of a motion to approve this report, so I will make that motion.

Mr. Wexner:

This is a significant issue for us and a primary responsibility of the Board, so I would really encourage discussion and consideration.

Dr. Cloyd:

A question on the code of conduct that would be developed seems to be of extraordinary importance. Everybody will understand how we want to operate and what is allowable and what is not going to be allowable. Could you describe a little bit of the process of how that is going to be developed and the timeframe to get the development of the code of conduct?

Mr. Schottenstein:

I will take a crack at it and then I will let our friends also comment. First of all today, Gil, I think there exists four, five or six codes at the Medical Center. There is a Student Code of Conduct. This Board has its Statement of Expectations. It is not that no code of conduct exists, but that there are a lot of them, so part of the process will be to integrate, consolidate, and make certain that what they say in terms of comportment and behavior is what we want them to say.

In terms of the timing on that and how that rolls out over the next year and the process for that, it is my expectation that once we get this person hired that person will form a compliance committee that will begin to craft the specifics on all eight of the buckets of recommendations including that code. I do not know if you want to comment further.

Mr. Pajakowski:

I think that is absolutely right. I think there are lots of pieces but nothing that holds them all together. And there are parts of the institution that are not covered through existing codes, so it is a matter of doing the research to pull all of that forward. I think it is going to be important to bring on the chief compliance and integrity officer to lead that effort, to pull together as we recommended, the compliance and integrity committee which will be a broad representation of the University and use that function to vet it. I think there is going to be a lot of change management that goes along with this because this is probably the one that you are going to want to communicate and involve and engage many parts of the University in developing so people will accept and engage with it.

Dr. Cloyd:

I fully agree with that. Part of the reason I am making the comment is, I like the process and I like the consolidation, but it seems to me that this is going to be the beacon or the compass as we move into the change management that is going to bring clarity to all of the people associated with the University and covered by it, and this is what we are about.

Otherwise, as I think you said at the start Bobby, compliance as people can see it is sometimes a little bit ambiguous. What does it really mean? While I think that the document for code of conduct should have the appropriate broad input and should be as clear as we can make it, it should not get lost in word knit-picking so it drags on for long periods of time, because I think it is going to be critically important to effective change management.
Mr. Shumate:

I have one question. It might be premature, but have you thought about the qualities, characteristics and experiences for candidates for this new position and how might we go about the selection process?

Mr. Schottenstein:

Yes. I do not know where Mr. Chatas is he is hiding in the back, but the short answer is yes. In the course of some of the work and the benchmarking that we have done, we have begun to craft the kind of qualities and characteristics we are looking for. This is a position that does not exist in a lot of our peer institutions, but it is a position that has begun to emerge now within some of the financial sectors and health care institutions we benchmarked against. It is likely the candidate would come from someplace like that. I do not know if you want to add anything Geoff.

Mr. Chatas:

We will work with a headhunter and the Human Resources department.

Mr. Brass:

Bobby, I commend the work of the committee. It was fantastic, and I am glad we looked at it from a University-wide standpoint because that is the appropriate thing to do. Just a point of clarification, I think I know the answer to this, but we will end up with an office of compliance. Could you describe a little bit about the office of audit as to how these are going to work together, the audit function itself?

Mr. Schottenstein:

You mean the internal audit function?

Mr. Brass:

Yes.

Mr. Schottenstein:

Yes, they are separate. Internal audit will continue to report directly to the Audit Committee with University functional and administrative reporting, but I think from an operational standpoint, internal audit is sort of a left arm to this compliance function. It is intended to be, and you might want to comment on that as well some of the detail that is behind this report, the other side of the coin on some of the checks and monitoring.

Mr. Pajakowski:

If you look at the second recommendation, the University compliance and integrity committee is a committee constructed with a number of different constituents including, or led by, the chief compliance and integrity officer. But it also involves the compliance heads of each of the major areas and departments of the University. In addition to that, internal audit will be a member of that group as well as legal and faculty representation. That will be one intersection point.

The second point that I would say is that internal audit’s role, effectively, is insuring auditing at a level that reports if the compliance function within this University is operating effectively. That is part of their charter, so that is another way that they will interact. That does not excuse compliance from also making sure they have procedures to monitor and insure that compliance processes are operating effectively. And, as was mentioned, both will report independently and to the Audit and Compliance committee.
Mr. Brass:

Thank you very much. Because they do overlap in some areas, I wanted to see exactly where the continuity of thought would come from and I think you have explained it well. Thank you.

Mr. Wexner:

Before we get to voting on the acceptance of the report, I want to address the issue of audit and compliance and the implications of that on the reputation of the University for the newer members of the Board. We have recognized that for a long time and the question is, how do we discharge our responsibilities as Trustees representing the stakeholders to the University, representing the State, to make sure that things are at the highest possible standard? Thinking about it and re-thinking about it, which the Audit and Compliance Committee has done in this review, is to make sure the standards of audit and compliance are uniform and we can audit across not just in the silos of the University, so that we have certainty as Trustees, and so that the public and students and every constituent holder knows that we are serious about making sure the standards, behavior, audit, integrity, and every aspect of this is at the highest standard and then pulled together so we can communicate and understand all pieces of this.

I think, Bob, your description of the architecture is that this is there and now we have to build it, which is important to the Trustees. We have a sense of the architecture and what I would ask you to do is think about the calendar of the design development as to construction. What pace are we on, so that perhaps at the next meeting, everybody can know where we are in time whether it is recruiting people or implementing critical stages? So we are holding, if you would, you and our feet to the fire, so we are marching through this.

President Gee:

Mr. Chairman, one thing before we move, because this is a discussion that we had the other day, which I wanted to underscore again and is important for the Board to understand. We are not creating a new oversight infrastructure. What we are really creating is a new structure, one which is meant to make us much more progressive, but is not meant to make us auditors auditing auditors. It is very easy in creating these kinds of systems to create another layer; and in many ways, I think that is antithetical to what we are trying to do. So I really appreciate, and we did have that discussion, the fact that recognizing the values and cultures of this institution, the fact that we are trying to become very swift that this is a swift moment for us. It is not yet another compliance issue; it is a new way to think about what we are doing.

Mr. Wexner:

Is everybody comfortable? Any more comments, questions, suggestions?

Well the motion has been made and seconded. David, do you want to call the roll?

Dr. Horn:

I would be happy to.

Upon motion of Mr. Schottenstein, seconded by Judge Marbly, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbly, Kass, Jurgensen, Wadsworth, and Smucker.
February 10, 2012 meeting, Board of Trustees

Mr. Wexner:

Let me now call on Alex Shumate. Alex, do you want to report on Trusteeship please?

***

COMMITTEE REPORTS

Mr. Shumate:

Thank you, Mr. Chairman. The Trusteeship Committee has been very actively engaged over the past several months with carrying out one of our principal responsibilities, which is to lead the process to recommend to this Board the officers that will serve the University. To that end, we have been conducting meetings and engaging in an in depth process, which has been a challenge in many ways particularly, Mr. Chairman, when we look at the leadership that you have provided over the past three years, it has truly been world-class leadership. Our goal is to continue that momentum and continue the Board’s focus on governance.

We started with a process and an approach that we thought it was important to take a look initially at the critical issues that are facing the University and then look at desired characteristics and qualities that we thought were important to assist and lead the Board in helping the University deal effectively with those issues. I would like to take a couple moments to review that because I think it is important to give you an indication as to why we are making the recommendation that we are.

This morning when we looked at the challenges that we face as a University, we identified them as: (1) implementing the academic strategic plan; (2) developing and implementing plans to enhance the undergraduate experience; (3) prioritizing the capital expenditures; (4) identifying new resources, sources of revenue rather, including commercialization; (5) streamlining and reducing expenses with savings to be redirected to academic priorities; (6) developing and implementing the advancement framework plan focusing on development communications as well as alumni relations; (7) achieving the Medical Center long-range plan; (8) developing and implementing a talent development plan including continuity and succession planning; and (9) exploring opportunities for new relationships with the state.

We then spent some time looking at desired characteristics in our next chairperson: collaborative and inclusive, encourages open, candid, and productive dialogue among all Board members, a consensus builder, a person who is objective and decisive and also, very importantly, one who could keep the Board focused on the important strategic issues facing the University, an individual who puts the Board and University before themselves, an effective communicator, a person that advances good governance practices, a person who is a tireless advocate for the University willing to invest the time necessary for Board duties and also an individual who is engaged with the broader University community.

As a result of our process, our committee is unanimous, and we strongly recommend Robert H. Schottenstein to serve as the next chair of our Board of Trustees. That would be a two year term according to our Bylaws. In addition, Mr. Chairman, we would like to place a nomination for Brian K. Hicks and John “Jack” Fisher to serve as vice chairs of the Board and David G. Horn as secretary of the Board, and I would so move.

Mr. Wexner:

Thank you. The motion has been made. Is there any discussion, further nominations?
February 10, 2012 meeting, Board of Trustees

Judge Marbley:

I would second that.

Mr. Wexner:

Well, in hearing then, we can close the nominations. I am instructed to ask a show of hands, but can I say it is by acclamation? Would that be good enough?

Upon motion of Mr. Shumate, seconded by Judge Marberry, the Board of Trustees adopted the foregoing motion by acclamation of Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marberry, Kass, Jurgensen, Wadsworth, and Smucker.

Mr. Ratner:

I am sitting here next to Bobby, and as you were reading the list of qualifications, I saw him getting more and more nervous, but I think he really will accomplish everything that your qualifications indicate that he will need to do.

Mr. Shumate:

Absolutely. As we have talked about and as Dr. Chait has advised us, one of the principle responsibilities of a Board Chair is to facilitate the work of the Board and, again, we have great confidence, Bobby, in your ability. I don’t know if you want to make any comments.

Mr. Schottenstein:

Thank you. I am a little nervous, but I really appreciate everything you said Alex and I thank the committee and every one of my fellow Trustees, Gordon, and your administration. This is a very special time for Ohio State. I think we have got momentum. We have got a very strong sense of optimism and I think a lot of clarity about where we are headed, and it is a good place. We have made a lot of progress.

Gordon, you say all the time that you cannot have a great university without a great board and I think, by the way, the opposite is true: a board can’t be great without great leadership. The comments that Les restated at the beginning of this meeting about you are very heartfelt by the people of this room and many others, and we are very fortunate this time.

I also think that one of the things that has struck me since I have been on this Board is first of all how great the University is. There is no better evidence than the student reports that we see at every single meeting and that is where the real winning occurs in the classroom every day. There are boards that have great people on them that are not effective boards and this is a Board that is very effective. I think that one of the big reasons, and I want to mention first you, Gil, your chairmanship, which I was very privileged to witness, I think really created very strong qualities of governance. You brought us together, which we needed. We were not as effective. We knew we had a lot of work, but we were not sure how to go about doing it, and your style and your approach was very special and continues to be in the role that you play. I learned a great deal from watching the way you managed and ran this Board, and I think it was a great thing for the University.

The last, not quite yet three years, Les, you made a comment earlier this morning in reference to something else, and I always love the way you put things. You said, “This is a landmark day.” It had nothing to do with me. It was about something else we were discussing in Executive Session regarding our strategy, our goals and our aspirations for the University, and you said, “This is a landmark day.” We have had a lot of landmark days in the last three years. If I can quote you, “but for” Les Wexner, and I mean that from the bottom of my heart. Your leadership has been transformative. There has got to
February 10, 2012 meeting, Board of Trustees

be a better word than that. It has been unforgettable, and therein lies the great challenge for all of us to continue.

The stage is set and we are very lucky to be here at this time, so I just want to thank you for so many things.

President Gee:

Mr. Chairman, I really want to speak on behalf of the University. It is great to have a person assume a role who loves the institution so much, and I think that we all agree that Bobby loves it.

We have all been privileged, Bob, to work with you over the last three or four years, and certainly it has been my privilege. I knew your father well, who was one of my favorite people in the whole world. I knew your uncle well, and I was telling this story the other night, he was the first man who greeted me, Mel Schottenstein. I had moved in and caused disruption in the neighborhood. I was sneaking in in the middle of the night and this big massive guy comes and lands on my doorstep and would not let me alone until he made certain that I was comfortable. Your family has had an enormous impact on this community and certainly on me personally.

I think that the thing, though, that we recognize as an administration is that you stand on the shoulder of giants. Gil Cloyd, who we are privileged to have as our continuing national Trustee, really did set a standard of excellence. I think that we all subscribe to and the word for Les is not transformative, it is just remarkable. What we have accomplished together, all of us, over the last three years is something that today was kind of a culminating moment in that we realize that this is a University in which we do not have trustees and faculty and students in strife, but rather we have us in unity, and I think that is highly unusual in today’s environment. I feel very privileged to be here with you and, more importantly, I want you to know that you have the full support of our 65,000 students, our 48,000 faculty and staff, and our 520,000 living alumni, and we look forward to having you visit every one of them.

This is a privileged day for us, too.

Mr. Wexner:

And Gordon is going to give all of us and them your phone number and email address, so that we can communicate openly and clearly.

Well, congratulations. We continue to get better and, Bob, with your leadership, we will get better. Thank you all. Bob, thank you for taking the responsibilities.

I am going to move forward with the committee reports, and I will start off with Gil Cloyd.

Dr. Cloyd:

Thank you, Mr. Chairman. The Advancement Committee met yesterday. The first item on the agenda, we had the wonderful opportunity to welcome Nancy Kramer as a new non-Trustee member of the Advancement Committee. I think most of you here know Nancy. She is Chairman and Chief Culture Officer of Resource Interactive. Certainly the marketing and cultural leadership skills that Nancy has are going to serve us very well, particularly with our major activity moving forward in creating and then putting in place the new advancement model for the University.

We then had a report on the development activities for the first six months of the year through December 31. Total activity is $177.4 million, and that is measured against what has been set as a very stretching goal of $355.7 million for the year. We are really in very good shape. We are almost 50% of where we want to be in the amount of lapsed
time. As compared to where we have been sometimes in the past, this is good news. For example, if we look at our receipts, this year we are at 50% of achieved receipts. When we look at total receipts, we are 29% above where we were last year.

Overall, while in the economic environment we are in, we are cautiously optimistic as we are going forward. I think everyone felt that it is right to have a sense of optimism in this troubled environment that Ohio State is doing very, very well in the development area.

Brian Hastings provided some other background information from some recent surveys from our benchmark universities, and it shows Ohio State is doing extraordinarily well as compared to those universities. We look at number of donors and dollars that we are bringing in at this point in time.

We also talked a little bit about key activities. As you all know, we are in the quiet phase of our campaign planning right now so the majority of the development staff time is being spent in doing the planning for our potential top gifts, and there you can think about seven figure plus types of gifts, developing that potential list, looking to how we could best approach those people and hopefully gain their support at a seven plus figure for the University.

With the work of the Advancement Framework Planning Team, which I will talk about in a moment, right now everything looks to be on track for a fall move to a public phase of the campaign that will most likely occur in October. People are looking at exact timings. It is going to be the election time of the year this year, and we want to make sure we can have a good kick off of the public phase campaign.

The thing I feel very good about is the level of planning, where we stand in terms of numbers of donors and the increases we are seeing in dollars coming in that would really well position the campaign. As you all know, our target has been that we want to be at the 50% range of the total campaign when we go public the $2.5 billion goal that we have set for that.

The Development report is on the consent agenda and the Committee has recommended it for your approval.

I would next like to transition to the work of the Advancement Framework Planning Team. As you know, we kicked off this activity in December. We have engaged Edelman in Chicago to help us in this framework planning effort. Following our first meeting in December, we have been meeting monthly as a full team as well as have had numerous other interactions amongst the team with Edelman and also, importantly, within the University. We had personnel from Edelman yesterday present to provide their perspective on the status of where we are.

There are two things that I want to highlight for the Board. As we have gotten into more detail in thinking about advancement, we have understood that it is going to be important that we get even more granular or crisp in how we are defining advancement so people will really understand what it is that we want to achieve and that we begin to establish some of the guiding principles. Some of this may change as we finish the work, but I wanted to provide you with where the team has defined where we are today around those first two points.

First of all, we have defined advancement. The definition we used is that advancement is a University-wide initiative to increase the eminence of The Ohio State University through efforts to build awareness, engagement, and giving among critical stakeholder groups including students, faculty, alumni, Ohioans, corporate partners, and national leaders.

Secondly, we have three guiding principles. The first one, I think, is very important as we have gotten into the discussion. Ohio State strives for its constituents to be a
meaningful part of the life and the success of the institution. When you think about that type of paradigm, what we are saying is that we are really going to take on the responsibility that we have a lot of stakeholders out there who love this University and want to be more engaged. Part of our responsibility is to identify the ways that we can create the awareness they want, help them identify where they can participate at the University and something that moves well beyond just the fundraising activities but allows them to be actively engaged in the University.

Second, advancement enables us to deepen our connections with all of our audiences to engage, inform, and inspire them and to jointly leverage our resources to accelerate Ohio State’s eminence. Third, advancement streamlines and organizes us to provide powerful and engaging experiences, information and support for our constituencies, and unites us to act as One University as we pursue our visionary and transformative goals.

I could not be more complimentary about the work that the Edelman Group has provided as we are moving forward as a team to establish our Advancement Model. Our work is organized along two groups of work. First, is establishing the Ohio State brand positioning. The second group of work involves establishing the most efficient and effective organizational design. All of this work is moving forward in parallel.

For each group of work there is a Discovery Phase where background information is collected and assessed; then a Development Phase where Ohio State specific branding and organizational design elements are developed; and a third Strategize Phase where the branding and organizational design work is integrated into one proposed Advancement Strategy. We are well along in the Discovery Phase and will move to the Development Phase in March. We remain on schedule to have a final recommended approach to consider in July.

At the Committee meeting we revisited the goals for Advancement that the Board approved last year. There are eight goals divided into three general areas: 1) awareness, 2) engagement, and 3) financial. We have a lot of additional learning since these goals were established, and we recognized at the time that we were very early in our thinking about Awareness and Engagement. We had a good discussion with a lot of input from Committee members. Before finalizing a scorecard for Advancement, we identified additional work to be done by the Advancement Framework Planning Team, and the goals will be discussed again in our April meeting. We are very close to finalizing the financial goals and one Engagement goal, but expect some significant change in goal structure for awareness and some of the engagement goals. I expect we will recommend final financial advancement goals to the Board in April, but we may have further work to do for awareness and engagement at that time.

Mr. Wexner:

Any questions or comments? Thanks Gil. Ron, Physical Environment.

Mr. Ratner:

[Due to a recording malfunction, several minutes of this presentation were inaudible.]

...We clearly believe that we need a sort of timeframe for our planning, so we are really going to a context where we have a long-term, 15-year look to make sure that we are within the larger issues and that we are on board with these larger issues. We are breaking that down to a very specific five-year plan and then to an annual plan that will, of course, be reviewed and recalibrated on an annual basis.

We were only given the beginnings of this yesterday. The full report on this will be made in June. Again, one of the things that we are going to do is align the capital planning update to our fiscal year rather than where it had been at the first meeting of the calendar year, which made it uncoordinated with the actual financial planning and the fiscal year
February 10, 2012 meeting, Board of Trustees

planning. In June we will get a full report on that but I believe that all the tools are there. We know where we are at and what we need to do and, therefore, we can look at the amount of money we spend, which is very significant. We have well over $1.4 billion under way on campus currently just to give you an idea of context. It is a major effort and we have to make sure that we are not only achieving all of the smaller projects but that all the larger projects help us move forward towards the larger goals.

We then had a report on some of the specific initiatives that came out of the framework plan. One of them, which I find very significant, is the progress we have made on way-finding. Those of us who weren’t that familiar with the campus I have now begun to become familiar with it, but I still frequently get lost. I do not think there is anyone in this room who has not had the experience of getting lost on our campus, and we are trying to make a difference in that way. We have had four major directions, which we are currently very active with. One is to help re-define the regional context. In this regard we have had very good cooperation with ODOT, with the city, which are the scales with which we are looking at the region. We are looking at approaches to the University from both highways and major arteries and then within the campus itself at the larger scale of way-finding.

We are spending a lot of time focusing on the visitors’ experience, particularly something very mundane, which is parking. How do you get to a parking garage, how do you find your way within it and how do you get out of it and find your way to where you want to be on campus? We are looking at lots of things from a very active sort of GPS and technology upgrades to making sure that as we go through some capital planning programs in which we are updating a number of our parking facilities that we integrate way-finding within that so it is not negative where can’t you park but where can you park and how you get from here to there.

A lot of focus has been on the Medical Center as part of the overall capital budgets and the building that we are doing there. Each of those buildings has specifically targeted within it and the major Medical Center expansion has targeted within it obviously a series of way-finding initiatives, but we want to make sure those are coordinated with the context of how you find your way around the overall campus how you find your way to, though, and around the Medical Center so we are really doing the right job of integrating that and what we need to do from a University-wide perspective.

The last area is one that we have really begun to focus on, which is the arts district. We have a very significant arts district. We are making significant new investments in it. It is also interesting to hear from the Dean how important those arts initiatives have become within the University’s own sense of our educational initiatives. We need to make sure, particularly because this is a place where we intersect with the greater Columbus community and hopefully with the broader community across Ohio people come to the campus in order to participate in these extraordinary arts programs that we are sure that people are greeted and welcomed, know where they are and feel that they are very much welcomed and a part of the Ohio State campus.

I think we have very strong initiatives in those areas and we will report further on them. In fact, we will not need a report on them. You will see them in place. We then had a quick capital project update over the last calendar year. We have completed $110 million of projects. They were completed on time and on budget, which is an extraordinary achievement, particularly because they were done under the earlier contracting approach, which has now been changed so we were handicapped in a way that we will not be going forward.

We had a report on the progress of the Hale and South residential high-rises. They are on target for fall opening; however, we have had, as many people here know, a glitch in terms of the geo-thermal systems that we are putting in. Anybody who has looked at
parts of the Oval and wondered why there is still this sort of strange looking field of pipes that come up from portions of the Oval and from portions of what had been the Hale lot that is the geo-thermal wells. We have previously reported that we have had a problem with that. There was an underestimation based on simply not knowing exactly what was going on underground, which is not a-typical with construction, but as we got into the underground construction, got into drilling these wells, we found that we needed to change the drilling methodology that caused a complete reload with the contractor and the approach, so we are significantly behind in terms of time. However, we are on the schedule that was reset last year. The wells in the Hale lot will be completed in, I believe April, which will be able to service the initial opening of the facilities this fall. It will be almost through the spring of next year that we will be able to complete the other wells. Just to give you a sense, there are 450 geo-thermal wells that are each over 500 feet deep, so it is not a minor task.

We also spent a very short time talking about the river restoration. As you know, it supports a framework principle of expanding and refocusing our relationship to the river, particularly to create very active, open space along the river's edge. We are moving quite rapidly on Cannon Drive relocation, but the city itself is proceeding with the restoration and the Fifth Avenue dam removal. We will begin to see some real benefits and some new and, I think, very exciting open space along the river.

I might add, if you have seen the drawings that have been published, it shows this nice, bright, blue river. I don't believe that unless there is something new that is coming out of some of our research programs that we will be able to get that river quite like that, but it will be a significant restoration of what I think will be an exciting component of campus.

The last two items are that we had a report on the North Residential District planning that we are doing. We will have a full report to the Board in April. We have made some very significant progress. We have confirmed a lot of what we thought. We have begun to recognize that we can accomplish the program in a way that I think will be very exciting and will create an extraordinary new and refreshed district on campus. The other good news is that we believe we will be able to not use all of the land that we originally thought we would have to use, so there is some land that will be made available for other future University uses in context of the framework plan, and that we will be able to accomplish the full 6,200 beds, I believe is the number, in a way that will create the appropriate open space, recreational space, dining space, and a lot of the academic facilities we need to integrate in the student experience.

The last item is we had a report on the athletic facilities area where, I think with some leadership from Geoff Chatas and the Athletic Director; we realized that we are spending a lot of money. We wanted to look at this in a coherent way. The total cost of athletic facilities improvements over the next few years will be close to $40 million. It includes some very specific programs, which have already been brought through for approval, the indoor golf facility and basketball practice facilities, but it includes a series of other initiatives, new video board at the stadium, new lighting, new sound systems, and a whole series of maintenance and renewal items.

We decided to look at that in an overall context, but a lot of that is already gift funded. We decided we needed to take a better look at that, understand it within an entire context of the athletic department and what is being done. I think we have done that. We have our arms around the entire scope of what is happening and we will be coming forward with a more specific financial plan that relates to these improvements, I believe, in the June meeting.

That is the meeting we had. I think we made great progress in a number of different areas and, again, the staff is just doing an extraordinary job of accomplishing these things. I am particularly excited that Jay Kasey has really done a remarkable job of stepping into his new role and, I think, it has been seamless with the Medical Center. He
February 10, 2012 meeting, Board of Trustees

has not dropped any of his applications there, but he has picked up a whole series of new applications and is providing terrific leadership and partnership.

Mr. Wexner:

Thank you, Gil?

Dr. Cloyd:

Two comments and a question, Mr. Ratner. First of all, on the way-finding project, I think that is absolutely terrific. I was not at your meeting, but I had a chance to look at the materials and I think it is extraordinarily important for the engagement we want to create with Ohio State. When I think of getting around this campus, I reflect back to when I lived in Japan. I had a friend tell me one time, “You know if you never got off the wrong train station in Japan, you never rode a train.” I think if anyone says, “I have never been frustrated or lost on the Ohio State campus,” they have never tried to travel around the Ohio State campus. I think today I would describe it to the outsider as intimidating. We need to make it inviting, which I think is really a big deal from my perspective so I am really glad to see that project going forward.

The second thing was I had a chance to look at the materials of the new capital planning project and, again, I think that is another breakthrough. I really compliment you and your Committee and the University staff that has done it. This is going to bring such a better way to look at our total capital plans and understand what we are doing, and I just think it is going to make all of our work more effective and easier, so thank you for doing that.

I did raise one question, because we have some of these creative tools, particularly on space utilization, have we looked at if there is any way that we can protect that at all and make a commercial opportunity out of the software and the planning that we have put together on that. It seems like an outstanding tool that a lot of people would love.

Mr. Ratner:

We have raised that issue before. I do not know if Jay or anybody else could help with that, but I do not really know for sure, Gil, and it is certainly something that we should look at. I thought it was an excellent tool when it was presented to us, and yesterday I asked specifically if it is really being utilized. Does it work in terms of a dynamic tool, because many of these things are easy in presentation and just don’t actually work in terms of being something that can meet the daily needs of the University. They are telling me that it absolutely is—you are right that it could work for both large constituents of any sort by the way, whether private or public.

Dr. Cloyd:

It seems like it would be so outstanding if we could put some property around that and license it; I think it could be a big deal.

Mr. Ratner:

We should certainly look into that. I think we did have a discussion about that originally.

President Gee:

We are having a discussion about that. I am not quite certain where that is, but remember our friend Sasaki and we had that discussion when they developed that with us, and we have a strong proprietary right to it. It is the best of its kind, so whoever is back there, please make it happen. Thank you, Jay.
February 10, 2012 meeting, Board of Trustees

Mr. Kasey:

We will examine the opportunity to control and market this planning tool.

President Gee:

I think the question was how we have the Ohio State concept commercialized in the way that we are actually getting money from other institutions. They need to give us some.

Dr. Cloyd:

I would suggest we get Mr. Cummings engaged in this conversation.

Mr. Ratner:

That is perfect. I was just going to say that it will be one of our first successful commercialization efforts out of our new program, so I think we should certainly look at that. I am very impressed with how robust it is and how effective it has been, particularly in actual utilization over the last year or year-and-a-half.

Mr. Wexner:

So this is a joint venture between Physical Environment and Development? Are you guys hooked up? Medical Affairs. Alan?

Mr. Brass:

Thank you, Mr. Chair. Over the last three days, we have spent a lot of time on the Medical Center. The Medical Center Board of Trustees met Wednesday morning and, of course, we spent a number of hours on the Medical Center in the Medical Affairs Committee.

I would like to start by asking Steve Gabbe to comment on a couple of announcements that I think the Board would find very interesting. We had a presentation in Medical Affairs; we are not going to go into great depth, but on our MD/PhD program, I have asked Steve just to give the highlights of it because it is one of those programs that will allow our University to really move forward as it relates to the Medical Center so, Steve, with that then I will come back and finish up with a few other items.

Dr. Gabbe:

Thank you so much, Alan. Thank you for this opportunity. I wanted to bring to the Board’s attention a few exciting developments that have been happening across the University at the Medical Center. We were very pleased that we could join President Gee. He mentioned before how he surprises our distinguished faculty educators, and we were able to join President Gee when he surprised Dr. Michael Grever, the chair of our Department of Internal Medicine when he was named a University Distinguished Scholar. Mike has a remarkable career in Oncology and Experimental Therapeutics. I think when his family walked in along with President Gee, he realized something very special was going to happen that morning.

President Gee mentioned that PACT, Partners Achieving Community Transformation, had a wonderful kick off at East High School. That program is chaired by Fred Ransier, and I want to recognize Dawn Tyler Lee and Elizabeth Seely and Jerry Friedman who are working very hard to help us transform the east side community. As you know, we have committed $10 million to that effort to improve jobs and the economy in the community, to improve the neighborhoods, health and wellness of its citizens, education and housing. The very day after the PACT program was launched, we learned that the Columbus Metropolitan Housing Agency had received a $300,000 US Housing and
March 10, 2012 meeting, Board of Trustees

Urban Development Choice Neighborhoods Planning Grant that will be used to help our work in working with the community to plan that neighborhood.

If you have been by the Ross Heart Hospital in the evening, you will see that it is lit in red. This is to celebrate the red dress or Women's Health Month and Dr. Martha Gulati, who is the Sara Ross Soter Chair of Women's Cardiovascular Health, is going to be honored on February 15 with a major award from the American Heart Association. She is joining our Surgeon General and receiving that award, so it is a great honor.

We reported to the Medical Affairs Committee something we are very proud of and that is our efforts to improve patient satisfaction across our six hospitals and across our entire Medical Center. Our goal has been to reach the 90th percentile in patient satisfaction in the survey that is used around the country, and in the month of December we reached that goal.

It is great work by our nurses, physicians, and everyone on our team. The scores do fluctuate. We hope that we will stay at that 90th or go even higher, but that is something we have been working on for the past four years, so it is great to be there.

Alan mentioned the MSTP or MD/PhD program. We heard yesterday from Larry Schlesinger who, like Dr. Grever, was a Distinguished University Scholar; he received that award last year. Larry is the Chair of our new Department of Microbiology and Microbial Infection and Immunity. He also leads a University-wide program on Microbial Interface Biology. Ohio State, like most of the medical schools in the United States, has had an MD/PhD program for about 30 years. We train about four or five students each year. These are the students that are going to make the biggest difference in medical research in the future. They spend four years in medical school, and four years in the research laboratory. Generally, they will do two years of medical school, four years of research getting their PhD, and then return for the final two years of medical school.

Most of the programs in the country are self-funded, but this year we joined a very elite group of 45 medical schools in receiving funding for our program from the NIH. The only way you get on that list is to bump somebody off of it. It is not easy, but thanks to Larry and his team’s efforts, we did. This will allow us to train an additional six MD/PhD students each year and will approach the average for the nation which is 82 students across eight years.

If you are wondering what our aspirational peers have, they have about twice that number. These students are very special people. They come from the top universities. They have incredible research experience before they even enter medical school and, as I said, they will make a great difference. They also make a great difference in helping us to retain and recruit the best research faculty. They are always looking to have these young folks in their laboratories.

We have already seen a benefit from receiving this NIH grant. Our applications for the MSTP or MD/PhD program this year are up 20 percent. We have 140 applicants for ten positions.

Now, Larry also reported to us a new program they started. Some are undergraduate courses in creating excellence in science study. This is a program to bring in college students from across the country that have completed two years of college and who are committed to a career in science to give them an intense experience in research here at Ohio State. This is a real pipeline for future MSTP or MD/PhD students. We are focusing in this program on bringing in disadvantaged and underrepresented students so we can help diversify the ranks of the MD/PhDs.

Finally, I wanted the Board to be aware of another important activity at the Medical Center. We have had great successes over the past five years. We thank the Board of Trustees and the University leadership as we journey toward being one of the top
academic medical centers and national cancer institute comprehensive cancer centers in the country, but we know that health care is entering a turbulent time and already is in a turbulent time. This will change the way we care for our patients and the way we are reimbursed for that care. It will emphasize value, as it should, quality, safety and patient satisfaction. It will emphasize ambulatory care, so we have examined our long-range financial plan with a group of consultants, Kaufman Hall, twice, and now we are working with Deloitte so we can fully understand the stressors, the risks and the strategies we face going forward so we can continue to meet those metrics that are so important to us: days cash on hand, EBIDA, and debt service while continuing our model of an academic medical center that excels in research, patient care, and education. We will keep the Board apprised of those discussions.

Mr. Wexner:

Thank you.

Mr. Brass:

Thank you, Steve, very much. I will just say that with our MD/PhD program moving into NIH that puts us on a national platform, which is absolutely fantastic and very hard to do. We are now there, and these young men and women that are going through this program with an eight-year commitment for their schooling, funding becomes an issue. NIH will help with that, but for their four years of medical school, they still have to carry their tuition and room and board themselves, so that is something that we need to be looking at as far as scholarships because it will allow us to become one of the top academic medical systems in the country.

I want to share with you just a couple of other items. In October and November of this past year, I mentioned to you that we implemented and went fully online throughout the entire health care system. One of the issues that you have when you go fully online and change your entire billing systems as well as your electronic medical record systems is you have an AR blip. It is almost a given. If you look at the financials, you will notice that our days’ cash on hand dipped about four or five days. The way to interpret this is that we had about $200 million in accounts receivable over five days when we first flipped the switch. I am happy to tell you that within 60 to 70 days, it went from $200 million to $87 million, and our norm is $75 million, which is what we normally carry on the AR. Those days’ cash on hand should bounce right back. We know exactly what happened, and I will tell you our electronic system has been a total success on conversion, which is really important.

As it relates to our Medical Center expansion scorecard, the best thing I can tell you on that is it is on time and on budget. We are doing great on a $1.1 billion construction program right now. A couple things to highlight that might be of interest to you are that we will top out the building in May of this year. We have had a wonderful winter. Steel was going up quickly so we will be topping out that building if everything stays on schedule, as it is right now, in May of 2012. That will put us at the 50 percent mark of completion of this project.

We will be awarding three additional guaranteed max pricings through Turner and, upon those three GMPs being signed, 85 percent of our project is covered under guaranteed max pricing. When you get to that point and you are still on time and on budget and everything is rolling, you start to breathe a little easier; it just makes life a little better. We are doing very, very well.

85% of all of our GMPs will be awarded here very soon. The two that are remaining is the one that goes with the radiation oncology unit, which was the $100 million grant that came to our University, which we added on to the project. The other one is the interior program that will be awarded a GMP. The last thing left to be awarded, which we are doing internally, will be the furniture, equipment, computers and telephones.
Bottom line: our contingency is holding; our GMPs are looking good; the project is going very, very well. Today on the consent agenda you will see a request for $64.6 million, which will carry us to July with this project. Hopefully we will approve that.

The last item that I want to mention just so we do not get surprised is health care reform. I keep trying to make sure the Board is up to speed with this. There is another big hairpin turn coming on the reimbursement for the health system in this country. Right now, everybody understands, I hope, that we will be reimbursed on quality and satisfaction. You get readmits, you lose money, and you do not get paid. Starting in about 2014, the ambulatory side kicks in and patient satisfaction in an ambulatory setting starts to be monitored. The same thing goes for quality and satisfaction again.

In an organization as large as ours, where we are dealing with a couple million patients a year, this is a big deal. We are implementing a program now that will start with the employees of our University, which is going to be called the 48 hour policy. You need to see a primary care doctor, 48 hours you are in; a sub-specialist, 48 hours you are in; and soon thereafter diagnostics, 48 hours you are in. If we don’t do this right, and if we don’t get the model in right and if we don’t implement the methodology correctly, we will find ourselves not looking very good as it relates to the national platform and we will not be reimbursed, so we are a couple of years ahead of the curve. You may start hearing about this, but it is going to be the 48 hour policy at the Medical Center so I want you to be aware of that. More importantly, I want you to be aware that there is another wave coming at us as it relates to change in reimbursement at our Medical Center, so we have got to get ready for it.

With that, Mr. Chairman, I would be happy to answer some questions and that completes my report. Thank you very much.

Mr. Wexner:
This is a shy group today.

Mr. O’Dell:
I have a question about the 48 hour program. How does that work with doctor’s vacations? Is it just a substitute doctor?

Mr. Brass:
Steve, I want you to come back up, because I think I know the answer to this, but I would rather you be accountable for it.

Dr. Gabbe:
Well, thank you. The policy is that if you need to see a provider, you will be seen in 48 hours. Ideally, you will see the physician that you have asked to see. If he or she is unable to see you, another physician will. You may see a nurse practitioner but you will be seen for your problem within 48 hours. Every department has developed their plan to meet this and, on Wednesday morning our medical staff leadership voted this into our bylaws. This is how we will carry out our business.

This is a very important change and I am so glad that Alan described it in improving access to our care. After all, 90% of the best doctors in Columbus work at Ohio State, so we ought to be sure that our employees can see them.

President Gee:
I must say, Mr. Chairman, I thought it was a 48 minute rule. Whenever I follow up, I get right in.
February 10, 2012 meeting, Board of Trustees

Dr. Gabbe:

I am surprised it took that long for you.

Mr. Schottenstein:

Just a quick comment, I know that the hour is getting late. The presentation at Medical Affairs by Dr. Schlesinger about the joint MD/PhD program was probably one of the most inspirational and remarkable programs that we have heard about in a long time. He has breathed life into this with a passion that was very compelling at the presentation and the students that are participating in this, you hear about the best and the brightest which is an overused term, but they are close to our best and brightest. They are warriors and they make an eight year commitment to Ohio State. They do so much for us both for recruiting and retaining faculty and providing an underbelly for research, but they also do so much by what they become thereafter and what they give back to the University and Ohio. At some point, because it was so inspiring for us, perhaps we should have that group or Dr. Schlesinger come to the entire Board with the opportunity to hear firsthand about that work. It is really impressive.

Mr. Brass:

I think that is a great idea, Bobby. One of the things that I took away from that, and I know Dr. Gabbe and Dr. Lockwood really believe this, is that by having a program like this, it helps us recruit the best doctors out there because they want to know if you are an NIH MD/PhD program, if you have those resources, and if you are approved. I think this is a win-win, that’s why I said that it puts us on the national platform, so thank you for the comments, Bobby.

Mr. Wexner:

Thank you. Judge Marley.

Judge Marbley:

Mr. Chair, on February 9, Academic Affairs and Student Life met and began with an update on campus safety, which was led by Vice President for Student Life, Dr. Javaune Adams-Gaston and Senior Vice President for Administration and Planning, Jay Kasey. This arose because in the areas adjacent to campus where students are to live, last October witnessed an increase in crime such as burglary, assault, and armed robbery. Columbus and Ohio State public safety professionals say that there is an uptick in crime every fall. Although the number of crime notices issued in November was higher, the overall notices issued last year were consistent with the averages of the past five years.

Nonetheless, we took steps to enhance the safety in the University District including the following: President Gee appointed a multidisciplinary task force to suggest improvement. Secondly, with encouragement from Ohio State, the city of Columbus has increased patrols in the off-campus area in collaboration between OSU public safety and the Columbus Department of Public Safety. Police divisions are being explored as those discussions are ongoing, and we are looking at ways to beef up security and improve collaboration and response time.

Two additional vehicles have been purchased to allow the Student Safety Service to transport more students, and the University switched to a new crime notification system that significantly increased the number of students, faculty, and staff who receive alerts. A Buckeye Block Watch program has been created and lighting in off-campus neighborhoods is being improved. Though it is not possible to draw a direct cause and effect conclusion, we can say that since these changes were implemented, crime has declined with assaults, burglaries, and armed robberies all substantially down in December. That trend line from January has continued.
Our committee requested data to disaggregate the number of Ohio State students directly affected by these crimes from the population at large. We didn’t have the exact number of students who might have been affected in the numbers we received yesterday so that information is being gathered for us.

The second very important issue that we addressed yesterday was a briefing on the proposal for students to live on campus for their first two years at Ohio State. We call it the On-Campus Experience. As you know, it is not a housing issue; it is an on-campus experience issue. Whenever I am done, if Ron wants to comment on it, he is free to because he is spearheading a portion of that.

But we know from all of the data that first year retention, graduation rates, and a sense of engagement in the University are all enhanced when students live on campus. This is one of the initiatives that President Gee brought to us. For example, at Ohio State students who live in residence halls for two years have a substantially higher second year retention rate, 92%, than those students who move out of the halls after one year, 80.4%. The overall graduation rate for the University is 79.7%, close to 80%. When you just look at students who have lived in the residence halls for two years, however, that graduation rate becomes 88.2%. We know the students who live on campus have a higher graduation rate than students who never live on campus, 81% to 65%. The national survey of student engagement in 2010 shows that more than 50% of our students never interact with faculty members outside the classroom, nearly 30% only sometimes work with faculty on activities other than coursework, to only 17% of our students are engaging with faculty members on a regular basis outside the classroom. 36% of the students who have lived on campus report engaging with faculty on a regular basis, so over one-third.

Describing what she called a transformational residential experience, Dr. J. said that a two-year residency will be guided by the following principles: access or academic engagement with the University, community that is a variety of learning environments on campus, and self-awareness or co-curricular discovery and development.

During a student’s first year, the instances across these defining parameters would be on discovery in the University. In their second year, the instances would be on the student’s discovering their future. During their second year, she said, experiential stipends would be proposed to enhance the student experience through internships and assistance-ships as well as service learning, study abroad, and leadership opportunities. This would increase student-faculty engagement by providing a structure for faculty to work with students directly where they live in the University residential communities. If I may digress for a moment, one of the things that we have considered and one of the centerpieces of the on-campus experience is that faculty would be an integral part of that experience. Some would live there, but many would have activities centered in the residence halls, so you would increase the student-faculty contact and enhance the out of classroom learning experience.

We then had a report from Dr. Janet Reid, who provided a brief overview of a report on diversity at Ohio State. The report is simply a preliminary assessment by consultants Martin Davidson of the University of Virginia, Darden School of Business, and Dr. Alan Richter, who is out of New York and specializes in international diversity. We retained these consultants to study the University’s diversity profile. Phase one of this assessment covers students, faculty, staff, community, suppliers, and research. The consultants found that, when measured against global best practices in diversity and inclusion, Ohio State has done considerable work. Aspirations for diversity and inclusion are consistently high, though as with everything else, there is room for improvement. For example, while there are pockets of great leadership with regard to diversity and inclusion, there is not consistent leadership in this regard throughout the University.

The consultants found that we need to improve performance in diversity and inclusion education and training, recruitment, development, and advancement and customer
service. With the diagnostic phase now completed, the consultants will begin to generate strategies for enhancing the University’s diversity and inclusion footprint.

Then and finally, Mr. Chair, the Committee endorsed the following: the naming of the Lawrence and Isabel Barnett Center for Integrated Arts and Enterprise, the Barnett Theater and the Barnett Conference Room in Sullivant Hall, the naming of the Mary H. and J. Churchill Hodges Non-Invasive Imaging Center in the Ross Heart Hospital, the naming of the Keith B. Key Center for Student Leadership and Service in the Ohio Union, the naming of the Ralph Regula Plant and Animal Agrosecurity and Research Facility at Ohio Agricultural Research and Development Center Campus in Wooster, and the naming of the Fred Yenkin Clinical Exam Room in the Richard Ross Heart Hospital.

Then we endorsed a number of routine personnel matters and went into executive session.

Mr. Wexner:

Thank you. Questions, comments?

Mr. Ratner:

Just one quick comment. Judge referred to the work that’s been done on trying to put real definition around the student experience, the two-year experience. I have heard that report from Dr. J, and I am very enthusiastic about the kind of progress that has been made.

On the physical facility side, we are charged with trying to create great physical facilities, but I have often said that great architecture really requires a great client. If, as a client, you don’t articulate what your real goals and aspirations are, what kind of experience you want, what uses you want it to have, the architectural team, and I think we have an excellent team, but that team really wouldn’t stand a chance.

In fact, that work has really progressed to a great degree. I think when we get the full report to the Board and we all get to hear it and get to see what it is, both the Board and the community at large will begin to really understand the concepts that are driving our idea. It is really President Gee’s vision of creating a two-year experience that is really transformative. As that has been fleshed out, it has really begun to inform the work that we are doing on the physical side.

Again, this is a place where I think we have really got One University working well, and we have an integrated kind of planning model that is going back and forth between the ability to create a transformative experience in terms of the actual experience of the students and then the physical facilities that really accommodate that so I think we have made great progress and when we get this to the point when we are really able to fully flesh out to the entire Board and the community, I think everyone will be very thrilled with what we have been able to accomplish.

Mr. Wexner:

Thank you.

Judge Marbley:

I will also say that it has energized the faculty because it is a unique experience. As we noticed with the Medical Center, it just is one of those types of programs that I think will aid in our recruitment of top faculty and researchers.
February 10, 2012 meeting, Board of Trustees

Dr. Cloyd:

Judge Marbly talked when we reviewed this in the Committee yesterday. We spent a fair amount of time when Dr. J was outlining the power of creating more interactions between faculty and students. We have great students and great faculty, but the power of changing lives is so key that if we can facilitate that interaction that would be ideal. I couldn’t help but think that when the two students we recognized this morning were describing their experiences, would those have happened had they not had these wonderful faculty engagements? The answer is no, so it just seems that this is a tremendous opportunity for us to help our students in the development of their lives.

Mr. Wexner:

Thank you. Jeff?

Dr. Wadsworth:

Okay, the Finance Committee. It is late, and we had a very full agenda, Mr. Chairman. I am going to try to do it quickly.

Five items were presented for discussion, and there are eleven in the consent agenda. We did review, of course, the full financial update with Mr. Chatas. The sixth month period ended on December 31. In summary, the revenue for the University was up over the second quarter of the previous year by about 6% or $126 million, which was somewhat offset by a decline in state support of about $32 million.

Research funding remained strong, but we are monitoring it very closely because there are great uncertainties in the federal budget and in the state budget, so we will be following that carefully.

Operating expenses increased by about $100 million largely due to the fairly moderate salary increases and some early retirement incentives.

Our investment portfolio unfortunately showed a loss. We never like to see red ink; however, if we look at the benchmarks that the University uses, although we had a 4%, and these are unrealized loses, the benchmark loss was 11%, so this actually represents a silver lining in the performance of the portfolio. Both Mr. Chatas and Mr. Hook presented a deeper dive into the various components so we understood the various pieces within that.

Mr. Chatas also described a proposed change to the debt policy that is going to be worked over a period of time and will be brought back to this committee in April. We heard from Ms. Ready on construction projects. All that reported on time, budget and scope, so that was very positive. Then we moved to the eleven items on the consent agenda. I am going to give you one sentence on each.

The first had to do with the establishment of a $100 fee for distance learning. We looked at the various elements of that and felt that that was a fair assessment. We also heard from Ms. Ready on a proposed change to the policy on purchasing and competitive bidding to reflect changes from the approved state construction form. This sets the levels of which you have to go after competitive bids and so on.

The next three resolutions were presented by Ms. McCutcheon and relate to the amendments to the University’s 457B plan. These are mostly compliance and administrative changes and consolidation of various elements into the 457 plan and to make the plan comply with IRS regulations. The sixth resolution was mentioned already and that had to do with professional services contracts for various construction contracts that we have heard about on chilled water, agricultural engineering and also a basketball practice facility.
February 10, 2012 meeting, Board of Trustees

The seventh, eighth and ninth resolutions were presented by Mr. Foegler. They represent, respectively, the selling, the purchasing and the leasing of three pieces of property. We looked at the independent appraisals and believe the University is doing all the appropriate financial benchmarking, and those are good to go.

The tenth resolution represents the $64.6 million that my colleague, Alan, presented earlier, which is for the Medical Center expansion. Finally, the eleventh is the resolution to ratify the interim approval of the design phase of the indoor golf facility. This was something that was approved by the chair of the Finance Committee during the previous interim.

We did hit two more things, so that is the consent agenda. We have heard about the first one, which is a three year capital plan for athletics. I will not go back into that, but we did discuss the University creation of an athletic parking and pricing committee, which comprises nine members including our new chair, Mr. Schottenstein. This committee will engage a consultant and meet to look vigorously at the football and basketball ticketing pricing options by using appropriate benchmarks in the top 20 programs. They will review the budget and five to ten year forecasts for the Department of Athletics to propose recommendations to the full Board in the fall of this year for implementation of ticket prices in 2013.

That concludes my report, Mr. Chairman.

Mr. Wexner:

Thank you, Jeff.

Mr. Schottenstein:

I have a comment just to follow up on what Jeff said. The committee is going to look at not just ticket prices, but all sources of revenue in a comprehensive way that come in to our Athletic Department, be they from our contracts with Nike, Coca-Cola or IMG, to look at the entire scope of the Athletic Department budget to see ways to creatively enhance and build up revenues.

Mr. Wexner:

Any other questions, comments? Mr. Fisher.

Mr. Fisher:

Thank you, Mr. Chairman. In the spirit of recognizing rural America, the Agricultural Affairs Committee met at 7:30 this morning; and indeed, there is a lack of competition for that time slot as well, but I would like to keep in front of the Board our opportunity as a University and a society that food, energy, environment particularly on water quality, health, and wellness are major issues in a world that just reached seven billion people and is quickly growing on a path to nine billion plus people. I would encourage future participation from the Board in Agricultural Affairs and just say that we are about food, fiber, fuel, flowers, and fun.

We welcomed this morning Dr. Tony Forshey, who is the interim director at the Ohio Department of Agriculture. We also announced to the Committee President Gee and Provost Alutto’s announcement of the research committee chaired by Dean David Williams in Engineering for Bobby Moser’s replacement.

The overall structure of our meeting was to talk about the reinvention and reformulating of cooperative extension service driven both by technology and new ways to distribute information and also because of finances and budgeting. Under this new arrangement, which is pretty much in place now, we talked specifically about three subject areas this
morning. First, the Sub-Surface Energy Research Center, a collaboration of several disciplines here on campus, which is easier for me to understand that this is all about oil, gas and shale development in eastern Ohio. We talked about food processors. The number that we have in the state of Ohio exceeds 1,000 and this presents an opportunity for this to be a part of our economic develop and job creation by maintaining these institutes and adding new ones.

Lastly, we talked about water quality, specifically agricultural nutrients, and the fact that we have issues to deal with relative to phosphorous and nitrogen as it impacts, you have probably heard about, algae blooms and St. Mary’s, Lake Erie, and all of our Great Lakes. How do we deal with these issues, produce food and sustain clean water?

Lastly, we heard an update from the Ohio Agricultural Research and Development Center. You heard Judge Marbley talk about the PARR facility naming, and certainly we want to publicly recognize the contribution of Congressman Regula in helping us with all aspects of that facility, but particularly with the funding and his role as a Congressman in that district.

The greenhouses that were taken down by the tornado where the temporary greenhouses are up, we now have the plans in place to go ahead with the permanent replacement of the greenhouses. Overall, damage now from the tornado is at $28.8 million of which $17 million was in structural repairs. We should complete this summer a lot of the roof repairs and things that we are waiting for better weather to do, so things should be back to normal at the Ohio Agricultural Research and Development Center by the early fall.

Finally, we had a check presentation from Brent Porteus of Porteus Farms in Coshocton, Ohio, in memory of his wife, Debbie, who we lost to breast cancer. This was an effort in, as it was characterized, cultivating the cure, and it is a combination of the Porteus Farms reaching out to leadership in Ohio agriculture to work on cancer research.

Finally, I would like to ask Jerry, if he will, he very well summarized our work about extension and outreach this morning in the committee, and rather than for me to paraphrase it, I just ask Jerry to repeat that here if he would.

Mr. Jurgensen:

Thanks, Jack. The point that I made was both our Chairman and our President came up with the idea of branding our University as the engine for economic development in the state of Ohio, and to the extent that is true, then it seems to be that the railroad that that engine should run on is extension. The challenge is the classic challenge of perception versus reality. The perception is that extension exists solely for the farmers in the state of Ohio, and the reality is that there is not a single issue, challenge or opportunity that confronts any one of Ohio’s 88 counties or any single citizen in those 88 counties that is not informed by this University. Not a single issue, not a single opportunity.

The shale presentation was interesting. We have the oil and gas industry investing billions of dollars in the state of Ohio to extract this energy source. They would not have put the first nickel in if it were not for the help and involvement of Ohio State. Our scientists, our extension people, working with the landowners, working on leases, working on the environmental issues and concerns that derive from this activity, none of it happened without Ohio State. We are the only institution in the state of Ohio that has an on the ground, existing human-based information network that covers 100% of the state. Our challenge is to make sure that we are delivering 100% of the intellectual cargo of this University and not just the fruits of a single college. I think it even goes, President Gee, to where it is housed because where it is housed historically made a lot of sense but the unintended consequence of where it is housed is that it perpetuates misperception of what it is and it is way more than that.
President Gee:

I was just going to say that, first of all, that it is currently because of New Castle, Pennsylvania. Not only do we understand that, but I really appreciate your articulation of it. I also think that the opportunity that we have right now is to really make the case for the reinvention of the land grant mission based upon its traditions but based upon its new history, and that is precisely what we are doing. I love the articulation that we just heard from Jerry.

Mr. Wexner:

Thank you very much. Before we call the consent agenda, it is a reminder to all of us and I give my appreciation for the work that the committees do and what the whole Board does, and so much more has been done by the Board in committees. There are long meetings between the normally scheduled Board meetings, engagement with non-Trustees on most of these committees to get input and collaboration with the administration, faculty and staff; we have a very robust schedule and a lot of hours.

I was thinking this morning why I was so tired; it was because yesterday, we started at 8:30 and we ended at 8:30, so it was one of those 12 hour days. This morning Agriculture started at 7:30, so the hours are being put in. I think it is a good thing for us to take inventory in the work that we are doing. Not only is there scope in terms of across committees and across members of the Board, but the amount of energy and knowledge that is shared, how many things come together here, is quite remarkable. I think we should just pause a second to reflect on the work that is done and how good the work is that is in support of the University, the President, and, of course, the consent agenda.

President Gee:

Before I move to the consent agenda, Mr. Chairman, in our discussions yesterday, we realized that we had an opportunity, so it is my pleasure to offer for consideration a resolution regarding expansion of our student Trustees' full engagement in the Board's activities. Our General Assembly, as we speak, is considering two pieces of legislation to allow student Trustees full voting and other privileges at our public universities.

As you know, I have consistently supported this legislation given the experience we have had at this institution with our student Trustees. Brandon Mitchell and Evann Heidersbach, our current Trustees, exemplify the best of today's young people, and I just want to acknowledge that. They are deeply thoughtful, they are forward thinking, and they are clearly committed to this institution. They bring to the Board's discussions, the essential perspective of the very people whom we seek to serve, and they are not alone in possessing these qualities.

To a person, our student Trustees have been insightful, responsible, and engaged, so it is really important to recognize that. It is my honor to count them as my colleagues, and it is my hope that the Board will offer its favorable consideration on this resolution distributed for its consideration today. It will need a formal motion and a second.

Mr. Wexner:

This is by acclamation unanimous, I think.

Dr. Horn:

It is a roll call.

Upon motion of Mr. O'Dell, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O'Dell, Shumate,
February 10, 2012 meeting, Board of Trustees

Hicks, Fisher, Schottenstein, Brass, Ratner, Marbley, Kass, Reid, Jurgensen, and Smucker.

President Gee:

This will be deeply appreciated by our students and by students and parents around the state.

***

ACCEPTANCE OF REPORT ON COMPLIANCE ASSESSMENT AND ADOPTION OF RECOMMENDATIONS

Resolution No. 2012-48

Synopsis: Acceptance of Report on Compliance Assessment Results and Adoption of the Recommendations presented by Protiviti and Dewey & LeBoeuf.

WHEREAS the Audit and Compliance Committee of the Board of Trustees has been working diligently for the past eight months on a university-wide assessment of our compliance function; and

WHEREAS the University has undertaken this assessment with the assistance of two outside expert firms we engaged specifically for this purpose, Dewey & LeBoeuf and Protiviti, as well as an outstanding internal working group co-chaired by Geoffrey Chatas, Senior Vice President for Business and Finance and Chief Financial Officer, and Christopher Culley, Senior Vice President and General Counsel; and

WHEREAS the University’s goal is to ensure that our compliance programs and protocols represent a model for compliance among institutions of higher education; and

WHEREAS the work that has been completed to date has included a thorough review of the university’s current practices, its organizational structure, and benchmarking against both universities and financial/for profit institutions; and

WHEREAS the recommendations for a new structure are significant and represent real change that the University believes will significantly enhance existing compliance efforts and establish a more robust compliance process; and

WHEREAS the report will provide a framework for the future implementation of the compliance restructuring; and

WHEREAS the Audit and Compliance Committee will continue to oversee the implementation of the report’s recommendations:

NOW THEREFORE

BE IT RESOLVED, that the Report on Compliance Assessment and Recommendations prepared by Protiviti and Dewey & LeBoeuf be accepted and that the proposed recommendations contained in that report be adopted as a framework for commencing the University’s new compliance program.

(See Appendix XX for background information, page 453.)

Upon motion of Mr. Schottenstein, seconded by Judge Marbly, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbly, Kass, Jurgensen, Wadsworth, and Smucker.

***
February 10, 2012 meeting, Board of Trustees

ELECTION OF OFFICERS

Resolution No. 2012-49

Robert H. Schottenstein, Chair
Brian K. Hicks, Vice Chair
John C. Fisher, Vice Chair
David Horn, Secretary

Upon motion of Mr. Shumate, seconded by Judge Marbley, the Board of Trustees adopted the foregoing motion by acclamation of Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marley, Kass, Jurgensen, Wadsworth, and Smucker.

SUPPORT FOR STATE LEGISLATION REGARDING VOTING AND PARTICIPATION PRIVILEGES FOR STUDENT TRUSTEES

Resolution No. 2012-50

Synopsis: Support for state legislation regarding voting and participation privileges for student trustees.

WHEREAS the Ohio State University understands that the Ohio General Assembly has legislation before it that would grant student members of public university boards of trustees full voting and other participation privileges currently afforded to other trustees; and

WHEREAS the Ohio State University student trustee experience has been that its student trustees have consistently served the people of Ohio exceptionally well through their hard work, thorough preparation, and full engagement in the business of the board; and

WHEREAS Ohio State University’s student trustees have consistently represented the best interests of the people of Ohio and the entire university community:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees wishes to express its support for state legislation which would provide student trustees full voting and participation privileges afforded to other University trustees.

Upon motion of Mr. O’Dell, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marley, Kass, Reid, Jurgensen, and Smucker.

***

CONSENT AGENDA

President Gee:

Today we have a total of 23 resolutions on the consent agenda. I would like to note that you have received an amended resolution for item 10, and resolution 14 has been removed, so we are seeking approval for the following:

THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
RATIFICATION OF COMMITTEE APPOINTMENTS 2011 - 2012

Resolution No. 2012-51

BE IT RESOLVED, That the Committee appointments for 2011-12 are as follows:

380
February 10, 2012 meeting, Board of Trustees

Academic Affairs and Student Life Committee:
Algenon L. Marbley, Chair
Brian K. Hicks, Vice Chair
Linda S. Kass
Janet B. Reid
Clark C. Kellogg
Evann K. Heidersbach
G. Gilbert Cloyd (Charter Trustee)
Robert M. Duncan
Kevin G. Boyle (Faculty Member)
Leslie H. Wexner (ex officio)

Advancement Committee:
G. Gilbert Cloyd, Chair (Charter Trustee)
Linda S. Kass, Vice Chair
Brian K. Hicks
Clark C. Kellogg
Timothy P. Smucker
Evann K. Heidersbach
Corbett A. Price (Charter Trustee)
John W. Kessler
Philip J. Duncan
NANCY J. KRAMER
Michael Clark (Alumni Assoc Mbr)
Donald H. Schraver (Alumni Assn Member)
John B. Gerlach (Foundation Brd)
David T. Kollat (Foundation Brd)
Leslie H. Wexner (ex officio)

Agricultural Affairs Committee:
John C. Fisher, Chair
William G. Jurgensen, Vice Chair
Timothy P. Smucker
Evann K. Heidersbach
James J. Zehringer (ex officio)
Leslie H. Wexner (ex officio)

Audit and Compliance Committee:
Robert H. Schottenstein, Chair
John C. Fisher, Vice Chair
Ronald A. Ratner
Algenon L. Marbly
William G. Jurgensen

Finance Committee:
Jeffrey Wadsworth, Chair
Alan W. Brass, Vice Chair
Alex Shumate
Walden W. O'Dell
John C. Fisher
Robert H. Schottenstein
Ronald A. Ratner
William G. Jurgensen
Corbett A. Price (Charter Trustee)
Jo Ann Davidson
Leslie H. Wexner (ex officio)

Medical Affairs Committee:
Alan W. Brass, Chair
Jeffrey Wadsworth, Vice Chair
Brian K. Hicks
Robert H. Schottenstein
Algenon L. Marbly
Janet B. Reid
Corbett A. Price (Charter Trustee)
Leslie H. Wexner (ex officio)

Physical Environment Committee:
Ronald A. Ratner, Chair
William G. Jurgensen, Vice Chair
Walden W. O‘Dell
Clark C. Kellogg
Evann K. Heidersbach
Leslie H. Wexner (ex officio)

DISTINGUISHED SERVICE AWARDS
Resolution No. 2012-52

Synopsis: Approval of the University's 2012 Distinguished Service Awards is proposed.

WHEREAS the President's Council, upon the recommendation of the Committee on Distinguished Service Awards, nominated and recommended the following for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:

Brandon N. Mitchell
James Gilmour
LAWRENCE A. HILSHEIMER
Leslie H. Wexner (ex officio)

Committee on Trusteeship:
Alex Shumate, Chair
Janet B. Reid, Vice Chair
John C. Fisher
Linda S. Kass
Brandon N. Mitchell
G. Gilbert Cloyd (Charter Trustee)
Leslie H. Wexner (ex officio)

NANCY J. KRAMER
WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

NOW THEREFORE

BE IT RESOLVED, that the 2012 Distinguished Service Awards be approved for awarding as designated above.

***

HONORARY DEGREES

Resolution No. 2012-53

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of honorary degrees as listed below:

Donald Harris  Doctor of Music
Ray Jackendoff  Doctor of Humane Letters
Tobin J. Marks  Doctor of Science
Thomas Pollard  Doctor of Science
Reiner Rummel  Doctor of Science

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

***

DEGREES AND CERTIFICATES

Resolution No. 2012-54

Synopsis: Approval of Degrees and Certificates for winter quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 18, 2012, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.
February 10, 2012 meeting, Board of Trustees

NAMING OF THE CENTER FOR INTEGRATED ARTS AND ENTERPRISE, THE THEATRE, AND THE CONFERENCE ROOM

Resolution No. 2012-55

In Sullivant Hall, the College of Arts and Sciences:
“Lawrence and Isabel Barnett Center for Integrated Arts and Enterprise”
“Barnett Theatre”
“Barnett Conference Room”

Synopsis: The naming of the “Lawrence and Isabel Barnett Center for Integrated Arts and Enterprise,” “Barnett Theatre,” and “Barnett Conference Room” in Sullivant Hall, located at 1813 North High Street on the OSU Columbus campus, will be the new front door to the new University Arts District.

WHEREAS the generosity of Isabel and Lawrence Barnett has made a lasting impact on the arts at The Ohio State University by providing educational opportunities to outstanding students, unique annual events for distinguished visiting lecturers, and a biannual symposium on topics related to public and non-profit sector policies and practices; and

WHEREAS the Lawrence and Isabel Barnett Charitable Foundation has provided significant contributions to the College of Arts and Sciences for The Lawrence and Isabel Barnett Fellowship Fund and The Lawrence and Isabel Barnett Distinguished Visiting Professor Fund in Arts Policy and Administration; and

WHEREAS the Lawrence and Isabel Barnett Charitable Foundation has provided contributions to the College of Arts and Sciences for Sullivant Hall renovations designated to reopen in fall 2013; and

WHEREAS the renovated Sullivant Hall is the future home of the Department of Dance, the Department of Art Education, and the Advanced Computing Center for Arts and Design; and

WHEREAS a new center for integrated arts and enterprise will be located in the renovated Sullivant Hall upon the Hall’s opening:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Center, Theatre and Conference Room in Sullivant Hall be temporarily named the “Lawrence and Isabel Barnett Center for Integrated Arts and Enterprise,” “Barnett Theatre,” and “Barnett Conference Room” during the Hall’s renovation and officially be named upon the Hall’s reopening scheduled for the fall of 2013.

***

NAMING OF THE NON-INVASIVE IMAGING CENTER

Resolution No. 2012-56

In the Richard M. Ross Heart Hospital, the Medical Center:
The Mary H. and J. Churchill Hodges Non-Invasive Imaging Center

Synopsis: The naming of the Non-Invasive Imaging Center in the Richard M. Ross Heart Hospital, located at 452 West 10th Avenue, Columbus, Ohio 43210 on the Medical Center campus is requested. The Richard M. Ross Heart Hospital was recognized in the 2011
February 10, 2012 meeting, Board of Trustees

Survey by *U.S. News and World Report* as a leader in cardiology and heart surgery, ranking 24th out of nearly 500 hospitals around the country.

WHEREAS the Richard M. Ross Heart Hospital is a state-of-the-art facility for heart and vascular procedures; and

WHEREAS Mary and Churchill Hodges have provided contributions to the Ross Heart Hospital to the Mary H. and J. Churchill Hodges Prevention Program Fund for a clinical prevention program in cardiovascular disease and cancer prevention; and

WHEREAS Mary and Churchill Hodges have also provided significant contributions to the Medical Center:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Non-Invasive Imaging Center in the Richard M. Ross Heart Hospital be named The Mary H. and J. Churchill Hodges Non-Invasive Imaging Center.

***

**NAMING OF THE CENTER FOR STUDENT LEADERSHIP AND SERVICE SUITE**

Resolution No. 2012-57

In the Ohio Union:
The Keith B. Key Center for Student Leadership and Service

Synopsis: The naming of the Center for Student Leadership and Service Suite in the Ohio Union, located at 1739 N. High Street on the Columbus campus is requested. The Ohio Union is a premier facility that meets the changing needs of the college student by serving as a timeless center of activity, community dialogue, and learning.

WHEREAS the Center for Student Leadership and Service offers programs, resources, and services for individual students and student groups to connect with leadership and service initiatives, engage with student organizations, advance their learning, and create lasting memories in one convenient location; and

WHEREAS Keith B. Key has committed to provide significant contributions to the Ohio Union to establish a new program dedicated to Social Entrepreneurship within the Center for Student Leadership and Service:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Center for Student Leadership and Service in the Ohio Union be named The Keith B. Key Center for Student Leadership and Service.

***

**NAMING OF THE PLANT AND ANIMAL AGROSECURITY RESEARCH (PAAR) FACILITY**

Resolution No. 2012-58

At the OARDC Campus in Wooster, Ohio:
Ralph Regula Plant and Animal Agrosecurity Research Facility
February 10, 2012 meeting, Board of Trustees

Synopsis: The naming of the Plant and Animal Agrosecurity Research (PAAR) Facility, located at 1345 Ferguson Road on the OARDC Campus in Wooster, Ohio, allows researchers at Ohio State University’s Ohio Agricultural Research and Development Center to study microscopic organisms that present serious health risks to plants and food-producing animals and that could also cause undue economic hardship to Ohio and the nation.

WHEREAS the Plant and Animal Agrosecurity Research (PAAR) Facility is the only facility in Ohio and one of only two nationally with capacity for both plant and animal research at the BSL-3 and BSL-3 Ag safety levels; and

WHEREAS Ralph Regula was instrumental in acquiring federal funding for the design, engineering, and construction of the Plant and Animal Agrosecurity Research (PAAR) Facility; and

WHEREAS he represented the 16th District of Ohio in the United States Congress for 36 years, making him the longest-serving Congressman with unbroken service in Ohio history with 18 consecutive terms; and

WHEREAS Representative Regula is a champion of the State of Ohio, especially the 16th District of which Wayne County and Wooster are a part:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Plant and Animal Agrosecurity Research Facility on the OARDC Campus in Wooster, Ohio, is to be named the Ralph Regula Plant and Animal Agrosecurity Research Facility.

***

NAMING OF THE CLINICAL EXAM ROOM
Resolution No. 2012-59

In the Richard M. Ross Heart Hospital, the Medical Center:
The Fred Yenkin Clinical Exam Room

Synopsis: The naming of the Clinical Exam Room in the Richard M. Ross Heart Hospital, located at 452 West 10th Avenue, Columbus, Ohio 43210 on the Medical Center campus is requested. The Richard M. Ross Heart Hospital was recognized in the 2011 survey by U.S. News and World Report as a leader in cardiology and heart surgery, ranking 24th out of nearly 500 hospitals around the country.

WHEREAS the Richard M. Ross Heart Hospital is a state-of-the-art facility for heart and vascular procedures; and

WHEREAS Merom and Judith Brachman and Cynthia Levinson have provided contributions to the Ross Heart Hospital General Building Fund for construction of the Ross Heart Hospital to include planning, design, and construction plant fund; and

WHEREAS Merom and Judith Brachman have also provided significant contributions to the Medical Center:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Clinical Exam Room in the Ambulatory Care Center in the Richard M. Ross Heart Hospital be named The Fred Yenkin Clinical Exam Room.
AMENDED PERSONNEL ACTIONS

Resolution No. 2012-60

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the November 4, 2011, meeting of the Board, including the following Appointments, Reappointments, Appointments/Reappointments of Chairpersons/Directors, Professional Improvement Leave, Professional Improvement Leave, Change in Dates, Professional Improvement Leave, Cancellation, Emeritus Titles, and Promotion, Tenure, and Reappointment, offcycle appointment be approved.

Appointments

Name: MELINDA D. CHURCH
Title: Vice President of Communication and Special Assistant to the President
Office: President
Effective: December 1, 2011

Name: MICHAEL A. CUNNINGHAM
Title: Acting Dean and Director
Office: The Ohio State University, Lima
Effective: November 15, 2011

Name: JEFF M.S. KAPLAN
Title: Senior Vice President for Advancement and Special Assistant to the President
Office: President
Effective: September 1, 2011

Reappointments

Name: BOBBY D. MOSER
Title: Vice President
Office: Agricultural Administration
Title: Dean
Office: College of Food, Agricultural, and Environmental Sciences
Effective: July 1, 2011

Name: PETER T. WARD
Title: Professor (The Richard M. Ross Chair in Management)
College: Fisher College of Business
Term: November 1, 2011 through October 31, 2016

Appointments/Reappointments of Chairpersons/Directors

ERIC M. ANDERMAN, Director, School of Educational Policy and Leadership, effective January 1, 2012, through June 30, 2016.

MICHAEL B. CADWELL, Director, Knowlton School of Architecture, effective July 1, 2012, through May 31, 2016.

STUART L. COOPER**, Chair, Lowrie Department of Chemical and Biomolecular Engineering, effective July 1, 2012, through May 31, 2016.

RONALD S. KENSINGER, Chair, Department of Animal Sciences, effective January 1, 2012, through June 30, 2015.

CAROLYN J. MERRY**, Chair, Department of Civil and Environmental Engineering and Geodetic Science, effective July 1, 2012, through May 31, 2013.
February 10, 2012 meeting, Board of Trustees

AHMET SELAMET, Chair, Department of Mechanical and Aerospace Engineering, effective July 1, 2012, through May 31, 2016.

PHILIP J. SMITH, Interim Chair, Department of Integrated Systems Engineering, effective December 1, 2011, through August 31, 2013.

SETH B. YOUNG, Interim Chair, Department of Aviation, effective January 1, 2012, through June 30, 2012.

**reappointment

Professional Improvement Leave

DOUGLAS DOOHAN, Professor, Department of Horticulture and Crop Science (Wooster), effective Winter Quarter and Spring Quarter 2012.

Professional Improvement Leave, Change in Dates
JOHN C. LIPPOLD, Professor, Department of Materials Science and Engineering, from Winter Quarter and Spring Quarter 2012, to Spring Semester 2013.

Professional Improvement Leave, Cancellation
JULIA F. ANDREWS, Professor, Department of History of Art, effective Winter Quarter and Spring Quarter 2012.

Emeritus Titles

MAUREEN AHERN, Professor, Department of Spanish and Portuguese, effective July 1, 2012.

MARILYN J. BLACKWELL, Professor, Department of Germanic Languages and Literatures, effective April 1, 2012.

PACKIANATHAN CHELLADURAI, Professor, School of Physical Activity and Educational Services, effective June 1, 2012.

DONNA A. CANIANO, Professor, Department of Surgery, effective December 1, 2011.

DONALD H. DEAN, Professor, Department of Biochemistry, effective July 1, 2012.

BRENDA L. DERVIN, Professor, School of Communication, effective April 1, 2012.

WOODBRIDGE A. FOSTER, Professor, Department of Evolution, Ecology, and Organismal Biology, effective January 1, 2012.

SALVADOR GARCIA, Professor, Department of Spanish and Portuguese, effective July 1, 2012.

REBECCA M. KANTOR-MARTIN, Professor, School of Teaching and Learning, effective January 1, 2012.

LYDIA C. MEDEIROS, Professor, Department of Human Nutrition, effective January 1, 2012.

NEIL G. JACOBS, Professor, Department of Germanic Languages and Literatures, effective April 1, 2012.

RICHARD C. PRATT, Professor, Department of Horticulture and Crop Science, effective February 1, 2012.
February 10, 2012 meeting, Board of Trustees

FRANKLIN H. PROANO, Professor, Department of Comparative Studies (Marion), effective September 1, 2012.

CLAIRE C. ROBERTSON, Professor, Department of History, effective July 1, 2012.

DOUGLAS A. RUND, Professor, Department of Emergency Medicine, effective February 1, 2012.

RICHARD A. BRADLEY, Associate Professor, Department of Evolution, Ecology, and Organismal Biology (Marion), effective October 1, 2012.

ALEXIS C. COLLIER, Associate Professor, Department of Psychology, effective January 1, 2012.

CHARLES W. GOOD, Associate Professor, Department of Evolution, Ecology, and Organismal Biology, effective December 1, 2011.

GEORGE H. HINKLE, Associate Professor, College of Pharmacy, effective January 1, 2012.

NICOLETTE N. MCNEELY, Associate Professor, University Extension, effective February 1, 2012.

GOLDEN JACKSON-MERGLER, Associate Professor, Department of Consumer Sciences, effective February 1, 2012.

WILLIAM L. SMEAD, Associate Professor, Department of Surgery, effective February 1, 2012.

PHILIP L. SMITH, Associate Professor, School of Educational Policy and Leadership, effective February 1, 2012.

BARBARA S. THOMSON, Associate Professor, School of Teaching and Learning, effective February 1, 2012.

STANLEY G. VERMILYEA, Associate Professor, College of Dentistry, effective February 1, 2012.

PHEORIS WEST, Associate Professor, Department of Art, effective January 1, 2012.

SHARON A. WEST, Associate Professor, School of Communication, effective October 1, 2012.

Promotion, Tenure, and Reappointment (off cycle)

COLLEGE OF FOOD, AGRICULTURAL AND ENVIRONMENTAL SCIENCES

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Erbaugh, Mark, Extension, November 1, 2011

***

RESOLUTIONS IN MEMORIAM

Resolution No. 2012-61

Synopsis: Approval of Resolutions in Memoriam is proposed.
February 10, 2012 meeting, Board of Trustees

BE IT RESOLVED, That the Board of Trustees adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

H. Joyce Coures

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 21, 2011, of H. Joyce Coures, Assistant Professor Emeritus in the Ohio State University Extension.

Ms. Coures was born December 4, 1936, in Waverly, Ohio. She received her Bachelor of Science in Home Economics degree in 1959 from The Ohio State University, and an M.E. degree in home economics education from Miami University in 1977.

Professor Coures began her Extension career in Ohio in July 1978 as the county extension agent, home economics in Preble County. In 1993, she became the county extension agent, home economics in Butler County. She was awarded emeritus status upon her retirement on January 31, 1999.

Ms. Coures’ work with clothing, home management, nutrition projects, and workshops demonstrated that she was a truly dedicated teacher for Extension clientele. She was a member of and served on many committees of several professional organizations. Joyce was a piano teacher and an artist (painter), and she loved to garden and travel.

On behalf of the University community, the Board of Trustees expresses to the family of Assistant Professor Emeritus H. Joyce Coures its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

Walter Fredric Hink

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 23, 2011, of W. Fredric Hink, Professor Emeritus in the Department of Entomology.

Professor Hink received his Ph.D. degree at The Ohio State University and, after spending several years in industry, he returned to his alma mater as an assistant professor of Entomology and quickly ascended the ranks to professor.

Professor Hink taught courses both in general entomology for lower level students, as well as a course in his specialty of insect pathology for graduate students. He entered the department at a time when the sub-discipline of insect pathology was just beginning and, together with his own Ph.D. mentor, Professor John Briggs, and Professor Gordon Stairs, helped to form a unique center of excellence for insect pathology at Ohio State. Many of the students trained in this area went on to major research and teaching positions throughout the United States and elsewhere.

The work he performed during his Ph.D. studies was foundational in that it was the first demonstration showing that insects could generate an immune response. Insect immunity differs from immunity in humans but, prior to his work, it was assumed that insects did not have this capacity. An impressive body of important work on insect immune responses followed Professor Hink’s discovery, culminating in the awarding of the 2011 Nobel Prize in Physiology and Medicine to Jules Hoffmann from France for his elucidation of the molecules in the immune pathway of insects, a pathway that provided a template for immune studies of humans.
February 10, 2012 meeting, Board of Trustees

In addition to his cutting-edge work on insect immune responses, Professor Hink pioneered techniques for culturing insect cells in vitro. Several currently used insect cell lines and culture media bear his name. This technology was particularly important for new biomedical breakthroughs, including the large-scale industrial production of interferon and other medicines of importance to human health.

Professor Hink was well known within the department for his competence and ability to manage important assignments. Many of the strategic plans and major departmental documents prepared during his tenure reflected his guidance. He served many years as chair of the Graduate Committee for the Department of Entomology. His was known for his fairness, high standards, and smooth-running meetings. Clearly, Professor Hink was one of the stars in the Department of Entomology.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus W. Fredric Hink its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Louis Malspeis

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 24, 2011, of Louis Malspeis, Professor Emeritus in the College of Pharmacy.

Professor Malspeis received a B.S. in Pharmacy degree from Rutgers University in 1949 and a Ph.D. degree in chemistry from the University of California in 1953. His academic career began in 1953 as an assistant professor in the College of Pharmacy at Columbia University in New York City, and he became a professor at Columbia in 1962. Professor Malspeis joined the faculty of the College of Pharmacy at The Ohio State University in 1965, teaching and expanding his research in pharmaceutical chemistry. He taught courses in pharmaceutical chemistry and analysis, chemistry and kinetics in pharmaceutical systems, physical pharmacy, drug metabolism, and radioisotope tracer techniques in pharmaceutical research.

The major research focus of Professor Malspeis was the development of therapeutic agents for the treatment of cancer, and his research focused on preclinical pharmacology studies on new anticancer agents. He was instrumental in the development of several anticancer drugs, including merbarone, anthracycline antibiotics, azacytidine, fludarabine phosphate, 2'-deoxycoformycin, flavone acetic acid, and flavopiridol. Professor Malspeis was involved in the establishment of the OSU Comprehensive Cancer Center and provided major leadership in experimental therapeutics during the early development of the cancer center. Upon his retirement in 1990, he was named Professor Emeritus.

In 1990, Professor Emeritus Malspeis joined the Division of Cancer Treatment, National Cancer Institute, Bethesda, Maryland, as the chief of the Laboratory of Pharmaceutical Chemistry. His laboratory performed preclinical pharmacokinetic and pharmacology studies on new anticancer agents developed at NCI. Professor Emeritus Malspeis retired from NCI in 1995.

Among many honors received, Professor Malspeis was elected as a Fellow of the American Association of Pharmaceutical Scientists. He authored over 75 publications in pharmaceutical chemistry, cancer research, and related fields. He mentored many students and postdoctoral researchers, and many would develop their own cancer research programs. Professor Malspeis is remembered as a leader in the development of the field of pharmaceutical chemistry and cancer research in the College of Pharmacy, the University, and across the nation.
February 10, 2012 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Louis Malpeis its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Wilbur A. Rapp

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 14, 2011, of Wilbur A. Rapp, Professor Emeritus in the Department of Finance in The Max M. Fisher College of Business.

Professor Rapp was born in Ironton, Ohio, on September 24, 1933. After serving in the United States Army during the Korean War he received his bachelor's degree from Ohio University in 1960, an M.B.A. degree from the University of Virginia's Darden School of Business in 1962, and his Ph.D. degree from Northwestern University's Kellogg School of Management in 1966.

Dr. Rapp was a member of The Ohio State University faculty for 25 years, retiring in 1988, He served as a consultant for numerous savings and loans throughout the United States and served on the board of directors for several of them. He developed an asset and liability management program that was used on the national level and was sponsored by the U.S. Savings and Loan League for 25 years. These activities reflected his scholarly interest in the areas of financial management of savings and loans and commercial banks.

Highly regarded for his contributions in the classroom, Professor Rapp was recognized for outstanding teaching by the Undergraduate Student Forum in 1975. He was recognized by students as a rigorous and demanding teacher who tested their decision-making and analytical skills in the classroom. One former student noted in a letter to Dr. Rapp that "the training in organization of our time and energy, in establishing priorities, in communication, and in cooperation with and responsibility to fellow workers" was "by far the most beneficial asset of my college education."

In addition to serving students through direct classroom instruction, Professor Rapp developed several case studies to be used as a basis for discussion in various undergraduate classes as well as in executive development (now Executive Education) programs.

Faculty colleagues elected Dr. Rapp to the Graduate Council where he served on the curriculum committee.

He offered executive and personnel development training programs and taught asset and liability management programs in the federal home loan bank system for 15 years, including programs designed specifically for the Federal Home Loan Banks of Boston, Atlanta, Pittsburgh, Cincinnati, Chicago, San Francisco, and Seattle.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Wilbur A. Rapp its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Marcus H. Sandver

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 18, 2011, of Marcus H. Sandver, Professor Emeritus in the Department of Management and Human Resources in The Max M. Fisher College of Business.
Professor Sandver was born in Bethesda, Maryland, on August 13, 1949. He grew up in Silverton, Oregon, and earned his B.A. degree in economics from Pacific Lutheran University in 1970, his M.A. degree in labor relations from the University of Colorado in 1973, and his Ph.D. degree in labor relations from the University of Wisconsin in 1976.

Dr. Sandver became a member of The Ohio State University faculty as an assistant professor in 1976 and served for 35 years before retiring in June of 2011. He received tenure in 1982 and was promoted to full professor in 1991.

His primary areas of research interest included collective bargaining, mediation, and compensation issues. Professor Sandver authored his first book, Labor Relations: Process and Outcomes, in 1987. He made numerous presentations at academic conferences, and received two Fulbright Professorships to present at Istanbul University and Marmara University. During his career he was actively involved in over 90 state and regional arbitrations and fact-findings.

Marc provided significant service to the University. Although too extensive for a complete listing, his contributions included membership on the University Senate in various capacities from 1994-2007, participation in University-wide orientation sessions, service to no fewer than five Graduate School committees, and appointment to several University-level committees related to benefits, salaries, and employment disputes. In 1991 he began a three-year term as Ph.D. program chair in the Fisher College of Business and served as acting chair of the Department of Management and Human Resources in 1988.

Professor Sandver had planned to return to the classroom as an Emeritus Professor and was scheduled to teach a course in human resources negotiations during autumn quarter of 2011.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Marcus H. Sandver its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

***

UNIVERSITY FOUNDATION REPORT
Resolution No. 2012-62

Synopsis: The University Foundation Report as of December 31, 2011, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the Vig/Williams Endowed Chair in Orthodontics and The Chief Justice Thomas J. Moyer Professorship for the Administration of Justice and Rule of Law; the establishment of forty-six (46) named endowed funds; and the revision of five (5) named endowed funds; and the closure of two (2) named endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Foundation as of December 31, 2011, be approved.
To: The OSU Medical Center Autism Endowment Fund at Nisonger Center

Establishment of Named Endowed Chair

Vig/Williams Endowed Chair in Orthodontics

(Established with gifts from alumni and friends to honor Dr. Katherine Vig and Dr. Benjamin Williams; used to provide salary and program support to a distinguished faculty member in the Section of Orthodontics in the College of Dentistry) (grandfathered)
February 10, 2012 meeting, Board of Trustees

Establishment of Named Endowed Professorship

The Chief Justice Thomas J. Moyer Professorship for the Administration of Justice and Rule of Law
(Established with memorial gifts from friends, family, and colleagues; used to support a professorship position at the Moritz College of Law)
$1,002,000.00

The Keith and Linda Monda International Experience Scholarships Fund
(Established with gifts from Keith D. and Linda L. Monda; used to provide scholarships for students in the College of Arts and Sciences to participate in study-abroad programs)
$1,010,781.25

The Stanley D. and Joan H. Ross Chair Fund in Neuromodulation
(Established with gifts from Stanley D. and Joan H. Ross; used for a chair position supporting a physician faculty member in the field of brain neuromodulation in the Department of Neurological Surgery)
$1,000,000.00

The Ann W. La Fontaine and John Garfield Williams Distinguished Scholars Endowment Fund
(Established with gifts from the estate of Ann W. La Fontaine; used to provide merit-based scholarships)
$500,000.00

The Wandell Family Football Defensive Coordinator Endowment Fund
(Established with a gift from Deborah and Keith Wandell; to supplement costs of funding defensive coordinator positions for the football program)
$392,105.48

The Lloyd L. Mambourg Agriculture Student Support Endowment Fund
(Established with funding from a charitable remainder trust created by Lorayne G. Mambourg; used to support scholarships for students attending the College of Food, Agricultural, and Environmental Sciences)
$266,833.00

The Hugh B. and Marie Carr Williams Distinguished Scholars Endowment Fund
(Established with gifts from the estate of Ann W. La Fontaine; used to provide merit-based scholarships)
$200,000.00

The Sally Lee Huston Endowed Scholarship Fund in the College of Veterinary Medicine
(Established with an estate gift from Sally Lee Huston; to provide scholarship support for outstanding students in the College of Veterinary Medicine from Clinton County, Ohio)
$161,073.05

Establishment of Named Endowed Funds

The Ruth C. Bailey Endowed Award Fund for Naturalized American Students
(Established with a gift from Mr. Vincenzo Ferranti; used to further the mission of the Office of Diversity and Inclusion by providing scholarships to students who are foreign born, naturalized American citizens)
$100,000.00

The Mary Beth Fontana Wise M.D. Faculty Development and Medical Education Fund
(Established with gifts from Dr. Mary Beth Fontana Wise; used for the Master Teacher program in the College of Medicine)
$100,000.00
February 10, 2012 meeting, Board of Trustees

Ronald E. Myers, DDS, Diplomate, American Board of Prosthodontics, Scholarship Fund
(Established with an estate gift from Dr. Ronald E. Myers and Ms. Kathleen Ann Kiefer; used to provide scholarships for students pursuing a D.D.S. degree)

The Albert M. Wiggins, Jr. Dean’s Discretionary Fund
(Established with a charitable gift annuity from Albert M. Wiggins, Jr.; used by the dean of the College of Business)

The Al Wiggins Men’s Swimming Scholarship Fund
(Established with a charitable gift annuity from Albert M. Wiggins, Jr.; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the men’s swimming team)

Lois Kemp Shinkle Memorial Scholarship Fund in History
(Established with an estate gift from Lois Kemp Shinkle; used to support students and programs with a focus on education within the Department of History)

The Telich Family Scholarship Fund
(Established with a gift from MJPT II and Associates, Ltd.; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the football team)

The Betty Finke Bonnell, R.N. Scholarship Fund
(Established with a gift from Susan Jane Bonnell in honor of her mother, Betty; used to provide financial aid to a student who is a member of The Ohio State University Marching Band)

The Elizabeth Heller Fox Fund for Study Abroad
(Established with gifts from The Fox Foundation in honor of Elizabeth Heller Fox; used to provide study abroad support for undergraduate students in the College of Food, Agricultural, and Environmental Sciences)

The Robert L. and Phyllis J. Iles Award Fund for the Graduate Study of Myth
(Established with a gift from Sarah Iles Johnston; used for one award each spring quarter for a graduate student to support the student’s research on myth)

The Paul A. and Barbara D. Fodor Endowed Engineering Scholarship Fund
(Established with gifts from Barbara D. Fodor in memory of her husband Paul A. Fodor; used for undergraduate scholarships for engineering majors)

The Harold R. Adams Scholarship Fund
(Established with gifts from Kevin Adams in memory of his father, Harold R. Adams; used to provide scholarships to freshmen in the College of Food, Agricultural, and Environmental Sciences)

Dr. Bruce W. Dunnington Engineering Scholarship Endowment Fund
(Established with a gift from Adele Foley in honor of Dr. Bruce W. Dunnington; used to provide scholarships to students in the College of Engineering)
The Nell Ann Frump Memorial Scholarship Fund
(Established with a gift from Timothy A. Frump; used for scholarships for undergraduate students who are graduates of Leesburg Fairfield High School)

The Richard C. Castor and Eva N. Castor Gross Scholarship Fund
(Established with a gift from Eva Castor Gross; used to provide scholarships to undergraduate students with preference given to graduates of Nelsonville York High School)

The Tim and Jo Ellen Hayes Scholarship Endowment Fund
(Established with a gift from Timothy and Jo Ellen Hayes; used to provide scholarships for students in the College of Veterinary Medicine)

The Gladys Mason Scholarship Fund
(Established with an estate gift from Gladys Mason; used to provide scholarships for students in the College of Education and Human Ecology)

The Tomski Family Athletic Scholarship Fund
(Established with a gift from TH Manufacturing; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the women’s gymnastics team)

The Albert M. Wiggins, Jr. Longaberger Building Fund
(Established with a charitable gift annuity from Albert M. Wiggins, Jr.; used for maintenance and capital improvements for the Longaberger Alumni House)

The Al Wiggins Discretionary Fund for Men’s Swimming
(Established with a charitable gift annuity from Albert M. Wiggins, Jr.; used at the discretion of the coach of the men’s swimming team)

The Rudolph Family Fund
(Established with a gift from Fred J. Rudolph; used to equally supplement “The John H. Dunlap, Jr. Fund for Education, Outreach, and Development at Stone Laboratory” and the “Sheila and Gene Smith Northwest Ohio Athletic Scholarship Fund”) (grandfathered)

Eileen Grice Consumer Sciences Teacher Education Scholarship Fund
(Established with gifts in memory of Eileen Grice from numerous donors; used to provide scholarship support to students preparing for careers in family and consumer sciences secondary teaching) (grandfathered)

Hervida 4-H Camp Endowment Fund
(Established with gifts from friends of Hervida 4-H Camp; used to support Hervida 4-H Camp) (grandfathered)

Wayne K. Hoy and Anita Woolfolk Hoy Scholarship Fund
(Established with gifts from Dr. Wayne K. Hoy and Dr. Anita Woolfolk Hoy; used to provide scholarships for students in the College of Education and Human Ecology) (grandfathered)
February 10, 2012 meeting, Board of Trustees

The Robert G. Gottesman Excellence in Viticulture and Enology Endowment Fund
(Established with gifts made from members of the Ohio Wine and Grape Association; used to support faculty and students within the viticulture and enology program) (grandfathered) $26,785.67

The Michael L. Scott Fund for Technology Education
(Established with gifts made in memory of Dr. Michael L. Scott from numerous donors; used to purchase equipment for the Technology Education Program in the College of Education and Human Ecology) (grandfathered) $26,474.11

The Mike and Jill Eversole Nolan and Family Study Abroad Fund
(Established with a gift from Mike and Jill Eversole Nolan; used for scholarships for undergraduate students enrolled in an approved study abroad program in the College of Food, Agricultural, and Environmental Sciences) (grandfathered) $26,080.00

Buckeye Leadership Workshop Endowment Fund
(Established with gifts from friends of Buckeye Leadership Workshop, Inc.; used to provide awards for OSU Extension staff and faculty, Ohio 4-H members and volunteers, and/or OSU Extension volunteers to attend the Buckeye Leadership Workshop) (grandfathered) $25,617.38

Food, Agricultural and Biological Engineering (FABE) Departmental Student Organizations Development Fund
(Established with gifts from Thomas L. Bean, FABE Student Organizations, alumni, and friends of the department; used to enrich experiences for students participating in student clubs and organizations within the Department of FABE) (grandfathered) $25,450.00

Ohio State Fair Hall of Fame Junior Fair Board Scholarship Endowment Fund
(Established with gifts from Ohio State Fair Hall of Fame recipients and friends; used to provide scholarship awards to members of the Ohio State Fair Junior Fair Board) (grandfathered) $25,085.00

Norman Levine Memorial Endowment Fund
(Established with anonymous gifts from a grateful student of Professor Levine; used at the discretion of the director of the University Libraries) (unrestricted) $25,000.00

The Kanaan Beckwith Sievers Fund
(Established with gifts from Samira Beckwith; used to provide support split between three specific areas to be used at the discretion of each area’s top administrator) (unrestricted) $25,000.00

Change in Name of Named Endowed Fund
From: Kathleen Retzler Memorial 4-H Endowment Fund for Clermont County
To: Clermont County 4-H Endowment Fund in Memory of Kathleen Retzler

Establishment of Named Endowed Funds

The Century Bond Repayment Endowment Fund

The Century Bond Repayment Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University with a transfer from a portion of the proceeds from a gain on a Treasury rate lock transaction.

Until the earlier of 1) when market value and realized distribution combined reach $500,000,000, or 2) June 1, 2111 has been reached, the annual distribution from this endowed fund shall be reinvested in the endowment principal.

If the combined market value and realized distribution reaches $500,000,000 before June 1, 2111, then $500,000,000 shall be withdrawn from this fund and placed in an operating fund account (segregated for the purpose of paying off the $500,000,000 principal of the General Receipts Bonds Series 2011 A due on June 1, 2111). The annual distribution from the remainder of this fund, and principal if needed, shall then be used to help cover the interest payments on the $500,000,000 century bonds. Once all century bond payments, both interest and principal, have been made or the bonds defeased, this endowment fund will dissolve and the remainder will be used at the discretion of the chief financial officer and senior vice president for Business and Finance in consultation with the president.

If the fund does not reach $500,000,000 by June 1, 2111, the fund will terminate and all available market value and distribution will be used to pay the $500,000,000 principal. Additional University funds will be used to cover the difference.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use shall be designated by the University’s Board of Trustees in consultation with the chief financial officer and senior vice president for Business and Finance in consultation with the president.

Amount Establishing Endowment: $10,000,000.00 (not gift money)

The Sneed Family Alumni Association Scholarship Endowment Fund

The Sneed Family Alumni Association Scholarship Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from Thomas (B.S. 1981) and Phyllis (Ph.D. 1985) Sneed of Houston, Texas.

The annual distribution from this fund shall provide undergraduate scholarships to currently enrolled students at any of The Ohio State University campuses not receiving freshman recruiting scholarships (i.e. Maximus and Morrill Programs), with preference given based on academic performance and financial need. The scholarship may be renewed based upon continued superior academic performance and financial need. One or more of the scholarships shall be used to support educational diversity at the University with particular attention to, but not limited to, African Americans or other underrepresented groups.
Scholarships will be awarded by the Alumni Association in consultation with Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, if possible, and from the director of the Alumni Association and the director of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

4-H Equine Endowment Fund

The 4-H Equine Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from Schneider Saddlery Company, Inc. and friends of the 4-H Equine program.

One half of the annual distribution from this fund shall be used to support the Ohio 4-H Horse Achievement Award sponsored by Schneider Saddlery Company, Inc. If this award ceases to exist, this portion of the annual distribution may be used for other 4-H Equine programming needs.

The remaining half of the annual distribution shall be used to support 4-H Equine programs including, but not limited to, education and programs for 4-H youth, 4-H volunteer training, and awards and recognition for 4-H members. Expenditures from this fund must be approved by the assistant director of OSU Extension for 4-H Youth Development or his/her designee.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
February 10, 2012 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

Amount Establishing Endowment: $40,575.00 (grandfathered)

OSU Wyandot County Alumni Scholarship Endowment Fund

The OSU Wyandot County Alumni Scholarship Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from alumni and friends.

The annual distribution from this fund shall provide scholarship support for students from Wyandot County, Ohio. Scholarship recipients shall be selected by the director of the Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, if possible, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $30,545.00 (grandfathered)

William A. Henson Endowed Mathematics Student Travel Fund

The William A. Henson Endowed Mathematics Student Travel Fund be established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from William A. Henson (B.S. 1978).

The annual distribution from this fund shall be used to enable undergraduate and/or graduate students in the Department of Mathematics in the College of Arts and Sciences to participate in academic and professional events beyond The Ohio State University campus at the discretion of the chairperson with approval from the executive dean of the College of Arts and Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.
February 10, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $25,200.00 (grandfathered)

Paul P. and Annabelle W. Mechling Scholarship Fund

The Paul P. and Annabelle W. Mechling Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from Paul P. Mechling (B.S. 1942 Agriculture Education, M.S. 1954 Agriculture Education) and Annabelle W. Mechling (B.S. 1942 Home Economics).

The annual distribution from this fund shall be used to equally support scholarships in agriculture education in the College of Food, Agricultural, and Environmental Sciences and human ecology education in the College of Education and Human Ecology at The Ohio State University main campus or regional campuses including the Agricultural Technical Institute. Qualified candidates must be from Champaigne, Darke, Fairfield, Hocking, Muskingum or Perry Counties in Ohio and have a minimum 2.75 GPA during year of application. Preference shall be given to students who are current or former members of Ohio 4-H or Ohio FFA. In the event there are no qualified students from the counties specified the scholarship may be awarded to a student from anywhere in Ohio.

Recipients shall be selected by the scholarship selection committee in each college in accordance with the guidelines approved by the respective dean, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, if possible, and the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences, and the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $25,119.95 (grandfathered)
February 10, 2012 meeting, Board of Trustees

OSU Alumni Club of Philadelphia, Pennsylvania Endowment Fund

The OSU Alumni Club of Philadelphia, Pennsylvania Endowment Fund be established February 10, 2012, by the Board of Trustees of The Ohio State University, with gifts from alumni and friends.

The annual distribution from this fund shall provide merit-based scholarships for students from Philadelphia, Pennsylvania. Scholarship recipients shall be selected by the director of the Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, if possible, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $25,000.00 (grandfathered)

Change in Name and Description of Named Endowed Fund

The OSU Medical Center Autism Endowment Fund at Nisonger Center

The OSU Medical Center Autism Endowment Fund in Neurology was established September 22, 2006, by the Board of Trustees of The Ohio State University, in honor of David Beversdorf M.D. with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio. The name and description were revised February 10, 2012.

The annual distribution from this fund shall support research and professional education and training programs on the diagnosis, treatment, and cure of autism and/or related conditions or diseases. Income allocation shall be made at the recommendation of the director of Nisonger Center in consultation with the senior vice president for Health Sciences. Support may be provided for, but is not limited to: lectures by visiting faculty; supplies or equipment; conference, travel or publishing costs for research or educational purposes; implementation of new instructional technology or teaching models; or for fellowships or scholarships.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Nisonger Center.
February 10, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor (or their representative) and as recommended by the director of Nisonger Center in consultation with the senior vice president for Health Sciences.

Establishment of Named Endowed Chair

Vig/Williams Endowed Chair in Orthodontics

The College of Dentistry Endowed Chair Fund in Orthodontics was established May 6, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends to honor Dr. Katherine Vig and Dr. Benjamin Williams, two former chairs of the Section of Orthodontics. The name was revised April 4, 2008. The funding level was reached and the chair was established February 10, 2012.

The annual distribution shall be used to provide salary and program support to a distinguished faculty member in the Section of Orthodontics in the College of Dentistry. The holder of this position will be recommended to the executive vice president and provost by the dean of the College of Dentistry in consultation with the chair of the Section of Orthodontics and approved by the Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry and the chair of the Section of Orthodontics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Dentistry and the chair of the Section of Orthodontics.

Amount Establishing Chair: $1,519,906.51 (grandfathered)

Establishment of Named Endowed Professorship

The Chief Justice Thomas J. Moyer Professorship for the Administration of Justice and Rule of Law

The Chief Justice Thomas J. Moyer Professorship for the Administration of Justice and Rule of Law was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of
The Ohio State University Foundation, with memorial gifts from friends, family, and colleagues to honor and continue Chief Justice Moyer’s legacy of integrity and professionalism, deepening the impact of these qualities on the lives of countless students and on the law itself.

The annual distribution shall support a professorship position at The Michael E. Moritz College of Law. The holder of this position will be recommended by the dean of the Moritz College of Law to the executive vice president and provost and to the Board of Trustees for their approval.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the Moritz College of Law.

Amount Establishing Professorship: $1,002,000.00

Establishment of Named Endowed Funds

The Keith and Linda Monda International Experience Scholarships Fund

The Keith and Linda Monda International Experience Scholarships Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Keith D. (B.S. 1968, M.A. 1971) and Linda L. Monda.

The annual distribution from this fund shall be used to provide need-based scholarships for students enrolled in the College of Arts and Sciences to participate in study-abroad programs. Expenses may include, but are not limited to travel, housing, program fees, and other costs associated with living and studying in a foreign country. A committee of faculty appointed by the executive dean of the College of Arts and Sciences shall select the scholarship recipients. The Office of Student Programs in the College of Arts and Sciences shall administer the program in consultation with the University’s Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees.
February 10, 2012 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $1,010,781.25
Total Commitment: $5,000,000.00

The Stanley D. and Joan H. Ross Chair Fund in Neuromodulation

The Stanley D. and Joan H. Ross Chair Fund in Neuromodulation was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Stanley D. Ross (B.A. English 1962) and Joan “Jodi” H. Ross of Columbus, Ohio.

Until the principal balance reaches $2,000,000, the annual distribution from this fund shall be held in the distribution fund. After the principal balance reaches $2,000,000, the annual distribution from this fund shall be used for a chair position supporting a nationally or internationally recognized physician faculty member in the field of brain neuromodulation in the Department of Neurological Surgery, with a preference for the holder to be the director of the Center for Neuromodulation.

The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Neurological Surgery and approved by the senior vice president for Health Sciences and the dean of the College of Medicine. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors, as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director or chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, and as recommended by the chairperson of the Department of Neurological Surgery in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $1,000,000.00
The Ann W. La Fontaine and John Garfield Williams
Distinguished Scholars Endowment Fund

The Ann W. La Fontaine and John Garfield Williams Distinguished Scholars Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Ann W. La Fontaine (B.S. 1937) of Stuart, Florida, honoring her brother, John Garfield Williams (B.S. 1946) of Oak Harbor, Ohio.

The annual distribution from this fund shall provide one or more merit scholarships for Ann W. La Fontaine and John Garfield Williams Distinguished Scholars. Recipients shall be National Merit Scholars and selected based upon the criteria for Distinguished Scholars.

This fund shall be administered by the University Honors Center in consultation with the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University Honors Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the University Honors Center.

Amount Establishing Endowment: $500,000.00

The Wandell Family Football Defensive Coordinator Endowment Fund

The Wandell Family Football Defensive Coordinator Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Deborah and Keith Wandell from Mequon, Wisconsin.

The annual distribution from this fund shall supplement the cost of funding defensive coordinator positions for the football program at The Ohio State University, as approved by the director of the Department of Athletics.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees.
February 10, 2012 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the director of the Department of Athletics.

Amount Establishing Endowment: $392,105.48

The Lloyd L. Mambourg Agriculture Student Support Endowment Fund

The Lloyd L. Mambourg (B.S. 1954) Agriculture Student Support Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with funding from a charitable remainder trust created by Lorayne G. Mambourg to honor her husband, with an initial gift of her ancestral land in Granger Township, County of Medina, State of Ohio, settled by her family shortly after Ohio became a state of the United States.

The annual distribution from this fund shall be used to support scholarships for worthy students attending the College of Food, Agricultural, and Environmental Sciences (the College) based on financial need, leadership skills, and academic promise. The recipients of the scholarships should be those “best and brightest” students who are experiencing financial difficulties. Recipients shall be informed about the grantor and her husband, Lloyd L. Mambourg, who was an alumnus of the College. Scholarship recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences or his/her designee, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Additionally, the funds may be used for an "excellence program" to provide state-of-the-art equipment for the College and to provide for distinguished visitors and speakers, to be known as the Mambourg Lectures Program when used for this purpose. The funds also may be used for “leadership development” to enable various outside-the-classroom student enrichment events and activities, and to augment the executive dean’s emergency funds for student financial emergencies.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
February 10, 2012 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $266,833.00

The Hugh B. and Marie Carr Williams Distinguished Scholars Endowment Fund

The Hugh B. and Marie Carr Williams Distinguished Scholars Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Ann W. La Fontaine (B.S. 1937) of Stuart, Florida, in memory of her parents.

The annual distribution from this fund shall provide one or more merit scholarships for Hugh B. and Marie Carr Williams Distinguished Scholars. Recipients shall be National Merit Scholars and selected based upon the criteria for Distinguished Scholars. This fund shall be administered by the University Honors Center in consultation with the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University Honors Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the University Honors Center.

Amount Establishing Endowment: $200,000.00

The Sally Lee Huston Endowed Scholarship Fund in the College of Veterinary Medicine

The Sally Lee Huston Endowed Scholarship Fund in the College of Veterinary Medicine was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Sally Lee Huston.

The annual distribution from this fund shall provide scholarship support for one or two outstanding student(s) in the College of Veterinary Medicine from Clinton County, Ohio. Recipients will be selected by the dean of the College of Veterinary Medicine in
consultation with the University’s Office of Student Financial Aid and the associate dean for Student Affairs

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $161,073.05

The Ruth C. Bailey Endowed Award Fund for Naturalized American Students

The Ruth C. Bailey Endowed Award Fund for Naturalized American Students was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Mr. Vincenzo Ferranti (B.A. 1970, M.B.A. 1972).

Mr. Ferranti is a naturalized American citizen who was born in Italy. He attended The Ohio State University on the G.I. bill and was profoundly touched by the dedication and assistance provided to him by Miss Ruth C. Bailey, an Ohio State University staff member from 1937-1974. She was the first to step in to handle the thousands of soldiers who flocked to the campus after WW II. As the war ended, more students from foreign countries expressed an interest in attending Ohio State. Various projects were started to bring these students to the University to study. Miss Bailey had the job of getting them situated, and started spending more and more time with them as they grew in number. This award will carry on her caring tradition by supporting a multicultural student population and celebrating excellence in multicultural interaction and understanding provided by Ohio State faculty and staff.

The annual distribution from this fund shall be used to further the mission of the Office of Diversity and Inclusion. First priority is to provide scholarships to students with demonstrated financial need who are foreign born, naturalized American citizens. The scholarship may support up to three students annually. Expenditures may include general tuition costs, room and board, and/or participation in study abroad programs. Students who wish to study Italian culture will be given special priority.

The Office of Diversity and Inclusion shall be responsible for reviewing scholarship applications to ensure they meet the above criteria and selecting the scholarship recipients. Scholarships shall be awarded in consultation with the Office of International Affairs and the Office of Student Financial Aid. Prior to awarding the scholarships, the Office of Diversity and Inclusion shall share information about the selected recipients with the donor and answer questions about the selection process.
February 10, 2012 meeting, Board of Trustees

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. If an alternate designation is needed, the Foundation shall seek advice from the donor or his designee, and the vice provost for Diversity and Inclusion.

Second priority is to provide awards to faculty and staff of The Ohio State University who in the previous year have demonstrated a significant contribution toward multicultural interaction and understanding. To qualify, candidates must be nominated by the Office of Diversity and Inclusion.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the vice provost for Diversity and Inclusion.

Amount Establishing Endowment: $100,000.00

The Mary Beth Fontana Wise M.D. Faculty Development and Medical Education Fund

The Mary Beth Fontana Wise M.D. Faculty Development and Medical Education Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Mary Beth Fontana Wise of Columbus, Ohio.

At OSU, Dr. Mary Beth Fontana Wise earned two degrees (B.A. Arts and Sciences 1963, M.D. 1966) and completed medical residency and cardiology fellowship training from 1967-1971. Dr. Fontana Wise joined the faculty of the Department of Internal Medicine in 1970, becoming an assistant professor in 1971 and an associate professor in 1976. In 2004, she was appointed as Associate Professor Emeritus of Internal Medicine.

During her tenure in the College of Medicine, Dr. Fontana Wise received numerous honors and recognitions as a clinician and educator, devoting much of her career to innovative medical education and public service. From 1972 with her early involvement with the Independent Study Program, later with Integrated Pathway Med I and Med II programs, and through the present, her leadership and teaching efforts have greatly strengthened curriculum, teaching effectiveness, problem-based learning, medical student experiences, CME activities, and recertification courses.

She received the College’s Distinguished Educator Award (1999), Alumni Achievement Award (2002), Professor of the Year (2005), Faculty Teaching Award (2011), and the Department of Internal Medicine’s Earl N. Metz Distinguished Physician Award of Internal Medicine (2004) and Charles F. Wooley MD Transmission of Excellence Teaching Award (2000). Additionally, medical students have chosen her 20 times as Outstanding Teacher from 1986-2011. Since 2009, she has held The Harry C. and Mary Elizabeth Powelson Professorship in Medicine appointment.
February 10, 2012 meeting, Board of Trustees

The annual distribution from this fund shall be used for the Master Teacher program of the College of Medicine as an award to current or retired/emeriti faculty of the College recognized through the Courage To Teach (CTT) program as exemplary teachers in the development of excellent, professional, and humanistic clinical physicians. The award shall be known as The Mary Beth Fontana Wise MD Master Teacher Award.

Candidates for the award must be designated as Master Teacher. The goals, responsibilities, qualifications and selection process of Master Teacher are defined by CTT faculty and the Center of Education and Scholarship (CES) under the Faculty Advancement Mentoring and Engagement (FAME) umbrella. Appointment as a Master Teacher as well as the selection of Master Teacher award recipients will be made by the dean of the College of Medicine on recommendation by CTT and CES. Should the CTT and CES cease to exist, the Master Teacher program and this respective award will be continued by a committee, of faculty educators dedicated to the principles established by CTT, who shall be appointed by the dean of the College of Medicine.

Distribution of funds will occur at the time of Master Teacher designation and will go directly to the faculty member, not their department, unless the designee wishes to use the funds to obtain release time for teaching from their department. Award funding to a Master Teacher may be renewed if criteria for faculty development and employment of active education strategies are fulfilled according to guidelines established by CTT and CES.

Distribution will not be used for faculty or administrative salaries or benefits and will be allocated by the vice dean for Education in the College of Medicine in consultation with the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or vice dean.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and as recommended by the vice dean for Education in the College of Medicine in consultation with the dean of the College of Medicine.

Amount Establishing Endowment: $100,000.00

Ronald E. Myers, DDS, Diplomate,
American Board of Prosthodontics, Scholarship Fund

The Ronald E. Myers, DDS, Diplomate, American Board of Prosthodontics, Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Dr. Ronald E. Myers (B.A. 1973, D.D.S. 1979) and Ms. Kathleen Ann Kiefer (B.S. 1974, M.S. 1979) of Brooksville, Florida.

The annual distribution from this fund shall provide scholarships for students pursuing a D.D.S. degree within the College of Dentistry. Scholarship recipients shall be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid.
February 10, 2012 meeting, Board of Trustees

It is the donors’ desire that the scholarships be awarded with particular attention to, but not limited to, students who are veterans of the United States Armed Services who have been honorably discharged from their service obligations. If multiple students enrolled in the College of Dentistry meet these criteria, the student who demonstrates the highest degree of academic merit shall be awarded the scholarship. Scholarships shall be renewable for a maximum of three (3) years.

If no candidates exist, or if the annual distribution of the fund exceeds the tuition liabilities of all qualified students, the annual distribution should be awarded to a student or students with unmet tuition responsibilities who demonstrate a financial need and have the highest degree of academic merit.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Dentistry.

Amount Establishing Endowment: $75,000.00

The Albert M. Wiggins, Jr. Dean’s Discretionary Fund

The Albert M. Wiggins, Jr. Dean’s Discretionary Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a charitable gift annuity from Albert M. Wiggins, Jr. (B.S. 1957) of Ligonier, Pennsylvania.

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support such activities of the faculty, students, and staff as he or she shall determine to be in accordance with the strategic plans of the College.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.
February 10, 2012 meeting, Board of Trustees

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the Fisher College of Business.

Amount Establishing Endowment: $75,000.00

The Al Wiggins Men’s Swimming Scholarship Fund

The Al Wiggins Men’s Swimming Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a charitable gift annuity from Albert M. Wiggins, Jr. (B.S. 1957) of Ligonier, Pennsylvania.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree and is a member of the men’s varsity swimming team. Scholarship recipients shall be selected by the director of the Department of Athletics in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics in consultation with the coach of the men’s swimming team.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Department of Athletics in consultation with the coach of the men’s swimming team.

Amount Establishing Endowment: $75,000.00

The Lois Kemp Shinkle Memorial Scholarship Fund in History

The Lois Kemp Shinkle Memorial Scholarship Fund in History was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Lois Kemp Shinkle (B.S. 1943).

The annual distribution from this fund shall provide support to students and programs with a focus on education within the Department of History as recommended by the Department’s chairperson and approved by the executive dean of the College of Arts and
February 10, 2012 meeting, Board of Trustees

Sciences. Scholarship recipients shall be selected in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the chairperson of the Department of History.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences in consultation with the chairperson of the Department of History.

Amount Establishing Endowment: $62,493.22

The Telich Family Scholarship Fund

The Telich Family Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from MJPT II and Associates, Ltd.

The annual distribution from this fund shall supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the football team and is pursuing an undergraduate degree at The Ohio State University. Recipients shall be selected by the director of the Department of Athletics in consultation with the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
February 10, 2012 meeting, Board of Trustees

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and from the director of the Department of Athletics.

Amount Establishing Endowment: $60,000.00  
Total Commitment: $150,000.00

**The Betty Finke Bonnell, R.N. Scholarship Fund**

The Betty Finke Bonnell, R.N. Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Susan Jane Bonnell (B.A. 1970) in honor of her mother, Betty (Cert. 1937).

The annual distribution from this fund shall provide financial aid to a student who is a member of The Ohio State University Marching Band. Recipients shall be selected by the director of the Marching Band in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Marching Band.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the director of the Marching Band.

Amount Establishing Endowment: $53,671.14

**The Elizabeth Heller Fox Fund for Study Abroad**

The Elizabeth Heller Fox Fund for Study Abroad was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Fox Foundation in honor of Elizabeth Heller Fox (B.S. 2011 Landscape Horticulture), daughter of Elizabeth (B.A. 1986 Political Science) and Robert Fox.

The annual distribution from the fund shall be used to provide study abroad scholarship support for undergraduate students in the College of Food, Agricultural, and Environmental Sciences who are participating in study abroad programs. Preference shall be given to
February 10, 2012 meeting, Board of Trustees

those students majoring in Sustainable Plant Systems with Horticulture or Landscape Design specializations. Recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

As sufficient funds are available, it is the donor’s preference to have scholarship awards equivalent to 100% of the cost of the study abroad program including airfare. This preference shall not preclude the College from making awards of lesser amounts based on the number and needs of qualified candidates.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should it exist, and from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

Amount Establishing the Endowment: $51,171.78

The Robert L. and Phyllis J. Iles Award for the Graduate Study of Myth

The Robert L. and Phyllis J. Iles Award for the Graduate Study of Myth in the Center for the Study of Religion was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Sarah Iles Johnston.

The annual distribution from this fund shall be used for one award of up to $2,000 each spring quarter to a graduate student in the Division of Arts and Humanities in support of that student’s research on myth. The award shall be supplemented by $1,000 from the Division of the Arts and Humanities and supplemented by up to $1,000 from the student’s home department for a possible total of up to $4,000. Studies of the myths of any culture from any period of human history are eligible for consideration. A myth is a story that is sacred to and shared by a group of people who find important meanings in it, as it is conveyed through narrative, art or ritual. Eligible projects include, but are not limited to: the relationships between myths and religious practices, the uses of myth in literary and artistic productions, and the reuse of one culture’s myths by other cultures. Possible approaches include, but are not limited to, the anthropological, the literary, the historical, and the folkloric, as well as creative approaches that aim to re-present a myth as part of a new artistic product.
Candidates will be selected based on merit, although some preference will be given to proposals that cite specific need of funding for travel or for other expenses related to research or to performance or production of artistic projects. Preference will be given to candidates whose projects are part of a doctoral dissertation (with exceptions granted for students in departments that offer only the master’s degree). Recipients shall be selected by the executive dean of the College of Arts and Sciences, the director of the Center for the Study of Religion, the director for the Center of Folklore Studies, and a member of the Department of Greek and Latin as appointed by the chairperson in consultation with the Office of Student Financial Aid and Sarah Iles Johnston or their appointee. If the Center for the Study of Religion ceases to exist as an independent entity at The Ohio State University, then the endowment will be placed in the Department of Greek and Latin and the selection process will remain in place.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $50,200.00

The Paul A. and Barbara D. Fodor Endowed Engineering Scholarship Fund

The Paul A. and Barbara D. Fodor Endowed Engineering Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Barbara D. Fodor in memory of her husband Paul A. Fodor (B.S. Chemical Engineering 1940).

The annual distribution from this fund shall provide a scholarship to an undergraduate student in good academic standing, with a minimum grade point average of 2.5, who is majoring in engineering and demonstrates financial need. This scholarship shall be renewable for a maximum of eight semesters as long as the recipient continues to fulfill all selection criteria. Recipients shall be selected by the dean of the College of Engineering in consultation with the University’s Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.
February 10, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the College of Engineering.

Amount Establishing Endowment: $50,077.50

The Harold R. Adams Scholarship Fund

The Harold R. Adams Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Kevin Adams (B.S. 1983 Animal Science, M.S. 1986 Agricultural Economics) of Covington, Louisiana, in memory of his father, Harold R. Adams (B.S. 1951 Animal Science).

The annual distribution shall be used to support one or more scholarships in the College of Food, Agricultural, and Environmental Sciences excluding the School of Environment and Natural Resources. Eligible students must be entering freshmen on the Columbus, Ohio, campus and graduates of one of the following Highland County, Ohio, high schools, Fairfield, Hillsboro, White Oak, Greenfield, and Lynchburg Clay, with at least a 2.5 cumulative grade point average, and with demonstrated leadership in co-curricular activities. Preference shall be given to students with financial need. The scholarship may be awarded to the same students in successive years, not to exceed two years, provided the students remain in good academic standing, progress towards their degrees, and continue to meet the scholarship’s criteria including at least a 2.5 cumulative grade point average.

Scholarship recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines approved by the vice president for Agricultural Administration and the executive dean of Food, Agricultural, and Environmental Sciences, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and
February 10, 2012 meeting, Board of Trustees

from the vice president for Agricultural Administration and the executive dean of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $50,000.00

**Dr. Bruce W. Dunnington Engineering Scholarship Endowment Fund**

The Dr. Bruce W. Dunnington Engineering Scholarship Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Adele Foley in honor of Dr. Bruce W. Dunnington (B.S. 1948, M.S. 1949, Ph.D. 1951).

Bruce was born in Lore City, Ohio, on November 26, 1924. His mother died when he was 14 having suffered for 10 years with Tuberculosis. During that period Bruce was shifted back and forth from his maternal and paternal grandmothers. At 17 he went to work in the steel mills and at 18 enlisted in the U.S. Army in 1942. Because he was very intelligent, the army sent him to school for meteorology. After the war he enrolled at Ohio State.

Dr. Bruce Dunnington was the founder and president of Glennel Corporation, now well-known as Wendt USA; Dunnington Division. Bruce was known worldwide as an expert on diamond abrasives, dressing products, and diamond finishing processes. Early in his distinguished career he worked at DuPont as a senior research supervisor for the Atomic Energy Division. Later he was involved in diamond development activities, was co-inventor of the process for synthesizing diamond, and was instrumental in commercializing this valuable new product. He also held a position at Battelle Institute where he was active in the development of nuclear fuels and other advanced materials.

The annual distribution from this fund shall be used to provide scholarship support to students enrolled in the College of Engineering who are first generation college students demonstrating financial need. Scholarship recipients shall be selected by the College’s scholarship committee in consultation with the University’s Office of Student Financial Aid. The scholarships are renewable as long as recipients maintain a minimum 3.0 grade point average.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the College of Engineering.

Amount Establishing Endowment: $50,000.00
The Nell Ann Frump Memorial Scholarship Fund

The Nell Ann Frump Memorial Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Timothy A. Frump (B.S. 1987) of Taylorville, Illinois.

The annual distribution from this fund shall provide one or more non-renewable scholarships to undergraduate students with demonstrated financial need who are graduates of Leesburg Fairfield High School. First preference will be given to entering freshmen who are enrolled at the Columbus campus. Second preference will be given to entering freshmen who are enrolled at any OSU campus. Third preference will be given to current undergraduate student(s) who are enrolled at the Columbus campus. Fourth preference will be given to current undergraduate student(s) who are enrolled at any OSU campus. If there are no eligible candidates from the preferred high school or if the preferred high school ceases to exist, consideration may be given to residents of Highland County, Ohio. Scholarship recipients shall be selected by the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

The Richard C. Castor and Eva N. Castor Gross Scholarship Fund

The Richard C. Castor and Eva N. Castor Gross Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Eva Castor Gross of Dayton, Ohio.

The annual distribution from this fund shall provide one or more renewable merit-based scholarships to undergraduate students with preference given to graduates of Nelsonville York High School in Nelsonville, Ohio. If there are no eligible candidates from the preferred high school or if the preferred high school no longer exists, consideration may be given to residents of Athens County, Ohio. Scholarships are renewable for up to 12 quarters (or 8 semesters) as long as the recipient(s) maintains a cumulative 3.0 grade point average. Scholarships may be used for tuition, room and board, books, and supplies. Scholarship recipients will be selected by the Office of Student Financial Aid.
The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

**The Tim and Jo Ellen Hayes Scholarship Endowment Fund**

The Tim and Jo Ellen Hayes Scholarship Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Timothy (B.S. 1973, D.V.M. 1974) and Jo Ellen (B.S. 1971, M.S. 1972, J.D. 1993) Hayes from Cambridge, Ohio.

The annual distribution from this fund shall provide one scholarship for a student enrolled in The Ohio State University, College of Veterinary Medicine who is in good academic standing with preference given to students from Guernsey, Noble, or Muskingum counties of Ohio. Scholarship recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $50,000.00
February 10, 2012 meeting, Board of Trustees

The Gladys Mason Scholarship Fund

The Gladys Mason Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Gladys Mason (B.S. 1929).

The annual distribution from this fund shall provide scholarships for students enrolled in the College of Education and Human Ecology, Department of Human Nutrition or dietetic programs. Scholarship recipients shall be recommended by the Department’s chairperson and selected by the College’s dean in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $50,000.00

The Tomski Family Athletic Scholarship Fund

The Tomski Family Athletic Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from TH Manufacturing of New Paris, Ohio.

The annual distribution from this fund shall supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the women’s gymnastics team and is pursuing an undergraduate degree at The Ohio State University. Scholarship recipients shall be selected by the director of the Department of Athletics in consultation with the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent
February 10, 2012 meeting, Board of Trustees

years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and from the director of the Department of Athletics.

Amount Establishing Endowment: $50,000.00
Total Commitment: $150,000.00

The Albert M. Wiggins, Jr. Longaberger Building Fund

The Albert M. Wiggins, Jr. Longaberger Building Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a charitable gift annuity from Albert M. Wiggins, Jr. (B.S. 1957) of Ligonier, Pennsylvania.

The annual distribution from this fund shall be used for maintenance and capital improvements for the Longaberger Alumni House as determined by the responsible University officials in consultation with the president/CEO of The Ohio State University Alumni Association.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the president/CEO of the Alumni Association.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the president/CEO of the Alumni Association.

Amount Establishing Endowment: $50,000.00

The Al Wiggins Discretionary Fund for Men’s Swimming

The Al Wiggins Discretionary Fund for Men’s Swimming was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a charitable gift annuity from Albert M. Wiggins, Jr. (B.S. 1957) of Ligonier, Pennsylvania.
The annual distribution from this fund shall be used at the discretion of the coach of the men’s swimming team for such uses and purposes as he or she shall determine from time to time and approved by the director of the Department of Athletics.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics in consultation with the coach of the men’s swimming team.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Department of Athletics in consultation with the coach of the men’s swimming team.

Amount Establishing Endowment: $50,000.00

The Rudolph Family Fund

The Rudolph Family Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Fred J. Rudolph (B.S. 1985), of Walbridge, Ohio.

The annual distribution from this fund shall supplement two funds at The Ohio State University. Fifty percent of the annual distribution will go to “The John H. Dunlap, Jr. Fund for Education, Outreach, and Development at Stone Laboratory” (241860) and fifty percent of the annual distribution will go to the “Sheila and Gene Smith Northwest Ohio Athletic Scholarship Fund” (266720).

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agriculture Administration and executive dean of Food, Agricultural, and Environmental Sciences, and director of the Department of Athletics and the.

Amount Establishing Endowment: $42,500.74 (grandfathered)

Eileen Grice Consumer Sciences Teacher Education Scholarship Fund

The Eileen Grice Consumer Sciences Teacher Education Scholarship Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State
University Foundation, with gifts in memory of Eileen Grice (B.S. 1939, M.A. 1944) from numerous donors.

The annual distribution from this fund shall provide scholarship support to students preparing for careers in family and consumer sciences secondary teaching. Scholarship recipients shall be selected by the dean of the College of Education and Human Ecology in consultation with the University’s Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $27,124.63 (grandfathered)

The Robert G. Gottesman Excellence in Viticulture and Enology Endowment Fund

The Robert G. Gottesman Excellence in Viticulture and Enology Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made from members of the Ohio Wine and Grape Association.
February 10, 2012 meeting, Board of Trustees

The annual distribution from this fund shall be used to support faculty and students within the viticulture and enology program, including research, teaching, and outreach. Expenditures from the fund shall be made at the discretion of the chairperson of the Department of Horticulture and Crop Science.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences, and the chairperson of the Department of Horticulture and Crop Science.

Amount Establishing Endowment: $26,785.67 (grandfathered)

The Michael L. Scott Fund for Technology Education

The Michael L. Scott Fund for Technology Education was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in memory of Dr. Michael L. Scott (B.S. 1973, M.A. 1975, Ph.D. 1979) from numerous donors.

The annual distribution from this fund shall be used to purchase equipment for the Technology Education Program in the College of Education and Human Ecology as approved by the College’s dean.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $26,474.11 (grandfathered)
February 10, 2012 meeting, Board of Trustees

The Mike and Jill Eversole Nolan and Family Study Abroad Fund

The Mike and Jill Eversole Nolan and Family Study Abroad Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Mike (B.S. 1974, M.S. 1997, Ph.D. 2008) and Jill Eversole (B.S. 1974, Ph.D. 1997) Nolan of Wakeman, Ohio.

The annual distribution from this fund shall be used to support one scholarship for an undergraduate student currently enrolled in an approved study abroad program in the College of Food, Agricultural, and Environmental Sciences. The scholarship may be used for, but is not limited to, tuition, books, airfare, and other associated programmatic expenses. Eligible students must be enrolled at the University’s Columbus campus, be in good academic standing, and be progressing toward their degrees. The scholarship may not be renewed. Recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences or his/her designee, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In the event there is excess distribution after awarding the scholarship, the College may make awards of lesser amounts to additional students following the same criteria.

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $26,080.00 (grandfathered)

Buckeye Leadership Workshop Endowment Fund

The Buckeye Leadership Workshop Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of Buckeye Leadership Workshop, Inc.

The annual distribution from this fund shall be used to provide awards for OSU Extension staff and faculty, Ohio 4-H members and volunteers, and/or OSU Extension volunteers to attend the Buckeye Leadership Workshop. Recipients shall be recommended by the
February 10, 2012 meeting, Board of Trustees

Buckeye Leadership Workshop Scholarship Selection Committee and approved by the assistant director of OSU Extension for 4-H Youth Development. Guidelines for application and selection, and expenditures shall be approved by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

If Buckeye Leadership Workshop, Inc. should cease to exist, the annual distribution shall be used for activities that contribute to professional development in the area of leadership for OSU Extension staff and faculty, Ohio 4-H members and volunteers, and/or OSU Extension volunteers. Expenditures shall be approved by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

Amount Establishing Endowment: $25,617.38 (grandfathered)

Food, Agricultural and Biological Engineering Departmental Student Organizations Development Fund

The Food, Agricultural and Biological Engineering (FABE) Departmental Student Organizations Development Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Thomas L. Bean, FABE Student Organizations, alumni, and friends of the Department.

The annual distribution from this fund shall be used to enrich experiences for students participating in student clubs and organizations within the Department of FABE by enhancing their activities and community service. Expenditures may include, but are not limited to, participation in state/regional/national events, field trips, invited lecturers, and awards for contests and competitions. The annual distribution may also be used to supplement existing funds for refreshments, program promotion, travel costs, honoraria, awards, and other related costs. The chairperson of the Department of FABE shall approve all expenditures from this fund.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of any expenditure from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
February 10, 2012 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Thomas L. Bean, if possible, and the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $25,450.00 (grandfathered)

Ohio State Fair Hall of Fame Junior Fair Board Scholarship Endowment Fund

The Ohio State Fair Hall of Fame Junior Fair Board Scholarship Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Ohio State Fair Hall of Fame recipients and friends.

The annual distribution from this fund shall be used to provide a minimum of two (2) scholarship awards to members of the Ohio State Fair Junior Fair Board. Recipients must be entering The Ohio State University main campus, ATI or any of its regional campuses. Candidates shall be nominated by a committee of supervisors for the Ohio State Fair Junior Fair Board, and recipients will be selected by the OSU Extension 4-H Youth Development scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion will be made available to support an area of need within OSU Extension-4-H Youth Development as determined by the State 4-H Leader or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration, and executive dean of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the assistant director, OSU Extension- 4-H Youth Development.

Amount of Endowment: $25,085.00 (grandfathered)

Norman Levine Memorial Endowment Fund

The Norman Levine Memorial Endowment Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with anonymous gifts from a grateful student of Professor Levine.

The annual distribution from this fund shall be used at the discretion of the director of the University Libraries.
In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the University Libraries.

Amount Establishing Endowment: $25,000.00 (unrestricted)

The Kanaan Beckwith Sievers Fund

The Kanaan Beckwith Sievers Fund was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Samira Beckwith (B.A. 1974, M.A. 1977).

The annual distribution from this fund shall provide unrestricted support split between three areas to be used at the discretion of each area’s top administrator: 25% to the Alumni Association, 25% to the College of Social Work, and 50% to the Office of the President.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the president/CEO of the Alumni Association, the dean of the College of Social Work or the University President as appropriate.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the president/CEO of the Alumni Association, the dean of the College of Social Work, and the University President.

Amount Establishing Endowment: $25,000.00 (unrestricted)
Total Commitment: $100,000.00
February 10, 2012 meeting, Board of Trustees

Change in Name of Named Endowed Fund

Clermont County 4-H Endowment Fund in Memory of Kathleen Retzler

The Kathleen Retzler Memorial 4-H Endowment Fund for Clermont County was established September 18, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Kathleen Retzler 4-H Memorial Scholarship Fund. The name was revised February 10, 2012.

The annual distribution will provide awards in equal amounts, with a minimum of $500 each, for the Clermont County Junior Fair King and Queen as elected by the Junior Fair Board through an application and interview process. If the annual earnings do not allow for two $500 awards, then two awards in equal amounts will be made to the Junior Fair King and Queen. Any remaining funds each year will be used to provide program funding for the 4-H youth and volunteers of the Clermont County 4-H Youth Development Program. The OSU Extension professional in charge of the Clermont County 4-H Program, in consultation with the Clermont County 4-H Committee, shall approve all expenditures from this fund.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension, 4-H Youth Development.

Change in Name and Description of Named Endowed Funds

Hrusovsky Family Internship Fund

The Hrusovsky Family Excellence Award Fund at The Max M. Fisher College of Business was established October 29, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John J. Hrusovsky II (B.S.Bus.Adm. 1986). The name and description were revised February 5, 2010, to the Hrusovsky Family / GroundWork Group Internship Fund. The name and description were revised again February 10, 2012.

The annual distribution from this fund will support Fisher College of Business students seeking internships in information technology. The award may be distributed anytime during the calendar year. Placements will be coordinated through the Center for Entrepreneurship in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the
February 10, 2012 meeting, Board of Trustees

criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the Fisher College of Business.

Donald D. Mayhew Memorial Scholarship Fund

The Donald D. Mayhew Memorial Fellowship Endowment Fund was established February 5, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Helen E. Mayhew of Lima, Ohio. The gifts were made in memory of her son. The name and description were revised February 10, 2012.

At least fifty percent (50%) of the annual distribution shall be used to support undergraduate scholarships and internships in the College of Food, Agricultural, and Environmental Sciences. Eligible students must have demonstrated interest in ornamental plants and public gardens, be pursuing a College major, or be pursuing a horticulture and crop science minor if pursuing a major outside the College. Recipients of the Mayhew Scholarship also will be expected to fulfill a paid internship equivalent in monetary value to their scholarship awards within the Chadwick Arboretum and Learning Gardens during their current scholarship year.

The remainder of the annual distribution shall be used to provide scholarships to support undergraduate co-curricular activities which shall include, but not be limited to, awards for at least four (4) full-time summer interns in the Arboretum, independent undergraduate research projects, study abroad scholarships, and scholarships to attend professional conferences. Only current recipients of the Mayhew Scholarship will be eligible to apply for additional support from this fund for their co-curricular activities.

The scholarships are renewable, not to exceed four (4) years, provided the students remain in good academic standing, are progressing towards their degrees, and continue to meet the scholarship’s criteria. Quality of performance associated with their Arboretum internships also will be considered.

Scholarship recipients shall be selected by the Department of Horticulture and Crop Science scholarship selection committee in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean of the College, and in consultation with the director of the Arboretum and the University’s Office of Student Financial Aid. Scholarships for co-curricular activities shall be awarded by the chairperson of the Department of Horticulture and Crop Science and the director of the Arboretum or their designees in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean of the College of Food, Agricultural, and Environmental Sciences.
The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science.

Arthur and Geraldine Nelson Photography Endowment Fund

The Photography Endowment Fund was established June 7, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor. Upon her retirement from the University, Ardine Nelson disclosed her identity and renamed the fund in memory of her parents. The name and description were revised February 10, 2012.

The annual distribution from this fund shall be used to support the needs of the photography area within the Department of Art in the College of Arts and Sciences, with benefit to photography students. Expenditures shall be approved by the photography area coordinator in consultation with the chairperson of the Department of Art.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the chairperson of the Department of Art.

APPROVAL FOR THE ESTABLISHMENT OF A FEE FOR THE DISTANCE EDUCATION PROGRAM
Resolution No. 2012-63

Synopsis: Approval is requested for the establishment of a $100 distance education administration fee and an additional $5 non-resident distance education fee per term for Distance Education Students. The fee funding will be used to operate the distance education program at the University and the non-resident fee will be applied toward the instructional costs of the program. These fees are to be effective starting Summer 2012.

WHEREAS the Board of Trustees of the Ohio State University supports the University’s continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS consultations have taken place within the University to determine the appropriate administration fee and non-resident distance education fee for the Distance Education Program, as described in the accompanying narrative; and

WHEREAS the administration now presents the distance education fee for Summer 2012; and

WHEREAS the administration also presents the non-resident distance education fee of $5 beginning Summer 2012:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby confirms the recommendation of the administration and approves the Distance Education Fee to be established at the rate of $100 per term; and,

BE IT FURTHER RESOLVED, That the Board of Trustees hereby confirms the recommendation of the administration and approves the non-resident distance education fee to be established at the rate of $5 per term; and

BE IT FURTHER RESOLVED, That these fees become effective Summer 2012.

(See Appendix XXII for background information, page 457.)

REVISIONS TO THE POLICY ON PURCHASING AND COMPETITIVE BIDDING
Resolution No. 2012-64

Synopsis: Authorization for the adoption of the revised policy on purchasing and competitive bidding is requested.

WHEREAS it is the policy of The Ohio State University to solicit competitive bids or proposals in making University purchases in all cases wherein the best interest of the University will be served by such competition; and

WHEREAS the University’s policy on purchasing and competitive bidding has been established by the Board of Trustees through Resolutions 84-61, 85-29, 86-41, 87-38, 87-39, 88-55, 92-78, 95-17, 2002-97, 2008-70 and 2011-78 and there is a need to revise and update the University’s policy on purchasing to reflect changes enacted in Ohio’s Construction Reform Law, Am. Sub. H.B. 153 of the 129th General Assembly:

NOW THEREFORE
BE IT RESOLVED, That the Board of Trustees hereby revises the policy on purchasing, as follows, effective immediately:

1. Under the direction of the Senior Vice President for Business and Finance, the Director of Purchasing shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the University.

2. Unless otherwise provided, all equipment, materials, supplies, and services shall be purchased through solicitation of competitive bids or proposals except in the following instances:

   A. Where such equipment, materials, supplies, or services are purchased pursuant to Sections 4115.31 to 4115.35 and 5147.07 of the Revised Code; or
   B. Where the amount of such purchase of equipment, materials, and/or supplies is less than $25,000; or
   C. Where the purchase of services, or any combination of services, equipment, materials, and supplies, is less than $50,000; or
   D. Where the purchase is less than $200,000 and is for the construction, addition, alteration, structural or other improvements of a University building or structure.

   The above threshold amounts notwithstanding, the University may require competitive bidding for purchases below these threshold amounts if it determines that such bidding is in the best interest of the University. Contracts shall be awarded to the lowest responsible and responsive bidder. In accordance with policies and procedures established by the Office of Business and Finance, the University may accept or reject any or all bids or proposals in whole or by item. For any contract authorized by the University’s policy on purchasing, the University is authorized to make multiple awards as provided for in the University’s request for bids or proposals.

3. The President and/or Senior Vice President for Business and Finance, or his or her designee, may grant a waiver from competitive bidding when he or she determines that an emergency or a sufficient economic reason exists, or that the equipment, materials, supplies, or services can be purchased only from a single supplier (“sole source”).

4. The President and/or Senior Vice President for Business and Finance, or his or her designee, may grant a waiver from competitive bidding when he or she determines that the services to be purchased are technical and specialized consulting services that are temporary in nature and there are sufficient economic reasons to support such a waiver and where such terms and conditions as are in the best interest of the University. The exercise of this authority shall be subject to the oversight authority of the Senior Vice President for Business and Finance.

5. The President and/or Senior Vice President for Business and Finance, upon recommendation of the appropriate University office responsible for University collections and with any necessary budgeting approval, is authorized on behalf of the University, on a continuing basis, to purchase (including through the commissioning of such work or objects), without competitive bidding, objects of fine or decorative art or other objects to be collected for and on behalf of the University, from funds authorized for such purposes, upon such terms and conditions as are deemed to be in the best interest of the University, but not to exceed $1 million per art work or collection based on an appraisal (or appraisals) acceptable to the University. This provision rescinds Resolution 84-61.

6. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, equipment, materials, supplies, or services through any non-profit or governmental agencies or consortia (including but not limited to the Inter University Council Purchasing Group) whose contracts meet the competitive bidding
requirements as determined by the University, upon such terms and conditions as are in the best interest of the University.

7. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to enter into agreements, without competitive bidding, for entertainment acts, performers, and artists, and their selected, required, or contractually mandated promoters or associated vendors, as scheduled by various University departments, upon such terms and conditions as are in the best interest of the University.

8. Resolution 87-38 is hereby reconfirmed and the President and/or Senior Vice President for Business and Finance, in consultation with the Vice President for Research, is authorized on behalf of the University, on a continuing basis, to negotiate and to enter into, without competitive bidding, agreements, including purchase agreements, as are necessary or desirable to acquire, finance, install, equip, maintain, operate, and update current generation and subsequent new generation supercomputing equipment developed by or for use with Cray Research, Inc. supercomputing equipment.

9. In accordance with Section 5513.01(B) of the Revised Code, the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, through Ohio Department of Transportation agreements, machinery, materials, supplies or other articles upon such terms and conditions that are in the best interest of the University.

10. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, books, periodicals, and other related items for the University Libraries’ collections.

11. In compliance with Section 125.081 of the Revised Code and any applicable court decisions, the University shall set aside a number of purchases each year for bidding by certified minority businesses only. The bidding procedures for such contracts shall be the same as for all other contracts except that: 1) only minority business enterprises certified by the State of Ohio Equal Employment Opportunity Coordinator shall be qualified to submit bids; and 2) the cost of products and services may not exceed the estimated market price by more than approximately 10%. If bids are rejected because of this cost consideration, the purchase shall be offered again for bid by all interested vendors in accordance with standard bidding procedures.

12. Resolution 95-17 is hereby reconfirmed, and notwithstanding any other provision of this policy on purchasing, the Vice President of Health Services shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the Hospitals of the University and their related facilities, in accordance with this University Purchasing Policy. The exercise of this authority by the Vice President of Health Services shall be subject to the oversight authority of the Senior Vice President for Business and Finance who shall review the application of this delegation of authority every three years.

13. Resolutions 87-39 and 88-55 are hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized, on a continuing basis, to purchase, without competitive bidding, equipment, materials, supplies, or services through the University Hospital Consortium, Inc., and the Hospital Helicopter Consortium of Central Ohio, whose contracts meet the competitive bidding requirements as determined by the University, and upon such terms and conditions as are in the best interest of the University.
14. The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements, to purchase services for blood and organ products for transplantation, without competitive bidding, upon such terms and conditions as are in the best interest of the University. This provision rescinds Resolution 86-41.

