The Board of Trustees met Thursday, September 16 and Friday, September 17, 2010, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

**  **  **

Minutes of the last meeting were approved.

**  **  **
The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, September 16, 2010, at 9:13 am.

Mr. Wexner:

Good morning. I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 9:00 am.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding employment and to discuss matters required to be kept confidential by State Statute.

Upon motion of Judge Marbley, seconded by Mr. Jurgensen, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, Douglas G. Borror, Walden W. O’Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Linda S. Kass, William G. Jurgensen, Janet B. Reid, Jeffrey Wadsworth, and G. Gilbert Cloyd.

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, September 17, 2010, at 9:03 am.

Mr. Wexner:

Good morning, I would like to reconvene the meeting of the Board of Trustees. So that we are able to conduct the business of this meeting in an orderly fashion, I would ask that the ringers on all cell phones be turned off at this time.

I just turned to Gordon and David, and I said it is such a pleasure to come to Board Meeting for the engagement, the work, and the collegial spirit. It is just quite special. We are welcoming today three Trustees to their first meeting, and I hope that they enjoy this experience as much as I do, and I think everyone does on the Board. Clark, we are very happy to have you on the Board, welcome to you.

Mr. Kellogg:

I am pleased to be here.

Mr. Wexner:

Good, when we play hoops against the faculty we will have a little bit of advantage now.

Mr. Kellogg:

I would warn you Mr. Chairman, I am a has-been, not a current basketball player.
September 17, 2010 meeting, Board of Trustees

Mr. Wexner:

I will take that under advisement since none of us were never-evers, so you will raise the average. Representing graduate and professional students, I would like to welcome Brandon Mitchell. It is a pleasure to have you with us.

A recent addition, but attending his first meeting is Jeff Wadsworth, the chief executive officer of Battelle. Just a pleasure to have you on the Board and to have your insights into the University and to build the cooperation with Battelle, Jeff.

Dr. Wadsworth:

Thank you very much. It is great to be here.

Mr. Wexner:

Alex could you help us with the student recognition awards?

STUDENT RECOGNITION AWARD

Ms. Swain:

This is especially exciting for me as this is the last Student Recognition Award I get to present before I hand this responsibility off to Brandon. I am excited to give it to a very deserving student and friend, Justin Rismiller, so let me tell you a bit about him.

Justin Rismiller is a fourth year student, double majoring in Agribusiness and Applied Economics from the College of Food, Agricultural, and Environmental Sciences (CFAES). He is from Versailles, Ohio and is a graduate of Versailles High School.

Justin serves as a co-chair of the CFAES Ambassadors where he leads the college’s recruitment efforts by coordinating and giving tours to prospective students. He also serves as an Alpha Zeta Partners officer, where he is responsible for planning diversity retreats and speaker events, as well as organizing community service and other events to reconnect alumni with current members. This experience also included a six week study abroad program in Brazil. Justin was also recently named a member of the 2010 OSU Homecoming Court.

Justin was employed during the past academic year with the Ohio BioProducts Innovation Center (OBIC) where he researched product commercialization and potential profitability of new products. He also has interned the past two summers with Cargill, Inc. where he gained experience as a part of the merchandising and operations management teams. Following graduation in the spring, Justin is weighing his options between attending law school to one day work in ag-law or working full-time in the area of marketing or sales.

He is joined by his parents Gail and Jim, and Dr. Randall. Congratulations Justin.

Mr. Rismiller:

Thank you very much Alex, I really appreciate it. It is really nice to have a friendly face give me this recognition. I have been able to have the opportunity to meet Alex by being involved in the Homecoming Court, so thank you very much. I appreciate it.

Just a couple quick remarks and thank yous. I want to thank the University first and foremost. No other place on earth can I possibly imagine an institution with more opportunities than Ohio State presents. Whenever I talk to other fellow students that
September 17, 2010 meeting, Board of Trustees

are just getting started at Ohio State the thing I keep on encouraging them to do is get involved in doing different things. Get involved in what your passion is. I think that is really important.

I want to thank my parents for coming today, for supporting me in all my endeavors, whether it is interning out of state or going to Brazil, it is those things that I really appreciate. Their support has been invaluable.

I also want to especially thank the College of Food, Agricultural, and Environmental Sciences. I really think they have put President Gee's commitment of putting students first to heart. They get their students engaged, and that is their number one priority. So I want to thank the college and Dr. Randall who is representing them today, I really appreciate them.

Finally I want to thank you for giving me this opportunity. It is a tremendous honor, and I know plenty of other students in the University and the college who deserve it more than I do. It is very humbling, and I just want to thank you very much.

-0-

PRESIDENT'S REPORT

Mr. Wexner:

I think it is funny to ask Gordon if he is prepared because you think of it as a student going to your professor and asking them if they are prepared, so, will the President of the University please give us his report.

President Gee:

Thank you very much. First of all let me just welcome everyone here today, we have a variety of things that are going on including the beginning of school. I have said this to you individually and I have said this to you collectively: I want to acknowledge the good work of this Board. Indeed we had a wonderful story in the newspaper today about our Advancement Committee, Gil Cloyd, our leader has been very engaged in that obviously, Linda Kass has really lead that effort, so I want to congratulate you, it is a moment of celebration for us.

I want to welcome Dr. Wadsworth, thank you very much for joining us, you will learn all about this American business here. Dr. Wadsworth of course a distinguished material scientist, one of the things we need to recognize is that Jeff not only leads one of the most important, maybe the most important private research endeavor, but also he himself is a great scientist. He is a material scientist, an area of great strength of this institution, so we welcome you.

Clark we are delighted to have you here, we really are. We were doing a little speculating yesterday, we think that you are the first legitimate student athlete that we have had on our Board, and by that I mean we have had people who played sports, but someone who really has come to the institution, found their mark, both as a student and as an athlete, and I think that shows in many ways, and I say this to my faculty colleagues and others, the kind of positive constructive nature and relationship that we have between athletics and academics at this institution, very powerful, and Clark you represent that so very well. We are very proud of you and we are very proud to have you serve.

Brandon Mitchell finished in three years, Brandon you did. We needed your tuition for another year. Brandon, you know of course, was a star athlete on our football team, went on and played in the NFL. Brandon was most decidedly a student and
September 17, 2010 meeting, Board of Trustees

has now come back to our law school and is doing very well indeed, so Brandon, I think that this University is going to be very well served by you.

Before we start, I want to acknowledge that yesterday we had a very serious incident occur in that a tornado touched down directly on our campus at Wooster. And what I want to acknowledge is the fact that our University team swung into action, Dr. Moser is there directing all of the recovery actions, our other regional campuses are fully engaged as is the University. We are still looking at the extent of the damage, most importantly though, there was no one hurt, other than one graduate student who did have a cut from flying glass, we are very blessed that no one was killed in what was monumental. We took a direct hit. I know Jack Fisher has been very engaged in making certain that we know exactly what is happening, but Jeff Kaplan, Jeff are you here, I think it is appropriate that we get a quick report on what has happened.

Mr. Kaplan:

Good morning. Thanks very much, I will just take a minute, I think Gordon captured just about everything at this point. Bobby Moser literally got into town from a trip at about the same time we were hearing of the tornado warnings here last night. A tornado did strike the Wooster campus. To the best of our knowledge, there were about 100 students actually living there. It did not come near their living quarters, thank goodness. The Agricultural Technical Institute (ATI) was spared, but it did take a direct path through the middle of the campus. There are seven major greenhouses that are completely destroyed, part of an auditorium; it is likely the damage will be millions of dollars. As I said, as soon as Bobby Moser got into town, he drove up there, talked to Jack Fisher. The President has been involved and Provost Alutto. Geoff Chatas dispatched his folks up there in terms of risk management, as well as our facilities and communications folks, and our security people. We have had a team on three conference calls and another call at 10:00 o’clock this morning. When Bobby called me this morning, as you might expect, he said “Jeff, the damage is even worse when you see it in the daylight, compared to what we thought it was last night. There are some immediate power issues; they do not have any power to the accommodations or the buildings. There are some research freezers that ideally need to be kept at -80 degrees, they are at -30 right now, which is about a minimum they can stand, and so we are trying to get gas for the generators and get them going, otherwise we will make arrangements to move the research that is in those freezers.” But the most important thing is, as the President said, is no one was injured. We will continue to gather the data and provide it to you. We will know more after this 10 o’clock conference call, but it was a very, very significant hit, and in terms of the physical damage, as I said it will be very likely into the millions of dollars.

President Gee:

Any questions for Jeff. Jack do you want to add anything to that?

Mr. Fisher:

No, I think that covers it all. Dr. Moser’s last sentence to me was, we have accounted for all people, there are no major injuries, and we are missing several of our police scooters.

President Gee:

Police scooters?
September 17, 2010 meeting, Board of Trustees

Mr. Fisher:

The police station was hit and disappeared but who cares, people are fine.

President Gee:

That’s the thing, when something like that takes a direct hit, and fortunately I think we all feel very blessed. Jeff, thank you. At 10 o'clock we will have another conference call and then I will put out a general note to the University community so that we understand what is happening.

I have prepared notes and I am going to keep it very short today. I want to recognize my faculty colleagues, our new faculty colleagues who are here to take the leadership. We have an extraordinary relationship between the University administration, between our faculty, without their support and help, the University would not have the tremendous momentum it has right now. Myroslava Mudrak, who is a professor of art history and chairs our Faculty Council, Dick Gunther, my good friend who is one of our most distinguished political scientists. Dick is the new chair of our Steering Committee. I will say that in 1990 I made a proposal that we move from quarters to semesters, I have discovered what a good political scientists he is, he single handedly stopped that damn movement, and then interestingly enough, when I came back, low and behold, who is the chair of Faculty Council, is Dick Gunther, and who was the biggest advocate for that movement. It shows that both he and I have matured, so that is good. Then the University will continue to have Jim Rathman, Jim is the vice chair of our Faculty Council, but I just want to acknowledge our faculty leadership for the great job they do and the personal pleasure I take in our friendship, so thank you all for being here, I appreciate it. Give them a round of applause, would you please.

And the equal relationship we have with our staff, Heather Link is here, Heather would you please stand, thank you very much. Heather is the new chair of our University Staff Advisory Committee which does a great job. They sponsored a wonderful pep-rally the other day, which was very, very well attended, and was great fun to see our staff taking the leadership role in terms of making certain that our mood elevator, we all know those, stands at the highest level. She manages one of our centers in the health sciences, so I really appreciate the good work of our staff and the leadership that we have, so Heather thank you, and let’s give her a round of applause.

There is so much I could tell you about traveling the state and being engaged in a variety of interesting activities. This year during my state tour, of which I ended up being in close to 50 counties, and had a wonderful time. The one thing that we did this year is we celebrated our University Union and our Sloopy’s, which is our ice cream parlor, so we had an ice cream parlors tour of the state. If you have never done that, you ought to do it. We have these wonderful iconic ice cream parlors all over the state. I remember showing up in Perrysburg, at Mr. Freezes, in which 350 people were out there, all cheering on the University. I only wish that each of you would have the privilege of traveling the state like I do. I think you would understand that Ohio is a special place, and the people that support this institution, many who have never been here, many who have never been on our campus, many who will never have an opportunity to have any relationship with the University, but who still love it and cherish it, that has been very special.

Our students have continued to do wonderful things over the summer. Probably the most notable thing is that we hold the world’s land speed record, built by undergraduate students, think about that. At the Bonneville Salt Flats, our Buckeye Bullet II set the world’s speed record, now that’s quite remarkable. You know I told them when they built the solar house, we are now in the solar house competition again, only one of 20 universities from around the world which will be built on the
mall, I told them last year that if they won, that I would move in. So I have been thinking about this, I have been thinking that would be a wonderful thing, I could move into the solar house and I could drive the Buckeye Bullet to work. We could have some fun as a matter of fact.

We played the Thundering Herd, two weeks ago, in football, plus we will welcome a thundering herd, some 63,000 thousand students, close to 64,000 will come and join us, 6,700 freshman, the best prepared class in the history of the University. I want to say this, as we celebrate talent today, we have three areas of talent to celebrate. Our faculty, staff and our students, and I can say this without any hyperbole that this class that we have at this University this year, as undergraduates, as graduate and professional students, law school, medical school, veterinary school, our Ph.D. students and our undergraduates are the best prepared in the history. We have an extraordinary group of talented young people, and not so young some of them, on our campus and so we need to celebrate that.

The second thing I want to celebrate is the quality of our faculty hiring. Our number one goal is to recruit our faculty. I say that every day, that it is very important that the Provost and I have a list which is shared with us by our faculty colleagues, by the deans, and others that gives us a list of people who are vulnerable, people that we constantly are recruiting, provided we do that. We have had one of the best re-recruiting years, by that in a time in which the most talented people have an opportunity to move, we have maintained a level of competitive edge that I think is quite extraordinary, and I acknowledge that.

At the same time we have 175 new faculty joining us and the thing I take real pleasure about these new faculty is that increasingly they are reflecting the structure and function of the University and the fact that they are very cross functional, they are very transinstitutional. We are hiring people who can perform well in philosophy and physics and music and we are hiring folks who will really move us across the campus because the intellectual landscape of this institution is changing dramatically, and we have to have new and younger faculty who maintain that quality, and so we are grateful for that. They have come and joined with us, I have had a number of small dinners at my home for our new faculty and I must say that they will be a real pleasure to work with not only as colleagues but also in terms of the intellectual vibrancy they bring to the University.

Then finally, I want to recognize our staff and the great work that they do, and the continuing effort that they make. In addition I want to introduce two people today that I think will make an extraordinary difference at the University, before I do so though, I want to acknowledge Peter Weiler. Peter, where are you? Peter stop hiding in the back, stand up for a second, would you please. Peter Weiler has served as our Senior Vice President for Development and he is moving to the University of New Hampshire. As our Senior Vice President he has worked long and hard to position us to have enormous success, and Peter and his family, Peter comes from New England, he has taken these good Midwestern roots and is going to replant them in New Hampshire. Peter we just want to acknowledge the great work that you have done. Give him a round of applause would you please.

But losing a great one means that we have the opportunity to recruit a great one. Dr. Andrew Sorensen, most of you have met Dr. Sorensen, some of the people in the audience have not. Dr. Sorensen is one of the most distinguished leaders in academic life in this country. He was the dean of public health at the University of Massachusetts, head of the major AIDS projects in this country at Hopkins and is a world class epidemiologist. By the way the thing that he brings most importantly to his new assignment is the fact that he is an ordained minister. We need a lot of praying. We are going to look to you to do that. Then he went on as the Provost at Florida, the President of the University of Alabama, the President of the University of South Carolina, retired for a nanosecond and then because I joke about this, that we
are brothers from different mothers, he has joined us now in three capacities, one is our Senior Vice President for Development, secondly as the Head of our University Foundation and the third is the Special Assistant to the President in charge of our advancement project. As you know we are very dedicated to now bringing our alumni communications and development programs more closely together and we had a wonderful presentation yesterday, Andy would you please stand and be recognized. Welcome to Ohio State!

Then finally is the newest member of our family, literally just freshly signed is Dr. Ron Sega. Dr. Sega is joining the University this month as our Vice President and Enterprise Executive for Energy and the Environment. As you know we believe and certainly with our work with Battelle and others that we have a really almost unique opportunity in terms of energy and the environment in terms of leadership, but we need to have the right leader, and we have hunted very long and hard for that. Dr. Sega's career, this is his resume, it is so heavy that I had to carry it in in a special truck, but I have known Dr. Sega since 1985. I came to the University of Colorado; he was one of our most vibrant and young faculty members in engineering and got to know him almost immediately. He then applied to the astronaut core, was accepted, continued as an astronaut for a long and distinguished career in the astronaut core, came back to the University as it's Dean of Engineering, then went into administration as the Under Secretary of the Air Force and then the Director of the Defense Research and Engineering Office, which is the most important research office in this country today. He was head of the Defense Advanced Research Projects Agency (DARPA) which is the largest research organization in the world, and so Ron brings to us a very special characteristic in terms of his ability. Presently he serves as vice president for Energy, Environment and Applied Research at Colorado State University, one of the leading institutions in the country in terms of climate research, and he is the Woodward Professor of Systems Engineering. This is a unique situation in the fact that he will serve as our vice president and continue to serve as the vice president at Colorado State in the strong belief that partnerships with the future of this world and that the more talented people we can find who will partner with other institutions, Ron is the first of his kind and so ladies and gentlemen, Dr. Ron Sega. Would you please stand and be recognized.

Ron, Andy has had a chance to say something; would you like to say something? We would be happy to hear from you. Come on up here, say something.

Dr. Sega:

Just very briefly. Thank you for the confidence in me. I do believe that the areas of energy and the environment are of enormous importance. As President Gee mentioned, I was Director of Defense Research and Engineering, and so I had about a $25 billion research budget. We increased three areas during that time, one in aerospace, one in knowledge and surveillance, and the other in energy and power. It was during that time, 2001 to 2005 the energy and power actually was increased more than any other percentage wise in the department of defense. So it is a trend that must be addressed, it is a big problem it needs to be done in partnerships. Ohio State is an outstanding place, I grew up here, went through the K-12 system here, took my first airplane ride out to Colorado to Air Force Academy, came back here for my masters degree, the second year of your Heisman (nodded to Archie Griffin), from the end zone seats in the stadium, and glad to be here and look forward to working with the faculty in the great state of Ohio. Thank you very much.

President Gee:

Thank you very much Ron. I might note that Ron also is a Major General in the Air Force Reserves, so we will salute you appropriately.
Mr. Chairman, I could note a number of other things but we have a lot of business and we have much good news today, so thank you very much.

Dr. Cloyd:

I would like to come back to where you started, President Gee, because it hit me as the faculty were standing. All of us on the Board have various contacts with other institutions and people that participate in other institutions, and I think they get the same message that I do when I talk with them. When they talk about what is going on at Ohio State in a very difficult time, moving forward not entrenched, but actually making positive changes and the fact that it is being done in a very dynamic environment that does require those changes and their experience is, what I think is traditional in most places, that higher academic institutions tend to be very, very resistant to change, and there is a lot of parochialism that can exist. You know we are really very fortunate, and it is not only your leadership, which is certainly important, but what you have noted about our faculty and staff, that they do not entrench, but they have embraced where we want to go and have really become partners in this effort, and I know I am speaking for all of the Board members when I say, we really appreciate that kind of forward looking and very different attitude by our faculty and staff.

President Gee:

We are blessed with extraordinary partnerships, we really are. Thank you very much, I appreciate that.

Mr. Wexner:

Thank you. To follow up on that Gil, leadership is a lot about change and vision, and so I think that in President Gee and certainly in the faculty, I concur with that, and I think in the same spirit, public testimonial to the good work of the Board and the Board Committees working hard, but with vision and willing to change and rethink and push things. I was reflecting on our past academic year as a Board and looking to the year forward with great enthusiasm, because of the thinking and vision and willing to change that exists at the Board level, it is just quite extraordinary.

I begin that then by introducing you, to the Advancement report.

-0-

COMMITTEE REPORTS

Dr. Cloyd:

Yesterday we had our first meeting of the newly formed Advancement Committee that we formed in our last meeting. I would like to note beyond some Trustees on this Committee we benefit from two Board Members from the Alumni Board, Michael Clark and Donald Schriver. From the Foundation Board, Jay Gerlach and Dave Kollat, and also Jack Kessler, so we really have a wonderful group of people to work on that Committee.

Now we previously discussed the importance of the new University Advancement model, this integrated, unified approach of alumni relations, development, marketing and communications and all of it presenting us with the opportunity to create a much greater level of engagement with key stakeholders of this University. At the meeting we reviewed some background and history that over the last almost two years, has led to this approach. The model of advancement at Ohio State, and I would like to say also besides reviewing the history, we reviewed some of the wonderful work that has been happening to actually bring the advancement model into operation. Just
one key fact thought from the background which I think presents the opportunity we have in engagement in a pretty striking way. Two-thirds of the alumni rate their educational experience at Ohio State as an eight to ten, on a one to ten scale, but yet today we still have less than a third rating their opportunities to stay as highly involved in that range. Now to me that translates to the opportunity we have with this wonderful diaspora to better engage that key group in the University. But they are not the only key group, and one of the things that the University has done in recent time, it has completed really its most comprehensive University-wide market research with a couple of leading firms, and it is the most comprehensive work they describe, that has been done in over a decade. This is really a priority to get us the information we need to better understand the key different audience segments that we need to engage in going forward. The plan is that we will, as we get this research, mold it to where we will actually have a segment base marketing approach with these key audience segments so that we can create the level of engagement we want. As comprehensive as this was, this was a first round of research and all of the key segments have not yet been fully defined, but it is going to include things, for example as students, faculty, staff, families of students, local state and national opinion leaders, donors, alumni and all Ohioans.

Now the objective of this and the follow-up research will be defined in a marketing relevant context, the key segments and for each segment, what is the most important to them to create the true engagement that we want and that they want. So this will really provide the basis for doing very effective consumer segment marketing or audience segment marketing.

Now with the research we have completed we are off to a good start. What I thought would be interesting, I will provide just a few key anecdotes if you will from the research to date. One of them looked at key Ohio opinion leaders, people who really influence things in the state and they were overwhelmingly positive and bullish about the University and its president. When we asked them, you know what are the things that we need to be doing better, interestingly enough, one of the things they said, we need to better commercialize our technology, but they also said, you need to better market yourself, and I think we agree with that.

Now we have over 140,000 donors to Ohio State each year, and about half of those donors are alumni. Here again though, I think we see an opportunity area. Just under 2% of the donors account for about 80% of the dollars that we collect each year. So we have a large loyalty base there right now, who with through better engagement, I think we can anticipate we will have even more philanthropic support. Now what these individuals told us is most important to them, and what they want is more detailed information on the use and the impact of their generous gifts. Now the Alumni overall are also a very key segment and we are very fortunate and we have talked about it a number of times, the passion and loyalty our alumni have, and I give our Alumni Association great credit that they have been able to, after people leave here, help maintain that same level of passion and support that people have for Ohio State. One of the key items that came from the research that got reported yesterday, high on all of the alum’s list is that they want Ohio State to really remain a high value option to many students, in other words, really promoting the access to this University by providing high value.

Now as we continue this research it will give us the best data we can to understand our key segments, refine our marketing approach and set priorities. We also reviewed that there has been a lot of work underway to best organize internally for the new advancement model to be both more effective and more efficient. I really want to highlight and thank publically Linda Kass for the role she has played in this transition and the leadership she has continued to bring working with University leadership and I also really want to compliment the University leaders in the areas that are involved in the advancement model for the strong support, advocacy, and what they have done to enroll their folks. We have seven action teams that involve
about 75 staff that have identified important areas for focus and there is work underway right now to get us reorganized the way we want to be. These teams are really doing things that will accomplish stuff like, create more integrated teams, develop more unified and effective communication and marketing approaches, build a common database for sharing stakeholder information across the University, establish a University wide approach to capturing and sharing audience research and ensure the human resource systems contribute to the collaborative approach.

Finally there are sessions under way now to educate and enroll all of the staff across the University and the opportunities and approaches that will be taking in this new advancement model. Now we also reviewed the initial goals for success that are being adopted by the people leading the advancement model. I would like to say, other than the kind of development financial goals that we have reviewed previously and agreed to within the Board, everything else is still very nascent, it is very early stage, some of them do not yet have kind of quantitative targets and we will work on that guided by our research, but when we get done, I think importantly the goals will also include things related to awareness and engagement. So when we think it is really following the model overall, if we can create a greater sense of true engagement with these stakeholders, the dollars will follow, so it is a focus on creating that engagement not just to focus on gathering dollars. So I think this is a big opportunity for the University. I am really, really pleased and I know all the committee members were with the aggressive pace that is being followed, to move forward in the advancement model, and I am personally very confident it is going to lead to a much higher level, and better level of engagement with key stakeholders for their benefit as well as the benefit of Ohio State.

Finally we also reviewed and have recommended in the consent agenda the development report. Total fundraising for FY2010 was about $287 million, we were a little bit below our target of $300 million, but in a very difficult climate, but importantly we were a little bit ahead of last year, and so I really want to give credit to the development folks that they move forward in a very positive way, and I think delivered solid results in a very difficult climate. Key areas where, and if you think about the economic environment it makes sense, we had our challenging areas and surmises were in the areas of new pledges as well as in some of the kinds of grants we get from some of the NGO kinds of organizations that support research at the university. What I would highlight though is very important, President Gee’s initiative, and I give President Gee credit for this, Students First, Students Now, to create $100 million in new scholarship funds to help students in these times of needs. That campaign is ahead of schedule. We now have $72 million raised, so we are at 72% of the goal in 60% of the elapsed time, so congratulations and thanks to everyone that has been involved in that campaign. Mr. Chairman, that concludes my report.

Mr. Wexner:

Any questions? Gil, I was just thinking, taken a bit by surprise. Would you like to comment on the guidelines for Trustees giving and if not I could accept the fact that you are not prepared to talk about it.

Dr. Cloyd:

I would be happy to. Yesterday our Board of Trustees took a step, which is as I can see from a lot of our public universities, a unique and a very positive step by a Board of Trustees. It recognizes that to meet our goals and do what we want to do at this University; we need to generate more private support for Ohio State. In our statement of expectations as Board members, we have always noted that Board members should support the University philanthropically, but the Board now has joined hands and agreed that we want to put some quantitative targets on what it means on personal contributions to the University and then also make a commitment to be active in the solicitation to get the donor process and capturing funds from
other donors. In a quantitative context we have developed guidelines for what each Board member agrees that they will provide each year and what I will call cash equivalence, so these are not future pledges, but what will be an equivalent of cash that they will provide to the University each year. That has a formula to it because it recognizes that there is different financial capability of different Board members, but every Board member has committed that they will give at least $5,000 annually to the University and has made a commitment that any part of their total income above $200,000, that they would provide 3% of that to the University up to a total minimum gift of $25,000 annually. As Professor Frantz and I canvassed some other universities, we really did not find any other public university that we looked to where a Board has taken that kind of step, and also to close, the Board members have agreed that they will all be active, as they can, creating no conflicts of interest in the solicitation process for the University.

Mr. Wexner:

I think that is a great report. I think it is really important to the University, and it is a great step for the Trustees, that if we say advancement is not important, that we are more than consultants, but we are willing to lead and participate, I think it just anchors us to the issue. I think that pattern which hopefully cascades through the University goes to all the boards and advisory committees of the University that not only do we appreciate peoples’ advice and consent and oversight that they provide to boards and other consulting groups as they are to different colleges and parts of the University, but they consider a financial responsibility. Very frankly I would not care if a group considered it and said their financial responsibility was a dollar a year, but I think you have to consider it and I think this is really a seat change in how alums, friends and advisors to the University think about their responsibility. I think when you have that financial commitment you are a much better Trustee or Board member, because you really have some intellectual and emotional skin in the game, but you have written a check.

Dr. Cloyd:

I should probably make one footnote comment here. When we talk Trustees, we always consider our student Trustees as members, and we pull them in collectively. We have said that Student Trustees do not have to follow these quantitative guidelines.

Mr. Wexner:

In that spirit, you are not off the hook yet. I am at least going to get you and Brandon for a buck, just to demonstrate the solidarity that we have.

Any other comments, questions. Gil, thank you very much.

Bob Schottenstein, do you want to give us the report of Audit and Compliance.

Mr. Schottenstein:

Mr. Chairman, thank you. The Audit and Compliance Committee met yesterday and before I get into the specific agenda, I thought I might just take a moment to update and summarize for the Board what has occurred from a process standpoint within our Committee that is a change in the way in which we go about monitoring the various compliance units of the University. It was a few years ago when the scope of the Audit Committee was expanded to include not just audit functions, but also a review and monitoring of various compliance functions. We began that as I said, just a few years ago and sort of learned by doing and I think we have made some very material improvements and the most significant of which occurred during the last year, when we developed a consistent protocol which regardless of the unit for
whose compliance we are reviewing, their presentation and the format of their presentation, the information that we ask them to provide us is the same, so that we are better able to gauge the work that they do, understand it in a context, and try to pay closest attention to what both they deem and the members of our committee deem to be the areas of greatest risk. So to be specific there is essentially four or five questions that every compliance unit must address in writing, on hopefully a piece of paper that does not exceed a page, although we allow them to amplify their comments at the meeting, but we ask that each unit address the same four or five questions; to briefly summarize the major compliance responsibilities and how they are organized, how they carry out those functions. We asked them to address major compliance issues in their area that have arisen at comparable institutions throughout the United States, other universities in the past, whether they be public or private, in the past two or three years, and what happened. How did those universities address those problems or issues and we use that again to help provide us with context. We asked them to set forth any specific compliance related problems that have occurred here at Ohio State since the last time when they presented to us, so we know what if anything has transpired. We asked them to tell us what the greatest area of risk is, what concerns them the most, and what steps have they taken or should we be taking in order to best mitigate those risks. So it is within that framework that we are trying to become a little bit more effective in the way in which we go about reviewing all of the various compliance units. They are all on a calendar, so each of these reports that periodically come before the Audit and Compliance Committee, whether it be athletics, student life, technology and so forth, they are all scheduled to come on a periodic basis over the course of two or three years.

Yesterday we had three compliance reviews. One was the Office of Student Life, presented by Dr. Adams-Gaston. It was an excellent report. Very good discussion, you could all see the information and the response to the questions in the Board book. We also had a compliance report from Kathy Starkoff, the chief information officer of the University, dealing primarily with technology. I just want to highlight one item that came out of Kathy Starkoff's report where she and I think the members of the Committee all agreed that the greatest potential risk we face in this area of technology and information is a catastrophic loss that might occur concerning the University Data Center. This was yesterday when we had the meeting and we talked about if a tornado, or something hit our Kinnear Road facility, what would that do to the University, and we do not have at the present time, and this is not meant to alarm anyone, but the fact is that we do not have at the present time a robust back-up center or centers that are geographically located in the right places. The good news is that plan is in the process of being aggressively implemented and we have tagged this issue and later in the year Kathy will come back with a very specific plan on back-up.

Finally we also had a compliance report on enrollment services from Mr. Evanovich and I think he is here. It was an excellent presentation and the members of the Committee were very satisfied as well that we are in very good shape.

That concludes my report Mr. Chairman.

Mr. Wexner:

Thank you. Any questions, comments about Audit?

Dr. Cloyd:

One comment I had. I had a chance to review the materials. I think the new approach you have taken is just tremendous. One of the things I liked about it was that it forces the units, the parts of the University to look externally into relevant areas, identify what is happening out there, and proactively identify what might be
relevant risks here and what they would do about it, but that essential required external look and proactively is terrific, and I think we may find that kind of a mindset will apply in other areas beyond what you are covering in Audit and Compliance.

Mr. Schottenstein:

There is no question, and in so many of these areas, and I am by no means an expert, but take the Office of Student Life, the situation that tragically occurred at Virginia Tech, the situation that occurred at Iowa with the flooding and so forth. It is from these experiences that we learn and we test ourselves, and I appreciate those comments Gil.

Mr. Wexner:

I think just to add onto what Gil said, the notion of benchmarking I think is a bad word, if you see it as curiosity then benchmarking begins you on a path of being curious, I think in all functions and parts of the University, and I think consistent with what Gordon said, and what Gil was talking about in Advancement, there is an increased pattern of curiosity and openness to capture ideas so that we can keep our thinking as good as they can be.

Doug, do you want to talk about Physical Environment?

Mr. Borror:

Thank you very much Mr. Chairman. We had our initial meeting of the Physical Environment Committee. This Committee is chaired by Ron Ratner who is unable to be here today. Ron as you all know was the chairman of our framework plan that we just completed and this is an extension of the framework plan.

The Committee’s broad charge is to assist the University in the implementation of that framework plan. Everyone here today will be getting a hard copy of the plan along with a DVD, and that plan will be available to the general public online in the future. We started our meeting with Senior Vice President Jeff Kaplan reintroducing Terry Foegler as the new Associate Vice President for Physical Planning and Real Estate. Most of you remember Terry from his great work with Campus Partners and our new Gateway Project. Bringing Terry back into the fold is great for the University and we welcome him back. Mr. Kaplan then discussed the proposed role for the Committee. The current scope of work will include reviewing all proposed future construction projects through the framework lens to ensure we stay true to the comprehensive integrated intent of that plan. This includes all academic, medical center and student housing initiatives. We are also going to assist in prioritizing capital plans, currently the University is working to refine the capital planning process and they will report back to us on how we can best provide input. One of the most important things about this plan is that somebody has to make sure that it is seen through, so we are going to advocate and take the initial steps to advance the long-term ideas. Right now, as we know, we have limited financial resources, but we need to figure out how to keep this vision of the framework plan alive because we have to plan the steps to advance the unfunded big ideas that we have had. Items that remain a priority, but are unfunded as of now, include approximately 4,000 student housing beds for our sophomore students, which is in our President’s plan, transforming the river corridor with the relocated Cannon Drive, traffic realignment including Kinnear Road, 315 intersection and the extension of Neil Avenue. The Committee will review issues related to the construction, maintenance and operation of facilities as well as the campus infrastructure and safety. We will work to understand the deferred maintenance need and we will review appropriate condition levels for University facilities. We will also review real property matters including asset dispositions.
We then heard from our Chief Financial Officer Geoff Chatas. Geoff reminded us of the capital plan that we approved last February and reiterated that our capital funds are committed to our major projects, primarily ProjectONE, student housing and the infrastructure to support them. New proposals, any new proposals, including the ones that I mentioned earlier would require new sources or reallocations of those funds to proceed. The Committee advocated that any savings on construction should be thoughtfully reallocated if possible. We understand this is currently happening through the administrations integrated financial planning committee and expect them to report back to us on that.

We then heard from Associate Vice President Lynn Readey who shared positive updates on large construction projects and the Committee endorsed an increase in scope in the Sullivant Hall project. These items were also presented to the Finance Committee.

Finally we discussed our relationships with other committees, such as Finance and Student Affairs, and there is a real desire here for us to avoid duplication and to avoid inefficiencies as we advance our projects, so we have to work together with those two groups to make sure that our scopes do not overlap and that we actually can incorporate the ideas of this new Committee into the way the University and the Board works. Mr. Chairman that concludes my report.

Mr. Wexner:

Thank you. Questions, comments? A lot of good work has happened in the past year, and years continue forward. I appreciate it.

The most major project that we have undertaken in the history of this University is the expansion of the Medical Center, and so Alan if you would report on all of the affairs in medicine including that, I would appreciate it.

Mr. Brass:

Thank you Mr. Chairman and good morning everyone. Yesterday the Medical Affairs Committee did meet, we had a robust meeting. The agenda was very full, but to begin with I would like to call on Dr. Gabbe. One of the things that we have been very focused on is our strategic plan, and our recruitment plan, because that in fact drives what is taking place at the Medical Center, so Steve, would you be kind enough to update us on a few critical recruits right now please.

Dr. Gabbe:

Thank you Mr. Brass, and thanks for the opportunity to address the Board. I think members of the Board are aware that Dr. Chip Souba who has been our dean of the College of Medicine for four years has resigned and will take a new position as dean of the Dartmouth Medical School. Meeting with Provost Alutto, I am pleased to report that Dr. Catherine Lucey who has been our vice dean for education will serve as our Interim Dean and Provost Alutto and I will lead a search for the new dean of the College of Medicine going forward. We have had some very successful recruiting activities as Mr. Brass mentioned, recently Dr. Robert Higgins joined us, and Dr. Higgins will be the Head of the Division of Cardiac Surgery in Surgery. He will also lead the transplant center and lead our transplant signature program, and will be The John H. and Mildred C. Lumley Chair in Medicine. Dr. Higgins comes to us from Rush University where he led their cardiothoracic surgery program for seven years. His area of special interest is heart and lung transplantation and we successfully competed against several very well-known institutions, one in New Haven and another in Boston to bring Dr. Higgins here. He is going to make a real difference.
We also have been successful in recruiting Dr. Rick White to come as our chair of radiology and the leader of our signature program in imaging. Rick was the chair of the Department of Radiology at the University of Florida’s Jacksonville campus. He spent almost a decade leading the cardiac imaging programs at the Cleveland Clinic. So if you look at Dr. Higgins’ expertise in heart transplantation, heart surgery, and Dr. White’s leadership in cardiac imaging, this is going to be a great support to our heart signature program as well.

We have announced several appointments to chairs of internal candidates who are national leaders. Dr. Mark Landon in obstetrics and gynecology. Mark has been here at Ohio State since 1987, has been vice chair of that department since 1997, he is a national leader in diabetes, pregnancy and caesarian delivery. We have also appointed Dr. Philip Payne to chair our very important Department of Biomedical Informatics. That is one of our three research foundations for our signature programs. Phillip has been here since 2006, he is a leader in biomedical informatics in our Clinical and Translational Science award from the NIH, and we are one of about 40 academic medical centers to have that grant, which is an important part of our efforts and personalized medicine research. Dr. Dan Sedmak has a distinguished career here at Ohio State. He was just recognized by our alumni for his achievements. He is now our chair of pathology. Dan held that position before he left to be the Dean of the Georgetown University Medical School, and he has been back now and will be the Chair of Pathology at Ohio State. Phyllis Teater has been named our chief information officer, she works very closely with Kathy Starkoff, and they have a wonderful working relationship. Phyllis has been at Ohio State for almost 20 years, she received her undergraduate degree and her MBA from Ohio State, and she is leading the transition of our Medical Center to a fully electronic medical record. It is nearly complete in our outpatient clinics and will be complete in our inpatient hospitals in October of 2011, so we are very excited about that.

Just some good news I wanted to share with the Board, we learned this week that we have been named one of the thirty best hospitals in America by Beckers, which assesses hospitals based on, as they say innovations and patient care, quality and safety, and putting patients’ needs first. So we join a distinguished group of institutions including the Mayo Clinic, Cleveland Clinic and Johns Hopkins, in the recent U.S. News and World Report rankings, we were again named one of the best hospitals in the country for the 18th consecutive year and of 16 specialties that are ranked, we were ranked highly in 11 of them. Remarkable increases in our rankings in our heart program, in our orthopedics program and in diabetes and endocrinology. Having 11 out of a possible 16 makes a very powerful statement, that if you have healthcare needs, Ohio State can provide them at the highest level regardless of the problem that you might have. We also were named by Consumer’s Report, I did not know that they did these rankings, as one of the best heart surgery programs, 50 best in the country, and we were the only program in Ohio to receive that distinction.

Then as I hope you might have seen in The Columbus Dispatch today, yesterday we were able to send home all of the McGee sextuplets. They are the first set of sextuplets born in Columbus and only the second in the state of Ohio, and they are doing very well. So lots of good news to report. Thank you Mr. Brass.

Mr. Brass:

Dr. Gabbe, the award that Dr. Caligiuri just received, would you mention that please.

Dr. Gabbe:

Thank you for reminding me. We have had two major research awards to our faculty. First Dr. Wolfgang Sadee, who is our chair of Pharmacology, received a grant in excess over $9 million from the NIH to look at individuals’ genetic composition and how they respond to medications to try to look at how we can make sure that people receive the safest medication and the appropriate dose. More than a $9 million
grant. Just this week Mike Caligiuri, who of course leads our cancer program and Comprehensive Cancer Center received a merit award, this was awarded to only four scientists by the National Cancer Institute, and it goes to people whose scientific accomplishments are so significant and over such time that the NCI will continue to fund them for years and years ahead. So this is a great honor for Mike Caligiuri. Thank you Alan.

Mr. Brass:

Thank you very much Dr. Gabbe.

To continue on, first of all I am going to give you some updates. The Medical Center is moving forward and expanding quite a bit. As it relates to ProjectONE, you will begin to see an awful lot of work out of the ground now. We have been underground, a lot of utility work is being done and those of you that have driven around the Medical Center know what kind of detours have taken place and I will talk about that in a second. Mass excavation will start in September of this year with a huge hole going in the ground. The foundation will start to be poured in December; the steel will start to be erected in April, so we will be seeing an awful lot of work in the next six to seven months as it relates to ProjectONE.

Happy to tell you we are $4.5% under budget right now which is very good. I also wanted to make the Board aware of the fact that 76% of all the contracts have gone to Ohio base firms. It is important for us to really pay attention to that and 22% have gone to edge firms, which is also very important.

We have 1,180 beds online; we will have 1,180 beds online for the next four years. There is no more room for any more beds, so we have got to be as efficient as we can as we continue to increase the volumes, and all of the volumes are increasing. So we are going to have to become very efficient as to how we move patients in and then move patients out. Steve Gabbe mentioned something very important, we are ahead of the game, it is very important for healthcare reform that we become fully electronic. Our electronic medical records system, an imaging system, and digital systems will all be live by the end of next year. For a medical center of this size, that is a huge goal. A lot of smaller hospitals cannot even keep pace the way Ohio State is right now.

I want to mention something about where we are financially. We did complete the year, this is a major revenue and expense for our University, it is important that we pay attention to that. The operating margin for our system was 7.3%, we budgeted 6.8%, so we exceeded our operating margin. Our days cash on hand is now up to 63 days, I remind you again that each days cash on hand is worth $4.5 million, we are in excess of $250 million days cash on hand. You need to in fact make sure your days cash on hand, in an enterprise that has risks, which medicine does across this country, continues to go in the right direction. Our admissions blew through the budget, our ambulatories for the first time in history, over one million patients in our ambulatory clinics coming through. We were worried about our emergency room as it related to all the construction going on around the campus and the ambulances coming down 315 and so on. I am happy to tell you that we had 120,000 emergency room visits, up 5.3% from last year. Bottom line is revenue over expense, with all the hard work of our faculty and all of our administrators and our staff, generated the revenue over expense of $127 million, up $7 million from what our budget was. Financially the medical center is holding very well.

One of the most important things that will be coming for approval by the Medical Affairs Committee and the full Board is the entire Ohio State University Physician Integration plan. Basically what that is, is bringing 800 physicians onto the payroll system, inside the health services system of The Ohio State University. It is a mammoth undertaking for us to be in a position for healthcare reform, you in fact
have to have care of coordination and you have to have full integration, because we are moving to a bundled reimbursement system. The work that Dr. Ellison has done, Chris Ellison has done and Kam Sigafos over the last year and a half to get us to this position and many, many others has been enormous. When you think about practice plans, bringing them inside, you think about pensions, compensation, contracts and all the things that go with it, we are rounding third base by the time we meet again we will be home. This Board will be asked to approve, what I believe will be when we look back ten years from now, one of the most important things that has happened at the Medical Center as it relates to positioning us for the future. So that was presented, we went in depth with that, and I think as I said next meeting we will be asked to approve that.

The next thing, we are spending an awful lot of time on patient experiences. As we get ready for healthcare reform one of the things that is very important is that our patients have great quality and a great experience. Reimbursement will be tied to this, if patients have to be readmitted or have a bad experience, our revenues will be directly reflected with that bad experience. So we are working hard on satisfaction, we are working hard on quality and you will be hearing an awful lot more about that.

Last thing I want to mention is that there are for action today some bylaw changes within the Medical Center rules and regulations, most of those are housekeeping items, changes in departments as we in fact recruited new talent to the University and that completes my report Mr. Chairman.

Mr. Wexner:

Thank you Alan. Pause for questions, comments?

Mr. Schottenstein:

Just the last comment, or the last point that Alan made about patient satisfaction. The new project, ProjectONE is an enormous undertaking, potentially enormous distraction, and I think that Dr. Gabbe and the leadership of the Medical Center deserve particular credit and commendation frankly for bright lighting this issue and paying even closer attention to it at a time when what is really the most important thing we do, which is take care of people, might take a backseat to other things. I think they have set some very noble goals to be ranked among the top 10% of all major healthcare institutions in terms of patient satisfaction, and I thought the presentation at the meeting yesterday on that was encouraging and very appropriate.

Mr. Brass:

I concur with you totally on that.

Mr. Wexner:

Dr. Gabbe, Steve, thank you very much. I was thinking as I was listening to the report that any one of the things, whether it is the disruption to traffic to the emergency room, the highway changes, the construction, recruiting, an enormous amount of reasons for us to slip back in any area and you might be the world’s greatest juggler, or magician. Really all the complexities of change and construction and the governmental changes that are happening, to just skate through things so well, it is not magic, so much appreciated. Thank you.

Judge Marbly, Monte, would you like to give us the Academic and Student Life report.
Mr. Chairman, we undertook yesterday the work of what we all consider our most important stakeholder and that is our students. We first heard a presentation from Dolan Evanovich, who is the Vice President of Strategic Enrollment Planning. He briefed the Committee on the anticipated enrollment patterns for autumn quarter 2010 and discussed the next generation of enrollment planning at Ohio State, but first Mr. Chairman, and more importantly Mr. President, we are proud to advise that we have the most diverse and academically talented or gifted class in the history of the University. We had 26,000 applications for admission for this year, up from 21,000 last year and though the actual statistics will not be available until October, we expect to welcome some 6,600 new first quarter freshman on the Columbus campus. The average ACT score will be 27.7, up 2% from last year. The other academic markers will be up as well, as will the diversity of the class. The number of African-American students will be at approximately 18% higher from last year, while the number of Hispanic/Latino will likely climb by 19%. We anticipate that the number of international students in our freshman class will be 66% higher this year from last year, and President Gee I want you to know that your sojourn to all 88 counties apparently has borne fruit in as much as we have all 88 counties of our state represented in this entering class. Good job.

Now turning to the One University Enrollment Plan, Mr. Evanovich pointed out that this plan marks a first for Ohio State, while earlier enrollment planning focused primarily on new first quarter freshman on the Columbus campus, this plan is meant to enhance the entire student body and is designed to transform enrollment practices on all of our campuses.

The first goal focuses on quantity. The plan calls for an increase in enrollment across all ranks and on all campuses by at least 2,700 students from 2011 to 2015. This increase means that Ohio State student population across all campuses will be more than 66,000 by 2015. The second goal focuses on quality. The plan calls for an increase in the University’s expectations of entering students. Key targets for the Columbus campus include an average ACT score of 29, a first year retention rate of 95% and a six year graduation rate of 80%. To reach these targets the University will implement additional recruitment strategies and increase merit and need base aid. The third and final goal focuses on diversity. The plan calls for enhancing the racial, ethnic, geographic and economic diversity of the Ohio State student body, such that by 2015 the diversity of our student population is appropriate to our land grant mission and to our national and international reputation. To meet this goal we will expand recruitment efforts and financial aid packages over the next five years. The cost of meeting this goal will be covered by revenues realized from the enhanced enrollments. The plan to expand Ohio State’s student body supports the governor’s and the Board of Regents goal of increasing the state’s number of college graduates. Just as importantly the enrollment plans strategy ensure that this expansion will not come at the expense of quality or diversity. So before I move to the next phase of my report I want to thank personally, and on behalf of the Committee and Board, the hard work that was put in by Mr. Evanovich and his team. It was truly extraordinary, quite forward thinking, and I think will serve as a blueprint for public universities going forward who also seek to expand the mission of the land grant university.

The Committee next heard a resolution for revising the University’s classified civil service rules, and that was presented by Vice President of Human Resources, Larry Lewellen. These rules and their revision primarily effect the classification and compensation rules. We recommend these changes be adopted and they are on our consent agenda. After endorsing a number of routine personnel actions, the Committee went into executive session. We closed our business, Mr. Chairman with the Committee’s endorsement of the revocation of a doctor of philosophy degree of Dr. Elizabeth Nixon. This item is also on our consent agenda. Thank you very much.
Mr. Wexner:

Thank you. Questions, comments for Monte? Gil.

Dr. Cloyd:

Yes Mr. Chairman. I would like to make one comment. It comes back to something you said at the start of the meeting about openness to change and requirement of change. I just echo Judge Marbley’s comments about the work that the University team and staff and everyone that has been done around this enrollment plan, but here again it is another example where people were able to really get beyond deeply seeded paradigm based assumptions that said we could not expand the student population without sacrificing quality, without sacrificing diversity or at some huge financial hurt to the University, and they came out with a win across all fronts and it is terrific. As Judge Marbley said, as a land grant institution and with the need in this country we have to provide really high value education, Ohio State being able to increase its enrollment like this now I think is a very positive step, but it would not happen absent people within the University being willing to step beyond what some of their paradigms told them was true and find some new alternative ways, so it is a great example I think of that.

Mr. Wexner:

Thank you. It is the business of the business. I am glad we are doing better.

No other questions, comments. Return back to Bob, do you want to report on Finance.

Mr. Schottenstein:

Thanks Mr. Chairman. The Finance Committee met yesterday afternoon. We had a pretty extensive agenda, presented largely by Mr. Chatas and very clearly by Mr. Chatas I might add. The first item was the review of our fourth quarter results, simply for the purpose of updating the Board on what has happened since our last meeting. We reviewed all of the key metrics in terms of enrollment, the health system, as you heard from Mr. Brass just moments ago, the health system ended the 2010 fiscal year in very strong financial condition. Very important to the University’s financial health given its significant role it plays in the University.

We talked about state revenue which remains an ongoing concern for all of the obvious reasons given the macroeconomic challenges that we are all living with. Overall in terms of reviewing the scorecard which has seventeen or twenty items on it there was widespread consensus that we end 2010 in very stable financial condition. In addition we reviewed the quarterly waiver report which is a fairly routine item that relates to projects for which we seek waivers from the RFP process. The 2011-2015 capital update, which had been reviewed before but was reviewed once again by Mr. Chatas. We also, and this will be on the consent agenda, we took action with respect to the 2011, the current fiscal year, current funds budget. At our June Board meeting, this Board set the tuition and fee levels for the University which significantly impact and guide much of what is in the current funds budget. That budget was unanimously approved by the Finance Committee and it will as I said be on our consent agenda momentarily.

We received a report similar to the one that was presented to the Physical Facilities Committee, a report from Lynn Readey concerning major construction projects, all of which we were very pleased to hear are on time and on budget. We also had Ms. Readey present to us and seek our consent which will also be on our consent agenda here momentarily, a specific authorization for us to increase architectural contract with respect to the proposed renovation and very exciting renovation by the
way, if you have not seen the new elevation for Sullivant Hall, I would encourage
everyone to see it. I think the grandeur of that building on High Street right next to
our 15th Street entrance is going to be restored in very elegant fashion; at least I
think it will be. We approved unanimously the request to increase the professional
services contract for that.