15. The President and/or the Senior Vice President for Business and Finance is authorized on behalf of the University to employ reverse-auctioning procurement methods for the purchase of goods and services, in accordance with the competitive bidding requirements as determined by the University.

16. Resolution 2002-97 is hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, equipment, materials, supplies, or services through participation in State of Ohio term schedules in which the vendor guarantees that the State will receive the lowest price as offered to the federal government and in which the vendor agrees to accept all of the State’s terms and conditions.

17. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, the renewal of licenses and maintenance agreements for existing mission critical enterprise-wide software applications, upon such terms and conditions as are in the best interest of the University.

18. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis and without competitive bidding, to negotiate and enter into real estate lease agreements in accordance with existing University procedures, upon such terms and conditions as are in the best interest of the University.

19. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, municipally based and other single-source supplies of utility services, upon such terms and conditions as are in the best interest of the University.

20. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding and in support of the mission of WOSU Public Media, products and services available solely through the Public Broadcast Service, National Public Radio and the National Program Service (including but not limited to programming fees and promotional products), upon such terms and conditions as are in the best interest of the University.

21. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, necessary services for authorized student exchange programs with other institutions of higher education, upon such terms and conditions as are in the best interest of the University.

22. The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements to purchase physician services in support of the University Health System, without competitive bidding, upon such terms and conditions as are in the best interest of the University.

23. Notwithstanding any other provision of this policy to the contrary, any contract or purchase, whether competitively bid or not, for goods or services which contract or purchase is in excess of $1 million must have the prior written approval of the Senior
February 10, 2012 meeting, Board of Trustees

Vice President for Business and Finance or his or her designee within the Office of Business and Finance.

Notwithstanding any other provision of this policy to the contrary, any contract or purchase for goods or services for which competitive bidding is waived, and which contract or purchase is in excess of $500,000 must have the prior written approval of the Senior Vice President for Business and Finance or his or her designee within the Office of Business and Finance.

24. Only the President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements, to engage in and sign agreements with various financial institutions and advisors relating to financial consulting services, banking, brokerage, leasing, asset financing and related financial services without competitive bidding, upon such terms and conditions are in the best interest of the University.

25. All contracts or purchases for goods or services for which contract or purchase is in excess of $250,000 for which competitive bidding is waived, shall be reported to the Board on a quarterly basis.

A report of all contracts or purchases for goods or services for which competitive bidding is waived shall be provided to the Board of Trustees Office on an annual basis.

This policy applies to all funds administered by The Ohio State University and applies to the purchases of all products and services that are not conditions of existing contracts that have been previously negotiated and competitively bid. Also this Policy applies only to purchases of products and services acquired from outside The Ohio State University and its affiliates.

RATIFICATION AND APPROVAL OF AMENDMENTS TO THE OHIO STATE UNIVERSITY DEFERRED COMPENSATION PLANS

Resolution No. 2012-65

Synopsis: Ratification and approval of the amendment of The Ohio State University ING Financial Advisers Deferred Compensation Plan, The Ohio State University Deferred Compensation Plan funded by TIAA-CREF, The Ohio State University Lincoln National Deferred Compensation Plan and The Ohio State University VALIC Deferred Compensation Plan (collectively, the “Deferred Compensation Plans”) is proposed.

WHEREAS certain amendments were required to be made to the Deferred Compensation Plans by December 31, 2011 to comply with the requirements of the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 ("HEART") and the Worker, Retiree, and Employer Recovery Act of 2008 ("WRERA"); and

WHEREAS the University has the authority to amend the Deferred Compensation Plans from time to time; and

WHEREAS the University is amending, restating and consolidating the Deferred Compensation Plans into one plan document named The Ohio State University Amended and Restated 457(B) Deferred Compensation Plan; and

WHEREAS the restatement incorporates changes necessary to maintain compliance with Section 457(b) of the Internal Revenue Code and related guidance; adds the ability for active participants to make withdrawals due to unforeseeable emergencies; and removes the ability for active participants to make certain catch-up contributions to the plan; and
WHEREAS the Board of Trustees has reviewed and considered the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer to amend the Deferred Compensation Plans to comply with PPA, HEART and WRERA, as set forth in the amendment attached as Exhibit A and incorporated herein by reference; and

WHEREAS the Board of Trustees has determined that the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer to amend the Deferred Compensation Plans and execute the amendment prior to the date of this Resolution were proper and in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the amendment of the Deferred Compensation Plans, in the form attached hereto as Exhibit A, be and hereby is approved, ratified and adopted effective as stated therein; and

BE IT FURTHER RESOLVED, That the adoption and implementation of the amendment and any actions relating thereto by the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer that have been taken or made prior to the date of this Resolution are hereby ratified, affirmed and approved.

(See Appendix XXIII for background information, page 460.)

***

APPROVAL OF AMENDMENT AND RESTATEMENT OF THE OHIO STATE UNIVERSITY DEFERRED COMPENSATION PLANS

Resolution No. 2012-66

Synopsis: The University maintains The Ohio State University ING Financial Advisers Deferred Compensation Plan, The Ohio State University Deferred Compensation Plan funded by TIAA-CREF, The Ohio State University Lincoln National Deferred Compensation Plan and The Ohio State University VALIC Deferred Compensation Plan (collectively, the “Deferred Compensation Plans”). Approval of the amendment, restatement and consolidation of the Deferred Compensation Plans into The Ohio State University Amended and Restated 457(b) Deferred Compensation Plan (the “457(b) Plan”) and authorization for adopting future amendments to the 457(b) Plan are proposed.

WHEREAS the University maintains the Deferred Compensation Plans; and

WHEREAS the University has the authority to amend the Deferred Compensation Plans from time to time; and

WHEREAS the University desires to amend, restate and consolidate the Deferred Compensation Plans into the 457(b) Plan to comply with applicable laws, regulations and administrative authority and to make certain administrative changes:

NOW THEREFORE

BE IT RESOLVED, That the amendment, restatement and consolidation of the Deferred Compensation Plans into the 457(b) Plan, in substantially the form attached hereto as Exhibit A, be, and hereby is, adopted effective as of January 1, 2012; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance and Chief Financial Officer is hereby authorized to execute the 457(b) Plan and any other agreements, certificates, instruments, documents, or conveyances necessary to effectuate
February 10, 2012 meeting, Board of Trustees

the amendment, restatement and consolidation of the Deferred Compensation Plans into the 457(b) Plan; and

BE IT FURTHER RESOLVED, That if, in the future, further amendments to the 457(b) Plan (or to any other ancillary documents for the 457(b) Plan) of a technical or non-discretionary nature become necessary to either: (1) secure or maintain compliance with federal tax laws; or (2) conform to amendments of the governing provisions of the Ohio Revised Code, then the Senior Vice President for Business and Finance and Chief Financial Officer, in consultation with the Office of Human Resources and the Office of Legal Affairs, is hereby authorized to take such actions and execute such documents as are necessary to effectuate such amendments and ancillary documents, without further review or resolution by the Board of Trustees.

(See Appendix XXIV for background information, page 465.)

***

RATIFICATION AND APPROVAL OF AMENDMENT RELATING TO THE OHIO PUBLIC EDUCATION INSTITUTIONS' ALTERNATIVE RETIREMENT PLAN

Resolution No. 2012-67

Synopsis: Ratification and approval of amendment to certain individual alternative retirement plans (collectively, the “Individual Plans”) made on behalf of adopting employers for compliance with the requirements of the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 (“HEART”), and the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”) is proposed.

WHEREAS the IRS required that certain amendments be made to all individual alternative retirement plans by December 31, 2011 in order to comply with the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 (“HEART”), and the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”); and

WHEREAS the University adopted those amendments for its individual Alternative Retirement Plan at its November 4, 2011, meeting of the Board of Trustees; and

WHEREAS as the Volume Submitter Plan sponsor, the University also exercised its authority to adopt those amendments on behalf of other individual alternative retirement plans that previously had not adopted them. The amendment on behalf of those other individual alternative retirement plans was approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel, and was executed by the Senior Vice President for Business and Finance and Chief Financial Officer on December 15, 2011; and

WHEREAS the Board of Trustees has reviewed and considered the actions of the Office of Legal Affairs, the Office of Human Resources and the Chief Financial Officer and Senior Vice President for Business and Finance to amend certain Individual Plans, as set forth in the amendment attached as Exhibit A and incorporated herein by reference; and

WHEREAS the Board of Trustees has determined that the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer to amend those Individual Plans and execute the amendment on behalf of the applicable adopting employers prior to the date of this Resolution were proper and in the best interests of the University and such adopting employers:

NOW THEREFORE

BE IT RESOLVED, That the amendment, in the form attached hereto as Exhibit A, be and hereby is approved, ratified and adopted effective as of the date specified therein; and
February 10, 2012 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That the adoption and implementation of the amendment and any actions relating thereto by the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer that have been taken or made prior to the date of this Resolution are hereby ratified, affirmed and approved.

SALE OF REAL ESTATE

Resolution No. 2012-69

VACANT LAND, 0.69 ACRES
APPLE CREEK, OHIO

Synopsis: Authorization is requested to sell vacant land owned by the University containing approximately 0.69 acres located on Grange Street, Apple Creek, Ohio, to an adjacent property owner.

WHEREAS in 2001, the University and ATI, Wooster Campus, acquired approximately 1725 acres of land and buildings from the Ohio Department of Mental Retardation and Developmental Disabilities in Wayne County, near Apple Creek, Ohio (Resolution 2001-14); and

WHEREAS the property is being used to support various programs being offered by ATI but some of the land containing wooded areas is not being used by OSU/ATI and can be considered excess to the mission of ATI; and

WHEREAS Jason and Ronda Shultzman have offered to purchase land from Ohio State adjacent to their property located at 150 Grange Street, Apple Creek, Ohio 44606, to remedy an encroachment issue; and

WHEREAS the vacant land to be purchased has been appraised indicating a market value of $13,800; and

WHEREAS the Shultzmans have agreed to pay $13,800 for the property plus the costs of the appraisal and survey of the property, and closing costs for a total of $15,900; and

WHEREAS the appropriate Ohio State offices have determined that the property is excess to any immediate or long-term needs of the University and the sale of this real estate is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration & Planning be authorized to take any action required to effect the sale of vacant land containing approximately 0.69 acres on Grange Street, Apple Creek, Ohio upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix XXVII for background information, page 495.)

***

PURCHASE OF REAL ESTATE

Resolution No. 2012-70

TWO CITY ALLEYS IN THE SOUTH CAMPUS DISTRICT
COLUMBUS, OHIO 43201
February 10, 2012 meeting, Board of Trustees

Synopsis: Authorization is requested to purchase property from the City of Columbus described as the East/West alley immediately south of West 11th Avenue between Hunter and Highland Avenues and the North/South alley between Hunter and Highland Avenues.

WHEREAS at the request of the University, the City of Columbus has offered to vacate and sell the above described alleys for $24,900, subject to approval of the sale by the Columbus City Council and subject to retention of a general utility easement for public utilities currently located in the alley, and an appraisal of this property that supports the purchase price that is being offered by the City to sell the property to the University; and

WHEREAS the purchase of this property supports the University’s approved Framework Plan, will provide land required for construction projects in the South Campus District; and

WHEREAS the property is located within the University’s South Campus Acquisition Area; and

WHEREAS the appropriate University offices have determined that the purchase of this property would be in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action required to effect the purchase of the East/West alley, immediately south of West 11th Avenue and the North/South alley between Hunter and Highland Avenues from the City of Columbus, and to acquire title to this property upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix XXVIII for background information, page 497.)

***

SUBLEASE

Resolution No. 2012-71

BETWEEN SCITECH AND THE OHIO STATE UNIVERSITY CENTER FOR ELECTRON MICROSCOPY ANALYSIS (CEMAS) COLUMBUS, OHIO

Synopsis: Authorization is requested for entering into a 10-year sublease of approximately 22,000 square feet with SciTech, a not-for-profit corporation, for the development of Material Science Laboratories, the College of Engineering, at 1305 Kinnear Road, located in Columbus, Ohio.

WHEREAS the Board of Trustees of The Ohio State University and the State of Ohio is presented with the opportunity to enter into a 10-year sublease of real property in Columbus, Ohio with SciTech, a not-for-profit corporation; and

WHEREAS the Center for Electron Microscopy Analysis (CEMAS) project will provide additional space for purposes deemed critical to the College of Engineering, Material Science mission; and

WHEREAS The Ohio State University, College of Engineering will pay rent / operating expenses in the amount of $5.1M and Tenant Improvements in the amount of $5.0M and will reimburse Business and Finance for the extension of a Line of Credit and will also use current cash on hand in the College of Engineering; and

WHEREAS the sublease of this facility is in the best interest of the University:
NOW THEREFORE

BE IT RESOLVED, That the President and/or the Chief Financial Officer and Senior Vice President for Business and Finance be authorized to take any action required to effect the execution of a 10-year sublease with SciTech at such terms determined to be in the best interest of the State of Ohio and the University.

(See Appendix XXIX for background information, page 499.)

***

AUTHORIZATION FOR RELEASE OF FUNDS
Resolution No. 2012-72

Synopsis: Release of funds for the Medical Center Expansion Project is recommended.

WHEREAS in September 2009 the Board of Trustees authorized the Medical Center Expansion (ProjectONE) at a cost not to exceed $1 billion and authorized the President and/or Senior Vice President for Administration and Planning, in consultation with the Senior Vice President for Health Sciences, to enter into design, construction, construction management, and other contracts as necessary for the project in accordance with the established University and state of Ohio procedures, with all actions to be reported to the Board at the appropriate time; and

WHEREAS the project is expected to be funded by $925 million from University bond proceeds and $75 million from development funds for a total authorized project amount not to exceed $1 billion; and

WHEREAS in April 2011 the Board of Trustees authorized the acceptance of a federal Health Resources and Services Administration (HRSA) $100M grant to be expended for an expanded cancer ambulatory program for radiation oncology services and authorized such program as part of the Medical Center Expansion Project; and

WHEREAS the President and/or Senior Vice President for Administration and Planning in consultation with the Senior Vice President for Health Sciences, shall only spend such funds as are released by the Board; and

WHEREAS the President and/or Senior Vice President for Administration and Planning, in consultation with the Senior Vice President for Health Sciences, shall report to the Board on the progress of the project every six months or more frequently as appropriate or as requested by the Board and, as a part of such reports, shall request release of such funds as needed; and

WHEREAS the following funds for construction commitments are requested for release:

Commitments to be made through June 2012:

<table>
<thead>
<tr>
<th>Description</th>

Development funds

Through the submission of this report, the interim approval for this project is being presented for your ratification.

(See Appendix XXX for background information, page 501.)

Upon motion of Mr. Brass, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbly, Kass, Jurgensen, Wadsworth and Smucker.

***

COMMITTEE OF THE WHOLE

Dr. Cloyd:

Mr. Chairman, may I ask that we move to a Committee of the Whole to take under consideration a new item of business proposed by the administration involving the naming of the Medical Center with the understanding that a vote of the Committee will constitute a vote by the full body?

Mr. Wexner:

Yes.

Upon motion of Dr. Cloyd, seconded by Mr. Shumate, the Board of Trustees adopted the motion by acclamation of Trustees Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbly, Kass, Jurgensen, Wadsworth and Smucker.

Dr. Cloyd:

Thank you, Mr. Chairman. Could I ask that you recuse yourself from the consideration of the matter as I call on President Gee to make his presentation?

President Gee:

Thank you. So it is my great pleasure to introduce for the Board’s consideration a proposal for the honorific naming of our academic Medical Center to commemorate the incalculable leadership and legacy of Leslie Wexner at The Ohio State University.
February 10, 2012 meeting, Board of Trustees

I will not read the resolution because I think everyone has a copy, but I do want to take this opportunity in fact I insisted on taking this opportunity to make a few remarks.

The Chairman’s colleagues on the Board know that he is a man whose determination and abilities abound in equal measure a person of enormous talents that he has used to touch and improve countless lives at this University, in our community, and certainly across the country and around the world. Through his decades of leadership, service and strategic guidance, he has quite simply transformed Ohio State.

Think of the remarkable contemporary arts center named in honor of his father. The groundbreaking partnership forged with the Royal Shakespeare Company, the efforts he has led to honor friends and mentors in business, law and global trade and his personal involvement with and mentorship of current students.

But the area in which he and his wife, Abigail, who I am pleased to say is in the audience today, have made their most indelible mark is surely our Medical Center. Abigail, of course, serves on its Board, and their family is firmly intertwined with signature programs such as Pelotonia and the James Fund for Life that raise substantial funds to advance the Medical Center's work. Here, Les’ passion, purpose, and unyielding vision take a laser focus, and the result is the same bold aspirations that characterize his own remarkable life story.

As we all know, a year ago nearly to this very day we celebrated the largest gift in the University’s history; $100 million from the Wexner’s and the Limited Brands Foundation. That gift is, by any measure, a transformative one. But today we celebrate the innumerable ways in which Les Wexner's leadership and engagement have forever changed the University.

One of the greatest pleasures of my career has been the opportunity to work closely with Les for now over 20 years, my friend. He has taught me a great deal about creating the future, inspiring others, and always, always reaching beyond the known. That is what we celebrate with today’s proposed honorific naming of the Wexner Medical Center, where “reaching beyond what is known” will forevermore be the ethos shared with the man whose name it bears.

Finally, on a personal level, I will say that this day ranks among the high points of my life’s work in higher education. I am proud to be part of this moment. With that, I respectfully submit this resolution to the Board.

Dr. Cloyd:

Thank you, President Gee. May I have a motion to adopt this resolution, which would be the honorific naming of our academic Medical Center? In the future it would be known as the Wexner Medical Center at The Ohio State University.

Mr. Brass:

I would be honored to so move.

Dr. Wadsworth:

I second the motion.

Dr. Cloyd:

The naming of our academic Medical Center is a major event, or as our Chairman would often say about things like this, “This is really a big deal.” It represents a very significant recognition. Our naming guidelines for honorific namings require us to only honor individuals who have made outstanding service to the University or outstanding service
February 10, 2012 meeting, Board of Trustees

to our community. Les and Abigail Wexner have consistently provided extraordinary leadership both to our great University and the Ohio community.

It is so appropriate to name our academic Medical Center for Les and his family for their great service and all the passion, energy and leadership they bring to enhance the quality of peoples’ lives. It is also a great honor for our academic Medical Center to now have the name Wexner Medical Center associated with it.

Any other comments from any other Board members?

Mr. Schottenstein:

I just have a couple things that I want to say. This is a very special day for the University as special as perhaps any other and we are very lucky to have both Les and Abigail with us today.

Gordon, you mentioned my dad earlier, and my dad passed away in 2004 on February 11, which would be tomorrow. He adored Les for all the right reasons, and I think the feeling was mutual. I remember once asking my dad, “Why do you like him so much?” And he said that he has a great heart, and my dad was a man of few words. He said, “He has a great heart and he is a leader.” I said, “What makes him a leader?” And he said, “He leads.” I guess leaders lead and Abigail is no different.

No one cares more for this University or works harder on behalf of this University than you. I don’t know how you do it 24/7, 365 days of every year, so this is a very special moment and a very appropriate moment. We have heard about how great our Medical Center is doing and today it got better. I just think this is a great day, and I am so pleased to be a part of it.

Dr. Cloyd:

Thank you, Bob. Yes. Alan?

Mr. Brass:

You know, since I came on this Board, I have been associated with our Medical Center, and I think it was probably within 24 hours that Les and I were talking about the Medical Center. It has come a long way. It is on a climb that I think we all can be very proud of.

I think probably the most important thing in having your name associated with it is your love for the students, the residents, the fellows, and the thousands of people that are going to come through that Medical Center to be trained and be charged with healing. I just can’t think of a better name for someone who has dedicated his life to trying to make things better. It has got the right name. It has got the right name.

Dr. Cloyd:

Thank you, Alan. Thank you for your comments.

Mr. Shumate:

If I might add, I have had the privilege of serving on the Board for two terms with Les as our Chair. His first term was in the 90s, and again I think as you pointed out, Gil, this is based on a lifetime of commitment and dedication to Ohio State University based upon outstanding leadership. One of the things that I have often said is that I don’t know a person that has greater vision than Les Wexner.

He is truly a visionary leader. But I think that over the years, what I have appreciated so much is his passion to turn that vision into reality. Our University is better, certainly our
February 10, 2012 meeting, Board of Trustees

Medical Center is better when we think about not just the building project but the quality of what is going on as evidenced by the report that Dr. Gabbe gave to us today. So it is more than appropriate for what Les has done for helping all of us better understand the importance of the University as well as the academic Medical Center to our city, our state and, in fact, the world.

Dr. Cloyd:

Judge Marbely?

Judge Marbely:

I am going to try not to repeat everything that has already been said, but as I look around the Board, I am one of the few people that have had the distinct pleasure of serving both with Les and with Abigail. I have served a number of years with Abigail as the Chair of the Nationwide Children’s Hospital. It was under Abigail’s leadership that she brought in that transformative gift that Jerry and his company were responsible for.

What I will say about them is that they are people of uncommon compassion and simply prelapsarian integrity. It has been an honor to live in this community where you all have been so dedicated to the well-being of the children of this community as well as the adults and, of course, your commitment to this University is unparalleled. But what others will also know is that your commitment to the world is consistent with your commitment to this University, so we now have a world class Medical Center thanks to you and Abigail. I think that the vision and the compassion that you bring to this, and that you will continue to bring to this, will be a bellwether for all of us and will be a beacon of hope for many. So I congratulate you on this day and I am honored to have the opportunity to serve with you both.

Mr. Wexner:

Thank you.

Dr. Cloyd:

Thank you all for those comments, very well intended. I would like to call the question and ask the Secretary to please call the roll.

HONORIFIC NAMING OF THE OHIO STATE UNIVERSITY MEDICAL CENTER

Resolution No. 2012-74

IN THE OHIO STATE UNIVERSITY MEDICAL CENTER WHEREVER THE CURRENT MEDICAL CENTER NAME IS PRESENTED: “WEXNER MEDICAL CENTER AT THE OHIO STATE UNIVERSITY”

Synopsis: The honorific naming of the “Wexner Medical Center at the Ohio State University” located at 410 W. 10th Ave. on the OSU Columbus Campus, is respectfully recommended in recognition of Mr. and Mrs. Wexner, as well as their family and companies, to acknowledge and celebrate the history of transformational contributions to the University as well as to local, state, national and international communities.

WHEREAS Abigail and Leslie Wexner, their family, associated corporate and foundation interests and related business partners have had an enormous impact on our University and our community, and they continue to provide outstanding, dedicated service to both. The results of their loyalty and devotion of time continue to make a positive and dramatic impact. And their work here is not yet complete;

WHEREAS the University values and recognizes the significant interest in community health care that both Abigail and Les demonstrate at Ohio State and elsewhere; and
February 10, 2012 meeting, Board of Trustees

WHEREAS while articulating the entire story of the University’s relationship with the Wexners would fill volumes, some examples of Abigail and Les Wexner’s unwavering service and commitment to The Ohio State University that reinforce the case for this honorific naming include:

- Holding leadership positions on seven different governing boards over the past 20+ years, and have personally dedicated thousands of hours helping to gather support for university programs;
- Raising more than $60 million for the Wexner Center Foundation;
- Being the major funder of the Wexner Center for the Arts, named to honor his father;
- Les has more than 15 years of service to the Board of Trustees, including two years as Chair;
- Being the leaders in establishing Royal Shakespeare Company Partnership;
- Hosting the biennial Go Bucks Beat Blue! rally from 2004-2008, raising $968,000 in family gifts & proceeds;
- Helping lead efforts to honor friends/mentors/professors by establishing - Pfahl Hall (Dr. John K. Pfahl), Fisher COB Building Complex Fund - Fisher Prize (Fisher Council on Global Trade & Technology) honoring Max Fisher in 1998 - Cullman MBA Fellowship (Dr. W. Arthur Cullman) - John C. Elam/Vorys Sater Professorship in Law; and

WHEREAS Abigail and Leslie Wexner, their family, associated corporate and foundation interests and related business partners continue to be leaders in the advocacy for Health and Wellness and Medical Research. Some examples of which include:

- Limited Brands Foundation is a major funding partner ($2.5 million through 2014) for Pelotonia to support cancer research at The James Cancer Center of The Ohio State University.
- The entire Wexner family participates in Pelotonia: with Les and Abigail ranking among the top Pelotonia 2011 fundraisers, Hannah, David, Harry, and Sarah having ridden in the event all three years.
- The initiation of the James Fund for Life, now in its 11th year, which the Wexners continue to chair.

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of Rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Ohio State University Medical Center be honorifically named the “Wexner Medical Center at The Ohio State University.” Further, in accordance with the University’s naming guidelines, the Board of Trustees waives any condition that Les or Abigail Wexner cease service to the University prior to this honorific naming.

***

Upon motion of Mr. Brass, seconded by Dr. Wadsworth, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Wadsworth and Smucker.

Mr. Wexner:

Thank you. I woke up this morning at around 4:00 a.m. anticipating this day, and I thought about different things to say and reflections of clear and incredible appreciation.

Just simply, I appreciate being associated with the University and all of you. But for Ohio State, I would not have been able to go to college, and I know that but also for the friends
February 10, 2012 meeting, Board of Trustees

and the provocations of faculty. I went through the school, and I didn’t know that I was getting an education. I just kind of went through. I have to admit, I decided to go to college because it was a good thing to do. Once I started, I couldn’t wait to get out. I remember sitting in that stadium on a warm June day thinking that I am done, and they are going to give me a diploma and I am through.

Even speculating that I might never wonder around the campus again, I tend not to go back, I have never had any particular desire to go back and visit my high school or visit a house I lived in or neighborhood, that is just not how I am, but something did happen, which was probably instigated most by Jack Kessler who is here. Jack and I have been friends since college. Neither one of us could afford the store that he worked in, so he got free cleaning and I got to look at nice clothes. Jack influenced me to get engaged with the University and to think about spending some time here, which I have done, and it has been quite remarkable, the connection.

I think the thank you is for those people that created the institution before I set foot in it and for those people that have governed it since. I often think about that day in June of graduation and people standing around. Some were laughing and some crying when singing Carmen Ohio, and I was speculating, because some of them seemed very intent about it, but I was kind of a spectator. They talked about how firm thy friendship and the years will roll, and I thought those were kind of silly words. But the years do roll and time does change, hopefully for the better, and clearly the friendship of the University in the broadest sense since those first days when a 17 year old came on campus, it has been the core of the things I care about and the core of influence. It extends not only through me, but to Abigail and to the children.

In the same spirit, I do affirm my friendship and do appreciate the friendship of all of you and the University. Thank you.

President Gee:

I will take executive privilege and dismiss us.

***

Thereupon the Board adjourned to meet Friday, April 6, 2012, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner
Chairman

David G. Horn
Secretary
### Consolidated Recommendations

#### Office of University Compliance and Integrity

- The University should establish an enterprise-wide Office of University Compliance and Integrity, led by a newly-created position of Chief Compliance and Integrity Officer.

#### University Compliance and Integrity Committee

- The University should establish a University Compliance and Integrity Committee to be chaired by the Chief Compliance and Integrity Officer.

#### Compliance and Integrity Risk Assessment

- The University should develop an enterprise-wide compliance and integrity risk assessment methodology as a part of its ongoing initiative to establish an enterprise risk management program.

#### Code of Conduct

- The scope and intended audience of the existing Code of Ethics should be expanded to serve as a comprehensive, University-wide Code of Conduct.

#### Policy-Making Process

- OSU should revise and streamline the existing policy-making process by modifying the "University Policy Process" and harmonizing the University’s procedure framework.

#### Change Management

- Significant new University initiatives, or significant changes to existing processes, should be subject to appropriate review by University Compliance and Integrity Committee.

#### Training

- The University should establish a consistent methodology to identify the compliance training needs of faculty, administrators, employees, and other stakeholders, and provide appropriate tools designed to ensure that necessary training has been effectively delivered.

#### Monitoring and Investigations

- Office of University Compliance and Integrity should be charged with ensuring that key integrity and compliance risks to the University are subject to consistent and comprehensive monitoring.
Background, Objectives, and Scope

Report of the Audit and Compliance Committee – June 24, 2011 Meeting of the Board of Trustees:

“We are determined to do all we can to assure that our programs and protocols are a model, and in order to achieve this, we think that, and I speak for the Committee when I say this, that it is necessary to perhaps look at compliance in a slightly different way, and that is to think of it as a matter of institutional integrity.”

Our Guiding Principles

- Aspire to the Committee’s goal of having the University’s compliance function as a model among higher education institutions
- Recognize the unique culture of higher education institutions and embrace concepts of shared governance
- Provide improved independence and authority for the University’s compliance function, ensuring that the root causes of compliance issues are effectively and timely addressed

Scope and Methodology

- Conducted a current state assessment of the University’s compliance efforts across 12 Categories of Requirements (“CoRs”)
- Benchmarked the University’s compliance program against leading higher education and private industry peers and aspirational targets
- Developed and validated proposed future state operating model and supporting recommendations with process owners and University leadership

Implementation Strategy Considerations

Recommendation

The University should establish a communications strategy and Project Management Office (PMO) to direct the announcement and socialization, as well as the detailed design and execution, of the recommended Compliance and Integrity Program enhancements.

Communications Strategy

- Effectively managing the communication of the University’s compliance and integrity strategy will be key to setting an appropriate foundation for cultural changes, as well as maximizing the value of contributions from current compliance leaders and minimizing the risk of attrition in key roles.

PMO Function

- With the magnitude of implementation steps necessary, and the expected timeline, establishing a PMO structure is recommended to manage tasks and coordinate with the various internal and external process owners and stakeholders.
- Key responsibilities would include establishing and managing ongoing project steering committee, overseeing project activities at both a holistic level and detailed level, creating a status tracking and reporting mechanism to highlight key milestones, deliverables, responsible parties, project risks and project status, and evaluating change enablement needs, given potential cultural challenges.

February 10, 2012 meeting, Board of Trustees

(APPENDIX XXII)

THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FINANCE COMMITTEE

February 9, 2012

TOPICS:

Semester Fee Conversion
Establishment of a Distance Education Fee

CONTEXT:

The purpose of this report is to outline the semester fee conversion process for discussion and to recommend approval of a distance education fee effective Summer Term 2012.

SUMMARY:

The conversion of the FY 2012 quarter fee structure to a semester fee structure was completed with the pledge (the "Pledge") to our Students as the guiding principle: full-time tuition (general and instructional fees) for an academic year under semesters (2 semesters) will not cost more than tuition for that same year would have cost under quarters (3 quarters).

A review of the current structure of the distance education program was completed and it was determined that there was a need for a revision of the fee structure. A summary of this issue and the resolution for a distance education fee is attached.

CONSIDERATIONS:

- Was the pledge to the students maintained in the conversion of fees?
- Is the need for revision of the distance education fee structure explained and the need for the new fee justified?

REQUESTED OF THE FINANCE COMMITTEE:

Semester fee conversion - discussion item.
Distance education fee – review of background material and request for approval of proposed fee.
A. Semester Fee Conversion

With the beginning of the semester structure for the University starting Summer 2012, it was necessary to review and convert the student paid fee structure from quarters to semesters. This review included instructional and general fees, mandatory fees, the non-resident surcharge, program/tech/lab fees and course fees. Per our Pledge to the Students, full-time tuition (general and instructional fees) for an academic year under semesters will not cost more than tuition for that same year would have cost under quarters. The cost of tuition and fees will not be affected by the shift to semesters. On the semester calendar, however, students will have two tuition/fee payments per year instead of three.

Most fees were converted based on this methodology of three quarters of costs equals two semesters of costs. Therefore for most fees, the semester fee rates are 1.5 the quarter fee rate. For example, under the quarter system for FY 2012, a full-time resident undergraduate student is charged $3,109 per quarter or $9,309 for the academic year for instructional and general fees. Under the semester structure, the student would be charged $4,654.40 per semester or $9,309 for the academic year at the current FY 2012 fee rates.

While this methodology was applicable to most of the student fees, it was not universally applicable to all course fees. As part of the conversion process, the entire course and academic program structure was reviewed and changed. Therefore, it was necessary to cross-walk the current course structure and related fees to the new course structure, then convert fees accordingly. This analysis was a joint project of the Registrar’s Office, the Office of Financial Planning and Analysis and all colleges with course fees. Again the overriding philosophy was to keep the fees cost neutral to students. It should also be noted that because of the transition from quarters to semesters, the summer 2012 instructional period will be shorter than a typical summer under semesters. Some fees, e.g. the Ohio Union Fee and Recreation Fee were more appropriately considered as “time based” and not directly tied to academic enrollment. Therefore, a different transitional rate was utilized for those fees. Again, this method should be cost neutral to students.

All current fees have now been converted for implementation Summer Term 2012. Any increase in fees for Fiscal Year 2013 will be brought forward for Board of Trustees’ review and approval at the April 2012 meeting. This will include any increases in tuition, non-resident surcharge, room and board, mandatory fees, program/tech/course fees, etc. Any increases that will be brought to the Board of Trustees at that time will not be due to semester conversion activities. In bringing any increases to the Board of Trustees, the University will be cognizant of the impact the tuition payment cycle change will have on the cash flow for students and their parents.

B. Distance Education Fee Structure

Distance education has long been a focus of various University committees. The most recent formal report, released in 2010, was a joint report of the eLearning Strategy Committee and the eLearning Strategy Implementation Committee. The Strategy Committee, primarily comprised of faculty members and chaired by CIO Kathy Starkoff, was tasked with recommending strategic goals for eLearning at Ohio State.
One of the first recommendations of the Strategy Implementation Committee was to “review tuition models for Distance Learning programs and recommend alternatives, if appropriate.” Two issues were identified to be addressed simultaneously in determining an appropriate tuition model for distance education: the inconsistent use of distance education coding within the Student Information System (SIS) and the use of the third party contract model by colleges for tuition and fees associated with existing distance education courses.

To address these issues, the committees devised a framework for coding course sections that would be implemented and monitored on a continuing basis by the Office of the University Registrar. Distance education courses are defined as courses with no scheduled in-classroom or on-site activities and would be uniquely coded in the SIS system. Courses with some scheduled in-classroom or on-site activities would be considered hybrid courses and also coded uniquely. All other courses would continue to be considered as traditional/regular in SIS.

The following outlines the proposal for the fee structure for distance education courses as defined above:

If for a given term a student is enrolled in courses which are ALL defined as distance courses, the following fee structure is recommended:

- The standard residential instructional, general, and program fees associated with each particular program will be assessed. All course specific fees will also be assessed.
- All on-site fees, including, but not limited to the COTA, recreational, Ohio Union, student activities, and technology/lab fees will be waived.
- A distance education administration fee of $100 per student per term will be assessed. The revenue from this fee will fund distance education student support and oversight from the Office of the University Registrar.
- If a student is enrolled as a non-resident, a non-resident distance fee of $5 will be assessed.

Note that if a student is enrolled in ANY class coded as a hybrid or regular course, all standard university fees would apply.

In order to implement this fee structure beginning Summer 2012 as recommended by the eLearning Committee, a proposed resolution is attached for approval by the Board of Trustees.
RATIFICATION AND APPROVAL OF AMENDMENTS TO
THE OHIO STATE UNIVERSITY DEFERRED COMPENSATION PLANS
SUMMARY

Background on the Deferred Compensation Plans:

The University maintains four plans that are eligible deferred compensation plans under Section 457(b) of the Internal Revenue Code: The Ohio State University ING Financial Advisers Deferred Compensation Plan; The Ohio State University Deferred Compensation Plan funded by TIAA-CREF; The Ohio State University Lincoln National Deferred Compensation Plan; and The Ohio State University VALIC Deferred Compensation Plan (collectively, the “Deferred Compensation Plans”). The terms of these plans are substantially the same; only the providers differ.

The Deferred Compensation Plans are voluntary plans designed to assist faculty and staff in supplementing their retirement savings. Each plan allows employees to contribute a portion of their compensation to the plan and exclude the contribution from taxable income for federal and state tax purposes. The plans are subject to rules described in Section 457(b) of the Internal Revenue Code.

Ratification and approval of the amendment of the Deferred Compensation Plans:

The IRS required that certain amendments to the Deferred Compensation Plans be made by December 31, 2011 to comply with the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 (“HEART”), and the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”). That amendment was approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel, and was executed by the Senior Vice President for Business and Finance and Chief Financial Officer on December 29, 2011.

Purpose of the Resolution. The resolution ratifies and approves the amendment to the Deferred Compensation Plans and ratifies the action of the Senior Vice President for Business and Finance and Chief Financial Officer in signing the amendment.

Approval of the amendment, restatement and consolidation of the Deferred Compensation Plans into one plan document named The Ohio State University Amended and Restated 457(b) Deferred Compensation Plan:

To streamline administration, the University is amending, restating and consolidating the Deferred Compensation Plans into one plan document named The Ohio State University Amended and Restated 457(b) Deferred Compensation Plan (the “457(b) Plan”). In addition, the restatement: (a) incorporates changes necessary to maintain compliance with Section 457(b) of the Internal Revenue Code and related guidance; (b) adds the ability for active participants to make withdrawals due to unforeseeable emergencies; and (c) removes the ability for active participants to make certain catch-up contributions to the plan. The amendment and restatement has been approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel. Purpose of the Resolution. The resolution:

- Approves the amendment, restatement and consolidation of the Deferred Compensation Plans as set forth in the 457(b) Plan, effective as of January 1, 2012;

- Authorizes the Senior Vice President for Business and Finance and Chief Financial Officer to sign the 457(b) Plan and any other documents needed to carry out the resolution; and
Delegates authority to adopt and effectuate certain technical or non-discretionary amendments that are necessary to comply with federal tax laws or the Ohio Revised Code to the Senior Vice President for Business and Finance and Chief Financial Officer, in consultation with the Office of Human Resources and the Office of Legal Affairs, without further review or resolutions by the Board.
AMENDMENT TO
THE OHIO STATE UNIVERSITY DEFERRED COMPENSATION PLANS

WHEREAS, The Ohio State University (the “Employer”) maintains The Ohio State University ING Financial Advisers Deferred Compensation Plan, The Ohio State University Deferred Compensation Plan funded by TIAA-CREF, The Ohio State University Lincoln National Deferred Compensation Plan and The Ohio State University VALIC Deferred Compensation Plan (collectively, the “Plans”); and

WHEREAS, the Employer desires to amend the Plans as described herein with respect to: the Pension Protection Act of 2006; the Heroes Earnings Assistance and Relief Tax Act of 2008; and the Worker, Retiree, and Employer Recovery Act of 2008.

NOW, THEREFORE, effective as stated herein, the Employer hereby amends the Plans as follows:

Part I: Amendments with respect to the Pension Protection Act of 2006:

1. The Plans shall be amended by the addition of the following Section, effective for distributions made after December 31, 2009:

“For distributions after December 31, 2009, a non-spouse Beneficiary who is a “designated beneficiary” under IRC Section 401(a)(9)(E) and the Treasury Regulations thereunder, by a direct trustee-to-trustee transfer (“direct rollover”), may roll over all or any portion of his or her distribution to an individual retirement account the Beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must satisfy the definition of an eligible rollover distribution.

Although a non-spouse Beneficiary may roll over directly a distribution as provided in this Section, any distribution made prior to January 1, 2010 is not subject to the direct rollover requirements of IRC Section 401(a)(31) (including IRC Section 401(a)(31)(B), the notice requirements of IRC Section 402(f) or the mandatory withholding requirements of IRC Section 3405(c)). If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a “60-day” rollover.

If the Participant’s named Beneficiary is a trust, the Plan may make a direct rollover to an individual retirement account on behalf of the trust, provided the trust satisfies the requirements to be a designated Beneficiary within the meaning of IRC Section 401(a)(9)(E).

A non-spouse Beneficiary may not roll over an amount which is a required minimum distribution, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance. If the Participant dies before his or her required beginning date and the non-spouse Beneficiary rolls over to an individual retirement account the maximum amount eligible for rollover, the Beneficiary may elect to use either the 5-year rule or the life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(c), in determining the required
minimum distributions from the individual retirement account that receives the non-spouse Beneficiary’s distribution.”

2. The Plans shall be amended, effective April 6, 2007, by the addition of the following paragraph:

“Effective April 6, 2007, a domestic relations order that otherwise satisfies the requirements for a qualified domestic relations order will not fail to be a qualified domestic relations order: (i) solely because the order is issued after, or revises, another domestic relations order or qualified domestic relations order; or (ii) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant’s death. A domestic relations order described in this paragraph is subject to the same requirements and protections that apply to qualified domestic relations orders.”

3. The Plans shall be amended, effective for distributions made after December 31, 2007, by the addition of the following paragraph:

“For distributions made after December 31, 2007, a Participant or Beneficiary may elect a direct rollover of an eligible rollover distribution to a Roth IRA described in IRC Section 408A(b).”

Part II: Amendments with respect to the Heroes Earnings Assistance and Relief Tax Act of 2008:

1. The Plans shall be amended, effective as stated herein, by the addition of the following paragraphs:

“In the case of a death occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in IRC Section 414(u)), the Participant’s Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed employment and then terminated employment on account of death. Moreover, the Plan will credit the Participant’s qualified military service as service for vesting purposes, as though the Participant had resumed employment under the Uniformed Service Employment and Reemployment Rights Act of 1994 ("USERRA") immediately prior to the Participant’s death.

For years beginning after December 31, 2008: (i) a Participant receiving a differential wage payment as defined by IRC Section 3401(h)(2), shall be treated as an employee of the Employer making the payment, (ii) the differential wage payment shall be treated as compensation for purposes of IRC Section 415(c)(3) and Treasury Regulation Section 1.415(c)-2 (e.g., for purposes of IRC Section 415), and (iii) the Plan shall not be treated as failing to meet the requirements of any provisions described in IRC Section 414(u)(1)(C) (or corresponding Plan provisions), by reason of any contribution or benefit which is based on the differential wage payment. Differential wage payments, if applicable, (as described herein) will also be considered compensation for all Plan purposes.”

{00156990-2}
Part III: Amendments with respect to the Worker, Retiree, and Employer Recovery Act of 2008:

1. The following section shall be added, effective as stated herein, to the Plans as follows:

"Waiver of Required Minimum Distributions.

Notwithstanding Article X of the Plan, a Participant or Beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of IRC Section 401(a)(9)(H) ("2009 RMDs"), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs, or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the Participant, the joint lives (or joint life expectancy) of the Participant and the Participant’s designated Beneficiary, or for a period of at least ten (10) years ("Extended 2009 RMDs"), will receive those distributions for 2009 unless the Participant or Beneficiary chooses not to receive such distributions. Participants and Beneficiaries described in the preceding sentence will be given the opportunity to elect to stop receiving the distributions described in the preceding sentence."

Part IV: The remainder of the Plans shall remain unchanged.

THE OHIO STATE UNIVERSITY

By: [Signature]
Geoffrey B. Chastas
Senior Vice President for Business and Finance and CFO

12/24/11
Date
The Employer previously established The Ohio State University ING Financial Advisors Deferred Compensation Plan, The Ohio State University Deferred Compensation Plan funded by TIAA-CREF, The Ohio State University Lincoln National Deferred Compensation Plan and The Ohio State University VALIC Deferred Compensation Plan. The Employer hereby amends, restates and consolidates those plans as set forth in this Plan, effective as of January 1, 2012.

The Plan is established pursuant to Ohio Revised Code Section 148.04(F) and is intended to comply with Internal Revenue Code Section 457. The Plan is effective as to each Eligible Employee upon the date he or she becomes an Active Participant by executing a Participation Agreement with the Employer.

I. Definitions

1.01 Account shall mean the Account or Accounts maintained by a Provider reflecting the interest of a Participant under the Plan.

1.02 Active Participant shall mean an Eligible Employee who has entered into a Participation Agreement with the Employer and has not terminated the deferral of compensation under the Participation Agreement.

1.03 Age 50 Catch-up Contribution shall mean the catch-up contribution for workers who are or who will attain age 50 during a Plan Year, as allowed under Internal Revenue Code Section 414(v).

1.04 Beneficiary shall mean the person or entity designated by a Participant in accordance with Article VI of the Plan to receive the Participant's Plan benefits in the event of the Participant's death.

1.05 Benefit Commencement Date shall mean that date upon which payment of benefits begins.

1.06 Benefit Payment Option shall mean the method by which benefits are paid to the Participant or, if applicable, to the Beneficiary, as described in Section 5.07 of this Plan.

1.07 Compensation shall have the same meaning as the applicable one of the following:

(a) If the Participant is a member of the Ohio Public Employees Retirement System or is a participant in The Ohio State University Alternative Retirement Plan, as amended from time to time (the "Alternative Retirement Plan") and would be subject to Ohio Revised Code Chapter 145 had the Participant not made an election pursuant to Ohio Revised Code Section 3305.05 or 3305.051, “Compensation” shall mean “earnable salary” as defined in division (R) of Ohio Revised Code Section 145.01; or

(b) If the Participant is a member of the State Teachers Retirement System of Ohio (“STRS”) or is a participant in the Alternative Retirement Plan and would be subject to Ohio Revised Code Chapter 3307 had the Participant not made an election pursuant to Ohio Revised Code Section 3305.05 or 3305.051, “Compensation” shall mean “compensation” as defined
in division (L) of Ohio Revised Code Section 3307.01. For purposes of this Section 1.07(b), “Compensation” shall be determined without regard to STRS Rule 3307-10-01.

Notwithstanding the foregoing, Compensation shall not be reduced by the amount of exclusions that are not currently includable in the Participant’s gross income by reason of the application of Internal Revenue Code Sections 125, 132(f), 402(e)(3), 403(b), 414(h)(2) and 457.

In determining the amount or allocation of any contribution that is based on Compensation, only Compensation paid to a Participant for services rendered to the Employer while employed as an employee of the Employer shall be taken into account. Compensation shall include amounts received following Severance from Employment only if the amounts are “Post-Severance Compensation.” Post-Severance Compensation includes the amounts described in (a) and (b) below, paid after a Participant’s Severance from Employment, but only to the extent such amounts are paid by the later of 2½ months after Severance from Employment or the end of the calendar year that includes the date of such Severance from Employment.

(a) Regular pay after Severance from Employment if: (i) the payment is regular compensation for services during the Participant’s regular working hours, or compensation for services outside the Participant’s regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments; and (ii) the payment would have been paid to the Participant prior to a Severance from Employment if the Participant had continued in employment with the Employer.

(b) Leave cashouts if those amounts would have been included in Compensation if they were paid prior to the Participant’s Severance from Employment, and the amounts are payable for unused accrued bona fide sick leave, vacation, or other leave, but only if the Participant would have been able to use the leave if employment had continued.

Effective January 1, 2009, an individual receiving a differential wage payment, as defined by Internal Revenue Code Section 3401(h)(2), shall be treated as an employee of the Employer making the payment (rather than an employee who has incurred a Severance from Employment); and the differential wage payment shall be treated as compensation for Plan purposes, including Internal Revenue Code Section 415 and any other Internal Revenue Code section that references the definition of compensation under Internal Revenue Code Section 415.

If all employees of the Employer performing service in the uniformed services described in Internal Revenue Code Section 3401(h)(2)(A) are entitled to receive differential wage payments (as defined in Internal Revenue Code Section 3401(h)(2)) on reasonably equivalent terms and, if eligible to participate in a retirement plan maintained by the Employer, to make contributions based on the payments on reasonably equivalent terms (taking into account Internal Revenue Code Sections 410(b)(3), (4), and (5)), then the Plan shall not be treated as failing to meet the requirements of any provision described in Internal Revenue Code Section 414(u)(1)(C) by reason of any contribution or benefit which is based on the differential wage payment.

1.08 **Deferral** shall mean the amount of Compensation that a Participant agrees to contribute to an Account. Such amounts are not subject to federal and state income taxes until received as benefit payments.
1.09 **Eligible Employee** shall mean all individuals who perform services for the Employer and who are eligible to participate under Ohio Revised Code Section 148.01(A)(1). Further, individuals who do not perform services for the Employer may not defer compensation under the Plan.

1.10 **Employer** shall mean The Ohio State University.

1.11 **Inactive Participant** shall mean any former Active Participant who is not currently having compensation deferred.

1.12 **Includible Compensation** shall mean wages as defined in Internal Revenue Code Section 3401(a) and all other payments of compensation to a Participant by the Employer (in the course of the Employer's trade or business) for which the Employer is required to furnish the Participant a written statement under Internal Revenue Code Sections 6041(d), 6051(a)(3), and 6052. Compensation must be determined without regard to any rules under Internal Revenue Code Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Internal Revenue Code Section 3401(a)(2)). Includible Compensation shall include any amount excludable from gross income under this Plan or any other plan organized in accordance with Internal Revenue Code Section 457, or any amount excludable from gross income under Internal Revenue Code Sections 105(d), 125, 401(k), 403(b), 408(k), 501(c)(18), and 911, or any other amounts excludable from gross income for federal income tax purposes. Includible Compensation for purposes of this Section 1.12 shall not include amounts paid as compensation to a non-resident alien, as defined in Internal Revenue Code Section 7701(b), who is not a Participant in the Plan to the extent the compensation is excludable from gross income and is not effectively connected with the conduct of a trade or business within the United States.

Effective January 1, 2009, for Participants on active duty in the uniformed services for a period of more than 30 days, Includible Compensation shall include any differential wage payments, as defined by Internal Revenue Code Section 3401(h)(2), to the extent such payments are made by the Employer. Such differential wage payments shall be treated as compensation for all Plan purposes, including Internal Revenue Code Section 415 and any other Internal Revenue Code section that references the definition of compensation under Internal Revenue Code Section 415. A Participant receiving such differential wage payment shall be treated as an employee of the Employer making the payment. If all employees of the Employer performing service in the uniformed services described in Internal Revenue Code Section 3401(h)(2)(A) are entitled to receive differential wage payments on reasonably equivalent terms and, if eligible to participate in a retirement plan maintained by the Employer, to make contributions based on the payments on reasonably equivalent terms (taking into account Internal Revenue Code Sections 410(b)(3), (4), and (5)), then the Plan shall not be treated as failing to meet the requirements of any provision described in Internal Revenue Code Section 414(u)(1)(C) by reason of any contribution or benefit that is based on the differential wage payment.

Notwithstanding anything herein to the contrary, Includible Compensation shall include amounts received following Severance from Employment only if the amounts are "Post-Severance Compensation." Post-Severance Compensation includes the amounts described in (a) and (b) below, paid after a Participant’s Severance from Employment, but only to the extent such amounts are paid by the later of 2½ months after Severance from Employment or the end of the calendar year that includes the date of such Severance from Employment.
(a) Regular pay after Severance from Employment if: (i) the payment is regular compensation for services during the Participant's regular working hours, or compensation for services outside the Participant's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments; and (ii) the payment would have been paid to the Participant prior to a Severance from Employment if the Participant had continued in employment with the Employer.

(b) Leave cashouts if those amounts would have been included in Includible Compensation if they were paid prior to the Participant’s Severance from Employment, and the amounts are payable for unused accrued bona fide sick leave, vacation, or other leave, but only if the Participant would have been able to use the leave if employment had continued.

1.13 **Internal Revenue Code** shall mean the Internal Revenue Code of 1986, as amended, and any regulations or guidance promulgated thereunder.

1.14 **Investment Option** shall mean the annuity contracts, custodial accounts, or any one or more of the various financial products offered as investments under the Plan by a Provider.

1.15 **Normal Retirement Age** shall mean age 65 or that age selected by the Participant, which shall be no earlier than age 65 and no later than age 70½. In the case of a Participant who incurs a Severance from Employment prior to attainment of his or her Normal Retirement Age, Normal Retirement Age shall mean age 65, unless a later age (but not later than age 70½) is specified in an election made pursuant to Section 5.02 of this Plan.

1.16 **Ohio Revised Code** shall mean the Ohio Revised Code, as amended.

1.17 **Participant** shall include any Active Participant or Inactive Participant.

1.18 **Participation Agreement** shall mean an agreement entered into between an Eligible Employee and the Employer pursuant to which an Eligible Employee agrees to the terms and conditions of this Plan and becomes an Active Participant.

1.19 **Plan** shall mean The Ohio State University Amended and Restated 457(b) Deferred Compensation Plan, as amended from time to time.

1.20 **Plan Administrator** shall mean the person, committee or entity selected by the Employer to administer the Plan or, if none, the Employer.

1.21 **Plan Year** shall mean the calendar year in which the Plan becomes effective and each succeeding calendar year during the existence of the Plan.

1.22 **Provider** shall mean any organization providing Investment Options offered by the Plan.

1.23 **QDRO** shall mean a “qualified domestic relations order” as defined in Internal Revenue Code Section 414(p).

1.24 **Severance from Employment** shall mean the termination of the Participant’s employment with the Employer for any reason. A Participant does not have a "Severance from Employment" if, in connection with a change of employment, the Participant's new employer maintains the Plan with respect to the Participant.
II. Eligibility and Participation

2.01 Eligibility. Each Eligible Employee shall be permitted to participate under this Plan.

2.02 Commencement of Participation. An Eligible Employee shall elect to participate and become an Active Participant by entering into a Participation Agreement with the Employer and opening an account with a Provider. The Participation Agreement shall specify:

(a) The amount of the Active Participant’s Compensation that the Employer and the Active Participant agree to defer, subject to the limitations of Section 3.02 of this Plan;

(b) The date as of which reduction and deferral of Compensation pursuant to the Participation Agreement shall begin, which date shall be as early as administratively practicable but not earlier than the first day of the first calendar month following the execution of the Participation Agreement; provided, however, that a new employee may defer Compensation payable in the calendar month during which the Participant first becomes an employee if a Participation Agreement providing for the deferral is entered into on or before the first day on which the Participant performs services for the Employer; and

(c) The Provider selected by the Participant.

The Eligible Employee also shall provide such other information to the Plan Administrator or Provider, as appropriate, that is necessary to administer the Plan, including, without limitation, whether the Eligible Employee is or has been a participant in any other eligible deferred compensation plan under Internal Revenue Code Section 457(b) during the applicable plan year.

III. Deferral of Compensation

3.01 Elective Deferrals. An Eligible Employee may elect to defer Compensation in accordance with the applicable Participation Agreement and the terms of this Plan.

3.02 Maximum and Minimum Deferrals.

(a) Primary Maximum Limitation. Except as provided in subsection 3.02(b), the maximum amount that may be deferred by an Active Participant in the Plan in any Plan Year shall not exceed the lesser of (i) the dollar amount provided under Internal Revenue Code Section 457(e)(15) (as may be indexed annually) or (ii) 100% of the Active Participant’s Includible Compensation.

(b) Age 50 Catch-Up Contribution. In addition to the deferral provided in subsection (a), an Active Participant who has attained age 50 or older during a Plan Year may elect the catch-up provision under Internal Revenue Code Section 414(v) and commence making such Age 50 Catch-up Contributions to his or her Account via a Participation Agreement. Such contributions are in addition to the basic annual deferrals described in Treasury Regulation Section 1.457-4(c)(1) (and described in subsection (a) above).

(c) Coordination with Other Plans. If an Active Participant participates in more than one Internal Revenue Code Section 457(b) Plan, the
maximum deferral under all such plans shall not exceed the primary limit described in subsection (a) above, subject to modification by the catch-up limitations in subsection (b) above.

(d) Minimum Deferrals. The minimum deferral amount per pay period shall be: (i) bi-weekly pay $7.00 and (ii) monthly pay $15.00, or such other amounts determined by the Plan Administrator.

(e) Maximum Annual Contributions. In the event that a Participant’s deferrals exceed the maximum deferral contributions, the Plan Administrator shall direct the Provider as to the proper correction method permissible under applicable law, including calculation of any earnings or losses and the proper tax reporting with respect to such distributions. Such correction method shall include distribution of any excess deferrals to the Active Participant with allocable net income, as soon as administratively practicable after the Plan Administrator determines that there is an excess deferral and the amount of the excess deferral.

3.03 Amendments of Participation Agreements.

(a) The election of a Participant to participate under the Plan is irrevocable as to all amounts actually deferred under the Participation Agreement. The Participant may, by amendment of the Participation Agreement or by any manner as the Plan Administrator may prescribe, do any of the following: (i) change the Investment Option allocation of amounts to be deferred in the future; (ii) terminate the election to be an Active Participant; or (iii) change the amount of Compensation to be deferred.

(b) An amendment or termination shall be effective as early as administratively practicable, but not earlier than the first day of the following calendar month.

IV. Maintenance of Accounts

4.01 Maintenance of Accounts. The amounts allocated to the Participants’ Accounts shall be invested in an Investment Option provided by the Provider. The terms and conditions of any such annuity contract or other Investment Option agreement shall be considered part of, and shall be construed as having been incorporated into the Plan. Participants will invest their Accounts based upon the Investment Options available and may make their investment selections pursuant to the terms and conditions contained in the annuity contract or other Investment Option agreement. If any provision of the annuity contract or other Investment Option agreement conflicts with the Plan, the terms of the Plan shall control. All Investment Options offered under this Plan must be offered by persons, companies, or entities authorized and duly licensed by the State of Ohio and appropriate federal agencies regulating such investments to do business in the State of Ohio. The Employer shall not be responsible for any decrease in value of a Participant’s Account resulting from capital or market changes or any other changes occurring in the Investment Option or the Participant’s Account. The Plan Administrator may from time to time assess reasonable service charges against all or any portion of the deferred amounts or Accounts to defray costs associated with the implementation and administration of the Plan.

4.02 Crediting of Accounts. Each Active Participant’s Account shall be credited with amounts authorized for deferral and received by the Provider.
Reports. A report of the total amount credited to a Participant’s Account, in such form as the Plan Administrator determines, shall be furnished to the Participant by the Provider not more than 60 days after the end of each calendar quarter. All reports to a Participant shall be based on the net fair market value of the equity investment options and book value of any guaranteed option as of the date of the report, to the extent such values are available.

Assets for Exclusive Benefit of Participants and Beneficiaries. All amounts of Compensation deferred under this Plan, all property and rights that may be purchased with such amounts, and all income attributable to such amounts, property, or rights shall be held in a custodial account or annuity contract described in Code Section 401(f) for the exclusive benefit of Participants and their Beneficiaries. All such amounts shall not be subject to the claims of the Employer’s general creditors.

Exchanges within the Plan. A Participant (or Beneficiary, if the Participant has died) shall be permitted to change the investment of his or her Account among Investment Options and Providers that are eligible to receive contributions under the Plan in accordance with rules established by the Employer.

Transfers to and from the Plan.

(a) The Plan will accept plan to plan transfers from other Internal Revenue Code Section 457 plans sponsored by an employer that satisfies the definition in Internal Revenue Code Section 457(e)(1)(A) upon receipt of proper written request and actual transfer of funds.

(b) The Plan will execute plan to plan transfers to other Internal Revenue Code Section 457 plans maintained by the Employer, upon proper written request by a Participant and will execute plan to plan transfers to other Internal Revenue Code Section 457 plans sponsored by an employer that satisfies the definition of Internal Revenue Code Section 457(e)(1)(A) upon proper written request by a Participant who has terminated employment with the Employer. Such transfer of an Account may be completed at fair market value providing benefit payments have not begun.

(c) Before effectuating plan to plan transfers, the Provider may require documentation from the other plan as it deems necessary to effectuate the transfer in accordance with the applicable provisions of the Internal Revenue Code.

Rollovers.

(a) Any Participant who has had a severance from employment with any employer with which the Participant maintained an account under an eligible retirement plan (as defined in Internal Revenue Code Section 402(c)(8)(B)) may, upon proper written request, rollover the account value from that plan to an Account in this Plan. Any such amounts rolled into the Plan will be separately accounted for and may be subject to the same tax treatment as applicable in the original plan. Amounts rolled into the Plan will be allocated to Investment Options and will otherwise be subject to the same rules applicable to other inactive Accounts.

(b) A Participant who has had a Severance from Employment or the Beneficiary of a deceased Participant (or a Participant’s spouse or former spouse who is an alternate payee under a QDRO) who is entitled to an eligible rollover distribution (as defined in Internal
Revenue Code Section 402(c)(4)) may elect to have any portion of an eligible rollover distribution (as defined in Internal Revenue Code Section 402(c)(4)) from the Plan paid directly to an eligible retirement plan (as defined in Internal Revenue Code Section 402(c)(8)(B)) specified by the Participant or Beneficiary in a direct rollover. Requests for amounts to be rolled out of the Plan must satisfy the requirements of the Provider as to the eligibility of the receiving plan and acknowledgment of the plan's provision to accept such rollover. For distributions made after December 31, 2007, a Participant or Beneficiary may elect a direct rollover of an eligible rollover distribution (as defined in Internal Revenue Code Section 402(c)(4)) to a Roth IRA as described in Internal Revenue Code Section 408A(b).

(c) For distributions after December 31, 2009, a non-spouse Beneficiary who is a "designated beneficiary" under Internal Revenue Code Section 401(a)(9)(E) and the Treasury Regulations thereunder may, by a direct trustee-to-trustee transfer ("direct rollover"), roll over all or a portion of his or her distribution to an individual retirement account ("IRA") that is established on behalf of the Beneficiary and that will be treated as an inherited IRA (within the meaning of Internal Revenue Code Section 408(d)(3)(C)).

In order to be able to roll over the distribution, the distribution must otherwise satisfy the definition of an eligible rollover distribution (as defined in Internal Revenue Code Section 402(c)(4)). Although a non-spouse Beneficiary may roll over directly a distribution as provided above, any distribution made prior to January 1, 2010 is not subject to the direct rollover requirements of Internal Revenue Code Section 401(a)(31), the notice requirements of Internal Revenue Code Section 402(f), or the mandatory withholding requirements of Internal Revenue Code Section 3405(c). If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a "60-day" rollover.

A non-spouse Beneficiary may not roll over an amount that is a required minimum distribution ineligible for rollover, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance. If a Participant dies before his or her required beginning date, then the non-spouse designated Beneficiary may deposit into such IRA all or any portion of the distribution that is deemed to be an eligible rollover distribution (as defined in Internal Revenue Code Section 402(c)(4)). In determining the portion of such distribution that is considered to be a required minimum distribution that must be made from the IRA, the Beneficiary may elect to use either the 5-year rule or the life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(c).

If the Participant's named Beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a designated Beneficiary within the meaning of Internal Revenue Code Section 401(a)(9)(E).

4.08 Service Credit Purchase. A Participant may use all or a portion of his or her Account balance as a direct trustee-to-trustee transfer to a defined benefit governmental plan that permits the purchase of permissive service credit or the repayment of service credits. The Participant must use forms provided by the Provider and the defined benefit governmental plan that document the exact amount of transfer required.
4.09 **Current and Former Providers.** All current and former Providers and the Plan Administrator shall exchange information as may be necessary to coordinate information to satisfy the requirements of Internal Revenue Code Section 457(b) and other requirements of applicable law.

V. Distribution of Benefits

5.01 **General Requirements.** All distributions are subject to the requirements of Internal Revenue Code Sections 457(d) and 401(a)(9) and the Treasury Regulations thereunder. The Plan Administrator will annually determine if the Participant’s or Beneficiary’s annual distributions meet the minimum distribution requirement of Internal Revenue Code Section 401(a)(9) and adjust the amount if necessary to comply with those provisions. Initial benefit payment elections and subsequent changes will be effective only if made on forms provided or in the manner prescribed by the Provider and received by the date determined by the Provider. Benefits in the form of an annuity may not be changed once payments have begun. No Benefit Payment Option shall be available that is not provided for in Section 5.07 of this Plan. Benefit payments are taxable income to Participants and Beneficiaries in the year of distribution and are subject to the required income tax withholdings.

5.02 **Participant Election of a Benefit Commencement Date and Option.** Upon Severance from Employment, a Participant may elect a date to begin to receive benefit payments from the Plan. Benefit payments may begin after the Provider’s receipt of the Employer’s verification of Severance from Employment, the final deferral amount, and the election form for the Benefit Payment Option. Benefit payments must begin no later than April 1 of the year following the latter of (a) the year in which the Participant attains age 70½ or (b) the year in which the Participant has a Severance from Employment. A Participant may elect a Benefit Payment Option as permitted in Section 5.07 of this Plan or change a Benefit Payment Option previously elected if permitted by the Investment Option.

5.03 **Beneficiary Election of a Benefit Commencement Date and Option.** If a Participant dies before the Participant’s Account has been exhausted, then any benefit payable shall be paid to the designated Beneficiary. The Beneficiary shall have the right to elect the time and method of benefit payments, subject to the limitations set forth by this Plan and the Participant’s elected Investment Option. The following will determine the Beneficiary’s election requirements:

1. If a Participant dies on or after the required minimum distribution date, payments shall continue to be paid to the Beneficiary at least as rapidly as under the method of distribution in effect at the time of the Participant’s death.

2. If a Participant dies before the required minimum distribution date, payments to a Beneficiary may begin after the Provider’s receipt of the notice of the Participant’s death, the death certificate, the final deferral amount, and the election form for the Benefit Payment Option. The Beneficiary must follow the following applicable requirement:

   a. If the Beneficiary is the Participant’s surviving spouse, distribution of the Account may be delayed until the later of (1) December 31 of the calendar year in which the Participant would have attained age 70½ or (2) December 31 of the calendar year immediately following the calendar year in which the Participant dies. The entire Account must then be paid over a period not extending beyond the life expectancy of the spousal Beneficiary; or
(b) If the Beneficiary is a person other than the Participant’s spouse, distribution of the Account must begin on or before December 31 of the calendar year following the Participant’s death, and the entire Account must be paid over a period not extending beyond the life expectancy of the Beneficiary; or

(c) If the Beneficiary is not a person, such as a trust or an estate, the entire Account value must be distributed by the end of the calendar year that contains the fifth anniversary of the Participant’s death.

(3) If the Beneficiary dies after the Participant but before the full Account value is distributed, any remaining Account value will be paid to the Beneficiary’s estate in a lump sum payment.

(4) Whenever distribution is made to a minor, then the Plan Administrator may direct that such distribution be paid to the legal guardian, or if none, to a parent of such Beneficiary or a responsible adult with whom the Beneficiary maintains his or her residence, or to the custodian for such Beneficiary under the Uniform Gift Transfers to Minors Act, if such is permitted by the laws of the state in which the Beneficiary resides. Such a payment to the legal guardian, custodian, or parent of a minor Beneficiary shall fully discharge the Provider, the Plan Administrator, the Employer, and the Plan from further liability on account thereof.

5.04 Default Benefit Commencement Date and Option for Participant. If a Participant does not elect a Benefit Commencement Date in the manner provided for in Section 5.02 of this Plan, benefit payments to the Participant shall begin by December 31 of the calendar year the Participant attains age 70½. Benefits shall be paid for the maximum number of years allowed by the required minimum distribution tables of the Internal Revenue Code.

5.05 Default Benefit Commencement Date and Option for Beneficiary. If a spousal Beneficiary of a Participant who dies before the required minimum distribution date does not elect a Benefit Commencement Date, benefit payments to the spousal Beneficiary shall begin by the later of December 31 of the calendar year in which the Participant would have attained age 70½ or December 31 of the calendar year immediately following the calendar year in which the Participant dies. If a non-spousal Beneficiary does not elect a Benefit Commencement Date, benefit payments to the non-spousal Beneficiary shall begin not later than December 31 of the calendar year immediately following the calendar year in which the Participant dies. Benefits shall be paid for the maximum number of years allowed by the required minimum distribution tables of the Internal Revenue Code.

5.06 Acceleration. If upon a Participant’s Severance from Employment and the Provider’s receipt of the last deferral amount, the Participant’s Account value (without regard to amounts attributable to rollover contributions) is less than $1,000.00 (or such other dollar limit imposed under the Internal Revenue Code), the Provider will accelerate the payment of benefits otherwise due in the future and pay to such Participant (or Beneficiary, if the Participant has died) the full Account value in a lump sum less the required income tax withholding unless the Participant (or Beneficiary) timely elects to rollover the Account.

5.07 Benefit Payment Options. The following Benefit Payment Options are available under the Plan. Definitions of each are provided on the Benefit
February 10, 2012 meeting, Board of Trustees

Payment Option election form. Benefit payments will be pro-rated among all Investment Options held.

Options:

1. Life Income with Payment Certain Purchased Annuity
2. Joint and Last Survivor Income Purchased Annuity (Participant and Spouse)
3. Designated Period Purchased Annuity
4. Payments for a Fixed Dollar Amount
5. Systematic Withdrawals for a Fixed Time Period
6. Partial Lump Sum and remainder paid as item 1, 2, 3, 4, or 5 above
7. Lump Sum Payment

5.08 **2009 Required Minimum Distributions.** Notwithstanding any other provision of Article V, a Participant or Beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of Internal Revenue Code Section 401(a)(9)(H) (“2009 RMDs”), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the Participant, the joint lives (or joint life expectancy) of the Participant and the Participant’s designated Beneficiary, or for a period of at least 10 years (“Extended 2009 RMDs”), will receive those distributions for 2009 unless the Participant or Beneficiary chooses not to receive such distributions. Participants and Beneficiaries described in the preceding sentence will be given the opportunity to elect to stop receiving the distributions described in the preceding sentence.

Notwithstanding any other provision of this Plan, and solely for purposes of applying the direct rollover provisions of the Plan, a direct rollover will be offered only for distributions that would be eligible rollover distributions (as defined in Internal Revenue Code Section 402(c)(4)) without regard to Internal Revenue Code Section 401(a)(9)(H).

5.09 **Unforeseeable Emergency.** If a Participant has an unforeseeable emergency before Severance from Employment, the Participant may elect to receive a lump sum distribution equal to the amount requested or, if less, the maximum amount determined by the Plan Administrator to be permitted to be distributed under this Section. An “unforeseeable emergency” shall mean a severe financial hardship of the Participant or the Participant’s Beneficiary resulting from:

(a) an illness or accident of the Participant or Beneficiary, the Participant or Beneficiary’s spouse, or the Participant or Beneficiary’s dependent (as defined in Internal Revenue Code Section 152, determined without regard to Internal Revenue Code Sections 152(b)(1), (b)(2), and (d)(1)(B));

(b) loss of the Participant or Beneficiary’s property due to casualty (including the need to rebuild a home following damage to a home not otherwise covered by homeowner’s insurance, such as damage that is the result of a natural disaster); or

(c) other similar extraordinary and unforeseeable circumstances arising as a result of events beyond the control of the Participant or Beneficiary.

For example, the imminent foreclosure or eviction from the Participant or Beneficiary’s primary residence may constitute an unforeseeable emergency. In
addition, the need to pay for medical expenses, including non-refundable deductibles, as well as for the cost of prescription drug medication, may constitute an unforeseeable emergency. Finally, the need to pay for the funeral expenses of a spouse or a dependent (as defined in Internal Revenue Code Section 152, without regard to Internal Revenue Code Sections 152(b)(1), (b)(2), and (d)(1)(B)) of a Participant or Beneficiary may also constitute an unforeseeable emergency. Except as otherwise specifically provided in this Section, the purchase of a home and the payment of college tuition are not unforeseeable emergencies.

A distribution on account of unforeseeable emergency may not be made to the extent such emergency is or may be relieved through reimbursement or compensation from insurance or otherwise; by liquidation of the Participant’s assets, to the extent the liquidation of such assets would not itself cause severe financial hardship; or by cessation of Deferrals under the Plan.

Distributions because of an unforeseeable emergency may not exceed the amount reasonably necessary to satisfy the emergency need (which may include any amounts necessary to pay any federal, state, or local income taxes or penalties reasonably anticipated to result from the distribution).

VI. Beneficiaries

6.01 Designation of Beneficiaries. Upon commencing participation in the Plan, each Participant shall designate a Beneficiary on a form furnished by the applicable Provider. Such forms shall be maintained in files held by the Provider. From time to time, the Participant may change the Beneficiary designation by written notice on forms furnished by and returned to the Provider. Upon such change, the rights of all previously designated Beneficiaries to receive any benefits under the Plan shall cease. To the extent that there is no Beneficiary designation under the Plan at the date of death of the Participant, the Beneficiary or Beneficiaries designated have died prior to the death of the Participant or the Participant has revoked a prior designation in writing filed with the Provider without having filed a new designation, then any benefits which would have been payable to the Beneficiary hereunder shall be payable to the Participant’s surviving spouse or, if there is not a surviving spouse, to the Participant’s estate.

6.02 Election of Trust as Beneficiary. If a trust is named as a Beneficiary, satisfactory evidence must be furnished to the applicable Provider that the trust is the only Beneficiary qualified to receive payment, or payment will be made as though no primary Beneficiary had been named, to the contingent Beneficiary if named, or to the estate of the Participant. The Plan will be fully discharged of liability for any action taken by the trustee and for all amounts paid to, or at the direction of, the trustee and will have no obligation as to the use of the amounts. In all dealings with the trust the Plan will be fully protected against the claims of every other person. The Plan will not be charged with notice of a change of trust as Beneficiary unless written evidence of the change is made on a signed and dated change of Beneficiary form provided by the Provider and shall be effective on the date filed with and accepted by the Plan.

VII. Domestic Relations Orders

7.01 Recognition of Approved Domestic Relations Orders. The Plan recognizes and gives effect to QDROs that have been approved by the Plan in accordance with Plan procedures and, pursuant to state law, create or recognize the existence of the right of an alternate payee to receive all or a portion of any
deferred compensation of a Participant in accordance with the criteria set forth below.

7.02 Domestic Relations Order Information. The Plan Administrator shall comply with the provisions of a domestic relations order ("DRO") that the Provider determines to constitute a QDRO. Effective April 6, 2007, a DRO that otherwise satisfies the requirements for a QDRO will not fail to be a QDRO (i) solely because the order is issued after, or revises, another DRO or QDRO, or (ii) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant's death.

VIII. Leave of Absence and Military Service

8.01 Leave of Absence. An Active Participant on an approved leave of absence with or without compensation may continue to participate in the Plan subject to all the terms and conditions of the Plan; provided further, compensation may be deferred for such Participant if such compensation continues while the Participant is on an approved leave of absence.

8.02 Military Service. This Plan will be administered in accordance with Internal Revenue Code Section 414(u) for Active Participants who return to work after absences from employment due to military service. This includes make-up contributions that were not made during the Active Participant’s period of military service. Contributions made up will be subject to the annual contribution limitations for the year in which they relate, rather than the year they are made.

In the case of a death occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in Internal Revenue Code Section 414(u)), the Participant's Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed employment and then terminated employment on account of death. Moreover, the Plan will credit the Participant's qualified military service as service for vesting purposes, as though the Participant had resumed employment under the Uniformed Service Employment and Reemployment Rights Act of 1994 (USERRA) immediately prior to the Participant's death.

IX. Pre-1979 Accounts

9.01 Pre-1979 Accounts. Any amounts held by the Employer as a result of deferrals made by a Participant prior to January 1, 1979 shall be held under this Plan from and after the latest of (a) the original effective date of the Plan; (b) the date on which the Participant elects to have this Plan apply to such amount; or (c) the date on which such Participant exercises any right or power available under this Plan but not under the Plan agreement pursuant to which such deferral was made. All such persons who were Participants in any prior plan, who exercise any such right or privilege and who have not yet received a distribution of the amounts to which they are entitled under such prior plan shall be deemed to be Participants under this Plan for all purposes.

X. Administration of the Plan

10.01 Amendment or Termination.

(a) The Employer may at any time alter, amend, or terminate this Plan with or without the consent of any Participant. No Plan amendment
shall divest any Participant of any portion of the balance then held in an Account subject to the provisions of Section 4.01 of this Plan.

(b) If the Plan is frozen, the Employer shall continue to be responsible for the supervision and payment of benefits in accordance with Article V hereof.

(c) Upon the full termination of the Plan, the Employer shall direct the distribution of the assets to Participants in a manner that is consistent with and satisfies the provisions of Article V as soon as administratively practicable after termination of the Plan.

10.02 Distribution on Taxability. In the event the Internal Revenue Service ever determines that the Plan has been finally ruled as an ineligible plan, the deferred amounts shall be distributed to the Participant upon written request.

10.03 Questions of Fact. The Plan Administrator is authorized to decide or to resolve any questions of fact regarding a Participant or an Account necessary to decide the Participant’s rights under this Plan. Any person may appeal a final determination by filing a written statement detailing the cause for grievance with the Plan Administrator. The Plan Administrator shall review each appeal and notify the appellant if a hearing will be held. The decision of the Plan Administrator shall be final and shall not be subject to further appeal. The Plan Administrator shall notify the appellant in writing of its decision.

10.04 Construction of Plan. The Plan Administrator is authorized to construe the Plan and to resolve by its decision any ambiguity in the Plan; provided, that all such decisions are applied thereafter uniformly to all other Participants until the Plan is subsequently amended or unless the facts and circumstances applicable to another Participant are different.

10.05 Suspension of Payments in Event of Dispute. The Plan Administrator or its agents, if in doubt concerning the correctness of their action in making a payment of a benefit, may suspend the continuation of any such payments until satisfied as to the correctness of the amount of payment or the payee, or allow the filing in any court of competent jurisdiction of a suit in such form as the Plan Administrator deems appropriate, including an interpleader action, for a legal determination of the benefits to be paid and/or the payee. The Plan Administrator shall comply with the final orders of the court in any such suit, subject to any appellate review, and the Participant and any Beneficiaries consent to be similarly bound thereby.

10.06 Delegation by Employer. The Employer may delegate its powers, duties, and responsibilities under this Plan to any agent or administrator, including any public or private agency or company. Such agent or administrator shall thereupon, and subject to the terms of any agreement with the Employer, be deemed to be, and have all of the powers, duties, and responsibilities of, the Employer under this Plan for purposes of administering the Plan.

10.07 Review of Employer Actions. Any decision, determination, or other action, or non-action, of the Employer shall be final and binding on all persons having or claiming any interest under the Plan, and may be reviewed only for arbitrary and capricious abuse of the wide discretion granted to the Employer by the Plan.

10.08 Account Corrections. Each Participant is responsible for checking the accuracy of his or her quarterly statement. If an incorrect investment, exchange, or transfer is made, the Participant must notify the Provider within 180 days of the closing date of the statement that reported the incorrect transaction. Incorrect investments, exchanges, and transfers will not be adjusted if the
XII. Miscellaneous

11.01 No Contract of Employment. This Plan and any Participation Agreement between the Employer and the Participant shall not be construed as a contract of employment, as an amendment to an existing employment contract of the Participant, if in fact one exists, or as affording to the Participant any right to, or representation or guarantee regarding, continued employment.

11.02 Tax Effects. Neither the Employer, the Plan Administrator, the State of Ohio or any agency thereof, nor any firm, person, or corporation, represents or guarantees that any particular federal, state, or local tax consequences will occur as a result of any Participant's initial or continued participation in this Plan. Each Participant shall consult with his or her own advisors regarding the tax consequences of participation in this Plan.

11.03 Governing Law. The laws of the State of Ohio shall apply in determining the construction and validity of the Plan and all rights and obligations under it.

11.04 Non-Alienation. Except as otherwise required by law, the rights of any Participant or Beneficiary (including any Compensation deferred or benefits paid) under this Plan shall not be subject to the rights of creditors of the Participant or Beneficiary, and shall be exempt from execution, attachment, garnishment, prior assignment, transfer by operation of law in the event of the bankruptcy or insolvency, or any other judicial relief or order for creditors or other third persons. No Participant or Beneficiary shall have any right to commute, sell, assign, encumber, hypothecate, transfer, or otherwise convey the right to receive any payments hereunder, which payments and the right thereto are expressly declared to be non-assignable and nontransferable, and any such attempted assignment or transfer shall not be recognized by the Employer. Except as required by law, the right to exercise any power of any Participant or Beneficiary shall be personal and shall not be exercisable by any trustee in bankruptcy, court of law, or other person or entity seeking to act in the name of or by the right of the Participant or Beneficiary except as follows:

A guardian of a Participant who is incapacitated by reason of illness or age, the designee of a Participant’s lawfully executed power of attorney where the Participant is incapacitated by reason of illness or age, or the guardian of a Beneficiary who has not reached their majority. The Participant agrees that in the event of the Participant’s bankruptcy (including petitions filed under 11 U.S.C. Chapter 13) or insolvency, application will be timely made to secure exemption for all funds maintained in the Participant’s Account.

11.05 Entire Agreement; Successors. This Plan, including the Participation Agreement and any subsequently adopted amendments, shall constitute the entire agreement or contract between the Employer and the Participant regarding the Plan. No oral statement regarding the Plan may be relied upon by the Participant. This Plan and any amendment shall be binding on the parties hereto and their respective heirs, administrators, trustees, successors, and assigns, and on all designated Beneficiaries of the Participant. If any provision of this Plan is found by a court of law to be invalid, the remaining provisions shall survive and continue to be of full force and effect.

11.06 Intent of Plan. This Plan is intended to be a Plan as described in Internal Revenue Code Section 457. This Plan shall be construed in accordance with
such intent, and no provision hereof that is inconsistent with Internal Revenue Code Section 457 shall be valid.

11.07 **Participant Acknowledgments.** The Participant specifically understands and acknowledges that the Participant’s Account will be charged with any investment loss or other loss arising from the use of the Participant’s Investment Options and that such loss will reduce the benefits payable to the Participant under this Plan. The Participant also understands and acknowledges that the choice of Investment Options may have collateral effect, such as limiting the time and manner of payment of benefits.

11.08 **Remedies; Standard of Care.** To the extent permitted by law, the Participant specifically agrees not to seek recovery against the Employer, the Plan Administrator, or any other person for any loss sustained by the Participant as a result of negligence or any other misconduct other than fraud or wrongful taking.

Geoffrey S. Chatas

Its: Senior Vice President for Business & Finance and Chief Financial Officer
RATIFICATION AND APPROVAL OF AMENDMENT RELATING TO THE OHIO PUBLIC EDUCATION INSTITUTIONS’ ALTERNATIVE RETIREMENT PLAN

SUMMARY

Background:

The Ohio Public Education Institutions’ Alternative Retirement Plan is classified by the Internal Revenue Service (“IRS”) as a “pre-approved” plan, specifically a volume submitter plan (the “Volume Submitter Plan”). The University is the sponsor of the Volume Submitter Plan for each of the Ohio institutions of higher education. Those institutions each adopt an individual alternative retirement plan from the pre-approved Volume Submitter Plan.

As the Volume Submitter Plan sponsor, the University has the authority to amend the individual alternative retirement plans on behalf of the adopting employers.

The IRS required that certain amendments be made to all individual alternative retirement plans by December 31, 2011 in order to comply with the Pension Protection Act of 2006 (“PPA”), the Heroes Earnings Assistance and Relief Tax Act of 2008 (“HEART”), and the Worker, Retiree, and Employer Recovery Act of 2008 (“WRERA”).

- The University adopted those amendments for its individual Alternative Retirement Plan at its November 4, 2011 meeting of the Board of Trustees.

- However, as the Volume Submitter Plan sponsor, the University also exercised its authority to adopt those amendments on behalf of other individual alternative retirement plans that previously had not adopted them. The amendment on behalf of those other individual alternative retirement plans was approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel, and was executed by the Senior Vice President for Business and Finance and Chief Financial Officer on December 15, 2011.

Purpose of the Resolution:

The resolution ratifies and approves the amendment of certain individual alternative retirement plans and ratifies the action of the Senior Vice President for Business and Finance and Chief Financial Officer in signing the amendment.
Amendment to the
Ohio Public Education Institutions' Alternative Retirement Plan

WHEREAS, The Ohio State University ("OSU") is the volume submitter lead plan sponsor of the Ohio Public Education Institutions' Alternative Retirement Plan (the "Lead Plan"); and

WHEREAS, the Lead Plan provides that the Lead Plan sponsor may amend the individual alternative retirement plans (collectively, the "Plans") on behalf of all adopting employers; and

WHEREAS, the Pension Protection Act of 2006 (the "PPA"); the Heroes Earnings Assistance and Relief Tax Act of 2008 ("HEART"); and the Worker, Retiree, and Employer Recovery Act of 2008 ("WRERA") require certain amendments to be made to the Plans (the "PPA, HEART, and WRERA Amendments").

WHEREAS, OSU previously adopted the PPA, HEART, and WRERA Amendments; however, OSU as Lead Plan sponsor desires to exercise its authority to adopt the PPA, HEART, and WRERA Amendments on behalf of those Plans that previously have not adopted an amendment to comply with the PPA, HEART, and WRERA.

NOW, THEREFORE, effective as stated herein, OSU adopts the PPA, HEART, and WRERA Amendments on behalf of those Plans that previously have not adopted an amendment to comply with the PPA, HEART, and WRERA as follows:

Part I: Amendments with respect to the Pension Protection Act of 2006:

1. Section 7.3(e)(1) of the Plan shall be amended, effective as stated herein, by the addition of the following paragraphs to its end:

“For any distribution notice issued in Plan Years beginning after December 31, 2006, any reference to the 90-day maximum notice prior to distribution in applying the notice requirements of IRC Section 402(f) (the rollover notice), IRC Section 411(a)(11) (Participant’s consent to distribution), and IRC Section 417 (notice under the joint and survivor annuity rules) shall become 180 days.

For any distribution notice issued in Plan Years beginning after December 31, 2006, the description of a Participant’s right, if any, to defer receipt of a distribution also will describe the consequences of failing to defer receipt of the distribution. For notices issued before the 90th day after the issuance of Treasury Regulations (unless further Internal Revenue Service guidance otherwise requires), the notice will include a description indicating the investment options available under the Plan (including fees) that will be available if the Participant defers distribution.”

{00155521-1}
2. Section 7.3(f) shall be added to the Plan, effective for Plan Years beginning after December 31, 2007, as follows:

“(f) Effective with respect to Plan Years beginning after December 31, 2007, a Participant who elects to waive the qualified Joint and Survivor Annuity form of benefit, if offered under the Plan in Section 1.15, is entitled to elect the “qualified optional survivor annuity” at any time during the applicable election period. Furthermore, the written explanation of the qualified Joint and Survivor Annuity shall explain the terms and conditions of the “qualified optional survivor annuity.”

For purposes of this Section 7.3(f), the term “qualified optional survivor annuity” means an annuity:

(i) For the life of the Participant with a survivor annuity for the life of the spouse which is equal to the “applicable percentage” of the amount of the annuity which is payable during the joint lives of the Participant and the spouse, and

(ii) Which is the actuarial equivalent of a single annuity for the life of the Participant.

Such term also includes any annuity in a form having the effect of an annuity described in the preceding sentence.

For purposes of this Section 7.3(f), the “applicable percentage” is based on the survivor annuity percentage (i.e., the percentage which the survivor annuity under the Plan’s qualified Joint and Survivor Annuity bears to the annuity payable during the joint lives of the Participant and the spouse). If the survivor annuity percentage is less than 75 percent, then the “applicable percentage” is 75 percent; otherwise, the “applicable percentage” is 50 percent.”

3. Section 7.4 of the Plan shall be amended by the addition of subsection (b), effective for distributions made after December 31, 2009, as follows:

“(b) For distributions after December 31, 2009, a non-spouse Beneficiary who is a “designated beneficiary” under IRC Section 401(a)(9)(E) and the Treasury Regulations thereunder, by a direct trustee-to-trustee transfer (“direct rollover”), may roll over all or any portion of his or her distribution to an individual retirement account the Beneficiary establishes for purposes of receiving the distribution. In order to be able to roll over the distribution, the distribution otherwise must satisfy the definition of an eligible rollover distribution.

Although a non-spouse Beneficiary may roll over directly a distribution as provided in this Section 7.4(b), any distribution made prior to January 1, 2010 is not subject to the direct rollover requirements of IRC Section 401(a)(31) (including IRC Section 401(a)(31)(B), the notice requirements of IRC Section
February 10, 2012 meeting, Board of Trustees

402(f) or the mandatory withholding requirements of IRC Section 3405(c)). If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a “60-day” rollover.

If the Participant’s named Beneficiary is a trust, the Plan may make a direct rollover to an individual retirement account on behalf of the trust, provided the trust satisfies the requirements to be a designated Beneficiary within the meaning of IRC Section 401(a)(9)(E).

A non-spouse Beneficiary may not roll over an amount which is a required minimum distribution, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance. If the Participant dies before his or her required beginning date and the non-spouse Beneficiary rolls over to an individual retirement account the maximum amount eligible for rollover, the Beneficiary may elect to use either the 5-year rule or the life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(c), in determining the required minimum distributions from the individual retirement account that receives the non-spouse Beneficiary’s distribution.”

4. The Plan shall be amended, effective April 6, 2007, by the addition of the following paragraph to the end of Section 7.8:

“Effective April 6, 2007, a domestic relations order that otherwise satisfies the requirements for a qualified domestic relations order will not fail to be a qualified domestic relations order: (i) solely because the order is issued after, or revises, another domestic relations order or qualified domestic relations order; or (ii) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant’s death. A domestic relations order described in this paragraph is subject to the same requirements and protections that apply to qualified domestic relations orders.”

5. The Plan shall be amended, effective for distributions made after December 31, 2007, by the addition of the following paragraph to the end of Section 7.9(c):

“For distributions made after December 31, 2007, a Participant or Beneficiary may elect a direct rollover of an eligible rollover distribution to a Roth IRA described in IRC Section 408A(b).”

Part II: Amendments with respect to the Heroes Earnings Assistance and Relief Tax Act of 2008:

1. The Plan shall be amended, effective as stated herein, by the addition of the following paragraph to the end of Section 9.2:

“In the case of a death occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in IRC Section 414(u)),

{00155521-1} 3
the Participant’s Beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed employment and then terminated employment on account of death. Moreover, the Plan will credit the Participant’s qualified military service as service for vesting purposes, as though the Participant had resumed employment under the Uniformed Service Employment and Reemployment Rights Act of 1994 (“USERRA”) immediately prior to the Participant’s death.

If the Employer elects, then for benefit accrual purposes, the Plan shall treat a Participant who dies or becomes Disabled on or after January 1, 2007 while performing qualified military service with respect to the Employer as if the Participant had resumed employment in accordance with the Participant’s reemployment rights under USERRA, on the day preceding death or Disability (as the case may be) and terminated employment on the actual date of death or Disability.

If the Employer elects, the Plan will determine the amount of employee contributions and the amount of elective deferrals (if applicable) of a Participant treated as reemployed for purposes of applying IRC Section 414(u)(8)(C) on the basis of the Participant’s average actual employee contributions or elective deferrals for the lesser of: (i) the 12-month period of service with the Employer immediately prior to qualified military service; or (ii) the actual length of continuous service with the Employer.

If the Employer elects, for years beginning after December 31, 2008: (i) a Participant receiving a differential wage payment as defined by IRC Section 3401(h)(2), shall be treated as an employee of the Employer making the payment, (ii) the differential wage payment shall be treated as compensation for purposes of IRC Section 415(c)(3) and Treasury Regulation Section 1.415(c)-2 (e.g., for purposes of IRC Section 415), and (iii) the Plan shall not be treated as failing to meet the requirements of any provisions described in IRC Section 414(u)(1)(C) (or corresponding Plan provisions), by reason of any contribution or benefit which is based on the differential wage payment. Differential wage payments, if applicable, (as described herein) will also be considered compensation for all Plan purposes.”

**Part III: Amendments with respect to the Worker, Retiree, and Employer Recovery Act of 2008:**

1. Section 10.7 shall be added, effective as stated herein, to the Plan as follows:

   “10.7 **Waiver of Required Minimum Distributions.**

   Notwithstanding Article X of the Plan, a Participant or Beneficiary who would have been required to receive required minimum distributions for
2009 but for the enactment of IRC Section 401(a)(9)(H) ("2009 RMDs"), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs, or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the Participant, the joint lives (or joint life expectancy) of the Participant and the Participant’s designated Beneficiary, or for a period of at least ten (10) years ("Extended 2009 RMDs"), will receive those distributions for 2009 unless the Participant or Beneficiary chooses not to receive such distributions. Participants and Beneficiaries described in the preceding sentence will be given the opportunity to elect to stop receiving the distributions described in the preceding sentence.”

Part IV: The remainder of the Plan remains unchanged.

### Project Data Sheet for Board of Trustees Approval

**Project: OARDC – Replace Agronomy and Forestry Greenhouses**  
**OSU-120212**  
**Location: Agronomy Field Greenhouse**  
**16,340 GSF**

- **approval requested and amount**
  - professional services: $0.0M
  - construction: $3.3M

- **project budget**
  - construction: $3.3M
  - other costs/fees, etc.: $0.8M
  - total project budget: $4.1M

- **funding sources**
  - insurance settlement funds

- **project schedule**
  - design: 09/12 – 04/13
  - construction: 05/13 – 10/13

- **project scope**
  - Construct replacement greenhouses at Williams Hall that were heavily damaged by the September 2010 tornado.
  - The project will also construct a greenhouse.
  - Existing greenhouses have already been demolished.
  - Replacement of this facility supports the campus priority of providing modern research facilities.

- **approval requested**
  - Approval is requested to enter into professional services contracts and construction contracts.
  - This project will be delivered as a design-build with a lead architect/engineer and a design-build firm.

- **project team**
  - University project manager: Rick Van Deuren
  - Architect: Aed
  - Major contractors: Aed

Office of Administration and Planning

February 2012
SALE OF REAL ESTATE
VACANT LAND, 0.69 ACRES
APPLE CREEK, OHIO

In 2001, the University and ATI, Wooster Campus, acquired approximately 1725 acres of land and buildings from the Ohio Department of Mental Retardation and Developmental Disabilities in Wayne County, near Apple Creek, Ohio. The property is being used to support various programs being offered by ATI but some of the land containing wooded areas is not being used by OSU/ATI and can be considered excess to the mission of ATI. One such unused parcel located in the Village of Apple Creek contains 7.226 acres.

In 2010 Jason and Ronda Shultzman, husband and wife, purchased Lot 79 in Apple Creek, adjacent to the 7.226 acre parcel. After acquiring their property they later found out that part of their garage, porch, deck, and driveway was on contiguous University-owned land. They have requested to purchase some of the 7.226 acre parcel, containing approximately 0.69 acres, from the University to remedy the encroachment problem and to preserve their improvements that were purchased.

A review of this request by OSU Physical Planning and Real Estate and ATI officials indicates that the land could be sold to the Shultzmans since there are no plans for OSU/ATI or the University to use the property. The property to be sold was appraised recently indicating a value of $13,800. The Shultzmans have agreed to pay the appraised value as purchase price, and the costs of the appraisal, a survey, and preparation of a legal description of the property for a total of $15,900.

Appropriate University offices have determined that the site represents a disposable land asset and it’s in the University’s best interest to sell the property.

Authorization is requested to finalize negotiations with the Shultzmans, to enter into a purchase agreement with terms and conditions acceptable to the University, and to complete a sale of the property in the best interest of the University. The proceeds from the sale of the property will be deposited in ATI General Funds account for use by the ATI.
Location and Description

In support of the approved Columbus Campus Framework Plan and the South Campus District Plan, the University requested the City of Columbus to consider vacating and selling the East/West alley immediately south of West 11th Avenue between Hunter and Highland Avenues and the North/South alley between Hunter and Highland Avenues to provide for the University’s use of the property. After review, the City approved the request to vacate the alleys and the sale of this public right-of-way to the University subject to approval by Columbus City Council, an ordinance being approved by the Mayor of Columbus, and subject to the retention of a general utility easement for those utilities that are currently located within the alley. The granting of this utility easement does not impact the immediate use of the properties, and relocation of any utilities at a later date will be considered for inclusion in any future University construction project utilizing the land. The property is in the South Campus Acquisition Area and is contiguous to other properties owned by the University.

The subject East/West alley property contains approximately 4,500 SF and the North/South alley contains approximately 1,520 SF. The City has offered to deed the property to the University for $24,900. The purchase price compares favorably with the price of other alleys that have been purchased by the University. An appraisal of the property is underway to verify if the indicated value of the property supports the purchase price that has been offered by the City.

Use of the Property

It is the intention of the University to acquire the property and use it for interim circulation and parking needs and to hold the land for future use as needed for construction projects that will be completed in the South Campus District. Transportation and Parking budgeted funds will be used to purchase this property.
Background

Description of Proposed Project

The Ohio State University--College of Engineering has hired world-renown researcher, David McComb, as Professor and Ohio Research Scholar, to perform characterization of materials on behalf of the University. To support his research in electron microscopy, SciTech, a not for profit corporation, has offered to sublease approximately 22,000 square feet of vacant space to be built-out as laboratory space and offices at 1305 Kinnear Road, Columbus, Ohio.

Terms of Lease

The lease terms have not been completely negotiated between the parties. Approximately 22,000 square feet to be leased for a term of 10 years with potential renewal options has been proposed. The Tenant Improvements will be approximately $5.0 M, paid from a Line of Credit of $3.4M obtained from Business and Finance with the balance of $1.6M paid from cash on hand in the College of Engineering. The Line of Credit will be repaid by the College of Engineering within 5 years. The rent and operating expenses to be paid by the College of Engineering over the 10 year term would be approximately $5.1 M and would be paid by Engineering and Office of Research funds.

(APPENDIX XXXI)

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

March 18, 2012
COMMENCEMENT ADDRESS

Richard K. Herrmann

Richard K. Herrmann is professor and chair of the Department of Political Science at The Ohio State University. From 2002 to 2011 he served as the director of the Mershon Center for International Security Studies, which fosters interdisciplin ary faculty and student research on national security in a global context. He joined the faculty in 1981 and is known widely for his exceptional scholarship in the field of international relations, as well as for his leadership of the department and his tremendous talents as an educator.

Professor Herrmann has written on topics ranging from U.S. and Russian relations during the Cold War, to the politics of the Middle East, to U.S. relations with Iran. Recently, he has published articles on the relationship between national and ethnic identities and inter-group relations, and the role ideology plays in shaping decisions. He has also written extensively on improving the analysis conducted both by academia and the intelligence community. His work pays special attention to overcoming predictable biases in perception and likely mistakes made in calculations.

Professor Herrmann has written or edited three books, and his articles have appeared in the field’s leading journals, including International Security, International Organization, World Politics, American Journal of Political Science, and American Political Science Review. He spent five years, 1991–1996, as the co-editor of International Studies Quarterly, the flagship journal of the International Studies Association.

During his tenure at Ohio State, Professor Herrmann has been awarded many prestigious awards and fellowships. He served on the policy planning staff of the U.S. Department of State as a Council on Foreign Relations International Fellow. He received the award for research on Soviet-American relations and conflicts in the Middle East from the Harriman Institute at Columbia University, and he was awarded the Fellowship in International Security from the Ford Foundation. He has received numerous grants from the National Science Foundation, U.S. Institute of Peace, U.S. Information Agency, and Carnegie Corporation.

In 2009, Professor Herrmann won the Arts and Sciences Student Council Outstanding Teaching Award for his courses on international relations and foreign policy, demonstrating his dedication to education in the classroom in addition to his prolific research and scholarship. He received a BA from Miami University in Ohio and a PhD in political science from the University of Pittsburgh.

RECIPIENTS OF HONORS

Keith L. Moore

Doctor of Science

Keith L. Moore is professor emeritus in the division of anatomy, Department of Surgery, in the Faculty of Medicine at the University of Toronto. Prior to his retirement in 1991, he was chair of anatomy and associate dean of basic medical sciences. He is a distinguished researcher, whose work has had a major impact on the field of anatomy and on the advancement of medicine.

Professor Moore is responsible for research that formed the basis of many techniques currently used worldwide for the screening and diagnosis of human genetic conditions. His early research centered on the causes of birth defects and the detection of chromosomal abnormalities in persons with Down Syndrome, Klinefelter Syndrome, and Turner Syndrome. He was the first person to observe that patients with Klinefelter Syndrome have an extra X chromosome.

Professor Moore served in the Royal Canadian Navy during World War II as a medic. It was this experience that sparked his interest in the medical sciences.

Since then, he has authored over 100 scientific papers based on his research and teaching, many in the field of genetics and embryology. He has authored 13 textbooks, some of which are the most widely used resources in the field of human anatomy. His first book, The Developing Human, now in the 8th edition, was published in 1973 and won the book of the year for the study of embryology.

During his celebrated 60 years of teaching, he has been closely involved with educational innovations and curricular design. He has given lectures all over the world to faculties and students on a range of topics related to anatomy and genetics. At the University of Toronto, Professor Moore held many administrative positions, represented the Faculty of Medicine in the senate of the university, and served on several university committees.

In 1984, Professor Moore was the recipient of the J.C.B. Grant Award, the highest honor given by the Canadian Association of Anatomists. He became an honorary member of the American Association of Clinical Anatomists in 1994 for his scholarship and service. In 2007 he was recipient of the Henry Gray/Elbert Distinguished Educator Award, and in 2008 he became a fellow of the American Association of Anatomists, an honor designed to recognize distinguished members who have demonstrated excellence in science, specifically their overall contributions to the anatomical sciences.

He received a BA and MS in anatomy and a PhD in microscopic anatomy, from the University of Western Ontario.
Randall B. Ripley
Distinguished Service Award

Randall B. Ripley is a professor emeritus in the Department of Political Science at The Ohio State University. Prior to his retirement in 2005, he was dean of Social and Behavioral Sciences from 1992 to 2004, as well as chair of the Department of Political Science from 1869 to 1891. He has served in a wide variety of educational and administrative roles at the university and has done much to elevate the stature of Ohio State in the areas of political science, public policy, and international and graduate studies. His legacy on campus continues to thrive.

Before arriving at Ohio State, Professor Ripley served for ten years on the staff of the Brookings Institution in Washington, D.C. Prior to Brookings, he served as a staff member in the U.S. House of Representatives.

Professor Ripley’s research, writing, and teaching have focused on many different aspects of American and Canadian politics. He has published extensively on congressional behavior, bureaucratic behavior, the creation and implementation of domestic and foreign national public policy, and the influence of American labor unions on elections. He has authored, coauthored, or edited nearly 20 books and dozens of articles in his field, and he has presented his work to a wide range of institutions, including the American Political Science Association, the American Association for the Advancement of Science, the National Commission for Employment Policy, and the Ohio Association of Political Scientists and Economists.

Throughout his tenure as professor, chair, and dean, Professor Ripley distinguished himself as an accomplished administrator, a caring mentor to students and faculty, and a beloved and respected professor. As chair of the Graduate School Review Committee in the mid-1990s, he helped propose recommendations that have since improved the Graduate School in important new ways. As chair of numerous search committees, he helped recruit talented faculty members to Ohio State.

Professor Ripley also was instrumental in facilitating the relationship between Ohio State and John and Annie Glenn that ultimately led to the creation of the John Glenn School of Public Affairs. He is known widely as one of the university’s most accomplished administrators, working tirelessly to lead the Department of Political Science and Social and Behavioral Sciences to world-class status. He earned his BA at DePauw University and his PhD in political science at Harvard University.

Elizabeth J. Watters
Distinguished Service Award

Elizabeth J. Watters is a magistrate with the Franklin County Court of Common Pleas, currently assigned to Judges Charles A. Schneider and Michael J. Hricko. Prior to becoming a magistrate, she practiced law in New York City and Columbus, and represented clients in all aspects of civil litigation and employment law. Most notably, Ms. Watters is past president of the Columbus Bar Association and served as outside counsel for the State of Ohio’s case against the tobacco industry, resulting in a $10 billion settlement for the state.

As a dedicated alumna of Ohio State, Ms. Watters has selflessly given hundreds of hours of her time, expertise, and personal resources to advance the university. She is a member of the President’s Club Advisory Board, working with colleagues and alumni across all colleges and units to support students and advance Ohio State’s mission.

Ms. Watters received a BA in sociology and a JD from the Moritz College of Law at The Ohio State University. For almost 20 years, she has served on the Moritz National Council, an alumni advisory group that offers advice on plans and programs, recognizes the accomplishments of graduates, and assists the college with its fundraising efforts. She has served as president of the Moritz Law Alumni Society and a consistent presence around the law school. She has established three funds benefitting law students, alumni, and the Moritz Law Library, including the Elizabeth J. Watters Endowment Fund for Alumni Relations and Development to support the college’s outreach and engagement efforts with a focus on fostering relationships with recent graduates.

Ms. Watters’ support for the university extends well beyond the college of law. She supports activities and programs ranging from WOSU to athletics to study abroad experiences. Most recently, she volunteered and served as a philanthropic leader for the Ohio State, Inc.’s 75th Anniversary gift to the Ohio Union and the Sphinx Senior Honor Society. Having belonged to both organizations as a student at Ohio State, she has helped to secure the future of Ohio State, Inc., and Sphinx by raising funds, directing alumni activities, and providing incomparable leadership. Ms. Watters continues to be a beloved mentor to many students and alumni of Ohio State, and received the Fuller Award from The Ohio State University Alumni Association for her service to students. She is regarded as someone who raised the bar for those who wish to make a difference for the university.
Commencement Convocation, March 18, 2012

The Graduate School
Dean: Patrick S. Osmer

Doctor of Musical Arts
Ching-Yi Chen, Changhua
City, Taiwan, ROC
Certificate (National Taiwan Academy of Arts)
B.Mus., M.Mus.
Music
Dr. John Rice

Doctor of Philosophy
Rebecca Allen, Columbus, GA
B.S. (Columbus State University)
Integrated Biomedical Science Graduate Program
Dr. John Sheridan

Satyajit Sanjeev Ambike, Columbus
B.Engr. (University of Pune)
M.S.
Mechanical Engineering
Dr. Gary Kinzel

Thavamathi Annamalai, Chennai, India
D.V.M.(Prof.) (Tamil Nadu Veterinary and Animal Sciences University)
Master's (Indian Veterinary Research Institute)
Animal Sciences
Dr. Ramesh Selvaraj

Bryan Alan Anthony, Solon
B.S. (University of Dayton)
Integrated Biomedical Science Graduate Program
Dr. Gregg Hadley

Christian D. Austin, Bay Shore, NY
B.Engr., B.S.Mat.Sc.Eng. (State University of New York at Stony Brook)
M.S.
Electrical and Computer Engineering
Dr. Randolph Moses

Isabel E. Averill, Columbus
B.S. (University of Akron)
M.S.
Mathematics
Dr. Yuan Lou

Mark Bahar, Columbus
Bachelor's, M.S. (Istanbul University)
Pharmacy
Dr. Alan Kinghorn

Denizta Svetasloavova Bantchevska, Sofia, Bulgaria
Diploma (College of Management, Trade and Marketing)
B.Bus.Adm. (Franklin University)
M.S.
Human Ecology
Dr. Natasha Slesnick

Thomas Wayne Bebee, Columbus
B.S. (University of South Florida)
Molecular, Cellular, and Developmental Biology
Dr. Dawn Chandler

Marlene Beierle, Dublin
B.S.Educ., M.A.
Education
Dr. David Bloome

Scot David Bohnenstiehl, Sacramento, CA
B.S. (Montana Tech of the University of Montana)
M.S.
Materials Science and Engineering
Dr. Michael Sumption

Adriane Amelia Boyd, Asheville, NC
B.A.Honors (University of North Carolina at Chapel Hill)
M.A., M.S.
Linguistics
Dr. Michael White

Austin Roberts Carter, Grandview
B.A. (College of Wooster)
M.S.
Physics
Dr. Arthur Epstein

MinJung Cha, Suwon, Korea
B.S.H.E., M.B.A. (Seoul National University)

Commencement Convocation, March 18, 2012

Timothy Joseph Ward, Jr.,
Austintown
B.S.Mech.Eng. (Youngstown
State University)
Business Administration

Duane Todd Warner,
Columbus
B.S. (Franklin University)
Business Administration

Christopher Gerald Widing,
Upper Arlington
B.Bus.Ad. M.S. (Ohio
University)
Business Administration

Master of Business
Logistics Engineering

Juan Du, Taiyuan, China
Bachelor’s (Taiyuan University
of Technology)
Business Logistics
Engineering

Youngchoo Lee, Kwangju,
Korea
Bachelor's (Incheon
University)
Business Logistics
Engineering

Lei Xu, Fuyang, China
Diploma (University of
Southampton)
B.S. (Shanghai University
of Finance and Economics)
Business Logistics
Engineering

Feng Zheng, Wenzhou, China
B.A. (University of
Indianapolis)
Business Logistics
Engineering

Master of City and
Regional Planning

Daniel Lawrence Barbato,
Liverpool, NY
B.A. (State University of New
York at Geneseo)
City and Regional Planning

Rachel Kathryn Beck, Carey
B.S.Bus.Admin. (United States
Military Academy)
City and Regional Planning

Sarah Nicole Becker,
Hopkinsville, KY
B.A. (University of Louisville)
City and Regional Planning

Shaquiita Denise Brookins, Atlanta, GA
B.A. (Oglethorpe University)
City and Regional Planning

Matthew Allen Dickinson,
Newark
B.S. (Ohio University)
City and Regional Planning

Sarah Elizabeth Gribble,
Newcomerstown
B.A.
City and Regional Planning

Lisa A. Minkle, Granville
B.A. (Swarthmore College)
J.D. (University of Maryland,
Baltimore)
City and Regional Planning

Michael Chandler Norton-Smith, North Canton
B.A. (Kent State University)
City and Regional Planning

Abby Elizabeth Onstott,
Worthington
B.S.Alld.Hlth.Profs.
City and Regional Planning

Dezarae Pearl Reed, Bellefontaine
B.A. (Ohio Wesleyan University) Environment and Natural Resources

Master of Fine Arts

Samara Ryan Rafert, Newark, DE
B.A. (Macalester College) English

Master of Labor and Human Resources

Michelle D. Attias-Goldstein, Columbus
B.A. (Dickinson College) Labor and Human Resources

Kathryn Gilliland Beyerchen, Columbus
B.A. (University of California, Santa Barbara) Labor and Human Resources

Master of Music

Jay Hamilshon Hairston, Houston, TX
B.Mus. (University of North Texas) Music

Katie Marie Morell, Dunmore, PA
B.S. (Pennsylvania State University) Music

Master of Occupational Therapy

Emily Sue Dannemiller, Pickerington
B.S.Bus.Admin. Allied Medical Professions

Ann Marie Kilpatrick, Cincinnati
B.A. Allied Medical Professions

Tricia Ann Storme, Independence
B.S.Alld.Hlth.Profs Allied Medical Professions

Master of Public Administration

Jacqlyn E. Breymaier, Toledo
Bachelor’s (Ohio University) Public Policy and Management

David Cook, Westerville
B.A. Public Policy and Management
Commencement Convocation, March 18, 2012

Ashanthi V. DeSilva, Chicago, IL
B.A.
Public Policy and Management

Jeffrey William Gardiner, Macedonia
B.S.Bus.Admin.
Public Policy and Management

Sarah Mary Harrigan, Columbus
B.A. (McGill University)
Public Policy and Management

Corey James Hawkey, Columbus
B.A. (Bowling Green State University)
Public Policy and Management

Antonio Holliday, Jr., Lawrenceville, GA
B.Bus.Adm. (University of Georgia)
Public Policy and Management

Amy C. Juravich, Pittsburgh, PA
B.A. (Duquesne University)
Public Policy and Management

Andrew Kao, Columbus
B.A. (National Sun Yat-sen University)
Public Policy and Management

Ursela Simone Knezevic, Los Angeles, CA
B.A. (University of California, Berkeley)
Public Policy and Management

Michael Chandler Norton-Smith, North Canton
B.A. (Kent State University)
Public Policy and Management

Robert D. Reed, Piqua
B.A.
Public Policy and Management

Tal D. Sack, Cleveland Heights
B.A.
Public Policy and Management

Erin Marie Sainato, Miamisburg
B.A.
Public Policy and Management

Master of Public Health

Alexandra Marie Berk, Troy
B.A. (University of Michigan, Ann Arbor)
Public Health

Allyson Chickey, Columbus
B.S.H.E.
Public Health

Renee Lynn Stasko Cruz,
Coral Center, PA
B.S. (West Virginia University)
Public Health

Julie Ann Dean, Cincinnati
B.A. (Denison University)
Public Health

Emilie Elisabeth Esmont, Canton
B.A.
Public Health

Kevin Brennan Grill, Dublin
B.S.
Public Health

Rachael Whitney Gross,
Elizabethtown, PA
B.S. (The University of Findlay)
Public Health

Bianca Michelle Guynn, Valparaiso, IN
B.S. (Miami University)
Public Health

Paul Arthur Kerr, Newark

Public Health

Caroline Anne Sanker, Rocky River
B.S. (Davidson College)
Public Health

Jonathan Lee Slaughter, Whitsett, NC
B.A. (Catawba College)
M.D. (Wake Forest University)
Public Health

Richard Michael Thomas, Newark
B.S.
Public Health

Jerome U. Wray, Louisville, KY
B.S.Nurs., M.S. (Wright State University)
Public Health

Xuan Zhang, Nanjing, China
Bachelor’s (Nanjing Medical University)
Public Health

Master of Science

Syed Farooq Ali, Lahore, Pakistan
B.S. (National University of Computer and Emerging Sciences)
M.S. (Lahore University of Management Sciences)
Computer Science and Engineering

Didem Peren Aykas, Columbus
B.S. (Celal Bayar University)
Food Science and Technology

Bruce Andrew Beitman, Columbus
B.S.Elec.&Cptr.Eng.
Electrical and Computer Engineering

Karen L. Bellman, Jacksonville, AL
B.S. (Mercer University-Macon)
Mechanical Engineering
Commencement Convocation, March 18, 2012

Basavaraj Sangappa
Binjawadagi, Dharwad, India
Bachelor's (University of Agricultural Sciences, Dharwad)
Master's (Karnataka Veterinary, Animal & Fisheries Sciences University, Bidar)
Comparative and Veterinary Medicine

Joe William Bolinger,
Columbus
B.S.Cptr.Sci.&Eng., Ph.D.
Computer Science and Engineering

Matthew Lewis Bowers,
Aurora
Bachelor's (John Carroll University)
Materials Science and Engineering

Kimberly Ann Brown, Grove City
B.S.Nurs.
Nursing

Sameeraja Brundavanam,
Tamilnadu, India
B.Engr. (Anna University)
Electrical and Computer Engineering

Eric Allen Carlson, Tomball, TX
B.S. (Ferris State University)
Welding Engineering

Christopher Joseph Casillas, Arcata, CA
B.S. (Rose-Hulman Institute of Technology)
Mechanical Engineering

Ashwini Chandra, Patna, India
Bachelor's (Indian Institute of Technology Roorkee)
Materials Science and Engineering

Cai Chen, Xiaogan, China
B.S. (University of Science and Technology of China)
Biophysics

Chenxi Chen, Beijing, China
B.S. (Tsinghua University)
Plant Pathology

Wei Chen, Guilin, China
B.S. (University of Science and Technology of China)
Electrical and Computer Engineering

Jinhwee Choi, Gumi, Kyungpook, Korea
B.S. (Kyungpook National University)
Electrical and Computer Engineering

Lucas Abraham Citro, Scio
B.S.Physics (Kent State University)
Biophysics

Oren Michael Costantini, Cincinnati
Mechanical Engineering

Daniel Robert Coughlin, Bethel, CT
B.S. (University of Colorado at Boulder)
M.S. (University of New Mexico)
Materials Science and Engineering

Boyi Cui, Anshan, China
Bachelor's (Beijing Forestry University)
Computer Science and Engineering

Sarah Jane Cusser, Shawnee Mission, KS
Evolution, Ecology, and Organismal Biology

Brian Thomas Dailey, Mount Gilead
B.S. (Kent State University)
Physics

Brian Scott Dainton, Westerville
B.S.
Physics

Ketan Dande, Latur, India
Bachelor's (University of Pune)
Electrical and Computer Engineering

RaviPrakash Srirama
Venkata Naga Darbha, Bangalore, India
Bachelor’s (National Inst. of Tech.)
Computer Science and Engineering
Commencement Convocation, March 18, 2012

Amrita Ghosh, Jhargram, India
B.Engr. (Vidyasagar University)
M.S. Computer Science and Engineering

Kevin Andrew Giriunas, Litchfield
B.S.Civ.Eng. Civil Engineering

Fei Gong, Xiangtan, China
B.Engr., Master’s (Zhejiang University)
Ph.D. Electrical and Computer Engineering

Matthew Owen Grant, Stow
B.S.Civ.Eng. Civil Engineering

Alexandra S. Gress, Ashtabula
B.S.Agric. Animal Sciences

Matthew John Grossmann, Cincinnati
B.S. (University of Texas at Austin) Mechanical Engineering

Caroline Marie Burrell Haas, North Royalton
B.S. (Tulane University of Louisiana) Biomedical Engineering

Amanda Elizabeth Haberman, Columbus
B.S.Nurs. (Purdue University) Nursing

Jinnan Hu, Nanjing, China
B.S. (Nanjing University) Plant Pathology

Hechang Huang, Chongqing, China
B.Med., D.D.S. (West China University of Medical Science)
Ph.D. (University of Connecticut Health Center) Dentistry

Remigius K. Jackson, Orange, TX
B.S. (McNeese State University)
D.D.S. (Meharry Medical College) Dentistry

Brian Ethan Jan, San Diego, CA
B.A. (University of California, Berkeley) Molecular, Cellular, and Developmental Biology

Christopher Douglas Jensen, Perrysburg
B.S.Aero.&Astro.Eng. Aeronautical and Astronautical Engineering

Hojun Ji, Columbus
B.Bus.Adm. (Yonsei University) Human Ecology

Bo Jin, Chengdu, China
B.Engr. (University of Electronic Science and Technology of China) Electrical and Computer Engineering

Ahmed Jomaa, Tripoli, Libya
Bachelor’s (Al-Fateh University) B.S. Elec.&Cptr.Eng. Electrical and Computer Engineering

Katrina Nicole Jones, Pataskala
B.S. Industrial and Systems Engineering

Hui Ju, Missouri City, TX
B.S. (Wuhan University) Diploma (University of Stuttgart) Geodetic Science and Surveying

Preethi Jyothi, Bangalore, India
B.Tech (National Institutes of Technology) Computer Science and Engineering

Nived Kalappuraikal Sivadas, Chennai, India
Bachelor’s (Anna University) Computer Science and Engineering

Swetha Karusala, Chennai, India
B.Engr. (Anna University) Electrical and Computer Engineering

Michael Ryan Kelly, Columbus
B.S. Food Science and Technology

Yong Wook Kim, Seoul, Korea
B.S.Bus.Admin. (Hanyang University) M.S. (Illinois Institute of Technology) Computer Science and Engineering

David Michael Kline, East Berlin, PA
B.A. (Messiah College) Statistics

Tianyou Kou, Jining, China
B.S. (Harbin Institute of Technology) M.S. (Chinese Academy of Sciences) Electrical and Computer Engineering

Sri Adarsh Kumar, Chennai, India
Bachelor’s (Regional Engineering College - Bharathidasan University) Electrical and Computer Engineering

Abhisek Kundu, Arambagh, India
B.Engr. (Jadavpur University) Biomedical Engineering

Vivek Ayyappa Kuppusamy, Cincinnati
B.S. (University of Maryland, College Park) Aeronautical and Astronautical Engineering

Chang Pil Lee, Seoul, Korea
Bachelor’s (Hongik University) B.S. (Purdue University) Computer Science and Engineering

Lizhi Li, Hengyang, China
B.S. (Beijing University) B.S. (Peking University) M.A. (Beihang University) Biophysics

Ting Li, Shanghai, China
B.S. (Civil Aviation University of China) M.A. (Beihang University) Aeronautical and Astronautical Engineering
Commencement Convocation, March 18, 2012

Wei Liu, Xiangfan, China  
B.Eng. (Wuhan University)  
Computer Science and Engineering

Zhongning Liu, Chengdu  
Sichuan, China  
B.Eng. (University of Electronic Science and Technology of China)  
Electrical and Computer Engineering

Raymond Montgomery Lombardi, Lewis Center  
Master’s (University of Bridgeport)  
Human Ecology

Kaitlyn Marie Lozier, Chagrin Falls  
B.S. Ind.&Sys.Eng.  
Industrial and Systems Engineering

Sharon Christine Lyon-Paul, Columbus  
Bachelor’s (Miami University Oxford)  
M.S.W.  
Nursing

William Robert Magee, Berea  
B.S.  
Geological Sciences

Joshua Vincent Mahaffey, Hilliard  
B.S. Elec.Eng. (University of Akron)

The Board of Trustees met Thursday, April 5 at the Commercialization and Knowledge Transfer Center, and Friday, April 6, 2012 at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

Minutes of the last meeting were approved.
The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, April 5, 2012 at 8:36 am.

Good morning, I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 9:15 am.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding appointment, employment and compensation of public officials, to consult with legal counsel regarding pending or imminent litigation, and to consider matters required to be kept confidential by Federal and State Statutes.

Upon motion of Dr. Wadsworth, seconded by Mrs. Kass, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, O’Dell, Shumate, Hicks, Schottenstein, Ratner, Marbly, Kass, Reid, Jurgensen, Wadsworth, Kellogg and Smucker.

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, April 6, 2012, at 9:52 am.

Dr. Horn:

A quorum being present, we will reconvene the meeting of the Board of Trustees. So that we are able to conduct the business of this meeting in an orderly fashion, I would ask that the ringers on all cell phones and other communication devices be turned off at this time, and I would ask that all members of the audience observe rules of decorum proper to conducting the business at hand.

The minutes of the February meeting of the Board of Trustees were distributed to all members of the Board, and if there are no additions or corrections, the minutes are approved as distributed.

Mr. Wexner:

Well done. Thank you. Evann.

***

STUDENT RECOGNITION AWARDS

Ms. Heidersbach:

I would like to invite Tom Shumway and Lauren Madigan up to the table, please, for the presentation of the Student Recognition Awards. Thank you both for being here today. I am going to begin with Tom Shumway.
April 6, 2012 meeting, Board of Trustees

Mr. Shumway is a student in the Masters of Business Administration program in the Fisher College of Business. He is an outstanding student and a true leader in his MBA class and at Fisher.

Tom graduated from Westlake High School and received his Bachelor of Arts degree in English from The Ohio State University, during which time he interned all four summers at Ernst and Young. After graduation, Tom went to work for Big Lots, Inc., JPMorgan Chase and Huntington National Bank, during which time he served in numerous leadership and management roles and contributed very much to the success of each organization.

Tom is currently working on his Masters of Business Administration, like I said, with a concentration in corporate finance. He is the co-President of Fisher Serves, the student-led community service organization, and is active as a mentor to fellow students. Thomas is thoroughly engaged both academically and in extra-curricular activities and he continues to look for ways to make the Fisher experience the very best it can be.

After graduation this June, Tom will be joining Nationwide's Financial Leadership Rotational Program as a management associate. Joining Tom today is his wife, Stephanie Shumway, and his parents, John and Julie. Tom, thank you for being here today and congratulations.

Mr. Shumway:

Thank you.

Ms. Heidersbach:

Now I would like to introduce Lauren. Lauren Madigan is in her third year at the College of Medicine and has consistently led her class in both her academic performance and her extra-curricular involvements.

Lauren received her undergraduate degree from the University of Utah with a Bachelor of Science in Biology, during which time she was the Mountain West Conference 10,000 meter champion and was named First Team Division I Academic All-American.

Lauren's academic performance has been in the top 10 percent of her class in the first and second years here at Ohio State, and she continues to excel in her third year. So far, she has earned a letter of commendation from her Internal Medicine clerkship and a grade of Honors in both Surgery and OB-Gyn. She has been elected to the AOA Medical Honorary Society and the Gold Humanism Honor Society. She has served as a volunteer for the Anatomy Memorial Service, MedPaws (which brings pets to visit the elderly in assisted living), and the Franklin County Children's Services Friendship Volunteer program. She directed the College of Medicine's contribution to the Mid-Ohio Foodbank's KidsPack program and helps to organize the mentoring efforts of the Family Medicine Interest Group for undergraduates in pre-medicine studies. Lauren conducted research focused on the immunologic responses of an animal model to immunosuppression and is revising a manuscript for submission for publication.

She looks forward to exploring her options for her specific interest in her residency program. Joining Lauren today is her husband, Matthew. Thank you again, Lauren, for being here today.

Ms. Madigan:

Thank you very much.
April 6, 2012 meeting, Board of Trustees

Ms. Heidersbach:

And now I would like to invite both of you to say a few words to the Board.

Mr. Shumway:

I prepared just a few words. I will try to be very quick. I know that everyone’s time is short here.

As President Gee had mentioned in his statement just recently, the University is very important to me, and I have had the opportunity to be at the University twice now. When I think back upon my time at Ohio State, I think of the significant role that it has played in my life from being born just down the street at the OSU hospital and then growing up the majority of my youth in Cleveland but returning and reconnecting with the Columbus community for my undergraduate degree at Ohio State.

Since returning there has actually been a tremendous change while I have been at the University. I have had the opportunity to see three different sitting presidents during my time at Ohio State. I have also had the opportunity to see three different Ohio State presidents during my time with President Gee returning just in time for me to come back and get my MBA, and more importantly, four different Ohio State football coaches. Next year, I will sorely miss my student tickets.

But I have also worked within the Columbus community, and I have grown to love the Columbus community and count it as my own. During my time in the professional community, I have seen kind of the tail end of the technology bubble and most recently the financial crisis. Working primarily within banking at that time, I had a very interesting perspective on the impact to our local community seeing both the community I grew up with in Cleveland, but also our local community here in Columbus, and I gained a passion for understanding the financial risks involved and managing those risks; hence, the return to an MBA concentrated on corporate finance.

When I thought about returning, really there was only one choice for me. I wanted to go to a program that was an esteemed program and I wanted to go to one that would keep me involved in the Midwest, hopefully in Columbus, so thankfully I was admitted to the Fisher full-time program two years ago. When I think about what I have learned and the friends that I have made and the opportunities that have been presented to me, I know that every day I have made the right choice in returning.

I am very humbled and honored to receive the recognition from the Board today. I want to thank the distinguished Trustees for this award, and I also want to thank Dean Poon, the dean of The Fisher College of Business, for this recognition. I want to thank Dean Wruck, the associate dean of graduate programs and also one of the finest professors in my opinion at Fisher, the rest of the excellent faculty at Fisher, and I especially want to thank my parents, John and Julia, who are with me here today for always letting me dream. As she mentioned, I think the dreaming partially lead to the English degree in undergrad, very far from where I have gone in business afterwards, and my parents have provided me with the limitless encouragement and love and still provide me in my life.

And finally, I want to thank my wonderful wife, Stephanie, who is also here today for her love, her continued support, both emotional and financial, and her constant encouragement of me throughout my time at Ohio State and outside of the University and for providing me with my best gift which I have ever received, which is our son who is about ten months old. He arrived one week before spring finals last year and is doing well at the daycare right now, so you don’t have to hear his yells.

So in conclusion, thank you very much again for this recognition and “Go Bucks!”
April 6, 2012 meeting, Board of Trustees

Ms. Madigan:

I also wanted to chime in and say thank you very much for this wonderful recognition. I really do appreciate it, and I wanted to take this opportunity to thank all of you who make The Ohio State University one of the best places to learn the art and science of medicine in the country.

I am very proud to be a Buckeye. Coming from Salt Lake City, in my first interview here, I had never been here before, and I can’t tell you the amount of kindness and the amount of camaraderie that I experienced when I came here. It is the number one reason I chose to pursue my education at Ohio State, and I really hope that I continue to do work with the Admissions Committee that I can show that kind of kindness and camaraderie to other students that are coming here for the first time and let them know what a wonderful place Ohio State is for learning medicine.

It truly has been a blessing to be here for my education so thank you again and thank you to my husband as well who is also financially supporting the poor med student and, of course, for all of his support emotionally as well. Thank you very, very much.

President Gee:

Let me just say a couple things. You have seen three presidents and I hope you come back and get another degree. I plan on hanging around for a while.

Are you going to be an Ob-Gyn?

Ms. Madigan:

I am still undecided.

President Gee:

Well I just wanted to put a pitch in for that. You know that the Ob-Gyns run the world. Our Vice President is an Ob-Gyn and our Dean is an Ob-Gyn and I have a daughter who is an Ob-Gyn so I will put a pitch in for that, okay?

Anyway, thank you very much. We will go get our pictures taken.

***

PRESIDENT'S REPORT

President Gee:

Well, ladies and gentlemen, thank you very much. We are very proud of our students, and I just want to say something.

I think you saw the best of our University today. I really do. Our students came. They were concerned. They were respectful. They want to work together. And, you know universities are sometimes strange, awkward, quirky places but they also represent the heart and soul of what this nation is about and we saw that today.

I can’t thank all of you enough. I think that our Board has set a very high standard for us in the very fact that we anticipate these issues. The working group has been working on this for almost a year-and-a-half. Almost every issue that was raised, in fact every issue plus many more, we have been working on and addressing. So good work, and I really mean that.
Now I am going to move to my regular report. As you know, the past several weeks have been busy and productive ones. A few weeks ago, at the University's Winter Commencement, we celebrated the degree-completion of 2,226 students. Archie, I believe that takes us up to about 525,000 living alumni now. It was a great day, shared by tens of thousands of faculty, staff, friends and family members.

I am looking forward to June because there is symmetry about this. This will be the last Commencement in the history of this University that will celebrate quarters, and it will also be the 300th commencement at Ohio State University, so it will be an occasion for us to not only recognize but also to celebrate.

The week after Winter Commencement, the University hosted President Barack Obama. More than 2,000 people, by the way, crowded into the RPAC to hear the President’s address on energy policies. It was widely reported on, by the way. Just before his speech, President Obama toured our Center for Automotive Research, where Giorgio Rizzoni and six students described their ground-breaking work. In his address on campus, President Obama said this about Ohio State, “This school is a national leader in developing new sources of energy and advanced vehicles that use a lot less energy.” The reason he was here was the leadership role we are playing, so I think that’s important. Now, I thank him for saying that.

But not only did President Obama praise our work, so too did United States Representative, Steve Stivers, who gave the Republican response. He represents Ohio’s 15th District, as you know, and he commented on the breadth of our energy research. I want to underscore the point here, which is that during this contentious political season, Ohio State’s superb energy research is one thing about which Democrats and Republicans can agree! So I just want to be on record about that.

I will also say that our friend, our colleague of whom we are enormously proud, Clark Kellogg, has been spending time with President Obama and is doing his part to ensure that the President is fully briefed on what it means to be a Buckeye. We really recognize that. I must say, I was telling Clark today, I hope all of you had a chance to see, what a remarkable thing: Clark’s son was playing in the Sweet Sixteen for Ohio University and Clark was doing a Sweet Sixteen game, to see the pride of a father watching his son while he is announcing a game has got to be special, and it was, so we just want to acknowledge that, Clark.

Mr. Kellogg:

It was a special moment for our entire family. Jerry was giving me a little grief about not giving the President the Ohio State Buckeye hat. Because he would not give me a rematch of our past POTUS game, I refused to give him that hat. He promised in a second term there would be an opportunity for a rematch. If that is consummated, he will have a Buckeye hat.

President Gee:

And several of us may spring to buy him that too, as a matter of fact.

My last political note will be that earlier this week, I was honored to dot the “i” in Governor Kasich’s name when he signed the State’s capital spending bill. It was a very funny, very clever moment. As you know, we had this wonderful occasion in which the University took a leadership role in developing a very powerful way for us to think about how we are allocating resources in this State, and I appreciate the Governor giving me that opportunity. I was there, and all of a sudden he turned to me and said, “I am going to do something that has never been done before. I am going to let the President of Ohio State University dot the ‘i’ in Kasich.” And that is what I did, so on behalf of all of us, I am grateful to him.
This week also marked the Final Four appearance of our men’s basketball team as you know. I want to congratulate Coach Matta, who I think is the best in the country, and his players. They represented us so well. Several people commented to me that all the coverage of our players was not about how well they played, but about how good their character was, and I think that is something that we can all take great pride in.

Another moment to celebrate occurred in February, when we commemorated the 50th anniversary of John Glenn’s historic orbiting of the Earth. I have a picture which I will always cherish. It is a picture of me standing between John Glenn and Neil Armstrong and, by the way, these are two guys from very small towns, Cambridge, Ohio, John Glenn and Wapakoneta, Ohio, Neil Armstrong. Think about that. Think about the power of Ohio in that effort. We had a wonderful NASA Forum after that. The world came to Ohio State in order to celebrate his orbit, but more importantly to celebrate the great work that we are doing at the University.

I have other great news to report about our students and faculty. Several days ago, we learned that three of our students, Johnny Greco, Ronald Siebenaler, and Grant Yang, have been awarded Goldwater Scholarships. This is tremendous recognition of our students. The Goldwater is the most prestigious national award for undergraduate researchers in science, math and engineering given in this country.

And I just learned yesterday that Henri Cole of our English faculty has been awarded the prestigious Jackson Poetry Prize, the most important poetry prize in this nation. He gets $50,000 as the leading American poet, and this is just the latest in a long list of awards presented to Professor Cole, who not only serves on our faculty but also is poetry editor of The New Republic.

I want to thank and congratulate another English Department faculty member, Valerie Lee, who is our Vice Provost for Diversity and Inclusion. Dr. Lee has assumed the additional duties of Vice President for Outreach and Engagement. In combining the two offices under her leadership, we are leveraging her broad academic experience to expand the reach of our faculty’s expertise more thoroughly into the community. As you know, the Office of Outreach and Engagement was led by Joyce Beatty until earlier this year when she left the University to become a candidate to represent Ohio’s 3rd Congressional District, which by the way, includes the University. Joyce won the nomination last month, so we are going to work very hard to make sure she wins the general election, and she will be a magnificent addition to the United States Congress.

Before we move on today, I want to briefly mention my trip to India last month. The visit was ten days packed with speaking opportunities and meetings with alumni, friends, high school students and counselors, and faculty at leading universities. The trip culminated with the official opening of our new gateway office in Mumbai and a presentation to a special gathering of the Indian Merchants Chamber of Commerce, the oldest Chamber of Commerce in India, formed by Indians before the British left. It was a wonderful group and opened great doors to us. We established a firm foundation for our new office, which, although we call them gateway offices, they are really embassies because they open the University to the world and the world back to Ohio. By the way, I make it very clear that we represent Ohio and not simply Ohio State, so it is a broad based representation effort.

With that, Mr. Chairman, I would like to break from our usual routine today. I would like to ask our Provost, Dr. Alutto, to discuss the culmination of our extensive efforts in strategic planning. Joe, are you ready? Thank you, sir.
STRATEGIC PLAN PRESENTATION

Dr. Alutto:

Thank you, Mr. President. What I would like to do today is provide a summary of where we are from a strategic planning perspective. If I could summarize all of the activity that I am about to describe, it is really very simple, how does this institution move from excellence to eminence? As a personal definition of what that means, at least to me, it means that I would hope in the future that whenever a student, a scholar, a politician, or a corporate executive is interested in an issue or problem that is being addressed at Ohio State, he or she first thinks about coming to Ohio State for that information. When we reach that point, we will truly have reached eminence in all of our programs.

Let me talk a little bit about what the Board has done in order to reach the stage at which we find ourselves. We have reviewed the academic plan that has been in existence at the University for a number of years. The Board supported the development of a comprehensive physical environment plan, which we all referred to as the Framework. It is a reflection of the One University philosophy that President Gee has talked about in his entire time here at the institution.

There has been an initial development, and there is one going on now, in an advancement model, which integrates Alumni Relations, Communications, and Development into one integrated organization, which again gives us an opportunity to think more and more as if we were one institution and not a series of silos.

There has been an evolution of an annual planning process that is focused on all the academic units of the University and all of the support units of the institution. In the process of going through those reviews, the Board also acknowledged that we really have four key activities that must be reflected in every function of the institution. Those are very traditionally stated as teaching and learning, which is really the acquisition and dissemination of knowledge, which is a core function of this institution; research and innovation, which means that we are focused not just on the creation of new knowledge, but also on the application of that knowledge; outreach and engagement, which is a reflection of our land-grant history, our land-grant tradition; and then resource stewardship, which says that we have a commitment in everything we do to be both efficient as well as effective in the use of resources, that very precious commodity that all of us have.

In the process, the Board has had an opportunity to describe and develop a statement of this institution, which was essentially the, The Ohio State University will be the world’s preeminent public, comprehensive university, solving problems of world-wide significance, and here is the important part of that statement, that we are focusing on world-wide problems that have significance and that we will do it through a comprehensive approach as opposed to a very isolated, a very narrow approach looking at only one or two different issues.

That, however, is a very general statement of where we see ourselves going in the long run. Ultimately, what we are talking about is how we are thinking about the next ten years, how do we become much more specific, how do we become much more focused on a set of activities that will allow individuals in this community and ourselves to know that we are being very focused and very effective? For that, what the Board has said is that the movement from excellence to eminence has to be reflected in Ohio State being consistently recognized among the top ten public, comprehensive universities in the world. This is really important because one of the issues we face is how do you measure success? How do we know if, in fact, we are being successful as an institution?

What the Board has done is to recognize, in effect, there is no single measure of quality, of impact, of eminence that we can rely on, whether it is US News and World Report, the AAU measures or the Financial Times’ measures. They are all slightly different. The
key here is the word ‘consistently’ recognized. It is the vectoring of different evaluations, and it is the consistency over time and that is something that we must achieve with the goal to try to achieve that, certainly, within the next ten years.

That, of course, led the Board to a discussion of our overall mission, which is to advance the well-being of the people of Ohio and the global community through the creation and dissemination of knowledge. That is important because this is an interactive process. As we focus on issues that are critical to the state of Ohio, we also begin to define, by definition, issues that are very important to the world as a whole. And as we focus on world-wide issues, we solve problems that ultimately will improve the lives of citizens of the state of Ohio. It is that interaction that is so very valuable, I think, for all of us.

The Board also then focused on the questions, ”What is the culture that will result in that outcome? What are the cultural values that we cherish and will move forward with?” The values are commitment to excellence, collaboration as One University, acting with integrity, personal accountability in all that we do, and diversity in people and ideas, and you saw an element of that today earlier this morning with a conversation about how critical that value is in all that we do as an institution. It is a commitment change and innovation as opposed to simply maintaining stability and continuing to do what has been done in the past, although we certainly do cherish the past as well. It is simplicity in our supporting processes so that we don’t build a bureaucratically heavy organization that, in fact, stifles the very change and innovation that we are trying to achieve. And, of course, there is an openness and trust that goes to the core of everything that we do as an institution, which is so critical to us.

The Board also then turned to the question, “Who are we and how do we pull together the scale and scope of this institution, which is so vast and so exciting in and of itself?” The difficulty being that we are so big, we have such large scale that there is a danger of dissipating all of our energy with all of the activity that takes place. What the Board did is say, “Look, let’s look at what are the major world problems that must be addressed. How do we then relate those world problems to our areas of expertise and strength, and where we are going as an institution?”

Essentially what we the Board did was define three areas, Health and Wellness, Food Production and Security, and Energy and Environment, as discovery themes that should guide much of what we do as an institution as we go forward. All of those themes, of course, are supported and based on some of the basic sciences that are the core of what we do as an institution with a major role to be played by the humanities in that process. The focus on these three discovery themes will guide much of the resource allocation as we go forward in the future all with the assumption that there will be a solid foundation in the disciplines.

The next question becomes, “How do we get there?” Let’s talk about that ten-year period when we want to see this significant increase in the recognition of this institution. After looking at a series of projections, a series of comparisons to other institutions, it became clear to the Board that we needed to make a series of investments.

One, we need to increase the number of faculty at this institution who are actively involved in both teaching and research. We think that is about an eight to ten percent increase in the size of our faculty. That is not going to be an easy thing to accomplish because we will be trying to do that at the same time that we are facing a demographic pattern that will result in a significant number of retirements in our faculty and increased competition because of the growth of international universities. But if we are serious about our ten-year goal, we must address this issue and we must be successful. That will cost around $300 million in addition to the current allocations we are making for the recruitment and the retention of faculty.

It isn’t only through faculty that we accomplish our goals, that provides the core talent that we need to move forward. We also have to continue attracting the very brightest
April 6, 2012 meeting, Board of Trustees

students and providing access, which goes to the heart of our institution as a land grant institution. In order to accomplish that over the next ten years, we see ourselves having to allocate an additional $200 million in incremental resources in order to achieve that goal.

Increasing faculty and access and reducing economic barriers, which is very, very important to us is not, in itself, enough. We must increase the experience that students are having, an experience that goes outside the classroom and involves the total growth of the student as an individual. In order to put the processes in place to accomplish that, we see the need for about another $100 million as we go forward over the next ten years.

Finally, as the Board has concluded, in order to accomplish all of this, there is an enabling device that has to be provided. There is, in a sense, an enabling device called facilities. Facilities have to be developed that support these goals and objectives. We estimate that is about $1.5 billion that will have to be generated, again, in incremental resources. All of this means that we are facing a situation in which, over the next ten years, we will have to identify and leverage about $2.1 billion in new resources for this institution in order to support the activities and the goals that we believe are very, very important.

We also believe that, and the Board has committed itself to, the notion that these are really not resources that we can turn to the state and say that it should provide. The state is providing a fair amount of resources now. We know we are in difficult economic conditions so we as an institution have to find ways to generate the resources that are necessary for success. The question then becomes, “If that is the case, how are we going to do that?”

There are a series of means. One is a very aggressive, cost savings process. We believe that we need to generate, among other things, about $1.5 billion over that period of time just through more efficient ways of operating and then reallocate those resources to accomplish these goals and ends.

We need to find new, repeatable funding streams that will provide some stability as we go through this period; but, in addition, we need to focus on one-time monetization of assets. For example, that is the primary reason we have been talking about the issue of parking facilities; “How do we take one-time monetization of assets and then redeploy that into support for increasing the number of faculty, supporting students, and providing for that critical learning experience as well as the facilities that provide the enabling device to that end. We need to reallocate from our current commitments and decide what is important, what is critical, what must be continued, and what must grow if we are going to continue to develop these three discovery themes.

We also need to enhance the business and government contract relationships we have for research purposes. We have a very robust relationship with private industry in terms of reporting research. That will have to continue just as we will have to get a larger share of government contracts because we know those resources are going to be limited. And then finally, we need to expect some resources to come in from the state capital bills in order to handle some of the construction costs, although those will not be the primary sources of funding, but will need to be an element in that respect.

But the Board has gone through more than just planning for the future. It has actually involved itself in making some decisions in the short run in what we will do, so let me talk a little bit about the action steps that have flowed from the planning activities that have taken place.

The dominant one we focused on is the issue of access for students, and so we have already committed over the next four years $50 million in additional, incremental support for student aid that is directed in two blocks. The first is focused entirely on students with financial needs, so that access to financial resources will not be a major determinant in
whether a student can come and take advantage of the resources that are here at Ohio State. Another half of those resources, $25 million over the next four years, will be allocated to try to recruit some of the best students in the world to this institution because they are a major driver in everything that happens here. They are the individuals who are the stimulus, the catalyst that helps faculty develop the kind of research that has such impact in the world. Those commitments are already in place. Those reallocations have been made, and they come in from a variety of different resources. A lot of it is through cost savings and some through incremental funds that come through a variety of different means.

We want to enhance the student experience, because it isn’t just having bright students on this campus, it is also making absolutely certain that they have a growth experience that includes both their class experiences and also their out-of-class experiences, which are critical. We have currently allocated about $2 million for student residential and learning environment improvements, which has been done entirely through some of the new affinity agreements that we have and the revenues that have gone with that. It is a reflection of some of the innovation that we are seeing in terms of resource generation.

For faculty recruitment, we have allocated an incremental $10 million to help us primarily through the reallocation of existing resources, which is part of a much more aggressive plan going forward. Finally, in terms of facilities themselves, what we have done is allocate an incremental $10 million to help us with some short term investments in new facilities primarily, again, through affinity revenues that have come to the University very recently and through other non-state resources. For example, we have about $80 million coming to the University through the capital bill that was recently approved.

In summary, what the Board of Trustees has been able to do for us is develop an aggressive ten-year plan that has been aligned with our core mission and the vision for Ohio State University. These are truly stretch goals. They are not going to be easy to accomplish; they will require a high degree of planning, discipline, execution and focus, but we are convinced, and I believe the Board is as well, that the citizens of Ohio deserve nothing less from this institution.

Thank you very much.

President Gee:

Any questions for Dr. Alutto? We have been discussing this a great deal so I know that this is a wonderful way for us to think about it. I want to thank our Provost for his leadership, which has been really quite extraordinary, and I also want to note that our Provost and our Chief Financial Officer have captured significant funds through innovative means. We are directly applying this notion of creativity and innovation in new financial models, which are allowing us to be audacious and is incredibly important. We will, by the way, be hiring substantial numbers of new faculty, investing in their work, and, at this critical moment as I said yesterday, have increased our financial aid almost more than any university in this country, which will be allocated in support of our students.

Mr. Chairman, it starts with the Board’s vision, I want to acknowledge that, it starts with the people in this room, is reflected in our faculty’s aspirations, and today, we are staking new ground in this University’s march toward eminence. Four years ago, we had a vision and today we have a reality, which we are dealing with very positively. I take great pride in that, so we are now taking our efforts to the world and I am privileged for the University to be part of that.

Today’s meeting is a poignant one because we are saying goodbye to Trustees who have been essential to our work and our progress. Again, four years ago, we were doing great work. Today, we are doing work that is really quite remarkable. So I will mention each of them in turn and ask them to say a few words.
April 6, 2012 meeting, Board of Trustees

I will start with the youngest, Brandon Mitchell, who has been fabulous as our graduate student representative on the Board. And I just want to acknowledge this, and say this with both Evann and Brandon in front of us, the fact that this University has never thought of our students as Student Trustees. They have been treated in the most important way, which is they are fully engaged in the life of this institution and their views are appreciated and valued as are any of the colleagues around this table and, Brandon, you have done an excellent job.

He is graduating from our law school and joining the general counsel’s office at Nationwide, so I am very glad we are keeping him here in Columbus. Particularly I am glad, because we are keeping Mallory, his great wife, here who is one of the bright lights in my life. When I was imagining what Brandon might do with a bit more spare time, I remembered that he and I share a not-so-secret interest in shopping, we do love to do that and we do it, by the way, Mr. Chairman, at Easton! I want you to know that.

Brandon, do you have anything you would like to say?

Mr. Mitchell:

Yes, I do. First of all, I would like to thank the other Trustees. As you said, being a Student Trustee, when you first come on to the Board you think, “What am I going to add to the conversation?” And all of the Trustees have accepted me as an equal, which is hard for the Student Trustee to have that confidence, that they are an equal, and that they are an expert in a certain area. So, thanks to the Trustees for that.

I also want to thank the University administration. They have been great to work with. As a Student Trustee, you only have two years, so you really have to hit the ground running. Any time I had any questions about anything or wanted more knowledge on certain subjects or historical perspective, they have always had an open door policy, and I have been able to go in and talk with them, so thanks for that.

The student leaders as well. As you know, we have monthly dinners with the student leaders of the three student governments. I want to thank them for being open and sharing the views of their constituencies with me and allowing me to do my job well by communicating those views and communicating the concerns of the students. For me, representing tens of thousands of students, it would be hard for me to get out and speak to every student so I want to thank them for fielding those questions or concerns for me and bringing them back to me.

Specifically, I want to thank a few people. My fellow jurists on the Board: Alex, Bobby, and Judge Marbley. They have always given me wise counsel. When I first got on the Board and wondered, what do I say or how do I say certain things, they have always been there for me to lean on and really motivate me to get involved and stay involved and speak up when I have thoughts, so I want to thank you all personally for that.

I want to thank the Board Office, which has been really helpful for me as a student. I am always on campus so I could always pop in and talk to the two David’s, Ann, Katherine, Theresa, Bridget, Suzanne, and even Korenia, who probably isn’t here anymore, but I want to thank you all for helping me with the onboarding process and with anything I have needed during my tenure.

I look back with pride on the work we have done over the past two years and, while I wouldn’t want to be a student all over again, I think I have kind of exhausted my brain as far as being a student, I think if I was advising an eighteen-year-old, there is no other university providing the experience that OSU is, and I am proud of that. This is truly a commencement for me. While I will no longer be paying the University, I will be providing my talents and knowledge that I have gained over this time to this University. I will always love it, and just thanks for having me.
April 6, 2012 meeting, Board of Trustees

President Gee:

Well, Brandon, you won't be far and, Archie, by the way, hand him one of those alumni memberships, please.

Mr. Mitchell:

I am already a member!

President Gee:

That’s great but, you know, you really have done a fabulous job. You are so widely respected and I said last night much of what I hope you know that is in my heart about that.

Wally O’Dell. Wally has been very special on this Board because of the fact that Wally has always been a cheerful advocate for what is good for the University, which I deeply appreciate. Wally and Pat, as I said, have also been consummate members of the University family always reaching out, always being present, and always engaging in the things that we think are important.

Wally, of course, has had leadership in industry at the highest levels; at Diebold and Emerson Electric Company, which I think has enhanced our work immeasurably. Wally and I are both baseball fans; I am going to a baseball game with him; we are going to try to go in May, as a matter of fact, and I look forward to that. Wally is not a graduate of this University but there is no bigger Buckeye fan around than Wally O’Dell.

Wally, would you like to say something?

Mr. O’Dell:

Thank you, Gordon. It has been and continues to be a great honor to serve on the Board of Trustees of The Ohio State University. Nine years goes by really quickly. It seems like a year ago that Governor Taft called and asked me to serve.

What an opportunity! I have served with ten great Student Trustees, 25 amazing regular Trustees, and even a couple of fabulous Charter Trustees.

The progress over the last nine years has been spectacular. So many things have been accomplished. Many more great things are under way. We have better students, better faculty, great leadership, improved dorms, improved Oval, improved library and the new RPAC and student union, which mean a marvelous improvement in the living and learning environment. We have the Ross Heart Hospital, the Biomedical Research Tower, and the new Wexner Medical Center under way.

Importantly, we have transformed the Board and Board governance, changing from a less than optimal situation to the standard or excellence in Board governance. Of course, the biggest accomplishment in the last nine years was convincing our wonderful President, Dr. E. Gordon Gee, to return and I would like to add that I was so proud of you this morning. It was your finest hour. It was just awesome. Your inclusive ability; just perfect.

I am leaving the Board confident that the future of The Ohio State University will be bright. We have a great Board, great leadership, and great momentum. Thank you.

President Gee:

Wally, we know one of the things that we are really devoted to, David and I, and certainly the previous David, we are very devoted to having the Trustees continue to be engaged
in the institution. We expect that and we know you will be but, nonetheless, that is just a reminder that this is not a farewell, this is a passing to a new status and your involvement will be critical.

Alex Shumate, what can I say about Alex? I brought this today, not a lot of people can see it, but I show it because these two guys were on the Board during my first tenure and both of them were very critical in my appointment in 1990. I brought this picture of me. That was the day of my appointment, if you can see that. I want you to know that the headline, this was in The Lantern, it says, “Gee Brings Colorful Legacy to Ohio State.” I haven’t changed folks. I would just say that.

Alex was the first Trustee from Ohio State that I ever met, and Alex was the chairman of the Board when I went into the wilderness, and Alex was the chairman of the Research Committee when I came back out of the wilderness, so I feel in many ways that I have grown up with Alex from my first tenure as President to now.

I think the thing that we can all agree about with Alex is that he is the most solid human being that I have ever met. I mean, he is just solid. Everyone, if you think about a counselor in the legal sense, he is that, but if you also think about a counselor in terms of just providing advice, that is centered and mature and about which you say, “That’s right,” that’s Alex Shumate.

So, Alex, we deeply appreciate you, and your voice will remain critical to all of us.

Mr. Shumate:

Thank you very much, Gordon, and let me just say that it truly is an honor and privilege to serve on this Board. And certainly Ohio State University is not only an excellent university, but it is also a place that we love. I am very thankful to the fellow Trustees for the opportunities that we have had to work together. I was sitting here this morning and I was thinking to myself that this truly is a Good Friday.

When you think about the students, the conversation that we had this morning, and the responsible and effective manner in which they handled themselves, that is what the University is all about, our students, and we saw an excellent illustration of the learning experience that students can have here at Ohio State and also heard about this in our Provost’s talk about the strategic plan. Again, it symbolizes the level of excellence that we now reached as a University, as a Board working together to focus on the big issues, the important issues, and the issues that are going to truly move us to the next level of excellence.

I also want to thank the Board office, in particular. I think we have an outstanding Board office that gives us constant, consistent support and we are very appreciative of that and so appreciative of the leadership, Les, that you have provided over the past several years and Bobby, we look forward to your leadership. If there is anything that we can do to continue to add value, you know that we will.

So thank you, and Good Friday to everyone.

President Gee:

Alex, thank you so much, and there is much left to do, my friend, so you know that.

Finally, today, we are commemorating a changing of the watch, not a changing of the guard, because I do think the chairman of this Board is a watchman in the very best sense of the word. Mr. Wexner is rotating out of the chairmanship. At the conclusion of today’s meeting, Bob Schottenstein will assume that role.
April 6, 2012 meeting, Board of Trustees

Bobby, I think we all agree, is the ideal person to assume this leadership position role at this time. Without question, he understands and values this institution and he is valued by the people here. Bobby, I just need to say that to you that the people around this table have asked you to assume this role with great affection and great respect and you certainly have that from the University administration. You will deepen the work of the University. You will continue the great path forged under the leadership of Les and, for that, we are grateful and we are truly blessed.

About Mr. Wexner, this University has been deeply blessed to have his steady hand at the wheel, as you know, and it is indeed that. He is visionary, he is insightful, he is wise, and he is fearless. Sometimes we feel that fear, as a matter of fact, and the combination of those qualities has made him a leader of incomparable quality, stature, and effect. Les Wexner’s work on our behalf of this University has been nothing short of transformational and has been work that he does with great affection and great respect of the values of this institution, and he lives those values.

Les, as I ask for your comments, I have the honor also of presenting you today with a gavel. Of course, you are a man who never needs a gavel. You command attention under any circumstance but I think, on behalf of all of us, we wanted to make sure that you had this gavel; let’s give him a round of applause.

Mr. Wexner:

Well, I didn’t plan to speak last night and I really didn’t think much about saying things today, so a couple of disconnected thoughts go through my mind. One is, sometimes I say to myself, “When all is said and done, sometimes more is said than done,” and another is what Alex said, “This is a Good Friday.” Genuinely, I think it is a great Friday.

One of the things that I mentioned yesterday was that I don’t like the idea of graduations because they sound so terminal. I really like thinking of them as commencements, and I think I view this day personally as a commencement. More than 50 years ago, when I graduated, I thought it was a terminal event. I can remember walking out of that stadium and saying, “Well, I will probably be back here for a couple of football games and now on to life,” and not feeling any connectedness, thinking that there wouldn’t be any connectedness to the University.

In sitting here today, in real time and in the moment, what struck me is that Gil probably had that same feeling some years ago in graduating from the University, and in many ways commencing a relationship with the University, and also in graduating as a chair and commencing and continuing a relationship with the University. And, coincidentally, Alex and Gordon have both had that graduation event from the University, and then, through time and change, the friendship of Ohio seems to bring us all back, not to ends but to beginnings.

I think there is great symbolism in the events of the last several days, which speaks to that renewal and beginning. Yesterday, ideas that were new to us a few years ago as an institution, as a Board, about tech transfer and hiring really talented people, and thinking about how we can benefit the sons and daughters of Ohio and the citizens of Ohio by bringing to life the real world technology and incomes, which would benefit students with tuition and facilities and a lot of good things, were only ideas.

The progress we have made in thinking about how we are bundling communications and branding and, if you would, marketing and development, we are at a very different place. I thought the discussion, even today, about diversity and about how serious in real time it was I am proud about the way we think about diversity of gender, skills, race, and points of view, and it is a reminder of the high standards of ethics and values and thinking that the Board must set, not only for itself, but for the staff and faculty and the students.
April 6, 2012 meeting, Board of Trustees

Of course, Joe’s presentation, a summary of thinking about the five-year future with bold and aggressive goals, stretch goals, which makes this University a better place, was great. A lot has been done, I think much more than said, and so I think we are very much in a springtime and a beginning here, and it is a great Friday.

I think, on a personal basis, I have benefitted much more from the University than I have ever given back in time or resource. That is very conscious to me, so I feel much as Brandon does and several of the students that we hear, and it reminds me that while the Board has to think about big, strategic, long-term issues that really do impact and change this University and make it a better place for the citizens of Ohio, and our impact on the world, there is a paradox, because the impact of the University is very personal. It impacts one veterinarian and one business school student, and it is the birth of a child and the advancement of a career. So we touch people very much one-on-one, and although our thinking is at a bold and aggressive level, the impact of the University is transformational in individuals’ lives, and I think that’s what makes it so unique and adds such enormous value.

It has been a pleasure to have the opportunity to work with all of you and to certainly work with Gordon again, and I look forward to continuing to try to pay my debts into the future. Thank you.

President Gee:

Thanks to all of you and thanks to the heartfelt comments and leadership you provide. Now we can continue on with our business, Mr. Chairman.

***

COMMITTEE REPORTS

Mr. Wexner:

Good. There is business. Bob, let’s begin with you reporting on Audit and Compliance.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit and Compliance Committee met yesterday and there were a few items on our agenda that I will briefly report on.

First, we received an update from one of our compliance units that focuses on student enrollment policies from Mr. Evanovich. It was a very complete presentation, and you have a summary copy of the good work that is done in that area.

We then received an update on something that you would ask that we pay very close attention to, Mr. Chairman, and we are, which is the timeline on the rebuilding of the entire University-wide compliance system. I am very pleased to report that since our last meeting, which was the meeting where we approved of the new structure, a lot of hard work has been done as we set out to build the new compliance model for Ohio State, beginning with the process of seeking to hire the new Chief Compliance Officer. That process is well under way, and there are a number of very capable individuals that are going to be interviewed that I think are going to be able to perform this role in a way in which we expect. The expectation is that this person will be on board perhaps even before the June meeting.

We also are beginning the process, and it will somewhat wait until that person comes on Board, to craft the charter and mission statement, if you will, for the new Office of Compliance, but I think that we are on target and on time with the various tasks that we need to undertake in order to bring life to this new structure.
April 6, 2012 meeting, Board of Trustees

The next thing we did was receive an annual report: the comprehensive update on the status of all University affiliated entities. There are over twenty-five separate affiliated entities over which the Audit Committee provides oversight, and it is a very robust oversight. It is one that we launched a couple of years ago, and I think that it is one that represents one of our better practices. Mr. Culley provided that update and, once again, one of the things we do is we assess why these affiliates were created, whether they still need to exist, what their status is, the status of their annual audits, their performance, and so forth. It was a very good report.

PWC, the external auditors for the University, provided their plan for the coming year. Then finally, we authorized and approved, and this will be on the consent agenda, the establishment of a new University affiliate, and this is one that we discussed yesterday that you referred to a couple of minutes ago, Mr. Chairman, which is the affiliate that will be used and become an integral part of the tech transfer initiative. That concludes my report.

Mr. Wexner:

Thank you. Any questions? I am hearing none. Gil, moving on to the Advancement Committee.

Dr. Cloyd:

Thank you, Mr. Chairman. The Advancement Committee met yesterday. The first two items I would like to discuss are on our consent agenda.

First of all, we received a report of new fundraising for this year as part of the Foundation report. At this point in time, the new fundraising effort is $217 million versus a very stretch $355 million goal that we set this year. That has us at 61% of goal in 67% of time, so we are a little bit behind. I think, importantly, we are 27% ahead of last year, and we are on the kind of track that we want to have an increase that is consistent with what we want to do prior to the start of the public phase of our development campaign. Also, as a part of the journey goal that we have set in terms of where we want to be in 2020 and we do have a fairly large, what I would say, portfolio of activities right now we hope that we can complete that by the end of the fiscal year. But net, I think we are good there.

The second thing we discussed that is on the consent agenda is an amendment of the University Naming Guidelines. This is in Tab 23 if anyone wanted to further reflect on that. The current guidelines that we developed were last improved by this Board in May of 2010, but as we approach the upcoming public phase of our development campaign, we felt it was appropriate to re-review our naming guidelines, specifically around the subject of corporate or other organization naming of entities or physical facilities. The guidelines, as they exist today, do not allow corporate or other organization naming’s of some entities and, basically, preclude naming of physical facilities with the current wording we had.

So we put together an ad hoc group to do an assessment. That group included President Gee, Provost Alutto, Mr. Kaplan, and several Trustees joined in that effort because we wanted to understand what other institutions were doing. So, there was a very in-depth review conducted of 24 universities who we consider to be excellent universities both in terms of their development activities as well as in the stature and character of the universities that has led to a revision of the guidelines that we are proposing.

In essence, the revision in the guidelines will, in very, very select situations, allow a corporate naming of a physical facility or other entity in the University but only after a very diligent, thorough, formal process, which has been added to our guidelines for naming and also assures that we have protections against any real or perceived conflicts of interests in such naming’s and includes specific prohibitions of any marketing or other
types of marketing signage that we would have on physical facilities or associated with entities.

The Advancement Committee reviewed both of these topics and is recommending approval for them on the consent agenda.

We then undertook a review of the Advancement goals that will become a part of the scorecard for Advancement, which the Board will look at on a regular basis. Recall over a year ago, we agreed to eight original goals that were in the buckets of awareness, engagement, and financial. As we have continued to review these goals within the Advancement Framework Planning Team and the Advancement Committee, our expanded learning as we have been on the advancement journey indicated that we needed to make some changes in the awareness goals and in two of the engagement goals.

The committee yesterday, again, reapproved the goals that we have established for increasing donors in terms of engagement and the two financial goals, which are commitments around the campaign and also our commitments as a part of our 2020 journey goal, which is to become the number one public university in annual total private support.

What we decided to do with the awareness and engagement goals is to develop more specific, or what I will call granular goals around specific cohorts or key segment groups. We agreed yesterday that there are six key groups of stakeholders that we will focus on: alumni, faculty and staff, and that also include retirees and emeriti, students, non-alumni friends, corporations and foundations, and Ohioans. The task that we will be working on and a lot of this work will be done within the Advancement Framework Planning Team will be to develop the appropriate awareness and engagement goals for these six key stakeholder groups. We plan to have proposals ready for review within the Advancement Committee for discussion in June with a target to have final goals in those areas to present to the full Board in August.

We then had an update from the Edelman Group on the work of the Advancement Framework Planning Team. May I just say, briefly, we have essentially completed all of the work the group outlined in the two buckets for the branding of the University and the organizational redesign of the University, which is the discovery phase or the data gathering phase. We are now moving very deeply into the development phase, which will involve both of these activities and then, ultimately, will bring it all together to have a final recommended strategy for Advancement. We are on target to complete that work by the end of July.

Finally, Mr. Hastings provided the latest results that we had in terms of our journey goal. Recall that I just said that we want to be the number one public university in the nation in total annual private support by 2020. When we set the goal, we were number eleven. To remind all of you, we look at a three-year rolling average of total annual receipts, that is the data that is available, and the latest results are just in, Ohio State has made some progress here. We have moved from number eleven to number ten.

To reach our journey goal, we feel, is quite a stretch as we have looked at receipts from Ohio State at our base period to where we would be if we averaged a 3% annual growth rate. We looked at the institutions that are above us, and based on their past history and projections, we projected out to 2020 that if they grew at a 4 to 5% annual rate, what would we have to do? We have to grow at a 9% annual rate to get to where we want to be by 2020.

It is quite a stretch, but I am personally very encouraged that we are getting the progress underway. As I said at the start, to date this year, we are on the track that we want to be on. Now, we are not resting on our laurels. We know there is a lot of work, but I am very pleased that there is a lot of energy and a lot of excitement by the people to keep going.
April 6, 2012 meeting, Board of Trustees

after this goal and, obviously, it ties back to what the Provost provided that this is very essential funding for the University to achieve the kind of goals that have been described to really, really provide the leading land-grant mission that we want to have for the world.

That concludes my report, Mr. Chairman.

Mr. Wexner:

Thank you, Gil. Any questions? Bob…

Mr. Schottenstein:

I just want to make a comment and really commend Gil and the committee on the work on the naming guidelines. Wally, you mentioned in your remarks a few minutes ago so many great things that we have seen at the University over the past few years and some of the more mundane things that often go unnoticed but represent really good Board work and I think that happened under your chairmanship. I think it might have been your suggestion, Mr. Chair, to look at, not just our naming guidelines, but how we count gifts. Frankly, while we had certain things that suggested how we should do it, they were very inconsistent, lacked clarity and were susceptible to being arbitrarily applied. And, whether or not we are in a campaign, we are always out to raise money, and that we want to make sure we do so in the most even-handed fashion for the benefit of those that we are trying to raise money from, I think, goes without saying.

I just want to say that one of the things that also was interesting was that we did some benchmarking on naming guidelines. We got some good data from a lot of other institutions, but there are a lot of other institutions out there that don’t even have them or they have chosen not to address this kind of thing. It is not easy to address it, because you don’t want to paint yourself into a corner and you want to give yourself flexibility, but I think that it is a tribute to the work that your committee has done. I think that for this institution the effort to establish appropriate, clear, objective standards on how we recognize fundraising and honor fundraising and contributions to this University is very important work.

Mr. Wexner:

Thank you. Ron, Physical Environment…

Mr. Ratner:

As usual, we had a meeting that ended up running right past the hour, and we had some very important presentations. One was an update on the north residential district, and I think we will hear a little later about some of the extraordinary concepts for the transformative, effective student programming that is really hand-and-glove with the fiscal planning. I just want to provide an update on where we are.

We have made great progress in terms of the physical planning of the north residential district. We have been able in that time to make progress and identify some challenges. We have been able to confirm that we really can create a superlative physical plan that will transform that north residential district into what I am going to call a “living and learning neighborhood.” It is really not a district. It will become a neighborhood, a new and wonderful neighborhood containing about 3,200 new beds and 2,800 existing beds.

It is most important to also remember that we are building new dining, recreation, and student life facilities that are scaled to the entire 6,000 bed population so that all of that area and all of the outdoor spaces, which are exciting and vibrant and that provide the connective tissue back to the campus and the adjacent neighborhoods, are also scaled and totally new for that entire 6,000 bed population.
We now can confirm that we can do that at the originally projected cost of about $335 million that was identified in the prior financial analysis, and that the site plan that detailed master plan which is really what we are developing in a set of architectural criteria is fully informed by and responsive to the framework principals. We are working within a context, which is something that, again, if you look at the progress that we have made at the University, we could not have said that five years ago. We couldn’t say that we had a context for physical decisions so they were pretty much ad hoc and, no matter what the quality of them were, they weren’t really related to the rest of the campus.

In this case, we have the framework principals to inform what we are doing, but we have also identified some challenges. We are now going to spend a detailed 90 day period to investigate and think about some of those challenges. The intent here is to come back to the Board with a fully fleshed-out plan at our August meeting. Some of those challenges that we want to investigate are the impact of the increased demolition/replacement scope. If, on the margins, we spend more dollars, which we will have to find out, and we remove a few more of the older buildings that are not slated for renovation and that we know are getting to the point where they are really physically and functionally obsolete would we have a significant improvement on the overall plan, the overall quality of the neighborhood?

We want to fully develop the concept that will drive the iconic building and program at the corner of High and Lane. It is a very special corner. It is an entry corner to the University. It is a very important statement about who we are. We believe we can fully develop the residential program that we have called for without fully engaging that corner but now we have to look at what sort of building should be there. What is the program? What is the activity that should be on that corner both at its grade level and above? We want to confirm the complementary relationship and impact on the neighborhoods, both east of High and north of Lane. We think we have taken that into consideration in both the framework plan and in this work, but it is such a vital and important issue that we really have to look at the planning and the thinking that we are doing both east of High and north of Lane and make sure that we are really complementing and enhancing that.

And we want to evaluate the condition of the existing beds at the conclusion of the development period. It will take us three or four years to complete this project. At that point, what really is the condition of the existing beds? We have some dollars slated just in our normal capital replacement to improve those beds, but we have to be really careful to look at what is the 6,000 bed neighborhood that is so vital to this concept of a transformative two-year experience and what is it going to be like?

Finally, I want to make sure that the overall character and density of the plan both complements and enhances the overall identity of our campus. We want to extend it. We want to challenge it a little bit, but we want to make it feel like it is the best of what is really the OSU campus. I think we have made great progress. We have got some challenges in front of us, and I am very excited to come back to the full Board with the other Trustees who have been working with us to present this at our August meeting.

We then had an update on the capital plan. Again, this has now become a very robust process instead of a frozen five-year plan which we approve and then wait five years and look at it again. We are now engaging in an annual process that creates a rolling plan. We will have both the annual review, the response to a really detailed five-year plan and a capital improvement program that is imbedded in a fifteen-year overview, so we are looking out and not taking things in isolation, but looking out over a longer period.

We have gone through a very detailed capital needs inventory for that 15-year horizon. There are about 700 projects that have been identified from departments and entities throughout the University. That comes to about a $5 billion capital needs program, obviously a huge challenge. The resources, to give you an idea, are about $1.2 billion related to the Medical Center; about $1.8 billion of academic, residential and research buildings; and about $550 million each for student life and for deferred maintenance.
lot of the deferred maintenance needs are accomplished in some of the replacement. Some of these buildings just get replaced.

It is critical that we really are using three analytical lenses. We are looking at the way the physical needs relate to the strategic principals that have been identified, that Dr. Alutto went through, the financial principals of the financial plan, and the framework principals. It is a very significant scope. We will be back again, I believe at the June meeting, with a much more detailed review of this so we can really dig in and understand what those challenges and needs are and look at it from an integrated planning model.

We then had some updates on the chiller plant and the electrical substation. Real progress has been made in the underground, unseen infrastructure that is very important. The south high rise and hall complexes are nearing completion. The first portion of the south high rise is nearing completion. Both of those will be ready for September and then comes the completion of the south high rise complex the new work there will be the following September. To give you an idea of the project, the south residential neighborhood will contain about 5,600 units of which almost 2,000 will be fully renovated, about 1,000 have been previously renovated, and about 870 will be new so, again, we have a great south residential neighborhood which will have its own character and its own quality, so as in north, we are going to have another really significant residential neighborhood.

There are two items on the consent agenda. One is an environmental covenant related to the removal of the Fifth Street Dam, a very exciting project that restores the river as it goes through our campus and creates what will become an extraordinary opportunity for us. We have obviously to approve a series of environmental covenants. It has taken a little bit of work because we are somewhat limited in what we can approve. All of these covenants are related to land that is currently, in effect, a river. It will have no negative impact on our future planning, but we will obviously conform to the needs of the agencies that are funding this, so we are not going to come back in and pour concrete over their newly renovated river.

The other item is an expansion of the Sullivant Hall project, which is a complete rebuilding of that facility. In this case, we are expanding by using development funds to include a wonderful new performance space with about 350 seats and a collaborative space for arts and sciences. I am personally thrilled with what we are doing in Sullivant, and I think it is going to be a real jewel. It is a wonderful building to start with and this is a very sensitive and very complex rehab of an existing, historic building. It is going to create a marvelous set of performance and arts facilities related back to the academic mission, so we are integrating arts and sciences in there. It is the best of what Ohio State is, a real understanding of the liberal arts and the relationship to the sciences, and what the performance arts and the general arts mean to our campus, so it will be a wonderful facility. Again, it is on time and on budget, but we are expanding the scope as we have done a couple of other times as we have been able to track additional funds.

So that is my report. It was a fun meeting!

Mr. Wexner:

I am curious. I don’t know if it is in Medical Affairs or in your domain, how we are on the Medical Center in terms of time and budget?

Mr. Ratner:

I should have raised that. That was one of the other updates. Again, we are basically on time and on budget. As you know, we have folded into that the additional oncology center, which was an additional $100 million project that the team in the Medical Center and facilities folded into the construction, which is a real accomplishment.
Mr. Wexner:

And the traffic pattern, the Cannon Drive north-south connector?

Mr. Ratner:

We weren’t updated on that yesterday. I don’t know. You are shaking your head, Jeff.

Dr. Wadsworth:

Yes, that has been very successful and continues to be. It is obviously somewhat disruptive, but with minimal impact.

President Gee:

And another thing that you will notice in terms of our longer plan of moving Cannon Drive and renaming it Wadsworth Drive, a very critical component of all of that is that the Mayor has now approved the removal of that dam, which then allows all the other dominoes to start to fall so we are actually headed where we thought we were, so I am very pleased about all of that.

Mr. Ratner:

I just want to clarify. There are two components of that. One is the work on the relocation of Cannon that we immediately need to accommodate the work that we are doing on the Medical Center and the traffic connections at both ends of that renovated stretch of Cannon. We are moving it over, which both accommodates the current expansion of the Medical Center and opens up significant additional land for development in that area.

Beyond that, we are also working to extend and rebuild Cannon that ultimately will go all the way to Lane and create another major north-south route so that we can relieve some of the traffic on High so that it is not the only north-south route that supports the campus and so it can also be supportive of another entry to the Medical Center. As it expands, we really need to allow for better traffic planning. Again, this is identified in the framework plan. We are working on it. Jeff has done such yeoman work on this that I agree with President Gee, we probably will think about a renaming of it.

Dr. Wadsworth:

I just hope it is not the Wadsworth cul-de-sac, dead end. Let’s see, I chaired the Medical Affairs Committee, Mr. Chairman, on behalf of Alan Brass who is indisposed.

Dr. Gabbe has a wonderful practice. He introduces the committee to good news at first, so we heard a lot of excellent things. Of course, one was the naming of the Medical Center, but we also heard that our own Gale Marsh was named the YWCA Woman of Achievement this week which is a very special honor here in Columbus. We also heard about the visit of the Secretary of Health and Human Services, Kathleen Sebelius, who came to tour the progress on the $100 million expansion. That was a Federal HHS grant and, as you know, is incorporated into our project.

The expansion is on time, scope, and budget. It was probably helped a little bit by a mild winter, but Dr. Gabbe had excellent news on our safety record and the awarding of contracts to Ohio institutions, about 80% of our budget stays in Ohio and a significant amount goes to diverse institutions, so that was very positive indeed.

He also talked about the Beacon Awards, something I was unfamiliar with, which are awards to the top 5% nationally of intensive care units. There are only five in the state of Ohio and three of them are at Ohio State University. We are the only one in the city of Columbus, and that is a very impressive award.
We have also exceeded our goals on patient satisfaction measures as represented by so-called H-Cap scores. We have reached the 90th percentile of overall satisfaction and 94th percentile with our nurses, which is absolutely spectacular. I am delighted we have Corbett Price on our committee, because he was able to give us a national perspective on just how very impressive that achievement is. So that is an outstanding outcome.

The CFO, Mike Rutherford, reported on our financial scorecard, which focused on all of our strategic issues related to admissions. Again, we thank Corbett on pointing out that we make money on discharges, so we need to think about that as well. And also, our continued work on the health information systems conversion has been successful. This was a major undertaking that has had a slight financial impact, but that is mostly in timing. As time goes on, we will recover the apparent loss in revenue. It is not a permanent loss, but a timing issue as we introduce a very complicated system. I might point out that the scorecard that is used by the Medical Center has been in place for some time and presaged our own University-wide method and has been a very useful tool.

Now, we heard two reports on programs that were just spectacular. The first talk was given by Ms. Dawn Tyler Lee and was on something called PACT, which is the Partners Achieving Community Transformation project and is part of the University’s commitment to the growth and rich heritage of the neighborhood surrounding the OSU East Hospital. It is a partnership with the city of Columbus, The Ohio State University, the Columbus Metropolitan Housing Authority, and the near east-side stakeholders. We heard a lot about the data as we try to improve the well-being of the people in that neighborhood, which was very impressive.

The second talk was by Dr. Ronney Abaza, which was just stupendous. This was about the Medical Center’s leadership in robotic surgery. Robotic surgery, as it implies, uses a robot, called da Vinci machines. It turns out there was a monopoly in this by the da Vinci Company. Only one company makes these machines, which are made in the U.S. and are used worldwide. There is a bit of competition coming up, which is very interesting, but these robotic procedures have expanded considerably into different domains, an exponential growth in the world, and I am just thrilled to tell you that Ohio State leads in this domain. We bought the first machine back in 1999 and now have five. Four are in use and one is in training. I like this man, Dr. Ronney Abaza. He not only wants to get to number one, he is pretty much there, but he wants to drive past number one and make sure he stays number one. He provided a lot of data with a lot of human impact and very exciting work. But not only are they buying and using machines, they are also helping to pioneer the innovative robotic techniques. So they actually work with the company in the latest applications and modifications to these machines.

It turns out there is a competition starting because from a company called Amadeus, just starting up, and the Amadeus machines are made in Canada. Their very sophisticated software allows the robotic handler to actually feel the apparent resistance of the tool as they are cutting. It is a brand new innovation and, again, OSU is working with that company helping to give feedback on how to make these machines effective, and we will be the first institution to buy one.

This is how you get to world leadership, and I just applaud them for this kind of innovation. Then we finally heard that they are working with our engineering department in a multidisciplinary sense to try and introduce engineering innovations from that school in the design of the machine, so terrific, terrific report.

Finally, we approved amendments to the bylaws of the medical staff of the University Hospitals and that will be on the consent agenda. That is my report, Mr. Chairman.

Mr. Wexner:

Thank you.
April 6, 2012 meeting, Board of Trustees

Dr. Cloyd:

Dr. Wadsworth, as we work with these companies in both the software and the hardware, are there inventions or tech commercialization opportunities here for the University?

Dr. Wadsworth:

It is very interesting. Because they are a monopoly, they really don’t want to share in some of the proceeds from that kind of collaboration. It turns out, we have some insight into the software, because our Oakridge National Lab under Battelle, I actually wrote some of the early software, was very receptive early on, but now it is a very competitive position. As we make inventions, they will start to. I do think about how to share that intellectual property and, as this competition comes in, it is going to be interesting to see how fast now new advances come in, because these new guys are doing a couple of interesting innovations. I think what we will see is the start of some IP flow.

Dr. Cloyd:

Thank you.

Mr. Wexner:

Janet.

Dr. Reid:

Just to add to what Dr. Wadsworth is speaking of, the surgeon who spoke to us also talked about being able to take data from x-rays and other things and model organs so that surgery can be practiced before it is actually done on the individual patient. That is what we are working on, so there may be ways to look into the technology around that.

Dr. Wadsworth:

Yes, there was a very strong education component and a picture of the device. One test I guess is they are supposed to be able to peel a grape.

Mr. Price:

Yes, on a different note, other than the technology, which was quite impressive, I would like to commend the University, for the record, for being good corporate citizens as illustrated by the activities that are taking place on the east side of Columbus. In terms of that particular program, it is truly making a difference in the lives of the community, and it is showing that the University’s commitment to diversity goes beyond the walls of the University.

On a personal note, my two sons used to play in that community when they would come to Columbus on visits to their grandparents’ home here in Columbus. I think we just need to sometimes toot our horn about the things that we are doing positively. We are not just reacting to events, but we are actually moving forward and being proactive in terms of changing and making a difference in the lives of the individuals on the east side of Columbus.

Mr. Wexner:

Thank you. I don’t know if you want to continue on, Jeff, with the Finance Committee?
April 6, 2012 meeting, Board of Trustees

Dr. Wadsworth:

So we met yesterday, the Finance Committee. Four items were presented for discussion and three for action on the consent agenda.

The first was from Mr. Chatas who presented the annual University financial benchmark report. This includes Board defined benchmark institutions as well as comparisons to the top ten public institutions. We have made significant progress overall. There are some areas, this is one of those things that you see greens and you don’t discuss those, and you see yellows and you dive in. We do continue to lag behind peer groups in areas such as revenue per student, expenditures per student, and endowment per student. This is a repeating theme we have heard from several of the committees that we have heard and so there is a need for us to expand our efforts to obtain government grants, contract dollars and industry dollars to keep pace with our peer institutions. The strategic plan we heard will endeavor to focus on that. So that was the first report.

The second was Ms. Readey. She presented a construction project status report. This covers all projects under construction with costs in excess of $20 million. It excludes the Medical Center Expansion, which is reported out to the Medical Affairs Committee. There are six projects under this review, and they each have two measures of traffic lights so all of them are on and on time with one exception. There is a slight pause in the south high rise project. It is green vis-a-vis the budget but it is a little bit behind time and that has to do with some of the geothermal well-drilling issues that have come up. Mr. Fisher knows about them and that is being solved as we move ahead.

The third was the annual waiver report for calendar year 2011. This reflects the number of contracts that we enter into for purchases in excess of $250,000 that are not competed for various reasons. We take a look at that and we compare it year-over-year. Everything seemed to be appropriate from our point of view and those waivers are in good shape.

And finally, we had an update on the preliminary discussion on tuition and fee planning for fiscal 2013. As a reminder, the state of Ohio has capped resident undergraduate instructional and general fee increases at 3.5%, and the University leadership will work with the committee to present a recommendation to the full Board for tuition and fee rates as well as room and board and user fees at the June Board meeting.

I would like to thank our President, Gordon Gee, for coming in at very late notice to this committee. There was vibrant discussion and President Gee came in and gave a terrific perspective, his perspective, on this topic. That was very, very valuable to us to get, Gordon, so we thank you for doing that because I know you were busy on many other things, but that 10 or 15 minutes really helped give us the right balance.

So we have three items for authorization. One is to increase the Sullivant Hall construction contract appropriately to the next phase. Secondly, there is an authorization for three individuals to be reappointed on the self-insurance board and, finally, there are some proposed revisions to the University Debt Policy. We reviewed the revisions and approved those recommendations.

That concludes my report, Mr. Chairman.

Mr. Wexner:

Thank you, Jeff. Gil…

Dr. Cloyd:

Thank you, Mr. Chairman. Dr. Wadsworth, as I looked at the background material on that in the benchmarking, I have to admit I paused on the expenditures per student when I went through it. I understand in a general context why that is important and why we are
looking at it, but I think we have to have some caution here, because as we think about enhancing productivity and delivering an ever better quality at ever lower costs, this could be misinterpreted on what is really beneficial because a lot of times, if you are a lot better and you are doing it at a lower cost, I think that is terrific.

Dr. Wadsworth:

Fair comment.

Mr. Wexner:

Anything else? Judge Marbley.

Judge Marbley:

Thank you, Mr. Chairman. As I noted to the Board earlier, we began our Academic Affairs and Student Life Committee meeting yesterday with the report from Dr. J. about the graffiti incident, so I won’t go into that in detail.

We then turned our attention to a discussion of plans for enhancing the second-year student experience through a developmental program model. As we all know, we have been working on this for a while. It is one of the most exciting and innovative initiatives that President Gee along with Dr. J. have developed. Dr. J. reminded the committee that the first year retention rates, graduation rates, and sense of engagement with the University are all enhanced when students live on campus. At our February Board meeting, she provided ample evidence of this, and I will just refresh your recollections.

For students who live on campus, the retention rate for those who live on campus one year is 80.4%, whereas for those who live on campus, it is 92%. The graduation rate overall is 79.7%, but for those who have lived on campus for two years it is 88.2%. For those who have never lived on campus, the graduation rate is 81.4%. For those who have never lived on campus, the graduation rate is 64.7%, so it is important to note these factors. Addressing these factors, as we have in this cutting edge proposal, would help propel the University toward its overarching goal to become a top ten public university over the next ten years.

What is being envisioned at Ohio State is a transformational second-year experience. Dr. J. reported that a two-year experience will be centered on helping students achieve success and would be guided by the following three principals, which I am going to elaborate on momentarily. One is access or academic engagement with the University. The second is a community with a variety of living and learning environments, and third is self-awareness or co-curricular discovery and development.

During the students first year, the emphasis across these principals will be on discovering the University. As many of you know from being on the Board, this is a massive intellectual platform and attention must be given to just finding where everything is. In the second year, the emphasis will be on looking at and toward the future. Targeted programming and resources will be available for students based upon their unique needs at this critical juncture of their education. Many of the programs would occur in the residential community adjacent to the academic core, thereby increasing student-faculty engagement by allowing faculty to work with students within the University’s residential communities.

Some of these programs will include, as I told you I would, access, faculty mentors for the students’ major, interests, research foci, etc.; academic advising for the major; integration of learning strategies into the major field of study; and study abroad opportunities and world-view discussions with faculty. Indeed, 50% of students self-reported that they never interacted with faculty outside of class. 17% self-reported that
they actively engage with faculty and 30% sometimes engage, so this access will greatly enhance the student experience.

Secondly, community. Under the rubric of community, there will be an emphasis on developing leadership skills; participating in volunteering and service learning opportunities across campus and beyond; attending smaller, interest-based programs; and engaging in ongoing community service planned by the individual student. With respect to community, 86% of our students said that they were satisfied with the on-campus experience. Those are the students who lived on campus. Of those who lived off campus, 77% said they were satisfied with it.

Mr. Chairman, this might be of particular importance to you, because one of the things that we are going to require you to do as emeritus is to come back and talk to our students in these living and learning environments about how you did. It is similar to when we did the “But For...” program. When we rolled out the “But For...” program, you talked with the students, and I noticed the delight and gleam in your eye when you talked to the students much more so than when you just talk to your fellow Board members.

Then we have self-awareness, career development through preparation and participation in internships, so you can expect a flood of applications to intern out on Morse Road at a certain facility. I won’t go into it, but you can expect some people looking to intern with you guys. There will also be intergroup dialogue for appreciation of differences, and I think that we saw the need for that given the diverse group that came in here today in support of the various students. We see that there has already been some intergroup dialogue that appreciates our differences here. And there will also be Student Life programming to support intellectual development, sustainability, and health care. Our students reported at an 82% rate that those who live on campus engaged in self-discovery compared to only 64% of those students who live off campus.

To refine OSU’s approach to the second-year experience, Dr. Adams-Gaston and a number of colleagues from across the University have visited several institutions throughout the country to assess their second-year programming and residential experience. I will note, parenthetically, that unlike OSU, most of those have been residential experiences. Ours is a living and learning experience where the programming is the centerpiece as opposed to the residence hall itself.

In addition, feedback has been received from several groups, including faculty, staff, and students. We have two committees that have looked at this programming aspect. The committee was introduced to two faculty members who are part of the faculty think tank, helping to shape the direction of the second-year experience. Dr. Susan Robb Jones, of the College of Education and Human Ecology, discussed the importance of learning environments and conditions that promote the success of all students. Dr. Robert Gustafson, of the College of Engineering, explained the small, team-based academic environment within the College of Engineering. This could not only be a model for our broader efforts across the University, but also be a model for the residential learning experience itself.

Dr. Adams-Gaston concluded by noting that the second-year experience that Ohio State is planning will make our University the nation’s only institution to transform the student experience on such scale and such a high level.

The committee then endorsed resolutions establishing the Second-Year Experience Programming; the naming of the Hope's Boutique Fitting Room; a number of routine personnel actions; amendments to the Rules of the University Faculty and to the Code of Student Conduct; the establishment of doctor of philosophy degree programs in African American and African Studies and in Italian Studies; the establishment of a master of arts and doctor of philosophy degree program in Portuguese; the abolishment of the Department of Aviation and delegation of authority for its academic programs to the Center for Aviation Studies; a change in the name of the Department of Greek and
Latin to the Department of Classics; a change in the name of the Department of Slavic and East European Languages and Literatures to the Department of Slavic and East European Languages and Cultures; a change in the names of the academic programs in the School of Earth Sciences leading to the bachelor, master, and doctor of philosophy degrees from Geological Sciences to Earth Sciences; and a change in the name of the master of arts and doctor of philosophy degree programs in the Department of Management and Human Resources from Labor and Human Resources to Human Resource Management.

The committee then went into executive session. That concludes my report, Mr. Chairman.

Mr. Wexner:

Thank you. Any other questions, comments? Jack…

Mr. Fisher:

Thank you, Mr. Chairman. I have been sitting here listening to all of these great committee reports, and the opportunity you have to communicate good information, and reflecting on what I have tried to do the last couple of weeks, which has been trying to share with all of you that we have a very wholesome, nutritious, cost-effective product for your eating pleasure called pink slime. I want to reflect back as you think about that how that challenge relates to our strategic plan, our discovery themes, and the impact that we have on world food production and food distribution when we go through a discussion like that, but I do recommend that you not call it pink slime. I also recommend that you ask us how we make hotdogs.

We did have a lot of good information in our committee, though. We welcomed Director David Daniels, the new director of the Ohio Department of Agriculture. We have a lot of collaborative activities going on between our regulatory agency and our food system, both plant and animal areas, and collaboration with veterinary medicine and within our college, so we welcomed Director Daniels to our meeting.

We had an update on student recruitment. The change for quarters to semesters is coming on very nicely, and we were very pleased that the faculty and the students and also industry put a lot of effort into upgrading and looking with some vision at our curriculum as we convert from quarters to semesters. There is a lot of exciting information in the Board books, and I hope you do take time to look at it.

We also heard about all of our study abroad programs. We have both a ten-day and a six-week opportunity for our students. It is very well received. We have scholarships involved to help our students with that international travel, and it is a big part of their student experience and opportunity here at Ohio State.

Last, we had a report on the international project through USAID, a $24 million research grant in Tanzania. Ohio State has been involved in the world relative to being a land-grant university to the world since 1955. So we built on that experience and the good things that have been done throughout the world. We are excited about this collaboration with five other land-grant institutions with the lead here at Ohio State, and we look for a lot of good results from that international activity.

Thank you, Mr. Chairman.

Mr. Wexner:

Thank you. Questions, comments? Consent agenda.

***
CONSENT AGENDA

President Gee:

Thank you very much, Mr. Wexner. I appreciate that. It is time for our consent agenda. Today we have a total of 23 resolutions on the consent agenda. We will be taking a separate vote on item number 5; therefore, we are seeking approval for the following:

DEGREES AND CERTIFICATES

Resolution No. 2012-75

Synopsis: Approval of Degrees and Certificates for spring quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 10, 2012, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix XLII for background information, page 745.)

***

NAMING OF THE HOPE’S BOUTIQUE FITTING ROOM

Resolution No. 2012-76

In Hope’s Boutique, the Stefanie Spielman Comprehensive Breast Center:

Susan T. London Fitting Room

Synopsis: The naming of a fitting room in Hope’s Boutique on the first floor of the Stefanie Spielman Comprehensive Breast Center, located at 1145 Olentangy River Road, which is a specialty store catering to cancer patients and survivors.

WHEREAS the Hope’s Boutique provides a one-stop shop for women in cancer treatment to find the specialized clothing and body care products they need; and

WHEREAS Kathy and Jay Worley have provided contributions to The Wexner Medical Center at The Ohio State University for The Stefanie Spielman Comprehensive Breast Center; and

WHEREAS Kathy and Jay Worley have provided significant contributions to The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at Ohio State’s Wexner Medical Center, including contributions to establish two endowed funds for cancer research: The Jay S. Worley and Kathy T. Worley Endowment Fund for Breast Cancer Research and The Jay S. Worley and Kathy T. Worley Endowment Fund for Lung Cancer; and

WHEREAS Kathy Worley wishes to honor the memory of her sister, Susan T. London, who lost her battle with breast cancer:

NOW THEREFORE
April 6, 2012 meeting, Board of Trustees

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned fitting room in The Stefanie Spielman Comprehensive Breast Center be named the Susan T. London Fitting Room.

***

PERSONNEL ACTIONS

Resolution No. 2012-77

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 10, 2012, meeting of the Board, including the following Appointments, Appointments of Chairpersons, Professional Improvement Leaves, Professional Improvement Leave, Change in Dates, and Emeritus Titles be approved.

Appointments

Name: VALERIE B. LEE
Title: Vice President for the Office of Outreach and Engagement
Office: Academic Affairs
Effective: March 8, 2012

Name: RICHARD M. GOLDBERG
Title: Professor (The Klotz Chair in Cancer Research #3)
College: Medicine
Term: February 1, 2012, through June 30, 2016

Name: CHARLES J. LOCKWOOD
Title: Professor (The Leslie H. and Abigail S. Wexner Dean’s Chair in Medicine)
College: Medicine
Term: April 6, 2012, through August 31, 2016

Name: JULIA R. WHITE
Title: Professor (The Klotz Chair in Cancer Research #2)
College: Medicine
Term: February 6, 2012, through June 30, 2016

Appointments of Chairpersons

DANIEL A. HERMS, Interim Chair, Department of Entomology, effective January 1, 2012, through December 31, 2012.

WALEED A. MUHANNA, Chair, Department of Accounting and Management Information Systems, effective February 1, 2012, through August 31, 2015.

MICHAEL J. OGLESBEE, Chair, Department of Veterinary Biosciences, effective December 1, 2011, through June 30, 2015.

Professional Improvement Leaves

FREDERICK ALDAMA, Professor, Department of English, effective Autumn Semester 2012.

JULIA F. ANDREWS, Professor, Department of History of Art, effective Spring Semester 2013.

PAUL E. BELLAIR, Professor, Department of Sociology, effective Spring Semester 2013.
April 6, 2012 meeting, Board of Trustees

CLAUDIA BUCHMANN, Professor, Department of Sociology, effective Autumn Semester 2012 and Spring Semester 2013.

FRANCIS J. DONOGHUE, Professor, Department of English, effective Spring Semester 2013.

PRABIR K. DUTTA, Professor, Department of Chemistry, effective Autumn Semester 2012.

GERALD S. FRANKEL, Professor, Department of Materials Science and Engineering, effective Autumn Semester 2012 and Spring Semester 2013.

JANE HATHAWAY, Professor, Department of History, effective Autumn Semester 2012.

EUGENE W. HOLLAND, Professor, Department of Comparative Studies, effective Autumn Semester 2012 and Spring Semester 2013.

DAVID JACOBS, Professor, Department of Sociology, effective Autumn Semester 2012.

SARAH I. JOHNSTON, Professor, Department of Greek and Latin, effective Autumn Semester 2012.

CHRISTOPHER A. JONES, Professor, Department of English, effective Autumn Semester 2012 and Spring Semester 2013.

BRIAN D. JOSEPH, Distinguished University Professor, Department of Linguistics, effective Autumn Semester 2012.

LISA J. KISER, Professor, Department of English, effective Autumn Semester 2012.

K. ALAN LOPER, Professor, Department of Mathematics (Newark), effective Spring Semester 2013.

J. HUSTON MCCULLOCH, Professor, Department of Economics, effective Autumn Semester 2012 and Spring Semester 2013.

SAM A. MEIER, Professor, Department of Near Eastern Languages and Cultures, effective Autumn Semester 2012 and Spring Semester 2013.

BERYL A. MILLER, Professor, Department of Dance, effective Autumn Semester 2012 and Spring Semester 2013.

TERRELL A. MORGAN, Professor, Department of Spanish and Portuguese, effective Autumn Semester 2012.

MARK A. PITT, Professor, Department of Psychology, effective Spring Semester 2013.

DANIEL T. REFF, Professor, Department of Comparative Studies, effective Autumn Semester 2012.

MICHAEL D. SLATER, Professor, School of Communication, effective Spring Semester 2013.

KRISHNASWAMY SRINIVASAN, Professor, Department of Mechanical and Aerospace Engineering, effective Spring Semester 2013.

JULIA A. WATSON, Professor, Department of Comparative Studies, effective Autumn Semester 2012.
April 6, 2012 meeting, Board of Trustees

BRUCE A. WEINBERG, Professor, Department of Economics, effective Autumn Semester 2012 and Spring Semester 2013.

ALEXANDER E. WENDT, Professor, Department of Political Science, effective Autumn Semester 2012.

DAVID D. WOODS, Professor, Department of Integrated Systems Engineering, effective Autumn Semester 2012 and Spring Semester 2013.

JOHN WRIGHT, Professor, Department of Political Science, effective Spring Semester 2013.

SHANG-TIAN YANG, Professor, Lowrie Department of Chemical and Biomolecular Engineering, effective Autumn Semester 2012.

YUAN F. ZHENG, Professor, Department of Electrical and Computer Engineering, effective Autumn Semester 2012.

GREGOR W. ANDERSON, Associate Professor, Department of History, effective Autumn Semester 2012.

FRANCO BARCHIESI, Associate Professor, Department of African American and African Studies, effective Spring Semester 2013.

MIKHAIL BELKIN, Associate Professor, Department of Computer Science and Engineering, effective Autumn Semester 2012.

ALEXANDER BURRY, Associate Professor, Department of Slavic and East European Languages and Literatures, effective Spring Semester 2013.

ROBERT A. COOK, Associate Professor, Department of Anthropology (Newark), effective Autumn Semester 2012 and Spring Semester 2013.

ALCIRA DUENAS, Associate Professor, Department of History (Newark), effective Autumn Semester 2012 and Spring Semester 2013.

MICHAEL C. EDWARDS, Associate Professor, Department of Psychology, effective Autumn Semester 2012 and Spring Semester 2013.

ALAN B. FARMER, Associate Professor, Department of English, effective Autumn Semester 2012 and Spring Semester 2013.

MEOW H. GOH, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Semester 2012 and Spring Semester 2013.

KEITH J. GOOCCH, Associate Professor, Department of Biomedical Engineering, effective Autumn Semester 2012.

KAREN GOODELL, Associate Professor, Department of Evolution, Ecology, and Organismal Biology (Newark), effective Autumn Semester 2012 and Spring Semester 2013.

FRITZ GRAF, Distinguished University Professor, Department of Greek and Latin, effective Autumn Semester 2012.

CHRISTOPHER M. GRIMSLEY, Associate Professor, Department of History, effective Spring Semester 2013.
April 6, 2012 meeting, Board of Trustees

ANDREA G. GROTTOLI, Associate Professor, School of Earth Sciences, effective Autumn Semester 2012 and Spring Semester 2013.

JOHN P. HUNTER, Associate Professor, Department of Evolution, Ecology, and Organismal Biology, effective Spring Semester 2013.

PRANAV JANI, Associate Professor, Department of English, effective Spring Semester 2013.

CHRISTINE KEATING, Associate Professor, Department of Women’s Gender and Sexuality Studies, effective Autumn Semester 2012 and Spring Semester 2013.

SILVIA KNOBLOCH-WESTERWICK, Associate Professor, School of Communications, effective Spring Semester 2013.

KWAKU L. KORANG, Associate Professor, Department of African American and African Studies, effective Autumn Semester 2012.

LESLIE C. LOCKETT, Associate Professor, Department of English, effective Spring Semester 2013.

CAROLINA LOPEZ-RUIZ, Associate Professor, Department of Greek and Latin, effective Spring Semester 2013.

POK-SANG LAM, Associate Professor, Department of Economics, effective Autumn Semester 2012.

CHAN E. PARK-MILLER, Associate Professor, Department of East Asian Languages and Literature, effective Autumn Semester 2012 and Spring Semester 2013.

MARTIN J. PONCE, Associate Professor, Department of English, effective Autumn Semester 2012 and Spring Semester 2013.

MAUREEN L. RYAN, Associate Professor, Department of Theatre, effective Autumn Semester 2012 and Spring Semester 2013.

JAMES H. SANDERS, Associate Professor, Department of Art Education, effective Autumn Semester 2012 and Spring Semester 2013.

MYTHELI SREENIVAN, Associate Professor, Department of History, effective Spring Semester 2013.

KIA-HUI TAN, Associate Professor, School of Music, effective Autumn Semester 2012 and Spring Semester 2013.

RICHARD E. TORRANCE, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Semester 2012 and Spring Semester 2013.

YUSU WANG, Associate Professor, Department of Computer Science and Engineering, effective Autumn Semester 2012.

LAURA M. WAGNER, Associate Professor, Department of Psychology, effective Spring Semester 2013.

ELIZABETH WEISER, Associate Professor, Department of English (Newark), effective Autumn Semester 2012 and Spring Semester 2013.

MICHAEL W. WHITE, Associate Professor, Department of Linguistics, effective Autumn Semester 2012.
April 6, 2012 meeting, Board of Trustees

NINGCHUAN XIAO, Associate Professor, Department of Geography, effective Spring Semester 2013

RONALD X. XU, Associate Professor, Department of Biomedical Engineering, effective Autumn Semester 2012 and Spring Semester 2013.

HUANXING YANG, Associate Professor, Department of Economics, effective Spring Semester 2013.

MICHAEL A. NEBLO, Assistant Professor, Department of Political Science, effective Autumn Semester 2012 and Spring Semester 2013.

Professional Improvement Leave, Change

LIANA C. SAYER, Associate Professor, Department of Sociology, effective Autumn Quarter 2011, and Winter Quarter 2012.

Emeritus Titles

PAUL A. BECK, Department of Political Science, with the title Professor Emeritus, effective July 1, 2012.

WILLIAM R. CHILDS, Department of History, with the title Professor Emeritus, effective July 1, 2012.

ROBERT S. COLEMAN, Department of Chemistry, with the title Professor Emeritus, effective October 1, 2012.

RICHARD DAVIS, Department of Near Eastern Languages and Cultures, with the title Professor Emeritus, effective July 1, 2012.

IRENE I. DELIC, Department of Slavic and East European Languages and Cultures, with the title Professor Emeritus, effective October 1, 2012.

SUSAN W. FISHER, Department of Entomology, with the title Professor Emeritus, effective April 1, 2012.

JEAN-MICHEL GULDMANN, Knowlton School of Architecture, with the title Professor Emeritus, effective July 1, 2012.

MASANORI HASHIMOTO, Department of Economics, with the title Professor Emeritus, effective July 1, 2012.

DONALD R. HAURIN, Department of Economics, with the title Professor Emeritus, effective July 1, 2012.

KENNETH C. JEZEK, School of Earth Sciences, with the title Professor Emeritus, effective July 1, 2012.

STANLEY K. LAUGHLIN, Moritz College of Law, with the title Professor Emeritus, effective April 1, 2012.

TERESA M. MENSING, School of Earth Sciences (Marion), with the title Professor Emeritus, effective July 1, 2012.

PAUL NEVAI, Department of Mathematics, with the title Professor Emeritus, effective April 1, 2012.
April 6, 2012 meeting, Board of Trustees

ROBERT D. NEWCOMB, College of Optometry, with the title Professor Emeritus, Clinical, effective June 1, 2012.

STEPHEN F. ROSENSTIEL, College of Dentistry, with the title Professor Emeritus, effective April 1, 2012.

ROBERT L. RUBERG, Department of Plastic Surgery, with the title Professor Emeritus, effective July 1, 2012.

JOHN W. SIMPSON, Knowlton School of Architecture, with the title Professor Emeritus, effective July 1, 2012.

ELLIOIT E. SLOTNICK, Department of Political Science, with the title Professor Emeritus, effective April 1, 2012.

BRUCE W. TUCKMAN, School of Educational Policy and Leadership, with the title Professor Emeritus, effective July 1, 2012.

JOHN W. DIMMICK, School of Communication, with the title Associate Professor Emeritus, effective April 1, 2012.

CLARK A. MOUNT-CAMPBELL, Department of Integrated Systems Engineering, with the title Associate Professor Emeritus, effective April 1, 2012.

GENE E. MUMY, Department of Economics, with the title Associate Professor Emeritus, effective July 1, 2012.

DONA S. STRALEY, University Libraries, with the title Associate Professor Emeritus, effective April 1, 2012.

LESLIE W. TANNENBAUM, Department of English, with the title Associate Professor Emeritus, effective July 1, 2012.

SHARON A. WEST, School of Communications, with the title Associate Professor Emeritus, effective July 1, 2012.

***

RESOLUTIONS IN MEMORIAM

Resolution No. 2012-78

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees approves the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Beatrice J. Cleveland

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 14, 2012, of Beatrice J. Cleveland, Professor Emeritus in the Ohio State University Extension.

Professor Cleveland was born September 19, 1920, in Delaware, Ohio. She received a Bachelor of Science in Home Economics degree in 1942 from The Ohio State University, and earned a Master of Science degree in extension administration in 1957 from the University of Wisconsin.
Bea began her Extension career in Ohio in 1945 as the home demonstration agent in Madison County. In 1952, she became the assistant state leader for 4-H on the Columbus campus. She became the associate state leader for 4-H in 1971 and held that position until her retirement.

Bea Cleveland was a mentor and friend who made a tremendous positive difference in the lives of those with whom she worked in 4-H and at The Ohio State University, and in her numerous volunteer roles.

Bea served as an OSU Extension faculty member at Ohio State for 32 years. When she retired in 1977, her duties included overseeing the International 4-H Youth Exchange program and 4-H faculty leadership for the Ohio 4-H Foundation, directing State 4-H Leadership Camp, supervising the Ohio State Fair 4-H non-livestock program, and a host of other responsibilities. She also served on the National 4-H Foundation Board of Trustees and chaired the Extension Committee on Organization and Policy’s National Teenage Nutrition Committee.

After her retirement, Professor Cleveland raised millions of dollars for Ohio 4-H and for colleges of The Ohio State University. For example, she founded the A. B. Graham Club for the Ohio Foundation and the College of Human Ecology’s Diamond Club, and personally contacted and solicited many of the charter members.

Among her many honors are membership in the National 4-H Hall of Fame, the Ohio 4-H Hall of Fame, the Ohio Women’s Hall of Fame, the Ohio State Fair Hall of Fame, the Ohio Agricultural Hall of Fame, and the OSU College of Education and Human Ecology Hall of Fame. She was the 2000 Ohio 4-H “Celebration of Youth” honoree, and the winner of the OSU Everett D. Reese Medal of Philanthropy (Ohio State’s highest recognition awarded to fund-raising volunteers). She was honored in June 2010 by the naming of the “Bea Cleveland Board Room” within The Nationwide and Ohio Farm Bureau 4-H Center on the Columbus campus.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Beatrice J. Cleveland its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

Rocco D. D’Angelo

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 28, 2011, of Rocco D. D’Angelo, Professor Emeritus in the College of Social Work.

Professor D’Angelo earned numerous degrees, including his bachelor’s degree from City College of New York and his master’s degree from New York University. He furthered his education at Ohio University, receiving his master’s degree in economics and his doctoral degree in education administration.

Prior to his time at The Ohio State University College of Social Work, Professor D’Angelo was the director of Admissions and Scholarships at New York University. He worked with the NAACP in the City of Orange, New Jersey, to fight school segregation and ultimately served on an advisory council to oversee the city’s school restructuring process. He served as president of the North New Jersey Chapter of the National Association of Social Workers in 1965 and 1966, and was appointed as a career consultant to the U.S. Peace Corps.

Upon joining OSU’s College of Social Work faculty in 1966, Professor D’Angelo served as Graduate Admissions director and taught in the research and social policy curriculum areas. He engaged in a line of research with high-risk adolescents and their families. His
April 6, 2012 meeting, Board of Trustees

research was funded by the Junior League, the Columbus Foundation, and the College of Administrative Science Research Division. He also maintained a clinical practice at the Interfaith Counseling Center.

Dr. D'Angelo was published numerous times in refereed journals and was frequently sought out by local radio and television for his expertise. He served on boards of social agencies and was appointed consultant to Mayor Tom Moody to mediate problems in the Columbus Ombudsman’s Office.

Professor D'Angelo served on several committees at Ohio State and was selected as the Social Work liaison for the University’s General Education Curriculum (GEC) Council. His work in redesigning social work and GEC curriculum contributed to a dramatic enrollment expansion in Social Work.

Professor D'Angelo retired in 1992, but continued to teach primarily GEC courses in the College until very recently.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Rocco D. D’Angelo its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

John B. Gabel

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 7, 2012, of John B. Gabel, Professor Emeritus in the Department of English.

Professor Gabel was a 1948 graduate of Parkesburg High School (Pennsylvania), and The Ohio State University where he earned a Bachelor of Arts degree in 1954. He later earned a Master of Arts degree from Wheaton College in 1956 and a Ph.D. degree from Ohio State in 1961. After serving as a member of the University of Illinois Department of English from 1961-1965, Professor Gabel returned to the English department of his alma mater.

Professor Gabel was a notable scholar of both the Bible and Renaissance literature. He co-authored the influential *The Bible as Literature: An Introduction*, which has gone through a number of editions and remains in print. He worked on early Tudor Humanist writers and translators, and contributed a notable edition of George Chapman’s two-part play, *The Conspiracy and Tragedy of Charles, Duke of Byron*.

Professor Gabel was known for his good humor and inclusive nature, serving as an exemplary mentor and friend to many fellow faculty and students throughout his distinguished career. His scholarship, his editing (both formal and informal), and his teaching were characterized by his powerful intellect, his unceasing intellectual curiosity, his generous spirit, and the most careful application of those attributes. He was a model University citizen, always applying himself where needed; it was in that spirit that he became chairman of English, guiding the Department through the tumultuous 1970’s with a capacious sense of fairness and an always steady hand. He was later acting dean of the Graduate School, and served on search committees for the dean of the College of Humanities and for the president of the University. All of these skills and talents came together when he was asked to write the official history of President Edward H. Jennings's tenure in office.

Professor Gabel was for many years an active member of various OSU organizations and associations, including Friends of the Libraries and WOSU, The Faculty Club, the President’s Club, the Alumni Association, OSURA, and Phi Beta Kappa. He was a long-time member of Whigs and Tories and the Sunday Evening Discussion Group. He also
April 6, 2012 meeting, Board of Trustees

belonged to the Funeral Consumers Alliance of Central Ohio and the National Parkinson Foundation of Central and Southeast Ohio.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus John B. Gabel its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Weldon A. Kefauver

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 20, 2011, of Weldon A. Kefauver, Director of The Ohio State University Press Emeritus.

Weldon Kefauver graduated from Bexley High School in 1946 and earned a Bachelor of Arts degree in English from The Ohio State University in 1949. Mr. Kefauver served his country in the U.S. Army during W.W. II.

As the director of The Ohio State University Press, Mr. Kefauver was most proud of publishing "...And Ladies of the Club" by Helen Hooven Santmeyer. This book reached the number one position on The New York Times best seller list in 1984. He retired from Ohio State in October of 1984.

He was president of the Association of American University Presses from 1977-1978. Mr. Kefauver was the recipient of The Ohio State University Centennial Service award among others.

On behalf of the University community, the Board of Trustees expresses to the family of Director Emeritus Weldon A. Kefauver its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Tony J. Peterle

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 15, 2011, of Tony J. Peterle, Professor Emeritus in the Department of Evolution, Ecology, and Organismal Biology.

Professor Peterle was born on July 7, 1925, and raised in Cleveland, Ohio. He enlisted in the U.S. Army during the midst of World War II. He saw action as a member of the 10th Mountain Division in Italy and in Germany, was wounded, captured, and awarded the Purple Heart following his liberation by General Patton’s Army in 1945.

Professor Peterle earned his B.S. degree from Utah State University in 1949 and conducted his dissertation research on sharp-tailed grouse ecology at the University of Michigan, graduating in 1954. He served as a research biologist with the Michigan Department of Conservation and conducted research on red grouse in Scotland under a Fulbright Scholarship with Professor Wynne-Edwards at Aberdeen University before coming to Ohio State in 1959 as leader of the Ohio Cooperative Wildlife Research Unit. He was promoted to professor in 1967 and subsequently appointed as the first chairman of the Department of Zoology in the newly reorganized College of Biological Sciences in 1969, a position he held until 1981.

From the outset, Professor Peterle’s career at Ohio State was marked by vision and innovation. He was among the first to apply radioactive tracer technology to understanding
the movement and bioaccumulation of pesticides such as DDT and DDE in ecosystems. His publications and testimony before Congressional hearings contributed to the body of evidence that, in 1969, prompted the passage of legislation that banned the use of DDT and related pesticides in the United States. He was a true pioneer and leader in environmental toxicology as evidenced in his authorship of a textbook and 30 peer-reviewed publications in that field alone. Dr. Peterle was a teacher and mentor who led by example and had high expectations for himself and his students, including some 50 M.S. and Ph.D. graduates. During his 12-year chairmanship, the Department grew to national prominence, particularly in wildlife conservation, behavioral ecology, and aquatic biology.

Professor Peterle made significant contributions to the growth and prominence of The Wildlife Society (TWS) as a leading scientific organization in wildlife conservation. He served twice as editor of the Journal of Wildlife Management and was elected president of TWS. He was personally responsible for the emergence of TWS in international affairs through his advocacy and leadership of the International Congress of Game Biologists. He brought recognition to Ohio State through high-profile service to the National Academy of Sciences, National Fish and Wildlife Resources Research Council, the U.S. Environmental Protection Agency, and the National Association of State Universities and Land-grant Colleges. In recognition of his scientific achievements and leadership Tony was presented with the Leopold Award by TWS in 1990. This was perhaps his most cherished honor, because in many ways his career, philosophy, and many talents emulated those of Aldo Leopold, the author of A Sand County Almanac.

Professor Peterle was a role model to his many students and colleagues who loved and admired this humble man of great achievement and enormous generosity.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Tony J. Peterle its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

William R. Riley

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 28, 2011, of William R. Riley, Associate Professor Emeritus in the Department of Physics.

Professor Riley was associated with the OSU Department of Physics beginning as a student in 1949. He received a B.A. degree from Hiram College in 1944 after which time he served as an ensign and lieutenant JG in the U.S. Navy from 1944-1946. He earned three degrees from Ohio State: B.S. (1951), M.A. (1952), and Ph.D. (1959). While in graduate school, he was a graduate assistant and lecture demonstration assistant. He joined the Department of Physics faculty after earning his Ph.D.

He was devoted to the teaching of physics and the training of physics teachers, dedicating his time and energy to the advancement of techniques, content, and the value of the education process. He received 22 peer-reviewed grants from the National Science Foundation, 20 of which were for In-Service Institutes to train secondary school science teachers each Saturday morning during the academic year. The other two were for special summer programs, one for secondary school science teachers, and one for college and university physics teachers in the U.S. and beyond.

In 1962, Professor Riley provided material assistance to Professor Franklin Miller, Jr. of Kenyon College in the making of several of his 19 brief silent film loops for classroom demonstrations. Miller’s NSF-supported grant was accomplished primarily using OSU’s Physics Department facilities and equipment. These film loops give classroom demonstration of phenomena too difficult, dangerous, or time consuming to be done live.
April 6, 2012 meeting, Board of Trustees

This work with Professor Miller led to Dr. Riley’s being appointed to the American Association of Physics Teachers’ (AAPT) Committee on Visual Aids. He directed AAPT’s International Film Loop Competitions III and IV and coordinated the Regional International Bi-Centennial Science Film Show held at OSU in 1976. From July 1969 to January 1976, he served as Film Review Editor for the American Journal of Physics.

In 1964 Bill was among four OSU physicists chosen to be consultants for Summer Institutes of Physics for college professors in India. Over the next several years Bill assumed a variety of roles in India being funded by the NSF, the OSU College of Education, and the Government of India, all aimed at improving the quality of science teaching in India.

For the last 15 years of his teaching career, he served as the course supervisor for the pre-professional undergraduate physics course sequence averaging 1,500 students per quarter across multiple lecture times and many recitation and lab sections. In addition to his administrative, lecture, and recitation responsibilities associated with this role, he actively served in the tutor room. He retired in 1987 and was granted emeritus status. In the spring of 2011, he was honored with the establishment of the William R. Riley Excellence in Teaching Physics Award in the Department of Physics.

Bill was an active member of the University Community Association and Indianola Forest Association and served on the Campus Partners Safety Committee. He also devoted his time and energy to the University Baptist Church, having sung in the choir and served multiple terms on the various boards and committees of this congregation that is active in the University community.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus William R. Riley its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Susann Erwin Rimer

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 28, 2012, of Susann Erwin Rimer, Instructor Emeritus in the Ohio State University Extension.

Ms. Rimer was born March 15, 1946 in Dover, Ohio. She received her Bachelor of Science degree in home economics in 1969 from Ohio University, and a Master of Science degree in 1980 in education from Wright State University.

Susann began her Extension career in Ohio in 1982 as the county extension agent-4-H in Trumbull County. In 1986 she became the home economics agent in Coshocton County and also served Holmes County as the extension agent for home economics. She later added Stark County to her responsibilities. Her last Extension position held was as the extension agent-4-H in Columbiana County, and she retired from this position in August 1998.

Ms. Rimer’s work with 4-H youth educational programs, nutrition projects, and family resource management projects and workshops proved that she was a truly dedicated teacher for Extension clientele. She was a member of and served on many committees of several professional organizations. She enjoyed playing bridge, gardening, and bird watching.

On behalf of the University community, the Board of Trustees expresses to the family of Instructor Emeritus Susann Erwin Rimer its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of
April 6, 2012 meeting, Board of Trustees

Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

Carolyn A. Romshe

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 18, 2012, of Carolyn A. Romshe, Associate Professor Emeritus in the Department of Pediatrics.

Dr. Romshe held a Bachelor of Science degree in medical technology from The Ohio State University, and received her M.D. degree from OSU as well. She completed her pediatric internship at St. Louis Children’s Hospital and Washington University. She served her pediatric residency and pediatric endocrinology fellowships at Columbus Children’s Hospital.

Dr. Romshe joined the faculty at Ohio State in the Department of Pediatrics in 1971. She was a strong clinician in the field of pediatric endocrinology. Her academic interests focused primarily on metabolic aspects of Reye Syndrome, growth hormone disturbances, and adrenal insufficiency. She was enthusiastic about clinical care and teaching, and enjoyed her opportunities to work with Ohio State University medical students and pediatric residents at Columbus Children’s Hospital.

Professor Romshe was an avid supporter and fan of The Ohio State University. She was a life member of its Alumni Association. Upon her retirement from the College of Medicine in 1995, she became an Associate Professor Emeritus in the Department of Pediatrics.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus Carolyn A. Romshe its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

Jeanette M. Zupancic

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 17, 2011, of Jeanette McCleery Zupancic, Assistant Professor Emeritus in the College of Social Work.

After earning her Master of Social Work degree, Professor Zupancic worked in child welfare as Social Work director in the Juvenile Diagnostic Center, and then as director of casework for Franklin County Children’s Services. She was instrumental in changing decades-old practices of warehousing children in Fairfield County, Ohio, and was a pioneer in the emphasis of child development and protection within the family context. Professor Zupancic’s efforts challenged political, legal, and medical prejudices that had allowed the continuation of outmoded practices and thinking about child welfare.

Professor Zupancic championed the need to employ highly skilled social workers. She also sought out funding for the development of day care centers for low income families. Her activism included the upgrading of staff credentials, attention to early childhood education curricula, and continuing education for all staff. In addition, Professor Zupancic promoted special education services for the disadvantaged and “reaching out” techniques to parents. She trained and supervised social workers in assessing needs and in maintaining family integration in place of irrevocable foster care and institutional placements.

Professor Zupancic joined the faculty of The Ohio State University College of Social Work in 1960 as an assistant professor. She went on to serve as director of the Undergraduate Social Work program and was awarded tenure by 1964. In her 25-year career at the
April 6, 2012 meeting, Board of Trustees

University, she taught both undergraduate and graduate level courses and was lauded for redesigning courses in social work practice.

Professor Zupancic’s professional affiliations included membership in the National Association of Social Workers, service on the Board of the Travelers Aid Society, the advisory board of the Rosemont Center, and the First Community Church Counseling Center. Colleagues said that in all her efforts, Professor Zupancic demonstrated, “…unusual leadership qualities…conscientiousness in completing challenging tasks…and great compassion for people and personal dignity.”

On behalf of the University community, The Board of Trustees expresses to the family of Assistant Professor Emeritus Jeanette M. Zupancic its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 2012-79

Synopsis: Proposal to amend the Rules of the University Faculty.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the Rules of the University Faculty are hereby approved as recommended by the University Senate.

(See Appendix XXXII for background information, page 645.)

***

AMENDMENTS TO THE CODE OF STUDENT CONDUCT
Resolution No. 2012-80

Synopsis: Approval of the attached amendments to the Code of Student Conduct is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Code of Student Conduct as approved by the University Senate; and

WHEREAS the Council on Student Affairs has reviewed and approved said revisions to the Code of Student Conduct; and

WHEREAS the proposed changes in the Code of Student Conduct were approved by the University Senate at its March 15, 2012, meeting:

NOW THEREFORE
April 6, 2012 meeting, Board of Trustees

BE IT RESOLVED, That the attached amendments to the Code of Student Conduct be adopted as recommended by the University Senate.

(See Appendix XXXIII for background information, page 647.)

***

ESTABLISHMENT OF A DOCTOR OF PHILOSOPHY (PH.D.) DEGREE PROGRAM IN AFRICAN AMERICAN AND AFRICAN STUDIES

Resolution No. 2012-81

WHEREAS the absence of a Ph.D. degree program has affected the ability of the Department of African American and African Studies to provide its undergraduate majors and Master of Arts (M.A.) degree students a path to a terminal degree, and has limited its competitive position in student recruitment; and

WHEREAS the program will enhance the University’s commitment to interdisciplinary activity, illuminate the global realities of the African world through a complex and multi-layered perspective, and will incorporate rigorous theoretical and conceptual engagement with the production of original research; and

WHEREAS the program will have three areas of concentration: African American Studies, African Studies, and Comparative African Diaspora Studies, and students will select a focus area, Cultural Studies or Social Studies; and

WHEREAS the proposal has the support of the Department faculty, and of the leadership of the College of Arts and Sciences; and

WHEREAS the proposal was reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Doctor of Philosophy (Ph.D.) degree program in African American and African Studies is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF A DOCTOR OF PHILOSOPHY (PH.D.) DEGREE PROGRAM IN ITALIAN STUDIES

Resolution No. 2012-82

Synopsis: Proposal to establish a Doctor of Philosophy (Ph.D.) degree program in Italian Studies in the Department of French and Italian in the College of Arts and Sciences.

WHEREAS the Department of French and Italian can provide a rigorous, innovative doctoral program in Italian Studies, competitive with any in North America, a program that integrates the most recent developments in the fields of interdisciplinary area studies including linguistics, language pedagogy, history, film studies, and literary and cultural studies, with other academic programs at the University; and
April 6, 2012 meeting, Board of Trustees

WHEREAS the program will enhance the Department’s ability to attract and retain the best research and teaching faculty in Italian Studies, and retain students to do advanced graduate work but who now leave because there is no such program in Ohio; and

WHEREAS the University has distinctive resources to help support the program, including the excellent, growing library collections in Italian, and the World Media and Culture Center; and the Department can build on established associations with units/programs such as: the Center for Medieval and Renaissance Studies, the Center for the Study of Religion, and the Film Studies program; and

WHEREAS the program will be anchored by a set of core courses, and have substantial disciplinary/interdisciplinary options included; and

WHEREAS the proposal has the support of the Department faculty, and of the leadership of the College of Arts and Sciences; and

WHEREAS the proposal was reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Doctor of Philosophy (Ph.D.) degree program in Italian Studies is hereby approved, effective upon the approval by the Ohio Board of Regents.

ESTABLISHMENT OF A MASTER OF ARTS (M.A.) AND DOCTOR OF PHILOSOPHY (PH.D.) DEGREE PROGRAMS IN PORTUGUESE

Resolution No. 2012-83

Synopsis: Proposal to establish a Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degree programs in Portuguese in the Department of Spanish and Portuguese in the College of Arts and Sciences.

WHEREAS given the growing prominence of Portuguese as a global language, the seventh most common language spoken in the world and the second most common Romance language, and Brazil’s rising international standing, there is a need for expertise gained through graduate education in Portuguese language, and the language and literatures of the Portuguese-speaking world; and

WHEREAS the Department of Spanish and Portuguese is ready to build on the research and teaching strengths of its current Portuguese faculty, and now complement its undergraduate offerings in Portuguese with new graduate programs in Portuguese, Master of Arts and Doctor of Philosophy; and

WHEREAS the program will help enhance the University’s growing internationalization efforts, and its interdisciplinary nature will enhance relationships with other University centers and programs such as Latin American Studies, Folklore, Jewish Studies, and African Studies, as well as programs in related departments and schools; and

WHEREAS the program will help attract and retain the best faculty in Portuguese-language literature and culture, and retain students interested in a graduate degree in Portuguese, but who leave Ohio because there is no such program in the State; and

WHEREAS it will be a direct-admit Ph.D. program that includes a set of 4 core courses and will have a comparative, transnational approach, and be distinctive by training students to appreciate Portuguese as a world language, and by emphasizing the unique strengths of
April 6, 2012 meeting, Board of Trustees

the Department in Brazilian colonial studies, Brazilian film, and comparative Luso-Hispanic studies; and

WHEREAS the proposal has the support of the Department faculty, and of the leadership of the College of Arts and Sciences; and

WHEREAS the proposal was reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) degree programs in Portuguese is hereby approved, effective upon the approval by the Ohio Board of Regents.

ABOLITION OF THE DEPARTMENT OF AVIATION AND DELEGATION OF AUTHORITY FOR ITS ACADEMIC PROGRAMS TO THE CENTER FOR AVIATION STUDIES

Resolution No. 2012-84

Synopsis: Proposal to abolish the Department of Aviation and delegate the authority for its academic programs to the Center for Aviation Studies in the College of Engineering.

WHEREAS the Department of Aviation was established in 2005, after having “section” status in the Department of Aerospace Engineering, Applied Mechanics, and Aviation, and has carried out its education and service missions: providing academic instruction and offering undergraduate majors in the technical, business, and policy topics associated with three colleges, and operating and managing the University’s flight education programs and The Ohio State University Airport; and

WHEREAS there was a reduction in full-time faculty in the Department and it became clear that increasing the size of the faculty to justify independent department status would be difficult; and after exploring several options, a College Task Force recommended that Aviation cease to be an independent department; and

WHEREAS the College Committee on Academic Affairs approved the proposal to assign the responsibility of the Department’s undergraduate programs to a new college center; and in April 2011 a Memorandum of Understanding was approved for the transfer of the remaining faculty member to the Department of Civil and Environmental Engineering and Geodetic Sciences; and

WHEREAS in June 2011, the College of Engineering, adhering to Faculty Rule 3335-3-36 (B) 2, established a college center, the Center for Aviation Studies, that would administer the academic programs; and

WHEREAS in accordance with Faculty Rule 3335-3-37, the Council on Academic Affairs appointed an ad hoc committee to review the formal proposal to abolish the Department and assign responsibility of the academic programs to the new Center, and following a thorough review to ensure adherence to all necessary components associated with such an action, unanimously endorsed the proposal; and

WHEREAS the proposal has the support of the College of Engineering; and

WHEREAS the proposal was reviewed by the Faculty Council, the Council on Academic Affairs, and the University Senate Steering Committee, and approved by the University Senate at its meeting on February 16, 2012:
NOW THEREFORE

BE IT RESOLVED, That the proposal to abolish the Department of Aviation and the delegation of authority of its academic programs to the Center for Aviation Studies in the College of Engineering is hereby approved, effective immediately.

***

CHANGE IN DEPARTMENT NAME FROM THE DEPARTMENT OF GREEK AND LATIN TO THE DEPARTMENT OF CLASSICS
Resolution No. 2012-85

Synopsis: Proposal to change the name of the Department of Greek and Latin to the Department of Classics.

WHEREAS the Department has had the name Greek and Latin since 1996, when the former Department of Classics merged with the Program in Modern Greek, and when, nationally, other departments that experienced similar mergers, also changed their names; and

WHEREAS the term Greek and Latin does not adequately describe the academic unit as a scholarly community, it is not primarily a language department, but one where the study of ancient languages provides access to the broader area of Greco-Roman antiquity; and

WHEREAS the current Department name is confusing to prospective students who assume the Department may in some way be lacking in the area of classical studies or classics; and

WHEREAS the names of the current undergraduate and graduate degree programs will not change; and

WHEREAS the proposal has the unanimous support of the Department faculty, and of the leadership of the College of Arts and Sciences; and

WHEREAS the proposal was reviewed by the Council on Academic Affairs, and approved by the University Senate at its meeting on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to change the name of the Department of Greek and Latin to the Department of Classics is hereby approved, effective immediately.

***

CHANGE IN NAME OF THE DEPARTMENT OF SLAVIC AND EAST EUROPEAN LANGUAGES AND LITERATURES TO THE DEPARTMENT OF SLAVIC AND EAST EUROPEAN LANGUAGES AND CULTURES
Resolution No. 2012-86

Synopsis: Proposal to change the name of the Department of Slavic and East European Languages and Literatures to the Department of Slavic and East European Languages and Cultures with related name changes for its undergraduate minor and Master of Arts and Doctor of Philosophy academic programs.

WHEREAS following a recent departmental program review that included an internal self-study and an evaluation by an external review committee with the recommendation that the Department alter its name so as to reflect more accurately its new orientation; and
WHEREAS after considerable debate among the faculty regarding what name would best characterize the Department’s current and future activities, there resulted a majority vote in favor of this name; and

WHEREAS the proposal for the change has the support of the College of Arts and Sciences; and

WHEREAS the proposals for the degree programs were reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on March 15, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to change the name of the Department of Slavic and East European Languages and Literatures to the Department of Slavic and East European Languages and Cultures, with related name changes for its undergraduate minor and Master of Arts and Doctor of Philosophy academic programs, is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

CHANGE IN NAMES OF THE ACADEMIC PROGRAMS IN THE SCHOOL OF EARTH SCIENCES LEADING TO THE BACHELOR, MASTER, AND DOCTOR OF PHILOSOPHY DEGREES, FROM GEOLOGICAL SCIENCES TO EARTH SCIENCES

Resolution No. 2012-87

Synopsis: Proposal to change the names of the academic programs leading to the Bachelor of Arts and Bachelor of Science (and related undergraduate minors), Master of Science, and Doctor of Philosophy degrees from Geological Sciences to Earth Sciences, in the School of Earth Sciences in the College of Arts and Sciences.

WHEREAS the School of Earth Sciences was established by the Board of Trustees on July 7, 2006, but the academic programs leading to the Bachelor of Arts, Bachelor of Science, Master of Science, and Doctor of Philosophy retained the name of the department from the which the school had emerged, Geological Sciences; and

WHEREAS the School determined that as part of the semester conversion process, it would now align the name of its degree programs with the name of its School; and

WHEREAS the Bachelor of Arts, Master of Science, and Doctor of Philosophy degree programs were converted with minimal changes, and the Bachelor of Science was re-envisioned but emphasizes areas within the School that reflect the breadth of content and interests of the faculty; and

WHEREAS the proposal for the change has the support of the School's faculty, and of the College of Arts and Sciences; and

WHEREAS the proposals for the degree programs were reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on March 15, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal from the School of Earth Sciences to change the names of its degree programs leading to the Bachelor of Arts and Bachelor of Science (and related undergraduate minors) and Master of Arts and Doctor of Philosophy, from Geological Sciences to Earth Sciences is hereby approved, effective upon the approval by the Ohio Board of Regents.
April 6, 2012 meeting, Board of Trustees

***

CHANGE IN NAMES OF THE MASTER OF ARTS AND DOCTOR OF PHILOSOPHY DEGREE PROGRAMS IN THE DEPARTMENT OF MANAGEMENT AND HUMAN RESOURCES FROM LABOR AND HUMAN RESOURCES TO HUMAN RESOURCE MANAGEMENT

Resolution No. 2012-88

Synopsis: Proposal to change the names of the Master of Arts and Doctor of Philosophy degree programs from Labor and Human Resources to Human Resource Management in the Department of Management and Human Resources within The Max M. Fisher College of Business.

WHEREAS the current name does not reflect the shift in the field from a focus on labor relations to a focus on human resource management, with its emphasis on both union and non-union employees, and does not encompass the shift to the proactive and strategic management of all employees; and

WHEREAS other institutions with programs such as those in this College have started to shift to the more contemporary title, and the leading professional organization is named Society for Human Resource Management; and

WHEREAS the proposal for the change has the support of the Department's faculty and the Fisher College of Business Executive Committee and faculty; and

WHEREAS the proposals for the degree programs were reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on March 15, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal from the Department of Management and Human Resources, Fisher College of Business, to change the names of the Master of Arts and Doctor of Philosophy degree programs from Labor and Human Resources to Human Resource Management is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

APPROVAL OF A TRANSFORMATIONAL TWO-YEAR RESIDENTIAL EXPERIENCE

Resolution No. 2012-89

Synopsis: Approval of a transformational two-year residential experience programming model.

WHEREAS President Gee has articulated a clear vision for a two-year on-campus residency requirement; and

WHEREAS multiple studies have shown that on-campus residency leads to more positive living and learning outcomes for undergraduate students; and

WHEREAS the University is committed to enhancing student access to faculty and academic resources; and

WHEREAS the University intends to focus on student development as part of a larger community, emphasizing leadership and service; and
WHEREAS the University intends to focus on individual development in many aspects, with application of career growth and global citizenship; and

WHEREAS the University is committed to taking a leading role across the country in developing an innovative residential experience for second-year students; and

WHEREAS the University has designed a transformational residency programming conceptual model aimed at achieving these goals; and

WHEREAS the University is committed to the launch of the second-year programming and further planning and development of the link from programming to physical space:

NOW THEREFORE

BE IT RESOLVED That the Second Year Experience Conceptual Programming Model is approved and the Board hereby requests that a full report regarding a detailed integrated physical planning effort that links these programmatic goals to the University's North Campus Corridor be prepared for presentation to the Board at its August 2012 meeting.

(See Appendix XXXIV for background information, page 665.)

AMENDMENT OF THE UNIVERSITY DEBT POLICY
Resolution No. 2012-90

Synopsis: Amendment of the University’s Debt Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management and use of University debt in the form of bonds, internal loans, lines of credit, and leases; and

WHEREAS there is a need for comprehensive policies to provide for the overall management of University debt; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the revised University Debt Policy be adopted by the Board of Trustees and implemented by the University Treasurer and/or Senior Vice President for Business and Finance as authorized, effective immediately, as follows:

I. Principles Regarding Use of University External Debt

   A. Access to University issued debt is not an entitlement. Debt will be granted only to those projects approved through the University’s capital process and initiatives consistent with the Academic Plan and University’s Strategic Goals.

   B. No debt can be issued without prior recommendation by the Senior Vice President for Business and Finance (CFO), and the Vice President of Financial Services (Treasurer), and approval by the Board of Trustees.

   C. The University seeks to maintain a credit rating of at least AA or its equivalent.

   D. The University should seek to limit debt service payments to no more than 5% of annual operating expenditures.

   E. The University should utilize variable rate debt consistent with market conditions.
April 6, 2012 meeting, Board of Trustees

F. Capitalization of interest is discouraged.

G. All debt issued on behalf of a project sponsored by a unit shall include an approved business plan as part of a signed Memorandum of Understanding (MOU) that specifies how the debt service will be paid.

H. The benefiting unit shall be responsible for the repayment of debt and associated costs.

I. Refinancing of debt is permissible if the present value savings is at least three percent.

J. No project will proceed to design unless 10% of total project budget is available to fund design costs. No project will proceed to construction until 75% of the written pledges, cash receipts, or other acceptable guarantees have been received in accordance with guidelines developed by the University.

II. Principles Regarding the Use of the Internal Bank

A. Internal loans or lines of credit may be granted to units for strategic purposes consistent with the Academic Plan and University’s Strategic Goals.

B. A Memorandum of Understanding (MOU) specifying payback schedule must be fully executed by all parties prior to funding being released.

C. Recipients must identify the source of repayment and an approved business plan as part of a Memorandum of Understanding (MOU).

D. Requests for a University internal loan or line of credit are submitted to the office of the Senior Vice President for Business and Finance by the appropriate dean or vice president.

E. Approval should not be assumed unless received in writing from the office of the Senior Vice President for Business and Finance.

F. Principal is expected to be paid down in regular installments consistent with the approved agreement. Balloon payments are discouraged.

G. All requests for internal bank funding must be approved by the requesting unit’s vice president or dean and the Senior Vice President for Business.

H. Agreements for more than ten years, or more than $10 million are not encouraged except for exceptional circumstances and require prior approval by both the Senior Vice President for Business and Finance and the Integrated Financial Planning Group.

I. Regardless of source, all leases, internal loans and lines of credit to affiliated organizations require approval by the Integrated Financial Planning Group.

J. Early repayment is encouraged with no penalty.

K. The Senior Vice President for business and finance shall report annually to the Finance Committee of the Board of Trustees on all approved loans and lines of credit and their disposition.

L. These guidelines affect new loans and lines of credit only. Written agreements currently in effect will be honored as written.

III. Principles Regarding Capital and Operating Leases
April 6, 2012 meeting, Board of Trustees

A. All leases must be approved by the Senior Vice President for Business and Finance or his/her designee.

B. All leases of a present value of $10 million or more must be approved by the Board of Trustees.

C. The decision as to whether a lease is a capital or operating lease shall be made at the discretion of the office of the controller, in consultation with the Office of Legal Affairs and the Office of Financial Services.

Applies to: All University personnel responsible the management of University debt

Issued: 3/2005

Note: Policy approved by the Board of Trustees on March 4, 2005 Resolution #2005-106

(See Appendix XXXV for background information, page 671.)

FIFTH AVENUE DNM AM COVENANT

Ohio Environmental Protection Agency
5th Avenue Dam Removal and River Restoration
Columbus Campus

Resolution No. 2012-92

Synopsis: Authorization is requested to grant an environmental covenant at the Columbus Campus, Olentangy River Corridor District to assure the restored river corridor and its environmental function are protected;
April 6, 2012 meeting, Board of Trustees

WHEREAS, in support of the approved OSU Framework Plan, River Corridor District, the University has been requested to place 40.39 Acres of OSU riverbed and river bank property along the Olentangy River into an Environmental Covenant with the State of Ohio Environmental Protection Agency.

WHEREAS, this covenant supports the City of Columbus project to remove the 5th Avenue low head dam and restore a section of the Olentangy River from 5th Avenue north to Lane Avenue to a functional, riparian corridor. Benefits of the dam removal and river restoration include improved water quality, habitat, aesthetics, recreational and research opportunities.

WHEREAS, the dam removal and river restoration project is consistent with the Framework strategy to “Transform the River and the Green Reserve” and the vision for the River Corridor. Significant funding for the river restoration is through a Water Resource Restoration Sponsor Program (WRSP) grant, from Ohio EPA. The grant requirements include placing the land in the restoration project area into the Environmental Covenant.

WHEREAS, the covenant language is currently being negotiated to achieve an appropriate balance of river protection and flexibility for OSU and holders of existing easements. The appropriate University offices have determined that the grant of this covenant is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, that the President and/or the Senior Vice President for Administration and Planning be authorized to approve the appropriate documents and grant the covenant upon such terms and conditions as are in the best interest of the University.

(See Appendix XXXVII for background information, page 673.)

REAPPOINTMENTS TO THE SELF-INSURANCE BOARD

Resolution No. 2012-94

Synopsis: Reappointment of members to the Self-Insurance Board is proposed.

WHEREAS the Board of Trustees directed that a Self-Insurance Board be established to oversee the University Self-Insurance Program; and
WHEREAS the Board of Trustees on December 6, 2002, approved the expansion of the University Self-Insurance Program to include the faculty physicians and their clinical staff who are employees of Ohio State University Physicians, Inc.; and

WHEREAS all members of the Self-Insurance Board are appointed by The Ohio State University Board of Trustees upon recommendation of the President; and

WHEREAS the terms of members Galen Barnes, E. Christopher Ellison, and Michael Papadakis expire on April 30, 2012:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be reappointed as members of the Self-Insurance Board effective May 1, 2012, for the terms specified below:

Galen Barnes, term ending April 30, 2014 (reappointment)
E. Christopher Ellison, M.D., term ending April 30, 2014 (reappointment)
Michael Papadakis, term ending April 30, 2014 (reappointment)

BE IT FURTHER RESOLVED, That the appointment of each member entitles the members to any immunity, insurance or indemnity protection to which officers and employees of the University are, or hereafter may become, entitled.

AUTHORIZATION FOR ESTABLISHMENT OF A NEW UNIVERSITY AFFILIATE,
OHIO STATE INNOVATION FOUNDATION

Resolution No. 2012-95

Synopsis: Authorization to establish new groups of affiliates in order to expand the opportunities and mechanisms available to commercialize intellectual property created at The Ohio State University is recommended.

WHEREAS the Board of Trustees adopted the Policy on Affiliated Entities in June 2008 to provide a uniform framework for the establishment and operation of separate entities that are closely affiliated with The Ohio State University (hereinafter “Ohio State” and/or “University”), ensure that such entities serve the best interests of the University, and provide for continuing appropriate oversight by the University and the Board; and

WHEREAS the Senior Vice President for Business and Finance and CFO has recommended that a new affiliate, Ohio State Innovation Foundation, and a series of operational subsidiaries of the Ohio State Innovation Foundation, as more fully described in the accompanying materials, be established in furtherance of Ohio State’s commitment to become a leader in technology commercialization and knowledge transfer as well as job creation, to the benefit of students, faculty, and alumni of Ohio State and the citizens of the State of Ohio.

WHEREAS the creation of this Affiliated Entity in support of Ohio State’s planned technology commercialization, knowledge transfer, and economic development activities is necessary to implement the strategic plan adopted by the Office of Technology Commercialization and Knowledge Transfer.

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the establishment of the affiliated entity Ohio State Innovation Foundation (hereinafter “OSIF”), and authorizes and directs the President and/or Senior Vice President for Business and Finance, in consultation with other University officials as appropriate, to perform such actions and
execute such documents as may be necessary or desirable to effect the establishment of this entity; and

BE IT RESOLVED, That the Board of Trustees hereby authorizes the establishment of the affiliated entity Ohio State Innovation Foundation (hereinafter "OSIF"), and authorizes and directs the President and/or Senior Vice President for Business and Finance, in consultation with Senior Vice President and General Counsel and other University officials as appropriate, to perform such actions and execute such documents as may be necessary or desirable to effect the establishment of the operational subsidiaries and associated entities that are formed from time to time to implement the business plan; and

BE IT FURTHER RESOLVED, That in accordance with the Policy on Affiliated Entities, the Senior Vice President and CFO is hereby designated as the senior University official charged with oversight of this entity and that OSIF shall report periodically to the University and Board of Trustees through the designated senior oversight official; and

BE IT FURTHER RESOLVED, That the relationship between the University and OSIF shall be memorialized through a memorandum of agreement and that the entity shall operate in accordance with the Policy on Affiliated Entities, the memorandum of agreement, and the entity's approved business plan; and

BE IT FURTHER RESOLVED, That as appropriate and as directed, Trustees, officers, and employees of The Ohio State University are hereby authorized, designated, and directed to serve as directors, managers, officers, employees, and agents of OSIF and its subsidiaries, representing the University in such capacities as part of their official duties and responsibilities to the University and entitling them to any immunity, insurance, indemnity, and representation to which Trustees, officers, and employees of the University now are, or hereafter may become, entitled.

(See Appendix XXXIX for background information, page 678.)

***

AMENDMENT OF THE UNIVERSITY NAMING GUIDELINES
Resolution No. 2012-96

Synopsis: Amendment of the University Naming Guidelines is proposed.

WHEREAS The Board of Trustees approved Naming Guidelines in May 2010 to govern the naming of entities, physical spaces and endowed funds at The Ohio State University; and

WHEREAS The Board of Trustees established an Advancement Committee in June 2010 to consider and make recommendations to the board on matters of policy and strategy pertaining to University development, alumni relations, communications, marketing and relating efforts to foster positive relationships with students, alumni, and other key audiences; and

WHEREAS the Advancement Committee Chair charged a review group to research and assess the current policies and practices for naming buildings and physical facilities at public universities to commemorate philanthropic commitments made to those universities by corporate entities in January 2012; and

WHEREAS the review group based on their research and assessment determined a need to provide greater clarity to and detail in the Naming Guidelines:

NOW THEREFORE
April 6, 2012 meeting, Board of Trustees

BE IT RESOLVED, That the revised University Naming Guidelines be adopted by the Board of Trustees and implemented by the Senior Vice President for Advancement and other University officials as authorized, effective immediately, as follows:

I. Overview

This document governs the naming of entities, physical spaces and endowed funds at The Ohio State University.

The University will enter into a commitment only after careful consideration of the potential impact the naming will have on the University and the campus community. Due diligence will be exercised to make certain that any proposed name would be consistent with University tradition and mission, and we will evaluate what pride and distinction might accrue to the projects and units involved, as well as to the leadership, faculty, staff, students and alumni.

All proposed minimum funding levels and potential building or entity namings must be initiated by a Dean/Unit Leader and routed to the Senior Vice President for Advancement for consideration at the leadership level prior to any discussion with prospective donors or honorees.

Final approval for all namings rests with the University’s Board of Trustees. If at any time following the approval of the naming, circumstances change substantially so that the continued use of the name may compromise the integrity or reputation of the University, the University may remove the name. The University additionally reserves the right to dispose of any named property or facility as deemed necessary, via sale, demolition, etc. A name will not be removed without the recommendation of the President, approval by the Board of Trustees and notification of the donor or a legal representative.

II. Types of Namings

A. Commemorative, Expresses appreciation for an individual or organization for substantial philanthropic gift contributions to the University.

B. Honorific, Recognizes distinguished alumni or an individual for outstanding service to the University or extraordinary service to the community (e.g. Bricker Hall). Individuals must be disassociated from employment by or service to the University for at least three years prior to an honorific naming. This rule may be waived by action of the Board of Trustees.

C. Administrative, Relates to the function or location of the building; does not include the name of a person (e.g. Central Classroom Building).

III. Eligible Naming Opportunities

A. Entities, colleges, schools, departments, institutes, academic centers and programs

B. Physical Spaces, outdoor spaces and architectural elements, buildings and facilities, large interior spaces such as classrooms, auditoriums, foyers, lobbies, gymnasiums, hallways and lounges

C. Endowed Funds, a permanent funding source to support a specific purpose such as scholarships, programs, professorship/chair positions, etc.

IV. Guidelines for Funding

A. Entities, Discussions to determine an appropriate gift size for naming academic entities should include the Dean, Provost, and the Foundation with final approval from the Gift Acceptance Committee. Factors to consider include the size of the academic unit as defined by the operating budget, the unit’s national ranking, and the “transformative” nature
April 6, 2012 meeting, Board of Trustees

of the gift, meaning it should provide additional operating support that allows the academic unit to move forward in reputation in ways that it could not without the gift support. Gifts to name academic entities should be predominantly for endowment to support new programs and faculty. Generally entities will be named for individual donors and not for corporations.

A corporation or organization may name a University entity in very selective situations. Corporations or organizations proposed for such namings should have a positive image and demonstrated integrity. Additional due diligence must be taken to avoid any appearance of commercial influence or conflict of interest. Signage reflecting a corporate or organizational naming of an entity must conform to all University signage guidelines and will not include the corporation or organization logo or other components of its branding. The gift agreement may specify the number of years during which the entity will be named. If the name of the corporation or organization changes, the University at its own discretion may change the name of the entity. Also, the University at its sole discretion may change the name of the entity if circumstances related to the corporation or organization could damage the reputation of the University. Any consideration of a corporate or organizational naming of an entity must follow the assessment process described for the Gift Acceptance Committee.

B. Physical Spaces, Gifts to name a physical space should be at least 1/3rd of construction costs and should be outright gifts. In select cases (such as when a facility is fully funded or no private fundraising is required for the facility), irrevocable deferred gifts may also be accepted. Exceptions to the 1/3rd rule may occur for projects of extraordinary size and will be based on the available donor pool. Generally, buildings will be named for individual donors and not corporations or organizations. A corporation or other organization may name a University facility in very selective situations and special caution will be exercised in cases when a facility is dedicated totally for educational purposes. Corporations or organizations proposed for facility namings should have a positive image and demonstrated integrity. In the instance of corporate or organizational namings of facilities, additional due diligence must be taken to avoid any appearance of commercial influence or conflict of interest. Any consideration of a corporate or organizational naming of a facility must follow the assessment process described for the Gift Acceptance Committee.

Names will generally remain in place for the life of the physical facility when named for an individual, but in some cases may be negotiated for a term of years. When working with corporate and organizational donors, in some cases the gift agreement may specify the number of years for which the facility will be named. If the name of the corporation or organization changes during that period, the University, at its own discretion, may change the name of the facility. Also, the University at its sole discretion may change the name of the facility if circumstances related to the corporation or organization could damage the reputation of the University.

All signage and artwork must comply with the University’s master space plan, will maintain consistency with current signage and visual identity guidelines per the Office of Facilities Operations and Development and University Marketing Communications, and will not include an organization logo or other components of branding. Existing naming opportunities approved in writing prior to March 1, 2009 will be grandfathered in to these new guidelines.

C. Endowed funds, The University invests the donor’s(s’) gifts in perpetuity and an annual distribution is used to fund the desired activities as requested by the donor(s) and approved by the Board of Trustees.

D. Note that unrestricted gifts may be appropriately recognized with official naming in any of the preceding three categories with the approval of the Gift Acceptance Committee.

V. Approval Process
A. Commemorative

1. Naming of academic entities such as colleges, departments and programs must be approved by the President and Provost after submission by the Senior Vice President for Advancement. All approvals must be received prior to any discussion with a prospective donor.

2. For new buildings and renovations, discussions with donors may begin after a project has been approved by the University but specific spaces within the building will generally not be named until the project reaches the design and construction phase. A complete plan for all naming opportunities within the building will be submitted to the Senior Vice President for Advancement, who will take the request to Integrated Financial Planning for review and comment. Once minimum gift levels are established, the development officer will confirm that any gift commitment meets the minimum funding levels. Any exceptions to these guidelines, or any naming in exchange for an unrestricted gift, will be taken to Integrated Financial Planning for approval and the Gift Acceptance Committee will be consulted as needed. All namings for corporations or organizations must be approved by the Gift Acceptance Committee.

3. Upon execution of the gift agreement, the naming will go to the Board of Trustees for approval at the next meeting.

4. Donor Relations will communicate final approvals back to the originator of the request

B. Honorific Naming

1. Complete naming request form and a list of the honoree’s accomplishments; submit to Donor Relations.

2. Approval by Senior Vice President for Advancement is required and requests may be presented to the president and senior management council for comment and action.

3. Upon approval, the Foundation will forward the request to the University’s Board of Trustees for approval at the next Board meeting.

C. Administrative

1. Complete naming request form or a letter of request with Dean or VP approval and submit to Donor Relations.

2. Approval by Senior Vice President for Advancement is required.

3. The approved request will be forwarded to Integrated Financial Planning for appropriate action.

VI. Gift Acceptance Committee

The Gift Acceptance Committee is appointed by the Senior Vice President for Advancement in consultation with the President, Provost and Chair of the Board of Trustees. Members may include but will not be limited to:

Voting Members
President of The Ohio State University
Senior Vice President for Advancement
Executive Vice President and Provost
Chair of the Board of Trustees
Chair of the Advancement Committee of the Board of Trustees
Chair of the Audit Committee of the Board of Trustees
Chair of The Ohio State University Foundation Board
April 6, 2012 meeting, Board of Trustees

Campaign Chair or Co-Chairs (during campaign periods)
Member-at-Large appointed by the Chair of the Board of Trustees

Ex-officio Members
Senior University Leadership as needed

(See Appendix XL for background information, page 737.)

***

Upon motion of Mr. Shumate, seconded by Mr. Fisher, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Ratner, Marbley, Kass, Reid, Jurgensen, Wadsworth and Smucker.

President Gee:

We are also seeking approval for the University Foundation Report, Mr. Chairman.

UNIVERSITY FOUNDATION REPORT

Resolution No. 2012-97

Synopsis: The University Foundation Report as of February 29, 2012, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Leslie H. and Abigail S. Wexner Dean’s Chair in Medicine, The Abercrombie & Fitch Chair in Inflammatory Bowel Disease, The Bertha Bouroncle M.D. and Andrew Pereny Chair of Medicine, The Stanley D. and Joan H. Ross Chair in Neuromodulation, the Alfred W. Reader Endowed Professorship in Endodontics, and the Thomas H. Patrick Free Enterprise Designated Professorship; the revision of The Wayne Woodrow Hayes Chair in National Security Studies and The University Pathology Services Anatomic Pathology Professorship; the establishment of nineteen (19) named endowed funds; the revision of eighteen (18) named endowed funds; and the closure of one (1) named endowed fund:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Foundation as of February 29, 2012, be approved.

(See Appendix XLI for background information, page 742.)

Change in Description of Named Endowed Chair

The Wayne Woodrow Hayes Chair in National Security Studies

Change in Description of Named Endowed Professorship

The University Pathology Services Anatomic Pathology Professorship
Establishment of Named Designated Professorship

Thomas H. Patrick Free Enterprise Designated Professorship
$42,500.00
(Established with support from the College of Arts and Sciences; Per year for 5 years used to provide a full-time tenure-track professorship position in the Department of Economics)

Establishment of Named Endowed Funds

The Georganne Apelian Shockey Student Experience Support Fund
$53,109.00
(Established with gifts from Georgie M. Shockey; used to support creative, forward-thinking programs and/or activities in the Department of Human Nutrition)

The Lewis Claman Peridontal Endowment Fund
$50,557.96
(Established with gifts from faculty, students, and dental and periodontal alumni and professionals; used to provide awards to dental students interested in periodontics)

The John A. Lott, Ph.D., Endowed Fund in Clinical Chemistry
$50,000.00
(Established with support from the Department of Pathology in honor of Dr. John Lott’s career as a professor; used for activities and programs in clinical chemistry in the Department of Pathology)

Change in Name and Description of Named Endowed Funds

From: Battelle Technology and Human Affairs Program Fund
To: Battelle Engineering, Technology, and Human Affairs Endowment Fund

From: Battelle Scholars Program
To: The Battelle Scholarship Fund

From: The Demkee Dental Athletic Provider Award Permanent Endowment Fund
To: The Demkee Student Dentist, Athletic Provider Award Fund

From: The Thomas Huxley Langlois Research Fellowship
To: The Thomas Huxley Langlois Research Fellowship Fund

From: Master of Arts in Public Policy and Management Scholarship Fund
To: Public Policy and Management Student Aid Fund

Establishment of Named Endowed Dean’s Chair

The Leslie H. and Abigail S. Wexner Dean’s Chair in Medicine
$3,500,000.00
(Established with gifts from Leslie H. Wexner and Abigail S. Wexner; used to support a leadership chair position in the College of Medicine who shall retain the dean’s position in the College)

Establishment of Named Endowed Chairs

The Abercrombie & Fitch Chair in Inflammatory Bowel Disease
$2,039,042.18
(Established with gifts from Abercrombie & Fitch; used to support a chair position in the College of Medicine)
April 6, 2012 meeting, Board of Trustees

The Bertha Bouroncle M.D. and Andrew Pereny Chair of Medicine $2,037,500.00
(Established with gifts from Dr. Bertha A. Bouroncle; used to support a chair position undertaking medical research on hairy cell leukemia or other types of leukemia at the James Cancer Hospital and Solove Research Institute and the Comprehensive Cancer Center)

The Stanley D. and Joan H. Ross Chair in Neuromodulation $2,000,000.00
(Established with gifts from Stanley D. Ross and Joan “Jodi” H. Ross; used to support a chair position in the Department of Neurological Surgery)

Establishment of Named Endowed Professorship

Alfred W. Reader Endowed Professorship in Endodontics $750,000.00
(Established with gifts from alumni and friends; used to provide salary and program support to a distinguished faculty member in the Section of Endodontics in the College of Dentistry) (grandfathered)

Establishment of Named Endowed Funds

The Ted Finkelstein Family Scholarship Fund $500,000.00
(Established with gifts from the estate of Jane Freidenberg Finkelstein Goodman; used to provide scholarships to undergraduate students)

The Susan L. Koletar M.D. Endowed Infectious Disease Support Fund $300,000.00
(Established with gifts from the Infectious Diseases Education and Research Foundation; used to support fellows in the Division of Infectious Diseases in the Department of Internal Medicine)

The Gerard Kakos M.D. and Thomas Edward Williams M.D. Professorship Fund $200,305.75
(Established with gifts from Gerard Kakos in honor of Thomas E. Williams; used for research and education for the heart surgery program until the fund can support a professorship position)

The Cooperatives for Fueling the Cure Endowment Fund $126,000.85
(Established with gifts from Heritage Cooperative, Trupointe Cooperative, United Landmark, and Town and Country Cooperative; used to support cancer research)

The Marc P. and Pamela J. Gertz Family Endowment Fund $55,000.00
(Established with gifts from Marc Preston Gertz and Pamela Jill Gertz; used for the activities and programs of the Nisonger Center)

The Calvin L. and Marilyn F. Simpson Heart Research Endowment Fund $53,591.00
(Established with gifts from Calvin L. Simpson; used for medical research on heart disease with preference for hypertension in the Division of Cardiovascular Medicine)

The H. Dean and Susan Regis Gibson Fund for the Center for Cognitive and Behavioral Brain Imaging $53,000.00
(Established with a gift from H. Dean Gibson and Susan Regis Gibson; used to support research in brain imaging at the Center for Cognitive and Behavioral Brain Imaging)
April 6, 2012 meeting, Board of Trustees

The Boger Fencing Team Championship Fund
(Established with gifts from Dr. Donald and Mary W. Boger; used to supplement the discretionary budget of the varsity fencing team) $52,220.00

The Cassady-Hale Diversity Award Fund in Pharmacy
(Established with gifts from John M. Cassady with additional support from Kenneth M. Hale and other contributions; used to support projects in the College of Pharmacy) $51,673.00

The William L. (Bill) Jones Memorial Athletic Scholarship Fund
(Established with gifts from family and friends of Bill Jones; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the men’s or women’s golf team) $51,385.75

Sally Horn Academic Advisor Memorial Fund
(Established with gifts from former students; used to improve the advising experience of students in the Department of Integrated Systems Engineering) $50,350.96

The Nancy and Todd McFarland Endowed Fund in Diabetes Research
(Established with gifts from Nancy Brown McFarland and Todd B. McFarland; used to support diabetes research activities in the Division of Endocrinology, Diabetes, and Metabolism) $50,000.00

The Gail A. and John A. Simonetti Endowed Scholarship Fund for Students Affected by Multiple Sclerosis
(Established with gifts from Gail A. and John A. Simonetti; used to provide scholarships for undergraduate students) $50,000.00

The Bull Family Endowment Fund for Extension Outreach
(Established with gifts from Dr. Nancy H. Bull and Colonel David E. Bull; used to support programs in the OSU Extension) (grandfathered) $27,100.00

Arthur F. Bell and William J. Hoewischer Scholarship Fund
(Established with gifts from A. I. Bell and Jean Hoewischer Bell in memory of their fathers; used to provide undergraduate scholarships in the College of Food, Agricultural, and Environmental Sciences) (grandfathered) $25,000.00

The D.P. Bogner Family ATI Key Advisory Award Fund
(Established with a gift from Donald P. Bogner; used to support faculty and staff awards in the College of Food, Agricultural, and Environmental Sciences) (grandfathered) $25,000.00

Change in Description of Named Endowed Funds

The Batelle/Bertram D. Thomas Scholarship Fund
The Michael Andrew Chaszeyka Fund in Public Affairs
The Ken Feinthel Athletic Scholarship Fund
The Griffith Family Scholarship Endowment Fund
The Richard and Barbara Snyder Scholarship Fund
The Arthur D. Lynn Jr. and Pauline Wardlow Lynn Fund

Closure of Named Endowed Fund

John G. and Zoe Johnstone Woodwind Fund

Total Gifts $12,193,336.45

Change in Description of Named Endowed Chair

The Wayne Woodrow Hayes Chair in National Security Studies

The Wayne Woodrow Hayes Professorship Fund in National Securities Studies was established June 6, 1996, by the Board of Trustees of The Ohio State University with gifts from the family and friends of Woody Hayes. The name was changed to The Wayne Woodrow Hayes Chair Fund in National Securities Studies and the description was revised July 11, 1997. The description was revised further October 3, 1997. The funding level of $1,250,000 was reached and the chair was established July 7, 2000. The description was revised July 13, 2007, and was revised again April 6, 2012.

In keeping with the provisions of the original endowed fund, the annual distribution from this fund shall be used to support The Wayne Woodrow Hayes Chair in National Security Studies in the Mershon Center. Appointment to the Hayes Chair will be made upon recommendation of the director of the Mershon Center and with approval of the University Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Mershon Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the Mershon Center. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.
Change in Description of Named Endowed Professorship

The University Pathology Services Anatomic Pathology Professorship

The University Pathology Services Anatomic Pathology Professorship was established March 1, 2002 by the Board of Trustees of The Ohio State University with gifts from University Pathology Services, Columbus, Ohio, and from other friends of the Department of Pathology. The required funding level was reached and the professorship was established July 11, 2003. The description was revised April 6, 2012.

The annual distribution from this fund shall support the advancement of medical knowledge in the field of pathology research, both basic and clinical, and shall be held by an individual who is or shall be a member of the Department of Pathology in the College of Medicine. The position shall be held by a nationally eminent faculty member who has distinguished himself/herself in the performance of pathology research, who maintains an active and productive research program, and who is an effective educator-teacher.

The professorship holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. The activities of the professorship holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In the event that an individual has not been appointed and the position is temporarily vacant, the annual distribution from this fund may be used, at the Department chairperson's discretion and in consultation with the dean of the College of Medicine, to advance research in anatomic pathology.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the Department chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from both a representative of the donor, and as recommended by the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Establishment of Named Designated Professorship

Thomas H. Patrick Free Enterprise Designated Professorship

The Thomas H. Patrick Free Enterprise Designated Professorship was established April 6, 2012, by the Board of Trustees of The Ohio State University with support from the College of Arts and Sciences.

This fund shall be used to support a full-time tenure-track professorship position in the Department of Economics. This position shall teach and conduct research in areas such as behavioral economics, macroeconomics, labor economics, econometrics, monetary
April 6, 2012 meeting, Board of Trustees

economics, industrial organization, economic demography, and economic history. The primary focus of this position is to develop an understanding of free and voluntary economic processes and principles and the free enterprise system through research and teaching as demonstrated via annual presentations, publications, topics of instruction, and other related activities.

Appointment to the professorship shall be recommended by the executive dean of the College of Arts and Sciences to the executive vice president and provost and approved by the University's Board of Trustees.

Amount Establishing Fund: $42,500.00 minimum per year, for up to 5 years.

Establishment of Named Endowed Funds

**The Georganne Apelian Shockey Student Experience Support Fund**

The Georganne Apelian Shockey Student Experience Support Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University with gifts from Georgie M. Shockey (B.S. 1980).

The annual distribution from this fund shall support creative, forward-thinking programs and/or activities in the Department of Human Nutrition as recommended by the Department’s chairperson and approved by the dean of the College of Education and Human Ecology.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $53,109.00

**The Lewis Claman Periodontal Endowment Fund**

The Lewis Claman Periodontal Endowment Fund was established April 6, 2012, by the Board of Trustees of The Ohio State with gifts from faculty, students, and dental and periodontal alumni and professionals. The fund was established in recognition of the career and accomplishments of Dr. Lewis J. Claman (M.S. 1974), a long-time faculty member with the Division of Periodontology.

The annual distribution from this fund shall provide an award to the dental students who best exemplify excellence and/or interest in periodontics, with special consideration given to students considering a career in academic dentistry. The award may provide a grant, scholarship, research funds, travel costs/support or other academic opportunities as determined by the chair of the Division of Periodontology. Lewis Claman Award recipients shall be selected by the Division’s chair in consultation with the periodontology faculty.
Student Financial Aid shall also be consulted if the fund is to be awarded as a scholarship during any given year.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

If the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry in consultation with the chair of the Division of Periodontology.

The investment and management of the expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Dentistry in consultation with the chair of the Division of Periodontology.

Amount Establishing Endowment: $50,557.96

The John A. Lott, Ph.D., Endowed Fund in Clinical Chemistry

The John A. Lott, Ph.D., Endowed Fund in Clinical Chemistry was established April 6, 2012, by the Board of Trustees of The Ohio State University with support from the Department of Pathology given in honor of Dr. John Lott’s career as professor (now Emeritus) of the Department of Pathology, from 1968 to 2000. He received the Alumni Award for Distinguished Teaching in 1986-1987 from the Department of Pathology.

The annual distribution from this fund shall be used for activities and programs in clinical chemistry in the Department of Pathology with a preference to support, but not limited to, faculty salaries and related compensation and resident and graduate student research in the field. Allocation of funds shall be approved by the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the Department chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by University’s Board of Trustees. In making this alternate designation, the Board shall
April 6, 2012 meeting, Board of Trustees

seek advice from a representative of the donor and as recommended by the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,000.00

Change in Name and Description of Named Endowed Funds

**Battelle Engineering, Technology, and Human Affairs Endowment Fund**

The Battelle Technology and Human Affairs Program Fund was established July 11, 1975, by the Board of Trustees of The Ohio State University with a gift from Battelle Memorial Institute of Columbus, Ohio. The name and description were revised April 6, 2012.

The primary goal of this fund is to influence future leaders so that scientists and engineers become more sensitive to social needs, and so that others gain a better comprehension of the capabilities and limitations of science and technology.

The annual distribution shall be used to provide annual grants: 50% for proposals including some engineering component or concepts with the human affairs element and 50% for proposals including technology with the human affairs element. The grant process shall be administered by the Office of Research, with recommendations made by the grants review committee, and grant awards approved by the executive vice president and provost. Preference will be given to grant requests with a Battelle liaison, to ensure connection to Battelle business units.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Research.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, if possible, and from the vice president for Research.

**The Battelle Scholarship Fund**

The Battelle Scholars Program was established December 8, 1977, by the Board of Trustees of The Ohio State University with a gift from Battelle Memorial Institute Foundation, Columbus, Ohio. The name and description were revised April 6, 2012.

The annual distribution from this fund shall be used primarily to provide in-state, full tuition, merit-based scholarships for students with high leadership potential. Preference will be given to students who have intent to major in the STEM fields. Students shall reside in Franklin County (Ohio) or contiguous counties, Delaware, Fairfield, Licking, Madison, Pickaway, and Union. Henceforth the program shall be referred to as the Battelle Scholarship. Recipients shall be selected by the University Honors and Scholar Center in consultation with Student Financial Aid.
April 6, 2012 meeting, Board of Trustees

The annual distribution may also be used to support other programmatic elements in direct support of the Battelle Scholarship recipients with approval from the associate provost and director of the University Honors and Scholars Center in consultation with the director of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Student Financial Aid in consultation with the associate provost and director of the University Honors and Scholars Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor if possible, from the director of Student Financial Aid, and from the associate provost and director of the University Honors and Scholars Center.

The Demkee Student Dentist, Athletic Provider Award Fund

The Demkee Dental Athletic Provider Award was established September 1, 1993, by the Board of Trustees of The Ohio State University for the College of Dentistry with gifts from the Demkee family through the Demkee Scholarship Fund. The name changed to The Demkee Dental Athletic Provider Award Permanent Endowment Fund and the description was revised September 21, 2007. The name and description were revised again April 6, 2012.

The annual distribution from this fund shall be used to provide a suitable award for a dental student(s) who is actively providing dental care and injury prevention for student athletes in the Department of Athletics. This award benefits both the College of Dentistry and the Department of Athletics. Award recipients shall be selected by the dean of the College of Dentistry through the appropriate division within the College of Dentistry. Consultation and input can be asked of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry. Input into this process can be asked of the director of the Department of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors.
The Thomas Huxley Langlois Research Fellowship Fund

The Thomas Huxley Langlois Research Fellowship was established December 5, 1986, by the Board of Trustees of The Ohio State University with gifts from the family of Thomas Huxley Langlois and from alumni, faculty, and friends of the Franz Theodore Stone Laboratory and the College of Biological Sciences. The description was revised May 1, 1992. The name and description were revised April 6, 2012.

The annual distribution from this fund shall be used to support one or more research fellowships for scholarly work at the F. T. Stone Laboratory. The director of the Laboratory, in consultation with a research committee composed of members of his/her faculty, will have sole authority to authorize expenditures from the fund as approved by the vice president for agricultural administration and dean of the College of Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for agricultural administration and dean of the College of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for agricultural administration and dean of the College of Food, Agricultural, and Environmental Sciences.

Public Policy and Management Student Aid Fund

The Master of Arts in Public Policy and Management Scholarship Fund was established August 30, 1995, by the Board of Trustees of The Ohio State University with a transfer of funds from the Public Management Programs. The description was revised July 7, 2006, and the name and description were revised April 6, 2012.

The annual distribution from this fund shall be used for student aid for a student enrolled in the Public Policy and Management Program. Recipients shall be selected by the director of the John Glenn School of Public Affairs in consultation with the faculty of the Public Policy and Management Program and Student Financial Aid. Criteria for the award shall include financial need, professional development potential, and commitment to public service.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees.
April 6, 2012 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

The endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the director of the Glenn School of Public Affairs.

Establishment of Named Endowed Dean’s Chair

The Leslie H. and Abigail S. Wexner Dean’s Chair in Medicine

The Leslie H. and Abigail S. Wexner Dean’s Chair in Medicine was established on April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Leslie H. Wexner (B.S.Bus.Adm. 1959 Honorary Doctor of Humanities, 1986) and Abigail S. Wexner of New Albany, Ohio.

The annual distribution from this fund shall be used for a leadership chair position in the College of Medicine at The Ohio State University Wexner Medical Center to be held by a nationally or internationally recognized physician and educator in academic medicine who shall retain the dean’s position in the College. Distribution may support innovative pilot programs, novel research activities, and strategic initiatives and opportunities to promote the College’s teaching, research, and global health missions as allocated by the dean of the College of Medicine in consultation with the senior vice president for Health Sciences.

The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended and approved by the senior vice president for Health Sciences. The activities of the chair holder shall be reviewed no less than every four years by the senior vice president to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors (or their representative) and as recommended by the senior vice president for Health Sciences.

Amount Establishing Dean’s Chair: $3,500,000.00
Establishment of Named Endowed Chairs

The Abercrombie & Fitch Chair in Inflammatory Bowel Disease

The Abercrombie & Fitch Chair Fund in Inflammatory Bowel Disease was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Abercrombie & Fitch of New Albany, Ohio. The required funding level has been reached and the chair was established April 6, 2012.

The annual distribution from this fund shall be used for a chair position in the College of Medicine supporting a nationally or internationally recognized physician faculty member in the field of inflammatory bowel disease. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended and approved by the dean of the College of Medicine and by the senior vice president for Health Sciences in consultation with a designee of Abercrombie & Fitch. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, and as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences.

Amount Establishing Chair: $2,039,042.18

The Bertha Bouroncle M.D. and Andrew Pereny Chair of Medicine

The Bertha Bouroncle M.D. and Andrew Pereny Chair of Medicine was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Bertha A. Bouroncle of Columbus, Ohio.

After completing her medical degree at San Marcos National University in 1948, Dr. Bouroncle came to The Ohio State University, completing her internal medicine residency training and hematology fellowship training in the Department of Internal Medicine in 1952; after which she served as the Department’s chief resident from 1953-1954. Dr. Bouroncle joined the OSU faculty in the Division of Hematology/Oncology as an assistant professor in July 1954. She was promoted to associate professor in 1957 and to a full professor in 1970. She became Professor Emeritus in 1989.

During her academic career, Dr. Bouroncle was internationally renowned for her research and clinical work on the treatment of patients with hematological malignancies. She first identified a rare form of leukemia (leukemic reticuloendotheliosis) in 1958, which became known as “hairy cell leukemia” (HCL), and her studies are frequently cited more than 50
April 6, 2012 meeting, Board of Trustees

years later. She and other OSU faculty members (including Drs. Michael Grever and Eric Kraut) later developed successful treatments for patients with chronic leukemias, including HCL, allowing patients with this disease to lead a relatively normal life span.

Her numerous OSU honors and awards include: from the Department of Internal Medicine (Earl N. Metz Distinguished Physician Award 1999; special recognition in patient care, teaching and research, 1986; Teacher of the Year 1984); and from the College of Medicine (senior class teaching award in 1986, 1977, 1976, 1975, 1974; Professor of the Year 1979; Honorary Member of Class of 1979; AOA Faculty Member of Year, 1973); and from OSU (Faculty Merit Teaching Award 1978).

Dr. Bouroncle is a member of many professional societies including the American College of Physicians, the American Society of Hematology, and the International Society of Hematology.

The annual distribution from this fund shall be used for a chair position undertaking medical research on hairy cell leukemia or other types of leukemia at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) and the Comprehensive Cancer Center (CCC) at The Ohio State University Wexner Medical Center. The chair position shall be held by a nationally or internationally recognized physician faculty member of the Department of Internal Medicine and/or by a researcher in the CCC. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chief executive officer (CEO) of The James, the director of the CCC (Director), the senior vice president for Health Sciences (Senior Vice President), the dean of the College of Medicine (Dean) and the chairperson of the Department of Internal Medicine (Chairperson).

Once established as a chair position, preference is for the initial appointment to be made within three (3) years. Also preferred, the person appointed shall assume the duties of the chair position within one (1) year of the date of the appointment, a faculty progress review is undertaken on an annual basis, and the duration of the appointment shall be for a period not to exceed twenty (20) years for any one individual. Additionally, the activities of the chair holder shall be reviewed no less than every four years by the CEO, Director, Senior Vice President, Dean, and Chairperson to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the CEO or Director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative from the donor, if possible, and as recommended by the CEO, Director, Senior Vice President, Dean, and Chairperson.

Amount Establishing Chair: $2,037,500.00

April 6, 2012 meeting, Board of Trustees

The Stanley D. and Joan H. Ross Chair in Neuromodulation

The Stanley D. and Joan H. Ross Chair Fund in Neuromodulation was established February 10, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Stanley D. Ross (B.A. English, 1962) and Joan "Jodi" H. Ross of Columbus, Ohio. The required funding level has been reached and the chair was established April 6, 2012.

The annual distribution from this fund shall be used for a chair position supporting a nationally or internationally recognized physician faculty member in the field of brain neuromodulation in the Department of Neurological Surgery, with a preference for the holder to be the director of the Center for Neuromodulation.

The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Neurological Surgery and approved by the senior vice president for Health Sciences and dean of the College of Medicine. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors, as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Neurological Surgery.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, and as recommended by the chairperson of the Department of Neurological Surgery in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

Amount Establishing Chair: $2,000,000.00

Establishment of Named Endowed Professorship

Alfred W. Reader Endowed Professorship in Endodontics

The Alfred W. Reader Endowed Professorship Fund in Endodontics was established May 6, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from alumni and friends who have recognized his commitment and dedication to the College of Dentistry. The required funding level has been reached and the professorship was established April 6, 2012.

The annual distribution from this fund shall be used to provide salary and program support to a distinguished faculty member in the Section of Endodontics in the College of Dentistry. Selection of the named professorship holder shall be made by the dean of the College of Dentistry with recommendations from the head of the Section of Endodontics and approved by the University’s Board of Trustees.

Amount Establishing Chair: $2,000,000.00
In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry and the head of the Section of Endodontics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Dentistry and the head of the Section of Endodontics.

Amount Establishing Professorship: $750,000.00 (grandfathered)

Establishment of Named Endowed Funds

The Ted Finkelstein Family Scholarship Fund

The Ted Finkelstein Family Scholarship Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from the estate of Jane Freidenberg Finkelstein Goodman (B.S. Education 1939) of Columbus, Ohio.

The annual distribution from this fund shall be used to provide academic scholarships to undergraduates who are Ohio residents with demonstrated financial need. Absolute preference shall be given to former participants in the Columbus City Schools "I Know I Can" college preparatory program enrolled at any Ohio State campus. If, in any year, there are no eligible applicants who meet the above preference, then that year's endowment distribution shall be re-invested into the endowment's principal. If after three consecutive years, there have been no eligible applicants, the scholarship may be awarded to any financially needy undergraduates who are Ohio residents, and the fund will no longer have an affiliation with "I Know I Can" as an absolute preference. In addition, should the "I Know I Can" program extend into other Ohio cities, those participants will also be eligible to apply for this scholarship. Should the "I Know I Can" program cease to exist, the scholarship will be awarded to undergraduates with demonstrated financial need who are Ohio residents. This is solely an academic scholarship and may not be used to support or supplement an athletic scholarship.

It is the donor's desire to award one new scholarship each year to a first-year student. Scholarships are renewable for up to eight semesters or completion of baccalaureate degree, whichever comes first. Scholarship recipients shall be selected by Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Any unused distribution from this endowed fund shall be reinvested in the endowment principal.
April 6, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Student Financial Aid.

Amount Establishing Endowment: $500,000.00

The Susan L. Koletar M.D. Endowed Infectious Diseases Fellowship Support Fund

The Susan L. Koletar M.D. Endowed Infectious Diseases Fellowship Support Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the Infectious Diseases Education and Research Foundation.

The annual distribution from this fund shall provide support for fellows in the Division of Infectious Diseases in the Department of Internal Medicine. Expenses may include, but are not limited to registration fees, travel, hotel, per diems, etc. for attendance at national and international meetings, conferences or training programs; memberships in infectious diseases professional organizations; publications, books and relevant educational resources, including electronic resources; and supplemental funding for medical research such as equipment, supplies, personnel, lab space, etc. Allocation of funds shall be approved by the director of the Infectious Diseases Fellowship Program in consultation with the Infectious Diseases divisional director and the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at discretion of the director of the Infectious Diseases Fellowship Program in consultation with the Infectious Diseases divisional director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and from the director of the Infectious Diseases Fellowship Program in consultation with the Infectious Diseases divisional director and with the dean of the College of Medicine.

Amount Establishing Endowment: $300,000.00
April 6, 2012 meeting, Board of Trustees

The Gerard S. Kakos M.D. and Thomas E. Williams M.D. Professorship Fund

The Gerard S. Kakos M.D. and Thomas E. Williams M.D. Professorship Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Gerard S. Kakos M.D. (B.A. Anatomy 1964, M.D. 1967) of Columbus, Ohio; also given in honor of Thomas E. Williams Jr. M.D. Ph.D. (M.S. Medical Biochemistry 1963, M.D. 1963).

Dr. Williams completed his residency training at The Ohio State University Hospitals (1964-1970), served as instructor (1968-1970), joined the faculty as an assistant professor of surgery (1970-1975), and became an associate professor (1975-1983). He also served as assistant medical director of Emergency Services (1972-1976) and as interim division chief of the Division of Cardiothoracic Surgery in 1997. Since 1983, Dr. Williams has been a clinical associate professor in the Department of Surgery.

Until the principal balance reaches $1,000,000, the annual distribution from this fund shall be used for research and education for the heart surgery program. Upon reaching this $1,000,000 minimum funding level, it will be used for a professorship position in the Division of Cardiac Surgery (Division) in the Department of Surgery (Department). The professorship holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department and the dean of the College of Medicine (College) in consultation with the director of the Division, director of the OSU Heart and Vascular Center (Center) and the senior vice president for Health Sciences. The activities of the professorship holder shall be reviewed no less than every four years by the dean of the College to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor and as recommended by the chairperson of the Department and dean of the College in consultation with the director of the Division, the director of the Center, and the senior vice president for Health Sciences.

Amount Establishing Endowment: $200,305.75

The Cooperatives for Fueling the Cure Endowment Fund

The Cooperatives for Fueling the Cure Endowment Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from
Heritage Cooperative, Trupointe Cooperative, United Landmark, and Town and Country Cooperative.

The annual distribution from this fund shall support cancer research at The Ohio State University for research being done to identify dietary and nutritional components for cancer treatment and prevention including, but not limited to, supplies, equipment, personnel, lab space, fellowship awards, cost of travel to, and fees for, educational conferences or other training opportunities, and other activities required for high quality research. Fifty percent (50%) of the annual distribution will be allocated to The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) and the Comprehensive Cancer Center (CCC), and fifty percent (50%) will be allocated to the College of Food, Agricultural, and Environmental Sciences (CFAES) to support seed grants for the Center for Advanced Functional Foods and Entrepreneurship. Allocation of the distributions shall be made at the recommendation of the chief executive officer of The James and the vice president for Agricultural Administration and dean of CFAES.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the CEO of The James and the vice president for Agricultural Administration and dean of CFAES, respectively.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from representatives of the donors, if possible, and from the CEO of The James, the director of the CCC, and the vice president for Agricultural Administration and dean of CFAES.

Amount Establishing Endowment: $126,000.85

The Marc P. and Pamela J. Gertz Family Endowment Fund

The Marc P. and Pamela J. Gertz Family Endowment Fund was established on April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Marc Preston Gertz (B.S.Bus.Adm. 1974, J.D. 1977) and Pamela Jill Gertz (B.A. 1980) of Akron, Ohio.

The annual distribution from this fund shall be used for the activities and programs of the Nisonger Center to include, but be not limited to the Blue Skies Post-Secondary Program, the Early Childhood Education Program, personnel, supplies, equipment, publications, conferences, and other activities required for quality programming and research. Allocation of funds shall be approved by the director of the Nisonger Center in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the Center’s director.
April 6, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and as recommended by the director of the Nisonger Center in consultation with the senior vice president for Health Sciences.

Amount Establishing Endowment: $55,000.00

The Calvin L. and Marilyn F. Simpson Heart Research Endowment Fund

The Calvin L. and Marilyn F. Simpson Heart Research Endowment Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Calvin L. Simpson (B.S.Bus.Adm. 1950) and Marilyn F. Simpson of Canton, Ohio.

The annual distribution from this fund shall be used for medical research on heart disease in the Division of Cardiovascular Medicine at The Ohio State University Wexner Medical Center with preference for hypertension research. Funds may be used for personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research. Allocation of funds shall be approved by the director of the Division in consultation with the dean of the College of Medicine and with the senior vice president of Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and as recommended by the director of the Division of Cardiovascular Medicine in consultation with the chairperson of the Department of Internal Medicine, the dean of the College of Medicine, and the senior vice president for Health Sciences.

Amount Establishing Endowment: $53,591.00

The H. Dean and Susan Regis Gibson Fund for the Center for Cognitive and Behavioral Brain Imaging

The H. Dean and Susan Regis Gibson Fund for the Center for Cognitive and Behavioral Brain Imaging was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from H. Dean Gibson (B.A. 1974) and Susan
April 6, 2012 meeting, Board of Trustees

Regis Gibson (B.A. 1976, University of Massachusetts at Dartmouth, Paralegal 1978, Paralegal Institute of Silver Spring, Maryland).

The annual distribution of this fund shall support research in brain imaging at the Center for Cognitive and Behavioral Brain Imaging at The Ohio State University conducted by a graduate student or excellent undergraduate student with particular attention to, but not limited to, female students. Recipients shall be recommended by the divisional dean of Social and Behavioral Sciences and selected by the executive dean of the College of Arts and Sciences.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the executive dean of the College of Arts and Sciences in consultation with the divisional dean of Social and Behavioral Sciences.

Amount Establishing Endowment: $53,000.00

The Boger Fencing Team Championship Fund

The Boger Fencing Team Championship Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Dr. Donald C. (B.S. 1966, M.D. 1970) and Mary W. Boger of Glendale, California.

The annual distribution from this fund shall be used to supplement the discretionary budget of the varsity fencing team.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the director of the Department of Athletics.
April 6, 2012 meeting, Board of Trustees

Amount Establishing Endowment: $52,220.00

The Cassady-Hale Diversity Award Fund in Pharmacy

The Cassady-Hale Diversity Award Fund in Pharmacy was established on April 6, 2012 by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with initial gifts from John M. Cassady, Ph.D. with additional support from Kenneth M. Hale, RPh., Ph.D., and other contributors.

At The Ohio State University, Dr. Cassady served as dean of the College of Pharmacy from 1988-2003 and became Professor Emeritus in 2005. Dr. Hale is an alumnus (B.S.Pharm. 1976, M.S. Education 1987, Ph.D. Education, Policy and Leadership 1995) and faculty in the College of Pharmacy (clinical professor, assistant professor in 1984, then associate professor in 1989; assistant dean for Professional and External Affairs since 1995).