That concludes my report unless any other members of the Committee have
something they want to add.

Mr. Wexner:

Any questions, comments? Thank you. The Committee on Trusteeship, Alex.

Mr. Shumate:

Thank you Mr. Chairman. We have talked quite a bit this morning about the
excellence that we are experiencing as a University when we look at our student
body and the continuous improvement of our students, the excellence of our faculty,
the excellence of programs like medicine and the charge and commitment of the
Trusteeship Committee is to ensure that the Board is also looking at ourselves to
make sure that we are performing at the highest levels and seeking to continuously
improve our performance and our contributions to the University. In that spirit
yesterday, two agenda items I would like to report on two agenda items. First was
the review of the statement of expectations of the Board. We took a fresh look at this
document that was adopted by the Board two years ago and I should report that this
document has been selected by the Ohio Board of Regents to be a model for other
universities in the state as they seek to articulate the policies and practices and
principles that will guide them as they seek to govern the universities in the state of
Ohio. Our review determined that there are no major changes that we should
recommend at this time to the Board. We will continue to review the statement of
expectations, but very pleased to report that each Board member has seriously
taken to heart the standards of performance and each Board member is constantly
seeking to adhere to these principles and I believe it is contributing to the success of
the Board and success of the University as we seek to be the best university Board
of Trustees in the Country. And I mean that sincerely and seriously. Secondly we
looked at and reviewed our orientation program which is also a very important
component of the Board adhering to the highest standards of governance. We
believe that we should renew the practice of appointing mentors to our new
Trustees, and as both you Mr. Chairman and the President pointed out we have
three new Trustees and so we are recommending the continuation of the mentorship
program. We are going to ask you, Mr. Chairman to serve as the mentor for Dr.
Wadsworth; Brian Hicks to serve as the mentor for Brandon Mitchell; and Bob
Schottenstein to serve as the mentor for Clark Kellogg. That concludes my report, I
am happy to respond to any questions.

Mr. Wexner:

I accept.

Mr. Schottenstein:

I am looking forward to the two-on-two basketball games. Clark and I will take on all
corners.

Mr. Kellogg:

Make sure it’s half court Bob.
September 17, 2010 meeting, Board of Trustees

Mr. Wexner:

Questions, comments?

One of the things that I was thinking about, and we might take time to discuss, or you might just want to reflect till the next meeting. As we move to a planning phase for the Board, that we begin thinking about the planning phase longer term for the committees. What are their calendars as we have gone to, and will increase hopefully this year our charter trustees to bring in talented alums and skills to the Board to think about that at a committee level because I think it engages people and increase the capacity and the work of the committees. So I know we have a number of alums and friends of the University that are interested in Finance, live in the east coast, you know getting them on the Finance Committee, or advising investments. I am sure Eddie George is a landscape architect, getting him on the Planning Committee, he is connected to the University, cares about the University, and I think that we can lever the Board and lever our work by looking outside of ourselves on some of these committees. I don’t know if you want to respond to that or in agreement or disagreement or reflect till the next meeting, but I just like to get that thinking going at the committee level.

President Gee:

I would just like to reflect on the fact that I think that one of the things that we all agree with and certainly Dr. Sorensen would join with me as would our Provost and other Vice Presidents, in the fact that the more we can get lively minds to look at the problems in the University the better off we are. And also we think about the engagement of our alumni, we have 480,000 living alumni, the largest body in the world and an opportunity for them to become more engaged in the institution is a way for us to be better by any circumstance. We do have enormous talent and recognizing that talent through formal Board responsibility will be a terrific new addition.

Mr. Shumate:

In fact we talked about that at the Trusteeship Committee, and would encourage the Committee chairs to think about areas where they would like to supplement the expertise of the committees and we would ask that those recommendations come to the Trusteeship Committee so we can review those consistent with our standards, but we certainly encourage that and as you noted on the agenda today, three former Trustees will be serving on committees because again we are committed to having expertise and talent to supplement the activities of the Board.

Mr. Wexner:

Anyone else want to chip in or comment?

Mr. Jurgensen:

I think a thought that has occurred to me in terms of connecting a couple of dots and engagement of the faculty, financial efficiency and getting people to have close affiliation with the University to help work on the University’s own problems. I think one of the things that would be interesting for us to do would be to have Geoff Chatas review every external consulting contract that the University has entered into and drop it through a screen as to whether or not the identical intellectual capital represented by the consultant is actually a resident in the faculty. You know have some of our own faculty help solve some of these problems. To me it is a win, win, win.
President Gee:

I love to tell the story that shortly after becoming the president of Ohio State I was on an airplane flying to San Francisco. One of our faculty sitting next to me, I say what are you doing. He said I am going to Stanford, I said what are you doing, and he said I have been their chief consultant on a project for years and I thought oh my hell. Here he is out there doing that and we need his help here. We have enormous talent on our faculty. One of the things we have done, and this is evident particularly in our commercialization process, where we have now called upon the internal talent with Carol Whitacre, with Chris Poon, and now with a number of faculty to really move our commercialization project along. We have a great plan and we will have a great result.

Mr. Jurgensen:

One of the things, and maybe it is an old joke, but in order to qualify as an expert you have to be more than 25 miles from home.

President Gee:

We are such a big place we will count that.

Mr. Wexner:

It came to mind, I think there is a bridge on this to think about and maybe it goes out in alumni communications as an engagement model, but just personalizing it. Yesterday I was sitting in the meeting on Advancement and the discussion about alumni and names and, do we know where people are and I was really listening with great curiosity because as people were talking, we have names in medicine, we have names in businesses, we have names on advisory committees, we have names in the Alumni Association, we have pockets of names all over and one of the challenges in this unified effort is capturing all the names and kind of vetting them so it is one, if you would, master kind of list, which is a daunting thing to do. As I am listening to this, it all suddenly occurred to me that in our business we have about 70 million names in our database and we manage them pretty effectively in roughing and sloughing between credit and store experience and internet purchasing and catalog purchasing. So we can track behaviors across multiple brands and a significant number of those names internationally. We are really good at list management and I never would have seen that as a skill we have that could benefit the University because I would not have defined the University as ever being in that business. So it is really easy for me to round up the people that really know how to do this stuff in our enterprise and connect them with the University because it tracks behaviors and ages and genders and inferences of if you buy this you are likely to be interested in that. We are beginning to discuss doing that kind of cross marketing with a big company like Starbucks, globally their names, our names for us to use the resource that we have and it benefits our customers. I think that there are so many resources like that in research, in businesses and in industries in alumni that do things but they do not know that’s what we do or faculty and that networking in a large complex organization is a remarkable thing. We are saying that at some level getting the engagement model on committees and boards and getting faculty engaged where we have needs as a University against the needs of the University. I think it is a big step into the future. It ties to what Gordon is saying and I know we subscribe to it, but different kinds of partnerships and virtual new kinds of relationships, so I just ask everybody to think about that at the Board, what things that you know about or people that you know that may be alums or interested or just any kind of relationship because I think we have such enormous leverage because of our numbers. And because of the skills of those numbers and it is tapping into it is important and hard.
President Gee:

And we are in a community in the state that really appreciates the University so therefore there are a lot of willing hands out there if we ask. I am thinking about the 70 million names, of course I joked with you yesterday, we just want to have the 70 million names; we will solicit all of them, but anyway. You know we were at Big Lots the other day with the Columbus Partnership, interesting company, they have really some interesting focus on what they do in their business, and I am certain there are some connections there just in terms of partnerships that we could develop.

Mr. Wexner:

Big stuff. I will follow up with Alex, the Committee chairs, and with everyone on the Board just to make sure you are working on this because I think that curiosity and creativity of tapping into the resources and people that we all know, or things that we know but we do not connect them. We try to mind for that intellectual capital. Thank you.

Dr. Cloyd:

One thing too, because we talked a little bit about technology yesterday, and I think this could work internally to Mr. Jurgensen's comment, as well as externally. As we are able to get our interest areas, needs, problems, available in a net based type of system and have it accessible, that is what can really become a powerful way that we can interconnect with people because then you really open the door to serendipity. The internet capabilities allow you to get rid of all time and distance boundaries and to me that is going to be a part of this engagement model, is getting ourselves presented in a way, not only with some of the proactive push, but where people can find easily interest areas around Ohio State, or where they may be able to help and that is where the serendipity happens because someone knows something, someone has a capability that you never would have know they had, they did not know you had the problem, but I think that in the engagement model that has to be something that we think about as a way, again and it is talking to me about the power of the advancement model to move just beyond philanthropic dollars, it is also saying the intellectual capital and capability that exists outside of Ohio State, we are going to be able to engage that to the advancement of the University and I think to the people that will be doing it, to their benefit because they are going to feel good that they have been able to interact with the University in a substantive way and help. I think the same thing can apply internally if we get this going because I agree with Jerry, I think we got internal capabilities here at times that we just do not tap.

Mr. Wexner:

As you are saying that, funny enough I am thinking that might be work for the Advancement Committee. In a serious way, if I look down the Committee list and say I want to place it somewhere, it ties to your background, but also most closely perhaps to advancement, not making the decision.

Dr. Cloyd:

And we will consider it more because no matter where we take it, I really believe that kind of capability has got to be a part of what we are going to do in the advancement model so that again, besides what will be important targeted segment base marketing interaction to create engagement. We need to create the form that will allow a broader base and then I think it is tied to a part of that, helping the University.
Mr. Wexner:

That’s great, great discussion. Gets me going. Jack, would you like to report on Agricultural Affairs.

Mr. Fisher:

Yes Mr. Chairman. As I dress for this report, my fellow committee members, I am happy to report that we want to talk about food safety, collaboration, and some good public relations for your Advancement Committee, Dr. Cloyd. Our Committee went off to the College of Food, Agricultural, and Environmental Sciences, in particular Parker Food Science and Technology building on campus. We were hosted by Dr. Moser and Interim Chair, Dr. Mangino. Our first stop was at something we have been talking about for a number of years, and that’s the Food Innovation Center. That was put in place about a year ago, you might recall. It is a five year funding commitment from both the Office of Academic Affairs and the Office of Research. The collaboration part there in addition to on campus, is food is one of Ohio’s state wide targeted industries. So some collaboration there and to remind you this collaboration on campus involves 80 plus faculty and staff, 13 colleges and 23 departments, and so a lot of the Committee reports we have heard today what we are trying to do is taking place. It also reaches out to one of our farmers in southern Ohio, the Stokes Berry Farm, who is a breeder of raspberries, particularly trying to select varieties that can be a part of some of the clinical trials and work at the Food Innovation Center.

Our next stop was to visit with Dr. Steve Schwartz and talk about functional foods and in front of you, you have the soy tomato product, and in fact we are currently in a clinical trial here at the University in soy tomato product being used to prevent and potentially be part of the treatment for prostate cancer. This is the product, this is not for consumption, and this is an example of the product that is used in the clinical trial. This is an example of functional foods and what can take place and what is taking place and the collaboration here is an example of taking advantage of our potential: a medical center, a vet school and our College of Food, Agricultural and Environmental Sciences all being on one campus.

President Gee:

Before you go on, Jack, if I could just say one thing. You remember our retreat of nearly three years ago when we had J. F. Rischard here we really started thinking about the fact that the future of the University was to organize ourselves around ideas and then we identified seven to eight to nine ideas and one of the major ones was food and food production. Then we went into a strategic planning process and particularly funding process to identify some of those innovation centers. The Food Innovation Center is a result of that and so just remind the Board that really the work that we have been doing actually has net results and actually a product. I hope that everyone has a chance to read this because not only is it a powerful document, but really it puts us in a major international leadership role in terms of food and food production. By the way when I was in China, the Chinese are very focused on food safety and food production. They view Ohio State as the leading university in the world in terms of that effort and we visited there and we had a remarkable set of conversations. Again the translation of an idea we had three years ago to really a significant program of the University right now. I like that. I like that we see progress.

Mr. Fisher:

Thank you. Our next stop was with Professor Alvarez, and we went to the food lab, and there was a program going on in cooperation with Ohio State and the Snack Food Association, and in fact they had a class of about 20 to 25 industry people including seven folks from out of country, seven international folks participating, demonstrating new equipment in the snack food industry, food safety concepts and
that’s why we had the opportunity to wear our hair nets as we visited the building. Our next stop you have probably read and heard a lot of information about the salmonella outbreak from the state of Iowa. A recall of 550 million eggs, and right here at Ohio State we have cutting edge technology that is ready to be commercialized, utilizing ozone in the process to make whole shell eggs safe without cooking, which would be just a tremendous technology breakthrough both for food safety and for food companies utilizing eggs in all their recipes.

Next we did hear about President Gee’s tour about the state of Ohio. I think it is important and Judge Marbely talked about this already, but here is a combination of outreach, because visiting businesses, parents, students, it’s about student recruitment in all 88 counties, I think you did 44 this year and 44 last year. So here is a combination of things that our President is doing as an outreach part of One University and visiting all of our counties for development work, student recruitment and business collaboration, so we thank you for that President Gee.

Lastly one of opportunities is the difficulty we are having funding wise for Ohio State University extension and that also ties into our research dollar line item. I say it’s an opportunity because we need to prioritize. I think you recommend at part of our meeting last night Mr. Chairman, do the main thing, that’s what we have to do in extension. Utilize the dollars that we have available. We have had to cut about 100 positions over the last couple of years and anticipating future reductions possibly and funding in these areas, extension has restructured. They have nine regional areas now across the state. I want to remind the Board the seriousness of those staff reductions in that Extension faculty typically have a joint appointment, by that I mean, it has teaching, research and extension as all part of that appointment.

Lastly to show you how outreach works in helping Dr. Cloyd in his advancement here, most of you have probably enjoyed a Drumstick at one time or another and this is Dr. Moser’s favorite story because the Parker Food Science Building is named after Tom Parker who made a very nice gift to the University for the naming rights and it comes about because of his interest in doing the Drumstick. He was doing ice cream in a cone but he had difficulty because in the packaging process the cone was becoming too soggy before it was properly packaged and sent off to market, so he reached out to the food science folks and asked for help and they came up, in actually a very short time period, of adding chocolate on the inside of the cone, which wanted to be part of the product and it runs down into the bottom of the cone and protects the cone from becoming soggy and that’s how the Drumstick as we know it today was created and Mr. Parker did not pay for that research at the time but he did make a strong commitment later in appreciation for what he received at The Ohio State University. So a good example, Dr. Cloyd of what we can do on the development.

So we actually had the opportunity to go out on campus and visit a new facility and actually appreciate all the good things that are going on at Ohio State.

Mr. Wexner:

Any questions, comments? No orders for tomato juice or Drumsticks or anything on your menu this morning.

Dr. Frantz:

Eat a Drumstick, by the way we were allowed to do that, right Jack.

Mr. Fisher:

Yeah if you attend our meetings it is usually a good thing.
September 17, 2010 meeting, Board of Trustees

Mr. Wexner:

Thank you. We have a consent agenda, and I am going to ask President Gee to present it to the Board.

-0-

CONSENT AGENDA

President Gee:

Thank you very much Mr. Chairman. Today we have a total of 11 resolutions on the consent agenda; therefore we are seeking approval for the following:

RATIFICATION OF COMMITTEE APPOINTMENTS 2010-2011

Resolution No. 2011-01

Academic Affairs and Student Life Committee:
Algenon L. Marbely, Chair
Douglas G. Borror, Vice Chair
Brian K. Hicks
Linda S. Kass
Janet B. Reid
Clark C. Kellogg
Brandon N. Mitchell
G. Gilbert Cloyd (Charter Trustee)
Robert M. Duncan
David G. Horn (Faculty Member)
Leslie H. Wexner (ex officio)

Advancement Committee:
G. Gilbert Cloyd, Chair (Charter Trustee)
Linda S. Kass, Vice Chair
Douglas G. Borror
Brian K. Hicks
Clark C. Kellogg
Alexis L. Swain
John W. Kessler
Michael Clark (Alumni Assn Member)
Donald H. Schriver (Alumni Assn Member)
John B. Gerlach (Foundation Brd Member)
David T. Kollat (Foundation Brd Member)
Leslie H. Wexner (ex officio)

Agricultural Affairs Committee:
John C. Fisher, Chair
Robert Boggs, Vice Chair (ex officio)
William G. Jurgensen
Brandon N. Mitchell
Leslie H. Wexner (ex officio)

Audit and Compliance Committee:
Robert H. Schottenstein, Chair
John C. Fisher, Vice Chair

Ronald A. Ratner
Algenon L. Marbely
William G. Jurgensen
James Bachmann
James Gilmour
Leslie H. Wexner (ex officio)

Committee on Trusteeship:
Alex Shumate, Chair
Janet B. Reid, Vice Chair
John C. Fisher
Linda S. Kass
Alexis L. Swain
G. Gilbert Cloyd (Charter Trustee)
Leslie H. Wexner (ex officio)

Finance Committee:
Robert H. Schottenstein, Chair
Alan W. Brass, Vice Chair
Alex Shumate
Walden W. O'Dell
John C. Fisher
Ronald A. Ratner
William G. Jurgensen
Jeffrey Wadsworth
Alexis L. Swain
Jo Ann Davidson
Leslie H. Wexner (ex officio)

Medical Affairs Committee:
Alan W. Brass, Chair
Jeffrey Wadsworth, Vice Chair
Brian K. Hicks
Robert H. Schottenstein
Algenon L. Marbely
Janet B. Reid
Leslie H. Wexner (ex officio)

Physical Environment Committee:
Ronald A. Ratner, Chair
Douglas G. Borror, Vice Chair
Walden W. O'Dell
AMENDMENTS TO THE CLASSIFIED CIVIL SERVICE RULES
Resolution No. 2011-02

Synopsis: Amendments to Chapters 3335-49, 3335-51, 3335-55, 3335-67, 3335-73, 3335-81, 3335-83, and 3335-89 of the Ohio Administrative Code governing the University's Classified Civil Service related to procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at the Ohio state university and opting out of provisions of the Ohio Revised Code; reclassifications, certification; classification program; probationary periods; leave policies; reduction in force; payroll and compensation; and definitions of terms are proposed.

WHEREAS in accordance with Section 124.14(F) of the Ohio Revised Code, the Board of Trustees shall carry out all matters of governance involving the officers and employees of the University, including employees in the Classified Civil Service; and

WHEREAS Resolution 2008-47, adopted by the Board of Trustees in November 2007 authorizes the Office of Human Resources, as the University’s Appointing Authority relating to all matters of governance involving Classified Civil Service employees, in consultation with the Office of Legal Affairs, to make periodic recommendations to the Board regarding the enactment and revision of Classified Civil Service Rules; and

WHEREAS the most recent revision of the University's Classified Civil Service Rules was in February 2010, and the Office of Human Resources now has recommended a number of needed changes in these Rules with respect to reclassifications, certification; classification program; probationary periods; leave policies; reduction in force; and payroll and compensation of Classified Civil Service staff; and

WHEREAS these revisions in the Classified Civil Service Rules, as shown on the attached documents, will enable the University to streamline processes, enhance our efficiency and effectiveness, and provide more effective classification and compensation and general management of Classified Civil Service employees; and

WHEREAS the University has complied with Ohio Revised Code Section 111.15 in promulgating these amendments to the Classified Civil Service Rules, and the University additionally has provided reasonable notice to all affected University employees and interested groups and a period of time during which such employees or interested groups could submit comments about the proposed Classified Civil Service Rules:

NOW THEREFORE

BE IT RESOLVED that the Board of Trustees hereby adopts the attached amendments to the Classified Civil Service Rules, effective December 1, 2010.

(See Appendix II for background information, page 114.)

***

AMENDMENTS TO THE BYLAWS AND THE RULES AND REGULATIONS OF THE MEDICAL STAFF OF THE OHIO STATE UNIVERSITY HOSPITALS
Resolution No. 2011-03

Synopsis: The amendments to the Bylaws and the Rules and Regulations of the Medical Staff of The Ohio State University Hospitals are recommended for approval.
WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the Hospitals Board Bylaws is authorized to recommend to the Board of Trustees the adoption of amendments to the Bylaws of the Medical Staff of The Ohio State University Hospitals; and

WHEREAS these amendments were approved by the University Hospitals Board on August 26, 2010, and the Medical Center Board on September 15, 2010:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments are hereby adopted, effective immediately.

(See Appendix III for background information, page 140.)

***

REGIONAL CAMPUS BOARD APPOINTMENTS
Resolution No. 2011-04

Synopsis: Approval of appointments to The Ohio State University Marion Regional Campus Board is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that “the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;” nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named persons has been nominated and selected for appointment to the OSU Marion Regional Campus Board for the term specified:

Marion Regional Campus Board Appointments

Melissa Lester (student) – effective July 1, 2010, through June 30, 2011
Yusuf Farah (student – Delaware Center) – effective July 1, 2010, through June 30, 2011

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the OSU Marion Regional Campus Board.

***

RATIFICATION OF HONORARY DEGREE
Resolution No. 2011-05

WHEREAS pursuant to paragraph (B)(4) of rule 3335-1-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees the awarding of an honorary degree as listed below:

Michael B. Coleman Doctor of Public Service

NOW THEREFORE
September 17, 2010 meeting, Board of Trustees

BE IT RESOLVED, That the above honorary degree was awarded during summer commencement, August 29, 2010.

***

REVOCATION OF DEGREE Resolution No. 2011-06

Synopsis: Revocation of a Doctor of Philosophy degree is proposed.

WHEREAS a panel of the committee on academic misconduct constituted according to rule 3335-5-48.7 of the Administrative Code request that the Board of Trustees effectuate the revocation of the Doctor of Philosophy degree of Elisabeth Ann Nixon; and

WHEREAS the request was concurred with by the Executive Vice President and Provost and by the Dean of the Graduate School; and

WHEREAS the request was further concurred with by the Academic Affairs and Student Life Committee; and

WHEREAS the appropriate bodies and administrative officers of the University have fully complied with applicable procedures and, in accordance with those procedures:

NOW THEREFORE:

BE IT RESOLVED, That the Doctor of Philosophy degree of Elisabeth Ann Nixon, granted on December 6, 2006, pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, is hereby revoked immediately.

***

PERSONNEL ACTIONS Resolution No. 2011-07

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the June 18, 2010, meeting of the Board, including the following Appointments, Reappointments, Appointments/Reappointments of Chairpersons/Directors, Professional Improvement Leave, Professional Improvement Leave – Change in Dates, Professional Improvement Leave - Cancellations, Emeritus Titles, promotion, tenure and reappointments off cycle appointments and corrections be approved.

Appointments
Name: SANDRA J. ANDERSON
Title: Deputy General Counsel and Associate Vice President
Office: Legal Affairs
Term: August 16, 2010

Name: JAMES A. COWAN
Title: Professor (The M.S. Newman Professorship)
Department: Chemistry
Term: July 1, 2010, through June 30, 2015

Name: TERRY D. FOEGLER
Title: Associate Vice President for Physical Planning and Real Estate
Office: Administration and Planning
Term: September 13, 2010, through September 30, 2013
Name: BRENDAN P. FOLEY
Title: Vice President for Financial Planning and Analysis
Office: Business and Finance
Term: October 1, 2010, through June 30, 2013

Name: DATTA V. GAITONDE
Title: Professor (John Glenn Chair for Technology and Space Exploration)
        Ohio Research Scholar in Advanced Propulsion Systems Integration
Department: Aerospace Engineering
Term: September 7, 2010, through June 30, 2015

Name: ROBERT S.D. HIGGINS
Title: Director
Center: Comprehensive Transplant Center
Title: Professor, (The John H. and Mildred C. Lumley Chair in Medicine)
College: Medicine
Term: July 1, 2010, through June 30, 2015

Name: MARK B. LANDON
Title: Professor (Richard L. Meiling Chair of Obstetrics and Gynecology)
College: Medicine
Title: Chair, Department of Obstetrics and Gynecology
Term: July 1, 2010, through June 30, 2014

Name: WILLIAM L. MACDONALD
Title: Executive Dean, Regional Campuses
Office: Academic Affairs
Term: July 1, 2010, through June 30, 2014

Name: BRIAN E. ROE
Title: Professor (The Francis B. McCormick Professorship in Agricultural Marketing and Policy)
Department: Agricultural, Environmental, and Developmental Economics
Term: October 1, 2010, through September 30, 2015

Name: RADU V. SAVEANU
Title: Chief Executive Officer
Hospital: OSU Harding Hospital
Effective: July 1, 2010

Name: RONALD M. SEGA
Title: Vice President and Enterprise Executive for Energy and the Environments
Office: Research
Term: September 1, 2010, through August 31, 2013

Reappointments

Name: JOHN C. BYRD
Title: Professor (The D. Warren Brown Designated Professorship in Leukemia Research)
College: Medicine
Term: July 1, 2010, through June 30, 2014
### September 17, 2010 meeting, Board of Trustees

### Appointments/Reappointments of Chairpersons/Directors

- **ROBERT R. BAHNSON**, Chair, Department of Urology, effective July 1, 2010, through June 30, 2014.
- **LUIS G. CASIAN**, Chair, Department of Mathematics, effective October 1, 2010, through August 30, 2014.
- **MARK P. FOSTER**, Interim Chair, Department of Biochemistry, effective October 1, 2010, through September 30, 2011.
- **DAVID B. GREENBERGER**, Chair, Department of Management and Human Resources, effective October 1, 2010, through September 30, 2014.
- **TIMOTHY C. HAAB**, Chair Department of Agricultural, Environmental and Development Economics, effective October 1, 2010, through June 30, 2014.
- **ANITA K. HOPPER**, Chair, Department of Molecular Genetics, effective October 1, 2010, through August 30, 2014.
- **ANITA K. HOPPER**, Interim Chair, Department of Plant Cellular and Molecular Biology, effective October 1, 2010, through September 30, 2011.

32
September 17, 2010 meeting, Board of Trustees

REBECCA M. KANTOR-MARTIN,* Director, School of Teaching and Learning, effective July 1, 2010, through June 30, 2014.

DEBORAH S. LARSEN,* Director, School of Allied Medical Professions, effective July 1, 2010, through June 30, 2014.

MICHAEL E. MANGINO, Interim Chair, Department of Food Science and Technology, effective July 1, 2010, through June 30, 2011.

CAROLYN J. MERRY,* Chair, Department of Civil and Environmental Engineering and Geodetic Science, effective July 1, 2010, through June 30, 2012.

RUSTIN M. MOORE,* Chair, Department of Veterinary Clinical Sciences, effective November 1, 2010, through June 30, 2014.

W. JERRY MYSIW,* Chair, Department of Physical Medicine and Rehabilitation, effective July 1, 2010, through June 30, 2011.

MICHAEL C. OSTROWSKI,* Chair, Department of Molecular and Cellular Biochemistry, effective July 1, 2010, through June 30, 2014.

PHILIP PAYNE, Chair, Department of Biomedical Informatics, effective August 1, 2010, through July 31, 2014.

WILLIAM M. RANDLE,* Chair, Department of Horticulture and Crop Science, effective July 1, 2010, through June 30, 2014.

RADU SAVEANU,* Chair, Department of Psychiatry, effective July 1, 2010, through December 31, 2010.

JULIANNE M. SEROVICH,* Chair, Department of Human Development and Family Science, effective July 1, 2010, through June 30, 2014.

NAWAL K. TENEJA,* Chair, Department of Aviation, effective July 1, 2010, through September 30, 2010.

JOE E. WHEATON, Interim Director, School of Physical Activity and Educational Services, effective July 1, 2010, through December 31, 2010.

RICHARD D. WHITE, Chair, Department of Radiology, effective July 1, 2010, through June 30, 2014.

*Reappointment

Leaves of Absence without Salary

AKOS SERESS, Professor, Department of Mathematics, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011, to fulfill an Australian Professional Fellowship by the Australian Research Council.

JOHN C. PERSONS, Associate Professor, Department of Finance, effective Autumn Quarter 2010, Winter, Spring and Summer 2011, for personal reasons.

ASHLEY E. SCHAFER, Associate Professor, Knowlton School of Architecture, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011, to be a visiting Associate Professor in the Department of Architecture at the Massachusetts Institute of Technology.
September 17, 2010 meeting, Board of Trustees

INDIRA L. CHATTERJI, Assistant Professor, Department of Mathematics, effective Autumn Quarter 2010, for personal reasons.

Professional Improvement Leave

SARAH T. BOYSEN, Professor, Department of Psychology, effective Winter and Spring Quarter 2011.

Professional Improvement Leave – Change in Dates

DAVID B. MIN, Professor, Department of Food Science and Technology, from January 1, 2010, through August 31, 2010 to January 1, 2010, through June 30, 2010.

Professional Improvement Leave – Cancellations

JOHN C. PERSONS, Associate Professor, Department of Finance, effective Autumn Quarter 2010, Winter Quarter, Spring Quarter and Summer Quarter 2011.

ZUCAI SUO, Associate Professor, Department of Biochemistry, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

Emeritus Titles

ING-MING CHIU, Department of Internal Medicine with the title Professor Emeritus, effective October 1, 2010.

JOHN R. CURRENT, Department of Management Sciences with the title Professor Emeritus, effective September 1, 2010.

DENNIS A. GUENTHER, Department of Mechanical and Aerospace Engineering with the title Professor Emeritus, effective July 1, 2010.

TA-YUNG LING, Department of Physics with the title Professor Emeritus, effective September 1, 2010.

ALAN J. RANDALL, Department of Agricultural, Environmental, and Development Economics with the title Professor Emeritus, effective October 1, 2010.

DORU M. STEFANESCU, Department of Materials Science and Engineering with the title Research Professor Emeritus, effective September 1, 2010.

NAWAL K. TANEJA, Department of Aviation with the title Professor Emeritus, effective October 1, 2010.

MOHAN K. WALI, School of Environment and Natural Resources with the title Professor Emeritus, effective October 1, 2010.

JOSEPH H. HARITONIDIS, Department of Mechanical and Aerospace Engineering with the title Associate Professor Emeritus, effective August 1, 2010.

LINDA L. HARLOW, Department of French and Italian with the title Associate Professor Emeritus, effective August 1, 2010.

SCOTT D. JEWEL, Department of Pathology with the title Research Associate Professor Emeritus, effective July 1, 2010.

LYNN G. JOHNSON, School of Teaching and Learning, (Mansfield) with the title Associate Professor Emeritus, effective July 1, 2010.
September 17, 2010 meeting, Board of Trustees

MELANIE S. KENNEDY, Department of Pathology with the title Clinical Associate Professor Emeritus, effective July 1, 2010.

LARRY G. STEWARD, Agricultural Technical Institute (Wooster) with the title Associate Professor Emeritus, effective September 1, 2010.

RESOLUTIONS IN MEMORIAM

Resolution No. 2011-08

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Austin E. Showman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 6, 2010, of Austin E. Showman, Professor Emeritus in the Ohio State University Extension.

Mr. Showman was born in 1917 in Liberty Center, Ohio. He received his Bachelor of Arts degree in 1939 from Fenn College, and his Master of Arts degree in journalism from The Ohio State University in 1964.

Austin began his Extension career in Ohio in 1955 as the assistant agricultural editor. Six years later, he became an associate editor for Written Communications. He was named the agricultural editor in June of 1967, and held this position until his retirement in 1978.

During his Extension career he directed the activities of personnel assigned to the Office of Information and Educational Aids as well as the Public Information Office of the Ohio Agricultural Research and Development Center. He served as the faculty advisor of the Agricultural Student, a student magazine of the College of Agriculture and Home Economics. Mr. Showman developed a writing manual for county Extension
agents and other leaders in agriculture. It was used also as text for a factual writing course in The Ohio State University’s School of Journalism where he also taught and gave guest lectures. His extensive writing was published in many newspapers, journals, and magazines throughout Ohio as well as the United States. He continually worked with staff relating to publications, radio and television programs, news releases, and visual aids to have the best possible equipment and programming efforts possible for Extension. He served and gave leadership on many state and national committees.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Austin E. Showman its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

George R. Wilson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 30, 2010, of George R. Wilson, Professor Emeritus in the Department of Animal Sciences.

Professor Wilson received his Bachelor of Science in Agriculture (1948), Master of Science (1956), and Doctor of Philosophy (1963) degrees from The Ohio State University, where he became a full professor in 1973. His research focused on the genetic variation in the maintenance requirement and the relationships among live animal and carcass measures in beef cattle.

He especially enjoyed teaching students and was an advisor to the Saddle and Sirloin and 4-H clubs. He received the Alfred J. Wright Award, the Saddle and Sirloin Club dedication award, and the Towers Faculty Award for outstanding contribution to student organizations. He also was an honorary member of the Ohio Junior Angus Association and the Buckeye Junior Polled Hereford Association.

Dr. Wilson served on the Board of Directors of the Ohio Angus Association, Buckeye Polled Hereford Association, Ohio Shorthorn Association, and the Ohio Purebred Beef Improvement Association. He was a leader in the Ohio beef cattle industry, serving as a superintendent of the beef cattle at the Ohio State Fair for over 20 years.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus George R. Wilson its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT
Resolution No. 2011-09

Synopsis: The University Development Report as of June 30, 2010, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and
WHEREAS this report includes the establishment of The Julius Skestos and Diana Skestos Chair in Urology, The Dale A. Seiberling Professorship in Food Engineering, and The Vernon L. Tharp Professorship in Food Animal Medicine; the establishment of twenty-eight (28) new named endowed funds; and the revision of ten (10) named endowed funds.

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation as of June 30, 2010, be approved.

(See Appendix IV for background information, page 142.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Name and Description of Named Endowed Funds

From:   The Lena Charles Bailey Breast Cancer Research Endowment Fund

From:   Atlanta Alumni Scholars Fund
To:     William P. Gue/Atlanta Alumni Club Scholarship Fund

THE OHIO STATE UNIVERSITY FOUNDATION

Total Gifts

Establishment of Named Endowed Chair

The Julius Skestos and Diana Skestos Chair in Urology $2,000,000.00
Established with gifts from George A. Skestos and OSU Urology, LLC and with support from the College of Medicine; used for an endowed chair position in the Department of Urology.

Establishment of Named Endowed Professorships

The Dale A. Seiberling Professorship in Food Engineering $953,488.32
Established with gifts from Dale A. Seiberling and Jean F. Seiberling of Fremont, Indiana; used to support a professor specializing in food engineering with preference given to dairy engineering. (grandfathered)

The Vernon L. Tharp Professorship in Food Animal Medicine $757,000.00
Established with gifts given in memory of Dr. Vernon L Tharp from his wife Grace Tharp, family, and friends including Dr. Robert Dunton; used to support a professorship in food animal medicine within the Department of Veterinary Clinical Sciences. (grandfathered)

Establishment of Named Endowed Funds

Joe R. Engle Chair Fund in the History of Christianity $1,420,199.61
Established with an estate gift from Joe R. Engle; will be used following endowment to recruit and/or retain a distinguished scholar for a chair position in the Division of Arts and Humanities focused on the history of Christianity.
The Captain Forrest R. Biard Undergraduate Research Scholarship Fund in Physics
Established with an estate gift from Captain Forrest R. Biard; used to provide undergraduate research scholarships to students enrolled in the College of Arts and Sciences, Division of Natural and Mathematical Sciences, majoring in physics.

$393,363.11

The R. Jack and Forest Lynn Biard Lecture Series in Astro-Particle Physics Fund
Established with an estate gift from Captain Forrest R. Biard; used to support a lecture series, preferably for a world-class physicist or astrophysicist, in the Department of Physics.

$371,598.56

The Dr. John R. and Margaret M. Thomas Family Athletic Scholarship Fund
Established with gifts from Wanna Go Back, LLC; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete.

$112,000.00

Ohio Union Art Endowment Fund
Established with gifts from an anonymous donor; used to acquire and support artwork for the Ohio Union for the life of the building.

$100,000.00

The Mary Jo Welker, MD and Lloyd M. Welker Endowment Fund
Established with gifts from Dr. Mary Jo Welker and Mr. Lloyd M. Welker; used to support activities of the chairperson in the Department of Family Medicine.

$70,000.00

The James R. and Melissa S. Allen Graduate Scholarship Fund
Established with gifts from James R. Allen and Melissa A. Allen; used to provide scholarships to recruit and retain students enrolled in the graduate program of the Fisher College of Business.

$60,000.00

The James R. and Melissa S. Allen Program of Excellence Fund
Established with gifts from James R. Allen and Melissa A. Allen; used to support the greatest need of the Department of Athletics.

$60,000.00

The Donald E. and Ann E. Fender Endowment Fund for Real Estate Education
Established with gifts from Donald E. and Ann E. Fender; used to provide scholarships and ongoing program development in the Real Estate Center in the Fisher College of Business.

$60,000.00

The Jerry F. Nichols Athletic Scholarship Fund
Established with gifts from Jerry F. Nichols; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate accounting degree.

$60,000.00

Robert A. and Kathryn L. Locke Scholarship Fund
Established with gifts from Robert A. Locke; used to provide scholarships to students enrolled in the College of Nursing who are studying geriatric nursing.

$55,000.00

The Judy and Neil Stemley Scholarship Fund
Established with gifts from Brian J. Stemley to recognize his parents, Judy and Neil Stemley; used (after July 1, 2011) to equally support scholarships for students in Food Business Management or Food Sciences and Technology in the College of
September 17, 2010 meeting, Board of Trustees

Food, Agricultural, and Environmental Sciences and students in Special Education in the School of Physical Activity and Educational Services.

Trella Hemmerly Romine/Howard W. Howser Endowed Scholarship Fund $50,310.00
Established with gifts from Trella H. Romine; used to provide scholarships to incoming undergraduate students at The Ohio State University at Marion.

The Tom and Sue Benua Family Endowment Fund $50,000.00
Established with gifts from Thomas R., Susan J., Brad, Tabitha, Greg, and Christen Benua; used to supplement the operating budget of the men's basketball program.

The Barbara Rose Bostic Endowed Scholarship Fund in Physical Therapy $50,000.00
Established with gifts from Helen E. Duffy and friends in honor and memory of Barbara Rose Bostic; used to provide scholarships for graduate students enrolled in the Division of Physical Therapy in the School of Allied Medical Professions.

The John L. Glebe and Anna Skrzynski Glebe Family Endowment Fund $50,000.00
Established with a gift made in memory of John L. Glebe and Anna Skrzynski from their loving children, David Curtis Glebe, Thomas J. Glebe, and Patricia Anne Glebe; used to support medical research on Alzheimer's Disease in the Department of Neurology.

The Michael S. Johnson Graduate Student Assistance Fund $50,000.00
Established with gifts from Michael S. Johnson; used to provide support for graduate students in the School of Earth Sciences.

The Stephen D. and Anne O. Milligan Accounting Education Innovation Fund $50,000.00
Established with gifts from Stephen D. Milligan and Anne O. Milligan; used to support projects/activities of undergraduate accounting students.

The Maurice "Mo" Mullet M.D. Fund for MD/MPH Student Scholarship in Medicine $50,000.00
Established with gifts from Dr. Maurice E. Mullet; used to provide scholarships for medical students matriculating into the MD/MPH combined degree program in the College of Medicine.

The Occupational Therapy Alumni Scholarship Fund $50,000.00
Established with gifts from alumni and friends of the Division of Occupational Therapy; used to provide scholarships for graduate students in the Division of Occupational.

The Bryan and Judith Roub Endowed Scholarship Fund $50,000.00
Established with gifts from Bryan Roub and Judith Roub; used to provide undergraduate scholarships for students enrolled in the Fisher College of Business.
September 17, 2010 meeting, Board of Trustees

The Donald and Patricia Meyer Fund for Research in Psychobiology
Established with gifts from Professors Emeritus Donald Meyer and Dr. Patricia Meyer and colleagues, friends, and family; used to enhance the psychobiology program. (grandfathered) $30,018.00

Buckalew Family Scholarship Fund
Established with gifts from B. Stevens Buckalew and Sharman Hasbrouck Buckalew; used to provide undergraduate scholarships to students in the College of Food, Agricultural, and Environmental Sciences. (grandfathered) $30,000.00

The Calabro Family Dean’s Innovation Fund
Established with gifts from Thomas and Joanne Calabro; used for emerging priorities in the Fisher College of Business. (grandfathered) $26,617.00

The Burton and Lois Rubens Parkinson’s Disease Research Fund
Established with gifts from Burton and Lois Rubens in honor of George Paulson, their physician and friend; used to support basic, clinical, genetic, and epidemiological research towards finding a cause, innovative treatments, and cure of Parkinson’s disease. (grandfathered) $26,525.00

The Sneed Foundation Football Scholarship Fund
Established with gifts from the Richard B. Sneed Foundation; used to supplement the grant-in-aid scholarship budget of the varsity football team. (grandfathered) $26,500.00

The Leigh E. Briggs Education Scholarship Fund
Established with gifts from Leigh E. Briggs, family, and friends; used to provide scholarships to students enrolled in the College of Education and Human. (grandfathered) $26,213.87

The Public Mental Health Psychiatry Leadership Endowment Fund
Established with lead gifts from Dr. David L. Cutler and additional gifts from alumni, faculty and staff, grateful patients, and friends of OSU Medical Center behavioral health programs; used to advance leadership, training, and advocacy activities in the Department of Psychiatry or in the OSU Harding Hospital. (grandfathered) $25,465.00

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Name and Description of Named Endowed Funds

The Lena Charles Bailey Breast Cancer Research Endowment Fund was established May 4, 2001, by the Board of Trustees of The Ohio State University with a gift from George Bailey of Columbus, Ohio. The name and description were revised September 17, 2010.

The annual distribution from this fund shall be used exclusively to support breast cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) at The Ohio State University. Allocation of distribution shall be made at the recommendation of the chief executive officer of The James and director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences.

If the funding reaches the level of $250,000, the distribution shall be used for a one-year or two-year post-doctoral fellowship in the College of Medicine to support research training and medical research in the field of breast cancer. Selection shall be made upon recommendation from the chief executive officer of The James and director of the CCC, dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief executive officer and director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor (or his representative) and as recommended by the chief executive officer of The James and director of the CCC in consultation with the senior vice president for Health Sciences.

William P. Gue/Atlanta Alumni Club Scholarship Fund

The Atlanta Alumni Scholars Fund was established November 7, 1997, by the Board of Trustees of The Ohio State University with gifts from members and friends of The Ohio
September 17, 2010 meeting, Board of Trustees

State University Alumni Club of Atlanta. The name and description were revised September 17, 2010.

The annual distribution from this fund shall be used to provide academic merit scholarships to students graduating from Atlanta area high schools with preference for students qualified under the Alumni Scholars Program criteria, ranked, and recommended by the Atlanta Alumni Club. Scholarship recipients shall be selected by the director with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the Atlanta Alumni Club, should the club exist, and the director of Student Financial Aid.

Establishment of Named Endowed Chair

The Julius Skestos and Diana Skestos Chair in Urology

The Julius Skestos and Diana Skestos Chair in Urology was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George A. Skestos and OSU Urology, LLC., and with support from the College of Medicine.

The annual distribution from this fund shall be used for an endowed chair position in the Department of Urology in support of a nationally recognized urologist faculty member undertaking clinical, educational, and research activities in the field of urology. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Urology and approved by the dean of the College of Medicine and the senior vice president for Health Sciences. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment or reinvested in the endowment principal at the discretion of the chairperson of the Department of Urology or dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.
September 17, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, and as recommended by the chairperson of the Department of Urology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Chair: $2,000,000.00

Establishment of Named Endowed Professorships

The Dale A. Seiberling Professorship in Food Engineering

The Dale A. Seiberling Excellence in Dairy and Food Engineering Program Fund was established May 4, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dale A. Seiberling (B.S. Dairy Tech. 1950, M.S. Dairy Tech. 1951) and Jean F. Seiberling (B.S.Ed. 1949) of Fremont, Indiana. The name and description were revised on September 17, 2010.

The annual distribution from this fund shall be used to support a professorship specializing in food engineering with preference given to dairy engineering in the Department of Food Science and Technology in partnership with the Department of Food, Agricultural, and Biological Engineering, within the College of Food, Agricultural, and Environmental Sciences. The use of these funds may include, but is not limited to, salary support for the professor, graduate student support, research projects, and special programs that promote dairy and food engineering. Appointment to the professorship for each five-year term will be recommended by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, in consultation with the chairperson of the Department of Food Science and Technology and the chairperson of the Department of Food, Agricultural and Biological Engineering to the executive vice president and provost and submitted to the Board of Trustees for their approval. The professorship holder may be reappointed to another term following favorable assessment of his/her academic and research performance, and accomplishments.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Food Science and Technology and the chairperson of the Department of Food, Agricultural and Biological Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of
The Vernon L. Tharp Professorship in Food Animal Medicine

The Vernon L. Tharp Professorship Fund in Food Animal Medicine was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts given in memory of Dr. Vernon L. Tharp (D.V.M. 1940) from his wife Grace Tharp, family, and friends, including Dr. Robert Dunton (D.V.M. 1955). The required funding level has been reached and the professorship was established September 17, 2010.

The annual distribution from this fund will be used to support a professorship in food animal medicine within the College of Veterinary Medicine’s Department of Veterinary Clinical Sciences. The holder of the professorship will be recommended by the dean of the College of Veterinary Medicine and appointed by the Board of Trustees of The Ohio State University.

If in the future the endowment principal should reach the funding level required for a chair position, the endowment will be revised for this purpose.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Veterinary Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Grace Tharp and Dr. Dunton, should they be alive, and from the dean of the College of Veterinary Medicine.

Amount Establishing Professorship: $757,000.00

Establishment of Named Endowed Funds

Joe R. Engle Chair Fund in the History of Christianity

The Joe R. Engle Chair Fund in the History of Christianity was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Joe R. Engle (B.I.E. 1943).
Until the principal balance reaches $1,500,000, the annual distribution from this fund shall be reinvested into the principal. After the principal balance reaches $1,500,000, the annual distribution shall be used to recruit and/or retain a distinguished scholar for a chair position in the College of Arts and Humanities focused on the history of Christianity. Appointment of the recruited or retained candidate will be recommended by the chairperson in the Department of History in consultation with the executive dean of the College of Arts and Sciences to the executive vice president and provost and approved by the Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences in consultation with chairperson of the Department of History.

Amount Establishing Endowment: $1,420,199.61
Amount Needed to Establish Chair: $1,500,000.00 (grandfathered)

The Captain Forrest R. Biard Undergraduate Research Scholarship Fund in Physics

The Captain Forrest R. Biard Undergraduate Research Scholarship Fund in Physics was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Captain Forrest R. Biard (M.S. 1953) of Dallas, Texas.

The annual distribution from this fund shall provide an undergraduate research scholarship(s) to a student(s) enrolled in the College of Arts and Sciences, Division of Natural and Mathematical Sciences, majoring in physics. Scholarship recipients shall be recommended by the chairperson of the Department of Physics and selected by the divisional dean of Natural and Mathematical Sciences in the College of Arts and Sciences in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the divisional dean of Natural and Mathematical Sciences in the College of Arts and Sciences.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the divisional dean of Natural and Mathematical Sciences in the College of Arts and Sciences.

Amount Establishing Endowment: $392,751.58

**The R. Jack and Forest Lynn Biard Lecture Series in Astro-Particle Physics Fund**

The R. Jack and Forest Lynn Biard Lecture Series in Astro-Particle Physics Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Captain Forrest R. Biard (M.S. 1953) of Dallas, Texas, in memory of his parents.

The annual distribution from this fund shall be used to support a lecture series in the Department of Physics in the College of Arts and Sciences, Division of Natural and Mathematical Sciences. It is the donor’s intention that the lecturer be a world-class physicist or astrophysicist. The series shall have a component for students and faculty, as well as the general public in an effort to increase the public’s awareness of issues and current events in physics. The choice of presenter(s) is to be made by the chairperson of the Department of Physics.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the divisional dean of Natural and Mathematical Sciences in the College of Arts and Sciences in consultation with the chairperson of the Department of Physics.

Amount Establishing Endowment: $371,021.08

**The Dr. John R. and Margaret M. Thomas Family Athletic Scholarship Fund**

The Dr. John R. and Margaret M. Thomas Family Athletic Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Wanna Go Back, LLC of Fort Wayne, Indiana.
September 17, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree. Preference will be given first to a scholar athlete, second to a member of the baseball team, and third to someone pursuing a career in medicine. Scholarship recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Dr. John. (B.S. 1961, M.D. 1965) and Margaret (B.F.A. 1965) Thomas, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: $112,000.00
Total Commitment: $150,000.00

Ohio Union Art Endowment Fund

The Ohio Union Art Endowment Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor.

The annual distribution from this fund shall be used to acquire and support artwork for the Ohio Union for the life of the building as approved by the Union’s director. Through changing times, leadership, and financial situations, this fund shall allow for the continuous acquisition of art, especially from Ohio artists, with special consideration given to Ohio State students, faculty, staff, and alumni. This fund may also be used to bring in collections on a rotating basis.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Ohio Union.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustee.
September 17, 2010 meeting, Board of Trustees

Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the director of the Ohio Union.

Amount Establishing Endowment: $100,000.00

The Mary Jo Welker, MD and Lloyd M. Welker Endowment Fund

The Mary Jo Welker, MD and Lloyd M. Welker Endowment Fund was established September 17, 2010 by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Mary Jo Welker (B.A. 1972, M.D. 1976) and Mr. Lloyd M. Welker (B.S.C.E. 1976).

The annual distribution from this fund shall be used to support activities of the chairperson of the Department of Family Medicine. While the donor holds the chairperson position, expenditures shall be approved by the dean of the College of Medicine.

If the chairperson position in the Department of Family Medicine ceases to exist, the annual distribution shall provide support for the Department of Family Medicine at the discretion of the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Medicine.

Amount Establishing Endowment: $70,000.00

The James R. and Melissa S. Allen Graduate Scholarship Fund

The James R. and Melissa S. Allen Graduate Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from James R. Allen (M.B.A. 1981) and Melissa A. Allen of Louisville, Kentucky.

The annual distribution from this fund shall be used for scholarships to recruit and retain student(s) who are enrolled in the graduate program of The Max M. Fisher College of Business. Recipients shall be selected by the director of the graduate program office in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $60,000.00
Total Commitment: $100,000.00

The James R. and Melissa S. Allen Program of Excellence Fund

The James R. and Melissa S. Allen Program of Excellence Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from James R. Allen (M.B.A. 1981) and Melissa A. Allen of Louisville, Kentucky.