The annual distribution from this fund shall support projects in the College of Pharmacy (College) designed to enhance racial, ethnic or cultural diversity. Grants of up to $1,000 each (may be adjusted for inflation) will be provided to students, faculty or staff of the College. These grants and the process for applying will be announced to the College community by the Dean’s Advisory Committee on Diversity (or the dean’s designee), who will also determine recipients and review project outcomes. The College will coordinate grants awarded to students with Student Financial Aid.

The College may choose to use the annual distribution to provide an award up to $2,000 (may be adjusted for inflation) to invite an individual(s) at the national level to the College to share his/her perspective with the academic community on innovative diversity efforts that impact recruitment, mentoring, curriculum or practice in pharmacy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from John M. Cassady and/or Kenneth M. Hale, if possible, and as recommended by the dean of the College.

Amount Establishing Endowment: $51,673.00

The William L. (Bill) Jones Memorial Athletic Scholarship Fund

The William L. (Bill) Jones Memorial Athletic Scholarship Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from family and friends of Bill Jones.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree and a member of the men’s or women’s golf team. Scholarship recipients shall be
selected by the director of the Department of Athletics in consultation with Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Department of Athletics.

Amount Establishing Endowment: $51,385.75

**Sally Horn Academic Advisor Memorial Fund**

The Sally Horn Academic Advisor Memorial Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from her former students. This fund honors the tremendous service provided by all of the academic advisors that have served industrial and systems engineering (ISE) students over the years and in memory of Sally Horn (B.S. 1949) who served for decades as the undergraduate student advisor for what is now the Department of Integrated Systems Engineering.

Sally and the other academic advisors who have served the ISE program were instrumental in shaping the experiences of our students. Not only have advisors kept students informed about the “on paper” requirements necessary to get a degree, they have shared tribal knowledge accumulated over the years about how to take advantage of courses and other opportunities for learning available at Ohio State. Equally important, advisors have created a supportive environment that let the students know that the Department of Integrated Systems Engineering truly cares about them and wants to help them succeed.

The annual distribution from this fund shall be used by the chairperson of the Department of Integrated Systems Engineering, in collaboration with the current academic advisor, to improve the advising experience of ISE students.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
April 6, 2012 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Engineering.

Amount Establishing Endowment: $50,350.96

The Nancy and Todd McFarland Endowed Fund in Diabetes Research

The Nancy and Todd McFarland Endowed Fund in Diabetes Research was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Nancy Brown McFarland (B.S. 1992) and Todd B. McFarland of Westerville, Ohio.

The annual distribution from this fund shall support research activities on diabetes in the Division of Endocrinology, Diabetes, and Metabolism towards improved treatment, patient outcomes, and cure of the disease. Funds may be used for, but not limited to, personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research. Allocation of funds shall be approved by the director of the Division in consultation with the chairperson of the Department of Internal Medicine, dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, or their representative, and as recommended by the director of the Division and chairperson of the Department in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,000.00

The Gail A. and John A. Simonetti Endowed Scholarship Fund for Students Affected by Multiple Sclerosis

The Gail A. and John A. Simonetti Endowed Scholarship Fund for Students Affected by Multiple Sclerosis was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Gail A. and John A. (B.A. 1973) Simonetti of Berea, Ohio.

The annual distribution from this fund shall be used to provide a scholarship for an undergraduate student diagnosed with multiple sclerosis (MS) or an undergraduate student who has a parent diagnosed with MS with preference given to candidates demonstrating financial need who are residents of Ohio. Verification of diagnosis of MS is required and is
the responsibility of Student Financial Aid (SFA). In accordance with SFA policies, acceptable verification may include a letter from the MS Society where the student and/or parent is registered or a letter of diagnosis from a medical doctor. Scholarship recipients shall be selected by SFA. The scholarship may be renewed if the recipient maintains a minimum 2.8 grade point average.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the discretion of the director of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the director of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

The Bull Family Endowment Fund for Extension Outreach

The Bull Family Endowment Fund for Extension Outreach was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Nancy H. Bull (Ph.D. 1992 Agricultural Education) and Colonel David E. Bull (M.S. 1967 Agronomy).

The annual distribution from this fund shall be used to support the following areas in a three-year rotation: OSU Extension outreach programs for the sheep industry, OSU Extension-4-H Youth Development programs, and OSU Extension-Family and Consumer Sciences programs. Expenditures from the fund shall be approved by the vice president for Agricultural Administration, and dean of the College of Food, Agricultural, and Environmental Sciences in consultation with the director of OSU Extension or his/her designee in the related program area.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated
April 6, 2012 meeting, Board of Trustees

by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences in consultation with the director of OSU Extension.

Amount Establishing Endowment: $27,100.00 (grandfathered)

Arthur F. Bell and William J. Hoewischer Scholarship Fund

The Arthur F. Bell and William J. Hoewischer Scholarship Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from A. I. Bell (B.S. 1967 Animal Science) and Jean Hoewischer Bell (B.S. Education 1968) in memory of their fathers.

The annual distribution from this fund shall be used to provide at least one undergraduate scholarship to a student of sophomore, junior, or senior standing in the College of Food, Agricultural, and Environmental Sciences at The Ohio State University main campus or regional campuses including the Agricultural Technical Institute. Qualified candidates must be from Shelby or Muskingum counties, Ohio, have participated in 4-H for at least five years, and have a minimum cumulative 2.5 grade point average. Preference will be given to students who demonstrate involvement in extracurricular activities.

Students may reapply in successive years provided they continue to meet the scholarship’s criteria, remain in good academic standing, and are progressing toward their degrees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

Recipients shall be selected by the OSU Extension 4-H Youth Development scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences, and in consultation with Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $ 25,000.00 (grandfathered)

The D. P. Bogner Family ATI Key Advisory Award Fund

The D. P. Bogner Family ATI Key Advisory Award Fund was established April 6, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Donald P. Bogner of Wooster, Ohio.
April 6, 2012 meeting, Board of Trustees

The annual distribution from this fund shall be used to support one faculty award and one staff award at the College of Food, Agricultural, and Environmental Sciences’ Agricultural Technical Institute (ATI). Recipients shall be selected by the ATI award selection committee in accordance with guidelines established by the director of ATI or his/her designee.

The University may modify any selection criteria should the criteria be found, in whole or part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences in consultation with the director of ATI.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and from the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences in consultation with the director of ATI.

Amount Funding Endowment: $25,000.00 (grandfathered)

Change in Description of Named Endowed Funds

The Battelle/Bertram D. Thomas Scholarship Fund

The Battelle/Bertram D. Thomas Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from The Battelle Memorial Institute. The description was revised April 6, 2012.

The annual distribution from this fund shall be used to provide scholarships for undergraduate students who are majoring in chemistry and biochemistry who have demonstrated financial need and to provide paid summer research internships for qualifying students at Battelle Memorial Institute laboratories or related Ohio State University laboratories. It is the donor's desire that the scholarships be awarded with particular attention to, but not limited to, African Americans or other underrepresented groups, or a student who aspires to obtain a Ph.D. or an M.D./Ph.D.

These scholarships are for two semesters in the given academic year and are renewable as long as financial need exists. The internship experience is for one summer term. The chairperson of the Departments of Chemistry and Biochemistry shall administer this fund in collaboration with Student Financial Aid.

In addition, it is the donor’s desire that the annual distribution from this fund shall be used to support tutoring and mentoring with particular attention to, but not limited to, underrepresented minority students.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship or tutoring/mentoring
April 6, 2012 meeting, Board of Trustees

recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully funded, the unused portion should be reinvested in the principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and from the chairperson of the Departments of Chemistry and Biochemistry.

**The Michael Andrew Chaszeyka Fund in Public Affairs**

The Michael Andrew Chaszeyka Fund in Public Affairs was established April 3, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with an estate gift from Michael Andrew Chaszeyka (B.M.E. 1943). The description was revised on April 6, 2012.

Michael was recognized as a member of American Mensa; he was in the top 2% of the general population on an accepted standardized intelligence test. Michael retired from the Navy Reserves as a lieutenant commander as a veteran of World War II and the Korean War. During his career he served with the Office of Naval Research for 20 years and was a researcher with the Armor Research Foundation, now called the IIT Research Institute. Michael held numerous leadership roles in the American Legion and the local VFW post. In retirement he enjoyed competitive snow skiing and world travel, including a 6,000 mile trip on the Trans-Siberian Express.

The annual distribution from this fund shall provide financial aid support to a student(s) enrolled at the John Glenn School of Public Affairs who is a United States citizen and demonstrates significant potential to contribute to the diversity of the Glenn School of Public Affairs at The Ohio State University, Columbus, Ohio.

Selection of the Michael A. Chaszeyka Fund recipient or recipients each year will be made by the appropriate student services and admissions personnel in consultation with Student Financial Aid and with approval by the School’s director.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the
original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Glenn School of Public Affairs.

The Ken Feinthel Athletic Scholarship Fund

The Ken Feinthel Athletic Scholarship Fund was established on May 3, 2002, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Ken Feinthel (B.A. 1955) of Bonita Springs, Florida. The description was revised April 6, 2012.

The annual distribution from this fund shall be used to supplement the student-athlete grant-in-aid scholarship costs of a student-athlete who is on the football or baseball team and pursuing an undergraduate degree at The Ohio State University. The director of the Department of Athletics will select the recipient in consultation with Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Department of Athletics.

The Griffith Family Scholarship Endowment Fund

The Griffith Family Scholarship Endowment Fund was established April 6, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Griffith Family of Ada, Ohio, William David (B.S. 1961 Agriculture), Phyllis Ann (B.S. 1962 Medical Technology), William Douglas (B.S. 1988 Agronomy) and his wife Laura, and Thomas Edward (B.S. 1991 Agriculture) his wife Tara, and their children Tess, TJ, and Téa. The description was revised February 1, 2008, and was revised again April 6, 2012.

The intent of this fund is to encourage and support students with agricultural backgrounds from Hardin County, Ohio, as they pursue degrees at The Ohio State University.

Fifty percent of the annual distribution shall be used to support scholarships in the College of Food, Agricultural, and Environmental Sciences. Forty percent of the annual distribution shall be used to support scholarships at Ohio State’s Lima Campus. Ten percent of the annual distribution shall be used to support scholarships at Ohio State’s Lima Campus for students with or without an agricultural background from Ada (Ohio) High School. Each college or campus may award one or more scholarships.
Unless otherwise specified, eligible students must have an agricultural background and be from a Hardin County, Ohio, school district, or graduates of Allen East, Benjamin Logan, or Cory-Rawson high schools which are in school districts contiguous to and incorporating parts of Hardin County. Recipients will be selected based on academic achievement with a minimum cumulative grade point average of 2.5, demonstrated leadership, and community involvement. Financial need may be considered. The scholarships may be awarded to the same students in successive years, not to exceed two years, provided the students remain in good academic standing, are progressing towards their degrees, and continue to meet the scholarship’s criteria.

Scholarship recipients shall be selected by the scholarship selection committee in each college or campus in accordance with guidelines approved by the respective dean, and in consultation with the University’s office of Student Financial Aid. The scholarship committee of the OSU Alumni Club of Hardin County may assist in identifying and recommending prospective candidates for consideration of the scholarship to the respective scholarship selection committee.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the vice president for Agricultural Administration and dean of the College of Food, Agricultural, and Environmental Sciences, and from the dean/director of the OSU Lima Campus.

The Richard and Barbara Snyder Scholarship Fund

The Richard and Barbara Snyder Scholarship Fund was established April 3, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Richard M. Snyder (B.S.Bus.Adm. 1957) and Barbara G. Snyder (B.S.Ed. 1955, M.A. 1968, Ph.D. 1982), of Parma Heights, Ohio. The description was revised April 6, 2012.

Fifty percent (50%) of the annual distribution shall be reinvested to the endowment principal annually. The remaining fifty percent (50%) of the annual distribution may provide scholarships for one or more incoming first-year undergraduate students from the greater Cleveland area. The annual distribution of the scholarship fund may be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses.

The scholarship shall be distributed equally over the two semesters of the academic school year. The scholarship is renewable for up to six semesters as long as the student is enrolled in a degree program at Ohio State. This scholarship fund will be administered by Student Financial Aid in consultation with The Ohio State University Alumni Club of Greater Cleveland.
April 6, 2012 meeting, Board of Trustees

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from Student Financial Aid.

The Arthur D. Lynn Jr. and Pauline Wardlow Lynn Fund

The Arthur D. Lynn, Jr. and Pauline Wardlow Lynn Fund was established February 6, 1998, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Arthur D. Lynn, Jr. (B.A. Arts and Sciences 1941, M.A. Economics 1943, J.D. 1948, Ph.D. Economics 1951) and Pauline Wardlow Lynn (B.A. Arts and Sciences summa cum laude 1942, J.D. 1948) of Columbus, Ohio. The description was revised July 7, 2006, and was revised again April 6, 2012.

The annual distribution from this fund shall be used as follows: 1) ten percent (10%) will be added to the principal annually; and 2) the remainder will be used for student aid in the John Glenn School of Public Affairs, with the selection of recipients to be made annually by the director and faculty of the School in consultation with Student Financial Aid. In the event that no award is made in a particular year, that year’s distribution will be added to the principal.

If the Glenn School of Public Affairs (or, if the School should be renamed at some future date, its successor academic unit) should cease to exist, then the annual distribution from this fund shall be used for scholarships for undergraduate honor students, as determined by the associate provost and director of the University Honors and Scholars Center, with ten percent (10%) of the distribution being added to the principal annually.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the director of the Glenn School of Public Affairs.

Change in Name and Description of Named Endowed Funds

**Michael and Binnie DiSabato Family Student Aid Fund**

The Michael and Binnie DiSabato Family Athletic Scholarship Fund was established March 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Michael DiSabato (B.S.Bus.Adm. 1991, M.P.A. 1994). The name changed to the Michael and Binnie DiSabato Family Scholarship Fund and the description was revised July 11, 2008. The name and description were revised again April 6, 2012.

The annual distribution from this fund shall provide student aid to a student enrolled in the John Glenn School of Public Affairs who displays outstanding leadership skills. Scholarship recipients will be selected by the School’s director in consultation with Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Glenn School of Public Affairs.

**Senator John Glenn and Mrs. Annie Glenn Endowed Student Aid Fund**

The Senator John Glenn and Mrs. Annie Glenn Endowed Scholarship Fund was established September 19, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from friends and colleagues in honor of Senator John Glenn and Mrs. Annie Glenn and their lifelong dedication to public service. The name and description were revised April 6, 2012.

The annual distribution from this fund shall provide student aid support for a student(s) enrolled in the John Glenn School of Public Affairs who best exemplifies the Glenns’ leadership ability, academic achievement, and commitment to public service. The director of the School and the School’s Student Financial Aid Committee shall be responsible for selecting student aid recipients and coordinating these recipients’ names with the University’s office of Student Financial Aid.
April 6, 2012 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Glenn School of Public Affairs.

L. Michael Howard Scholarship Fund in Public Policy and Management

The L. Michael Howard Fund in Public Policy and Management was established April 2, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from L. Michael Howard (B.S.Bus.Adm. cum laude 1972, M.A. 1983). The description was revised July 7, 2006, and the name and description were revised April 6, 2012.

The annual distribution from this fund shall be used to provide a need-based scholarship for an undergraduate student enrolled in the John Glenn School of Public Affairs. Scholarships shall be awarded by Student Financial Aid in consultation with the Glenn School of Public Affairs.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Glenn School of Public Affairs.

Major Ray Mendoza Endowed Student Aid Fund

The Major Ray Mendoza Endowed Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, family, and colleagues in memory of Major Ray Mendoza (B.A. 1995), a former Buckeye and member of the U.S. Marine Corps who was killed in the line of duty while serving in Iraq. The name and description were revised April 6, 2012.
The annual distribution from this fund shall provide student aid support for a student enrolled in or planning to enroll in the John Glenn School of Public Affairs who has demonstrated leadership skills and abilities. Recipients shall be selected by the School's director in consultation with Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Glenn School of Public Affairs.

Major Ray Mendoza Endowed Student Aid Fund III

The Major Ray Mendoza Endowed Scholarship Fund III was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alex Porter in memory of Major Ray Mendoza (B.A. 1995), a Buckeye and member of the U.S. Marine Corps who was killed in the line of duty while serving in Iraq. The name and description were revised April 6, 2012.

The annual distribution from this fund shall provide student aid support for a student enrolled in or planning to enroll in the John Glenn School of Public Affairs who has demonstrated leadership skills and abilities. Recipients shall be selected by the School's director in consultation with Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the director of the Glenn School of Public Affairs.
The Chalmers P. Wylie Student Aid Fund for Public Service

The Chalmers P. Wylie Scholarship Fund for Public Service was established June 4, 1993, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Congressman Chalmers P. Wylie and friends in the name of his grandchildren Bryan Wylie, Pamela Poston, and Tamara Poston. The description was revised July 7, 2006, and the name and description were revised April 6, 2012.

The annual distribution from this fund shall be distributed to the director of the John Glenn School of Public Affairs to fund student aid for students in the School. The School’s director shall select the recipient(s) in consultation with Student Financial Aid and shall keep the donor apprised of the selection process. Criteria for awards include not only academic achievement but also leadership and commitment to public service.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

The endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Glenn School of Public Affairs.

The Wing Yee and Siu K. Yee Memorial Endowment Fund in Transplant Surgery

The Siu K. Yee Memorial Endowment Fund in Transplant Surgery was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in memory of Wing Yee and Siu K. Yee from their family through the Wings Charitable Foundation of Columbus, Ohio. The name and description were revised on April 6, 2012.

The annual distribution from this fund shall be used for interdisciplinary medical research and education in the OSU Wexner Medical Center’s Comprehensive Transplant Center as recommended and approved by the executive director of the Comprehensive Transplant Center and the director of the Division of Transplantation Surgery in consultation with the chairperson of the Department of Surgery, with the senior vice president for Health Sciences, and with the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive director or director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
April 6, 2012 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor and as recommended by the executive director of the Comprehensive Transplant Center and the director of the Division of Transplantation Surgery in consultation with chairperson of the Department of Surgery, the dean of the College of Medicine, and the senior vice president for Health Sciences.

Closure of Named Endowed Fund

John G. and Zoe Johnstone Woodwind Fund

The John G. and Zoe Johnstone Woodwind Fund was established June 2, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John G. (Ph.D., 1984) and Zoe Johnstone. The fund was closed April 6, 2012.

Upon motion of Mr. Hicks, seconded by Mr. Kellogg, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees O’Dell, Shumate, Hicks, Fisher, Schottenstein, Ratner, Marbley, Kass, Reid, Jurgensen, Wadsworth, Kellogg and Smucker.

***

Mr. Wexner:

Thank you. Let us take a couple of minutes to go around the table. I think it is a good thing to do. I am particularly impressed with the students you introduced today and their interest and connection to the University.

Ms. Heidersbach:

It is also interesting to hear stories. I always like to hear the back stories and see how we are connected because it seems at Ohio State; it is two degrees of separation as opposed to six.

I will keep my comments very brief. I was thinking about today. I used to swim. I swam for two years, and I swam competitively my whole life. I kind of related this day to the senior meet or the senior day that we would have on swim team. It was not only a day to honor the seniors and recognize their accomplishments, but also a day to swim, compete and continue our success. That is reflective of our progression these last two days. That being said, I just want to offer my congratulations to our senior swimmers. It has been a pleasure working with all of you, and I look forward to continuing our conversation and am looking forward to watching your support for the University as well; so go Bucks!

Mr. Smucker:

Thanks, Les. I wanted to say again that being here for six months or so, it is just an honor every day. The way that this meeting started out today was indicative of the caliber of this University, and I was so proud to be a part of it.
April 6, 2012 meeting, Board of Trustees

I am privileged to get to know Brandon. I have known Wally for a number of years. Alex, it’s been a privilege that you are on our Board and we have had your consult all the time. We will cherish what you have brought to this University and look forward to your continued support.

Les, I would just like to say, I have had the privilege to know you from afar, so I have not had the chance to know you as well as many in this room. But I want to thank you for your example, the fact that you challenged us, you prodded us to think about doing things that are the higher good, and I truly mean that sincerely. I came across a quote today that I think is indicative of what you have done. It is by Thomas Paine and says, “The world is my country, all mankind are my brethren, and to do good is my religion.” You exemplify that, so thank you for what you have done and your example.

Dr. Wadsworth:

I guess we will all have some very similar themes. It was a very interesting meeting, of course, with what happened earlier, very positive, and I also want to extend my appreciation to Brandon, who is just a wonderful guy. We have heard some really wonderful things from him. Of course our friends, Wally and Alex, I echo everyone else’s comment.

Les, I was trying to think about how to describe you on a bumper sticker. When I think of you, I think of you as an active thinker. You are a very deliberate thinker. When we talk about something on a Thursday night and come in on Friday, Les will say, “I have been thinking about what we talked about.” He is a very active thinker and there are three ways he thinks. They keep knocking me back because each time I think I have caught up with him, he is on to the next big idea. So here is the bumper sticker: “He thinks big, he thinks differently, and he thinks often.”

Mr. Wexner:

I appreciate that! My wife has to live with it.

Dr. Reid:

I normally don’t put bumper stickers on my car, but I am reassessing that. I too ditto the comments made previously about the pleasure of serving with you and certainly with Wally and Alex, who has been a counselor, I think, to everybody. I really appreciate that.

And to our chair, I can’t remember how many years back it was that our chair first talked to me about the possibility of being a Trustee of The Ohio State University. At that point, I thought it was a kind of interesting thing, but I was quite busy at the time. So I want to personally thank you for making my service here possible, because it would not have been possible without you and also without Gil’s support, who did a lot of speaking to me as well.

But I also want to thank you for, you speak about curiosity all the time and in my lingo it would be veracious curiosity, your curiosity, not just around possibilities, not just here at the University, but how you think about the world. How you think certainly about the state of Ohio and Columbus is just tremendous. I think you said it best; you never stop thinking. So that is a good thing for you. It is certainly a good thing for us as it is also contagious, so it causes the rest of us to not be so quick to conclude but be quicker to explore. And then when it is the time to conclude, to do so more intelligently than otherwise, so I want to thank you for that.

I also want to thank you for being a part of a two person unit, because it is not just you, it is you and Abigail together who make such a powerful couple. Being still a little bit of a newlywed, I look to you and Abigail in terms of how you have worked together as a unit and as a team to benefit the community. That has been a blessing to all of us.
April 6, 2012 meeting, Board of Trustees

The last thing I would like to say is what we saw today is what I hope our nation’s future and that is people of all kinds of diverse backgrounds coming together for the purpose of betterment. You can’t get more American, you can’t get more the state of Ohio than that, and thank God these people are located in our community.

Judge Marbely:

Thank you, Mr. Chairman. First, I want to thank Brandon for all of the contributions he made. Brandon was also one of my students, and I don’t know that I have enjoyed having anyone in class as much as I did you. You are bright, you are engaging, you have a quest for knowledge, you will do well, and I do look forward to the day when you come back to serve on this Board as a nine-year Trustee.

Wally, it has been a pleasure to serve with you. I don’t know if we have a more exuberant Board member than you. You have great passion for this University, and it is infectious. I agree with our President about the many contributions that you have made.

Alex is my big brother. He is my close friend. He has been a mentor to me and the esteem with which I hold him cannot easily translate into words publicly, but he knows what I mean.

And then our chairman. You know, Mr. Chair, I jotted these notes down yesterday while you were talking. I was paying attention to you, but I jotted these things down as you were talking yesterday. We often make the mistake of looking back to determine our measure of success, so I am trying to give you a prescriptive tip not to look back on what you did as chair, but to look forward, because to look back to determine the success of your work would be a great mistake. But if you look forward, you can really determine the effectiveness of what you have done in three years, in five years, in ten years. I want you to look at this Board and the direction in which the University has our trajectory and take great credit for it, because it really will be a testament to your leadership.

I think that your great work in terms of teaching us to think strategically, and if I can digress even more, I love the story of how I have been out to see you a couple of times to talk about student life. You tell me to be out there at 4:30, so I try to get out there by 4:25, and then at 6:30, you are done telling me about strategic planning and I ask you the first question, “Les, what do you think we should do in student life this year?” Then two hours later, you have told me about strategic planning, and I am driving away from your house trying to figure out what just happened. Then the next day, the light will go off, and I see where you have guided me, because I am thinking on the ground and you are looking at this from 30,000 feet, that student life is a part of a greater whole. Only someone with your vision and insight has the mental discipline to keep us on task, because we are thinking about our immediate task and you are thinking about the larger picture, which is why you have been so successful.

The other thing I want to say is that when I began my Board service, I served with Gil Cloyd, who I think will go down as one of our great chairs because Gil was the consummate consensus builder. I did not think that there could be a better consensus builder. I didn’t think that you were going to be as good of a consensus builder as you have been, especially given your success and given your knowledge and insights. You could have just basically told us what to do and we would have been constrained on some level to do it. But you took the culture that Gil had established on consensus building, and you built it into an art form.

So we had a Board that had one of the greatest entrepreneurs of any era who guided us by consensus, and I think that is a great testament to your leadership.

Last, I live by the maxim that friendship is essential to the soul. I say that every day. That is the first thing I tell myself when I get up in the morning. You have shown that your friendship to the University has been essential to our soul as an institution, as an organic
April 6, 2012 meeting, Board of Trustees

entity that grows. So I want to thank you for that personally and to thank you for that on behalf of the University.

Mr. Schottenstein:

Well done all of you. And in conclusion, ditto. It strikes me that with a few exceptions, none of us really picked each other. We all got here through our own individual paths and were selected in some cases by different governors, and yet, I cannot imagine a better group of people to serve with. It is a spectacular Board. The secret sauce that sits around this table is really special. I am really going to miss Brandon. I really appreciate what you said earlier and have loved working with you and know that we will work more in the future. Wally, the first person to reach out to me when I joined this Board in 2005 was you, and you never stopped, and I appreciate that. And Alex, who is the rock of Gibraltar, just a granite anchor in so many ways, a wonderful human being and a great friend.

And then you, Les. I loved what you said earlier, Monte, about the one thing that puts a gleam. I never really thought about it but the thing that puts a gleam in your eye other than the pretty lady sitting in the second row and your wonderful children are students. As good as you are with us, you are equally good, if not better, when you are with students teaching, a master teacher, a relentless thinker as Jeff said, always curious. You look at issues three-dimensionally. I don't even know what that means but you do.

It is the most bizarre thing. Just when you think you have got him cornered, a vector is coming from someplace else, and those of us who think differently feel, “How could I be so stupid?” Right? I have loved all those meetings that I have had the privilege of having with you, intending to talk about topic A, when we ended up talking about topic Les. I got a lot more out of it as a result, but I know that those will continue. I know of no one who cares more, thinks more, works harder for this University than you. You have elevated the level of thinking of this Board. I don't know how other universities operate public and private but if there is a better Board out there, we ought to take the plane and go visit them, because I would take them on. But just thank you, thank you, thank you, thank you. We know your phone number, and we know where you live, and we know you are not going anywhere. We need you and will continue to lean heavily on you.

Mr. Hicks:

It is going to be hard to say anything when you get to your side of the room over there. I am glad I am over here. It has been an extraordinary couple of days. I mean it has been, as always, a very productive, very busy and a pretty business-oriented meeting yesterday and today. I thought, just from a business standpoint, the update we got from Joe on strategy was really, really helpful. This strategy is a tough journey; you are kind of trimming the sails all the time to make sure you are heading in the right direction, but I think that with the scorecards that we talked about in our committee meetings, with the direction that we are heading with some of the audacious goals, I feel very good that we have the right strategy and the right strategic direction. I think a lot of that has to do with your leadership, Les.

I also thought, Monte, in our committee on Academic Affairs, the report and the update that we got and the information that we talked about relative to the second-year experience was extraordinary, because it was really the first time that I was able to get my arms around, not just the building aspects of being on campus for two years, but the programmatic improvements and the impact on student learning that is going to happen. I thought it was extraordinary. I hope at some point Dr. J. and her team can make a presentation to the full Board on this, because I thought it was really, really well done.

I also thought the students this morning were incredibly appropriate, respectful, and vigilant with their concerns. I thought that our response was outstanding. President Gee, I thought your response was fabulous to them, and I think one of the reasons our
response was so great to the students was because we have been so proactive on the issue. We didn’t wait until something happened yesterday. It has been something that we have talked about for a long time. But I also think that we need to recognize that what happened with the incident 48 hours ago or 24 hours ago is going to happen again. It will happen again, and our vigilance as a Board every time something like that comes up to be as proactive, as strong, as critically responsive is going to be really, really important. Because, unfortunately, in this day and age, it is going to happen. We know it is going to happen and until it stops happening, we can’t stop being vigilant.

And then the last thing I would say, just to echo everything that was said, is we have got some extraordinary leaders that are leaving the Board, but we are not going to lose their leadership. Brandon has been an outstanding Trustee, and I put an adjective in front of that, an outstanding Trustee. It is amazing, and we are very fortunate that we had your background and your experience and your insight during a time when we needed that had what occurred in the last year or so occurred three years ago, we would have had nobody on this Board that had that insight, so we could not have come through that experience as well without your insight. Thank you for being here at the time. I agree that you are going to be a great nine-year Trustee, not just a great Trustee down the road.

Wally-I have had the experience of serving on the Board with Wally since the day I got here, and it has been extraordinary. There is nobody more passionate about Ohio State. I am so glad that around this time nine years ago, the Governor called you and I did not. You have been just a great, great member of the Board.

And to Alex, with your experience before, your experience now, your steadfastness has been just absolutely extraordinary for the University, and we will all miss your wise and steady counsel.

And, Mr. Chairman, extraordinary leadership. I am not sure how you underscore that or how you put more adjectives to that, because it really has been remarkable. I think Jeff’s comment about the way you think is dead on. Every one of us loves this University. Every one of us is part of the family and thinks about Ohio State certainly every week, oftentimes every day. I am not sure that anybody thinks about it every minute like you do, and I am not sure that anybody thinks about it every minute like you think about it and, whatever vector it comes from, I just don’t know that anybody thinks about it like you. You know, we have got all these quotes out there from great people who do great things, but this paying forward concept that we will hang our hat on probably has been no more epitomized than what you have done for this University, not just in the last couple of years in your leadership, but really in your lifetime, so thank you. It has been an extraordinary experience to learn from you and watch you, so I appreciate the opportunity to talk this morning.

Mr. Mitchell:

You know, when I signed a scholarship to come to Ohio State as an undergrad about ten years ago, I never would have thought I would be a part of moments like today. I am so proud to be a student and to represent the students because of things like we had this morning. At a lot of other campuses, that situation would have been handled a lot differently and could have gotten a lot more contentious, so I am just thankful to be a part of a university that is open to listen to ideas and to really listen to the students.

I have been really reflective, so I took my notebook I have carried around the same notebook for all the Board meetings to look to the first page to see what the first note I wrote at my first Trustee meeting was and, as a lot of people will remember this, it is, “What is the big what?” Our Chairman posed the question, you know, as the big what; and that is who we are and what are we looking to become. To see Provost Alutto’s presentation today, I can answer the question of what the big what is that I had on my
April 6, 2012 meeting, Board of Trustees

first day, so it is great to have that 360 degree view to come back around and be able to answer the questions that I had from my first day.

As I leave physically, of course my thoughts will still be with the University, and I will still be checking in on Board members and calling you all for wise counsel, but I want to issue you a challenge and the challenge is simple. We have heard it a lot, but it's just two words: “Get better.”

Dr. Cloyd:

I would like to start my comments with a little bit of a different direction because I think this meeting has represented a very important milestone in the journey that we are on a journey that is probably best described as starting several years ago by Dr. Whitacre, our Vice President of Research, as she began to look at our capabilities and how are we doing with having those wonderful scientific and technical capabilities to impact science, what we were doing in revenue generation. That work was expanded when Dean Poon came to the campus as she began to look at it. We instituted a working group, and I thank Brian Hicks, Jerry Jurgensen and Jeff Wadsworth as they rolled up their sleeves and jumped into that subject. Mr. Chatas, our CFO, got added to the process along the way and, of course, last June when Brian Cummings came here from the University of Utah, the planning moved forward in a much more energetic pace.

We saw an important milestone this week with the opening of our Technology Commercialization and Knowledge Transfer facility and the announcement of our innovation fund. I thank the Board for their support in establishing this important innovation foundation but we really, I think, have made a bold step forward in creating an ecosystem, and it is going to be a journey, but creating an ecosystem that is going to do four important things. It is going to be a revenue generator for reinvestment in this University; it is going to allow the tremendous intellectual capital in science and technology at this University to better impact society addressing some of our most serious problems; we are going to create an outstanding educational opportunity for our students across the campus to really understand innovation, entrepreneurship and enterprise development; and the final thing, it is going to be a very important force in stimulating economic development of this state jobs creation, new business creation. So for me, this was just a wonderful couple of days as we went through that, and I thank the Board for their support.

The other thing I would like to do is to echo comments by all the other Trustees. I want to thank Brandon, Wally and Alex for your wonderful colleagueship and service on the Board. I am honestly more thankful, though, for your friendship, which extends beyond this Board and is not going to have any limits. I appreciate that very much.

And, Mr. Chairman, I also thank you for your colleagueship, your leadership, your friendship. You are a dynamic force and this University is very well served and is very, very appreciative that you have chosen to put the dynamic force of your intellect to progressing the betterment of this University, so thank you for that.

Mr. Kellogg:

As always, I am extremely blessed and enriched any time we gather for these meetings because of what takes place. Mr. Chairman, you always talk about the work of the work and that never fails to be a huge part of what drives our time together. I am thankful for that because it is work, demanding, important, and challenging work, and we see the fruits of that work in many, many ways at many different times. Certainly that was on display here as we started today’s meeting.

I had a couple of thoughts that I wanted to direct to my fellow Trustees, those that are leaving their service as Trustees, but also to the group in general, because every time that I am at a meeting or in the company of you all, it is hard for me not to think about
leadership. Mr. Chairman, you planted that seed and, I don’t know if you recall this, but I was at your home not long after I had been appointed to the Board knowing you had advocated for me. We sat down and had dinner and you spoke to some folks prior to that about leadership. Since then I have kind of been on a personal journey to study it, look at it and try to grow in it, and I just had a couple of thoughts.

One for all of us, because all of you embody this and demonstrate this, leadership is leveraging one’s influence for a worthwhile cause. Leadership can go out, it can go up, it can go down, and it can go around. It is 360 degrees, and that circumference is always part of any interaction I have with you all. The other thing I would say is that leaders are exposers, they are explainers, they are exemplifiers, they are evaluators, and they are encouragers. And that too is represented by all of you.

Mr. Chairman, I just wanted to say so much of what you said yesterday resonated on a lot of levels with a lot of us and like many, I took notes. I try to do that whenever somebody is speaking to learn and to grow. But there were four things you mentioned that I just wanted to share: diverse skills, diverse perspectives, work, and curiosity are requirements of us as Board members, and that is a great reminder as we go forth.

And, lastly, I wanted to close with a paraphrase of one of my favorite verses in the Bible. It is Psalm One, and I am going to paraphrase this because I think of you when I think of this particular Psalm. "Blessed is the man who does not walk in the counsel of the wicked or stand in the way of sinners or sit in the seat of mockers,” and I am paraphrasing here, “but his delight is in doing what is right, what is best, and what is good for the greatest number of people, and on this he thinks day and night. He is like a tree planted by streams of water which yields its fruit in season and whose leaf does not wither. Whatever he does prospers.” You have prospered all of us by your leadership and your example, and I am thankful and appreciate it.

Mr. Jurgensen:

For two days now, I have sat next to him, and I keep telling him that I feel like Steve Kerr because when he is done talking, there is really not a lot left to say that is worth anything.

I just want to try to call out four observations about the individuals that are heading in to the next phase of their commitment to the University. I start with Wally. There is a concept in the Senn Delaney training, that many in the room are familiar with, called observer-critic. To me, Wally always has represented the antithesis of the observer-critic. The notion of it is that observer-critics, when they speak or when they react to things, always find the wrong before the right. What is wrong with this is depicted in an example we experience with the wheelbarrow design. But Wally is the antithesis of that because Wally always finds the right before the wrong. That is really the kind of thing that you can build on to take a good idea and make it better, and I appreciate that in him.

I have had the pleasure of working with Alex both on this Board, but I have also had Alex as a director, which is funny because every time he comes to see me, he always says, “Hello boss.” But the reality is he has never worked for me, but I have worked for him. I think the word that sticks out to me, and it was mentioned earlier and it goes under this idea of a wise counselor, is what a fabulous listener he is. I usually speak before I listen, and it has gotten me in a lot of trouble. It has given me more free time, but Alex never does that. Alex always listens first, he listens, he thinks, and he contemplates.

Brandon has been a joy. I question his source of employment on a going forward basis. Actually, that is not true; I think he made a great choice. There are a lot of things I miss about Nationwide, but one of the things I will really miss now is not having the opportunity to work with you there. You are going to find it is a great company, and you are going to make it even better. The reason you are is that you are a values-oriented man and you are principled. It was amazing to me. It was mentioned earlier but it was amazing to me to sit next to you during all of the meetings and deliberations that we went through over
our athletics issues to see your reactions, because I always like to see where peoples’ first instincts are in an issue and yours always went to values. I hope you never compromise those. I know you won’t.

Now with respect to Les, there have been a lot of things mentioned and I, too, like Bobby would say, “Ditto.” But one of the things that I appreciate about you is your capacity to reveal the profound in the simple. I am going to give one example, I talk about this all the time when I talk about you behind your back, it is the first time you explained to me the concept of how leaders lead. It is just two words: leaders lead. I have thought about that now for almost a decade, because it was ten years ago you told me that. One of the things I take away from the phrase is that being in charge doesn’t a priori make somebody a leader. We are surrounded by all kinds of people in this world who are in change, but a far smaller percentage of them are truly leaders.

There is really only one thing that defines a leader to me and that is action, and Les, you have a long history of acting with your talent, your time and your treasure. We are all familiar of the concept, “to whom much is given, much is expected,” but it is even more important when not a single thing was given to you, and yet you now pass on to others.

You also, to me, lead with integrity. The definition of that is that there is high congruence between your words and your actions. You don’t say one thing and do another you do the same. In 1970, there was a concept of leadership coined by a man named Robert Greenleaf called the servant-leader. You represent the best example of servant-leadership, one aspect of which is the notion of building community, and you do that better than anyone I have ever seen.

Mr. Ratner:

You were absolutely right, by the way, that by the time we get to this end of the table, it is sort of hard. I started scratching off things I was going to say as everybody has said them, but it is interesting because in a way it is fascinating. This is a Board that comes from such diverse backgrounds and experiences, and yet, as I said earlier today, we really have very much the same perceptions of our experiences over the last four or five years. As we look forward, I think, and I agree, it was you, Judge, who said that Les and the other members of the Board who are stepping down from their Board role and into a new role with the University will be able to look back in five or ten years and really see the impact of their service. But I am going to start with a very personal comment about my own service on the Board.

I think only Jeff and I share the distinction of not having a prior experience of being graduates of the University. When I was appointed to the Board, I actually knew next to nothing about Ohio State and, I think, I surprised Governor Strickland by saying that I wanted to spend a little time getting to know the University and getting to know its leadership, because I really wanted to be sure that, in fact, I could bring honor to the honor that he had given me by asking if I wanted to serve on the Board. I came down to the University and met with Dr. Cloyd and, of course, that was an extraordinary meeting. I got a sense of what the University was all about and what service on the Board was about.

I met with President Gee, and all of us know what that is like. I came away sort of stunned and shocked saying, “Wow, that will be an experience.” Then I got a chance to meet with Les in his office and, in effect, the discussion that I had with Les was sort of an earlier version of his “But For Ohio State…” speech that was so remarkable. He told me a very personal story of his journey at Ohio State, of what it meant to him, and that period of time when he was discouraged as a Board member and had thought about quitting as a Board member, thought about resigning, and then he said, “You know, I decided it really wasn’t about me but it was about the much broader issues about what Ohio State meant and what it could be and what it needed to be and about the obligations to service.” I have thought about that a lot because the thing that I
have found, as I have learned about the University and as I have experienced through the leadership of Les, Wally, Alex and Brandon, is that Ohio State has a remarkable ability to make a community of 110,000 people and 63,000 students feel very individual and very personal.

Each of us talks about this University now, and I consider myself a sort of foster alum, but everybody talks about this University in a very personal sense. It is a very personal journey, but it is a personal journey that transcends the personal and really becomes about a much broader, much more important community. Les, that is the insight that you gave me. I found that it is very much both an individual experience and one that is embedded in a much broader sense of values and a sense of significant events and moment that has been, in many ways, the story of my experience with you as the chair and with each of my fellow Board members, a very individual, a very personal experience and, at the same time, one where we are all dedicated to a much broader vision.

The other comment I would make is about Les’ unique ability to, in effect, disagree without being disagreeable. I always find myself going into a discussion with Les convinced that I sort of know where I want to go and coming out in a completely different place and believing that that completely different place was, in fact, where I wanted to go. Somebody mentioned that Les is a three-dimensional thinker. I think what we all miss is that he is not a three-dimensional thinker; he is a four-dimensional thinker. He adds his own unique dimension to every discussion; therefore, most of us are amazed by the world he has opened us up and introduced us to.

Wally, getting to know you has been really a privilege. It has been a lot of fun. Again, on a very personal sense, I come down here and I just feel better when Wally is in the room. You know that we will dedicate each and every air conditioning unit to you.

Alex, again, everybody has said it, but you are clearly a rock, but I feel deeply that I have created a friendship with you that certainly transcends our joint service on this Board, and I have learned so much from you in your leadership.

Brandon, I have said this in many other venues that I am always shocked at our Student Trustees. They just add so much to the Board. I think it is indicative of all of our feelings about our Student Trustees that, in fact, we have asked the Legislature to allow them to be full voting members of the Board. I have served on other boards. I have served on other university boards where we have student trustees, but we are afraid to engage them in the way that we engage the students here. That is an engagement that I think, in effect, the Board has permitted and encouraged, but one that has been returned with such depth and meaning. Your service is indicative of the quality of the service that every Student Trustee gives us, and you are not really Student Trustees. I don’t really look at you that way. I certainly don’t look at you that way, Brandon. You are a Trustee; you are not a Student Trustee, so when you do get your nine-year term, it will simply be an eleven-year term because you really have served in every way as a Trustee and as a friend. I really appreciate that.

So, Les, and the other gentlemen, it really will be a different meeting when you are not in the meeting but, as I said, you should look at what happens to this University and realize that you have set it on an extraordinary path, both at a personal, individual level and for the University as a whole. I really thank you.

Mr. Fisher:

Well, if I could steal a little bit from the example of Wally, there is some good in being towards the end, and that is it is a great feeling of just sitting here and listening to all of you, my colleagues, in terms of what you have to say, how you say it, and how much I believe in and support everything that you have said. It has been particularly rewarding just sitting here and watching this.
April 6, 2012 meeting, Board of Trustees

Some have characterized board work as a parade of people. If I can use that analogy, I can look at the people that we have served with and now the people leaving this Board, look at all the things that I can reflect on, and can remember and enjoy from this parade and our colleagues that are leaving.

I also had the opportunity to work with a former Student Trustee who is on my staff at the Farm Bureau. Brandon will be right across the street, and I am sure we will have opportunities to work together. Another former Student Trustee is in a very prominent position in the U.S. Senate whom we work with frequently. I am sure Les, Alex, Wally and Brandon; we will all have unique, interesting, and great opportunities to work with all of you in the future.

It is also said that typically, and I think it is very true here, Boards do their best work when they select their leadership. The process may not be too good but in the end, the results are nearly always very good. I reflect back that Dr. Cloyd served a great role at a point in time on this Board and Les, you as well, in terms of being our leader with the issues and challenges we had during your tenure. You have served us well in that role so, to all of you, good work in selecting our leadership.

Brandon, to you, I look forward to seeing you maybe on a daily basis here in the future. I know I will run into Wally and Alex on an ongoing basis. I would end with, of all of you, probably the counselor who has been toughest on me has been Alex. He has given me some pretty firm advice, and what I really appreciate about it is I took it and I learned from it. Thank you, Alex.

Mr. O'Dell:

I think everybody knows that I can usually say what I want to say in about thirty seconds, but I am going to need a little more time than that right now. This has been one of the greatest days of my life. Serving on this Board for nine years is one of the greatest honors of my life. I have loved every second of it, and I am certainly going to miss it.

One of the greatest things about this Board is the Student Trustees and, Brandon, you have been an outstanding Student Trustee following a long line of outstanding Student Trustees.

I had a long working career. I was sort of the turnaround expert for Emerson Electric. I moved every two or three years and never really had a permanent home. I moved here from Hong Kong in '91 and put down deep roots over time. It started with people being very, very nice to me when I got here, and it started with Alex. Alex provided a little act of kindness when I moved to town and then so did Governor Voinovich and various other friends that I have developed along the way. This has become our lifelong home for my children as well as my grandchildren.

It has been an amazing opportunity and, Gordon, your friendship, your leadership is a very, very important part of that. I thank you for that, and I want to have a continuing, lifelong friendship.

Les, your leadership and Abigail’s leadership in this community, in this University, in this state has made this state and this University the place to be, the place I want to be, and I really, really thank you for that. Bobby, I wish you the very best. I know you will be a great chair and a great leader, and you and your family were great friends from the moment I moved here in '91. I thank you for that.

I wish this University and this Board the best, and I thank each and every one of you for the beautiful, touching, positive comments that you have made today, and in many other days, about me and my family. Thank you very much.
April 6, 2012 meeting, Board of Trustees

Mr. Shumate:

Let me just quickly say, thank you. It is definitely not good bye, but we will see you later.

Dr. Horn:

I just wanted to take a second to make an observation. I think the Board talks about things for so long that they forget what kind of impact they make outside the board room, if you will. Today, the University committed itself to a really radically new two-year experience for undergraduates. The University committed itself to providing 50 million new dollars to students for merit-based aid and need-based aid, and the University committed itself to increasing the size of the tenure-track faculty by eight to ten percent.

To paraphrase the chairman, “This is a big, damn deal.” There is no other public university that I know of that can be so bold. There are very few public universities that are even dreaming this boldly, and for that boldness of vision, we owe a debt of gratitude to the whole Board, but I think especially to our chairman for pushing us to be innovative and disciplined, to think big, and to aspire to be one of the great public universities in the country.

I mentioned last night that I have never been as proud as a faculty member of our University, and I hope it is not presumptuous to speak on behalf of the entire faculty to thank Brandon, to thank Wally, to thank Alex, and particularly to thank Les for their discipline and vision and commitment.

President Gee:

I am emotionally spent. I want you to know that. I really am. I must say that this has been one of the most extraordinary days, and this last session, I am just sitting here thinking what I would be able to say. I think I will just say a couple of things because I have had a chance to say what I really want to say about our Board members individually to all of you and individually to them.

I think we want to make two observations. First is that the reason that we can say wonderful things about the folks that are celebrated today is because of the fact that they have had great partners in the rest of our Board, and I think that is important. The work continues. Our aspirations are high. Our aspirations will continue to be even higher. Today, a standard has been set that is going to launch us in directions that are really remarkable as an institution, so I thank all of you for that. I thank every Board member here. I thank particularly the leadership that has been provided, and I am very blessed to have this position.

The second thing I want to say is an observation that we really did rise to our higher angels today. That was about as good as it gets, I think, so thank you very much.

Mr. Wexner:

Again, I said it at the beginning of the meeting and David recapped some of the achievements at the end, I think this hopefully becomes a tradition of going around the room at meetings because I think it is good to have hindsight, and then it is good to have insights, but it is also good to have this kind of reflection about the work of the work, and that is how I really interpreted the comments whether it is about expanding faculty or about expanding student aid.

As Gil talked about, we have gone a few years ago from talking about the idea of technology being important to actually creating a center, hiring talented people and bringing people together so that the technology we have and our thinking can impact the world, but we can also benefit from it by reinvestment in the institution. We have had those kinds of forward-thinking activities.
I am always interested in leadership, because we all wonder how we think or how we appear, because we never see ourselves accurately in the mirror, and people here have talked about caring about mankind, thinking big and differently, veracious curiosity, looking forward, teacher, consensus, friendship, teaming, driving forward, getting better, dynamic forces, the work of the work, about values, about profound and simple, about the notion of integrity and leading from a position of integrity, and servant-leaders, and I put those things together with one thought, you might put this in the notebook, leadership is like the wind; we all know when there is none and we all know when there is a lot whether it is a tornado or hurricane or still, calm air.

Invisible as it is, we feel the force of that leadership. The perspective that I put on the remarks I repeated that you have said, I just see enormous pride in what we have done together, because what you have described is not me but you. I am just the mirror that is reflecting the quality and the integrity of our leadership, the ability to think, the consensus building. None of us can make eagles fly in formation, and none of us can make ourselves think almost, let alone other individuals, and I think that in capturing the moment, there is a secret sauce of the collective efforts. I think it’s important that they be reflected in meetings and periodically together to make sure that there is the consensus, there is the integrity, there is the outside the box thinking, there is the veracious curiosity. The University needs that. The work is so important. No matter how we contribute or when we contribute, it requires those skills. I think that the Board, the whole Board, students and people of different backgrounds and perspectives are needed to move this institution forward. So the work of the work is very difficult, and it requires those kinds of collective characteristics.

I am positive that Bob will be successful, and Bob’s successor will be successful as long as there is a collective memory and, more than that, actions about those kinds of perspectives. The collective thinking of this group and a broad group, not only of the Trustees, but also of the administration, is the secret sauce; it is what drives the University forward, so I am appreciative of the work that we have done together. I truly see the comments that were made are collective and you should see them as a reflection of yourselves.

I am the small mirror. You guys are the bright lights. Thank you.

We are adjourned.

***

Thereupon the Board adjourned to meet Friday, June 22, 2012, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner
Chairman

David G. Horn
Secretary
Amendments to the Rules of the University Faculty

3335-3-20 Assistant vice president of undergraduate admissions and first year experience; Vice president for strategic enrollment planning.

Subject to the direction of the executive vice president and provost, the principal duties of the assistant vice president of undergraduate admissions and first year experience vice president for strategic enrollment planning shall be as follows:

(A) through (H) unchanged.

(B/T 7/12/91, B/T 2/4/93, B/T 4/4/97, B/T 12/4/98)

3335-5-08 Absence from duty.

Absence of any member of the teaching staff from ordinary service in the university, for any cause other than sickness, must be with the knowledge and approval of his or her chair or director and of the dean of the college and, if for longer than ten days, with the approval of the executive vice president and provost. For faculty assigned to a regional campus, the dean and director of that campus and the coordinating dean for regional campuses must also be notified and approve the absence. Sick leave is granted on approval of the appropriate administrative official when notification is given as soon as practicable, presumably on the first day of absence. (B/T 4/4/97, B/T 12/4/98)

3335-6-02 Criteria for appointment, reappointment, and promotion and tenure of tenure-track faculty.

(A) The Ohio state university has as its stated mission "the attainment of international distinction in education, scholarship, and public service." will be recognized worldwide for the quality and impact of its research, teaching, and service. For purposes of faculty performance reviews under these rules; "public service" is broadly defined to include administrative service to the university, professional service to the faculty member’s discipline, and the provision of professional expertise to public and private entities beyond the university and shall be referred to simply as "service" for the remainder of this chapter. For purposes of faculty performance reviews under these rules "scholarship" is broadly defined to include "research, scholarly, and creative work."

(1) “Research” is broadly defined to include discovery, scholarly and creative work, applied research, and the scholarship of pedagogy.

(2) “Teaching” is broadly defined to include didactic classroom, non-classroom and distance instruction, extension and continuing education, advising, and supervising or mentoring students or postdoctoral scholars.

(3) “Service” is broadly defined to include providing administrative service to the university, professional service to the faculty member’s discipline, and disciplinary expertise to public or private entities beyond the university.

Each tenure initiating unit is responsible for establishing criteria for appointment, reappointment, and promotion and tenure that are consistent with this mission and for ensuring that every faculty appointment, reappointment, and promotion and tenure recommendation is consistent with this mission.
Appointment decisions for regular faculty positions, as defined in rule 3335-5-19 of the Administrative Code, must be based on criteria that reflect strong potential to attain tenure and advance through the faculty ranks. A minimum requirement for appointment at or promotion to the rank of assistant professor or a higher rank is an earned doctorate or other terminal degree in the relevant field of study or possession of equivalent experience. Appointments at the rank of instructor should normally only be made when the offered appointment is that of assistant professor but the appointee has not completed the required terminal degree at the onset of the appointment.

(B) through (F) unchanged.

3335-23-01 Introduction and purpose.

The code of student conduct is established to foster and protect the core missions of the university, to foster the scholarly and civic development of the university’s students in a safe and secure learning environment, and to protect the people, properties and processes that support the university and its missions. The core missions of the university are research, teaching and learning, and service. Preservation of academic freedom and free and open exchange of ideas and opinions for all members of the university are central to these missions.

3335-23-02 Jurisdiction.

The code applies to the on-campus conduct of all students and registered student organizations, including conduct using university computing or network resources. The code also applies to the off-campus conduct of students and registered student organizations in direct connection with:

(A) Academic course requirements or any credit bearing experiences, such as internships, field trips, study abroad or student teaching;

(B) Any activity supporting pursuit of a degree, such as research at another institution or a professional practice assignment;

(C) Any activity sponsored, conducted, or authorized by the university or by registered student organizations;

(D) Any activity that causes substantial destruction of property belonging to the university or members of the university community or causes serious harm to the health or safety of members of the university community; or

(E) Any activity in which a police report has been filed, a summons or indictment has been issued, or an arrest has occurred for a crime of violence.

The code governs all campuses of the university, however, students attending at regional campuses, and the agricultural technical institute centers, or institutes are advised to consult their local campus publications resources for additional information or rules pertaining to those campus locations, which may create hearing boards or processes for the campus location, consistent with these rules.

The university reserves the right to administer the code and proceed with the hearing process even if the student withdraws from the university, is no longer enrolled in classes, or subsequently fails to meet the definition of a student while a disciplinary matter is pending.

Students continue to be subject to city, state, and federal laws while at the university, and violations of those laws may also constitute violations of the code. In such instances, the university may proceed with university disciplinary action under the code independently of any criminal proceeding involving the same conduct and may impose sanctions for violation of the code even if such criminal proceeding is not yet resolved or is resolved in the student’s favor. (B/T 3/2/2001, B/T 12/7/2007)
3335-23-03 Definitions.

As used in the code:

(A) "university premises" means includes all lands, buildings, and facilities, and resources owned, leased, managed, or operated by the university.

(B) The term "student" means an individual who has paid an acceptance fee, registered for classes, or otherwise entered into any other contractual relationship with the university to take instruction.

   (1) It further includes persons who are eligible to receive any of the rights and privileges afforded a person who is enrolled at the university, including, but not limited to, those individuals admitted to the university and attending orientation programs.

   (2) Student status lasts until an individual graduates, is dismissed, or is not in attendance for two complete, consecutive quarters.

   (3) The term "student" also includes registered student organizations.

(C) The term "members of the university community" includes, but is not limited to, students, faculty, staff, and visitors to the campus.

(D) The term "complaint" means a written statement, alleging a violation of the code of student conduct or other published rule applicable to students at the university, provided to an authorized university official, per paragraph (A) of rule 3335-23-05 of the Administrative Code. Information submitted by other means will be reviewed and may, at the university's discretion, be acted upon but will not be treated as a formal complaint.

(E) The term "crime of violence" means includes the offenses as stated in division (A)(9) of section 2921.01 of the Revised Code in effect on the date this rule is adopted:

   - Aggravated murder;
   - Murder;
   - Voluntary manslaughter;
   - Involuntary manslaughter;
   - Felonious assault;
   - Aggravated assault;
   - Aggravated menacing;
   - Menacing by stalking;
   - Kidnapping;
   - Abduction;
   - Extortion;
   - Rape;
   - Sexual battery;
   - Gross sexual imposition;
   - Aggravated arson;
   - Arson;
   - Aggravated robbery;
   - Robbery;
   - Aggravated burglary;
   - Inciting to violence;
   - Aggravated riot;
   - Inducing panic;
   - Domestic violence;
   - Intimidation of an attorney, victim, or witness in a criminal case;
   - Escape;
   - Improperly discharging a firearm at or into a habitation or school;
   - Burglary;
   - Felonious sexual penetration;
   - Conspiracy or attempt to commit or complicity in committing any of the foregoing offenses.

   Crime of violence also means offenses under the laws of another jurisdiction that are substantially equivalent to the offenses listed in this division. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-04 Prohibited conduct.

Any student found to have engaged, or attempted to engage, in the following conduct while within the university's jurisdiction, as set forth in rule 3335-23-02 of the Administrative Code, will be subject to disciplinary action by the university. For the purposes of this section, attempt shall be defined as conduct that, if successful, would constitute or result in the prohibited conduct. Any student who abandons an attempt or prevents the prohibited conduct from occurring under circumstances that demonstrate a complete and voluntary renunciation of the prohibited conduct will not be subject to disciplinary action by the university.
April 6, 2012 meeting, Board of Trustees

(A) Academic misconduct.

Any activity that tends to compromise the academic integrity of the university, or subvert the educational process. Examples of academic misconduct include, but are not limited to:

(1) Violation of course rules as contained in the course syllabus or other information provided to the student; violation of program regulations as established by departmental committees and made available to students;

(2) Knowingly providing or receiving information during examinations such as course examinations and candidacy examinations; or the possession and/or use of unauthorized materials during those examinations;

(3) Knowingly providing or using unauthorized assistance in the laboratory, on field work, in scholarship or on a course assignment;

(4) Submitting plagiarized work for an academic requirement. Plagiarism is the representation of another’s work or ideas as one’s own; it includes the unacknowledged word-for-word use and/or paraphrasing of another person’s work, and/or the inappropriate unacknowledged use of another person’s ideas;

(5) Submitting substantially the same work to satisfy requirements for one course or academic requirement that has been submitted in satisfaction of requirements for another course or academic requirement, without permission of the instructor of the course for which the work is being submitted or supervising authority for the academic requirement;

(6) Falsification, fabrication, or dishonesty in creating or reporting laboratory results, research results, and/or any other assignment;

(7) Serving as, or enlisting the assistance of a substitute for a student in the taking of examinations any graded assignments;

(8) Alteration of grades or marks by the student in an effort to change the earned grade or credit;

(9) Alteration of academically-related university forms or records, or unauthorized use of those forms or records; and

(10) Engaging in activities that unfairly place other students at a disadvantage, such as taking, hiding or altering resource material, or manipulating a grading system; and

(11) Violation of program regulations as establishment by departmental committees and made available to students.

(B) Endangering health or safety.

(1) Endangering behavior: Taking or threatening action that endangers the safety, physical or mental health, or life of any person, or creates a reasonable fear of such action, whether intentionally or as a result of recklessness or gross negligence. Relationship violence or intimate partner abuse may constitute endangering behavior.

(2) Stalking: Engaging in a pattern of unwanted conduct directed at another person that threatens or endangers the safety, physical or mental health, or
April 6, 2012 meeting, Board of Trustees

life or property of that person, or creates a reasonable fear of such a threat or action.

(C) Sexual misconduct.

Physical contact or other non-physical conduct of a sexual nature in the absence of clear, knowing and voluntary consent, including but not limited to:

(1) Non-consensual sexual intercourse, defined as any sexual penetration (anal, oral, or vaginal), however slight, with any body part or object, by any person upon any person without consent.

(2) Non-consensual sexual contact, defined as any intentional sexual touching, with any body part or object, by any person upon any person without consent.

(3) Sexual exploitation, defined as taking non-consensual, unjust or abusive sexual advantage of another. Examples include, but are not limited to, prostituting another student, non-consensual video or audio-taping of sexual activity, going beyond the boundaries of consent (such as knowingly allowing another to surreptitiously watch otherwise consensual sexual activity), engaging in non-consensual voyeurism, and knowingly transmitting or exposing an STD or HIV to another student without the knowledge of the student person.

(4) Sexual harassment, as defined in applicable university policy.

(5) Indecent exposure, defined as the exposure of the private or intimate parts of the body, in a lewd manner, in public or in private premises, when the accused may be readily observed.

For the purposes of this rule, consent shall be defined as the act of knowingly and voluntarily affirmatively agreeing verbally or non-verbally to engage in a sexual activity. Consent must be voluntary. An individual cannot consent who is obviously substantially impaired by any drug or intoxicant; or who has been purposely compelled by force, threat of force, or deception; or who is unaware that the act is being committed; or whose ability to consent or resist is obviously impaired because of a mental or physical condition; or who is coerced by supervisory or disciplinary authority. Consent may be withdrawn at any time. Prior sexual activity of relationship does not, in and of itself, constitute consent.

(D) Destruction of property.

Actual or threatened damage to or destruction of university property or property of others, whether done intentionally or with reckless disregard.

(E) Dangerous weapons or devices.

Use, storage, or possession of dangerous weapons or devices or substances including, but not limited to, firearms, ammunition or fireworks, unless authorized by an appropriate university official or permitted by a university policy, even if otherwise permitted by law. Use or misuse of weapons, devices, or substances in a manner that causes or threatens serious harm to the safety or security of others.

(F) Dishonest conduct.

Dishonest conduct, including, but not limited to, knowingly reporting a false emergency; knowingly making false accusation of misconduct; misuse or falsification of university or related documents by actions such as forgery,
April 6, 2012 meeting, Board of Trustees

alteration, or improper transfer; submission to a university official of information known by the submittor to be false to a university official.

(G) Theft/ or unauthorized use of property.

Theft or attempted theft, or the unauthorized use or possession of university property, or services, resources, or the property of others.

(H) Failure to comply with university or civil authority.

Failure to comply with legitimate directives of authorized university officials, law enforcement or emergency personnel, identified as such, in the performance of their duties, including failure to identify oneself when so requested; or violation of the terms of a disciplinary sanction.

(I) Drugs.

Use, production, distribution, sale, or possession of drugs in a manner prohibited under law. This includes, but is not limited to, the misuse of prescription drugs.

(J) Alcohol.

Use, production, distribution, sale, or possession of alcohol in a manner prohibited under law or applicable university policy or facility policy.

(K) Unauthorized presence.

Unauthorized entrance to or presence in or on university premises.

(L) Disorderly or disruptive conduct.

Disorderly or disruptive conduct that unreasonably interferes with university activities or with the legitimate activities of any member of the university community.

(M) Hazing.

Doing, requiring or encouraging any act, whether or not the act is voluntarily agreed upon, in conjunction with initiation or continued membership or participation in any group, that causes or creates a substantial risk of causing mental or physical harm or humiliation. Such acts may include, but are not limited to, use of alcohol, creation of excessive fatigue, and paddling, punching or kicking in any form.

(N) JudicialStudent conduct system abuse.

Abuse of any university judicialstudent conduct system, including but not limited to:

(1) Failure to obey the summons or directives of a judicialstudent conduct body or university official;

(2) Falsification, distortion, or misrepresentation of information before a judicialstudent conduct body;

(3) Disruption or interference with the orderly conduct of a judicialstudent conduct proceeding;

(4) Institution of Knowingly instituting a judicialstudent conduct proceeding knowingly without cause;
April 6, 2012 meeting, Board of Trustees

(5) Attempting to discourage an individual’s proper participation in, or use of, a university judicial student conduct system;

(6) Attempting to influence the impartiality of a member of a judicial student conduct body prior to, and/or during the course of a judicial student conduct proceeding;

(7) Harassment (verbal or physical) and/or intimidation of a member of a judicial student conduct body prior to, during, and/or after a judicial student conduct proceeding;

(8) Failure to comply with one or more sanctions imposed under the code of student conduct; and

(9) Influencing or attempting to influence another person to commit an abuse of a university judicial student conduct system.

(O) Violation of university rules or federal, state, and local laws.

Violation of other published university regulations, guidelines, policies, or rules, or violations of federal, state, or local law. These university regulations, guidelines, policies, or rules include, but are not limited to, those which prohibit the misuse of computing resources, sexual harassment, rules for student groups or organizations, and residence hall rules and regulations.

(P) Riotous behavior.

(1) Participation in a disturbance with the purpose to commit or incite any action that presents a clear and present danger to others, causes physical harm to others, or damages property.

(2) Proscribed behavior in the context of a riot includes, but is not limited to:

(a) Knowingly engaging in conduct designed to incite another to engage in riotous behavior; and

(b) Actual or threatened damage to or destruction of university property or property of others, whether done intentionally or with reckless disregard; and

(c) Failing to comply with a directive to disperse by university officials, law enforcement or emergency personnel; and

(d) Intimidating, impeding, hindering or obstructing a university official, law enforcement or emergency personnel in the performance of their duties.

(3) This rule shall not be interpreted as proscribing peaceful demonstrations, peaceful picketing, a call for a peaceful boycott, or other forms of peaceful dissent.

(Q) Recording of images without knowledge.

Using electronic or other means to make a video or photographic record of any person in a location where there is a reasonable expectation of privacy without the person’s prior knowledge, when such a recording is likely to cause injury, distress, or damage to reputation. This includes, but is not limited to, taking video or photographic images in shower/locker rooms, residence hall rooms, and restrooms. The storing, sharing, and/or distributing of such unauthorized records by any

JUDICIAL STUDENT CONDUCT PROCEDURES

3335-23-05 Initiation and investigation of code violations.

(A) Initiation.

Person(s) witnessing or experiencing what they believe to be a possible code violation should provide an authorized university official with the information.

(1) Information and/or complaints about possible code violations occurring in residence halls should be provided to the residence hall director.

(2) Information and/or complaints about possible non-residence hall related code violations should be provided to the director of student judicial affairs, or chief judicial conduct officer for the regional campuses.

(3) Information and/or complaints regarding academic misconduct should be referred to the coordinator of the committee on academic misconduct.

(4) In cases where the alleged activity may involve a violation of criminal law in addition to a violation of the code, information and/or complaints should be provided to the Ohio state university police or other appropriate law enforcement agency. The university will review all information and/or complaints received and may conduct a preliminary investigation of the alleged violation.

(B) Investigation.

(1) Role of the University.

(a) The Ohio state university police or other appropriate law enforcement agency shall have primary responsibility for the investigation of acts that involve suspected violation of federal, state, local laws or applicable university policies.

(b) Residence hall directors, assistant hall directors, the director of student conduct, the chief judicial conduct officer for the regional campuses, and other designated university personnel are authorized to investigate alleged violations other than those involving academic misconduct.

(c) The coordinator of the committee on academic misconduct is authorized to investigate allegations involving academic misconduct.

(2) Role of other participants.

(a) During the investigation, the student allegedly involved in misconduct may be:

   i. notified of the alleged violation,

   ii. requested to make an appointment to discuss the matter, and
iii. specifying a date by which the appointment must be made.

(b) Any person believed to have information relevant to an investigation may also be contacted and requested to make an appointment to discuss the matter.

(3) Failure to comply with such a request to make and keep such an appointment relevant to an investigation may result in a disciplinary hold being placed on a student’s registration and records and/or the initiation of charges for judicial student conduct system abuse.

(4) Upon completion of an investigation, the investigator will decide upon an appropriate course of action, which may include, but is not limited to:

(a) taking no further action,

(b) deferring further action with or without conditions, or

(c) initiating charges with the appropriate university judicial student conduct body. (B/T 3/2/2011, B/T 12/7/2007)

3335-23-06 Filing of complaint and initiation of charges.

A written complaint alleging a violation of the code of student conduct must be filed with the university as soon as practicable following the discovery of the alleged violation. Absent extraordinary circumstances, the written complaint must be filed within six months for cases of non-academic misconduct (paragraphs (B) through (Q) of rule 3335-23-04 of the Administrative Code), and one month for academic misconduct (paragraph (A) of rule 3335-23-04 of the Administrative Code), from the date upon which a university official becomes aware of the alleged violation and identifies the student(s) who allegedly committed the violation. Absent extraordinary circumstances, the university must initiate charges, if any, within one year of the filing of the complaint. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-07 Notice of charges.

(A) Notification.

Students shall be notified of university charges in writing, unless a more effective form of notification is deemed appropriate. Charges may be presented in person, by placement in a student’s residence hall mailbox, by email to the accused student’s official university email address, (which will direct the student to view the notice on a secure website), or by mail to the accused student’s local or permanent address on file in the office of the university registrar.

(B) Current address.

All students are required to maintain an accurate and current local and permanent address with the university registrar.

(C) Meeting with university official.

Following notification of charges, students are strongly encouraged to and shall be afforded the opportunity to meet with a university official for the purpose of explaining the university judicial student conduct process and discussion of the charges.
April 6, 2012 meeting, Board of Trustees

(D) Failure to respond.

Failure of the accused student to respond to the initiation of charges or schedule a preliminary meeting shall in no way prevent the university from scheduling and conducting a hearing in the absence of the accused student. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-08 Administrative decision.

In all cases, a student charged with one or more violations of the student code has the right to a hearing. However, in a case where a charged student admits to such violation(s) in writing, the student may request in writing to have a decision as to appropriate action made administratively by a hearing officer rather than have the charges referred to a hearing officer, panel, or board for a hearing. In such situations, the student waives the right to a hearing and the related procedural guarantees provided by a hearing officer, panel, or board hearing. Administrative decisions in academic misconduct cases involving graduate students are to be made in consultation with the graduate school. Following an administrative decision, the student retains the right to request an appeal of the original decision, but may do so only upon the ground that the sanction is grossly disproportionate to the offense committed. (B/T 3/2/2001, B/T 7/7/2006, 12/7/2007)

3335-23-09 Notice of hearing and request for postponement.

(A) Notice.

If a hearing is to be held, written notification will be provided. The notice may be hand delivered, placed into a student’s residence hall mailbox, sent by email to the accused student's official university email address, which may direct the student to view the notice on a secure website, or mailed to the last known address of the student, either by certified mail or first class mail, no fewer than ten calendar days prior to the hearing. Unless already provided to the student, the notification will include the charge(s), date, time, and location of the hearing, the designated hearing officer or panel, a statement of the student's rights, and information on the hearing procedures.

(B) Postponement.

The accused student may request a postponement for reasonable cause or a separate hearing separate from other accused persons. A request for a postponement for reasonable cause must be made in writing, include supporting rationale and be received by the person sending the hearing notification at least two business days before the scheduled hearing. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-10 Hearing procedures.

Although the procedural requirements are not as formal as those existing in criminal or civil courts of law, to ensure fairness, the following procedures will apply and, unless already provided to the student, be included within the hearing notice:

(A) Attendance.

Attendance at hearings is limited to those directly involved or those requested by the hearing officer or panel, to attend. The hearing officer or panel will take reasonable measures to assure an orderly hearing, including removal of persons who impede or disrupt proceedings.
April 6, 2012 meeting, Board of Trustees

(B) Advisor.

The accused student may have an advisor throughout the hearing disciplinary process. The advisor may only counsel the student and may not actively participate in the hearing disciplinary process, unless clarification is needed as determined by the hearing officer or panelboard.

(C) Written statements and witnesses.

The accused may: submit a written statement, may invite relevant factual witnesses to attend, may invite character witnesses to submit written statements, may as approved in advance by the hearing officer invite character witnesses to testify in person, may ask questions of witnesses called by others, and will be notified of potential witnesses to be called. The accused must also submit a list of potential witnesses, and identify those who are character witnesses only, to the hearing officer at least two (2) business days prior to the hearing. The university may present witnesses as well as question those presented by the accused.

(D) Witness absence.

Written The hearing officer or board coordinator may allow written statements may be used for a fact witness (i.e., not a character witness) if, for good reason, a fact witness cannot attend the hearing.

(E) Consultants.

In cases requiring special expertise, the panelboard coordinator may appoint individuals with appropriate expertise to serve as consultants to the panelboard. The consultants may be present and provide information as called upon during the hearing but will not vote.

(F) Standard of evidence.

Students are entitled to a presumption of innocence. Therefore, a student will not only be found in violation unless a preponderance of evidence supports the charge(s). In the event of a tie, the panelboard will continue to deliberate. If after the panelboard determines that exhaustive deliberations have occurred and a majority decision is not reached the student will be found not in violation.

(G) In cases where prompt review is essential (e.g., when graduation or the end of the academic year is imminent) the accused may be offered the option of an expedited administrative review consisting of an administrative decision or administrative hearing. The accused student may decline such expedited review without the expectation that the process can be completed on an expedited timeline. (B/T 3/2/2001, B/T 7/11/2003, B/T 12/7/2007)

3335-23-11 Attendance.

Because the most accurate and fair review of the facts can best be accomplished when all parties are present, the accused is expected to attend and participate. If an individual does not choose to attend a hearing, the charges will be reviewed as scheduled on the basis of the information available, and a decision will be made. Although no inference may be drawn against a student for failing to attend a hearing or remaining silent, the hearing will proceed and the conclusion will be based on the evidence presented. No decision shall be based solely on the failure of the accused student to attend the hearing or answer the charges. (B/T 3/2/2001)
3335-23-12 Record of proceedings.

A single record consisting of written notes, tape recording, or other method selected by the hearing panel or officer, will be made of all hearings. Such record will remain the property of the university but will be made available to the accused for review during the appeal period. A written notice of the decision and, if found in violation, information regarding appeal procedures will be provided to the accused student. (B/T 3/2/2001)

3335-23-13 Hearing bodies.

(A) In addition to the committee on academic misconduct, student conduct boards for university housing, residence life, and the university judicial panel board, the director of student judicial affairs, hearing officers within the office of student judicial affairs, the coordinator of the committee on academic misconduct, and university housing professional staff are to be considered as official university hearing officers, and may hear cases of alleged violations of the code affording accused students the same procedural guarantees as provided in hearings by a panel, committee, or board.

(B) Absent special circumstances, students will be afforded the right to choose an administrative or panel hearing. When necessary to ensure a fair and just process, the hearing officer may determine the appropriate hearing venue. The accused student has the right to accept responsibility for the charges, which will result in an administrative decision, or choose to have a hearing.

(C) Students will generally be afforded the right to choose an administrative or panel board hearing, except under special circumstances where, in order to ensure a fair and just process, the hearing officer may determine the appropriate hearing venue. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-14 Committee on academic misconduct.

(A) On behalf of the committee, the coordinator for the committee shall investigate and resolve or establish procedures for investigation of all reported cases of student academic misconduct that fall under the committee’s jurisdiction. The coordinator and chair shall establish procedure for the investigation and resolution of cases. The committee does not hear cases involving academic misconduct in professional colleges having a published honor code. These colleges shall follow their own codes and procedures which can be obtained in their respective central offices. Some allegations against graduate students that fall under the committee’s jurisdiction may also implicate the university’s interim policy and procedures concerning research misconduct in research or scholarly activities and/or the graduate school’s “Guidelines for the Review and Investigation of Allegations of Scholarly Misconduct by Graduate Students” policy on the investigation of allegations of research misconduct by a graduate student. Upon receipt of such an allegation, the coordinator shall meet with the dean of the graduate school or designee, and/or the senior vice president for research or designee, and these parties shall mutually agree on the appropriate procedure for adjudicating the case. Notice of this decision and a description of the procedure to be used shall promptly be given to the student who has been charged. The coordinator or committee chair may refer complaints to the office of student judicial affairs conduct if it is determined that the academic misconduct allegation is incidental to some other misconduct.

(B) The committee on academic misconduct is constituted according to rule 3335-5-48.7 of the Administrative Code.
April 6, 2012 meeting, Board of Trustees

(C) All complaints of academic misconduct shall be reported to the coordinator of the committee.

(D) Students have an obligation to report suspected misconduct.

(E) A quorum for a hearing shall be no fewer than four voting members of the committee which shall include no fewer than one student member and two faculty members.

For cases involving graduate students, reasonable efforts will be made to have graduate students serve as the student members of the hearing committee. (B/T 3/2/2001, B/T 7/7/2006)

3335-23-15 Student conduct boards for university housing/residence life.

The boards may only hear only those cases that occur within university housing, whether committed by residents or nonresidents. The boards are comprised of students living who currently reside or have resided in university housing/residence halls within the previous academic year, and. The boards may initiate any sanction with the exception of suspension or dismissal. If it appears during the hearing, to the board or to the board advisor, that the violation may be serious enough to warrant suspension or dismissal, the board will adjourn and refer the case back to the hearing officer for referral to the office of student judicial affairs. (B/T 3/2/2001, B/T 12/7/2007)

3335-23-16 University judicial panel/ conduct board.

(A) Membership.

The university judicial panel/ conduct board is responsible for adjudicating allegations of non-academic misconduct referred by the director of student judicial affairs/ conduct hearing officers, except for cases involving violations of professional college codes. The panel/ board consists of:

(1) Fifteen faculty and/or administrative members recommended by the director of student judicial affairs/ conduct to the vice president for student affairs/ life for three-year terms which begin with the autumn quarter;

(B)(2) Twelve undergraduate student members, appointed by the undergraduate student government;

(C)(3) Six graduate student members, appointed by the council of graduate students;

(D)(4) Two professional student members, appointed by the inter-professional council; and

(E)(5) The director of student judicial affairs/ conduct or designee shall serve as the panel/ board coordinator ex-officio without vote.

(F)(B) Quorum.

A quorum for a hearing shall be no fewer than four voting members of the panel/ board which shall include no fewer than two student members. A hearing board shall consist of no more than eight voting members.

(C) Appointment.
All student appointments shall be for staggered two-year terms, beginning in the autumn quarter. Six of the undergraduate student members, three of the graduate student members, and one of the professional student members shall be appointed in odd-numbered years, with the remainder appointed in even-numbered years.

(1) To be eligible for appointment or service, a student must possess a minimum 2.5 cumulative grade point average and not be under no current disciplinary sanction from the university.

(2) Additional alternate members may be appointed as needed.

(D) Removal.

The director of student judicial affairs may remove university judicial members for cause, including but not limited to, not attending training, falling below the minimum grade point average, repeated absences, violating the code of student conduct or other applicable laws or policies, or not responding to repeated attempts at communication. Notification shall be made in writing to the university judicial member prior to removal, whenever possible. (B/T 3/2/2001, B/T 12/7/2007)

UNIVERSITY SANCTIONS

3335-23-17 General guidelines for sanctions.

Sanctions should be commensurate with the violation(s) found to have occurred. In determining the sanction(s) to be imposed, the hearing officer or panel should take into account any mitigating circumstances and any aggravating factors including, but not limited to, any provocation by the subject of the conduct that constituted the violation, any past misconduct by the student, any failure of the student to comply with previous sanctions, the actual and potential harm caused by the violation, the degree of intent and motivation of the student in committing the violation, and the severity and pervasiveness of the conduct that constituted the violation. Misconduct, other than constitutionally protected expression, motivated by bias based on age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status may be considered an aggravating factor for sanctioning. Impairment resulting from voluntary use of alcohol or drugs (i.e., other than medically necessary) will also be considered an aggravating, and not a mitigating, factor. In determining the sanctions to be imposed on graduate students who have violated the code, the hearing officer or panel should be guided by the “Graduate Student Code of Research and Scholarly Conduct.” One or more of the following courses of action may be taken when a student has been found to have violated the code of student conduct.

(A) Informal admonition.

An oral or written admonition issued by a hearing officer or residence hall advisor resulting from the student’s misconduct. No formal charges, hearing or other compliance with the code is required before the issuance of an informal admonition. However, following issuance of an informal admonition, the student shall be entitled to a hearing upon written request, under the procedures provided in the code of student conduct. A written request for such a hearing must be filed with the university official who administered the informal admonition, within five working days of the student’s receipt of the informal admonition. An informal admonition shall not be considered a disciplinary sanction, but may be considered in any subsequent hearings.
Disciplinary sanctions.

(1) Formal reprimand.

A written letter of reprimand resulting from a student’s misconduct.

(2) Disciplinary probation.

This probationary condition is in effect for a specified period of time and may involve the loss of specified privileges. Further violation of university policies during the probationary period will additionally be viewed not only as a violation based upon the act itself but also as a violation of the probation, viewed as a violation of the probation, which shall result in further action up to and including suspension or dismissal.

(3) Suspension.

Suspension is a sanction that terminates the student’s enrollment at the university for a specified period of time. Satisfactory completion of specified stipulations may be required for readmission at the end of the suspension period.

(4) Dismissal.

Dismissal is a sanction which permanently separates a student from the university without opportunity to re-enroll in the future.

Conditions of suspension and dismissal.

A student who has been dismissed or suspended from the university shall be denied all privileges afforded a student and shall be required to vacate campus at a time determined by the hearing officer or panel board. In addition, after vacating campus property, a suspended or dismissed student may not enter upon campus and/or other university property at any time, for any purpose, in the absence of expressed written permission from the vice president for student life or designee. To seek such permission, a suspended or dismissed student must file a written petition to the vice president for student life for entrance to the campus for a limited, specified purpose or to have the terms of this condition modified or reduced.

Failing or lowered grades.

In cases of academic misconduct, a hearing officer or panel board may authorize the instructor to award a failing or lowered grade in the course, a loss of credit on the assignment or examination graded coursework, and impose any of the above-listed sanctions including suspension or dismissal from the university.

Other sanctions.

Other appropriate sanctions may be imposed by a hearing officer or panel board singularly or in combination with any of the above-listed sanctions. Examples include, but are not limited to, making restitution for property damage or misappropriation of university property or services, or the property of any person, residence hall contract termination or reassignment to another room, restriction of access to specified campus facilities and/or property, research assignments, community service projects, special workshop participation, and/or referral to medical resources or counseling personnel. (B/T 3/2/2001, B/T 7/7/2006, B/T 12/7/2007, 5/14/2010)
APPEAL PROCESS

3335-23-18 Appellate process.

(A) Right to appeal.

(1) A student found to have violated the code of student conduct has the right to appeal the original decision. The appeal is not intended to re-hear or re-argue the same case and is limited to the specific grounds outlined below. The appeal must state the specific grounds for the appeal and should include all supporting documentation. An appeal of a decision must be submitted in writing and postmarked or hand delivered to the appropriate appeal officer, or sent via email, as provided below, within ten calendarfive working days after the date on which notice of the decision is sent to the student. Each student shall be limited to one appeal. The decision of the appeal officer is final.

(2) In cases involving charges relating to sexual harassment as defined in applicable university policy, the victim may appeal the original decision in accordance with the appeals procedures provided in this section. Such charges include, but are not limited to, sexual misconduct and stalking.

(3) A student who has accepted responsibility for violating the code of student conduct waives the right to appeal, except on the basis that the disciplinary sanction imposed is grossly disproportionate to the violation(s) committed.

(4) Each party shall be limited to one appeal. The decision of the appeal officer is final.

(B) Grounds for appeal.

An appeal may be based only upon one or more of the following grounds:

(1) Procedural error that resulted in material harm or prejudice to the student (ie. by preventing a fair, impartial, or proper hearing). Deviations from the designated procedures will not be a basis for sustaining an appeal unless material harm or prejudice results;

(2) Misapplication or misinterpretation of the rule alleged to have been violated;

(3) Findings of facts not supported by a preponderance of evidence.

(4) Discovery of substantial new facts that were unavailable at the time of the hearing; and evidence that was unavailable at the time of the hearing and which reasonably could have affected the decision of the hearing body; or

(5) That the disciplinary sanction imposed is grossly disproportionate to the violation(s) committed, considering the relevant aggravating and/or mitigating factors.

(C) Appropriate appeal officers.

(1) Appeals from residence hall hearings:

(a) All appeals from residence hall hearings other than contract terminations, shall be submitted to the director of residence life or designee.
(b) All appeals where the sanction imposed by the residence hall hearing is contract termination shall be submitted to the director of student judicial affairsconduct or designee.

(2) Appeals from a judicial affairs hearing officer's decision of a student conduct hearing officer or from the university judicial panel's decision conduct board's will be submitted for decision to the vice president for student life or designee.

(3) Appeals from of decisions of the committee on academic misconduct or its coordinator of academic misconduct or the committee on academic misconduct will be submitted for decision to the executive vice president and provost or designee.

(D) Appeal proceedings.

(1) The appeal officer shall dismiss the appeal if the appeal is not based upon one or more of the grounds set forth in paragraph (B) of this rule.

(2) The appeal officer may decide the appeal based upon a review of the record and supporting documents (eg. prior disciplinary history).

(3) The appeal officer may request additional written information or an oral presentation from any relevant person(s)consider additional relevant information from any party to the proceeding and then decide the appeal based upon the enhanced record.

(E) Possible dispositions by the appeal officer.

The appeal officer may, after a review of the record:

1. Uphold the original decision and/or sanction(s);

2. Dismiss the original sanction, case or individual charge(s) against the student and vacate any portion or all of the sanction(s);

3. or impose a lesser sanction:Modify or reduce the sanction(s); or in cases involving charges relating to sexual harassment as defined in applicable university policy, enhance the sanction; or

4. Remand the case to the original hearing body or refer the case to a new hearing officer or panelboard to be reheard. If possible, a new hearing officer or panelboard should be different from the one that originally decided the case. If a case is reheard by a hearing officer or panelboard, the sanction imposed can be greater than that imposed at the original hearing. (B/T 3/2/2001, B/T 12/7/2007, 5/14/2010)

3335-23-19 Minor deviations from procedure.

A student and hearing officer may agree in advance to minor deviations from procedure. Such deviations are not then subject to appeal. Other minor deviations are acceptable as long as such deviations are not found upon appeal to be unreasonably materially harmful to the accused student. (B/T 3/2/2001)

3335-23-20 Interim suspension.

When the vice president for student life or designee has reasonable cause to believe that the student's presence on university premises or at a university-related or registered...
student organization activity poses a significant risk of substantial harm to the health or safety or security of themselves, others or to property, the student may be immediately suspended from all or any portion of university premises, university-related activities or registered student organization activities, and is not permitted to participate in, or complete academic coursework. This temporary suspension will be confirmed by a written statement and shall remain in effect until the conclusion of a full hearing or administrative decision, without undue delay, in accordance with the rules of the Ohio state university. The student may, within three working days of the imposition of the suspension, petition the vice president for student life for reinstatement. The petition must be in writing, and must include supporting documentation or evidence that the student does not pose, or no longer poses, a significant risk of substantial harm to the health or safety or security of themselves, others or to property. A hearing decision on such petition will be conducted made without undue delay by the vice president for student life or designee. (B/T 3/2/2001, B/T 7/11/2003, 5/14/2010)

3335-23-21 Administrative disenrollment and other restrictions.

(A) A student may be disenrolled from the university; prohibited from all or any portion of university premises, university-related activities or registered student organization activities; and/or permitted to remain only under specified conditions when the vice president for student life or designee finds that there is clear and convincing evidence that:

1. The student’s continued presence poses a significant risk of substantial harm to the health or safety of themselves, others, or to property; or,

2. The student, as a direct result of an apparent health condition, is engaged in substantial, continuing disruption of teaching, learning, research, administration or other university-related activities.

Before making such a determination, the vice president for student life or designee shall notify the student in writing of the reasons that disenrollment or other action is being considered, provide the student with an opportunity to respond, and consult with appropriate university personnel. The vice president for student life or designee may also consult with any other persons whom the vice president for student life or designee deems appropriate under the circumstances.

(B) In those cases under paragraph (A)(1) of this rule in which it appears that the risk posed by the student is a result of a health condition or a disability as defined by the Americans with Disabilities Act, and in all cases under paragraph (A)(2) of this rule, the vice president for student life or designee shall also determine whether the risk or disruption can be eliminated or sufficiently reduced through reasonable accommodation and, if so, shall take appropriate steps to ensure that accommodation is made. The vice president for student life or designee may request the student to undergo an appropriate examination, as specified by the vice president for student life or designee, to determine whether any such condition exists and whether any such accommodation is possible. If the student fails to undergo such an examination, and if the other available evidence supports a finding under either paragraph (A)(1) or (A)(2) of this rule, the vice president for student life or designee shall, to the extent reasonably possible, take the least restrictive measure or combination of measures necessary to resolve the risk or disruption.

(C) A student who has been disenrolled; prohibited from university premises, university-related activities or registered student organization activities; or permitted to remain only under specified conditions may petition the vice president for student life for revision of that status. The petition must include supporting documentation or evidence that:
April 6, 2012 meeting, Board of Trustees

(1) The conditions found to have existed under paragraph (A)(1) or (A)(2) of this rule no longer exist and will not recur, and

(2) The student meets all normal and appropriate standards for admission and enrollment in any academic unit in which the student seeks to re-enroll. Upon receipt of such a petition, the vice president for student life or designee shall evaluate the evidence and may consult with the student, any appropriate university personnel, and any other persons whom the vice president for student life or designee deems appropriate. The vice president for student life or designee may deny the petition, grant the petition in whole or in part under specified conditions, or grant the petition in whole or in part without condition. In the event of a negative determination by the vice president of student life, the student may request to have the decision reviewed by the executive vice president and provost. (B/T 3/2/2001, B/T 12/6/2001, 5/14/2010)

3335-23-22 Authority section.

The bylaws of the university board of trustees and rules of the university faculty provide that the university president shall have the final responsibility and authority for the discipline of all students of the university (see paragraph (A) of rule 3335-11-01 of the Administrative Code). This responsibility and authority has been delegated by the president to the vice president for student life, whose office is also charged with responsibility for promulgation of rules governing student conduct (see paragraph (H) of rule 3335-1-03 of the Administrative Code).

The deans of colleges and of the graduate school, the directors of schools, and the chairpersons of departments, respectively, are responsible to the president through regular disciplinary channels for the discipline of all students in the activities of their respective colleges, schools, and departments (see paragraph (B) of rule 3335-11-01 of the Administrative Code). Likewise, the deans and directors of the regional campuses are responsible to the president through the executive vice president and provost for the discipline of all students in the activities of their respective campuses.

The Ohio state university code of student conduct is an official publication of the university board of trustees. All petitions for revision and amendment of this code of student conduct should be submitted through the office of the vice president for student life. Proposed revisions to the code shall be reviewed, in draft form, by the office of the president, the office of academic affairs, and the steering committee of the university senate before being presented for approval to the university senate by the council on student affairs. No revision shall become effective unless approved by the university board of trustees and until printed notice of such revisions is made available to students. (B/T 3/2/2001, 5/14/2010)
University Vision: be the world’s premier public comprehensive university solving problems of worldwide significance.

University Mission: advance the well-being of the people of Ohio and the global community through the creation and dissemination of knowledge.

University Goals: Teaching and Learning, Research and Innovation, Outreach and Engagement, Resources Stewardship.

University Metrics: Graduation and retention rates.

* Experiential stipends will enhance students’ second-year across a variety of experiences including internships, teaching and research assistantships, service learning, study abroad, and leadership.
April 6, 2012 meeting, Board of Trustees

Second Year Residential Faculty Group

Charge: To envision best practices for generating faculty collaboration in university residential communities. To enhance the educational experience and the success of second-year students.

Dr. Javaune Adams-Gaston, Co-Chair
Vice President for Student Life

Dr. Timothy Gerber, Co-Chair
Professor and Secretary of University Senate
Professor, School of Music

Dr. Ola Ahlqvist
Director - Service-Learning Initiative

Dr. Leslie Alexander
Associate Professor, Department of History

Dr. Mark Bender
Associate Professor, Arts and Sciences

Dr. T.K. Daniel
Chair of Steering Committee
Professor, College of Education and Human Ecology

Dr. Vesta Daniel
Professor, Department of Art Education

Dr. Jennifer Evans-Cowley
Associate Dean for Academic Affairs and Administration for the College of Engineering

Dr. Lillian Fernandez
Assistant Professor, Department of History

Dr. Robert Gustafson
Professor, College of Food, Agriculture and Environmental Sciences

Dr. Karen Hutzel
Assistant Professor, Arts and Sciences

Dr. Susan Jones
Associate Professor and Section Head Higher Education and Student Affairs program

Dr. Scott Levi
Associate Professor, Department of History

Dr. Thomas McDow
Assistant Professor, Department of History

Dr. Antoinette Miranda
Associate Professor, College of Education and Human Ecology

Dr. David Stetson
Associate Professor, Arts and Sciences

Dr. Matt Stoltzfus
Lecturer, Arts and Sciences

Dr. David Tomasko
Associate Dean for Undergraduate Education in Student Services

Dr. Linn Van Woerkom
Associate Vice Provost and Director for University Honors & Scholars
Professor of Physics
April 6, 2012 meeting, Board of Trustees

Two Year Transformational Program Steering Committee

Charge: To provide guidance and overall recommendations for the two-year transformational experience, particularly as it relates to programming and ensuring that student needs are met.

Dr. Javaune Adams-Gaston, Chair
Vice President for Student Life

Julie Anstine
Administrative Director
Assistant to President

Molly Ranz-Calhoun
Assistant Vice President

Dr. Wayne Carlson
Vice Provost and Dean of Undergraduate Education

Megan Conroy
President, Inter-Professional Council

Dr. T.K. Daniel
Chair of Steering Committee
Professor, College of Education and Human Ecology

James Degraw
President, Residence Halls Advisory Council

Dolan Evanovich
Vice President for Strategic Enrollment Planning

Fred Fotis
Assistant Vice President for Student Life
Chief Housing Officer

Vijay Gadepally
President, Council of Graduate Students
Phone: 408-250-6839

Dr. Timothy Gerber
Professor and Secretary of University Senate

Nick Messenger
President, Undergraduate Student Government

Dr. Gretchen Metzelaars
Senior Associate Vice President Office of the Vice President for Student Life

Bernie Savarese
Interim Director of First Year Experience Undergraduate Admissions and First Year Experience

Dr. W. Randy Smith
Vice Provost for Academic Programs Academic Affairs Administration

Tracy Stuck
Assistant Vice President for Student Life

Amanda Waples
GAA – working on Masters – City and Regional Planning

Ex-Officio

Dr. Lance Kennedy-Phillips
Executive Director of the Center for the Study of Student Life

Kellie Uhrig
Director, Marketing Communications
Student Advisory Committee

**Charge:** The Student Advisory Committee to the two-year transformational program will provide feedback and ideas on how the physical design and environment of potential new residence halls can best support students.

**Process:** Members of the Student Advisory Committee will meet on a bi-monthly basis. Participants will be given the opportunity to meet with engineers, architects, planners, and steering committee members.
TOPIC: Revision of University Debt Policy

CONTEXT:

In May of 2010, The Board of Trustees amended the University Debt Policy which governs various aspects of the management and use of University debt and granted authority to the University Treasurer and/or Senior Vice President for Business and Finance to manage the use of University external debt in the form of bonds and leases, and internal debt in the form of loans and lines of credit in accordance with said Policy.

In an effort to make more efficient use of University resources, updates to this Policy have been recommended. These revisions have been recommended by the Vice President of Financial Services/University Treasurer and the Senior Vice President for Business and Finance.

HIGHLIGHTS:

External Debt

- Repayment period limitation is removed so appropriate terms can be determined on a case-by-case basis and in the best interest of the University.
- Definition and approval of leases expanded to cover all types of leases.
- Updates/changes made to titles, approvals and committee names.

Internal Debt

- To allow flexibility to act in the best financial interest of the University, limitations on repayment periods are lifted.
- To better utilize resources, integration of University’s capital planning policy into debt policy.
- To provide better flexibility and timeliness, terms and amounts for agreements requiring Board approval changed.
- Removal of Medical Center’s authority to issue internal lines of credit.
- To provide timeliness, approval requirement for leases, loans and lines of credit changed.
- Recognition of an internal bank as the mechanism for granting loans, leases and lines of credit.

funding sources
state appropriations; development funds; Arts & Sci general funds; Libraries general funds

project schedule
design/bidding – all phases 01/10 – 08/12
construction 01/12 – 08/13

Framework context
- during Framework planning, Sullivant Hall was identified as a key building within the Arts District
- project is consistent with general Framework principles of ensuring the academic mission drives the physical environment, matching building use to building typology, requiring projects to meet multiple goals, and improving wayfinding
- project is also consistent with the vision for the Arts District, particularly in helping to make the district accessible to both campus and community

project scope
- renovate Sullivant Hall to create a new home for the Billy Ireland Cartoon Library & Museum, currently located in the Wexner Center; renovate space for the Department of Dance, Department of Art Education and the Music/Dance Library; upgrade a 300 seat theater/lecture hall
- improvements for the Department of Dance spaces will include dance studios, flexible teaching and office space; Department of Dance space in Pomerene will be relocated to the renovated Sullivant Hall
- renovation work includes improving ADA access to the building; addressing building deferred maintenance; improvements to windows; roof replacement; tuck pointing of existing building exterior stone; upgrading lobby entries; mechanical and electrical upgrades; and a new building fire suppression system
- this project will pursue LEED silver certification per the Green Build and Energy Policy
- this project will use the Construction Manager at Risk delivery method

project update
- approval is requested to increase construction by $4.7M to cover the performance space fit-out and equipment and the south wing fit-out for ACCAD, Art Education and collaborative space for Arts & Sciences
- additional scope also includes windows on the west and south elevations; sprung wood floor; and suspended tension grid system for the performance space
- the increase will be covered with development funds
In support of the approved OSU Framework Plan, River Corridor District, the University has been requested to place 40.39 Acres of OSU property along the Olentangy River into an Environmental Covenant with Ohio Environmental Protection Agency (OEPA). This covenant supports the City of Columbus project to remove the 5th Avenue low head dam and restore a section of the Olentangy River from 5th Avenue north to Lane Avenue to a functional, riparian corridor. Benefits of the dam removal and river restoration include improved water quality, habitat, aesthetics, recreational and research opportunities. The land affected by the covenant is currently under water during most of the year but will be an exposed planted river bank once the project is complete. This dam removal and river restoration project is consistent with the Framework strategy to “Transform the River and the Green Reserve” and the vision for the River Corridor. Significant funding for the river restoration is through a Water Resource Restoration Sponsor Program (WRSP) grant, from Ohio EPA. The grant requirements include placing the land in the restoration project area into the Environmental Covenant. The purpose of the covenant is to assure that the restored river corridor and its environmental function are not impaired by land owner activities in the corridor. The covenant language is currently being negotiated to achieve an appropriate balance of river protection and flexibility for OSU and holders of existing easements.

We are requesting that President and/or the Senior Vice President for Administration and Planning be authorized to approve the appropriate documents and grant the environmental covenant and temporary easements upon such terms and conditions as are in the best interest of the University.
3335-43-07 Categories of the medical staff.

The medical staff of the Ohio state university hospitals shall be divided into six categories: physician scholar medical staff; attending medical staff; courtesy A medical staff; courtesy B medical staff; community affiliate medical staff; and limited staff. Medical staff members who do not wish to obtain any clinical privileges shall be exempt from the requirements of medical malpractice liability insurance, DEA registration and demonstration of recent active clinical practice during the last two years, but are otherwise subject to the provisions of these bylaws.

(A) through (F) unchanged.

(G) Clinical privileges.

(1) through (7) unchanged.

(8) Other licensed health care professionals.

(a) through (j) unchanged.

(k) Appeal process.

(i) A licensed health care professional may submit a notice of appeal to the chairperson of the professional affairs committee within fourteen thirty days of receipt of written notice of any adverse corrective action pursuant to these bylaws.

(ii) If an appeal is not so requested within the fourteen thirty-day period, the licensed health care professional shall be deemed to have waived the right to appeal and to have conclusively accepted the decision of the chief medical officer.

(iii) through (vii) unchanged.

(9) through (11) unchanged.

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

(A) unchanged.

(B) Chief quality officer.

The chief quality and patient safety officer of the Ohio state university medical center is referred to herein these bylaws as the chief quality officer. The chief quality officer reports to the chief medical officer and works collaboratively with clinical leadership of the medical center, including the director of medical affairs for the James cancer hospital, nursing leadership and hospital administration. The
chief quality officer provides leadership in the development and measurement of the medical center’s approach to quality, patient safety and reduction of adverse events. The chief quality officer communicates and implements strategic, operational and programmatic plans and policies to promote a culture where patient safety is an important priority for medical and hospital staff.

(C) Medical directors.

The medical directors of the hospitals of the Ohio state university report to the chief executive officer or the executive director of the respective hospital and chief medical officer. Each medical director will collaborate with the chief quality officer, the chief medical officer and the clinical department chiefs to develop, execute and monitor the quality and safety programs of the hospital. The appointment, scope of authority, and responsibilities of the medical directors for the Ohio state university hospitals shall be further outlined in the Ohio state medical center board bylaws.

(D) Medical staff committees.

(1) Appointments:

Appointments to all medical staff committees except the medical staff administrative committee, nominating committee and all health system committees, shall be made jointly by the chief of staff, chief of staff-elect, and the medical directors with medical staff administrative committee ratification. Representatives from the Ohio state university hospitals to health system committees shall be appointed jointly by the chief medical officer of the health system and the medical director. Unless otherwise provided by these bylaws, all appointments to medical staff committees shall be for one year and may be renewed. The chief of staff, chief medical officer, medical director, and the chief executive officer of the Ohio state university hospitals may serve on any medical staff committee as an ex-officio member without vote.

(2) Meetings:

Each medical staff committee shall meet at the call of its chairperson and at least quarterly. Committees shall maintain records of proceedings and minutes of meetings and shall forward all recommendations and actions taken to the chief medical officer who shall promptly communicate them to the medical staff administrative committee. The chairperson shall control the committee agenda, attendance of staff and guests, and conduct of the proceedings. A simple majority of appointed voting members shall constitute a quorum.

(3) Peer review committees:

The medical staff as a whole and each committee provided for by these medical staff bylaws is hereby designated as a peer review committee in accordance with the laws of the state of Ohio. The medical staff through its committees shall be responsible for evaluating, maintaining and/or monitoring the quality and utilization of patient care services provided by the Ohio state university hospitals.

(E) Medical staff administrative committee.

(1) Composition.
This committee shall consist of the following voting members: chief of staff, chief of staff-elect, chiefs of the clinical departments, three medical staff representatives elected at large, the chief medical officer, and the chief executive officer of the Ohio state university hospitals. Additional members may be appointed to the medical staff administrative committee at the recommendation of the dean or the chief medical officer of the OSU health system medical center subject to the approval of the medical staff administrative committee and subject to review/renewal on a yearly basis. Any members may be removed from the medical staff administrative committee at the recommendation of the dean or the chief medical officer of the medical center and subject to the review and approval of the medical staff administrative committee. A replacement will be appointed as outlined above to maintain the medical staff administrative committee's constituency. The chief medical officer shall be the chairperson and the chief of staff shall be vice-chairperson.

Any member of the committee who anticipates absence from a meeting of the committee may appoint as a temporary substitute another member of the same category of the medical staff to represent him or her at the meeting. The temporary substitute shall have all the rights of the absent member. The chief executive officer of the Ohio state university hospitals may invite any member of the chief executive officer's staff to represent him or her at a meeting or to attend any meeting.

All members of the committee shall attend, either in person or by proxy, a minimum of two-thirds of all committee meetings.

Duties.

To represent and to act on behalf of the medical staff, subject to such limitations as may be imposed by these bylaws, by the bylaws of the Ohio state medical center board, the bylaws or rules of the board of trustees of the Ohio state university.

To have primary authority for activities related to self-governance of the medical staff. Action approved by the medical staff administrative committee can be reviewed by the professional affairs committee pursuant to section 3335-43-13 of these bylaws.

Balance unchanged.
April 6, 2012 meeting, Board of Trustees

(APPENDIX XXXIX)

Technology Commercialization and Knowledge Transfer

The Ohio State University Commercialization Affiliate Business Plan

1 Executive Summary

The Technology Commercialization Office (TCO) requires authorization to create new groups of affiliates in order to expand the revenue potential from intellectual property created at OSU. The TCO is in the process of completely overhauling its systems, programs, and structure to expand the licensing opportunities of OSU inventions. TCO is currently limited in the type of deals it can negotiate and the ultimate return on investment due to restrictions imposed on state entities which limit direct investment in private companies and restrict the ability to protect confidential information in business negotiations for highly competitive and time-sensitive technologies. The creation of affiliates as proposed will allow OSU to accept equity as compensation for licensing its technology, to actively develop start-up companies to commercialize its technology, and to make follow-on investments in the most promising licensees of its technology, all while honoring conventional commercial confidentiality practices.

TCO requests authority to create a 501(c)(3) significant interest affiliate (Ohio State Innovation Foundation – OSIF) and to delegate to the Senior Vice President of Business and Finance, in consultation with the Vice President for Technology Commercialization, and Senior Vice President and General Council the power and authority to create for-profit and nonprofit arm’s length affiliates (TechStart1, TechStart2, etc.) as needed to effect the objectives of this business plan.

OSIF will be a commercialization affiliate that will be the conduit for all technology royalties and fees. It will require a $2 million start-up loan from OSU, which is anticipated to be repaid within five years; after which TCO will be cash-flow positive. This commercialization plan will produce substantial overall benefits to OSU in the next ten years. OSU faculty researchers and students will benefit from $16.8 million in training and support to evaluate the commercial potential of their discoveries. TCO will generate substantial new revenues that will be new funds available to the university.

OSIF will retain all but inventor royalties to pay for all patent-related legal expenses and a contracted portion of TCO staff and administrative expenses. It will retain 25 percent of the remainder to support its start-up programs and to reimburse TCO for the grants TCO plans to award to OSU colleges from TCO operating funds. The other 75 percent will be distributed per OSU policy.

OSIF will be consolidated with OSU in OSU financial statements and will be subject to all Ohio open meeting and public record laws. OSIF exposes OSU to no direct financial risks beyond any direct funding of start-up and operational expenses. Risks include:

1. The risk of lost potential licensing revenue from a failed licensee company;
2. Reputational risk from such actions as insider dealing, conflicts of interest, and misconduct.

Risks are controlled through OSU majority control of the OSIF board, contractual terms in assignment of OSU intellectual property to OSIF, and effective management in the Technology Commercialization Office, which will provide all services required by OSIF.
TechStart 1 et al. will be non-university-controlled operating affiliate(s) of OSIF and may be nonprofit or for-profit as indicated by their particular activities and purposes. TechStart 1 et al. will be able

- to form companies to develop and commercialize OSU technologies,
- to take equity in those companies as compensation for that technology,
- to provide services in exchange for cash or equity to licensee companies to enhance the probability of successful commercialization, and
- to make follow-on investments in start-up licensee companies to increase the financial benefit to OSIF from successful commercialization.

Neither of the final two activities are currently open to OSU as a state instrumentality, under both the Ohio Constitution and statute.

No OSU funds will be provided to TechStart 1 et al.. OSU will have minority representation on TechStart boards, but OSU or its designee, including OSIF, may have 100% initial equity ownership in some or all TechStart affiliates as compensation for licenses to OSU technology. All business or operational activities will be conducted by TechStart affiliates. TechStart affiliates expose OSU to no direct financial risks. Their risks include:

1. The risk of lost potential licensing or service revenue from a failed licensee or client company and
2. Reputational risk from such actions as company failure, insider dealing, conflicts of interest, and misconduct.

While OSU will have no majority governance control of TechStart affiliates, it will exercise control through the selection of commercially viable technologies by TCO staff, the negotiation of favorable license terms, the requirement of certain reserve powers in the affiliates code of regulations or operating agreement, the careful selection by TCO staff of start-up or existing companies to commercialize OSU technologies, and the quality of financial and business support provided by TCO staff to third party companies through TechStart activities.

If authorization is obtained in April 2012, the following actions will be taken by June 2012:
- Ohio State Innovation Foundation will be created.
- Ohio State Research Foundation will assign all licenses and intellectual property it holds to either the Technology Commercialization Office or to OSIF.
- TechStart1 will be created to provide software services to start-up companies licensing OSU intellectual property.
- A contract will be executed for OSU/TCO to provide staff services to OSIF.
- A contract will be executed for OSIF, through TCO, to provide services to TechStart1.
- A contract will be executed for TechStart1 to provide services to start-up companies.

1.1 OSU’s Technology Commercialization System and the Value of Affiliates

Technological innovation is a key driver in the Ohio economy which has not reached its potential. OSU is a leader in research but it has not converted that research into commercially viable businesses that generate jobs, tax revenues, and a higher standard of living for Ohio’s citizens. Great economies are built around great universities, which can attract industry funding, the best entrepreneurs, and great intellects. When successful, this synergy attracts capital and
start-up companies that remain within the region, further feeding a cycle of economic growth and prosperity.

OSU has not yet been successful in creating that synergy and it recognizes that, in a world of uncertain state support, it is vital to tap the talent and commercial potential that is already present. Many changes in the Technology Commercialization Office will help to support researchers in understanding the commercial potential of their discoveries and the steps necessary to evaluate the feasibility of moving that discovery into production. But that is only the first of many steps needed for a business to become viable.

OSIF will be the mechanism for supporting the development of viable businesses that utilize OSU intellectual property. It will be the vehicle for

- channeling royalties and licensing fees to OSU researchers and their colleges and departments;
- attracting private contributions to support research commercialization;
- creating independent, arm’s length for-profit affiliates (TechStart1 et al.) to work with private-sector investors and entrepreneurs.

The primary goal of OSIF is to create a commercial platform, through the TechStart arm’s length independent affiliates, that can support the commercialization efforts of the TCO at OSU. OSIF will provide a flexible platform to develop and expand technology commercialization education and training at OSU and to use TechStart affiliates to pro-actively invest in economic development in Ohio by growing commercial companies using the intellectual property of OSU.

A secondary objective is to create some alternative revenue sources to allow the TCO to become more self-sufficient and to replace dwindling state support. Start-up businesses are high risk undertakings and there can be no assurance that a significant percentage of start-ups will bring significant financial benefit to OSU via OSIF, compared with the more probable benefits of national prestige, research productivity, attraction of capital to Ohio, and development of an entrepreneurial culture at OSU and in central Ohio.

This technology commercialization plan and the proposed creation of OSIF and TechStart1 et al. are based on a compilation of analysis of existing metrics from Milken, AUTM, and Knuffman as well as on interviews and surveys with key stakeholders including companies, inventors, deans, entrepreneurs, and internal staff.

From this review, we determined that over 80% of the top 10% of technology commercialization offices have an independent Foundation like OSIF. This structure provides flexibility and control of activities while allowing the operation to function more as a business. The majority are integrated with the University, particularly by using university employees.
This new entity OSIF, in combination with the TCO, will allow OSU to establish a technology commercialization program along the complete continuum from investigation to feasibility to full commercial production as illustrated above.

This commercialization program has eight goals:
1. Create a responsive and aligned infrastructure that builds and supports an entrepreneurial university culture
2. Integrate – at every level to enhance communication and efficiency
3. Establish small trusted networks of stakeholders to assist with commercialization
4. Evaluate completely and quickly so that we identify non-commercially-viable innovations fast and early
5. Measure outcomes so funds can be used to greatest effect
6. Educate OSU faculty, students, staff, and supporters on the benefits and methods of commercialization
7. Enhance the benefits of public-private partnerships through research and business development
8. Execute so we become the “go to” matchmaker by inventors and investors

To accomplish these goals the TCO needs a supporting independent entity to avoid conflicts and perform the following tasks:
• Provide more consistent and effective access to CEOs and executive management talent and maintain confidentiality during negotiations.
• Establish new access to funding for entrepreneurs, and start-up opportunities to investors
• By its independent, non-public status, it can quickly and efficiently create start-up companies from OSU innovations and in an environment well-suited for start-ups.
• With the benefits of independence, this entity will be able to attract the attention of companies and establish more channels for potential exit strategies.

The long-term goal of OSIF is, through fund-raising and successful commercialization activities, to provide support to OSU researchers and students through the creation of unique educational opportunities in key colleges.

2 Business Plan

2.1 Goals and Objectives

While OSU consistently ranks high in the amount of sponsored research it conducts, it severely underperforms in the following areas:
1. Number of patents issued,
2. Number of Revenue generating license agreements,
3. Quality of corporate relationships
4. Student involvement and education
5. Assessment and marketing of inventions
6. Engagement of Inventors
7. Support of translational research
8. Start-up creation
9. Equity and liquidity events
10. Total revenue generated from licensing and equity

The goal of the TCO is to address deficiencies #1-7 through a complete overhaul of its systems, processes, support programs, organization structure culture and education and outreach. A representation of this new organization is illustrated in Figure 3. The goal of OSIF is to create an independent entity that will address the remaining deficiencies through its TechStart affiliates, funding initiatives and the creation of start-up services that support shortening the product development cycle and ultimate exit.
2.2 How mission promotes, sponsors, or complements the mission of OSU

The Academic Plan for OSU seeks to advance the well-being of the people of Ohio and the global community through the creation and dissemination of knowledge. OSIF will connect that dissemination to the marketplace to create jobs, improve the economic welfare, and enhance the reputation of the State of Ohio. Through active marketing of OSU intellectual property to businesses and active engagement of faculty and students in the technology commercialization process, OSIF will provide the foundation to advance two of OSU’s core values: “Produce discoveries that make the world a better place”, and “open the world to our students”.

OSU also is focused on improving the economy of the State of Ohio and is fostering the idea that great economies are built around great universities. With a visible and proactive commercialization program, universities attract:
• A wealth of capital
• The best entrepreneurs
• Industry funding
• Superior faculty
• Engagement of interested alumni
• Increased funding

With this combination, great universities become the drivers of technological economic development. This development remains within the local economy as shown by the fact that almost 85% of capital and companies stay within 50 miles of the university where the technology was created.

The focus of businesses on market driven ideas in turn prompts support for education programs and basic and applied research at the university. When properly protected and guided by the TCO this will lead to publications by faculty and students and, through the work of OSIF to innovation and new products in the community.

The potential economic impact of a successful commercialization program is illustrated by the commercialization program of the University of Utah, shown in the following table.

![Table showing economic impact](image)

Source: Jan Crispin, *The Economic Impact of Startup Companies and Invention Licensees Originating from Research at the University of Utah (University of Utah Bureau of Economic and Business Research) March 2011.*

While there are no guarantees in the start-up business, university-sourced start-up companies have a remarkable history of success in staying viable and converting to publicly-owned status. For example, over 68% of all university start-ups nationally are still in business, compared with a 10% survival rate in the private sector. In terms of successful exit by selling all equity to the public in order to return the university’s investment, eight percent of all university start-ups go public, in comparison to a “going public rate” of only seven one-hundredths of one percent of other U.S. enterprises.

2.3 Brief History of IP Commercialization at OSU

Ohio State ranks in the top ten nationally with $716 million in research expenditures in 2009. The university’s 2009 licensing revenue, however, was $1.7 million, substantially out of line with its research effort and indicative of shortcomings in its commercialization program. The table below provides data on the technology commercialization success at a few other
This illustrates that OSU has the potential to increase its licensing revenue up to tenfold. The prerequisite for this revenue is a pipeline of patents, patent applications, licenses, and start-ups which will take years to develop. The changes anticipated for the TCO and OSIF will address this pipeline problem and, with patience and sufficient funding, will bring OSU licensing income more in line with these other universities.

In interviews with OSU faculty and students, the TCO found the following symptoms for the current disconnect between research and commercialization:

- Many faculty don’t know about the patent and licensing process and place a higher value on publishing than making their discoveries known to industry
- Faculty haven’t seen rewards so they cannot properly weigh the benefits and costs of protecting their discoveries
- Corporate partners bring too little value to OSU through current licensing agreements
- It is difficult for faculty to become aware of the support available and procedures necessary to protect their discoveries
- There are no feedback mechanisms to help faculty and students to know the criteria which create commercial potential for intellectual property
- There is a lack of funding for the early stages of investigation and development of the commercial potential of a discovery.

2.4 How these Affiliates are an appropriate next step

In combination with TCO, these affiliates will address these five deficiencies:

- Establish standards and guidelines for faculty consulting contracts. Currently fewer than 25% of agreements are reviewed, yet flaws in contracts are the most common way in which universities lose rights to their intellectual property. We are not recommending a review of faculty research contracts but we will post guidelines. This affiliate will be independent so that it can choose the most appropriate law firms to provide protection for each type of intellectual property.
- Prototyping is an essential step in evaluating the commercial viability of a discovery and in attracting outside investment. This entity will actively finance the production of
prototypes at the appropriate stage of evaluation and development of OSU innovations. The need to produce prototypes is especially acute for web lab discoveries.

- The current commercialization program does not provide funding to form start-up companies. This new entity will be a primary source of start-up funding and it will also pro-actively seek outside investors in its start-ups.
- Slowness or difficulty in starting a company is a major area of faculty disaffection with the technology commercialization process. In our survey we found that about 40% of faculty are interested in forming a start-up company but about 30% tried to do it through OSU and felt the process was too complicated and frustrating to pursue. At least half of these then ended up seeking outside assistance in commercializing their discoveries. This new entity will create a rapid, more predictable process to approve and start new companies to develop our faculty’s discoveries.

2.5 Nature of business and realistic expectations for commercialization and revenue returns to OSU

The role of the proposed affiliates is best understood in the context of the entire commercialization program, which is illustrated in Figure 6. The TCO will negotiate contracts on behalf of OSIF. License fees and payment for staff services will flow through OSIF back to TCO. OSIF provides staff services to the arm’s length TechStart affiliates. The TechStart affiliates will be the operating units which will start up new companies and maximize the return of OSU equity. TechStart can accept payment in the form of cash, which will flow to OSIF, or in the form of equity in the contracting companies, which will be held by a TechStart holding company (TechStart 1 in Figure 6) until the equity is liquidated and the proceeds transferred to OSIF.

In addition, the OSIF affiliate can accept donations from third parties who wish to support OSU technology commercialization and it can apply for and receive grants from the State of Ohio Third Frontier and other commercialization grant programs.

A follow-on arm’s length investment fund (TechStart 4 in Figure 5) can accept investments from the OSU Long-Term Investment Fund to in turn invest in the most promising start-up companies formed by other TechStart affiliates. The start-up companies are completely independent of OSU, OSIF, and TechStart. It is likely that TechStart will maintain a relationship with the start-up companies through board seats or through service contracts. Oversight of compliance with the terms of the IF license agreement will always require regular communication with the start-ups.
OSU is creating the arm’s length affiliates TechStart in order to accept equity as payment for intellectual property and potentially to allow OSU Long-Term Investment Pool investments in companies started through TechStart.
Figure 7 illustrates the reasons for creating this hierarchy of entities to manage technology commercialization. TCO is an OSU department which is the primary center of OSU commercialization activities. The majority of employees working on OSU commercialization will be TCO staff. In addition, TCO will be the primary interface with faculty and students in training them in the commercialization process and in evaluating the commercial potential of the faculty and student discoveries.

OSIP is intended to be a 501(c)(3) significant interest affiliate. Its financial statements will be consolidated into OSU’s statements. Its staff will be exclusively TCO staff provided through contract and it will be assigned all OSU commercializable intellectual property through license agreements with TCO. The primary purpose for creating this affiliate is to enable outside gifts and grants to support commercialization and to enable the creation of arm’s length affiliates (TechStart) whose activities will not be consolidated with OSU’s.

TechStart et al. are arm’s length affiliates which provide services to unrelated, independent start-up companies. TechStart may also have independent employees. As arm’s length affiliates, they are able to accept equity from start-ups as compensation for IP and services, they are able to form start-up companies that are independent of OSU, and they are able to form an investment fund that can make follow-on investments in start-ups to mitigate dilution of the initial equity position as the start-up expands and acquires additional investors.

The economic potential of this commercialization program can be evaluated only over an extended period. For example, the University of Michigan has spun off companies for over thirty years. Their endowment reviewed the performance of U of M start-ups and found their performance tracked the performance of other endowment venture investments. The university typically licenses university IP to the start-ups, receiving equity or royalty fees in return. The equity stake is typically diluted over time, so the university has developed a follow-on investment program to mitigate this dilution. This year the university committed $25 million from its endowment to a passive investment program which invests $500,000 in its start-up companies once the start-up has secured venture capital from outside sources (and hence a dilution of the university’s initial equity stake). This program has been named Michigan Investment in New Technology Startups (MINTS).
The initial start-up investment and eventual conversion to a net positive return to OSU from OSIF and TechStart activities is summarized in Figure 8. More detailed results and the 10-year plan are discussed in later sections. In addition, the $16.4 million of initial General Fund support to TCO operations can be recovered over this period through OSIF transfers to TCO.

2.6 Governance, independence, and control

The governance and control structure in the proposed commercialization program is different at each level. Figure 9 summarizes the important powers, controls, and resources of the three components of the system: TCO, OSIF, and TechStart1 et al.
OSU maintains full governance control over TCO. TCO will ensure the quality of the commercialization program through the terms of the contracts it executes for OSU intellectual property and for OSU staff services. It will also ensure quality through its evaluation of the commercialization potential of OSU discoveries, advancing to development only those discoveries most likely to reach commercial production. Because TCO will provide the staff for OSIF and for most TechStart needs, its management has full control via its human resource policies and staff evaluations over conflicts of interest, insider dealing, misconduct, and other reputational risks to OSU. TCO can receive only cash from OSIF services and IP licenses. It cannot receive the proceeds of grants or gifts to OSIF. OSIF will be subject to Ohio public records laws.

OSU maintains governance control over the service, licensing, fundraising, and grant application activities of OSIF through holding a majority of the board seats. Since all employees of OSIF will be TCO staff, management control of OSIF will be similar to the control of TCO. OSIF is able to accept gifts and to apply for and receive grants to support its training, education, and licensing activities. OSU will provide no funds to OSIF other than the $2 million start-up loan so that OSU has minimal direct financial risk. Its primary financial risk will be lost potential income from failure of OSIF activities to maximize the commercial potential of the intellectual property which TCO has determined merits development. Reputational risk is controlled analogously to TCO, through the terms of its licensing agreements and service contracts with the TechStart affiliates.

TechStart affiliates are arm’s length affiliates so that OSU will have no meaningful governance control over them, other than required reserved powers in the entities’ governing documents. OSU representatives will be on some or all of the TechStart boards, but they will be a minority. With this independence, TechStart affiliates will not be subject to Ohio public records laws and they will be able to negotiate licensing agreements and service contracts in full confidentiality. With their independence they will be able to start-up public companies and establish corporate terms and agreements without concern for public disclosure.

OSU will mitigate its risk to TechStart affiliates through its control over the creation of TechStart affiliates and their initial articles of incorporation, which must be approved by the university’s Senior Vice President for Business and Finance, the Vice President for Technology Commercialization, and the Senior Vice President and General Counsel in consultation with the university’s Research and Commercialization Working Group. Limited control will also be exerted to the extent that TechStart contracts for OSIF staff services from TCO employees. Those contract terms and the terms of intellectual property licensed to TechStart will provide an additional control.
<table>

<td>Cash and equity via contract with start-up companies; no OSU or TCO funds may be accepted</td>
<td>Contract with OSIF</td>
</tr>
</tbody>
</table>
The companies which are started by TechStart and the intellectual property licensed by TechStart will have reputational risk and the risk of lost potential income to OSU. The hiring of employees with strong marketing, management, and commercial negotiation skills will be essential to mitigating those risks. TechStart can mitigate risk through the contract terms it negotiates with those companies, including use of intellectual property, conflicts of interest, and reporting. Those skills will also inform the prudence of accepting equity rather than cash as payment for services and intellectual property. It is expected that TechStart employees will be actively involved in the governance and management of every company started by TechStart to maximize the probability of successful commercial development of OSU’s intellectual property.

2.7 Financial benefits to OSU and OSU constituencies (flow of funds)

The OSIF and TechStart activities will require an initial $2 million capital loan which will be repaid by FY2018. They are anticipated to have positive cash flow immediately. As discussed in later sections, some of this capital is anticipated to be provided by Third Frontier grants applied for jointly with Tech Columbus. Please see Section 3.2 for a more detailed discussion of the financial plan.

2.8 Corporate Structure

Upon receiving approval from The Ohio State University Board of Trustees, an Ohio not-for-profit corporation will be formed. That corporation, The Ohio State University Innovation Foundation (“OSIF”), will file an application for 501(c)3 status with the Internal Revenue Service. OSIF will be a significant interest affiliate as defined under the University Policy on Affiliated Entities. The sole member of OSIF will be another Ohio State significant interest affiliate (e.g. The Ohio State University Research Foundation). The code of regulations of OSIF shall provide for control by Ohio State. A majority of the board of directors of OSIF shall be either employees of Ohio State or be appointed by Ohio State.

From time to time, OSIF shall establish operational subsidiaries to conduct the commercialization activities/operations laid out therein. These subsidiaries can be either for profit or not for profit. The subsidiaries will be arms lengths affiliates as defined under the University Policy on Affiliated Entities. The code of regulations or operating agreements governing these entities may provide the appointment of a minority of Ohio State designated directors or managers and shall provide for certain reserved powers that require the unanimous vote of the Ohio State for adoption. OSIF shall initially be the sole equity owner of these first level operational subsidiaries.

From time to time, the operational subsidiaries may form additional subsidiaries or independent entities to conduct the commercialization activities/operations as set forth herein. The second level subsidiaries or independent entities may or may not be wholly or majority owned by a first
level operational subsidiary and will not be defined as Ohio State affiliated entities under the University Policy on Affiliated Entities.

3 Business Model
This affiliate seeks to resolve the following unanswered questions about OSU’s technology commercialization potential:

• Can OSU drive economic development?
• Can OSU effectively serve its internal community and enhance the prosperity of the external community?
• Can OSU build a commercialization model that can be replicated from one innovation to the next?
• Can OSU stimulate continued innovation so that it remains a major recipient of research funding?
• Can OSU generate enough value-added and revenue from licensing and starting up and spinning off companies to be able to self-finance an innovation and commercialization program?
• Can OSU create a process that has sufficient order and predictability that faculty can be confident and even eager to create intellectual property and rely on OSU to maximize its commercial potential?

This new entity will use its independence to maximize the value of OSU innovations to prospective licensees and, where it enhances the potential benefit to OSU, to form start-up companies which will give OSU equity in payment for use of its intellectual property. This business-oriented entity will be staffed with professionals who are deal-oriented and experienced in the development of start-up technology companies. Their expertise will result in shorter return on investment for OSU innovations, greater interest from outside companies and investors, and more systematic movement of technology commercialization from prototype to full production and sales.

To do this, this entity will bring to OSU technology commercialization:

• New high value corporate partnerships
• Innovation based agreements
• A steady stream of executive talent
• Community participation
• More smart capital - Matching grants
• Capital equipment – Build facilities
• Increased education and outreach
• Centralization >>> Open Customization
3.1 The process of IP development and commercialization

The new process that the TCO is planning to implement is outlined in Figure 11. It is the Invention, Triage, Assessment and Commercial Strategy (ITACS) Program. This program builds efficiency and clarity into the process by providing faculty with a definitive outcome and expert feedback on their ideas, which was a consistent complaint among inventors – no feedback was ever provided and the process is a “black hole.” ITACS alleviates this in a system that involves the colleges and enhances the student education mission of the University.

Figure 11
ITACS® Roadmap

This is a prolonged process and there is necessarily uncertainty in the timing of returns. Over 90% of businesses fail because customers won’t buy the solution, not because the company can’t build it. Another 70% fail due to premature scaling; that is they are spending money beyond the essentials before nailing the product/market fit. These insights are proved in new methodologies called Nail-it then Scale-it (NISI). The TCO is adopting these principles and developing a series of on-line training tools so that before any business is created it must go through this business validation process. This assures a much higher chance of success and forces the entrepreneur to...
identify a viable customer pain and scalable solution before too much capital is squandered away.

In short, entrepreneurs fail because they follow conventional wisdom about how to build a business. By so doing, they tackle the wrong tasks, do good things in the wrong order, and in the end fall prey to their own strengths. The solution is a remarkably simple process that successful entrepreneurs and startups, from Edison to Intuit, Cisco to Google, have applied to successfully and repeatedly innovate. It is a process we have used to help new startups, struggling ventures, and large businesses leap forward.

The process basically reverse engineers the customer feedback loop and introduces this at the beginning of the process (seen in Figure 12).

Figure 12

Entrepreneur has a idea

Test pain, and then the solution with customers

Develop market strategy and business model with customers

Build the product with customers

Sales Customers

The TCO will develop a training series and educate 2-3 graduate students in this process. The certified trainers will then walk and monitor new entrepreneurs through NISI prior to starting a new business. The process usually takes 3-6 months for full validation.
Despite this uncertainty in timing of returns from commercialization efforts, the long-term benefit is positive. Figure 13 illustrates the results at the University of Utah as a result of its multi-decade commercialization efforts.

3.2 **Financial Plan (10-year plan)**

The most predictable revenue from technology commercialization will come from fees and royalties. Distribution of these fees is governed by the OSU Policy on Patents and Copyrights, which is illustrated in Figure 14. Under current policy, the first $75,000 of fees goes one-half to the PI and one-half to cover expenses for that particular discovery.

After the first $75,000 of fees, and once the expenses of OSIF and TechStart are reimbursed, one-third of the remaining funds go to the PI. OSIF proposes that it retain one-fourth of the remaining funds to support its grant and start-up programs and that the SVP-Business and Finance determine the allocation of the remaining five-twelfths.

<tr>
<td>Net IP License Revenue after expenses</td>
</tr>
</tbody>
</table>

1/3 to PI + 1/4 to OSIF
5/12 allocated by SVP-B&F

The expenses which will be reimbursed by licensing fees are illustrated in Figure 15. The first four stages of commercialization will be performed by TCO. Three of these stages will be supported by grants from OSIF which, if the discovery is commercially successful, will be reimbursed by licensing fees from the discovery.
The final stage, growth and exit, will generate revenue upon the sale of companies created by TechStart. The revenue will come from the equity given upon creation of the company to OSIF through the TechStart equity holding affiliate. Up through the exit OSU desires, follow-on equity investments in TechStart-created companies can be made from the OSU Long-term Investment Pool as determined by the university’s Chief Investment Officer subject to the investment policies approved by the Board of Trustees.

In this plan TCO anticipates eventually spending about $2 million per year on this developmental support. OSIF will reimburse these expenses beginning in 2015 once its retained royalties and fees are sufficient. The anticipated grant program to OSU faculty and students is shown in Figure 16.

OSIF activities will be conducted exclusively by TCO personnel by contract. TCO anticipates that about eight percent of its personnel and administrative expenses will be paid by OSIF. By 2014 TCO will have three sources of revenue: service contracts to OSIF, reimbursement by OSIF for its grant program, and 75 percent of OSIF net commercial income less expenses and royalties to inventors.
OSIF will receive all revenues from commercialization. To start OSIF will borrow $2 million from OSU, which will be repaid with interest (at 5 percent) over five years. In year 2 it anticipates a fundraising campaign that will raise $1 million, increasing to $9 million annually by Year 10. These funds are exclusively to support IP commercialization, including support of start-up companies.

Under existing policy, the OSU inventor receives up to $37,500 of royalties and fees from the invention before commercialization expenses are subtracted. OSIF will contract for TCO staff support and it will pay directly or by reimbursement to OSU for all patent prosecution expenses. When retained revenues provide sufficient support for commercializable IP in 2015, OSIF will begin to reimburse TCO for TCO’s education and grant programs to support the commercialization skills of OSU faculty and students. The remaining net commercialization revenue will be available to TCO for use and distribution per OSU policy.

Figure 17 summarizes the cumulative benefits to OSU. Faculty and students will receive almost $17 million in training and support to test the commercial potential of their discoveries. OSIF will have accumulated over $90 million to be used to support researchers, develop the commercial potential of OSU researchers’ best discoveries, and start up new companies through TechStart.

TechStart activities will initially be conducted exclusively by TCO staff whose time is contracted to OSIF. TechStart revenues will come from providing services and IP via license to technology start-up companies, including companies started by TechStart. When cash net revenue is positive, it will flow back to OSIF. Fee and royalties paid through grants of equity in start-up companies will be held in a TechStart equity holding company until the exit strategy is completed and cash is received. At that time the cash will be transferred to OSIF.

*Note: Figures are in thousands.*
3.3 Seed funding requirements and sources

The commercialization program will require about $10.4 million of start-up funding in addition to the use of all existing OSU intellectual property income (other than the required initial share paid to the inventor under current OSU policy). As shown in Figure 18, TCO will require net funding of a cumulative $14,622,334 through year 4. In addition, OSIF requires a start-up loan of $2 million. This loan will be paid back with interest beginning in year 2, with the final repayment in year 7.

OSU currently has very limited monies available for proof of concept testing and prototype development. These funds are crucial in providing the necessary capital to get a technology through the valley of death. No longer can a University sit idly by and wait for a third party seed or venture capitalist to provide these monies. They, along with States, have become the only parties willing to invest such high risk capital in its technologies. The capital pools are woefully lacking at OSU and we propose to create three separate pools of funding through TCO grant programs to support translational research. The prototyping budget (included in the Figures 16 and 18 above) would require at least $740,000 per year and be allocated as follows:

- Prove fund - $40,000 – this money would be allocated on an as-needed basis and would be selected internally by the TCO.
- Act fund - $200,000
- Build fund - $500,000

This would involve a two phase process whereby some of TCO’s above outlined objectives would be incorporated into the existing proposal being prepared by TechColumbus for submission to the State of Ohio. Phase Two would entail the submission of a new joint proposal for an additional $2-3 million in funding for the creation of the remaining programs. This RFP is due out in a couple of months.
4 Risk assessment with mitigating strategies and risk metrics

Our vision is to make Ohio State a world leader in commercializing inventions that benefit society. To do so, we must focus on providing the highest value services and producing the greatest value from what is discovered at the university. We believe that the best measurements of success are impact and revenues (although this is a lagging indicator), reinvestment in Ohio State research, and investment made by third parties in licensed technologies. Licensing activity is also important, but quality is more important than quantity once the infrastructure is in such place to close licenses efficiently. AUTM metrics are one method to gauge technology commercialization success. Using AUTM metrics for guidance can cause a university to chase activities instead of value or societal impact. While our guide posts differ from AUTM’s, we expect that our success will also be reflected in the AUTM metrics. Figure 21 is a summary of goals, implementation strategies, and key metrics for FY12-13.

<table>
<thead>
<tr>
<th>Goal</th>
<th>Implementation Strategy</th>
<th>Key Metrics</th>

<tr>
<td>5. Improve visibility into overall portfolio to optimize deployment of resources</td>
<td>Implement ranking system and prioritize portfolio of available technologies (estimated at 300)</td>
<td>350 available technologies prioritized</td>
</tr>
</tbody>
</table>
As Joseph Stiglitz put it: “What gets measured gets done. If we have the wrong metrics, we will strive for the wrong things.”

The Global Creativity Index evaluates and ranks 82 nations on Technology, Talent, and Tolerance, the three critical “T’s” of economic development. The GCI is a broad composite measure based on key measures of technology (R&D investment, researchers, and patents per capita), talent (educational attainment and the creative class) and tolerance (from Gallup surveys of the treatment of immigrants, racial and ethnic minorities, and gays and lesbians).

John Tyler, vice president for the Kauffman Foundation, wrote a summary paper on Advancing University Innovation in which he makes the case for much broader metrics at universities: “People frequently consider money as the primary benefit to a university that advances its innovations, but money may be among the least important. Yes, revenue is available from royalties, license fees, equity positions and options, and sponsored research. In addition, success and good experiences can increase donations from alumni and others associated with the university experience, which can enhance labs, facilities, equipment, endowed chairs, and more.1

However, there are direct benefits to the university’s core academic mission, too. Evidence suggests that when universities engage well with business and strive to maximize their innovation potential, faculty, students, and the university itself can experience profound educational benefits.2 For faculty, the experience of engaging with industry while advancing innovations can enhance professional development and lead to coaching or mentoring relationships and other experiences that benefit them in the lab and the classroom.3 For students, hands-on research opportunities increase knowledge and marketability. Working with professors who have commercialized innovations can improve what and how the students learn and can open doors for internships, fellowships, advanced education, and jobs—all of which also benefit industry and our society.4 These interactions, between universities and industry, also contribute to the mutually beneficial social networks that facilitate research collaborations, and shared ideas.”

In short, monetary tunnel vision can result in too many taxpayer-funded research out comes not being commercialized or used, much less maximized, in which case there is a disconnect between federal policy and university practices. Consequently, while numbers of disclosures and transactions are relevant, they are limited in what they convey and over-reliance on them as standards of measure and performance can unnecessarily limit the strategies and models a university uses to advance its innovations. Additional measures might be more conducive to pursuing federal policy objectives and better reflect a commitment to advancing innovation in

---

furtherance of economic growth and human welfare, which are not mutually exclusive from revenue. Among these might be the following:

a. number of people who use or benefit from the innovation;
b. number of times an innovation is used in total;
c. number of products to which the innovation is deployed;
d. number of licensees and sub-licensees;
e. number of medical treatments administered;
f. number of diseases or health effects treated or prevented;
g. number of lives saved or improved;
h. number of jobs created or retained;
i. total economic impact, including sales volume, revenue, and income and other taxes generated (and exempted because of tax status); J. E. Tyler III 123
j. number of new businesses that emerge
k. regional economic development effects;
l. number of social networks created, enhanced, and expanded; and
m. number of new collaborations. (Tyler2009; see also Litan and Cook-Deegan2011).

Not all of these will apply for every innovation or even most of them, and several of them will be very difficult to calculate and could impose burdens on licensees that should be evaluated. But these types of measures reflect a very different approach to and expectations of university innovation than the financial and linear measures that currently predominate (President’s Council of Advisors2008). These types of measures also could attract different sources of funding for research and to support commercialization and utilization efforts. These measures also could motivate more disclosures and greater cooperation from altruistic researchers (Nilsson2006).

We would expect to have a meaningful discussion with the Board about appropriate metrics to consider in pursuit of measuring impact through commercialization. The newest model being proposed by Price Waterhouse is shown in Figure 22:
5. Proposed Memorandum of Agreement (See Attached)
Memorandum of Agreement

by and between

[ ]

and

The Ohio State University

THIS MEMORANDUM OF AGREEMENT ("Agreement") is entered into as of this ___ day of __________ 20___ by and between The Ohio State University ("University") and the ("AFFILIATE").

WHEREAS, AFFILIATE was organized and incorporated in the State of Ohio as a non-for-profit corporation for charitable, religious, educational or scientific purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code 1986, including but not limited to the following:

WHEREAS, the University was organized in 1870 as an instrumentality of the State of Ohio and serves as Ohio's flagship research university, employing thousands of Ohioans;

WHEREAS, AFFILIATE is an affiliated entity of the University;

WHEREAS, the University has a vital interest in and recognizes the value and contributions of each of the University's affiliated entities;

WHEREAS, the University's Board of Trustees adopted a Policy on Affiliated Entities in June, 2008;

WHEREAS, pursuant to the Policy on Affiliated Entities, the University and AFFILIATE wish to memorialize their relationship;

WHEREAS, this Agreement is intended to set forth policies and procedures that will contribute to the coordination of the Parties' mutual activities;

NOW THEREFORE, in consideration of the mutual commitments herein contained, the parties agree as follows:

Article I
AFFILIATE Support of University Policy on Affiliated Entities Guiding Principles

AFFILIATE acknowledges and affirms that as an affiliated entity of the University, it supports the following guiding principles of the Policy on Affiliated Entities:

1. The creation and activities of affiliates must promote, sponsor, or complement educational, scientific, research, charitable, health-care related, or cultural activities for the benefit of the University or one or more of its units.
2. To promote a more proactive relationship with affiliates, the University’s relationship with each affiliate will be memorialized through a memorandum of agreement.
3. Affiliates will be monitored by the Board of Trustees through a regular reporting process.
4. Affiliates shall provide for at least one University representative with full voting rights on its governing board.
5. Affiliates must use sound fiscal and accounting procedures.
6. Affiliates must be managed in a manner consistent with their own enabling documents and the University’s purpose, mission, and procedures, as specifically set forth in this policy.
7. Affiliates must adhere to high standards of ethics and conflicts of interest.
8. The University’s relationship with an affiliate is not necessarily intended to be perpetual, and relationships with affiliates will be examined at least every five years to determine whether the affiliate/relationship will be continued or whether a sunset provision is appropriate.

AFFILIATE and the University affirm that this Agreement is intended to implement the principles with respect to AFFILIATE.

Article II
University/AFFILIATE Relationship

A. Corporate Status of AFFILIATE. AFFILIATE is a separate non-profit corporation incorporated in the State of Ohio, with plans to be exempt from federal income tax under Internal Revenue Code § 501(c)(3). AFFILIATE shall take all actions necessary to achieve and maintain this status.

B. General Governance Responsibilities. The University’s Board of Trustees is responsible for: (1) overseeing the mission, leadership, and operations of the University; (2) setting priorities and long-term plans for the University; (3) the performance and oversight of all aspects of operations of the University; and (4) the employment, compensation, and evaluation of all University employees, including the President.

AFFILIATE’S Board of Directors is responsible for: (1) the control and management of all assets of AFFILIATE; (2) the performance and oversight of all aspects of its operations based on a comprehensive code of regulations.

These lists of responsibilities are not meant to be exhaustive or exclusive.

C. Liability. The University and AFFILIATE acknowledge that each is a separate entity and agree that neither will be liable, nor will be held out by the other as liable, for any of the other’s contracts, torts, or other acts or omissions, or those of the other’s trustees, directors, officers, members, staff, or activity participants.
D. **Legal Representation.** AFFILIATE shall retain its own legal counsel. The University’s Office of Legal Affairs will advise any University officials involved in AFFILIATE within the scope of their employment.

E. **Discernable Identity.** All correspondence, solicitations, activities, and advertisements concerning AFFILIATE shall be clearly discernable as being from AFFILIATE and not from the University alone, unless done on behalf of and with written consent from the University. Any use of University marks will be governed by Article VI, Section D of this Agreement.

F. **Primary Contacts.** For the purposes of this Agreement and until changed by the University President, the primary University contact for AFFILIATE shall be [ ].

**Article III**

**Governance**

A. **Directors.** The University’s Board of Trustees or its designee, which is the Office of the President, shall appoint three directors to serve on AFFILIATE’s Board of Directors as enumerated in AFFILIATE’s Business Plan. The initial University Directors shall be: Dean and Vice President for Agricultural Administration Bobby D. Moser, Associate Vice President for Agricultural Administration and Director of Ohio Agricultural Research and Development Center, and a research, finance and/or real estate professional. This individual may be, but is not required to be a University employee. These three directors shall be referred to in this agreement as “UNIVERSITY Directors.”