The annual distribution from this fund shall be used to support the greatest need of the Department of Athletics as determined by the director of Athletics.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: $60,000.00
Total Commitment: $100,000.00

The Donald E. and Ann E. Fender Endowment Fund for Real Estate Education

The Donald E. and Ann E. Fender Endowment Fund for Real Estate Education was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Donald E. (B.S.Bus.Adm. 1960, M.B.A. 1963) and Ann E. (B.S. 1963) Fender.
The annual distribution from this endowed fund shall be used at the discretion of the director of the Real Estate Center in The Max M. Fisher College of Business for scholarships and ongoing program development. Such uses will include curriculum development to enhance the number and types of real estate courses offered to both graduate and undergraduate students. Cross-campus collaboration with other colleges and departments, such as law, construction management, urban planning, etc. will enable students from a broad number of educational disciplines to work together to solve real world problems. Additionally, funds can be used to bring industry experts into the classroom to discuss relevant topics and expand students’ professional networks as well as enable the Center to offer community outreach programs, in which leaders from academia and executives from business come together to discuss critical issues facing the industry. Scholarship recipients shall be selected by the dean of the Fisher College of Business in consultation with the director of the Center for Real Estate Education and Research with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business in consultation with the director of the Center for Real Estate Education and Research.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business in consultation with the director of the Center for Real Estate Education and Research.

Amount Establishing Endowment: $60,000.00

The Jerry F. Nichols Athletic Scholarship Fund

The Jerry F. Nichols Athletic Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Jerry F. Nichols (B.S.Bus.Adm. 1965) of Naples, Florida.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete pursuing an undergraduate accounting degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid and, if needed, The Max M. Fisher College of Business. In the future, the donor may request that the endowment description be revised to include students not participating in athletics.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
September 17, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of Athletics.

Amount Establishing Endowment: $60,000.00

**Robert A. and Kathryn L. Locke Scholarship Fund**

The Robert A. and Kathryn L. Locke Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert A. Locke.

The annual distribution from this fund shall be used to provide a scholarship(s) to student(s) enrolled in the College of Nursing who are studying geriatric nursing. Scholarship recipients shall be selected by the dean of the College of Nursing in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of Athletics.

Amount Establishing Endowment: $55,000.00

Total Commitment: $100,000.00

**The Judy and Neil Stemley Scholarship Fund**

The Judy and Neil Stemley Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of the Ohio State University Foundation with gifts from Brian J. Stemley (B.S. Food Tech. 1990) to recognize his parents, Judy and Neil Stemley.
The distribution shall be reinvested in the endowment principal until July 1, 2011. Thereafter, the annual distribution shall be divided equally between the College of Food, Agricultural, and Environmental Sciences and the College of Education and Human Ecology. The distribution shall equally support scholarships for undergraduate or graduate students majoring in food business management or food science and technology in the College of Food, Agricultural, and Environmental Sciences, and students majoring in special education in the School of Physical Activity and Educational Services. Recipients shall be selected by the scholarship selection committees of the two colleges in consultation with the University's Office of Student Financial Aid.

Successful candidates will have demonstrated leadership and the potential to make a positive impact in their field. Preference will be given to members of the Alpha Gamma Rho fraternity, Ansonia, Ohio, high school graduates, and St. Henry, Ohio, high school graduates.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Should the need for these funds cease to exist or diminish in either of these programs or departments, then 100% of the annual distribution shall be directed to the other department or program.

In any given year that the endowment distribution is not fully expended, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, the vice president for Agricultural Administration and executive dean for the College of Food, Agricultural, and Environmental Sciences, and the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $50,856.81

Trella Hemmerly Romine/Howard W. Howser Endowed Scholarship Fund

The Trella Hemmerly Romine/Howard W. Howser Endowed Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Trella H. Romine.

The annual distribution from this fund shall provide scholarships to incoming undergraduate students at The Ohio State University at Marion who have maintained a minimum 2.7 grade point average during their senior year of high school, with preference given to candidates majoring in or planning to major in sciences including biology, botany and geology. Scholarship recipients may apply to renew their scholarships provided they maintain a minimum 2.7 cumulative grade point average. Scholarships may follow awardees to any other Ohio State campus or program at the discretion of the Ohio State Marion admissions and financial aid staff. Scholarship
September 17, 2010 meeting, Board of Trustees

Recipients shall be selected by the Ohio State Marion admissions and financial aid staff in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of Ohio State Marion.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean and director of Ohio State Marion.

Amount Establishing Endowment: $50,310.00

The Tom and Sue Benua Family Endowment Fund

The Tom and Sue Benua Family Endowment Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Thomas R., Susan J., Brad, Tabitha, Greg, and Christen Benua Jr. of Naples, Florida.

The annual distribution shall be used to supplement the operating budget of the men’s basketball program at The Ohio State University.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: $50,000.00

The Barbara Rose Bostic Endowed Scholarship Fund in Physical Therapy

The Barbara Rose Bostic Endowed Scholarship Fund in Physical Therapy was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Helen E. Duffy (B.S.Nurs. 1967) and friends in honor and memory of Barbara Rose Bostic (B.S.Phys.Ther. 1961).
The annual distribution from this fund shall be used to support scholarships for second- and third-year graduate students enrolled in the Division of Physical Therapy in the School of Allied Medical Professions. Selection of the recipients shall be made based on academic merit with preference for candidates who exemplify dedication to excellence in patient care and advancing the practice of physical therapy who are seeking careers in adult acute care or adult rehabilitation. Scholarship recipients will be selected at the recommendation of the director of the Division of Physical Therapy and as approved by the director of the School of Allied Medical Professions in consultation with the University’s Office of Student Financial Aid, the dean of the College of Medicine, and the College’s Student Financial Services.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the School of Allied Medical Professions in consultation with the director of the Division of Physical Therapy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Endowment: $50,000.00

The John L. Glebe and Anna Skrzynski Glebe Family Endowment Fund

The John L. Glebe and Anna Skrzynski Glebe Family Endowment Fund was established on September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an initial donation made in the memories of John L. Glebe and Anna Skrzynski Glebe from their loving children, David Curtis Glebe (M.A. 1979, Ph.D. 1983), Thomas J. Glebe, and Patricia Anne Glebe.

Born in Pittsburgh, Pennsylvania, in 1921, Anna Skrzynski Glebe died of complications from Alzheimer's disease in 2009, in Philadelphia, Pennsylvania. During her long life, Anna touched many people with her own special gentleness, kindness, and generosity. She never had the desire to accumulate possessions but, instead, took pleasure in giving what little she had to others. In this way, Anna endowed and enriched her family and friends with a legacy of enduring value. Anna's husband, John L. "Jack" Glebe, was born in Pittsburgh, Pennsylvania, in 1923. The couple was married in 1947, and together raised their three children: David, Thomas, and Patricia. (Their first-born child, John Kenneth Glebe, died unexpectedly at birth, on December 28, 1950.) Jack died of heart disease in 1967, which he initially developed during World War II as a member of the United States Navy. Having enlisted at the age of 19, Jack was honorably discharged in late 1945, after serving with distinction on several United States naval vessels assigned to the South Pacific theatre, including the U.S.S. Massachusetts.
September 17, 2010 meeting, Board of Trustees

Jack's steadfast devotion to Anna and his children, and all of the sacrifices that he made, both for his family and for his country, will always be remembered.

Although Jack and Anna never experienced financial prosperity, and in fact often struggled to make ends meet, their unwavering and unselfish love has made their children wealthy beyond material measure. It is therefore in honor of their parents, Jack and Anna, and with the same spirit of selflessness which they so gracefully taught, that their children proudly create and dedicate this perpetual research fund.

The annual distribution from this fund shall support medical research on Alzheimer's disease in the Department of Neurology to help eradicate the disease and/or improve treatments and patient outcomes. Support may be used for, but not limited to: research supplies, equipment, personnel, lab space; fellowship awards; cost of travel to, and fees for, educational conferences or other training opportunities and other activities required for high quality medical research. Allocation and approval of distribution shall be made by the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and as recommended by the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,000.00

The Michael S. Johnson Graduate Student Assistance Fund

The Michael S. Johnson Graduate Student Assistance Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Michael S. Johnson.

The annual distribution from this fund shall provide support for graduate students in the School of Earth Sciences who are well-rounded and outstanding academically. Recipients shall be selected by the faculty of the School and approved by the School’s director.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in
subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the School of Earth Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, or his designee, and from the director of the School of Earth Sciences.

Amount Establishing Endowment: $50,000.00

The Stephen D. and Anne O. Milligan Accounting Education Innovation Fund

The Stephen D. and Anne O. Milligan Accounting Education Innovation Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Stephen D. Milligan (B.S.Bus.Adm. 1985) and Anne O. Milligan of Los Gatos, California.

The annual distribution from this fund shall be used by the chairperson of the Department of Accounting and Management Information Systems at The Max M. Fisher College of Business to support projects/activities of an undergraduate accounting student(s). Preference will be given to students involved in international/technology oriented projects and activities.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business in consultation with the chairperson of the Department of Accounting and Management Information Systems.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the Fisher College of Business in consultation with the chairperson of the Department of Accounting and Management Information Systems.

Amount Establishing Endowment: $50,000.00
The Maurice “Mo” Mullet M.D. Fund for MD/MPH Student Scholarship in Medicine

The Maurice “Mo” Mullet M.D. Fund for MD/MPH Student Scholarship in Medicine was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Maurice E. Mullet (M.D. 1963) of Berlin, Ohio.

The annual distribution from this fund shall provide scholarships awarded annually to one or more medical students matriculating into the MD/MPH combined degree program in the College of Medicine. This scholarship should be awarded prior to the fall term in which the student matriculates into the MPH portion of the combined degree curriculum. The revenue should be distributed evenly over the three quarters of enrollment. Preference should be given to students interested in practicing medicine and community public health and to students from rural communities, including Holmes County.

The recipients of these annual scholarships shall be selected by the College of Medicine Scholarship Committee in collaboration with the faculty of the College of Public Health and in consultation with the University’s Office of Student Financial Aid. Selection shall be approved by the dean of the College of Medicine.

If funds are no longer needed for this purpose, the annual distribution will be used to fund a graduate scholarship in the College of Public Health for a student pursuing a master’s degree in Public Health who are experienced professionals. If funds are no longer needed for these purposes, the annual distribution will be used for scholarships for undergraduate students in varsity Olympic sports who are pre-med majors.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist in the College of Medicine, the College of Public Health or the College of Arts and Sciences, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor (should he be alive; otherwise from his daughter and his designee, Vonda Benson); and as recommended by the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,000.00

The Occupational Therapy Alumni Scholarship Fund

The Occupational Therapy Alumni Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from alumni and friends of the Occupational Therapy Division.
The annual distribution of this fund shall be used to support scholarships for graduate students enrolled in the Division of Occupational Therapy in the School of Allied Medical Professions. The selection of the recipients of the Occupational Therapy Alumni Scholarship shall be made based on academic merit and financial need. It is the donors’ intent that the scholarship may be renewed for Occupational Therapy students if they receive the Occupational Therapy Alumni Scholarship in their first year of study and maintain good academic standing. Scholarship recipients will be selected at the recommendation of the director of the Division of Occupational Therapy and as approved by the director of the School of Allied Medical Professions in consultation with the University’s Office of Student Financial Aid, the dean of the College of Medicine, and the College’s Student Financial Services.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the School of Allied Medical Professions and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from representative of the donors and as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Endowment: $50,000.00

The Bryan and Judith Roub Endowed Scholarship Fund

The Bryan and Judith Roub Endowed Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bryan Roub (B.S.Bus.Adm. 1966) and Judith Roub of Merritt Island, Florida.

The annual distribution from this fund shall provide undergraduate scholarships for students enrolled at The Max M. Fisher College of Business. First preference shall be extended to undergraduate students enrolled in the Fisher College of Business who are majoring in accounting who demonstrate financial need. Recipients shall be selected by the director of the Fisher College of Business Undergraduate Programs Office in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $50,000.00

The Donald and Patricia Meyer Fund for Research in Psychobiology

The Donald and Patricia Meyer Fund for Research in Psychobiology was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Professors Emeritus Donald Meyer and Dr. Patricia Meyer (M.A. 1958, Ph.D. 1960) and colleagues, friends, and family.

The annual distribution from this fund shall be used to enhance the psychobiology program by supporting seminar speakers, travel funds for professional conferences and other graduate student development to foster graduate student progress. Expenditures shall be as recommended by the coordinator of the psychobiology program and approved by to the chairperson of the Department of Psychology.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the recommendation of the chairperson of the Department of Psychology and approval of the executive dean of the College of Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the chairperson of the Department of Psychology and the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $30,018.00 (grandfathered)

The Buckalew Family Scholarship Fund

The Buckalew Family Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from B. Stevens Buckalew (M.S. 1977 Agricultural Economics) and Sharman Hasbrouck Buckalew from Knox County, Ohio.
The annual distribution from this fund shall be used to provide an annual undergraduate scholarship to at least one student in the College of Food, Agricultural, and Environmental Sciences at The Ohio State University. Preference shall be given to students who are current or former members of Ohio 4-H and who are majoring in agribusiness and applied economics. If there are no eligible candidates who meet both criteria, secondary preference shall be given to candidates meeting at least one of the criteria. If there are no eligible candidates who meet either criteria, the scholarship may be awarded as a general College scholarship. The scholarship may be awarded to the same student in successive years provided the student continues to meet the scholarship's criteria, remains in good academic standing, and is progressing toward his/her degree. Recipients shall be selected by the College's scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $30,000.00 (grandfathered)

The Calabro Family Dean’s Innovation Fund

The Calabro Family Dean’s Innovation Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Thomas and Joanne Calabro.

The annual distribution from this fund shall be used to address the emerging priorities of The Max M. Fisher College of Business, including investing in quality faculty, cutting edge business research, and innovative academic programs. Expenditures from this fund shall be approved by the dean of the Fisher College of Business.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
September 17, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $26,617.00 (grandfathered)

The Burton and Lois Rubens Parkinson’s Disease Research Fund

The Burton and Lois Rubens Parkinson’s Disease Research Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Burton and Lois Rubens of Lima, Ohio, which were made in honor of George Paulson, M.D., their physician and friend.

The annual distribution from this fund shall be used to support research towards finding a cause, innovative treatments, and cure for Parkinson’s disease, to include both basic and clinical research as well as genetic and epidemiological research. Distribution of the endowment proceeds will be determined annually by the director of the OSU Parkinson’s Disease and Movement Disorder Center and/or the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine. The distribution may support, but is not limited to, scientific supplies, equipment, salaries for research personnel and activities required for quality medical research.

If medical research and advancements have resulted in there no longer being a need for research on Parkinson’s disease, as determined in the sole discretion of the Board of Trustees and the dean of the College of Medicine, then such distribution from the fund will be used by the said College of Medicine to support medical research, both basic and clinical, towards finding cures and innovative treatments for diseases afflicting mankind, with priority to be given to research focusing on diseases of a neurological order.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the Department chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use, as described above and as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $26,525.00 (grandfathered)
The Sneed Foundation Football Scholarship Fund

The Sneed Foundation Football Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Richard B. Sneed Foundation from Circleville, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship budget of the varsity football team as approved by the director of Athletics.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available and from the director of Athletics.

Amount Establishing Endowment: $26,500.00 (grandfathered)

The Leigh E. Briggs Education Scholarship Fund

The Leigh E. Briggs Education Scholarship Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Leigh E. Briggs (B.S.Ed. 1981), family, and friends.

Leigh came from a long line of educators in his immediate and extended family. Leigh’s mother, Doris Briggs, taught second grade in the Dublin City Schools and his sister, Ann Briggs Brown (B.S. 1981 Education), taught elementary physical education in the Hilliard Public Schools. During his career in education, Leigh taught eighth grade English for the Hilliard Public Schools, Hilliard, Ohio, and was the high school band director for the Westfall Local Schools, Williamsport, Ohio. After a 10-year career in financial services with the Huntington National Bank, Columbus, Ohio, Leigh accepted a position in 2000 with The Ohio State University Foundation as a major gift development officer for the College of Food, Agricultural, and Environmental Sciences. In 2003, he transitioned to the Ohio State University Medical Center and College of Medicine in the same major gift capacity. Leigh continued to use his music education background, co-founding and co-directing the Capital Pride Band of Columbus.

The annual distribution from this fund shall be used to provide scholarships to students enrolled in the College of Education and Human Ecology who are preparing to become teachers at the elementary, secondary, or high school level. Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
September 17, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $26,213.87 (grandfathered)

The Public Mental Health Psychiatry Leadership Endowment Fund

The Public Mental Health Psychiatry Leadership Endowment Fund was established September 17, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with lead gifts from Dr. David L. Cutler (B.S. 1962 Anatomy, M.D. 1967) of Portland, Oregon, and additional gifts from alumni, faculty and staff, grateful patients, and friends of OSU Medical Center behavioral health programs.

The annual distribution from this endowed fund shall be used to advance leadership, training, and advocacy activities in the Department of Psychiatry or in OSU Harding Hospital as allocated by the Department chairperson for projects related to public mental health systems.

The Department chairperson may redirect the endowment distribution to a professorship if the funding level reaches the required level in future years, in consultation with the dean of the College of Medicine. The annual distribution will provide for a professorship position supporting a nationally or internationally recognized faculty member in psychiatry who has distinguished career or training in public mental health or exhibits leadership qualities to advance behavior medicine in public mental health systems. The professorship holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Psychiatry and approved by the senior vice president for Health Sciences and the dean of the College of Medicine. The activities of the professorship holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the chairperson of the

Change in Description of Named Endowed Funds

The Barton-Williams Medical Student Scholarship Fund

The Barton-Williams Medical Student Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mrs. Margaret Barton Williams and Dr. Thomas E. Williams, Jr., (M.S. 1963, M.D. 1963 cum laude, surgical residency training 1964-70) to honor Dr. Williams' career at The Ohio State University – current faculty member in the Department of Surgery, clinical instructor 1968-70, assistant then associate professor 1970-83, clinical associate professor in Division of Cardiothoracic Surgery 1983-present. The description was revised on September 17, 2010.

The annual distribution from this fund shall be used to provide one or more merit scholarships or awards to medical students pursuing extra-curricular fellowships or training in cardio-thoracic surgery or other surgical disciplines. The selection of the recipients shall be made at the recommendation of the chairperson of the Department of Surgery in consultation with the College of Medicine Scholarship Committee (including the associate dean of Student Affairs and the vice dean for Education), and the University’s Office of Student Financial Aid; as approved by the dean of the College of Medicine and the senior vice president for Health Sciences.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and as recommended by the dean of the College of Medicine and the senior vice president for Health Sciences.

The Kalbouss Russian Culture Fund

The Kalbouss Russian Culture Fund was established May 7, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George Kalbouss, a member of the faculty of the Department of Slavic and East European Languages and Literatures since 1973, and from faculty, friends, and former students of Professor Kalbouss. The description was revised September 17, 2010.

The annual distribution from this fund shall be for used for outreach to Slavic cultures, especially in the State of Ohio, by supporting faculty and students to engage in
activities including but not limited to: research, conferences, lectures, presentations, and seminars. Emphasis should be placed on new approaches and new subjects, accenting more cultural studies rather than the traditional language and literature department activities such as literary and linguistic research. Expenses may include but are not limited to: travel, materials, and financial compensation for time. The chairperson of the Department of Slavic and East European Languages and Literatures will establish a committee to assign the funds each year.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Slavic and East European Languages and Literatures and the executive dean of the College of Arts and Sciences, Division of Arts and Humanities.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from George Kalbouss, should he be alive, and the chairperson of the Department of Slavic and East European Languages and Literatures and the executive dean of the College of Arts and Sciences.

The Leesa Hall and Donald M. Kurdziel Family Fund

The Leesa Hall and Donald M. Kurdziel Family Fund was established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Donald M. Kurdziel (B.S.Bus.Adm. 1976, M.B.A. 1977) and Leesa Hall Kurdziel (B.S.Soc.Wel. 1978) of Hudson, Ohio. The description was revised September 17, 2010.

The annual distribution from this fund shall provide an undergraduate scholarship to a full time student at the University’s Columbus campus. The scholarship is renewable for 12 quarters/eight semesters, or until completion of a bachelor’s degree provided the recipient maintains a 2.8 or higher grade point average. This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors’ desire that a scholarship be awarded alternating between male and female students who have been accepted for admissions at the University who are orphans or wards of the state. The Office of Student Financial Aid will administer this scholarship fund.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

John D. Neesley Graduate Fellowships in Chemistry Fund

The John D. Neesley Graduate Fellowships in Chemistry Fund was established November 4, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John D. Neesley (B.S. 1948). The description was revised September 17, 2010.

The annual distribution from this fund shall be used to support competitive fellowships for graduate students in the Department of Chemistry who are United States citizens enrolled in the Division of Natural and Mathematical Sciences. The competitive process will be determined by the chairperson of the Department of Chemistry or a designee.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at discretion of the chairperson of the Department of Chemistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the chairperson of the Department of Chemistry.

The Samuel L. and Nancy L. Faulkner Ponn Land Grant Opportunity Scholarship Fund

The Samuel L. and Nancy L. Faulkner Ponn Land Grant Opportunity Scholarship Fund was established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Samuel and Nancy Ponn of Palm Springs, California. The description was revised September 17, 2010.

This fund shall be used to support educational diversity at the University, consistent with the University’s mission and admissions policy.

The annual distribution from this endowed fund shall be equally divided to support two land grant opportunity scholarships. For one scholarship, preference shall be given to candidates who are residents of Ashtabula County, Ohio. For the second scholarship, preference shall be given to candidates in the following order: residents of Murray City, Ohio; the Buchtel School District; or the Rocky River (Ohio) School District.
September 17, 2010 meeting, Board of Trustees

The scholarship may be used towards the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses for three quarters/two semesters in the given academic year. Scholarships may be renewed for up to 12 quarters/eight semesters or until completion of a bachelor’s degree, provided the recipient maintains a 3.0 or higher grade point average. The Office of Student Financial Aid will administer this scholarship fund.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

The Stanley D. and Joan H. Ross Dodd Hall Endowment Fund

The Stanley D. and Joan H. Ross Dodd Hall Endowment Fund was established December 3, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Stanley D. Ross (B.A. 1962) and Joan H. Ross, of Columbus, Ohio. The description was revised September 17, 2010.

This fund is created in appreciation of the care given to their son, Malcolm, who was a patient in 1993 while recovering from an auto racing accident.

The annual distribution from this fund shall be used to support programs and activities, as well as purchase equipment and supplies, for the patients, patient families, and staff of Dodd Hall. Allocation of distribution shall be approved by the Dodd Hall administrator in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the administrator or senior vice president.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.
September 17, 2010 meeting, Board of Trustees

donors, should they be alive, and as recommended by the Dodd Hall administrator and
the senior vice president for Health Sciences.

Change in Name and Description of Named Endowed Funds

The Hagop S. Mekhjian M.D. Medical Ethics and Professionalism Fund

The Hagop S. Mekhjian M.D. Medical Ethics and Professionalism Lectureship Fund
was established July 13, 2007, by the Board of Trustees of The Ohio State University in
accordance with the guidelines approved by the Board of Directors of The Ohio State
University Foundation with gifts from Dr. Hagop Mekhjian M.D. (medical director, OSU
Health System since 1984) and Mrs. Mary Mekhjian of Columbus, Ohio, and gifts from
multiple friends and colleagues made in Dr. Mekhjian’s honor. The name and
description were revised September 17, 2010.

The annual distribution from this fund shall be used to provide lectureship support for
outstanding instruction, scholarship and professional development activities addressing
medical ethics and medical professionalism for medical students, residents, and
practicing physicians. The lectureship will focus on developing the knowledge base and
skills to provide humane, compassionate care in today’s complex social and medico-
legal environment. Allocation of funds will be recommended by the chief medical
officer and approved by the senior vice president for Health Sciences.

The endowment shall be revised to The Hagop S. Mekhjian M.D. Professorship in
Medical Ethics and Professionalism should the endowment principal level reach $1
million, or The Hagop S. Mekhjian M.D. Chair should the principal level reach $2
million, by July 31, 2012. After July 31, 2012, the endowment principal must reach the
then current minimum funding level to be revised to a professorship or chair. Once
revised, the annual distribution shall be used to support a nationally or internationally
recognized physician faculty member in the College of Medicine who brings expertise
and leadership in medical ethics and professionalism into academic medicine while
providing exemplary teaching, patient care and scholarly activities at the OSU Medical
Center.

The appointment shall be made by the Board of Trustees of The Ohio State University
as recommended by the senior vice president for Health Sciences and by the dean of
the College of Medicine in consultation with the chief medical officer of the OSU
Medical Center. The activities of the professorship or chair holder shall be reviewed no
less than every four years by the dean to determine compliance with the intent of the
donors as well as the academic standards of the University.

In any given year that the endowment distribution is not fully used for its intended
purpose, the unused portion should be held in the distribution account to be used in
subsequent years and only for the purposes of the endowment, or reinvested in the
endowment principal at the discretion of the chief medical officer while a lectureship;
and as a professorship or chair, by the dean and senior vice president in consultation
with the chief medical officer.

The investment and management of and expenditures from all endowment funds shall
be in accordance with University policies and procedures as approved by the Board of
Trustees. As authorized by the Board of Trustees, a fee may be assessed against the
endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the
University in perpetuity. Should unforeseen circumstances arise in the future so that the
need for this endowment ceases to exist, then another use as nearly aligned with the
original intent of the contribution as good conscience and need dictate shall be
designated by the Foundation’s Board of Directors and the University’s Board of
Trustees. In making this alternate designation, the Boards shall seek advice from a
The Ohio Pest Control Association Scholarship Fund

The Ohio Pest Control Association Scholarship Fund was established February 4, 1993, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from members of the Ohio Pest Management Association (OPMA) in honor of past presidents, officers, and members, living and deceased. The name and description were revised September 17, 2010.

The annual distribution from this fund shall be used to provide one or more merit scholarships or fellowships to Ohio State students attending any campus who are members of the Ohio Pest Management Association, or spouses or children of members. First preference shall be given to students majoring in urban entomology or biology. If there are no eligible candidates, the scholarship may be awarded to a student(s) in any major. The Office of Student Financial will administer this scholarship fund in consultation with the Ohio Pest Management Association.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the OPMA, and from the director of the Office of Student Financial Aid.

AUTHORIZATION TO INCREASE PROFESSIONAL SERVICES CONTRACTS
Resolution No. 2011-10

APPROVAL TO INCREASE PROFESSIONAL SERVICES CONTRACTS
SULLIVANT HALL AND BILLY IRELAND CARTOON LIBRARY & MUSEUM

Synopsis: Authorization to increase professional services contracts, as detailed in the attached materials, is requested.

WHEREAS the Policy for Board of Trustees Review and Approval of Facilities Improvement Projects, Planning Studies, and Real Estate Transactions specifies that projects over $4,000,000 may not increase by more than 10% or $1,000,000 without the approval of the Board of Trustees, and

WHEREAS the Sullivant Hall and Billy Ireland Cartoon Library & Museum, which received Board of Trustees approval to enter into professional services contracts in June of 2009 as a $22.1M project, with professional services approximately $2.7M, has now increased to $24.4M, with professional services approximately $3.0M, and
September 17, 2010 meeting, Board of Trustees

WHEREAS in accordance with the attached materials, the University desires to increase professional services contracts for the following project:

<table>
<thead>
<tr>
<th></th>
<th>Prof Svc Total</th>
<th>Project</th>

APPROVAL OF FISCAL YEAR 2011 TOTAL UNIVERSITY CURRENT FUNDS BUDGET

Resolution No. 2011-11

Synopsis: Approval of the total University Current Funds Budget for FY 2011 is proposed.

WHEREAS the State budget for FY 2010 and 2011, including funding levels for State institutions of higher education, has been enacted; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2011 have been approved at previous meeting of the Board of Trustees; and

WHEREAS adjustments have been made updating revenue estimates and eliminating double counting of transfers among the various University units; and

WHEREAS the President now recommends approval of the Current Funds Budget for the total University for FY 2011:

NOW THEREFORE

BE IT RESOLVED, That the University's Current Funds Budget for FY 2011 be approved, with authorization for the President to make expenditures within the projected income.

(See Appendix VI for background information, page 148.)

Upon motion of Mr. Fisher, seconded by Mr. Brass, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Borror, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marbley, Kass, Jurgensen, Wadsworth and Kellogg.

-0-
September 17, 2010 meeting, Board of Trustees

Mr. Wexner:

Before we adjourn I thought for the new Trustees one of the things I try to do is go around the table just to see if anything came up, or if anybody would like to say anything before we adjourn. So I will start with Alex and end with Gordon, then we can adjourn.

Mr. Shumate:

Just thank all the Board members; I thought it was an excellent meeting in talking with Dr. Chait, who consults with us on governance. He really has talked about the improvement of our Board and the fact that we are one of the leading Board of Trustees in the country, and coming from Dr. Chait, who consults nationally and internationally that is quite a compliment.

Mr. Fisher:

We also talked about this in Trusteeship, but there are lots of opportunities for each of us and collectively in our committees to go out and about on campus to learn about all the great things at this University, and I just encourage us to think about doing that.

Mr. Brass:

My only comment would be and it is something Doug said, and it is very important for all of us to work so close together because there is so much going on in all of our Committees which is where most of the action takes place. For us to communicate across the Committees very effectively and to continue to thank our faculty for doing such a great job to give us the opportunities that we in fact are addressing. Faculty have done a great job here, it is just amazing what’s going on.

Judge Marbley:

I would just like to compliment my fellow Board members on the thoughtfulness that I thought everyone exhibited in mingling through some very important governance and leadership issues. I thought that some of the comments that were made really reflected high level thinking about very complex problems, and I think we have made our Board that much better because of the thoughtfulness that we all exhibit.

Dr. Wadsworth:

I would reflect some similar comment. I am on many boards, I thought this last two and a half days addressed some very interesting fundamental questions, and that is the right time to be doing it, it is very appropriate. I thought it was a very rich discussion.

Dr. Cloyd:

In a similar vein we are really addressing I think what are really the core big things that we can help strategically, which this Board has said it wants to do. I have been really impressed with the open-mindedness of the Board members and the University leaders as we have been working with them over these last few days in really important areas, and I always tend to define open-mindedness as someone’s open-minded if they really want to be influenced. It seems to me that the kinds of discussions we have had with people, there has been that kind of engagement, and it is great.
September 17, 2010 meeting, Board of Trustees

Then just one more positive comment. I am really excited to see this advancement model moving forward because I think it is going to be a terrific initiative for this University and we are going to see all kinds of benefits form.

Mr. Mitchell:

I would just like to say how thankful and proud I am to be part of this Board and how informative the past two and a half days have been to me as far as making positive changes in the quality and efficiency of the University and the changes to it.

Ms. Swain:

I just want to make sure I got in that there are many student programs going on right now around philanthropy and student philanthropy and we are excited to work with Dr. Sorensen about developing a culture of giving among students and small ten dollar gifts can build up and build that culture, so those are going on. Undergrads are excited to get started next week with all of our events and I am excited for work on this Board and answering those big questions.

Mr. Kellogg:

A couple of points that I would like to make, one in terms of the Committee on Trusteeship and the orientation process, the onboarding of the new Trustees being able to get up to speed and that type of efficient, in some ways overwhelming manner, but nonetheless very, very productive and fruitful and I have enjoyed the opportunity to do that with Brandon. It has been a really rich experience from that stand point so I commend the Committee on Trusteeship for making that a part of what happens when a Board member is appointed because I think it is extremely valuable and helpful. And then I would echo Brandon’s sentiments as well. I am extremely honored and privileged for the opportunity to serve this great University with all of you and look forward to the dynamic challenges and opportunities that are before us. And look forward to hopefully adding to our progress.

Mr. Jurgensen:

Les, I took the liberty of passing an article around to all the Trustees, you are probably wondering what this has to do with anything at Ohio State and the answer is that it is not directly related to Ohio State. This is an article about student lending, the student lending industry broadly defined, but really what it is about is the crisis that is building with respect to how student loans are being used by the for-profit university sector and the kind of growth rates that the for-profit and University of Phoenix and Ashlands that you see bombarding advertizing and other things. The point of all of this is a significant amount of that industry has been fueled by Title IV government loans. They are operating on profit margins that are eight, nine, ten times what goes on in the rest of the industry and the person that happens to be looking into this, and he is looking in it as an investment thesis admittedly, but his name is Steve Eisman and the reason Steve Eisman is significant in America is he is one of the four or five hedge fund managers that began to blow the whistle on the subprime mortgage market years before you know it really became something everyone was talking about and as we listen to political debates of late and what not that blame the collapse of the American economy on activities of Wall Street, those activities were largely involved with the mortgage market broadly defines subprime mortgages, specifically. Mr. Eisman’s thesis the student loan crisis is that is being exploited in this industry will be every bit as big as the problem of subprime mortgages. So while it is not activities that Ohio State conducts in its student lending, I think there is some interesting food for thought in here for all of us as we look at the role that aid plays in the attainment of education in this country, and the amount of debt that is being piled up. One of the things I think that Steve is pointing out in here is that if the education you are getting is of true quality, you should have no problem
paying back the loans you took out to get it. But if the quality of the education is not, and he points out a couple of certificate programs in here that people borrowed a lot of money to get certified in certain fields only to find out that no one recognizes the certification and they will not hire you, that there is a lot of debt being taken on by young people where the quality of education is not high enough in order to give them the confidence that they are going to be able to pay these loans back. They are huge numbers, so I commend this to all of your reading and to your thought.

Mrs. Kass:

I just wanted to welcome, as everyone else, our new members of the Board, and thank all of the Board members and the leadership of our University and our Board. Welcome all the new faculty appointments to the University and to borrow a phrase Jerry you used earlier and one I like to use a lot about connecting the dots. I think we are doing a lot of connecting the dots in our work, aligning a lot of elements that are very important to the betterment of the University. I would start with enjoying Gil’s enthusiasm for Advancement and the connecting of the dots of the alumni communications and marketing and the development functions. I think that the staff, our professionals here at the University have worked hard also to get us to where we are and the opportunities that we have with that. I think we are connecting the dots in terms of the Food Innovation Center, I think that is remarkable, the 13 colleges and what is going on. I think as you mentioned Doug, the connecting of our committees with one another to be efficient, I think that’s a point. So we are connecting the dots in so many different levels and aligning what we do, I think it is very exciting and I am very honored to be part of it.

Mr. Schottenstein:

I echo his sentiments. I was appointed to the Board in 2005 and at that moment much like I suspect, Brandon, you, Clark and Jeff, it was at that time perhaps the great honor of my life and it continues to be, and I mean that with complete sincerity. But at the same time, when I look at how the Board was functioning then compared to how it is functioning now, there is only one word that I can think of, and that is transformative. I mean this Board has just in the most positive extraordinary way transformed itself. When you hear the committee reports, whether it be Jack’s report or the new Advancement Committee, we are just getting the tip of the iceberg so to speak, the tremendous amount of work that goes on before the meetings, around the meetings, to bubble up the information, the extraordinary talent beginning with our President and the people you have assembled that we are so lucky to work with. You said when you were hired “this is Ohio State’s time,” and I am reminded of that a lot. The fact is, it is, but what are we doing about it, and if it was our time and we did not do anything about it, it would be one of the great opportunities ever squandered, but I think that we are really working hard to make certain that we take full advantage of the opportunity and are making tremendous progress in so many different areas. These meetings continue to get better and better and I feel just as honored today to be part of this Board as I did the day I was appointed and I feel fortunate to work with everyone in this room, and just want to thank you Mr. Chairman and you Gordon for all the leadership.

Mr. Hicks:

As I think about the last couple of days that we spent, the word balance comes to mind because I think we have done a very good job of balancing what our role is here over the last two and a half days and the last really several years. It is a balance between long term strategy and we have talked a lot over the last couple of days about what this place is going to look like in ten years or 20 years or 50 years down the road. We have talked about our very high aspirations, but we have balanced that with our current reality we are facing in terms of our state’s budget. We have talked about how we want to have more self-determination. We reflect on our
activities and our commercialization team that we are working very hard on. I just think we are a well-balanced Board right now in terms of our short-term and our long-term outlook.

The other thing I would reflect upon, is I know move in day is Sunday, I think it happens with military precision, and there is nothing greater than being on a college on a great fall day so I am looking for the energy that the students will provide next week.

Mr. O’Dell:

I would just like to welcome the new Board members and the great new faculty. I just feel really, really good about how great this University is doing in such a difficult time, and the difficult times ahead of us and the momentum and success we are having, I really feel great about it.

Mr. Borror:

I would just like to thank all of our colleagues. We are doing really great work. It is very collaborative, it feels so positive and I come out of each meeting more inspired and I think each one gets better and better and I just cannot thank our leadership enough and the team of people here together. I think we are doing the right things.

President Gee:

You know I have had a number of things to say, but I will be very short. First of all I had a chance to recognize our faculty, our staff and our students and the great work they are doing, but I also want to recognize my colleagues in the senior administration who everyday make this institution the center of their life, and they need to be recognized and applauded. Last night Dick Chait said that the University that can execute, can win. We have a very high performance culture here and we can execute and that is what we are going to do. So I feel very confident about that. The other thing he said, if you remember this was the last thing, he said you cannot have a great university without a great Board, we have a great University and we have a great Board, so that is a great affirmation.

Mr. Wexner:

Thank you. I did not know what I was going to say, but maybe I am picking up on the comments of all the Trustees and maybe what Doug said spurred me. One of the great leaders of the University, and it is timely because of the season, but it also just as so is Jim Tressel. I always write about him, because I write memos to our board, the board of our business and to the leadership, and what I picked up from him is he has a very simple but a significant philosophy, and that’s you have to get better. I was listening to his post-game show after the first football game and laughing with Abigail because we knew what he was going to say, and sure enough the guy said how did you do, you played against a team that was from the Atlantic Conference, and Tressel said we got to get better and continue to get better, and our competition is going to get better. He just always talks about getting better. So I wrote him a note Monday when I got to the office and told him that I listened to his post-game show and I sent a note out to the leadership of our business and said we have to get better, and I am inspired every time, and reminded every time I hear Tressel say that, we just got to get better. So I sent my note to him and he responded within a few hours and he said yeah we have to get better now and we have to get better in the long term and we just got to get better, it is just as simple as that. I appreciate the stacking of hands and the fact that as a Board, as an institution at every level, I think there is just progress of us getting better. Better at everything that we do, which is very different than winning, because it is more challenging because it means more than constant improvement, I think it is really an introspection of how to get better. I
think we are getting better, it is demonstrated by the work that the University is doing and the partnerships that we have with the administration, with everyone that we connect to and amongst ourselves, and I think the challenge for all of us is to keep the pressure on us getting better. If we keep focused on getting better, perhaps we will. This meeting is adjourned, thank you.

-0-

Thereupon the Board adjourned to meet Friday, October 29, 2010, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner  David O. Frantz
Chairman  Secretary
APPENDIX I

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

August 29, 2010

(approved during the Board of Trustees meeting on June 18, 2010)
Michael B. Coleman
DOCTOR OF PUBLIC SERVICE

Michael B. Coleman is serving his third term as mayor of Columbus, Ohio State taking office in 2006. His focus has been to improve the quality of life for families in Columbus neighborhoods and to create jobs by committing to improve Columbus' high quality of life.

The City of Columbus and The Ohio State University have joined forces on a number of projects over the last 11 years to improve safety and services in the University District—the city neighborhood closest to campus where thousands of students live. These include the Moody Hall Neighborhood Police Center, 150 new streetlights, the Joint Patrol Project in which an Ohio State University Police officer works in tandem with a Columbus Police officer to patrol the University District and campus, and university assistance in funding safety collection in the University District.

Mr. Coleman has leveraged incentives to create and retain more than 65,000 jobs and bring more than $4.5 billion in private investment to Columbus throughout his tenure. Businesses have access to an educated workforce including graduates from Ohio State and 17 other regional colleges and universities. Columbus is centrally located to national markets and a growing transportation, distribution, and logistics hub.

Columbus is the 16th largest city in the country. Under Mayor Coleman’s leadership, the city has been recognized and ranked among the best in the nation. Forbes magazine calls Columbus one of the 10 best large cities and one of the 10 most affordable metro areas. It was recognized as the nation’s third best place to live by CNN and Money magazine, which also declared Columbus as the nation’s safest big city.

Columbus regularly ranks as a hot destination for relocation of businesses and continues to earn top rankings for its stable housing market, affordability, and as a top city for African Americans, young professionals, and members of the LGBT community.

Mr. Coleman earned an undergraduate degree in political science from the University of Cincinnati in 1977 and a law degree from the University of Dayton in 1980. Prior to becoming mayor, he served as president of Columbus City Council from 1995 to 1999, and as council member from 1992 to 1995. He has been honored by numerous organizations, both locally and nationally, for his work on behalf of health care, the environment, economic development, after-school care, housing, and human rights.

Charles Henry Plumb
DOCTOR OF PUBLIC SERVICE

Lord Charles Henry Plumb is a British public servant and lifelong advocate for farmers and agriculture. He is an active member of the House of Lords, the European Union Sub-Committee Internal Market, and a partner and founding member of the European Union government affairs firm Allens & Goffman.

Lord Plumb boasts a successful career in European politics in both the National Farmers’ Union and the Conservative Party, which ultimately led to his term as president of the European Parliament—the highest legislative body in the EU—from 1987-1999. He is the only Briton to hold this high post. During his 20-year tenure (1979-1999) in the European Parliament, he also served as Speaker for Agriculture and chair of the Committee for Agriculture and Rural Development. Additionally, he was president of the National Farmers’ Union, the International Federation of Agriculture Producers, and the Royal Agriculture Society of England, and chair of the International Policy Council on Agriculture, Food, and Trade.

Upon retirement from his long and distinguished political career, Lord Plumb founded the Henry Plumb Trust in 1999 to continue his advocacy for rural and farming communities around the world. The Henry Plumb Trust aids and promotes agricultural projects worldwide, including educational scholarships and research awards for organizations and individuals working in the agriculture industry.

Lord Plumb is a decorated public servant. His many honors and awards include the Great Cross of Merit of the Federal Republic of Germany and the Gold Medal for Distinguished Services to Agriculture by the Royal Agricultural Society of England. He was knighted by Her Majesty The Queen in 1973.
John J. Chester Sr.

DISTINGUISHED SERVICE AWARD

Jack Chester is senior partner in the Columbus law firm of Chester, Willcox & Sarle LLP, a nationally respected litigator. Mr. Chester joined the firm in 1949 after receiving his undergraduate degree from Amherst College (1942) and his law degree from Yale University (1946). He was a member of the Ohio House of Representatives from 1953 to 1958, and served as special counsel to the President of the United States in 1974.

He has long been a dedicated advocate for The Ohio State University and, in particular, its Moritz College of Law. As an active participant in the College of Law’s National Council and the College of Arts and Sciences Advisory Committee, he has given invaluable advice and counsel to university leaders. As an adjunct professor, he has taught a popular class in practical litigation, now in its 10th year, in which he generously shares his substantial knowledge and experience concerning case and trial preparation.

Mr. Chester played a leading role in launching the Moritz Law/Legislative Clinic, as well as the College Center for International Law and Policy Studies. He helped to complete the college’s Barrister Club project, and he has personally and through his firm supported a number of university-wide programs, including the College of Humanities, the Athletics Department, and WOSU.

He is the recipient of the Columbus Bar Association’s President’s Award and the Ohio State Bar Foundation’s Honorary Life Fellowship Award, and he has been named a Fellow in the American College of Trial Lawyers.

Virginia I. Zirkle

DISTINGUISHED SERVICE AWARD

Virginia Zirkle is known in Ohio’s Putnam County as an “Ohio State Legend,” a title that befits her six decades of service to her alma mater. A 1945 graduate of Ohio State, Professor Zirkle worked briefly as a teacher before joining the Putnam County Ohio State Extension as a home economist in 1947, where she remained until her 1988 retirement. In 1976, she attained the rank of full professor, one of the first so named without having a doctoral degree. Fiercely proud of Ohio State’s land-grant mission, she encouraged countless first-generation college students to pursue higher education at Ohio State and 4-H Center. She also played a leading role in establishing the Putnam County Educational Service Center, where students can enroll in Ohio State classes throughout the year before attending Ohio State Lima or the Columbus campus.

Professor Zirkle backed up her strong belief in the university with her generous support for student scholarships and the new Nationwide and Ohio Farm Bureau 4-H Center on the Columbus campus. She was a member of the Putnam County Alumni Club since 1945, becoming its permanent secretary in 1976, and was an active committee member of the College of Economics and Human Ecology. Despite her retirement of more than 20 years, she remained an engaged volunteer for her university and her community until her death in January 2010.

Pharmacy
Dr. Milap Nahata

Ari C. de Wilde, New Hartford, CT
B.A. (Bates College)
M.A.
Education
Dr. Melvin Adelman

Jaya Dey, Columbus
B.A.Hons. (University of Patna)
M.S. (Indian Statistical Institute)
M.A.
Economics
Dr. William Dupor

Krishna Kishor Dey, 
Columbus
B.S. (University of Burdwan)
M.S. (Indian Institute of Science)
Chemistry
Dr. Philip Grandinetti

Lindsay Erin Marks DiCurci, 
Royal Oak, MI
B.A. (Cedarville University)
M.A.
English
Dr. Elizabeth Hewitt

Keith A. Diedrick, Wooster
B.S.Agr., M.S.
Soil Science
Dr. Robert Mullen

Xiaoning Ding, Columbus
B.Eng., Master’s (Northwestern Polytechnical University)
M.S.
Computer Science and Engineering
Dr. Xiaodong Zhang

George Benjamin Dundee, Galveston, TX
B.S., M.S. (Baylor University)
Physics
Dr. Stuart Raby

Rebekah Barnes Epps, Abbeville, AL
B.S. (Auburn University Main Campus)
M.Ed. (University of Georgia)
Agricultural and Extension Education
Dr. Jamie Cano

Daniel W. File, Toledo
B.A.
Mathematics
Dr. James Cogdell

Salvatore Florio, Gissi, Italy
B.A. (University of Florence)
M.A.
Philosophy
Dr. Stewart Shapiro
Dr. Neil Tennant

Kenneth Michael Follen, Strongsville
B.S.Mech.Eng., M.S.
Mechanical Engineering
Dr. Giorgio Rizzoni
September 17, 2010 meeting, Board of Trustees

Masako Inamoto, Saratoga Springs, NY
Bachelor’s (Kwansei Gakuin University)
M.S. (State University of New York at Albany)
M.A.
East Asian Languages and Literatures
Dr. Richard Torrance

Jamie Lu Jackson, Glendale, AZ
B.S. (Arizona State University)
M.A.
Psychology
Dr. Charles Emery

Tanisha M. Jackson, Columbus
B.A., M.A.
Art Education
Dr. Vesta Daniel

Michael D. Jaworski, Pharr, TX
B.A. (Bowling Green State University)
Philosophy
Dr. Neil Tennant

Zhaozhang Jin, Shanghai, China
B.Elec.Eng. (Shanghai Jiao Tong University)
M.S.
Computer Science and Engineering
Dr. Deliang Wang

James Lawrence Jordan, Somerville
B.S., M.S. (Purdue University)
Agricultural and Extension Education
Dr. Scott Scheer

Janhavi A. Joshi, Mumbai, India
B.S. (Sathaye College)
M.S. (Indian Institute of Technology Bombay)
Mathematics
Dr. Jeffery McNeal

Aryn C. Karpinski, Lorain
B.A.Honors (Miami University Oxford)
M.S. (West Virginia University)
M.A.
Education
Dr. Jerome D’Agostino

Justin Allen Kasemodel, Gillette, WY
B.S. (South Dakota School of Mines and Technology)
M.S.
Electrical and Computer Engineering
Dr. John Volakis

Starr Elaine Keyes, Toledo B.A.
M.Ed. (University of Toledo)
Education
Dr. Gwendolyn Cartledge

Niraj Khare, Bhopal, India
Bachelor’s, Master’s (Indian Institute of Technology Kharagpur)
M.S. (New Jersey Institute of Technology)
M.S.
Mathematics
Dr. Akos Sereses

Phillip George Killewald, Columbus
B.S. (University of Michigan, Ann Arbor)
Physics
Dr. Ta-Yung Ling

Kyung-Mi Kim, Columbus
B.S. (Dongguk University)
M.S. (Seoul National University)
Master’s (University of Waterloo)
Mathematics
Dr. James Cogdell

Kyoungrok Ko, Korea
B.A., M.A. (Sungkyunkwan University)
M.S. (State University of New York College at Potsdam)
Education
Dr. Alan Hirvela

Meg Chang Kong, Franklin Park, NJ
B.S., M.S.
Pharmacy
Dr. Milap Nahata

Tzung-Huei Lai, Taipei, Taiwan, ROC
Bachelor’s, M.S. (National Chung Hsing University)
Veterinary Biosciences
Dr. Yasuko Rikihisa

Hartawan Santoso
Laksmo, Surabaya, Indonesia
B.S.Chem.Eng.
M.S. (University of Illinois at Urbana-Champaign)
Chemical Engineering
Dr. Barbara Wyslouzil

Justin Earl Lance, Elyria
B.A.Honors (Bethany College)
M.A.
Political Science
Dr. Marcus Kurtz

Kristen D. Landreville, Orlando, FL
B.A. (Xavier University)
M.A.
Political Science
Dr. Richard Gunther

Darrell Brian Larkins, Columbus
B.S.Cptr.Info.Sci., M.S.
Computer Science and Engineering
Dr. P. Sadayappan

Yu Kay Law, Hong Kong, China
B.A.Hono. M.S. (University of Cambridge)
Biophysics
Dr. Dongping Zhong
Dr. Bern Kohler

Gangyong Lee, Seoul, Korea
B.S., M.S. (Sungkyunkwan University)
M.S.
Mathematics
Dr. Syed Rizvi

Inhee Lee, Seoul, Korea
B.S., M.S. (Seoul National University)
Physics
Dr. Peter Hammel

Junghwi Lee, Fredericksburg, VA
B.S. (Hanyang University)
M.C.R.P. (State University of New York at Buffalo)
City and Regional Planning
Dr. Jean-Michel Guldmann
Sang Kyo Lee, Seongnam, Korea
B.A. (Duksung Women’s University)
Cert.TESOL (Vancouver Community College)
M.A. (University of Central Missouri)
Education
Dr. Alan Hirvela

Mark E. Letcher, Norman, OK
B.S.Ed. (Millersville University of Pennsylvania)
M.A. (Southern Illinois University Carbondale)
Education
Dr. Anna Soter

Chien-Ming Li, Memphis, TN
B.S.Chem., Master’s (National Cheng Kung University)
M.S. Pharmacy
Dr. James Dalton

Jian Li, Columbus
B.A. (Wuhan University)
M.A. (Bowling Green State University)
M.A.
Education
Dr. Richard Lomax

Kuiyu Li, Columbus
B.Eng. (Shandong University)
Master’s (Chinese Academy of Sciences)
M.S.
Computer Science and Engineering
Dr. Tamiel Dey

Qiming Li, Shen-yang, China
B.S. (Peking University)
Molecular, Cellular, and Developmental Biology
Dr. Ning Quan

Yan Li, Columbus
B.Med. (Beijing Medical University)
M.S. (Case Western Reserve University)
M.S.
Public Health
Dr. Bo Lu

Yanguang Li, Columbus
B.S. (Fudan University)
Chemistry
Dr. Yiying Wu

Changhoon Lim, Seoul, Korea
B.S., M.S. (Seoul National University)
Mathematics
Dr. Bo Guan

Chijack Lin, Taipei, Taiwan, ROC
Bachelor’s (National Taiwan University)
Economics
Dr. Sherman Hanna

Bin Liu, Yue Yang, China
B.S. (Tsinghua University)
M.S.
Biophysics
Dr. Jonathan Davis

Yu-Han Liu, Columbus
B.S. (National Taiwan University)
Mathematics
Dr. Charles Clemens

Yushi Liu, Changchun, China
B.S. (Jilin University)
Ph.D.
Statistics
Dr. Joseph Verducci

Eric Anthony Lutz, Columbus
B.A., M.S.
Public Health
Dr. Timothy Buckley

Todd R. Makse, Reynoldsburg
B.A. (Rice University)
M.A.
Political Science
Dr. Craig Volden

Michael John McCaslin, Dublin
B.A. (Saint Louis University)
M.A.
Psychology
Dr. Richard Petty

Laura S. McCloud, Lebanon
B.A. (University of Cincinnati)
M.A.
Sociology
Dr. Rachel Dwyer
Dr. Robert Kaufman

Christopher G. McDaniel, Colorado Springs, CO
B.S.
Chemistry
Dr. Jonathan Parquette

Amy Marie McKinney, Marion
B.S. (Muskogum College)
Evolution, Ecology, and Organismal Biology
Dr. Karen Goodell

Natsuko Nakano Merrick, East Rochester
B.A. (Waseda University)
M.S. (Yale University)
Soil Science
Dr. Warren Dick

Anne Michelle Mitchell, Canton, MI
B.S. (Grambling State University)
M.A.Ed. (University of Minnesota, Twin Cities)
Women’s Studies
Dr. Jacqueline Rosyter

Alexander Mason Morison, Pittsburgh, PA
B.S.Honors (Case Western Reserve University)
M.S.
Industrial and Systems Engineering
Dr. David Woods

B.F.A.
Public Health
September 17, 2010 meeting, Board of Trustees

**Master of Science**

**Daniel Joseph Anco,** Wooster  
B.S. (Lewis University)  
*Plant Pathology*

**Ian James Ausprey,** Whiting, ME  
B.A. (Middlebury College)  
*Environment and Natural Resources*

**Huseyin Ayvaz,** Turkey  
Diploma (Cukurova University)  
*Food Science and Technology*

**Marion Badal,** Columbus  
B.S., M.S. (California State University, Fresno)  
*Physics*

**Brett J. Barker,** Sidney  
*Aeronautical and Astronautical Engineering*

**Tamara Lee Beilke,** Lake Village, IN  
B.S. (Saint Louis University)  
*Chemistry*

**Vivek Bharathan,** Chennai, Tamil Nadu, India  
B.Eng. (University of Madras)  
*Computer Science and Engineering*

**Ushasree Bommu,** Hyderabad, India  
B.Tech. (Pondicherry University)  
*Electrical and Computer Engineering*

**Jonathan Ray Bradley,** Chazy, NY  
B.S. (Rochester Institute of Technology)  
*Statistics*

**Melissa A. Brown,** Morral  
B.S.Nurs.  
*Allied Medical Professions*

**Acacia J. Brunett,** Portage, PA  
B.S. (Juniata College)  
*Nuclear Engineering*

**Christine Ann Bryant,** Beavercreek  
*Electrical and Computer Engineering*

**Di Cao,** Shanghai, China  
B.S. (Fudan University)  
*Computer Science and Engineering*

**Andrew M. Carlin,** Troy  
*Electrical and Computer Engineering*

**Turhan Kendall Carroll,** Newport News, VA  
B.S. (North Carolina State University)  
*Physics*

**Hardy Zingalaoa Castada,** Philippines  
B.S. (University of the Philippines)  
*Chemistry*

**Yunhang Chen,** Columbus  
B.Eng. (Wuhan University)  
*Geodetic Science and Surveying*

**Karthiyayini Chinnaswamy,** Coimbatore, India  
B.Eng. (Anna University)  
*Computer Science and Engineering*

**Chaitanya Shrikant Chitale,** Columbus  
B.Tech. (Visvesvaraya National Institute of Technology)  
*Computer Science and Engineering*

**Daeyoung Choi,** Jecheon, Korea  
*Electrical and Computer Engineering*

**Robert Bradley Cooley,** Oklahoma City, OK  
B.S.Mech.Eng. (Oklahoma State University)  
*Mechanical Engineering*

**Hannah Elizabeth Cummings,** Gahanna  
B.S.  
*Microbiology*

**Tyson Edward Davis,** Delaware  
B.A.  
*Nursing*

**Ying Ding,** Nanchang, China  
B.S.Civ.Eng. (Northern Jiaotong University, Beijing)  
*Civil Engineering*

**Maghee Frances Disch,** Delaware  
B.A. (John Carroll University)  
*Nursing*

**John Stephen Drabison,** Austintown  
*Mechanical Engineering*

**Hang Fan,** Beijing, China  
B.S.Biol.Sci. (Tsinghua University)  
*Evolution, Ecology, and Organismal Biology*

**Yongjia Fan,** Baotou, China  
B.S.Chem.Eng. (Zhejiang University)  
*Chemical Engineering*

**Monica A. Farfan,** Columbus  
B.F.A., B.S.  
B.F.A. (School of the Art Institute of Chicago)  
*Evolution, Ecology, and Organismal Biology*

**Salvatore Florio,** Gissi, Italy  
B.A. (University of Florence)  
*M.A. Mathematics*

**Timothy B. Followell,** Paducah, KY  
B.S. (Murray State University)  
*D.D.S. (University of Kentucky) Dentistry*

**Erik Alan Fraza,** Romeo, MI  
B.S. (Central Michigan University)  
*Atmospheric Sciences*

**Amrita Ghosh,** Jhargram, India  
B.Eng. (Vidyasagar University)  
*Electrical and Computer Engineering*

**Rachel E. Gibson,** Middletown  
B.A.  
*Nursing*

**Shivraman Giri,** Columbus  
B.Eng. (University of Mumbai)  
*Biomedical Engineering*

**Shane Lance Glasgow,** Laborie, St. Lucia  
B.S.Hons (Benedict College)  
*Biochemistry*

The Ohio State University Office of Human Resources has prepared proposed amendments, deletions, and additions to the rules that govern classified civil service (CCS) employment at the university. The CCS rules were last revised in total in 2001; with recruitment, selection, and appointment related rules revised in June 2009; reduction in force rules revised in October 2009; and performance management, removals, suspensions, and demotions revised in February 2010. Since 2001, various statutory changes have occurred that necessitate further revision of these rules.

**Revisions**

The language and content throughout the rules have been revised in the following manner:

− The language is clarified and made grammatically correct;
− The rules are updated to be consistent with university policies and practices;
− The rules are renumbered given rescinded and new rules; and
− The rules are updated to streamline processes, enhance our efficiency and effectiveness, and provide more effective classification and compensation and general management of Classified Civil Service employees.

Key changes include:

− Classified Civil Service titles will be maintained on the Office of Human Resources job title website rather than listed in the Classified Civil Service rules.
− Employees retain certification status for 12 months after leaving a classification.
− University policy will designate days eligible for holiday premium pay.
− The university may establish holiday compensation and holiday premium pay programs at its discretion.

Following is a summary that provides a brief explanation of all changes made to the rules, chapter by chapter.
Chapter 49: Procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at the Ohio state university and opting out of provisions of the Ohio Revised Code (Entire chapter updated)

**No changes**

3335-49-01 Procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at the Ohio state university.

3335-49-02 To the degree that new rules have been adopted, they supersede any statute covering the subject matter in accordance with HB187.

**Revised**

3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

**Adopted new rule**

3335-49-04 The Ohio state university opts out of the following provisions of the Ohio Administrative Code:

**Key revision**

3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

- Section 124.14 of the Revised Code, job classification – pay ranges.

**Key aspects of adopted rule**

3335-49-04 The Ohio state university opts out of the following provisions of the Ohio Administrative Code:

Chapter 51: Reclassifications, Certification (Entire chapter updated)

**Revised**

3335-51-04 Retention of certified status.

**Revised and/or rescinded and revised**

3335-51-01 Position audits and reclassifications.

3335-51-03 Certified status.

**No change**

3335-51-02 Notification of employees.
September 17, 2010 meeting, Board of Trustees

3335-51-05 Determination of classifications with same or similar duties.

**Key revisions**

3335-51-01 Position audits and reclassifications.
- When an audit is conducted, employees will not be able to refuse the reclassification.
- The Office of Human Resources will determine the classification within four weeks of receipt of the request.
- Effective date of the reclassification is the first day of the pay period following the final decision.
- Position audits will not be conducted on temporary positions, or for those employees serving probationary periods, on leaves of absence, on disability separation, or the subject of a reduction in force.

3335-51-03 Certified status.
- When there is no probationary period, certified status is obtained upon completion of 180 days with satisfactory performance.
- Certification is retained for 12 months after leaving a classification.
- An employee with certified status may displace into a former classification held within the last 12 months.

Chapter 55: Classification Program (Entire chapter updated)

**Revised**

3335-55-01 Classification of positions.
3335-55-04 Specifications.
3335-55-05 Appropriateness of duties.
3335-55-06 Changes in the pay ranges or classification plan.

**Rescinded and revised**

3335-55-03 Classification plan.

**Rescinded**

3335-55-02 Parenthetical sub-titles.
3335-55-07 Phasing in of broadbanded classification plan.
3335-55-08 Broadbanded classification plan.

**Key revisions**

3335-55-01 Classification of positions.
- All CCS titles will be available on the Office of Human Resources job title website.
3335-55-03 Classification plan.
- All CCS titles will be available on the Office of Human Resources job title website rather than in the CCS rules.
3335-55-04 Specifications.
- Contents of specifications are no longer listed in the rule.
- Specifications will no longer be filed with the Secretary of State.
3335-55-06 Changes in the pay ranges or classification plan.
- New and revised classifications will no longer be filed with the Secretary of State.

Chapter 67: Probationary Period (One rule updated)

**Revised**

3335-67-02 Length of the probationary period.
- Time on paid leaves exceeding two weeks and on any unpaid leave are not credited as part of the probationary period.
Chapter 73: Leave Policies (Two rules updated)

*Revised*

3335-73-05 Involuntary disability separation.
3335-73-06 Voluntary disability separation.

Employees on voluntary and involuntary disability separation can apply for reinstatement within two years from the date of separation.

Chapter 81: Reduction in Force. (Two rules updated)

*Revised*

3335-81-05 Displacement procedures.

*Adopted*

3335-81-12 Alternatives to layoff during a disaster.

**Key aspects of adopted rule**

3335-81-12 Alternatives to layoff during a disaster.

If a disaster occurs as contemplated under the Disaster Leave Policy, and there is a lack of work or lack of funds due to the disaster, the university may find alternatives to layoff. Such alternatives may include providing compensation at a different rate of base pay, reducing an employee’s work schedule, etc.

Chapter 83: Payroll and Compensation (Entire chapter updated)

*Revised*

3335-83-04 Temporary pay adjustment.
3335-83-05 Overtime compensation.
3335-83-07 Holiday compensation and premium pay (was Holiday compensation).
3335-89-01 Definition of terms.

*Rescinded*

3335-83-02 Recognition of exemplary performance.
3335-83-08 Holiday premium pay.

**No changes**

3335-83-01 Pay ranges and payroll.
3335-83-03 Call-back pay.
3335-83-06 Compensatory time.

**Key revisions**

3335-83-07 Holiday compensation and premium pay.

The university may establish additional or alternative holiday compensation and premium pay programs.

Chapter 89: Definition of terms (Entire chapter updated)

*Revised*

3335-89-01 Definition of terms.

Definitions are re-lettered due to additions and deletions.

The following definitions are deleted: broadbarding, notice level, parenthetical sub-title.

The following definitions are revised: displace or displacement.
Classified Civil Service Staff at Ohio State

According to OHR’s Employee Statistical Summary for autumn 2009, Ohio State had 40,744 employees; 5,455 were in the classified civil service. All CCS positions are listed on the Office of Human Resources Job Classifications website at http://hr.osu.edu/statistics/titledck/index.aspx.

CCS employees who are certified in their positions (successfully completed probationary period) are entitled to certain job-related property rights. These property rights require that appropriate due process measures are in place, with an adequate appeals process, before an employee can be demoted, subjected to job abolishment or layoff, placed on leave for disciplinary purposes, suspended for a number of days, or discharged for appropriate cause.

Classified Civil Service Rules

CCS Rules provide the framework for classified civil service employment at Ohio State; further detail is provided through Office of Human Resources policies. Rules are subject to adoption by the Board of Trustees and become a part of the Ohio Administrative Code (section 3335).

CCS Rules can be found at http://hr.osu.edu/Policy/CCS/index.aspx
Human Resources Policies can be found at http://hr.osu.edu/policy/

CCS Rules Amendment Process

In December 2006, the Ohio General Assembly passed Substitute House Bill 187, an effort to reform Ohio’s laws governing civil service employment. This Act gives our Board of Trustees the authority to amend provisions of CCS rules governing Ohio State employees. All CCS Rules are promulgated in accordance with section 111.15 of the Ohio Revised Code.

The Office of Human Resources (OHR) has a strong commitment to an inclusive and transparent rules change process. The amendment process for CCS rule changes takes at least 90 days to develop and refine; after the rules are finalized, university policies and practice documents must be updated to reflect the changes in the rules. The process OHR is following for these rules amendments is as follows:

1. Solicit input and advice from CCS staff through the CCS Modernization Advisory Group, and from all CCS staff through e-mail updates.
2. Solicit input and advice from the Human Resource Policy Committee, campus senior HR professionals, and content experts in the Office of Human Resources.
3. Draft rules with input and process goals in mind.
4. Solicit feedback and advice from CCS Modernization Advisory Group, Human Resource Policy Committee, and senior HR professionals.
5. Refine rules and review with Office of Legal Affairs.
6. Share rules with Communications Workers of America (required by contract 75 days in advance of public comment period).
7. Publish rules on OHR website for 30 days, soliciting feedback from CCS staff, managers of CCS staff, campus HR professionals, and the general campus community. Conduct four open forums during the 30 day period to review key changes and listen to feedback.
8. Refine the proposed rules as appropriate, based on input received during the public comment period. Solicit additional feedback and advice from various populations as needed.
9. Review final rules with the Office of Legal Affairs.
10. Submit to the Board of Trustees for approval; after approval, the Board Office submits to the Legislative Services Commission of Ohio.
11. Update policies and practices as appropriate.
12. Implement rules, policies, and practice changes on the effective date.
13. Provide training and education on new rules, policies, and practices.

Goals in CCS Rules Amendment Process

Our goals in the CCS Rules Amendment Process are to:
− Support Ohio State’s move to a high performance culture,
− Support Ohio State’s six strategic goals, with special attention to goal of streamlining and efficiency,
− Ensure consistency with our institutional values, and
− Streamline CCS processes.

Planned Sequence in CCS Rules Amendment Process

FY09 – Recruitment, Selection and Appointments (effective date July 10, 2009)
FY10 – Layoff and Reduction in Force Processes (effective date January 1, 2010)
FY10 – Performance, Discipline and Disciplinary Processes (effective date April 1, 2010)
FY10/11 – Classification and Compensation Plans (effective date December 1, 2010)
FY11/12 – Leaves and final rules clean-up (target effective date to be determined)
Definitions and opt out provisions will be updated with each set of rules
Amendments to the Classified Civil Service Rules

3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

(A) Section 124.14 of the Revised Code, job classification – pay ranges.
(B) Section 124.22 of the Revised Code, educational and citizenship requirements for civil service examinations.
(C) Section 124.231 of the Revised Code, special examinations for legally blind or legally deaf persons.
(D) Section 124.25 of the Revised Code, formal application for examination.
(E) Section 124.26 of the Revised Code, eligibility lists – veteran’s preference – provisional employees.
(F) Section 124.27 of the Revised Code, appointments from eligibility list-probation.
(G) Section 124.271 of the Revised Code, provisional employees.
(H) Section 124.31 of the Revised Code, promotions.

3335-49-04 The Ohio state university opts out of the following provision of the Ohio Administrative Code:

(A) Chapter 123: 1-3 of the Administrative Code, position audits and changes to classification plan
(B) Chapter 123: 1-5 of the Administrative Code, classified and unclassified service classification
(C) Section 123:1-7-04 of the Administrative Code, specifications
(D) Chapter 123: 1-10 of the Administrative Code, automatic certification
(E) Chapter 123: 1-25 of the Administrative Code, transfers, reinstatements, and seasonal promotions
(F) Chapter 123: 1-27 of the Administrative Code, suggestion award system
(G) Chapter 123: 1-28 of the Administrative Code, combined charitable campaign
(H) Chapter 123: 1-35 of the Administrative Code, payroll
(I) Chapter 123: 1-37 of the Administrative Code, pay supplements
(J) Chapter 123: 1-43 of the Administrative Code, overtime and compensatory time
(K) Chapter 123: 1-44 of the Administrative Code, holidays
(L) Chapter 123: 1-47 of the Administrative Code, definitions
September 17, 2010 meeting, Board of Trustees

3335-51-01 Position audits and reclassifications.

(A) The university may initiate audits and reviews of positions and classifications.

(B) An employee may request from the office of human resources a review for the purposes of determining whether a position is properly classified. An employee may request only one position review per twelve month period.

(C) When an audit or review is conducted, the following sources for that investigation include, but are not limited to, any employee, an employee’s authorized representative, or college/department officer. When the office of human resources finds that inequities or improper classifications of positions exist, appropriate remedial steps may be taken to provide a more equitable, just and proper classification. The affected employee(s) shall be given a written notice of the decision of the audit or review and:

1. Shall notify the office of human resources, in writing, of the employee’s election with respect to accepting or rejecting a reclassification as a result of a job audit within ten days of receipt of the notice of the classification change. If such notification is not received by the office of human resources by the tenth day, the employee shall be deemed to have accepted the reclassification; or

2. May refuse the reclassified position, in which case the employee shall retain certification in that classification, and the office of human resources shall assign such employee to a position that has duties commensurate with the employee’s classification. If the former position is no longer used by the university, such position shall be abolished in accordance with Chapter 3335-81 of the Administrative Code.

(D) If a position is reclassified outside the original classification series as a result of an audit or review, the incumbent’s probationary period is waived for the new classification.

(E) Whenever a position reclassification determination is made, the office of human resources shall provide written notice to the employees. The effective date of such change shall be four weeks after receipt of the request in the office of human resources, or the date of conclusive determination, whichever is earlier shall determine the classification within four weeks of receipt of the request. The effective date shall be the first day of the pay period following the conclusive determination. An employee may appeal the decision to the state personnel board of review within thirty days of receipt of the decision.

(F) Position audits will not be performed when deemed not appropriate by the office of human resources. Such circumstances may include but not be limited to when the incumbent is serving in a temporary appointment, a probationary period, on a leave of absence, receiving disability leave benefits, or the subject of a reduction in force.

3335-51-03 Certified status.

(A) An employee appointed from an eligible list achieves certified status in that classification after serving the probationary period for that classification as stated in rule 3335-67-02 of the Administrative Code. When there is no probationary period, employees obtain certified status in the classification upon the completion of 180 days with satisfactory performance.
September 17, 2010 meeting, Board of Trustees

(B) An employee provisionally appointed achieves certified status in that classification in accordance with the provisions of rule 3335-65-11 of the Administrative Code.

(C)(B) Certified status is not available to employees who serve at the discretion of the appointing authority.

3335-51-04 Retention of certified status.

(A) An employee with certified status who receives a classification change shall retain certified status in the new classification if:

(1) The change is due to a change in the classification plan,

(2) The change is to the same or a lower classification within the classification series, or

(3) The reclassification is to a classification, if any, determined by rule 3335-51-05 of the Administrative Code to be a classification with duties the same as or similar to those of the classification held by the employee immediately prior to the classification change, or

(4) The employee is reclassified as a result of a job audit or review, in which case the employee shall have certified status in the new classification without serving a new probationary period.

(B) At the discretion of the university, an employee with certified status may:

(1) Be re-employed or reinstated to the classification held at the time of separation within one year of separation from service; or

(2) Displace into a former classification held within the past five years twelve months pursuant to Chapter 3335-81 of the Administrative Code; or

(3) Accept an unclassified appointment, at which time certified status expires.

(C) An employee who achieves certified status in a classification will retain it for twelve months after leaving the classification.

(D) An employee with certified status may accept an unclassified appointment at which time certified status expires.

3335-55-01 Classification of positions.

All positions in the classified service at the Ohio state university are placed in classifications in Chapter 3335-55 of the Administrative Code listed in the university classified civil service title group found on the office of human resources web site, except those exempted by law.

3335-55-02 Parenthetical sub-titles. RESCIND

When the university determines that the positions classified under any one classification include a greater variety of duties and skills than could be tested by a single uniform examination, the university may establish parenthetical sub-titles to indicate the specialized nature of positions within the general classification. Such parenthetical titles shall describe the duties performed and shall not operate to alter the pay range assignment of any.
September 17, 2010 meeting, Board of Trustees

employee. The university shall not require any employee to submit to an additional examination due to an assignment of a parenthetical sub-title to that classification.

3335-55-03 Classification plan. RESCIND

(A) The university shall establish, modify, or repeal, by rule, a job classification plan for all positions, offices, and employment in the classified civil service.

(B) The university shall assign a classification title to each classification within the classification plan.

(C) The university shall assign each classification to a pay range established under Chapter 3335-83 of the Administrative Code.

(D) The university shall assign a numbering system for the classification process.

(E) The following are the classifications to which the university shall assign all positions within the classified service which have not yet been reclassified under the broadbanded classification plan in rule 3335-55-08 of the Administrative Code:

3335-55-04 Specifications.

(A) The university shall prepare specifications for each classification in the classified service. Specifications shall include a listing of any parenthetical sub-titles, if any are established for the classifications. A copy of each specification shall be filed with the secretary of state. The qualifications listed in the specifications shall be followed in determining admittance to competitive or non-competitive examinations. Where parenthetical sub-titles have been established, such sub-titles shall be included in the announcement of examinations.

(B) Each classification title in rules 3335-55-03 and 3335-55-08 of the Administrative Code shall have a corresponding classification specification that sets forth the function statement and minimum qualifications. The function statement shall set forth the mandatory primary duties that must be satisfied at least fifty per cent of the time, unless otherwise stated in the function statement.

(C) For the purpose of classifying positions and making job audit or review decisions only, wherever the word “supervises” appears in a classification specification, unless otherwise defined in the specification, “supervises” means that an employee assigns and reviews work, completes employee performance management procedures, rewards exemplary employee performance, recommends disciplinary action, and adjusts grievances, and requires the use of independent judgment in exercising authority.
September 17, 2010 meeting, Board of Trustees

3335-55-05 Appropriateness of duties.

Classifications. Duties performed shall be appropriate to the position based on function statement and duties performed in the specification. The appointing authority university can assign duties properly belonging to the employee’s position and as may be required due to temporary characteristics of the work situation.

3335-55-06 Changes in the pay ranges or classification plan.

The university may reassign the pay ranges of classifications and add, modify, or delete classifications. New classifications created pursuant to this rule shall be assigned to one of the established pay ranges. All new or revised classifications must be filed with the secretary of state.

3335-55-07 Phasing in of broadbanded classification plan. RESCIND

The university shall implement a broadbanded classification plan in phases. The classification plan stated in rule 3335-55-03 of the Administrative Code shall continue to govern those areas of the university where broadbanding has not become effective. Where the broadbanded classification plan is in effect, rule 3335-55-08 of the Administrative Code shall govern.

3335-55-08 Broadbanded classification plan. RESCIND

(A) The university shall establish, modify, or repeal, by rule, a job classification plan for all positions, offices, and employments in the classified civil service.

(B) The university shall assign a classification title to each classification within the classification plan.

(C) The university shall assign each classification to a pay range established under Chapter 3335-83 of the Administrative Code.

(D) The university shall assign a numbering system for the classification process.

(E) The following are the classifications to which the university shall assign positions within the classified service which have been reclassified under the broadbanded classification plan and are no longer subject to the classification plan in rule 3335-55-03 of the Administrative Code:

3335-67-02 Length of the probationary period.
The probationary period for full time and part time classified civil service employees is one hundred seventy nine calendar days. Longer probationary periods, not to exceed one year, may be specified by the university. Time spent on paid leaves that exceed two weeks, and leaves of absence or layoff are not credited as part of the probationary period.

3335-73-05 Involuntary disability separation.

(A) through (D) no change.

(E) An employee on disability separation shall be reinstated to the same or similar position within thirty days after a written application for reinstatement. Such application for reinstatement shall be filed within three two years from the date of separation and shall not be filed after the date of service eligibility retirement. A complete reinstatement application must include a certificate from a licensed practitioner designated by the university who has examined and verified that the employee is able to perform the essential functions of the job. The university shall pay for the examination. If the employee was granted disability retirement, a licensed practitioner designated by the public employee retirement board shall conduct the examination.

3335-73-06 Voluntary disability separation.

An employee who is unable to perform the essential job duties of the position due to a disabling illness, injury, or condition may request a voluntary disability separation. A voluntary disability separation occurs when an employee does not dispute the inability to perform the essential job duties of the position.

(A) through (C) no change.

(D) An employee on disability separation shall be reinstated to the same or similar position within thirty days after a written application for reinstatement. Such application for reinstatement shall be filed within three two years from the date of separation. A complete reinstatement application must include a certificate from a licensed practitioner designated by the university who has examined and verified that the employee is able to perform the essential functions of the job. The university shall pay for the examination. If the employee was granted disability retirement, a licensed practitioner designated by the public employee retirement board shall conduct the examination.

3335-81-05 Displacement procedures.

(A) An employee who was laid-off or whose position was abolished and elects to exercise displacement shall fill be placed into a vacancy or displace the employee with the fewest retention points provided in all instances that the employee meets the qualifications of that position, can perform the required duties, and has met expectations in the last three annual performance reviews. Employees who have not met performance expectations in the last three annual performance reviews and who have been given specific steps for improvement, or who are on major corrective action do not have displacement rights. Displacements will occur as follows:

(B) The process will occur as follows:

(1) Within Placement into a vacancy within the employee's classification.
September 17, 2010 meeting, Board of Trustees

(2) Within Placement into a vacancy within the next lower classification and each successively lower classification in the employee's classification series.

(3) Within a classification that has the same or similar duties as the classification from which the employee was laid off.

(4) Within Placement into a vacancy within the classification the employee held immediately prior to holding the classification from which the employee was laid off, provided:

(a) That the previous classification is of a lower or equivalent classification;

(b) The employee had achieved certified status in the former classification;

(c) The employee held the classification within the previous twelve months;

(d) The employee can perform the minimum required functions of the position at the time of placement.

(4) If no vacancy exists as described above, the employee will displace the individual with the fewest retention points in the classification from which they were laid off.

(5) If no vacancies are available or and the employee is unable to displace due to having the fewest retention points in the classification series from which they were laid off or lack of qualifications, then the employee will be laid off.

(B)(C) If, after exercising displacement, an employee is subject to further layoff action, displacement shall be in accordance with the current or most recent certified classification, at the discretion of the office of human resources.

(C) Employees who elect to exercise displacement shall displace only those employees with fewer retention points. If an employee exercises displacement rights, the office of human resources shall first determine if a vacancy exists. If a vacancy exists and the employee meets the qualifications of the position, can perform the required duties, and has met expectations in the last three annual performance reviews, the employee will be placed in the vacancy. If no vacancy exists, displacement will occur in accordance with rule 3335-81-05 of the Administrative Code.

(D) and (E) no change.

(F) If, as a result of layoff, placement or displacement, an employee is serving in a new position or classification, such employee shall be paid according to the target hiring range assigned to the new position or classification.

Balance unchanged.

3335-81-13 Alternatives to layoff during a disaster

If a disaster occurs as contemplated under the Disaster Leave Policy, and there is a lack of work or lack of funds due to the disaster, the university may, at its discretion, find alternatives to layoff. Such alternatives may include, but not be limited to,
providing compensation at a different rate of base pay or reducing an employee’s work schedule.

3335-83-02 Recognition of exemplary performance. RESCIND

A college/department may recognize exemplary employee performance. Employee rewards may include cash awards, additional leave, or other provisions as the university considers appropriate.

3335-83-04 Temporary pay adjustment.

(A) An employee who is temporarily assigned to duties of a position with a higher pay range than the employee's assigned pay range is eligible for a temporary pay adjustment, which increases the employee's regular base rate of pay to the greater of:

(1) the classification salary base rate of pay of the higher level position, or

(2) five per cent above the employee's regular base rate of pay.

(B) This temporary pay adjustment shall be for a minimum of two weeks and a maximum of one hundred eighty-seven-nine days, except when made necessary by reason of sickness or disability of a regular employee, when the adjustment may continue for the length of sickness or disability.

3335-83-05 Overtime compensation.

When a non-exempt classified civil service employee is required by an authorized administrative authority to be in an active pay status more than forty hours in any calendar week, the employee shall be compensated for such time over forty hours at one and one-half times the base rate of pay. Such compensation for overtime work shall be paid no later than at the conclusion of the next succeeding pay period. No overtime can be paid unless it has been approved by the authorized administrative authority.

3335-83-07 Holiday compensation.

(A) Full-time classified civil service employees shall receive holiday pay for holidays observed by the university and shall not be required to work on those holidays, unless failure to work on such holidays would impair department service.

(B) If an employee’s work schedule is other than Monday through Friday, the employee shall receive holiday pay for holidays observed on the employee’s day off regardless of the day of the week on which the holidays are observed. A full-time employee shall receive eight hours of pay for each holiday regardless of the employee’s work shift and work schedule. Part-time employees shall be paid holiday pay for that portion of any holiday for which they would normally have been scheduled to work.

(C) A non-exempt classified civil service employee who is in active pay status for more than forty hours per week and who is required to work on a day designated by university policy as one eligible for holiday premium pay shall be entitled to holiday premium pay for such time worked:

(1) At the employee's base pay in addition to one and one-half times the base rate of pay; or

(2) At the employee's base pay in addition to compensatory time off at time and one-half.
The university may establish holiday compensation and premium pay programs that supersede any other program defined in this section, at its discretion. When such programs are established, the university will provide notice to all affected employees.

3335-83-08 Holiday premium pay. RESCIND

A non-exempt classified civil service employee who is in active pay status for more than forty hours per week and who is required to work on a day observed as a holiday by the university shall be entitled to pay for such time worked:

(A) At the employee's base pay in addition to one and one-half times the base rate of pay; or

(B) At the employee's base pay in addition to compensatory time off at time and one-half.

3335-89-01 Definition of terms.

For the purposes of Chapters 3335-49 to 3335-89 of the Administrative Code, the following terms are defined as follows:

(A) "Abolishment" - the elimination of a position due to lack of funds, lack of work, reasons of economy, or a reorganization for efficiency.

(B) "Appointing authority" - the board of trustees for the university has delegated its authority regarding civil service employment matters to the vice president for human resources.

(C) "Appointment" - the administrative process of placing a university employee on the payroll.

(D) "Base rate of pay" - the actual salary or wage an employee receives for services rendered within the pay range of the classification.

(E) "Broadbanding" - one of the university's classification and compensation systems characterized by broader classifications, pay ranges, simplified classification administration, and market-based compensation administration.

(F) "Certified status" - a classified civil service status obtained for a specific classification upon satisfactory completion of the applicable probationary period or, when there is no probationary period, upon completion of 180 days in the specific classification with satisfactory performance.

(G) "Classification" - common name for a group of positions sufficiently related with respect to duties, responsibilities, authority and qualifications so that the same descriptive classification title and same pay range may be used for each.

(H) "Classification plan" - a system of classifications or series of jobs, with a specification and pay range assignment for each classification.

(I) "Classified civil service" - all positions with a title under the Ohio state university's classified civil service title group, found on the office of human resources web site. Any position not included in this group is not classified civil service.

(J) "Day" - unless otherwise specified, "day" means one calendar day.
"Demotion" - placement of an employee in a classification that has a lower pay range than that previously held.

"Displace" or "displacement" - the exercise of the procedures outlined in Chapter 3335-81 of the Administrative Code that results in the substitution of one employee by another employee with higher retention points who can perform the required duties, has met expectations in the last three annual performance reviews, and is not on major corrective action.

"Emergency appointment" - an appointment to a position to meet an emergency situation, an exception from civil service rules, not to exceed a maximum of 179 days.

"For cause" – a type of termination from employment for one or more of the following reasons: incompetency, inefficiency, dishonesty, use or being under the influence of alcohol or illegal drugs at work or inappropriate use of prescription drugs, immoral conduct, insubordination, discourteous treatment of the public, neglect of duty, violation of university rules or policies, any other failure of good behavior, any other acts of misfeasance, malfeasance, or nonfeasance in office, or conviction of a felony.

"Full-time employment" - employment where the work schedule is normally forty hours per week.

"Intermittent employment" - an appointment which serves at the discretion of the appointing authority and where the employee works irregular hours or days on an as-needed basis.

"Jurisdiction" - the limited location in which procedures for layoff, displacement, and reinstatement may be exercised. The Columbus campus, excluding the medical center; the medical center; each regional campus; and the agricultural technical institute and Ohio agricultural research and development center are each separate and distinct jurisdictions. Units located outside of Columbus in a county where a regional campus is located are part of that jurisdiction, otherwise, the jurisdiction is limited to that county only. Units located outside of Ohio are each their own jurisdiction.

"Lack of funds" – a current or projected deficiency of funding to maintain current, or to sustain projected, levels of staffing and operations. A lack of funds shall be presumed for a position assigned to an employee who works under a grant if it is reduced or withdrawn.

"Lack of work" – current or projected decrease in workload that requires a reduction of current or projected staffing levels in the organization or its structure.

"Leave of absence" – a temporary separation from active pay status with the employee generally retaining employment status and seniority.

"Licensed practitioner" - a physician, psychiatrist, or psychologist who is licensed to perform medical or psychological examinations.

"Major corrective action" – any corrective action at the third level notice or above or in accordance with collective bargaining agreements.

"Medical center" – includes the James cancer hospital and Solove research institute, office of health sciences and college of medicine, OSU Harding hospital, OSU primary care network, OSU rehabilitation services at Dodd 137
September 17, 2010 meeting, Board of Trustees

hall, Ross heart hospital, shared services, specialty care network, university hospital and university hospital east.

(X) "Notice level" – a step in the performance improvement process.

(Y)(W) “Original appointment” - an individual’s first classified civil service appointment with the university.

(Z) “Parenthetical sub-title” - a group of positions logically falling within a single classification, but distinguished from other positions within that classification by the performance of specific functions or duties requiring specialized skill, knowledge or training.

(AA)(X) “Part-time employment” - employment where the work schedule is normally less than forty hours per week.

(BB)(Y) “Pay range” - a division of a pay plan to which classifications are assigned.

(CC)(Z) “Position” - a specific job requiring the performance of certain duties and responsibilities by an employee.

(DD)(AA) "Pre-employment screening“ – process of collecting information about individuals to assess job qualifications or fitness for duty. Specific examples include background checks, drug tests, and declaration of material assistance, among others.

(EE)(BB) “Probationary period” - a period of time at the beginning of an original appointment, a promotion, or a lateral change from one classification to another that constitutes a trial or testing period for the employee, during which the employee may be terminated or returned to the former classification.

(FF)(CC) “Promotion” - placement of an employee in a vacant position in a classification that has a higher pay range than that previously held.

(GG)(DD) “Reassignment” - an involuntary temporary or permanent move of employment within the same or similar classification and/or work location within the same jurisdiction of the university.

(HH)(EE) “Reclassification” - the act of changing the classification of an existing occupied position.

(II)(FF) “Reduction in force” - a decrease in the number of positions at the university’s initiative due to a lack of funds, lack of work, reasons of economy, or reorganization for efficiency.

(JJ)(GG) “Regular employment” - employment which customarily requires the services of an employee on a regularly scheduled and continuing basis.

(KK)(HH) “Reinstatement” - the act of returning a former employee to the same or similar position within the university classified civil service, following a period of not more than one year of separation.

(LL)(II) “Reorganization for efficiency” – current or projected decrease in workload that requires a reduction of current or projected staffing levels in an organizational structure; change in the nature of the work or direction or purpose of the unit; or elimination of a unit.
September 17, 2010 meeting, Board of Trustees

(MM)(JJ)“Seasonal employment” - regular employment where the service reoccurs for a specified period of time during a particular time of the year.

(NN)(KK)“Specification” - a composite of the duties and requirements of a classification.

(LL)(OO)“Target hiring range” – is established prior to posting a position based upon budgeted funds for the position, identified skills and/or experience, salaries paid within the college or vice president unit for similar positions, organizational scope and an assessment of the relevant competitive market. The target hiring range should normally have a spread of $3,000 to $8,000; the range may vary based on the circumstances at the time of posting.

(MM)(PP)“Temporary employment” - an appointment that serves at the discretion of the appointing authority and:

1. Is for a limited duration;
2. Is for a specific project;
3. Augments regular staff due to increased workloads or staff shortages; or
4. Replaces a regular employee during an absence due to illness, leave of absence or vacation.

(NN)(QQ)“Termination” - the involuntary ending of an employee's employment with the university.

(OO)(RR)“Transfer” - a voluntary move of employment as a result of an application for a different position.
3335-43-08 Organization of the medical staff.

(A) Each member of the attending medical, courtesy A and B medical, community affiliate medical, limited, and physician scholar medical staff shall be assigned to a clinical department and division, if applicable, upon the recommendation of the applicable chief of the clinical department.

(B) Names of clinical departments and divisions.

(1) through (3) no change.

(4) Internal medicine. The following divisions are designated:

- Cardiovascular medicine
- Dermatology
- Endocrinology, diabetes and metabolism
- Gastroenterology, hepatology and nutrition
- General internal medicine and geriatrics
- Hematology and oncology
- Hospital medicine
- Human genetics
- Infectious diseases
- Medical oncology
- Nephrology
- Pulmonary, allergy, critical care and sleep medicine
- Rheumatology - immunology

(5) and (6) no change.

(7) Obstetrics and gynecology. The following divisions are designated:

- General obstetrics and gynecology
- Maternal - fetal medicine
- Female pelvic medicine and reconstructive surgery
- Gynecologic oncology
- Reproductive Endocrinology - endocrinology and infertility
- Urogynecology

(8) through (16) no change.

(17) Surgery. The following divisions are designated:

- Cardiac surgery
- General and gastrointestinal surgery
- Pediatric surgery
- Plastic surgery
- Surgical oncology
- Thoracic and cardiovascular surgery
- Transplant
- Trauma, critical care and burn
- Vascular diseases and surgery

Balance unchanged.
The pharmacy and therapeutics and drug utilization committee shall be appointed in conformity with these bylaws and have representation from medical staff, nursing, pharmacy department, college of pharmacy, and hospital administration. The majority of members shall be members of the medical staff. The committee shall meet at least quarterly and carry out the following duties:

(A) through (H) no change.

(I) Create sub-committees, as follows: pharmacy and therapeutic and drug utilization executive sub-committee; policy and surveillance sub-committee; formulary sub-committee; antibiotic usage sub-committee; medical safety and policy sub-committee; and the therapeutic drug monitoring sub-committee.

Balance unchanged.

(APPENDIX V)

Project Data Sheet for Board of Trustees Approval

Sullivant Hall and Billy Ireland Cartoon Library & Museum
OSU-091418

Project Location: Sullivant Hall 74,000 ASF / 150,000 GSF

- approval requested and amount
  design authorization increase $3.0M

- project budget
  construction w/ contingency $19.2M
  other costs ( fees, mobilizing) $5.5M
  total project budget $24.4M

- funding sources
  state appropriations; development funds; department general funds

- project schedule
  design/bidding 01/10 – 10/11
  construction 10/11 – 06/13

- Framework context
  - planning for this project began before the Framework was conceived, during the Framework planning, Sullivant Hall was identified as a key building within the Arts District
  - project is consistent with general Framework principles of ensuring the academic mission drives the physical environment, matching building use to building typology, requiring projects to meet multiple goals, and improving wayfinding
  - project is also consistent with the vision for the Arts District, particularly in helping to make the district accessible to both campus and community

- project scope
  - renovate Sullivant Hall to create a new home for the Billy Ireland Cartoon Library & Museum, currently located in the Wexner Center; renovate space for the Department of Dance, Department of Art Education and the Music/Dance Library; upgrade for a 330 seat theater/lecture hall
  - improvements for the Department of Dance spaces will include dance studios, flexible teaching and office space; Department of Dance space in Pomerene will be relocated to the renovated Sullivant Hall
  - renovation work includes improving ADA access to the building; addressing building deferred maintenance; improvements to windows; roof replacement; tuck pointing of existing building exterior stonework; upgrading lobby entries, mechanical and electrical upgrades, and a new building fire suppression system
  - this project will pursue LEED silver certification per the Green Build and Energy Policy

- increase approval
  - design authorization was granted in June 2009; design authorization will increase from $2.7M to $3.0M
  - the additional scope increased the total project budget from $22.1M to $24.4M
  - the project scope is increasing to address building circulation and wayfinding including the elimination of redundant circulation paths to maximize building efficiency; improve building security, regularize core building functions such as elevators, stairs and restrooms, and create a more open and transparent building entry at the north
  - additional scope also includes a raised roof over the center portion of the second floor to create an opportunity for additional performance space
  - additional scope proposal was reviewed and endorsed by integrated Financial Planning

- project team
  University project manager: Nikolas Sevts
  A/E: Acero Associates Architects
  major contractors: fbd

Office of Administration and Planning September 2010
Core Campus Projects

- Sullivant Hall and Billy Ireland Cartoon Library & Museum
TOPIC:
FY 2011 Current Funds Budget

CONTEXT:
This is the final step in approval of the FY 2011 operating budget. This is based on the tuition and fee levels approved by the full Board in June.

SUMMARY:
Included are the following:

- A summary of the Current Funds Budget (Attachment 1)
- A description of what is included in the Current Funds Budget Document (now available on line at http://rpia.ohio-state.edu/cfb) (Attachment 2)
- FY 2011 Priorities (Attachment 3)
- What Happens Next (Attachment 4)

CONSIDERATIONS:
- Are the strategic drivers of the budget identified?
- Have the emerging issues for FY 2011 been presented?
- Is the calendar for the remainder of FY 2011 clear?
- Is there any additional information the Finance Committee would like to have?

REQUESTED OF THE FINANCE COMMITTEE:
Approval of the FY 2011 current funds budget.
September 17, 2010 meeting, Board of Trustees

FY 2011 Current Funds Budget

Summary

- This budget provides for an overall spending level of $4.7 billion for all campuses, all funds. This is an 8.6% increase over the FY 2010 budget.

- This budget provides for an overall increase of 8.7% in spending for Columbus Campus Current Funds. The largest increases will go to the colleges to support additional enrollments and for undergraduate student financial aid.

- Tuition increased per temporary law in the Biennial Budget Bill in Summer Quarter 2010 for State Fiscal Year 2010 and in Autumn Quarter 2010 for State Fiscal Year 2011.

- Major areas of programmatic emphasis include:

  - Targeted Investments in Excellence $ 8.5M
  - Semester Conversion $  4.0M
  - Systems, including SIS and Identity Management $11.3M
  - Development Support $  1.8M

- State SSI appropriations for the Columbus Campus will decrease $1.9 million or 0.5% compared to the FY 2010 initial budgeted level. Compared to final FY 10 SSI revenue, the initial FY 11 SSI funding will decrease approximately 0.9%. This is due primarily to enrollment growth at other universities and the addition of an academic risk component to the distribution model. Total state support will increase by $15 million or 2.9%, primarily due to expected increases in grants and contracts with the state of Ohio.

- State SSI appropriations for the Regional Campuses will decrease slightly in FY 2011. Line items will be reduced $2.0 million or 5%.

- Preliminary projections show the University will be able to meet its academic goals for FY 2011 under the parameters established in the state biennial budget bill, if appropriations are released as planned.

FY 2011 Budget Priorities

The FY 2011 Operating Budget advances the following priorities:

- **Students First**
  Funds Semester Conversion activities; Student Financial Aid in accordance with tuition, room and board increases and the increasing student profile; library acquisition funding and additional funding to support safety and security, including funding for the new Ohio Union security.

- **Faculty Success/Re-cast Research Agenda**
  Funds $8.5 million ($1 million in continuing funds, $7.5 million in cash funding) for Targeted Investments in Excellence (Year V of a five year, $50 million investment) and funds a 2.0% merit pool for salary increases.

- **Commit to Our Communities:**
  Strengthens the Offices of Outreach and Engagement and Commercialization.

- **Financial Stability:**
  Advances academic goals while maintaining sufficient flexibility to address continued economic uncertainty.

- **One University:**
  Aligns strategic objectives and strengthens enterprise-wide initiatives such as Sustainability, Physical Planning, Development, the Student Information System and IT Security.

THE OHIO STATE UNIVERSITY

OFFICIAL PROCEEDINGS OF THE

ONE THOUSAND FOUR HUNDRED AND FIFTY-FOURTH

MEETING OF THE BOARD OF TRUSTEES

Columbus, Ohio, October 28 and 29, 2010
October 29, 2010 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, October 28, 2010, at 8:34 am. He requested the Secretary to call the roll.

Mr. Wexner:

Good morning. I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 9:00 am.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding compensation and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. Hicks, seconded by Mrs. Kass, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, Chairman, Borror, O’Dell, Shumate, Hicks, Brass, Ratner, Marbley, Kass, Jurgensen, Reid, and Wadsworth.

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, October 29, 2010, at 9:00 am. He requested the Secretary to call the roll.

Mr. Wexner:

Good morning, I would like to reconvene the meeting of the Board of Trustees. So that we are able to conduct the business of this meeting in an orderly fashion, I would ask that the ringers on all cell phones be turned off at this time, and ask that all members of the audience observe rules of decorum proper to conducting the business at hand.

STUDENT RECOGNITION AWARD

Mr. Mitchell:

Today we will be recognizing two graduate professional students.

The first is Rebekah Browning. She is in the College of Medicine. Rebekah is a dual degree MD/PhD student. She hails from Findlay, Ohio where she attended Findlay High School before going on to Davidson College and receiving a degree in English.

After receiving her bachelor’s degree, Rebekah returned to Ohio and enrolled in the Premedical Post Baccalaureate Continuing Education Program at The Ohio State University to complete all of her premedical requirements. After completing this program, she was offered a job working as a research assistant for Dr. John Byrd, where she worked in the eight months preceding medical school.
After her second year of medical school, Rebekah was awarded the Howard Hughes Medical Institute Research Training Fellowship. This fellowship further cemented her goal to become a physician scientist and led to her application to the Medical Scientist Program. Rebekah’s research interests include cancer biology and immunology. Her current research project involves regulation of the Interleukin-21 receptor in malignant B cells. Outside of her professional interests, Rebekah enjoys reading, baking, and cheering for her beloved Columbus Blue Jackets.

Our second student is Heather Link who is in the Fisher College of Business. Heather is a MBA candidate in the Working Professionals Program. She is originally from Fredrickstown, Ohio and attended Fredrickstown High School. She earned a bachelor’s degree in Pharmaceutical Science with a minor in business from The Ohio State University. She also received a master’s degree in Pharmaceutics from Ohio State.

Heather is a full-time university employee working as the Assistant Director in the Office of Research for the College of Medicine and Office of Health Sciences. She is also the chair of the University Staff Advisory Committee and holds positions in the University Senate, the Health Plan Oversight Committee, and was asked recently to serve on the Regional Campus Cluster Support Team to help promote staff concerns at the university level. Heather is also one of 24 staff selected for the Women's Place Staff Leadership Series.

In the community, Heather serves as a volunteer for Meals-on-Wheels on all major holidays. In the past, she has served as a mentor to local youth and presently serves as a Live Strong Army Leader for the Lance Armstrong Foundation to promote cancer awareness and to provide support to local hospitals. She also participates in many community fundraisers such as Pelotonia and running events to raise money for local charities.

After graduation Heather plans to work in an academic medical center to help foster the development of novel therapeutics for the treatment of disease and to move those discoveries from the lab to the patient in a more effective manner.

We will now have remarks from Rebekah and then Heather.

Ms. Browning:

Thank you very much. It is an honor to be here today. I have had a lot of great role models that have helped me get to where I am today, so I would like to thank a few of those key people: first and foremost my parents who have encouraged me in every endeavor and set a great example of what you can accomplish through strong morals and hard work. I would also like to thank my mentors, John Byrd and Raj Muthusamy, who have exemplified a strong dedication to science and to helping their students fulfill their potential but most importantly never losing sight of why we do what we do and the patients whose lives we hope to better through creating better treatments.