B. **Appointment of Chair.** The Chair of the AFFILIATE Board of Directors shall be elected annually by the AFFILIATE Board members in a formal vote, in accordance with the AFFILIATE Code of Regulations.

C. **Reserve Powers.** The Code of Regulations of AFFILIATE shall retain the existing additional quorum requirement that the UNIVERSITY Directors vote in the affirmative to approve the following acts and transactions:

   a. Amendment of the Articles or the Code of Regulations;
   b. Adoption of the annual and multi-year operating and capital budgets and business plans;
   c. Approval of material unbudgeted expenditures, except for those directly reimbursable by a third party;
   d. Adoption of strategic plans;
   e. Exercise of any powers the corporation may have as a member, shareholder, partner or otherwise of another corporation, limited liability company, partnership, joint venture or other organization;
   f. Dissolution or liquidation;
   g. Merger, consolidation or other form of business combination or reorganization;
g. Merger, consolidation or other form of business combination or reorganization;

h. Sale, lease, mortgage or other disposition of a material amount of the assets or business of the corporation or share, membership or control interests of another entity;

i. Dissolution and any distribution of assets upon dissolution;

j. Incurrence of debt or assumption or guarantee of debt, including contingent or conditional debt, in excess of $100,000 in the aggregate at any one time;

k. Becoming a material investor, partner, member, associate, or participant in any other enterprise or venture whether for profit or nonprofit;

l. Formation of a subsidiary; or

m. Election of public directors.

The affirmative votes of the University Directors shall be duly recorded in the minutes of AFFILIATE’s Board of Directors for approval of these items to be effective.

D. Disposition of Assets Upon Dissolution. AFFILIATE’S governing documents shall include a provision requiring that in the event of its dissolution, the assets of AFFILIATE shall be distributed to The Ohio State University based on the University’s share of financial contribution.

E. Audit Committee. AFFILIATE shall establish an audit/finance committee of no less than two members who shall report to the AFFILIATE Board of Directors. At least one member shall be independent of AFFILIATE and the University.

F. Written Policies. The Board of Directors of AFFILIATE shall adopt written policies for ethics, conflicts of interest, whistleblowers, and other such policies. At AFFILIATE’S request, the University shall provide templates for each policy for the Board of Directors’ consideration.

G. Insurance. Officers and staff members of AFFILIATE shall be bonded as appropriate in amounts to be determined by the Board of Directors of AFFILIATE. General liability insurance and directors’ and officers’ liability insurance shall be obtained in amounts determined by the Board of Directors to be reasonable and appropriate.

Article IV
Financial Transactions and Accounting Practices

A. Audit. AFFILIATE shall have an annual audit conducted by an independent certified public accountant. A copy of the audit report, management comments, and management’s response shall be made available to the University upon request.

B. Inspection of Books. With the AFFILIATE Board of Directors’ approval, which shall not be unreasonably withheld, the University President or his/her designee may inspect and audit AFFILIATE books and records at reasonable times.
C. **Accounting System.** AFFILATE shall have in place an accounting system to assure financial activities are carried out and reported in accordance with generally accepted business and accounting practices.

D. **Cost Recovery, Generally.** The University is entitled to recover its costs incurred for personnel, use of facilities, or other services provided to AFFILATE; AFFILATE is entitled to recover costs incurred for personnel, use of facilities, or other services provided to the University. Such cost recovery shall be in accordance with a separate agreement entered into by the University and AFFILATE.

E. **Transactions Between University and AFFILATE.** Transactions between the University and AFFILATE shall meet the normal tests for ordinary business transactions, including proper documentation and approvals. Transactions exceeding $250,000 in goods and/or services shall be memorialized in a separate agreement. Special attention shall be given to avoiding direct or indirect conflicts of interest between the University and AFFILATE and those with whom AFFILATE does business.

F. **IRS Requirements.** In accordance with IRS regulations governing tax exempt organizations, no substantial part of the activities of AFFILATE shall consist of carrying on propaganda, or otherwise attempting to influence legislation, or participating or intervening in any political campaign or on behalf of any candidate for public office.

G. **Payments to University Employees.** No salaries, consulting fees, loans, or perquisites shall be paid to a University employee by AFFILATE without the prior written approval of the University President or his/her designee. Compensation plans for University employees which set a defined rate or percentage payment may be submitted for approval annually in lieu of specific dollar amounts.

H. **Transfer of Assets.** Any transfer of assets by the University to AFFILATE, or by AFFILATE to the University, for management or investment shall be formalized in a separate agreement so the fiduciary requirements of the respective governing boards are complied with and to assure, among other things, that any restrictions governing the future disposition of funds are observed.

I. **Major Financial Events.** AFFILATE shall notify the University President or his/her designee, at the earliest possible date, of any proposed purchase or sale of real estate and any material debt to be incurred for permanent or working capital, and coordinate its efforts with those of the University and other affiliates.

J. **Purchasing and Procurement.** AFFILATE shall adopt and observe the following guidelines governing its purchasing and procurement of goods and services:

1. AFFILATE is not required to comply with the University Board of Trustees policy on purchasing. However, AFFILATE may deem it advisable and appropriate to employ
competitive practices in procuring goods and services. AFFILIATE should also adopt a policy promoting minority business development.

2. AFFILIATE shall not purchase goods and services on behalf of any University unit with the expectation of reimbursement from that unit, because such a transaction may conflict with the University Board of Trustees policy on purchasing. Goods and services may be purchased by affiliates as a gift for the University subject to the normal review and approval for gift acceptance.

Article V
Personnel Policies
AFFILIATE shall adopt the following guidelines governing the appointment, compensation, and retention of its personnel:

A. **Non-discrimination.** AFFILIATE shall not discriminate on the basis of age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status. Notwithstanding these requirements, AFFILIATE's programs that exist primarily for the disbursement of funds to members of a minority class, such as scholarship funds, may restrict eligibility on that basis to the extent authorized by law. In determining cases of discrimination it is not sufficient to look merely to the articles of incorporation or code of regulations of AFFILIATE; actual practices and operations also are relevant.

B. **Appointment and retention.** The appointment and re-appointment of the chief executive officer ("AFFILIATE executives") shall be subject to approval of the AFFILIATE Board and memorialized in an appropriate letter of appointment. Prior to approval, the AFFILIATE Board shall notify the University President regarding the proposed or conditional appointment and/or re-appointment.

C. **Compensation.** Except for any OSU Employees, the AFFILIATE shall set compensation standards annually, including salary ranges and fringe benefits, for all AFFILIATE staff. Compensation plans for staff which set a defined rate or percentage payment may be submitted for approval annually in lieu of specific dollar amounts.

Article VI
Support Provided by University

A. **Services.** Upon AFFILIATE’s request, the University may make administrative services available to aid AFFILIATE in its management and operation. As applicable, these services may include, but are not limited to:

1. IT support;
2. Access to the University's financial systems to receive, disburse, and account for funds held. With respect to transactions processed through the University's financial
system, AFFILIATE shall comply with the University’s financial policies and procedures;

3. Accounting services to include: monthly cash disbursements and receipts, accounts receivable and payable, bank reconciliation, monthly reporting and analysis, auditing, payroll, and budgeting;

4. Central University services such as dining services, printing services, parking and transportation, and facilities management.

B. Facilities. AFFILIATE is eligible to use the University’s facilities, subject to availability and applicable policies and charges.

C. University Marks. University hereby grants AFFILIATE a non-exclusive right to use the University Marks specifically related to, and necessary for, its business operations and provision of services. AFFILIATE shall not assign the University Marks, or use them for any other purposes unless approved in writing by the University Office of Trademark and Licensing.

Article VII
Terms of the Memorandum of Agreement

A. Periodic Meetings. To ensure effective and continuing implementation and achievement of the terms of this Agreement, the primary contacts shall hold periodic meetings to foster and maintain productive relationships and to ensure open and continuing communications and alignment of priorities.

B. Amendment and Modification. No amendment or modification of this Agreement shall be effective against either party unless such amendment or modification is set forth in writing and signed by both parties. It is understood and agreed that some proposed changes to this Agreement may require approvals from both the AFFILIATE Board of Directors and the University Board of Trustees.

C. Term. The term of this Agreement shall commence on the date on which both parties sign the memorandum and continue until the Agreement is terminated pursuant to the terms contained herein.

D. Termination. Either party may, upon 90 days prior written notice to the other, terminate this Agreement.

E. Severability. In the event that any provision of this agreement shall be illegal or otherwise unenforceable, such provision shall be severed, and the balance of the Agreement shall continue in full force and effect.
IN WITNESS WHEREOF, the parties have caused this Memorandum of Agreement to be executed by their duly authorized officers as of the day and date first above written.

The Ohio State University:

6. Proposed by-laws (See Attached)
DRAFT
CODE OF REGULATIONS

ARTICLE ONE
BOARD OF DIRECTORS

Section 1.01. Number of Directors; Classification; Term of Office.

(A) The number of directors shall be [ ], and the number of directors shall not be changed except by amendment of these regulations. The directors shall be divided into two classes; one class designated “University Directors” shall consist of [ ], and the other class, designated “Community Directors” shall consist of [ ] directors.

(B) When used in the Regulations, the term “Directors” means the University Directors and the Community Directors, taken together; and the term “Director” means any one of the Directors.

(C) [ ] persons shall be nominated for the office of University Director by the President of The Ohio State University. One of the University Directors shall be the [ ]. Another of the University Directors shall be the [ ].

(D) Community Directors shall be elected by a majority vote of the University Directors for terms with the term of at least [ ] Community Director expiring on December 31 each year beginning in the year 201[ ]. Community Directors elected to serve full terms commencing January 1, 201[ ], and thereafter shall be elected to a term of [ ] years and such Community Directors shall be permitted to succeed themselves. Each Community Director shall be elected to serve until the expiration of his/her term or until his/her earlier death, resignation, or removal.
Section 1.02. Election. At each annual meeting of Directors for the election of Community Directors, the successors to the Community Directors whose term shall expire that year shall be elected, but if the annual meeting is not held or if one or more of such Community Directors are not elected thereat, they may be elected at a special meeting called for that purpose. The election of Community Directors shall be by a majority vote of the University Directors.

Section 1.03. Removal. A Community Director may be removed from office, with or without assigning any cause, by the majority vote of the University Directors.

Section 1.04. Vacancies. Any vacancy of a Community Director position may be filled by vote of a majority of the University Directors.

Section 1.05. Meetings. In addition to the annual meeting for the election of Community Directors, Directors shall hold such other meetings as may from time to time be called and such other meetings of Directors may be called only by the Chairman, the President, or any [ ] Directors. All meetings of Directors shall be held at the principal office of the Corporation in Columbus, Ohio or at such other place within or without the State of Ohio as the Directors may from time to time determine by a resolution. Directors may attend and participate in any meeting of the Board of Directors through any communications equipment that provides a transmission, including, but not limited to, by telephone, telecopy, or any electronic means, from which it can be determined that the transmission was authorized by, and accurately reflects the intention of, the Director involved and allows all persons participating in the meeting to contemporaneously communicate with each other.
Section 1.06. Notice of Meetings. Notice of the time and place of each meeting of Directors for which such notice is required by law, the Articles, the Regulations, or the Code of Regulations shall be given to each of the Directors by at least one (1) of the following methods:

(A) in a writing mailed not less than three (3) days before such meeting and addressed to him/her at his/her address as it appears on the records of the Corporation; or

(B) by a writing delivered to his/her residence or usual place of business at the address thereof as it appears on the records of the Corporation, not later than the day before the date of which such meeting is to be held; or

(C) by facsimile electronic transmission sent to the telephone number of his/her residence or usual place of business as the same appears on the records of the Corporation or in a appropriate telephone directory, not later than the day before the date on which such meeting is to be held; or

(D) personally or by telephone not later than the day before the date on which such meeting is to be held.

Notice given to a Director by any one of the methods specified in the Regulations shall be sufficient, and the method of giving notice to all Directors need not be uniform. Notice of any meeting of Directors may be given only by the President or the Secretary of the Corporation. Any such notice need not specify the purpose or purposes of the meeting. Notice of adjournment of a meeting of Directors need not be given if the time and place to which it is adjourned are fixed and announced at such meeting.

Section 1.07. Waiver of Notice. Notice of any meeting of Directors may be waived in writing, either before or after the holding of such meeting, by any Director, which writing shall
be filled with or entered upon the records of the meeting. The attendance of any Director at any meeting of Directors without protesting, prior to or at the commencement of the meeting, the lack of proper notice, shall be deemed to be a waiver by him/her of notice of such meeting.

Section 1.08. Quorum. A majority of the whole authorized number of Directors, which majority must include at least [ ] of the University Directors, shall be necessary to constitute a quorum for a meeting of Directors, except that a majority of the Directors in office, which majority must include at least [ ] of the University Directors, shall constitute a quorum for filling a vacancy among the Community Directors. The act of a majority of the Directors present at a meeting at which a quorum is present is the act of the Board, except as otherwise provided by law, the Articles, or the Regulations.

Section 1.09. Compensation. The Directors shall receive no compensation for services rendered but shall be entitled to receive compensation for expenses incurred as Directors, in such amounts as the Directors may determine.

Section 1.10. Committees of Directors.

(A) The Directors may create [ ] or more committees of the Directors, each to consist of not fewer than three (3) Directors, at least [ ] of whom must be a University Director, and may delegate to such committees any of the authority of the Directors, however conferred, other than that of filling vacancies among the Directors or in the committees of the Directors.

(B) The Directors may appoint [ ] or more Directors as alternate members of any such committee, who may take the place of absent member or members at any meeting of such committee; provided, however, that any such alternate member who may take the place of an absent member who is a University Director must also be a University Director.
(C) Each such committee shall serve at the pleasure of the Directors, shall act only in the intervals between meetings of the Directors, and shall be subject to the control and direction of the Directors.

(D) Each such committee may act by a majority of its members at a meeting or by a writing or writings signed by all of its members.

(E) Members of any such committee may attend and participate in any meeting of such committee through any communications equipment that provides a transmission, including, but not limited to, telephone, telecopy, or any electronic means, from which it can be determined that the transmission was authorized by, and accurately reflects the intention of, the member of such committee involved and allows all persons participating in the meeting to contemporaneously communicate with each other.

(F) Any act or authorization of an act by such committee within the authority delegated to it shall be as effective for all purposes as the act or authorization of the Directors.

(G) Notice of the time and place of each meeting of any such committee shall be given to each of its members by at least one (1) of the methods specified in Section 1.06 of the Regulations. A meeting of any such committee may be called only by the President or by a member of such committee.

(H) The Directors may create Advisory Committees and/or appoint Advisors who are not Directors to committees of Directors. Advisors who are not Directors may offer advice, but may not vote and shall not be counted for purposes of determining a quorum.

ARTICLE TWO
ANNUAL MEETINGS
Section 2.01. Annual Meetings. The annual meeting of the Directors for the election of Community Directors, for the consideration of reports to be laid before such meeting, and for the transaction of such other business as may properly come before such meeting, shall be held on such date in October as may be fixed by the Directors and stated in the notice of the meeting.

Section 2.02. Votes Required. At all elections of Community Directors, the candidates receiving the greatest number of votes shall be elected.

Section 2.03. Order of Business. The order of business at any meeting of Directors shall be determined by the officer of the corporation acting as chairman of such meeting unless otherwise determined by a vote of a majority of the whole authorized number of Directors.

ARTICLE THREE
OFFICERS

Section 3.01. Officers. The officers of the Corporation to be elected by the Directors shall be a president, a secretary, a treasurer, and, if desired, such other officers and assistant officers as the Directors may from time-to-time elect. The [ ] shall serve as the chairman of the board of directors. One or more vice presidents and other officers not designated for election by the directors may be appointed by the president. Any two or more officers may be held by the same person, but no officer shall execute, acknowledge, or verify any instrument in more than one capacity if such instrument is required by law, the Articles, or the Regulations to be executed, acknowledged, or verified by two or more officers.

Section 3.02. Removal. The officers of the Corporation shall hold office at the pleasure of the directors. Any officer of the Corporation may be removed, either with or without cause, at
any time, by the affirmative vote of a majority of all the directors then in office and any officer appointed by the president may be removed, either with or without cause, by the president. Any such removal, however, shall be without prejudice to the contract rights, if any, of the person so removed.

Section 3.03. Duties of the Chairman of the Board. The chairman of the board, if any, shall preside at all meetings of the directors. The Chairman of the Board shall have such other powers and duties as the directors shall from time to time assign to the Chairman of the Board.

Section 3.04. Duties of the President. The president shall be the chief executive officer of the Corporation, shall exercise supervision over the business of the Corporation and shall have, among such additional powers and duties as the Directors may from time-to-time assign to him/her, the power and authority to execute all deeds, mortgages, leases, bonds, contracts, notes, and other instruments requiring the signature of the president of the Corporation, subject to the requirement that such execution must have been either specifically approved by the Directors or must be consistent with guidelines adopted by the Directors.

Section 3.05. Duties of the Secretary. It shall be the duty of the secretary, or of an assistant secretary, if any, in case of the absence or inability to act of the secretary, to keep minutes of all the proceedings of the Directors and to make a proper record of the same; to perform such other duties as may be required by law, the Articles or the Regulations; to perform such other and further duties as may, from time-to-time, be assigned to him/her by the Directors or the president; and to deliver all books, paper, and property of the Corporation in his/her possession to his/her successor, or to the president.
Section 3.06. Duties of the Treasurer. The treasurer, or an assistant treasurer, if any, in case of the absence or inability to act of the treasurer, shall receive and safely keep in charge all money, bills, notes, choses in action, securities, and similar property belonging to the Corporation, and shall do with or disburse the same as directed by the president or the Directors; shall keep an accurate account of the finances and business of the Corporation, including accounts of its assets, liabilities, receipts, disbursements, gains and losses, together with such other accounts as may be required and hold the same open for inspection and examination by the Directors; shall give bond in such sum and with such security as the Directors may require for the faithful performance of his/her duties; shall, upon the expiration of his/her term of office, deliver all money and other property of the Corporation in his/her possession or custody to his/her successor or the president; and shall perform such other duties as from time-to-time may be assigned to him/her by the Directors.

ARTICLE FOUR
INDEMNIFICATION

Section 4.01. Mandatory Indemnification. The Corporation shall indemnify any officer or Director of the Corporation who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative (including, without limitation, any action threatened or instituted by or in the right of the Corporation), by reason of the fact that he/she is or was a Director, officer, employee, agent, or volunteer of the Corporation, or is or was serving at the request of the Corporation as a director, trustee, officer, employee, member, manager, agent, or volunteer of another corporation (domestic or foreign, nonprofit or for profit), limited liability company, partnership, joint venture, trust, or other enterprise, against expenses (including, without
limitation, attorneys’ fees, filing fees, court reporters’ fees and transcript costs, judgments, fines, and amounts paid in settlement actually and reasonably incurred by him/her in connection with such action, suit, or proceeding if his/her act or omission giving rise to any claim for indemnification under this Section 4.01 was not occasioned by his/her intent to cause injury to the Corporation or by his/her reckless disregard for the best interests of the Corporation, and in respect of any criminal action or proceeding, he/she had no reasonable cause to believe his/her conduct was unlawful. It shall be presumed that no act or omission of a person claiming indemnification under this Section 4.01 that gives rise to such claim was occasioned by an intent to cause injury to the Corporation or by a reckless disregard for the best interests of the Corporation and, in respect of any criminal matter, that such person had no reasonable cause to believe his/her conduct was unlawful; the presumption recited in this Section 4.01 can be rebutted only by clear and convincing evidence, and the termination of any action, suit, or proceeding by judgment, order, settlement, or conviction, or upon a plea of nolo contendere or its equivalent, shall not, in and of itself, rebut such presumption.

Section 4.02. Court-Approved Indemnification. Anything contained in the Regulations or elsewhere to the contrary notwithstanding:

(A) the Corporation shall not indemnify any officer or Director of the Corporation who was a party to any completed action or suit instituted by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he/she is or was a Director, officer, employee, agent, or volunteer of the Corporation, or is or was serving at the request of the Corporation as a director, trustee, officer, employee, member, manager, agent, or volunteer of another corporation (domestic or foreign, nonprofit or for profit), limited liability company,
partnership, joint venture, trust or other enterprise, in respect of any claim, issue or matter asserted in such action or suit as to which he/she shall have been adjudged to be liable for an act or omission occasioned by his/her deliberate intent to cause injury to the Corporation or by his/her reckless disregard for the best interests of the Corporation, unless and only to the extent that the Court of Common Pleas of Wayne County, Ohio or the court in which such action or suit was brought shall determine upon application that, despite such adjudication of liability, and in view of all the circumstances of the case, he/she is fairly and reasonably entitled to such indemnity as such Court of Common Pleas or such other court shall deem proper; and

(B) the Corporation shall promptly make any such unpaid indemnification as is determined by a court to be proper as contemplated by this Section 4.02.

Section 4.03. Indemnification for Expenses. Anything contained in the Regulations or elsewhere to the contrary notwithstanding, to the extent that an officer or Director of the Corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Section 4.01, or in defense of any claim, issue or matter therein, he/she shall be promptly indemnified by the Corporation against expenses (including, without limitation, attorneys’ fees, filing fees, court reporters’ fees, and transcript costs) actually and reasonably incurred by him/her in connection therewith.

Section 4.04. Determination Required. Any indemnification required under Section 4.01 and not precluded under Section 4.02 shall be made by the Corporation only upon a determination that such indemnification is proper in the circumstances because the officer or Director has met the applicable standard of conduct set forth in Section 4.01. Such determination may be made only: (A) by a majority vote of a quorum consisting of Directors of
the Corporation who were not and are not parties to, or threatened with, any such action, suit, or proceeding, or (B) if such a quorum is not obtainable or if a majority of a quorum of disinterested Directors so directs, in a written opinion by independent legal counsel other than an attorney, or a firm having associated with it an attorney, who has been retained by or who has performed services for the Corporation, or any person to be indemnified within the past five (5) years, or (C) by the Court of Common Pleas of Wayne County, Ohio or (if the Corporation is a party thereto) or the court in which such action, suit, or proceeding was brought, if any; any such determination may be made by a court under division (C) of this Section 4.04 at any time (including, without limitation, any time before, during, or after the time when any such determination may be requested of, be under consideration by or have been denied or disregarded by the disinterested Directors under division (A) or by independent legal counsel under division (B) of this Section 4.04); and no failure for any such determination, and no decision for any reason to deny any such determination, by the disinterested Directors under division (A) or by independent legal counsel under division (B) of this Section 4.04 shall be evidence in rebuttal of the presumption recited in Section 4.01. Any determination made by the disinterested Directors under division (A) or by independent legal counsel under division (B) of this Section 4.04 to make indemnification in respect of any claim, issue or matter asserted in an action or suit threatened or brought by or in the right of the Corporation shall be promptly communicated to the person who threatened or brought such action or suit, and within ten (10) days after receipt of such notification such person shall have the right to petition the [ ], Ohio or the court in which such action or suit was brought, if any, to review the reasonableness of such determination.
Section 4.05. Advances for Expenses. The provisions of Section 1702.12(E)(5) of the Ohio Revised Code do not apply to the Corporation. Expenses (including, without limitation, attorneys’ fees, filing fees, court reporters’ fees, and transcript costs) incurred in defending any action, suit, or proceeding referred to in Section 4.01 shall be paid by the Corporation in advance of the final disposition of such action, suit, or proceedings to or on behalf of the officer or Director promptly as such expenses are incurred by him/her, but only if such officer or Director shall first agree, in writing, to repay all amounts so paid in respect of any claim, issue, or other matter asserted in such action, suit, or proceeding, in defense of which he/she shall not have been successful on the merits or otherwise if it is proved by clear and convincing evidence in a court of competent jurisdiction that, in respect of any such claim, issue or other matter, his/her relevant action or failure to act was occasioned by his/her deliberate intent to cause injury to the Corporation or his/her reckless disregard for the best interests of the Corporation, unless, and only to the extent that, the Court of Common Plea of Wayne County, Ohio or the court in which such action or suit was brought shall determine upon application that despite such determination and in view of all of the circumstances, he/she is fairly and reasonably entitled to all or part of such indemnification.

Section 4.06. Article Four Not Exclusive. The indemnification provided by this Article Four shall not be exclusive of, and shall be in addition to, any other rights to which any person seeking indemnification may be entitled under the Articles, the Regulations, any agreement, a vote of disinterested Directors, or otherwise, both as to action in his/her official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has
ceased to be an office or Director of the Corporation and shall inure to the benefit of the heirs, executors, and administrators of such a person.

Section 4.07. Insurance. The Corporation may purchase and maintain insurance, or furnish similar protection, including but not limited to trust funds, letters of credit, or self-insurance, for or on behalf of any person who is or was a Director, officer, employee, agent or volunteer of the Corporation, or is or was serving at the request of the Corporation as a director, trustee, officer, employee, member, manager, agent, or volunteer of another Corporation (domestic or foreign, nonprofit or for profit), limited liability company, partnership, joint venture, trust, or other enterprise, against any liability asserted against him/her and incurred by him/her in any such capacity, or arising out of his/her status as such, whether or not the Corporation would have the obligation or the power to indemnify him/her against such liability under the provisions of this Article Four. Insurance may be purchased from or maintained with a person in which the Corporation has a financial interest.

Section 4.08. Certain Definitions. For purposes of this Article Four, and as an example and not by way of limitation, a person claiming indemnification under this Article Four shall be deemed to have been successful on the merits or otherwise in defense of any action, suit, or proceeding referred to in Section 4.01, or in defense of any claim, issue or other matter therein, if such action, suit, or proceeding shall be terminated as to such person, with or without prejudice, without the entry of a judgment or order against him/her, without a conviction of him/her, without the imposition of a fine upon him/her, and without his/her payment or agreement to pay any amount to settlement thereof (whether or not any such termination is based upon a judicial or
other determination of the lack of merit of the claims made against him/her or otherwise results in a vindication of him/her).

Section 4.09. Venue. Any action, suit, or proceeding to determine a claim for, or for repayment to the Corporation of, indemnification under this Article Four may be maintained by the person claiming such indemnification, or by the Corporation, in the Court of Common Pleas of Franklin County, Ohio in any such action, suit, or proceeding.

ARTICLE FIVE
RESERVE POWERS

The following power is reserved exclusively to the University Directors and no action may be taken in regard thereto without approval of the majority of the University Directors.

(A) Amendment of the Articles or the Code of Regulations;

(B) Adoption of the annual and multi-year operating and capital budgets and business plans;

(C) Approval of material unbudgeted expenditures, except for those directly reimbursable by a third party;

(D) Adoption of strategic plans;

(E) Exercise of any powers the Corporation may have as a member, shareholder, partner, or otherwise of another corporation, limited liability company, partnership, joint venture, or other organization;

(F) Dissolution or liquidation;

(G) Merger, consolidation or other form of business combination or reorganization;
(H) Sale, lease, mortgage, or other disposition of a material amount of the assets or business of the Corporation or share, membership, or control interests of another entity;

(I) Dissolution and any distribution of assets upon dissolution;

(J) Incurrence of debt or assumption or guarantee of debt, including contingent or conditional debt, in excess of $100,000 in the aggregate at any one time;

(K) Becoming a material investor, partner, member, associate, or participant in any other enterprise or venture whether for profit or nonprofit;

(L) Formation of a subsidiary;

(M) Election of community directors; and/or

(N) Election of the President.

The affirmative votes of the University Directors shall be duly recorded in the minutes of the Corporation’s Board of Directors for approval of these items to be effective.

ARTICLE SIX
MISCELLANEOUS

Section 6.01. Amendments. The Regulations may be amended, or new regulations may be adopted, only by the affirmative vote of not less than two-thirds (2/3) of the whole authorized number of Directors, which vote must include the affirmative vote of not less than three (3) of the University Directors if all four (4) positions as University Directors are then filled of not less than two (2) of the University Directors if there are then one (1) or more vacancies in the position of University Director.

Section 6.02. Action by Directors Without a Meeting. Anything contained in the Regulations to the contrary, notwithstanding any action that may be authorized or taken at a
meeting of the Directors or of a committee of the Directors, as the case may be, may be authorized or taken without a meeting with the affirmative vote or approval of and in a writing or writings signed by all the Directors, or all the members of such committee of the Directors respectively; which writings shall be filed with or entered upon the records of the Corporation.

Section 6.03. Computation of Time for Notice. In computing the period of time for the giving of a notice required or permitted by law, the Articles, the Regulations, or a resolution of the Directors, the day on which the notice is given shall be excluded, and the day when the act for which notice is given is to be done shall be included, unless the instrument calling for the notice otherwise provides. If notice is permitted to be given by mail, the notice shall be deemed to have been given when deposited in the mail.
TOPIC: Revision of University Naming Guidelines

CONTEXT:

In May of 2010, The Board of Trustees approved the Naming Guidelines, which govern the naming of entities, physical spaces, and endowed funds at The Ohio State University. As you may recall, those Guidelines state that the University generally will not name a facility for a corporation or other organization.

Prior to the initiation of the campaign, a special review group comprised of Board members and selected senior University administrators reviewed the Naming Guidelines to address the issue of naming entities, buildings, and facilities for corporations or other organizations. This group researched and assessed the current policies and practices for naming entities, buildings, and physical facilities at peer public institutions to commemorate philanthropic commitments made to those universities by corporations or other organizations.

Based on that review, and in an effort to provide greater clarity to and detail in the naming process, updates to these Guidelines were proposed. These revisions have been recommended by the Advancement Committee Chair, the Senior Vice President for Advancement, the University President, and the University Provost and Executive Vice President.

HIGHLIGHTS:

- States that the University will consider naming entities and physical spaces for corporations or other organizations, but also reaffirms our commitment to the exercise of due diligence surrounding ALL potential namings.

- Emphasizes our responsibility to avoid conflicts of interest and to confirm that any namings approved by the University will positively impact our mission.

- Reinforces the University’s right to revisit and revise any naming that jeopardizes the reputation of the institution or is contrary to our mission.

REQUESTED OF ADVANCEMENT COMMITTEE:

Approval
I. Overview

This document governs the naming of entities, physical spaces and endowed funds at The Ohio State University. The University will enter into a commitment only after careful consideration of the potential impact the naming will have on the University and the campus community. Due diligence will be exercised to make certain that any proposed name would be consistent with University tradition and mission, and we will evaluate what pride and distinction might accrue to the projects and units involved, as well as to the leadership, faculty, staff, students and alumni.

All proposed minimum funding levels and potential building or entity namings must be initiated by a Dean/Unit Leader and routed to the Senior Vice President for Advancement for consideration at the leadership level prior to any discussion with prospective donors or honorees. Final approval for all namings rests with the University's Board of Trustees. If at any time following the approval of the naming, circumstances change substantially so that the continued use of the name may compromise the integrity or reputation of the University, the University may remove the name. The University additionally reserves the right to dispose of any named property or facility as deemed necessary, via sale, demolition, etc. A name will not be removed without the recommendation of the President, approval by the Board of Trustees and notification of the donor or a legal representative.

II. Types of Namings

A. Commemorative - Expresses appreciation for an individual or organization for substantial philanthropic gift contributions to the University.

B. Honorific - Recognizes distinguished alumni or an individual for outstanding service to the University or extraordinary service to the community (e.g. Bricker Hall). Individuals must be disassociated from employment by or service to the University for at least three years prior to an honorific naming. This rule may be waived by action of the Board of Trustees.

C. Administrative – Relates to the function or location of the building; does not include the name of a person (e.g. Central Classroom Building).

III. Eligible Naming Opportunities

A. Entities - colleges, schools, departments, institutes, academic centers and programs

B. Physical Spaces - outdoor spaces and architectural elements, buildings and facilities, large interior spaces such as classrooms, auditoriums, foyers, lobbies, gymnasiums, hallways and lounges

C. Endowed Funds - a permanent funding source to support a specific purpose such as scholarships, programs, professorship/chair positions, etc.

IV. Guidelines for Funding

A. Entities – Discussions to determine an appropriate gift size for naming academic entities should include the Dean, Provost, and the Foundation with final approval from the Gift Acceptance Committee. Factors to consider include the size of the academic unit as
defined by the operating budget, the unit’s national ranking, and the “transformative” nature of the gift, meaning it should provide additional operating support that allows the academic unit to move forward in reputation in ways that it could not without the gift support. Gifts to name academic entities should be predominantly for endowment to support new programs and faculty. Generally entities will be named for individual donors and not for corporations.

A corporation or organization may name a university entity in very selective situations. Corporations or organizations proposed for such namings should have a positive image and demonstrated integrity. Additional due diligence must be taken to avoid any appearance of commercial influence or conflict of interest. Signage reflecting a corporate or organizational naming of an entity must conform to all university signage guidelines and will not include the corporation or organization logo or other components of its branding. The gift agreement may specify the number of years during which the entity will be named. If the name of the corporation or organization changes, the university at its own discretion may change the name of the entity. Also, the university at its sole discretion may change the name of the entity if circumstances related to the corporation or organization could damage the reputation of the university. Any consideration of a corporate or organizational naming of an entity must follow the assessment process described for the Gift Acceptance Committee.

B. Physical Spaces – Gifts to name a physical space should be at least 1/3rd of construction costs and should be outright gifts. In select cases (such as when a facility is fully funded or no private fundraising is required for the facility), irrevocable deferred gifts may also be accepted. Exceptions to the 1/3rd rule may occur for projects of extraordinary size and will be based on the available donor pool. Generally, buildings will be named for individual donors and not corporations or organizations. A corporation or other organization may name a university facility in very selective situations and special caution will be exercised in cases when a facility is dedicated totally for educational purposes. Corporations or organizations proposed for facility namings should have a positive image and demonstrated integrity. In the instance of corporate or organizational namings of facilities, additional due diligence must be taken to avoid any appearance of commercial influence or conflict of interest. Any consideration of a corporate or organizational naming of a facility must follow the assessment process described for the Gift Acceptance Committee.

Names will generally remain in place for the life of the physical facility when named for an individual, but in some cases may be negotiated for a term of years. When working with corporate and organizational donors, in some cases the gift agreement may specify the number of years for which the facility will be named. If the name of the corporation or organization changes during that period, the University, at its own discretion, may change the name of the facility. Also, the University at its sole discretion may change the name of the facility if circumstances related to the corporation or organization could damage the reputation of the University.

All signage and artwork must comply with the University’s master space plan, will maintain consistency with current signage and visual identity guidelines per the Office of Facilities Operations and Development and University Marketing Communications, and will not include an organization logo or other components of branding. Existing naming opportunities approved in writing prior to March 1, 2009 will be grandfathered in to these new guidelines.

C. Endowed funds - The University invests the donor’s(s’) gifts in perpetuity and an annual distribution is used to fund the desired activities as requested by the donor(s) and approved by the Board of Trustees.

D. Note that unrestricted gifts may be appropriately recognized with official naming in any of the preceding three categories with the approval of the Gift Acceptance Committee.
V. Approval Process

A. Commemorative

1. Naming of academic entities such as colleges, departments and programs must be approved by the President and Provost after submission by the Senior Vice President for Advancement. All approvals must be received prior to any discussion with a prospective donor.

2. For new buildings and renovations, discussions with donors may begin after a project has been approved by the University but specific spaces within the building will generally not be named until the project reaches the design and construction phase. A complete plan for all naming opportunities within the building will be submitted to the Senior Vice President for Advancement, who will take the request to Integrated Financial Planning for review and comment. Once minimum gift levels are established, the development officer will confirm that any gift commitment meets the minimum funding levels. Any exceptions to these guidelines, or any naming in exchange for an unrestricted gift, will be taken to Integrated Financial Planning for approval and the Gift Acceptance Committee will be consulted as needed. All namings for corporations or organizations must be approved by the Gift Acceptance Committee.

3. Upon execution of the gift agreement, the naming will go to the Board of Trustees for approval at the next meeting.

4. Donor Relations will communicate final approvals back to the originator of the request

B. Honorific Naming

1. Complete naming request form and a list of the honoree’s accomplishments; submit to Donor Relations.

2. Approval by Senior Vice President for Advancement is required and requests may be presented to the president and senior management council for comment and action.

3. Upon approval, the Foundation will forward the request to the University’s Board of Trustees for approval at the next Board meeting.

4. Donor Relations will communicate final approvals back to the originator of the request.

C. Administrative

1. Complete naming request form or a letter of request with Dean or VP approval and submit to Donor Relations.

2. Approval by Senior Vice President for Advancement is required.

3. The approved request will be forwarded to Integrated Financial Planning for appropriate action.

VI. Gift Acceptance Committee

The Gift Acceptance Committee is appointed by the Senior Vice President for Advancement in consultation with the President, Provost and Chair of the Board of Trustees. Members may include but will not be limited to:

Voting Members
- President of The Ohio State University
- Senior Vice President for Advancement
- Executive Vice President and Provost
- Chair of the Board of Trustees

740
April 6, 2012 meeting, Board of Trustees

Chair of the Advancement Committee of the Board of Trustees
Chair of the Audit Committee of the Board of Trustees
Chair of The Ohio State University Foundation Board
Campaign Chair or Co-Chairs (during campaign periods)
Member-at-Large appointed by the Chair of the Board of Trustees

Ex-officio Members

Senior University Leadership as needed

(APPENDIX XLII)

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

June 10, 2012
Ambassador Susan E. Rice is a highly respected diplomat and expert in international relations. She has served since 2009 as the United States Permanent Representative to the United Nations and is a member of President Obama’s Cabinet and a principal on the National Security Council. Ambassador Rice has devoted her life’s work to serving this country and promotes the interest of the United States, fiercely advocating universal values, respect for human rights, and global security and prosperity.

Before her appointment as Ambassador to the United Nations, Dr. Rice served as senior advisor for National Security Affairs on the Obama for America Campaign, later serving on the advisory board of the Obama-Biden Transition and as co-chair of its policy working group on national security. From 2002 to 2009, she worked as a senior fellow at the Brookings Institution, a nonprofit public policy organization with a mission to strengthen American democracy. In her role, she specialized in areas such as U.S. foreign policy and global poverty and development.

Prior to her work at the Brookings Institution, Ambassador Rice served as Assistant Secretary of State for African Affairs from 1997 to 2001. As such, she addressed political, economic, security, and humanitarian issues for 48 countries in Sub-Saharan Africa, as well as managed 43 United States Embassies and more than 5,000 U.S. and Foreign Service national employees. She served as President Clinton’s special assistant and senior director for African Affairs from 1995 to 1997 on the National Security Council.

Ambassador Rice’s important work has been universally recognized. In 2000, she was named corecipient of the White House’s Samuel Nelson Drew Award for her distinguished contributions to the formation of peaceful, cooperative relationships between states. She has lent her expertise and service to many organizational boards, including the National Democratic Institute, the Partnership for Public Service, the U.S. Fund for UNICEF, and the Partnership for Public Service.

A native of Washington, D.C., Ambassador Rice earned her BA at Stanford University, where she was a Truman Scholar. She continued her education at Oxford University as a Rhodes Scholar, completing her MPhil and PhD in international relations.
DONALD HARRIS
Doctor of Music

Donald Harris, an internationally renowned composer, musicologist, and arts administrator, is Professor Emeritus of Composition and Theory at The Ohio State University. He previously served the university as dean of the College of the Arts and Professor of Music from 1988 to 1997. Before joining the Ohio State faculty, he served at the New England Conservatory of Music and the Hart School of Music, University of Hartford. In addition, Professor Harris, while living and composing in Paris, France, during the 1950s and 1960s, worked as the music consultant to the United States Information Service.

As a member of the Ohio State faculty for more than 20 years before his retirement in 2010, Professor Harris resolutely devoted his life’s work to advancing and enriching the culture of the arts at the university. He was the driving force behind such influential and meaningful events as the long-running Contemporary Music Festival, a collaboration between the School of Music and the Columbus Symphony Orchestra, and the Lawrence and Isabel Barnett Symposium.

Professor Harris has touched the lives of thousands as a teacher, colleague, and collaborator. His leadership and influence truly reach around the globe, as evidenced by his service on many national and international boards. He is a past president of the International Council of Fine Arts Deans. In addition, he remains active in the local arts community and has devoted his time and energy to such organizations as the Columbus Symphony Orchestra, Pro Musica, BalletMet, and the King Arts Center.

His uniquely decorated career has garnered myriad honors, including a commission from the Serge Koussevitzky Foundation for Contemporary Music at Tanglewood. Professor Harris has been the recipient of both a Guggenheim and a Fulbright Fellowship. He received the ASCAP Deems Taylor Award in 1989 for the W.W. Norton publication of the correspondence between Alban Berg and Arnold Schoenberg, of which he was co-editor. In 1991, the American Academy and Institute of Arts and Letters honored him with an award in composition.

Professor Harris received his BMus and MMus in composition from the University of Michigan.

DOUGLAS S. MASSEY
Doctor of Social Science

One of the world’s most eminent sociologists, Douglas S. Massey is the Henry G. Bryant Professor of Sociology and Public Affairs at Princeton University’s Woodrow Wilson School of Public and International Affairs. His influential research on racial inequality and international migration has truly broadened our understanding of social dynamics.

Dr. Massey’s research focuses on international migration, race, housing, discrimination, education, urban poverty, and Latin America, and includes particularly significant multidisciplinary work with Mexican immigrants to the United States. His investigative efforts have resulted in information and insights used to craft more realistic immigration policies. In addition, Dr. Massey is renowned for his ability to address issues of broad disciplinary and public concern through use of the latest and most well defended research findings.

Dr. Massey is coauthor of American Apartheid (1993), a book that continues to have a wide impact on social sciences and is frequently read by graduate students in the fields of sociology, geography, and political science. Notably, this book received the Distinguished Publication Award of the American Sociological Association. He more recently coauthored The Source of the River (2003), which is an analysis on minority achievement in selective colleges and universities, and Taming the River (2009), which examines determinants of persistence and grade achievement through the first two years of college. In addition, he has published extensively on immigration, including Return to Aztlán (1987), Miracles on the Border (1995), Beyond Smoke and Mirrors (2002), and Brokered Boundaries: Constructing Immigrant Identity in Anti-Immigrant Times (2010).

A nationally recognized expert in his field, Dr. Massey has been the recipient of numerous awards and accolades. Most recently, he received the 2012 Award for the Public Understanding of Sociology from the American Sociological Association. He is a member of the National Academy of Sciences and the American Academy of Arts and Sciences, as well as the American Philosophical Society.

Dr. Massey currently serves as president of the American Academy of Political and Social Science, and previously served as president of the Population Association of America and the American Sociological Association. He also serves on the Council of the National Academy of Sciences.

Dr. Massey received his BA from Western Washington University, and his MA and PhD in sociology from Princeton University.
JOHN W. KESSLER
Distinguished Service Award

A renowned businessman and leader, John W. Kessler is the owner of the John W. Kessler Company as well as chair of The New Albany Company. He serves currently as board director for Abercrombie & Fitch and on the board of the Commercial Vehicle Group.

Mr. Kessler's passion for community is evident in his unwavering commitment to improving the quality of life for residents in central Ohio. He is a current board member of The Columbus Partnership, the Columbus Downtown Development Corporation, and the Columbus Regional Airport Authority, organizations that work to strengthen business and residential communities in Columbus and its neighboring cities. He also has lent his considerable talents to projects with the Ohio Public Works Commission and Greater Columbus Chamber of Commerce.

In addition, Mr. Kessler is an avid champion for the arts. During his time on boards for the Columbus Museum of Art and The Ohio Arts & Sports Facilities Commission, he led many projects and initiatives that rejuvenated the central Ohio arts community. Mr. Kessler's leadership was key to a highly successful capital campaign for the Wexner Center for the Arts - one of the premier arts facilities in this country.

Known widely for his tremendous support for his alma mater, Mr. Kessler has long promoted the aspirations and goals of The Ohio State University through his service. As chair of the Board of Trustees from 1994 to 1995, he implemented many integral changes and furthered the university's Advancement mission. To this day, he remains a committed advocate for Ohio State, and serves on the board of the John Glenn School of Public Affairs, helping to bring the school to eminence as one of the top public affairs programs in the country.

Mr. Kessler's service has been recognized through various honors, including being named Columbus Chamber of Commerce Outstanding Citizen, and induction into the Central Ohio Business Hall of Fame.

He received his BA in business administration from The Ohio State University.

KEITH D. MONDA
Distinguished Service Award

Keith D. Monda is highly regarded in the business world for his transformational leadership abilities. Throughout his distinguished career, Mr. Monda held significant positions of responsibility with Pfizer, J. Crew, and The Timberland Company. He later joined Coach, Inc. as its president and chief operating officer. Mr. Monda spearheaded the transformation of Coach from a manufacturer to a marketing company, implementing a global sourcing strategy that enabled the company to expand its product offering in the United States and across the globe.

Having earned both his BA and MA in economics from The Ohio State University, Mr. Monda remains an ardent supporter of his alma mater. He continues to serve on the university’s foundation board, a role in which he has helped draw significant private support from Ohio State alumni and friends. As chair of the Arts and Sciences advisory board and the Arts and Sciences campaign committee, Mr. Monda has been instrumental in furthering the mission of the college and ensuring the success of faculty and students.

Mr. Monda continues to generously share his time, talent, and service with the university. He often returns to campus to share his experience and expertise with undergraduate students, faculty members, and alumni alike. His guest lectures in several undergraduate economics courses, as well as the Undergraduate Economics Club and the Politics, Society, and Law Scholars group, are highlights on campus.

Both he and his wife Linda have devoted their philanthropic efforts to students and remain vocal advocates for the importance of student scholarships. The Keith and Linda Monda Scholarship Fund provides support for students from Ohio who study economics. Most recently, the couple established the Keith and Linda Monda International Experience Scholarships. This significant gift enables students to study abroad, giving them the opportunity to explore new cultures and perspectives firsthand.

Mr. Monda also supports the Students First, Students Now initiative in the College of Arts and Sciences, providing emergency financial aid to students in need.
The Graduate School
Dean: Patrick S. Osmer

Doctor of Musical Arts
Benjamin Richard Coy, Columbus
B.Mus. (Roosevelt University)
M.Mus. (Northwestern University)
Music
Dr. Joseph Duchi

Dr. Ann O’Connell

Levy Reyes,
Phoenix, AZ
B.S. (University of Arizona)
Integrated Biomedical Science Graduate Program
Dr. Jay Zweier

Adrian Karlof Reynolds,
Miramar, FL
B.A. (Florida International University)
M.A. Education
Dr. Alan Hirvela, Dr. George Newell

Lisa Ann Riegel,
Powell
B.A., B.S.Educ. (Kent State University)
Master's (Otterbein College)
Education
Dr. Ann Allen

Angela C. Rietschlin,
Shelby
B.A., M.Educ. Education
Dr. Linda Parsons

Christopher Patrick Riley,
Aiken, SC
B.A., M.A.
Geography
Dr. Nancy Ettlinger

Bernardo Ramirez Rios,
Sacramento, CA
B.A., M.A. (San Diego State University)
Anthropology
Dr. Jeffrey Cohen

Christoph A. Roedig,
Columbus
B.S., M.S.
Physics
Dr. Louis DiMauro

Kenny M. Roman,
Chicago, IL
B.S.Chem. (University of Illinois at Urbana-Champaign)
Integrated Biomedical Science Graduate Program
Dr. Joseph Travers

Rebecca Jo Rosenblatt,
Columbus
B.S. (University of Illinois at Urbana-Champaign)
M.S. Physics
Dr. Andrew Heckler

Jennie Lynn Rowell,
Granger, IN
B.S.Nurs. (Cedarville University)
M.S. Nursing
Dr. Donna McCarthy

Siddharth Sadanand Samsi,
Columbus
B.Engr. (University of Pune)
M.S. Electrical and Computer Engineering
Dr. Ashok Krishnamurthy

Venu M. Satuluri,
Columbus
B.Engr. (National Institutes of Technology)
Computer Science and Engineering
Dr. Srinivasan Parthasarathy

Sharon K. Schreiber,
Columbus
B.S. (University of Arizona)
B.S. (University of Massachusetts Amherst)
Biomedical Engineering
Dr. Bradley Clymer

John Sedunov,
Wyano, PA
B.S. (Carnegie Mellon University)
M.A.
Business Administration
Dr. René Stulz

Matthew J. Sequin,
Hartford, CT
B.A., M.A. (Boston College)
Mathematics
Dr. Thomas Kerler

Huimin Shi,
Columbus
Bachelor's (Renmin University of China)
M.A.
Economics
Dr. Paul Evans

Jeonghwa Shin,
Daejeon, Korea
B.A., M.A. (Korea University)
Linguistics
Dr. Shari Speer

Brittany Leigh Shoots-Reinhard,
Columbus
B.S., M.A.
Psychology
Dr. Richard Petty

Kylee Jo Short,
Edgerton
B.S. (Miami University Oxford)
M.A.
Education
Dr. Sarah Fields

Marek Simon,
Roznava, Slovakia
B.S.Physics. (University of Tulsa)
M.S.
Physics
Dr. Michael Pointer

Neha Singhal,
Columbus
B.S., M.S. (University of Mumbai)

Kerria Measkhan Tan, Chatsworth, CA  
B.A. (University of California, San Diego)  
M.A.  
Economics  
Dr. Matthew Lewis

Nadya Tanova, Loveland  
M.A. (Sofia University)  
M.A. (Purdue University)  
Education  
Dr. Alan Hirvela

Megan Cavanaugh Terp, Cincinnati  
B.S.Chem.Eng.  
Chemical Engineering  
Dr. L. Lee

Heather Joy Thompson-Gillis, Westerville  
B.A. (Denison University)  
M.A. (Miami University Oxford)  
English  
Dr. Susan Williams

Vignesh Trichy Ravi, Columbus  
B.Engr. (Anna University)  
Computer Science and Engineering  
Dr. Gagan Agrawal

Daniel Andrew Turner, Asheville  
B.S. (Capital University)  
Chemistry  
Dr. Christopher Hadad

Alex L. Ustian, Sylvania  
B.S.  
Mathematics  
Dr. Nimish Shah

Greta Rachel Valenti, Lynbrook, NY  
B.A.Honors (Georgetown University)  
M.A.  
Psychology  
Dr. Lisa Kuhns

Susannah Lynn Van Horn, New Lexington  
B.Art.Ed., M.A.  
Art Education  
Dr. James Sanders

Anthony Vanderhorst, Dublin  
B.A., B.S. (Metropolitan State College of Denver)  
M.A. (University of Colorado Denver)  
M.A.  
Education  
Dr. Richard Lomax

Sylvia Rodriguez Vargas, Bexley  
M.A.  
Education  
Dr. Helen Marks

Victoria Michelle Venable, Knoxville, TN  
B.A. (University of Tennessee at Martin)  
M.S.W., M.A.  
Social Work  
Dr. Jacquelyn Meshelemiah
Commencement Convocation, June 10, 2012

Giuseppe Vercellotti, Lavagna, Italy
B.S.Biol.Sci. (University of Pisa)
Anthropology
Dr. Samuel Stout

Lindsay Marie Wallace, Hilliard
B.A. (Miami University Oxford) Molecular, Cellular, and Developmental Biology
Dr. Scott Harper

Hui Wang, Columbus
Bachelor's (Shandong Economic University)
M.A. (State University of New York at Buffalo)
M.A.
Economics
Dr. Lucia Dunn

Xiaochuan Wang, Beijing, China
B.Engr., M.S. (Tsinghua University)
Electrical and Computer Engineering
Dr. Jin-Fa Lee

Yi-En Wei, Taipei, Taiwan, ROC
B.A., M.B.A. (National Taiwan Normal University)

Education

Christopher Thomas Welter, New Albany
B.S.Bus.Adm.
Business Administration
Dr. Sharon Alvarez

Darius Omar Williams, Jackson, MS
Bachelor's (Jackson State University)
M.A. (Bowling Green State University)
Theatre
Dr. Stratos Constantinidis

Brian H. Witte, Vancouver, WA
B.S.Honors (University of Washington)
M.S.
Microbiology
Dr. Fred Tabita

Susan Rae Wolfinbarger, Arlington, VA
B.A. (Eastern Kentucky University)
M.A. (George Washington University)
Geography
Dr. Kendra McSweeney

Gayeon Won, Jeonju, Korea
D.V.M. (Chonbuk National University)
Vetinary Preventive Medicine
Dr. Jeffrey LeJeune

John F. Woodruff, Columbus
B.A., B.S. (University of Michigan, Ann Arbor)
Master's (Northwestern University)
Computer Science and Engineering
Dr. Deliang Wang

Rachel Wortman Morris, Seattle, WA
B.A. (Oberlin College)
M.A. (Middlebury College)
Comparative Studies
Dr. Maurice Stevens

Hsin-Chieh Wu, Hualien, Taiwan, ROC
B.S.Comm. (National Chengchi University)
M.A.
Education
Dr. Wayne Hoy

Ruizhang Xiao, Changsha, China
Bachelor's (Hunan Agricultural University)
M.S. (Chinese Academy of Sciences)
M.S.
Civil Engineering
Dr. Linda Weavers

Yang Xing, Beijing, China
B.S. (Peking University)
M.S.
Environmental Science
Dr. Richard Moore

Jie Xu, Columbus
B.S. (East China University of Science and Technology)
Chemical Engineering
Dr. Jeffrey Chalmers

Srujana Samhita Yadavalli, Chennai, India
B Tech. (Anna University)
Microbiology
Dr. Michael Ibba

Fengjun Yan, Harbin, China
B.S. (Harbin Institute of Technology)
M.S. (Tsinghua University)
Mechanical Engineering
Dr. Junmin Wang

Zhaogang Yang, Columbus
B.S., M.S. (Peking University)
M.S.
Pharmaceutical Sciences
Dr. Keli Hu

Jie Yong, Changsha, China
B.S. (Fudan University)
M.S.
Physics
Dr. Thomas Lemberger

Sara Zaldivar-Lopez, Algeciras, Cadiz, Spain
Licenciado (University of Cordoba)
M.S.
Comparative and Veterinary Medicine
Dr. C. Couto, Dr. Carlos Alvarez

Ru Zang, Jiaozhou City, China
B.Engr. (Dalian University of Technology)
Master's (Zhejiang University)
Chemical Engineering
Dr. Shang-Tian Yang

Jessica Rachel Zeller, Huntington, NY
B.S. (Butler University)
M.F.A.
Dance
Dr. Karen Eliot

Boying Zhang, Columbus
B.Engr. (University of Science and Technology of China)
M.S. (Chinese Academy of Sciences)
M.S.
Computer Science and Engineering
Dr. Dong Xuan

Fang Zhang, Shenzhen, China
B.A. (Zhejiang University)
M.A.
Economics
Dr. Paul Evans

Na Zhang, Jinlin Province, China
B.S.Agr., M.S.Agr. (Beijing Agricultural University)
Horticulture and Crop Science
Dr. Esther Vanderknaap
Yifei Zhang, Columbus
B.S., M.S. (Fudan University)
Ohio State Biochemistry Program
Dr. Harald Vaessin,
Dr. John Oberdick

Youna Zhao, Beijing, China
B.Med. (Peking University)
M.S. (University of Maryland, Baltimore)
Pharmaceutical Sciences
Dr. Sylvan Frank

Chenguang Zhou, Chengdu, Sichuan
B.Med., M.S.Pharm. (Zhejiang University)
Pharmaceutical Sciences
Dr. Robert Lee

Bin Zhu, Suzhou, China
B.S. (Tianjin University)
M.S. (Zhejiang University)
M.S. Chemical Engineering
Dr. L. Lee

Junda Zhu, Taizhou, China
B.S. Honors, Master's (Zhejiang University)
Electrical and Computer Engineering
Dr. Yuan Zheng

Doctor of Audiology

Christopher Norman Emrick, Little Hocking
B.A.
Speech and Hearing Science

Ashley Minton Etter, Columbus
B.A. (College of Wooster)
Speech and Hearing Science

Meghan Mara Hiss, West Jefferson
B.A.
Speech and Hearing Science

Anna Lucille Kiener, Cincinnati
B.A.
Speech and Hearing Science

Katherine E. Lamoreau, Bowdoinham, ME
B.A. (College of Wooster)
Speech and Hearing Science

Mallory Sue Monjot, Avon Lake
B.A.
Speech and Hearing Science

Dana Marie Ulakovic, North Versailles, PA
B.A. (University of Pittsburgh)
Speech and Hearing Science

Heather Lyn Vaught, Troy
B.A.
Speech and Hearing Science

Doctor of Nursing Practice

Jacqueline Jean Haverkamp, Delaware
B.S.Nurs. (Franklin University)
Master's, M.Educ. (Otterbein College)
Nursing

Sally Rutshaw Monahan, Cincinnati
B.S.Nurs. (College of Mount Saint Joseph)
M.S. (University of Cincinnati)
Nursing

Stacie Lynn Sweet, Zanesville
B.S.Nurs. (Ohio University)
M.S.
Nursing

Specialist in Education

Charlotte Renee Bell, Gary, IN
B.A., M.A.Teach. (University of Chicago)
M.A. (Ball State University)
Education

Tracy Catherine Dush, Wooster
B.A. (California State University, Fullerton)
M.A. (University of Santa Monica)
M.A.
Education

Monica Kumar, Riverview, MI
B.S. (University of Michigan, Ann Arbor)
M.A.
Education

Virginia Darleen Paciorek, Springfield
B.A. (University of Toledo)
M.A.
Education

Elizabeth Michele Puckett, Worthington
B.A., M.A.
Education

Kelly Elizabeth Roudabush, Columbus
B.A. (University of Toledo)
M.A.
Education

Jennifer Sue Wilson, Huron
B.A., M.A.
Education

Master of Accounting

Nii Kpakpo-Oti Ankrah, Accra, Ghana
B.S.Bus.Adm. (University of Ghana)
Accounting and Management Information Systems

Nicole Alexandra Betz, Courtland
Accounting and Management Information Systems

Mengfang Bian, Changchun, China
Bachelor's (Central University of Finance and Economics)
Accounting and Management Information Systems

Lingyan Cao, China
Bachelor's (University of Arizona)
Accounting and Management Information Systems

Alyssa Lynne Charron, Harvard, MA
B.A. (Mount Holyoke College)
Accounting and Management Information Systems

Alexandra Earle Curtis, Suffolk, VA
B.S.Bus.Adm. (Christopher Newport University)
Accounting and Management Information Systems

Marie Dhel Dela Paz, Antipolo City, Philippines
B.S. (University of Cincinnati)
Accounting and Management Information Systems
Commencement Convocation, June 10, 2012

Tianxiang Deng, Qingdao, China
Accounting and Management
Information Systems

Ulrike Denker, Essen, Germany
B.S.Bus.Adm.
Accounting and Management
Information Systems

Sean Kenneth Douglas, Massillon
B.Bus.Adm. (University of Toledo)
Accounting and Management
Information Systems

Lindsey M. Draves, Woodstock, IL
B.S. (DePaul University)
Accounting and Management
Information Systems

Benjamin Mark Eder, Evanston, IL
B.A. (University of Illinois at Urbana-Champaign)
Accounting and Management
Information Systems

Jacqueline M. Emmenecker, Perrysburg
B.S. (Wingate College)
Accounting and Management
Information Systems

Rachelle Erin Farley, Paulding
B.A. (Bluffton University)
Accounting and Management
Information Systems

Thomas James Farquhar, Elyria
B.S.
Accounting and Management
Information Systems

Andrew Douglas Fast, Columbus
Accounting and Management
Information Systems

Wenqi Gao, Handzhou, China
B.S. (Beijing International Studies University)
Accounting and Management
Information Systems

Elina Eugene Gidalevich, Beachwood
Accounting and Management
Information Systems

Yufeng Guo, China
B.Bus.Adm. (Universidade de Macau)
Accounting and Management
Information Systems

Jeffrey Lowell Howard, Louisville, KY
B.Bus.Adm. (University of Kentucky)
Accounting and Management
Information Systems

Ran Du, Beijing, China
B.Bus.Adm. (Northern Arizona University)
Accounting and Management
Information Systems

Jeffrey Paul Ickes, Avon Lake
Accounting and Management
Information Systems

Audra Christine Johnson, Waukesha, WI
B.A. (Mount Mary College)
Accounting and Management
Information Systems

Jenna Amanda Koch, Sugar Grove
B.Bus.Adm. (University of Toledo)
Accounting and Management
Information Systems

Zach Kromer, Lima
B.S. (University of Pennsylvania)
Accounting and Management
Information Systems

Benjamin Alan Lee, Eustis, FL
B.S. (University of Florida)
Accounting and Management
Information Systems

Debbie Lee, Pingtung, Taiwan, ROC
B.Bus.Adm. (University of Washington)
Accounting and Management
Information Systems

Han-Wei Lee, Changhua, Taiwan, ROC
B.S. (National Taiwan University)
Accounting and Management
Information Systems

Ran Leng, Chengdu, China
Bachelor’s (Sichuan University)
Accounting and Management
Information Systems

Christopher D. Levy, Lewis Center
B.S. (Miami University Oxford)
Accounting and Management
Information Systems

Qianwen Li, Hainan, China
Accounting and Management
Information Systems

Andrew M. Lineback, Mason
B.A. (University of Cincinnati)
Accounting and Management
Information Systems

Meng Liu, Wuhan, China
B.A. (University of Oregon)
Accounting and Management
Information Systems

Ryan Thomas Lockwood, Cincinnati
B.S.Bus.Adm., B.S. (Miami University Oxford)
Accounting and Management
Information Systems

Xiaojing Lu, Shanghai, China
B.S.Bus.Adm. (University of Oregon)
Accounting and Management
Information Systems

Christina Rose Maier, Grand Rapids, MI
B.Bus.Adm. (Grand Valley State University)
Accounting and Management
Information Systems

Samuel Alexander McCoy, Upper Arlington
B.S.Bus.Adm.
Accounting and Management
Information Systems

Sara Rhodes Mewhort, Toledo
B.A. (Wittenberg University)
Accounting and Management
Information Systems

Philip Hyuk Moon, Columbus
Accounting and Management
Information Systems

Tanner Keefe Murphy, Columbus
B.S.Bus.Adm.
Accounting and Management
Information Systems

Hyung Joo Noh, Seoul, Korea
B.Bus.Adm. (Ewha Womans University)
Accounting and Management
Information Systems

B.S.Alld.Hlth.Prof. Health and Rehabilitation Sciences

**Christopher Robert Miller**, Columbus  
B.A. Health and Rehabilitation Sciences
Commencement Convocation, June 10, 2012

Master of Public Administration

Steven Grant Adams, Bountiful, UT
B.S. (Weber State University)
Public Policy and Management

Nicole Lorraine Bent, Hilliard
B.A. (Miami University Oxford)
Public Policy and Management

Danielle Marie Borror, Columbus
B.S. (Vanderbilt University)
Public Policy and Management

Erika H. Braunginn, Madison, WI
B.S. (University of Wisconsin-Madison)
Public Policy and Management

Christopher Adam Brunner, Pittsburgh, PA
B.A. (Pennsylvania State University)
Public Policy and Management

Leighton Andrew Buntain, Canton
B.A. (University of Calgary)
Public Policy and Management

Andrew Charlton, Tiffin
B.A. (College of Wooster)
Public Policy and Management

Melanie Miu Kin Cheng, Columbus
B.A.
Public Policy and Management

Gail L. Clendenin, Columbus
B.A. (Ohio University)
Public Policy and Management

Sheila Goldie Coleman, Dayton
B.S. (Brigham Young University)
Public Policy and Management

Erik Davis, Wadsworth
B.A. (Heidelberg College)
Public Policy and Management

Jiayin Di, Fuding, China
LL.B., Bachelor's (Shanghai University of Finance and Economics)
Public Policy and Management

Brittany Erin Falkowski, Madeira
B.A. (Miami University Oxford)
Public Policy and Management

Garyn Shaun Greene, Louisville
B.F.A. (Walsh University)
Public Policy and Management

Ahmad Medhat Hassan, Cleveland
B.A.
Public Policy and Management

Haley Colleen Kadiash, Santa Fe, NM
B.Bus.Adm. (University of Texas at Austin)
Public Policy and Management

Kevin M. Kilbane, Columbus
B.A.
Public Policy and Management

Lingzhi Li, Yibin, China
Bachelor's (Chengdu Institute)
Public Policy and Management

Yunzhu Liu, Wuhan, China
LL.B. (Renmin University of China)
Public Policy and Management

Patrick James Manley, Columbus
B.A. (Miami University Oxford)
Public Policy and Management

Dennis William Mawhirter, Columbus
B.A.
Public Policy and Management

Alex Parker Nelson, Madeira
B.A. (State University of New York College at Potsdam)
Public Policy and Management

Eric Christopher Rosso, Columbus
B.A. (University of Akron)
Public Policy and Management

Lauren Rummel, Cortland
B.S. (Miami University Oxford)
Public Policy and Management

Andrew J. Saunders, Loveland
B.A.
Public Policy and Management

Erin Elise Scott, Gahanna
B.S. (Ohio University)
Public Policy and Management

Daniel Strasser, Dublin
B.A. (Skidmore College)
Public Policy and Management

Yan Xu, Shijiazhuang, China
B.S. (Beijing Normal University)
Public Policy and Management

Master of Public Health

Shawna Tracy Abrams, Mount Vernon
B.S.Agr., D.V.M.
Public Health

Christina Adele Athas, Edison, NJ
B.S.Educ.
Public Health

Lyndsay Nerissa Bottichio, Huntington, IN
B.S.
Public Health

Mary Elizabeth Brockson, Powell
B.S.Agr.
Public Health

Benjamin Richard Broder-Oldach, Cincinnati
B.A. (University of Maryland, College Park)
Public Health

Feier Cheng, Oxford
B.A. (Miami University Oxford)
Public Health
Melissa Yu-Ann Cheung, Columbus  
B.S.  
Public Health

Jeannie Marie Danker, Powell  
B.S.Alld.Hlth.Prof.  
Public Health

Emily E.C. Deshaies, Columbus  
B.S. (Heidelberg College)  
Public Health

John Chidozie Ejzie, Columbus  
Pharm.D. (Virginia Commonwealth University)  
Public Health

Jennifer Lauren Freeman, Watkinsville, GA  
B.S. (Clemson University)  
Public Health

Stephanie L. Fyffe, Bremen  
B.S. Nurs. (Capital University)  
Public Health

John Timothy Gallagher, Cleveland  
B.S. (Cleveland State University)  
Public Health

Danielle Grospitch, Delaware  
B.S.  
Public Health

Carley Hartings, Celina  
B.S.Alld.Hlth.Prof.  
Public Health

Elizabeth Ann Hente, Cincinnati  
B.A. (University of Dayton)  
Public Health

Keith Thomas Hustak, Caledonia, MI  
B.S. (Eastern Kentucky University)  
M.S. (Wayne State University)  
Public Health

Ananya Jena, North Canton  
B.S.  
Public Health

Gregory Paul Kolovich, Concord  
B.S. (Georgia Institute of Technology)  
M.D.  
Public Health

Mira Shabad Krivoshey, Columbus  
B.A. (Barnard College)  
Public Health

Chris J. LaLonde, Johnstown  
B.S. (University of Michigan, Ann Arbor)  
Public Health

Joel Daniel Larma, Omaha, NE  
B.S., M.D. (Tulane University of Louisiana)  
Public Health

Gregory Lesinski, Blacklick  
B.S. (Bowling Green State University)  
Ph.D. (Medical College of Ohio)  
Public Health

Kristen Kathleen Mallory, Cincinnati  
B.S.Alld.Hlth.Prof. (Miami University Oxford)  
Public Health

Tricia Matz, Fort Wayne, IN  
B.S. (Ashland University)  
Public Health

Ebony Michele Merritt, Westerville  
B.A. (Case Western Reserve University)  
Public Health

Jennifer S. Millette, Cincinnati  
B.S., D.V.M.  
Public Health

Alison Joy Nolte, Westerville  
B.S. (High Point University)  
Public Health

Emily Rachael Nurre, Cincinnati  
B.S.  
Public Health

Eunyoung Park, Upper Arlington  
B.S., M.S. (Yonsei University)  
Public Health

Jill Anne Raudabough, Dublin  
B.S. Cptr.Info.Sci.  
Public Health

Katherine B. Rybka, Waldorf, MD  
B.S. (University of Maryland, College Park)  
Public Health

William Daniel Saluke, Dayton  
B.S.Bio. (Ohio University)  
Public Health

Angela Marie Schmollen, Melbourne, FL  
B.S., D.V.M. (University of Florida)  
Public Health

David Michael Swenson, Idaho Falls, ID  
B.S. (Brigham Young University)  
Public Health

Tiera Torres, Columbus  
B.S. (Brigham Young University)  
Public Health

Kathryn May Tunstall, Columbus  
B.S. (Baptist Bible College and Seminary)  
Public Health

Hadil Yousuf, Dublin  
B.S. (Al-Quds University)  
Public Health

Master of Science

Stevie Ann Peirano Adams, New Albany  
B.S.Nurs. (Otterbein College)  Nursing

Neeraj Ravindra Agarwal, Nasik, India  
B.S.Mech.Eng.  Mechanical Engineering

Warren Tyler Agner, Rushsylvania  
B.S.Ag.  Agricultural and Extension Education

Damoun Ahmad Khatir, Los Angeles, CA  
B.S. (Khajeh Nasir Toosi University of Technology)  M.S. (Sharif University of Technology)  Electrical and Computer Engineering
Commencement Convocation, June 10, 2012

Ziyad Duleim Al-Qahtani, Jubail, Saudi Arabia
Electrical and Computer Engineering

Saif Abdulmohsen S. Alsaif, Riyadh, Saudi Arabia
Bachelor's (King Saud University)
Electrical and Computer Engineering

Mohammed Faham M. Alsolami, Saudi Arabia
B.S. (King Abdul Aziz University)
Electrical and Computer Engineering

Javier Alvarez Araya, San Jose, Costa Rica
Licenciatura (Universidad Latina de Costa Rica)
Agricultural, Environmental and Development Economics

Jairo Manuel Alza, Trujillo, Peru
B.S.Civil.Eng.
Civil Engineering

Peter Amaya, Worthington
Bachelor's (University of Dayton)
Civil Engineering

Kelly M. Ambrose, Cincinnati
B.S.Nurs.
Nursing

Eric Wayne Amstutz, Pandora
B.S.Nurs.
Nursing

Eric Robert Anderson, Cold Spring, KY
Bachelor's (University of Kentucky)
Physics

Claudia Lorena Araya Salvo, Santiago, Chile
B.S. (Pontificial Catholic University of Chile)
Astronomy

David Joseph Arcilesi, Sandy, UT
B.S.Physics., Bachelor's (University of Utah)
Nuclear Engineering

Karen Jane Argabright, Jackson Center
B.S.Agr.
Agricultural and Extension Education

Amanda Gaynor Ashley, Utica, NY
B.S. (Rensselaer Polytechnic Institute)
D.D.S. (University of Pennsylvania School of Dental Medicine)
M.Educ. (University of Pennsylvania)
Dentistry

Kelsey Renee Askins, Fort Jennings
B.A.
Nursing

Elizabeth Nancy Atkinson, Barnesville
B.S.Alld.Hlth.Prof.
Nursing

Brittney Bailey, Upper Arlington
Bachelor's (Messiah College)
Statistics

Susan M. Bailey, Williamsport
B.S.Nurs.
Nursing

Kevin Baird, Worthington
Bachelor's (Ohio University)
B.S.Civil.Eng.
Civil Engineering

Surya Baktiono, Jakarta, Indonesia
B.S. (Case Western Reserve University)
Electrical and Computer Engineering

Jennifer Casimiro Balingcongan, Columbus
B.S.Nurs.
Nursing

Philip N. Bastian, Jr., Hilliard
B.S. (Brigham Young University)
Vision Science

David William Benner, Suffield
Pharm.D. (Lake Erie College of Osteopathic Medicine and Pharmacy)
Pharmaceutical Sciences

Hannah Marie Bey, St. Paris
B.S., M.S.
Nursing

Scott R. Biddlestone, Columbus
B.S. (Rose-Hulman Institute of Technology)
Electrical and Computer Engineering

Angela Marie Black, Granville
B.S.Nurs. (West Virginia University)
Nursing

Emily Renee Blackmore, Van Wert
B.A. (Ohio Wesleyan University)
Nursing

Stephanie Marie Brader, Canton
B.A. (Ohio Wesleyan University)
Nursing

Kelsie Ann Bredon, Columbus
B.S.Nurs. (Kent State University)
Nursing

Jodi Lynn Brinkman, Glandorf
B.S.Nurs.
Nursing

Alison Marie Brooks, Columbus
B.A. (Otterbein College)
Nursing

Noah Brostoff, Pittsburgh, PA
B.A. (Colorado College)
Mathematics

Jason David Brown, Bridgeport, WV
B.S. (West Liberty University)
Chemistry

George John Broze III, St. Louis, MO
B.S. (University of North Carolina at Chapel Hill)
Statistics

Allison Elizabeth Bulgrin, Columbus
B.S.H.E.
Nursing

Edward Rocco Burden, Niles
B.Engr. (Youngstown State University)
Electrical and Computer Engineering
Commencement Convocation, June 10, 2012

Dawn Busalacchi, Granville
B.S. (Rutgers University-New Brunswick)
Environmental Science

Adam C. Buxton, Coshocton
B.S.Ald.Hlth.Prof.
Nursing

Da Cai, Shenyang, China
B.S. (Harbin Normal University)
Computer Science and Engineering

John Merrill Campbell, St. Augustine, FL
B.S. (University of North Florida)
Physics

Leah Catherine Campbell, Tullahoma, TN
B.S. (Centre College)
Mathematics

Zachary Paige Campbell, Reynoldsburg
B.S. (University of Akron)
Electrical and Computer Engineering

Jessica Elizabeth Caputo, Strongsville
B.S.Nurs.
Nursing

Tara Lynn Carmack, Phoenix, AZ
B.S. (Arizona State University)
Public Health

Tan Chai, Heze, China
B.S. (Hefei University of Technology)
Mechanical Engineering

Patricia Chalfant, Springboro
B.S. (Ohio University)
Horticulture and Crop Science

Adam Christopher Champion, Columbus
B.S.Cptr.Sci.Eng.
Computer Science and Engineering

Yong Jie Chan, Singapore, Singapore
B.Engr. (Nanyang Technological University)
Industrial and Systems Engineering

Julie Marie Chapman, Hamilton
B.S. (Case Western Reserve University)
Materials Science and Engineering

Abon Chaudhuri, Srirampur, India
B.Engr. (Jadavpur University)
Computer Science and Engineering

Natividad Chavez, Wapato, WA
B.S. (University of Washington)
Nursing

Da Che, Dalian, China
Bachelor's (Tianjin University)
Electrical and Computer Engineering

Shuhua Chen, Foshan, China
B.S. (Sun Yat-sen University)
Civil Engineering

Phillip Boone Cherosky, Fredericktown
Food, Agricultural and Biological Engineering

Keith Swift Chima, Chagrin Falls
B.S.Cptr.Sci.Eng.
Computer Science and Engineering

I Hsuan Chiu, Columbus
B.A., M.B.A. (National Taiwan University)
Statistics

Megan Rhea Church, Pickerington
B.S.Educ.
Nursing

Daniel Philip Cohen, Columbus
B.S.
Nursing

Julie Ann Combs, Zanesville
B.S. (Muskingum University)
Nursing

Amy Louise Connor, Bexley
B.A.
Nursing

Emily Louise Creachbaum, Elkart, IN
B.A. (Saint Mary’s College)
Nursing

Michelle Creamer, Columbus
B.S., D.V.M. (Virginia Polytechnic Institute and State University)
Comparative and Veterinary Medicine

Dustin Thomas Cunningham, East Libery
Electrical and Computer Engineering

Chunli Dai, Siyang, China
B.S. (Wuhan University)
M.S. (Chinese Academy of Sciences)
Geodetic Science and Surveying

Balsam Madani Dakhil, Dublin
Bachelor's (Al-Fateh University)
Electrical and Computer Engineering

Adrienne Dardenne, New Roads, LA
D.V.M. (Louisiana State University, Baton Rouge)
Comparative and Veterinary Medicine

Abigail Elizabeth Davis, Caldwell
B.S.Nurs.
Nursing

Andrew S. Davis, Worthington
Mechanical Engineering

Laura Eileen Davis, Marengo
B.S.Nurs. (Capital University)
Nursing

Luke Davis, Columbus
B.A.
Nursing

Alison B. DeLucia, Toledo
B.S.Nurs.
Nursing

Katarzyna Agnieszka Dembek, Columbus
Master's (Warsaw Agricultural University)
Comparative and Veterinary Medicine

Chelsea Elizabeth DeSouza, Elk Grove, CA
B.S. (Mills College)
Mathematics
Mark Randall Devall, Houston, TX
B.S.Weld.Eng.
Welding Engineering

Erin Leigh Dicaprio, Columbus
B.S. (Virginia Polytechnic Institute and State University)
Food Science and Technology

Sarah Rae Donahue, Westerville
B.A.
Nursing

Ran Dong, Beijing, China
Bachelor's (Beijing University)
Microbiology

Kevin Donges, Upper Arlington
B.S.Educ., M.S. (Miami University Oxford)
Statistics

Christina M. Douglas, Mesa, AZ
B.S.Alld.Hlth.Prof.
Nursing

Benjamin C. Doup, Fredericktown
B.S.Chem.Eng.
Nuclear Engineering

Hannah Suzanne Driscoll, Middleburg Heights
Electrical and Computer Engineering

Yu Du, Beijing, China
Bachelor's (Zhejiang University)
Electrical and Computer Engineering

RuoLin Duan, Jieshou, China
B.Engr., Master's (Beijing University of Posts and Telecommunications)
Computer Science and Engineering

Jonathan Spencer Dufour, Morrow
Mechanical Engineering

Rajiv Dutta, Kolkata, India
B.Engr. (University of Pune)
Electrical and Computer Engineering

Eric William Dye, Dayton
B.S. (Wright State University)
Computer Science and Engineering

Daniel R. Ebert, Beavercreek
Mechanical Engineering

Michael N. Eft, Toledo
B.S.Weld.Eng.
Welding Engineering

Christine Ann Eichenlaub, Dayton
B.S. (Wright State University)
Industrial and Systems Engineering

Abdul Rahman Jamil El Husseini, Tripoli, Lebanon
Industrial and Systems Engineering

Kemal Eren, Lorain
B.S. (University of Michigan, Ann Arbor)
Computer Science and Engineering

Erdem Erkilic, Adana, Turkey
B.S. (Middle East Technical University)
Mechanical Engineering

Kathryn Marie Esselburn, Shreveport
B.S. (Denison University)
Animal Sciences

Clarisse Justine Evans, New Middletown
B.S.
Nursing

Michele Ann Evans, Powell
B.S.Nurs. (Sacred Heart University)
Nursing

Sarah Jo Everhart, Canal Winchester
B.S. (Iowa State University)
B.S.Nurs. (Mount Carmel College of Nursing)
Nursing

Eric G. Evola, St. Louis, MO
B.S.Mech.Eng. (Missouri University of Science and Technology)
Mechanical Engineering

Taylor Nichole Emerson Ey, Waxhaw, NC
B.S.Biomed.Eng.
Biomedical Engineering

Lydia Christine Fleck, Celina
B.A.
Nursing

Conor Robert Flynn, Port Orchard, WA
B.A. (Pomona College)
Environment and Natural Resources

Hok Sum Fok, Hong Kong, Hong Kong
B.S.Honors, M.Philos. (Hong Kong Polytechnic University)
Geodetic Science and Surveying

Kari Foss, Morris, IL
B.S. (Augustana College)
D.V.M. (University of Illinois at Urbana-Champaign)
Comparative and Veterinary Medicine

Kyle Richard Frank, Tiffin
B.S. (Bowling Green State University)
Mathematics

Ranjit Ganguly, Hamilton
Pharmacology

David Christopher Gerard, Columbus
B.S.
Statistics

Brandon Thomas Gifford, Stow
Food, Agricultural and Biological Engineering

Daniel Louis Gillhaugh, Cedarville
B.S.Mech.Eng. (Wright State University)
Mechanical Engineering

Katherine E. Glass, Rocky River
Bachelor's (John Carroll University)
M.Pub.Hlth.
Health and Rehabilitation Sciences

Peng Gong, Changde, Hunan, China
Bachelor's (University of Science and Technology of China)
Electrical and Computer Engineering
Lynn Marie Gordon, Wellington
B.S.Nurs.
Nursing

Nathaniel David Goss, Knoxville, TN
B.S. (Missouri University of Science and Technology)
Materials Science and Engineering

Laura Leigh Gray, Newnan, GA
B.S.N. (Clemson University)
D.V.M. (University of Georgia)
Comparative and Veterinary Medicine

Rachael E. Gray, Shreveport, LA
B.A., B.S.
Geological Sciences

Victoria Grey, Dublin
Diploma (Kharkov State University)
B.S.Nurs. (Mount Carmel College of Nursing)
Nursing

Jenna Elizabeth Griffin, Somerset, NJ
B.S.Bus.Adm., B.A.
Human Ecology

Joseph Anthony Grodecki, Springboro
B.S.Biomed.Eng. (Wright State University)
Biomedical Engineering

Nikhil Grover, Delhi, India
B.Tech. (Indian School of Mines)
Electrical and Computer Engineering

Ilda Grundmann, Hamburg, Germany
Comparative and Veterinary Medicine

Qingti Guo, Binzhou, China
B MechEng, Mech.Enger. (Harbin Institute of Technology)
Mechanical Engineering

Michael L. Gurney, Columbus
B.S. (Brigham Young University-Ihado)
D.D.S. (Creighton University)
Dentistry

Duren Ray Gutierrez, Canton, MI
B.Mus., M.Mus. (Wayne State University)
Nursing

Natalie Gyorke, Dublin
B.S.
Nursing

Stacy Sharon Hackenmueler, St. Michael, MN
B.A. (College of Saint Benedict)
Health and Rehabilitation Sciences

Shawn Alan Hall, Steubenville
Electrical and Computer Engineering

Faye L. Hamilton, Canton
B.S.
Nursing

Brian J. Hanhold, Fairlawn
B.S.Weld.Eng.
Welding Engineering

Jonda Hapner-Yengo, Dublin
B.A., B.S.Nurs.
M.Pub.Hlth. (Johns Hopkins University)
Nursing

Megan Marie Harberts, Albuquerque, NM
B.S. (New Mexico State University)
Physics

Ashley Hart, Haymarket, VA
B.S. (University of Georgia)
Food Science and Technology

Holly Jane Hartshorne, Worthington
B.A., B.S.Nurs.
Nursing

Amal Mohamed Hassan, Columbus
Electrical and Computer Engineering

Rachée Danielle Hatfield, Spokane, WA
B.S.Nurs. (Northeastern University)
Nursing

Jon Clifford Henry, Hilliard
B.S., M.D.
Medical Science

Christopher Scott Hocker, Vandalia
B.S.Cptr.Sci.Eng. (Wright State University)
Computer Science and Engineering

Steven D. Hoehner, Columbus
B.S. (Columbia School of Engineering and Applied Science)
Mathematics

Lydia Hoffman, Columbus
B.S.Educ.
Nursing

Zachary Conner Holden, Chambersburg, PA
B.S. (University of Pittsburgh)
Chemistry

Brooke Ann Holdgreve, Dublin
B.S.Alld.Hlth.Prof.
Health and Rehabilitation Sciences

Benjamin Hotrabhavananda, Bangkok, Thailand
B.S.Cptr.Sci.Eng. (University of Missouri-Columbia)

</table>
Commencement Convocation, June 10, 2012

Michael Alexander Obranovich, Loomis, CA
B.S. (University of California, Santa Cruz)
Physics

Mona Odeh, Cincinnati
B.S. (University of Cincinnati)
Molecular, Cellular, and Developmental Biology

Gozie Emmanuel Okwelume, Nnobi, Nigeria
B.Engr. (Federal University of Technology Owerri)
M.S. (Blekinge Institute of Technology)
Electrical and Computer Engineering

Michael Charles Owen, Groveport
Bachelor's (Northern Arizona University)
Nursing

Racheal Anne Pack, Columbus
B.S.Agr.
Plant Pathology

Benjamin Juan Padilla, Haverhill, MA
B.S. (Gordon College)
Environment and Natural Resources

Renuka Panchagavi, Dharwad, India
Bachelor's (Karnatak University)
Master's (Visveswararaih Technological University)
Computer Science and Engineering

Harshad Madhukar Paranjape, Pune, India
Bachelor's (Indian Institute of Technology Bombay)
Materials Science and Engineering

Monica Rajiv Patel, Martinez, GA
B.S. (Case Western Reserve University)
D.D.S. (University of Pennsylvania School of Dental Medicine)
Dentistry

Amita Ajit Pawar, Nanded, India
B.Tech. (University of Pune)
Mechanical Engineering

Tao Peng, Changsha, China
B.Engr. (Zhejiang University)
Electrical and Computer Engineering

Rebecca L. Pentecost, Chillicothe
B.S., D.V.M.
Comparative and Veterinary Medicine

Alina Susana Perez Rivera, Guatemala City, Guatemala
B.S. (Purdue University)
Health and Rehabilitation Sciences

Laura Alice Peterson, Columbus
B.S., M.D. (University of Wisconsin-Madison)
Medical Science

Carol M. Petke, Columbus
B.S.Nurs. (Capital University)
Nursing

Elizabeth Ellen Petraglia, Columbus
B.A. (University of Notre Dame)
Statistics

Kyle D. Phillips, Pickerington
Electrical and Computer Engineering

Wesley B. Phillips, Morgantown, WV
B.S., D.D.S. (West Virginia University)
Dentistry

Ariane Noel Pingleidis, Somerset
B.A.
Agricultural, Environmental and Development Economics

Nathan Peter Pollock, Green
Electrical and Computer Engineering

Spencer Porter, Canby, OR
B.S. (Oregon State University)
Chemistry

Preesha Prince, Chidambaram, India
B.Engr. (Annamalai University)
Electrical and Computer Engineering

Patricia Matthews Privette, Dublin
B.A., B.S. (Meredith College)
M.B.A.
Human Ecology

James Kenton Pullins, Urbana
B.S.Mat.Sci.Eng.
Materials Science and Engineering

Yang Qu, Beijing, China
B.S. (Beijing University of Posts and Telecommunications)
B.S. (Queen Mary University of London)
Electrical and Computer Engineering

Joel K. RagbirSingh, Houston, TX
B.S. (University of the West Indies)
Welding Engineering

R. Arun Muthu Chevan Ramasami, Chennai, India
B.Engr. (Anna University)
Electrical and Computer Engineering

Colin Michael Reeder, Columbus
B.S.Nutrition
Nursing

Bethany Lynne Reiner, Westerville
B.A. (College of Wooster)
M.S. (Case Western Reserve University)
Nursing

Sarah J. Richard, Dublin
B.S.Alld.Hlth.Prof.
Nursing

Mark Daniel Risser, Orville
B.S. (Eastern Mennonite College)
Statistics

Ellen Marguerite Rodenberger, Dublin
B.A. (Otterbein College)
B.S. (Bowling Green State University)
Nursing
Commencement Convocation, June 10, 2012

Xiaoqing Rong, Wooster
B.S. (China Agricultural University)
Plant Pathology

Michael D. Scherer, Fort Lauderdale, FL
B.S. (University of Miami)
Dentistry

Nahrain Mary Shasteen, Defiance
B.S., O.D.
Vision Science

Angela Marie Rose, Fremont
B.S. (University of Notre Dame)
M.Pub.Hlth. (University of Virginia)
Human Ecology

Laura Allene Schrader, Waterloo, IA
B.A., B.S. (Iowa State University)
Microbiology

Dandan Shen, Nanning, China
B.S. (Jilin University)
Electrical and Computer Engineering

Jeffrey P. Rose, Delaware
B.S.
Evolution, Ecology, and Organismal Biology

Brian Keith Schroeder, Eau Claire, WI
B.S.Civil.Eng. (North Dakota State University)
Welding Engineering

Andrew Jason Shepler, Gahanna
B.A. (University of Missouri-Columbia)
M.C.R.P.
Civil Engineering

Sally Rebecca Rosenthal Tor, Tucson, AZ
B.S. (University of Arizona)
M.Pub.Hlth. (A.T. Still University)
D.D.S. (Arizona School of Dentistry and Oral Health)
Dentistry

Jordan Douglas Secor, Ada
B.S.
Pathology

Matthew George Sherger, River Edge, NJ
B.S. (Rutgers University-New Brunswick)
D.V.M.
Comparative and Veterinary Medicine

Nina Frances Roslovic, Columbus
B.S.Bus.Adm. , M.A.
Nursing

Amanda Nicole Shumaker, Tiffin
B.A.
Nursing

Andrea Marie Rutherford, Batavia
B.S.
Molecular, Cellular, and Developmental Biology

Steven Tyler Simmons, Westerville
B.S.Agr.
Food Science and Technology

Daniel Robert Saltzmann, Westerville
B.S.Weld.Eng.
Welding Engineering

Catessa Louise Simon, Romney, WV
B.S. (West Virginia University)
Health and Rehabilitation Sciences

Deepak Chaitanya Saluru, State College, PA
B.Tech. (Vellore Institute of Technology)
Aeronautical and Astronautical Engineering

Ashish Kumar Singh, Ara, India
Bachelor's (ISM University of Management and Economics)
Computer Science and Engineering

Sara Elizabeth Sandberg-Thoma, Columbus
B.A. (University of Minnesota, Twin Cities)
Human Ecology

Isha Singh, Jaipur, India
B.Engr. (University of Rajasthan)
Electrical and Computer Engineering

Ashok Sasidharan, Trivandrum, India
B.Tech. (University of Kerala)
Electrical and Computer Engineering

Jasleen Singh, Punjab, India
B.S. (Punjab Agricultural University)
Plant Pathology

Alfonso Scandrett III, Columbus
B.S. (Gannon University)
Anatomy

Oruganti Prashanth Sharma, Hyderabad, India
B.Tech. (Banaras Hindu University)
Electrical and Computer Engineering

Afton L. Smith, Pataskala
Diploma (Hocking Technical College)
Nursing

Analisa Maria Scapino, Columbus
B.S. (University of Michigan, Ann Arbor)
Materials Science and Engineering

William Andrew Sharp II, Cincinnati
B.S. (University of Michigan, Ann Arbor)
Materials Science and Engineering
Angela Beth Smith, Zaneville
B.S. Nurs. (Kent State University)
Nursing

Mary Claire Snedeker, Newark
Bachelor's (Mount Vernon Nazarene University)
Nursing

Kaely Ann Snider, Nashport
B.S. Health and Rehabilitation Sciences

Matthew T. Snider, Homewood, IL
B.A. (University of Illinois at Chicago)
B.S. Mat. Sci. Eng. Materials Science and Engineering

Jaime Lynn Speiser, Chalfont, PA
B.S. (Elon College) Statistics

Patrick Lewis Spence, Bowling Green
B.S. Nursing

Rachelle Lea Speth, Columbus
B.S. Aero Astro Eng. Aeronautical and Astronautical Engineering

Justin Charles Staubli, Cambridge, WI
B.S. (University of Wisconsin-Stevens Point) Pathology

John Carter Stettler, Fairfield
B.S. (University of Cincinnati) Statistics

Alex William Stilwell, Granville
B.S. Mech. Eng. Mechanical Engineering

Stephanie Stockar, Savosa, Switzerland
M.S. (ETH Zurich) Mechanical Engineering

Sara Christine Stoner, Perrysburg
B.S. Nurs. Nursing

Michael Allan Storey, Meadville, PA
Pharm.D. (Ohio Northern University) Pharmaceutical Sciences

Nithin Sugavanam, Chennai, India
B.Engr. (Anna University) Electrical and Computer Engineering

Yohanes Budi Sulistioadi, Samarinda, Indonesia
Bachelor's (University of Mulawarman)
Master's (International Institute for Geo-Information Science and Earth Observation) Geodetic Science and Surveying

Anuj Gautam Surana, Solapur, India
B.Tech. (University of Pune) Computer Science and Engineering

Emina Suta, Dublin
B.S. (Northeastern Illinois University) Health and Rehabilitation Sciences

Valerie Ann Swank, Butler
B.S. (The University of Findlay) Animal Sciences

Hanning Tang, Nanjing, China
B.Engr. (Southeast University) Electrical and Computer Engineering

Shuai Tang, Beijing, China
Bachelor’s (University of International Relations) Computer Science and Engineering

Ashley Nicole Taylor, Port Clinton
B.S. Nursing

Cameron Manet Teichgraeben, Redlands, CA
B.A. (University of California, Berkeley) Physics

Lisa Anne Thiel, Delphos
B.S. Nurs. (Indiana Wesleyan University) Nursing

Zachary Micah Thomas, Circleville
B.S. (Otterbein College) Statistics

Yuan Tian, Urumqi, China
Bachelor's (Tsinghua University) Plant Cellular and Molecular Biology

Meng Tong Lopez-Garrity, Columbus
B.Engr. (Harbin Institute of Technology) Materials Science and Engineering

Michelle Christine Torres, Loveland
B.A. (Oberlin College) Geological Sciences

David Samuel Totten, Canton
B.S. (Wright State University) Industrial and Systems Engineering

Katy Louise Townsend, Columbus
Bachelor's (University of Sydney) Comparative and Veterinary Medicine

Eric Raymond Trinter, Columbus
B.S. A.Ild.Hlth.Prof. Nursing

Adam Garret Truog, Hudson
B.S.Weld.Eng. Welding Engineering

Peter T. Tsai, Columbus
B.S. (University of California, Berkeley) Materials Science and Engineering

Laura Elizabeth Tufts, Cape Girardeau, MO
B.S.Elec.Cptr.Eng. Electrical and Computer Engineering

Timothy Mark Tussing, Columbus
B.A. (Evergreen State College) Mathematics
Commencement Convocation, June 10, 2012

Oyita B. Udiani, Upper Marlboro, MD
B.S. (Saint Augustine’s College) Mathematics

Bridget Urie, Columbus
B.S., Master’s, D.V.M. (Auburn University Main Campus) Comparative and Veterinary Medicine

Heather Renee Usher, Sardinia
B.S.Honors (Wright State University) M.A. (University of Nebraska at Omaha) Nursing

Rajagopal Vasudevan, Chennai, India
B.Engr. (Anna University) Electrical and Computer Engineering

Vignesh Vimalesen, Chennai, India
B.Engr. (Anna University) Electrical and Computer Engineering

Emily Nicole Walker, Gallipolis
B.S. (University of Rio Grande) Nursing

Chang Wang, Columbus

Cong Wang, Beijing, China
Bachelor’s (Beijing University of Posts and Telecommunications) Electrical and Computer Engineering

Gaochan Wang, Beijing, China
Bachelor’s (China Agricultural University) Comparative and Veterinary Medicine

Min Wang, Huhhot, China
Bachelor’s (China University of Geosciences) M.S. Computer Science and Engineering

Wei Wang, Taiyuan, China
Bachelor’s (Tongji University) Geodetic Science and Surveying

Xiaohui Wang, Chengde, China
Bachelor’s (University of Science and Technology of China) Mathematics

Xiaomu Wang, Changde, Hunan, China
B.Engr. (Zhejiang University) Statistics

Allison Marie Wasserman, Southlake, TX
B.S. (Xavier University) Nursing

Chenjie Wei, Qingdao, China
B.Engr. (Shandong University) Computer Science and Engineering

Shang Wei, Beijing, China
B.Engr. (Tsinghua University) M.S. (University of Pennsylvania) Electrical and Computer Engineering

Kimberly S. Weirick, Columbus
B.S. (Dominican University of California, San Rafael) Nursing

Callie Rae Wells, Hamilton
B.S.Agr. Agricultural and Extension Education

Taylor Paine Williams, Cincinnati
B.S.Elec.Cptr.Eng. Electrical and Computer Engineering

Jennifer L. Wilson, Columbus
B.S.Bus.Adms. (Franklin University) Nursing

Kevin L. Wilson, Bedford Heights
B.S. (Howard University) Anatomy

Steve Jason Wilson, Concord
B.S.Mech.Eng. Mechanical Engineering

Timothy Nolan Windholtz, Columbus
B.S. (Miami University Oxford) Materials Science and Engineering

Hans Kurt Winterhalter, Centerville

Jon Robert Wisler, Delaware Bachelor's (Miami University Oxford) M.D. (University of Cincinnati) Medical Science

Paul Joseph Wolcott, Columbus B.S.Mat.Sci.Eng. (University of Michigan, Ann Arbor) Mechanical Engineering

David Avram Wolfe, Worcester, MA B.S. (Johnson and Wales University) Health and Rehabilitation Sciences

Kendra E. Wolk, Columbus B.S. (Michigan Technological University) D.V.M. Comparative and Veterinary Medicine

Jamie Erika Wood, Plain City B.S.Ald.Hlth.Prof. Nursing

Priyanka Yadav, Bhopal, India B.Med.&B.Surgy. (Barkatullah University) M.S. Entomology

Shujin Yang, Fujian, China Bachelor's, M.A. (Jiangxi Agricultural University) Animal Sciences

Zhiyao Yin, Wuhan, China B.S. (Huazhong University of Science and Technology) Mechanical Engineering

Jennifer Yoder, Circleville B.S. (Ohio University) Health and Rehabilitation Sciences
Commencement Convocation, June 10, 2012

Jessica Renee Yurasek, Canal Winchester
B.S.Nurs. (University of Toledo)
Nursing

Jordan Edward Zamary, Hubbard
B.S.Civil.Eng.
Civil Engineering

Da Zhang, Shenyang, China
B.Engr. (Dalian University of Technology)
Computer Science and Engineering

Fangyuan Zhang, Columbus
B.S. (Beijing Normal University)
Statistics

Yiding Zhang, Zhengzhou, China
B.S. (Tianjin University)
Environmental Science

Ying Zhang, Dalian, China
B.A.
Agricultural, Environmental and Development Economics

Yuanhong Zhao, Columbus
B.S. (University of Electronic Science and Technology of China)
Electrical and Computer Engineering

Jiayin Zheng, Wenzhou, China
B.S. (Zhejiang University)
Statistics

Yuwen Zhuang, Columbus
B.Engr. (South China University of Technology)
Computer Science and Engineering

Betsy Ann Zile, Columbus
B.A. (Taylor University)
Nursing

Thomas James Zugelder, Pendleton, NY
B.S.Mech.Eng. (Buffalo State College)
M.B.A.
Industrial and Systems Engineering

Master of Social Work

Kristin Illyse Allen, Lewis Center
B.S.Soc.Work (Eastern Michigan University)
Social Work

Ilija Atanasovski, Gahanna
B.A.
Social Work

Crystal Mae Augsburger, Bowling Green
B.A. (Bluffton University)
Social Work

Afton Racine Avalos, Wauseon
B.A., B.S.Soc.Work
Social Work

Alyson Marie Bachman, Westerville
B.S.Soc.Work
Social Work

Sylvia Lee Bailes, Johnstown
B.A.
Social Work

Nina Marie Banks, Canal Winchester
Bachelor's (Wilberforce University)
Social Work

Christina Lauren Beck, Chillicothe
B.A. (Ohio University)
Social Work

Jill Marie Becker, Plain City
B.S.Soc.Work (Capital University)
Social Work

Kelsey Muir Beil, Carroll
B.S.Soc.Work (Spring Arbor College)
Social Work

Sarah Benedetti, Beavercreek
B.A. (Miami University Oxford)
Social Work

David Andrew Bergen, Columbus
B.S.Soc.Work
Social Work

Emily Ann Binion, Lexington
B.A. (University of Akron)
Social Work

Jody L. Bowser, Galion
B.A. (Mount Vernon Nazarene University)
Social Work

Katherine Elizabeth Brantham, Cardington
B.A.
Social Work

Aubrey Megan Bray, Greenup, KY
B.A.
Social Work

Hilary L. Bray, Minford
B.A.
Social Work

Abigail Michelle Brockman, Cincinnati
B.S. (Miami University Oxford)
Social Work

Shelly Kim Brokaw, West Chester
B.A.
Social Work

Robyn Converse Brown, Columbus
B.A.
Social Work

Lauren Janelle Brunner, Dublin
B.S. (Pennsylvania State University)
Social Work

Beth A. Bucher, Worthington
B.A. (Mount Vernon Nazarene University)
Social Work

Monica Bumper, Columbus
B.S.Soc.Work (Capital University)
Social Work

Holly Marie Cantrell, Grove City
B.A. (Miami University Oxford)
Social Work

Jodi Carmack, Fremont
B.S. (Bowling Green State University)
Social Work

Michael Oliver Carter, Sr., Neptune, NJ
B.S.Soc.Work (Capital University)
Social Work
Commencement Convocation, June 10, 2012

Lisa Noelle Castro, Lockbourne
B.S. (Bowling Green State University)
Social Work

Kristen Diane Chambers, Maumee
Bachelor's (University of Toledo)
Social Work

Kasey Clifton, Montpelier
B.S.Agr.
Social Work

Caitlin Marie Condon, Canal Winchester
B.S.Soc.Work (Capital University)
Social Work

Christina Buck Conrad, Cincinnati
B.A. (Ohio University)
Social Work

Rebecca Ann Conway, Dublin
B.A. (Miami University Oxford)
Social Work

Bachelor's (Grace College)
Social Work

Jacqueline Jean Davis, Mount Vernon
B.S.Soc.Work (Mount Vernon Nazarene University)
Social Work

Michelle Denise Davis, Columbus
B.S.Soc.Work (Capital University)
Social Work

Calandria Rhae Dawson, Tipp City
B.A. (Wright State University)
Social Work

Colleen Rose Dempsey, Dayton
B.S.Soc.Work
Social Work

Serena Destiny Dempsey, Summit Station
B.S.Soc.Work
Social Work

Michelle Valerie Dismore, Durban, South Africa
B.A.
Social Work

Meagan Doan, Lexington
B.S.Soc.Work
Social Work

Kara Marie Dyer, Columbus
B.S.Soc.Work
Social Work

Mindy Ann Edwards, Defiance
B.S. (Defiance College)
Social Work

Scott Robert Edwards, Elizabethtown, PA
B.A. (Messiah College)
Social Work

Jennifer Rae Eller, New Albany
B.S.Soc.Work (Mount Vernon Nazarene University)
Social Work

Kady Elizabeth Ermisch, South Euclid
B.A.
Social Work

Kristen Marie Evangelista, Sunbury
B.S.Soc.Work (Concord College)
Social Work

Hillary Paige Evans, Dover
B.S.Soc.Work (Capital University)
Social Work

Jessica Dorothy Evans, Hamilton
B.S.Soc.Work (Capital University)
Social Work

Patricia Veronica Fields, Gahanna
B.A.
Social Work

Mallory Louise Figgins, Fayette
Bachelor's (Spring Arbor College)
Social Work

Taryn Brittany Finelli, Pickerington
B.A. (Miami University Oxford)
Social Work

Caroline Denise Flanigan, Columbus
B.S. (University of Illinois at Urbana-Champaign)
Social Work

Elizabeth Jane Fox, Marshallville
B.S.Soc.Work
Social Work

Simone Tamara Gabel, Bexley
B.A. (Miami University Oxford)
Social Work

Kathryn Gallagher, Toledo
B.A. (University of Toledo)
Social Work

Alicia Garand, West Chester
B.S.Soc.Work (Loyola University Chicago)
Social Work

Ashley Michelle Garcia, Mentor
B.S. (Bowling Green State University)
Social Work
Brenna Lou Gardner, Pickerington
B.S. (Urbana University)
Social Work

Emily Anne Getschman, Bloomfield Hills, MI
B.S. (Miami University Oxford)
Social Work

Jessica May Gillenwater, Hilliard
B.A.
Social Work

Blair R. Gonsenhauser, Columbus
B.A. (American University)
Social Work

Marjorie Michelle Grafton, Toronto
B.A.
Social Work

Rachel Gratz, Lima
B.S.Soc.Work (Ashland University)
Social Work

Ladan Abdulahi Haji, Mogadishu, Somalia
B.S.Soc.Work
Social Work

Lisa Halley-Swearingen, Commercial Point
B.A. (Otterbein College)
Social Work

Faith May Handley, Phoenixville, PA
B.S. (Cedarville University)
Social Work

Catherine C. Hanson, Marquette, MI
B.A. (Providence College)
Social Work

Katrina Lynn Hardgrove, Columbus
B.A.
Social Work

Cecelia J. Harrison, Dayton
B.A. (Wright State University)
M.A. (Southern Illinois University Carbondale)
Social Work

Traci Marie Hawkins, Sunbury
B.A. (Miami University Oxford)
Social Work

Elizabeth Weaver Helke, Troy
B.A. (Miami University Oxford)
Master's (University of Dayton)
Social Work

Sarah Elizabeth Henry, Delaware
B.S.Soc.Work
Social Work

Christie Lee Hite, Hilliard
B.A. (Ohio Dominican University)
Social Work

Christie Michelle Hollopeter, Springfield
B.S.Soc.Work (Ashland University)
Social Work

Tess Kristine Homier, Continental
B.A. (Bluffton University)
Social Work

Chih-Yu Hsiao, Taipei, Taiwan, ROC
B.A. (Ohio Wesleyan University)
Social Work

Courtney Rae Huber, Leipsic
B.A. (The University of Findlay)
Social Work

Jennifer Rachael Huber, Hamler
B.A. (The University of Findlay)
Social Work

Megan Renee Huck, Marietta
B.A.
Social Work

Kristin Renee Huddle, New Albany
B.A. (Bowling Green State University)
Social Work

Earnesta Janelia Davie Ivey, Columbus
B.A.
B.S.Soc.Work (Capital University)
Social Work

Taylor Adam Jacklin, Mount Vernon
B.A. (Ohio Dominican University)
Social Work

Erica Kay James, Marysville
B.A. (Wright State University)
Social Work

Anna Christine Jencson, North Royalton
B.A.
Social Work

Rebecca Jean Jones, Westerville
B.S. (Cedarville University)
Social Work

Lauren J. Karaffa, Columbus
B.A.
Social Work

Easter Sundae Keller, Springfield
B.A. (Ohio Northern University)
Social Work

Holly Nicole Korns, Gahanna
B.A. (Ohio University)
Social Work

Jennifer Amy Ketzer, Columbus
B.S. (Miami University Oxford)
Social Work

Britney Kimmet, Canal Winchester
B.A. (Capital University)
Social Work

Nicole Marie Klimas, Westlake
B.S.Soc.Work
Social Work

Carla Jane Kohler, Wapakoneta
B.A. (Bluffton University)
Social Work

Sara Renee Kopacko, Medina
B.S.Educ.
Social Work

Stephanie Marie Kossler, Greenville
B.S. (University of Cincinnati)
Social Work

Megan Nicole Kudrin, Galion

Christopher Andrew Fechner, Cincinnati

College of Engineering
Dean: David B. Williams

Bachelor of Science in Aeronautical and Astronautical Engineering
Christopher Ryan Atkins, Sandusky
Michael Raymond Beach, North Olmsted
Ethan James Brewer, Bay Village
Magna Cum Laude
Rohan Vivek Chandavarkar, Dubai, UAE
Magna Cum Laude
Jess Anthony Cleary, Pickerington
David Matthew Coatoam, Broadview Heights
Joseph Campbell Corl, Pickerington
Andrew Michael Curran, Omaha, NE
Ashneil Kumar Datt, Springfield

Bachelor of Science in Aviation
Victoria Lynn Haky, Parma
Brandon Rodger Harlow, Millersport
Tyler Nathaniel Thomas, Poland
Matthew Edward Zimmerman, Westerville

Bachelor of Science in Biomedical Engineering
Christopher S. Ahn, Oxford
Summa Cum Laude
Nicholas John Andersen, Katonah, NY
Emily Kay Breymaier, Maumee
Cum Laude
with Honors in Engineering
Christopher Joseph Dooley, West Chester
with Honors in Engineering
with Honors Research Distinction in Biomedical Engineering
Andrew William Dunn, Worthington
Christopher Andrew Fechner, Cincinnati

Bachelor of Science in Aviation
Victoria Lynn Haky, Parma
Brandon Rodger Harlow, Millersport
Tyler Nathaniel Thomas, Poland
Matthew Edward Zimmerman, Westerville

Bachelor of Science in Biomedical Engineering
Christopher S. Ahn, Oxford
Summa Cum Laude
Nicholas John Andersen, Katonah, NY
Emily Kay Breymaier, Maumee
Cum Laude
with Honors in Engineering
Christopher Joseph Dooley, West Chester
with Honors in Engineering
with Honors Research Distinction in Biomedical Engineering
Andrew William Dunn, Worthington
Christopher Andrew Fechner, Cincinnati
Commencement Convocation, June 10, 2012

Shelby Nicole Fullen, Westerville
Tyler Joseph Griffin, Powell
Dustin Lee Haidet, Alliance
Jessica Rachel Ly, Massillon
Joshua Login Mena, Gales Ferry, CT
Juan D. Mendoza, El Paso, TX
Cum Laude
Emily Colin Moore, Urbana
Magna Cum Laude
John William O’Bryan, Wyoming
Cum Laude
Alexandra Louise Randolph, Cincinnati
Jill Anne Sanders, Toledo
with Research Distinction in Biomedical Engineering
Sarah Anne Schloemer, Cincinnati
Cum Laude
with Honors in Engineering
with Honors Research Distinction in Mechanical Engineering
Naseeb George Shaheen, Canton
Brittany Shannon Shreefer, Willoughby Hills
Magna Cum Laude
with Honors in Engineering
Austen Breanne Thomas, Dayton
Sravya Padmaja Vajapeyajula, Centerville
Summa Cum Laude
with Honors in Engineering
Summa Cum Laude
with Honors Research Distinction in Materials Science and Engineering
Kristoffer Ryan Winks, Columbus
Leanne Marhea Winslow, Mount Vernon
Cum Laude

Bachelor of Science in Chemical Engineering

Laura Enid Acosta, Olmsted Falls
Cum Laude
with Honors in Engineering
Andrew Joseph Amaya, Worthington
Magna Cum Laude
Michael Stanley Antalis, Delphos
Cum Laude
Whitney Beard, Shoreview, MN
Sefanit Mequament Berihun, Worthington
William Lowell Bluem, Worthington
Cameron Joseph Bodenschatz, North Canton
Cum Laude
with Honors in Engineering
with Honors Research Distinction in Mechanical Engineering
Robert Banker Comer, Houston, TX
Anthony M. Constantino, Parma
Peter Anton Dobler, Cincinnati
Cum Laude
with Honors in Engineering
Elliott Matthias Dolan, Loveland
Michael Jason Dumas, Midland, MI
Andrew Robert Dunagan, Mentor
Magna Cum Laude
Shuwen Fan, Shanghai, China
Bradley Edward Fatlliar, Westlake
Dustin M. Fawcett, Ft. Meyers, FL
Joshua Patrick Feeney, Westerville
Ilse Priscila Fernandez, Toledo
Robert Alexander Fidelibus, Bexley
Magna Cum Laude
with Honors Research Distinction in Chemical Engineering
Steven Douglas Fisher, Springboro
Cheryl E. Grubbe, Columbus
Michael Thomas Hartman, Brecksville
Michael Robert Heinrichs, Centerville
Cum Laude
Erin Elizabeth Hiestand, Fremont
Jacob Thomas Huggins, Mason
Magna Cum Laude
Danielle Nicole Jensen, Perrysburg
Cum Laude
Matthew Joseph Jones, Columbus
Kevin John Kauffman, Centerville
Summa Cum Laude
with Honors in Engineering
Summa Cum Laude
with Honors Research Distinction in Chemical Engineering
Brian C. Kiel, Cleveland
Charlie Robert Kiley, Holly Springs, NC
Adam Andrew Kowalski, Troy
with Honors in Engineering
Joseph Leo Linsenmeyer IV, Tipp City
Summa Cum Laude
Joshua Allen Martin, Canton
Cum Laude
David Mitchell Mazala, Orange Village
Cum Laude
Brenna Elizabeth McNamee, Upper Arlington
Chase Jeret Miller, Toledo
Brad Morris, Toledo
Elhadji Fallou Ndiaye, Columbus
Michael Raymond Nechay, Garfield Heights
Cum Laude
with Honors in Engineering
Peter C. Nguyen, Cincinnati
Tri Quoc Nguyen, Kettering
Addison Dietrich Nilges, Dublin
Kunal S. Panik, Reynoldsburg
Magna Cum Laude
with Honors in Engineering
with Honors Research Distinction in Chemical Engineering
Sean Michael Pattison, Wooster
with Research Distinction in Chemical Engineering
Abigail Elnora Prickett, Kingston
Justin John Robert Reed, Lewistown
Magna Cum Laude
Derek Alexander Reichel, Sagamore Hills
Summa Cum Laude
with Honors in Engineering
with Honors Research Distinction in Chemical Engineering
Kent Charles Reid, Columbus
Lisa Danielle Reisenauer, West Chester
Nicholas Anthony Sakian, Twinsburg
Christopher Michael Schneider, Dublin
Scott Eassa Shaheen, Canton
Magna Cum Laude
with Honors in Engineering
Nahien Hasan Sharif, Glastonbury, CT
Magna Cum Laude
Sweety Sharma, New Delhi, India
Albert Heesang Shin, Dublin
Michael Glen Shivers, Findlay
Dylan M. Silbiger, Wyoming
Daniel William Simons, Massillon
Hok Hei Tam, Dublin
Magna Cum Laude
with Honors in Engineering
with Honors Research Distinction in Chemical Engineering
Anthony Michael Unger, Strongsville
Summa Cum Laude
Matthew Joseph Ustaszewski, Sunbury
Joseph Paul Vanderburgh, Oakwood
Jay Wang, Westlake
Cody Lakin Ward, Gahanna
Daniel Mark Wisniewski, Mentor

869
Commencement Convocation, June 10, 2012

Evan Lackner Wozniak, Hudson

Bachelor of Science in Civil Engineering

Bader Abdulaziz Alfulaij, Kuwait
Daniel Justin Antone, Dublin
Cody Joseph Archer, Columbus
Cassandra Whitney Bast, Dover
Cody Wayne Beucler, Sardinia

Summa Cum Laude
Tyler Albert Bicknell, Cridersville

Alex Bohanan, Gahanna
Philip Thomas Bruggeman, Saint Marys
Joseph Donald Budgake, Canton
David Bueno, New York City, NY

Cum Laude
David Ronningen Burchnall, West Chester

Summa Cum Laude
Michael Douglas Chandler, Milford
Andrew Stephen Cook, Apex, NC

Cum Laude
Roger James Davidson, Maumee
Steven Deininger, Wallingford, PA

Zachary Raymond Deleonardis, Steubenville
Joe Michael Dragovich, Canfield

Cum Laude
Zachary John Evick, St. Clairsville
Kevin Robert Fahy, Worthington
Elizabeth Ann Fisher, Euclid
Bradley Robert Francznkowski, Boardman

Cum Laude
Joel D. Fry, Huntsville
Alex Martin Furfaro, Hinckley

Cum Laude
Andrew Stephen Gort, Mason
Samantha Nicole Harris, Avon Lake

Adam Christopher Helbling, Stow
Mark Herber, Antwerp
Christopher William Huber, Ontario

Magna Cum Laude
Morgan Elizabeth Hunter, Pickerington

Magna Cum Laude
Edward Louis Isabella, Medina
Molly Elizabeth Kalb, Twinsburg

Magna Cum Laude
Troy Anthony Karski, Columbus
with Research Distinction in Civil Engineering
Jared Robert Kettlewell, New Philadelphia
Thomas Michael Knott, Magnolia
Robert Michael Koors, Gahanna
Thomas Michael Lazar, South Euclid
Matthew Ryan Leach, Cincinnati
Andrian J. Lee, Columbus
with Honors in Engineering
David Ga-Yiu Lee, Dublin
with Honors in Engineering
Quincy Edmund Lee, Portland, OR

Yun Ho Lee, Columbus

Jonathon David Leonard, Lewis Center
Joshua Ronald LeVan, Manama, Bahrain
Wesley Charles Lockwood, Springfield

David J. Long, Jefferson

Brooke Elizabeth Mathews, Perrysburg

Thomas J. Mayer, Bay Village
Tyler Earl McNeely, Kingman
Clark Oliver Michael, Arcanum

Cum Laude
Christopher Patrick Miller, Corpus Christi, TX
Andrea Kathleen Mobley, New Concord

Magna Cum Laude
Rebecca Marie Moser, Milford

with Honors in Engineering
with Honors Research Distinction in Environmental Engineering

Patrick Richard Munn, Kettering
Zenon Mural, Parma

Matthew John Myers, Van Wert

Mark A. Nemergut, Youngstown
Kristin Alexandra Ober, Hamilton, VA

Richard Ross Olesky, Youngstown
Jeffrey Lee Paulus, Lancaster
Brett R. Peterson, Upper Arlington

Stephan Chase Preston, Niles

Miles P. Provance, Cuyahoga Falls

Michael S. Rebellino, Canton

Magna Cum Laude
Aaron James Roberts, Heath
Robert Ronald Rusnak, Canton

Jonathan Andrew Ryan, Columbus
Laura Christine Sanders, Brecksville

Summa Cum Laude
Christopher John Sandusky, Springfield
Jory Michael Schmidt, Gahanna

Cum Laude
Steven Mark Schmidt, Cincinnati
Michael Lewis Seeger, Sidney
Nicole Lee Sell, Mantua

Magna Cum Laude
Taylor Steven Shidaker, Dublin

Matthew Eric Shilling, Boardman

Magna Cum Laude
with Honors in Engineering
Molly Mishelle Shlaes, Shaker Heights
Alexander David Sichko, Grandview Heights

Magna Cum Laude
Alison Leigh Speller, Houston, TX

Robert Benjamin Strick, Fairview Park
Matthew Ryan Swartz, Cincinnati
Michael Robert Taricska, Bay Village

Christina Michelle Thyen, Cincinnati

Magna Cum Laude
Clay Michael Tietjen, San Antonio, TX

Carter Aloysius Walchli, Springboro

Kristen Michelle Wells, Medford, OR

Magn Cum Laude

with Honors in Engineering

Dustin Wayne West, Newark

with Honors Research Distinction in Civil Engineering

Cory Deakin Wolfe, Sunbury

Cum Laude

Bachelor of Science in Computer Science and Engineering

Anuj D. Agrawal, Columbus
Abdulwahab Abdullah Alkharashi, Riyadh, Saudi Arabia

James Harrison Austrow, Cincinnati
with Honors in Engineering

Travis Brandon Bagley, Medina

Commencement Convocation, June 10, 2012

Chett Urban Borchers, Russia
Larissa M. Borocz, Akron
Khaled Bouneka, Algeria
Gwynne Meredith Briggs, Grovetown, GA
Summa Cum Laude
Joseph David Burch, Canfield
Jessica Lynn Burk, Richmond Heights
Magna Cum Laude
Benjamin William Buschmann, Maumee
Kevin M. Butz, Loveland
Cum Laude
Robert M. Carson, Worthington
Summa Cum Laude
Gilbert Lee Chiang, Atlanta, GA
Bryan Paul Cianchetti, Buffalo, NY
Corey Brian Cottrell, Zanesville
Wyatt Stewart Crosby, Cincinnati
Magn Cum Laude
Tiffany Nichole Davis, Atlanta, GA
Nathan Marc Debard, Dayton
Aaron Joseph DeLoye, Russia
Thierno Ismailia Diallo, Labe, New Guinea
William Ray Dodd, Jr., Green
Daniel John Doster, Sandusky
Douglas Allan Ellis, Fairfield
Michael Anthony Farinacci, Powell
Magn Cum Laude
Jason Douglas Feth, East Liverpool
Cum Laude
Nicholas Franklin Fox, Kettering
Magn Cum Laude
Ryan Scott Galloway, Avon Lake
Brian C. Glazer, Seven Hills
Eric Nathan Goetsch, Liberty Township
Cum Laude
Brian David Grady, Westlake
Summa Cum Laude
Alana R. Gray, St. Louis, MO
Jose Amaury Gutierrez de Arroyo, Beavercreek
Magn Cum Laude
Franklin Paul Hanner, Dover
Jason Bradley Hansen, Powell
Lindsay Robert Henton, Twinsburg
Christopher Scott Hilling, Westerville
Justin Thomas Holderle, Grove City
Katie N. House, Hilliard
Sicong Hua, Beijing, China
Cum Laude
Jason Alan Inbody, Findlay
Edward Lee Jennings, Bellefontaine
Adit Joshi, New Delhi, India
Magna Cum Laude
Ryan Mark Julian, Green
Cum Laude
Stephen Joseph Kahmann, Springboro
Magna Cum Laude
with Honors in Engineering
with Honors Research Distinction in Electrical and Computer Engineering
Scott Christian Kipfer, Payne
Steven Louis Kiss-Benke, Parma
Austin Bengoechea Krohn, Centerville
Matthew Alan Kromer, West Chester
Summa Cum Laude
Dominic Edward Labanowski, Upper Arlington
Summa Cum Laude
with Honors in Engineering
with Honors Research Distinction in Electrical and Computer Engineering
Benjamin Bradley Leece, Warren
David R. Leonard, Geneva
Jordan Levi Lewis, Barnesville
Cum Laude

Brian Joseph DeSantis, Gates Mills
B.A. (Wittenberg University)

Kristina Marie DeSenze, Columbus
B.A.

Kathryn DeWeese, Bloomington, IN
B.S. (Purdue University)
Cum Laude

Joseph Peter DiPasquale, Buffalo, NY
B.A. (State University of New York at Buffalo)
Cum Laude

Joshua Raymond Dougherty, Hilliard
B.A. (Ohio Wesleyan University)

Marissa Lee Doyle, Pittston, PA
B.A. (Columbia University - Columbia College)

Steven Thomas Druckenmiller, Columbus
B.A. (Capital University)

Samuel John Dunsky, Dayton
B.A.

Anne Marie Evans, Westlake
B.A., M.A.

Ethan Joseph Evans, West Chester
B.A. (Miami University Oxford)

Shenelle Tiffany Fabio, Miami, FL
B.A. (Ithaca College)

Joshua Michael Ferdelman, Dayton
B.A. (Wright State University)
Stephanie M. Fitos, Cleveland
B.A., M.S.W.

Meagan Nicole Fitzgerald, Strongsville
B.A.

Andrew Fontanarosa, Youngstown
B.A. (Kent State University)
Magna Cum Laude

Hannah Elizabeth Fout, Greenfield
B.S.Agr., M.C.R.P.

Jill Michelle Fridley, Zanesville
B.S. (Ohio University)

Maureen Ellen Fulton, Omaha, NE

Jessica Faye Gepmerline, Columbus
B.A.

Amanda Elizabeth George, Grand Island, NY
B.S., M.B.A. (John Carroll University)

Maxwell Wham Gerwin, Cincinnati
B.Bus.Adm. (Miami University Oxford)

Jamie Kara Giangreco, Rochester, NY

Maya Ginsburg, Cincinnati
B.A. (Dickinson College)
Cum Laude

Lindsay Michelle Gladysz, Troy, MI
B.A. (University of Michigan, Ann Arbor)

Christopher Aaron Godinsky, Strongsville
B.A.
Cum Laude

Jennifer Sue Golden, West Bloomfield, IN
B.A. (University of Michigan, Ann Arbor)

Kailee Marie Goold, Avon Lake
B.A. (West Virginia University)
Summa Cum Laude

Thomas James Grier, Columbus
B.A. (Arizona State University)

Joseph Michael Griesmer, Canfield
B.A. (John Carroll University)

Ryan Dale Groves, Columbus
B.A. (Georgetown University)

Jennifer Marie Halas, Dublin
B.A. (University of Michigan, Ann Arbor)

Christopher Michael Hammond, Columbus
B.Bus.Adm. (University of Toledo)
Magna Cum Laude

Christopher Joel Hanson, Lakeland, FL
B.S. (Florida Southern College)
Cum Laude

Yasmine Lorraine Harik, New York, NY
B.A. (Amherst College)

Jennifer Marie Hart, Pataskala
B.A. (Princeton University)

Randy William Hart, Jr., Salem Center
B.A. (Ohio University)
M.A.

Ashley Sara Hegedus, Columbus
B.A. (Miami University Oxford)

John Henry Heithaus, Cincinnati
B.S. (University of Chicago)

Janie R. Henry, St. Clairsville
B.A.
Magna Cum Laude

William Charles Herbert, Huntington Bay, NY
B.A.

Jennifer Lynn Herman, Beaver Falls, PA
B.A. (Chatham College)

Lorraine Hernández, Mayaguez
B.S. (University of Puerto Rico)
M.S.

Thomas Michael Hess, Jr., Pickerington
B.Bus.Adm. (Miami University Oxford)

Stefanie Kay Hile, Findlay
B.A.

Gregory Gordon Homer, West Valley City, UT

Catherine Luna Hookway, Willard
B.A.

Sunny L. Horacek, Galion
B.A.

Andrew Michael Howard, Toledo
B.Bus.Adm. (University of Toledo)

Kristi Hsu, Spring, TX
B.A. (University of Texas at Austin)
M.A.

Lauren Kimberly Hunter, Liberty Township
B.A. (University of Kentucky)
Cum Laude

Joshua Edward Hurtuk, Cleveland
B.A. (Duke University)
Magna Cum Laude

Christopher Mark Immormino, Novelty
B.A. (University of Notre Dame)

Giuseppe Errico Ionno, Dover
B.A. (College of Wooster)

Andrea Nicole Isabella, Cleveland

Lauren Elizabeth James, Dublin
B.A.

Mengyang Jian, Cleveland
B.A. (Dartmouth College)

Hamza Khurram Jilani, Salisbury, MD
B.A. (University of Maryland, College Park)

Geoffrey Allan Jones, Powell
B.A. (Humboldt State University)

Sarah Ann Kaiser, Tucson, AZ
B.A., B.S.Bus.Adm. (University of Arizona)

Gregory Hall Sams,  
Westerville  
B.A. (Northwestern University)

Paul Manuel Saridakis,  
Brecksville  
B.S.

Ashley Loren Scheffer, Akron  
B.S. (Arizona State University)

Paul Michael Shaniuk,  
Strongsville  
B.S. (Baldwin-Wallace College)  
Cum Laude

Shishir Sharma, Columbus  
Magna Cum Laude

David Shi, Columbus  
B.A. (Northwestern University)

Mary Hughes Shull, Columbus  
B.S. (Vanderbilt University)  
Magna Cum Laude

Trevor Shull, Columbus  
B.A. (Hope College)

Corinne Frances Stalzer, Broadview Heights  
B.S. (Duquesne University)
Cum Laude

Jane E. Stremming, Columbus  
B.S. (University of Illinois at Urbana-Champaign)  
Cum Laude

Victoria Marie Sultan, Columbus  
B.A. (Wellesley College)

David Michael Swenson, Columbus  
B.S. (Brigham Young University)  
Cum Laude

Stephanie Si Tang, Columbus  
B.A., B.S. (University of Arizona)

Jordan Schiller Thomas, Solon  
B.S. (Tufts University)

Trevor Anthony Thompson, Medford, OR  
B.S. (Oregon State University)  
Magna Cum Laude

David S. Tillman, Columbus  
B.S. (University of Wisconsin-Madison)

Jose Antonio Torres-Garcia, Columbus  
B.S. (East Carolina University)

Brock Turley Trejo, Columbus  
B.S. (Brigham Young University)

Thai Quang Trinh, Pataskala  
B.A. (Capital University)  
Magna Cum Laude

Mu Chun Tsai, Columbus  
B.S. (University of Maryland, College Park)

Daniel J. Tseng, Shoreline, WA  
B.S. (University of Washington)

Jemina Onyeka Udeogu, Tamarac, FL  
B.A. (University of Miami)

Ryan James Urchek, Warren  
B.S.Ald.Hlth.Prof.  
Magna Cum Laude

Daniel Bryan Van Bibber, Westerville  
B.S. (Weber State University)

Jacqueline Wertheim, Vanderburgh, Dublin  
B.S. (Cornell University)
Cum Laude

Rachel Kaye Voss, Columbus  
B.A. (Washington University in Saint Louis)  
Magna Cum Laude

Laura Ann Wallace, Columbus  
B.A. (Indiana University Bloomington)

Michael Robert Wellner, Colgate, WI  
B.S. (University of Wisconsin-Madison)

Caitlin Elizabeth Wetzel, Columbus  
B.S. (University of North Carolina at Chapel Hill)  
Cum Laude

Jeremy Thomas Wilks, Mount Vernon  
B.S. (Bowling Green State University)

Margaret Emily Williams, Columbus  
B.A. (Princeton University)  
B.S.Civil.Eng.  
Cum Laude

Jessica Jean Schultz Wilson, Dublin  
B.S. (Wittenberg University)

Lisa Marie Winton, Strongsville  
B.A. (University of Cincinnati)

Adam Wooldridge, Columbus  
Rockford Scott Wright, Hilliard  
B.S. (Brigham Young University)

Elaine Sunshine Yeh, Columbus  
B.S.

Andy A. Yoder, Sugarcreek  
B.A. (Goshen College)

Commencement Convocation, June 10, 2012

Tina Marie Glade, Cleveland
Magna Cum Laude
Nicholas Robert Glenn, Hartsville, SC
Cum Laude
Nicole Chrystyne Glivar, Chicago, IL
Cum Laude
Jenifer Alexis Godfrey, Reynoldsburg
Jennifer Lynn Goodman, Lancaster
Amber M. Goshe, Tiffin
Magna Cum Laude
Kelsey Marie Gray, Canton
Cum Laude
with Honors Research Distinction in Biomedical Science
Rebecca Elizabeth Griffin, Vandalia
Kevin Lamar Hall, Erie, PA
Cum Laude
Kelsey Dawn Hammond, Danville
Cum Laude
Christopher Charles Hanna, Poland
Magna Cum Laude
Cori Anne Hanood, Pickerington
Jaime Lynn Hartley, Ocean City, NJ
Magna Cum Laude
with Honors Research Distinction in Radiologic Sciences and Therapy
Mollie Elizabeth Haughn, Grove City
Cum Laude
Caitlin Elizabeth Hayes, Columbus
Cum Laude
Jessica Ashley Heatwole, Lima
Magna Cum Laude
Ryan Daniel Hickey, Massillon
Cum Laude
Lindsay Michelle Hofmann, Cincinnati
Magna Cum Laude
with Honors Research Distinction in Respiratory Therapy
Morgan Alyssa Hogue, Canton
Summa Cum Laude
Timothy Charles Horner, Spencerville
Kaitlynn Elizabeth Hunker, Fairfield
Magna Cum Laude
Jared Michael Hunt, Pittsburg
Regina Nichole Hunter, Cleveland Heights
Jacqueline Huynh, Cleveland
Desiree Lynn Iden, Salem
Dominique D. Jackson, Akron
Allison Marie Jacob, Westlake
Amanda Rose Jacob, Shelton, CT
Magna Cum Laude
Alice Kelley Jacobson, Mendham, NJ
Magna Cum Laude
with Honors Research Distinction in Respiratory Therapy
Ashley Nicole Janda, Mentor
Summa Cum Laude
Allyson Patricia Jenne, Worthington
Magna Cum Laude
Kevin David Johnson, Cincinnati
Thomas Michael Kaffenberger, Bellbrook
Magna Cum Laude
with Research Distinction in Biomedical Science
Shannon Colleen Kanary, Toledo

Kara Dawn Scheiderer, Hilliard
Summa Cum Laude
Jered Robert Schliecher, Willoughby
Magna Cum Laude
Alexandra Marie Schneider, Hamilton
Cum Laude
Jessica Lynn Schraer, Cincinnati
Cum Laude
Amanda Marie Schroeder, Ottoville
Magna Cum Laude
Kathryn Elizabeth Schulze, Maria Stein
Cum Laude
Marci Raeann Scovil, Centerville
Magna Cum Laude
Rachel Leah Segarra, Fenton, MI
Cum Laude
Kendra Marie Seifert, Bowling Green
Kelly Marie Setlock, Solon
Christina Marie Shepherd, Zanesville
Zachary Benjamin Sherman, Milford
Cum Laude
Joshua B. Shields, Columbus
Sophia Aden Farah Shirdon, Dublin
Lindsey Nicole Shirilla, Youngstown
Cum Laude
with Honors in Allied Medicine
Annie Grace Shmookler, Gahanna
Melissa Kathryn Sinay, Hilliard
Cum Laude
Stanley James Singar, Elyria
Ashwin Sivanesan, Columbus
Amanda Ann Smith, Marblehead
Cum Laude
Erin Elizabeth Smith, Sandusky
Lindsey Lee Smith, Tiffin
Kaylie Alred Sniff, Medina
Cum Laude
Melissa Ann Staker, Jackson
Magna Cum Laude
Laura Katherine Stempyk, West Chester
Magna Cum Laude
Joshua Phillip Stiles, Akron
Joshua Michael Stone, Oak Harbor
Magna Cum Laude
Andrew Charles Studenic, Marietta
Miho Suga, Japan
Paige Elise Sutton, Kennett Square, PA
Cum Laude
Urji Bineenso Tahir, Columbus
Cum Laude
Nicholas James Taylor, Grand Island, NY
Magna Cum Laude
with Honors in Allied Medicine
Jenessa Cruz Teague, Gahanna
Magna Cum Laude
Michelle Ann Tibbitts, Friendswood, TX
Cum Laude
Ruchi Chandrashekhari Tiwari, Reynoldsburg
Alexandra R. Toole, Cincinnati
Cum Laude
Alexandra Frances Tunitis, Macungie, PA
Kelly Leigh Turner, West Chester
Summa Cum Laude
Jennifer Jane Uhlir, Strongsville
Magna Cum Laude
Brianne Van Der Griend, Canfield
Magna Cum Laude
Shripal Pankil Vora, Cuyahoga Falls
Lauren Mary Vorisek, Gahanna
Magna Cum Laude
with Honors Research Distinction in Medical Dietetics
Igor Voronkin, Mayfield Heights
with Honors in Allied Medicine
Emily Dora Kathryn Walls, Wapakoneta
Magna Cum Laude
Kylee Marie Warnecke, Fort Jennings
Magna Cum Laude
Veronica Emily Weber, Westerville
Kristen A. Weeber, Parma
Cum Laude
Sarah Catherine Whitney, North Olmsted
Cum Laude
Sarah Nicole Winholt, Loveland
Jennifer Kay Wisniewski, Beavercreek
Cum Laude
Karli Allison Wolff, Medina
Magna Cum Laude
Brittany Rachelle Yokum, Grove City
Amanda Ann Young, Zanesville
Cum Laude
Laura Eileen Young, Massillon
Jacqueline Theresa Zamborsky, Broadview Heights
Megan Elizabeth Zaworski, Columbus
Magna Cum Laude
Wesley David Zoller, Marietta
Summa Cum Laude
Certificate of Post Baccalaureate Medical Technologist
Elizabeth Ann Foust, Findlay B.S.
College of Nursing

Dean: Bernadette M. Melnyk

Bachelor of Science in Nursing

Megan Nicole Ackley, Delaware
Dorcas Agyemang, Columbus
Katherine Anne Alexander, Mansfield
Rachel Elizabeth Allgood, Avon Lake
Cum Laude
Katherine Marie Amos, Delaware
Elizabeth Marie Andres, Delaware
Stephanie Marie Antill, Columbus

April 6, 2012 meeting, Board of Trustees
The Board of Trustees met Wednesday, June 20; Thursday, June 21, and Friday, June 22, 2012, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **
June 22, 2012 meeting, Board of Trustees

The Chairman, Mr. Schottenstein, called the meeting of the Board of Trustees to order on Wednesday, June 20, 2012 at 3:07 p.m.

Good afternoon, I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene this afternoon at 4:30 p.m. in Sanders Grand Lounge.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding appointment, employment and compensation of public officials.

Upon motion of Mr. Schottenstein, seconded by Mrs. Kass, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Schottenstein, Hicks, Fisher, Marbley, Kass, Reid, Jurgensen, Wadsworth, Kellogg, Shumate, and Krueger.

***

The Chairman, Mr. Schottenstein, called the meeting of the Board of Trustees to order on Wednesday, June 20, 2012, at 5:07 p.m.

Mr. Schottenstein:

Good afternoon. We will reconvene the meeting of the Board of Trustees. A quorum is present as noted by our Secretary. We have one item for discussion and that is the ratification of the 2012-2013 committee appointments and for that I call on the Chair of the Governance Committee, Mr. Shumate.

Mr. Shumate:

Thank you, Mr. Chairman. As you know, last year in particular, the Trusteeship Committee had been looking at the structure of our committees and the real purpose of our review was to align the Board structure with the strategic priorities of the University. Our goal is to increase the efficiency of the Board’s work and in that regard, we are recommending the following:

First, that the eight existing standing committees would be consolidated into six with Agricultural Affairs becoming a standing subcommittee of Academic Affairs and Student Life and Physical Environment becoming a standing subcommittee of Finance, that the name of the Trusteeship Committee would be changed to Governance, and that the six standing committees would therefore be: Advancement, Academic Affairs and Student Life, Medical Affairs, Audit and Compliance, Finance, and Governance.

The specific item that lists the six committees and the membership is before the Board and if there are any questions, I would be happy to answer those questions.

Mr. Schottenstein:

You want to first make a motion that this be approved?
June 22, 2012 meeting, Board of Trustees

Mr. Shumate:

Absolutely.

Mr. Schottenstein:

Is there a second?

Dr. Cloyd:

So moved.

Mr. Schottenstein:

Discussion, comments?

President Gee:

Well, I will say something which is the fact that first of all, I applaud our Chairman for working very hard to think about how we best operationalize our aspirations as a University and doing it through the constructive engagement with the Board. Second of all, I applaud this organization because I think it is an iteration of what is next with the University. As you know, we have organized ourselves based upon needs and wants and now I think we are at a point, and I made this point to some of you on other occasions, and that is that we are now in a very fast forward operational world with large strategic initiatives, and this gives us an opportunity to both be agile and also be very strategic, so I really welcome this.

Mr. Schottenstein:

Thank you, Brian.

Mr. Hicks:

Just a question, do we have a limit on the number of non-trustees that we have on the committees? I know we do in terms of charters, but I can’t remember.

Mr. Shumate:

Yes. It has been our practice that there would always be more voting trustees on the committees than non-trustees.

Mr. Hicks:

So within each of the committees we have some room, so to speak, to add other non-trustees on in some cases.

Mr. Shumate:

Yes, that is correct.

Mr. Schottenstein:

And one of the thoughts is that over the coming weeks, and maybe even prior to the August meeting, at least in the case of Medical Affairs, the conversations that I have had, quite a few frankly, with Alan Brass and also with Corbett Price is that several individuals that currently serve on the Medical Center Board, which is a separate Board, will be moved to the Medical Affairs Committee to help with the work of the committee.
June 22, 2012 meeting, Board of Trustees

Mr. Hicks:

That's great.

Mr. Schottenstein:

Any other comments?

Dr. Cloyd:

I guess I would just like to build on the point that Brian made. In terms of our advancement model, when we try to work towards engagement, gaining participation of non-trustees who can bring a particular expertise and experience to help the University is one of the most meaningful forms of engagement we can have, and I would continue to encourage us to look for individuals outside of the Central Ohio area because, again, this allows us to get very meaningful engagement by people who can be advocates for this University beyond the bounds of Ohio, which I think is another important step forward. To me it is a real win-win if we can do that.

Mr. Hicks:

I think that is a great point. I also think it has been a very good addition to have some former trustees come back so if Alex hadn’t gotten re-appointed to the Board for his sixth or eighth time here, we were going to have him come back because we don’t want to lose that valuable insight, and Gil, the same with you and Jo Ann Davidson, particularly, on Finance Committee, you both really add a lot of value, I think.

Mr. Schottenstein:

I agree and, Gil, you remind me, I think that at least in one instance on Audit, exactly the kind of person that you are describing, sooner than later, hopefully before the August meeting, will become a non-trustee member of the Audit Committee.

Dr. Cloyd:

Yes.

Judge Marbley:

Excuse me, Mr. Chairman. Actually, it looks like we are going to have two additional non-trustees. One of whom I regard as one of the best compliance people nationally who will come on to help us as we build our compliance office, and one who will serve an audit function who is an OSU alum. We talked to her today. A protégée of Dr. Cloyd’s who will do outstanding work in the audit area.

Mr. Schottenstein:

And that person is a resident of Austin, Texas?

Dr. Cloyd:

That is correct.

Mr. Schottenstein:

And is the managing partner for Deloitte’s Central Texas operation, a graduate of OSU, loves Ohio State.
June 22, 2012 meeting, Board of Trustees

Judge Marbley:

Both she and her husband are OSU graduates.

Mr. Schottenstein:

Both certainly bring a dimension that exactly underscores the point that you make, Gil. Any other comments before we vote? All in favor say yes. Opposed, please say no. The motion carries.

Upon motion of Mr. Shumate, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Schottenstein, Hicks, Fisher, Marbley, Kass, Reid, Jurgensen, Wadsworth, Kellogg, Schumate, and Krueger.