I would also like to thank the University and the Board of Trustees. I was born at The Ohio State University Medical Center, so I am a Buckeye from birth, but today I am a proud Buckeye by choice, and it has been a privilege to be a part of this University. Thank you.

Ms. Link:

Good morning everybody, thank you Mr. Mitchell for the very kind words. I know that all of your time is valuable so I will make my remarks very brief. First I would like to thank Dean Poon in the Fisher College of Business for nominating me for this recognition. The Fisher community is comprised of many outstanding students that
October 29, 2010 meeting, Board of Trustees

are equally, if not more deserving of this recognition than I, so I am very humbled that I was selected.

I would also like to thank President Gee and the rest of The Ohio State University. I am very fortunate to work here as a full time employee, not only is it a wonderful institution to work at, I am also very privileged to go to school here as well.

I also want to thank a few key people in my life as well. I dedicate this to my grandfather, he is the man who raised me and taught me that hard work and dedication can truly take you anywhere. I would also like to thank my four year old daughter who makes me want to be a better person every day of my life; and then also the amazing friends and family that I have that surround me and support me in everything that I do. If it was not for them, I truly would not have accomplished what I have in my life. Thank you.

Mr. Wexner:

Before I call on Gordon to make his report, I thought I would kind of make a report and tell a story that relates to the University. I started to tell the story to Chris Poon this morning, and I said stick around, you have to hear this.

We have been doing business in China actively since 1977 and made investments in that country. We have an office in Shanghai, employing 100 people, about 300 people in Hong Kong and because of our early entry into that market in that part of the world - Taiwan, Korea, Hong Kong, China - pretty fluent, at least in remembering their history and knowing what is going on. We are looking now at expanding our retail business there. So that is the background.

I made a business trip to Shanghai, China and Hong Kong and then onto Istanbul, Turkey, and I pulled my second son out of school for a week because he is in his second year of Chinese language as an eighth-grader, so it was very interesting for him to spend a week with his dad and speak the languages. He was able to collect Buddha's and other artifacts and go to antique stores. It was really a neat experience. As part of that experience we took a day to go to the World’s Fair in Shanghai, and I was going because I wanted to see display techniques, LED graphics, what the countries of the world were doing to tell their story, because we would use these techniques in our business. Because of the urgency of our time, the American Consulate in Shanghai was contacted and asked if they could help us expedite, because we wanted to see as much as we could at the World’s Fair, understanding how busy that place was. The day we were there, there were 700,000 visitors at the World’s Fair in Shanghai, probably 98% of them were Chinese nationals who were on holiday visiting the World’s Fair, so it was quite an experience for me, for the colleagues in the business store, designers, architects, and my son and I. We met a very attractive young lady at the hotel early in the morning, and she said she had been briefed on what I needed. She said she was working at the American Exposition and had this whole thing wired and; we understand the purpose of your visit so these are the expositions I think you should see; these are the ones I have edited out; and we will try to get one through every hour, which sounds easy but under those circumstances with a mob of people and just getting around the enormous place, it is quite a substantial challenge. We were very well managed and she was very well spoken. We were chatting, and I said, “Joanna, which is her name, this was maybe an hour or two into the visit, your Chinese is just excellent”. She said “I studied Chinese language for five years and I just love the culture, and I love the people, I speak Chinese,” and I said, “Are you Asian or Asian American?” She said “No, actually I am a Philippine-American.” I said “Interesting, where did you go to school?” She said, “Coincidentally I went to Ohio State.” I said, “Oh, well so did I.” She said, “Yeah I heard.” I said “I assume you are a language major?” “No business major from the Fisher College of Business.” I said “That is interesting, what brought you to Columbus?” “Well my grandparents, I lived
with them through part of high school and most of college.” Then she told me which dorms and places that she lived when she was not living with her grandparents in Columbus, and time was going on and I said “It is kind of interesting you are from Columbus, you went to Ohio State, you went to Fisher, you speak Chinese fluently, any other languages?” “Well I also studied two years of Arabic.” I said “That is really interesting, did you have to work your way through school?” She said “Yes I did, I worked at Easton in the Victoria’s Secret store.” This is not a story about me; this is a story about us. So literally half-way around the world about two weeks ago, I made an on the spot recruit and the World’s Fair ends the last day of this month, and the next day Joanna is moving to Hong Kong to work in our Hong Kong office, and we are on-boarding her into our business. I thought what a marvelous story about the University and just the coincidences of all the people and their lives and how we do not know that we touch them.

So I talked to Gordon and said it would really be interesting, so this is a public challenge, I think we should find out from all of us on the Board and maybe every member of the faculty, kind of survey how and who we are connected within a country as vast as China. I would speculate, I told Gordon, I bet there are three to five hundred faculty that have unique relationships with different universities, businesses, and/or research institutions in China that we do not know about - my story kind of ends up in work, because I think it would be very interesting to see where we are connected, because we are connected with some research, textiles and have graduates of principal universities. A visitor that comes to Ohio State and Columbus Children’s Hospital is a big Beijing University graduate medical student and works at Children’s Hospital. He is a pediatric cardiologist but he is also on a very central committee of the government. He lives in Beijing, advising them on the establishment of private hospitals and privatizing medicine because they are in the process of a two tiered medical practice. I am citing at one end very practical things, meeting a guide who we hired, which is great because she will be spectacular, she knows the business, knows Columbus, and knows our ways, to us figuring out this network. I think the take away is that we have such a powerful international University, just because of its size, the networking is so complicated, so I am proposing to Gordon, we kind of probe this as an experiment just to see how our network works. Obviously there are connections to universities, to alums in China, to government, but I bet, where I would speculate we might be better connected than any university just by the sheer numbers of graduates that we have our language program in Chinese and the coincidences that are not aggregated. It would be interesting to me to kind of explore that, so that is my university report and that is what I did last month.

Okay Gordon, what did you do?

-PRESIDENT’S REPORT-

President Gee:

Let me just play onto that. Last week we had our homecoming and the students chose as their homecoming theme, Not that it's a Buckeye Nation, which is what the fans always say, but it is a Buckeye World because of the international nature, the broad based international nature of this institution and as part of that we had two students who were there. This summer I went to China. I had been traveling the state and around the country and every place we went we had these welcome events for students coming to the University. We had large numbers of them in places like Los Angeles or St. Louis and obviously Toledo, Cincinnati, and Cleveland, etc. So we decided we would have a welcome reception for new students coming to the University from China. We decided to do one in Shanghai and one in Beijing. I guess my thought was there would be a couple of people and a telephone
booth. I kind of thought that is the way it is, so I showed up at the Peninsula Hotel in Shanghai, I walk into this vast ballroom that is absolutely stacked with new students and their parents, they started off "Né hau?" then they started into the Buckeye Battle Cry. You would have thought we were in Cleveland or Cincinnati or somewhere else. The kind of enthusiasm, but the institutional enthusiasm was just unbelievable. To make your point we have a vast number of connective tissues out there that I do not think we fully realize; we are certainly working on that.

As you well know, a couple of things just to add, we have one of the largest, if not the largest population of Chinese nationals and Indian nationals on our campus; we speak 100 different languages; we have so many things that we can connect in that world. By the way I wish that I had met you at the World’s Fair, I too could be working in Hong Kong. Although I have yet to work at the Victoria’s Secret store in Easton, but it could happen if I do not get my stuff right.

I am going to be very brief today which is a threat as much as it is a promise. In these few short weeks the campus has been an exceptionally busy place. In addition to classes resuming, we have hosted several major events. Dr. Javaune Adams-Gaston and her team held a great Parent and Family Weekend. It was a wonderful weekend, the largest ever. We are really encouraging our parents and families to come onto campus. We had over 3,500 family members. Many of those students who invited their family actually seemed to enjoy having them here. It was quite amazing. They were kept busy with events and discussions from morning through the night. There were climbing-wall lessons, cha-cha lessons, and yoga sessions, there were also sessions on money management and career planning.

One of the things that I deeply appreciate, we asked a number of our very distinguished faculty members including our own Herb Asher, who works in my office, to come and talk to the parents about various issues. Herb obviously talked about Ohio politics and these classes were chalk-full, showing that parents are now intellectually connecting to the University, it is not just about their kids, but they are really enjoying coming back.

So it ended up one of those weekends where we offered everything, just as the parents were leaving, the President and Mrs. Obama arrived on the Oval. They were greeted by over 35,000 people, the largest crowd that the President has had since inauguration. I will say that our student government and the college democrats sponsored the event with excellent support from many areas of our campus, Student Life, University Communications and Public Safety among other departments. My thanks are to all involved for this was a very successful event and as you know, I was in Houston Texas, and I was giving a speech. I had four newspapers delivered to me; the New York Times, USA Today, Houston Chronicle and the Dallas Daily News, the Oval and The Ohio State University were on the front page of every one of those newspapers. It was quite a remarkable event. One can say that, should we be doing this, but I want to say that hosting national and international leaders is very much a part of our mission as a great public university, providing exposure to the broad range of ideas across the political spectrum is central to our academic mission. In doing so a university campus is the safety and the security of a great democracy and so I think that is yet further evidence of that.

There are a couple of Board-related matters that I wanted to single out for mention. The first is something that Judge Marbley will bring forward in a few minutes, and I do not want to steal his thunder, but I am very proud of this - that is the renaming of the Office of Minority Affairs and the appointment of Professor Valerie Lee as our Vice Provost. He will describe in more detail, but I want to say that the new name, the Office of Diversity and Inclusion more accurately reflects this University and its comprehensive approach to a number of issues. As Valerie and many of my colleagues are quick to remind all of us - people of color are not in fact the world’s minorities. The University is very fortunate that Professor Lee, who was the Chair of
October 29, 2010 meeting, Board of Trustees

the Department of English, one of our very distinguished faculty members, has agreed to remove the name interim from her title. She will now become the Vice Provost for Diversity and Inclusion and the Chief Diversity Officer, and so I thank her publicly for her leadership.

Another personnel matter of deep importance to me and to the University is the reappointment of our Provost, Dr. Alutto, as Executive Vice President and Provost. As you know, Joe Alutto came to this University at almost the same time that I came. In fact Joe was my first appointment; I tell the story that we were losing horribly in the Liberty Bowl to Air Force during a terrible storm, the only good thing was that I called up Joe Alutto at half-time and he accepted our job to become the new dean of our college. I think Chris Poon, who is here, would agree that she is stepping on the shoulders of a giant. He really did a remarkable job in moving our College of Business to the front ranks and now has done the same as our Provost. I have always said that Joe and I are polar opposites, and I mean that as the highest compliment, so we are fortunate to have, and no one is more fortunate than I am.

Just a couple of notes before I end, our computer science and engineering students have created an application for the iPhone called the “iShoe” developed as a senior capstone project, the application allows fans in Ohio Stadium to watch instant replays and track live statistics from their cell phones. If the art of entrepreneurship is spotting a need and developing a product to meet it then our students have clearly succeeded. They guessed right that Buckeye fans cannot get enough of the team even if they are sitting in the Horseshoe watching them.

I want by the way, to close my report on something that I think is both valuable and serious at this time in the nature of higher education. A few weeks ago, the College Board released its latest report called “Education Pays 2010.” The primary message is this; the benefit of a degree is always great in terms of employment and earnings and has increased substantially. The gap is widening over the past several years. In today’s competitive environment, young people with high school diplomas are more than two-and-a-half times more likely to be unemployed than those with college degrees. To give you an example, Ohio State graduates in the state of Ohio have about a 4% unemployment rate, the unemployment rate of those who have non-Ohio State degrees, and no college degree is about 15-20% - just think about that differential right now, and the average salary for bachelor degree holders is roughly two-and-a-half times more than those with high school diplomas. Now these are tangible benefits and they are real and true and indisputable. But the intangible benefits, and this is the thing that I think we need to talk about also, those with this great Ohio State education are people who live lives of possibility, they enrich their communities and they nurture creative spirit, and we cannot measure that. There is no way to measure that, but it is truly so unique and important.

For myself, I might say, because the chairman and I had an opportunity to talk a little bit about our early beginnings the other day, I note very often coming from a small town of 3,000 people that without education I would still be in a small town. I am a personification of the American dream and this University is clearly that. So I thank you, Mr. Chairman.

Mr. Wexner:

I appreciate that. I neglected to mention, going back, Joanna Porter is our recruit. You can find her at PorterJoanna@gmail.com, so if you want to tell her she was mentioned in the Board meeting, she might get a big kick out of that. I will report that when she is back in the country here, I will bring her to a meeting. She is just a delightful example of the University.
We can shift to Committee reports and let me call first on Gil Cloyd, then Judge Marbley, Ron Ratner, Alan Brass, back to Judge Marbley, back to Alan Brass, back to Gil, and to Jerry. That is the batting order.

COMMITTEE REPORTS

Dr. Cloyd:

Thank you, Mr. Chairman. I will lead off with a report on the Committee on Trusteeship which met on October 27. The Committee spent most of its time actually in Executive Session in discussion of a personnel matter, but we also discussed a couple of items. We have some revised documents we will hand out that we want to take action on at our next meeting, and really there are two proposals around important processes for the Board matter. The first is a process that formalizes the process we want to have for selection of our charter trustees. As all of you know we have the opportunity to have three charter trustees on the Board and what the Committee on Trusteeship has come forward with is a proposal for how we approach this in the future.

The second item that we discussed was a proposal for a process for the appointment of former trustees to Board committees. As we have discussed, we think that we have a great opportunity with our non-trustee members on Board committees to re-engage former trustees to help us and of course we are doing some of that already. What the Committee on Trusteeship has done is developed an approach which would then provide a common procedure for the appointment of former trustees as well as other individuals as non-trustee members of committees.

As you will see, it involves a consultation of the chair of the committee with their own committee members prior to making an appointment. Also discussions between the chair of the Committee on Trusteeship and the chair of the Board take place before those appointments would be made. What we would like you to do, what I would ask you to do is read these, if any of you have any comments or questions if you could pass them on to Dr. Frantz, we would make any kind of final modifications, but at our next meeting when we have a consent agenda, our recommendation would be to approve these two proposals.

That concludes my report on the Committee on Trusteeship.

Mr. Wexner:

Gil, while you have the floor, do you want to talk about Advancement also.

Dr. Cloyd:

Okay, fine. Let me get my notes out, and I would be happy to do that.

The Committee on Advancement met yesterday. I reported last time that when we had our first Advancement Committee and met with the leadership that is coordinating our overall move to the advancement model, that the group had selected and the Committee strongly endorsed three overall goal areas for the advancement model: financial, engagement and awareness.

The financial goals we discussed in our last meeting were accepted. They are the same goals that we have talked about in other Board meetings, both in terms of the journey goal of where we would like to be by 2020, as well as what we think in terms of a more interim campaign type of goal. I think what is really important, and I think impressed everyone on the Advancement Committee, is in the past the financial goal would have been presented as this is a goal for the development organization within
Ohio State University and what is really clear is now it is a goal that has been embraced by all the constituencies that are forming the advancement model. The same thing is carrying through in the engagement and the awareness and I am personally, and I think I can speak for Linda, who has been a real leader in this; it is really impressive the way the University is coming together and embracing these goals in a collective fashion. So what we talked about in the committee meeting, we first of all discussed what the next steps are relative to the financial goals that we will be thinking about, the journey goal, and what we would have ultimately in a campaign goal.

Dr. Sorensen reviewed for us some charts relative to trends that we have had in total private support at the University and as we look out to 2020. What kinds of growth in total private support would we need to achieve our journey goal or our campaign goal? It is a rough approximation. In recent times the growth in total private support to the University has been about 3.5% annually. To really achieve the journey goal that we have set we are going to have to move closer to a 9% annual growth rate and to achieve our goal in 2016, which we would have around our campaign, we will have to be above 5% annual growth to achieve that.

So the organization across the advancement model is all looking at what we have to do, what are our opportunities, and we believe we have plenty, so that we can increase the annual growth rate in total private support.

They have identified four areas that they are calling the key drivers of where we will have our greatest opportunity to garner and increase total private support. One is a category we are calling top gifts. Top gifts would be gifts of $5 million or greater to the University, and with the kind of model that we have put together we would have the ground for our overall campaign to think in terms of raising $2.5 billion by June 2016, our model would have us have 48 such gifts of $5 million or more.

A second major area is alumni giving. Here again it is a big opportunity area - we have a very loyal alumni; we get a lot of alumni support; but we have the opportunity to both expand the base and increase the amount of giving on an average donor basis within the alumni.

Third area is corporations and foundations, and in this regard we feel that the corporate giving is probably our biggest growth opportunity based on past history. And then finally top fundraising colleges and units. As we think about fundraising and the University, we have 31 units and all of them obviously are very important, and we need to have all of them fully engaged in our fundraising activity, but there is a select number of about a half dozen that are especially key because of the opportunities that they have to raise money.

So across the development and the unit organization right now there are a lot of meetings occurring as we are finalizing what would be the plans to leverage these key driver areas. Dr. Sorensen is meeting with the deans and the head of every unit. I think it is a very good approach, rather than just to have something come out to someone as a mandate, but to really get everyone engaged on what we need to do and have their strong support in the leadership. Our goal is really to have all of the final planning in place during the first quarter of 2011, including what we think we need to do from a resourcing standpoint to be able to deliver those results.

While we are doing that planning there is also other important work occurring concurrently as we think in terms of the investment model. We are really working now to find ways that we can better engage with our alumni. Mr. Griffin outlined activities that are underway, and he outlined a real nice approach of how you have to capture people’s intention; you have to gain their trust; you have to really understand what their needs are and then be able to deliver what is important to them. What are those opportunities so that we can create the engagement and he expressed, and I
think the Committee feels a high sense of confidence as we better engage, not only can we move beyond 125,000 members in the Alumni Association, we are actually going to get more, and donors from the Alumni Association that will give more.

We also will need to be finalizing our marketing themes that we want on a campaign, so Mr. Katzenmeyer outlined some of the activities that are ongoing in that regard. But our goal is to have a lot of this come together as I say, in the first quarter of 2011, so as we think of the financial goals aspect of what we want to do in advancement that we will be ready to move forward in the next steps, so really some excellent progress there. Again I just want to highlight, it just feels so good to see this as a collective goal now by the people that are in development as well as the people that are in Marketing and communications, and the people in alumni relations.

We then reviewed the proposed engagement goals during this meeting, and I will read those so that you will understand. They have three goals that they have selected for the engagement area. One, double the number of annual donors by 2016 and that would move from 120,000 to 240,000. Secondly, achieve by 2016 a very satisfied rating from 50% of alumni for providing opportunities to be or stay involved with the University. Currently today that number is 30%. Thirdly, demonstrate yearly increases in the number of volunteers actively serving Ohio State, and right now we are actually doing research to really understand what our baseline is in that regard.

The people that are working on the advancement model have a lot of activity underway right now to do this. There are seven action teams and two working groups that are working across a host of activities that will help us in this regard. I think I mentioned in our last meeting they are looking at our approaches to engagement as we want to do it, how do we not only become more effective but also become more efficient because we have been rather siloed in our communication techniques. So, for example, there is a group now that is working across the University, if you will, in an editorial fashion, just to understand what are all of the different communications that the University and the units provide and how can we better integrate those so we can get the common, important message points that will fit with the market research we want so that we can best engage people, and also we will get efficiencies out of that process. Work is continuing to understand in a marketing context our true segmentation, so again rather than just broad base noise, if you will, and that is probably more projective than it should be to people, really understand what is the communication that will really create the attachment that people want to meet their needs. They have identified 12 characteristics as we start to think about our segments in a demographic and psychographic context to define the different key groups within the University, so that work is ongoing, and we will really need to continue that to give us the data we need so that we can have the most effective marketing plans to create the kind of engagement that we want.

The Advancement Committee agreed with the overall three goals proposed by the team. We did ask them if they could provide some additional background information as they get it on the trend lines for each one of the goal areas, so we have a better feel for what has been happening in recent times and also we will review periodically the goals that we have established as we move forward, start to make progress, get additional learning. At this point I think the team feels the goals they have set are pretty stretching, but who knows, if we start to make some leaps forward we may even want to become more aggressive in the goals we have set in that area.

In the near term we would ask the team to come to us with what are the most important challenges as they are looking over the next six to nine months, and there were three of them that were identified that I will highlight. Identifying what we need to do around data integration and market segmentation research activity; this is both an effort to get organized in a way that we do it as a well-integrated approach to the University, as well as looking where we have all of the separate funds right now to
determine how can we get the funding we need to get the work done. What we really need to do is to get a one-integrated database that works across the University rather than all the segmentation that we have right now. I would also highlight that Mr. Wexner’s organization has offered the services of some of their IT folks that can help us in this regard, and we appreciate that very much. So Dr. Sorensen believes that while there is some heavy lifting here to be done, he expressed confidence that they will be able to work their way through this challenge including the funding aspect.

The second thing is really getting to a single strategic plan as we think about what we want to do in a One University context across the University. The challenge here is to work across all the different units that have some differing activities, different things that they might want to achieve with their particular constituency and get it all wrapped up into something that is integrated. Again, I think there is a lot of optimism because of what has occurred around a One University context, setting strategic goals. There is a way to get all of this integrated in an effective way. The Committee felt very good about the approach that is being taken though, so rather than a top down mandate this is another one where the engagement of all of the units, having them understand what they would like to do would fit within the University; how can we commonly use resources where we have it, kind of break down the silos, but break down silos with everyone wanting to break them down because everyone is going to see what the greater benefit is as we pull together and the one University model against the advancement goals. Then finally really having to continue the work that is already underway with some of the HR teams that have been formed, what are the mechanisms that we are going to have to support and reward the change initiatives, the new collaborations, because we have had recognition and reward systems that have tended to be very unit oriented in the past, and now as we move to a more collective advancement model for the University, we are going to have to have the kind of recognition and reward systems that meet that. Again there is work underway with the team, so overall, really just excellent progress we felt in this area. At our next meeting we will probably do a deeper dive on the awareness type of activities.

I would like to then highlight that the Committee reviewed the development report and the Committee is recommending the approval of the development report on the consent agenda. Just a couple of highlights on this, in the first quarter, when we look at our new fundraising activity we had about $69 million in new fund activity. Now if we look at the very aggressive yearly goal that we have set this year of $325 million, that puts us a little bit behind because we are about 21.3% of the goal achieved in 25% of the time. I think it is still possible to make it up. I think what the real encouraging thing to look at is if we do the comparison to last year’s first quarter, we are up 28.2% in this new fundraising activity so there are a lot of good things happening still in a very tough climate.

The second thing I would highlight is the tremendous positive response we have had to the Students First, Students Now campaign which of course is raising important scholastic aid to students. We have now raised $80.9 million versus the goal of $100 million that we have set for this fund and that gets us to 81% of the goal in 70% of the time - so just really great progress on that.

We then went into an Executive Session to consider personnel matters regarding appointments to the Advancement Committee, and that concludes my report, Mr. Chairman.

Mr. Wexner:

Thank you. Comments, questions, thinking? This is very important obviously to the University. Are you thinking or commenting, Bob?
October 29, 2010 meeting, Board of Trustees

Mr. Schottenstein:

The only thing I would say is, I would echo what you said Mr. Chairman. I think the work that this Committee is doing is so significant. Ten years from now when we look back I would like to think that we will say, thank goodness we put this stake in the ground now. Putting aside everything in terms of where we have been, in terms of where we can go as a result of these ambitious goals which I think we will achieve maybe even faster. I think it is going to make an enormous difference in not just the amount of money we bring in but the commitment that our alums and just everyone has toward the greater good of the University. I love the report. It is a great report, Gil, and I know there are a lot of people working very hard. I see Archie sitting back there and so many others. It is really terrific.

Mr. Wexner:

Any other comments?

I was thinking as you were talking about this, and I did not hear the 48 number but it is kind of a nice one and if you divide it by three I think it is 16. Publicly I would like to challenge and maybe get the Trustees to think about if each one of us could not solicit one of those gifts; I do not think that is an unreasonable challenge to think about a business, a person, an alum, outside of yourself; and, I think that would provide wonderful leadership for the campaign, and I think anything that is important, I think the Board has to think about not only that it makes policy but that it provides leadership that is real action. Clearly by taxing ourselves and saying that we are going to give and support the University individually every year is a commitment, and I hope all the other Boards and committees of the University that are volunteers like ourselves follow that lead, some have already, about giving and getting and thinking about development but the notion we could talk about it now or offline - we will have another meeting soon, where we can talk about it privately. I do not think it is unreasonable to at least try and if you do not have the list of candidates, I know that Gordon and Andy do, so us making some house calls would be quite significant and then we could also maybe even broaden this out to other deans and friends and former trustees that they would take an individual responsibility to help us get going.

On a separate subject to think about, we have talked about, again privately, of the notion of the Board being responsible not only for individual fundraising but collectively. Is there something that we could do and whether we host people to a football game using the President's box as a fund raiser? One idea that I had, I think we could do and get support so that it is 100% for-profit is having, if you will, some kind of community wide event that could tie to the University. If you take an example like the Mershon Center, which is an important institution of the University, while I was traveling I read some books, one of them was Obama's Wars, and there was an interesting idea to get Bob Woodward and some of the principal participants in those decisions from the military, from the State Department, and maybe I could even ask my friend David Gergen to be the convener, and what an interesting program that would be to get four or five people together to talk about the book, their involvement and what a great thing that would be just to record for history. On the other hand I was watching TV late last night and saw Charlie Rose interview Ron Chernow who has written probably a best seller this week, George Washington, a Life. I know him and it would be interesting to connect that with the Department of History of the University and bring Chernow to Columbus again to some facility, and I bet we could sell out the house with him talking about his book. What I am really trying to model is a behavior where we are collectively involved in the things that we are doing. So we can advise medicine, but happily none of us are doctors, so we can leave that to Steve, but I think we really want to process this, what role do we have in leadership, not only thinking, but doing and influencing the result. I think there is a behavior model that is really important for us if we are going to lead ourselves and lead other Universities in this important function.
October 29, 2010 meeting, Board of Trustees

Dr. Cloyd:

Mr. Wexner you know that is a great comment, this last one that you made, and very timely. We do want to have a Trustee sponsored major fundraiser event in 2011, and Dr. Sorensen and I just started conversations this last week on such an event, so I would really welcome if any of my colleagues on the Board here, if you have ideas, just as you expressed, if you will just fire me an email with them because I really hope over the next two to three months working with Dr. Sorensen we can put together a good idea of what would really be a major trustee sponsored fundraising event, and it is something that we would likely be able to do annually.

Mr. Wexner:

Great, we all have homework. Alan, I think you are reporting on two committees that kind of relate to each other, Medical Affairs and Finance, so I will move my agenda around a bit.

Mr. Brass:

Thank you, Mr. Chairman, and good morning everyone. I will start with the Medical Affairs Committee if that is okay, then I will move to Finance. At Medical Affairs, I actually want to back up one day, on Wednesday of this week the Medical Center had its board meeting and following the board meetings we had a retreat following that in which we brought in Mike Paragreen from Micderma Will and Emery. Bear in mind that we reorganized the Medical Center Hospital Boards and so on, so this was the second retreat to bring the new trustees up to speed with a number of things that are going on, including healthcare reform, governance responsibility, and fiduciary responsibility as part thereof and so on. That was a big success, well attended, and Jeff Wadsworth and Steve Gabbe and others did a wonderful job with that.

Over the past year and a half the Medical Affairs Committee has been very focused on ProjectONE for obvious reasons. We are at the point now, we are moving the agenda around a little bit in cooperation with the Medical Center Board as well, that the Medical Affairs Committee will start spending more and more time as it relates to the strategic plan of the Medical Center, the integration of the physician group into the Medical Center, the ambulatory long-range plan of the Medical Center, the Medical School curriculum changes which I will talk about in a few minutes, which we discussed yesterday, what is going on in medical research, what kind of program space that we need to be focusing in on, and at each of the meetings we are going to have one of the department chairs come in to start talking about each of the programs inside the medical system that way we become educated and we also learn a little bit more about some of the needs thereof.

Provost Alutto and Steve Gabbe have launched the search for the new dean of the School of Medicine. That is underway. I want you to be aware of that. I want you to be aware of a special award that is given out across this country called the Beacon Award. You do not hear about that too often. The Beacon Award is the highest award that is given for nursing for critical care. For our Medical Center, whether it is an academic oriented medical center or a large integration delivery system, to receive this award is a very prestigious honor, and we have just received that for the eighth floor, Rhodes Hall. The neat thing is that this is the second time we have received it. Our Ross Hall, fourth floor nursing group has also received it. The Beacon Award is recognized in healthcare medical centers as the highest nursing application, highest quality, and best integration of care practices. I am very proud of the fact that our University, our Medical Center has now received that award twice. Best place to work, fourth year in a row for the Ohio State University Medical Center. We just got that award again.
October 29, 2010 meeting, Board of Trustees

Two things and I am going to ask Steve Gabbe to comment on them. Steve could you come on up to the mic for just a second. In front of you is a document which we are doing every year. One of the reasons I think we, and I mean we, are doing so well inside our Medical Center is we are staying focused on the points of the strategic plan. In front of you, you have a brochure - basically it shows where we are and where we are going. I would like Steve to make a couple of comments on that and then I am going to go to the next agenda item which is the curriculum within the schools, Steve, I am going to move things around a little bit. Would you make a couple of comments on us creating the future of medicine?

Dr. Gabbe:

Thanks so much, Mr. Brass. Gail Marsh, who is our chief strategy officer, is here and as you look at the cover you see at the very top our mission to create the future of medicine and to improve people’s lives. This is a very important document for us. It tells us where we have been and where we are going. On page three you can see the One University, One Medical Center mission described with a nice picture of President Gee and our key result areas. So these are the six areas that we focus on in terms of metrics to determine how we are achieving our strategic goals. The next section on page four describes our focus on P4 Medicine, medicines that are predictive, preventive, personalized and participatory, which clearly distinguishes us from the other academic medical centers in the country. We follow that with our focus as you noted on research and then on patient care and the growth of our patient care activities in terms of volume and patient satisfaction. You can see Dr. Lucey’s picture on page 10 where we talk about our educational objectives and our rise in U.S. News ranking; Pete Geier on page 12, very importantly on page 13 it explains how we develop our strategic planning process. In the middle of the brochure on page 14, you can see our strategy map, and we have shared this with Provost Alutto and Matt O’Rourke and the team that has developed a strategic plan for the University to be sure that we are all aligned in our strategic goals, and you can see as you fold that out the key result areas and then the targeted initiatives to meet those. Then in the darker green colors are the ones we think are most important for us to reach our aspirations, which is to be a top 20 academic Medical Center.

You see the University’s goals there and our strategic portfolio and a diagram in the upper right corner. This one strategy map really tells the whole story for you in a very concise and clear way. Our strategic plan has the six components listed on the next page, and you can see on page 16 the description of our signature programs, with Mike Caligiuri’s photo there as well, then moving to page 18, our people plan, and Chris Ellison who leads our OSUP practice group. You can see that over the last decade, we have added 7,000 jobs at the Medical Center, from 9,000 to nearly 16,000. As you know ProjectONE will bring another 6,000 permanent jobs to the Medical Center and 4,000 to our community. Phyllis Teater is shown on the next page. She leads our informatics, information group and our technology plan, which focuses on our electronic medical record. Then on page 22, our marketing plan and financial plan are demonstrated, and then finally the facilities plan on page 24, with ProjectONE shown, and then we talk about our future and you can see Gail’s picture on page 27, and the members of the Medical Center Board are listed on page 28, with some of the initiatives we have taken to improve people’s lives on the next to last page, and the back page. So, this I hope you will find to be a helpful document in keeping check on us and making sure that we are following our strategic plan. It is how we make our decisions, it is why we make our decisions and we believe it will get us to where we want to be in the future.

Mr. Brass:

Thank you, Dr. Gabbe. We are working on the 2011-2012 plan right now. We are trying to make sure it is fully integrated with the University’s Strategic Plan.
October 29, 2010 meeting, Board of Trustees

Everything in the plan is measurable so that we in fact can track it and see how we are doing quarter by quarter, and I do believe that as part of our success as to where the Medical Center and Medical School is at this point.

Yesterday at the Medical Affairs Committee, we spent quite a bit of time on what was called the curriculum re-design of our medical school. This review started in 2006 and is scheduled for implementation in 2012. As you might imagine those of us who have been around healthcare a long time, the Flexner Report was done in 1910 and the 130 medical schools that are out there have been using that as its guideline as it relates to its curriculums. There has been tweaking along the way, but this is a major tweak, 100 years later. Carnegie Report basically came in and re-reviewed where we are with Medical School and Medical School applications right now, and Dr. Catherine Lucey, our Interim Dean of the School of Medicine, who is here, has done a magnificent job. This is a work in process right now and Dr. Gabbe do you want to say a few words about this. This is such a major undertaking with so much involvement.

Dr. Gabbe:

Sure, and as I said yesterday, I would link this to ProjectONE, which it is as big of an undertaking because it involves hundreds and hundreds of students, and virtually all of our faculty and our nurses and our other team members. As I said yesterday, this will be I believe when it’s done, the hallmark curriculum for medical schools in this country. People will refer to The Ohio State Medical School curriculum and they will follow our lead. You might say, of course, you are saying that after all he is here, and he is a Buckeye. But I say that from a very objective point of view because I served on and chaired the committee for six years that accredits medical schools. So I probably reviewed every medical school curriculum over that time, and I visited enough places as a site visitor to see what they are doing, and I congratulate Dr. Lucey and Dan Klincho for their leadership in this. What makes this curriculum so distinct is that it focuses on how medicine is going to be practiced in the future. And it focuses on something that very few other places can do; interdisciplinary teamwork and working as teams. Very few other academic medical centers have what our University has, which is seven health sciences schools, so we can teach our students in medicine how to work with nursing and pharmacy and optometry, and dentistry and as Catherine pointed out yesterday in the anatomy lab in the future. We will have medical students teach dental students and dental students teach medical students. The critical issues of this new curriculum are the focus on patient care, medical knowledge, practice based learning, interpersonal communication, systems based learning, what happens across the whole system of healthcare, because as you know with healthcare reform that is critically important, and then personal and professional development, emphasizing to the students that they are going to be life-long learners, that they will have to continue to interpret the medical research and literature for their patients. The students are going to be engaged in clinical activity from the first day and they are going to be engaged in a longitudinal experience in a set practice where they will come to know the physicians and the nurses and the patients and the patients will come to know them, very unique. They will not learn biochemistry and the physiology and then anatomy, but rather its systems based learning, so they will focus on the cardiac system, and learn all of those basic sciences and how they apply to clinical care around the heart, around the nervous system so they will integrate the information. This is how we have to learn it to practice most effectively. The curriculum is flexible, it gives people an opportunity to stop and learn more in depth into research. It gives them the opportunity to be engaged in six longitudinal projects, including leadership, understanding the health system, health informatics, gives them some time to prepare for the very critically important USMLE licensure exams, gives them time in the third and fourth years to delve more deeply into areas where they think they would like to practice before they have to make a lifelong decision; I want to be a surgeon, or a pediatrician, and then apply for residency training. The evaluation is
competency based. Before the student is allowed to progress further in their curriculum they have to demonstrate and be observed to have mastery of the important competencies. It is just a terrific curriculum, so we are very proud of it, ongoing.

Mr. Brass:

To add a new curriculum is obviously that we will be doing parallel tracks for a couple of years, and I have also mentioned to Dr. Lucey as late as this morning, on a pilot program like this, I expect that we will probably be making changes as we go and as we learn, but this is a major change, it is a good change, and I think it is one that is going to position our medical school very well for the future. Thank you very much, Dr. Gabbe.

I would like to turn attention very quickly to where we are financially at the Medical Center. First of all ProjectONE, I am glad to tell you is on target, on time, under budget, and everything is holding well, and we have not had to dip into our contingencies. As it relates to our finances, the operating margin for the Medical Center is at 7.6, budget was 6.8, our EBIDA margin is 12.1 versus 11.5, days cash on hand has grown to 61 versus 56 in our budget. I could go into a lot of other metrics, I am not going to. The Medical Center is holding well. We had a hiccup on admissions this month, mostly in the Ross Heart Hospital, there are a couple of reasons for that, but it has rebounded totally this month that we are in right now. So I think overall the Medical Center financially is doing fine. Things are getting tougher out there, they are not getting easier, and as regulations start being developed for healthcare reform we have to constantly monitor, especially on the Medicare side a little bit.

There are two action items coming out of the Medical Affairs Committee, one is to take the Division of Plastic Surgery to departmental status. Plastic surgery was formed in 1947 at our University, some of you may remember the name Dr. Zollinger, he was here when in fact that was started. In 1962, it went to division status, and the recommendation now that it has met all the criteria is to take it to departmental status in 2010. That would make the 19th department in the Medical School, plus six basic science departments in the Medical School.

The second item was for bylaw changes that are on the consent agenda today, Mr. Chairman. Those are again fine tuning as we in fact have implemented the new bylaws. The two major things are basically to add the general counsel of the University and the chief financial officer of the University, as ex officio members of the Medical Center Board, and the other was the Medical Director of the James to become an ex officio member of the James Board. So there are other little tweaks there but those are the two major things.

I would be happy to try to answer any questions.

Mr. Wexner:

We can pause for a second for questions about the Medical Center and ProjectONE.

Mr. Brass:

I had the privilege of substituting for Bob Schottenstein yesterday, and we started off with a report from Geoff Chatas, which I will try very quickly to summarize. What we did was take a three year review of the finances of our University, and I picked out three or four things that I thought might be helpful for the Board to understand in a larger context. Over the last three years, 2008, 2009, the revenue for our University was pretty flat, and in 2010, it grew by 4%. At the same time the healthcare revenues grew 9% and 7% the last couple of years, so it is moving in the right
direction as we continue the expansion of our Medical Center. The University’s revenue has grown 4% over this last year as well. So that is the first thing I wanted to highlight.

The second thing is part of that revenue growth is really on two fronts as it relates to our University. One was on tuition, and that is predominately driven by the fact that the number of students has gone up from about 58,000 to approximately 61,000, and the second is in fact the federal stimulus money coming in, which amounted to about $60 million during that period of time. Now, good news, bad news, the bad news is we all know as Trustees right now that we do not expect the state monies to go up, in fact we are monitoring and we know that the stimulus money is going to go away. So there are our challenges when we put the next couple of year’s budget together.

The next item we took a look at was the investment income over the last three years, and we all know what happened to the economy back in ’08 and ’09. We were part of that as well where we lost money in our investment portfolio, but in 2010 we are up $325 million, so the curve is swinging the other way. Over the last five years, when you look at it in aggregate, our portfolio is up $400 million that is the summary mark.

As it relates to our debt over the last three years, as you know back in September and October we issued approximately $650 million of additional debt and $150 million of additional debt. The $650 million was at a weighted average of 3.19 and the $150 million was at a .22, which is really nice. This would make at least our chairman’s day; Michigan issued debt yesterday, $219 million, and a half percent higher than our debt. The headlines across was, “OSU Beat Michigan.”

A couple of other items that we dealt with at Finance Committee are that we took a look at entering into some additional professional services and some construction contracts. You will see those on the consent agenda. Ron I did not know if you were doing those in detail? Professional service and construction - we have one for a high voltage switch, we have two major switches coming in. This was the reconstruction of one of those high voltage switches. Hopkins Hall, basically to add a chiller, Mason Hall renovation, to add a large conference room and a coffee shop, and to our outdoor sports complexes we add some additional renovation of our tennis courts, our baseball field and Jesse Owens Turf. In addition to that, on the consent agenda we had a piece of property at 4475 – 85 North High that we are selling. It was a gift to us; the sale price would be $540,000. We are buying a small piece of property at 1347 in Wooster, it is one acre, the price is $165,000, part of a program we have going there. We are recommending the granting of an easement at Dodridge Street for the bridge, and then the last item on the consent agenda is a program that was approved for a specialized master of finance degree in the College of Business and we approve the tuition to be set at $49,000 for this one year program, and $49,005 if you are out of state. Do not ask me a question on that one. We did do the market evaluation and that is where it is at.

Mr. Chair that will conclude my report on Finance.

Mr. Wexner:

Comments, questions, thinking. I would like to call the gentleman to your left, Judge Marbley for his committee reports.

Judge Marbley:

I presided first over Audit and Compliance yesterday as a substitute for Chairman Schottenstein. We heard from three different groups on the compliance requirements impact on each of the respected areas of operation. First, Lynn Readey started with
October 29, 2010 meeting, Board of Trustees

a presentation on the compliance efforts for Facilities Operation and Development. Many of the compliance requirements that her office must deal with are due to a significant number of state requirements, restrictions and reviews on design and construction contracts so she has been intimately involved with ProjectONE and the other various construction projects you see around campus. It was these types of legal hurdles, Mr. Chairman, that we start to avoid through the construction reform legislation in which our ProjectONE was selected as a pilot project for the construction manager at risk. The committee noted that on a number of levels it has been critical, and we have to take great efforts to document properly the time and cost savings that this construction reform legislation will have on ProjectONE so that we can continue to build the case for further relief from state requirements on future construction projects. What we are hoping is that the benefits that we get from construction reform and the context of ProjectONE will be applied university wide.

Human Resources (HR) presented next, there were a number of different areas in which they presented regarding compliance responsibilities. Larry Lewellen was unable to join us, as you recall he is out with Achilles heel surgery, but the HR presentation focused primarily on two areas. The first was discussions on the new eVerify process. For those of you who are in business, you all probably are involved either with an electronic check or an employment that relates to the I-9 form with the Department of Homeland Security and Social Security Administration database records which requires us to compile it. Through this process we are able to determine employees who are not authorized to work for the University and after those employees are identified, we are obligated to remove them from our payroll. Immigration and customs enforcement will then get involved in the event that we have any persons who are not properly here and who are not properly registered to work with us. Our failure to comply with the eVerify requirements can result in a suspension of, or complete loss of certain federal contracts.

The second priority area that we dealt with was with the federal healthcare reform legislation that was passed earlier. Although most of the requirements of the legislation have not gone into effect yet, the University has assembled project teams not only to make sense of the new requirements but also to understand fully their impact on existing requirements such as COBRA. The most significant item impacting the University so far with the healthcare reform is changing the age limit of dependent children eligible for coverage from 23 to 26, and the additional cost that comes from picking up those additional dependents on the employee health plan.

The last compliance report came from Scott Lissner who serves as the University’s Americans with Disability Act (ADA) Coordinator. Scott noted that the most significant compliance development for his office stem from federal regulatory changes just issued last month. Making sense of those changes is critical as non-compliance can mean costly redesign, retrofitting or litigation, which of course can lead to considerable negative public relations as well. The two largest areas of concern for ADA compliance are facilities and technology. Scott has been working closely with Lynn Readey and others on the changes and the new standards for design and the technology front; he has been working with the CIO’s office on how to improve access to our websites and use technological tools in and out of our classrooms.

Finally, our General Counsel Chris Culley presented an update on the University’s Affiliated Entities. He walked us through the annual reporting process and his office’s findings and also provided the committee with a useful guide on the purpose, activity, university investment and board representation for each university affiliate. He then provided a brief status report on a number of affiliates including continued integration of our physician practice plans into the University, progress on the activities of our three newest affiliates as well as possible changes to governance, structure, or sun setting of a few of the additional affiliates.
Mr. Chairman that concludes my Audit and Compliance report.

Mr. Wexner:

Thank you, any questions, and comments? Anything else, Monte?

Judge Marbley:

That is all on Audit and Compliance.

Mr. Wexner:

I wanted to go back to Academic Affairs.

Judge Marbley:

At our meeting we heard an update on enrollment patterns for autumn quarter, 2010, and while I will not go into all of them, you have them in your books. I will highlight certain significant facts. You will recall at our last meeting we talked about what the preliminary totals were. The enrollment of the University broke 64,000 which is a record high. The Columbus campus total was also at a record high breaking 56,000 for the first time. More than 2,300 students transferred to Ohio State from other institutions, still that is another record. The academic preparation of our freshmen is also at an all-time high with both ACT and SAT scores at record levels. We have a record number of Hispanic and Latino students, reflecting an overall improvement in the diversity of the student body, racially, geographically and internationally. We had a 7.6% increase among African-American freshmen, and we have record high enrollments of both domestic out of state students and international students.

The committee then heard from Vice Provost Valerie Lee who discussed what the University is doing to enhance student diversity. Before I go into Dr. Lee’s presentation, I will digress and indicate that as we discussed briefly at our last meeting and as a matter that we will vote on today, but Dr. Lee has accepted, subject to our approval, the post of Vice Provost of Diversity and Inclusion and she will be, as President Gee pointed out our chief diversity officer, and she now heads the Office of Diversity and Inclusion, which really speaks to a far more expansive role than the Office of Minority Affairs (OMA). I will note for you that in early October we had a meeting with the various student minority groups to discuss Dr. Lee’s appointment and to discuss the name change of OMA. It was a resounding success, President Gee, Dr. Javaune Adams-Gaston and I met with the leaders of the various minority groups on campus. I will tell you, I know that most of you are involved at some level with our students, but they are truly a very intelligent and thoughtful group of students, to the extent that they will speak our future, which we have much to be optimistic. We have an outstanding collection of students who came well prepared to the meeting to ask probing questions, they challenged us in the most appropriate ways, and at the end of the meeting, they embraced the changes that, as you recall, have been recommended by Dr. David Thomas from the Harvard Business School that sort of formed the impetus for the change, and so we are well on our way in that respect.

Dr. Lee indicated however that the process of enhancing student diversity begins with recruiting the best and brightest underrepresented students through such programs as tools for high school groups, selected high ability students and parents in a holistic application review process. In addition several targeted scholarship programs help promote diversity and multiculturalism. Once these students are at Ohio State we do our best to take good care of them, translated we make sure they transition into the new culture that we offer and that we retain the students and not only enable them to survive but to flourish. Dr. Lee talked about a number of particularly successful diversity initiatives, among them are many academic
advancement services, the highly regarded Young Scholars Program and Bell Resource Center and the Summer Research Opportunities Program. To increase further student diversity, she cited four items of concern. First we must improve the climate that is an ongoing issue; second we must increase funding for scholarships and recruitment activities; third we must expand our early intervention and outreach programs and Dr. Cloyd certainly identified and spoke quite eloquently on the need for early intervention and outreach; and fourth we must encourage great faculty and academic unit investment.

We next heard from Vice Provost Michael Boehm who presented a resolution for changing the appointment process for regional campus board members. The resolution was adopted in amended form, and you are going to get a copy of the resolution in a moment, but it was adopted in amended form and it provides that the procedure for appointing and removing members and operating procedures of the regional campus boards be included in the policies within the Office of Academic Affairs. So it vests those powers in the provost's office and was unanimously adopted by our Committee.

The Committee then endorsed an expression of appreciation to the Ohio Staters. The designation of classroom and laboratory space at Ohio State Mansfield as the Corna Kokosing Engineering Laboratory, the renaming of the Office of Minority Affairs, as the Office of Diversity and Inclusion and of course the naming of Dr. Valerie Lee as chief diversity officer and vice provost for diversity and inclusion, the establishment of clinical track faculty in the School of Communications, the establishment of an education specialist degree program in the School of Teaching and Learning, the establishment of a masters degree program in plant health management, the establishment of the Department of Plastic Surgery, the renaming of the Department of Women's Studies as the Department of Women's, Gender and Sexuality Studies and an amendment to the rule of the university faculty. Also we met in executive session to discuss the revocation of a master's degree in Social Work due to improprieties, and we voted in public session to endorse that revocation.

Mr. Chairman that concluded our business.

Mr. Wexner:
You had busy meetings, Monte.

Judge Marbley:
We were quite busy doing the business of the University.

Mr. Wexner:
Thank you. Questions, comments?

Dr. Cloyd:

Yes, Mr. Chairman, I would like to make one comment regarding the recommendation around the regional campuses. I think this is going to be a much more effective and efficient approach, but what I would like to publicly acknowledge is really the fine work that the provost and many others have led in a strategic context, a lot of what we have talked about is really the role of the regional campuses and I think the position we have going forward now to where they become another important cluster within this University and really defining the important role they have in our overall educational mission for students in Ohio has really enabled all of this, but it is really some fine work, and I think we have spent a lot of time as a board thinking about strategic aspects of the University. This is a good example, I think, of when you really get focused strategically on what is important and why, it
October 29, 2010 meeting, Board of Trustees

just points to the direction of the right kinds of activities that should be taken. I know that a lot of hard work and I know beyond the provost there were a lot of other people that were involved in this, but it is just terrific.

Ms. Swain:

In the Committee’s discussion about the new Office of Diversity and Inclusion, or maybe Dr. Reid in your working group, was the discussion of the working with the Office of the Multicultural Center within Student Life discussed - how the two are working together, the different focus of the two different groups.

Judge Marbley:

Yes, and that may be an appropriate question for Dr. Adams-Gaston to address because, we really have a jewel in her. I have had an opportunity to see her operate under pressure, and I do not know that there is anybody on President Gee’s staff who does it better. There are many who do it as well. Dr. J.

Dr. Adams-Gaston:

There are multiple things that when we think about diversity and inclusion come to mind, especially as related to our students. One of the primary areas of focus of the Office of Diversity and Inclusion will be on the academic strategies for ensuring that students have an opportunity to be successful. That will be joined by the programmatic focus of the Multicultural Center to ensure that students have proper programming that support their ability to be here at the University and to be successful. So Dr. Lee and I have talked and we will be continuing to work together very closely but as in a number of areas where you have the curricular component and the academic support of the curricular component, perhaps in a college or the deans working on that initiative. We also have the larger function for the University of working on the programmatic components for all students in student life.

Mr. Wexner:

Agricultural Affairs, Mr. Jurgensen.

Mr. Jurgensen:

I had the opportunity to fill in for Jack Fisher yesterday. We received a report from Dr. Bobby Moser and Dr. Steven Slack, principally by them, but a number of other people from the University team addressed this issue as well. As you may recall during our September meeting we had a tornado hit the Wooster campus of OARDC and ATI, and yesterday’s meeting was really to hear what has happened since the tornado. Most importantly and quite remarkably all of our folks at Wooster literally had a two minute advance warning before this tornado hit, which is not a lot of time obviously and it requires that when people hear sirens they actually react to the sirens and interestingly they did, but most people do not. Thank goodness they did because the most important thing about this is that we had no loss of life or significant physical injury. It was reported to us that this was the largest physical damage the University has ever undergone, but in spite of that the campus was closed less than a week, great effort led by our Department of Public Safety. Classes were on the verge of beginning so we were able to avoid a lot of disruption due to the efforts by the team up there.

We are working through right now a whole myriad of insurance issues and so at this point we were not given a set of hard figures as to what this is going to amount to. It will be in the tens of millions of dollars to be sure. I think the property aspects of the claim will be relatively straightforward, but the business interruption aspect of the claim is going to be pretty complicated. I have a suspicion that we will give a lot of
October 29, 2010 meeting, Board of Trustees

departments including the legal department an opportunity to get involved in this one. The response team was really aided in this regard because the University was in possession of both a disaster recovery plan as well as a business continuity pre-planning. I know many around the table have gone through these sorts of exercises in your own enterprises and nobody likes to do it, nobody ever thinks they will ever need it, but when these things happen, when you have them, they work. In this case I think we have a lot of evidence that our plan worked very, very well. It is a great example of teamwork across the University from facilities to insurance to public safety as well as the leadership at OARDC.

We have undergone significant damages to 26 greenhouses that are up there, and this was pointed out to us, these are not typical commercial greenhouses because of the underlying nature and the kind of research that is going on there. They are more complicated, that also will undoubtedly cause us some challenges in the claims process because when you have something special or unique, it is pretty difficult on the average claims adjustor to be able to stay up to speed on that. So a lot of conversation will go on.

I think also importantly the Secrest Arboretum up there lost over 1,500 trees. Buildings are a heck of a lot easier to replace than mature forests and so that is going to be a loss not only to the University but also to the community in Wooster because the arboretum was really an asset that the broader community in that area really has come to enjoy over the years. The impact this will have on our research will be substantial depending on the program you are talking about. We were told that some programs will be delayed for months, but others will be delayed for years, so in the process of taking out a number of the greenhouses we lost a lot of very important research material that cannot be replaced, it has to be redeveloped but that is going to take a lot of time.

With every disaster like this, if there is a silver lining, I suppose, and one instance of a silver lining in this case will be that OARDC and ATI will have an opportunity to re-plan the Wooster campus, and if there were things that physical facilities were preventing us to be able to do, we have an opportunity now to re-plan that campus as we re-build it for the future, and that should serve us well as we go forward.

Les, that is my report.

Mr. Wexner;

Thank you. Glad that things went so well. Any questions, comments?

Mr. Mitchell:

I have one comment. We were told in this meeting that things went so well because the University owned both components, OARDC and ATI. At some of our other regional campuses that is not the case, we may be in partnership with someone, so that is something we may want to look at in the future if another emergency situation happens in another one of our regional campuses - who takes the lead on that emergency situation or how that plan is in place, I think that is really important.

We are fortunate that this is at Wooster and it was all Ohio State, so that is something to look at going forward.

President Gee:

Brandon, terrific point, because most of our other campuses as you know are shared facilities with some of our colleagues around the state. Saying that, we do have an emergency and disaster plan process, in my assumption, Jeff Kaplan, you know Jeff
October 29, 2010 meeting, Board of Trustees

I assume it does take into account the multiple uses of those campuses when we think about what we are doing. Am I right about that?

Mr. Kaplan:

It is a great question. Great comment something that we are working on, something that needs resolve.

President Gee:

I think just to underscore what Mr. Jurgensen said, Dr. Moser has said on multiple occasions the fact that the response was so vigorous and so immediate, because of the fact that we were one University and we really did act like one that day. There was no daylight in that issue, and I think Bobby, you would probably reemphasize that again.

Mr. Wexner:

Ron, do you want to talk about our Environment and Physical Facilities.

Mr. Ratner:

We had the second meeting of the Physical Environment Committee. It is a new Committee so we did go through the items which Alan already mentioned that are going to be on the consent agenda. By the way, one of the things we do need to do is to figure out what items come to which Committee and how we process them so we do not duplicate or take a chance at actually missing some things. We also probably need to spend a little time thinking about what items need to come back to the Board for full approval. Some of it I think is because real estate by definition is something the purchasers say are of real asset by the laws of the state. We need to actually take board action on, but sometimes they are pretty small scale items that come back to the committees or the Board.

We spent most of our time in the meeting trying to get an overview of exactly how the University is organized in regard to the physical environment, the physical campus. It is a very complex organization; almost all of it is now headed up by Jeff Kaplan, who I think does a tremendous job. We wanted to get an understanding of the different structures that we have at the University. The responsibility of the physical environment lies in a number of different areas and many of those areas have been reorganized over the last two to three years. So staff did provide an overview of the organization, the responsibilities and how we are really collaborating. They also gave us again a quick sense of how large the physical campus is. We heard a little bit today about some of the regional campuses, which obviously add tremendously to that size, but in total we have 16,000 acres of land, over 800 buildings, and here just in Columbus we have 1,700 acres, 454 buildings, and those have a current replacement value of about $9.5 billion. The infrastructure, while we do not have an exact number on it because it literally is in many cases varied, but using normal rule of thumb, about 25% of real estate value, we probably have in excess of $2 billion of infrastructure on this campus. So the physical plan is huge and complex, serves many different needs ranging from housing and student services through sophisticated research buildings, obviously through the whole Medical Center. We have developed a very different approach in recent time, in effect we have everything organized under administration and planning which Jeff Kaplan heads and several leaders in that group also have dual reporting to their respective business units to the Medical Center, to Athletics, etc. We have really developed I think a very effective metrics management approach. It is relatively new for these areas but it seems to be working very well. There is tremendous cooperation; we see a number of activities on campus where in years past we would have had responsive silos and where we are not working together. This is part of the
One University thing, and I think it is working. Obviously we have also centralized certain things, utilities and project delivery are really central, other things, space planning, maintenance, and custodial services seem to reside more in their specific areas. Obviously this presents some challenges, in the matrix organization of that type is not easy to execute. It is one that I think is appropriate to the University, but I think we have to spend a lot of time, and I think we will spend some time in the Committee, trying to be sure that in fact we have a coherent organization that we have taken particular advantage of some of the scale that we have as a University to try to get more efficient, deliver better services and deliver them for a better cost.

We also spent a lot of time discussing the framework principles. As everybody remembers we adopted the framework plan last spring, and now the real job is to execute it, and that framework set out principles and strategies, I think very well-articulated, but the difficulty is that many of them are going to be executed over a long period of time, not just years but literally decades. So one of the things we will be doing, one of the challenges for this new committee and one of the challenges for staff is to set up a series of methods to metrics for how to measure our progress; specifically things like the extension of Cannon Drive, the recreation of the river’s edge as both an environmental and a recreational benefit, the view of traffic planning on campus, the adjacencies dealing with 315 and traffic adjacencies, major rebuilding of the campus itself, the civic infrastructure, so many of those items that were really principles in that plan, and the strategies to execute them will have to occur over many years. To that extent, by the way, we do have a new senior staff appointment, Terry Foegler, who actually was one of the people who briefed us significantly yesterday, who is the associate vice president for physical planning and real estate, a tremendous addition, returning back to the University. Terry, I think, really gets it, and he outlined a really long term robust capital programming process – a period of economic constraint. We are going to have a more difficult time to achieve some of these things, but we need to remember that we do a lot on this campus just in the normal course of business. Dealing with our physical needs, these you have heard referenced over the last couple of years consistently to these new chillers that we are doing. Well every time we do a new chiller we tear up a road, every time we tear up a road we have an opportunity to put that back together in a way that really advances a lot of different University agendas. So we are working very diligently on that. And again, trying to also understand that in that plan we called for a change in the way we do business, part of it is the matrix organization I mentioned, but the real goal there is an organizational, it is so we can really have an agile decision making process that understands the drive for One University, so we are really looking at things in a concentrated manner that understands its complexity.

We then spent some time discussing housing plans, although not as much as I would like to. We are going to spend almost the entire session during the next Board meeting really having a detailed review from staff, and with I hope a lot of interaction with the Committee on the major housing alternatives that we are looking at. The direction to move sophomores back on campus and the ability to achieve that I think is possibly within our grasps, but it is a very complex activity. It will have a huge effect on campus, tremendous need to coordinate with students and with the staff that deals with student life on campus because these are issues that will hopefully not just change student life, but materially improve it.

There is about a $230 million total project costs around this place. In the meantime, the south high rise project and the new hall complex are proceeding very well. I am very excited with the progress we have made, where we are not benefiting from the construction process reforms here, we are going through all hoops that we have ever had to go through, but I think we are doing this in a very focused manner, and I am very positive about the fact that we will meet both budget and schedule. These are huge projects, and again we will have a very significant impact really rebuilding almost in full the south residence area.
We have been reviewing a lot of the plans with students and among other things they seem to be very excited about the fact that a major portion of the new south high rise project is going to benefit from a geothermal system. We are in the process of drilling 400 geothermal wells, hundreds of feet deep each, but it will be a tremendous benefit, long term for the University as we start to try to control energy use and be a good environmental steward.

Obviously there are lots of other long term issues. I mentioned just a few of them; another major issue that relates directly to housing is going to be how we impact the neighborhoods. Obviously those relationships are critical to us, defining again areas east of high, how we are going to interact with the area east of high, High Street itself, the western lands, some of the areas north and south of the campus, and those again will all be issues that we are going to try to make sure we maintain our focus on, that were identified in the framework plan.

We spent a little time yesterday, I was kind of excited to see that we are making progress on one of my little pet agenda items, we evidently are making progress on changing the way we sort of present the campus - the whole issue of way finding. We looked at some construction awareness maps, being able to go online and see where major construction projects are changing campus, where you have temporary rerouting of traffic, that is real time online and available. And we looked at a beta version of a pedestrian way finding application that literally lets you plug in where you are, where you want to go. This is particularly significant for some of the accessibility issues on campus, both meeting not just the letter but the intent of some of the ADA laws. It can literally tell someone not only is this the way you get to building X, but this is the door at building X that in fact is handicapped accessible. I think it is a tremendous tool, and it just gives you a sense, my appetite was just whetted by how we can make the campus easier to navigate, not just by the way for the infrequent visitor, we are told by our student trustee that it is not just for infrequent visitors, and it is not just freshmen. It penetrates all the way into sophomore and junior years. Students come back to campus, find they have a class in a new building and they have not a clue as to how to get there. That reassured me because I spend, not a lot of time on campus, but a certain amount of time on campus, and I am forever lost. So maybe this way finding thing is just my personal effort. It may be less expensive to give me a guide every time I come on campus, but I do think it is very important, and I think it will really have some palpable improvements in the way we look at how the campus is presented.

So that was a lot of the work we did yesterday. I am excited with what is on our agenda and particularly with the staff that we got to work with. Again it seems at Board meetings we are always complimenting the University staff, I am very impressed with the group of people we have with their ability to understand the issues and to help us really move forward in these areas. That is my report Mr. Chairman.

Mr. Jurgensen:

Ron I think one of the things that you mentioned we need to really think about and go back to is this issue of ProjectONE and the construction effort and the cost differential because clearly we need to end up in a position where it is not just ProjectONE where we can use single primes, but on everything. It is really hard to prove a negative, so it is really hard to demonstrate what we would have spent, because you did not go that way and so maybe we should really take a hard look at the housing construction project even though it is an apple to an orange compared to the Medical Center, where a different methodology is being deployed and try to find concrete examples of comparison between the two, rather than continue to sort of go around and use a 15% rule of thumb cost differential because at the end of the day I think we are going to have to come back and really document that this is real.
October 29, 2010 meeting, Board of Trustees

Mr. Ratner:

We discussed that in both the Audit and Compliance Committee as well as in our Committee, and it clearly is a huge challenge Jerry. I respect the fact that we were able to get at least some legislative relief when we got at least the ability to do ProjectONE under a new guise. It is complex not only because it is the road not taken, how do you ever know what it would have been like had it gone a different way, but it also is the fact that the changes came in very, very late on ProjectONE. I think we had already committed the expenditure of close to $200 million before we made these changes, and in effect we rewrote what were already agreements to take advantage of this. I think it will still benefit us, and I think we will be able to identify some specific ways that it did. Maybe we should not even try to put a specific, we saved 12.4%, we need to be able to talk about the areas in which we had significant savings, and in which we were able to expedite the process. I think your point of maybe making comparison to how other things progress might be very well taken. It might be that we look at Steeb Hall more than the housing, particularly because it is a science building, it might have more parallels in terms of construction methods and types, and particularly some of the complexity of the systems. One of the reasons that construction reform is critical is that it helps I think to have a single general contractor when you are also integrating very, very complex systems within a building.

Mr. Jurgensen:

In that regard too, the cost imbedded in the speed of decision making with one prime general contractor, every day there are a dozen decisions that have to be made in a project of this complexity. When you have multiple contractors and different people trying to figure out who's contract that was in and who did or did not do what they were supposed to do and all of that, it is inescapable that decision making is going to get slowed down. So again, just keeping track of that and paying attention and trying to find examples to compare and contrast, it will be a body of evidence that ultimately will need with the legislature, it will not be a single dollar figure.

Mr. Ratner:

Perhaps what we should do, it might be interesting to take some time at the next Committee meeting and actually ask for staff to come back and let us know exactly how we are tracking, and I don’t know, it might be both between Medical Affairs and Physical Environment to sort of take a look at exactly how we are trying to track the benefit of this construction process reform.

Judge Marbley:

I want to note that one of the things that we talked about in the Audit and Compliance Committee is how we are tracking certain data, and Lynn Readey’s office is compiling some of that, and I think Jay Kasey’s office is also working on that.

Mr. Ratner:

It is a complex issue, and I think it might be interesting. I think to Jerry’s point, it is a critical issue as we move forward, so it might be interesting for us to get a little more knowledgeable about how it is getting done.

Judge Marbley:

I think if I am not mistaken, and Lynn can correct me if I am wrong, she is here today, they are doing interim reporting on some of the data that is being maintained on the pilot project, at least with respect to ProjectONE, is that right?
Ms. Readey:

Tracking is going on, both our internal data collection, working with various other entities to track and to find other projects to compare other past work and to take care of what we are doing now. I certainly agree it is a very complex undertaking.

Mr. Schottenstein:

I have another question, moving in another direction. The master planning process, which I think most of us agree, was one of the more significant things we have done, and I appreciate your comments Ron about just giving us a brief update on what has been going on. The need to be disciplined going forward and to continue to pay respect to all the heavy lifting that was done and the guiding principles that were articulated in that plan is really key. I guess the question I would have is, to what extent will Sasaki, who helped lead that process along with a lot of folks sitting in this room right now, particularly including yourself, but to what extent will Sasaki continue to remain involved as we go forward with so many of these big issues. You mentioned a number of them, Cannon Drive, 315 and so forth.

Mr. Ratner:

I am going to turn that one back to Jeff who I think has a good answer for you.

Mr. Kaplan:

That is a good question. Sasaki will continue to be involved. They have a proposal before us now in terms of technically the continuation, but they and Jerry McCue are both continuing to work with us, and in fact, on the south high rise project they were selected separately as consultants so they are here, in fact Ricardo is here today. So we think they will be important. Now that we have Terry onboard and we have a plan, we do not feel we need to have them intensively as we had them before, but we do as I think you are suggesting, they really know this as well as anyone, and they work with us on the tools that you have all seen, and we do feel it is a significant benefit to keep them involved. Good question and we are continuing to use them.

President Gee:

They have a significant stake in this. This is the single largest project of this kind ever undertaken as a planning project in this country by a university. The thing that is interesting to me, and this color commentary, is the fact that they came in as consultants, I think they left as believers, and they are very devoted to this project, and I like that. I like the fact that they have become very much a part of our team.

Mr. Ratner:

That is just what I was going to say Gordon. They are very committed. Ricardo is very personally committed, but they are very, very committed to the University. They also obviously believe in the quality of the work that they did but as they really got to know the University well, I think they got more and more excited about the opportunities presented here. Bobby we are trying to create a long-term relationship, if you will, as a standby consulting relationship. As we look at things specifically, that we can use them as bench strength. As good as the staff we have are, there are times when we look at major projects, when we look for instance, if in fact we go forward with a major housing project, and we are going to rework if you will the north campus housing, that project itself, the relationship to High Street, whether at some point where they are actually involved in that specific project. I think helping those in terms of the oversight, how that works, how it fits into the rest of the campus, making sure that we do not miss those principles in the plan is critical, and I think that is what we are looking at from them is an extended relationship where we can have them
available to us, have them available to staff so that there is somebody there to in effect take that idea back.

Mr. Schottenstein:

That is what I was hoping to hear. Having them is sort of another voice at the table, an aesthetic policeman if you will, compliance officer on the plan they helped guide, I think is just critical.

Mr. Ratner:

The other thing that I would look to them to, remember one of the benefits of working with these firms of that kind of quality, and the reach that they have, is they will also be bringing us back best practices. Speaking of Ricardo, recently he is seeing things being done on other campuses and in other areas and immediately saying, wait a minute, there is an application to Ohio State here, so one of the other benefits of maintaining that relationship is that the plan is not in fact a frozen item. It is a living document, it is one that is going to take a lot of revision, a lot of change, and built into the plan is the ability to adapt and one of the good things about maintaining that relationship is that also gives us in effect a team that works around the country looking at some of the best things that are happening. I am always convinced that we do not need to necessarily reinvent the wheel every time out that really understanding what best practices is elsewhere is critical. That is another aspect of this long term engagement with them.

Mr. Brass:

When we were going through the process of the master facility plan, so much software and programmatic work has been done, that we had such a great computer base, has anything happened with that as it relates to ownership and so on?

Mr. Ratner:

I have seen specific reports that I know are generated right out of it, Jeff can speak to it, but my sense, and I think Lynn said the same thing yesterday that Terry did, they are relying on those tools in the day to day work, and that is really one of the things they are there for.

Mr. Kaplan:

That is correct, it is used every day and in fact some of the material we presented to the Physical Environment Committee yesterday was based on being able to use and manipulate information through those tools, and we will continue to extend it. As Terry said to the Committee yesterday, we really do not have a handle on our infrastructure; that will be added to the database. In terms of ownership, our legal counsel is still talking to Sasaki. They have the first ownership, but there were discussions early on about what would happen if that were used with other universities and that is ongoing.

Mr. Wexner:

Thank you, anything else. Any other comments about other committees, questions, things to be done?

I would like to comment that I am appreciative of the citizens in the state of Ohio, and the legislature should be appreciative of the work that the Board does. Clearly the committee work, and so much is done in the committees, is important and what we do, our appointments are an honorarium, they are an honor, but they are really a responsibility. Just listening, I know the work of the committees and I know all of you
October 29, 2010 meeting, Board of Trustees

and just seeing the product of the work is just quite impressive. It speaks to the responsibility of the Board. What I was thinking about listening to the reports, and we can use the physical planning one as an example. I think as a matter of policy we kind of think that we want to bring best practices and world class talent to us, so we are not inventing every wheel. We can debate that as a subject but I think there is a consensus that I am feeling, that we want to look outside ourselves to figure things out, and we do not have to invent everything. Having said that, just the scope and scale that Gordon talked about, how big the University is, and we are unique maybe in the world at a planning process of this scale with this amount of talent and this amount of input from the Board reflection from faculty outsiders, the IT system for organization of ability, and what I wanted to plant with all of us is wonderful, and I think we could take this through every committee or almost everything we do. These are wonderful academic opportunities. The notion of getting together agriculture because of the landscape, business school because of the business of the business that goes into this physical planning, the real estate aspect, school of architecture, landscape architecture, engineering, law, just this one bit of work probably touches so many academic fields, yet alone sociology and others because we are thinking about all these things, and I just give everyone some homework and say, okay if we have a world-class practice, not only do we have something that we can sell, but something that we can really teach from, and it is here. That should attract faculty, it should attract students and it should benefit us because we are really creating something. I might say the same about the example of medicine - we are inventing a new curriculum. What does that mean academically to us, and maybe cross-functionally across colleges as instruction in other schools or other fields. I think we are actually creating knowledge and an asset and an intellectual property by the work that we are part of.

We can talk about that, think about it, if you want now, or we can just think about it. I think there is thinking going on. Gordon is writing something, but I will interrupt him to read the consent agenda.

-0-

CONSENT AGENDA

President Gee:

Thank you Mr. Chairman, today we have a total of 20 resolutions on the consent agenda with changes in item number two as proposed by Judge Marbley in his report, therefore we are seeking approval for the following:

AMENDMENTS TO THE MEDICAL CENTER BOARD BYLAWS

Resolution No. 2011-12

Synopsis: The amendments to the Medical Center Board Bylaws are recommended for approval.

WHEREAS the Medical Center Board has gained one year of experience in its operation and governance; and

WHEREAS the Medical Center Board desires to enhance its efficiency and effectiveness and pursuant to bylaw 3335-103-01 of the Medical Center Board Bylaws is authorized to recommend to the Board of Trustees the adoption of the attached amendments; and

WHEREAS these amendments were approved by the Medical Center Board on October 27, 2010:

185
October 29, 2010 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the attached amendments are hereby adopted, effective immediately.

(See Appendix VII for background information, page 229.)

***

AMENDED - REGIONAL CAMPUS BOARDS:
AMENDMENT AND RESCISSION OF RELATED BYLAWS
Resolution No. 2011-13

Synopsis: Change to the appointment process for regional campus boards is requested such that appointments will be made by the provost instead of by the Board of Trustees. Existing by-laws relating to regional campus boards should be rescinded.

WHEREAS The Ohio State University Board of Trustees has established regional campus boards for the university’s regional campuses located in Lima, Mansfield, Marion, and Newark (“the regional campus boards”); and

WHEREAS the regional campus deans/directors are appointed by the provost; and

WHEREAS the regional campus boards serve important roles in advising and assisting the deans/directors of the regional campuses; and

WHEREAS members of the regional campus boards will now be appointed by the provost in consultation with the dean/director of each regional campus, instead of by the Board of Trustees in consultation with the president; and

WHEREAS with this change in the appointing process, it is no longer necessary for the Bylaws of the Ohio State University Board of Trustees to include references to the appointment, powers, duties and other details relating to the regional campus boards; and

NOW THEREFORE

BE IT RESOLVED, That the following Bylaws be rescinded in their entirety: 3335-1-03(W); 3335-113-01 through 3335-113-07 (relating to the Newark board); 3335-115-01 through 3335-115-07 (relating to the Mansfield board); 3335-117-01 through 3335-117-07 (relating to the Lima Board); and 3335-119-01 through 3335-119-07 (relating to the Marion board); and

BE IT FURTHER RESOLVED, That the procedure for appointing and removing members and operating procedures of the regional campus boards be included in policies within the Office of Academic Affairs.

(See Appendix VIII for background information, page 238.)

EXPRESSION OF APPRECIATION TO OHIO STATERS, INC.
Resolution No. 2011-14

WHEREAS the student/faculty service organization Ohio Staters, Inc. at The Ohio State University will be commemorating 75 years of campus changing projects and student leadership with celebrations in November of 2010; and
WHEREAS Ohio Staters, Inc. was founded at The Ohio State University in 1933 and incorporated in 1935 by Edward S. “Beanie” Drake (Ohio Union Director), Charles W. Ebersold (student), John B. Fullen (Alumni Association Secretary), Howard L. Hamilton (Junior Dean, College of Arts & Sciences), James C.B. Handley (student), Fred J. Milligan (Assistant Dean of Men), William F. North (student), Leo Gordon Staley (Director of Intramural Sports), and Oscar L. Thomas (Ticket Director/Business Manager, Athletic Department);

WHEREAS Ohio Staters, Inc. is a unique organization of “Thinkers, Believers and Doers in and about The Ohio State University,” comprised of 36 students and 14 faculty and staff, and is one of the oldest student organizations at the institution; and

WHEREAS Ohio Staters, Inc. has a record of extraordinary impact upon the University, and its many service projects, funding in part by the sale of seat cushions at home football games since 1958, the creation of the University’s official crest, Brutus Buckeye, Buckeye Grove, the Block “O” student cheer organization, the Edward S. Beanie Drake Student Leader Endowment and Scholarships, Distinguished Lecture Series, the University Museum at University Hall, Buck-i-Robics, Graduate School and Career Days, the 1950’s Rally Wagon, Rose Bowl and Michigan game trips for students, the annual mental health event “Best Day of Your Life,” “Becoming a Nut” freshman education program, the off-campus housing guide “Gimme Shelter,” sponsorship of top campus entertainment in the 1960’s and 1970’s, campus beautification projects, sponsorship of the Ohio Wheelchair Games, sponsorship of the Ohio State Sportsmanship Council, and creation of the annual “Light Up the Lake” light display in December, just to name a few;

WHEREAS, in 1985 in honor of its 50 years at The Ohio State University and with the approval of the Board of Trustees, Ohio Staters, Inc. and its alumni built the Outdoor Performance Center and stage at the Browning Amphitheater in the Mirror Lake Hollow; and

WHEREAS in celebration of its 75 years at The Ohio State University, Ohio Staters, Inc. and its alumni committed to raising $600,000 towards the construction of the new Ohio Union and the naming of two rooms, the Ohio Staters, Inc. Traditions Room and the Ohio Staters, Inc. Founder’s Room, to establishing an endowment in honor of Ohio Staters, Inc.’s longstanding commitment to student leadership and service at The Ohio State University:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University offers its congratulations and sincere gratitude to Ohio Staters, Inc. and its many alumni as it celebrates its 75th year of leadership and service to the University.

***

NAMING OF CLASSROOM AND LABORATORY SPACE
Resolution No. 2011-15

Synopsis: Authorization to name dedicated space at The Ohio State University at Mansfield in Ovalwood Hall for an extension of OSU’s engineering program.

WHEREAS The Ohio State University at Mansfield and The College of Engineering have executed a Memorandum of Understanding to bring a cohort of first-year engineering students to the OSU Mansfield campus; and

WHEREAS Coma Kokosing Construction Company has generously contributed its services, expertise and materials to complete a renovation of space dedicated in Ovalwood Hall for this new engineering classroom, lab and office; and
WHEREAS the Mansfield Board would like to recognize this gift by naming this dedicated space, Ovalwood Hall Rooms 458 and 460, as Corna Kokosing Engineering Laboratory; and

WHEREAS the naming of the new classroom and laboratory space for an engineering program is a tribute to its generosity and commitment to education, to OSU Mansfield, to the community, and to the engineering profession:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Ovalwood Hall rooms 458 and 460 be named the Corna Kokosing Engineering Laboratory.

***

RENAMEING OF THE OFFICE OF MINORITY AFFAIRS
Resolution No. 2011-16

Synopsis: The renaming of the Office of Minority Affairs as the Office of Diversity and Inclusion is proposed.

WHEREAS the Office of Minority Affairs was created in 1970 to provide leadership for The Ohio State University in supporting the success of minority students, faculty, and staff; and

WHEREAS the Office of Minority Affairs has been highly successful in fostering a welcoming climate and serving in an advocacy role for minority individuals, both at The Ohio State University and in the larger community, and in promoting the recruitment, retention, and timely graduation of undergraduate, graduate, and professional students; and

WHEREAS the Office of Minority Affairs has grown since its inception to celebrate diversity that, over time, has come to include not only race and ethnicity but also socioeconomic condition, gender, disability, sexual orientation, religion, nationality, and other expressions of difference; and

WHEREAS The Ohio State University is committed to becoming the nation’s premier public university in preparing students to live, work, and lead in a diverse and global community; and

WHEREAS to accomplish its goal of becoming that national model, The Ohio State University must have a strategic and visionary office that embraces and promotes a comprehensive understanding of diversity, while supporting the university’s diverse populations with signature programs; and

WHEREAS the purview and potential of the Office of Minority Affairs is no longer captured by its being identified as an office of “minority affairs”; and

WHEREAS that purview and potential would be more appropriately reflected in a name that suggests the office’s many diversity and inclusion activities:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (A)(2) of rule 3335-1-05 of the Administrative Code, the Board of Trustees approves the renaming of the Office of Minority Affairs to the Office of Diversity and Inclusion, effective immediately.
October 29, 2010 meeting, Board of Trustees

ESTABLISHMENT OF CLINICAL TRACK FACULTY IN THE
SCHOOL OF COMMUNICATION, COLLEGE OF ARTS AND SCIENCES
Resolution No. 2011-17

Synopsis: Approval of the establishment of clinical track faculty in the School of
Communication, College of Arts and Sciences.

WHEREAS the School wants to attract the most highly qualified individuals to teach
clinical and practicum courses and allow for the expansion of academic programs to
include a practical skill-oriented component, specifically highly qualified practitioners of
multimedia journalism to ensure that students receive an outstanding experience in the
journalism major, specifically the capstone courses, and will be well prepared for the
job market; and

WHEREAS other programs in communication or journalism at peer institutions use
clinical faculty with significant real world experience to teach professional courses; and

WHEREAS the then-College of Social and Behavioral Sciences received University
Senate and Board of Trustees’ approval to offer clinical faculty tracks in 2008; this is an
amendment to the proposal to establish a clinical practitioner faculty track, and the
Council on Academic Affairs has ensured the proposal will be adhered to, notably the
rationale, and the activities and responsibilities of clinical track faculty; and

WHEREAS the proposal has the support of the faculty in the School of Communication,
and the administration of the College of Arts and Sciences; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the
University Senate at its meeting on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of Clinical Track Faculty in the School of
Communication, College of Arts and Sciences be effective immediately.

***

ESTABLISHMENT OF AN EDUCATION SPECIALIST (ED.S.)
DEGREE PROGRAM IN THE SCHOOL OF TEACHING AND LEARNING
Resolution No. 2011-18

Synopsis: Approval of the establishment of an Education Specialist (Ed.S.) degree
program in the School of Teaching and Learning is proposed.

WHEREAS there are many teachers with an M.Ed or M.A. degree who would like to
continue their professional development but have few options available to them to
support their professional work in a coherent and systemic manner; and

WHEREAS the School of Teaching and Learning has refocused its Ph.D. as a research
degree oriented toward preparing graduates for university faculty positions; and

WHEREAS the College of Education and Human Ecology has a long history of
producing educational leaders at the school levels, and this degree program can help
address that issue; and

WHEREAS this degree will be a professional, terminal degree that will lie between the
Master’s and Ph.D. degree programs; and
WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of an Education Specialist (Ed.S.) degree program in Teaching and Learning is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF A MASTER’S DEGREE PROGRAM IN PLANT HEALTH MANAGEMENT
Resolution No. 2011-19

Synopsis: Approval of the establishment of a master’s degree program in Plant Health Management is proposed.

WHEREAS the Department of Plant Pathology and the Department of Entomology propose to develop a tagged, professional degree program and provide an applied graduate degree for practicing professionals and others – including, extension educators, technical specialists with state and federal agencies, agriculture business industry; and governmental and non-governmental organizations involved in agriculture in developing countries; and

WHEREAS it will be a separate degree program that students will select for its theory-to-practice nature; a non-thesis degree that will be in addition to the Plan B non-thesis option currently available to students pursuing the Master of Science in the Plant Pathology or Entomology graduate programs; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Master’s Degree Program in Plant Health Management is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF THE DEPARTMENT OF PLASTIC SURGERY
Resolution No. 2011-20

Synopsis: Approval to change the Division of Plastic Surgery to the Department of Plastic Surgery in the College of Medicine is approved.

WHEREAS plastic surgery currently is a division within the department of surgery, but increasingly plastic surgery has become distinct from general surgery, encompassing a separate body of knowledge, and has an independent training program; and

WHEREAS there is a trend nationally for the creation of separate departments of plastic surgery, and within the College of Medicine there recently has been a trend to create separate departments for surgical specialties; and

WHEREAS this department would lead the institutional effort in plastic surgery training, patient care and research, and department status will help recruit faculty; and
October 29, 2010 meeting, Board of Trustees

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the Department of Plastic Surgery in the College of Medicine is hereby approved, effective immediately.

***

DEPARTMENT NAME CHANGE FROM THE DEPARTMENT OF WOMEN’S STUDIES, TO THE DEPARTMENT OF WOMEN’S, GENDER AND SEXUALITY STUDIES

Resolution No. 2011-21

Synopsis: Approval to change the department name of Women’s Studies to the Department of Women’s, Gender and Sexuality Studies is proposed.

WHEREAS women’s studies, as a field, has increasingly recognized that the study of gender and sexuality are central to research on women and girls, and feminist scholars insist that studies of gender and sexuality should not be conducted solely on women but have important lessons to offer for understanding social relations of difference more broadly; and

WHEREAS the University’s Department of Women’s Studies focuses not only on the feminist methodology foundational to the discipline but also the broader applications of this lens applied to different genders and sexuality, to understand the social relationships within our society today; and

WHEREAS in recent years, many programs and departments that began as Women’s Studies have changed their name in recognition of the expanded intellectual breadth of the scholarship and teaching that they now perform; and

WHEREAS the proposal has the support of the faculty in the Department of Women’s Studies and of the administration of the College of Arts and Sciences; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the proposal to change the name of the Department of Women’s Studies, to the Department of Women’s, Gender and Sexuality Studies is hereby approved, effective immediately.

***

AMENDMENT TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2011-22

Synopsis: Approval of the following amendment to the Rules of the University Faculty is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and
October 29, 2010 meeting, Board of Trustees

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on October 7, 2010:

NOW THEREFORE

BE IT RESOLVED, That the below amendment to the Rules of the University Faculty be adopted as recommended by the University Senate, effective Summer 2012.

3335-5-18 Meetings.

The department or school faculty in each tenure initiating unit shall meet upon the call of the chair, or director, or dean or as prescribed in the unit's pattern of administration, but not less frequently than once each quarter, or semester, during the academic year.

***

REVOCATION OF DEGREE

Resolution No. 2011-23

Synopsis: Revocation of a Master's in Social Work degree is proposed.

WHEREAS a panel of the committee on academic misconduct constituted according to rule 3335-5-48.7 of the Administrative Code requested that the Board of Trustees effectuate the revocation of the Master's in Social Work degree of Janette Beall; and

WHEREAS the request was concurred with by the Executive Vice President and Provost and by the Dean of the Graduate School; and

WHEREAS the request was further concurred with by the Academic Affairs and Student Life Committee of the Board of Trustees; and

WHEREAS the appropriate bodies and administrative officers of the University have fully complied with applicable procedures and, in accordance with those procedures, have requested that the Board of Trustees effectuate the revocation of the Master's in Social Work degree of Janette Beall:

NOW THEREFORE

BE IT RESOLVED, That the Master's in Social Work degree of Janette Beall, granted December 13, 2009 pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, is hereby revoked effective immediately.

***

HONORARY DEGREE

Resolution No. 2011-24

Synopsis: The awarding of an honorary degree is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of an honorary degree as listed below:

Carter G. Phillips  Doctor of Public Service

NOW THEREFORE

BE IT RESOLVED, That the above honorary degree be awarded in accordance with the recommendation at a time convenient to the University and the recipient.
PERSONNEL ACTIONS

Resolution No. 2011-25

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the September 17, 2010, meeting of the Board, including the following Appointments, Reappointments, Appointment/Reappointment of Chairpersons, Leave of Absence without Salary, Professional Improvement Leave, Emeritus Titles, Promotion, Tenure, and Reappointment, and offcycle appointments be approved.

Appointments

Name: BRAD J. BUSHMAN
Title: Professor (Margaret Hall and Robert Randall Rinehart Chair)
Division/School: Social and Behavioral Sciences/Arts and Sciences
Term: October 1, 2010 through September 30, 2015

Name: MELINDA D. CHURCH
Title: Special Assistant to the President for Operations and Strategic Communications
Office: President
Effective: October 1, 2010

Name: JENNIFER K. CROCKER
Title: Professor (Ohio Eminent Scholar in Social Psychology)
Department: Psychology
Effective: October 1, 2010

Name: W. JAMES HARPER
Title: Professor (The J.T. “Stubby” Parker Chair in Dairy Foods)
College: Food, Agricultural, and Environmental Sciences
Term: October 1, 2010, through September 30, 2011

Name: LONNIE J. KING
Title: Executive Dean of the Health Sciences
Term: September 17, 2010, through August 31, 2014

Name: JEFFREY LAKRITZ
Title: Professor (The Vernon L. Tharp Professorship in Food Animal Medicine)
College: Veterinary Medicine
Term: July 1, 2010, through June 30, 2015

Name: VALERIE B. LEE
Title: Vice Provost
Office: Academic Affairs
Title: Chief Diversity Officer
Office: President
Effective: November 1, 2010

Name: CATHERINE R. LUCEY
Title: Interim Dean
College: Medicine
Title: Interim Vice President
Office: Health Sciences
Term: October 1, 2010, through September 30, 2011
October 29, 2010 meeting, Board of Trustees

Name: STEVEN J. SCHWARTZ  
Title: Professor (Carl E. Haas Chair in Food Industries)  
College: Food, Agricultural, and Environmental Sciences  
Term: October 1, 2010, through September 30, 2015

Name: DANIEL D. SEDMAK  
Title: Professor (The Donald A. Senhauser, M.D., Chair in Pathology)  
College: Medicine  
Title: Chair  
Department: Pathology  
Term: September 1, 2010, through August 31, 2014

Name: WILLIAM J. SHKURTI  
Title: Counselor to the President for State Budget Policy  
Office: President  
Term: October 1, 2010, through September 30, 2012

Name: ANDREW A. SORENSEN  
Title: Senior Vice President for the Office of Development/President, The Ohio State University Foundation  
Office: Development  
Title: Special Assistant to the President  
Office: President  
Term: October 1, 2010, through September 30, 2015

Name: GIFFORD WEARY  
Title: Divisional Dean, Social and Behavioral Sciences  
College: Arts and Sciences  
Term: July 1, 2010, through June 30, 2013

Name: RONALD J. WISNESKI  
Title: Associate Professor – Clinical (The Dr. Benjamin R. and Helen Slack Wiltberger Memorial Chair in Orthopaedic Surgery)  
College: Medicine  
Term: August 16, 2010, through August 15, 2013

Name: KATHERINE WOLFORD  
Title: Associate Vice President for Advancement  
Office: Development  
Effective: October 11, 2010

Reappointments

Name: JOSEPH A. ALUTTO  
Title: Executive Vice President and Provost  
Office: Academic Affairs  
Term: July 1, 2011, through June 30, 2016

Name: GREGORY N. WASHINGTON  
Title: Interim Dean  
College: Engineering  
Term: October 1, 2010, through September 30, 2011

Appointments/Reappointments of Chairpersons/Directors

MEYER J. BENZAKEIN, Interim Chair, Department of Aviation, effective October 1, 2010, through December 31, 2010.
October 29, 2010 meeting, Board of Trustees

J. RICHARD DIETRICH*, Chair, Department of Accounting and Management Information Systems, effective October 1, 2010, through September 30, 2014.

*reappointment

Leave of Absence Without Salary

NAN LI, Assistant Professor, Department of Economics, effective Winter, Spring and Summer Quarters 2011, to be a visiting scholar at the International Monetary Fund Institute, Washington D.C.

Professional Improvement Leave

AMY I. NATHANSON, School of Communication, effective Winter Quarter and Spring Quarter 2012.

Emeritus

EVELYN B. FREEMAN, School of Teaching and Learning, with the title Professor Emeritus, effective January 1, 2011.

CLAUDIO GONZALEZ, Department of Agricultural, Environmental, and Development Economics, with the title Professor Emeritus, effective November 1, 2010.

NICHOLAS A. VOTOLATO, Department of Psychiatry, with the title Clinical Assistant Professor Emeritus, effective October 1, 2010.

SUSAN S. SHOCKEY, Ohio State University Extension, with the title Associate Professor Emeritus, effective November 1, 2010.

Promotion, Tenure, and Reappointment (off cycle)

COLLEGE OF SOCIAL AND BEHAVIORAL SCIENCES

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Healy, Paul, Economics, October 1, 2010

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2011-26

Synopsis: The University Development Report as of September 30, 2010, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Food, Agricultural, and Biological Engineering Endowed Professorship; the establishment of twenty-seven (27) new named endowed funds; and the revision of one (1) named endowed fund.

NOW THEREFORE
October 29, 2010 meeting, Board of Trustees

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation as of September 30, 2010, be approved.

(See Appendix IX for background information, page 256.)

Total Gifts

Establishment of Named Endowed Funds

The Patrick B. Mullen Fund for Folklore Studies
(Used to support the learning, research, and professionalization of folklore graduate students) $52,853.00

Japanese Studies Fund
(Used to support academic activities of graduate and undergraduate students and faculty whose primary field of study is Japanese language) $50,030.00

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Professorship

The Food, Agricultural, and Biological Engineering Endowed Professorship
(Established with gifts from an anonymous donor, the funding level has been reached and the professorship is being established October 29, 2010. (grandfathered) $801,443.44

Establishment of Named Endowed Funds

The Michael D. Bloch and Janis B. Bloch Endowment Fund in Urology
(Established with gifts from Michael D. Bloch, Janis B. Bloch; and OSU Urology LLC; used to provide unrestricted support to the Department of Urology) $200,000.00

The Robert C. Walter Memorial Endowment Fund
(Established with gifts in memory of Robert C. Walter from his son and daughter-in-law Robert D. and Margaret W. Walter, The Walter Family Foundation, and OSU Urology LLC; used to provide unrestricted support to Department of Urology) $200,000.00

William J. Buschman Scholarship Fund in Earth Sciences
(Established with an estate gift from William Buschman, Jr.; used to provide scholarship support in the School of Earth Sciences) $113,132.64

The David F. and Kathryn B. Beard Scholarship Endowment Fund
Established with estate gifts from David F. and Kathryn B. Beard; used to provide merit scholarships in the College of Food, Agricultural, and Environmental Sciences) $90,260.98

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Funds

The Patrick B. Mullen Fund for Folklore Studies

The Patrick B. Mullen Fund for Folklore Studies was established October 29, 2010, by the Board of Trustees of The Ohio State University with gifts from friends, family and colleagues.

The annual distribution from this fund shall be used to support the learning, research, and professionalization of folklore graduate students (and graduate-undergraduate collaborations) at the discretion of the director of the Center for Folklore Studies with approval from the executive dean of the College of Arts and Sciences. Expenditures may include, but are not limited to, financial aid, student assistantships, student research and conference attendance expenses, special events for graduate students, and student-organized activities such as the Folklore Students Association Conference. If the annual distribution is used for scholarships, the director of the Center for Folklore shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University’s Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the director of the Center for Folklore Studies.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from Patrick B. Mullen, should he be alive, and the executive dean of the College of Arts and Sciences in consultation with the director of the Center for Folklore Studies.

Amount Establishing Endowment: $52,853.00
Japanese Studies Fund

The Japanese Studies Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University with gifts from friends of the Department of East Asian Languages and Literatures.

The annual distribution from this fund shall be used to support academic activities of graduate and undergraduate students and faculty whose primary field of study is Japanese language. Activities may include, but not limited to, research travel, study abroad, academic conferences, special lectures, and special research projects. Expenses shall be recommended by the chair of the Department of East Asian Languages and Literatures and approved by the executive dean of the College of Arts and Sciences in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the chair of the Department of East Asian Languages and Literatures.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $50,030.00

Establishment of Named Endowed Professorship

The Food, Agricultural, and Biological Engineering Endowed Professorship

The Food, Agricultural, and Biological Engineering Professorship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor. The name and description were revised on October 29, 2010.

The annual distribution from this fund shall be used to support a distinguished professor in the Department of Food, Agricultural and Biological Engineering. It is the donor’s intent through this professorship to strengthen the department in its land-grant mission to meet the needs of agriculture and agriculture-related businesses in the State of Ohio. It is the donor’s preference that the professorship be used for recruitment of a new faculty member; however, it may be used for retention of an existing faculty member. The professorship holder should be accomplished in teaching, research and public service with preference given to expertise in advanced mechanical systems and focused on commercialization of emerging opportunities primarily for the benefit of Ohio agriculture. The use of these funds may include, but is not limited to, salary support for the professor, graduate student support, and research projects. Appointment to the professorship for each 5 year term will be recommended by the vice president for agricultural administration and executive dean for Food, Agricultural, and
Environmental Sciences, in consultation with the chair of Food, Agricultural and Biological Engineering, to the Executive Vice President and Provost and submitted to the Board of Trustees for its approval. The professorship holder may be reappointed to another term following favorable assessment of his/her academic and research performance, and accomplishments.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in the next fiscal year and only for the purposes of the endowment. Funds held in the distribution account in excess of two fiscal years may be reinvested in the endowment principal, or continue to be held in the distribution account to be used only for the purposes of the endowment at the discretion of the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chair of Food, Agricultural and Biological Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he or she be living, and the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chair of Food, Agricultural and Biological Engineering.

Amount Establishing Endowment: $801,443.44 (grandfathered)

Establishment of Named Endowed Funds

The Michael D. Bloch and Janis B. Bloch Endowment Fund in Urology

The Michael D. Bloch and Janis B. Bloch Endowment Fund in Urology was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made from Michael D. Bloch (BSBA 1961) and Janis B. Bloch of Columbus, Ohio; and from OSU Urology LLC.

The annual distribution from this fund shall be used for unrestricted support to the Department of Urology for ongoing needs, program enhancement, foster innovation, or to strengthen initiatives such as, but not limited to, research, medical education/training, faculty development/recruitment, patient outreach, etc. Approval of distribution shall be made by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and senior vice president for Health Sciences.

The endowment shall be revised to an endowed professorship or chair should the funding level reach $1 million or $2 million, respectively, by December 31, 2013; or subsequently, if funding reaches levels required in future years. The annual distribution shall be used to support a faculty member in the Department of Urology.

The appointment shall be made by the Board of Trustees of The Ohio State University as recommended by the senior vice president for Health Sciences and by the dean of the College of Medicine in consultation with the chairman of the Department of Urology. The activities of professorship or chair holder shall be reviewed no less than every four
years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the department chairman.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from both representatives of the donors and as recommended by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $200,000.00

The Robert C. Walter Memorial Endowment Fund

The Robert C. Walter Memorial Endowment Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made in memory of Robert C. Walter, and in honor of his triumphant handling of adversity including the loss of vision, from his son and daughter-in-law, Robert D. and Margaret M. Walter of Dublin, Ohio; The Walter Family Foundation; and OSU Urology LLC.

The annual distribution from this fund shall be used for unrestricted support to the Department of Urology for ongoing needs, program enhancement, foster innovation, or strengthen initiatives such as, but not limited to, research, medical education/training, faculty development/recruitment, patient outreach, etc. Allocation and approval of distribution shall be made by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and senior vice president for Health Sciences.

The endowment shall be revised to a professorship or chair should the endowment principal level reach $1 million or $2 million, respectively, by December 31, 2014. After December 31, 2014, the endowment principal must reach the then current minimum funding level to be revised to a professorship or chair. The annual distribution shall be used to support a faculty member in the Department of Urology. The appointment shall be made by the Board of Trustees of The Ohio State University as recommended by the senior vice president for Health Sciences and by the dean of the College of Medicine in consultation with the chairman of the Department of Urology. The activities of professorship or chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the department chairman.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from representatives of the donors and as recommended by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $200,000.00

William J. Buschman Scholarship Fund in Earth Sciences

The William J. Buschman Scholarship Fund in Earth Sciences was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from William J. Buschman, Jr. (B.S. 1948).

The annual distribution from this fund shall be used to provide scholarship support in the School of Earth Sciences as recommended by the School’s director and approved by the executive dean of the College of Arts and Sciences in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the director of the School of Earth Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences in consultation with the director of the School of Earth Sciences.

Amount Establishing Endowment: $113,132.64

The David F. and Kathryn B. Beard Scholarship Endowment Fund

The David F. and Kathryn B. Beard Scholarship Endowment Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University...
October 29, 2010 meeting, Board of Trustees

Foundation, with estate gifts from David F. (BS 1936 & PhD 1940 Agronomy) and Kathryn B. Beard.

The annual distribution from this fund shall be used for merit scholarships in the College of Food, Agricultural, and Environmental Sciences. Qualified students must maintain at least a 3.5 cumulative grade point average or its equivalent during their last three (3) years in high school, or in the College of Food, Agricultural, and Environmental Sciences. Scholarship recipients shall be selected by the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for agricultural administration and executive dean of the College of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for agricultural administration and executive dean of the College of Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $90,260.98

The Dental Alumni Society Scholarship Fund

The Dental Alumni Society Endowed Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The College of Dentistry’s Dental Alumni Society, alumni, and friends of the College of Dentistry at The Ohio State University.

The annual distribution from this fund shall be used to provide scholarship funds for students in the College of Dentistry. It is the desire of the donors that scholarship recipients demonstrate strong leadership skills through participation in student government and/or organized dental student organizations. Scholarship recipients shall be selected by the dean of the College of Dentistry, the Office of Student Financial Aid, the College of Dentistry’s Scholarship Committee and the faculty representative to the Dental Alumni Society’s Board of Governors.

The maximum award to any single student shall be limited to the value of in-state tuition for one academic grading period. If the annual distribution exceeds this amount, it is the donors’ preference that funds are awarded to multiple students. Scholarships are not renewable on an annual basis but past recipients will be eligible for consideration in subsequent years.
The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors if one is available and the dean of the College of Dentistry.

Amount Establishing Endowment: $86,544.00

The Willie D. Chapman and Harvey A. Chapman Scholarship Fund

The Willie D. Chapman and Harvey A. Chapman Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Harvey A. Chapman of Columbus, Ohio.

The annual distribution from this fund shall be used to provide one or more honors scholarships to students enrolled in courses of study in the physical sciences, such as those courses taught in the Colleges of Engineering, Biological Sciences, Medicine, Dentistry, Veterinary Medicine, Agriculture and Mathematical and Physical Sciences. Scholarship recipients shall be selected by the director of the Honors program in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Honors program.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Honors program.

Amount Establishing Endowment: $82,305.26
The W.G. ’Spud’ Elliott DDS Endowed Fund

The W.G. ’Spud’ Elliott DDS Endowed Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from his family.

Until the principal of the fund reaches $250,000, the annual distribution from this endowed fund shall be used to provide a scholarship to a fourth year student excelling in Oral and Maxillofacial Surgery based on their performance as a third year student. Recipients shall be selected by the dean of the College of Dentistry in consultation with the Division of Oral and Maxillofacial Surgery and the University’s Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

After the principal reaches $250,000, the annual distribution from this fund shall continue to support the above purpose as well as provide support for the faculty of the Division of Oral Surgery.