***

THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
COMMITTEE APPOINTMENTS 2012-2013

Resolution No. 2012-99

BE IT RESOLVED, That the Committee appointments for 2012-13 are as follows:

**Academic Affairs and Student Life Committee:**
Jeffrey Wadsworth, Chair
John C. Fisher, Vice Chair
Algenon L. Marbley
Linda S. Kass
Janet B. Reid
Clark C. Kellogg
Timothy P. Smucker
Cheryl L. Krueger
Benjamin T. Reinke
Robert M. Duncan
Kevin G. Boyle (Faculty Member)
Robert H. Schottenstein (ex officio)

**Advancement Committee:**
G. Gilbert Cloyd, Co-Chair
Linda S. Kass, Co-Chair
John C. Fisher
Clark C. Kellogg
Timothy P. Smucker
Benjamin T. Reinke
John W. Kessler
Phil Duncan
Nancy Kramer
Michael Clark (Alumni Assn Member)
Donald H. Schrimer (Alumni Assn Member)
John B. Gerlach (Found Brd Member)
David T. Kollat (Found Brd Member)
Robert H. Schottenstein (ex officio)

**Audit and Compliance Committee:**
Algenon L. Marbley, Chair
John C. Fisher, Vice Chair
Ronald A. Ratner
William G. Jurgensen

Clark C. Kellogg
Cheryl L. Krueger
Benjamin T. Reinke
James Gilmour
Larry Hilsheimer
Robert H. Schottenstein (ex officio)

**Finance Committee:**
William G. Jurgensen, Chair
Ronald A. Ratner, Vice Chair
Brian K. Hicks
Alan W. Brass
Alex Shumate
Evann K. Heidersbach
Corbett A. Price
G. Gilbert Cloyd
Jo Ann Davidson
Robert H. Schottenstein (ex officio)

**Medical Affairs Committee:**
Alan W. Brass, Chair
Corbett A. Price, Vice Chair
Brian K. Hicks
Algenon L. Marbley
Janet B. Reid
William G. Jurgensen
Jeffrey Wadsworth
Cheryl L. Krueger
Evann K. Heidersbach
Robert H. Schottenstein (ex officio)

**Governance Committee:**
Alex Shumate, Chair
Janet B. Reid, Vice Chair
Alan W. Brass
Linda S. Kass
Jeffrey Wadsworth
Mr. Schottenstein:

That concludes our business. This meeting is adjourned. We will reconvene tomorrow morning at 8:30 a.m. in the Rockow room. Thank you, all.

***

The Chairman, Mr. Schottenstein, called the meeting of the Board of Trustees to order on Thursday, June 21, 2012, at 8:34 a.m.

Mr. Schottenstein:

Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow at 9:00 a.m. in the Sanders Grand Lounge at the Longaberger Alumni House.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding appointment, employment and compensation of public officials.

Upon motion of Mr. Schottenstein, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Schottenstein, Hicks, Fisher, Marbley, Kass, Reid, Jurgensen, Wadsworth, Kellogg, Shumate, and Krueger.

***

The Chairman, Mr. Schottenstein, called the meeting of the Board of Trustees to order on Friday, June 22, 2012, at 9:16 a.m.

Mr. Schottenstein:

I promise you that it is not our style or mine but there were serious traffic issues that prevented a number of us from getting here on time. We appreciate your indulgence.

We will reconvene the meeting of the Board of Trustees and ask the Secretary to note the attendance.

Dr. Horn:

A quorum is present, Mr. Chairman.

Mr. Schottenstein:

Thank you, and so that we are able to conduct the business of this meeting in an orderly fashion, we would ask that everyone’s cell phone ringers and other communication
devices be turned off, and ask that Board members put away their BlackBerrys and iPads except to the extent they use them in connection with the business affairs of this meeting.

That is my first official act and maybe my last. I just had a few things that I wanted to say before we get into the business of the meeting. Some of this I shared with the trustees in the last day or so during some of our committee meetings, but I am Bob Schottenstein and this is my first meeting as the Chair of this Board. It is difficult for me to put into words just how humbled and honored I am to be in this position. Like everyone else sitting around this table, and presumably everyone in this room, I deeply love this University and am very excited about the work that lies before us.

There are a couple of things that I do want to say in that regard. Many will recall in our last meeting when we were sitting around this table, during the closing session of the April meeting, we were going around the room and paying tribute, properly, to the outgoing Chair Les Wexner, as it was his last meeting as Chair of this Board, and Board members were, one-by-one, acknowledging the outstanding work that he did as Chair. But also, I want to underscore that there was very strong sentiment that the University is in a good place. During turbulent times throughout, not just in higher education but in the world, we have momentum and we are making progress in so many different areas.

We have a number of items on the agenda today that will underscore what I am about to say that it wasn’t that long ago that the balancing of public universities’ budgets was a perfunctory matter, to say the least. It was pretty much automatic. There wasn’t much discussion. A time when financial management was really something that no one even thought about and when issues of innovation and entrepreneurial thinking didn’t really make their way into the Board meetings of, not just public, but also private universities. That is no longer the case and strategy matters, innovation matters, clearly leadership matters, perhaps now more than ever, and I just want to acknowledge a few people.

First, we started to think differently about Ohio State, never losing sight of that which is most important, the students, the faculty, our core mission, what we are about as a land grant university. We started to think of ways in which we could be most effective in pursuit of that mission five years ago under your chairmanship, Dr. Cloyd, and Gil did a spectacular job that I, and many of us, learned a lot from during his two years as Chair and certainly during his last three years as a charter trustee. I want to acknowledge again the powerfully effective chairmanship of Les Wexner, and I also want to mention and thank him for his work on the Board. Since our last Board meeting, Les has retired from this Board, but as everyone in this room knows, his commitment to Ohio State and his love for this University is, frankly, unmatched and at times has no bounds. We look forward to his continued involvement.

We want to officially welcome, with Les’s retirement from the Board, back to the Board, Alex Shumate, who we all spoke of glowingly thinking that last meeting was his last meeting. We are happy that it wasn’t, and as we said the other night when we were together, Alex brings not just wisdom and judgment, but balance to this table in so many ways, and we are just thrilled to have you back on the Board.

We also want to acknowledge two new trustees who are with us today: Cheryl Krueger and Ben Reinke. First, Cheryl, who has for many, many years been a stalwart supporter of this University and all of its pieces and parts, probably most significantly with the Medical Center and the James, but has a great love for this University and is a very strong leader in our community. We feel very honored to have her join us.

And then, Ben, who is filling the seat that Brandon Mitchell just gave up. Brandon was probably as fine a student trustee as we have had, and now Ben joins Evann. Ben brings unique skills. He got his undergraduate degree at Ohio State with honors; he had a double major in both French and Physics. You are the only French and Physics major that I have ever met and you are also the best. He is now, for those of you that may not
June 22, 2012 meeting, Board of Trustees

know, in our College of Engineering getting his Ph.D. in nuclear engineering. As we were kidding the other night, we finally got a rocket scientist on the Board, so we think that is a good thing. Both Ben and Cheryl will be great additions to this Board. Welcome.

With that, the minutes of the April meeting of the Board of Trustees were distributed to all members of the Board and if there are no additions or corrections, the minutes are approved as distributed.

I would now like to call on Evann Heidersbach for the student recognition awards.

***

STUDENT RECOGNITION AWARDS

Ms. Heidersbach:

Thank you, Mr. Chairman. At this time, I would like to welcome Kathryn Zatroch and Jaci Wilkening up to the table, please. Thank you for both being here today. These are our two student recognition award recipients for this Board's meeting.

Katie Zatroch is from the College of Veterinary Medicine and is expected to graduate in 2013. She has been a devoted representative of the College throughout her time here at Ohio State and is outstanding academically.

She received her Bachelor’s degree in Agriculture with minors in international studies and business from Ohio State in 2009, so she stayed in the right place. During undergrad, Katie was very involved, participating in the honorary system, serving as a University Ambassador, and becoming an officer for the Student Alumni Council. Her commitment and involvement has certainly remained strong. She currently serves as a student admissions interviewer for her college, is a senator for the Inter-Professional Council, and is the Student-Legislative Day Co-Chair for SAVMA, the Student American Veterinary Medical Association.

Katie represented OSU on a national level at the bi-annual (SAVMA) House of Delegate meetings during the SAVMA Conventions and SAVMA Symposium. She also served as a member of SAVMA’s Governmental Affairs Committee where she used her skills to better the veterinary profession through governmental relations. Last summer, she was selected as a communications intern for SAVMA, an honor only a few students nationally obtain. She is involved in numerous activities with the College of Veterinary Medicine and recently was selected to receive the Outstanding OSU CVM Junior Service Award.

Most recently, Katie won 1st place in the Veterinary Gazette’s “Best Advice Essay”. She is an outstanding leader dedicated to the veterinary profession and The Ohio State University.

She has one full year of clinical rotations left and she is unsure of what her plans are post-graduation, but she plans on pursing a veterinary internship.

Joining Katie today are her parents, Dr. Robert and Rosemary Zatroch, and Dr. Lord, the Associate Dean of Students for the Veterinary School. Congratulations, Katie.

And now I would like to introduce Jaci Wilkening from the Moritz College of Law. Jaci is a member of the Moritz Class of 2012, so congratulations. At the end of five of six semesters at Moritz, she ranked among the upper 5% of her class. She has impressed the faculty and administration of the College of Law consistently with her quality of leadership. As a second-year student, Jaci received the Vorys, Sater, Seymour and Pease Award from the Ohio State Law Journal as the outstanding second-year member. At just about the same time, she was elected to be Editor-in-Chief of the Journal. During her third year, she has done an extraordinary job of managing the Journal.
June 22, 2012 meeting, Board of Trustees

The qualities that have marked Jaci’s leadership are efficiency and productivity, and compassion and deft touch with the varied personalities in a large organization. The Journal has had one of its most productive years under Jaci’s leadership, publishing six editions and ramping up its on-line presence. Because of her outstanding qualities and the excellence of her work on the Journal, the College awarded Jaci with the Moritz Leadership Award, its highest honor, at its hooding in 2012.

After losing her father mid-way through her second year of law school, Jaci decided that her father would have been proud of her for carrying on her plans and maintaining the high goals that she set for herself. She redoubled her efforts and saw even greater success academically and in leadership. She also made herself available to comfort and counsel grieving students and some of the quotes from the students were “meaningful,” “helpful,” and “the nicest thing anyone has ever done for me.”

Jaci is now studying to take the July 2012 Ohio bar exam. After getting married in September, she will start work as an Associate in the Cleveland office of Jones Day and anticipates concentrating in commercial litigation and appellate matters.

Joining Jaci today is her mother, Mrs. Janice Wilkening, and fiancé Dr. Kevin Overmann, a 2011 graduate of The Ohio State University Medical Center. Also joining her is Dean Michaels, the Dean of the Moritz College of Law. Congratulations.

If you both would like to share some remarks?

Ms. Zatroch:

Thank you, Evann, for that introduction and thank you for all the work that you do in representing the students on the Board of Trustees. I know I appreciate that, and I know that probably many other students do as well.

It is an honor to be here today. Thank you to President Gee and the rest of the Board of Trustees. It is quite humbling to be sitting here in front of so many people that are more accomplished than I could probably ever hope to be, and thinking about this honor, I started looking back and thought, “How did I get here?”

Really sitting here today, I could remember seven years ago when I was a freshman. It was my first day of freshman classes, and my mother will recall this because she got the frantic phone call, but I got lost! I got lost on the way to my first day of classes, and I was panicking, I was late, I was running, I had my giant book bag and my Buck ID, you all know what a lot of freshman look like, so that was me. And then I looked back on the last couple months, of my clinical rotations, and I thought, “My goodness, I got lost on my way to Kottman Hall, and Ohio State is trusting me to do surgery now.” So you guys have a lot of faith in me. I don’t say that to make you nervous in entrusting me with your pet’s care, I swear, but really it is this personal growth. My mother can attest that I have not called her during any of my surgeries or any of my patients' treatments, but it is this personal and professional growth that I have gone through in my time here that really would’ve be impossible without the support system that I have been provided with here, and it really wasn’t a drastic transition. It was a small succession of one buckeye or another really taking an interest in me and pointing me towards those resources that I really needed to become an active participant in my education.

Dr. Linda Lord is here today. She is someone who has been a huge ally in my interests and endeavors and leadership and governmental affairs. Dean Lonnie King at the Vet School and Dr. Michelle Harcha have also been phenomenal mentors and great people for me, and I really wouldn’t be here today if it weren’t for their mentorship.

I am not the only one that this is happening for. This is happening all around the University and all around the College of Veterinary Medicine that students are being encouraged and promoted by other people that are here, and I think that that is what is
so great: that Ohio State is a place where the lost, in my case literally, become found and to have such a large population. To feel like you are not alone and that there are other people looking out for you and you look out for them, that is really what makes this place so great, isn’t it?

So I really appreciate all those people and, truly, also my parents and my family and my four sisters, two of whom are Ohio State alums. They are also an integral part of my success. They really are the unsung heroes of all of that. They are the ones that drive two hours to come see me when I am too busy to come home for Thanksgiving. The ones who go days without a return phone call during finals week; they are also the ones that helped me on that first day of freshman classes and, even now, when I am feeling a little bit lost, they will tell me to calm down and look at the map and figure out a plan and figure everything out; so I just appreciate them and really everyone who has been a support to me here at Ohio State, so thank you for this honor and thank you for the greatest seven years I have had in just a phenomenal learning institution and one heck of a support system. Thank you.

Ms. Wilkening:

It is really fun to hear Katie’s remarks because she being in the College of Veterinary Medicine and me in the College of Law, we share similar stories in that us being here today in front of you is a testament, I believe, to really what the University, in my mind, has inspired in its students. So that is what brings me here and what excites me to now be a proud alumni of The Ohio State University, that I have been professionally inspired after having spent three years at the Moritz College of Law.

It is very humbling to be amongst this esteemed crowd right here, and I am excited to consider myself a part of this. It was a really difficult three years of law school for me, a lot to what Evann mentioned that my father passed away midway through my experience, so I felt very supported through that experience. It was fun for me to hear the first time what some of the students had mentioned about how I was able to maybe help them through what just really is not a fun experience to have to go through. That was a big defining part of my law school experience, but it was really on the tail end of that, three weeks after I came back in January of 2011, that I realized that I wanted to go for the gusto and run for the Editor-in-Chief of the Journal. That has been a phenomenal experience, mostly because of the exposure that I have had to some incredible people, a lot of whom have been my peers in law school, which is a very rigorous environment. Some describe it as being competitive because everybody just really wants to excel, but it was through that month of January and February that I really discovered that it has been an extremely supportive environment personally. And calling upon a lot of resources to publish journals exposed me to how many resources there are professionally and how supportive professionally the College of Law is too.

The students at the Moritz College of Law are incredible, as are the faculty, and inspiration is really the word I would use to describe my experience at the Moritz College of Law. Dean Michaels is an incredible resource for the students. Former Dean Gary Jenkins, who is an advisor for our Journal, and Professor Sharon Davies were other people who I really felt took a vested interest in me personally and professionally, helping me get through a very difficult experience as well as really helping me thrive in my role as Editor-in-Chief.

We did have an exciting, exciting year this year launching an online supplement. That really gave students a chance to be creative and innovative and invest their efforts in more than just the book work. That was fun for me having worked a few years before starting law school to really bring that to the law school environment.

It has been an incredible ride and especially now that I am a month out of law school, studying for the Ohio bar, I feel very prepared and had a really good experience. I am
June 22, 2012 meeting, Board of Trustees

ready to head to Jones Day and be a practicing attorney. I would like to thank you for creating a very supportive and inspiring professional environment for me.

***

DISTINGUISHED UNIVERSITY PROFESSOR

Provost Alutto:

Thank you, Mr. Chairman. In Kathryn and Jaci you saw one half of the reason so many of us find an absolute joy in being at this institution every day of the year, and I am now about to describe the second reason why we are here and that is the outstanding faculty that help provide an environment where students can prosper.

It gives me great pleasure to recommend to the Board of Trustees the conferment of the title Distinguished University Professor, the highest honor that the University bestows on a faculty member, and to do so for Dr. Carlo M. Croce. To date, the University has conferred this honor on only 45 other faculty members.

Dr. Croce, Carlo, would you please step forward and join me at the speakers’ table? Dr. Croce holds The John W. Wolfe Chair in Human Genetics and is the chair of the Department of Molecular Virology, Immunology and Medical Genetics, School of Biomedical Science, in the College of Medicine. He is also the director of the University’s Institute of Genetics and director of the Human Cancer Genetics Program.

A faculty member at Ohio State since 2004, Dr. Croce is a world renowned physician-scientist who is considered “a major force in cancer genetics.” His “contributions to our understanding of the genetic and molecular underpinnings of cancer are truly monumental,” as one nominator wrote and then continued, “He has been consistently pioneering, highly original and has shown unfailing instinct for important problems that are solvable by the application of imaginative science.”

In a few moments, Dr. Croce will tell us a little bit about some of his path-breaking work. He earned an M.D. degree, Summa Cum Laude, from the University of Rome, in Rome, Italy, where he also interned in both biochemistry and in internal medicine.

With the conferment of this title, he becomes a member of the President’s and Provost’s Advisory Committee. In addition, the Office of Academic Affairs will present a $30,000 award to Dr. Croce to support his academic research.

And now I would like to invite President Gee, Chairman Schottenstein, Dr. Steve Gabbe, and Dr. Charles Lockwood to join Dr. Croce in the front of the room for the actual conferment of the honor, so please join us.

Dr. Croce:

Thank you very much for this great honor. It is a pleasure to receive it, and it has been a pleasure to work here.

As the Provost mentioned, my interest has been, since the early days, in finding out whether cancer was a genetic disease. At that time, it was not known and nothing was known, so we have viewed a number of genetic traits to show that, in fact, most cancer derives from genetic alteration. In fact, all cancer derives from genetic alteration but you should not misunderstand. It is not that most cancer is caused by genes that we inherit. Very few genes that we inherit cause cancer or are predisposed to cancer. Most of the genetic alteration occurring cancer occurs during our lifetime, for example, if we are exposed to cigarette smoke and so on, so it is fair, to be sure, that cancer is a genetic disease and is triggered by specific genetic alteration. Then we went on to discover a number of cancer genes that are called ‘oncogenes’ that have to be activated in cancer
or genes called ‘suppressive genes’ that have to be inactivated in cancer. That turned out to be a dramatically important thing because today, we change completely our focus in trying to develop drugs to defeat cancer.

Before, we were developing drugs that kill every proliferating cell with a huge side effect in the treatment. Today, we take advantage of this specific genetic alteration to kill only the cancer cell on the basis of the genetic alteration and the product that is altered by those genetic alterations.

So, the therapy for cancer has changed completely. Now we only talk about targeted therapy. We target the consequences of this genetic alteration and the results are dramatic. There were some diseases, like chronic malogenous leukemia, that were incurable years ago. Now, with a specific drug targeted to the specific product of that genetic alteration, 95% of the patients go into complete remission and survival of six years is over 85%. So, this is revolutionary. We are not merely changing the way we treat cancer, but the way we treat many other diseases based on targeted therapy.

Then, coming to Ohio State, during my work here, we started a study on a novel class of molecules that we find involving cancer, they are called microRNA, so we show, for the first time, that the cancer can be caused not only by genes including proteins, but genes including more RNA. We can take advantage of this discovery for novel diagnostic and prognostic procedures and for monitoring the success of therapy and, I think, within a year or two or three, we will show that microRNA and anti-microRNA can be drugged in the treatment of cancer and other diseases. And finally, this occurred just in the last few months, we discovered a new function of this molecule called microRNA. They function as hormones and now they contribute to cancer spreading by acting as hormones.

Being here has been very successful scientifically, and I am enormously pleased to receive from you this honor, so thank you very much.

Dr. Cloyd:

Your presence at Ohio State and your work is a source of pride to everyone at this University. I have had the opportunity to follow your work in microRNA at a distance, and I truly believe it is one of those principle paradigm-changing events in biology. What is really admirable is the way you and your colleagues have not just left it as “this is a new way we need to think about cellular function,” but that you are translating it into new therapeutic approaches for cellular-based diseases like cancer. I know some other diseases are being pursued in which it looks like the microRNA may provide a route for therapy for diseases today that are universally non-treatable.

I look forward to future days when there is going to be even more prestigious awards, and we are all going to be very, very proud to say, “we knew Dr. Croce when.” So, thank you, sir.

Dr. Croce:

Thank you very much. I really appreciate what you said.

Mr. Schottenstein:

Thank you very much, Dr. Croce. Congratulations again. Now I would like to call on President Gee for his report.

***
President Gee:

Thank you very much. I am going to be very short because of the fact that I was running late today, and I caused everyone else to run late, and we have a lot of business to do today.

I think what we have seen today is the rhythm and magnificence and the nobility of the University. Think about Dr. Croce. I just want to note that he, of course, has brought great distinction to this institution and also has brought a lot of wonderful scientists, many of them Italians, I might note, and so he has brought class and good food and all other kinds of things in addition to the Nobel Prize, we hope, so we are grateful for that.

Obviously, we have seen Katie and Jaci, really two wonderful young women. They were so well spoken, but they spoke so brilliantly about their time at the University. It was moving to me. I just can’t tell you that that is, as those of us who labor at this University and those of you who have been on this Board know—that that is our pay back. That is the time in which we celebrate very much and I am appreciative of that. I am appreciative of their families and appreciative of the fact that they come from places in which they have made a difference and now go to places in which they will make an enormous difference, so I appreciate that.

I appreciate, Bobby, your leadership. I would just say this, from what I have said to you privately I will say publicly, that I think he is setting a tone of inclusion. You know, we are one University and we are one Board, and I think you set that tone very brilliantly, and I really appreciate that.

I welcome Cheryl, the creator of the bow-tie cookie. I owe my career to you, Cheryl. What can I say? So I am finally glad to have you as part of our team. Cheryl is a fierce advocate for Ohio State. As many of you know, she has, for many years, labored in the vineyards of the Medical Center and clearly in the vineyards of our Cancer Center and for that we are really grateful. To now have you as part of our University Board is something that we take great pleasure in.

Ben, of course, I know very, very well. Ben was one of the most active students and, at the same time, getting a degree in Physics and French. I doubt for certain if Ben slept, but he is a brilliant student and a brilliant advocate for the sense of what the University is all about, so we are grateful to have you on the Board, Ben.

Our student trustees as you know, there is this issue pending in the legislature about whether or not student trustees ought to have the right to vote—we have always allowed our students to be fully engaged, and they have been among our most responsible members. We are very grateful for that and, Ben, you have set that standard very high.

We lost our Chairman to resignation, replaced by Alex Shumate who is, as I think we all know, the solid center of this Board and, Alex, I acknowledge that. I acknowledge what you do. I acknowledge the friendship that I have had. Alex was the first member of The Ohio State University Board that I ever met in Phoenix in some strange hotel. We were there being interviewed, and Alex was the first member. I was impressed with Alex, then and even more impressed with him now, as he continues to ply the business of the University and what we do. I really want to thank you.

And to the members of the Board, this has been an interesting year. We have been through defining moments with some of the challenges we have had. We have been through moments of great pleasure and, most importantly though, this University is moving forward. In a time in which many universities are asking, “why do they exist and how can they exist in today’s world,” we are asking, “how fast can we go, how far can we move, and how quickly can we gain our aspirations and our expectations.” For that,
June 22, 2012 meeting, Board of Trustees

I think we have the members of this Board to thank. I thank all of you, and I thank you for your personal friendship, which means a great deal to me.

I would note also that the University has 525,000 living alumni and, on any day, there is a story. This morning, and Alan is here, Carter Phillips, who just received our Distinguished Service Award, is one of the most brilliant advocates in this country before the United States Supreme Court. Carter Phillips won three cases this week. I think he now holds the record as having won the most cases of any advocate before the United States Supreme Court ever, so you think that Ohio State education has served him very well. This morning I thought, “What can we say about the scope and vitality of this University.” It reaches around the world each and every day and in so many small and large ways that we see.

To my colleagues in the University administration, we have much business that we have done, we have much business to do, and they are valiant about doing that. Obviously, I want to acknowledge our faculty leadership. Jim Rathman, who is not here today, who was our Faculty Chair, did a wonderful job and I appreciate that. Heather Link, who has been our two-time head of our University Staff Advisory Council, has been a wonderful leader, as have our student leaders.

So, we have had great leadership at this institution but, most importantly, I think what we have is a great spirit. Mr. Chairman, in that spirit, I am going to be short but also acknowledge the fact that this is a moment of real opportunity for this University. I do believe that our best days are in front of us. I thank you for letting me be here.

Mr. Schottenstein:

Well, we thank you, and I think there is strong sentiment for support of what you just said, President Gee. We appreciate what you and your senior team and, frankly, the entire administration at the University do every single day.

In that regard, I would like to call on Dr. Cloyd for a special acknowledgement of some of that great work.

***

SEMESTER CONVERSION RECOGNITION

Dr. Cloyd:

Thank you, Mr. Chairman. I want to introduce an expression of the Board’s appreciation for the extraordinary work just completed in moving Ohio State from quarters to semesters. I will read the resolution, which the members have in front of them, in a few minutes but I wanted to make a few comments.

First, about the work of Vice Provost Randy Smith and Professors Ann Christy and Steven Fink. In response to the University System of Ohio’s Strategic Plan for Higher Education 2008-17 to enact a common academic calendar among all state universities, the Board adopted a resolution on April 3, 2009 to approve the conversion of an academic quarter system, in place here at the University since 1922, to a semester calendar. Although all of us knew at that time this would be a major three year undertaking, I don’t think any of us could have envisioned how totally this process would transform the academic curriculum here at this University.

Under the leadership of Vice Provost Smith, along with his appointed faculty fellows, Professors Christy and Fink, and the engagement of more than 250 University faculty and staff, the project became more than just the mechanics of a conversion, but rather this group used this opportunity to completely re-think, re-tool, re-evaluate, and, in some
June 22, 2012 meeting, Board of Trustees

cases, re-articulate the overarching goals and curricular materials of more than 12,000 courses throughout 700 programs.

This institutional soul searching resulted in some programs being closed or merged and others being created. In all of this work, which engaged so many of our faculty, our University colleagues always followed a principle to keep students first. It is a wonderful reflection, I believe, of the character of our leadership and our faculty. The end result is that Ohio State is now able to deliver state of the art subject matter in the best possible way for our students. All of us owe a great debt of gratitude to these three individuals. The University and its academic mission are in a much better place due to their work.

Now I would like to read the resolution.

***

EXPRESSION OF APPRECIATION

Resolution No. 2012-100

Synopsis: Resolution of appreciation for the leadership vital in developing strategies and a structure to implement the transition of The Ohio State University from the quarter to semester system.

WHEREAS the Ohio State University Board of Trustees (“University Trustees”) adhered to all University rules and procedures in responding to the University System of Ohio’s Strategic Plan for Higher Education, 2008-2017 to enact a common academic calendar among all state universities; and

WHEREAS the University Trustees adopted a resolution on April 3, 2009, to approve the conversion from an academic quarter system, in place at The Ohio State University since 1922, to a semester calendar; and

WHEREAS the Office of Academic Affairs, the University Senate and all academic units, working with other state universities that are changing from quarters to semesters, began the process of developing strategies to implement the conversion from quarters to semesters; and

WHEREAS Vice Provost for Academic Programs, W. Randy Smith, who has led other formidable endeavors, such as the University’s last decennial accreditation, was appointed to provide the exceptional leadership absolutely essential to implement the process to change from quarters to semesters; and

WHEREAS Vice Provost Smith chose Ann D. Christy, associate professor in the Department of Food, Agricultural, and Biological Engineering, and Steven S. Fink, associate professor, Department of English, to serve as faculty fellows to assist in leading a three-year enterprise, involving the recalibration of more than 12,000 courses and 700 programs; as well as the significant involvement of more than 250 university faculty and staff and a communications team to keep the university community informed and engaged; and

WHEREAS all of these efforts resulted in not only a timely and successful implementation of the conversion from quarters to semesters which began on June 18, 2012, but also a rethinking of the entire academic curriculum of the University:

NOW THEREFORE

BE IT RESOLVED, That The Ohio State University Board of Trustees recognizes the commitment and contributions of each of these three extraordinary university faculty members, individually and collectively, for their leadership and expertise in effectively
implementing the University’s conversion from quarters to semesters in a timely and successful manner.

Upon motion of Dr. Cloyd, seconded by Judge Marbley, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, case by Trustees Hicks, Fisher, Schottenstein, Marbley, Kass, Reid, Jurgensen, Wadsworth, Shumate, and Krueger.

President Gee:

Well, I will start because I think that there is no doubt that the conversion from quarters to semesters is not simply about a mechanical conversion and, by the way, Randy is Canadian. That is the first time that we have given a Canadian a standing ovation in this room, I want you to know that.

Randy, Steve, Ann and their colleagues have done a brilliant job, but I want to make this point, that it was not about the conversion from quarters to semesters. This is where our Provost Office made really, truly, a brilliant choice. They said that instead of conversion, which a lot of people did, the University of Minnesota and a number of places have converted just kind of mechanically, we decided that we were going to ask the fundamental question of, “What is this University like? What is teaching and learning about? How do we really improve the quality of what we are doing? How do we move into the 21st century?”

It has taken us three years, as it should have, because those are fundamental questions as to the role and the vitality of an academic environment. It also is a real question about who we are as an institution. And so at this moment, what happens when this conversion takes place, and some of you heard me say this, we will move from a really solid 1980s university into one of the most dynamic 21st century institutions in this country, due precisely to what these people have done.

We can’t thank them enough, and it is a moment in time in which we ought to take great pride.

Dr. Cloyd:

Thank you, President Gee.

Mr. Schottenstein:

Any other comments from any other Board members? Jack?

Mr. Fisher:

Mr. Chairman, I got lots of feedback from numerous students, many that I never met before, about the support they got in this conversion. Obviously when you are in the transition from quarters to semesters as a sophomore, junior, or senior, that is a different scenario than our incoming freshmen class.

And so, many, many times I heard about “my faculty advisors, somebody in the college office worked with me to upgrade my academic plan or helped me to make the transition to graduate earlier or do something to make my career here at Ohio State fit into this conversion.”

So, thanks to all of you, which involves every college and every one of you there and across campus, in doing a great service to our students.

Mr. Schottenstein:

Judge Marbley?
June 22, 2012 meeting, Board of Trustees

Judge Marbley:

Mr. Chair, I just want to make a couple remarks on the leadership that was exemplified by Vice Provost Smith. I had a chance to work with him both as a member of the Academic Affairs and Student Life Committee and as Chair during the period of this transition. President Gee, of course, is absolutely correct. It is more than just a mechanical feat. He had to persuade his fellow academicians that it was a good thing. Randy had to persuade other administrators and he, along with his team, did a marvelous job. What we didn’t see was the leadership that he exercised during many closed door sessions with other faculty members in persuading everyone that this was in the best interest of the University and, most importantly, our students. Randy, your leadership was nothing short of extraordinary in that regard.

Mr. Reinke:

I would like to say that when I was an undergraduate, I had the distinct pleasure to serve on the Council of Academic Affairs under Dr. Smith’s leadership when this process was starting. As an undergraduate Student Government representative, I saw the diligence with which the council, under Dr. Smith’s leadership, and also going through this process with Dr. Christy and Dr. Fink, took the responsibility of going through this process. It was incredible, especially in regards to the axioms that were set forth at the beginning and making sure that we stuck to those axioms. Under the leadership of Dr. Gerber, the original committee set out with this incredible feat, and the diligence with which they took the responsibility to make sure that we checked all the boxes and that we answered every question on behalf of the students and faculty was incredible.

Ms. Heidersbach:

Mr. Chairman, I would like to thank Dr. Smith and Professors Fink and Christy for keeping students in the know. As a rising senior in my undergraduate career, I have been through the transition, and there could have been mass confusion, but they kept students aware of the entire process. We got weekly, I think it was weekly but maybe bi-weekly, emails about the transition, and we got updates. They worked with the student governments to develop a website so we could juxtapose the quarter classes and semester classes, and thankfully, they set that up because I could not have registered for classes if that website wouldn’t have been available. So I just want to thank you for keeping the students always in mind during this whole transition.

Dr. Cloyd:

Mr. Chairman, I move the adoption of this resolution.

Mr. Schottenstein:

All in favor? The motion carries unanimously, and let me just say on behalf of the Board, please know of the extreme depth of our appreciation for your great work. Thank you so much.

Upon motion of Dr. Cloyd, seconded by Judge Marbley, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Schottenstein, Hicks, Fisher, Marbley, Kass, Reid, Jurgensen, Wadsworth, Shumate, and Krueger.

***

President Gee:

Mr. Chairman, could I just take one moment to acknowledge also Dr. Tim Gerber who is in the room? We all know and love Tim, but Tim was actually the Faculty Chair of this whole process since the start of this and had to work through the convincing of a lot of
June 22, 2012 meeting, Board of Trustees

people to make this happen. Tim, we really appreciate you. I would also like to say that Tim has finished his first year as our Senate Secretary and has done a marvelous job in a tumultuous time. So we have many people to thank, but the three folks in front have been the soldiers for making this happen so, again, I acknowledge you.

Mr. Schottenstein:

Thank you. Thanks, Dr. Cloyd, for bringing that forward. That process started under your Chairmanship and we appreciate your leadership and appreciate that great work.

I would now like to call on Mr. Chatas, Dr. Asher, and Dr. Whitacre to present an overview of the various risks and mitigation steps that we are going to be taking in connection with two very principal sources of funding for this University: federal and state. Before I do, I just want to underscore again what I said at the beginning of the meeting, which is that it wasn't that long ago when, first of all, we never would have considered having a presentation like this because balancing the budget was like arithmetic, it was a fairly perfunctory exercise, didn't take a lot of thought or analysis, and there was certainly not a great need in institutions of higher education to engage in innovative or entrepreneurial strategic financial planning. We do not live in those days anymore and, because of that, we thought it would be very important for us to spend some time talking about where we are, the risks that we face, and what we are doing about it.

***

GOVERNMENT FUNDING OVERVIEW

Dr. Asher:

Thank you, Mr. Chairman, and I will reinforce your point about tumultuous times. Let me just put this in a little bit of a broader context: in speaking as a political scientist, I don’t think I have ever seen, at the national level, a time with as much uncertainty in terms of both politics and economics. This is really, and many would say, that this is really a scary time. I think it is a time of opportunity if we, in fact, are positioned appropriately and, of course, what we are going to be doing here today is talking about all the ways in which federal and state dollars enter the University.

At the state level, I think right now we are in the period of relative stability, but the state is not immune from what might happen on the national and international scene, so it is important to talk both about the federal level and the state level. But let me just reinforce the Chairman’s point about how tumultuous things are in Washington. We have all heard the term ‘sequestration.’

Nobody knows for sure whether sequestration will happen. Will it happen after the election? Will the can get kicked down the road? I think, increasingly, people are saying it will get kicked down the road but, in fact, even though there are broad parameters, there are already people trying to change the rules about sequestration.

The military is supposed to, in fact, endorse some automatic cuts but there are people who are now trying to form a coalition saying, “exempt the military.” Well, if you exempt the military will that translate then into higher cuts in the discretionary programs that really benefit us. Nobody knows the answer to that.

We don’t even know the answer to how agencies and departments will respond to sequestration. You may have, in fact, NIH getting a budget cut of “X” amount, but we don’t know whether NIH will apply that budget cut equally across all of its programs, which typically is not a good way to do things, or will they target certain programs? If they target certain programs, will those be programs that are particularly important to Ohio State? Will we be lobbying at that granular level to help NIH make decisions?
June 22, 2012 meeting, Board of Trustees

It is just an incredible environment right now in trying to really figure out what will happen, and then you hear the phrase “the lame duck session.” Those of you who have been involved in politics know that lame duck sessions can be wonderful to get things done or they can be chaotic, and as we are trying to make predictions, all we really need from all of us is the ability to predict which party will win the presidency and which party will win the US Senate, because both of those are up for grabs. And will the Republicans maintain control of US House?

You can imagine very different scenarios in this lame duck session. What can we do in the interim? We need to know how we are affected. We have taken the lead at the national level in putting together information that every university should be doing now about potential impacts, even though our estimates can’t be overly precise because we don’t know what the government will do. It is extremely important that all universities be sharing with their legislatures and their delegation what could happen at each of their institutions.

We are blessed and very fortunate, of course, to have a Speaker of the House from the state of Ohio. We are very blessed to have two US Senators, who are tremendous friends of the University, and our two local members of Congress are strong supporters, and so we have the opportunity to share our concerns. It doesn’t mean that our concerns will drive the policy debate, but we need to have the information both for lobbying purposes and also for the mitigation steps that we might be talking about internally to head off or reduce the consequences if we get to a very difficult scenario.

With that context, let me pass it off to Geoff.

Mr. Chatas:

Thanks, Dr. Asher. So, what I want to do is just spend a minute to put everyone on the same page in terms of where we are in our funding sources and which percentages come from federal and state sources, and this page shows you the macro. This is as of the end of last fiscal year. Almost $5.5 billion in revenue and about 30%, or $1.6 billion, came from the federal government and about 13%, or $700 million, from the state, so a total of $2.3 of the $5.4 billion came either from the state or federal funding sources.

This does not really tell the whole story. As we begin to discuss mitigation strategies, it is really important to put this in the context of the areas of business that we undertake across the University. This slide shows that breakdown. If we take a look at the first line, the Medical Center receives in total $860 million of federal and state revenue, $679 million from the federal government mostly in the form of Medicare reimbursements and also Medicaid reimbursements, and the state $180 million includes contracts and Medicaid reimbursements. You can see that as a total percentage of the Medical Center’s $2 billion, $860 million is about 41%.

If you look at the research dollars here, these are research dollars that flow just through the office that Dr. Whitacre manages, the Office of Sponsored Programs. In this case, $400 million of the $800 million, or 41%, are federal or state dependent. When you add all of the research that number grows so that federal or state is closer to $700 million and you get closer to 70-80% of our research dollars across the institution.

In terms of student tuition and financial aid, you can see here $479 million from the federal government; this is really in two buckets. It is federal direct loan guarantees, about $400 million, and Pell grants, which is about $60 million that go directly to our students and then come to the University. And then on the state side, this is predominantly the state, the SSI, which is in support of instruction. In this case, 57% of the roughly $1.4 billion for our instructional costs is covered by federal and state sources. In the sense of capital for our new buildings, you can see that about 15%, a fairly small number, comes from federal and state sources.
June 22, 2012 meeting, Board of Trustees

This allows us then to have a context to discuss implications, and there are really two things that we need to discuss. One is individual strategies in each of these areas. As an example, the Wexner Medical Center is undertaking a strategic initiative to look at costs across the Medical Center, and we are in the midst of undertaking a plan to drive up our margins by about $200 million, or 10% of our revenues, so that we are in a position to meet any cuts that we may experience.

In a macro sense, we have put on this next slide a couple scenarios. We have looked at literally hundreds of different scenarios, but just to give some grounding of the level of the impact we are discussing and as a reminder to the Board over this current biennium, although we do enjoy great state support of $300+ million, we have had a reduction of about $120 million in support just in this biennium relative to the previous biennium.

One example we ran, scenario one, looks at the sequestration that Dr. Asher talked about. You can see that if there is a 2% cut in Medicare that that would impact us by about $8 million. If we are reduced in our non-defense discretionary research dollars, that could be $30 or more million, and then no new starts in research could impact us to the tune of $80 to $130 million, so you are looking at something in the range of $150 million just in the sequestration scenario in terms of revenues coming in over the next few years. If the funding is reduced at significantly higher rates, this is an example of one of many scenarios we are looking at where you can have a 20% reduction through various sources of revenue funding, both state and federal, then their impact on private pay reimbursement of 20% would be $200 million. If we had a 25% reduction in research, that could be another $100 million. And if the state were to cut its funding by a third, and clearly we are not suggesting that these are going to happen, but rather it allows us to look at scenarios and look at potential solutions, that would be another $100 million for a combined impact of $400 million.

I mentioned the individual strategies, and we will ask Dr. Whitacre in a minute to talk about the strategies aligned towards research, but the second thing that is important to bear in mind is that we have been working on an academic and financial strategic plan, which Dr. Alutto discussed at the last Board meeting, and part of that plan is securing over $2 billion of incremental funding over the period between now and 2020 through a combination of expense management. In fact, this year we have saved $26 million through smarter procurement on our way to a run rate of $50 million a year over the next couple of years through new revenue programs including the Technology Commercialization Office and the affinity agreement that we signed with Huntington which gave us $25 million of net new revenue this year and potentially another $75 million over the next 14 years on top of that.

Third, we are looking at the assets that are not core to the teaching mission including parking, which we will discuss later today, as a source of potential funding. That $2.1 million can be used to reinvest in our academic core on that road towards eminence, but it can also be used to protect the institution.

So we have individual strategies at the unit level and then macro strategies that we are undertaking at the University level to ensure that we not only survive but thrive in the coming years.

With that, I will ask Dr. Whitacre to talk just for a minute about strategies related to protecting our research dollars.

Dr. Whitacre:

As Mr. Chatas said, we enjoyed about $828 million in FY11 in terms of research expenditures, about 60% of that is federal and about 12% of that is state. With sequestration on the horizon, that could really impact significantly anywhere from $30 to $130 million affecting those expenditures. How do we look at mitigating some of those
risks that are actually on the horizon? There are a number of strategies we have identified.

First of all is to engage in strategic research partnership. As I have told many of you, Ohio State is second in the country in industry sponsored research and that really has served to diversify our funding streams from federal and state. So, really, the first strategy is to engage in more strategic research partnerships, more strategic and larger research partnerships. And also to closely monitor federal and state agency budgets, as Geoff mentioned, focusing on technology commercialization as a nonpolitical source of additional research funding, hiring strategic new faculty in particular areas, doing things like cluster hires, and finally investing in core research facilities to mitigate having to provide substantial research equipment in individual departments or individual colleges, investing in larger, core, centralized research facilities.

Dr. Asher:

Let me just comment to illustrate the complexity here, and Carol, help me on this, NIH, a very important source of funding, could decide to handle its cuts in any variety of ways. One possibility would be no new grants and basically continuing funding of existing grants. We have to figure out: is that a good choice for NIH to make as it relates to Ohio State or, in fact, does that choice disproportionally hurt us? In this case, would it be better if NIH proportionally cut all grants or whatever?

We don't know what NIH is going to do, we have people in Washington who are trying to collect intelligence on this, but we might find ourselves, in terms of our external strategies, really having lots of things that we have to do that are different at NIH versus the US Department of Agriculture versus the National Science Foundation and to do that we again have to know the internal numbers, if you will. But we also have to collect intelligence about what agencies are planning to do in anticipation of sequestration and that makes it a much more complicated environment.

Mr. Chatas:

So, just in conclusion, as a reminder as we continue to discuss our strategic academic, physical, and financial planning over the coming Board meetings, these issues of uncertainty are likely to remain and, in certain instances, elevate over time. This at least gives us a context for discussing the impact of those changes and the micro strategies we have at the local level within the units across the University and at the macro level to ensure that we are in a good place to weather the potential storms and to continue to grow the University.

We are happy to answer any questions.

Dr. Cloyd:

The point you just made, Herb, about defining what is the best approach for us, the thing that I think will be important there is that we balance what is best in the short term versus the longer term because, obviously, independent of what happens in this election, the deficit problem in this country is not going to go away, and we have been planning on it. There is going to be continued pressure, particularly in the research funding area that federal dollars are going to become scarcer. I think that is a reality that we need to look toward.

Now, I think the things that Dr. Whitacre outlined, where in that kind of situation you have got to have a very important focus to gaining market share, if you will, of available dollars is the right thing to do. But I would just caution us because something that might look very good as an option in the short term may not be what we really want to have in the longer term.
June 22, 2012 meeting, Board of Trustees

Dr. Asher:

I totally agree with you. If you looked at this only in the context of a government relations lobbying issue you would be much more likely to look at this in terms of short term, how do I solve your problem, how do we solve your problem, or whatever. I think what you are saying, and what we are certainly saying internally, is we need to have a broader discussion, and we also really have to have a broader set of objectives and broader strategies.

Dr. Whitacre:

There is a very important consideration here, I think, in looking at longer term strategies particularly if you say, “let’s just skip a year in giving NIH awards,” we will lose a generation of young investigators because it will be impossible for them to really start their careers, so you will lose faculty at the beginning of their careers and you will lose students in the pipeline. I think those are some very important long term strategies we need to really carefully consider in our lobbying efforts.

Judge Marbley:

I also want to emphasize, as Dr. Cloyd has, and I know that Geoff Chatas has redoubled his efforts and his office’s efforts at this, but in terms of our priorities, the fourth bullet point is probably our most important priority because on an ongoing basis we should continue to try to deliver the highest quality education at the lowest cost to the students. I know that that has been the commitment of this Board. Geoff has provided great leadership. I think that we are set at the amount of growth that we would have in tuition, but I think that if we don’t have that taken care of, the rest are mute because the most important asset that we have is our students. And we continue to attract outstanding students because we deliver the highest quality education at a reasonable price so that should continue to be our overarching consideration, Mr. Chair.

Mr. Schottenstein:

Well said. Any other questions or comments from Board members on this report? This is not intended to be any kind of a doom and gloom message, but rather an honest assessment of the world we live in and the degree to which we have, and it began a number of years ago as we said earlier, this proactive approach to gain more control over our destiny so that we don’t just watch and wait as things happen to us but rather we help influence things that we can make happen.

I really commend all three of you for providing the overview. We are going to have the committee reports momentarily, but one of the things that we have tweaked or modified slightly during the last several months is our committee structure, and we didn’t just do it to do it. We did it with a view towards trying to line up our six key standing committees so that they relate to our strategy. In that regard, a lot of the kinds of things that are on this last slide in terms of ongoing monitoring will be discussed in detail in our committees. We look forward to that, so thank you for your report.

With that, we will begin our committee reports, and we will start with Advancement. Our two committee chairs for Advancement are Linda Kass and Gil Cloyd, and if I can just say one thing, Gil. This is something that didn’t even exist and wasn’t even on our radar, well, it might have been on a few peoples’ radar screens, I think it was on yours and Linda’s, but it wasn’t on most of our radar screens even just a few years ago. We are on the leading edge, I think, of where we should be in this area, and I think I speak for everybody on this Board just how much we appreciate the heavy lifting you all have done.

***
June 22, 2012 meeting, Board of Trustees

COMMITTEE REPORTS

Dr. Cloyd:

It has been a busy week in Advancement. We had a framework planning team meeting for a half day earlier this week, and then the Advancement Committee met yesterday. We flipped a coin and I lost, so I am going to provide the report this morning. Maybe I can win the toss next time.

Let me begin with a few items from the Advancement Committee, and then I want to provide just a few brief things that relate more to the advancement framework. First of all, relative to the development report that is on our consent agenda, which we will be recommending to the Board for approval, we are on track this year for our second highest fiscal year development activity ever. Last year, of course, we had the remarkable gift from the Wexner's and The Limited, $100 million, so that is a wonderful base, but challenging, base.

Mr. Schottenstein:

The year is not over yet, but I hear what you are saying.

Dr. Cloyd:

Yea, I know. But anyhow, this year is going, I think, very well in a continued difficult environment. We have results through April of $255 million. We talked in the committee, the consensus right now is that if we try to project ahead, and of course that is always difficult, we will probably come out somewhere in the $308 million range by the end of the fiscal year, so that will be very good. And as we noted the last time, we are moving up in the publics and that is a kind of trend that will keep us moving up in the publics in terms of total private receipts.

Mr. Kaplan then provided some updates across the board of what we are doing in Advancement, and I just want to highlight a couple of things that I think are quite important. We were very, very pleased that our Alumni Association adopted constitutional change, which is now providing a new inclusive Alumni Association and, from an Advancement standpoint, this is just an absolutely tremendous step because now it puts all of the 500,000 plus alumni that we have within the family to where we will be having direct ties with all of them. It also allows members now, with what the University has done for those that choose to be sustaining members, to rather than paying their dues to the Alumni Association, actually make contributions to The Ohio State University, to program areas of most interest to them. And, again, I think it is just an excellent win-win move for our alumni and for the University, so we are very excited about that. We will have that change on July 1. I don’t think he is here today, but I would just like to acknowledge Mr. Griffin who did a tremendous job in conveying what an important change this was to all of our alumni, and also thanks to the Alumni Association Board who were very supportive of this effort.

We also had an update of where we are. As you know, we are recruiting a new President of the Foundation. We are working with Cindy Hilshiemer's group in that search. The executive search now is in the intensive reviewing phase. We anticipate that we will be into the interviewing stages this summer, and we have set a target for ourselves to have the new President of the Foundation, head of the development, on board by fall, which would be great as it ties to the last item I wanted to mention in this part of the report.

We have selected October 4 as the date for the kick off or celebration of the “But for Ohio State” campaign. You will be hearing more about that in the future, but that will really launch the public phase of the campaign. I am very pleased with really a lot of the good work and development. Our goal was that we wanted to have 50% of the $2.5 billion goal for the campaign raised by the time we moved to the public phase, and I am
June 22, 2012 meeting, Board of Trustees

confident that we will achieve that target by the October date. For those of you who haven’t had the conversation, you may be having a conversation with Mr. Kaplan in the near future. So, we are going to finish out our quiet phase in that regard.

What I would like to do is give you just a brief update on the Advancement framework planning that we talked about in the meeting we had this week and then also in our committee meeting. I have three slides here. The first thing I want to do is show the timeline. Recall that this work was actively underway last December. We chose Edelman in November to help us in this process. We set the goal aggressively. We wanted to have a final report on our new Advancement model by the end of July so that we could present it to the Board during the August meetings. We wanted to get this work done before we kicked off the public phase of the campaign.

Broadly, we are working across three areas: branding, or defining the Ohio State equity and the key attributes of that equity; secondly the segmentation, so for the first time we will actually be able to do segmented base marketing at the University; and finally, the best overall organizational structure in process is to deliver the Advancement model across the University. The triangle on the bottom shows where we are at this point in time and, in my vernacular, we are at crunch time.

There has been a lot of data gathered as I will show on the next slide. We are in a deep assessment phase of that right now and then in developing final recommended proposals around branding, segmentation, and organizational structure. While there is a lot of work to do, we are really committed, and I am confident that we will have a final product by the end of July.

This kind of outlines the body of work, and you will get a chance to see more of this in the August meeting. I just want to highlight it here today that this has not been a group of eight or ten people sitting around a table defining what is the equity of Ohio State, what are the right market segments of Ohio State, and what is the right organizational structure working with Edelman. There has been an intensive amount of research done and analysis both within the University, key stakeholder groups, other important external groups, and other institutions in terms of what they are doing so that we can develop the best product.

The third thing I wanted to show, though, is a brand new advisory group that we put together within the University to help us in defining what is the equity of Ohio State. This has just been an extraordinarily helpful group, a very enthusiastic group of people. We tried to get a mix across different key stakeholder groups here within the University, and they have been working with the team every step of the way as we do some outside research, bring it in, revise equities, positioning, and work it with this group to develop the best final positioning.

There are a couple of other points that have been encouraging as a part of this work. You remember that when we started the work in Advancement we developed a model that intuitively seemed right, that there would be a flow from awareness to engagement giving. That really seemed to make sense. Essentially what we had in that regard, though, is it intuitively seems right, but through the research that we have done now with our stakeholder groups, there is a very definite correlation broadly that if you have individuals involved in three or more activities with the University, a true engagement with the University, that the level of giving increases.

It is going to help us as we identify segmented approach marketing, but it was very nice to really find, in a quantitative fashion, confirmation of the model that we developed in Advancement that this will be the right approach.

The other thing that our research has done is identified what we feel are really important opportunity areas for engagement, particularly with key segments, which we haven’t fully utilized to date. These are the areas: the interest of continuous learning, and particularly
what you are able to do then through online systems as connections with the University; desire of people to network with other people in their profession is an important one; and very importantly and thirdly, provide career support. Again, I don’t think any of us are surprised in the Buckeye Nation that people want to mentor. They want to help people in their careers and this is the kind of engagement that there is a strong thirst for by the segments out there. Again, I think it comes back and shows the importance then of this new alumni model that the Alumni Association has provided with the way we will be able to leverage those opportunities.

So just in conclusion, Mr. Chairman, we are on track. In August, what we will be bringing to the Board is the overall Advancement model recommendation, which will include the branding for the University, key segmentation for the University, and the organizational structure recommended for Advancement, as well as an activation strategy of how we start putting this in to place. I want to highlight that one aspect is getting the design, but as one of my former bosses said, “A strategy is what has happened in the real world. It is not what is on the papers.” So we are going to have to get going and really put this in place here at the University. We will also present the final scorecard for Advancement to the Board in August. That concludes my report.

President Gee:

Mr. Chairman, Dr. Cloyd makes it all sound so easy. This is one of the most dynamic, consequential efforts that will be undertaken by this University in decades, and I say that not hyperbolically. It is about preserving our traditions, our history. It is about putting us in a position to be beloved by so many, to capture hearts and minds of the state, and to do it as one voice and with one goal in mind. Because of the complexity of the University and trying to get all the moving parts moving at the same time, this is an extraordinary effort and the fact that they are doing it so quickly and so ably.

Gil, I think you and Linda have done an extraordinary job and all of those who have joined with you. It has been a team effort. We have a long way to go but we are really on fire right now. Also, I just wanted to acknowledge again, remember we had our best year in the history of the University fund raising last year and we are on track to have our second best year, which shows that people are doing their work while they are also doing work with this University in this larger context. I applaud everyone for doing that.

Mr. Schottenstein:

Any other questions for Dr. Cloyd or Linda? It was a great report. Gil, I love the fact that you called this “crunch time.” There are a bunch of sports fans in this room and we know what we expect of our beloved Buckeyes when crunch time occurs and we expect nothing less from ourselves, right? We all do have a role to play in not just supporting the efforts of Advancement but in this campaign and it has come upon this group to lead. I appreciate what you guys are doing.

Corbett Price, Medical Affairs.

Mr. Price:

I will ask that Steve Gabbe come forward and make a presentation to us and then I will follow with a report from the Medical Affairs Committee afterwards. Steve?

Dr. Gabbe:

Thank you so much. I wanted to share with the Board a short video describing the topping out of the new James Cancer Hospital Solove Research Institute and Critical Care Center that took place on May 21 when the final beam of steel was placed on the 21st floor of the hospital, so if we could show you that.
June 22, 2012 meeting, Board of Trustees

Video

Our next big event will be August 15 when we will rededicate the Spirit of Women Park. The building will be enclosed fully by December and so all the work then will be interior. I wanted to bring to the Board’s attention just a few other important recognitions that we have received at the Medical Center recently.

First, just a few weeks ago, we were named by the Health Information and Management Systems Society a Stage 7 Hospital in terms of the complete integration of our electronic medical records. There are only about 80 hospitals out of 5,000 in the country that have achieved that recognition. We also received word from the National Institutes of Health, its Neurologic Disease and Stroke Institute, that we are one of 17 nationally funded stroke networks in the country. We now have about 20 hospitals in our Telestroke program.

We want to recognize our academic partners at Nationwide Children’s Hospital. They were recently ranked seventh of all children’s hospitals in the country by US News and World Report. It came at a very important time because this week, on June 20, they moved patients into their new hospital, and it was done flawlessly as you would expect.

Finally, the Leapfrog Group, which assesses the quality and safety of hospitals throughout the country, assessed over 2,600 hospitals ranking them “A” through “F” on the basis of 26 core parameters, and we were very pleased to receive an “A” from the Leapfrog Group.

So, a lot of good things are happening and we wanted to bring those to the Board’s attention. Thank you, Mr. Price.

Mr. Price:

In following up from his presentation, as it is quite timely here, first of all, let me just say in the Medical Affairs Committee we have had some very robust discussions regarding the direction of the Medical Center, and we are also concerned about the future in terms of any potential degradation we might have in our funding sources through the federal and the state. We are taking steps to at least work out scenarios in terms of how we will deal with these issues. First and foremost, I think, we have McKinsey on board that will be working with us in that endeavor.

Now, let me flow back to the expansion program here, if I might. A request was made to release $68.2 million for continuing funding, which would include $55.3 million for the cancer and critical care tower which we just saw in the James presentation of the topping off ceremony; $0.2 million for the Women’s Park; and $25 million for the building out of the 36 critical beds and the 4 operatories in the radiology and oncology office in the new James.

I have to say that I had the chance to visit the James in my due diligence in serving on the Medical Affairs Committee, and I have to say that in the interaction with that particular staff, I was extremely impressed with my, and I hate to say it, 30 plus years of health care experience. I was just blown away by the quality, the dedication, and the commitment of those individuals there, their leadership and the very fine work they are doing in dealing with cancer.

But coming back to this, the total of all of these items, approximately $80.5 billion, we will have some savings that will offset the impact of the full amount of $80.5 million that will bring us down to $68.2 million, and I won’t recite all of those savings, but certainly some of them have derived from the construction reform activities, so we are right on our mark there.
June 22, 2012 meeting, Board of Trustees

One of the things that we on the committee are very concerned with is making sure this program stays on time and on budget. And the staff there has, in fact, achieved that, and we monitor this on an ongoing basis so we are quite pleased with that performance.

I think tied to that, I’m sorry a bit of housekeeping here, I see it in front of me so I won’t forget it, we have a resolution for the consent agenda. We have the authorization to release the funds for the Medical Center expansion. For those of you around the table, they just passed it out this morning, so you have that in front of you.

The second item that we dealt with at the committee was the presentation by the CFO of the 2013 health care system budget. The first presentation by Geoff Chatas, we have tied into that aspect of it in terms of the formation of our budget and recognizing the things we need to do for our budget. I think it is important for you to understand the assumptions of the budget which we went through and had a thorough vetting of that process. The budget calls for a 1.7% increase in admissions. We feel that that is conservative enough, and we think we can certainly achieve that. In addition to that, the budget calls for a 0.9% increase in out-patient visits, which is the future trend in terms of moving away from the in-patient to the out-patient. We have a fairly robust out-patient process now in terms of patients and census, but we do expect some further increase in that particular area.

We also feel that we will have an approximately 1.6% increase in surgical procedures, and we expect a 1-2% decrease in Medicare reimbursement in keeping with the first presentation. We think that that is a conservative posture and one of our approaches. We prefer to be very conservative in our forecasting so that at least we can ensure that perhaps that will be the worst case scenario, but again the activities going on at the national level, no telling what might happen, but we think that’s a reasonable scenario.

We do expect an increase in managed care, and we expect an approximately 4-5% increase in the managed care activities. One caveat I would issue, and we did talk about this, as we see further degradation on the reimbursement side on a national level through Medicare and perhaps Medicaid, the various commercial pairs in terms of the managed care companies are going to try to tag their reimbursement rate to the Medicare rate. We are seeing that nationally and we certainly have seen it in New York State in terms of these various companies. It is a national trend so we are gearing up for that. So on one level, we will receive a 4-5% increase in managed care, pairs will see more volume, but we do expect to see some degradation on the actual reimbursement going forward.

Also, as a part of this budgetary process, we forecast an increase of approximately 3-4.5% in benefits going forward and approximately 3% in salary and wage adjustments. Going forward also in the supply and drugs, we expect a 4-5% increase there, no change in pairs case mix is expected. The earnings before interest and depreciation and amortization margin will be approximately 12.6% and the days-cash-on-hand, we expect that to grow to approximately 4.3% to approximately 60.6 days from 56.3 days.

Now you know that during the conversion we did see some degradation. It was expected and we forecasted that in terms of any conversion as it relates to an accounts receivable conversion. We experienced that, but we also had a perfect storm. Unfortunately, at the same time, there was a shift in the Medicare intermediary who pays us, and it was shifted to a firm that did not have a lot of experience in processing Medicare reimbursement funding to us so that impacted our days-cash-on-hand, but we do expect a further recovery of that throughout time.

In addition to that, in tying into that aspect, I need to commend the staff for their really superb work in really trying to manage these accounts receivable activities which I was concerned with when I first heard about the conversion, but they did a yeoman’s job in achieving the commitment to maintain and I know it was very imperative for us.
June 22, 2012 meeting, Board of Trustees

So, all in all, as a Committee and a Board, we believe that the Medical Center met the metrics that we as a Board have put forward to them and this particular budget. We will be seeking approval of that budget when we do the consent agenda.

The next item: we talked about the faculty group practice integration that is scheduled for July 1. All but 13 eligible physicians will have joined with a total of more than 900 physicians now in that practice plan. Again, I am constantly blown away in my involvement here at the University when I look at other health care university facilities and other health care organizations, that is a phenomenal percentage. I was startled by the percentage so much so that I personally went to visit Dr. Ellison and went through the numbers with him. He walked me through the whole process, so I think he needs to be commended along with the others for doing that. For those of you who don’t know anything about bringing physicians into a practice plan, it is a yeoman’s task because many physicians are kind of entrepreneurs even in the research realm and to get them to come together for the benefit of us moving forward to deal with this new health care paradigm, again, I would like to commend you for your efforts in that regard.

At this point in time, I think I have covered all the points. Dr. Gabbe, is there anything I have left out? If so, I will be pleased to amend.

Dr. Gabbe:

We did have a resolution to allow non-physician providers into the faculty group practice. They have been members of the group before as OSU needs. We didn’t bring them in initially, so we are going to focus on the position. This would be clinical psychologists, for example, audiologists who are not yet faculty appointed. The numbers are relatively small but it would be good if they can be part of the group and benefit from our practice.

Mr. Price:

Thank you for bringing that forward. Mr. Chairman, if there are questions, I would be pleased to entertain those questions with Dr. Gabbe as well. Are there any questions?

Mr. Schottenstein:

Do we have questions for Corbett? First of all, Corbett, thank you for your leadership in stepping up. That was a great report and particularly stepping up as Mr. Brass, our fellow Trustee, is recovering from his surgery. We appreciate your leadership very much.

Mr. Price:

Thank you very much. That concludes my report.

Mr. Schottenstein:

Alex Shumate. Governance Committee.

Mr. Shumate:

Thank you, Mr. Chairman. As you alluded to when you were making your remarks earlier, the significant work of our Committee has culminated with the implementation of our new committee structure which, as we all know, we’ve been working on for the past year, doing benchmark studies and analyses as well as looking at other models, because we believe as a Board that it’s critically important to align our structure with the strategic priorities of the University. We believe that that will enable us to be much more efficient and effective in our work. Very quickly, the revisions are that we’re moving from eight existing standing committees to six. Agricultural Affairs will become a standing subcommittee of Academic Affairs and Student Life, and Physical Environment will become a standing subcommittee of Finance. The Trusteeship Committee will be
changed to the Governance Committee to reflect the expanded scope and role of that committee. As a result, the six new standing committees are Advancement, Academic Affairs and Student Life, Medical Affairs, Audit and Compliance, Finance, and Governance.

As we all know, we’ve had three very effective working groups and it’s important to continue the work of those groups. They will be combined with our standing committees so the Talent and Compensation working group will become part of Governance, Diversity and Inclusion will become part of Academic Affairs and Student Life, and Research and Commercialization will become part of Finance. Again, I emphasize the work and substantive activities of those working groups will be incorporated into our standing committees.

Also, a primary desire of the restructuring is to improve our communication and the planning of Board and committee agendas and meetings, so we’ve identified a single administrative liaison for each committee. And if I might very quickly highlight that with Advancement, a strategic imperative will be to finalize and implement the advancement plan, which is imperative number two. The liaison will be the Senior Vice President for Advancement.

With Academic Affairs and Student Life, the strategic imperatives will be numbers six and three: academic initiatives and enhanced undergraduate experience with the liaison being the Provost. For Medical Affairs, the strategic imperative will be Medical Center strategy and operations. The liaison is the Senior Vice President for Health Sciences. For Audit and Compliance, the Senior Vice President for Legal Affairs will take on that administrative role. With Finance, the strategic imperative is financial management and the liaison is the Senior Vice President for Finance. For Governance, it will be led administratively by our Board Secretary.

Each committee, as you know, has a charge and we look forward to working together with the administration to advance the strategy, agenda and priorities of the University. That completes my report.

Mr. Schottenstein:

Any questions for Mr. Shumate? Good report. Thank you. Next, Audit and Compliance, Judge Marbley.

Judge Marbley:

Thank you, Mr. Chairman. The Audit and Compliance Committee met yesterday. Two items were presented for discussion and there are no items presented here as action items for today’s meeting.

We began with me reviewing with the committee our charge and, as Alex just highlighted, our charge will be in the short term to focus on the architecture and function of the University’s new compliance office. In addition, we will continue to oversee the audit and compliance processes and the work of the committee will be expanded to include a periodic review of legal matters and may in the future also include enterprise risk management.

We began with Mr. Chatas presenting a verbal update on the status of the University-wide compliance initiative. He reported that he and Mr. Culley have been actively interviewing candidates for the Chief Compliance Officer role and are very satisfied with the caliber of candidates under consideration.

Mr. Briggs, who is the University’s risk officer, then spoke. He reported that the University, in partnership with Protivity and its project management team, has been progressing through the eight compliance implementation tasks as previously
communicated to the Board in the compliance implementation work plan. We believe that this implementation plan is on task and progressing appropriately, and he gave us the timeline for the work that he is undertaking.

We then heard from Mr. Stover, who is our contact partner with our outside auditors, Price Waterhouse Coopers, and he provided a verbal update on the status of the financial statement audits for the University for the fiscal year ending June 30, 2012. He communicated that all fiscal 2011 audit reports have been issued and that planning on interim work is on the way for Fiscal Year 2012. There were no concerns to communicate either to the committee or to the Board at this time.

The good news that Mr. Stover communicated was that all of the segments that he works with in performing the external audit have been fully cooperative and there were no problem areas. We asked him to, at the next meeting, highlight risk areas, it was an enterprise risk management issue, to identify risk areas that we need to monitor as we go forward.

Mr. Chairman, that concludes my summarization of yesterday’s Audit and Compliance meeting. We missed you by the way.

Mr. Schottenstein:

I bet you did. Any questions or comments for Judge Marbley? Thanks. Next Academic Affairs and Student Life, Dr. Wadsworth.

Dr. Wadsworth:

Thank you, Mr. Chairman. Let’s see, as was mentioned earlier, the Agricultural Affairs Committee will become incorporated into Academic Affairs and Student Life, but this morning we did have the final separate meeting. Thanks Jack for inviting me. It was at 7:30. I appreciated the opportunity to participate and Jack will give a brief report following this one.

We have quite a lot of items on the consent agenda. In fact, there are 15 of them, and I am not going to go through all of them. There is an amendment to number nine, Rules of the University Faculty. There was a late amendment to it in terms of the language, which has been incorporated. I just wanted to bring that to the Board’s attention. You have a copy of that in front of you.

The first report we heard was from the Vice President for Strategic Enrollment Planning, Dolan Evanovich, which was full of data. I won’t go through the details, but there are some interesting numbers. For example, in autumn of 2012, we expect to have 28,600 applicants. Those undergraduates will make approximately 16,500 offers of admission and we should enroll between 6,900 and 7,000 students, so that is the kind of cascade that we have from applications to offers to acceptances.

Our class will have an average ACT of about 28, which is continuing improvement. We studied the number of non-Ohio residents and international students and those are going to go up somewhat. Our number of minority students, however, is likely to stay about the same so we had some pretty good discussion about the details of those groups that raises some interesting strategic issues about what those numbers should be. We have aspirational numbers and are working towards them.

We discussed our retention and graduation rates, which are always a concern, and there are modest improvements in those. We discussed which groups tend to graduate and which don’t and that is a rich discussion which we are going to continue to explore.

We also discussed the cost of an education at Ohio State and, in particular, this tricky issue about loans and defaults, which is a very interesting topic. 57% of graduating
students borrow through federal loan programs. Those federal loan programs are the best deal from an interest rate view and those students leave the University with an average debt of about $20,000. 17% of our students who borrow from private loan programs, not unexpectedly, leave with an average debt of nearly $25,000, which is significantly more.

There is an interesting issue here regarding what the real debt is from some expensive universities, and I am indebted to Dr. Horn for enlightening me about some of these things. For example, at Harvard, the debt is much lower than ours because they are often getting full tuition and recovery, so some of the numbers are quite misleading when it comes to debt upon exiting a university.

Our default rate from Ohio State is only 3.1% compared with a national rate of nearly 9%. This implies our students are graduating into jobs and are able to pay back the loans, which is a good thing.

We are trying to help with this whole issue by creating a new eminence scholarship that will have four-year, full-ride scholarships plus a $3,000 one-time stipend. That will put our students in that category of being able to leave with much less debt, if any. We have also increased the value of our Scarlet and Gray grants so there is a lot of help coming from the University into the student body regarding this money.

We are also trying to make it easier to apply to Ohio State. A common application is going to be instituted for Columbus campus new freshman beginning in fall 2013. This allows people a relatively modest cost to apply. At Michigan, this increased the number of applicants by 6,000, which provides a bigger pool for us to explore for possible students to join us.

On the second topic, a very important one, the Vice President for Student Life, Dr. Adams-Gaston, reported to the committee on the No Place for Hate task force. This is a consequence of the very ugly issue we had in the last few months regarding hate speech on and near the campus. If you recall, there were some incidents of words being scrolled on buildings. We listened at that time to a number of students and faculty who had come into this meeting, and they had some recommendations.

As a result of that, we had a task force led by Dr. J and Dr. Valerie Lee with a lot of help from Judge Marbley and Dr. Reid. They engaged a wide number of students, staff, or faculty in order to put a plan forward to try to understand how to mitigate and make sure that this kind of issue doesn’t happen. There is quite a lot of detail which I won’t go into here. But the short and long term plans are around the topics of awareness, the climate of this University, and recruitment and retention, so there is a lot of work going on, and I think that is very, very appropriate.

Finally, we heard from OSU’s Senior Director of Learning Technology, Michael Hofherr. He described a recent collaboration between Ohio State and Apple to develop a mobile campus which will enhance teaching and learning and research. This is very appropriate in my mind for a 21st century education, what’s it going to look like electronically and so forth.

It was very interesting to learn that Apple is really engaged with this campus in terms of how to provide resources. Of course, they have a business interest, but they also have a nice deal they’re providing to students for certain programs. We also saw a number of videos of faculty and staff teaching using electronic media with great enthusiasm about the results as they were able to approach topics in a quite different way.

There are some very pragmatic things as well. A key chemistry book costs $256.00 for the paper copy, but you can download it for $97, so there’s some savings that’ll come about. And, of course, the digital book, for which you can get upgrades. It’s interactive
June 22, 2012 meeting, Board of Trustees

and it can quiz you and tell you how clever you’re getting or not and all sorts of interesting things. So that was very good.

Apple chose OSU alongside Harvard and Yale. This is a company we’d like to be in in lots of areas, as outstanding examples of delivering open content through the university teaching system. So this is very much a vector of the future. I’m delighted to see we’re engaged, and it’s something we’ll be spending a lot more time on.

Finally, we did discuss the academic initiatives scorecard with Dr. Alutto and then went into Executive Session.

That concludes my report, Mr. Chairman. Happy to take any questions.

Mr. Schottenstein:

Jerry.

Mr. Jurgensen:

I know that I’ve commented on this before, or I’ve commented on this every single time the subject gets raised. At the risk of becoming a broken record, I’m going to do it one more time. I subscribe to the theory that one of the greatest financial crises our country will ever confront involves the issue of student debt. And you know, when you look at the numbers, Ohio State is not remotely the cause or in the eye of the storm of this problem. And the reason is if our students graduate with an average debt of somewhere around $20 to $25,000, with medical or professional schools being much higher, the reason we’re not part of the problem is-- the prospects of our students getting a job in pursuit of a career, in pursuit of a path toward living a meaningful, purpose-driven life, is pretty darn high.

The problem is these $22,000 loans now total over $1 trillion in the country. The last time I commented about this, the amount of student debt exceeded all credit card debt in America. It now exceeds the total of all credit card debt and automobile finance debt in America. 70% of this debt hunts to a series of institutions whose default rate is ten times what the rate at Ohio State is. And the prospect of those students finding a job in pursuit of a career, in pursuit of a meaningful, purpose-driven life is significantly lower.

A new area of increased marketing attention these institutions have discovered is returning vets. My thesis is that when you start messing around with the lives of kids, that’s bad in its own right, but when you start messing around with the lives of returning vets, you will have no friend on either side of the aisle in Congress.

While we are not the cause of the problem, as Geoff Chatas’ slides depicted, we will be impacted by what the government’s response to this is. Now the tough thing in all of this is knowing when this is going to happen. When is the crisis going to end? We really need to keep our eye on this one.

President Gee:

I just wanted to say that that trillion dollar debt out there, many people would, it is kind of a silent debt, not think about it until you put it into stark reality. The issue, I think, is the fact that it is like the housing bubble such that it could go south in some way with high default rates in certain sectors of higher education.

We can all be impacted, and that’s one of the reasons you heard these other presentations. We are surrounding ourselves with the best kind of positive energy that we can to make certain that we protect ourselves and our students, but you have identified what I think is one of the real silent killers that is out there and could come home more quickly than we anticipate.
June 22, 2012 meeting, Board of Trustees

Mr. Schottenstein:

Any other comments for Dr. Wadsworth? It was a really good report. Jack. Our Agricultural Affairs Committee, which will become a standing subcommittee, is doing very important work and we appreciate your leadership.

Mr. Fisher:

I am happy to piggy back on Dr. Wadsworth’s report. I want to share with all of you that we did have a recognition at OARDC in Wooster in the last couple weeks that ties together with a lot of the funding models and planning that we are doing today. In this case, President Gee and Dr. Slack at OARDC and our Government Affairs team were able to recognize a longtime congressman, Ralph Regula, who started his public service here in the state of Ohio in the 60’s in the Ohio General Assembly and OARDC was in his district. It was a great opportunity to recognize not only the congressman by the naming of the PAR facility, our level three plant and animal biosecurity facility that was just completed at Wooster last year, but it was also a good way to recognize the collaboration of local, state, and federal government in what we do. The mayor of Wooster was there with the BioHio Research Park at the Wooster campus. We also had several legislators there to recognize our congressman with the naming of the building.

Indeed, what we do in the land grant space involves federal, state, and local government. It was a great day to recognize the congressman with the naming of the building, and also Mrs. Regula, who has been a longtime supporter of OARDC and particularly of the arboretum. With the opportunity to place a plaque with a new tree planting in the arboretum, I think Mrs. Regula was probably as moved as the congressman. It was a very nice event.

This morning we reviewed all of the activities, and primarily the research arm of agriculture, and looked at what is going on at OARDC and throughout the campus, recognized some of our researchers and some of their work, and discussed how we will tie this together in the future in public-private partnerships and integrate with our new office of Technology and Commercialization.

We are celebrating 150 years of land-grant universities and looking at how we transition in this new funding paradigm from that history of intellectual property being part of the public domain and transition into a 2013 model, if you will, in allowing the University to be able to fund a lot of our activities in a new way by way of commercialization. So, a lot is going on there, and we had a lot of good reports from several of Dean Moser’s staff.

I also want to highlight that Ohio State put its best foot forward recently with an energy conference held here on campus involving land-grant universities. This was a reflection of leadership by President Gee and Dr. Ron Sega, who we share with Colorado State in the area of energy and was a great reflection of what is going on at Ohio State and our leadership role in energy. I think we had seven presidents and chancellors of universities of land grants here along with many, many institutions from across the country for that conference.

Lastly, OSU Cares is a part of our extension model. We have an office in all 88 counties and OSU Cares is a program to take the work of everyone here and out to the people of Ohio. There is a lot of great collaboration going on and, again, as we look at the next 150 years of the land grant model, what we do in engaging with our folks across the state of Ohio, and, indeed, our talk about being the land grant to the world, OSU Cares is about taking everything that is done here on campus and engaging in that work, research and academic discipline with our citizens across Ohio. There is a lot going on. It will be a way that we can merge into the advancement model as we enhance our effort to network with our alumni and stakeholders across the state.
June 22, 2012 meeting, Board of Trustees

Finally, I would like to make a presentation to President Gee that is another indication of his leadership in regards to the Zero Waste Program at the stadium. All of us are so excited to be around President Gee that we want to share a part of us from football Saturdays that he can take home to the residence and be closer to us on a daily basis. At the back here is a bag of compost from several Saturdays last fall. Working with Gene Smith, our athletic director, and the team of athletics, we engaged in a zero waste recycling and composting program at the stadium and this is the first bag of stadium gold. I went out to the site this week with four students and we would like to present this to you. The serious part here is to thank you for your leadership. This is a cutting edge program in terms of recycling and composting. I am certain you will have a place for it at your residence to use.

President Gee:

Jack, out of all of the honors and gifts I have received, this is certainly the most recent.

Mr. Fisher:

And it is also the most lasting, I hope.

President Gee:

And it may be the most lasting. I don’t intend on sleeping on it, I can assure you that. Let me just say seriously, first of all, thank you. We are going to have a chance to see OARDC. I think one of the challenges of being part of this massive, complex University is we don’t realize how many treasures we have in how many places around the world and around the state and our campus at Wooster is one of the most important activities we have. It is one of the most important research centers of its kind in the world and the work we are doing there is very important, which I want to again acknowledge and thank you for the compost.

You know, this is a great program and it is a great example. It is student driven, by the way, and that is what is very important. Our students are really taking a leadership role. I think one of the things we all discover about this University is the fact that when we get our students focusing on something, they really take the leadership role rather than following and this is yet another example so I thank you, Jack. I will make good use of it. I don’t know how.

Mr. Fisher:

I can help you with that as well.

President Gee:

Does it go good with coffee? I don’t know.

Mr. Fisher:

No. I think we had better talk.

Mr. Schottenstein:

You know, Jack has a love of agriculture and, first of all, he just does a spectacular job elevating the dialogue and the importance of all matters related to agriculture. When he shared with me that he was going to bring a bag of something to the meeting, my first thought was “not compost,” but I am glad it was compost instead of what else I thought it might be.

Thank you, Jack, for your report.
June 22, 2012 meeting, Board of Trustees

Finally, our Finance Committee. Yes, Dr. Cloyd?

Dr. Cloyd:

I would like to make a serious comment, which is difficult after this last part, but I would like to come back and highlight and underscore a point that Jack made relative to our extension service and opportunity. I mentioned during the Advancement Committee report the importance of the new Alumni Association model as a way to establish connections to our alumni base around the world. One of the other concepts that has been developed around and engagement is the term of mutuality. As we think about our stakeholders creating mutual common interests and mutual common benefits, the extension service provides that relative to Ohioans.

Now, as Jack indicated, there is some work underway. Obviously we have done it in the past in the agricultural area but now need to expand it. We have talked previously in this group that the Ag-extension service model is the most highly developed and most successful model in the nation for moving intellectual assets and capabilities from a university into application and be of benefit in society. I think the opportunity we have that is just starting to be expanded now with the extension service and the new advancement model is to say, “how many other nodes of intellectual capability assets exist within this University that now can be delivered in the state of Ohio for mutual benefit.” I am very excited about it because I think it is a very important connection that we are going to have.

Mr. Schottenstein:

Yes, thank you. Last committee report, Jerry Jurgensen, chair of Finance.

Mr. Jurgensen:

Thank you, Mr. Chairman. Yesterday we met and covered four items for discussion and 14 resolutions. I have a brief five minute slide deck on each one of them, so we should be out of here in another couple of days. Mr. Chatas presented a request for the interim budget approval which allows the University to continue to operate during July and August consistent with our last fiscal year funds budget while fee estimates, enrollment patterns, and those operations that have earnings to them are being finalized for fiscal year 2013.

This undoubtedly is not best practice. We don’t like to come and ask for this kind of approval in front of being able to see next year’s budget. Part of the issue, obviously, is when you close in June and meet in August and no longer meet in July like we used to, this gap gets created. But Geoff is doing his level best to try to figure out a way to take that gap out.

He also presented a resolution for authorization to issue additional general receipts bonds, commercial paper notes, and subordinated debt not to exceed $1 billion in general receipt bonds over the next two years, including $300 million to fund the remainder of our 2010 capital plan, $350 million for the potential sophomore housing financing project, $120 million to refinance current debt, this is an opportune time from a rate point of view to do that, and we may have further opportunities to refinance existing debt down the road.

Lynn Readey then presented a resolution to enter into the professional services contracts for construction projects for stadium waterproofing and concrete repair and for the Schottenstein Center basketball practice facility, which we have talked about before.

Terry Foegler presented five real estate related resolutions covering an authorization for a land exchange of nine acres out at the airport between Ohio State and the state of Ohio, an authorization to enter into the sale of OARDC southern branch farms, there is
a 275 acre farm we own in southern Ohio, which was no longer being used for the
purpose for which it was created, to sell the former ATI residence hall, and then, lastly,
two leases at SciTech.

Mr. Chatas then presented two additional action items to the committee. The first
covered our tuition increases for fiscal year 2013, the proposed tuition and all mandatory
fee increases for undergraduates is 3.2%. We had an opportunity to talk about those
numbers not only in absolute terms, but in relative terms to what is going on in similar
institutions. Our graduate tuition increase is proposed at 3.5%, and the new surcharge
will be assessed for international students at $500 per semester.

Geoff then discussed the proposed user fees and charges included in the fiscal year
2013 budget, or expected to be included in that budget, which include increases for
graduate and professional programs, room and board fees between 4.8% and 5%, and
other user fees needed to implement the academic plan and to meet the needs of
students. Each of those proposed increases in fees is outlined in your Board materials.

We went through our usual review of current period financial statements and all of the
dashboards related to them. We did not cover in detail, as sometimes we do, the Medical
Center dashboard, but that was covered in Medical Affairs by Corbett.

The one item on the balance sheet to probably call out is that the change in net assets
is lower than target this year. It is related to investment income, this year being lower
than last year, but it is noteworthy that we still generated a positive return of about 96
base points on the long-term investment pool this year that does compare favorably to
a number of different indexes which relate fairly to the way that we invest money.

Mr. Chatas then presented the first quarter calendar 2012 waiver report. There was
nothing substantive there to call out to your attention. Ms. Readey then presented a
construction project status report, again something we do each time. It is not counting
the Medical Center, which is counted separately, but does have all others. Everything
looks good. It is on budget and on time except for two projects: the south high rise
renovation and the William H. Hall complex expansion, but we are watching those things
very closely.

The bulk of our time was devoted to consideration of the transaction to enter into a long-
term lease of all of our parking operations. So at this point, if I could, I would like to call
on Dr. Alutto and Mr. Chatas to briefly reprise for you the presentation that we got
yesterday on parking.

Dr. Alutto:

Thank you, Mr. Jurgensen. We really want to present this in two parts. I am going to give
a little sense of context and then Geoff is going to take the Board through some of the
details of the transaction.

This is not an issue to be seen in isolation. It really is part of the strategic planning
process we have been through as a Board. If you remember, that process identified a
ten year period during which we wanted to have increased investments; increased
support for students, faculty, and facilities; and increased support for the totality of the
student experience. In order to accomplish that, we identified about $2.1 billion in
incremental resources we would need to generate over that period of time in order to
support all of those activities.

Those sources of funding were to come from a variety of different activities including
new development dollars, new program development within the University that would
generate funding, external research funding that was possible, and then one time
increments that would result from affinity agreements, the monetization of assets and
then, of course, the need for expense management as part of an opportunity to give us the chance to redirect resources that might be generated.

That is all in the context of long-term planning but there is also a recognition that as we plan for enhancement of the University, as we plan for greater support for students and so on, we have to deal with the short-term. You heard earlier today some of the risks that are involved in the short term as we face a relatively poor economy and some uncertainty as to what federal policies are going to be, so we are constantly looking for the balance between long-term commitment to our strategic plan and the short-term activities that we might need in order to build a transition to that set of objectives.

The issue of the leasing of parking provides an unusual opportunity for us actually to build the resources we need for both types of contingencies: both a long-term contingency, but also more importantly a short-term contingency. In the long run, as we think about that lease, we have $483 million that would be provided by a vendor and is consistent with our academic plan. We really are anticipating placing those funds and directing them for four purposes.

The first is we would like to put about $200 million as part of a commitment to support and increase the faculty here at Ohio State. I want to stress that it is only a piece of that effort and for all of these, as I said, we identified multiple new sources of funding that we are going to need. The funds from the lease that will be placed at a long-term investment pool are only a part of that effort.

Secondly, we will put about $150 million into the long-term investment pool to support campus transportation systems, a more pedestrian friendly campus, and all the infrastructure that that will require, and also to provide support for many of our energy sustainability projects over that period of time. We will put about $83 million sequestered essentially for the use of student scholarship support so that we begin to moderate, over time, the impact of changes we expect to take place, but also so that we guarantee our own commitment to access for this institution.

And then we also decided that what we would do with these resources is put about $50 million into a special fund to support developments, primarily facility developments, in the arts. The arts are critical to this institution. They go to the core, the spirit of who we are and it is very difficult for them to find the funding that is necessary to build the facilities that will allow the faculty and our students in that area to really prosper.

So if we go forward with this proposal, as it has been made, and we are able to focus primarily on the long-term issues, those are the four buckets in which we would put the individual funding. If in fact there is a short-term issue that we have to deal with, then we can begin to think of other ways in which, in the short-run, we might behave differently. But the purpose, again, would be to focus on those four objectives consistent with our strategic plan, and I want to come back to that issue. None of this is being done in isolation. All of this is being done in an integrated fashion with that strategic plan. Now I will ask Geoff to talk a little bit more about the specifics of the transaction.

Mr. Chatas:

So the process began in September 2010 when President Gee asked us to review a number of noncore assets including parking. The bulk of that first year was spent doing an analysis of the potential to monetize the parking leading up to a resolution passed by this Board at the meeting last September in which we agreed we would go forward to solicit bids with a minimum requirement of $375 million and a maximum increase in the first ten years of any concession agreement of 7.5%.

We then secured a request for qualifications where ten bidders expressed interest. Of that ten, seven were deemed to be qualified, including financial strength and operational experience in the United States managing significant parking operations. Of that seven
that we received indicative bids from, four were invited to submit final bids, and of the four, three submitted bids. You can see the results of that final submission which came in early May.

As part of the ongoing discussion and dialogue over the course of the last year with faculty, staff, and students, a critical issue became the potential increases in parking rates, and I will say that, in addition to the Board resolution on the amount we raise and the cap, we also agreed that it was important not to raise parking rates more than we had in the past, had historically, and that we had an operator that can operate the parking as well or better than our current operations. So we listened to various constituencies and when you look at these scenarios, 5.5%, 6.5% and 7.5%, these reflect ranges in recent history in parking increases. So when we began the process a year ago, 7.5% was the ten year average for the ten years preceding from a year ago; 5.5% is if you look back at the ten year period from this current year.

We asked for the bidders to give us their results with 5.5%, 6.5% and 7.5%, and you can see each color here represents a different bidder. The red is QIC; the blue, McCrory; and the green, IFM. All three are Australian managers of pension money. The results came in with, as you can see, the bid of $483 million at 5.5%.

As part of our analysis, we looked at what it would cost us if we were to invest proceeds into the endowment regardless of the rate that we passed on to the concession area if we kept rates at 5.5% for all of our employees, faculty, and staff. That differential in bid had to be greater than $65 million in order for it to make sense economically for the University. So you can see in this case, if you just take the red going from the $483 million at 5.5% and go over to the right and $523 million, that $40 million did not meet that economic threshold. We made the recommendation, because it was important to keep that rate increase as low as possible, to go with the bid here in scenario one, which was $483 million at a 5.5% increase for the first ten years, and then 4% or inflation after that, and that inflation adjustment would be an average over a five year period so we wouldn’t have shocks in price increases at any one given time.

Having reviewed this, we have made the recommendation to various groups, and I will come back to that, and yesterday to the Finance Committee that we go forward with bid one, which was QIC for 50 years at a 5.5% increase. QIC, as you can see from this map, is a $60 billion manager of pension funds from Australia, the state of Queensland. They have a group that focuses on infrastructure and they have a global portfolio in the infrastructure sector. You can see here these red dots are investments they have made globally in the sector.

It is important to note this is a long-term investor. This is consistent with what is important to the University. We want a partner here that will clearly be managing this partnership over a very long-term period of time—that is not a group that is going to be coming in and going out, which was an important metric.

They are partnered with Laz, which is one of the largest operators of parking in the United States. You can see here, Laz manages over 600,000 spots, has revenues exceeding $500 million, and manages those spots coast to coast. Perhaps more importantly, when we talked with members of our traffic and parking group, they expressed, of all the operators, that this would be their preferred operator. You can see here the second bullet point from the bottom: Laz currently manages over 15,000 spaces for universities including Boston College, Brown University, and Berkeley, as well as the Beth Israel Medical Center in Boston, so they have significant experience working with academic medical centers and universities, which is obviously going to be important to us going forward.

As we looked at the issues that we faced in making our recommendation there were a couple of things to bear in mind. Clearly, the price was important, and we exceeded our financial threshold, but the transaction also allows us to accomplish a couple of things.
June 22, 2012 meeting, Board of Trustees

First, on this page you can see we transfer certain risks. The concessionary operating and maintenance costs become the obligation of the concessionaire. They assume the risk of the cost going up over time. They are responsible for system capital expenditures which are projected to exceed $500 million over the next 50 years. Second, you can see we shift the risk of usage to the new operator so any changes in driving or parking patterns become the risk of the concessionaire and, obviously, any financing costs related to their operations going forward become their risk.

Perhaps more importantly or as important, we did spend the bulk of the year looking at the contract. The University is a complex living organism. It certainly changes over time and so we tried to accomplish two things. One: we took a look at what has happened at other places that have privatized parking to go forward with lessons learned. On the left here, we have looked at the various privatizations and on the right are the things that we have incorporated into our contract that we think improve the nature of our contract compared to the others, that document is about 700 pages when you look at all the appendices. It was reviewed by various committees with students, faculty, staff, and others. We wrote the document, and you can see here that we put in a number of provisions that are important for the University and that the rate increases are gradual compared to others. We have significantly detailed operating standards, but perhaps most importantly, we have the flexibility that we need to continue to run the University.

In that lower right box, you will see that on 20 days in a given year, we can take over the parking system for days like move in and graduation. These are days where it is quite complex and it is important for us to be able to manage the operations. We also can identify up to 200 significant events during the course of the year where we can manage parking related to that event such as if there is an event at the Wexner Center as an example. We have that all in the contract but, of course, we do know that will change over time, so we made certain that that flexibility allows us to change the nature of those events over the life of the contract.

Based on our ability to negotiate a contract that we believe works quite well for Ohio State, that we received a bid in excess of our minimum threshold, in fact significantly so, and that we were able to limit increases to the lowest possible level and have a world class operator, we are recommending we go forward with option one.

You can see here that we have provided, in a brief summary form, if we do nothing, we would have no funds up front compared to the $483 million that the Provost indicated would be invested into our long-term investment pool to generate income going forward. If you look at the life of the concession agreement over 50 years, this is one of many scenarios we ran and discussed yesterday in the Finance Committee, but in this scenario, you can see that there is a significant nominal advantage. The concession would generate over $8 billion of proceeds, including the return on the money invested in the endowment, versus if we kept the parking, and we were able to manage the parking such that the increase in prices did not all get used up in increased costs, which is not something that we have historically done, and we could then reinvest that money over time. We would generate about $2.2 billion of incremental resources. Most of that comes after year 10, of course, so you have a long time lag before you can actually put any money significantly to work. Those are nominal dollars.

The bottom line here is net present value, so it is trying to make all those dollars equal. It shows you that the concession operation would give us about a $200 million present value advantage over operating it ourselves under this scenario and that is one of the bases on which we are making the recommendation today.

Finally, it is important to talk about the process. This has been vetted by a significant number of groups across campus. It has been the focus of town hall meetings and significant advice from various groups over the course of the past year. This is the list of the groups that took action in the last two to three weeks once we had the bids known.
June 22, 2012 meeting, Board of Trustees

It started with the Faculty Council which we had met with three times over the course of the year. There was a resolution to oppose the transaction at the last meeting. This was the day after we received the bids and so the Faculty Council did not have the benefit, at the date of this meeting, of the final bid but, even at that meeting, this resolution was defeated 22 to 15 with 8 abstentions reflecting those who wanted to wait for the final bids.

In the following week, the Senate Fiscal Committee met, reviewed the actual bids, and passed a resolution recommending that we go forward to the Board of Trustees by 13 to 2 with 1 abstention. The Parking Advisory Committee also met that day and voted 11 to 0 with two members not present. Later in the week, the Senate Steering Committee met, which is the group that has all of the heads of all of the Senate Committees across campus looking at everything from physical environment to benefits to financial issues. At that meeting, it was unanimous 12 to 0 to recommend approval.

I then met with the executive staff the following morning who recommended approval unanimously. I met with the student leaders, who did not have a formal resolution, but were unanimous in their support. And finally, we met with the University Senate at the last meeting, which had a vote of 75 to 20 with 3 abstentions in favor of recommending approval.

And the Provost already mentioned this, but this slide just shows you again where the money is invested in to these various buckets. With that we are happy to take any questions.

Mr. Jurgensen:

If I could, I would like to give you a sense of my own vetting of this. I have had the opportunity to add to the pile of the thousands and thousands of man hours that have gone into the analysis of this, and this would kind of be where I come out at the bottom. This is a serious issue to consider. It is a lot of money; it impacts a lot of people on this campus; and, probably most importantly, it is a decision for a really long time. Anytime that you are confronted by a decision of this magnitude where you aren’t going to be around to see how it turned out, you really need to take time to reflect. And on this one, whether or not it turns out to be the right thing to have done or not won’t be known until virtually every single person in this room is long gone.

I think it is appropriate that we ran it through as many screens as humanly possible to consider at this time. However, the seriousness of this is really in my mind only exceeded by its capacity to facilitate our strategic agenda beyond almost any other single move that we could make.

At its core, it is a tradeoff between the basket of risks involved in managing the complex, hard-to-predict operation of parking cars on this campus versus the risk of managing the endowment. But by entering into this trade off at this time, we are accelerating into the current period, the financial resources necessary to enable a series of initiatives which otherwise would have been held captive to our ability to generate the same amount of capital, piece by piece, over a long period of time. And we would have had to wait, as Geoff suggested, a decade to really do some of the things that we need to do now.

We no longer need to worry about whether we can afford these initiatives, because we have all of the money up front, and we are rarely confronted with that kind of opportunity. Now, having said all that, we still have got to be smart with what we do with the money. We need to invest it in the right things, and if we don’t, those numbers won’t work out quite that way. That is part of the scenario analysis that Geoff referred to. We have to be smart about how we invest it. If we don’t manage it intelligently, those numbers won’t work out, which was part of the scenario testing.
June 22, 2012 meeting, Board of Trustees

The one thing about it though, the beautiful thing about financial assets as compared to physical assets is they have the capacity to regenerate themselves, if you are good and smart about how you do it. Every physical asset on this campus has a depreciable life, but cash is forever, so we actually end up at the end of the period with more money than we started with. Now, there are things that take away from that for sure.

The transaction has risk and, to me, the biggest risk is the tenor of the deal. I have never done a 50 year deal. I have also never borrowed money for 100 years. I could never find anybody that would be willing to lend us money for 100 years, which says something about the credit of this place, but it is a long time. And what is scary about long timeframes is nobody can predict with certainty what will happen over the next 50 years.

As many of you know, I am an antiquarian book collector. I don't have a single volume on my shelves that comes remotely close to the number of pages in this concessionary operating agreement, including my Ulysses or War and Peace. But, in all of those pages, what are people trying to do? They are trying to do what any common sense person would do. They are trying to think up every possible thing that could happen, not by necessarily looking at the past, but by looking both at the past and looking forward and trying to ask themselves the question, "How do we write into this document the flexibility necessary to manage that tremendous length of time?"

But, if you give me the choice between managing $483 million and all that comes with that versus trying to manage this parking operation in a way that, over the next 50 years, would generate the same amount of financial capital, it is an obvious tradeoff to me. It is a tradeoff that I think we should make. I am satisfied with the work that has been done by our financial staff, our financial advisors, and our lawyers. I am comforted by the fact that all the agreements that govern this came out of our typewriter and not the other side's typewriter. I am confident and I am pleased about the amount of work that our faculty members have done in scrubbing this transaction. In the end, it's bold, but it is also powerful and it has the ability to enable our agenda better than anything else that I can see.

Today, if we approve this, I don't think it is necessarily just the culmination of a complex business transaction. It really represents the genesis of a new pattern of thinking on how we can generate the necessary financial resources to carry out the mission of this great University. So with that, I would be pleased to move for approval of the amendments to transportation and parking regulations necessary to execute this as well as the authorization of the long-term lease and concession agreement for The Ohio State University parking system.

Mr. Schottenstein:

May I have a second please before we have discussion?

Judge Marbly:

So moved.

Mr. Schottenstein:

Okay, discussion, comments from anyone?

President Gee:

Well, I would just make one comment. I will make two comments. First, I actually do intend on being here when this thing is paid off. I just want to go on the record with that so I don't think this is a risk. I am right here.
June 22, 2012 meeting, Board of Trustees

But I do want to note, on a very serious note, that this has engaged this University in a discussion unlike any I have seen in a long time. There has been agreement and disagreement. In the end, though, the result is as you see it behind me and also with our faculty leadership and others that are very smart people when given an opportunity to take a look at things in the light of day and do understand and make good decisions.

The thing that is most powerful about this for me is that this is a University that is not looking through the rearview mirror. The discussions that are taking place on many other campuses in this country right now, as the Provost will tell you, is about how many programs are eliminated, how many furlough days are being engaged, how many people will no longer be working at the institution. We are not only protecting our assets, we are protecting our ability to be competitive in the world at a time when being competitive allows us to accelerate the opportunities for Ohio State, so I am very satisfied with what we are doing here.

Mr. Hicks:

We have had a lot of interesting debates and a lot of interesting issues. I am not sure that I have had as many people come up to me at school events for my kids or at dinners out in the community to talk about parking ever than in the last 12 months or so, so obviously it is a topic that has engendered a great deal of passion.

I just want to commend our staff first of all. I think the process that you guys have gone through has just been fabulous in terms of how inclusive it has been in this dialogue and I think that the result is very exciting. At the start of the meeting here today, we heard two things that really tie well into this. One was a great presentation on the financial uncertainty coming from the state and the federal government. And the other thing that we heard was from two unbelievably impressive young women. When we think about the uncertainty ahead of us and then when we think about the kind of students and the kind of people that this place produces, and we think about what more we could do when we have the resources to do it, in my mind that makes this a relatively easy decision, difficult process, serious issue, but an easy decision in terms of the right thing to do.

I would commend you guys for doing a fabulous job and I would also commend the University overall and the University family, because I do think despite being chatted and sometimes yelled at at dinners and school events, there was a very healthy dialogue that is going to end up in a very good place for us. Thank you.

Mr. Schottenstein:

Would any other Board members like to comment?

President Gee:

I will just add one last thing which I said yesterday, it is not about parking and it is not about a variety of things, it is about our future and the point that Jerry asked me to make yesterday, and I will make again, and that is the fact that we are cognizant of the people process, we are cognizant of all the other things, but no parking place has ever by itself cured cancer or taught a kid from West Liberty, Ohio or found opportunity for our students from small towns and communities to come to this institution. By doing what we are doing, those parking places will have a meaningful role in the life of so many people and I think that is the way we have to think about it.

Mr. Schottenstein:

I would just say, first of all, thank you for your words, Jerry. I thought they were very, very well said and thank you for your leadership in the past number of months not just with finance but with this issue.
June 22, 2012 meeting, Board of Trustees

I want to really commend Provost Alutto and, of course you, Gordon, for helping to breathe life into this in the early stages together with this Board, but also our Chief Financial Officer, Geoff Chatas, who has enabled us to think outside the box in very innovative ways, and I will mention some of those in a moment.

I think I speak for the entire Board. I feel really good about our process. I think we have acted, not just thoughtfully, but with humility. We haven’t tried to John Wayne this over any group of students or faculty. We have listened and, frankly, that listening has been informative. Many of the comments that were made have found their way into that 700 page agreement in terms of trying to create the necessary safeguards from an operating standpoint and trying to predict what may happen over time as you said, Jerry. One way that I have tried to think about this is that if some individual that happened to love this University as much as all of us love it walked in here today and dropped a bag of $483 million in the middle of this room and there was not one parking space on this campus, I doubt if this Board would decide to take that $483 million and construct 35,000 parking spaces, which I know is a little bit of a crude way to think about it, but there is some logic to that, and we would be severely criticized if we applied the $483 million to building 35,000 spaces.

What we have decided to do with that $483 million, that we are going to get in about 60 days if we approve this, is not to build those spaces, because we will already have them, but instead to invest in our faculty, in research, in students, in student scholarships, and the arts, things that are so mission critical to this University. And this $483 million when combined with the $500 million, the 100 year bond that you referred to, Jerry, is again the work of our CFO, Geoff Chatas. I am not sure we would have either of these pots to work with to enhance these initiatives that really make up what the University is about, that allow us to do things, not just in uncertain times, but in any time, but for the work of Geoff.

Again, I want to really pay tribute to the process and to the innovative thinking. I think this is a momentous day for us. I don't know if there are any other comments that anyone else wants to make or from the floor. With that, will the Secretary please call the roll?

Dr. Horn:

Motion carries, Mr. Chairman.

Upon motion of Mr. Jurgensen, seconded by Judge Marbley, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, case by Trustees Hicks, Fisher, Schottenstein, Marbley, Kass, Reid, Jurgensen, Wadsworth, Shumate, and Krueger.

AMENDMENTS TO TRANSPORTATION AND PARKING REGULATIONS
Resolution No. 2012-101

Synopsis: Approval of the following amendments to the Traffic and Parking Regulations are recommended.

WHEREAS on November 3, 1978, the Board adopted Motor Vehicle, Traffic and Parking Regulations of The Ohio State University, which were subsequently amended further on June 10, 1982 and May 30, 2003; and

WHEREAS there is a need to update those regulations and the Board is being requested to approve revised regulations for transportation and parking on the campus as attached:

NOW THEREFORE
June 22, 2012 meeting, Board of Trustees

BE IT RESOLVED, That the revised *Transportation and Parking Regulations* of The Ohio State University be adopted by the Board of Trustees.

(See Appendix XLIII for background information, page 1033.)

***

**AUTHORIZATION OF THE LONG-TERM LEASE AND CONCESSION AGREEMENT FOR THE OHIO STATE UNIVERSITY PARKING SYSTEM**

Resolution No. 2012-102

Synopsis: Authorization of that certain Long-Term Lease and Concession Agreement for The Ohio State University Parking System, including authorization of the concessionaire thereunder, performance of all obligations thereunder and execution and delivery of documents in connection therewith.

WHEREAS the Board of Trustees (the “Board”) of The Ohio State University (the “University”) previously took formal action pursuant to the Board’s Resolutions No. 2012-14, dated as of September 9, 2011, to pursue the lease and concession of the University’s parking system; and

WHEREAS the lease and concession of the University’s parking system is important in meeting the objectives and requirements previously set forth by the Board and the president of the University (the “President”); and

WHEREAS (a) a bidding process with respect to the Concession Agreement (as defined below) was established pursuant to a Request for Proposals dated as of April 25, 2012 (as amended and supplemented by the University, the “RFP”), and conducted by the University (such process, the “Bidding Process”) and (b) three bids from such Bidding Process were accepted for consideration; and

WHEREAS QIC Private Capital Pty Ltd (“QIC”), acting on behalf of its managed funds and clients, submitted a bid of $483 million on Form 1 of the RFP in accordance with the terms thereof and, at the University’s request, submitted a bid in the same amount on Form 5 of the RFP marked “5.5% Rate Increase Scenario,” together with security therefor in the amount of $40,000,000, in each case in a form satisfactory to the University; and

WHEREAS pursuant to the Bidding Process, the President and chief financial officer of the University (the “Chief Financial Officer”) recommends to the Board that CampusParc LP, a Delaware limited partnership which is owned indirectly by certain managed funds and clients of QIC (the “Concessionaire”), be chosen as the concessionaire under the Concession Agreement; and

WHEREAS it is proposed that the University enter into a Long-Term Lease and Concession Agreement for The Ohio State University Parking System (the “Concession Agreement”) with the Concessionaire, on such terms and conditions set forth in, and in substantially the form of, the draft of the Long-Term Lease and Concession Agreement for The Ohio State University Parking System dated June 28, 2012 (the “Draft Concession Agreement”), a copy of which is attached hereto as Exhibit A:

NOW THEREFORE

BE IT RESOLVED, That the Board has determined that it is in the best interests of the University to enter into the Concession Agreement with the Concessionaire and the Related Documents (as defined below), to perform the obligations arising under, or in connection with, the Concession Agreement and the Related Documents (collectively, the “Transaction Obligations”), and to otherwise consummate the transactions contemplated thereby (the “Transaction”); and

952
BE IT FURTHER RESOLVED, That the Board has reviewed the Bidding Process and accepts the recommendation of the Chief Financial Officer, selecting the Concessionaire as the concessionaire under the Concession Agreement; and

BE IT FURTHER RESOLVED, That the Board hereby authorizes the University (1) to enter into the Concession Agreement with the Concessionaire and into any other documents and agreements that the President and the Chief Financial Officer (the "Authorized Officers"), or either of them, deems necessary, advisable or appropriate in connection with the Concession Agreement (including, without limitation, a Memorandum of Lease Agreement and one or more consent agreements and estoppel certificates contemplated by the Concession Agreement for the benefit of the Leasehold Mortgagee (as defined in the Concession Agreement)) (collectively, the “Related Documents”), such Authorized Officer’s execution thereof to be conclusive evidence of such approval and determination of the necessity, advisability or appropriateness thereof, (2) to take such actions as any Authorized Officer deems necessary, advisable or appropriate to perform the Transaction Obligations and to otherwise consummate the Transaction, such actions not to be materially inconsistent with the terms of the Draft Concession Agreement, such Authorized Officer’s taking of such action to be conclusive evidence of such approval and determination of the necessity, advisability or appropriateness thereof; and

BE IT FURTHER RESOLVED, That the Board hereby authorizes and directs the Authorized Officers, or either of them, upon consultation with the Chair of the Finance Committee of this Board, the Senior Vice President for Legal Affairs and General Counsel, any outside counsel or advisors retained for this purpose and such other members of the senior leadership of the University that any Authorized Officer deems necessary, advisable or appropriate, subject to the terms, limitations and conditions prescribed in this resolution, (1) to negotiate, execute, acknowledge and deliver the Concession Agreement and any Related Document on such terms as any Authorized Officer deems necessary, advisable or appropriate, such terms not to be materially inconsistent with the Draft Concession Agreement, with such Authorized Officer’s execution thereof to be conclusive evidence of such approval and determination of the necessity, advisability or appropriateness thereof, (2) to take such actions as any Authorized Officer deems necessary, advisable or appropriate to perform the Transaction Obligations and to otherwise consummate the Transaction, such actions not to be materially inconsistent with the terms of the Draft Concession Agreement, with such Authorized Officer’s taking of such action to be conclusive evidence of such approval and determination of the necessity, advisability or appropriateness thereof; and

BE IT FURTHER RESOLVED, That all actions previously taken by any Authorized Officer or employee of the University, by or on behalf of the University in connection with the Transaction be, and each of the same hereby is, adopted, ratified, confirmed and approved in all respects; and

BE IT FURTHER RESOLVED, That it is found and determined that all formal actions of this Board concerning and relating to the adoption of this resolution were adopted in an open meeting of this Board, and that all deliberations of this Board and of any of its committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code; and

BE IT FURTHER RESOLVED, That this resolution shall take effect and be in force immediately upon its adoption.

(See Appendix XLIV for background information, page 1080.)

Mr. Schottenstein:

Thank you. We now go to the consent agenda which is before the Board. I would now like to call on our President to present it.
June 22, 2012 meeting, Board of Trustees

***

CONSENT AGENDA

President Gee:

Thank you, Mr. Chairman. Today we have a total of 29 resolutions on the consent agenda. As was mentioned in the Academic Affairs and Student Life Committee report, there is a small change in one of the rules of the University faculty appended to resolution number nine. You will also have an amended copy of resolution number 18 as was mentioned in the Medical Affairs Committee report; therefore we are seeking approval for the following:

DEGREES AND CERTIFICATES

Resolution No. 2012-103

Synopsis: Approval of Degrees and Certificates for summer semester is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on August 12, 2012, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

***

DISTINGUISHED SERVICE AWARD

Resolution No. 2012-104

Synopsis: Approval of an additional 2012 Distinguished Service Award is proposed.

WHEREAS the Senior Management Council, upon the recommendation of the Committee on Distinguished Service Awards, nominated and recommended the following additional candidate for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:

Jon R. Woods

WHEREAS the committee has recommended that an exception be made to the Board’s requirement that nominees have been retired from the University for a full-year prior to awarding due to Dr. Woods exceptional service; and

WHEREAS this award is given in recognition of distinguished service to The Ohio State University and special exception is recommended to the action taken by the Board of Trustees in 1952:

NOW THEREFORE

BE IT RESOLVED, That the 2012 Distinguished Service Award be approved for awarding as designated above.

***
NAMING OF THE NORTH COURTYARD OF PARK-STRADLEY HALL  
Resolution 2012-105

The Ronald A. Ratner Plaza

Synopsis: The naming of The Ronald A. Ratner Plaza in the North Courtyard of the Park-Stradley Residence Hall, located at 120 West 11th Columbus, Ohio, 43201 on the Columbus campus. The newly renovated eleven story residence hall features a Hall Desk that is staffed 24 hours per day, recreational/gaming equipment in public spaces, study/lounge space on every floor, kitchen and laundry facilities, indoor bicycle storage, and loftable beds.

WHEREAS Ronald A. Ratner played an instrumental role in the design of Park-Stradley Hall and advocated for spaces to bring people together including an outdoor gathering place; and

WHEREAS his role in creating thoughtful building designs for The Ohio State University has been instrumental in advancing the concept of community on campus; and

WHEREAS Ronald A. Ratner has spent a career creating great gathering places around the country; and

WHEREAS the Ratner family has provided contributions to The Ohio State University’s Office of Student Life to support the Extraordinary Student Experience:

NOW THEREFORE

BE IT RESOLVED, That, on the occasion of his birthday, in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned North Courtyard of Park-Stradley Residence Hall be named The Ronald A. Ratner Plaza.

***

NAMING OF THE RADIOLOGY WAITING ROOM  
Resolution 2012-106

In the Stefanie Spielman Comprehensive Breast Center, the OSUCCC, James:  
The Daimler Foundation Radiology Waiting Room

Synopsis: The naming of the Radiology Waiting Room in the Stefanie Spielman Comprehensive Breast Center, located at 739 West Third Avenue on the Gowdy Field Development campus; that is the only comprehensive breast center of its kind in the Midwest.

WHEREAS the Stefanie Spielman Comprehensive Breast Center is part of the Wexner Medical Center Expansion campaign; and

WHEREAS Daimler and their building and construction teams have provided contributions to the Wexner Medical Center Expansion for the expansion of Ohio State’s Comprehensive Cancer Center, James Cancer Hospital and Solove Research Institute; and

WHEREAS Daimler and their building and construction teams have provided significant contributions to the OSUCCC, James:

NOW THEREFORE
BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Radiology Waiting Room in the Stefanie Spielman Comprehensive Breast Center be named The Daimler Foundation Radiology Waiting Room.

***

NAMING OF THE CONFERENCE ROOM
Resolution No. 2012-107

In the Stefanie Spielman Comprehensive Breast Center,
the OSUCCC, James:
The Daimler Foundation Conference Room

Synopsis: The naming of the Conference Room in the Stefanie Spielman Comprehensive Breast Center, located at 739 West Third Avenue on the Gowdy Field Development campus; that is the only comprehensive breast center of its kind in the Midwest.

WHEREAS the Stefanie Spielman Comprehensive Breast Center is part of the Wexner Medical Center Expansion campaign; and

WHEREAS Daimler have provided contributions to the Wexner Medical Center Expansion for the expansion of Ohio State's Comprehensive Cancer Center, James Cancer Hospital and Solove Research Institute; and

WHEREAS Daimler have provided significant contributions to the OSUCCC, James:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Conference Room in the Stefanie Spielman Comprehensive Breast Center be named The Daimler Foundation Conference Room.

***

PERSONNEL ACTIONS
Resolution No. 2012-108

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the April 6, 2012, meeting of the Board, including the following Appointments, Reappointments, Appointments of Chairpersons, Professional Improvement Leaves, Professional Improvement Leave, Change in Dates, and Emeritus Titles be approved.

June 22, 2012 meeting, Board of Trustees

LORA G. DOBOS, School of Music, with the title Associate Professor Emeritus, effective July 1, 2012.

RICHARD H. FERTEL, Department of Pharmacology, with the title Associate Professor Emeritus, effective July 1, 2012.

JERE L. FORSYTHE, School of Music, with the title Associate Professor Emeritus, effective July 1, 2012.

HEIKE S. GOELLER, Department of Design, with the title Associate Professor Emeritus, effective July 1, 2012.

LINDA S. GRAY, Department of Internal Medicine, with the title Associate Professor Emeritus, effective July 1, 2012.

BHAGWANDAS GUPTA, Department of Anesthesiology, with the title Associate Professor Emeritus, effective July 1, 2012.

WAYNE A. JOHNSON, Department of Consumer Sciences, with the title Associate Professor Emeritus, effective July 1, 2012.

DAVID O. KELCH, Ohio State University Extension, with the title Associate Professor Emeritus, effective July 1, 2012.

ALBERT J. KOLIBASH, Department of Internal Medicine, with the title Associate Professor Emeritus, effective July 1, 2012.

EDNA M. MENKE, College of Nursing, with the title Associate Professor Emeritus, effective July 1, 2012.

JOHN O. OLSEN, Department of Radiology, with the title Associate Professor Emeritus, effective July 1, 2012.

VINOD V. SHARMA, Department of Economics (Mansfield), with the title Associate Professor Emeritus, effective July 1, 2012.

GOPI A. TEJWANI, Department of Pharmacology, with the title Associate Professor Emeritus, effective July 1, 2012.

JAMES E. TEW, Department of Entomology, with the title Associate Professor Emeritus, effective July 1, 2012.

PAL L. VAGHY, Department of Molecular and Cellular Biochemistry, with the title Associate Professor Emeritus, effective July 1, 2012.

FRED A. ROECKER, University Libraries, with the title Assistant Professor Emeritus, effective July 1, 2012.

Promotions, Tenure, and Reappointments

COLLEGE OF THE ARTS AND SCIENCES
DIVISION OF ARTS AND HUMANITIES

PROMOTION TO PROFESSOR
Allen, Chadwick, English, effective September 1, 2012
Gardner, Jared, English, effective September 1, 2012
Noyes, Dorothy, English, effective September 1, 2012
Palazzi, Maria, Design, effective September 1, 2012
Park-Miller, Chan, East Asian Languages & Literature, effective September 1, 2012
June 22, 2012 meeting, Board of Trustees

Rinaldo, Kenneth, Art, effective September 1, 2012
Stebenne, David, History, effective September 1, 2012
Steigerwald, David, History, Marion, effective September 1, 2012
Torrance, Richard, East Asian Languages & Literature, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Braun, Catherine, English, Marion, effective September 1, 2012
Buzzov, Snjezana, Near Eastern Languages & Cultures, effective September 1, 2012
Clopper, Cynthia, Linguistics, effective September 1, 2012
Crochetta, Alison, Art, effective September 1, 2012
Delagrange, Susan, English, Mansfield, effective September 1, 2012
Dragostinova, Theodora, History, effective September 1, 2012
Fernandez, Lilia, History, effective September 1, 2012
Fletcher, Richard, Greek and Latin, effective September 1, 2012
Friedman, Ryan, English, effective September 1, 2012
Fudge, Bruce, Near Eastern Languages & Cultures, effective September 1, 2012
Hutzel, Karen, Art Education, effective September 1, 2012
Isurin, Ludmila, Slavic and East European Languages & Literatures, effective September 1, 2012
Kaplan, Merrill, English, effective September 1, 2012
Kleinbub, Christian, History of Art, effective September 1, 2012
Kobo, Ousman, History, effective September 1, 2012
Liu, Morgan, Near Eastern Languages & Cultures, effective September 1, 2012
O'Sullivan, Sean, English, effective September 1, 2012
Pyun, Danielle, East Asian Languages & Literature, effective September 1, 2012
Romero, Eugenia, Spanish & Portuguese, effective September 1, 2012
Sessa, Kristina, History, effective September 1, 2012
Shea, Louisa, Comparative Studies, effective September 1, 2012
Silver, Suzanne, Art, effective September 1, 2012
Smooth, Wendy, Women's, Gender and Sexuality Studies, effective September 1, 2012
Sumner, Margaret, History, Marion, effective September 1, 2012
Tonhauser, Judith, Linguistics, effective September 1, 2012
Williams, Andrea, English, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITHOUT TENURE
Smithies, Declan, Philosophy, effective September 1, 2012
[tenure will be granted once Permanent Residence is achieved]

DIVISION OF NATURAL AND MATHEMATICAL SCIENCES

PROMOTION TO PROFESSOR
Chamberlin, Helen, Molecular Genetics, effective September 1, 2012
Chmutov, Sergei, Mathematics, Mansfield, effective September 1, 2012
Freudenstein, John, Evolution, Ecology and Organismal Biology, effective September 1, 2012
Kovchegov, Yuri, Physics, effective September 1, 2012
Lang, Jan, Mathematics, Marion, effective September 1, 2012
Suo, Zucai, Biochemistry Administration, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Alber, Birgit, Microbiology Administration, effective September 1, 2012,
Bong, Dennis, Chemistry, effective September 1, 2012
Costa Jr., Ozeas, Earth Sciences, Mansfield, effective September 1, 2012
Gupta, Jay, Physics, effective September 1, 2012
Howat, Ian, Earth Sciences, effective September 1, 2012
Johnston-Halperin, Ezekiel, Physics, effective September 1, 2012
Kaizar, Eloeise, Statistics, effective September 1, 2012
Lafont, Jean-francois, Mathematics, effective September 1, 2012
Ottesen, Jennifer, Biochemistry Administration, effective September 1, 2012
June 22, 2012 meeting, Board of Trustees

Poirier, Michael, Physics, effective September 1, 2012
Rappleye, Chad, Microbiology Administration, effective September 1, 2012
Tseng, Hsian-Hua, Mathematics, effective September 1, 2012
Wu, Damin, Mathematics, Newark, effective September 1, 2012
Xu, Xinyi, Statistics, effective September 1, 2012

DIVISION OF SOCIAL & BEHAVIORAL SCIENCES

PROMOTION TO PROFESSOR
Cohen, Jeffrey, Anthropology, effective September 1, 2012
Gremillion, Kristen, Anthropology, effective September 1, 2012
Hopf, Theodore, Political Science, effective September 1, 2012
Knobloch-Westerwick, Siliva, Communication, effective September 1, 2012
McCorriston, Joy, Anthropology, effective September 1, 2012

PROMOTION TO PROFESSOR WITH TENURE
Peters, Ellen, Psychology, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Coleman, Mathew, Geography, effective September 1, 2012
Dwyer, Rachel, Sociology, effective September 1, 2012
Fujita, Kentaro, Psychology, effective September 1, 2012
Hupp, Julie, Psychology, Newark, effective September 1, 2012
Kuhns, Lisa Libby, Psychology, effective September 1, 2012
Liu, Desheng, Geography, effective September 1, 2012
Mitzen, Jennifer, Political Science, effective September 1, 2012
Neblo, Michael, Political Science, effective September 1, 2012
Petrov, Alexander, Psychology, effective September 1, 2012
Piperata, Barbara, Anthropology, effective September 1, 2012
Thomas, Mary, Geography, effective September 1, 2012

COLLEGE OF DENTISTRY

PROMOTION TO PROFESSOR
Leys, Eugene, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Azer, Shereen, effective September 1, 2012
Drum, Melissa, effective September 1, 2012
Kumar, Purnima, effective September 1, 2012
Thikkurissy, Sarath, effective September 1, 2012

COLLEGE OF DENTISTRY
REGULAR CLINICAL

REAPPOINTMENT
Amini, Homa, effective September 1, 2013
Iannucci, Joen, effective September 1, 2013
Kalmar, John, effective September 1, 2013
Prior, Simon, effective September 1, 2013
Sharples II, Dale, effective September 1, 2013
Villarroel, Soraya, effective September 1, 2013

COLLEGE OF EDUCATION AND HUMAN ECOLOGY

PROMOTION TO PROFESSOR
Enciso, Patricia, School of Teaching & Learning, effective September 1, 2012
Haury, David, School of Teaching & Learning, effective September 1, 2012
June 22, 2012 meeting, Board of Trustees

Hodge, Samuel, School of Physical Activity & Educational Services, effective September 1, 2012
Rudd, Nancy, Consumer Sciences, effective September 1, 2012
Stoel, Leslie, Consumer Sciences, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Focht, Brian, School of Physical Activity & Educational Services, effective September 1, 2012
Herner-Patnode, Leah, School of Physical Activity & Educational Services, Lima, effective September 1, 2012
Hessler, Theresa, School of Physical Activity & Educational Services, Newark, effective September 1, 2012
Li, Weidong, School of Physical Activity & Educational Services, effective September 1, 2012
Parsons, Linda, School of Teaching & Learning, Marion, effective September 1, 2012
Suspitsyna, Tatiana, School of Educational Policy & Leadership, effective September 1, 2012
Sutherland, Susan, School of Physical Activity & Educational Services, effective September 1, 2012

COLLEGE OF ENGINEERING

PROMOTION TO PROFESSOR
Babu, Sudarsanam, Materials Science and Engineering, effective September 1, 2012
Graf, Douglas, Knowlton School of Architecture, effective September 1, 2012
Machiraju, Raghu, Computer Science and Engineering, effective September 1, 2012
Palmer, Andre, Chemical and Biomolecular Engineering, effective September 1, 2012
Shen, Han-Wei, Computer Science and Engineering, effective September 1, 2012
Yi, Allen, Integrated Systems Engineering, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Kucukyavuz, Simage, Integrated Systems Engineering, effective September 1, 2012
Liu, Jun, Biomedical Engineering, effective September 1, 2012
McNamara, Jack, Aerospace Engineering, effective September 1, 2012
Yilmaz, Alper, Civil and Environmental Engineering and Geodetic Science, effective September 1, 2012
Zhao, Yi, Biomedical Engineering, effective September 1, 2012

TENURE [AT THE CURRENT RANK OF ASSOCIATE PROFESSOR]
Xia, Cathy, Integrated Systems Engineering, effective September 1, 2012

MAX M. FISHER COLLEGE OF BUSINESS

PROMOTION TO PROFESSOR
Makhija, Mona, Management and Human Resources, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Zach, Tzachi, Accounting and MIS, effective September 1, 2012

COLLEGE OF FOOD, AGRICULTURAL & ENVIRONMENTAL SCIENCES

PROMOTION TO PROFESSOR
Barker, David, Horticulture and Crop Science, effective September 1, 2012
Davis, Gregory, OSUE County Operations, effective September 1, 2012
Horton, Robert, OSUE County Operations, effective September 1, 2012
McSpadden Gardner, Brian, Plant Pathology, effective September 1, 2012
Scheerens, Joseph, Horticulture and Crop Science, effective September 1, 2012
Sharp, Jeff, Environment and Natural Resources, effective September 1, 2012
Vodovoz, Yael, Food Science & Technology, effective September 1, 2012
June 22, 2012 meeting, Board of Trustees

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Gerber, Carri A., ATI- Administrative Support, effective September 1, 2012
Giusti, M Monica, Food Science & Technology, effective September 1, 2012
Hansen, Nels, ATI- Administrative Support, effective September 1, 2012
Janini, Thomas, ATI- Administrative Support, effective September 1, 2012
Li, Yebo, Food, Agricultural, and Biological Engineering, effective September 1, 2012
Mitchell, Thomas, Plant Pathology, effective September 1, 2012
Paul, Pierce, Plant Pathology, effective September 1, 2012
Rhoades, Emily, Human and Community Resource Development, effective September 1, 2012
Yu, Zhongtang, Animal Sciences, effective September 1, 2012
Zoller, Christopher, OSUE County Operations, effective September 1, 2012

COLLEGE OF LAW

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Carlarne, Cinnamon, Law, effective September 1, 2012
Hoffer, Stephanie, Law, effective September 1, 2012

PROMOTION TO PROFESSOR
Jenkins, Garry, Law, effective September 1, 2012

COLLEGE OF MEDICINE

PROMOTION TO PROFESSOR
Beattie, Christine, Neuroscience, effective September 1, 2012
Catalyurek, Umit, Biomedical Informatics, effective September 1, 2012
Guttridge, Denis, Molecular Virology, Immunology and Medical Genetics, effective September 1, 2012
Parthun, Mark, Molecular and Cellular Biochemistry, effective September 1, 2012
Stevenson, Kurt, Internal Medicine, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE
Abaza, Ronney, Urology, effective September 1, 2012
Amer, Amal, Microbial Infection and Immunity, effective September 1, 2012
Baiocchi, Robert, Internal Medicine, effective September 1, 2012
Caterino, Jeffrey, Emergency Medicine, effective September 1, 2012
Chicoine, Louis, Pediatrics, effective September 1, 2012
Chisolm, Deena, Pediatrics, effective September 1, 2012
Davis, Jonathan, Physiology & Cell Biology, effective September 1, 2012
Elsayed-Awad, Hamdy, Anesthesiology, effective September 1, 2012
Godbout, Jonathan, Neuroscience, effective September 1, 2012
Hall, Mark, Pediatrics, effective September 1, 2012
Mackner, Laura, Pediatrics, effective September 1, 2012
Rogers, Lynette, Pediatrics, effective September 1, 2012
Wold, Loren, Pediatrics, effective September 1, 2012

PROMOTION TO ASSOCIATE PROFESSOR WITHOUT TENURE
Mikami, Dean, Surgery, effective September 1, 2012
Prevedello, Daniel, Neurological Surgery, effective September 1, 2012

TENURE [AT THE CURRENT RANK OF ASSOCIATE PROFESSOR]
Ellis, Thomas, Orthopaedics, effective September 1, 2012
Liu, Zhengu, Internal Medicine, effective September 1, 2012
Nana-Sinkam, Serge, Internal Medicine, effective September 1, 2012
Pan, Quintin, Otolaryngology, effective September 1, 2012
June 22, 2012 meeting, Board of Trustees

COLLEGE OF MEDICINE
REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL AND REAPPOINTMENT
Bechtel, Mark, Internal Medicine, effective September 1, 2012 and September 1, 2013
Bravender, Terrill, Pediatrics, effective September 1, 2012 and September 1, 2013
Gastier-Foster, Julie, Pathology, effective September 1, 2012 and September 1, 2013
O’Brien, James, Internal Medicine, effective September 1, 2012 and September 1, 2013
Pesavento, Todd, Internal Medicine, effective September 1, 2012 and September 1, 2013
Weisleder, Pedro, Pediatrics, effective September 1, 2012 and September 1, 2013

REAPPOINTMENT
Allen Jr., James Norman, Internal Medicine, effective September 1, 2013
Ardoin, Stacy Payne, Internal Medicine, effective September 1, 2013
Arnold, Mark William, Surgery, effective September 1, 2013
Awan, Hisham, Orthopaedics, effective September 1, 2013
Balada-Llasat, Joan-Miquel, Pathology, effective September 1, 2013
Baliga, Ragavendra, Internal Medicine, effective September 1, 2013
Barson, William Joseph, Pediatrics, effective September 1, 2013
Bartholomew, Deborah A, Obstetrics & Gynecology, effective September 1, 2013

RESOLUTIONS IN MEMORIAM

Resolution No. 2012-109

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees approves the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.
June 22, 2012 meeting, Board of Trustees

Jane W. Gatliff

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 30, 2011 of Jane Wanda Gatliff, Assistant Professor Emeritus in the University Libraries.

Professor Gatliff was born on October 29, 1917 in Chillicothe, Ohio. She received a Bachelor of Science degree in Business Education from Wilberforce University in 1939 and a Master of Library Science degree from Atlanta University (now Clark Atlanta University) in 1953. She was the recipient of a Carnegie Foundation Fellowship in 1952 in support of her graduate studies. She served as a librarian at Spelman College in Atlanta, Georgia during 1953, prior to her appointment in July 1953 by The Ohio State University Libraries, where she served capably for 30 years in various capacities and was awarded emeritus status upon retirement in January 1984.

Dr. Gatliff served as reference librarian at Ohio State University Libraries from 1953 to 1956, when she became head of the Interlibrary Loan Department of the Libraries. She served in this role until 1979 and was acknowledged by her peers as a superb bibliographer. Director of Libraries William J. Studer wrote that Professor Gatliff earned great respect from our many faculty members for her bibliographic expertise and her ability to identify and obtain important but obscure research materials. From 1979 until her retirement in 1984, Professor Gatliff filled key public service roles as reference librarian in the Commerce Library and as Acting Head of the Black Studies Library. Jay Ladd, Assistant Director for Department Libraries, commended Professor Gatliff’s wonderful public service attitude of being enthusiastic, thorough, and cheerful. After her retirement, Professor Gatliff continued to make important bibliographic contributions to the Libraries with a 25% appointment in the Cataloging Department from 1984 to 1987.

Professor Gatliff served her profession as a member of the American Library Association’s Interlibrary Loan Committee and through her research activities. An article she co-authored, “Interlibrary Loan Policies on Dissertations and Serial Publications,” was published in May 1964 in a prestigious professional journal, College and Research Libraries, and helped to guide other academic libraries as they set or revised loan policies. She also served her local community as a volunteer at the East High School After School Study Center, Columbus, Ohio.

On behalf of the University community, the Board of Trustees expresses to the family of Assistant Professor Jane W. Gatliff its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board’s heartfelt sympathy.

Albert J. Kuhn

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 26, 2012, of Albert J. Kuhn, Professor Emeritus of English and former Provost of the University.

Professor Kuhn earned his undergraduate degree in English from the University of Illinois in 1950, following his service in the South Pacific as a radioman in the US Navy during World War II. He received his Ph.D. in 1954 from the Johns Hopkins University, where he studied with Professor Earl Wasserman. He joined the faculty at The Ohio State University in 1954, attaining the rank of full professor in 1965. Professor Kuhn chaired the Department of English from 1964 to 1971.

Under Presidents Novice Fawcett and Harold Enarson, Professor Kuhn served as Vice President for Academic Affairs and Provost from 1971 to 1979. As the academic leader of the University, Professor Kuhn focused steadfastly upon excellence in scholarship,
teaching, and service through a period of great turmoil. After returning to the faculty for a number of years, Professor Kuhn took on yet another administrative position, serving as Director of University Honors from 1985 to 1989. In this capacity he was able to return to what mattered most to him in the academy: a love of ideas, books, and students. In recognition of his exceptional leadership and service, Honors House was named in his honor.

Professor Kuhn published articles in *The Journal of the History of Ideas, PMLA, Modern Philology, and Modern Language Notes*, among others, on Romanticism and eighteenth-century intellectual history. He edited *Three Sentimental Novels*, 1970, and with James Kincaid, *Victorian Literature and Society*, 1984, a festschrift for Richard D. Altick. He received the Distinguished Service Award from The Ohio State University in 1991. He was a member of the Region VIII Woodrow Wilson Selection Committee, 1961-1968, and he was a member of the Modern Language Association, Phi Beta Kappa, and Phi Kappa Phi.

Professor Kuhn’s service extended well beyond the University. He was on the research board of Children’s Hospital, 1973-1977, and Battelle Memorial Institute Foundation, 1975-1979. He belonged to the Kit Kat Club, for which he prepared and presented more than a dozen papers, and he participated in the Friday Morning Fellowship organized for campus ministers by The Reverend Robert Russell.

Beyond his own many significant contributions to the enhancement of academic excellence at The Ohio State University, Professor Kuhn was legendary for promoting and advancing the careers of many throughout the University and the profession. His core values thus extended well beyond his own personal reach, and, Professor Kuhn justifiably took great pride in the accomplishments of others.

Professor Kuhn believed deeply in the efficacy of literature. Instruction and delight in the word were real to him; he believed in the ability of literature to console and inspire. He believed in the best values and possibilities of higher education, and his life’s work at The Ohio State University was an example of *Disciplina in civitatem*.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Albert J. Kuhn its deepest sympathy and sense of understanding in their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Charles Dennis Minahen

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 23, 2012, of Charles Dennis Minahen, Associate Professor Emeritus in the Department of French and Italian.

Professor Minahen held a Bachelor of Arts degree in French from the University of California, Berkeley and a Master of Education and Master and Doctorate of French from Stanford University. He came to the Department of Romance Languages (later the Department of French and Italian) at Ohio State as an Assistant Professor only a year after receiving his Ph.D. in 1983, and he earned tenure here in 1990. Professor Minahen specialized in 19th- and 20th-century French prose and poetry with special interests in poetics, aesthetics, critical theory, gender studies, and cultural studies. He published a monograph entitled *Vortex/t: The Poetics of Turbulence*; two edited volumes, one on 20th-century French poetry and another on Jean-Paul Sartre; and over 30 articles and book reviews while here at Ohio State.

Professor Minahen was also a beloved teacher whose substantial repertoire of courses included, among many others, a general education course in English on 19th- and 20th-century French literary classics, an introduction to literary and cultural analysis course for
new majors and minors, an introduction to graduate studies course, and various graduate seminars on the writers and movements about which he was most passionate, such as Baudelaire, Flaubert, Sartre, Char, Ponge, Symbolism, Surrealism, and Existentialism. In addition to his teaching, Professor Minahen advised countless undergraduate and graduate students in his several stints as Honors major advisor and graduate studies chair and adviser. He directed seven dissertations and served on the examination and dissertation committees of dozens more over the years. He was well known and appreciated among students for his conscientious readings of and detailed feedback on their papers, exams, and theses. He was a perfectionist in the best sense of the term and expected his students not to be perfect but to strive for perfection themselves.

Professor Minahen’s service to the department, the University, and the profession was truly exceptional. In 2002 he organized and hosted the prestigious Nineteenth-Century French Studies Colloquium and was involved in that yearly conference in various capacities throughout his career, as member of the steering committee, submission evaluator, session chair, and presenter. He served as a regional delegate to the Modern Language Association Assembly from 1999-2002 and also organized and presented on a number of panels at the annual MLA Convention. He served on the editorial boards of or reviewed manuscripts for several journals and academic presses, among them Romance Studies, the Stanford French Review, Nineteenth-Century French Studies, Parade Sauvage, and the Pennsylvania State University Press.

Here at The Ohio State University, Professor Minahen served two terms as an Arts and Sciences College faculty senator, as an evaluator for several undergraduate research and scholarship competitions, and as chair of the Arts and Humanities Council of Graduate Chairs. His service accomplishments in the Department of French and Italian are too numerous to list here, but some of his most significant contributions were in the areas of undergraduate and graduate curriculum development, patterns of administration revision, and advising, as noted above.

All who knew Professor Minahen will remember him especially as a dedicated, creative, and kind colleague and teacher who loved literature and who succeeded in passing that love on to others. He will be sorely missed by all.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus Charles Dennis Minahen its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Stephen James Rallis

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 17, 2012, of Professor Stephen James Rallis, Department of Mathematics.

Professor Stephen James Rallis was born on May 17, 1942, in Bennington, Vermont. He earned his B.A. from Harvard in 1964, and received his doctorate in mathematics from the Massachusetts Institute of Technology in 1968. After several postdoctoral positions, including two years at the Institute for Advanced Study in Princeton, he came to Ohio State as an assistant professor of mathematics in 1977. He was promoted to associate professor in 1979 and to full professor in 1984. He became Professor Emeritus upon his retirement in 2007.

He was an internationally recognized expert in the theory of automorphic forms, an important discipline to which he made many lasting contributions, publishing over 90 papers and four research monographs on the subject. Several fundamental constructions in the theory of automorphic forms are named after him: the Rallis inner product formula, Rallis towers, and the Piatetski-Shapiro & Rallis doubling method. He was an invited
June 22, 2012 meeting, Board of Trustees

speaker at the International Congress of Mathematicians in Kyoto in 1990, and gave the Schur Lectures at Tel Aviv University in 2001. He was an associate editor of the Journal of Number Theory for many years. Throughout his time at Ohio State, he was an influential member of the Mathematics Department, and was an outstanding mentor to a long series of postdocs in mathematics, many of whom are now well-known and well-respected mathematicians. A conference was held at Ohio State in 2003 in honor of his 60th birthday.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Stephen James Rallis its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Harold Schneiderman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 25, 2012, of Harold “Hal” Schneiderman, Associate Professor Emeritus in the College of Social Work.

After graduating high school at age 16, Professor Schneiderman earned several degrees, including his Bachelor’s degree from New York University and a Master’s degree in social work from Wayne State University. He also earned a Ph.D. in education from Ohio University. When he was 60, he went to law school and received his law degree from Capital University.

Professor Schneiderman was a World War II veteran of the Army Air Corps. He also worked in Jewish community organizations in Detroit, Michigan; Portland, Maine; Waterbury, Connecticut; Los Angeles and Sacramento, California before joining the College of Social Work faculty in 1964.

Professor Schneiderman taught primarily social policy and he produced a generation of students who were committed to social justice and advocacy on behalf of the disenfranchised. He was known for having very high expectations for his students, both in his classroom, and as social work practitioners.

Professor Schneiderman retired from Ohio State in 1986, after which he practiced law as a youth advocate and as a guardian for seniors. Throughout his career and in retirement he was involved in many causes, including women’s issues, animal rights, disenfranchised communities, child advocacy, justice, democratic politics, and the arts.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Harold Schneiderman its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s sympathy.

Susan Jones Sears

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 28, 2012, of Susan Jones Sears, Associate Professor Emeritus in the School of Physical Activity and Educational Services in the College of Education and Human Ecology.

She has a long history with the university having received her Bachelor's degree in education and a Ph.D. in teaching and learning, educational foundations and research. Before becoming the first licensed professional clinical counselor in Ohio, Dr. Sears taught social studies and was a counselor in the Columbus, Gahanna, Zanesville, and Maysville
June 22, 2012 meeting, Board of Trustees

She was a professor in counselor education at The Ohio State University for 25 years and an associate dean in the College of Education. Dr. Sears was an education and career consultant who specialized in career counseling, program design, grant writing, and leadership development.

Dr. Sears had a great impact both within and beyond the university. She was instrumental in writing and pushing to get passed the legislation that created the regulation of licensed counselors, clinical counselors, and social workers in Ohio. She served as the first chair of the Ohio Counselor and Social Worker Board, appointed by then Governor Richard Celeste in 1984, and continued as a board member until 1990.

Among her many honors are Ohio State’s Alumni Award for Distinguished Teaching in 1982-83, the Governor’s Special Recognition Award for Leadership in 1986 and the American School Counselor Association’s Counselor Educator of the Year honor in 2003. In 2011, the Ohio Counseling Association honored her with its first-ever Lifetime Achievement Award.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Susan Jones Sears its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

UNIVERSITY FOUNDATION REPORT
Resolution No. 2012-110

Synopsis: The University Foundation Report as of April 30, 2012, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Klotz Chair in Cancer Research #5 in Medicine, The Ted and Lois Cyphert Distinguished Professorship in Teacher Education in the College of Education and Human Ecology, The Bob and Mary Reusché Chair in Geography, and The American Electric Power Foundation Chair in Burn Care in Medicine; the establishment of thirty-five (35) named endowed funds; and the revision of four (4) named endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Foundation as of April 30, 2012, be approved.

(See Appendix XLV for background information, page 1098.)
### Establishment of Named Endowed Chair

#### The Klotz Chair in Cancer Research #5

(Is being established June 22, 2012, with a transfer from The Klotz Chair in Cancer Research #1 established with estate gifts from Marion N. Rowley in honor of Dorothy E. Klotz; used to provide salary support for a chair position in the field of cancer research within the College of Medicine.)

| Total Gifts | $3,286,441.27 |

### Establishment of Named Endowed Professorship

#### The Ted and Lois Cyphert Distinguished Professorship in Teacher Education

(Established February 4, 1994, with gifts from Frederick R. "Ted" and Lois Cyphert; used to support the research, teaching, and management activities of a distinguished professor in the field of general/generic teacher education in the College of Education and Human Ecology. Description revised October 4, 2002. The required funding level was reached and the name and description are being revised June 22, 2012.) (grandfathered)

| Total Gifts | $611,484.95 |

### Establishment of Named Endowed Funds

#### The Physical Environment and Technology Enhancement Fund

(Is being established June 22, 2012, with support from Huntington National Bank; used for classroom capital improvements in both technology and physical space.) (Not gift money)

| Total Gifts | $10,000,000.00 |

#### The Reva and Sanford Lipson Student Support Fund

(Is being established June 22, 2012, with gifts from Reva and Sanford Lipson; used to support students studying or researching the history and culture of the Jewish people.)

| Total Gifts | $50,000.00 |

#### Pfeiffer, Miller and Saunway Family 4-H Scholarship Fund

(Is being established June 22, 2012, with gifts from Dr. Jeffrey P. Miller and Dr. Kathy Durham Miller; used to provide at least one undergraduate scholarship to a current or former 4-H member who has demonstrated excellence in community service, leadership, and public speaking.) (grandfathered)

| Total Gifts | $30,436.71 |

### Change in Description of Named Endowed Fund

From: Richards Farms Scholarship in Agricultural Economics and Rural Sociology
To: Richards Farms Scholarship Fund

### Change in Name and Description of Named Endowed Fund

From: The Dunning, Higham, Mucil and Sprock Fund in Industrial & Systems Engineering
To: The William A. Dunning, Bruce E. Higham, Anthony J. Musil, and Albert F. Sprock Fund in Industrial & Systems Engineering

### Establishment of Named Endowed Chair

---

977
June 22, 2012 meeting, Board of Trustees

The Bob and Mary Reusché Chair in Geography
(Established April 4, 2008, with gifts from Robert F. and Mary W. Reusché; used to provide a chair in the Department of Geography in the College of Arts and Sciences. The required funding level was reached and the name and description are being revised June 22, 2012.)

$2,056,477.46

The American Electric Power Foundation Chair in Burn Care
(Established June 24, 2011, with gifts from American Electric Power Foundation; used for a chair position supporting a nationally or internationally recognized physician faculty member in the Division of Trauma, Critical Care and Burn in the Department of Surgery in the College of Medicine. The required funding level was reached and the name and description are being revised June 22, 2012.)