If the principal increases to more than $500,000, the annual distribution from this fund shall be divided equally between the two above purposes.

If the principal increases to a sufficient amount (in accordance with the standards set by The Ohio State University’s Board of Trustee’s, which are subject to change over time), the annual distribution from this fund shall support first a full tuition scholarship (equal in value to the cost of tuition for a 4th year dental student) known as The W. G. “Spud” Elliott DDS ’48 Endowed Scholarship in Dentistry and second a professorship known as The W. G. “Spud” Elliott DDS ’48 Professorship in Oral and Maxillofacial Surgery.

If the principal increases to a sufficient amount (as defined above) to continue supporting a full tuition scholarship (as defined above) and upgrade the professorship to a chair position, the chair shall be established and shall be known as The W. G. “Spud” Elliott DDS ’48 Chair in Oral and Maxillofacial Surgery.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and the dean of the College of Dentistry.

Amount Establishing Endowment: $65,875.75
October 29, 2010 meeting, Board of Trustees

Gloria Fuller Walker Athletic Scholarship Fund for Football

The Gloria Fuller Walker Athletic Scholarship Fund for Football was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Gloria Fuller Walker.

The annual distribution from this fund shall supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team and is pursuing an undergraduate degree at The Ohio State University. Scholarship recipients shall be selected by the director of the Department of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Department of Athletics.

Amount Establishing Endowment: $62,630.41

Nicholas G. Howe Memorial Fund

The Nicholas G. Howe Memorial Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from family and friends.

The annual distribution from this fund shall be used to support travel costs for graduate students working on medieval or early modern research topics. First preference will be given to students traveling to appropriate research repositories. Second preference will be given to students traveling to conferences/seminars. The director of the Center for Medieval and Renaissance Studies, in consultation with a committee of faculty affiliates of the Center, is responsible for adjudicating all applications for funding. Expenditures shall be approved by the executive dean of the College of Arts and Sciences in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

October 29, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences in consultation with the director of the Center for Medieval and Renaissance Studies.

Amount Establishing Endowment: $51,598.00

The Cecil and Dorothy Smith Endowed Scholarship Fund

The Cecil and Dorothy Smith Endowed Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Cecil (B.S. Agr. 1966) and Dorothy Smith of Orient, Ohio, gifts from their niece, Donna Chalk (B.S. Home Economics 1989) of Grove City, Ohio, and their nephew, James Decker of Lewis Center, Ohio, and gifts made in Mr. Smith’s memory from family and friends.

One half of the annual distribution from this endowed fund shall be used to support one or more scholarships for first year students who have been admitted to the College of Food, Agricultural, and Environmental Sciences. Eligible students must be graduates of public secondary schools serving the residents of Pleasant Township in Franklin County, Ohio, or the specific area bounded by Pleasant Township in 1995. On October 29, 2010, these high schools were Grove City High School and Central Crossing High School. Scholarship recipients shall be selected by the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee in consultation with the University’s Office of Student Financial Aid.

One half of the annual distribution from this endowed fund shall be used to support one or more scholarships to students who are entering the College of Food, Agricultural, and Environmental Sciences as freshmen. First preference shall be given to students who are majoring in Animal Sciences from Jackson County, Ohio. Second preference shall be given to students who are majoring in Crop Science from Jackson County, Ohio. If there are no eligible students from Jackson County, then students majoring in Animal Sciences or Crop Science from the regional counties of Vinton, Gallia, Lawrence, Scioto, Pike, and Meigs may be considered. Candidates should have demonstrated involvement with FFA and/or 4-H. With all other qualities being equal and unless prohibited by federal or state law, the scholarship shall be awarded with preference to, but not limited to, US citizens or residents. Scholarship recipients shall be selected by the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for agricultural administration and executive dean of the College of Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
October 29, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contributions as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from donors, Donna Chalk and James Decker, should they be living and only as it relates to their gifts which established the second half of the scholarship’s distribution criteria, and the vice president for agricultural administration and executive dean for the College of Food, Agricultural, and Environmental Sciences.

Amount Establishing the Endowment: $50,940.00

The Ervin C. and Bonnie J. Babbert Excellence in Urology Fund

The Ervin C. and Bonnie J. Babbert Excellence in Urology Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with initial gifts from Ervin C. and Bonnie J. Babbert of Hebron, Ohio and others, including support from OSU Urology, LLC.

The annual distribution from this fund shall provide unrestricted support to the Department of Urology for ongoing needs, enhancement of departmental programs or to foster innovation and strengthen special initiatives. Support may be used for, but not limited to: research, medical education/training, faculty development and recruitment, patient outreach or education programs, etc. Allocation and approval of distribution shall be made by the chairman of the Department in consultation with the dean of the College of Medicine and senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and as recommended by the chairman of the Department of Urology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,225.00

The Nancy Allietta Marzella and J. Nick Marzella Scholarship Fund

The Nancy Allietta Marzella and J. Nick Marzella Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mrs. Nancy Allietta Marzella (M.A. Education 1978 ) and Dr. J. Nick Marzella (Ph.D. Philoposhy 1975) of Columbus, Ohio.
The annual distribution from this fund shall be used to provide a scholarship for an entering freshman who is a graduate of Shadyside High School, in Shadyside, Ohio. Recipient shall have demonstrated participation in extracurricular activities while at Shadyside High School such as, but not limited to, athletic teams, musical organizations and service clubs. The scholarship is renewable up to twelve quarters (or until degree is completed, whichever comes first) as long as the student maintains a 2.5 cumulative Grade Point Average. If Shadyside High School is ever consolidated then the recipient may be from the consolidated high school but they must be a resident of the city of Shadyside, Ohio. The scholarship fund shall be administered by and recipients selected by the Office of Student Financial Aid in consultation with the scholarship committee for the Shadyside High School Alumni Association.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the Donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from both the Donors, should they be alive, and the vice provost and dean for the Office of Enrollment Services and Undergraduate Education.

Amount Establishing Endowment: $50,200.00

The Paul W. Brown Excellence in Teaching Award

The Paul W. Brown Excellence in Teaching Award was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Susan Ellen Brown (B.A. 1968, J.D. 1971) in memory of her father, Ohio Supreme Court Justice Paul W. Brown (B.A. 1937, J.D. 1939).

The annual distribution from this fund shall provide two awards for teaching excellence; one for a faculty member in the Department of English and one for a faculty member in the Department of History. Recipients shall be selected by the executive dean of the College of Arts and Sciences in consultation with the respective chairs of the departments.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be
October 29, 2010 meeting, Board of Trustees

designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $50,060.36

**Judith H. Ahlbeck Double Reed Instrument Scholarship Fund**

The Judith H. Ahlbeck Double Reed Instrument Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Judith H. Ahlbeck.

The annual distribution from this fund shall provide a need based scholarship for an undergraduate student enrolled in the School of Music majoring in a double reed instrument. To qualify, candidates must be deemed to have outstanding potential as a woodwind musician. The scholarship is renewable for up to four years as long as the recipient maintains a minimum B average in the major or a minimum C average overall. Scholarship recipients shall be selected by the director of the School of Music in consultation with the wind faculty shall be responsible for selecting scholarship recipients with approval from the executive dean of the College of Arts and Sciences and coordinating these scholarships with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the director of the School of Music.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and the executive dean of the College of Arts and Sciences in consultation with the director of the School of Music.

Amount Establishing Endowment: $50,000.00

**The Cattarin Family Undergraduate Scholarship Fund**

The Cattarin Family Undergraduate Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Thomas E. Cattarin.

The annual distribution from this fund shall be used to provide a scholarship(s) to undergraduate student(s) attending The Ohio State University who are graduates of St.
Marys Memorial High School, St. Marys, Ohio. The selection will be based on financial need and merit or a combination of both. The selection criteria for candidates will adjust with the admission standards of The Ohio State University main campus.

This scholarship is a renewable scholarship for a maximum of four academic years with a minimum cumulative grade point average (GPA) of 2.8 after the first year. If a recipient's cumulative GPA falls below 2.8, they may be reinstated upon attaining the minimum cumulative grade point of 2.8.

The recipient may attend a regional campus for the first 2 years of their scholarship. They must transfer to the main campus for the final 2 academic years in order to maintain this scholarship.

The Office of Student Financial Aid will administer this scholarship fund. St. Mary's Memorial High School will provide a selection committee to assist in the annual awarding of this scholarship.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

The Ella Rose Llaneza and Eva Maria Llaneza Memorial Scholarship Fund

The Ella Rose Llaneza and Eva Maria Llaneza Memorial Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Juan (B.S. 1987 Eng.) and Erin Llaneza, family, and friends in memory of Ella Rose Llaneza, Juan and Erin's daughter, and Eva Maria Llaneza, Juan's sister.

The infant daughter of Juan and Erin Llaneza, Ella Rose was stillborn in December 2008 following a complicated pregnancy. Although Ella's time on earth was far too brief, this endowment reassures her parents, family, and their friends that Ella's life and spirit will always be kept alive and that she will continue to enrich the community.

Eva Maria, the sister of Juan Llaneza, died as a result of injuries received in an automobile accident in March 1998. Eva had a heart for people and demonstrated kindness towards those who were less visible in society. She humbled the proud and
October 29, 2010 meeting, Board of Trustees

encouraged the weak with her fighting and tender spirit. Thru this scholarship, Eva's passion for humanity will forever guide and enhance humankind.

The annual distribution from this fund shall be used to provide need-based scholarships for one or more worthy undergraduate students at the main campus who are preparing for and intend to enter the K-12 teaching profession with preference for, but not limited to, Hispanic women. The fund will be administered by the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The scholarship shall be used for expenses such as the cost of tuition, room & board, books & supplies, and miscellaneous educational expenses. In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the Juan and/or Erin Llaneza, should they be alive, and the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

**The Wangler Family Undergraduate Merit Scholarship Fund**

The Wangler Family Undergraduate Merit Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Randall G. Wangler and Linda L. Wangler.

The annual distribution from this endowed fund shall be used to provide merit-based scholarships to undergraduate students attending The Ohio State University who are graduates from Central Catholic High School in Toledo, Ohio who graduated in the top 10% of their high school class.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The Office of Student Financial Aid will administer this scholarship fund. Scholarships are renewable for one year as long as recipients maintain a minimum grade point average of 3.0.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
October 29, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $42,124.57 (grandfathered)

The John Cook Golf Scholarship Endowment Fund (contd)

The John Cook Scholarship Endowment Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the John Cook Family Foundation.

The annual distribution from this fund shall supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the men's golf team and is pursuing an undergraduate degree at The Ohio State University. Scholarship recipients shall be selected by the director of the Department of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Department of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Department of Athletics.

Amount Establishing Endowment: $33,100.00 (grandfathered)

The Judith and Dennis Guenther Endowed Fund

The Judith and Dennis Guenther Endowed Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an insurance gift from Dr. Dennis Guenther (M.S. 1971, Ph.D. 1974).

Dennis Guenther and his wife Judith Guenther, both The Ohio State University graduates, are passionate about providing support to students at Ohio State. Judith graduated with a Bachelors of Science from the College of Nursing in 1970. Dennis
graduated from the College of Engineering with a Master of Science in Mechanical Engineering in 1971 and a Ph.D. in Mechanical Engineering in 1974. Dr. Guenther is well known in the Mechanical Engineering field in addition to being a highly regarded professor and researcher at The Ohio State University.

Until the principal balance of this fund reaches $50,000, the annual distribution shall be used at the discretion of the dean of the College of Engineering. After the principal balance reaches $50,000 the name of the fund shall be changed to “The Judith and Dennis Guenther Endowed Scholarship Fund” and the annual distribution shall provide scholarship support for students enrolled in the College of Engineering who are majoring in Mechanical Engineering. Candidates shall be recommended by the chair of the Department of Mechanical Engineering and selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, Dennis and/or Judith Guenther should they be alive, and the dean of the College of Engineering.

Amount Establishing Endowment: $29,329.11 (grandfathered)

The Larry and Linda Waller Endowment Fund for Lung Cancer Research

The Larry and Linda Waller Endowment Fund for Lung Cancer Research was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Larry Waller (BSBA 1967) and Linda Waller of Grove City, Ohio, in honor of their children.

The annual distribution from this fund shall support lung cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). Allocation of distribution shall be made at the recommendation of the chief executive officer of The James and the director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university’s costs of development and fund management.
October 29, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from both the donors, should they be alive, and as recommended by the chief executive officer of The James and the director of CCC in consultation with the senior vice president for Health Sciences.

Amount Establishing Endowment: $28,900.00 (grandfathered)

Daniel A. Busch Petroleum Graduate Student Assistance Fund

The Daniel A. Busch Petroleum Graduate Student Assistance Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Dr. Daniel Busch (M.A. 1936, Ph.D. 1939).

The annual distribution from this fund shall used to provide assistance to graduate students studying Petroleum related geology as recommended by the director of the School of Earth Sciences and approved by the executive dean of the College of Arts and Sciences.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences in consultation with the director of the School of Earth Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences in consultation with the director of the School of Earth Sciences.

Amount Establishing Endowment: $27,336.49 (grandfathered)

The Habash/Luczkowski World War II Fund in History

The Habash/Luczkowski World War II Fund in History was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jean Marie Luczkowski (J.D. 1978) and Stephen John Habash (B.A. 1974, J.D. 1978).

The annual distribution from this fund shall provide scholarship support to undergraduate and/or graduate students with diverse backgrounds enrolled in the
October 29, 2010 meeting, Board of Trustees

College of Arts and Sciences to experience a study abroad experience with emphasis on the study of World War II History. The chair of the History Department in consultation with the executive dean of the College of Arts and Sciences shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $25,340.17 (grandfathered)

The Tom and Gail Reardon Chemical Engineering Scholarship Fund

The Tom and Gail Reardon Chemical Engineering Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Tom Reardon (B.S. 1988 Chemical Engineering) and Gail Reardon, a friend of the Department of Chemical and Biomolecular Engineering.

Tom and Gail Reardon created this scholarship fund to assist students who are struggling with grades because they are supporting their education through employment. As a Chemical Engineering student, Tom Reardon worked extensively to support his education and the consequential time demands impacted his grades. It is the wish of the donors that students, who are struggling with grades and supporting their education through employment, receive financial assistance through this fund so they can reduce the time spent on their employment and improve their grades. If a student receives assistance through this fund as a junior and their grades improve, then the intent of this fund is being fulfilled, and therefore it is the wish of the donors that the student should be renewed for assistance as a senior.

The annual distribution from this fund shall provide scholarship support to undergraduate students enrolled in the College of Engineering majoring in Chemical Engineering who are ranked juniors or seniors, who are supporting their education through part-time employment and who have grade point averages below the mean for Chemical Engineering majors with preference given to candidates who graduated from high schools in the State of Ohio. The dean of the College of Engineering and the chairperson of the Department of Chemical and Biomolecular Engineering or his/her designee shall be responsible for selecting the “Tom and Gail Reardon Scholars” and coordinating the scholarships with the University’s Office of Student Financial Aid. Scholarships may be renewed if the recipient's grade point average increases.
The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Per the Donors’ request, recipients shall be given the option to correspond with the Donors. The Chairperson of Chemical Engineering will provide each Scholar with the Donors’ mailing address.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the dean of the College of Engineering.

Amount Establishing Endowment: $25,000.00 (grandfathered)

The Donald H. and Jane E. Schriver Make a Difference 4-H Endowment Fund

The Donald H. and Jane E. Schriver Make a Difference 4-H Endowment Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Donald H. (BS 1969 Agricultural Economics) and Jane E. Schriver (BS 1972 Human Nutrition).

The annual distribution from this fund will be used to provide program support for Ohio 4-H Youth Development. Expenditures shall be approved by the assistant director for OSU Extension – 4-H Youth Development.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director for OSU Extension – 4-H Youth Development.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the vice president for agricultural administration, and
The Christopher G. and Suzanne M. Widing Business Scholarship Fund

The Christopher G. and Suzanne M. Widing Business Scholarship Fund was established October 29, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Christopher G. Widing (B.S.Bus.Adm. 1970, M.B.A. 1979) and Suzanne M. Widing (B.S.Phar. 1970) of Columbus, Ohio.

The annual distribution from this fund shall be used to support scholarships for undergraduate students enrolled at The Max M. Fisher College of Business with first preference for out-of-state students majoring in Finance. Recipients will be selected by the director of the undergraduate programs office at the Fisher College of Business in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $25,000.00 (grandfathered)

Change in Name and Description of Named Endowed Fund

The Lawrence and Jean Mervis Education Endowment Fund for the Wexner Center for the Arts

The Wexner Center Education Endowment Fund was established February 7, 2003, in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from an anonymous donor. The name and description were revised on October 29, 2010.

Subject to the approval of the Board of Trustees of the University, the donor may rename the Endowment during her lifetime through an instrument in writing delivered to the University, or at her death through a provision in her Last Will and Testament as certified to the University by her executor.

The annual distribution from this fund shall be used exclusively to support the Wexner Center's education programs fostering an environment of inquiry, discovery, and
learning for audiences of all ages, interests, and backgrounds with preferences given to programs for teachers and schools and programs for children and families. Expenditures shall be approved by the Wexner Center's director and director of the Wexner Center's education programs.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Wexner Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the Wexner Center's director and director of the Wexner Center's education programs.

SALE OF REAL PROPERTY
Resolution No. 2011-28

4475 & 4485 N. HIGH STREET
COLUMBUS, OHIO

Synopsis: Authorization for the sale of all parcels of land commonly known as 4475 and 4485 N. High Street, Columbus, Ohio is requested.

WHEREAS the State of Ohio for the benefit of The Ohio State University owns real estate known as 4475 and 4485 N. High Street, Columbus, Ohio and further described as Lots 12, 13, 14 and 15 in the Rosemary Addition to the City of Columbus; and

WHEREAS the real estate is a gift from the estate of Migg Caulkins Urban, which the University intends to sell to benefit the Knowlton School of Architecture, the designated beneficiary of the gift; and

WHEREAS the appraised value of this property is $550,000.00; and

WHEREAS the proposed purchaser of the property, Dr. Scott Bertolo, has offered a purchase price of $540,000.00; and

WHEREAS Dr. Bertolo intends to maintain the buildings on the property in accordance with community interest in preservation of said buildings; and
October 29, 2010 meeting, Board of Trustees

WHEREAS the appropriate offices of the University have determined that the real estate is not necessary to support the mission of the University and this sale is in the best interest of The Ohio State University; and

WHEREAS this approval is required before obtaining legislation by the Ohio General Assembly to authorize the transfer and sale of the property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action required to affect the sale of The Ohio State University's right, title and interest in the improved real property located at 4475 and 4485 N. High Street in accordance with the laws of the State of Ohio, upon such terms and conditions as are deemed to be in the best interest of The Ohio State University, with the net proceeds of the sale being paid to The Ohio State University to benefit the Knowlton School of Architecture.

(See Appendix XI for background information, page 266.)

PURCHASE OF REAL PROPERTY
Resolution No. 2011-29

1340 SECREST ROAD, WOOSTER
WAYNE COUNTY, OHIO

Synopsis: Authorization is requested to purchase the improved real property located at 1340 Secrest Road, Wooster, Ohio.

WHEREAS the property is expected to appraise at a value within ten percent of the negotiated purchase price, and the owners, John A. Briggs, Sr. and Vickie S. Briggs, have entered into a real estate purchase contract to sell the property to the University for $165,000.00; and

WHEREAS this property is located across Secrest Road from OARDC acreage and is adjacent to other properties owned by the University, and the appropriate University offices have determined that the purchase of this property would be in the best interest of the University; and

WHEREAS the OARDC will provide all funds necessary for acquisition, use, and any improvements to the property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action to affect the purchase of the improved real property at 1340 Secrest Road, Wooster, Ohio in the name of the State of Ohio for the use and benefit of The Ohio State University, if the appraised value of the property is within ten percent of the purchase price and upon such terms and conditions deemed to be in the best interest of the University.

EASEMENT
Resolution No. 2011-30

RIGHT OF WAY TO FRANKLIN COUNTY, OHIO
ALONG DODRIDGE STREET AT THE DODRIDGE STREET
BRIDGE IN COLUMBUS, OH

Synopsis:  Authorization is requested to grant Franklin County, Ohio easements and right of way pursuant to Ohio Revised Code Section 3345.18 adjacent to the existing right of way along Dodridge Street at the Dodridge Street Bridge.

WHEREAS the County has requested this grant of right of way along Dodridge Street at the Dodridge Street Bridge. The right of way will be a grant of temporary easements in four parcels totaling 0.136 acres along the north side of Dodridge Street and easements in perpetuity in two parcels totaling 0.059 acres. The easements will be granted under the statutory authority of the University pursuant ORC Section 3345.18. The grant shall be temporary for areas needed in construction and in perpetuity consistent with the existing right of way along Dodridge Street for the completed bridge. The consideration for the temporary easements will be $1,906.00 and consideration for the easements in perpetuity will be $3,851.00; and

WHEREAS the purpose of the right of way is to allow the County to reconstruct the Dodridge Street Bridge. The appropriate University offices have determined that the grant of this right of way is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action required to affect the grant of easements and right of way along Dodridge Street in Columbus, Ohio, upon the terms outlined above and any additional terms and conditions deemed to be in the best interest of the University.

(See Appendix XIII for background information, page 269.)

TUITION RATE FOR THE SPECIALIZED MASTER IN BUSINESS
FINANCE PROGRAM FOR FY 2012
Resolution No. 2011-31

Synopsis:  Approval requested for the tuition rate of the Specialized Master in Business (SMB) Finance Program for FY 2012. The program will begin Autumn 2011. Approval of the fee is requested at this time so that marketing of the program and the advertisement of the rate can begin in November 2010.

WHEREAS the Board of Trustees of the Ohio State University supports the University’s continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS consultations have taken place within the University to determine the appropriate tuition rate and non-resident surcharge for the SMB Finance Program as described in the accompanying text and tables, which have been reviewed and recommended:

NOW THEREFORE
October 29, 2010 meeting, Board of Trustees

BE IT RESOLVED, That the SMB Finance Program tuition rate of $49,000 ($47,596 in tuition plus $1,404 in fees) and a non-resident surcharge rate of $5 per quarter will be effective Autumn Quarter 2011.

(See Appendix XIV for background information, page 270.)

Upon motion of Mr. Fisher, seconded by Judge Marbley, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbly, Kass, Jurgensen, and Reid.

Mr. Wexner:

Before we adjourn, I would like to go around the table so if anyone has anything they would like to think about; in fact we could even go around twice if one thought deserves another, so we will see how much chipping in there is. Let’s start with you, Alex.

Ms. Swain:

Thanks Dr. J. for answering that question. At first I thought it is really important for the two offices to have clear and distinct missions that sometimes are blurry, but then as I thought about it more maybe it is okay if they are blurry. I wanted to also congratulate Ohio Staters, I do not know if there are any Staters in the room, so you can relay back to them; a great group of students love the university, great friends, and so congratulations to them. I thought in the past day a little bit more about students giving and then my meeting with Dr. Sorensen we talked about our generation and of our need to achieve and to be recognized and things like that, so the wheels are turning more about how we can recognize students for giving and we need to get on that right away. Also something that I think is important, but was kind of hidden in the personnel actions, we are very lucky to reappoint for I think five more years, the provost, so we are happy to have you here. He is just an amazing leader and thinker and doer, so we are lucky to have him.

Dr. Reid:

I am particularly excited about two things. One is Dr. Lee’s appointment, and when I think about what success is in diversity and inclusion, it means that our graduates will be successful anywhere in the world in which they choose to contribute. So I think because of Dr. Lee’s upcoming work, we will have many more Joanna Porters around the world.

Second is the curriculum change for the Medical School, and certainly when I think about ProjectONE, this is really a ProjectTWO of that kind of magnitude because we will produce physicians who not only are bright and good technically, but also will have the proper character to be able to deal with a whole patient not just their physiology. So I am very excited about that.

Judge Marbley:

As much as anything, the thing that energizes me about this series of meetings is that we have focused more on the mission of the University, the academic mission of the University than at any point. I will cite three things for it. First the Medical School curriculum, I think that what has been done under Dr. Gabbe’s leadership with Dr. Lucey is nothing short of amazing. If you look back from in the past ten years or so, we have gone from 44th in the country to 27th. My data may be off a little bit, but it is in the book, it has been within the last score certainly. Secondly, if you look at the
statistics on our new class, we have broken records with respect to the preparedness of these students with respect to their overall acuity, and so we have much to be excited about. Then third we have our chief academic officer, Dr. Alutto re-upping for another five years, and I have had the opportunity to work with him now in connection with the Academic Affairs and Student Life Committee, and I just cannot imagine that there is anyone in America who does it better. Whether by design or by coincidence, we have recommitted to our primary goal which is to educate our students and as Dr. Reid pointed out, not just locally, but internationally, and I think that the work that we have done during this cycle has been nothing short of extraordinary. It really speaks to a lot of work by a lot of people who have seen to it that we have gotten to this point. I would like to commend the Board obviously for the work that we have done, but more importantly to people like Joe Alutto, Steve Gabbe and Dolan Evanovich for bringing together great students who will do great things.

Mr. Brass:

My thoughts over the last three days start with the Medical Center Board meeting on Wednesday. I was talking about it last night over dinner. I look back on my five years that I have been on this Board and in order to accomplish all the things that we are doing right now, and I just listen to all the Committee reports like our Chairman did, whether it is the facilities or what we are doing with compliance right now or the Medical Center, whatever it might be, and that does not get done unless there is great teamwork; teamwork at the Board level, teamwork at the executive level and teamwork at the student level and faculty level. These things do not just happen, they happen by trust and they happen by hard work and they happen in believing in what we are trying to get accomplished here. When it works it works and when it doesn’t work it doesn’t work. I have always lived by a little saying that says the smallest good deed is better than the grandest good intention. I will tell you, we are doing a lot of good deeds. We are really doing a lot of good deeds, and I am proud to be a part of this.

Mr. Fisher:

I would like to piggy-back on your teamwork and the team, Alan. I would encourage all of you to vote and to think about the opportunity each of us have on November 3rd in building relationships with the federal government, the state government and our local government, and how many ways they are part of our team and what we need to do in the future here. So a lot of opportunity here in the next week.

Mr. Mitchell:

First thing I would like to say is kudos to Vern Baisden in the Department of Public Safety. There are some pictures in the books of what happened in Wooster, and I had not had a chance to go up there, but just seeing those pictures and talking about how that night when it was still dark, how we were able to have the generators running for some of the research that was not lost. Just a lot of the things that we were able to do with that community up there was nothing short of amazing to me and how quickly and how capable we were of responding that fast to the disaster that obviously was unexpected. Secondly, yesterday we saw the financial plan going forward, and I think we are positioned in a really good place, and I think Geoff Chatas has done a really good job of keeping the students in mind and just preparing in these dire times for what is going forward, and I am just appreciative of those things.

Dr. Cloyd:

This really comes home to me these last few days, what has been most on top of my mind is what this University is about when we talk about education for citizenship
and the absolute key need for an institution like this that can provide the highest quality, highest value education for a very broad segment of the citizenry, and we are achieving that, but you see all of the hard work that goes behind it that is reflected amongst the University, whether it is some of the programmatic activity, the pioneering activities on how do you have outreach and help students to the physical planning of the University, creating the kind of environment that we have here. To just step back and say the goal is something everyone can immediately applaud, and we are doing it, but just the massive amount of really hard work that needs to be integrated to accomplish it. I think we are making great progress on that regard, but it was just personally kind of humbling to me to back up and just think about across the broad front, what is required for us to provide that education for citizenry and I am really happy to be a part of people who can help achieve that.

Mrs. Kass:

I was struck by our recognized student, the first recognized student’s comment earlier when she said she was a Buckeye by birth, but now she is a Buckeye by choice. Clearly all that we are doing, I tied back, Les, to what you said about leadership and your leadership and Gordon’s leadership and Provost Alutto’s leadership. Now we have Valerie Lee’s leadership with diversity and Dr. Gabbe, you know this document, I am really impressed with the comprehensiveness and clarity of that document and all that is going on there. The Committee reports and the leadership that is going on and the modeling, I think you used the word, Les, modeling. I would like to take that back then to Advancement and the kind of leadership with Andy Sorensen, Archie Griffin, Tom Katzenmeyer, and the modeling they are doing together to build what is now becoming Advancement and the team they are working with. It is just leading and modeling and I see that very much and am very proud to be part of it here.

Mr. Ratner:

I have actually had an interesting week personally, because I ended up spending two days in Boston because I happen to be on the Board at Brandeis University where I went to school and then two days here. So I have learned that you have to have some very broad parts of your anatomy to sit through a lot of Board meetings. It has been interesting, and one of the fascinating things for me is that I am arguably on the Boards of both the smallest and the largest research universities in America. Brandeis is a school that has total enrollment, both undergraduate and graduate of about 7,500 students. That is slightly smaller than our School of Engineering, yet it maintains a very focused, very specific mission, and I think does a marvelous job. But I am always struck when I come to Ohio State, not just the scale, and I think we need to be very careful to not get confused by being the biggest is necessarily being the best, but I think we are in many ways the best. What is remarkable about this campus in so many ways is that we do not get lost in the size, students do not get lost in the size, as I speak the individual students who are here, and they feel that this University has reached out to them personally and individually. As you talk to the faculty and the staff, they know their place, they are excited, and they are excited to be a part of the overall mission. This sense of preparing students as Gil was saying, for the world, we know what they need to deal with. That ability to take this huge enterprise and break it down and make it meaningful to each individual who is here, faculty, staff, students, is really a remarkable achievement and one that because, everybody here is, I think, embedded in this institution, I do not think we necessarily take into full account. I am very proud of what we do at Brandeis, I think it is a remarkable place, and I have always said that we have some curses because we are so small, but we have a benefit because we are so small. What is remarkable about Ohio State is that we are so big and so small, and I think that is a real achievement and one that was really brought home to me this week, and I think one that we should be very proud of. And one of the multiple reasons that again, as
sort of a converted Buckeye, I am very proud of my association with the University, so that is my comment.

Mr. Schottenstein:

Good comments. A couple of things – one, I just want to sort of add on to what Ron said a few minutes ago about way finding on campus. I do not know about the rest of you, but I do not walk the campus enough, and recently I did. Not the whole campus, but from one building to another and I did not get lost, but it is beautiful. I think the campus looks, and I say this Jeff looking at you because I know how much time and effort has been put into it, I think in the last year or so building signage has changed and a number of things have, I think the campus looks the best it has ever looked. I think all of us need to get out and walk it often.

The other comment I want to make has to do with Gil’s report earlier on advancement. I guess I am going to use a football analogy because we are right in the middle of football season and I think most of us are fans, and one thing we are interested in is being number one. I think that should be our goal with advancement. Just as we would not be satisfied if we came in fifth every year, or even second, we should feel the same way about advancement. And when we next look at this in four to five years, our goal is that Ohio State should be number one in the country in fundraising and in alumni relations and alumni participation and alumni satisfaction and all the different ways horizontally and vertically we are going to measure it. And if we do, and if we are, the opportunities we have will be endless, but there should be no question, and I think that is what your report was all about Gil that should be our clear, unequivocal and absolutely relentless goal.

Mr. Hicks:

I thought we have had a series of very good meetings this week. I think we spent a lot of time, and rightfully so spent a lot of time on bricks and mortar discussions in the last several months. I thought what jumped out at me in the meetings this week, is we spent time not only on bricks and mortar and finances, but really on people. I thought the presentation we had from Dr. Lucey on the Medical Center curriculum was just outstanding, and I think what is being done there is really remarkable, and it is the first time I had had an opportunity to really hear about it, and I commend Dr. Gabbe and Dr. Lucey for doing that. The other thing, just piggybacking on what Bobby just said, is on the Advancement Committee. I leaned over to him as you were giving your report and whispered in his ear and I said we had the conversation about the goals in the Committee meeting, and I think the goals are ambitious and they are aggressive right now, but if we get this right, and I have very full confidence that we are going to get this right, I think we are going to have just expeditious growth in the amount of people that are engaged in the activities we want them to be engaged with, whether that is volunteering activity or that is giving activities, because I think that we have done extraordinarily well to date because people do love this place. They care about this place greatly and there is a deep, deep infinity whether you were born here or you chose the place, but I think if we can husband our resources and target them the way they are going to be done, I just think we are going to have expeditious growth in the quality of engagement we have for a long, long time, and I think we will be number one. I appreciate the leadership that is being shown on that front.

Mr. O’Dell:

I am just very impressed with the tremendous positive momentum that this University has. And then I think about the troubling times ahead in the economy and the state budget and things like that, and I just feel a great deal of confidence that with President Gee’s leadership and the leadership that you have put in place that we will
October 29, 2010 meeting, Board of Trustees

...do extremely well in those challenging times, and I am just proud to be part of this great University.

President Gee:

Well I have had an opportunity to say a couple of things. I was just thinking about the fact that our friend, our colleague, our observer, our nudge, Dick Chait is not with us today. I was thinking of sending him a note, and what my note will say is the fact that he would have been very proud of the set of meetings that we had. He gave us a charge; we gave ourselves a charge that we would turn ourselves into a very high performance institution at the Board level and at the level of leadership and administration. In subsequent discussions that I had with him, I asked him, is there a difference between high performance and high functioning, and he said you will know when you have crossed that line. I said last night to a number of members of the Board that I think we have moved from high performance, which we will always maintain to high functioning, which means that we actually work well together. We actually appreciate each other; we have great colleagues; we have friends and we have a single goal and a unified approach; and I think that is very important. This is a moment of real reflection for me.

Mr. Wexner:

Thank you, Gordon. I want to remind everybody of the next opportunity to feel so terrific at is 2:00 pm on Wednesday, December 1. I wish I could say something philosophical, but the philosopher I would refer to is Jim Tressel, and I will just end the meeting with that. We have to continue to get better. We have to master the fundamentals and be really fluent and practiced and better at the fundamentals. My observation is, and hopefully Jim Tressel would observe that as Gordon did or Dr. Chait, I think collectively we are getting better at the fundamentals, and we are executing them better and better and the result is that we are better and better.

Thank you.

-0-

Thereupon the Board adjourned to meet Wednesday, December 1, 2010 at the Ohio Union.

Attest:

Leslie H. Wexner  David O. Frantz
Chairman  Secretary
The proposed amendments to the Medical Center Board Bylaws originally approved by the Ohio State University Board of Trustees on April 3, 2009 include the following changes:

A. Updates the bylaws to reflect the operations and experience of the Medical Center Board during its first year of governance.
B. Makes administrative changes, e.g., addition of the University General Counsel and Chief Financial Officer as ex-officio members, addition of Assistant Secretary to the Board
C. Makes substantive change, e.g., clarifies the role and scope of responsibility of the Professional Affairs Committee and medical staffs.
Establishment of the Ohio state university medical center board

3335-93-01 University medical center board.

(A) and (B) no change.

(C) In addition, the following University officials shall be ex-officio non-voting members of the medical center board:

(1) the vice president for health services;
(2) the dean of the college of medicine;
(3) the chief financial officer of the medical center;
(4) the chief medical officer of the medical center;
(5) the chief nursing executive of the medical center;
(6) the chief executive officer of the James cancer hospital;
(7) the director of medical affairs of the James cancer hospital;
(8) the chair of the medical affairs committee of the board of trustees; and
(9) the chair of the Ohio state university physicians board;
(10) the chief financial officer of the Ohio state university; and
(11) the general counsel of the Ohio state university.

Balance unchanged.

3335-93-02 Powers and duties.

The Ohio state university board of trustees retains its ultimate authority over, and responsibility for, the Ohio state university medical center, including but not limited to determination of policy for its fiscal health, its personnel policies, and the definition of the medical center's mission. Within that context, the board of trustees hereby delegates to the medical center board the authority and responsibility set forth herein, consistent with Ohio law. In accordance with that authority and responsibility, the university medical center board will be responsible for, subject to the authority and periodic review of the university board of trustees, the following:

(A) through (E) no change.

(F) Approval of medical and dental staff appointments, clinical privileges, and disciplinary actions upon the recommendation of the appropriate officials, medical staff, and medical staff administrative committee of either the University Hospitals or the Arthur G. James cancer hospital and Richard J. Solove research institute ("James cancer hospital").

Balance unchanged.

3335-93-04 Meetings and notice.

(A) no change.

(B) Special meetings. Special meetings may be called at the direction of the chair, the president of the university, or the chair of the board of trustees, and or shall be called by the chair at the request of three members of the board, provided that notice of any special meeting shall be given to all board members not less than five days prior to the meeting. The notice shall state the time, place, and purpose of the meeting.
October 29, 2010 meeting, Board of Trustees

Balance unchanged.

OFFICERS OF THE BOARD

3335-95-01 Officers.

The officers of the medical center board shall consist of a chair, vice chair, secretary, assistant secretary and such other officers as the board may deem advisable. The chair and vice chair, who shall be selected from among the public members of the board, shall be appointed annually by the Ohio state university board of trustees upon recommendation of the president. The associate general counsel of the Ohio state university medical center shall serve as secretary of the board. No officer other than the secretary and the assistant secretary may serve more than two successive terms.

3335-95-02 Chair.

The chair of the board shall appoint all committee members and the assistant secretary; shall preside at all meetings of the board; and shall be responsible for approving the agenda for board meetings. The chair shall have such other duties and authority as may be prescribed elsewhere in these bylaws or from time to time by the medical center board.

3335-95-04 Secretary.

The secretary shall be responsible for producing and maintaining minutes of board meetings, and being the custodian of and responsible for the official books and records of the medical center board. In addition, the secretary shall perform such other duties as from time to time may be assigned to him or her by the board or by the chair. The assistant secretary of the board shall be responsible for the management of all operational and administrative functions for the office of the medical center board. In the absence of the secretary, or if a vacancy in the secretary position exists, the assistant secretary shall perform the duties of the secretary of the board.

COMMITTEES

3335-97-02 Professional affairs committee.

(A) Responsibilities. The professional affairs committee shall be responsible for the following specific duties:

(1) through (5) no change.

(6) Such other responsibilities as assigned by the chair of the medical center board. Approving membership and granting appropriate clinical privileges for the expedited credentialing of such practitioners that are eligible by satisfying minimum approved criteria as determined by the medical center board and are recommended for membership and clinical privileges by the university hospitals medical staff administrative committee and the James cancer hospital medical staff administrative committee.

(7) Reviewing and approving reinstatement of clinical privileges for a practitioner after a leave of absence from clinical practice.

(8) Conducting peer review activities and recommending professional review actions to the medical center board.

(9) Such other responsibilities as assigned by the chair of the medical center board.
October 29, 2010 meeting, Board of Trustees

(B) Composition. The committee shall consist of seven members: three board members, appointed annually by the chair of the medical center board, one of whom shall be appointed as chair of the committee; the chief medical officer of the health system medical center; the director of medical affairs of the James cancer hospital; the chief of the medical staff of the university hospitals; and the chief of the medical staff of the James cancer hospital. With respect to items coming before the committee as detailed in paragraph (A) of this rule, the chief medical officer of the health system medical center and chief of the medical staff of university hospitals shall vote only with respect to those items involving the health system university hospitals, and the director of medical affairs of the James cancer hospital and chief of the medical staff of the James cancer hospital shall vote only with respect to those items involving the James cancer hospital.

Balance unchanged.

MEDICAL STAFF

3335-101-01 General.

The medical center board shall hold the medical staff organization of the university health system hospitals and the medical staff organization of the James cancer hospital accountable to the medical center board for establishing and maintaining standards of medical care for their respective facilities. As provided in rule 3335-101-04 of the Administrative Code, revisions to medical staff bylaws are subject to review and approval by the medical center board before they are submitted to the Ohio state university board of trustees for adoption.

3335-101-03 Medical staff organization.

The organization of the medical staffs of the university health system and of the James cancer hospital medical center shall discharge those duties and responsibilities assigned to them by the medical center board and is subject to the approval and authorization of the medical center board. Those duties and responsibilities include the following purposes:

(A) To monitor the quality of medical care and make recommendations to the medical center board to ensure that all patients – admitted to or treated at any of the facilities, departments, or services of the health system university hospitals or the James cancer hospital – receive high quality medical care.

(B) To recommend, through the appropriate medical staff administrative committee, to the professional affairs committee of the medical center board the appointment or reappointment of an applicant to the medical staff of the health system university hospitals or the James cancer hospital, the clinical privileges such applicant shall enjoy in the facilities of or associated with the health system university hospitals or the James cancer hospital, and appropriate professional review action that may be necessary in connection with any member of the medical staff.

(C) To represent the medical staffs of the health system university hospitals and the James cancer hospital and to provide the means whereby issues concerning the medical staffs and the health system university hospitals and the James cancer hospital are discussed within the medical staff organization and among representatives of the medical staff, the medical center board, and the medical center administration.

(D) To establish and enforce medical staff bylaws and establish specific rules and regulations governing actions of members of the medical staffs.
The medical staff organization shall recommend to the professional affairs committee and the medical center board, through the board of the appropriate hospital as defined in chapter 3335-104 of the Administrative Code, amendments to medical staff bylaws, rules, and regulations that set forth the medical staff organization and the governance process for maintaining such bylaws, rules, and regulations to accomplish the purposes set forth in rule 3335-101-03 of the Administrative Code. When such medical staff bylaws, rules, and regulations are adopted by the medical center board and the Ohio state university board of trustees, they shall become effective and be part of the medical staff bylaws, rules, and regulations of the medical center and the hospital and other facilities to which they apply. The medical staff organizations shall also be responsible for reviewing these bylaws, rules, and regulations periodically and recommending appropriate revisions to the professional affairs committee and medical center board, through the board of the appropriate hospital as defined in chapter 3335-104 of the Administrative Code.

Appointment to the medical staff and assignment of clinical privileges.

Upon recommendation of the medical staff of the health system university hospitals or the James cancer hospital and in accordance with the medical staff bylaws, the medical center board may appoint physicians, dentists, psychologists, and podiatrists meeting the qualifications prescribed in the medical staff bylaws, to membership on the medical staff of the health system university hospitals and or the James cancer hospital and shall grant clinical privileges to such persons. Appointment to the medical staff carries with it full responsibility for the treatment of patients of the university medical center subject to such limitations as may be imposed by the medical center board or the medical staff bylaws, rules, and regulations of the medical staff. Appointment and reappointment to the medical staff shall be for a period not to exceed 24 months two years and shall be renewable in accordance with the reappointment procedure set forth in the medical staff bylaws. The chief medical officer of the medical center and director of medical affairs for the James cancer hospital, acting as members of and on behalf of the medical center board, are delegated the responsibility by the medical center board to grant approval of temporary clinical privileges. The granting of temporary privileges shall be limited to situations which fulfill an important patient care need, and shall not be granted for a period of more than ninety days.

Medical staff administrative committees.

(A) Purpose. The medical staff administrative committee for the university hospitals medical staff and the medical staff administrative committee for the James cancer hospital each shall establish and maintain means of accountability to the medical center board, in accordance with their respective medical staff bylaws. Each medical staff administrative committee shall concern itself primarily with the quality of medical care within the facilities of, or associated with, the university medical center. Each medical staff administrative committee shall receive and act upon all medical staff committee reports and make recommendations regarding medical staff status and clinical privileges to the medical center board, through the board’s professional affairs committee. Other specific duties of the medical staff administrative committee are identified in the medical staff bylaws.

(B) Composition. The composition of the medical staff administrative committee of the university hospitals medical staff shall be composed of the chief of the medical staff, the chief of the medical staff-elect, the chiefs of clinical departments, three at-large members elected by the medical staff, the medical director, and the chief executive officer of university hospitals. The medical director determined in accordance with the university hospitals medical staff bylaws and the chief medical officer of the medical center shall serve as chair of the medical staff administrative committee. The composition of the medical staff administrative
committee of the James cancer hospital medical staff shall be composed of the chief of the medical staff, chief of the medical staff-elect, section chiefs of medical oncology, radiation oncology, surgical oncology, chiefs of James cancer hospital services, chairs of anesthesiology, dentistry, family medicine, internal medicine, ob/gyn, ophthalmology, otolaryngology, physical medicine, pathology, psychiatry, radiology, surgery, James cancer hospital chief executive officer, James cancer hospital director of administration, James cancer hospital director of medical affairs, James cancer hospital associate director for clinical affairs, and James cancer hospital associate director for professional education. The following shall be ex-officio members of the medical staff administrative committee: James cancer hospital administrator of nursing, members of the comprehensive cancer center executive committee, associate vice president for health sciences, and university hospitals medical director. The determined in accordance with the James cancer hospital medical staff bylaws and the James cancer hospital director of medical affairs chief of the medical staff shall serve as chair of the James cancer hospital medical staff administrative committee.

Balance unchanged.

3335-101-07 Hospitals clinical departments.

(A) and (B) no change.

(C) The senior vice president of health sciences shall recommend a candidate for the appointment of the chief medical officer of the medical center to the medical center board and the Ohio state university board of trustees. The Ohio state university board of trustees shall appoint the chief medical officer of the medical center. The chief medical officer of the medical center shall report to the vice president for health services, the senior vice president for health sciences and to the medical center board. In matters relating to medical care in the university hospitals, members of the clinical departments of the university hospitals are accountable to the clinical chiefs, and medical directors who are accountable to the chief medical officer of the medical center.

(C)(D) The chief medical officer is the senior medical officer for the medical center with the responsibility and authority for all health and medical care delivered at the medical center. The chief medical officer is responsible for overall quality improvement and clinical leadership throughout the medical center, physician alignment, patient safety and medical staff development. The chief medical officer is a key member of the senior management team and is expected to participate in all strategic, operational and policy decisions as a senior corporate officer of the medical center. The chief medical officer is accountable for developing and managing systems and forums that foster the transfer of knowledge, information and process improvement methodologies to administrative and clinical leadership and staff. The chief medical officer has the authority and responsibility of the organization of clinical services to optimize high quality care.

(E) The senior vice president for health sciences shall appoint a medical director for each of the university hospitals, university hospitals east, Harding hospital, and Ross heart hospital. The medical director of each hospital shall report to the chief executive officer or executive director of the respective hospital, to the chief medical officer of the health system medical center, and to the medical center board. In matters relating to medical care in the hospitals, members of the clinical departments of the hospitals are accountable to the clinical chiefs, who are accountable to the medical director directors.

(D)(F) The senior vice president for health sciences shall appoint a director of medical affairs for the James cancer hospital who shall be the chief medical officer of the James cancer hospital. The director of medical affairs shall report to the
chief executive officer of the James cancer hospital, the James cancer hospital board and to the medical center board. In matters relating to medical care in the James cancer hospital, members of the clinical departments of the hospitals are accountable to the clinical chiefs, who are accountable to the director of medical affairs.

(E)(G) The medical directors and the director of medical affairs, chief medical officer of the medical center, the director of medical affairs of the James cancer hospital and the medical directors of each hospital shall each be a physician and shall maintain an appointment as an attending staff member of his or her respective medical staff. The chief medical officer of the medical center, medical directors of each hospital and director of medical affairs shall have authority as conferred by the senior vice president for health sciences and the medical center board; including the responsibility for clinical research and education programs and services, supervision of patient and clinical activity; and responsibility for the clinical organization of his or her respective hospital. The medical directors, chief medical officer of the medical center and director of medical affairs shall direct and supervise the medical staff quality assurance, utilization review, and credentialing activity. The medical directors, chief medical officer of the medical center, medical directors of each hospital and director of medical affairs shall establish priorities, jointly with the chief executive officer or executive director of his or her respective hospital, for capital medical equipment, clinical space, and the establishment of new clinical programs, or the revision of existing clinical programs.

AMENDMENTS TO BOARD BYLAWS

3335-103-01 Amendments to board bylaws.

These bylaws may be amended or replaced in whole or in part only by the Ohio state university board of trustees, upon the recommendation of the medical center board and the president of the university.

MEDICAL CENTER HOSPITAL BOARDS

3335-104-01 Establishment of medical center hospital boards.

From time to time, the Ohio state university board of trustees may establish one or more boards dedicated to the unique mission of each hospital as a component of the university medical center. Each hospital board shall be composed of from nine to 15 public members who shall be appointed, and are subject to removal, by the Ohio state university board of trustees in consultation with the president of the university and the senior vice president for health sciences. The term of office for each public member of a hospital board, other than an ex-officio member, shall be three years. The president of the university or his or her designee, the senior vice president for health sciences, chief medical officer of the medical center and the vice president for health services shall be ex officio voting members of each such hospital board. The director of medical affairs of the James cancer hospital shall be an ex officio voting member of the James cancer hospital board. The chief executive officer or executive director, medical director, and chief of the medical staff of each of the hospitals shall be ex-officio non-voting members of that hospital board. At the discretion of the Ohio state university board of trustees, any public member may serve three consecutive terms.

Balance unchanged.

3335-104-05 Officers.

The officers of a medical center hospital board shall consist of a chair, vice chair, secretary, and such other officers as the board may deem advisable. The chair and vice chair shall be elected from among the voting public members of the board. No
officer may serve more than two successive one-year terms. The chair of the board shall appoint all committee members; shall preside at all meetings of the board; and shall be responsible for approving the agenda for board meetings. During the absence of the chair or the chair's inability to act, the vice chair shall perform the duties and exercise the powers of the chair. The secretary shall be the chief executive officer or executive director, as appropriate, of the hospital and may serve indefinitely.

3335-104-06 University hospitals board.

(A) There is hereby created the University hospitals board, as a medical center hospital board responsible to the university medical center board. The university hospitals board shall:

(1) Review, recommend, approve and monitor strategic initiatives for university hospitals.

(2) through (4) no change.

(B) The senior vice president for health sciences and the chief executive officer of university hospital shall solicit nominations for university hospitals board membership from the board and from the community at large.

(C) In addition to the positions specified in rule 3335-104-01 of the Administrative Code, the chair of the board of Ohio state university physicians shall be an ex officio non-voting member of the university hospitals board.