$2,000,000.00

Establishment of Named Endowed Funds

The Jane F. Rector Occupational Therapy Fellowship Fund
(Is being established June 22, 2012, with gifts from Jane Foulser Rector; used to support financial aid, tuition assistance, and stipends for students enrolled in the dual degree Master of Occupational Therapy program in the Health Rehabilitation Sciences track.)

$1,500,000.00

The William O. Cleverley Scholarship Fund
(Is being established June 22, 2012, with gifts from friends, colleagues, and alumni in recognition of William’s career; used to provide scholarships to students enrolled in the College of Public Health who are studying in the Health Services Management and Policy division based on either academic merit or financial need.)

$229,639.12

Patricia Kunz Brundige Youth Development Fund
(Is being established June 22, 2012, with gifts from Patricia Kunz Brundige in honor of Dr. Bobby Moser’s lifetime commitment to OSU Extension and 4-H Youth Development; used to support seed grants for research in positive youth development through OSU Extension.)

$202,370.50

The Lisa and Dan Wampler Endowed Fellowship Fund for Foods and Health Research
(Is being established June 22, 2012, with gifts from Daniel J. Wampler and Lisa M. Wampler; used to support a fellowship in the Department of Food Science and Technology for students pursuing a graduate degree with research emphasis on development of novel functional foods and food components for the betterment of human health or on emerging research that positively impacts human health through food delivery.)

$160,000.00

The Earl and Betty Hawkins Endowed Scholarship Fund
(Is being established June 22, 2012, with a gift from Earl Hawkins; used to support scholarships for students enrolled at the College of Food, Agricultural, and Environmental Sciences’ Agricultural Technical Institute with preference given students who are the first generation in their immediate families to attend college.)

$150,000.00
June 22, 2012 meeting, Board of Trustees

The Blackmore Family Food Science and Technology Scholarship Fund
(Is being established June 22, 2012, with a gift from Raymond H. Blackmore and Margaret Webb Blackmore; used to support renewable scholarships in the Department of Food Science and Technology in the College of Food, Agricultural, and Environmental Sciences with preference given to students who have graduated from Perry High School in Perry, Ohio.)

$112,372.19

The Jim and Nancy Wasserstrom Family Athletic Scholarship Fund
(Is being established June 22, 2012, with gifts from Jim and Nancy Wasserstrom; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the men’s ice hockey team with preference given to students who are studying in the health/allied medical professions.)

$100,015.00

The Jesse J. Tyson MBA Scholarship Fund
(Is being established June 22, 2012, with gifts from Jesse J. Tyson in honor of Dr. Frank W. Hale, Jr.; used to provide a scholarship to a student enrolled in the Max M. Fisher College of Business with particular attention to, but not limited to, African Americans or other underrepresented groups.)

$80,736.80

The Diane Cummins Community Education Fund in Jewish Studies
(Is being established June 22, 2012, with gifts from Millard M. Cummins; used to support educational programming that broadens the public’s knowledge of Jews, Israel, and Jewish History and to help educate the community on important topics related to Judaism.)

$80,206.00

The Mary Diaz Fund for Pancreatic Cancer Research
(Is being established June 22, 2012, with gifts from The Mary Diaz Pancreatic Cancer Fund; used to support basic, clinical, and translational medical research on pancreatic cancer.)

$60,100.00

The Judy and Dean Reinhard Wrestling Scholarship Fund
(Is being established June 22, 2012, with gifts from Judy and Dean Reinhard; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity wrestling team.)

$60,000.00

The Dr. James W. Haynes and Mrs. M. Teresa Haynes Scholarship Fund in Medicine
(Is being established June 22, 2012, with gifts from Mrs. M. Teresa Haynes in memory of her husband Dr. James W. Haynes; used to provide annual scholarships to medical students with an interest in the field of Pathology who rank academically in the top 25% of their College of Medicine class.)

$55,342.47

Thomas P. Nash Memorial Scholarship Fund
(Is being established June 22, 2012, with gifts from Cheryl R. Nash; used to provide financial aid to a student/s admitted to the College of Engineering attending the Columbus Campus who graduated from a non-Ohio high school who have a grade point average of 2.5 or higher.)

$50,500.00

979
John O. Riedl Scholarship Fund
(Is being established June 22, 2012, with a gift from John and Mary Riedl; used to provide scholarships for students beginning at The Ohio State University at Mansfield to pursue a degree in physical science, mathematics, or engineering.) $50,500.00

The William E. and Gail P. Loadman Scholarship Fund
(Is being established June 22, 2012, with gifts from William E. Loadman; used to provide financial support to doctoral students in qualitative research evaluation and measurement in Education in the College of Education and Human Ecology.) $50,345.00

Ohio State Mansfield Board Leadership Scholarship Fund
(Is being established June 22, 2012, with an initial gift from Christ J. Ticoras and additional gifts from current and past members of the Ohio State Mansfield Board; used for scholarships to continuing undergraduate and graduate students of The Ohio State University at Mansfield based on campus and community service.) $50,325.33

The Marlena Kay Richards-Cox Endowed Scholarship Fund
(Is being established June 22, 2012, with gifts from John Cox in memory of his wife Marlena Kay Richards-Cox; used to provide scholarship support for an undergraduate or graduate student in the College of Social Work who intends to pursue a career in the area of gerontological social work.) $50,050.00

The Neva Farbizo Greenwald and Nancy Greenwald Pfeifer Physical Therapy Faculty Fund
(Is being established June 22, 2012, with gifts from Neva Elizabeth Farbizo Greenwald and Nancy Greenwald Pfeifer; used for student education and the enhancement of client and patient services in the Division of Physical Therapy.) $50,012.79

The Steven Heath and Sarah Shireen Eddleblute Endowed Scholarship Fund
(Is being established June 22, 2012, with gifts from Steven Heath Eddleblute and Sarah Shireen Eddleblute; used to provide a scholarship to a student enrolled in one of the degree-seeking programs at the John Glenn School of Public Affairs for students who demonstrate financial need and outstanding leadership skills both inside and outside the classroom.) $50,000.00

The Schneier Family Undergraduate Scholarship Fund
(Is being established June 22, 2012, with gifts from Lance W. Schneier and Craig E. Schneier; used to provide scholarships for undergraduate students enrolled in the Max M. Fisher College of Business in good academic standing, majoring in finance from Stark County, Ohio or Northeast Ohio.) $50,000.00

The Sandy and Sue Schwartz Family Cheerleading Scholarship Fund
(Is being established June 22, 2012, with gifts from Sandy and Sue Schwartz; used to supplement the grant-in-aid scholarship budget of the cheerleading squad.) $50,000.00
June 22, 2012 meeting, Board of Trustees

Steven and Misty Smathers Endowed Scholarship Fund
(Is being established June 22, 2012, with gifts from Steven E. Smathers; used to provide a need-based scholarship to a student in the Michael E. Moritz College of Law with first preference for a student who is unmarried and has at least one child and secondary preference for a student who is married and has at least one child.)

$50,000.00

The Blanche K. and James H. Stanton Scholarship Fund
(Is being established June 22, 2012, with a gift from the estate of Blanche Kelly Stanton in honor of her husband James Herbert Stanton; used to support scholarships for students in the College of Food, Agricultural, and Environmental Sciences.)

$50,000.00

The Olivia (Doreen) Rogers Storm Endowed Fund
(Is being established June 22, 2012, with gifts from Rick Delaney and Carol Greco Delaney; used to support the efforts of the College of Social Work within the summer youth camp, LiFE Sports.)

$50,000.00

The Buckeye Opportunity Scholarship Fund
(Is being established June 22, 2012, with gifts from David M. DiStefano; used to support educational diversity by providing one or more need-based scholarships for undergraduate students with preference given to students from rural America and particular attention to, but not limited to students who have served in the military or whose parent or guardian is serving in the military and/or students who have been adversely affected by a natural disaster or national emergency.) (grandfathered)

$27,795.00

The Ohio State University Extension Master Gardener Endowment Fund
(Is being established June 22, 2012, with gifts from colleagues and friends of the Ohio Master Gardener Program; used to support the Ohio Master Gardener Program in the College of Food, Agricultural, and Environmental Sciences.) (grandfathered)

$25,260.00

Professor Patrick McKenry Memorial Fund
(Is being established June 22, 2012, with gifts from friends, family, and colleagues to honor the memory of Professor Patrick McKenry; used to support and enhance the research agenda for one or more graduate students who are enrolled in the College of Education and Human Ecology and majoring in Family Science.) (grandfathered)

$25,290.00

The Veterinary Medicine Class of 2013 Unrestricted Endowment Fund
(Is being established June 22, 2012, with gifts from the Veterinary Medicine Class of 2013; used at the discretion of the dean of the College of Veterinary Medicine.) (unrestricted)

$25,000.00

The Central Ohio Associated General Contractors Construction System Fund
(Is being established June 22, 2012, with gifts from Central Ohio Associated General Contractors; used to provide one or more scholarships to undergraduate students ranked sophomore or higher who are enrolled in the College of Food, Agricultural, and Environmental Sciences and majoring in Construction Systems Management with an interest in commercial construction.) (grandfathered)

$25,000.00
June 22, 2012 meeting, Board of Trustees

The Dr. Robert C. and Carole T. Hummel Veterinary Medicine Business Scholarship Fund
(Is being established June 22, 2012, with gifts from Dr. Robert C. and Carole T. Hummel; used to provide a scholarship to Veterinary Medicine students enrolled in the Business of Science Healthcare Curriculum graduate minor program.) (grandfathered) $25,000.00

The Donna Redman-Bentley Unrestricted Endowed Fund
(Is being established June 22, 2012, with gifts from Donna Redman-Bentley; used to for general support of the College of Medicine.) (unrestricted) $25,000.00

Donald R. and Allen R. White Mechanical Engineering Undergraduate Student Professional Enrichment Support Fund
(Is being established June 22, 2012, with gifts from Allen R. White in memory of Donald R. White; used to provide one-time awards to third-year undergraduate students majoring in Mechanical Engineering who are seeking career-related experience for which no other funding is available and that is not related to student honors projects or other course related activities with the exception of student project teams.) (grandfathered) $25,000.00

Change in Description of Named Endowed Fund

The Robert C. Walter Memorial Endowment Fund

Change in Name and Description of Named Endowed Fund

From: The Colonel Bernard E. and Mrs. Mary R. McDaniel Scholarship Fund
To: The Colonel Bernard E. and Mrs. Mary R. McDaniel Opportunity Scholarship Fund

TOTAL $21,630,700.59

Establishment of Named Endowed Chair

The Klotz Chair in Cancer Research #5

The Klotz Chair in Cancer Research #5 was established June 22, 2012, by the Board of Trustees of The Ohio State University with a transfer from The Klotz Chair in Cancer Research #1. The original gifts were from the estate of Marion N. Rowley of Glendale, California; and made in honor of Dorothy E. Klotz (BSBA, 1929) of Glendale, California; and in memory of her sister, Kathleen Wellenreiter Klotz (BSBA 1932) of Glendale, California.

The annual distribution from this fund shall provide salary support for a chair position in the field of cancer research within the College of Medicine (College) and the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). The holder of the The Klotz Chair in Cancer Research #5 shall be a nationally eminent physician faculty member appointed by the Board of Trustees of The Ohio State University as recommended and approved by the chief executive officer of The James, the director of the Comprehensive Cancer Center, the dean of the College, and the senior vice president for Health Sciences. The individual appointed to this position shall be known as The Klotz Memorial Chair in Cancer Research. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

The research activities of the chair holder shall be supported, to include research personnel, equipment, supplies, and other necessary expenses of an active researcher
involved in quality medical research in the field of cancer. In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

If the distribution generated by The Klotz Chair in Cancer Research #5 is no longer needed in the area of cancer research, the distribution shall be used to fund research into the study and cure of diseases affecting the mind of the elderly, including such afflictions as Alzheimer's disease, as recommended by the dean of the College in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek recommendations and approval from the chief executive officer of The James, the director of the Comprehensive Cancer Center, the dean of the College, and the senior vice president for Health Sciences.

Amount Establishing Chair: $3,286,441.27

Establishment of Named Endowed Professorship

The Ted and Lois Cyphert Distinguished Professorship in Teacher Education

The Ted and Lois Cyphert Distinguished Professorship Fund in Teacher Education was established February 4, 1994, by the Board of Trustees of The Ohio State University with gifts from Frederick R. "Ted" and Lois Cyphert, in recognition of their commitment to teacher education; in recognition of Ted Cyphert's years of service on the faculty and as dean of the College of Education. It is meant to maintain the strong tradition fostered by persons like Earl Anderson, L.O. Andrews, Donald Cottrell, Donald Cruickshank, Ted Cyphert, Karl Openshaw, and Nancy Zimpher who have striven at The Ohio State University to prepare generalist teacher educators. The description was revised on October 4, 2002. The required funding level for a professorship was met and the name and description are being revised on June 22, 2012.

Ten percent (10%) of the annual distribution from this fund shall automatically reinvest in the endowment principal each year. The remainder of the annual distribution shall be used to support the research, teaching, and management activities of a distinguished professor in the field of general/generic teacher education in the College of Education and Human Ecology. Generic teacher education is defined as the knowledge, skills, and values needed by all teachers and all teacher educators, as these differ from pedagogical knowledge that is subject-field or age-level specific. The primary duties of the distinguished professor will be directing the studies of doctoral students majoring in generic pre-service and/or in-service teacher education who wish to be generalist teacher educators. Duties will also include oversight of general pedagogy classes for practicing and/or future teachers, supervising field and clinical experiences, and conducting research and publishing in this field.

Appointment to the professorship should be made by the dean of the College of Education and Human Ecology in consultation with faculty. An annual report of the activities of the distinguished professor shall be given to the faculty of the College of Education and Human Ecology.
In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

If generic teacher education should no longer be a part of the curriculum of The Ohio State University, the distribution from this fund will be used to support the faculty member in the College of Education and Human Ecology who most closely personifies the objectives of the donors as delineated above.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, if possible, and the executive dean of the College of Education and Human Ecology.

Amount Establishing Professorship: $611,484.95 (grandfathered)

Establishment of Named Endowed Funds

The Physical Environment and Technology Enhancement Fund

The Physical Environment and Technology Enhancement Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University, with support from Huntington National Bank.

The annual distribution from this fund shall be used exclusively for classroom capital improvements in both technology and physical space to supplement the University’s current funding for operating and capital improvements for centrally supported teaching spaces. Specific uses for the annual distribution may include:

- Renovation of physical environments of large classrooms and lecture halls, improve seating and workspace; expand the seating capacity of lecture halls frequently used for General Education Curriculum courses that typically attract freshman and sophomores.

- Redesign classrooms, offer flexible furnishings for group collaboration and team-based projects and facilitate small groups working on projects while sharing a computer; replace old and worn furniture with new ergonomic furniture to improve the learning environment for students.

- Improve technology environment, network connection, instructional and assistance technologies, improve wireless coverage and add additional power through student seating area to facilitate student use of laptops; introduce more interactive technologies to be used by both faculty and students; install cameras in classrooms and at demonstration areas to allow for not only lecture capture and streaming content, but also improved view of demonstrations for the students.

Expenditures shall be approved by the executive vice president and provost in consultation with the senior vice president for Business and Finance and chief financial officer.
June 22, 2012 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive vice president and provost in consultation with senior vice president for Business and Finance and chief financial officer.

The principal is evadable at the discretion of the executive vice president and provost in consultation with the senior vice president for Business and Finance and chief financial officer.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

The endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the executive vice president and provost in consultation with senior vice president for Business and Finance and chief financial officer.

Amount Establishing Endowment: $10,000,000.00 (Not gift money)

The Reva and Sanford Lipson Student Support Fund

The Reva and Sanford Lipson Student Support Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University, with gifts from the estate of Reva and Sanford Lipson.

The annual distribution from this fund shall provide support for students studying or researching the history and culture of the Jewish people. Recipients shall be selected by the director of The Melton Center for Jewish Studies in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of The Melton Center for Jewish Studies.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the director of The Melton Center for Jewish Studies.
June 22, 2012 meeting, Board of Trustees

Amount Establishing Endowment: $50,000.00

**Pfeiffer, Miller and Saunway Family 4-H Scholarship Fund**

The Pfeiffer, Miller and Saunway Family 4-H Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University with gifts from Dr. Jeffrey P. Miller (BA 1983, MS 1985) and Dr. Kathy Durham Miller.

The annual distribution from this fund shall be used to provide at least one undergraduate scholarship to a current or former 4-H member who has demonstrated excellence in community service, leadership, and public speaking. Preference shall be given to a student enrolled at The Ohio State University including its regional campuses and ATI who meet the aforementioned qualifications. If a qualified candidate cannot be found, the scholarship may be awarded to a student enrolled at an accredited institution of higher education in the state of Ohio.

The scholarship is renewable, not to exceed four years, provided they continue to meet the scholarship’s criteria, remain in good academic standing, and are progressing toward their degrees.

Recipients shall be selected by the OSU Extension 4-H Youth Development scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of the College of Food, Agricultural, and Environmental Sciences, and in consultation with the University's office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, if possible, and the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $30,436.71 (grandfathered)

**Change in Description of Named Endowed Fund**

**Richards Farms Scholarship Fund**

The Richards Farms Scholarship in Agricultural Economics and Rural Sociology was established September 4, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Richards Farms. The description is being revised June 22, 2012.
The annual distribution from this fund shall be used to support undergraduate scholarships for students in the Department of Agricultural, Environmental and Development Economics of the College of Food, Agricultural, and Environmental Sciences at The Ohio State University who are also members of the Alpha Gamma Rho fraternity.

Recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of the College of Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

Change in Name and Description of Named Endowed Fund

The William A. Dunning, Bruce E. Higham, Anthony J. Musil, and Albert F. Sprock Fund in Industrial & Systems Engineering

The Dunning, Higham, Musil and Sprock Fund in Industrial & Systems Engineering was established May 8, 1987, by the Board of Trustees of The Ohio State University, with gifts from members of the Industrial Engineering Class of 1943. The name and description are being revised June 22, 2012.

The annual distribution from this fund shall be used for those purposes other than student aid which will support the research, teaching, service program/facilities, and alumni functions, within the Department of Industrial & Systems Engineering in the College of Engineering. The chairperson of the Department of Industrial & Systems Engineering will have sole authority to authorize the expenditures from the fund, as approved by the dean of the College of Engineering.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
June 22, 2012 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Engineering.

Establishment of Named Endowed Chair

The Bob and Mary Reusché Chair in Geography

The Bob and Mary Reusché Chair Fund in Geography was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert F. (BSBA 1949) and Mary W. (BSBA 1950) Reusché. The required funding level was reached and the chair is being established on June 22, 2012.

The annual distribution shall be used to support a chair position in the Department of Geography in the College of Arts and Sciences. Selection of the chair holder shall be made by the executive dean of the College of Arts and Sciences and approved by the University’s Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the department chair in consultation with the executive dean of the College of Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Mary W. Reusché, if possible, and the executive dean of the College of Arts and Sciences.

Amount Establishing Chair: $2,056,477.46

The American Electric Power Foundation Chair in Burn Care

The American Electric Power Foundation Chair Fund in Burn Care was established on June 24, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from American Electric Power Foundation of Columbus, Ohio. The required funding level for a chair was met and the name and description are being revised on June 22, 2012.

The annual distribution from this fund shall be used for a chair position supporting a nationally or internationally recognized physician faculty member in the Division of Trauma, Critical Care, and Burn in the Department of Surgery in the College of Medicine. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairman of the Department of Surgery in consultation with the director of the Burn Center (unless a candidate) and approved by the senior vice president for Health Sciences and dean of the College of Medicine. The activities of the chair holder
June 22, 2012 meeting, Board of Trustees

shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor, as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor and as recommended by the chairman of the Department of Surgery and approved by the senior vice president for Health Sciences and the dean of the College of Medicine.

Amount Establishing Chair: $2,000,000.00

Establishment of Named Endowed Funds

The Jane F. Rector Occupational Therapy Fellowship Fund

The Jane F. Rector Occupational Therapy Fellowship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Jane Foulser Rector (BS 1957) of Azle, Texas.

The annual distribution from this fund shall support financial aid, tuition assistance, and stipends for students enrolled in the dual degree Master of Occupational Therapy program (MOT/PhD) in the Health Rehabilitation Sciences (HRS) track; for MOT students who have demonstrated academic research aptitude who might enter or are entered in the PhD program in HRS; and for licensed occupational therapists who are enrolled in the PhD program in HRS, in the School of Health and Rehabilitation Sciences. The named fellows will participate in research in occupational therapy as well as teaching and service to the Division of Occupational Therapy (Division). Student recipients will be selected by the director of the Division in consultation with Student Financial Aid. It is the donor’s intent that the financial awards may be renewed for students who are judged to be in good academic and professional standing.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and as recommended by the director of the School
June 22, 2012 meeting, Board of Trustees

of Health and Rehabilitation Sciences in consultation with the director of the Division, the dean of the College of Medicine, and with the senior vice president for Health Sciences.

Amount Establishing Endowment: $1,500,000.00

**The William O. Cleverley Scholarship Fund**

The William O. Cleverley Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made in recognition of the Health Services Management and Policy faculty career of William O. Cleverley (BSBA 1967; faculty 1973-2001; Professor Emeritus, 2001) of Powell, Ohio; given from friends, colleagues, and alumni.

The annual distribution from this fund shall provide scholarships based on either academic merit or financial need to students enrolled in the College of Public Health who are studying in the Health Services Management and Policy division. Recipients shall be selected by a College of Public Health scholarship committee in consultation with the University’s Office of Student Financial Aid and shall be approved by the dean.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Public Health.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, if possible, and as recommended by the dean of the College of Public Health.

Amount Establishing Endowment: $229,639.12

**Patricia Kunz Brundige Youth Development Fund**

The Patricia Kunz Brundige Youth Development Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Patricia Kunz Brundige in honor of Dr. Bobby Moser's lifetime commitment to OSU Extension and 4-H Youth Development.

The annual distribution from this fund shall be used to support seed grants for research in positive youth development through OSU Extension. Funds also may be used to support seed grants to implement programs developed as a result of the research grants. Research areas may include, but are not limited to, volunteer recruitment and retention for youth development programs, impact of youth development programs on workforce development, and evaluation of efficacy of existing 4-H youth development programs.
June 22, 2012 meeting, Board of Trustees

Grants will be awarded on a competitive basis to OSU Extension faculty and staff. Awards shall be made in accordance with guidelines and procedures established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension, 4-H Youth Development.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $202,370.50

The Lisa and Dan Wampler Endowed Fellowship Fund for Foods and Health Research

The Lisa and Dan Wampler Endowed Fellowship Fund for Foods and Health Research was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Daniel J. Wampler (BS 1980 and PhD 1983) and Lisa M. Wampler (BS 1982) of Mason, Ohio.

The annual distribution shall be used to support a fellowship in the Department of Food Science and Technology. Eligible students must be pursuing a graduate degree (MS or PhD) with research emphasis on development of novel functional foods and food components for the betterment of human health, or on emerging research that positively impacts human health through food delivery. The fellowship shall be applicable to the cost of attendance as annually defined by the University, including but not limited to, tuition, fees, and stipends. As funds are available, the fellow also may receive support for equipment and supplies related to his/her research projects, and for travel to present research projects at professional conferences.

The fellowship may be awarded to the same student in successive years through the completion of his/her degree provided the student remains in good academic standing and continues to meet the fellowship’s criteria. Recipients shall be selected by the chair of Food Science and Technology or his/her designee in accordance with guidelines and procedures approved by the executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be reinvested in the endowment principal.
June 22, 2012 meeting, Board of Trustees

If the fund can no longer be used as outlined above, it should be renamed The Lisa and Dan Wampler Endowment Fund for Food Science and Technology and used to support the Department of Food Science and Technology at the discretion of the chair of Food Science and Technology. If the department no longer exists, the principal and annual distribution should be added to The Daniel and Lisa Wampler Vice President’s Excellence Fund (667540) such that this fellowship fund ceases to exist.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chair of Food Science and Technology.

Amount Establishing Endowment: $160,000.00

The Earl and Betty Hawkins Endowed Scholarship Fund

The Earl and Betty Hawkins Endowed Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Earl Hawkins of Wooster, Ohio.

The annual distribution from this fund shall be used to support scholarships for students enrolled at the College of Food, Agricultural, and Environmental Sciences’ Agricultural Technical Institute (ATI). Preference shall be given to students who are the first generation in their immediate families to attend college. This scholarship may be used for, but is not limited to, tuition, fees, and books. Eligible students must be enrolled at the ATI campus, in good academic standing, and progressing toward their degrees. Recipients shall be selected by the ATI scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences or his/her designee and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any selection criteria should the criteria be found, in whole or part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences in consultation with the director of ATI.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
June 22, 2012 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and from the vice president for Agricultural Administration and executive dean of Food, Agricultural, and Environmental Sciences and the director of ATI.

Amount Establishing Endowment: $150,000.00

The Blackmore Family Food Science and Technology Scholarship Fund

The Blackmore Family Food Science and Technology Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Raymond H. Blackmore (BS 1941, MS 1942, PhD 1948) and Margaret Webb Blackmore of Sun City, Arizona.

The annual distribution from this fund shall be used to support student scholarships in the Department of Food Science and Technology in the College of Food, Agricultural, and Environmental Sciences. Preference shall be given to students who have graduated from Perry High School in Perry, Ohio. Scholarships may be awarded to the same students in successive years provided the students remain in good academic standing, are progressing towards their degrees, and continue to meet the scholarship’s criteria. Scholarship recipients shall be selected by or in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences and in consultation with the University's Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences in consultation with the chair of Food Science and Technology.

Amount Establishing Endowment: $112,372.19
The Jim and Nancy Wasserstrom Family Athletic Scholarship Fund

The Jim and Nancy Wasserstrom Family Athletic Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jim (BA 1982) and Nancy Wasserstrom of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree and is a member of the men’s ice hockey team. Preference will be given to a student-athlete studying in the health/allied medical professions. Scholarship recipients shall be selected by the director of Athletics in consultation with the University’s Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the director of Athletics.

Amount Establishing Endowment: $100,015.00

The Jesse J. Tyson MBA Scholarship Fund

The Jesse J. Tyson MBA Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jesse J. Tyson (MBA 1976) in honor of the legacy at Ohio State of scholar, researcher, author, teacher, administrator, consultant, and civil rights crusader Dr. Frank W. Hale, Jr. Dr. Hale, former vice-provost and professor emeritus, was the engineer of many new initiatives at The Ohio State University, especially in support of minority students.

It is the donor’s desire that the annual distribution from this fund shall be used to provide a scholarship to a student enrolled in the Max M. Fisher College of Business who is in the MBA program with particular attention to, but not limited to, African Americans or other underrepresented groups. Selection of the recipient(s) shall be made by the director of the College’s Graduate Programs Office in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
June 22, 2012 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the Max M. Fisher College of Business.

Amount Establishing Endowment: $80,736.80

The Diane Cummins Community Education Fund in Jewish Studies

The Diane Cummins Community Education Fund in Jewish Studies was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Millard M. Cummins (BS 1961) and family.

The annual distribution from this fund shall be used to support educational programming that broadens the public's knowledge of Jews, Israel, and Jewish History and will help educate the community on important topics related to Judaism. Expenditures shall be approved by the director of the Melton Center for Jewish Studies.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $80,206.00

The Mary Diaz Fund for Pancreatic Cancer Research

The Mary Diaz Fund for Pancreatic Cancer Research was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gift from The Mary Diaz Pancreatic Cancer Fund, a charity established in memory of Mary Diaz by
June 22, 2012 meeting, Board of Trustees

her family, friends, and others interested in advancing medical research towards a cure for pancreatic cancer disease.

The annual distribution from this fund shall support basic, clinical, and translational medical research on pancreatic cancer disease to make advancements in early detection, treatments, and patient care at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). Allocation of distribution shall be made at the recommendation of the chief executive officer at The James and the director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences.

Support may be used for, but not limited to: research supplies, equipment, and personnel lab space; fellowship awards; costs of travel to, and fees for, educational conferences or other training opportunities; and other activities required for high quality medical research.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the CEO and director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, as recommended by the chief executive officer of The James and the director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences.

Amount Establishing Endowment: $60,100.00

The Judy and Dean Reinhard Wrestling Scholarship Fund

The Judy and Dean Reinhard Wrestling Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Judy and Dean (BSBA 1962, JD 1965) Reinhard from Upper Arlington, Ohio.

The annual distribution from this fund shall supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity wrestling team and is pursuing an undergraduate degree at The Ohio State University. Scholarship recipients shall be selected by the director of the Department of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.
June 22, 2012 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the director of the Department of Athletics.

Amount Establishing Endowment: $60,000.00

The Dr. James W. Haynes and Mrs. M. Teresa Haynes Scholarship Fund in Medicine

The Dr. James W. Haynes and Mrs. M. Teresa Haynes Scholarship Fund in Medicine was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mrs. M. Teresa Haynes of Kirkwood, Missouri in memory of her husband, Dr. James W. Haynes (MD 1948).

The annual distribution from this fund shall be used to provide scholarship(s) awarded annually to a medical student(s) with an interest in the field of Pathology who rank academically in the top 25% of their College of Medicine class. Selection of the recipient(s) and allocation of the distribution shall be recommended by the College of Medicine Scholarship Committee in consultation with the University’s Office of Student Financial Aid and approved by the dean of the College of Medicine.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine and senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and the dean of the College of Medicine and senior vice president for Health Sciences.

Amount Establishing Endowment: $55,342.47
Thomas P. Nash Memorial Scholarship Fund

The Thomas P. Nash (BS 1980) Memorial Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Cheryl R. Nash (BS 1979).

Ohio State played a major role in Tom’s life; in turn, he enthusiastically supported the University. He especially enjoyed watching and attending Ohio State football games. While attending Ohio State Tom met his wife, Cheryl (née Worcester), and proposed to her at a school landmark, Mirror Lake. Tom and Cheryl were married September 1979. They had two children Timothy and Lauren Nash, who also attended The Ohio State University in the College of Engineering. Tom’s degree from Ohio State lead him to a successful career designing business forms; he was a passionate designer and held 17 US patents associated with postal equipment.

The annual distribution from this fund shall be used to provide financial aid to a student(s) who graduated from a non-Ohio high school with a grade point average (GPA) of 2.5 or higher who are planning to attend the Columbus Campus and have been admitted to the College of Engineering. Scholarship recipients shall be selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid. Scholarships are renewable at the dean’s discretion.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the College of Engineering.

Amount Establishing Endowment: $50,500.00

John O. Riedl Scholarship Fund

The John O. Riedl Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from John and Mary Riedl of Mansfield, Ohio.

The annual distribution from this fund shall be used to provide scholarships for students beginning at The Ohio State University at Mansfield to pursue a degree in physical science, mathematics, or engineering. Scholarship recipients shall be selected by the dean and director of The Ohio State University at Mansfield in consultation with the University’s Office of Student Financial Aid.

Amount Establishing Endowment: $50,500.00
The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of The Ohio State University at Mansfield.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean and director of The Ohio State University at Mansfield.

Amount Establishing Endowment: $50,500.00

The William E. and Gail P. Loadman Scholarship Fund

The William E. and Gail P. Loadman Scholarship Fund was established on June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from William E. Loadman.

The annual distribution from this fund shall provide financial support to doctoral students in quantitative research evaluation and measurement in Education in the College of Education and Human Ecology. Recipients shall be selected by the dean in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $50,345.00
Ohio State Mansfield Board Leadership Scholarship Fund

The Ohio State Mansfield Board Leadership Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an initial gift from Christ J. Ticoras of Mansfield, Ohio and additional gifts from current and past members of the OSU Mansfield Board of Trustees.

The annual distribution from this fund shall be used for scholarships to continuing undergraduate and graduate students of The Ohio State University at Mansfield, based on campus and community service. The dean and director of The Ohio State University at Mansfield in collaboration with a Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of The Ohio State University at Mansfield.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean and director of The Ohio State University at Mansfield.

Amount Establishing Endowment: $50,325.33

The Marlena Kay Richards-Cox Endowed Scholarship Fund

The Marlena Kay Richards-Cox Endowed Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gift from John Cox in memory of his beloved wife Marlena Kay Richards-Cox (BS 1974) and her passion for caring for the elderly.

The annual distribution from this fund shall be used to provide scholarship support for an undergraduate or graduate student in the College of Social Work who intends to pursue a career in the area of gerontological social work. Recipients shall be selected by the dean of the College of Social Work in consultation with the program directors for the MSW Program and the BSSW Program and the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Social Work.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the College of Social Work.

Amount Establishing Endowment: $50,050.00

The Neva Farbizo Greenwald and Nancy Greenwald Pfeifer Physical Therapy Faculty Fund

The Neva Farbizo Greenwald and Nancy Greenwald Pfeifer Physical Therapy Faculty Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made by Neva Elizabeth Farbizo Greenwald, MSPH, PT (BA 1959, BS1960), Nancy Greenwald Pfeifer, PT (BS 1960).

The annual distribution from this fund shall be used for the purpose of student education and the enhancement of client and patient services in the Division of Physical Therapy (PT division). It is the intent of the donors that funds should support physical therapy faculty enrichment within the PT division, with special emphasis on initiatives, programs, projects, and research related to health and wellness, health behaviors, and physical therapy practice as aligned with health and wellness. Funds may be used for supplies, equipment, publications, conferences, research, and all other activities related to faculty enrichment. The allocation of funds shall be approved by the director of the School of Health and Rehabilitation Sciences in consultation with the director of the PT division, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and as recommended by the director of the School of Health and Rehabilitation Sciences in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.
June 22, 2012 meeting, Board of Trustees

Amount Establishing Endowment: $50,012.79

The Steven Heath and Sarah Shireen Eddleblute Endowed Scholarship Fund

The Steven Heath and Sarah Shireen Eddleblute Endowed Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Steven Heath Eddleblute (BA 1994) and Sarah Shireen Eddleblute (BSBA 1993), of Solon, Ohio, in memory of Major Ray Mendoza (BA 1995), a Buckeye and member of the U.S. Marine Corps, who was killed in the line of duty while serving in Iraq.

The annual distribution from this fund shall provide scholarship support to a student enrolled in one of the degree-seeking programs at the John Glenn School of Public Affairs (Glenn School). To qualify, candidates must demonstrate financial need and outstanding leadership skills both inside and outside the classroom. Scholarship recipients will be selected by the director of the Glenn School in consultation with the Office of Student Financial Aid.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Glenn School.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or director.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the director of the Glenn School.

Amount Establishing Endowment: $50,000.00

The Schneier Family Undergraduate Scholarship Fund

The Schneier Family Undergraduate Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lance W. Schneier (BS 1971) and Craig E. Schneier (BS 1969).

The annual distribution from this fund shall be used to provide scholarship support for undergraduate student(s) from Stark County, Ohio or Northeast, Ohio enrolled in Max M. Fisher College of Business in good academic standing, majoring in finance from Stark.
June 22, 2012 meeting, Board of Trustees

County, Ohio or Northeast, Ohio. Recipients shall be selected by the Undergraduate Program in consultation with the University’s office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Max M. Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean of Max M. Fisher College of Business.

Amount Establishing Endowment: $50,000.00

The Sandy and Sue Schwartz Family Cheerleading Scholarship Fund

The Sandy and Sue Schwartz Family Cheerleading Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Sandy and Sue Schwartz of Atlanta, Georgia.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship budget of the cheerleading squad. Scholarship recipients shall be selected by the director of Athletics in consultation with Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the director of Athletics.
June 22, 2012 meeting, Board of Trustees

Amount Establishing Endowment: $50,000.00

Steven and Misty Smathers Endowed Scholarship Fund

The Steven and Misty Smathers Endowed Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Steven E. Smathers (BS 1972, JD 1976).

The annual distribution from this fund shall provide a need-based scholarship to support students enrolled in the Michael E. Moritz College of Law with first preference for a student who is unmarried and has at least one child, and secondary preference for a student who is married and has at least one child. If neither of these qualifications can be met, this scholarship should go to a student with demonstrable need. The College’s dean and Office of Student Financial Aid shall be responsible for selecting scholarship recipients. The donor shall be kept apprised of the status of the selection process by the College.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the Michael E. Moritz College of Law.

Amount Establishing Endowment: $50,000.00

The Blanche K. and James H. Stanton Scholarship Fund

The Blanche K. and James H. Stanton Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Blanche Kelley Stanton, in honor of her husband, James Herbert Stanton (BS 1951).

The annual distribution from this fund shall be used to support scholarships for students in the College of Food, Agricultural, and Environmental Sciences. Scholarship recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines approved by the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
June 22, 2012 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It was the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $50,000.00

The Olivia (Doreen) Rogers Storm Endowed Fund

The Olivia (Doreen) Rogers Storm Endowed Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Rick Delaney (BS 1982) and Carol Greco Delaney (BS 1983, MD 1987).

This fund is established in honor of Olivia (Doreen) Rogers Storm in recognition of her service to the Delaney family, especially with their daughters, Sean and Anna, and in recognition of her relationship with them as a mentor and life guide.

The annual distribution from this fund shall be designated to the LiFE Sports Initiative to be used to support the efforts of the College of Social Work within the summer youth camp, LiFE Sports. Uses are restricted to the objectives of the camp including service and outreach, teaching and learning, and translational research. Expenditures must be approved by the College’s dean and may include faculty and staff salaries, purchased services, travel, materials, and supplies.

If the LiFE Sports Initiative should cease to exist or change in a way that does not hold a College of Social Work component, it is the desire of the donors that the annual distribution from this endowment be used in the College of Social Work to support a student with an interest in youth development.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Social Work.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
June 22, 2012 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean of the College of Social Work.

Amount Establishing Endowment: $50,000.00

The Buckeye Opportunity Scholarship Fund

The Buckeye Opportunity Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David M. DiStefano (BS 1991) of Columbus, Ohio.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University’s mission and admissions policy by providing one or more need-based scholarships for undergraduate students. The first preference is to support students from rural America. It is the donor’s desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, students who have served in the military or show parent or guardian is serving in the military and/or students who have been adversely affected by a natural disaster or a national emergency, such as a hurricane or a terrorist attack on the United States who have been accepted for admissions at the University. Scholarship recipients shall be selected by the Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $27,795.00 (grandfathered)

The Ohio State University Extension Master Gardener Endowment Fund

The Ohio State University Extension Master Gardener Endowment Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from colleagues and friends of the Ohio Master Gardener Program.
June 22, 2012 meeting, Board of Trustees

The annual distribution from this fund shall be used to support the Ohio Master Gardener Program in the College of Food, Agricultural, and Environmental Sciences. Expenditures shall be approved by the state coordinator for The Ohio State University Extension Ohio Master Gardener Program.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean of the College of Food, Agricultural, and Environmental Sciences, in consultation with the state coordinator of The Ohio State University Extension Ohio Master Gardener Program.

Amount Establishing Endowment: $25,260.00 (grandfathered)

Professor Patrick McKenry Memorial Fund

The Professor Patrick McKenry Memorial Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from friends, family, and colleagues to honor the memory of Professor Patrick McKenry.

The late Patrick McKenry was a leading Professor in the Department of Human Development and Family Studies at the Ohio State University and across the county. His research focused on families and stress, with particular interest in family conflict and violence, post-divorce adjustment, variations in coping by gender and race, and the role of conflict and violence in the co-parenting process after divorce. He published extensively in marriage and family literature. He was a member of the American Sociological Association and the National Council on Family Relations, where he held several leadership positions. He was also the recipient of three Ohio State University awards for excellence in teaching and research.

The annual distribution from this fund shall be used to support and enhance the research agenda for one or more graduate students who are enrolled in the College of Education and Human Ecology and majoring in Family Science. Scholarships are renewable for up to two years, provided the recipients remain in good academic standing, are progressing towards the completion of their degrees, and continue to meet the scholarship’s selection criteria. Recipients shall be selected in accordance with guidelines and procedures approved by the dean of the College or his/her designee, and in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $25,290.00 (grandfathered)

**The Veterinary Medicine Class of 2013 Unrestricted Endowment Fund**

The Veterinary Medicine Class of 2013 Unrestricted Endowment Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Veterinary Medicine Class of 2013.

The annual distribution from this fund shall be used at the discretion of the dean of the College of Veterinary Medicine.

If the fund’s principal balance reaches $50,000 by June 30, 2017, the fund shall be revised to **The Veterinary Medicine Class of 2013 Scholarship Fund** and 50% of the annual distribution will be reinvested in the principal and the remaining 50% of the annual distribution shall be used to provide scholarship support for students enrolled in the College of Veterinary Medicine. Scholarship recipients shall be selected by the College’s dean in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Veterinary Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, if possible, and the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $25,000.00 (unrestricted)
The Central Ohio Associated General Contractors Construction System Fund

The Central Ohio Associated General Contractors Construction System Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Central Ohio Associated General Contractors. Originating in 1937 and chartered by the Associated General Contractors (AGC) of America, Central Ohio Associated General Contractors is a commercial construction association that serves the interests of contractors throughout fourteen central Ohio counties. Its members (contractors, subcontractors, and firms serving the construction industry) embody the AGC principles of skill, responsibility, and integrity. The association created this fund to positively influence the number and caliber of future commercial construction professionals.

The annual distribution from this fund shall provide one or more scholarships to undergraduate students ranked sophomore or higher who are enrolled in the College of Food, Agricultural, and Environmental Sciences and majoring in Construction Systems Management with an interest in commercial construction. The scholarship shall be awarded to students with the greatest potential to succeed in the field based on community involvement, awards received, other achievements, employment history in construction, and cumulative college grade point average of 2.5 or higher. First preference shall be given to students who demonstrate financial need. Additionally, students from: Delaware, Fairfield, Franklin, Hardin, Knox, Licking, Logan, Madison, Marion, Morrow, Muskingum, Perry, Pickaway, and Union counties in Ohio shall be given first consideration. It is the donor’s desire that the scholarships be awarded with particular attention to, but not limited to, United States citizens or residents.

Scholarship recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines approved by the vice president for Agricultural Administration and the executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the University’s Office of Student Financial Aid.

The scholarship may be awarded to the same students in successive years provided the students continue to meet the scholarship’s criteria.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and the executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $25,000.00 (grandfathered)
The Dr. Robert C. and Carole T. Hummel Veterinary Medicine Business Scholarship Fund

The Dr. Robert C. and Carole T. Hummel Veterinary Medicine Business Scholarship Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Robert C. (BS 1961, DVM 1961) and Carole T. (BA 1958) Hummel.

The annual distribution from this fund shall be used to provide a scholarship to Veterinary Medicine students enrolled in the Business of Science Healthcare Curriculum graduate minor program. Scholarship recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the University’s Office of Student Financial Aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $25,000.00 (grandfathered)

The Donna Redman-Bentley Unrestricted Endowed Fund

The Donna Redman-Bentley Unrestricted Endowed Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Donna Redman-Bentley, PT, PhD (Certificate 1970, MS 1973) of Banning, California.

The annual distribution from this fund shall be used for general support of the College of Medicine as allocated by the dean.

If the principal balance reaches $50,000 by March 30, 2017, this endowment shall be renamed the Donna Redman-Bentley Endowed Fund and its annual distribution shall support the Division of Physical Therapy in the School of Health and Rehabilitation Sciences (HRS), specifically to provide scholarship or research support for Physical Therapy students or to support inter-professional education initiatives and programs in the division and HRS. Annual distribution shall be allocated by the division director in consultation with the director of HRS. Student recipients will be selected by the director of the Division in consultation with the director of HRS, with the College of Medicine Scholarship Committee as needed and with the University’s Office of Student Financial Aid.
June 22, 2012 meeting, Board of Trustees

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, if possible, and the director of the School of Health and Rehabilitation Sciences in consultation with the director of the Division, the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $25,000.00 (unrestricted)

Donald R. and Allen R. White Mechanical Engineering Undergraduate Student Professional Enrichment Support Fund

The Donald R. and Allen R. White Mechanical Engineering Undergraduate Student Professional Enrichment Support Fund was established June 22, 2012, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Allen R. White (BS 1991, MS 2000) in memory of Donald R. White.

The annual distribution from this fund shall support students seeking career-related experience for which no other funding is available and that is not related to student honors projects or other course related activities with the exception of student project teams. Third-year undergraduate students majoring in Mechanical Engineering are eligible to apply for this one-time award which provides travel expenses, registration fees, and other expenses for students to participate in activities that might serve to expose them to their chosen professional area and professionals in that area, helping them gain insight into the nature of the work in the field and a chance to meet prospective employers, mentors, or colleagues. Award recipients will be selected by the Mechanical Engineering advising staff in consultation with the Office of Student Financial Aid based on financial need of the student, potential for assisting students in their professional goals, and potential uniqueness of the experience.

The Ohio State University's mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
June 22, 2012 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean of the College of Engineering in consultation with the chairperson of the Department of Mechanical Engineering.

Amount Establishing Endowment: $25,000.00 (grandfathered)

Change in Description of Named Endowed Fund

The Robert C. Walter Memorial Endowment Fund

The Robert C. Walter Memorial Endowment Fund was established October 29, 2010 by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made by the Walter Family Foundation in memory of Robert C. Walter (in recognition of his triumphant handling of adversity, including the loss of vision) and made possible by his son and daughter-in-law, Robert D. and Margaret M. Walter; and given in honor of Dr. Robert Bahnson (in recognition of his exemplary patient care and outreach, communication, and leadership in the Department of Urology). Support for the endowment was also provided by OSU Urology LLC and by the Department of Urology. The description is being revised on June 22, 2012.

The annual distribution from this fund shall be used for unrestricted support to the Department of Urology for ongoing needs, program enhancement, fostering innovation, or strengthening initiatives such as, but not limited to, research, medical education/training, faculty development/recruitment, patient outreach, etc. Allocation and approval of distribution shall be made by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and senior vice president for Health Sciences.

The endowment shall be revised to a professorship or chair should the endowment principal level reach $1 million or $2 million, respectively, by December 31, 2015. After December 31, 2015, the endowment principal must reach the then-current minimum funding level to be revised to a professorship or chair. The annual distribution shall be used to support a faculty member in the Department of Urology. The appointment shall be made by the Board of Trustees of The Ohio State University as recommended by the senior vice president for Health Sciences and by the dean of the College of Medicine in consultation with the chairman of the Department of Urology. The activities of the professorship or chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the department chairman.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
June 22, 2012 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from both representatives of the donors and the chairman of the Department of Urology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Change in Name and Description of Named Endowed Fund

The Colonel Bernard E. and Mrs. Mary R. McDaniel Opportunity Scholarship Fund

The Colonel Bernard E. and Mrs. Mary R. McDaniel Scholarship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Colonel Bernard E. McDaniel (BA 1967) and Mrs. Mary R. McDaniel. Col. and Mrs. McDaniel reside in Round Hill, Virginia. The description was revised July 11, 2008 and November 7, 2008. The name and description are being revised June 22, 2012.

Col. and Mrs. McDaniel established this scholarship to encourage academically capable but financially challenged students to pursue college educations. They hope that this scholarship helps motivate young, talented students and provides them an opportunity to obtain a college education that otherwise may not be possible. The donors request that applicants document their strong leadership skills, integrity, and public service to their communities.

The annual distribution from this fund shall be used to support renewable scholarships for first-year undergraduate students in the College of Food, Agricultural, and Environmental Sciences at the University’s Columbus Campus. Qualified students must have demonstrated high academic achievement, be of full-time status, and federal work-study eligible, or equivalent if the federal work-study program ceases to exist. Overall preference shall be given to public high school students who are the first generation in their immediate families to attend college with first preference given to students from Perry County, Ohio, and second preference given to students from any Appalachian Ohio county. If there are no eligible first generation students, then students who otherwise meet the scholarship’s criteria with preference given to students from Perry County, Ohio, and then from Appalachian Ohio counties may be considered. The scholarship shall be used for tuition and fees, books and supplies, and room and board.

The scholarship may be awarded to the same students in successive years, not to exceed four (4) years, provided the students are enrolled as a declared major and actively pursuing a degree in the College of Food, Agricultural, and Environmental Sciences and continue to meet the scholarship’s criteria. Students must maintain at least a 3.0 cumulative grade point average (earned no later than the end of the second academic year) and must work at least 10 hours per week on average during each semester. If students are not participating in the provided work-study program, then they will be required to provide documentation of gainful, external employment of at least 10 hours per week on average during each semester to remain eligible for the scholarship.

Recipients shall be selected by the College’s scholarship selection committee in accordance with the guidelines and procedures approved by the dean of the College or his/her designees for scholarship administration, and in consultation with the University’s Office of Student Financial Aid.

If unforeseen circumstances arise beyond a student’s control that impedes his/her ability to meet the renewal criteria, the College’s scholarship selection committee may renew the scholarship at its discretion.
June 22, 2012 meeting, Board of Trustees

As sufficient funds are available, it is the donors’ intention for the fund to support one or more scholarship awards equivalent to 100% of the cost of tuition and fees, books and supplies, and room and board less any federal work-study or other grant aid.

The Ohio State University’s mission and admissions policy supports educational diversity. The University may modify any criteria used to select scholarship recipients should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the vice president for Agricultural Administration and executive dean of the College of Food, Agricultural, and Environmental Sciences.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 2012-111

Synopsis: Proposal to amend the Rules of the University Faculty.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty includes changes related to the transition to semesters, which were approved by the University Senate on May 14, 2010; June 18, 2010; and October 29, 2010, and additional changes, which were approved by the University Senate on May 17, 2012 and June 7, 2012:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the Rules of the University Faculty are hereby approved as recommended by the University Senate.

(See Appendix XLVI for background information, page 1101.)

DEACTIVATION/WITHDRAWAL OF DEGREE PROGRAMS IN THE COLLEGE OF ARTS AND SCIENCES; THE COLLEGE OF ENGINEERING; AND THE COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES
Resolution No. 2012-112
Synopsis: Proposal to deactivate/withdraw degree programs in the College of Arts and Sciences; the College of Engineering; and the College of Food, Agricultural, and Environmental Sciences.

WHEREAS the semester conversion process provided an opportunity for academic units to review their academic programs, resulting, in selected colleges, in a decision to deactivate (discontinue offering at this time) or withdraw (terminate) graduate degree programs; and

WHEREAS each proposal was developed, reviewed, and approved, within the relevant department/school; was then reviewed/approved by the College within which the unit is located, and endorsed by the Dean; was reviewed/approved by the Graduate Council of the Graduate School when appropriate; was then reviewed/approved by a subcommittee of the Council on Academic Affairs, expanded for additional input/perspectives during the semester conversion; and was then reviewed/approved by the full Council on Academic Affairs; and

WHEREAS the College of Arts and Sciences, based on a recent departmental merger, proposes to deactivate the programs in Plant Cellular and Molecular Biology leading to the Master of Science and Doctor of Philosophy degrees; and

WHEREAS the College of Engineering has determined, based on declining enrollment, to withdraw the program leading to the Bachelor of Science in Geomatics Engineering; and based on no enrollment, to withdraw the programs in Engineering Mechanics leading to the Master of Science and Doctor of Philosophy degrees, and the programs in Civil Engineering, Industrial Engineering, and Mechanical Engineering leading to the Advanced Professional Degree; and

WHEREAS the College of Food, Agricultural and Environmental Sciences, based on recent structural/programmatic changes within the College, proposes to withdraw the Human and Community Resource Development program leading to the Master of Science degree; the program in Vocational Education leading to the Doctor of Philosophy degree; the programs in Natural Resources leading to the Master of Science and Doctor of Philosophy degrees; and the programs in Soil Science leading to the Master of Science and Doctor of Philosophy degrees; and

WHEREAS the Ohio Board of Regents must now be informed of such actions; and

WHEREAS the proposals were approved by the Council on Academic Affairs at meetings on February 16, 2011, June 29, 2011, and July 28, 2011:

NOW THEREFORE

BE IT RESOLVED, That the deactivation/withdrawal of degree programs in the College of Arts and Sciences; the College of Engineering; and the College of Food, Agricultural, and Environmental Sciences is hereby approved, effective upon the approval by the Ohio Board of Regents.

CHANGE IN NAME OF THE DEPARTMENT OF ART EDUCATION TO THE DEPARTMENT OF ARTS ADMINISTRATION, EDUCATION AND POLICY, WITH A RELATED NAME CHANGE FOR THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM

Resolution 2012-113

Synopsis: Proposal to change the name of the Department of Art Education to the Department of Arts Administration, Education and Policy, with a related name change for the Doctor of Philosophy degree program, College of Arts and Sciences.
WHEREAS art education, and other visual arts programs, have a more than century-long history at the University, and over time have been organized in different and changing administrative structures; and

WHEREAS the Department of Art Education was established in 1971, but although the practices and contents of art education have changed, the name did not change to adequately reflect those changes; and

WHEREAS the proposal reflects and recognizes developments in the academic, policy, and arts organizational worlds, and combines them with an enlarged sense of what it means to build knowledge and prepare future generations to teach, shape, and practice the arts in the 21st century; and

WHEREAS the Department will continue to prepare teachers through its accredited state licensure program; and

WHEREAS the faculty within the Department considered other names but came to consensus and voted to support the proposed name; and

WHEREAS the proposal for the related name change for the Doctor of Philosophy degree program was approved by the Graduate Council; and

WHEREAS the proposal has support from academic units across the University; and

WHEREAS the proposal was approved by the Council on Academic Affairs at its meeting on May 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the change in name of the Department of Art Education to the Department of Arts Administration, Education and Policy, with a related name change for the Doctor of Philosophy degree program is hereby approved, effective immediately.

ESTABLISHMENT OF A MASTER OF SCIENCE, DOCTOR, AND TRANSITIONAL DOCTOR, OF GENETIC COUNSELING
Resolution No. 2012-114

Synopsis: Proposal to establish A Master of Science, Doctor, and Transitional Doctor, of Genetic Counseling, Department of Internal Medicine, College of Medicine

WHEREAS the practice of genetic counseling combines the knowledge of genetic mechanisms and diseases with an appreciation for unique psychological burdens and complex ethical and social issues; and

WHEREAS the need for properly trained genetic counselors has never been greater as individuals struggle to understand how knowledge of genetic information might have an impact on them; and in an era of personalized health care there are new challenges to the medical system as it treats individuals differently based on their unique characteristics; and

WHEREAS there is student interest, and nationally enrollments and placement are strong in this field; and the programs have been developed to ensure that graduates will be eligible for certification by the American Board of Genetic Counseling (ABGC); and

WHEREAS in anticipation of a career-wide transition to the clinical doctorate in genetic counseling, a web-based transitional clinical doctorate will be developed; and
WHEREAS the proposal has the support of the department and college faculty; the curricular dimensions of the programs have been reviewed and the resources to support the program are established; and

WHEREAS the programs must receive final approval from the Ohio Board of Regents before the clinical doctorate can be submitted for review by the ABGC; and

WHEREAS the proposal was reviewed by the Graduate Council and the Council on Academic Affairs, and approved by the University Senate at its meeting on February 16, 2012:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Master of Science, Doctor and Transitional Doctor of Genetic Counseling is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF NEW DEGREES/PROGRAMS IN THE COLLEGE OF EDUCATION AND HUMAN ECOLOGY AND THE SCHOOL OF HEALTH AND REHABILITATION SCIENCES, COLLEGE OF MEDICINE

Resolution No. 2012-115

Synopsis: Proposal to establish new degrees/programs in the College of Education and Human Ecology and the School of Health and Rehabilitation Sciences, College of Medicine.

WHEREAS the semester conversion process provided an opportunity for academic units to re-envision their academic programs, resulting, in selected colleges, in new undergraduate, graduate, and professional degrees; and

WHEREAS each proposal was developed, reviewed, and approved, within the relevant department or school; was then reviewed/approved by the College within which the unit is located, and endorsed by the Dean; was reviewed/approved by the Graduate Council of the Graduate School, when appropriate; was then reviewed/approved by a subcommittee of the Council on Academic Affairs, expanded for additional input/perspectives during the semester conversion; and was then reviewed/approved by the full Council on Academic Affairs; and

WHEREAS the College of Education and Human Ecology proposes a new tagged undergraduate degree, Bachelor of Science in Human Development and Family Science; two new programs leading to the Master of Science degree, Consumer Sciences and Kinesiology; five new programs leading to the Doctor of Philosophy degree, Consumer Sciences, Human Development and Family Science, Kinesiology, Educational Policy and Leadership, and Teaching and Learning; and the establishment of a Doctor of Education (Ed.D.) degree program; and

WHEREAS the School of Health and Rehabilitation Sciences, College of Medicine proposes changing an established program in athletic training from a program leading to the Bachelor of Science in Allied Health Professions to a tagged degree, Bachelor of Science in Athletic Training; and

WHEREAS each proposal has a well-defined rationale, learning goals, program structure, and the resources in place for implementation; and

WHEREAS the proposals were approved by the Council on Academic Affairs, at meetings on May 4, 2011, July 13, 2011, January 18, 2012, and February 1, 2012, and all were reviewed by the University Senate’s Faculty Council on May 10, 2012:
NOW THEREFORE

BE IT RESOLVED, That the new degrees/programs in the College of Education and Human Ecology and the School of Health and Rehabilitation Sciences are hereby approved, effective upon the approval by the Ohio Board of Regents.

***

CHANGE IN NAMES OF THE BACHELOR OF SCIENCE DEGREE AND THE PROGRAM LEADING TO THE MASTER OF SCIENCE FROM ALLIED HEALTH PROFESSIONS TO HEALTH AND REHABILITATION SCIENCES

Resolution No. 2012-116

Synopsis: Proposal to Change the Names of the Bachelor of Science Degree and the Program Leading to the Master of Science from Allied Health Professions to Health and Rehabilitation Sciences, School of Health and Rehabilitation Sciences, College of Medicine.

WHEREAS the University Senate (November 10, 2011) and the Board of Trustees (December 9, 2011) approved the proposal to change the name of the School of Allied Medical Professions to the School of Health and Rehabilitation Sciences; and

WHEREAS the School determined that as part of the semester conversion process, it would now align the name of its degree programs with the name of its School; and

WHEREAS the programs for the Bachelor of Science in Allied Health Professions and the Master of Science were converted to semesters with minimal changes, and the program leading to the Doctor of Philosophy had used the new name since its inception; and

WHEREAS the proposal for the changes has the support of the School’s faculty, and of the College of Medicine; and

WHEREAS the proposal for the changes was approved by the Council on Academic Affairs, at meetings on April 6, 2011, April 13, 2011, and May 4, 2011:

NOW THEREFORE

BE IT RESOLVED, That the change in names of the Bachelor of Science Degree and the program leading to the Master of Science from Allied Health Professions to Health and Rehabilitation Sciences is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF A REGULAR CLINICAL FACULTY TRACK, COLLEGE OF EDUCATION AND HUMAN ECOLOGY

Resolution No. 2012-117

Synopsis: Proposal to establish a Regular Clinical Faculty Track, College of Education and Human Ecology.

WHEREAS the College of Education and Human Ecology offers multiple programs that are intended to prepare students to engage in professional practice within their field of study and works closely with professionals in areas related to consumer sciences, nutrition, early childhood agencies, and schools; and

WHEREAS such partnerships are essential to provide practical, applied experiences for students; and
WHEREAS the clinical faculty title would enable the College to attract highly qualified individuals into a long-term career track and offer more stability and consistency in meeting ongoing program needs; and would align the College’s faculty options with peer institutions in the Committee on Institutional Cooperation (CIC); and

WHEREAS the College engaged in a detailed proposal development and review process, through its College Council, from Autumn 2009 through Winter 2011, and the proposal was then approved through a vote of the College faculty; and

WHEREAS the proposal was reviewed in detail by a subcommittee of the Council on Academic Affairs to ensure adherence to the Guidelines for the Establishment or Amendment of Clinical Faculty Tracks, and it recommended approval; and

WHEREAS the proposal has the support of the Dean of the College of Education and Human Ecology; and

WHEREAS the proposal was approved by the Council on Academic Affairs on May 2, 2012, and reviewed by the University Senate’s Faculty Council on May 10, 2012:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Regular Clinical Faculty Track, College of Education and Human Ecology is hereby approved, effective immediately.

***

MERGER OF THE DEPARTMENT OF BIOCHEMISTRY AND THE DEPARTMENT OF CHEMISTRY TO BECOME THE DEPARTMENT OF CHEMISTRY AND BIOCHEMISTRY

Resolution No. 2012-118

Synopsis: Proposal to Merge the Department of Biochemistry and the Department of Chemistry to Become the Department of Chemistry and Biochemistry, College of Arts and Sciences.

WHEREAS the merger of the Department of Biochemistry and the Department of Chemistry will address the issue that currently neither department has sufficient faculty size, a critical mass, to achieve the national prominence it seeks; each will bring resources that can help strengthen the other; and given that Chemistry needs a stronger biochemical component to strengthen its academic programs, and Biochemistry needs access to its own unit-based graduate program; the merger is deemed appropriate; and

WHEREAS discussions related to the merger began in 2008 through the work of a Task Force and its recommendations; and, following a preliminary vote on a merger in January, 2010, once additional details had been developed, in August 2011, both departments supported the formal merger proposal; and the Faculty of Arts and Sciences voted to approve the proposal in January 2012; and

WHEREAS in adherence to Faculty Rule 3335-3-37, the Council on Academic Affairs established an ad hoc committee to review the proposal to ensure adherence to the guidelines for alteration or abolition of units; the committee rigorously assessed the proposal, ensured that all major dimensions of such a merger were addressed, and recommended approval; and

WHEREAS the proposal has the support of the Executive Dean of the College of Arts and Sciences; and

WHEREAS the proposal was approved by the Council on Academic Affairs on May 2, 2012 and reviewed by the University Senate’s Faculty Council on May 10, 2012:
NOW THEREFORE

BE IT RESOLVED, That the merger of the Department of Biochemistry and the Department of Chemistry to Become the Department of Chemistry and Biochemistry is hereby approved, effective immediately.

***

SECURITY CLEARANCE EXemption

Resolution No. 2012-119

Synopsis: To Exempt Members of the Board of Trustees from the Security Clearance Requirements of the National Industrial Security Program.

WHEREAS The Ohio State University and The Ohio State University Research Foundation conduct sponsored research projects which include access to classified information; and

WHEREAS The Ohio State University desires to create a program of compliance with the applicable security requirements and laws, including exemption of The Board of Trustees from the need to obtain the necessary security clearances:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University shall not require, shall not have, and can be effectively excluded from access to all classified information disclosed to any Ohio State employee in connection with sponsored research projects awarded to Ohio State and/or The Ohio State University Research Foundation, an affiliated entity of Ohio State; and

BE IT FURTHER RESOLVED, That the Board of Trustees, under the applicable security requirements and laws, do not occupy positions that would enable them to adversely affect the organization's policies or practices in the performance of classified contracts; and

BE IT FURTHER RESOLVED, That this action is taken in accordance with Paragraphs 2-104 and 2-106 of DoD 5220.22-M “Nation Industrial Security Program Operating Manual”.

***

AUTHORIZATION TO RELEASE FUNDS FOR THE MEDICAL CENTER EXPANSION PROJECT

Resolution No. 2012-120

Synopsis: Release of funds for the Medical Center Expansion Project is recommended.

WHEREAS in September 2009 the Board of Trustees authorized the Medical Center Expansion (ProjectONE) at a cost not to exceed $1 billion and authorized the President and/or Senior Vice President for Administration and Planning, in consultation with the Senior Vice President for Health Sciences, to enter into design, construction, construction management, and other contracts as necessary for the project in accordance with the established University and state of Ohio procedures, with all actions to be reported to the Board at the appropriate time; and

WHEREAS the project is expected to be funded by $925 million from University bond proceeds and $75 million from development funds for a total authorized project amount not to exceed $1 billion; and

WHEREAS in April 2011 the Board of Trustees authorized the acceptance of a federal Health Resources and Services Administration (HRSA) $100M grant to be expended for
June 22, 2012 meeting, Board of Trustees

an expanded cancer ambulatory program for radiation oncology services and authorized such program as part of the Medical Center Expansion Project; and

WHEREAS the President and/or Senior Vice President for Administration and Planning in consultation with the Senior Vice President for Health Sciences shall only spend such funds as are released by the Board; and

WHEREAS the President and/or Senior Vice President for Administration and Planning, in consultation with the Senior Vice President for Health Sciences, shall report to the Board on the progress of the project every six months or more frequently as appropriate or as requested by the Board and, as a part of such reports, shall request release of such funds as needed; and

WHEREAS the following funds for construction commitments were requested and previously approved for release, but were not used:

| Infrastructure & Roadways | $ 4.8 M  
| Rhodes, Doan, James, Cramblett  
| Mechanical Electrical Plumbing | $ 4.4 M  
| Demo and Decommissioning | $ 0.1 M  
| Support and Project Contributions | $ 3.0 M  
| **Available for Reallocation** | $12.3 M  

WHEREAS the following funds for construction commitments are requested for release through December 2012:

| Cancer & Critical Care Tower | $ 55.3 M  
| Spirit of Women Park | $ 0.2 M  
| James 36 Beds/4 ORs | $ 25.0 M  
| | $ 80.5 M  
| **Less Funds Available for Reallocation** | $(12.3)M  
| **CURRENT FUNDS REQUESTED FOR RELEASE** | $ 68.2 M  

NOW THEREFORE

BE IT RESOLVED, that a total amount of $68.2 million is hereby released for construction and related services as requested.

**APPROVAL OF FACULTY GROUP PRACTICE INTEGRATION CRITERIA FOR EMPLOYMENT**

Resolution No. 2012-121

Synopsis: Approval of employment of non-physician faculty clinicians in the Faculty Group Practice in the University Office of Health Sciences is proposed.

WHEREAS on April 8, 2011, the University’s Board of Trustees created within the Office of Health Sciences the Faculty Group Practice to employ the physician faculty of The Ohio State University College of Medicine in accordance with established University procedures and further authorized the Senior Vice President for Health Sciences and the Dean of the College of Medicine to take appropriate actions to employ all physician faculty either by the
Faculty Group Practice or the Specialty Care Network in accordance with established University procedures, and

WHEREAS the Senior Vice President for Health Sciences, the Dean of the College of Medicine, the CEO for the Faculty Group Practice and the leadership of the College of Medicine have recommended the employment of certain non-physician faculty clinicians within the Faculty Group Practice in order to enhance the integrated care model fostered by the Faculty Group Practice:

NOW THEREFORE

BE IT RESOLVED, That the Senior Vice President for Health Sciences, the CEO for the Faculty Group Practice, and the Dean of the College of Medicine are hereby delegated the authority to take appropriate actions to employ, within the Faculty Group Practice, certain non-physician faculty under criteria adopted by the Senior Vice President for Health Sciences, the CEO for the Faculty Group Practice, and the Dean of the College of Medicine and with established University procedures.

APPROVAL OF TUITION INCREASES FOR FY 2013
Resolution No. 2012-122

Synopsis: Approval of instructional and general fees and non-residential surcharge increases for undergraduate and graduate students at all campuses of The Ohio State University for the 2013 fiscal year is proposed.

WHEREAS the Board of Trustees of The Ohio State University supports the University’s continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS resident undergraduate instructional and general fees are subject to a 3.5% instructional and general fee cap for State Fiscal Year 2013, as required by the proposed State of Ohio biennial budget bill; and

WHEREAS the proposed State of Ohio biennial budget bill reduced funding in FY 2012 to institutions of higher education by lowering the State Share of Instruction and special purpose appropriations, and continues to fund institutions at this reduced level resulting in an estimated loss of State Share of Instruction for The Ohio State University in excess of $64 million in comparison to FY 2011; and

WHEREAS consultations have taken place within the University to determine the appropriate tuition increase for all campuses for Ohio State undergraduate and graduate programs and the non-resident surcharge for the 2013 academic year; and

WHEREAS the administration now presents instructional and general and non-resident surcharge increase recommendations for the Columbus Campus and for Lima, Mansfield, Marion and Newark Campuses and for the Agricultural Technical Institute (ATI) at Wooster for the 2013 academic year:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby confirms the recommendation of the administration and hereby approves tuition increases as follows:

- That instructional fees for undergraduates enrolled at the Columbus Campus will increase 3.5%, resulting in an overall increase of 3.2%;
That instructional fees for undergraduates at the regional and ATI campuses will increase approximately 3.5% for the 2012 academic year, effective for Autumn Semester 2012;

That instructional fees for graduate programs will increase 3.5% for the 2013 academic year, effective Autumn Semester 2012;

That the non-resident surcharge for undergraduates and most graduate students will be increased by 3.5% for the 2013 academic year, effective Autumn Semester 2012 and at the regional and ATI campuses will increase 3.5% for the 2013 academic year, effective Autumn Semester 2012;

That a new charge be established for undergraduate students registering for more than 18 credit hours per semester assessed on a per credit hour basis for both instructional and general fees and the non-resident surcharge;

That a new surcharge of $500 per semester be established for new international students.

***

APPROVAL OF FY 2013 USER FEES AND CHARGES
Resolution No. 2012-123

Synopsis: FY 2013 user fees and charges at the Ohio State and Regional Campuses for Fiscal Year 2013 are proposed, effective Autumn Semester of Fiscal Year 2013.

WHEREAS the Board of Trustees of The Ohio State University supports the University’s continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional and general fee increases for Ohio State graduate and professional programs, Ohio State room and board charges, and other user charges for self-supporting units as described in the accompanying text and tables which have been reviewed and recommended:

NOW THEREFORE

BE IT RESOLVED, That the Room and Board fees will be increased approximately 4.8% to 5.0%, existing fees will be increased, and new fees implemented as outlined in the attached document as presented to the Finance Committee of the Board of Trustees; and

BE IT FURTHER RESOLVED, That the University Health System charges rate increase by 6.5%; and

BE IT FURTHER RESOLVED, That all of these increases described in the attached document shall be effective Autumn Semester of Fiscal Year 2013, except where otherwise indicated, and charges for the Health System shall be effective July 1, 2012.

***

APPROVAL OF INTERIM BUDGET FOR FY 2013
Resolution No. 2012-124

Synopsis: Authorization to make expenditures in Fiscal Year 2013 is proposed.

WHEREAS the State of Ohio is in the process of a mid-biennial review of the State Fiscal Year 2012-State Fiscal Year 2013 state budget; and

WHEREAS the notification of the amount of the state subsidy funding level from the Board of Regents has recently been finalized; and
WHEREAS the University has not yet finalized its operating budget for Fiscal Year 2013; and

WHEREAS it is necessary to continue University expenditures, including payment of faculty and staff, prior to the time that the Current Funds Budget for Fiscal Year 2013 is finalized and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University is authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2012, pending the adoption of the Current Funds Budget for Fiscal Year 2013 at the August 31, 2012 Board of Trustees' meeting.

AUTHORIZATION TO ENTER INTO A LAND EXCHANGE AGREEMENT

Resolution No. 2012-126

PROPOSED LAND EXCHANGE (9.009 ACRES) BETWEEN STATE OF OHIO AND THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES UNIVERSITY AIRPORT AT DON SCOTT FIELD COLUMBUS, OHIO

SYNOPSIS: Authorization is requested to enter into an agreement to exchange 9.009 acres of vacant land owned by the State of Ohio for 9.009 acres of vacant land (3 parcels) owned by The Ohio State University-Board of Trustees at The University Airport, Don Scott Field, located at Columbus, Ohio.

WHEREAS the State of Ohio, for the benefit of The Ohio State University, owns real estate located on the northern boundary of the University Airport; and

WHEREAS the Board of Trustees also owns real estate located on the northern boundary of the University Airport; and

WHEREAS the Board of Trustees will transfer its interest in the three (3) parcels of land (7.648 acres, 0.198 acres and 1.163 acres) to the State of Ohio and the State of Ohio will transfer its interest in the one (1) parcel of land (9.009 acres) to the Board of Trustees; and

WHEREAS the result of this land exchange is to clarify and straighten the northern boundary of the airport property; and

WHEREAS there will be no net gain of revenue to either party as a result of this transfer and the Land Exchange is in the best interest of the University; and

WHEREAS the University has a long, cooperative and mutually beneficial relationship with the Federal Aviation Administration (FAA) regarding the operation of the University Airport and has obtained its approval of this exchange in a letter dated February 22, 2012:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to take any action required to effect the execution of this land exchange at such terms determined to be in the best interest of the University.

(See Appendix XLIX for background information, page 1123.)

SALE OF REAL ESTATE

Resolution No. 2012-127

OARDC Southern Branch Farm, 275+/- acres
US Route 62/68, Brown County, Ohio

Synopsis: Authorization is requested to sell a farm owned by the State of Ohio for the benefit of The Ohio State University, containing approximately 275 acres located along State Route 68, in Brown County, near Ripley Ohio.

WHEREAS this property has been declared excess to the University’s immediate and long-term needs and no longer serves the academic mission of OARDC, the property is considered a disposable asset; and

WHEREAS this property has been appraised for $752,000 and the indicated highest and best use of the property is for continued farming and possible livestock operations; and
WHEREAS the appropriate University offices have determined that the sale of this property is in the best interest of the University; and

WHEREAS legislation has been introduced to authorize the Governor to execute a deed to convey title to the property from the State of Ohio:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to sell property containing approximately 275 acres, located on US Route 68, in Brown County, Union Township, Ohio, upon such terms and conditions deemed to be in the best interest of the University and a purchase price of no less than 90% of the appraised value. Proceeds from the sale will be used by OARDC’s Outlying Agricultural Research Stations Endowment Fund to support operating expenses and infrastructure improvements at OARDC’s research stations.

(See Appendix L for background information, page 1125.)

***

SALE OF REAL ESTATE

Resolution No. 2012-128

SALE OF FORMER ATI RESIDENCE HALL
1427 DOVER ROAD, WOOSTER, OHIO

Synopsis: Authorization is requested to sell improved property owned by the State of Ohio for the benefit of The Ohio State University located at 1427 Dover Road, Wooster, Ohio, known as the former ATI Residence Hall.

WHEREAS the property is vacant and the expense of operating the property is not offset by income derived from the property; and

WHEREAS it has been determined that the property is no longer needed to provide student housing for the ATI Campus, and the property is not required for any other use by either ATI or OARDC; and

WHEREAS an appraisal of the property was recently completed and indicated that the current market value of the property is $1,000,000; and

WHEREAS appropriate University offices have determined that the property is excess to any immediate or future need of the University and a sale of this property is in the best interest of the University; and

WHEREAS legislation has been introduced to authorize the Governor to execute a deed to convey title to the property from the State of Ohio:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to take any action required to effect the sale of the property for a purchase price of no less than 90% of the appraised value and to negotiate a purchase contract containing terms and conditions deemed to be in the best interest of the University.

AMENDMENT OF A SUBLEASE

Resolution No. 2012-129

BETWEEN SCITECH AND THE OHIO STATE UNIVERSITY
VEHICLE SIMULATION PROJECT
COLUMBUS, OHIO

Synopsis: Authorization is requested to amend the sublease with SciTech, a not-for-profit corporation, to include two (2) successive five (5) year renewal options for approximately 5,800 square feet, for the continuation of vehicle simulation research on behalf of The Ohio State University-Office of Research located at 1305 Kinnear Road, Columbus, Ohio.

WHEREAS the Board of Trustees of The Ohio State University and the State of Ohio is presented with the opportunity to extend the term of the current 5 year lease of real property with SciTech in Columbus, Ohio; and

WHEREAS the renewal options to extend the lease term will provide for continued research for purposes deemed critical to the vehicle simulation project; and

WHEREAS The Ohio State University-Office of Research will pay rent / operating expenses in the amount of $1.35M over the term of the lease; and

WHEREAS the proposed Tenant Improvements and the cost to purchase the vehicle simulator are estimated to be $950,000 and will be paid for with funds already deposited with the University by Honda R & D Americas, Inc.; and

WHEREAS the approval of the renewal options for the continuation of vehicle simulation research is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to take any action required to effect the execution of the proposed renewal options with SciTech at such terms determined to be in the best interest of the University.

APPROVAL OF LEASE

Resolution No. 2012-130

BETWEEN SCITECH AND THE OHIO STATE UNIVERSITY
The Molecular Imaging Pharmaceutical Research Center of the Wright Center of Innovation Biomedical Imaging
1212-1218 Kinnear Road
Columbus, Ohio

Synopsis: Authorization is requested for entering into a 30 year lease of approximately 11,565 square feet with SciTech, a not-for-profit corporation, for the development of research space for The Molecular Imaging Pharmaceutical Research Center to be located at 1212-1218 Kinnear, Columbus, Ohio.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a 30 year lease of real property with two five (5) year renewals in Columbus, Ohio with SciTech; and
WHEREAS The Ohio State University, Office of Research will pay $1.00/year in base rent and estimated operating expenses in year one in the amount of $230,000.00; and

WHEREAS Tenant Improvements will be approximately $3.7M and the primary funding for rent, operating expenses and Tenant Improvements will be funded by the Ohio Imaging Research and Innovation Network (OIRAIN) grant; and

WHEREAS the lease of this facility is in the best interest of the University as the Center is envisioned to serve as a magnet for small business and startup commercialization efforts and will be an invaluable resource for many national funding pursuits (NIH, NSF, DOD) as well as commercial research collaborations efforts with Battelle Health and Life Science:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to take any action required to effect the execution of a 30 year lease with SciTech at such terms determined to be in the best interest of the University.

(See Appendix LIII for background information, page 1130.)

***

AUTHORIZATION FOR THE ISSUANCE OF ADDITIONAL GENERAL RECEIPTS BONDS, COMMERCIAL PAPER NOTES AND SUBORDINATED INDEBTEDNESS

Resolution No. 2012-131

Synopsis: Authorization for the issuance and sale of general receipts bonds, commercial paper notes and subordinated indebtedness in an aggregate principal amount not to exceed $1 billion, for the purposes of financing, on an interim and/or permanent basis, the costs of certain University capital improvement projects, refunding the outstanding principal amount of current obligations of the University, and paying costs and expenses associated with the issuance of such debt, and authorization for amendments to the existing trust indenture and other documents as required is proposed.

WHEREAS pursuant to Sections 3345.11 and 3345.12 of the Ohio Revised Code (the “Act”), as enacted under authority of the Constitution of Ohio, particularly Section 2i of Article VIII thereof, The Ohio State University (the “University”), a state university of the State of Ohio (the “State”), created and existing under Chapter 3335 of the Ohio Revised Code, is authorized and empowered, among other things, (a) to issue its obligations to pay the costs of certain “facilities,” as defined in the Act, and to refund, fund or retire bonds and other obligations previously issued for such purpose; (b) to pledge to the payment of its obligations all or a specified part of its “available receipts,” as defined in the Act (the “General Receipts”) in priority to all other expenses, claims or payments; (c) to covenant that the University will make, fix, adjust and collect the fees, rates, rentals, charges and other items comprising General Receipts to produce General Receipts sufficient at all times to meet Debt Service Charges (as defined in the Amended and Restated Trust Indenture described below) on the Obligations, to establish and to maintain the required reserves and meet other requirements herein provided; and (d) to provide for a trust indenture and make further provisions for securing the payment of the Debt Service Charges; and

WHEREAS the University, by resolution adopted by its Board of Trustees (the “Board”) on November 1, 1985 (the “Series 1985A Bond Resolution”), and by a Trust Indenture dated as of November 15, 1985 (the “Original Indenture”) between the University and The Huntington National Bank, as Trustee (the “Trustee”), provided for the issuance from time to time of General Receipts Bonds of the University; and

WHEREAS the University, pursuant to the terms of a resolution adopted by the Board on October 1, 1999 (the “1999 General Bond Resolution”), amended and restated the Original Indenture, as supplemented, in accordance with the terms thereof, by entering into the
June 22, 2012 meeting, Board of Trustees

Amended and Restated Trust Indenture dated as of December 1, 1999 (the “Amended and Restated Trust Indenture”) with the Trustee; and

WHEREAS the Amended and Restated Trust Indenture provides that Obligations (as defined therein) may be issued pursuant to the terms thereof, with each such issue to be authorized by a Series Resolution (as defined therein) adopted by the Board and secured pursuant to the terms of a Supplemental Indenture (as defined therein), with respect to such issue (the Amended and Restated Trust Indenture and all Supplemental Indentures thereto being collectively referred to herein as the “Indenture”); and

WHEREAS the Indenture permits the University to incur Subordinated Indebtedness (as defined therein) otherwise than pursuant to the Indenture upon the satisfaction of the conditions for such incurrence established in the Indenture; and

WHEREAS the University has from time to time authorized the issuance of the Obligations listed on Schedule 1 attached hereto and made a part hereof pursuant to the Series 1985 A Bond Resolution, the Original Indenture, the 1999 General Bond Resolution, the Amended and Restated Trust Indenture, various supplements to the Original Indenture and the Amended and Restated Trust Indenture and various Series Resolutions; and

WHEREAS the Board has determined that it is in the best interests of the University to authorize the issuance of The Ohio State University General Receipts Bonds and Commercial Paper Notes (the “Senior Obligations”) and Subordinated Indebtedness (the “Subordinated Indebtedness”), in one or more series, for the purposes of financing, on an interim and/or permanent basis, the costs of University Facilities, refunding, on a current or advance refunding basis, Outstanding Obligations of the University as determined herein, and paying costs and expenses associated with the issuance the Senior Obligations and Subordinated Indebtedness, and desires to make provisions for (i) the issuance of the Senior Obligations and the payment of Debt Service Charges thereon and the securing thereof by this Resolution and the supplement(s) to the Amended and Restated Trust Indenture as provided by this Resolution and (ii) the issuance of Subordinated Indebtedness and securing thereof by this Resolution and a Subordinated Indebtedness Indenture (as defined below) with all terms used herein with initial capitalization where the rules of grammar would not otherwise so require and not defined herein having the meanings given them in the Indenture:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University hereby authorizes the issuance of the Senior Obligations and Subordinated Indebtedness in an aggregate amount not to exceed One Billion Dollars ($1,000,000,000) for the purposes as set forth in the recitals to this resolution; provided, however, that such limitation shall not apply to any Bonds or Notes authorized to be issued under this Resolution to retire or refund Commercial Paper Notes previously issued under this Resolution, to the extent that the principal amount of such refunding Obligations does not exceed the principal amount of the Commercial Paper Notes to be retired or refunded; and

BE IT FURTHER RESOLVED, That any debt authorized by this resolution shall not be issued after June 30, 2014; and

BE IT FURTHER RESOLVED, That the Board of Trustees hereby authorizes the President and/or Senior Vice President for Business and Finance, or either of them, upon consultation with the Chair of the Finance Committee of this Board and upon consultation with the Senior Vice President for Legal Affairs and General Counsel and any outside counsel retained for this purpose, to determine (a) the time or times that any of the Senior Obligations or Subordinated Indebtedness shall be issued as provided in this Resolution, (b) the principal amount, subject to the limitations prescribed herein, and type of debt to be issued from time to time, (c) the rate or rates of interest to be borne by such Senior Obligations or Subordinated Indebtedness, whether fixed or variable; provided, however,
that in no event shall the interest rate on any series of Senior Obligations or Subordinated Indebtedness exceed eight percent (8.00%) per annum, (d) whether any interest rates shall be fixed or variable and (e) the maturity or maturities of any of the Senior Obligations or Subordinated Indebtedness; provided, however, the maximum maturity of any Senior Obligations or Subordinated Indebtedness shall not exceed 35 years or such lesser term as may be required by law, any or all of which terms, as well as any terms required by Section 2.02 of the Indenture, may be set forth in one or more Certificates of Award executed and delivered by the President and Senior Vice President for Business and Finance, or either of them, in connection with the issuance and sale of the Senior Obligations or Subordinated Indebtedness, the execution and delivery of such Certificates of Award and any of them being hereby authorized; and

BE IT FURTHER RESOLVED, That the President or Senior Vice President for Business and Finance, or either of them, is hereby authorized and directed (a) to make or effect any election, selection, designation, choice, consent, approval or waiver on behalf of the University with respect to the Senior Obligations and Subordinated Indebtedness as permitted or required to be made or given under the federal income tax laws, for the purpose of assuring, enhancing or protecting favorable tax treatment or the status of the Senior Obligations and Subordinated Indebtedness or interest thereon or assisting compliance with requirements for that purpose, reducing the burden or expense of such compliance, reducing any rebate amount or any payment of penalties, or making any payments of special amounts in lieu of making computations to determine, or paying, any excess earnings as rebate, or obviating those amounts or payments on behalf of the University; (b) to take any and all actions, make or obtain calculations, and make or give reports, covenants and certifications of and on behalf of the University, as may be appropriate to assure the status of the Senior Obligations and Subordinated Indebtedness as Tax Exempt Bonds; and (c) to give an appropriate certificate on behalf of the University for inclusion in the transcript of proceedings setting forth the facts, estimates and circumstances, and reasonable expectations of the University pertaining to Section 148 and the Regulations, and the representations, warranties and covenants of the University regarding compliance by the University with Sections 141 through 150 of the Code and the Regulations, as applicable; and

BE IT FURTHER RESOLVED, That the President and Senior Vice President for Business and Finance, or either of them, is authorized to negotiate and execute, on behalf of the University and this Board, such supplement or supplements to the Amended and Restated Trust Indenture, any indenture or agreement providing for the issuance and securing of the Subordinated Indebtedness (the "Subordinated Indebtedness Indenture"), any purchase contract for the sale of the Senior Obligations or the Subordinated Indebtedness, any escrow agreement, continuing disclosure agreement, any interest rate management or hedging contract, credit support or enhancement contract, any official statement or other offering document relating to the offer and sale of the Senior Obligations and the Subordinated Indebtedness, the use and distribution of which is hereby authorized and any other agreement, receipt, certificate or document (collectively the "Transaction Documents") as the President or Senior Vice President for Business and Finance or either of them shall deem necessary or appropriate to carry out this resolution and to provide for the most beneficial commercial terms reasonably available to the University in substantially the form of similar agreements Transaction Documents previously executed by the University in connection with the issuance of other Obligations of the University and not materially adverse to the University, with the execution by the President or Senior Vice President for Business and Finance of any such Transaction Documents constituting the conclusive determination of such officer that the terms of such Transaction Document are not materially adverse to the University; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance is authorized to call for optional redemption at the earliest date on which any Obligations to be refunded by the Senior Obligations may be redeemed pursuant to the Indenture, and the execution and delivery of a Supplemental Indenture for such Senior Obligations that provides for such refunding shall constitute the irrevocable direction to the Trustee to send
June 22, 2012 meeting, Board of Trustees

such notices as are required by the Indenture to effect such call for redemption. The execution of any such Supplemental Indenture shall constitute the receipt by the Trustee of such direction and the agreement by the Trustee to give any such notice; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance shall report to the Board’s Finance Committee on a regular basis all actions taken in pursuant to this resolution; and

BE IT FURTHER RESOLVED, That it is found and determined that all formal actions of this Board concerning and relating to the adoption of this resolution were adopted in an open meeting of this Board, and that all deliberations of this Board and of any of its committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code; and

BE IT FURTHER RESOLVED, That this resolution shall take effect and be in force immediately upon its adoption.

June 22, 2012 meeting, Board of Trustees

Mr. Schottenstein:

May I please have a motion? Will the Secretary please call the roll?

Dr. Horn:

Motion carries, Mr. Chairman.

Upon motion of Mr. Hicks, seconded by Mr. Jurgensen, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, case by Trustees Hicks, Fisher, Schottenstein, Marbley, Kass, Reid, Jurgensen, Wadsworth, Shumate, and Krueger.

Mr. Schottenstein:

Thank you. If there is no other business to come before the Board, our meeting stands adjourned. Our next meeting will take place on Friday, August 31st. Thank you, everyone, for being here.

***

Thereupon the Board adjourned to meet Friday, August 31, 2012, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Robert H. Schottenstein  David G. Horn
Chairman  Secretary

June 22, 2012 meeting, Board of Trustees

3335-21-01 General Provisions

(A) TITLE; REFERENCES.
These Rules shall be known and may be cited as The Ohio State University Traffic and Parking Rules, or just the University Traffic Rules. References throughout these Rules to “these Rules” shall be deemed to mean and include all of the provisions of these Ohio State University Traffic and Parking Rules.

(BA) AUTHORITY; REPEAL OF PREVIOUS RULES AND REGULATIONS.
These Rules Regulations, governing traffic and parking upon the streets and roadways, property and grounds of the University, are enacted pursuant to authority vested in the Board of Trustees by Ohio Revised Code (ORC) Chapters 3335 and 3345. All previous rules and regulations of the Board pertaining to traffic and parking are hereby repealed.

(CB) APPLICATION OF REGULATIONS; COLLECTION OF ASSESSMENTS; INCORPORATION OF STATE LAW.
These Rules Regulations constitute a dual system of enforcement of traffic laws and rules and regulations. They are enforceable by contract against faculty, staff, students, employees, students and agents of the University, as well as visitors to the University. Such assessments made under these Rules are enforceable by civil action against a violator in any court of competent jurisdiction. Incorporated by reference into these Rules Regulations are all State laws, when applicable, which are enforceable against any person, including the above specified persons, in any court of competent jurisdiction, pursuant to the authority conferred upon the Board of Trustees by Ohio ORC C–Chapters 3335 and 3345. The authority granted to the Board of Trustees by Ohio ORC C–Chapters 3335 and 3345, the authority granted to the University under the Concession Agreement contract, the authority to perform such obligations, to the extent of the authority granted by the University under such contract.

(DC) CERTIFICATION AND PUBLICATION OF REGULATIONS.
The Secretary of the Board of Trustees shall certify the passage of these Rules Regulations and cause the same to be published for public distribution in a manner reasonably designed to come to the attention of, and be made available to all faculty, staff, employees, students, and visitors.

(ED) EFFECTIVE DATE.
These Rules Regulations shall take effect from and after the date of their approval by the Board of Trustees.

(EE) SEPARABILITY.
If any Regulation or any part of these Rules any Regulation is, for any reason, held to be invalid or unenforceable, such decision shall not affect the validity of the remaining any other Regulation or any other parts of these Rules of a Regulation not specifically held to be invalid or unenforceable.

3335-21-02 Definitions

IN GENERAL.
As used in these Rules Regulations, the following words and phrases shall, for the purpose of these Rules Regulations, have the meanings respectively ascribed to them in this chapter.

(A) ACCIDENT/CONCESSION AGREEMENT.
“Accident” and “motor vehicle accident” mean any accident involving a motor vehicle which results in bodily injury to or death of any person or damage to the
property of any person in excess of one hundred fifty dollars ($150.00).–The term “Concession Agreement” means the “Long Term Lease and Concession Agreement for The Ohio State University Parking System” between the University and the Parking Operator.

(B) ALLEY.
   “Alley” means those driveways used primarily for the convenience of the University and not generally used for purposes of through traffic.

(C) ASSESSMENT.
   “Assessment” means the sum exacted of faculty, employees, students, visitors and agents for violation of any of the provisions of these Rules, which sum constitutes the liquidated damages for violation of the contract existing by and between the University and faculty, employees, students, visitors and agents. Assessments are established by Transportation and Parking Services, approved by the Senior Vice President for Business and Finance of the University and adopted by the Board of Trustees.

(D) AUTHORIZED EMERGENCY VEHICLE.
   “Authorized emergency vehicle” or “emergency vehicle” means emergency vehicles of the University, municipal, township, or county departments or public utility corporations when identified as such as required by law, the Ohio Director of Public Safety, or local authorities, and motor vehicles when commandeered by a police officer. (ORC 4511.01(D))

(E) BICYCLE.
   “Bicycle” means every device, other than a tricycle designed solely for use as a play vehicle by a child, propelled solely by human power, upon which any person may ride, having either two tandem wheels or one wheel in the front and two wheels in the rear, any of which is more than fourteen inches in diameter. (ORC 4511.01(G))

(F) BOARD.
   “Board” and “Board of Trustees” means the Board of Trustees of The Ohio State University.

(G) BUS.
   “Bus” means every motor vehicle designed for carrying more than nine passengers and used for the transportation of persons, other than a ride sharing arrangement, and every other motor vehicle, automobile for hire or funeral car, other than a taxicab or motor vehicle used in a ride sharing arrangement, designed and used for the transportation of persons for compensation. (ORC 4511.01(L))

(H) COMMERCIAL VEHICLE.
   “Commercial vehicle” means every vehicle designed, maintained or used primarily for the transportation of property.

(I) CONTRACTOR.
   “Contractor” means any person, including an employee, who undertakes by contract to perform work or service or to supply articles at a certain price or rate.

(J) CROSSWALK. “Crosswalk” means:
   (1) That part of a roadway at intersections ordinarily included within the real or projected prolongation of property lines and curb lines and/or, in the absence of curbs, the edges of the traversable roadway;
   (2) Any portion of a roadway at an intersection or elsewhere, distinctly indicated for pedestrian crossing by lines or other markings on the surface;
Notwithstanding paragraphs (1) and (2) of this Rule, there shall not be a crosswalk where local authorities have placed signs indicating no crossing. (ORC 4511.01(LL))

CURB LOADING ZONE.
The term “Curb Loading zone” means a space adjacent to a curb, which is reserved for the exclusive use of vehicles during loading or unloading.

DIVISION OF TRAFFIC AND PARKING.
“Division of Traffic and Parking” means the Division of Traffic and Parking of the University.

DEPARTMENT OF TRANSPORTATION AND PARKING SERVICES.
“Transportation and Parking Services” means the Transportation and Parking Services department of the University.

DIRECTOR.
“Director” means the Director of Transportation and Parking Services.

DRIVER.
“Driver” means any person who drives or is in actual physical control of a vehicle. (ORC 4511.01(Y))

FEE.
The term “Fee” means a sum extracted of faculty, staff, employees, students, visitors and agents for permits, keycards, parking meters, pay parking facilities, parking fines or services. Fees are established by Transportation and Parking Services, approved by the Senior Vice President for Business and Finance of the University and adopted by the Board of Trustees, in accordance with Schedule 5 of the Concession Agreement.

GROUNDS.
The term “Grounds” means all lands belonging to the University or over which the University may have control.

HOSPITAL AND CAMPUS SECURITY OFFICER.
The term “Hospital and Campus Security Officer” means an employee of the Department of Hospital Safety and Security or Campus Security who, when authorized by the Director of Transportation and Parking Services or Public Safety, may perform one or more of the following duties:

1. Direct, regulate to or supervise traffic;
2. Enforce all provisions of these Rules and Regulations pertaining to parking; or
3. Enforce rules and Regulations for bicycles.

INTERSECTION.
“Intersection” means the area embraced within the prolongation or connection of the lateral curb lines or, if none, then the lateral boundary lines of the roadways of two highways which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict.

Where a highway includes two roadways thirty feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. If an intersecting highway also includes two roadways thirty feet or more apart, then every crossing of two roadways of such highways shall be regarded as a separate intersection.

The junction of an alley with a street or highway, or with another alley, shall not constitute an intersection. (ORC 4511.01(KK))
June 22, 2012 meeting, Board of Trustees

(S) LANED STREET OR ROADWAY.
“Laned street or roadway” means a highway or roadway which is divided into two or more clearly marked lanes for vehicular traffic.  (ORC 4511.01(GG))

(IF) LAW ENFORCEMENT OFFICER.
The term “Law enforcement officer” means a Law Enforcement Officer, means a law enforcement officer of the University or any officer authorized to direct, regulate or supervise traffic or to issue citations or make arrests for violations of State traffic law.

(UG) LOADING ZONE.
The term “Loading zone” means a space or spaces adjacent to a building, which are designated for the exclusive use of vehicles during loading or unloading.

(V) MOTOR VEHICLE.
“Motor vehicle” means every vehicle propelled or drawn by power other than muscular power, or power collected from overhead electric trolley wires, except motorized bicycles, road rollers, traction engines, power shovels, power cranes and/or other equipment used in construction work and not designed for or employed in the general highway transportation, hole-digging machinery, ditch digging machinery, well-drilling machinery, farm machinery, trailers used to transport agricultural produce or agricultural production materials between a local place of storage or supply and the farm when drawn or towed on a public street or highway at a speed of twenty-five miles per hour or less, threshing machinery, hay-bailing machinery, and agricultural tractors and machinery used in the production of horticultural, floricultural, agricultural and vegetable products and trailers designed exclusively to transport a boat between a place of storage and a marina, or in and around a marina, when drawn or towed on a street or highway for a distance of no more than 10 miles at a speed of 25 mph or less.  (ORC 4511.01(B))

(W) MOTORCYCLE.
“Motorcycle” means every motor vehicle, other than a tractor, having a saddle for the use of the operator and designed to travel on not more than three wheels in contact with the ground, including, but not limited to, motor vehicles known as “motor-driven cycle,” “motor scooter,” or “motorcycle” without regard to weight or brake horsepower.  (ORC 4511.01(C))

(X) MOTORIZED BICYCLE.
“Motorized bicycle” means any vehicle having either two tandem wheels or one wheel in the front and two wheels in the rear, that is capable of being pedaled and is equipped with a helper motor of not more than fifty cubic centimeters piston displacement that produces no more than one brake horsepower and is capable of propelling the vehicle at a speed of no greater than twenty miles per hour on a level surface.  (ORC 4511.01(H))

(YH) NOTICE OF VIOLATION.
The term “Notice of Violation” means a notice given by the University or the Parking Operator for a violation of any of the provisions of these Rules Regulations.

(Z) OFFICIAL TIME STANDARD.
“Official time standard” means Eastern Standard Time or Eastern Daylight Savings Time, whichever is in effect at the time and in the general area in question.

(AA) OPERATOR.
“Operator” means any person who drives or operates a motor vehicle upon a roadway.
OPERATOR’S LICENSE.
“Operator’s license” means a license issued to any person to operate a motor vehicle or motor-driven cycle, including a “probationary license” and a “restricted license”.

PARK AND PARKING.
The terms “park” and “parking” mean the standing of a vehicle, whether occupied or not, except while actually engaged in loading or unloading merchandise or passengers.

PARKING AREA OPERATOR.
“Parking area” means any portion of the land and property of the University which is designated for the parking of vehicles. The term includes parking lots and parking garages. The term “Parking Operator” shall have the same definition as the “Operator” in the Concession Agreement. This includes any third parties or agents contracted on behalf of the Parking Operator to perform parking services. Notwithstanding anything in these Regulations to the contrary, if at any time there is no Parking Operator or to the extent the Parking Operator is unable to perform its obligations under the Concession Agreement or has not been granted authority under the Concession Agreement, then the University shall have the authority granted to the Parking Operator hereunder.

PARKING ZONE.
“Parking zone” means any portion of University streets or roadways, parking areas, parking lots or parking garages on which the parking of vehicles may be permitted or regulated by the University.

PASSENGER CAR.
“Passenger car” means any vehicle designed and used for carrying not more than nine passengers.

PEDESTRIAN.
“Pedestrian” means any natural person afoot. (ORC 4511.01(X))

PERSON.
“Person” means a natural person, firm, copartnership association or corporation. (ORC 4511.01(W))

PUBLIC SAFETY VEHICLE.
The term “Public safety vehicle” means any of the following:

1. Ambulances, including private ambulance companies under contract to the University or to a municipal corporation, township or county, and private ambulances and non-transport vehicles bearing license plates issued under ORC section 4503.49 of ORC.
2. Motor vehicles used by public Law Enforcement Officers, Traffic Control Officers, Hospital and Campus Security Officers, or other persons sworn to enforce the criminal and traffic laws of the State.
3. Any motor vehicle when properly identified as required by the Ohio Director of Public Safety, when used in response to fire emergency calls or to provide emergency medical service to ill or injured persons, and when operated by a duly qualified person who is a member of a volunteer rescue service or a volunteer fire department and who is on duty pursuant to the rules or directives of that service. The State Fire Marshal shall be designated by the Ohio Director of Public Safety as the certifying agency for all public safety vehicles described in this subsection.
4. Vehicles used by fire departments, including motor vehicles when used by volunteer firefighters responding to emergency calls in the fire department service when identified as required by the Ohio Director of Public Safety.
Any vehicle used to transport or provide emergency medical service to an ill or injured person, when certified as a public safety vehicle, shall be considered a public safety vehicle when transporting an ill or injured person to a hospital regardless of whether such vehicle has already passed a hospital.

(5) Vehicular or non-motorized vehicle used for Transportation and Parking Services.

(6) Any non-motorized vehicle used by the University’s Public Safety Department.

(RESTRICTED LICENCE.

Restricted license means a license issued to any person to operate a motor vehicle, which license is subject to conditions or restrictions.

RESTRICTED ZONE.

Restricted zone means any portion of the Columbus campus of the University where the entry of all motor vehicles is controlled.

RIGHT OF WAY.

The term “Right of way” means the right of a vehicle or pedestrian to proceed uninterrupted in a lawful manner in the direction in which it or the individual is moving in preference to another vehicle or pedestrian approaching from a different direction into its or the individual’s path. (ORC 4511.01(UU))

ROAD AND DRIVEWAY.

“Road” and “driveway” mean a way or place in control of the University and used for vehicular travel by the University and those having express or implied permission from the University, but not by other persons.

ROADWAY.

“Roadway” means that portion of a University road or driveway improved, designed or ordinarily used for vehicular travel exclusive of the berm or shoulder. If a University road or driveway includes two or more separate roadways, the term “roadway,” as used herein, refers to any such roadway separately but not to all such roadways collectively.

RULES.

“Rules” means the Traffic and Parking Rules of The Ohio State University.

SAFETY ZONE.

The term “Safety zone” means the area or space officially set apart within a roadway for the exclusive use of pedestrians and protected or marked or indicated by adequate signs as to be plainly visible at all time. (ORC 4511.01(MM))

SIDEWALK.

“Sidewalk” means that portion of a street between the curb lines or the lateral lines of a roadway and the adjacent property lines intended for the use of pedestrians. (ORC 4511.01(FF))

STAND AND STANDING.

The terms “Stand” and “standing” mean the halting of a vehicle, whether occupied or not, other than for the purpose of and while actually engaged in receiving or discharging passengers.

STATUTE.

The term “Statute” means any provision of State traffic law which is appropriately enforceable by Law Enforcement Officers on University grounds and property.
The term “Stop” when required, means a complete cessation of movement.

The terms “stop” and “standing,” when prohibited, means any halting, even momentarily, of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a Law Enforcement Officer or traffic control sign or signal.

The term “street” or “highway” means the entire width between the boundary lines of every way open to the use of the public as a thoroughfare for purposes of vehicular travel.

“Student traffic officer” means a student who has been hired by Transportation and Parking Services or University Police to assist with traffic control upon any University property or roadway.

“Through street or roadway” means a street, roadway, road or driveway, or portion thereof, on which vehicular traffic is given preferential right of way and at the entrances to which vehicular traffic from intersecting streets, roadways, roads or driveways is required to yield the right of way to vehicles on such through streets, roadways, roads or driveways in obedience to either a stop sign or a yield sign, when such signs are erected as provided in these Rules.

“Traffic” means pedestrians, ridden or herded animals, vehicles and other devices, either singly or together, while using any roadway for purposes of travel.

The term “Traffic Control Officer” means an employee of Transportation and Parking Services The Ohio State University authorized by the Director of Transportation and Parking Services University to perform one or more of the following duties:

1. Direct, regulate or supervise traffic;
2. Investigate traffic accidents;
3. Enforce all provisions of these Rules pertaining to parking;
or
4. Enforce rules and regulations for bicycles, skateboards and roller skates, roller blades, coasters and similar devices.

“Traffic control device” means all flaggers, signs, signals, markings and devices placed or erected by authority of a public body or official having jurisdiction for the purpose of regulating, warning or guiding traffic including signs denoting the names of streets and highways.

“Traffic control signal” means any device, whether manually, electrically or mechanically operated, by which traffic is alternately directed to stop, to proceed, to change direction or not to change direction.

“Traffic control zone” means that area of the University campus protected by vehicle control gates.
UNIFORM TRAFFIC TICKET.
“Uniform traffic ticket” means the Ohio uniform traffic ticket, as provided for in the “Rules of Practice and Procedure in Traffic Cases For All Courts Inferior to Common Pleas” promulgated by the Supreme Court of Ohio.

UNIVERSITY.
“University” means The Ohio State University.

VEHICLE.
“Vehicle” means every device, including a motorized bicycle, in, upon, or by which any person or property may be transported or drawn upon a street or roadway, except motorized wheelchairs, other than bicycles moved by human power. (ORC 4511.01(A))

VIOLATION.
The term “violation” means an act or omission in contravention of any of the provisions of these Rules and/or applicable State statutes.

VISITOR.
The term “visitor” means any person who is not either a faculty member, a staff member, an employee, a student, or a contractor, or a vendor or other agent of the University.

3335-21-03 Transportation and Parking Services

ESTABLISHMENT.
There is hereby established within the Office of Business and Finance the Department of Transportation and Parking Services.

GENERAL FUNCTIONS.
Transportation and Parking Services shall coordinate these Rules, develop ways and means to improve traffic conditions in conjunction with the Department of Public Safety and carry out the specific functions set forth in these Rules. The University will coordinate these functions with the Parking Operator as it deems necessary or desirable. Such specific functions include, but are not limited to the following:

1. Maintenance of a current journal of all official traffic control devices erected on University streets, roadways, property and properties, indicating the location and the date of erection;
2. Regulation of the use of streets, roadways and bicycle paths by vehicles and pedestrians;
3. Regulation of traffic by means of enforcement personnel of the Department, University or the Parking Operator and traffic control devices or, when necessary, with the assistance of Law Enforcement Officers of the University or other agencies, and Hospital and Campus Security Officers, on streets, roadways, land and property and grounds of the University on which traffic may be permitted;
4. Regulation or prohibition of processions on the parts of streets, roadways, land and property and grounds of the University on which traffic may be permitted;
5. Designation of any street or roadway as a through street or roadway or a one-way street or roadway;
6. Designation of an intersection as a stop intersection where all vehicles shall stop at one or more entrances to such intersection; and
7. Regulation of the stopping, standing and parking of vehicles on streets, roadways, land and property and grounds of the University on which traffic may or may not be permitted.
(GB) INSTALLATION OF TRAFFIC DEVICE.
It shall be the general function of the Department of University to determine the installation and proper timing and maintenance of traffic control devices, to conduct analyses of traffic accidents and to devise remedial measures for the same; to conduct engineering investigations of traffic conditions, to plan the operation of traffic on the streets, roadways, property, and lands of the University and to cooperate with other University officials in the development of ways and means to improve traffic conditions.

3335-21-04 Administration of Violations
Transportation and Parking Services Operator shall be responsible for the administrative processing of all traffic parking tickets or and Notices of Violations.

(A) RECORDS OF VIOLATIONS.
The Parking Operator shall maintain records of all violations in accordance with the Concession Agreement.

(1) All records of violations shall be serially numbered, with date and time.
(2) Transportation and Parking Services shall maintain records of all violations of these Rules, together with a record of assessments and collections and the final disposition of all such alleged violations. Such records shall be maintained as to show all types of violations and the total of each. Such records shall be maintained in accordance with University archive policies.

(B) INVESTIGATION OF ACCIDENTS.
Traffic Control Officers shall investigate non-injury related traffic accidents, which occur outside the public roadway, and shall request University Police assistance, if needed for such accident investigations, and shall assist other University officials in enforcing these Rules against violators causing or contributing to such. Traffic Control Officers shall investigate other accidents at the request of the University Police.

(C) ACCIDENT STUDIES.
Whenever the accidents at any particular location become numerous, Transportation and Parking Services, in conjunction with the Department of Public Safety shall conduct studies of such accidents and determine remedial measures.

(D) ACCIDENT REPORTS.
University Police shall maintain all accident reports taken on University property. Such reports shall be maintained and filed in a manner authorized by the Chief of Police.

(E) EMERGENCY AND EXPERIMENTAL RULES REGULATIONS.

(1) Transportation and Parking Services The University is hereby authorized to make effective the provisions of these Rules and Regulations and to make and enforce experimental rules and regulations to cover emergencies or special conditions.
(2) Transportation and Parking Services The University may test traffic control devices under actual conditions of traffic.

(F) ANNUAL REPORT.
The Department of Public Safety shall annually prepare a traffic report which shall be filed with the Office of Business and Finance of the University. Such report shall contain information on University traffic matters, as follows:

(1) The number of traffic accidents, the number of persons killed, the number of persons injured and other pertinent traffic accident data.
June 22, 2012 meeting, Board of Trustees

(2) The number of traffic accidents investigated and other pertinent data on traffic safety activities; and
(3) The plans and recommendations of the Department for future traffic safety activities.

3335-21-05 Enforcement Generally

(A) AUTHORITY OF ENFORCEMENT PERSONNEL.

(1) Law Enforcement Officers, Traffic Control Officers, Hospital and Campus Security Officers and Traffic Control Officers, Parking Operators shall enforce, to the extent authorized, these Rules on University streets, roads, property and premises.
(2) The University Police, Hospital and Campus Security Officers and Traffic Control Officers are hereby authorized to direct all traffic by voice, hand, or signal in conformity with these Rules, provided that in the event of a fire or emergency to expedite traffic or to safeguard pedestrians, such officers may direct traffic as conditions may require, notwithstanding the provisions of these Rules.
(3) Officers of a fire department, when at the scene of a fire or other emergency, may direct or assist in directing traffic at the same place or in the immediate vicinity.
(4) Other staff employed by Transportation and Parking Services the University or Public Safety may, at times, assist with traffic direction.

(B) OBEDIENCE TO ENFORCEMENT PERSONNEL.

No person shall willfully fail or refuse to comply with any lawful order or direction of a Law Enforcement Officer, a fire department official, a Traffic Control Officer, or a Hospital and Campus Security Officer or a Student Traffic Officer.

(C) APPLICATION OF RULES TO PUSHCARTS AND ANIMAL RIDERS.

Persons propelling pushcarts or riding animals shall obey traffic rules. Every person propelling a pushcart or riding an animal shall be subject to the provisions of these Rules which apply to the driver of a vehicle, except those provisions which by their nature can have no application.

(D) APPLICATION OF RULES TO GOVERNMENT VEHICLES.

The provisions of these Rules shall apply to the driver of any vehicle owned by or used in the service of the United States Government, the State of Ohio and its political subdivisions. No such driver shall violate or fail to comply with any of the provisions of these Rules, except as may be otherwise provided in these Rules or in State statutes.

(E) ASSESSMENTS FOR VIOLATIONS.

Whoever breaches his or her contract by violating or failing to comply with any of the provisions of these Rules is subject to an assessment established by the University Police, approved by the Senior Vice President for Business and Finance of the University and adopted by the Board of Trustees. Any faculty, member, staff member, student, employee, contractor, agent or visitor who violates or fails to comply with any of the provisions of these Regulations is subject to an assessment established in accordance with the Concession Agreement or the University.

(F) FORMS AND RECORDS OF NOTICES OF VIOLATION.

Transportation and Parking Services shall provide computer generated or printed books of “Notice of Violation” forms for notifying individuals of alleged violations.
June 22, 2012 meeting, Board of Trustees

and appropriate response to alleged violation options. Such forms shall include serial numbers as prescribed by the Department.

(G) ISSUE OF FORMS.
The Department shall issue such Notice of Violation forms to individual members of the Department, Hospital and Campus Security Officers and University Law Enforcement Officers. The Department shall require and maintain a written receipt for every hand held computer device or book of forms issued.

(H) PROCEDURE UPON TRAFFIC VIOLATIONS.
Except when authorized or directed under State statutes to immediately take a person before a magistrate for the violation of any traffic law, a University Law Enforcement Officer who stops a person for a violation of any State statute, other than for the purpose of giving such person a warning notice, and who does not take such person into custody under arrest for a violation of any State statute, may take the name, address and operator’s license number of such person, the registered number of the motor vehicle involved, and such other pertinent information that may be necessary, and may issue to such person in a local court of competent jurisdiction at a time not more than five days after such alleged violation, which time shall be specified in the notice. The officer, upon issuing such notice, shall allow such person to proceed.

(I) ISSUING NOTICE.
Except when authorized by a State statute to immediately take a person before a magistrate for a violation of any traffic law, a Law Enforcement Officer who stops a person for a violation of any of the provisions of these Rules, other than for the purpose of giving such person a warning, shall take the name, address and operator’s license number of such person, the registration number of the vehicle, the University registration number, and all other information that may be necessary, and may issue to such person a notice of violation of these Rules. The officer, upon issuing such notice, shall then permit such person to proceed.

(J) DISPOSITION AND RECORDS OF TRAFFIC CITATIONS, WARRANTS AND COMPLAINTS.

(1) Every Law Enforcement Officer, upon issuing a uniform traffic ticket to an alleged violator of any provision of a State statute, shall deposit the original and remaining duplicate copies of the notice with his or her immediate superior officer, who shall cause the notice to be delivered to and filed with the local court of competent jurisdiction with the County.

(2) Upon the filing of such original notice in court, as specified, such notice may be disposed of consistent with rules of that court.

(3) The Director of Transportation and Parking Services shall require the return of each Notice of Violation and all copies thereof which have been spoiled or upon which any entry has been made and which have not been issued to an alleged violator.

(4) University Police shall also maintain or cause to be maintained, in connection with every uniform traffic ticket complaint issued by a University Law Enforcement Officer, a record of the disposition of the charge by the court.

(5) The University Police shall also maintain or cause to be maintained a record of all warrants issued by a court of competent jurisdiction and of such State traffic law violation charges which are delivered to the University Police Department for service, and of the final disposition of all such warrants.

(KE) NOTICE OF PARKING VIOLATION.
Whenever any vehicle is found parked or stopped in violation of any of the provisions of these Rules, Regulations, a Traffic Control Officer, a Hospital and Campus Security Officer or a Law Enforcement Officer, the Parking Operator or
authorized University employee finding such vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously place on such vehicle or provide to the violator a Notice of Violation, on a form provided by Transportation and Parking Services, for the driver to answer within a time and at a place specified in such notice.

(MG) NONCOMPLIANCE WITH NOTICE OF PARKING VIOLATION.
If a violator of any of the provisions of these Rules and Regulations does not respond as specified on the Notice of Violation placed on a vehicle or provided to the violator within the specified period of time, Transportation and Parking Services Operator may send to the owner of the motor vehicle to which the notice pertains a letter or a copy of the Notice of Violation informing such owner of the violation and that the related assessment is to be paid. In addition, the Department Parking Operator may take whatever other enforcement action it deems appropriate, authorized to do under the Concession Agreement.

(MG) PRIMA-FACIE LIABILITY FOR PARKING VIOLATIONS.
Preemption in reference to violation. In any action charging a violation of these Regulations governing the stopping, standing or parking of a vehicle, there is presumed a prima-facie presumption that the person who has registered such vehicle with the University Parking Operator was the person who parked or placed such vehicle at the point where, and for the time during which, such violation occurred. In the event that the vehicle is not registered with the University Parking Operator, there is a prima-facie presumption that the registered owner of the vehicle shall be held prima-facie to be was the person controlling, parking or otherwise using the vehicle and committing the violation.

(A) OFFICIAL MISCONDUCT.
No University officer or employee who receives or has custody of an assessment under these Rules, either before or after a deposit in the specified fund, shall fail, refuse or neglect to comply with any of the foregoing provisions of this chapter. Such failure, refusal or neglect shall be deemed misconduct in office and shall be grounds for removal of such officer or employee from office.

3335-21-06 Registration of Motor Vehicles

(A) PARKING; REGISTRATION AND PERMIT REQUIRED.
No faculty member, staff member, employee or student shall at any time park a motor vehicle on any street, roadway, land or property or grounds of the University without first registering such motor vehicle with Transportation and Parking Services Operator and obtaining a permit and displaying such permit on the registered vehicle, unless such vehicle is parked in a pay parking facility or a parking area not controlled by the Department Parking Operator. Visitors may not park a motor vehicle on any street, roadway, property or grounds of the University except at parking meters, in pay facilities or by first obtaining a permit and paying the prescribed fee. Contractors and vendors and other agents shall follow the same registration procedures as faculty, staff and students. Registration of motor vehicles, as required in this chapter, shall be made using application for parking permit forms prescribed by Transportation and Parking Services Operator. Such application forms shall be accompanied by fees established by the Department, approved by the Senior Vice President for Business and Finance of the University and adopted by the Board of Trustees in accordance with the Concession Agreement.

(C) GIVING FALSE INFORMATION.
No person shall give false information when registering a motor vehicle or applying for a permit as provided in this chapter. If such information is given by any person,
June 22, 2012 meeting, Board of Trustees

the registration may be held to be invalid and the permit or decal issued may be revoked and such person giving such false information may be denied registration for a period of one calendar year and, in addition, the person may be referred to proper University authorities for additional disciplinary action as deemed appropriate.

(D) PERMITS GENERALLY.
Parking permits shall be issued to applicants in accordance with the criteria and the fee paid for such issuance as established by Transportation and the Parking Services Operator and the Concession Agreement. Registration is not considered complete until the valid permit or decal is appropriately displayed on the vehicle according to instructions on the back of the permit or decal or as otherwise published by the Department Parking Operator.

(E) FEES.
Fees shall be charged for motor vehicle permits and collected from the applicant at the time application is made. Funds derived from such fees shall be deposited in a fund established for such purpose and such funds shall be used for establishment and maintenance of traffic controls, facilities for parking and equipment, and for enforcement and personnel, including, but not limited to the acquisition of permits or decals, signs and parking meters; construction and maintenance of parking facilities, traffic control devices and other materials and projects for the control of traffic and parking; the maintenance, repair and extension of existing facilities; and the provision of campus transportation services to facilitate parking and traffic. Such funds shall also be pledged in support of payment of such bonds as may be issued for the aforesaid purposes and for salaries of traffic control and parking personnel. Such fees for the Columbus campus of The Ohio State University shall be as established by the Department approved by the Senior Vice President for Business and Finance and adopted by the Board of Trustees.

(F) MOTORCYCLE PARKING.
Motorcycles with Columbus campus motorcycle permits shall park only in areas designated as two and three-wheeled motor vehicle areas between the hours of 5:00 a.m. and 4:00 p.m. Monday through Friday. Motorcycles displaying motorcycle permits shall be allowed to park in four-wheeled motor vehicle areas between the hours of 4:00 p.m. and 2:00 a.m. Monday through Friday, and on weekends beginning at 4:00 p.m. Friday through 2:00 a.m. Monday, except certain areas or zones which may be designated as restricted, limited or reserved and signs shall be posted in accordance with Paragraph (E) (5) of Rule 3335-21-20 of the Administrative Code.

(G) RESERVED AREA PERMITS.
A reserved area parking privilege may be granted under the rules and procedures established by the Department.

(H) ADDITIONAL MOTOR VEHICLE REGISTRATION AND PERMITS.
Faculty, staff, and students may register and obtain a permit for a second motor vehicle upon meeting specified criteria and upon payment of a fee established by the Department, approved by the Senior Vice President for Business and Finance and adopted by the Board of Trustees.

(IE) DISABILITY PERMITS.
Disability permits, allowing the holders thereof to park in areas other than those for which they already hold permits or in which they are already qualified to park under the rules of the Department Parking Operator, may be issued to students, faculty or staff after proof of disability has been established to the satisfaction of the Student Health Center and the Office for Disability Services and certified by a letter to Transportation and Parking Services. Parking under authority of a University disability permit may include on-street parking after 2:00 a.m. shall be issued to any
individual who already has a valid state disability permit; the university permit will expire when the state permit expires. All vehicles parked in reserved disability spaces shall display the license number corresponding to the license number on the sign.

(1) Special parking locations and privileges for the handicapped shall be provided and designated by the Department. Such locations shall be reasonably close to exits, entrances, elevators and garages.
(2) No person who is not handicapped or operating a motor vehicle to transport a handicapped person shall stop, stand or park any motor vehicle at special parking locations provided for the handicapped under this section.

(J) PARKING AT SHORT COURSES, WORKSHOPS, SPECIAL EVENTS AND CONFERENCE MEETINGS.
The Department shall establish rules by which arrangements shall be made to provide parking for visitors who are to attend and take part in short courses, workshops, special events and other conference meetings. Established fees shall be charged for parking. In general, such rules shall provide that individuals or departments or the conference coordinator, at least ten days prior to the commencement of the event, shall notify the Department of the location of the event and the number of persons involved and shall give other information as requested. Upon receipt of such information, arrangements shall be made to provide parking options for the persons participating, and appropriate permits shall be issued designating the area in which those persons may park their vehicles. Any special permits needed for events not outlined in this subsection must be approved by the Director of Transportation & Parking Services prior to their issuance.

(K) RETIREE PERMITS.
Retiree parking permits may be issued to eligible retired faculty members and administrative, professional and classified staff who anticipate the need for occasional parking on campus after their retirement. Eligibility, issuance of permits and appropriate fees for this program shall be established by the Department, subject to the approval of the Senior Vice President for Business and Finance of the University and approved by the Board of Trustees.

(L) PRESS PERMITS.
(1) Transportation and Parking Services has developed a press parking permit. The Office of University Relations shall distribute these permits to media personnel only and shall provide Transportation and Parking Services with the name, affiliation and license number(s) of persons to whom such permits are issued. This permit will allow parking as defined on the back of the permit while the news media representative is on official business only. Faculty, staff or students affiliated with the University must also purchase and display a valid University parking permit.
(2) Citations shall be issued when a vehicle is improperly parked or creating a hazard or the permit is being used improperly.
(3) Citations for violations shall be voided only on a case-by-case basis according to regular appeal procedures.
(4) Media representatives who identify themselves as such will be allowed inside the traffic control area.
(5) The Office of University Relations shall alert media representatives of these procedures.
(6) These permits shall be issued on an annual basis or as needed to meet short-term needs.

(M) EXPIRATION OF PERMITS.
Permits described in this chapter, when issued, shall expire as identified on the permit.
DISPLAY OF PERMITS: TRANSFER OF VEHICLES.
Permits, decals, or cards for the current period, are issued to a specific individual or department, and shall be displayed in a motor vehicle and used in accordance with the rules of Transportation and the Parking Services Operator.

(1) Permits - Transportation and the Parking Services Operator shall be notified if new license plates are obtained.

(2) Decals - If a motor vehicle for which a permit has been issued is transferred, or windshield replaced, the decal shall be removed from the vehicle and the remnants presented to the Department Parking Operator for issuance of a new decal. If no such remnants are presented for replacement decals, the applicant must show proof that the decal is unobtainable, and an affidavit shall be signed certifying that the previous decals have been destroyed and shall assume full responsibility for their unauthorized use if found in service. If the applicant cannot show proof that the decals are unobtainable, the issuance of decals shall be at the established fee for original registration.

UNAUTHORIZED USE OF PERMIT.
Parking permits are not transferable to other individuals. Persons having registered vehicles and displaying a permit, may not allow their registered vehicle to be parked on campus by any person other than the registrant. The appropriate assessment shall be made for each violation. This Rule Regulation shall not apply in lots not under the control of Transportation and the Parking Services Operator or in pay facilities if the full parking fee is paid. The permit is the property of The Ohio State University and may be recalled if not used in accordance with University rules. A violator of this subsection shall, for a first offense, receive a citation and be assessed the appropriate fee. A second violation will result in an assessment and may result in the loss of parking privileges for the remainder of the academic year.

UNAUTHORIZED USE OF DECAL/KEY CARDS.
In some cases, parking decals are issued with a separate keycard. When this occurs, the keycard may only be used in conjunction with the decal.

DEFACING, REPRODUCTION OF AND USE OF REVOKED PERMITS.
No person shall deface, reproduce or use a parking permit, decal or sticker contrary to these Rules Regulations and no person shall use a permit, decal or sticker after the same has been revoked.

PARKING OF UNREGISTERED VEHICLES.
No person who is required to register a motor vehicle and display a parking permit, but who has not so registered, shall park such motor vehicle on any street, roadway, land or property or grounds of the University unless parked in a pay facility or at a paid parking meter. Whoever violates this section shall be charged assessed the appropriate fee, or referred to University authorities for disciplinary action deemed appropriate, or both.

RESERVED PARKING AREAS.
Certain parking areas, by rule of Transportation and Parking Services established in accordance with the Concession Agreement, may be reserved at all times or at special times. If such rules or regulations relating to reservation are promulgated, they shall be effective upon the placement of signs giving notice of such reservation and limitation on parking areas so selected.

PARKING RECIPROCITY AUTHORITY AMONG CAMPUSES.

(1) Parking privileges for motor vehicles registered with the University are reciprocal in comparable areas between all regional campuses of the University and the Columbus campus only if the current Columbus permit is displayed.
June 22, 2012 meeting, Board of Trustees

(2) All vehicles not displaying current Columbus campus permits shall use pay parking facilities exclusively.

(3) The University has delegated the authority to administer, regulate and enforce traffic and parking on each of the University’s regional campuses to the Dean/Director of their campuses. Each regional campus has on file in the office of the Director of Transportation and Parking Services a copy of its rules as approved by the regional campus Dean and Director. In addition, these Rules are approved by the Board of Trustees of each technical college sharing a University regional campus.

VISITOR PARKING.
All visitors to the campus shall park in pay parking areas designated by Transportation and the Parking Services Operator or display a valid visitor parking permit.

3333-21-07 Impounding

(A) DISABLED VEHICLES OBSTRUCTING TRAFFIC.

(1) University Law Enforcement Officers or Traffic Control Officers of Transportation and Parking Services are hereby authorized to remove a vehicle from a street or roadway to the nearest garage or other place of safety when a vehicle upon a street or roadway is so disabled as to constitute an obstruction to traffic and the person in charge of the vehicle is, by reason of injury, incapacitated to such an extent as to be unable to provide for its custody or removal.

(2) When a vehicle, left unattended upon a street or roadway, has been removed, and the officer knows or is able to ascertain from the registration records in the vehicle the name and address of the owner thereof, Transportation and Parking Services the University shall immediately give or cause to be given notice to such owner of the facts of the removal, the reasons therefore, and the place to which such vehicle has been relocated.

(3) Whenever an officer removes a motor vehicle from a street or roadway under this section and does not know and is not able to ascertain the name of the owner, or for any other reason is unable to give notice to the owner as hereinbefore provided, and if the vehicle is not returned to the owner within a period of thirty days, then Transportation and Parking Services the University shall immediately cause the vehicle to be turned over to the Sheriff’s Department for disposition in accordance with State law applicable to abandoned vehicles. (See Ohio ORC C.4513.50 et seq.)

(B) OTHER REASONS FOR IMPOUNDING.
In addition to other powers of enforcement, Transportation and each of the University and, to the extent the following occur within a parking area subject to the Concession Agreement, the Parking Services Operator is hereby authorized and directed to impound any vehicle and hold the same in custody, as designated by the Director, if such vehicle is:

(1.) On a sidewalk;
(2.) Within an intersection;
(3.) On a crosswalk;
(4.) Within thirty feet of, and upon the approach to, any flashing beacon, stop sign or traffic control device;
(5.) In any area where such standing or parking would obstruct construction, traffic, or prevent University services from being conducted;
(6.) Parked within ten feet of a fire hydrant;
June 22, 2012 meeting, Board of Trustees

(7.) Parked in such a way as to block a driveway or a service entrance, create a hazard to public safety or impede construction or maintenance requirements;

(8.) Parked in an area for which “no parking-tow-away area” or other restrictive signs or traffic control devices are erected;

(9.) Has $50 or more in Subject to unpaid or unsettled Notices of Violation issued against it in the aggregate amount of $150 or more; or

(10.) An unauthorized vehicle parked in a space or area reserved for persons with disabilities.

11. A vehicle found parking on campus where Transportation and Parking Services has documented and verified information that indicates abuse of a permit or placard has occurred.

12. A vehicle parked contrary to these Rules.

(C) VEHICLE IMMOBILIZING.
Depending upon the circumstances, Transportation and The University or the Parking Services Operator may elect to immobilize a vehicle in addition to or in lieu of impoundment.

(D) ENTERING AN IMPOUNDED VEHICLE:
Any University Law Enforcement Officer or Traffic Control Officer has the right to enter an impounded vehicle if a lost, stolen, altered, reproduced, forged, or revoked permit is in use, or a state issued disability parking placard is displayed which is not assigned to the driver of said vehicle.

(E) CHARGES AND ASSESSMENTS.
Any vehicle impounded shall be subject to towing and storage charges and all outstanding assessments as promulgated by Transportation and Parking Services and approved by the Board of Trustees established in accordance with the Concession Agreement.

3335-21-08 Assessments and Disciplinary Action

(A) OPTION TO PAY ASSESSMENT OR APPEAL.
Any person receiving a Notice of Violation of any of the provisions of these RulesRegulations for which payment of an assessment may be made to Transportation and the Parking Services Operator shall have the option of paying such assessment within the time specified in the Notice of Violation at the office of the Department or appearing at the office of the Department within the time specified in the Notice of Violation and Parking Operator or filing a written appeal for final disposition of the alleged violation in accordance with the appeals procedure provided for in these Rules as established by the Parking Operator.

(B) PAYMENT OF ASSESSMENT.
The payment of an assessment to the DepartmentParking Operator shall be deemed an acknowledgement of the violation of these Regulations and a breach of contract pursuant to any registration with the University, and the DepartmentParking Operator, upon accepting the prescribed assessment, shall issue a receipt to the violator acknowledging payment thereof.

(C) FAILURE TO PAY ASSESSMENTS; REVOCATION OF PRIVILEGES; COLLECTION OF DEBT.
If a person upon whom a Notice of Violation is served, or the owner of a vehicle upon which a Notice of Violation is placed, fails, within fifteen days after service of such notice, to pay the prescribed assessment or to request an appeal, as provided for in this chapter, or fails to pay the prescribed assessment as affirmed on appeal, Transportation and the Parking Services Operator may initiate a procedure to enforce the University’s contract with or discipline Regulations and
obtain the assessment against any student, or to enforce the University’s contract with any faculty member, staff member, employee or agent of the University, by revoking the parking privileges on campus or by revoking or withholding any of the benefits appertaining to students, employees, faculty or agents by virtue of their relationship with the University or any visitor. In addition, for any unpaid assessment found to be applicable as liquidated damages to the University, the University may bring suit in any court of competent jurisdiction for the collection of the debt.

(D) ULTIMATE DISCIPLINARY ACTION

(Appeals)

Any person upon whom or upon whose motor vehicle a Notice of Violation (citation) has been served may, within fifteen days of such service, elect to appeal such citation by filing an appeal. Parking violations shall be appealed to the Parking Operator. Appeals may be submitted in any manner acceptable to the Parking Operator. The appeal shall contain, among other things, the identification of the violation notice (citation) and any facts or circumstances relevant to the merits of the appeal. The Parking Operator shall judge the appeals in accordance with the Concession Agreement. Non-Parking violations may be appealed in the manner prescribed by the University. In any event, and in addition to other powers of enforcement, any faculty member, employee, student or agent violating any provision of these Rules shall be subject to such disciplinary action by University authorities as may be provided by the Bylaws of the Board of Trustees, the Rules of the University, the Code of Student Rights and Responsibilities or other applicable University rules, as may be deemed appropriate by the disciplinary authorities as provided in such rules. Transportation and Parking Services is hereby authorized and directed to initiate such disciplinary procedures in cases provided in these Rules or in such cases as deemed appropriate under such rules.

3335.21-09 Appeals

(A) FILING OF APPEALS

Any person upon whom or upon whose motor vehicle a notice of violation (citation) has been served may, within fifteen days of such service, elect to appeal such citation by filing an appeal with Transportation and Parking Services. The appeal shall contain, among other things, the identification of the violation notice (citation) and any facts or circumstances relevant to the merits of the appeal.

1) FIRST-LEVEL APPEALS.

Appellants filing a first-level appeal are not required to personally appear before the Appeals Administrator. However, an appellant who desires to personally present his or her appeal may do so.

The Appeals Administrator will:

(a) Review appeal documents to assess the validity of the citation and/or any extenuating circumstances prohibiting the appellant from complying with the regulations.

(b) Dismiss or modify the citation under appeal, and notify customer (in writing) of the decision if the violation was improperly cited, improperly written, or mitigating factors existed.

(c) Uphold the citation under appeal, and notify customer (in writing) of the decision if the violation was properly cited, properly written and no mitigating factors existed.

2) SECOND-LEVEL APPEALS.

Appeal of a first-level decision must be made in writing to Transportation and Parking Services. The fine shown on the Notice of Citation must be paid prior to filing a second-level appeal. Supporting documentation must
June 22, 2012 meeting, Board of Trustees

state, in detail, the grounds wherein the appellant believes the first level decision was in error.

Second-level appeals for students will be adjudicated by the Office of Student Advocacy or the Office of Legal Affairs for faculty, staff and visitors. These offices will review the supporting documentation and make a determination as to whether the appeal should be upheld, amended or dismissed. Appellants filing a second level appeal are not required to personally present the appeal but may do so if desired.

(B) DISPOSITION OF APPEALS.
Consistent with the decision of the Office of Student Advocacy or the Office of Legal Affairs, Transportation and Parking Services, shall dispose of the case by:

(1) Finding that the violation was committed as charged and determining the penalty to be assessed, whereupon the finding and assessment shall be certified to the Department for enforcement in due course;
(2) Finding that no violation was committed as charged, in which case the notice of violation shall be withdrawn and the Department shall adjust its records to reflect this disposition; or
(3) Finding that violation of a provision of these Rules has occurred, but that the penalty should be waived.

3335-21-10—Obstruction and Special Uses of Public Ways

(A) PLACING INJURIOUS MATERIALS OR OBSTRUCTION IN STREETS AND ROADWAYS.

(1) No person shall place or knowingly drop upon any part of a street or roadway, any tacks, bottles, wire, glass, nails or other articles which may damage or injure any person or vehicle traveling along or upon such street or roadway. Materials may be placed upon the street or roadway by proper authority for the repair or construction thereof.
(2) Any person who drops or permits to be dropped or thrown upon any street or roadway any destructive or injurious material shall immediately remove the same.
(3) Any person authorized to remove a wrecked or damaged vehicle from a street or roadway shall remove any glass or other injurious material dropped from the vehicle upon the street or roadway.
(4) No person shall place any obstruction in or upon a street or roadway without proper authority. (ORC 4511.74)

(B) RESTRICTIONS ON MOTORCYCLES, MOTORIZED BICYCLES AND NONMOTORIZED TRAFFIC.

(1) Transportation and Parking Services is hereby authorized to determine and designate those heavily traveled streets and roadways upon which the use of motorcycles, motorized bicycles, bicycles, horse drawn vehicles or other nonmotorized traffic is prohibited. The Department shall erect appropriate signs giving notice thereof.
(2) When signs are so erected giving notice thereof, no person shall disobey the restrictions stated on such signs.

(C) RESTRICTIONS ON COMMERCIAL VEHICLES.
When signs are erected by Transportation and Parking Services giving notice thereof, no person shall operate a commercial vehicle at any time upon any of the streets, roadways or parts of streets or roadways posted except for the purpose of
delivering or picking up materials or merchandise. Where warranted, signs may be posted indicating limited commercial vehicle access.

(D) RECREATION STREETS AND ROADWAYS.

(1) Transportation and Parking Services is hereby authorized to declare any street or roadway or part thereof to be a recreation street or roadway and to place appropriate signs or devices in such street or roadway indicating and helping to protect the same.

(2) Whenever authorized signs are erected indicating that a street or roadway or part thereof is a recreation street or roadway, no person shall drive a vehicle upon any such street or roadway or portion thereof except drivers of vehicles having business in, or whose residences are within, such closed area, and then any such driver shall exercise the greatest care in driving upon any such street or roadway or portion thereof.

3335-21-419 Traffic Control Devices

(A) AUTHORITY TO INSTALL.

Transportation and Parking Services The University shall place and maintain traffic control signs, signals and devices when and as required under these Rules and Regulations to make effective the provisions of these Rules and Regulations. The Department of University may place and maintain such additional traffic control devices as may be deemed necessary to regulate traffic and parking under these Rules and Regulations or under State law or to guide or warn traffic.

(B) CONFORMITY WITH OHIO MANUAL.

All traffic control signs, signals and devices shall conform to the specifications of the “Ohio Manual of Uniform Traffic Control Devices.” All traffic control devices so erected and not inconsistent with the provisions of State law or these Rules and Regulations shall be official traffic control devices.

(C) OBEDIENCE TO DEVICES.

No driver of a vehicle shall fail to obey the instructions of an official traffic control device applicable thereto placed in accordance with the provisions of these Rules and Regulations, unless otherwise directed by a Law Enforcement Officer, Traffic Control Officer, Hospital and Campus Security Officer, or other Public Safety or Transportation and Parking Personnel, or Student Traffic Officer, subject to the exceptions granted the driver of an authorized emergency vehicle in these Rules and Regulations.

(D) SIGNS REQUIRED FOR ENFORCEMENT.

No provision of these Rules and Regulations for which signs are required shall be enforced, and no assessment shall be made against an alleged violator if, at the time and place of the alleged violation, an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular rule Regulation does not state that signs are required, such rule Regulation shall be effective even though no signs are erected or in place.

(E) TRAFFIC CONTROL SIGNAL, TERMS AND LIGHTS.

Whenever traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word legend, and such lights shall indicate and apply to drivers of vehicles and to pedestrians as follows:

(1) Green Indication.
June 22, 2012 meeting, Board of Trustees

(a) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn, but vehicular traffic including vehicles turning right or left, shall yield the right of way to other vehicles and pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right of way to pedestrians lawfully using the intersection.

(c) Unless otherwise directed by a pedestrian control signal, as provided in Rule 3335.21-11, of the Administrative Code pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady-Yellow Indication.

(a) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.

(b) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian control signal as provided in Paragraph (F) of this Rule, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.

(3) Steady Red Indication.

(a) Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and shall remain standing until an indication to proceed is shown except as provided in paragraphs (3)(b) and (3)(c) of this Rule.

(b) Unless a sign is in place prohibiting a right turn as provided in paragraph (3)(a) of this Rule, vehicular traffic facing a steady red signal may cautiously enter the intersection to make a right turn after stopping as required by paragraph (3)(a) of this Rule and yielding the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(c) Unless a sign is in place prohibiting a left turn as provided in paragraph (3)(e) of this Rule, vehicular traffic facing a steady red signal on a one-way street that intersects another one-way street on which traffic moves to the left may cautiously enter the intersection to make a left turn into the one-way street after stopping as required by paragraph (3)(a) of this Rule, yielding the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(d) Unless otherwise directed by a pedestrian control signal, as provided in Paragraph (F) of this Rule, pedestrians facing a steady red signal alone shall not enter the roadway.

(e) The Board of Trustees may, by regulatory action, prohibit a right or a left turn against a steady red signal at any intersection, which prohibition shall be effective when signs giving notice thereof are posted at the intersection.

(4) Signals Not at Intersections. In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions

1054
June 22, 2012 meeting, Board of Trustees

of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal. (ORC 4511.13)

(E) PEDESTRIAN CONTROL SIGNALS.
Whenever special pedestrian signals exhibiting the words “walk,” “don’t walk” or “wait” are in place, such signals shall indicate the following instructions:

1. “Walk”: Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right of way by the operators of all vehicles.
2. “Don’t walk” or “wait”: No pedestrian shall start to cross the roadway in the direction of the signal. (ORC 4511.14)

(G) FLASHING TRAFFIC SIGNALS.
Whenever an illuminated flashing red or yellow traffic signal is used in a traffic signal or with a traffic sign it shall require obedience as follows:

1. Flashing Red Stop Signal. Operators of vehicles shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
2. Flashing Yellow Caution Signal. Operators of vehicles may proceed through the intersection or past such signal only with caution. (ORC 4511.15)

(H) UNAUTHORIZED SIGNS AND SIGNALS; HIDING FROM VIEW; ADVERTISING.

1. No person shall place, maintain or display upon or in view of any street any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles a traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any traffic control device or any railroad sign or signal, and no person shall place or maintain, nor shall any public authority permit upon any street any traffic sign or signal bearing thereon any commercial advertising. This section does not prohibit the erection upon private property adjacent to streets of signs giving useful directional information and of a type that cannot be mistaken for traffic control devices.
2. Every such prohibited sign, signal, marking or device is a public nuisance, and Transportation and Parking Services is authorized to remove the same or cause it to be removed. (ORC 4511.16)

(I) INTERFERENCE WITH DEVICES OR SIGNALS.
No person shall, without lawful authority from the University, attempt to or in fact alter, deface, injure, knock down or remove any official traffic control device or signal, or any inscription, shield or insignia thereon, or any other part thereof.

(J) CROSSWALKS AND SAFETY ZONES.
Transportation and Parking Services is hereby authorized to:

1. Designate and maintain, by appropriate devices, marks or lines upon the surface of the street or roadway, crosswalks at intersections where there is particular danger to pedestrians crossing the street or roadway and at such other places as may be deemed necessary; and
(2) Establish safety zones of such kind and character and at such places as are necessary for the protection of pedestrians.

(K) TRAFFIC LANES.
Transportation and Parking Services is hereby authorized to mark traffic lanes upon the roadway of any road or driveway where a regular alignment of traffic is necessary.

(L) STOP AND YIELD INTERSECTIONS.
(1) Designation of Through Streets and Roadways. Those streets and roadways and parts of streets and roadways designated by Transportation and Parking Services are hereby declared to be through streets and roadways for the purpose of this section when stop or yield signs are erected and maintained by the Department at intersections of such streets and roadways to give preferential right of way to vehicular traffic on the through street and roadway.

(2) Signs Required at Through Streets and Roadways. Whenever any rule designates and describes a through street and roadway, the Department shall place and maintain a stop sign or, on the basis of an engineering or traffic investigation at any intersection, a yield sign, on each and every street and roadway intersecting such through street and roadway unless traffic at any such intersection is controlled at all times by a traffic control signal, provided, however, that at the intersection of two such streets and roadways or at the intersection of a through street and roadway and a heavy traffic street and roadway not so designated, stop signs shall be erected at the approaches of either or both of such streets and roadways as may be determined by the Department upon the basis of an engineering or traffic study.

(3) Signs Required at Other Intersections. The Department is hereby authorized to determine and designate intersections where a particular hazard exists upon other than through streets and roadways and to determine:
(a) Whether or not vehicles shall stop at one or more entrances to any such intersection, in which event a stop sign shall be erected at every such place where a stop is required; or
(b) Whether or not vehicles shall yield the right of way to vehicles on a different street or roadway at such intersection as prescribed in Paragraph (R) of Rule 3335-21-13 of the Administrative Code in which event a yield sign shall be erected at every place where obedience thereto is required.

(4) Stop Sign and Yield Sign Specifications.
(a) Every stop sign shall bear the word “stop” in letters not less than six inches in height. Every yield sign shall bear the word “yield” in letters not less than seven inches in height. Every stop sign and every yield sign shall, at night, be rendered luminous with an efficient reflecting surface.
(b) Every stop sign and every yield sign shall be erected as near as practical to the nearest line of the crosswalk on the near side of the intersection or if there is no crosswalk, then as near as practical to the nearest line of the intersecting street or roadway.

(MF) ONE-WAY STREETS, ROADS AND ALLEYS.
Whenever Transportation and Parking Services the University designates a street, roadway or alley as one-way, signs giving notice thereof shall be placed and maintained. No such rule or regulation shall be effective unless such signs are in place. Signs indicating the direction of lawful traffic movement shall be placed at every intersection where movement of traffic in the opposite direction is prohibited.
RESTRICTION ON DIRECTION DURING CERTAIN PERIODS.

The University is hereby authorized to determine and designate streets and roadways, parts of streets and roadways or specific lanes thereon upon which vehicular traffic shall proceed in one direction during one period and the opposite direction during another period of the day, and shall either position Law Enforcement Officers, Hospital and Campus Security Officers, or Traffic Control Officers, or place and maintain appropriate markings, signs, barriers or other devices to give notice thereof. The University may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the centerline of the street and roadway.

MARKERS, BUTTONS AND SIGNS REGULATING TURNS.

The University is hereby authorized to place markers, buttons or signs within or adjacent to intersections indicating the course to be traveled by vehicles turning at such intersections. Such course to be traveled as so indicated may conform to or be other than as prescribed by State statute or these Rules.

ADDITIONAL TURNING RESTRICTIONS.

The University is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left or "U" turn, and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on the signs or they may be removed when such turns are permitted.

REGULATION OF SPEED.

The University is hereby authorized to regulate the timing of traffic in an orderly and safe manner at speeds slightly at variance from the speeds otherwise applicable within the vicinity or at intersections and shall erect appropriate signs giving notice thereof.

SIGNS OR MARKINGS INDICATING ANGLE OR PARALLEL PARKING

(1) Transportation and Parking Services shall determine upon what streets and roadways and parking areas angle or parallel parking shall be permitted and shall mark or sign such streets and roadways and parking areas.

(2) Angle parking shall not be indicated or permitted at any place where passing traffic would thereby be caused or required to drive upon the left side of the street or roadway.

BUS STOPS AND TAXICAB STANDS.

The University shall establish bus stops, bus stands, taxicab stands and stands for other passenger common-carrier motor vehicles on streets and roadways in such places that provide adequate accessibility and safety to the public. Every such bus stop, bus stand, taxicab stand or other stand shall be designated by appropriate signs.

LOADING ZONES.

The University is hereby authorized to determine the location of passenger and freight curb loading zones and shall place and maintain appropriate signs indicating the same and stating the hours during which they may be lawfully used.

Pedestrians

RIGHTS AND DUTIES GENERALLY.
June 22, 2012 meeting, Board of Trustees

Pedestrians shall be subject to the traffic control signals provided for in paragraphs (E) and (F) of Rule 3335-21-11 of the Administrative Code, but at all other places pedestrians shall be granted those rights and be subject to the restrictions stated in this chapter or in State statute.

(B) RIGHT OF WAY IN CROSSWALKS; OVERTAKING STOPPED VEHICLES.

(1) When traffic control signals are not in place or not in operation, the driver of a vehicle shall yield the right of way, slowing down or stopping if necessary to so yield, to a pedestrian crossing the street or roadway within a crosswalk when the pedestrian is upon the half of the street or roadway upon which the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the street or roadway as to be in danger.

(2) No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close as to constitute an immediate hazard.

(3) Whenever a vehicle is stopped at a marked crosswalk or at an unmarked crosswalk at an intersection to permit a pedestrian to cross the street or roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle. (ORC 4511.46)

(C) MOVEMENT IN CROSSWALKS.

Pedestrians shall move, wherever practical, upon the right half of crosswalks. (ORC 4511.49)

(D) CROSSING STREETS AND ROADWAYS.

No pedestrian shall cross a street or roadway at any place other than by a route at right angles to the curb or by the shortest route to the opposite curb, except in a crosswalk.

(E) RIGHT OF WAY OF MOTORISTS.

(1) Every pedestrian crossing a street or roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right of way to all vehicles upon the street or roadway.

(2) Any pedestrian crossing a street or roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right of way to all traffic upon the street or roadway. (ORC 4511.48)

(F) PROHIBITED CROSSINGS.

Between adjacent intersections at which traffic control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk. (ORC 4511.48)

(G) WALKING ON STREETS AND ROADWAYS.

(1) Where sidewalks are provided and their use is practical, no pedestrian shall walk along and upon an adjacent street or roadway.

(2) Where sidewalks are not available, any pedestrian walking along and upon a street or roadway shall walk only on a shoulder, or if no shoulder is available, shall walk as far as practical from the edge of the street or roadway. (ORC 4511.50)

(H) SOLICITING RIDES OR BUSINESS FROM MOTORISTS.

(1) No person shall stand in a street or roadway for the purpose of soliciting a ride, employment or business from the occupant of a vehicle.

(2) No person shall stand on or in proximity to a street, roadway or parking area for the purpose of soliciting a sale or the watching or guarding of a vehicle.
June 22, 2012 meeting, Board of Trustees

while such vehicle is parked or about to be parked on a street, roadway or parking area.

(E) RESPONSIBILITY OF DRIVERS.

Notwithstanding the provisions of this chapter, every driver of a vehicle shall exercise due care to avoid colliding with a pedestrian upon a street or roadway, shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing a child or a confused or incapacitated person upon a street or roadway.

(J) RIGHT OF WAY OF BLIND PERSONS.

(1) As used in this section “blind person” or “blind pedestrian” means a person having not more than 20/200 visual acuity in the better eye with correcting lenses or visual acuity greater than 20/200 but with a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than twenty degrees. The driver of every vehicle shall yield the right of way to every blind pedestrian guided by a guide dog, or carrying a cane which is predominantly white or metallic in color, with or without a red tip.

(2) No person, other than a blind person, while on any public highway, street, alley or other public thoroughfare, shall carry a white or metallic cane, with or without a red tip. (ORC 4511.47)

(K) BOARDING OR ALIGHTING FROM MOVING VEHICLES.

No person shall board or alight from a vehicle while such vehicle is in motion.

(L) HANGING ONTO OR RIDING ON OUTSIDE OF VEHICLES.

No person shall hang onto, or ride on the outside of a motor vehicle while it is moving upon a street or roadway, except mechanics or test engineers making repairs or adjustments. No operator shall knowingly permit a person to hang onto, or ride on the outside of, a motor vehicle while it is moving upon a street or roadway, except mechanics or test engineers making repairs or adjustments. (ORC 4511.51)

3335-21-4311 Operations Generally

(A) DRIVING UPON RIGHT SIDE OF STREET OR ROADWAY: EXCEPTIONS.

Upon all streets and roadways of sufficient width, a vehicle shall be driven upon the right half of the street or roadway, except as follows:

(1) When overtaking and passing another vehicle proceeding in the same direction, or when making a left turn under the rules governing such movements.

(2) When an obstruction exists making it necessary to drive to the left of the center of the street or roadway, provided that any person so doing shall yield the right of way to all vehicles traveling in the proper direction upon the unobstructed portion of the street or roadway within such distance as to constitute an immediate hazard;

(3) When driving upon a street or roadway divided into three or more marked lanes for traffic under the rules applicable thereon;

(4) When driving upon a street or roadway designated and posted with signs for one-way traffic;

(5) When otherwise directed by a Law Enforcement Officer, traffic control device, Hospital and Campus Security Officer, Traffic Control Officer, Public Safety or Transportation and Parking Personnel or Student Traffic Officer. (ORC 4511.25)

(B) VEHICLES TRAVELING IN OPPOSITE DIRECTIONS.
Operators of vehicles proceeding in opposite directions shall pass each other to the right, and upon streets and roadways having width for not more than one line of traffic in each direction, each operator shall give to the other one-half of the main traveled portion of the street or roadway or as nearly one-half as is reasonably possible. (ORC 4511.26)

(C) OVERTAKING AND PASSING A VEHICLE.
The following rules govern the overtaking and passing of vehicles proceeding in the same direction.

(1) The operator of a vehicle overtaking another vehicle proceeding in the same direction shall audibly signal to the vehicle to be overtaken, shall pass to the left thereof at a safe distance, and shall not again drive to the right side of the street or roadway until safely clear of the overtaken vehicle.

(2) Except when overtaking and passing on the right is permitted, the operator of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle at the latter's audible signal, and such operator shall not increase the speed of the vehicle until completely passed by the overtaking vehicle. (ORC 4511.27)

(D) OVERTAKING, PASSING TO RIGHT OF VEHICLE.
The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(1) When the vehicle overtaken is making or about to make a left turn.
(2) Upon a roadway with unobstructed pavement of sufficient width for two or more lines of vehicles moving lawfully in the direction being traveled by the overtaking vehicle.
(3) The driver of a vehicle may overtake and pass another vehicle only under conditions permitting such movement in safety. The movement shall not be made by driving off the roadway.

(EA) PASSING OF BUSES.
A vehicle may pass a bus receiving or discharging passengers only when:

(1) The bus is receiving or discharging passengers at a bus stop where a recess allows the bus to be located off the main roadway.
(2) The roadway has been marked to provide two or more lanes of traffic in the same direction.
(3) The driver of a vehicle overtaking and passing upon the left side of a bus that has stopped for the purpose of receiving or discharging passengers, when such overtaking and passing is permitted may proceed only upon exercising due caution for pedestrians.

(F) DRIVING THROUGH SAFETY ZONES.
No vehicle shall at any time be driven through or within a safety zone. (ORC 4511.60)

(G) OVERTAKING, PASSING TO LEFT OF CENTERLINE.
No vehicle shall be driven to the left of the center of the roadway in overtaking and passing traffic proceeding in the same direction, unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made, without interfering with the safe operation of any traffic approaching from the opposite direction or any traffic overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for traffic approaching from the opposite direction, before coming within 200 feet of any approaching vehicle. (ORC 4511.29)
June 22, 2012 meeting, Board of Trustees

(H) DRIVING UPON LEFT SIDE OF STREET OR ROADWAY.
No vehicle shall be driven upon the left side of the roadway under the following conditions:

(1) When approaching the crest of a grade or upon a curve in the highway, where the operator’s view is obstructed within such a distance as to create a hazard in the event traffic might approach from the opposite direction;

(2) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel;

(3) When approaching within 100 feet of or traversing any intersection or railroad grade crossing.

This section does not apply to vehicles upon a one-way roadway, upon a roadway where traffic is lawfully directed to be driven to the left side or under the conditions described in Paragraph (A) of this Rule. (ORC 4511.30)

(I) DRIVING WITHIN TRAFFIC LANES.
When traffic lanes are marked upon a street or roadway, all operators of a vehicle shall remain within the marked lanes.

(J) TURNING AT INTERSECTIONS.
The driver of a vehicle intending to turn at an intersection shall be governed by the following rules:

(1) Approach for a right turn, and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(2) At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the centerline thereof and by passing to the right of such centerline where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the centerline of the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(3) At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle, and after entering the intersection the left turn shall be made so as to leave the intersection as nearly as practicable in the left-hand lane of the roadway being entered lawfully available to the traffic moving in that lane. (ORC 4511.36)

(KB) OBEDIENCE TO MARKERS, BUTTONS AND SIGNS REGULATING TURNS.
When authorized markers, buttons or other indications are placed within an intersection indicating the course to be traveled by vehicles turning at the same place, no driver of a vehicle shall disobey the directions of such indications.

(L) "U" TURNS.

(1) No vehicle shall be turned so as to proceed in the opposite direction upon a curve, or upon the approach to or near the crest of a grade, if such vehicle cannot be seen within 500 feet by the driver of a vehicle approaching from either direction. (ORC 4511.37)

(2) No vehicle shall be turned so as to proceed in the opposite direction within an intersection, or upon a street, roadway or other way where authorized signs are erected to prohibit such movement, or at any other location unless such movement can be made with reasonable safety to other users and
without interfering with the safe operation of any traffic that may be affected by such movement.

(M) SIGNALS BEFORE CHANGING COURSE, TURNING OR STOPPING.

1. No person shall turn a vehicle or move right or left upon a highway unless and until such person has exercised due care to ascertain that the movement can be made with reasonable safety nor without giving an appropriate signal in the manner hereinafter provided.

2. When required, a signal of intention to turn or move right or left shall be given continuously during not less than the last 100 feet traveled by the vehicle before turning.

3. No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give a signal.

4. Any stop or turn signal required by this rule shall be given either by means of the hand and arm, or by signal lights that clearly indicate to both approaching and following traffic intention to turn or move right or left, except that any motor vehicle in use on a highway shall be equipped with, and the required signal shall be given by, signal lights when the distance from the center of the top of the steering post to the left outside limit of the body, cab or load of such motor vehicle exceeds twenty-four inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds fourteen feet, whether a single vehicle or a combination of vehicles.

5. The signal lights required by this rule shall not be flashed as a courtesy or “do pass” signal to operators of other vehicles approaching from the rear, nor be flashed on one side only of a parked vehicle except as may be necessary for compliance with this rule—(ORC 4511.39)

(N) HAND AND ARM SIGNALS.

All signals when given by hand and arm, shall be given from the left side of the vehicle in the following manner, and such signals shall indicate as follows:

1. Left turn, hand and arm extended horizontally;

2. Right turn, hand and arm extended upward;

3. Stop or decrease speed, hand and arm extended downward—(ORC 4511.40)

(QC) OBEDIENCE TO MARKINGS, SIGNS, ETC. REGULATING DIRECTION OF TRAVEL.

When markings, signs, barriers or other devices are placed to designate streets, roadways or parts thereof upon which vehicular traffic shall proceed in one direction only during one period of the day, no person shall operate a vehicle in a manner contrary to the direction of such markings, signs, barriers or other devices.

(P) RIGHT OF WAY WHEN TURNING LEFT.

The operator of a vehicle intending to turn to the left within an intersection or into an alley, private road or driveway shall yield the right of way to any vehicle approaching from the opposite direction whenever the approaching vehicle is within the intersection or so close to the intersection, alley, private road or driveway as to constitute an immediate hazard—(ORC 4511.42)

(QQ) OBEDIENCE TO STOP SIGNS.

1. Except when directed to proceed by a Law Enforcement Officer, a Traffic Control Officer, or a Hospital and Campus Security Officer or a Student Traffic Officer, every driver of a vehicle approaching a stop sign shall stop
June 22, 2012 meeting, Board of Trustees

at a clearly marked stop line, or if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting street or roadway where the driver has a view of approaching traffic on the intersecting street or roadway before entering it.

(2) After having stopped, the driver shall yield the right of way to any vehicle in the intersection or approaching on another street or roadway so closely as to constitute an immediate hazard during the time the driver is moving across or within the intersection or junction of streets or roadways.

(ORC 4511.43)

(RE) OBEDIENCE TO YIELD SIGNS.

(1) The driver of a vehicle approaching a yield sign shall slow down to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, or if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting street or roadway where the driver has a view of approaching traffic on the intersecting street or roadway before entering it.

(2) After slowing or stopping, the driver shall yield the right of way to any vehicle in the intersection or approaching on another street or roadway so closely as to constitute an immediate hazard during the time the driver is moving across or within the intersection or junction of streets or roadways.

Whenever a driver is involved in a collision with a vehicle in the intersection or junction of streets or roadways, after driving past a yield sign without stopping, the collision shall be prima-facie evidence of the driver’s failure to yield the right of way. (ORC 4511.43)

(S) EMERGING FROM ALLEY, DRIVEWAY OR BUILDING.
The driver of a vehicle emerging from an alley, building, private road or driveway shall stop the vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across the alley, building entrance, road or driveway, or in the event there is no sidewalk area, shall stop at the point nearest the street to be entered where the driver has a view of approaching traffic thereon. (ORC 4511.43.1)

(IF) BLOCKING INTERSECTIONS.
No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he or she is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic control signal indication to proceed. (ORC 4511.71.2)

(U) CROSSING FIRE HOSE.
No vehicle shall, without the consent of the fire department official in command, be driven over any unprotected hose of a fire department, when such hose is laid down on any street or private driveway to be used at any fire or alarm of fire. (ORC 4511.73)

(V) DRIVING UPON SIDEWALKS.
No person shall drive any vehicle upon a sidewalk or sidewalk area except upon a permanent or duly authorized temporary driveway. (ORC 4511.71.1)

(W) LIMITATIONS ON BACKING.
Before backing, operators of vehicles shall give ample warning, and while backing they shall exercise vigilance not to injure person or property on the street or roadway. (ORC 4511.38)

(X) STARTING WITHOUT SAFETY.
No person shall start a vehicle which is stopped, standing or parked until such movement can be made with reasonable safety. (ORC 4511.38)

(YG) DAMAGING CURBS, SIDEWALKS OR TRAFFIC CONTROL DEVICES.
Any person having charge of a vehicle who drives into or against any curbing, sidewalk or traffic control device along a street or roadway, thereby cracking, breaking or otherwise injuring the same, and any person who cracks, breaks or otherwise injures or defaces the same in any manner, shall be responsible for the repair or replacement of the damaged curb, sidewalk or traffic control device.

(ZH) DRIVING THROUGH OR AROUND GATE ARMS.
No person shall drive a vehicle through, under or around a gate arm while such arm is in the guarded position.

(AA) DRIVING ONTO OR FROM CONTROLLED-ACCESS STREETS OR ROADWAYS.
No person shall drive a vehicle onto or from a controlled-access street or roadway except at established entrances and exits.

(BBI) FAILURE TO CONTROL.
No person shall operate a motor vehicle or motorcycle upon a street or roadway or on any public or private property other than streets or roadways without exercising reasonable and ordinary control over such vehicle.

(CC) SPEED; ASSURED CLEAR DISTANCE.

(1) Speed limits. The speed limit on University streets or roadways shall be twenty-five miles per hour or as posted by official traffic control devices placed by Transportation and Parking Services upon the basis of engineering and traffic investigations.

(2) Slow Speed. No person shall operate a vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or to comply with law.

(3) Assured Clear Distance. No person shall operate a motor vehicle in and upon a street or roadway at a speed greater or less than is reasonable or proper, having due regard for the traffic on and the surface and width of the street or roadway and any other condition, and no person shall drive any motor vehicle in and upon a street or roadway at a greater speed than will permit him or her to bring it to a stop within the assured clear distance ahead.

(DD) SPACE BETWEEN MOVING VEHICLES.

(4) The operator of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon and the condition of the street or roadway.

(2) The driver of a truck, or of a motor vehicle drawing another vehicle, when traveling upon a street or roadway, shall maintain a sufficient space, whenever conditions permit, between such vehicles and another vehicle ahead so that an overtaking motor vehicle may enter and occupy such space without danger. This rule does not apply to a lane specially designed for use by trucks.

(EEK) RECKLESS OPERATION ON STREETS, PUBLIC OR PRIVATE PROPERTY.

(1) No person shall operate a vehicle on any street or roadway in willful or wanton disregard for the safety of persons or property.

(2) No person shall operate a vehicle on any public or private property other than streets or roadways, in willful or wanton disregard for the safety of persons or property.
This rule does not apply to the competitive operation of vehicles on public or private property when the owner of such property knowingly permits such operation thereon.

3335-21-14 Equipment

(A) UNSAFE VEHICLES.
No person shall drive or move, or cause or knowingly permit to be driven or moved, on any street or roadway, a vehicle or combination of vehicles which is in such an unsafe condition as to endanger any person or property. (ORC 4513.02)

(B) BUMPERS.
No person shall operate upon a street or roadway a motor vehicle that:

(1) Was originally equipped with bumpers as standard equipment, unless the vehicle is equipped with bumpers equal to the original equipment when so operated: or

(2) Has a suspension system or body so modified that the height of any bumper on the vehicle varies more than three inches from the original manufactured bumper height for the vehicle. (ORC 4513.02.1)

(C) BUMPER SPECIFICATIONS.
Transportation and Parking Services shall facilitate, when asked by Law Enforcement Officers, Traffic Control Officers and Hospital and Campus Security Officers, the current manufacturer’s bumper specifications.

(D) LIGHTED LIGHTS REQUIRED.
Every vehicle upon a street or highway during the time from one-half hour after sunset to one-half hour before sunrise, and at any other time when there are unfavorable atmospheric conditions or when there is not sufficient natural light to render discernible persons, vehicles and substantial objects on the street at a distance of 1,000 feet ahead, shall display lighted lights and illuminating devices as required by this rule for different classes of vehicles, except that every motorized bicycle shall display at such times lighted lights meeting the rules adopted by the Ohio Director of Public Safety under Chapter 4511.521 of the Revised Code. No motor vehicle, during such times, shall be operated upon a street or highway using only parking lights as illumination. (ORC 4513.03)

(E) HEADLIGHTS.
Every motor vehicle, other than a motorcycle, shall be equipped with at least two headlights with at least one near each side of the front of the motor vehicle. (ORC 4513.04)

(F) TAIL LIGHT; ILLUMINATION OF REAR LICENSE PLATE.

(1) Every motor vehicle, trailer, semi-trailer, pole trailer or vehicle which is being drawn at the end of a train of vehicles shall be equipped with at least one tail light mounted on the rear which, when lighted, shall emit a red light visible from a distance of 500 feet to the rear, provided that in the case of a train of vehicles only the tail light on the rearmost vehicle need be visible from the distance specified.

(2) Either a tail light or a separate light shall be so constructed and placed as to illuminate with a white light the rear registration plate, when such registration plate is required, and render it legible from a distance of fifty feet to the rear. Any tail light, together with any separate light for illuminating the rear registration plate, shall be so wired as to be lighted whenever the headlights of auxiliary driving lights are lighted, except where separate
June 22, 2012 meeting, Board of Trustees

lighting systems are provided for trailers for the purpose of illuminating such registration plate.—(ORC 4513.05)

(G) REAR RED REFLECTORS.
Every new motor vehicle sold after September 6, 1941, and operated on a street, other than vehicles of the type mentioned in Chapter 4513.07 of the Revised Code or a commercial tractor to which a trailer or semi-trailer is attached, shall carry at the rear, either as a part of the tail lights or separately, two red reflectors of such size and characteristics and so maintained so to be visible at night from all distances within 300 feet to fifty feet from such vehicle.—(ORC 4513.06)

(H) RED LIGHT OR RED FLAG ON EXTENDED LOADS.
Whenever the load upon any vehicle extends to the rear four feet or more beyond the bed or body of such vehicle, there shall be displayed at the extreme rear end of the load, at the times specified in Paragraph (D) of Rule 3335-21-14 of the Administrative Code, a red light or lantern plainly visible from a distance of at least five hundred feet to the side and rear. The red light or lantern required by this section is in addition to the red rear light required upon every vehicle. At any other time there shall be displayed at the extreme rear end of such load a red flag, or cloth not less than sixteen inches square. (ORC 4513.09)

(I) NUMBER OF LIGHTS PERMITTED: RED AND FLASHING LIGHTS.

(1) Whenever a motor vehicle equipped with headlights is also equipped with any auxiliary lights, or spotlights, or any light on the front thereof, projecting a beam of an intensity greater than 300 candlepower, not more than a total of five of any such lights on the front of a vehicle shall be lighted at any one time when such vehicle is upon a street or roadway.

(2) Any lighted light or illuminating device upon a motor vehicle, other than headlights, spotlights, signal lights or auxiliary driving lights, which projects a beam of light of an intensity greater than 300 candlepower shall be so directed that no part of the beam will strike the level of the roadway on which the vehicle stands at a distance of more than seventy-five feet from the vehicle.

(3) Flashing lights are prohibited on motor vehicles, except as a means for indicating a right or a left turn, or in the presence of a vehicular traffic hazard requiring unusual care in approaching, overtaking or passing. This prohibition does not apply to emergency vehicles, road service vehicles servicing or towing a disabled vehicle, traffic line strippers, snow plows, rural mail delivery vehicles, Department of Transportation maintenance vehicles, funeral hearses, funeral escort vehicles, and similar equipment operated by the Department or local authorities, which shall be equipped with and display, when used on a street or highway for the special purpose necessitating such lights, a flashing, oscillating or rotating amber light, but shall not display a flashing, oscillating or rotating light of any other color, nor to vehicles or machinery permitted by Ohio R.C. 4513.11 to have a flashing red light.

(4) Except a person operating a public safety vehicle or a school bus, no person shall operate, move or park upon, or permit to stand within the right of way of any public street or highway any vehicle or equipment which is equipped with and displaying a flashing red or a flashing combination red and white light, or an oscillating or rotating red light, or a combination red and white oscillating or rotating light; and except a Law Enforcement Officer, or other person sworn to enforce the traffic laws of the State or the University, operating a public safety vehicle when on duty, no person shall operate, move or park upon, or permit to stand within the right of way of any street or roadway any vehicle or equipment which is equipped with, or upon which is mounted, and displaying a flashing blue or a flashing combination blue and white light, or an oscillating or rotating blue light, or a combination
blue and white oscillating or rotating light. This section shall not prohibit the use of warning lights required by law or the simultaneous flashing of turn signals on disabled vehicles. (ORC 4513.17)

(J) **HORN, SIREN AND THEFT ALARM SIGNAL.**

(1) Every motor vehicle when operated upon a street shall be equipped with a horn which is in good working order and capable of emitting sound audible, under normal conditions, from a distance of not less than 200 feet.

(2) No motor vehicle shall be equipped with, nor shall any person use upon a vehicle, any siren, whistle or bell. Any vehicle may be equipped with a theft alarm signal device which shall be so arranged that it cannot be used as an ordinary warning signal. Every emergency or public safety vehicle shall be equipped with a State approved siren, whistle or bell capable of emitting sound audible under normal conditions from a distance of not less than 500 feet. Such equipment shall not be used except when such vehicle is operated in response to an emergency call or is in the immediate pursuit of an actual or suspected violator of the law, in which case the driver of the emergency or public safety vehicle shall sound such equipment when it is necessary to warn pedestrians and other drivers of the approach thereof. (ORC 4513.21)

(K) **REAR-VIEW MIRROR; CLEAR VIEW TO FRONT, BOTH SIDES AND REAR.**

Every motor vehicle and motorcycle shall be equipped with a mirror so located as to reflect to the operator a view of the street to the rear of such vehicle or motorcycle. Operators of vehicles and motorcycles shall have a clear and unobstructed view to the front and to both sides of their vehicles or motorcycles and shall have a clear view to the rear of their vehicles or motorcycles by mirror. (ORC 4513.23)

(L) **SIGN OR POSTER UPON WINDSHIELD; WINDSHIELD WIPER.**

(1) No person shall drive any motor vehicle, other than a bus, with any sign, poster or other nontransparent material upon the front windshield, side wings, side, or rear windows of such vehicle other than a certificate or other paper required to be displayed by law, except that there may be in the lower right-hand corner of the windshield a sign or poster not to exceed four inches in height by six inches in width.

(2) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be maintained in good working order and so constructed as to be controlled or operated by the operator of the vehicle. (ORC 4513.24)

(M) **MUFFLER; MUFFLER CUTOUT; EXCESSIVE SMOKE, GAS OR NOISE.**

(1) Every motor vehicle and motorcycle with an internal combustion engine shall at all times be equipped with a muffler which is in good working order and in constant operation to prevent excessive or unusual noise, and no person shall use a muffler cutout, by-pass or similar device upon a motor vehicle on a highway. Every motorcycle muffler shall be equipped with baffle plates.

(2) No person shall own, operate or have in his possession any motor vehicle or motorcycle equipped with a device for producing excessive smoke or gas, or so equipped as to permit oil or any other chemical to flow into or upon the exhaust pipe or muffler of such vehicle, or equipped in any other way to produce or emit smoke or dangerous or annoying gases from any portion of such vehicle other than the ordinary gases emitted by the exhaust of an internal combustion engine under normal operation. (ORC 4513.22)
Motor Vehicle Brakes

(A) MOTOR VEHICLE AND MOTORCYCLE BRAKES. Every motor vehicle, other than a motorcycle, when operated upon a street or highway, shall be equipped with brakes adequate to control the movement of and to stop and hold such motor vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way, then on such motor vehicles manufactured or assembled after January 1, 1942, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

(B) ADEQUATE BRAKES. Every motorcycle, when operated upon a street or highway, shall be equipped with at least one adequate brake, which may be operated by hand or by foot.

(C) EQUIPPED WITH BRAKES. Every motorized bicycle shall be equipped with brakes meeting the rules adopted by the Ohio Director of Public Safety.

(D) SUSTAINED RATE. Every motor vehicle or combination of motor-drawn vehicles shall be capable at all times and under all conditions of loading of being stopped on a dry, smooth, level road free from loose material, upon application of the service or foot brake, within the following specified distances, or shall be capable of being decelerated at a sustained rate corresponding to these distances:

<table>
<thead>
<tr>
<th>Speed</th>
<th>Stopping distance (in feet)</th>
<th>Deceleration in feet per second</th>
</tr>
</thead>
<tbody>
<tr>
<td>20 miles</td>
<td>30</td>
<td>14</td>
</tr>
<tr>
<td></td>
<td>40</td>
<td>10.7</td>
</tr>
</tbody>
</table>

(E) GOOD WORKING ORDER. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicle. (ORC 4513.20)

(F) SNOW-REMOVAL EQUIPMENT. No person shall operate snow-removal equipment on a street or roadway unless the lights thereon comply with and are lighted when and as required by the standards and specifications adopted by the Ohio Director of Transportation. (ORC 4513.18)

(G) DISPLAY OF LICENSE PLATES. All vehicles upon the property of the University shall display a current license plate and validation sticker in compliance with the applicable laws of the state or commonwealth in which the vehicle is titled. Such license plates must be displayed in the manner required by the state or commonwealth issuing such plates.

Emergency and Public Safety Vehicles

(A) PRIVILEGES OF DRIVERS. The driver of an authorized emergency vehicle or public safety vehicle, when responding to an emergency call, or when in the pursuit of an actual or suspected
violator of the law, or when responding to but not upon returning from a fire or other emergency alarm, may exercise the privileges set forth in this Regulation, but subject to the conditions herein stated. The driver of an authorized emergency vehicle or public safety vehicle may:

(1) Park or stand, irrespective of the provisions of these Rules;
(2) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;
(3) Exceed the maximum speed limits so long as he or she does not endanger life or property; and
(4) Disregard rules governing direction of movement or turning in specified directions.

(B) OPERATION OF VEHICLES ON APPROACH OF AUTHORIZED EMERGENCY OR PUBLIC SAFETY VEHICLES.
The exemptions herein granted to an authorized emergency vehicle or public safety vehicle shall apply only when the driver of any such vehicle, while in motion, sounds an audible signal by bell, siren or exhaust whistle, as may be reasonably necessary, and when the vehicle is equipped with at least one lighted lamp displaying authorized emergency light visible under normal atmospheric conditions from a distance of 500 feet to the front of such vehicle, except that an authorized emergency vehicle or public safety vehicle operated as a police vehicle need not be equipped with or display an authorized emergency light visible from in front of the vehicle.

(C) DRIVER’S RESPONSIBILITY.
The foregoing provisions shall not relieve the driver of an authorized emergency vehicle or public safety vehicle from the duty to drive with due regard for the safety of all persons using a street or roadway, nor shall such provisions protect the driver from the consequences of his or her reckless disregard for the safety of others.

(D) VEHICLES APPROACHING EMERGENCY VEHICLES.

(1) Upon the immediate approach of an authorized emergency vehicle or public safety vehicle making use of audible and visual signals meeting the requirements of these Rules, and/or State law, the driver of every other vehicle shall yield the right of way and shall immediately drive to a position parallel to, and as close as possible to, the right edge or curb of the street or roadway, clear of any intersection, and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a Law Enforcement Officer, Hospital and Campus Security Officer or Transportation and Parking Traffic Control Officer.

(2) Paragraph (D) (1) of this Regulation shall not operate to relieve the driver of an authorized emergency vehicle or public safety vehicle from the duty to drive with due regard for the safety of all persons using the street or roadway.

(E) FOLLOWING EMERGENCY OR PUBLIC SAFETY VEHICLES.
The driver of a vehicle, other than an emergency vehicle or a public safety vehicle on official business, shall not follow an emergency vehicle or a public safety vehicle, traveling in response to a fire alarm, closer than 500 feet, or drive into or park such vehicle within the block where the fire apparatus has stopped in answer to a fire alarm, unless directed to do so by a Law Enforcement Officer, Traffic Control Officer, Hospital and Campus Security Officer or fireman. (ORC 4511.72)
3335-21-17 Motorcycles.

RIDING OF MOTORCYCLES.
A person operating a motorcycle shall not ride other than upon the permanent and regular seat attached thereto or carry any other person upon such motorcycle other than on a firmly attached and regular seat thereon, nor shall any person ride upon a motorcycle other than upon such a firmly attached and regular seat. (ORC 4511.53)

3335-21-4813 Bicycles, Motorized Bicycles and Toy Vehicles

(A) APPLICATION OF RULES REGULATIONS TO BICYCLES.
The provisions of these Rules Regulations that are applicable to bicycles shall apply whenever a bicycle is operated upon a street or roadway or upon a path set aside for the exclusive use of bicycles, subject to the exceptions stated in this rule Regulation.

(1) Every person riding a bicycle upon a street or roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle governed by these Rules Regulations, except for special rules and regulations and except for those provisions of these Rules Regulations which by their nature can have no application.

(2) Any person operating a bicycle shall obey the instructions of official traffic control signals, signs and other control devices applicable to vehicles or pedestrians, unless otherwise directed by a Law Enforcement Officer, Traffic Control Officer, Hospital and Campus Security Officer, or Public Safety or Transportation and Parking Personnel or Student Traffic Office.

(3) Whenever authorized signs are erected indicating that no right, left or “U” turn is permitted, no person operating a bicycle shall disobey the directions of any such sign, except where such person dismounts from the bicycle to make any such turn, in which event such person shall then obey the rules Regulations applicable to pedestrians.

(B) REGISTRATION: APPLICATION FORM.

(4) A person riding or propelling a bicycle upon University property, grounds, streets or roadways, or parking such bicycle upon University property, should register such bicycle with Transportation and Parking Services upon application for registration as provided in this rule the Department of Public Safety.

(2) Application of bicycle registration and a decal or sticker shall be made upon a form provided by the Department and shall be made to its Director or designee.

(C) ISSUANCE OF REGISTRATION.

(1) Transportation and Parking Services, upon receiving a proper application therefore, is hereby authorized to issue a bicycle decal or sticker.

(2) The Department shall not issue a decal or sticker for any bicycle when there are reasonable grounds to believe that the applicant is not the owner of or entitled to the possession of such bicycle.

(3) The Department shall keep a record of the number of each decal or sticker, the date it is issued, the name and address of the person to whom it is issued, and the number of the frame of the bicycle for which it is issued.

(D) ATTACHMENT AND REMOVAL OF DECALS OR STICKERS.
Transportation and Parking Services, upon receiving a bicycle registration, shall issue a decal or sticker bearing the registration number assigned to the bicycle and the name of the University.

The registrant shall cause such decal or sticker to be firmly attached to the frame of the bicycle for which it is issued, per instructions printed on the back of the decal or sticker, in such position as to be plainly visible.

No person shall remove a decal or sticker from a bicycle except if the decal or sticker expires, upon transfer of ownership or if the bicycle is dismantled and no longer operated upon a University street or roadway.

SALE OR TRANSFER OF REGISTERED BICYCLES.
Upon the sale or other transfer of a registered bicycle, the registrant shall remove the decal or sticker and shall surrender the same to Transportation and Parking Services.

RECORDS OF BICYCLE REGISTRATION.
Transportation and Parking Services shall maintain bicycle registration records for a period of five years.

RIDING ON BICYCLES.
(1) A person propelling a bicycle shall not ride other than astride a permanent and regular seat attached thereto.
(2) No bicycle shall be used to carry more persons at one time than the number for which it is designed and equipped.

RIDING ON STREETS, ROADWAYS, BICYCLE PATHS AND GROUNDS.
(1) Every person operating a bicycle upon a street or roadway shall ride as near to the right side of the street or roadway as practical, exercising due care when passing a standing vehicle or one proceeding in the same direction.
(2) Every person operating a bicycle upon University streets, roadways, bicycle paths or grounds shall at all times operate such bicycle with due regard to his or her own safety and the safety of other persons legally upon such streets, roadways, bicycle paths or grounds.
(3) Every person operating a bicycle upon University streets, roadways, bicycle paths or grounds shall yield the right of way to pedestrians on crosswalks and sidewalks.
(4) Every person operating a bicycle upon a bicycle pathway shall yield the right of way at designated yield signs or markings.
(5) Every person operating a bicycle upon University property or grounds shall be restricted to bicycle paths in those areas of the campus where such paths exist.
(6) Wherever a usable path for bicycles has been provided adjacent to a street or roadway, bicycle riders shall use such path and shall not use the street or roadway.

SPEED.
No person shall operate a bicycle at a speed greater than is reasonable and prudent under the conditions then existing.

EMERGING FROM ALLEY OR DRIVEWAY.
The operator of a bicycle emerging from an alley or driveway shall, upon approaching a sidewalk or a sidewalk area extending across such alley or driveway, yield the right of way to all pedestrians approaching on such sidewalk or sidewalk area, and upon entering the street or roadway shall yield the right of way to all vehicles approaching on such street or roadway.
June 22, 2012 meeting, Board of Trustees

(K) CARRYING ARTICLES.
No person operating a bicycle shall carry any package, bundle or article which prevents the operator from keeping at least one hand upon the handlebars. (ORC 4511.53)

(L) PARKING.
No person shall park a bicycle other than in a bicycle rack or designated bicycle parking area.

(M) RIDING ON SIDEWALKS.

(1) No person shall ride a bicycle upon a sidewalk unless such sidewalk or parts thereof are properly marked and designated as bike paths.

(2) Transportation and Parking Services, The University is hereby authorized to erect signs on any sidewalk, street or roadway prohibiting the riding of bicycles thereon by any person and when such signs are in place no person shall disobey the same.

(N) LIGHTS, SIGNAL DEVICES, BRAKES ON BICYCLES.

(1) Every bicycle when in use at nighttime shall emit a white light visible from a distance of at least 500 feet to the front and with a red reflector on the rear of a type approved by the Ohio Director of Public Safety that shall be visible from all distances from 100 feet to 600 feet to the rear when directly in front of lawful lower beams of headlamps on a motor vehicle and a lamp emitting a red light visible from a distance of 500 feet to the rear shall be used in addition to the red reflector.

(2) No person shall operate a bicycle unless it is equipped with a bell or other device capable of giving a signal audible for a distance of at least 100 feet, except that a bicycle shall not be equipped with nor shall any person use upon a bicycle any siren or whistle.

(3) Every bicycle shall be equipped with an adequate brake when used on a street or highway. (ORC 4511.56)

(Q) USE OF COASTERS, SKATEBOARDS, ROLLER SKATES, ROLLER BLADES, SKATEBOARDS, COASTERS OR SIMILAR DEVICES.
Persons using skateboards, roller skates, roller blades, coasters, or any similar device on University premises are limited to riding upon sidewalks and crosswalks and must yield the right of way to pedestrians, bicyclists and motorists. The use of skateboards, roller skates, roller blades, coasters, or any similar device is prohibited in all other areas, including without limitation, upon roadways or bicycle paths; inside any university building; in any parking lot, garage, or construction area; or upon site furniture, architectural elements, walls, steps, ramps, or site improvements.

(P) ATTACHING BICYCLES, MOTORCYCLES TO OTHER VEHICLES.
No person riding upon any motorcycle, bicycle, coaster, roller skates, sled, or toy vehicle shall attach the same or himself or herself to any vehicle upon a roadway.

No operator shall knowingly permit any person riding upon any motorcycle, bicycle, coaster, roller skates, sled or toy vehicle to attach the same or himself or herself to any vehicle while it is moving upon a roadway. This section does not apply to the towing of a disabled vehicle. (ORC 4511.54)

(Q) NOTICES OF VIOLATION.
The operator of a bicycle in violation of any of the provisions of these Rules and Regulations may be issued a Notice of Violation by Transportation and Parking Services or by a Law Enforcement Officer or a Hospital and Campus Security Officer of the University.
IMPOUNDING OF BICYCLES, SKATEBOARDS, ROLLER SKATES, ROLLER BLADES, COASTERS OR SIMILAR DEVICES.

Any bicycle, skateboard, roller skate, roller blade, coaster, or similar device used in violation of any of the provisions of these Rules, Regulations, or by and held in the custody of the University or the Parking Services, Operator until there is final disposition of all issues. Any impounded bicycle, skateboard, roller skate, roller blade, coaster, or similar device held in custody of the University or the Parking Operator for longer than ninety consecutive days may be disposed of through an approved University process. A bicycle, skateboard, roller skate, roller blade, coaster, or similar device that the University or the Parking Operator has determined has been abandoned may be impounded by the University or the Parking Operator after it has been tagged for removal.

OPERATION OF MOTORIZED BICYCLES.

No person shall operate a motorized bicycle upon a street or roadway or any public or private property used by the public for purposes of vehicular traffic or parking, unless both of the following conditions are met:

1. The person is fourteen years of age or older and holds either a valid operator’s license issued under Chapter 4507 of the Revised Code or a valid motorized bicycle license issued after the person has passed the test provided by the Ohio Director of Public Safety.
2. The motorized bicycle is equipped in accordance with the rules adopted and promulgated by the Ohio Director of Public Safety pursuant to Chapter 4511.521 of the Revised Code. (ORC 4511.52.1)

Parking Generally.

GENERAL PROHIBITION.

No person shall stop, stand or park a vehicle on the streets, roadways, lands or property and grounds of the University except in areas and at the times and under the conditions specified by these Rules, Regulations, or by signs posted by order of the University or the Parking Services, Operator.

CURBSIDE PARKING.

Except as otherwise provided in this chapter, every vehicle stopped or parked upon a two-way street or roadway where there are adjacent curbs shall be so stopped or parked with the right-hand wheels of such vehicle parallel to and within twelve inches of the right-hand curb.

ANGLE AND PARALLEL PARKING.

1. On those streets, roadways or parking areas which have been signed or marked by the University or the Parking Services, Operator, for angle or parallel parking, no person shall park or stand a vehicle other than at the angle or position indicated by such signs or markings.
2. No person shall park or stand a vehicle in a parking space so that any part of such vehicle occupies more than one such space or protrudes beyond the markings designating such space.
3. No person shall park or stand a vehicle in a parking space in violation of posted signs designating “Head In Parking Only.”

LIGHTS ON PARKED OR STOPPED VEHICLES.

Except in cases of an emergency, whenever a vehicle is parked or stopped upon a roadway open to traffic or shoulder adjacent thereto, whether attended or unattended during the times mentioned in Paragraph (D) of Rule 3335-21-14, such vehicle shall be equipped with one or more lights which shall exhibit a white or
amber light on the roadway side visible from a distance of 500 feet to the front of such vehicle, and a red light visible from a distance of 500 feet to the rear. No lights need be displayed upon any such vehicle when it is stopped or parked where there is sufficient light to reveal any person or substantial object within a distance of 500 feet upon such street. Any lighted headlights upon a parked vehicle shall be depressed or dimmed. (ORC 4513.10)

(ED) STOPPING, STANDING OR PARKING PROHIBITED IN SPECIFIED PLACES. No person shall stop, stand or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with State statute or these Rules Regulations or the directions of a Law Enforcement Officer, traffic control device or employee of Transportation and Parking Services, in any of the following places:

1. On a sidewalk, except a bicycle;
2. In front of a public or private driveway;
3. Within an intersection;
4. Within ten feet of a fire hydrant;
5. On a crosswalk;
6. Within twenty feet of a crosswalk at an intersection;
7. Within thirty feet of, and upon the approach to, any flashing beacon, stop sign or traffic control device;
8. Between a safety zone and the adjacent curb or within thirty feet of points on the curb immediately opposite the entrance to any fire station, within seventy-five feet of the entrance when it is properly posted with signs;
9. Within twenty feet of a driveway entrance to any fire station and, on the side of the street or roadway opposite the entrance to any fire station, within seventy-five feet of the entrance when it is properly posted with signs;
10. Alongside or opposite any street or roadway excavation or obstruction when stopping, standing or parking would obstruct traffic;
11. Alongside any vehicle stopped or parked at the edge or curb of a street or roadway;
12. Upon any bridge or other elevated structure upon a street or roadway or within a street or roadway tunnel;
13. Within one foot of another parked vehicle;
14. At any place where signs prohibit stopping;
15. On any lawn, grass or landscaped area;
16. In any area, zone or parking space to which access, or in which parking, is prohibited by the placement of barricades authorized by the Department; or
17. Along painted yellow curbs.

(FE) OBSTRUCTION OF TRAFFIC. No person shall park a vehicle upon a street or roadway, other than an alley, in such manner or under such conditions as to leave available less than ten feet of the width of the street or roadway for free movement of vehicular traffic.

(GE) PARKING IN ALLEYS. No person shall park a vehicle within an alley in such a manner or under such conditions as to leave available less than ten feet of the width of the alley for the free movement of vehicular traffic, and no person shall stop, stand or park a vehicle within an alley in such a position as to block the driveway entrance to any abutting property.

(HG) OVERNIGHT PARKING. No person shall park a vehicle on a street or roadway between the hours of 2:00 a.m. and 5:00 a.m. of any day without a proper permit, except authorized emergency and public safety vehicles and vehicles assigned disability parking spaces.
June 22, 2012 meeting, Board of Trustees

(IH) PARKING FOR SALE OR SERVICE.
No person shall park a vehicle upon a street or roadway for the principal purpose of:

(1) Displaying such vehicle for sale; or
(2) Washing, greasing or repairing such vehicle, except repairs necessitated by an emergency.

(JI) PARKING ON NARROW STREETS OR ROADWAYS.

(1) Transportation and Parking Services The University is hereby authorized to erect signs prohibiting parking upon a street or roadway when the width of the street or roadway does not exceed twenty feet, or upon one side of a street or roadway, as indicated by such signs, when the width of the street or roadway does not exceed thirty feet.
(2) When official signs prohibiting parking are erected upon streets or roadways, no person shall park a vehicle upon any such street or roadway in violation of any such sign.

(KJ) STANDING OR PARKING ON ONE-WAY STREETS OR ROADWAYS.

(1) Transportation and Parking Services The University is hereby authorized to erect signs upon the left-hand-side of a one-way street or roadway to prohibit the standing or parking of vehicles. When such signs are in place, no person shall stand or park a vehicle upon such left-hand side in violation of any such sign.
(2) If a roadway includes two or more separate streets and traffic is restricted to one direction upon any such street, no person shall stand or park a vehicle upon the left-hand side of such one-way street unless signs are erected to permit such standing or parking. The Department is hereby authorized to determine when standing or parking may be permitted upon the left-hand side of any such one-way street and to erect signs giving notice thereof.

(LK) STOPPING, STANDING OR PARKING IN HAZARDOUS CONGESTED PLACES.

(1) Transportation and Parking Services The University is hereby authorized to determine and designate by proper signs places not exceeding 100 feet in length in which the stopping, standing or parking of vehicles would create an especially hazardous condition or would cause unusual delay to traffic.
(2) When official signs are erected at hazardous or congested places as authorized, no person shall stop, stand or park a vehicle in any such designated place.

(M) SIGNS OR MARKINGS INDICATING SUBCOMPACT PARKING SPACES.

(1) Any vehicle parked in an area that is signed or marked (posted) for subcompact vehicles shall not extend over the markings for such space or cause the operator of another vehicle inconvenience in entering or exiting such vehicle.
(2) Any vehicle parked in a subcompact parking space shall not obstruct or hinder an operator’s view in entering or exiting a designated parking space.

(NL) LOADING ZONES.

(1) Passenger Curb Loading Zones. No person shall stop, stand or park a vehicle for any purpose or period of time, other than for the expeditious loading or unloading of passengers, in any place marked as a passenger curb loading zone during hours when the Rules and Regulations applicable to
June 22, 2012 meeting, Board of Trustees

such zone are in effect, and then only for a period not to exceed three minutes unless otherwise marked.

(2) Freight Loading Zones. No person shall stop, stand or park a vehicle for any purpose or length of time, other than for the expeditious unloading and delivery or pickup and loading of materials, in any place marked as a freight loading zone during hours when the rules applicable to such zone are in effect, and then only for a period not to exceed the posted time limit.

(BUS STOPS AND TAXICAB STANDS.

(1) The operator of a bus shall not stand or park such vehicle upon a street or roadway at any place other than a bus stop so designated as provided in these Rules.

(2) The operator of a bus shall not stop such vehicle upon a street or roadway at any place for the purpose of loading or unloading passengers or their baggage other than at a bus stop, bus stand or passenger loading zone so designated as provided in these Rules, except in an emergency.

(3) The operator of a bus shall enter a bus stop, bus stand or passenger loading zone on a street or roadway in such a manner that the bus, when stopped to load or unload passengers or baggage, shall be in a position, with the right front wheel of such vehicle not farther than eighteen inches from the curb and the bus approximately parallel to the curb, so as not to unduly impede the movement of other vehicular traffic.

(4) The operator of a taxicab shall not stand or park such vehicle upon any street or roadway at any place other than in a taxicab stand so designated as provided in these Rules. This provision shall not prevent the operator of a taxicab from temporarily stopping at any place for the purpose of and while actually engaged in the expeditious loading and/or unloading of passengers.

(5) No person shall stop, stand or park a vehicle other than a bus in a bus stop or other than a taxicab in a taxicab stand when any such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while actually engaged in loading or unloading passengers when such stopping does not interfere with any bus or taxicab waiting to enter or about to enter such zone.

DELIVERY PERMITS.

(1) The delivery permit allows proximity parking for deliveries or delivery related purposes for a maximum of thirty minutes. The delivery permit allows the user to park in any nonrestricted “A,” “B,” “C,” or visitor parking space with the exception of metered and pay-parking facilities.

(2) All applications for departmental delivery permits must be approved by the appropriate dean or department head before being reviewed by the Director of Transportation and Parking or designee and are only valid when displayed along with a valid University parking permit.

(3) Delivery permit users shall comply with Department rules. The delivery permit does not relieve the operator from responsibility for violations of these Rules.

(4) A permit for one-time access to the traffic controlled zone only can be obtained at the information booths located at Control Zone entrances.

(5) Users must display the delivery permit “face-up” on the vehicle’s dashboard or in another prominent location to ensure the visibility of the permit.

MOVING OF VEHICLE.
June 22, 2012 meeting, Board of Trustees

No person shall move a vehicle not lawfully under his or her control into any such
prohibited area or away from a curb such distance as is prohibited by these
Regulations.

3335-21-2015 Stopping, Standing or Parking Permitted, Restricted or Prohibited on
Certain Streets, Roadways and Parking Areas.

(A)  APPLICATION OF SECTION.
The provisions of this section prohibiting the standing or parking of vehicles shall
apply at all times or at those times herein specified or as indicated on official signs,
except when it is necessary to stop a vehicle to avoid conflict with other traffic or
in compliance with the directions of a Traffic Control Officer, a Law Enforcement
Officer or an official traffic control device placed by Transportation and Parking
Services.

(BA)  RULES REGULATIONS NOT EXCLUSIVE.
The provisions of this section imposing a time limit on parking shall not relieve
any person from the duty to observe other and more restrictive provisions
prohibiting or limiting parking in specified places or at specified times.

(CB)  PARKING PROHIBITED.
Parking is prohibited at all times on certain streets and roadways. When signs
are erected by the Department of University giving notice thereof, no person
shall park a vehicle at any time upon any street or roadway that is signposted.

(DC)  PARKING LIMITED TIME.
Parking time may be limited on certain streets and roadways. The
Department of University or the Parking Operator, in accordance with the
Concession Agreement is hereby authorized to establish limited time parking
on certain streets and roadways by posting signs giving notice thereof.

(E)  PARKING PERMITTED.
Parking of vehicles may be permitted by the Department in and on the following
areas of the streets, roadways, land and property of the University, as designated
by erected signs:

(1)  Parking lots. Parking may be permitted on lands and property assigned
to the Department and designated by erected signs.

(2)  Parking categories. The Department may allocate the available
parking area on the land and property of the University into categories
restricting or specifying permit designations as follows:

(a)  “A” or “WA” parking areas may consist of marked areas along
streets and roadways, garages and certain parking lots and shall be
available to individuals displaying a current “A” or “WA” parking
permit.

(b)  “B” or “WB” parking areas may consist of marked spaces along
streets and roadways, garages and certain parking lots and shall be
available to individuals displaying a current “B” or “WB” parking
permit.

(c)  “C” or “WC” areas may consist of marked spaces along streets and
roadways, garages and certain parking lots and shall be available
to individuals displaying a current “C” or “WC” parking permit.

(d)  “R” parking areas may consist of marked spaces along streets and
roadways, garages and certain parking lots and shall be available
based upon restrictions designated on the sign.

(31)  Pay-parking facilities. Certain parking areas may be designated as pay-
parking facilities, and a schedule of fees for such parking shall be
established by the Department of University or the Parking Operator, in
June 22, 2012 meeting, Board of Trustees

according with the Concession Agreement. Parking in such areas may be open to all persons or limited by rule of the Department. Parking Operator. No person parking in a pay facility shall refuse to pay the prescribed fee.

(4) Public event parking. Public parking of motor vehicles while drivers or operators attend public events on the land and property of the University, other than that usually used for parking, may be permitted under such rules and controls and for such fees as designated by the Department.

(5) Signs. Whenever the Department, University or the Parking Operator provides by rule that any area shall be limited to certain parking, such rule shall be effective when proper signs, giving notice that parking is limited to certain persons or times, have been erected in the area or when Law Enforcement Officers or parking personnel are present and are directing parking and traffic thereto and therefrom.

(F) REGULATED PARKING TIME.
Parking shall be permitted in areas designated herein only at the following times and under the following conditions, whether or not University classes are in session:

(1) From the hours of 5:00 a.m. to 4:00 p.m., Monday through Friday, parking shall be limited to designated permit zones. From 4:00 p.m. to 2:00 a.m., Monday through Friday, and from 4:00 p.m. Friday to 2:00 a.m. Monday, "B" or "C" and "WA", "WB" and "WC" permit holders may park in "A" or "B" zones, except that certain areas or zones may be designated as restricted, limited or reserved and signs shall be posted in accordance with paragraph (E)(5) of the Administrative Code.

(2) Certain areas may be designated as no parking or restricted parking on the streets, roadways, land and property of the University between 2:00 a.m. and 5:00 a.m. at any time except with a disability permit.

(3) Students may be eligible to purchase a proximity permit or remote permit, allowing overnight parking in certain designated parts of "C" or "WC" areas. Application and approval shall be made in accordance with rules established by the Department.

(GD) PARKING METER ZONES.

(1) Transportation and the Parking Services Operator is hereby authorized to install parking meters in accordance with the Concession Agreement to regulate short-term parking within parking areas or upon those streets and roadways or parts of streets and roadways where it is determined that the installation of parking meters is necessary to aid in the regulation and control of parking vehicles.

(2) Each parking meter shall bear a legend indicating the days and hours when the requirement to deposit coins applies, the value of the coin to be deposited and the period of time during which parking is permitted at the parking meter.

(3) No person shall park a vehicle in any parking space to which a parking meter has been installed during the restricted and regulated time applicable to the parking meter unless a coin or coins of United States currency of the appropriate denomination shall have been deposited therein, or shall have been previously deposited therein for an unexpired interval of time, and said meter parking fee has been placed in operation paid.

(3) All individuals who are parking a vehicle in a Pay and Display parking lot must display on the dashboard of their vehicle a valid parking voucher purchased at the nearest Pay and Display machine.

(H) OPENING DOORS ON TRAFFIC SIDE.
No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so and can be done without
interfering with the movement of other traffic, nor shall any person leave a door open on the side of a motor vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers. (ORC 4511.70)

(IE) UNATTENDED VEHICLES; DUTY TO LOCK IGNITION, REMOVE KEY, SET BRAKE, ETC.
No person driving or in charge of a motor vehicle shall permit it to stand unattended without first stopping the engine, locking the ignition, removing the key from the ignition, effectively setting the parking brake and, when the motor vehicle is standing upon any grade, turning the front wheels to the curb or side of the highway or roadway. The requirements of this section relating to the stopping of the engine, locking of the ignition and removing the key from the ignition of a motor vehicle shall not apply to an emergency vehicle or a public safety vehicle. (ORC 4511.66.1)
THE OHIO STATE UNIVERSITY

Re: Summary of Long-Term Lease and Concession Agreement

The following is a summary of the draft Long-Term Lease and Concession Agreement (the "Agreement") to be entered into by and between the Ohio State University (the "University") and a to-be-determined concessionaire (the "Concessionaire").

Article I. Definitions and Interpretation. Article I sets forth the defined terms and certain other rules of interpretation used in the Agreement. The following are certain select definitions relating to this summary:

A. "Parking Facilities" means the Parking Garages and the Parking Lots.

B. "Parking Garages" means the parking garages described in Part I of Schedule 3; provided, however, "Parking Garages" shall not include the office spaces indented on Schedule 17, which the University shall have the right to continue to possess with rights of ingress and egress thereto and therefrom.

C. "Parking Lots" means the parking lots described in Part II of Schedule 3.

D. "Parking System" means the parking system consisting of the Parking Facilities, the Street Metered Spaces, the Street Permits Spaces and the Parking System Assets, including (i) the computer systems and software set forth on Schedule 14, (ii) each University Leased Property (until such time as that University Leased Property is no longer leased by the University), and (iii) all improvements of any and every kind whatsoever forming a part of and used in connection with the operation and maintenance of the Parking Facilities, but excluding any interest in the streets, sidewalks, paving or similar real property.

E. "Parking System Assets" means, (i) as of the time immediately prior to the Time of Closing, the personal property of the University used in connection with operations of the Parking System set forth on Part IV of Schedule 3, and (ii) from and after the Time of Closing, the personal property of the Concessionaire or the Operator used in connection with the operations of the Parking System.

F. "Street Metered Spaces" means those areas depicted on Part III of Schedule 3.

G. "Street Permit Spaces" means those areas depicted on Part III of Schedule 3.

---

1 This summary is for convenience only and should not be used in lieu of the Long-Term Lease and Concession Agreement.

2 Initially capitalized terms used in this memorandum and not otherwise defined herein have the meanings set forth in the Agreement.
Article II. The Transaction; Closing; Conditions Precedent; Covenants.

A. Section 2.1: Grant of Concession. At Closing, the Concessionaire shall pay the University $[_____] in exchange for (i) a 50-year lease of the Parking Facilities, (ii) the granting of the right to (A) operate the Parking System and to provide Parking Services, including the use, possession, operation, management, maintenance and rehabilitation of the Parking System, (B) charge the Parking Fees, (C) charge, collect and retain the Parking Revenue and (D) charge, collect and retain the Parking Violation Revenues and retain a portion thereof to compensate the Enforcement Operator, and (iii) the conveyance of the Parking System Assets.

B. Section 2.2: Closing. Upon receipt of the Closing Consideration, the University shall cancel and return the Closing Deposit and Cash Deposit. All revenues, charges, costs and expenses with respect to Assumed Liabilities shall be prorated between the University and the Concessionaire as of 11:59 p.m. on the day immediately preceding the Closing Date. A change in one basis point in the 30 year mid-market LIBOR swap rate will be reflected by a change of 1/25 of 1% in the Closing Consideration, provided that such change shall not be in excess of 2% without the prior written consent of the Party paying the change.

C. Section 2.3: Deposit. Concessionaire pays to the University a Cash Deposit or Letter of Credit in an amount of $40 million, which such deposit shall be retained by the University if the Agreement is terminated for failure of any of the conditions precedent to the University's obligation to close the Transaction.

D. Section 2.4: Conditions Precedent; Termination. This section sets forth the conditions precedent to each Party's obligation to close the Transaction, as well as the termination rights of both Parties. The conditions precedent are standard for a transaction of this nature including the requirement that the University Transportation and Parking Regulations be amended to allow for the Enforcement Operator. The Agreement may be terminated prior to Closing:

1. by mutual consent of the University and the Concessionaire;
2. by either the University or the Concessionaire if any Governmental Authority shall have issued an order permanently restraining the Transaction;
3. by the Concessionaire if any condition precedent to the Concessionaire's obligation to close set forth in Section 2.4(a) is not satisfied;
4. by the University if any condition precedent to the University's obligation to close set forth in Section 2.4(b) is not satisfied; or
5. by either the University or the Concessionaire if the Closing has not occurred within 120 days of execution of the Concession Agreement.
E. **Section 2.5: Covenants.** This section sets forth certain standard covenants and obligations of the Parties during the period between execution of the Agreement and Closing (the “Closing Period”). This section also sets forth (A) a requirement for the University to provide, upon Concessionaire’s request, the services of its employees to Concessionaire for six months following Closing, which such costs shall be borne by the Concessionaire; (B) a requirement for Concessionaire to make known all terms and conditions of employment to University Parking System Employees and to use its best efforts to interview all such employees that apply for potential employment ten Business Days prior to Closing, which any such employment would be at the discretion of the Concessionaire; (C) a requirement that the Parties use commercially reasonable efforts to enter into a lease agreement for office space within the Competing Parking Area for use by the Concessionaire; (D) a requirement that the University assign over all contracts relating to the rehabilitation of the 12th Avenue Garage at Closing and that if such rehabilitation is not completed by December 31, 2012, that such failure shall be a Compensation Event; and (E) a requirement that the University construct 1,400 Parking Spaces within the Competing Parking Area that shall be deemed part of the Parking Facilities.

F. **Section 2.6: Intended Treatment for Federal and State Income Tax Purposes.** This section sets forth the intended tax treatment of the Transaction for federal and state income tax purposes.

G. **Section 2.7: Closing Deliveries.** At Closing, each Party shall execute and deliver all Documents necessary to effect the Transaction.

H. **Section 2.8: Memorandum of Lease.** At Closing, the Parties shall execute and deliver the Memorandum of Lease, which shall be recorded with the Franklin County Recorder.

**Article III. Terms of the Concession.**

A. **Section 3.1: Quiet Enjoyment and Present Condition.** The Concessionaire shall be entitled to quiet enjoyment of the Parking System, and the Concessionaire's rights to use the Parking System are subject to the right of the University to monitor compliance with this Agreement to ensure that the Parking System is used and operated as required by the Agreement. Concessionaire agrees to accept the Parking System "AS IS" and acknowledges that it has inspected the Parking System, is aware of its condition and acknowledges that the University makes no representation regarding the condition of the Parking System.

B. **Section 3.2: Parking System Operations.**

1. This section states that Concessionaire shall be responsible for all aspects of the Parking System Operations during the Term, including costs, expenses, debts, liabilities and other obligations relating to the Parking System.
2. Additionally, Concessionaire (through the Enforcement Operator) and the University's personnel shall have the exclusive right to administer Parking Enforcement, and the Concessionaire will be responsible for the adjudication related thereto. Concessionaire will collect and retain all Parking Violation Revenue, and the Concessionaire, at the end of each Permit Year, will pay to the University the amount of the Parking Violation Revenue less the costs of collection and adjudication, of equipment purchased and maintained to reduce the cost of Parking Enforcement and of the Enforcement Operator's compensation. The University shall use commercially reasonable means to assist in the collection of Parking Violation Revenue, including conditioning the release of student transcripts and diplomas on the payment of Parking Violations Revenue owed.

3. This section also provides a grant to the Concessionaire of a right of entry and access to the Public Way, agreement by the Parties to meet annually to discuss enhancements to Parking System Operations, and an agreement to allow the University to continue to operate valet parking services at the level as of the Bid Date.

C. Section 3.3: Operator. Parking System Operations shall be under the direction and supervision of an experienced operator (the "Operator"). Concessionaire shall not replace Operator without approval of the University. If the Operator fails to operate the Parking System in compliance with the Operating Standards after 30 days notice to the Concessionaire, then the University may cure such failure and direct that Concessionaire remove the Operator, provided that if three such failures occur within a 12-month rolling period, the University may direct that Concessionaire remove the Operator without notice. Upon the University's direction to remove the Operator, if the Operator cures the failure within 45 days, the Concessionaire need not remove the Operator.

D. Section 3.4: Authorizations; Qualifications. Concessionaire shall obtain and maintain all Authorizations necessary to operate the Parking System and shall maintain its existence and all qualifications necessary to carry on the Parking System Operations.

E. Section 3.5: No Encumbrances. Neither the University nor the Concessionaire shall do any act that would create any Encumbrance against the Parking System. Each party shall use reasonable efforts to assist the other Party in attempting to remove any Encumbrance that comes into existence as a result of an act or omission by such other Party.

F. Section 3.6: Single Purpose Covenants. Concessionaire shall be formed solely for purpose of owning the Concessionaire Interest and shall not engage in any unrelated business or possess any unrelated assets.
G. Section 3.7: Rights of the University to Access and Perform Work on the Parking System and Utilize Space for Renewable Energy Resources. The University reserves the right to enter and have access to the Parking Facilities in order to inspect the Parking System, make necessary repairs in the event of any Concessionaire Default, install safety measures, rehabilitate or construct Affected Property, and install or maintain utilities, among other things. The University also reserves the right to use portions of the Parking Facilities for installation of renewable energy apparatus. The University shall not be obligated to pay Concession Compensation for access to inspect the Parking System, make necessary repairs in the event of Concessionaire default or in the event of an emergency. The University shall not have access to the cash collections or other intangibles of the Concessionaire.

H. Section 3.8: Payment of Taxes. Concessionaire shall pay Taxes payable in respect of use or operations of the Parking System, provided, however, the University shall pay when due any Property Tax. Any sales tax attributable to Parking Fees may be passed through to the users and shall not be considered for calculating rate adjustments.

I. Section 3.9: Utilities. Concessionaire shall pay when due all charges for gas, electricity, light, heat, power, telephone, waters and other utilities and services used in the Parking System, except the University shall be responsible for all stormwater charges.

J. Section 3.10: Notices of Defaults and Claims. Concessionaire and the University shall promptly notify the other party of any Defaults of which it becomes aware, as well as any material claims, proceedings, disputes or litigation that arise.

K. Section 3.11: Assignment of Operating Agreements and Plans. At the request of the University, Concessionaire shall collaterally assign to the University all of its right under the Operating Agreement and future plans relating to the Parking System Operations. The Operating Agreements and Plans to be assigned can also be assigned as security to a Leasehold Mortgage, provided that if the Leasehold Mortgage is enforcing its security interest, the University shall not be entitled to use the Operating Agreements and Plans in enforcing its security.

L. Section 3.12: Use of Information and Records. The University shall be entitled to access all reasonable records, electronic data and other information collected by Concessionaire to the extent needed by the University in connection with enforcement of parking regulations, identification of Parking Violations, imposition of fines and adjudication of cases. Concessionaire shall be entitled to access all reasonable records, electronic data and other information collected by the University to the extent reasonably required for Concessionaire’s performance of its obligations, provided that Concessionaire shall keep such information confidential.
M. **Section 3.13: Parking System Assets.** Concessionaire shall maintain and operate the Parking System in accordance with the Operating Standards. Concessionaire will inspect the Parking System Assets and promptly repair and defects.

N. **Section 3.14: Payments by the University.** Concessionaire agrees that if the University is required by Law to withhold a portion of any payment that the University is obligated to make to the Concessionaire under the Agreement, the University will be deemed to have satisfied such payment to Concessionaire to the extent of such withholding by the University.

O. **Section 3.15: Naming Rights Other Revenue Activities and Commercial Advertisements and Activities.** The University retains exclusive naming rights with respect to the Parking System, including the right to sell or lease any naming rights for the Parking System. The University shall not change the names of any Parking Garages and the Parking System or grant any third party the right to change such names without the prior consent of the Concessionaire. Additionally, Concessionaire shall neither conduct nor permit any commercial activities in the Parking System. The University grants the Concessionaire a license during the Term to use the name of the Parking System along with its trademarks.

P. **Section 3.16: Reversion of Parking System.** On the Reversion Date, Concessionaire shall return to the University the Parking System.

Q. **Section 3.17: Police, Fire, Emergency, and Public Safety Access Rights.** Any police, fire, and other emergency and security personnel retained by the University shall have access to the Parking System.

R. **Section 3.18: Negotiations with Governmental Authorities.** Prior to entering into any agreement with a Governmental Authority that could extend beyond the Term of the Concession to which the University may incur liability, the Concessionaire shall submit such agreement for Approval by the University (which Approval may be withheld in the sole discretion of the University).

S. **Section 3.19: Administration of the Public Way.** Concessionaire acknowledges and accepts that the University (depending on whether the University has responsibility for controlling streets and rights of way) will hold and administer the public way. Any action by the University with respect to streets controlled by University that materially restricts access to a Parking Garage or Parking Lot or results in reduction of Parking Revenue above $100,000 (Adjusted for Inflation) will be a Compensation Event.

T. **Section 3.20: Air Rights.** The University reserves, and does not lease to Concessionaire, the air rights of all of the Parking Facilities.

U. **Section 3.21: Ongoing Ancillary Services.** The University shall continue to operate ancillary parking services, to include such items as remote bus services, as described in Schedule 19. The failure to provide such services shall constitute a Compensation Event.
Article IV. Capital Improvements.

A. Section 4.1: Concessionaire Responsibility for Capital Improvements. Concessionaire shall be responsible for all capital improvements with respect to the Parking System, including those listed on Schedule 12.

B. Section 4.2: Authorizations Related to Capital Improvements. Concessionaire's obligation to perform Capital Improvements shall be subject to the issuance by the Governmental Authorities and the University of any and all Authorizations.

C. Section 4.3: University Responsibility for Capital Improvements. The University shall maintain and repair any sidewalks and roads constituting Affected Property under the jurisdiction of the University that provide access to the Parking System in a manner consistent with the Operating Standards.

D. Section 4.4: Required Payment Options. Any Parking Space with Parking Fees of $1.00 or more per hour must have multiple payment options, including cash, debit/ATM card and credit card.

Article V. Modifications.

A. Section 5.1: University Directives. The University may issue a directive to perform work on the Parking System (a "University Directive") to the Concessionaire at any time during the Term. Parking Garages or Parking Lots constructed as the result of a University Directive become part of the Parking System to be operated by Concessionaire, and the University shall pay any Concession Compensation with respect thereto.

B. Section 5.2: Other Construction. The University may construct additional parking garages, parking lots or other parking facilities in the Competing Parking Area. However, prior to the construction of any parking garage, parking lots or other parking facility that is not part of a larger structure or development, the University must provide Concessionaire with the option to perform such work. If Concessionaire wishes to accept the obligation to perform such work, Concessionaire bears the cost, and the parking garage or lot become part of this Agreement. If Concessionaire elects not to perform the work, the University has the option to include or exclude such parking garage or lot from this Agreement.

C. Section 5.3: Concessionaire Requests. Concessionaire must get University approval to make material changes in the dimensions, character, quality or location of any part of the Parking System, provided that a Concessionaire Request will not be required to install gates and other equipment in ensuring such Parking Facility is a closed-access Parking Facility.

D. Section 5.4: Performance of Modifications. Concessionaire shall ensure that University Directives and Approved Concessionaire Requests are performed in a good and workmanlike manner.
June 22, 2012 meeting, Board of Trustees

**Article VI. Operating Standards.**

A. **Section 6.1: Compliance with Operating Standards.** Concessionaire shall, at all times during the Term, cause the Parking System Operations to comply with the Operating Standards in all material respects.

B. **Section 6.2: Proposed Operating Standards.** If the Concessionaire wishes to use operating standards other than the Operating Standards, the Concessionaire must provide notice of such proposed operating standards to the University for Approval.

C. **Section 6.3: Modified Operating Standards.** The University has the right to modify the Operating Standards, provided that if such modification is not made in order to comply with law or in accordance with operating standards at Comparable Parking Facilities, the Concessionaire may be entitled to Concession Compensation but only if the amount of Concession Compensation claimed exceeds $100,000 Adjusted for Inflation during a 360 Day consecutive period.

**Article VII. Revenues, Designation of Permits and Spaces and Closure of Parking Spaces.**

A. **Section 7.1: Schedule of Parking Fees.** Parking Fees that may be charged over the Term will be listed in Schedule 5. Concessionaire shall have the right to collect the Parking Fees as well as revenue resulting from parking violations. To the extent Concessionaire wishes to change the Schedule of Parking Fees, Concessionaire must submit such changes to the Parking Advisory Committee for its approval.

B. **Section 7.2: Changes to Permits or Parking Spaces.**

1. The University has designated certain Classes of Permits. Prior to the beginning of the Permit Year, the University may change the Classes of Permits. The University may not limit the number of a Class of Permit sold provided that the University can limit the number of a Permit Sub Class based on the availability of Parking Spaces, provided that any limitation by the University on the number of Permits sold shall be a Compensation Event.

2. The University has the right to designate, temporarily close or remove Parking Spaces, provided that any such temporary closures shall be a Compensation Event if not done in response to the Concessionaire’s acts or omissions and if it results in a reduction of Parking Revenue of $100,000 during a 360-day period Adjusted for Inflation.

3. The University has the right to designate new Street Metered Parking Spaces, and the University shall pay any Concession Compensation associated with the installation of Parking Meters associated with those Street Metered Parking Spaces.
4. A Parking Space is deemed to be “permanently removed” by the University upon a written designation by the University or a continuous one year closure by the University.

5. To the extent Concessionaire wishes to change the designation of Parking Spaces or Permit Classes, Concessionaire must submit such changes to the Parking Advisory Committee for its approval, provided that the Concessionaire may temporarily designate Permit spaces as “transient” or Metered Parking Spaces without the University’s consent, as long as such action does not result in the non-availability of Parking Spaces for Permit users entitled to use such Parking Facility. The University may also change the designation of Parking Spaces or Permits Classes provided that any change shall be a Compensation Event.

C. Section 7.3: Notice. If the University wishes to remove any space, it must provide written notice thereof to the Concessionaire.

D. Section 7.4: Payments for Permanent Removal. The University may remove up to 2,200 Parking Spaces used for Permit parking during the Term, as described in Schedule 20, without having to pay Concession Compensation. The Permanent Removal of Parking Spaces beyond 2,200 shall result in a Compensation Event, provided that any Concession Compensation shall take into account Additional Parking Spaces added during the Term. If a Permanent Removal results in less than the sum of 27,000 Parking Spaces in the Parking System and 75% of the Parking Spaces added during the Term, the Concessionaire may decide to treat that as (i) an Adverse Action which results in a termination of the Agreement and the obligation of the University to pay the Concessionaire the fair market value of the remaining Term or (ii) a continued Compensation Event.

E. Section 7.5: Special Events and Global Events.

F. 1. Special Events. The University may temporarily close, take over the use of, or reduce or prohibit Parking Fees to be charged with respect to, all or any portion of the Parking System for Special Events. Permitted Special Events will be listed on Schedule 10, and the University shall have the right to modify Schedule 10 prior to each Permit Year. To the extent that the University does not have knowledge of a Special Event prior to the applicable Permit Year, the University must provide notice to the Concessionaire in advance of the Special Event promptly after the University becomes aware of such Special Event. Any portions of the Parking System affected by the Special Event shall be operated by the Concessionaire, and the University shall reimburse the Concessionaire for its out-of-pocket cost associated with the Special Event beyond those operating expenses that the Concessionaire would have been required to provide absent the Special Event. If there is a Special Event at the Schottenstein Center, the Concessionaire shall continue to operate the affected portion of the Parking System, and the University shall be entitled to the revenue derived therefrom;
provided that the University shall reimburse the Concessionaire for its out-of-pocket cost plus 10% associated with the Special Event.

G. 2. **Global Events.** The University may designate up to 20 Global Events in each Permit Year during which the University may temporarily close, take over the use of, or reduce or prohibit Parking Fees to be charged with respect to all or any portion of the Parking System. The University shall notify the Concessionaire of Global Events of which it has knowledge prior to each Permit Year. To the extent that the University does not have knowledge of a Global Event prior to the applicable Permit Year, the University shall provide notice to the Concessionaire in advance of the Global Event promptly after the University becomes aware of such Global Event. The closure of Parking Spaces during the Global Event shall not constitute a Compensation Event. Any portions of the Parking System affected by a Global Event shall continue to be operated by the Concessionaire during such Global Event, and the University shall reimburse the Concessionaire for the direct out-of-pocket cost associated with the Global Event, provided that the University shall retain any revenue therefrom, including fees associated with the Parking System. The University may designate certain Parking Facilities as not being used during a particular Global Event, in which case the Concessionaire shall operate those Parking Facilities, provided any revenue received by Concessionaire shall be set off against any amount owed to Concessionaire by University under this Concession Agreement.

H. **Section 7.6: Additional Parking Spaces.** The University may designate additional Parking Spaces as a University Directive and such spaces shall become part of the Parking System.

I. **Section 7.7: Changes in Parking Rules, Regulations and Adjudication.** Any material change to the Enforcement Policies and Procedures not approved by the Concessionaire, shall result in a Compensation Event.

J. **Section 7.8: Increases in Parking Fees.** The University and Concessionaire shall negotiate in good faith the allocation of any increase in Parking Revenue resulting from increases in fees other than provided for in Schedule 5.

K. **Section 7.9: Right to Challenge.** Any disagreement by the Parties with respect to this Article 7 shall be subject to dispute resolution.

L. **Section 7.10: Mitigation of Temporary Closure.** Concessionaire shall provide the University 30 days’ notice prior to any temporary closure of any Parking Facility, and both parties will negotiate in good faith to mitigate the effects of such temporary closure.

**Article VIII. Reporting; Audits; Inspections.**

A. **Section 8.1: Reports.** Concessionaire shall provide notice to the University of all emergencies, including environmental incidents, within 12 hours. Concessionaire also must provide notice to the University of all claims in excess of $25,000
Adjusted for Inflation made by or against the Concessionaire. Concessionaire shall deliver to university audited financial reports within 120 days of the end of each Year.

B. **Section 8.2: Information.** At the request of the University, and at the Concessionaire's cost and expense, the Concessionaire shall make available all Information relating to the Parking System but not more frequently than once a quarter, and the University shall keep confidential any such Information that constitutes trade secrets or commercial or financial Information.

C. **Section 8.3: Inspection, Audit and Review Rights of the University.** The University, upon ten business days' notice, may carry out an Audit and Review of the Information required to be maintained by Concessionaire under this Agreement. The University shall also have access to the Parking System for inspection and testing.

D. **Section 8.4: Audits, Assistance, Inspections and Approvals.** Any reference to University providing assistance to the Concessionaire performing an Audit shall not relieve the Concessionaire from any liability under this Agreement.

**Article IX. Representations and Warranties.**

A. **Section 9.1: Representations and Warranties of the University.** The Agreement contains representations and warranties typical for the nature of this transaction, which include the following: (i) organization; (ii) power and authority; (iii) enforceability; (iv) title; (v) no conflicts; (vi) consents; (vii) compliance with law; (viii) litigation; (ix) environmental matters; (x) financial information; (xi) Parking System Contracts; (xii) absence of changes; (xiii) brokers; (xiv) accuracy of information; (xv) Permits; (xvi) Excluded Lease Property; and (xvii) University Leased Property.

B. **Section 9.2: Representations and Warranties of the Concessionaire.** The Agreement contains representations and warranties typical for the nature of this transaction and include the following: (i) organization; (ii) power and authority; (iii) enforceability; (iv) no conflicts; (v) consents; (vi) compliance with law; (vii) litigation; (viii) accuracy of information; (ix) representations regarding the Operator; and (x) brokers.

C. **Section 9.3: Non-Waiver.** No investigations made by or on behalf of any Party shall have the effect of waiving any representation or warranty made by the other Party.

D. **Section 9.4: Survival.** Representations and warranties survive for 24 months except for those listed in this Summary in 9.1(i) – (ix) and 9.2(i) – (ix) which shall last indefinitely.
Article X. Finance Obligations.

A. Section 10.1: Concessionaire’s Obligations. Concessionaire shall be responsible for obtaining any financing for the performance of its obligations under the Agreement.

B. Section 10.2: University’s Obligations. The University shall, at the sole cost and expense of the Concessionaire, cooperate with the Concessionaire with respect to documentation reasonably necessary to obtain financing.

C. Section 10.3: Concessionaire’s Obligation for Estoppel Certificates. Concessionaire shall, upon the request of the University, execute and deliver standard consents and estoppel certificates with respect to the Agreement which may be qualified to the best of the knowledge and belief of a designated Representative of the Concessionaire.

D. Section 10.4: Prohibited Tax Shelter Transactions. Concessionaire agrees that it will not enter into any lease or any other arrangement/transaction that would cause the University to become a party to a “prohibited tax shelter transaction” within the meaning of Section 4965 of the Internal Revenue Code of 1986.

Article XI. Compliance.

A. Section 11.1: Compliance with Laws. Concessionaire must observe and comply with all applicable Laws and must notify the University within seven days after receiving notice from a Governmental Authority that the Concessionaire may have violated any Laws.

B. Section 11.2: Non-Discrimination. The Concessionaire shall comply with all applicable federal, state and local Laws regarding non-discrimination and shall cause all Contractors to do the same.

C. Section 11.3: Compliance with Wage and Hour Laws. The Concessionaire shall comply with all applicable Laws governing employment and/or employee wages and hours.

D. Section 11.4: Non-Collusion. Concessionaire swears that it is the contracting party, and that it has not entered into any combination, collusion or agreement to receive or pay any money for the execution of the Agreement other than that called for by the Agreement.

E. Section 11.5: Conflict of Interest. Concessionaire certifies that neither it nor any of its representatives has or will have any conflict of interest, direct or indirect, with the University during the performance of the Agreement.

F. Section 11.6: Drug-Free Workplace Certification. Concessionaire agrees to make a good faith effort to provide and maintain a drug-free workplace. Concessionaire shall notify the University within 10 days after receiving actual notice that
Concessionaire or its employees have been convicted of a criminal drug violation in the Concessionaire’s workplace.

G. **Section 11.7: Minority-Owned and Women-Owned Business Enterprises.** Concessionaire is required to use good faith efforts to obtain the participation of M.B.E./W.B.E. in its Parking System Operations.

H. **Section 11.8: Financial and Audit Standards.** Concessionaire shall observe and comply, in all material respects, with GAAP.

**Article XII. Payment Obligations.**

A. **Section 12.1: Certain Payment Obligations of the Concessionaire.** Concessionaire has a payment obligation to the University and its Representatives for losses related to various items including (i) breach of representations and covenants, (ii) Assumed Liabilities, (iii) Taxes attributable to the Transfer, and (iv) brokerage fees.

B. **Section 12.2: Certain Payment Obligations of the University.** Without limiting any other remedy available under this Agreement, University has a payment obligation to the Concessionaire and its Representatives for losses related to various items including (i) breach of representations and covenants, (ii) Excluded Liabilities, and (iii) brokerage fees.

C. **Section 12.3: Agency for Representatives.** University and Concessionaire accept such payment obligation in favor of each of its Representatives as agent for such Representatives, which, in the case of Concessionaire, includes Leasehold Mortgagor.

D. **Section 12.4: Third Party Claims.** Sets forth the procedure for Third Party Claims.

E. **Section 12.5: Direct Claims.** Sets forth the procedure for Direct Claims.

F. **Section 12.6: Failure to Give Timely Notice.** Failure to provide notice properly may relieve the Obligor from paying certain losses.

G. **Section 12.7: Reductions and Subrogation.** If, after receiving a payment, a Loss is reduced by insurance or otherwise, the Obligee shall reimburse the Obligor.

H. **Section 12.8: Payment and Interest.** All amounts owned under this Article 12 shall bear interest.

I. **Section 12.9: Limitation on Certain Claims.** The maximum liability of the University, without limiting any other remedy under the Agreement, shall not exceed 50% of the Closing Consideration, but such limits shall not apply to breaches of certain fundamental representations and warranties or to claims for fraud, intentional misrepresentation or intentional breach. The maximum liability
of the Concessionaire, without limiting any other remedy under the Agreement, shall not exceed 50% of the Closing Consideration, but such limits shall not apply to breaches of certain fundamental representations and warranties or to claims for fraud, intentional misrepresentation or intentional breach.

J. Section 12.10: Other Matters. With respect to claims by Concessionaire's employees, the Concessionaire waives its immunity to which it would be entitled under worker's compensation law. Any Losses for which Obligor may be liable shall be net of amounts recovered under insurance policies.

K. Section 12.11: Offset Rights; Limitations on Certain Damages. Each Party's payment obligations shall be subject to its defense and offset rights. No party is liable for indirect or consequential damages.

L. Section 12.12: Governmental Immunity. The University shall not waive its rights and privileges pursuant to its governmental immunity.

M. Section 12.13: Survival. The indemnity provisions survive the termination of the Agreement.

Article XIII. Insurance.

A. Section 13.1: Insurance Coverage Required. Concessionaire is required to provide and maintain insurance coverages typical for this nature of transaction, including (i) workers' compensation and employer's liability; (ii) commercial general liability; (iii) automobile liability; (iv) garage liability; (v) builder's risk; (vi) professional liability; (vii) property; (viii) and railroad protective liability.

B. Section 13.2: Additional Requirements. Concessionaire must provide original Certificates of Insurance evidencing the Required Coverages within 5 business days following renewal and must provide 60 days' notice in the event coverage is canceled. Certain other additional insurance requirements are set forth that are typical for this nature of transaction, including the provision that if any of the Required Coverages are not available on a commercially reasonable basis, the Concessionaire may obtain insurance that best approximates the Required Coverages, subject to the University's approval.

C. Section 13.3: Damage and Destruction. If part of any of the Parking System is destroyed or damaged by tornado or other casualty of any kind, the Concessionaire shall (i) give the University notice; (ii) proceed diligently to repair the same; and (iii) deposit all insurance proceeds received with a Depositary for approved distributions to the Concessionaire (only if the Restoration costs exceed $1 million). Prior to any Restoration work, the Concessionaire must submit such plans to the University for approval.

Article XIV. Adverse Actions. An Adverse Action is an action taken by the University that significantly diminishes the value of the Concession to the Concessionaire and is action that is (i) principally borne by Concessionaire and (ii) has a material
adverse effect on the fair market value of the Concessionaire Interest, but the following are NOT Adverse Actions: (A) development of a new parking facility by the University; (B) new State or Federal Taxes; or (C) subject to Article 7, the addition or removal of Parking Spaces. In the event an Adverse Action occurs, the Concessionaire may, at its election, either (i) receive Concession Compensation (the value of the loss); or (ii) terminate the Agreement and receive the fair market value of the Concession for the remainder of the Term. If the University wishes to remedy the Adverse Action, it shall provide notice within 30 days and remedy the Adverse Action within 120 days.

Article XV. **Delay Events and Concession Compensation.**

A. **Section 15.1: Delay Events.** A Delay Event is an event such as Force Majeure and other limited events beyond the Concessionaire's reasonable control that cause a delay to by the Concessionaire in performing its obligations. In the event that Concessionaire is affected by a Delay Event it must provide notice to the University and the Concessionaire receives an extension of time to perform the obligation for which it was delayed. If the Delay Event exceeds 120 continuous days (or 120 days in total during a 360 day period) and it results in a Material Adverse Effect, then the Concessionaire shall have the right to extend the Term for a period of time sufficient to compensate the Concessionaire and to restore it to the same economic position as would have been had such Delay Event not occurred, provided that the Term shall not be extended to the extent it would subject either Party to a leasehold tax or conveyance fee.

B. **Section 15.2: Relationship to Compensation Event.** The Concessionaire may also receive Concession Compensation for a Delay Event if the Concession Agreement separately provides for Concession Compensation to be paid.

C. **Section 15.3: Notice of Compensation Events.** If a Compensation Event occurs, Concessionaire shall give the University notice within 30 days, provided that such failure to give notice shall not limit the remedies unless such delay materially prejudices the University.

D. **Section 15.4: Incremental Payments of Concession Compensation.** Sets forth the procedure for determination and payment of Settlement Compensation during the Permit Year when the Concession Compensation Balance exceeds $1 million.

E. **Section 15.4: Settlement Compensation.** Sets forth the procedure for determination and payment of Settlement Compensation at the end of the Permit Year, including the procedure related to the Negative Concession Compensation Balance whereby if the University has paid more Concession Compensation than required, the University can either use that negative balance as a credit against future Concession Compensation or demand payment from Concessionaire under certain circumstances.
Article XVI. Defaults: Letters of Credit.

A. Section 16.1: Default by the Concessionaire. This section sets forth (i) the events that constitute a “Concessionaire Default” under the Agreement. Such events are typical for this nature of transaction and include, among other things, (A) failing to comply with covenants, (B) transferring its interest, (C) failing to comply with requirements of a final award resulting from dispute resolution, and (D) admitting that it is unable to pay its debts or otherwise files bankruptcy; and (ii) the remedies of the University upon a Concessionaire Default.

B. Section 16.2: Default by the University. This section sets forth (i) the events that constitute a “University Default” under the Agreement. Such events are typical for this nature of transaction and include, among other things, (A) failing to comply with covenants, (B) failing to comply with requirements of a final award resulting from dispute resolution, and (C) admitting that it is unable to pay its debts or otherwise files bankruptcy; and (ii) the remedies of the University upon a Concessionaire Default. A University Default shall not include any failure to perform obligations as a result of Force Majeure.

C. Section 16.3: Letters of Credit. Concessionaire shall deliver five years prior to the final Concession Year, a Letter of Credit or cash deposit in the amount that the University determines is appropriate to cover all costs of Capital Improvements for the remainder of the Term. Such Letter of Credit shall be replaced on every anniversary of such Concession Year until the date that is at least two years after the expiration of the Term.

D. Section 16.4: Consequences of Termination or Reversion. This section sets forth the procedure to be followed upon the termination or expiration of the Agreement, including Concessionaire’s surrendering of the Parking System.

E. Section 16.5: Termination other than pursuant to Agreement. If the Agreement is terminated by the University other than because of a Concessionaire Default, the University shall pay to the Concessionaire the fair market value of the Concessionaire Interest as of the date of such termination plus the reasonable out-of-pocket expenses incurred by the Concessionaire as a direct result of such termination.

Article XVII. Restrictions on Transfers.

A. Section 17.1: Transfers by Concessionaire. Subject to the rights of the Leasehold Mortgagee, Concessionaire may not Transfer any portion of its interest that would result in the Concessionaire directly owning 50 percent or less of the Concessionaire Interest as of the date of entering into the Agreement unless (i) the University has approved, and (ii) the proposed Transferee assumes the obligations of Concessionaire. The University may withhold its consent in various instances, and the University can take into account financial strength, experience with parking facilities, reputation and Operator.
B. **Section 17.2: Assignment by the University.** The University may transfer any or all of its interest but must remain jointly and severally liable.

**Article XVIII. Dispute Resolution.**

A. **Section 18.1: Scope.** Any dispute arising out of the Agreement is to be resolved in accordance with this Article 18.

B. **Section 18.2: Informal Dispute Resolution Procedures.** If the Parties are unable to resolve any dispute within 15 Business Days, the dispute shall be referred to the Designated Senior Person of each Party. The Designated Senior Persons shall negotiate in good faith to resolve the dispute.

C. **Section 18.3: Mediation.** If Designated Senior Persons do not resolve the dispute in 15 Business Days, the Parties shall attempt to resolve the dispute through mediation administered by the AAA.

D. **Section 18.4: Litigation.** If mediation does not resolve the dispute within 30 Business Days, then the Parties shall present the dispute to a court of competent jurisdiction.

E. **Section 18.5: Provisional Remedies.** No Party shall be precluded from initiating a proceeding in a court of competent jurisdiction for the purpose of obtaining any emergency or provisional remedy.

F. **Section 18.6: Tolling.** If a Party receiving a notice of default under the Agreement contests the propriety of such notice, any cure period that applies to such default shall be tolled for the time period between such application and the issuance of a final award or determination.

**Article XIX. Lenders.**

A. **Section 19.1: Leasehold Mortgages.** The Concessionaire may grant Leasehold Mortgages subject to various restrictions such as the Concessionaire not being in default, the mortgage may only be in favor of an Institutional Lender, the mortgage may not extend to the fee simple interest of the property, the University shall have no liability, etc. While any Leasehold Mortgage is outstanding, the University shall not amend the Agreement in a way that shall have a material adverse effect on the Leasehold Mortgagee without its consent.

B. **Section 19.2: Notices and Payments to Leasehold Mortgagees.** All required notices to be made by the University to the Concessionaire must also be made to the Leasehold Mortgagee. All payments by the University to the Concessionaire shall be made to the Leasehold Mortgagee.

C. **Section 19.3: Leasehold Mortgagee’s Right to Cure.** The Leasehold Mortgagee shall have 60 days after a Concessionaire Default to cure the default. If the
Leasehold Mortgagor is working to cure the default, the University may not
terminate the Concession Agreement.

D. **Section 19.4: Rights of the Leasehold Mortgagor:** The Leasehold Mortgagor may
enforce its rights in any lawful way, including taking possession of the Parking
System. Upon taking possession, Leasehold Mortgagor may transfer the Parking
System subject to Section 17.1, except it shall not be subject to the requirement
that all Concessionaire Defaults must be cured upon a Transfer. Prior to taking
possession of the Parking System, Leasehold Mortgagor is not liable for any of
the Concessionaire’s obligations.

E. **Section 19.5: Termination of this Agreement; New Agreement:** If the University
terminates the Concession Agreement, the University agrees to enter into a New
Agreement for the Parking System with the Leasehold Mortgagor, provided the
Leasehold Mortgagor cures any Concessionaire Default.

F. **Section 19.6: Recognition of Leasehold Mortgagor:** The Leasehold Mortgagor
whose notice was earliest received by the University shall be the only one who
shall have the rights as a Leasehold Mortgagor under the Concession Agreement.

G. **Section 19.7: University’s Right to Purchase Leasehold Mortgages:** In the event
of a default and if the Leasehold Mortgagor wishes to foreclose on the Mortgage,
the University may purchase the Mortgage.

H. **Section 19.8: Assignment and Assumption Agreement:** If (i) the University has
determined that a New Agreement between the University and Leasehold
Mortgagor would violate law or (ii) the University and the Leasehold Mortgagor
mutually agree, then Leasehold Mortgagor and the University shall enter into an
Assignment and Assumption Agreement whereby the Leasehold Mortgagor
assumes the Concession Agreement in the event of a Concessionaire Default,
provided Leasehold Mortgagor cures such Concession Default.

I. **Section 19.9: Right to Dispute Resolution:** In the event of default, the Leasehold
Mortgagor shall have the right to participate in the dispute resolution process set
forth in Article 18.

**Article XX. Miscellaneous.** Article 20 contains the miscellaneous provisions standard for an
agreement of this nature, including, among other items, (i) notice requirements,
(ii) amendment procedure, (iii) governing law (Ohio), and (iv) waiver of jury trial.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

3335-3-30.1 Dean for undergraduate studies for arts and sciences. RESCIND
3335-3-30.1 Dean for undergraduate education. NEW

(A) There shall be a dean of undergraduate education who shall be a member of the faculty charged with overseeing and implementing policies related to undergraduate academic programming. The major responsibility of the dean for undergraduate education shall be that of providing active leadership in the promotion, direction and support of undergraduate educational activities of the university, and in the encouragement of the spirit of learning among the students. The dean for undergraduate education shall be appointed and reappointed by the board of trustees upon nomination by the executive vice president and provost in consultation with the president.

(B) The dean of undergraduate education shall serve as a member of the council of deans, and in general, be responsible for the progress of the educational policies and the well being of undergraduate programs at the university. The dean shall report to the executive vice president and provost upon the condition and progress of the undergraduate education whenever called upon to do so.

(C) The dean of undergraduate education shall work with colleges to propose and implement policies of the faculty with respect to the development of programming for challenging academic experiences for undergraduate students; the curricula and requirements for baccalaureate programs and the development of new and useful undergraduate programs; general education requirements, including the retention and ongoing development of curricula assigned specifically for the general education of all undergraduate students; a general university honors program; and other academic programs that are necessary and supportive of undergraduate studies.

(D) The dean of undergraduate education shall be responsible for the coordination of university advising and curricular counseling. Specifically, the dean of undergraduate education shall keep colleges informed of all changes in curricular requirements and other matters pertaining to academic advising, and in this manner assist in achieving consistency of advising across the university.

(E) The dean of undergraduate education shall be consulted by the deans of the colleges on matters relating to university-wide aspects in undergraduate instruction.

(F) With the approval of the faculty, or its designated representative body and the deans of the colleges, the dean of undergraduate education may appoint committees from the faculty to work with him or her in the implementation of those policy areas as outlined in paragraph (C) and (D) of this rule.

(G) The dean is hereby granted all authority necessary to carry out the responsibilities of the dean of undergraduate education.

(H) The dean of undergraduate education shall also be responsible for such other matters pertinent to undergraduate education that may be designated by the executive vice president and provost.

3335-3-34 Schools, departments, divisions, and sections; defined and located.

(A) – (B) No change.

(C) Schools and departments shall have a minimum of ten faculty positions spread through at least the three academic ranks of assistant to professor, meet the following quantitative requirements unless persuasive academic reasons demonstrate the need for exceptions:

1101
June 22, 2012 meeting, Board of Trustees

(1) A minimum of ten faculty positions spread through at least the three academic ranks of assistant professor to professor.

(2) Student registration for at least one thousand credit hours per quarter.

(D) – (H) No change

3335-5-07 Definition of regular faculty duties and responsibilities.

Regular faculty members who are on duty are accountable for meeting the formal and informal obligations associated with research, service, and/or teaching or clinical practice. Duties and responsibilities are assigned annually in accordance with the workload policy laid out in the pattern of administration of each faculty member’s tenure-initiating unit and, as appropriate, regional campus.

Regular full-time faculty members are expected to be on duty for an average of nineteen working days a month, with working days defined as weekdays that are not designated as university holidays. Faculty members on nine-month appointments are commonly on duty for nineteen working days a month averaged over a nine-month period. The most common pattern for a nine-month on-duty period under quarters includes the autumn, winter and spring quarters. The most common pattern for a nine-month on-duty period under semesters includes the autumn and spring semesters and the May session.

Breaks within a given semester, summer term, or session, as well as any days between the end of the exam period and the beginning of the next quarter, semester or session, will be considered off-duty days. Faculty on twelve-month appointments are on duty on all working days except for the days they accrue and designate as vacation days. Terms of duty for full-time auxiliary faculty for nine- or twelve-month faculty unless otherwise specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letters of appointment. Terms of duty for full-time auxiliary faculty on nine- or twelve-month appointments should parallel the terms for regular nine- and twelve-month faculty unless otherwise specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letters of appointment.

3335-5-48.9 Committee on academic freedom and responsibility.

(A) Membership.

The committee on academic freedom and responsibility shall consist of eight (seven members during autumn, winter, and spring quarters) or nine members from June to the beginning of autumn quarter semesters.

(1) Six regular tenure-track tenured faculty (eight during the summer period), at least three of whom are members of the senate or members-elect at the time of their selection by the faculty council. The term of service begins in the summer quarter following election and extends through the summer quarter following the third year of service.

(2) Two graduate teaching, research, or administrative associates.

(B) No change.

(C) Organization.

(1) A quorum consists of five four members.

(2) As a standing committee of the senate, this committee is also governed by
June 22, 2012 meeting, Board of Trustees

the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.

(3) Graduate student member is recused in cases pertaining to promotion and tenure of faculty members.

3335-5-48.11 Fiscal committee.

(A) No Change.

(B) Duties and responsibilities.

The committee shall have full access to all fiscal documentation necessary to perform the following functions:

(1) Review, on a continuing basis, the fiscal policies and resources of the university;

(2) Advise the president on the alternatives and strategies for the long-term and short-term allocation of university resources consistent with maintaining the missions of the university;

(3) Analyze resources and budgets from an overall university-wide perspective, rather than making a detailed analysis of the budgets and expenditures of individual units within the university;

(4) Analyze resources and budgets in detail for centrally supported vice presidential units;

(4)/(5) Advise the president, in the event of an imminent financial crisis, whether a determination of financial exigency is warranted; and

(5)/(6) Report annually to the faculty council and the senate on the budgetary and fiscal condition of the university.

Remainder unchanged.

3335-7-03 Appointment cap.

Unless an exception is approved by the university senate and the board of trustees, regular clinical track faculty may comprise no more than forty percent of the total regular tenure-track faculty (as defined in rule 3335-5-19 of the Administrative Code) in each of the departments, schools, and colleges of the health sciences and no more than twenty percent of the total regular tenure-track faculty in other departments, schools, and all other colleges. In all tenure-initiating units not in health sciences, the number of clinical track faculty members must be fewer than the number of regular tenure-track faculty members in each unit. (B/T 7/12/202, B/T, 6/4/2004, B/T 6/7/2005)

3335-8-06 Curricular requirements. RESCIND

Every undergraduate curriculum must provide for a minimum of fifteen hours of free electives. (B/T 1/10/75, B/T 3/2/79)

3335-8-22 Report of marks.
June 22, 2012 meeting, Board of Trustees

Upon completion of the course requirements, marks for every student shall be reported to the office of the university registrar in accord with published deadlines, listed in the quarterly master schedule of classes.

3335-8-23 Alteration of marks.

(A) A mark filed in the office of the university registrar is a part of the official records of the university. It is subject to change only when a procedural error has been discovered in evaluation or recording of a grade. Action to change a grade must be initiated before the end of the second succeeding quarter, semester, or summer term. In no case will a grade be revised in accordance with criteria other than those applied to all students in the class. If the instructor agrees that an error in the mark was made, the mark will be changed upon written authorization of:

(1) The instructor of the course, and

(2) The instructional unit's dean, director, or college secretary.

If a student believes that a procedural error in grading was made, the student should meet with the instructor. If the instructor does not agree that a procedural error was made, the student may meet with the department chair to discuss the grade grievance. The chair shall respond to the student no later than thirty days after the student has requested a review by the chair. Upon receipt of the chair's response, if the issue is not resolved to the satisfaction of the student, the student may within two weeks request in writing by duplicate submission to the dean or director of the instruction unit and the department chair the procedures in paragraph (B) of this rule. Unresolved cases of grade grievance due to grading procedures are subject to paragraph (B) of this rule; unresolved cases of grade grievance due to other causes are not subject to paragraph (B) of this rule.

(B) – (D) No changes.

3335-8-23.1 Retention or disposal of materials submitted to meet course requirements.

(A) Materials submitted by a student to satisfy course requirements shall either be returned to the student or made available for the student's inspection, after they have been marked or otherwise evaluated, before the end of the quarter, semester, session, or term, or session in which the work is performed or, in the case of final projects and final examinations, no later than the fourteenth day of instruction of the following quarter, semester, session, or term, or session.

(B) No change.

3335-8-24 Credit hours.

(A) No change.

(B) In determining the hours per week required by the course or work, the council on academic affairs may, in appropriate cases, consider the average weekly hours spent during a quarter, semester, or session.
June 22, 2012 meeting, Board of Trustees

(C) When comparing or combining semester credit hours with quarter credit hours, one semester credit hour shall be the equivalent of one and one-half quarter credit hours.

3335-8-26 Point-hour ratio.

(A) No change.

(B) When determining the point-hour ratio of a student:

(1) For a quarter, semester, summer term or session, the "applicable number of credit hours" shall be the student's scheduled credit hours in that quarter, semester, summer term, or session.

(2) – (4) No change.

(C) No change.

3335-8-26.1 Recalculation of cumulative point-hour ratio.

(A) – (B) No change.

(C) Under the provisions of this rule a student, before graduation, must be re-enrolled for a minimum of:

(1) Forty-five quarter, thirty credit hours and

(2) Three academic quarters, two academic semesters or one semester and one summer term.

(D) – (E) No change.

3335-8-27.1 Freshman forgiveness rule.

(A) If a course in which an undergraduate student receives a grade of "D+," "D," "E," or "EN," taken during the freshman year (the period during which the first forty-two academic credit hours are accumulated on the student's official permanent record) is repeated before the end of that student's sophomore year (when the student will have accumulated a total of eighty-five academic credit hours), the original course credit and grade will be automatically excluded from the calculation of the student's cumulative point-hour ratio and deficiency points, but will remain on the student's official permanent record. This action will be subject to the following conditions:

(1) If the grade in the original course was a "D+" or "D," a student may repeat the course for credit only upon the recommendation of the authorized representative of the dean, or director of the student's enrollment unit. Such recommendation must be obtained before noon of the third Saturday, second Friday of the quarter, semester or summer term in which the repeated course is taken.

(2) The same course may be repeated only once under this rule.

(3) This rule may be applied for a maximum of fifteen credit hours.
June 22, 2012 meeting, Board of Trustees

(B) The graduate school and graduate professional colleges may formulate appropriate modifications of paragraph (A) of this rule, subject to the approval of the council on academic affairs, and publish the rule in their bulletins. (B/T 7/21/78, B/T 6/7/85, B/T 6/7/2005)

3335-8-32 Withdrawal from courses or from the university.

(A) Withdrawal from the university during a quarter, semester, summer term, or session, constitutes withdrawal from all courses in which a student is enrolled during that quarter, semester, summer term, or session. Upon official notification of the student's withdrawal from the university, the university registrar is authorized to enter the dated notation "withdrew" on the student's official permanent record.

(B) To withdraw from any or all courses, a student must file the appropriate form with the authorized representative of the dean or director of the student's enrollment unit.

(C) Until five p.m. of the third fourth Friday of a quarter, semester, or session, summer term, or the second Friday of a session during autumn or spring semesters, the second Friday of a summer term session, or the first Friday of May session, a student may withdraw from any or all courses which began in the same quarter, semester, session, or term, summer term, or session, and no record for the course(s) will be entered on the student's official permanent record.

(D) After five p.m. of the third fourth Friday of a quarter, semester, or session, summer term, or the second Friday of a session during autumn or spring semesters, the second Friday of a summer term session, or the first Friday of May session and until five p.m. of the seventh Friday of a quarter, semester, or session, if a student withdraws from any or all courses which began in the same quarter, semester, session, or term, summer term, or session, the university registrar is authorized to enter the mark "W" on the student's official permanent record for the courses withdrawn.

(E) After five p.m. of the seventeenth Friday of the quarter, semester, or session, summer term, or the second Friday of a summer term or the fifth Friday of a session during autumn or spring semesters, the fifth Friday of summer session, or the third Friday of May session, a student who because of circumstances beyond his or her control finds it necessary to withdraw from any or all courses, must file the appropriate petition with the authorized representative of the dean or director of the enrollment unit. Reasons not acceptable include (but are not limited to) the student's performance in the course(s), lack of preparation for the course(s), or dissatisfaction with the subject matter offered in the course(s). If the petition is approved, a copy will be filed with the university registrar who is then authorized to enter the mark "W" on the student's official permanent record and the instructor(s) of the course(s) will be so notified. If the petition is not approved, the student continues to be enrolled in the course(s) and a final mark must be submitted by the instructor(s). Withdrawal from any and all courses shall not be permitted after the last day of regularly scheduled classes except when the student experiences a genuine emergency after the regularly scheduled classes end and prior to sitting for the final examination in a given course or courses.

(F) - (I) No change.

3335-8-33 Conditions and procedures for disenrollment from a course.

(A) The instructor (or in the case of a graduate teaching associate, the supervising faculty member), the chair of the instructor's department (with the agreement of the
instructor), or other appropriate administrative official may disenroll a student from a course if:

(1) After the third instructional day of the quarter, semester, session, or term, the first Friday of the quarter, semester, summer term, or session, or the student's second scheduled class meeting of the course, whichever occurs first, the student fails to attend the scheduled course without giving prior notification to the instructor. Under this paragraph, no student may be disenrolled from a course until after the first course meeting following the student's registration. When the department elects to use this procedure, the instructor, the chair, or other appropriate administrative official shall notify the student's enrollment unit. The enrollment unit will notify the student and take appropriate action to remove the student from the course.

Since not all departments exercise the option to disenroll students in all courses, this rule does not relieve the student of the responsibility for dropping a course the student is not attending.

(2) The student enrolls to audit a course without the instructor's approval, or fails to meet the prerequisites of the course. Disenrollment procedures shall be the same as in paragraph (A)(1) of this rule.

(3) Before the third fourth Friday of a quarter, semester, or session, summer term, or the second Friday of a summer term session during autumn or spring semester, the second Friday of summer session, or the first Friday of May session, and following completion of a placement examination, or another appropriate measure of preparation or ability, the student is judged to be registered in an inappropriate course. The department or school offering the course may then instruct the secretary of the college or school in which the student is enrolled to change the student's registration either to a more elementary or more advanced course.

(B) – (C) No change.

(D) If a student who has enrolled to audit a course fails to complete the requirements for audit specified by the instructor and also fails to withdraw from the course, the instructor shall so inform the office of the university registrar when marks are reported for the quarter, semester, term, or session, summer term, or session. That office will then disenroll the student from the course, removing the course from the student's permanent record, and will notify the student and the student's college of the action taken.

(E) No change.

(F) For disenrollment, exclusive of audit, under paragraphs (A) and (E) of this rule, the university registrar shall enter on the student's official permanent record:

(1) No mark, if the disenrollment occurs before five p.m. of the third Friday of a quarter, semester, or session course, or the second Friday of a summer term course; or No mark, if the disenrollment occurs before five p.m. of the fourth Friday of a semester or summer term, or the second Friday of a session during autumn or spring semester, or the second Friday of a summer session, or the first Friday of a May session course; or

(2) The mark, "W," if the disenrollment occurs after five p.m. of the third Friday of a quarter, semester, or session course, or the second Friday of a summer term course. The mark, "W," if the disenrollment occurs after five p.m. of the fourth Friday of a semester or summer term, or the second Friday of a session during
autumn or spring semester, the second Friday of a summer session, or the first Friday of a May session course.

3335-8-35 Quarters, semesters, sessions, and terms  RESCIND

3335-8-35 University year  NEW

(A) The university year shall include an autumn and spring semester, each of approximately sixteen weeks, a summer term of approximately thirteen weeks which runs concurrently with a May session of approximately four weeks, followed by a summer session of approximately eight weeks. Semesters, summer term, and sessions are inclusive of instructional days, scheduled reading and exam days, and intra-semester breaks. Autumn and spring semesters may be divided into two sessions of approximately seven weeks each. The university year will begin in the autumn semester.

(B) The academic calendar, including the dates of the beginning and ending of each semester, and session, and finals schedule, and breaks shall be published in the appropriate university formats/media.

3335-9-02 Time of admission.

(A) Admission as an undergraduate student. Undergraduate students who are residents of the state of Ohio and who meet all admission requirements may be admitted to any one of the four quarters, semester or summer term.

(B) Admission as a graduate student. Graduate students who meeting all admission requirements may be admitted to any one of the four quarters, semester or summer term.

(C) Admission as a professional student. Professional students who meeting all admission requirements shall be admitted at such time or times as determined by the council on enrollment and student progress with due regard to the curriculum of the professional college involved, may be admitted to any semester or summer term.

(D) Admission as a transient student or auditor. Transient students and auditors who meeting all admission requirements may be admitted at such time or times as determined by the council on enrollment and student progress to any semester or summer term.

3335-9-05 Admission of an undergraduate special student to regular standing.

An undergraduate special student who has completed two full years of college work and who desires to become a candidate for a degree may be transferred by the director of undergraduate admissions to the standing of a regular student by one of the following methods:

(A) No change.

(B) By assuming an addition of forty five hours and ninety points thirty semester hours and sixty points to the requirements of his or her curriculum.

(C) No change.

3335-9-06 Admission to advanced standing.

(A) – (B) No change.
An undergraduate applicant having fewer than thirty transferable semester or forty-five transferable quarter credit hours at the time of first enrollment shall be subject to the provisions of paragraph (A) of rule 3335-9-04 of the Administrative Code and paragraph (B) of rule 3335-9-25 of the Administrative Code.

3335-9-14 Time of registration and payment of fees; penalties.

(A) Payment of fees is required of all students each quarter, semester, or session, by the close of business on the date established by the executive vice president and provost in cooperation with the appropriate offices, and published by the office of the university registrar. This fee payment deadline will apply to the postmark date for fees paid by mail and to the date of receipt for fees paid in person. Failure to meet this requirement will result in a penalty assessment, unless excused by the university registrar or designee.

(B) - (C) No change.

3335-9-17.1 Additions to approved schedules.

(A) Until the official closing time on the first Friday of a quarter, semester, summer term, a session of autumn or spring semesters, or summer session, additions to approved schedules in undergraduate colleges require the approval of the student's enrollment unit.

(B) After the first Friday of a quarter, semester, summer term, a session of autumn or spring semesters, or summer session, and until the official closing time of the second Friday, additions to approved schedules require the permission of the instructor (or, with the instructor's concurrence, a representative as appointed by the department) and the approval of the student's enrollment unit.

(C) After the second Friday of a quarter, semester, summer term, a session of autumn or spring semesters, or summer session, additions to approved schedules will not be permitted. Exceptions will be granted only by petition. Petitions must be filed with the authorized representative of the dean or director of the student's enrollment unit. Petitions will be approved only on the basis of clearly documented clerical error or unusual and extenuating circumstances beyond the student's control. Additions to approved schedules also require the permission of the instructor (or, with the instructor's concurrence, a representative as appointed by the department), the permission of the chair of the instructor's department or the director of the school (or of the designated representative of the chair or the director), and the approval of the student's enrollment unit.

(D) After the third Friday of the quarter, additions to approved schedules will not be permitted. Exceptions will be granted only by petition. Petitions must be filed with the authorized representative of the dean or director of the enrollment unit. Petitions will be approved only on the basis of clearly documented clerical error or unusual and extenuating circumstances beyond the student's control.

(ED) Because of the accelerated nature of summer term May session courses, deadlines for adding these courses are as follows: from the first day of classes until the official closing time on the first Friday of each summer term May session, a student may add a course only with the permission of the instructor (or, with the instructor's concurrence, a representative as appointed by the department) and the approval of the student's enrollment unit. After this date a student wishing to add a summer term May session course to the approved schedule must have, in addition, the permission of the instructor's department chair or the director of the school (or of the designated representative of the chair or the director) and petition the authorized
June 22, 2012 meeting, Board of Trustees

representative of the dean or director of the student’s enrollment unit. Petitions will be approved only on the basis of clearly documented clerical error or unusual and extenuating circumstances beyond the student’s control. Additions also require the permission of the instructor (or, with the instructor’s concurrence, a representative as appointed by the department), the permission of the chair of the instructor’s department or the director of the school (or of the designated representative of the chair or the director).

(EE) For courses of shorter duration deadlines and approval procedures will be established by the instructional unit in which the course is offered after consultation with the office of the university registrar.

(GF) The graduate school and graduate professional colleges shall formulate rules to govern additions to approved schedules, subject to approval of the council on academic affairs and publish them in their respective bulletins.

3335-9-24 Academic warning.

(A) No change.

(B) If, at the end of any quarter, semester, summer term, or session, a student subject to the provisions of rule 3335-9-23 of the Administrative Code has accumulated fewer than fifteen deficiency points, he or she shall receive a warning from the dean of his or her college or director of his or her school, except as provided in rule 3335-9-27 of the Administrative Code.

3335-9-25 Academic probation.

(A) No change.

(B) Probation by special action. If at any time the preparation, progress, or success of a student in an academic program is determined to be unsatisfactory, the college or school in which the student is registered shall be empowered to place the student on academic probation. An undergraduate student admitted with conditions and who has not satisfied the conditions after earning thirty quarter semester credit hours through regular course enrollment at this university shall be placed on academic probation.

(C) No change.

3335-9-30 Requirements for an undergraduate baccalaureate degree.

To obtain an undergraduate baccalaureate degree from this university, an undergraduate student must:

(A) Have earned a minimum of forty-five thirty quarter semester credit hours credit through regular course enrollment at this university.

(B) Have been enrolled in the college, the federation of the colleges of the arts and sciences, or the school recommending that degree during the last quarter semester, summer term, or session necessary to complete degree requirements. The executive committee of the college, the federation of the colleges of the arts and sciences, or the school recommending the degree may, on petition by the student, waive this requirement.

(C) – (G) No change.
3335-9-32.1 Requirements for certificate of study.

A certificate of study may be awarded concurrent with or following the student's receipt of a baccalaureate degree. Award of such certificates shall attest to demonstrated competence in a coherent academic curriculum, program, or area of study.

(A) To obtain a certificate a student must:

1. Have been or be enrolled in the university during the last quarter, semester, summer term, or session of work necessary to complete the certificate requirement. In addition, the student must meet any residency requirement established by the college, the federation of the colleges of the arts and sciences, or the school recommending the certificate.

2. Have earned through regular course enrollment a minimum of forty-five quarter hours credit or thirty semester credit hours in an approved certificate program. No certificate program shall require enrollment in and credit for more than ninety quarter hours or sixty semester credit hours. At least one-third of all quarter hours credit or semester credit hours earned in a certificate program shall be at the 500-4000-level or above. No more than five credit hours in the certificate program may be counted toward the student's undergraduate major or minor. Credit hours used to fulfill the requirements for one certificate may not be counted toward any other certificate.

3. – (6) No change.

(B) No change.

(C) The colleges of dentistry, law, medicine, optometry, pharmacy, and veterinary medicine, and the graduate school may establish requirements and conditions, rather than those above, for certificates of study. Such requirements must be approved by the council on academic affairs.

(D) No change.

3335-11-09 The Ohio union council. RESCIND

3335-11-09 The Ohio union council. NEW

(A) The Ohio union council shall consist of eighteen voting members, with service beginning summer term, chosen as follows:

1. Ten students.

   a. Two graduate students selected by the council of graduate students. Term of service shall be alternating two year terms.

   b. Two professional students selected by the inter-professional council. Term of service shall be alternating two year terms.

   c. Four undergraduate students selected by the undergraduate student government. One student must come from a registered student organization without an office in the Ohio union. Term of service shall be alternating two year terms.

   d. One undergraduate student employee of the Ohio union appointed by the undergraduate student government in consultation with the director(s) of the Ohio union. Term of service shall be one year.
(e) One graduate assistant from the Ohio union, appointed by the council of graduate students in consultation with the director(s) of the Ohio union. Term of service shall be one year.

(2) Two regular faculty.

Two regular faculty members, as defined in Faculty Rule 335-5-19, selected by the chair of the faculty council in consultation with the chair of the council on student affairs. Term of service shall be alternating two year terms.

(3) One staff member.

One staff member shall be appointed by the university staff advisory committee. Term of service shall be two years.

(4) One alumni member.

One alumni members shall be appointed by the Ohio state alumni association in consultation with the council. Term of service shall be one year.

(5) Four at-large.

Four at-large members shall be selected under procedures established and documented by the council. Term of service shall be one year.

(6) Ex-officio non-voting members.

(a) The president of the Ohio union activities board ex-officio non-voting, or designee.

(b) The chair of the council on student affairs, ex-officio non-voting, or designee.

(c) All director(s) of the Ohio union shall be an ex-officio, non-voting member(s) of the council.

(d) A representative of the business and finance office for the Ohio union shall be an ex-officio, non-voting member of the council.

(e) One non-voting student life staff member to act as the secretary for the council appointed by the director of the Ohio union. Term of service is one year.

(7) Reappointment.

All voting members with one year terms are eligible for reappointment three times. All voting members with two year terms are eligible for reappointment once. No individuals holding a voting position shall serve for more than four consecutive years.

(8) Alternates.

Members of the Ohio union council may have an alternate. The chair has responsibility for recording correct voting status. If the member has voting status, the alternate may vote in the event of the member’s absence. Ohio union council shall establish rules governing the selection of alternates.
June 22, 2012 meeting, Board of Trustees

(B) Duties and responsibilities.

(1) Establish general policy on such matters as, but not limited to, financial planning, facility use, student development, public and campus relations. These policies shall guide the administration of the program of the union by the director of the union, but the council shall not serve in an administrative capacity.

(2) Advise the director(s) of the Ohio union regarding the programs, services, and activities of the Ohio union.

(3) Establish committees as needed to explore issues affecting the Ohio union.

(4) Perform duties as assigned by the council on student affairs.

(5) Report monthly to the council on student affairs.

(6) Establish, amend, and maintain operating procedures to conduct, in an orderly fashion, the functions of the council.

(C) Organization.

The chair shall be elected from among the incoming and continuing student members of the council during the last regularly scheduled meeting of spring term. For purposes of this election, all incoming and continuing members shall be eligible to vote; incoming and continuing members may choose alternates if necessary.

3335-11-10 University recreational sports committee. RESCIND

3335-11-10 University recreational sports committee. NEW

(A) The university recreational sports committee shall consist of nineteen voting members, with service beginning summer term, chosen as follows:

(1) Eleven students.

   (a) Two graduate students selected by the council of graduate students. Term of service shall be alternating two year terms.

   (b) Two professional students selected by the inter-professional council. Term of service shall be alternating two year terms.

   (c) Four undergraduate students selected by the undergraduate student government. One student must participate in a department recognized club sport at the time of appointment. Term of service shall be alternating two year terms.

   (d) One undergraduate student employee of the department of recreational sports appointed by the undergraduate student government in consultation with the director of recreational sports. Term of service shall be one year.
(e) One graduate assistant from the department of recreational sports, appointed by the council of graduate students in consultation with the director of recreational sports. Term of service shall be one year.

(f) One undergraduate student selected by the director of the sport and wellness scholars program. Term of service shall be one year.

(2) Two regular faculty.

(a) Two regular faculty members, as defined in Faculty Rule 335-5-19, selected by the chair of the faculty council in consultation with the chair of the council on student affairs. Term of service shall be alternating two year terms.

(3) One staff member.

(a) One staff member shall be appointed by the university staff advisory committee. Term of service shall be two years.

(4) One alumni member.

(a) One alumni member shall be appointed by the Ohio state alumni association in consultation with the committee. Term of service shall be one year.

(5) Four at-large.

(a) Four at-large members shall be selected under procedures established and documented by the committee. Term of service shall be one year.

(6) Ex-officio non-voting members

(a) The director of recreational sports shall be an ex-officio, non-voting member of the committee.

(b) A representative of the business and finance office for recreational sports shall be an ex-officio, non-voting member of the committee.

(c) One non-voting student life staff member to act as the secretary for the committee appointed by the director of recreational sports. Term of service is one year.

(d) The associate vice president for the department of facilities operations and development, or designee, shall be an ex-officio, non-voting member of the committee.

(e) The director of the department of athletics, or designee, shall be an ex-officio, non-voting member of the committee.

(f) The director of the school of physical activity and educational services, or designee, shall be an ex-officio, non-voting member of the committee.

(g) The director of the student wellness center, or designee, shall be an ex-officio, non-voting member of the committee.

(h) The chair of the council on student affairs, ex-officio non-voting, or designee.
June 22, 2012 meeting, Board of Trustees

(7) Reappointment.

All voting members with one year terms are eligible for reappointment three times. All voting members with two year terms are eligible for reappointment once. No individuals holding a voting position shall serve for more than four consecutive years.

(8) Alternates.

Members of the University recreational sports committee may have an alternate. The chair has responsibility for recording correct voting status. If the member has voting status, the alternate may vote in the event of the member’s absence. University recreational sports committee shall establish rules governing the selection of alternates.

(B) Duties and responsibilities.

(1) Initiate recommendations and review proposals with regard to policies that may affect the recreational sports facilities and programs.

(2) Make recommendations to the director of recreational sports regarding the usage priority for recreational sports facilities, co-operative recreational sports ventures, and renovation of existing or construction of new recreational sports facilities.

(3) Collect feedback on recreational sports issues in order to evaluate the quality of recreational sports facilities maintenance, daily operations, and programs, recommending changes as appropriate.

(4) Annually review and make recommendations regarding the long-term maintenance plan for recreational sports facilities.

(5) Review all budgets and expenditures of the department of recreational sports and the appropriate portions of budgets and expenditures of all general funds, student life funds, college of education and human ecology funds, and department of athletics funds that contribute to recreational facilities operations and programs.

(6) Deciding the future of the Larkins hall construction debt service portion of the student recreation fee once the debt service has been retired. Review and make recommendations regarding the annual budget of the department of recreational sports, approve other ancillary student recreational fees, and make recommendations to the vice president of student life annually regarding the student recreational sports fee.

(8) Make recommendations for non-recreational sports use of space, including but not limited to space rental fees.

(9) Serve as a channel of communication for information regarding recreational sports among the office of business and finance, the department of physical facilities, the college of education and human ecology, the school of physical activity and educational services, the department of athletics, the council on student affairs, the athletic council, the undergraduate student government, the council of graduate students, the inter-professional council, faculty council, and the university staff advisory committee.

(10) Report monthly to the council on student affairs.
(11) Establish, amend, and maintain operating procedures to conduct, in an orderly fashion, the functions of the committee.

(C) Organization.

The chair shall be elected from among the incoming and continuing student members of the committee during the last regularly scheduled meeting of spring term. For purposes of this election, all incoming and continuing members shall be eligible to vote; incoming and continuing members may choose alternates if necessary.

(D) Oversight.

Decisions made by the University recreational sports committee are subject to review and approval of the council on student affairs. (B/T 7/11/2003, B/T 12/5/2003, B/T 7/7/2006, 5/14/2010)

3335-17-03 Administration and supervision of elections.

The primary responsibility for administering and supervising senate elections shall reside with the faculty council, for the election of faculty members of the senate; council of graduate students, for the election of graduate student members; inter-professional council, for the election of professional student members; and undergraduate student government, for the election of undergraduate student members. Each group shall:

(A) No change.

(B) Report the results of elections in its constituencies to the senate secretary for certification of senate members. Faculty elections will begin the second week of January and results are to be submitted by the tenth of April; other constituencies by the fifteenth of May.

(C) No change.

3335-19-02 Meetings.

(A) Regular meetings of the senate shall be held during the autumn, winter, and spring quarters. In the spring quarter each year the steering committee shall recommend and the senate shall adopt and publish the schedule of regular meetings for the following academic year. This schedule shall include at least seven meetings spread over the academic year. Scheduled meetings may be cancelled by the steering committee when deemed appropriate.

(B) – (F) No change.
Physician and Non-Physician Clinical Provider  
Criteria for Employment in the FGP  

The current practice requires faculty physicians with M.D. or D.O. designations to be employed in the Faculty Group Practice (FGP). Further discussions have expanded the recommendation to support anyone with a current OSU Physicians (OSUP) employment contract to now qualify and be required employment in the FGP. In addition if a potential new hire would have been provided an OSUP employment contract prior to integration then they too would be required to have employment in the FGP.

As for other non-physician clinical providers, at the department chairs direction, providers who meet the criteria discussed below would be eligible for employment in the FGP but are not required to have employment in the FGP. It is important to note that should the chair take the position that a certain position (ex Physician Assistant) be employed in the FGP then all individuals in that position would be subject to the criteria discussed below, and only those eligible would be employed in the FGP. Employment in the FGP would not be an individual’s decision.

Below is a summary of eligibility criteria for employment in the Faculty Group Practice.

Required Employment Criteria:
1. The individual holds an M.D. or D.O. designation, or
2. Like individuals have a current physician employment contract with OSUP, or
3. Based on an individual’s role, if prior to integration the individual would have been issued an employment contract with OSUP then employment in the FGP is required.

If the “required employment criteria” has not been satisfied, then the satisfaction of all criteria listed below would permit employment in the FGP:

1. The Department Chair must designate his/her desire to have individuals in his/her specific department in a particular title classification employed in the FGP.
2. Individuals must be in a paid, faculty title in the College of Medicine (not other colleges such as College of Nursing, College of Pharmacy, etc.).
3. Individuals’ professional effort must exclusively be for the interest of the University and not for clinical services other than for the University and individuals must be employed for such clinical services.
4. Individuals must be licensed, certified, or otherwise educated in accordance with the standards of their profession/discipline. Individuals must also be credentialed to work within the OSU Wexner Medical Center.
5. Individuals must be eligible to participate in the University Self Insurance Program.
The Ohio State University Wexner Medical Center Compact

OSU Wexner Medical Center COMMITMENT

EXCELLENCE
- Nurture a work place that reflects our values: Excellence, Collaboration as One University, Integrity, Trust, Personal Accountability, Diversity, Innovation, Operational Simplicity, Empathy, Compassion & Leadership
- Provide the facilities, equipment, staffing and resources needed to deliver the highest value and safest care
- Manage the rapid changes in healthcare to allow staff to innovate, thrive and succeed in a financially secure environment
- Provide fair and competitive compensation
- Recruit and retain outstanding team members

INTEGRITY
- Maintain organizational integrity and accountability to patients and staff
- Follow through and ensure actions and decisions are consistent with words and commitments
- Treat each team member and patient with respect and dignity

TEAMWORK
- Actively and objectively listen
- Be accessible and approachable to patients and staff
- Model, encourage, and reward cooperation and teamwork
- Recognize individual and team excellence
- Seek physician collaboration in decisions

LEADERSHIP
- A commitment to genuine shared governance of the Medical Center with physicians and transparency in decision making
- Proactively communicate information regarding organizational priorities, business decisions, and strategic plans
- Provide opportunities for constructive engagement and feedback, and timely response to issues raised during dialogue

INNOVATION
- Provide leadership in the development of new programs and technology
- Provide an atmosphere in which innovative ideas are welcome and nurtured

OSU FACULTY GROUP PRACTICE COMMITMENT

EXCELLENCE
- Strive to provide the highest quality coordinated care that is safe, patient centric, evidence based, easily accessible and clearly communicated
- Strive to deliver care in the most cost effective manner while preserving high quality and exceptional service
- Actively support and work to achieve OSUWMC’s Mission, Vision and Strategic Goals

INTEGRITY
- Encourage and display integrity and professionalism in all endeavors and interactions
- Follow through and ensure actions and decisions are consistent with words and commitments
- Treat each team member and patient with respect and dignity
June 22, 2012 meeting, Board of Trustees

TEAMWORK
- Foster multidisciplinary patient care, education and research
- Communicate in a clear, respectful and timely manner with patients, colleagues and staff
- Respect collaborative leadership decisions
- Attend medical staff meetings

LEADERSHIP
- A commitment to contributing to medical center leadership with fiduciary responsibility
- Make patient centered access and service both personal and departmental priorities
- Encourage patient understanding and involvement in treatment decisions
- Actively work to promote the health of our University, colleagues, staff and community

INNOVATION
- Embrace research and innovation to continuously improve patient care, service and efficiency
- Provide leadership to drive improved clinical quality, safety service, patient access and value
### Project Data Sheet for Board of Trustees Approval

#### Stadium – Waterproofing and Concrete Repair

**OSU-120322**  
**Project Location:** Ohio Stadium  
**812,422 GSF**

- **approval requested and amount**  
  - design/construction: $4.3M

- **project budget**  
  - construction w/contingency: $3.8M
  - other costs (fees, equip, etc.): $0.5M
  - total project budget: $4.3M

- **funding sources**  
  - auxiliary funds

- **project schedule**  
  - design/bidding: 07/12 – 11/12
  - construction: 12/12 – 08/13

- **project scope**  
  - remove and replace the existing waterproofing membrane
  - remove and replace the expansion joint seals and sealants and perform concrete repairs
  - this project will begin following the 2012 football season and complete before the 2013 football season
  - this project will use the CM at Risk delivery method to meet the compressed project schedule

- **approval requested**  
  - approval is requested to enter into design and construction contracts

---

**project team**  
- University project manager: Changir Cals
- A/E/design architect: tbd
-CM at Risk: tbd

---

*Office of Administration and Planning*  
*June 2012*
## Project Data Sheet for Board of Trustees Approval

**Schottenstein Center – Basketball Practice Facility**

*OSU-080363*

**Project Location:** Schottenstein Center  
**GSF:** 40,000 GSF

### Approval Requested and Amount

<table>
<thead>
<tr>
<th>Original</th>
<th>Increase</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>$10.9M</td>
<td>$3.0M</td>
<td>$13.9M</td>
</tr>
</tbody>
</table>

### Project Budget

- **Construction with Contingency:** $13.9M
- **Other Costs (fees, equip, etc.):** $3.0M
- **Total Project Budget:** $17.9M

### Funding Sources

- Auxiliary funds ($2.0M); Development funds ($15.5M)

### Project Schedule

- Design/Bidding: 12/11 – 03/12
- Construction – Part 1: 08/12 – 10/12
- Construction – Part 2: 08/12 – 10/13

### Project Scope

- Construct an addition to the Schottenstein Center for a basketball practice facility, strength and training facilities, and coach’s offices
- Renovate the men’s and ladies basketball locker rooms and training room
- Addition will be constructed on the west side of the Schottenstein Center
- The first phase of construction, the renovation of existing facilities will begin 6/2012 using a single prime contractor; construction of the addition will use CM at Risk

### Approval Requested

- Approval for professional services was received 12/2007; design was completed through construction documents and the project placed on hold to finalize scope and funding requirements
- Approval is requested to increase construction contracts
- Construction approval was initially requested in February 2012 in the amount of $10.9M; this request corrects the previous request by including project costs that have been identified since the February 2012 request
- These costs generally include actual bid amounts for phase I and reconciled professional services fees and updated cost estimating

### Project Team

- **University Project Manager:** Gary Collier
- **A/E Design Architect:** Moody Nolan
- **CM at Risk:** tbd

*June 2012*
PROPOSED LAND EXCHANGE (9.009 ACRES) BETWEEN STATE OF OHIO AND THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES UNIVERSITY AIRPORT AT DON SCOTT FIELD COLUMBUS, OHIO

Background

Description of Proposed Project

In 2009, the Federal Aviation Administration (FAA) made a final determination regarding the ownership of parcels surrounding the University Airport with the intention to align the northern boundary of the airport. On June 15, 2011 a letter was sent to the FAA requesting approval to exchange the impacted parcels.

This proposed action is a release and transfer of a 9.009 acre tract of land (parcel A on the map) that is titled to the State of Ohio, for the use and benefit of The Ohio State University, to The Ohio State University Board of Trustees. In exchange, 3 separate parcels of land (parcels B, C & D on the map), totaling 9.009 acres and titled to The Ohio State University Board of Trustees, will be released and transferred to The State of Ohio, for the use and benefit of The Ohio State University.

The result of this land exchange is to clarify and straighten the northern boundary of the airport property. This exchange has been approved by the FAA, in a letter date February 22, 2012

Terms of Exchange

The proposed use of the parcels involved in this exchange is aligned with the Airport’s Master Plan which will provide for future development opportunities on the northern side of the Airport.

The fair market values of the parcels in this exchange were based on an appraisal completed by the Robert Weiler Company in May 2011. The appraised value of the land being released and transferred from the State of Ohio to The Ohio State University Board of Trustees is $900,000. The appraised value of the 3 parcels being released and transferred from the Ohio State University Board of Trustees to the State of Ohio is $900,000. There will be no net gain of revenue to either party as a result of this transfer.
In 1956, OARDC acquired agricultural property containing approximately 275 acres in Brown County, near Ripley, Ohio. There are several improvements on the property including a small residence, barns, and storage buildings. The property has been used by OARDC as an agriculture research farm including studies relating to white burley tobacco, beef cattle, fruit trees, and other agricultural topics relevant to the southern Ohio area. The various research projects conducted by OARDC were discontinued in 2005 and the property has been rented for farming on approximately 186 acres of tillable land. Land uses and development in the immediate area consists of similar land used for farming, rolling woodlands, and some rural single family residences.

The property is no longer required to provide for its intended uses and no longer serves the academic mission of OARDC. It has been determined that there are no desired alternative uses for the property by OSU. The buildings that are on the property are in poor condition and in need of repair. Appropriate University offices have determined that the site represents a disposable land asset and it’s in the University’s best interest to sell the property.

An appraisal of the property was completed late last year, indicating a market value of $752,000. Approximately 67% of the property is in cropland use, 25% is woodlands, and the balance is used for roadways, improvements and a pond. The highest and best use of the property, as stated in the appraisal, is for continued use as agricultural cropland and possible use for livestock operations.

Appropriate legislation (Senate Bill 275) has been introduced to authorize the governor to execute a deed to convey the property from the State of Ohio to a buyer.

Authorization is requested to market the property for sale, to identify a qualified purchaser, to enter into a purchase agreement with terms and conditions acceptable to the University and a sale price no less than 90% of the appraised value, and to complete a sale of the property in the best interests of the University. The proceeds from the sale of the property will be used by OARDC’s Outlying Ag Research Stations Endowment Fund to support operating expenses and infrastructure improvements at OARDC’s research stations.
SALE OF REAL ESTATE
SALE OF FORMER ATI RESIDENCE HALL
1427 DOVER ROAD, WOOSTER, OHIO

In 1983, the University acquired a 94-unit, 3-story apartment building, located on approximately 3.8 acres at 1427 Dover Road, Wooster, Ohio across from the OSU/Agricultural Technical Institute. The building was constructed in 1974 by a developer to satisfy a need for student housing. Since the purchase the property was used for ATI undergraduate housing until modern housing was constructed and made available on the ATI campus. A study completed by the University indicated that repair costs to remedy roof issues, HVAC problems, ADA compliance requirements and to remodel this property to University housing standards exceeds any potential income benefits that could be derived. Current ATI on-campus student housing is located at the Applewood Village Apartments and the capacity is adequate for current and projected enrollment. The 3.8 acre site is excess to any land requirements of OARDC and ATI. If the land were considered for alternate university uses, the demolition costs have been estimated to be $800,000. For the abovementioned reasons appropriate University offices have determined that the property represents a disposable asset and it’s in the University’s best interest to sell the property.

An appraisal of the property was recently completed indicating a current market value of $1,000,000. The appraisal further indicated that there is demand for apartment properties in the Wooster market area. The appraisal indicated that the highest and best use for the improved property is the continued use as an apartment building.

Appropriate legislation (Senate Bill 275) has been introduced to authorize the Governor to execute a deed from State of Ohio to the buyer.

Authorization is requested to negotiate with prospective buyers of the property to enter into a purchase agreement with terms and conditions acceptable to the University, and to complete a sale at a purchase price no less than 90 % of the appraised value of the property. Other terms and conditions of a purchase agreement will be negotiated in the best interest of the University. The proceeds from the sale of the property will be deposited in the general operating funds of Student Life.
Description of Proposed Project

The Ohio State University—Office of Research has executed a Facilities Use Agreement with Honda, R & D Americas, Inc. to perform collaborative vehicle simulation research. To support this research, SciTech, a not-for-profit corporation, has offered to sublease approximately 5,800 square feet of vacant warehouse space to be built-out as laboratory space and offices at 1305 Kinnear Road, Columbus, Ohio.

Terms of Lease Renewal

Approximately 5,800 square feet has been leased for a term of 5 years in support of a Facilities Use Agreement between The Ohio State University and Honda R & D Americas, Inc. The Ohio State University-Office of Research is requesting approval of two (2) successive five (5) year renewal options to continue vehicle research subsequent to the termination of the Facilities Use Agreement with Honda. The Tenant Improvements will be approximately $350,000 and the purchase of the vehicle simulator is estimated to be $600,000. These expenditures will be paid with funds already deposited with the University by Honda, R & D Americas, Inc. The Ohio State University-Office of Research will fund the Rent and Operating Expenses estimated to be $1.35M over the term of the lease.
Description of Proposed Project

The focus of The Molecular Imaging Pharmaceutical Research Center is to serve as an enabling platform and environment to partner The Wright Center of Innovation in Biomedical Structural, Functional and Molecular Imaging (WCI-BMI) and Ohio Imaging Research and Innovation Network (OIRAIN) with Ohio’s premier commercialization and technology partner in molecular imaging pharmaceuticals, Cardinal Health.

The OIRAIN grant provides a unique opportunity to accelerate this vision within an academia-industry effort focused on sustainability, commercialization and innovation opportunities, advances in patient care and growth of educational and training capabilities.

In association with the externally reviewed (National Academy of Science) OIRAIN grant award, Cardinal Health has proposed to consolidate its Columbus-based facilities for nuclear pharmacy and positron imaging agent production (both GMP) into this integrated partnership environment and announced in 2009 to locate its Molecular Imaging Agents Technology Center within our partnership facility. As part of this effort, Cardinal will relocate its pharmacy and its cyclotron to this Center. The Center will be a substantially larger overall facility adding a second cyclotron, a GMP research and development environment, a (non-GMP) basic and clinical research laboratory, additional educational and work space as well as reserved shelled commercialization / start-up / spin off space for future expansion of the WCI-BMI within the next 10 year time frame.

A formal master collaboration agreement was executed in March 2012 that defines the overall scope, anticipated agreements and available funding, signed by John Rademacher (Cardinal Health), Caroline Whitacre (Vice President for Research, OSU), Legal Counsel for SciTech and Michael Knopp (PI and PD of the grant).

The Center is envisioned to serve as a magnet for small business and startup commercialization efforts as has already been demonstrated in several recent Ohio Third Frontier proposals and will be an invaluable resource for many national funding pursuits (NIH, NSF, DOD) as well as commercial research collaborations efforts with Battelle Health and Life Science.

Terms of the Lease:

The lease terms have been completely negotiated between the parties. The lease is for 11,565 square feet to be leased for a term of 30 years from March 1, 2012 through November 30, 2042 with two five (5) year renewal options. The rent is $1.00/year and expenses are estimated at $230,000 in year one or approximately $15M over the term. The Tenant Improvements are estimated at $3.7 M. The rent, operating expenses and Tenant Improvements will be funded by the OIRAIN grant.