(D) The chief executive officer of university hospitals shall have such authority as may be conferred by the senior vice president for health sciences, the vice president for health services, and the university hospitals board and the medical center board. The chief executive officer shall be responsible for the operation and all administrative activities of university hospitals. The chief executive officer shall coordinate and prioritize matters of capital medical equipment, clinical space, and clinical programs with the medical director chief medical officer of the medical center and medical directors.

3335-104-07 James cancer hospital board.

(A) There is hereby created the James cancer hospital board, as a medical center hospital board responsible to the university medical center board. The James cancer hospital board shall:

(1) Review, recommend, approve and monitor strategic initiatives for the James cancer hospital.

(2) through (4) no change.

(B) The senior vice president for health sciences and the chief executive officer of the James cancer hospital shall solicit nominations for the James cancer hospital board membership from the board and from the community at large.

(C) The chief executive officer of the James cancer hospital shall have such authority as may be conferred by the president of the Ohio state university, the senior vice president for health sciences, the James cancer hospital board and the medical center board. The chief executive officer shall be responsible for the operation and all administrative activities of the James cancer hospital.
There is hereby created the OSU Harding hospital board, as a medical center hospital board responsible to the university medical center board. The OSU Harding hospital board shall:

1. Review, recommend, approve and monitor strategic initiatives for behavioral health services.

2. through (4) no change.

The senior vice president for health sciences and the executive director for OSU Harding hospital shall solicit nominations for the OSU Harding hospital board from the board and from the community at large, including soliciting nominations for four members of the board from the Harding center for medical and behavioral health Heritage foundation.

There is hereby created the university hospitals east board, as a medical center hospital board responsible to the university medical center board. The university hospitals east board shall:

1. Review, recommend, approve and monitor strategic initiatives for university hospitals east.

2. through (4) no change.

The senior vice president for health sciences and the executive director for university hospitals east shall solicit nominations for the university hospitals east board from the board and from the community at large.

In addition to the positions specified in rule 3335-104-01 of the Administrative Code, the chief of orthopaedics shall be an ex officio non-voting member of the university hospitals east board.

There is hereby created the Ross heart hospital board, as a medical center hospital board responsible to the university medical center board. The Ross heart hospital board shall:

1. Review, recommend, approve and monitor strategic initiatives for cardiovascular services.

2. through (4) no change.

The senior vice president for health sciences and the executive director for Ross heart hospital shall solicit nominations for the Ross heart hospital board from the board and from the community at large.

In addition to the positions specified in rule 3335-104-01 of the Administrative Code, the Director of the Ohio state university heart center shall be an ex officio non-voting member of the Ross heart hospital board.
Amendments to the Bylaws of the Board of Trustees

3335-1-03 Administration of the university.

(A) Through (V) no change.

(W) Regional campuses boards.

(4) The Lima, Mansfield, Marion, and Newark boards shall advise and assist the dean/directors in the administration of their respective regional campuses. Subject to the authority and periodic review of the university board of trustees, each regional board shall:

(a) Develop support for the regional campus in their service area;

(b) Advise the dean/directors concerning local educational needs, and perceptions of university programs;

(c) Serve as an advocate for the needs of the regional campus in local and state government agencies, and in the legislature;

(d) Participate in the strategic planning process for the regional campus;

(e) Review and provide a recommendation with respect to current funds and capital budgets prior to their submission to the university board of trustees by the president; and

(f) Coordinate with the board of the appropriate technical college in all areas of common interest.

(2) Each regional campus board shall be composed of ten members appointed by the Ohio state university board of trustees in consultation with the president of the university; nine members shall be private citizens who have an interest in and knowledge of higher education and who reside within the area served by the institution; and one member shall be a student who is currently enrolled at the applicable regional campus and shall have no voting power on the board, shall not be considered as a member of the board in determining whether a quorum is present, and shall not be entitled to attend executive sessions.

The executive vice president and provost or the provost’s designee, in cooperation with the appropriate dean/director, shall serve as the liaison between the regional boards and the various colleges and departments of the university, and may attend all meetings of the boards. The applicable chair of the faculty assembly shall serve as a resource person for the appropriate regional board and, in order to serve that function, may attend all public meetings of the appropriate regional board.
Amendments to the Bylaws of the Board of Trustees - Newark

3335-113-01 Composition and administration of the board.

(A) The Ohio state university board of trustees ("the university board") hereby establishes a body to be known as the Ohio state university – Newark board of trustees ("the Newark board").

(1) The Newark board shall be composed of ten members appointed by the university board in consultation with the president of the university.

(2) Nine members shall be private citizens who reside within the area served by the institution. One member of the Newark board shall be a student who is currently enrolled and in good standing at the Newark campus. The student member shall have no voting power on the board.

(3) Citizen members shall be appointed for terms of three years. Terms will be staggered so that three terms end each year. In case a vacancy develops, the university board may appoint a citizen member to fill the remaining part of the unexpired term. No citizen member shall serve more than three terms, consecutive or otherwise. (In determining eligibility for reappointment, an initial appointment of two years, or more, shall be construed as a term.)

(4) The student member shall serve a term of one year, and is eligible for reappointment as long as he or she remains a student in good standing at the Newark campus.

(5) Terms of the appointed members shall begin on July first.

(6) Members of the Newark board shall serve without compensation but may be reimbursed for expenses incurred in the performance of their duties. Members of the Newark board shall be provided immunities or indemnification against any claims or liabilities which may arise from the performance of their duties to the full extent permitted by law.

(7) The dean/director of the Newark campus shall assist the chair of the Newark board in establishing board agendas and priorities and shall provide such staff services and other assistance as the board may require. The dean/director may attend all meetings of the board.

(8) The provost or the provost’s designee, in cooperation with the dean/director, shall serve as the liaison between the Newark board and the various colleges and departments of the university, and may attend all meetings of the Newark board.

(9) The chair of the Newark campus faculty assembly shall serve as a resource person for the Newark board and, in order to serve that function, may attend all public meetings of the Newark board.

3335-113-02 Nominations.

The objective of regional campus board member selection is to continually ensure a strong, independent group of dedicated members with a diverse background,
representing a range of professions, experiences, and geographical regions that the
campus serves.

(A) All members of the Newark board will be appointed by the Ohio state
university board of trustees, in consultation with the president of the
university, Newark board, and the campus dean/director.

(B) The following criteria shall guide the Newark board in its nominations of
community members:

1. Resides in the primary service area of the campus and is well
acquainted with the region;

2. Has a strong interest in the Newark campus and in the Ohio state
university;

3. Has a record of community service;

4. Consideration should be given to nominating individuals from diverse
parts of the service district with diverse professional expertise and
perspectives; and

5. Employees of the university, employees of the central Ohio technical
college, and members of the board of the central Ohio technical
college are ineligible to serve as citizen members.

(C) The student member should be a student in good standing, with an active
interest in improving the campus, and who is willing to inform him or herself
about the needs, interests, and concerns of other students. However, in the
capacity as a board member, the role is as that of any other board member—
to balance the needs and issues of all constituencies in their deliberations—not to represent a single constituency.

(D) Nominations will be communicated to the university board through the
president no later than April twentieth of each year so that the university
board may make appointments at its May meeting.

3335-113-03 Vacancies and removal.

(A) Vacancies shall be filled by the university board of trustees in the same
manner and subject to the same qualifications as appointments for full terms.

(B) Members of the Newark board serve at the pleasure of the university board
of trustees.

3335-113-04 Powers and duties.

The Newark board shall serve in an advisory capacity in oversight of the Newark
campus. Subject to the authority and periodic review of the university board, the
Newark board shall:

(A) Ensure maintenance of key relationships with external constituencies:

1. Develop support for the Newark regional campus in its service area;

2. Advise the dean/director concerning Newark’s local service area
educational needs and the perception of university programs;
(3) Be knowledgeable about the Ohio state university, in general, and, in particular, at its interface with the Newark campus;

(4) Serve as a knowledgeable and effective advocate with the state legislature and state and local agencies for the Newark campus and for the Ohio state university, in general, when appropriate; and

(5) Ensure effective coordination with the board of the central Ohio technical college in all areas of common interest.

(B) Ensure proper direction for the Newark campus, e.g., through input and review, where appropriate, of the strategic plan, master plan, student affairs plan, safety and security plans, etc., and to ensure performance and progress monitoring. The Newark board shall have no jurisdiction with respect to faculty. The hiring, evaluation, promotion, tenure status, duties and responsibilities, and compensation of faculty shall be conducted in accordance with established university rules.

(C) To ensure that the university board of trustees meets its governance obligations under Ohio law, the Newark board will advise the dean and director on matters relating to annual budgets, capital projects, and tuition and fees proposals.

   (1) The appointment of the dean/director will be approved by the university board of trustees in accordance with rule 3335-3-291 of the Administrative Code.

   (2) The university board of trustees will continue to hold the Ohio state university president responsible for the conduct of academic programs and for ensuring that the regional campus is operated in a manner consistent with university policy and procedures, as well as state and federal law.

3335-113-05 Meetings.

(A) Regular meetings of the Newark board shall be held on such schedule as may be established by the board, at times which shall be set and publicly announced.

(B) Special meetings may be called at the direction of the chair, or shall be called by the chair at the request of three members of the Newark board, provided that notice to all board members shall be given not less than five days prior to the meeting and publicly announced.

(C) Except as otherwise specified in these bylaws, all meetings of the Newark board and its committees shall be conducted in accordance with the latest revision of "Robert's Rules of Order."

(D) Meetings of the Newark board shall be open to the public, except for executive sessions called for reasons permissible under Ohio law.

(E) A majority of the current membership of the Newark board shall be necessary for a quorum.

(F) Conflict of interest. No trustee shall participate in deliberations on a university contract, action or transaction when the trustee has a financial or personal or fiduciary interest in any person or entity affected by such contract, action or transaction. The trustee having the prohibited interest shall make full disclosure thereof and shall abstain from any deliberations on any such matter. Trustees shall file with the board office on or about August
October 29, 2010 meeting, Board of Trustees

first of each year, on a form prepared by the secretary of the board, a full
disclosure of any financial or fiduciary interests the trustee, a member of the
trustee’s family, or any business associate of the trustee may have in any
service provider who may be qualified to do business with the university.

(G) Motions may be passed by a majority of the voting members present.

3335-113-06 Officers.

(A) The executive committee shall consist of the chair, vice chair, and a
recording secretary of the board. These officers shall be elected annually, by
July first, by the Newark board. No officer may serve more than two
consecutive, one-year terms in the same office.

(B) The chair shall preside at all meetings of the board, shall appoint members of
any committees created by the board, shall serve as an ex-officio member of
all standing and special committees, and shall approve the agenda for all
board meetings.

(C) The vice chair shall perform the duties and exercise the powers of the chair
during the absence of the chair or in the event of the chair’s inability to act.

(D) The recording secretary shall be responsible for ensuring minutes of board
meetings are produced and maintained; for ensuring trustee members are
kept informed about board activities and campus issues; for ensuring
correspondence of the board is properly conducted; and for forwarding board
minutes to the Ohio state board office in a timely fashion.

3335-113-07 Committees.

The Newark board shall establish an academic affairs and student life committee, a
finance committee, a campus facilities and planning committee, and an external
relations committee. Committees work on behalf of the board. As a result, any action
or recommendation of a committee should have full board approval.

(A) The academic affairs and student life committee shall consist of three
Newark board members, appointed annually by the chair of the board. It will
monitor all services provided to students to ensure they are in line with
established priorities and strategies and consistent with Ohio state university
guidelines in general. This committee shall be responsible for advising the
Newark board on student life matters.

(B) The finance committee shall consist of three board members appointed
annually by the chair of the board. The finance committee shall be
responsible for advising the Newark board on campus financial matters.

(C) The campus facilities and planning committee shall consist of three Newark
board members, appointed annually by the chair of the board. This
committee will monitor progress on the campus master plan to ensure it is in
line with established priorities and planned strategies. This committee shall
be responsible for advising the Newark board on campus planning and
capital projects.

(D) The external relations committee shall consist of three Newark board
members, appointed annually by the chair of the board. This committee will
serve as the main link between the university and the community and will be
most actively engaged coordinating the board’s duties as outlined in rule
October 29, 2010 meeting, Board of Trustees

3335-113-04 of the Administrative Code: developing support for the Newark regional campus in this service area, serving as knowledgeable and effective advocates with the state legislature and state and local agencies for the Newark campus, and for the university in general when appropriate, bringing the concerns of the community to the university.

(E) The Newark board may, by majority vote, establish ad hoc committees for particular defined purposes and particular defined durations.

Amendments to the Bylaws of the Board of Trustees - Mansfield

3335-115-01 Composition and administration of the board.

(A) The Ohio state university board of trustees ("the university board") hereby establishes a body to be known as the Ohio state university - Mansfield board of trustees ("the Mansfield board").

(1) The Mansfield board shall be composed of ten members appointed by the university board in consultation with the president of the university.

(2) Nine members shall be private citizens who reside within the area served by the institution. One member of the Mansfield board shall be a student who is currently enrolled and in good standing at the Mansfield campus. The student member shall have no voting power on the board.

(3) Citizen members shall be appointed for terms of three years. Terms will be staggered so that three terms end each year. In case a vacancy develops, the university board may appoint a citizen member to fill the remaining part of the unexpired term. No citizen member shall serve more than three terms, consecutive or otherwise. (In determining eligibility for reappointment, an initial appointment of two years, or more, shall be construed as a term.)

(4) The student member shall serve a term of one year, and is eligible for reappointment as long as he or she remains a student in good standing at the Mansfield campus.

(5) Terms of the appointed members shall begin on July first.

(6) Members of the Mansfield board shall serve without compensation but may be reimbursed for expenses incurred in the performance of their duties. Members of the Mansfield board shall be provided immunities or indemnification against any claims or liabilities which may arise from the performance of their duties to the full extent permitted by law.

(7) The dean/director of the Mansfield campus shall assist the chair of the Mansfield board in establishing board agendas and priorities and shall provide such staff services and other assistance as the board may require. The dean/director may attend all meetings of the board.

(8) The provost or the provost's designee, in cooperation with the dean/director, shall serve as the liaison between the Mansfield board and the various colleges and departments of the university, and may attend all meetings of the Mansfield board.
(9) The chair of the Mansfield campus faculty assembly shall serve as a resource person for the Mansfield board and, in order to serve that function, may attend all public meetings of the Mansfield board.

3335-115-02 Nominations.

The objective of regional campus board member selection is to continually ensure a strong, independent group of dedicated members with a diverse background, representing a range of professions, experiences, and geographical regions that the campus serves.

(A) All members of the Mansfield board will be appointed by the Ohio state university board of trustees, in consultation with the president of the university, Mansfield board, and the campus dean/director.

(B) The following criteria shall guide the Mansfield board in its nominations of community members:

(1) Resides in the primary service area of the campus and is well acquainted with the region;

(2) Has a strong interest in the Mansfield campus and in the Ohio state university;

(3) Has a record of community service;

(4) Consideration should be given to nominating individuals from diverse parts of the service district with diverse professional expertise and perspectives; and

(5) Employees of the university, employees of the north central state college, and members of the board of the north central state college are ineligible to serve as citizen members.

(C) The student member should be a student in good standing, with an active interest in improving the campus, and who is willing to inform him or herself about the needs, interests, and concerns of other students. However, in the capacity as a board member, the role is as that of any other board member – to balance the needs and issues of all constituencies in their deliberations – not to represent a single constituency.

(D) Nominations will be communicated to the university board through the president no later than April twentieth of each year so that the university board may make appointments at its May meeting.

3335-115-03 Vacancies and removal.

(A) Vacancies shall be filled by the university board of trustees in the same manner and subject to the same qualifications as appointments for full terms.

(B) Members of the Mansfield board serve at the pleasure of the university board of trustees.

3335-115-04 Powers and duties.
The Mansfield board shall serve in an advisory capacity in oversight of the Mansfield campus. Subject to the authority and periodic review of the university board, the Mansfield board shall:

(A) Ensure maintenance of key relationships with external constituencies:

1. Develop support for the Mansfield regional campus in its service area;
2. Advise the dean/director concerning Mansfield’s local service area educational needs and the perception of university programs;
3. Be knowledgeable about the Ohio state university, in general, and, in particular, at its interface with the Mansfield campus;
4. Serve as a knowledgeable and effective advocate with the state legislature and state and local agencies for the Mansfield campus and for the Ohio state university, in general, when appropriate; and
5. Ensure effective coordination with the board of the north central state college in all areas of common interest.

(B) Ensure proper direction for the Mansfield campus, e.g., through input and review, where appropriate, of the strategic plan, master plan, student affairs plan, safety and security plans, etc., and to ensure performance and progress monitoring. The Mansfield board shall have no jurisdiction with respect to faculty. The hiring, evaluation, promotion, tenure status, duties and responsibilities, and compensation of faculty shall be conducted in accordance with established university rules.

(C) To ensure that the university board of trustees meets its governance obligations under Ohio law, the Mansfield board will advise the dean and director on matters relating to annual budgets, capital projects, and tuition and fees proposals.

1. The appointment of the dean/director will be approved by the university board of trustees in accordance with rule 3335-3-291 of the Administrative Code.
2. The university board of trustees will continue to hold the Ohio state university president responsible for the conduct of academic programs and for ensuring that the regional campus is operated in a manner consistent with university policy and procedures, as well as state and federal law.

3335-115-05 Meetings.

(A) Regular meetings of the Mansfield board shall be held on such schedule as may be established by the board, at times which shall be set and publicly announced.

(B) Special meetings may be called at the direction of the chair, or shall be called by the chair at the request of three members of the Mansfield board, provided that notice to all board members shall be given not less than five days prior to the meeting and publicly announced.

(C) Except as otherwise specified in these bylaws, all meetings of the Mansfield board and its committees shall be conducted in accordance with the latest revision of “Robert's Rules of Order.”
October 29, 2010 meeting, Board of Trustees

(D) Meetings of the Mansfield board shall be open to the public, except for executive sessions called for reasons permissible under Ohio law.

(E) A majority of the current membership of the Mansfield board shall be necessary for a quorum.

(F) Conflict of interest. No trustee shall participate in deliberations on a university contract, action or transaction when the trustee has a financial or personal or fiduciary interest in any person or entity affected by such contract, action or transaction. The trustee having the prohibited interest shall make full disclosure thereof and shall abstain from any deliberations on any such matter. Trustees shall file with the board office on or about August first of each year, on a form prepared by the secretary of the board, a full disclosure of any financial or fiduciary interest the trustee, a member of the trustee's family, or any business associate of the trustee may have in any service provider who may be qualified to do business with the university.

(G) Motions may be passed by a majority of the voting members present.

3335-115-06 Officers.

(A) The executive committee shall consist of the chair, vice chair, and a recording secretary of the board. These officers shall be elected annually, by July first, by the Mansfield board. No officer may serve more than two consecutive, one-year terms in the same office.

(B) The chair shall preside at all meetings of the board, shall appoint members of any committees created by the board, shall serve as an ex-officio member of all standing and special committees, and shall approve the agenda for all board meetings.

(C) The vice chair shall perform the duties and exercise the powers of the chair during the absence of the chair or in the event of the chair's inability to act.

(D) The recording secretary shall be responsible for ensuring minutes of board meetings are produced and maintained; for ensuring trustee members are kept informed about board activities and campus issues; for ensuring correspondence of the board is properly conducted; and for forwarding board minutes to the Ohio state board office in a timely fashion.

3335-115-07 Committees.

The Mansfield board shall establish an academic affairs and student life committee, a finance committee, a campus facilities and planning committee, and an external relations committee. Committees work on behalf of the board. As a result, any action or recommendation of a committee should have full board approval.

(A) The academic affairs and student life committee shall consist of three Mansfield board members, appointed annually by the chair of the board. It will monitor all services provided to students to ensure they are in line with established priorities and strategies and consistent with Ohio state university guidelines in general. This committee shall be responsible for advising the Mansfield board on student life matters.
October 29, 2010 meeting, Board of Trustees

(B) The finance committee shall consist of three board members appointed annually by the chair of the board. The finance committee shall be responsible for advising the Mansfield board on campus financial matters.

(C) The campus facilities and planning committee shall consist of three Mansfield board members, appointed annually by the chair of the board. This committee will monitor progress on the campus master plan to ensure it is in line with established priorities and planned strategies. This committee shall be responsible for advising the Mansfield board on campus planning and capital projects.

(D) The external relations committee shall consist of three Mansfield board members, appointed annually by the chair of the board. This committee will serve as the main link between the university and the community and will be most actively engaged coordinating the board's duties as outlined in rule 3335-115-04 of the Administrative Code: developing support for the Mansfield regional campus in this service area, serving as knowledgeable and effective advocates with the state legislature and state and local agencies for the Mansfield campus, and for the university in general when appropriate, bringing the concerns of the community to the university.

(E) The Mansfield board may, by majority vote, establish ad hoc committees for particular defined purposes and particular defined durations.

Amendments to the Bylaws of the Board of Trustees - Lima

3335-117-01 Composition and administration of the board.

(A) The Ohio state university board of trustees ("the university board") hereby establishes a body to be known as the Ohio state university - Lima board of trustees ("the Lima board").

(1) The Lima board shall be composed of ten members appointed by the university board in consultation with the president of the university.

(2) Nine members shall be private citizens who reside within the area served by the institution. One member of the Lima board shall be a student who is currently enrolled and in good standing at the Lima campus. The student member shall have no voting power on the board.

(3) Citizen members shall be appointed for terms of three years. Terms will be staggered so that three terms end each year. In case a vacancy develops, the university board may appoint a citizen member to fill the remaining part of the unexpired term. No citizen member shall serve more than three terms, consecutive or otherwise. (In determining eligibility for reappointment, an initial appointment of two years, or more, shall be construed as a term.)

(4) The student member shall serve a term of one year, and is eligible for reappointment as long as he or she remains a student in good standing at the Lima campus.

(5) Terms of the appointed members shall begin on July first.

(6) Members of the Lima board shall serve without compensation but may be reimbursed for expenses incurred in the performance of their
duties. Members of the Lima board shall be provided immunities or indemnification against any claims or liabilities which may arise from the performance of their duties to the full extent permitted by law.

(7) The dean/director of the Lima campus shall assist the chair of the Lima board in establishing board agendas and priorities and shall provide such staff services and other assistance as the board may require. The dean/director may attend all meetings of the board.

(8) The provost or the provost's designee, in cooperation with the dean/director, shall serve as the liaison between the Lima board and the various colleges and departments of the university, and may attend all meetings of the Lima board.

(9) The chair of the Lima campus faculty assembly shall serve as a resource person for the Lima board and, in order to serve that function, may attend all public meetings of the Lima board.

3335-117-02 Nominations.

The objective of regional campus board member selection is to continually ensure a strong, independent group of dedicated members with a diverse background, representing a range of professions, experiences, and geographical regions that the campus serves.

(A) All members of the Lima board will be appointed by the Ohio state university board of trustees, in consultation with the president of the university, Lima board, and the campus dean/director.

(B) The following criteria shall guide the Lima board in its nominations of community members:

(1) Resides in the primary service area of the campus and is well acquainted with the region;

(2) Has a strong interest in the Lima campus and in the Ohio state university;

(3) Has a record of community service;

(4) Consideration should be given to nominating individuals from diverse parts of the service district with diverse professional expertise and perspectives; and

(5) Employees of the university, employees of the James A. Rhodes state college, and members of the board of the James A. Rhodes state college are ineligible to serve as citizen members.

(C) The student member should be a student in good standing, with an active interest in improving the campus, and who is willing to inform him or herself about the needs, interests, and concerns of other students. However, in the capacity as a board member, the role is as that of any other board member – to balance the needs and issues of all constituencies in their deliberations – not to represent a single constituency.

(D) Nominations will be communicated to the university board through the president no later than April twentieth of each year so that the university board may make appointments at its May meeting.
October 29, 2010 meeting, Board of Trustees

3335-117-03 Vacancies and removal.

(A) Vacancies shall be filled by the university board of trustees in the same manner and subject to the same qualifications as appointments for full terms.

(B) Members of the Lima board serve at the pleasure of the university board of trustees.

3335-117-04 Powers and duties.

The Lima board shall serve in an advisory capacity in oversight of the Lima campus. Subject to the authority and periodic review of the university board, the Lima board shall:

(A) Ensure maintenance of key relationships with external constituencies:

(1) Develop support for the Lima regional campus in its service area;

(2) Advise the dean/director concerning Lima’s local service area educational needs and the perception of university programs;

(3) Be knowledgeable about the Ohio state university, in general, and, in particular, at its interface with the Lima campus;

(4) Serve as a knowledgeable and effective advocate with the state legislature and state and local agencies for the Lima campus and for the Ohio state university, in general, when appropriate; and

(5) Ensure effective coordination with the board of the James A. Rhodes state college in all areas of common interest.

(B) Ensure proper direction for the Lima campus, e.g., through input and review, where appropriate, of the strategic plan, master plan, student affairs plan, safety and security plans, etc., and to ensure performance and progress monitoring. The Lima board shall have no jurisdiction with respect to faculty. The hiring, evaluation, promotion, tenure status, duties and responsibilities, and compensation of faculty shall be conducted in accordance with established university rules.

(C) To ensure that the university board of trustees meets its governance obligations under Ohio law, the Lima board will advise the dean and director on matters relating to annual budgets, capital projects, and tuition and fees proposals.

(1) The appointment of the dean/director will be approved by the university board of trustees in accordance with rule 3335-3-291 of the Administrative Code.

(2) The university board of trustees will continue to hold the Ohio state university president responsible for the conduct of academic programs and for ensuring that the regional campus is operated in a manner consistent with university policy and procedures, as well as state and federal law.

3335-117-05 Meetings.

(A) Regular meetings of the Lima board shall be held on such schedule as may be established by the board, at times which shall be set and publicly announced.
October 29, 2010 meeting, Board of Trustees

(B) Special meetings may be called at the direction of the chair, or shall be called by the chair at the request of three members of the Lima board, provided that notice to all board members shall be given not less than five days prior to the meeting and publicly announced.

(C) Except as otherwise specified in these bylaws, all meetings of the Lima board and its committees shall be conducted in accordance with the latest revision of "Robert's Rules of Order."

(D) Meetings of the Lima board shall be open to the public, except for executive sessions called for reasons permissible under Ohio law.

(E) A majority of the current membership of the Lima board shall be necessary for a quorum.

(F) Conflict of interest. No trustee shall participate in deliberations on a university contract, action or transaction when the trustee has a financial or personal or fiduciary interest in any person or entity affected by such contract, action or transaction. The trustee having the prohibited interest shall make full disclosure thereof and shall abstain from any deliberations on any such matter. Trustees shall file with the board office on or about August first of each year, on a form prepared by the secretary of the board, a full disclosure of any financial or fiduciary interest the trustee, a member of the trustee's family, or any business associate of the trustee may have in any service provider who may be qualified to do business with the university.

(G) Motions may be passed by a majority of the voting members present.

3335-117-06 Officers.

(A) The executive committee shall consist of the chair, vice chair, and a recording secretary of the board. These officers shall be elected annually, by July first, by the Lima board. No officer may serve more than two consecutive, one-year terms in the same office.

(B) The chair shall preside at all meetings of the board, shall appoint members of any committees created by the board, shall serve as an ex-officio member of all standing and special committees, and shall approve the agenda for all board meetings.

(D) The recording secretary shall be responsible for ensuring minutes of board meetings are produced and maintained; for ensuring trustee members are kept informed about board activities and campus issues; for ensuring correspondence of the board is properly conducted; and for forwarding board minutes to the Ohio state board office in a timely fashion.

3335-117-07 Committees.

The Lima board shall establish an academic affairs and student life committee, a finance committee, a campus facilities and planning committee, and an external relations committee. Committees work on behalf of the board. As a result, any action or recommendation of a committee should have full board approval.

(A) The academic affairs and student life committee shall consist of three Lima board members, appointed annually by the chair of the board. It
October 29, 2010 meeting, Board of Trustees

will monitor all services provided to students to ensure they are in line with established priorities and strategies and consistent with Ohio State University guidelines in general. This committee shall be responsible for advising the Lima board on student life matters.

(B) The finance committee shall consist of three board members appointed annually by the chair of the board. The finance committee shall be responsible for advising the Lima board on campus financial matters.

(C) The campus facilities and planning committee shall consist of three Lima board members, appointed annually by the chair of the board. This committee will monitor progress on the campus master plan to ensure it is in line with established priorities and planned strategies. This committee shall be responsible for advising the Lima board on campus planning and capital projects.

(D) The external relations committee shall consist of three Lima board members, appointed annually by the chair of the board. This committee will serve as the main link between the university and the community and will be most actively engaged coordinating the board’s duties as outlined in rule 3335-117-04 of the Administrative Code: developing support for the Lima regional campus in this service area, serving as knowledgeable and effective advocates with the state legislature and state and local agencies for the Lima campus, and for the university in general when appropriate, bringing the concerns of the community to the university.

(E) The Lima board may, by majority vote, establish ad hoc committees for particular defined purposes and particular defined durations.

Amendments to the Bylaws of the Board of Trustees - Marion

3335-119-01 Composition and administration of the board.

(A) The Ohio State University board of trustees (“the university board”) hereby establishes a body to be known as the Ohio State University–Marion board of trustees (“the Marion board”),

(1) The Marion board shall be composed of ten members appointed by the university board in consultation with the president of the university.

(2) Nine members shall be private citizens who reside within the area served by the institution. One member of the Marion board shall be a student who is currently enrolled and in good standing at the Marion campus. The student member shall have no voting power on the board.

(3) Citizen members shall be appointed for terms of three years. Terms will be staggered so that three terms and each year. In case a vacancy develops, the university board may appoint a citizen member to fill the remaining part of the unexpired term. No citizen member shall serve more than three terms, consecutive or otherwise. (In determining eligibility for reappointment, an initial appointment of two years, or more, shall be construed as a term.)
The student member shall serve a term of one year, and is eligible for reappointment as long as he or she remains a student in good standing at the Marion campus.

Terms of the appointed members shall begin on July first.

Members of the Marion board shall serve without compensation but may be reimbursed for expenses incurred in the performance of their duties. Members of the Marion board shall be provided immunities or indemnification against any claims or liabilities which may arise from the performance of their duties to the full extent permitted by law.

The dean/director of the Marion campus shall assist the chair of the Marion board in establishing board agendas and priorities and shall provide such staff services and other assistance as the board may require. The dean/director may attend all meetings of the board.

The provost or the provost's designee, in cooperation with the dean/director, shall serve as the liaison between the Marion board and the various colleges and departments of the university, and may attend all meetings of the Marion board.

The chair of the Marion campus faculty assembly shall serve as a resource person for the Marion board and, in order to serve that function, may attend all public meetings of the Marion board.

The objective of regional campus board member selection is to continually ensure a strong, independent group of dedicated members with a diverse background, representing a range of professions, experiences, and geographical regions that the campus serves.

All members of the Marion board will be appointed by the Ohio state university board of trustees, in consultation with the president of the university, Marion board, and the campus dean/director.

The following criteria shall guide the Marion board in its nominations of community members:

1. Resides in the primary service area of the campus and is well acquainted with the region;

2. Has a strong interest in the Marion campus and in the Ohio state university;

3. Has a record of community service;

4. Consideration should be given to nominating individuals from diverse parts of the service district with diverse professional expertise and perspectives; and

5. Employees of the university, employees of the Marion technical college, and members of the board of the Marion technical college are ineligible to serve as citizen members.

The student member should be a student in good standing, with an active interest in improving the campus, and who is willing to inform him or herself...
about the needs, interests, and concerns of other students. However, in the capacity as a board member, the role is as that of any other board member—to balance the needs and issues of all constituencies in their deliberations—not to represent a single constituency.

(D) Nominations will be communicated to the university board through the president no later than April twentieth of each year so that the university board may make appointments at its May meeting.

3335-119-03 Vacancies and removal.

(A) Vacancies shall be filled by the university board of trustees in the same manner and subject to the same qualifications as appointments for full terms.

(B) Members of the Marion board serve at the pleasure of the university board of trustees.

3335-119-04 Powers and duties.

The Marion board shall serve in an advisory capacity in oversight of the Marion campus. Subject to the authority and periodic review of the university board, the Marion board shall:

(A) Ensure maintenance of key relationships with external constituencies:

(1) Develop support for the Marion regional campus in its service area;

(2) Advise the dean/director concerning Marion’s local service area educational needs and the perception of university programs;

(3) Be knowledgeable about the Ohio state university, in general, and, in particular, at its interface with the Marion campus;

(4) Serve as a knowledgeable and effective advocate with the state legislature and state and local agencies for the Marion campus and for the Ohio state university, in general, when appropriate; and

(5) Ensure effective coordination with the board of the Marion technical college in all areas of common interest.

(B) Ensure proper direction for the Marion campus, e.g., through input and review, where appropriate, of the strategic plan, master plan, student affairs plan, safety and security plans, etc., and to ensure performance and progress monitoring. The Marion board shall have no jurisdiction with respect to faculty. The hiring, evaluation, promotion, tenure status, duties and responsibilities, and compensation of faculty shall be conducted in accordance with established university rules.

(C) To ensure that the university board of trustees meets its governance obligations under Ohio law, the Marion board will advise the dean and director on matters relating to annual budgets, capital projects, and tuition and fees proposals.

(1) The appointment of the dean/director will be approved by the university board of trustees in accordance with rule 3335-3-291 of the Administrative Code.
The university board of trustees will continue to hold the Ohio state university president responsible for the conduct of academic programs and for ensuring that the regional campus is operated in a manner consistent with university policy and procedures, as well as state and federal law.

3335-119-05 Meetings.

(A) Regular meetings of the Marion board shall be held on such schedule as may be established by the board, at times which shall be set and publicly announced.

(B) Special meetings may be called at the direction of the chair, or shall be called by the chair at the request of three members of the Marion board, provided that notice to all board members shall be given not less than five days prior to the meeting and publicly announced.

(C) Except as otherwise specified in these bylaws, all meetings of the Marion board and its committees shall be conducted in accordance with the latest revision of "Robert's Rules of Order."

(D) Meetings of the Marion board shall be open to the public, except for executive sessions called for reasons permissible under Ohio law.

(E) A majority of the current membership of the Marion board shall be necessary for a quorum.

(F) Conflict of interest. No trustee shall participate in deliberations on a university contract, action or transaction when the trustee has a financial or personal or fiduciary interest in any person or entity affected by such contract, action or transaction. The trustee having the prohibited interest shall make full disclosure thereof and shall abstain from any deliberations on any such matter. Trustees shall file with the board office on or about August first of each year, on a form prepared by the secretary of the board, a full disclosure of any financial or fiduciary interest the trustee, a member of the trustee's family, or any business associate of the trustee may have in any service provider who may be qualified to do business with the university.

(G) Motions may be passed by a majority of the voting members present.

3335-119-06 Officers.

(A) The executive committee shall consist of the chair, vice chair, and a recording secretary of the board. These officers shall be elected annually, by July first, by the Marion board. No officer may serve more than two consecutive, one-year terms in the same office.

(B) The chair shall preside at all meetings of the board, shall appoint members of any committees created by the board, shall serve as an ex officio member of all standing and special committees, and shall approve the agenda for all board meetings.

(C) The vice chair shall perform the duties and exercise the powers of the chair during the absence of the chair or in the event of the chair's inability to act.

(D) The recording secretary shall be responsible for ensuring minutes of board meetings are produced and maintained; for ensuring trustee members are kept informed about board activities and campus issues; for ensuring correspondence of the board is properly conducted; and for forwarding board minutes to the Ohio state board office in a timely fashion.
3335-119-07 Committees.

The Marion board shall establish an academic affairs and student life committee, a finance committee, a campus facilities and planning committee, and an external relations committee. Committees work on behalf of the board. As a result, any action or recommendation of a committee should have full board approval.

(A) The academic affairs and student life committee shall consist of three Marion board members, appointed annually by the chair of the board. It will monitor all services provided to students to ensure they are in line with established priorities and strategies and consistent with Ohio state university guidelines in general. This committee shall be responsible for advising the Marion board on student life matters.

(B) The finance committee shall consist of three board members appointed annually by the chair of the board. The finance committee shall be responsible for advising the Marion board on campus financial matters.

(C) The campus facilities and planning committee shall consist of three Marion board members, appointed annually by the chair of the board. This committee will monitor progress on the campus master plan to ensure it is in line with established priorities and planned strategies. This committee shall be responsible for advising the Marion board on campus planning and capital projects.

(D) The external relations committee shall consist of three Marion board members, appointed annually by the chair of the board. This committee will serve as the main link between the university and the community and will be most actively engaged coordinating the board’s duties as outlined in rule 3335-119-04 of the Administrative Code: developing support for the Marion regional campus in this service area, serving as knowledgeable and effective advocates with the state legislature and state and local agencies for the Marion campus, and for the university in general when appropriate, bringing the concerns of the community to the university.

(E) The Marion board may, by majority vote, establish ad hoc committees for particular defined purposes and particular defined durations.

(APPENDIX X)

Project Data Sheet for Board of Trustees Approval

High Voltage Switch and Cable Replacement Phase 2

GSL-081256
Project Location: N/A

- approval requested and amount
  professional services $2.0M

- project budget
  construction w/ contingency $11.4M
  other costs (perm. equipment) $2.0M
  total project budget $13.4M

- funding sources
  university bond proceeds

- project schedule
  design/bidding 02/11 - 07/11
  construction 07/11 - 12/12

- framework context
  this project is consistent with the Framework principle to improve campus infrastructure

- project scope
  existing equipment has reached its life expectancy (some over 30 years); switches are failing causing unplanned extended building outages and emergency repair costs
  replace existing primary switches with outdoor pad mounted SF6 switches
  replace high voltage electrical cables
  cable upgrades will provide for future growth in demand in the north campus area and upgrade the efficiency and safety of the electrical distribution system throughout campus

- project status and update
  continues work that began in phase 1; phase 1 addressed 120 buildings with a total project cost of $13.4M; phase 2 will address over 50 buildings on west and midwest campus, central campus (including the Fisher College of Business complex and the Stadium), and south campus residence halls
  along with phase 1, addresses approximately $20.4M in deferred maintenance

- project team
  University project manager: Tom Comody
  AEC: TBD
  major contractors: TBD

Office of Administration and Planning

October 29, 2010 meeting, Board of Trustees

Project Data Sheet for Board of Trustees Approval

**Hopkins Hall Mechanical System Improvements**

Project Location: Hopkins Hall

- **Project Schedule**
  - Design/bidding: 09/10 – 05/11
  - Construction: 05/11 – 03/12

- **Framework Context**
  - This project is in alignment with the Framework plan by improving building infrastructure and allowing for the reuse of existing space.

- **Project Scope**
  - This request is to combine a chiller project in Hopkins Hall with this project, resulting in an increase to the Hopkins Hall Mechanical System Improvements project.
  - The combined project will install a permanent chiller for primary conditioning of the building; this will provide chilled water for HVAC in advance of the East Regional Chilled Water Plant, which is projected to service Hopkins Hall in 2015, at the earliest.
  - The project will also replace the mechanical systems including HVAC and controls, radiant piping, fire alarm.

- **Project Status and Update**
  - The original plan was to incorporate a new chiller or tie in to the East Regional Chilled Water Plant at the conclusion of the mechanical system improvements project, a timeline for both projects of approximately 5 years; this allowed time to complete the mechanical system improvements and know the final determination of buildings included in the first phase of the East Regional Chilled Water Plant.
  - The Chemical and Biomolecular Engineering and Chemistry (CBE) project requires the use of Hopkins as interim space due to the demolition of buildings.
  - The use of Hopkins due to CEEC and the determination that Hopkins would not be served by the Chilled Water plant until 2016, has accelerated the timeline for the improvements from six years to two years.
  - Combining the projects allows the mechanical system improvements to occur along with the chiller installation.
  - The Hopkins Hall Mechanical System Improvements project received professional services and construction approval in October 2009 at a total project cost of $6.7M.
  - The professional services for the combined projects results in an increase to the Hopkins Hall Mechanical System Improvements from $0.5M to $0.7M and the total project cost for the combined projects will be $6.7M (an increase of 15%).

- **Project Team**
  - University project manager: Charlie Conner
  - ATE: Foster Engineering Associates
  - Major contractors: Ibd

Office of Administration and Planning

- Project budget
  
  | Construction w/ contingency | $5.8M |
  | Other costs (fiscal, equipment) | $1.0M |
  | Total project budget | $6.8M |

- Funding sources
  
  Fisher College of Business general funds

- Project schedule
  
  Design/Funding: 04/10 – 02/11
  
  Construction: 02/11 – 08/11

- Framework context
  
  - This project is in alignment with the framework plan by improving existing space and improving student learning spaces

- Project scope
  
  - Renovate approximately 25,000 ASF on the first and second floors and a portion of the third floor of Mason Hall, the business resources building
  
  - The project will renovate the Student Resource Center on the first floor to create several large conference rooms and meeting rooms, break out study rooms, and large reading rooms
  
  - Second floor renovations include offices and conference rooms for college departments and a tiered classroom
  
  - Third floor renovations include study and research areas
  
  - Project scope has expanded to include the renovation of a fourth floor classroom and to create a coffee/cafeteria area on the first floor

- Project status and update
  
  - Professional services and construction approval were granted in October 2009 with a total project cost of $5.0M
  
  - The café had originally been identified as potential scope but funding had not been included in the original project budget
  
  - The additional project scope resulted in an increase to the amount required for professional services authorization from $0.5M to $0.8M and an increase to the total project cost from $5.0M to $5.8M (13%)
  
  - The additional scope will be funded by the Fisher College of Business

- Project team
  
  - University project manager: Keith Podemitan
  
  - A/E: Keith Howard & Woods Architects
  
  - Major contractors: TBD
Project Data Sheet for Board of Trustees Approval

Outdoor Sports Complex Renovation
OSU-110195

Project Location: Bill Davis Baseball Stadium
Stickney Tennis Center
Jesse Owens Memorial Stadium

- approval requested and amount
  professional services $0.4M
  construction $4.0M
  total project authorization $4.4M

- project budget
  construction w/ contingency $4.0M
  other costs (fees) $0.4M
  total project budget $4.4M

- funding sources
  auxiliary funds - Athletics

- project schedule
  design/bidding 11/10 – 04/11
  construction 04/11 – 09/11

- Framework context
  this project is consistent with the vision for an Athletics village

- project scope
  - renovate the field at Bill Davis Baseball Stadium; renovate the outdoor courts at the Stickney Tennis Center; replace the natural grass field at Jesse Owens Memorial Stadium
  - the baseball field will be replaced with a synthetic turf infield, the bull pen area field will be replaced and a new drainage system will be installed
  - the tennis courts and fencing will be replaced, a new building for ticket sales and restrooms will be constructed; the project will also include a scoreboard and parking lot
  - the infield at Jesse Owens Memorial Stadium will receive a new natural turf surface

- project status and update
  - project construction will occur during the summer of 2011 as it is the off-season for these sports; the critical delivery date is September 29, 2011

- project team
  University project manager: Chris Henderson
  A&E: TBD
  major contractors: TBD

PURCHASE OF REAL PROPERTY

1340 SECREST ROAD, WOOSTER
WAYNE COUNTY, OHIO

LOCATION AND DESCRIPTION
The University has been presented the opportunity to purchase improved real estate located at 1340 Secrest Road, Wooster, Ohio. The property, owned by John A. Briggs, Sr. and Vickie S. Briggs, is directly adjacent to the OARDC Campus and a main entrance road to OARDC’s BioHio Research Park and Secrest Arboretum.

The subject property contains approximately 0.8895 acres, improved with a single family residence. The property is being appraised by a MAI appraiser Robert Kendall and it is expected that the appraised value of the property will be within ten percent of the purchase price. The negotiated purchase price for the property is $165,000.00.

USE OF THE PROPERTY
In the near term, the residence would be operated as graduate student housing while a thorough assessment of University needs can be completed. The land will be used to develop an entrance to OARDC’s BioHio Research Park and Secrest Arboretum. The cost for acquisition of the property, maintenance and repairs, and any improvements necessary will be provided by the OARDC.
Purchase of Real Estate at 1340 Secrest Road, Wooster, Ohio

Office of Administration and Planning / Board of Trustees Meeting  October 29, 2010
Fisher College of Business Request for Pre-Approval of Fee Rate for SMB Finance Program for FY 2012

The Fisher College of Business (FCOB) is about to launch its new SMB Finance Program in the fall of 2011. FCOB has developed the curriculum, and has also built a new website which is ready to go live. Admissions will be on a rolling basis, and the college plans to accept applications starting November 2010.

For this purpose, FCOB needs to advertise the tuition rate for the program. To establish a tuition rate, the college conducted benchmarking of tuition rates against nine “general focus” one-year masters in Finance programs (Boston College, UIUC, Indiana University, London Business School, MIT, Purdue, University of Rochester, Vanderbilt University and Washington University). A summary can be found below:

The average masters of finance student in the benchmark programs pay $47,572 this year. Assuming a 3% tuition increase next year, the 2011-2012 average tuition for a Masters in Finance Program will be $48,999. However, note that two programs, MIT and University of Rochester, include a summer term so adjusted 9-month tuition rates are provided here for comparability. The average for 9-month programs is $44,590.

The Fisher College is hereby seeking pre-approval to charge a tuition rate for the SMB Finance Program of $49,000 ($47,596 instructional tuition plus $1,404 in fees) for resident and $49,015 for non-resident (resident fees plus $15 non-resident surcharge) for 2011-2012. See table that follows.
FCOB believes that a tuition rate of $49,000 for the one-year program will signal its faculty strength (The OSU Finance Department ranks 8th in the world, based on publications in top journals)*, with a discount compared to its ultimate target level of around $60,000 (currently charged by MIT for 9 months) to reflect the fact that it is starting a new program.

FCOB strongly believes that the market can bear a $49,000 tuition rate. The University of Illinois charges $45,948 this year and attracts 129 students to Urbana-Champaign, and University of Rochester charges $49,322 and attracts 79 students. In terms of academic reputation, the OSU Finance Department at the Fisher College of Business ranks significantly higher than either of these universities and at par with London Business School and MIT.

The college is requesting pre-approval in order to start advertising the fee at a $49,000 price for one year (three quarters).
The Board of Trustees met Wednesday, December 1, 2010, at the Ohio Union, Columbus, Ohio, pursuant to adjournment.

**  **  **

Minutes of the last meeting were approved.

**  **  **
December 1, 2010 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Wednesday, December 1, 2010, at 2:05 pm. He requested the Secretary to call the roll.

Mr. Wexner:

Good morning. I would like to convene the meeting of the Board of Trustees. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene today at 2:45 pm.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding compensation.

Upon motion of Mr. Borror, seconded by Mr. Kellogg, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Schottenstein, Ratner, Marbey, Kass, Jurgensen, Wadsworth and Kellogg.

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Wednesday, December 1, 2010, at 3:09 pm. He requested the Secretary to call the roll.

Mr. Wexner:

If everybody would silence their cell phones or other devices that might disrupt the meeting so we can begin. Matt would you update us on where we are with the strategic planning process please.

Mr. O’Rourke:

Thank you Mr. Chairman. So what we are going to talk about today is something that to date so far, when we have addressed the Board about strategic planning, we have talked mostly about the high level University objectives and today what we would like to do is give you an update on what we have been doing at the college and the support unit level. Hopefully everyone has the presentation. If you turn to page one, this is a chart that actually pre-dates my position here at the University, and it is something that McKinsey put together when they were working with the Board. It basically shows the state of the strategic planning that goes on throughout the University, so there has been perhaps a notion that strategic planning really did not begin until the past year, which is not true. There has been an enormous amount of planning going on at the University, but it has happened in some cases in a fairly siloed manner. Each college has their own strategic plan and that process has been in place for several years.

Dr. Frantz:

Matt, it is the second thing in the handout that is in front of you.
Mr. O’Rourke:

The support units are just a little bit behind the colleges in terms of their strategic planning process, but again there is a fairly robust planning process across the units of the University. As well, the Board should be very familiar with the framework, the master physical plan, and that is also well developed. There has been a unified academic roadmap as well in the University, and there is a robust budgeting process too. What we are attempting to do in the office of strategic planning is to make sure all of these things are unified and what we will talk about for the majority of this presentation is the unification of the college strategic plans and the support unit plans.

So if you turn to the next page, it really shows a high level view of how we have been approaching this problem. This chart may make it seem like it is a cereal process but it is really quite an iterative process. It all starts with the University leadership where we develop our high level big picture goals and we started actually with the six University goals that we are all very well familiar with. From that we distilled several objectives under each goal that talks about the specific achievement that we wanted to attain within each goal. From that flows our strategic guidelines that we would provide to the colleges and the support units. Now from the colleges and the support units, that is where their individual plans roll up under those goals and the strategic guidelines that are provided to them by the University. From those strategies that are really owned at the college and support unit level, from those flow the initiatives that are measurable, actionable, the things you can put work plans against. At each level in that process we have dashboards, or I should say we conceive of dashboards and we are still putting them together, that allow us to measure and track the strategic process from objectives through initiatives. Any questions?

So if you turn to page three, this is a high level view of the process to date. This is a bit more holistic. My appointment at the University started in January, so I have been here almost a full year, but the process actually started quite a bit, as I alluded to before, quite a bit before I got here. As I said the colleges and the support units have been planning for years in most cases, but the University leadership really started to come together on this back in the fall to formalize this process. So when I came back in January, the process of the goals of course were established, and the objectives were established as well and what we worked on was ratifying those objectives and creating the strategies among the University leadership, specifically with the Senior Management Council and with the Council of Deans. It was about the April timeframe where the colleges and support units all had to submit their individual plans so my office was inundated with over 30 plans, almost 1,000 pages worth of materials to actually try to integrate and make sense in the context of the six goals and the objectives set by the University leadership. That was a process that occurred from about the spring through the end of the summer where all of the leadership from the Office of Academic Affairs got together and reviewed each individual plan from the colleges in detail during three half day sessions. We will repeat that process with the support unit plans because we are trying to inform the support unit planning process with the information that comes from the colleges.

In parallel to that, about the summertime we started to look at the six goals and the University objectives, and we began to realize that they needed to be refined somewhat and we needed to add just a bit more focus. That is a process that is ongoing. We hope to have that wrapped up by the spring time so that we can re-inform the college plans and they can update them, per these new refined and focused goals.

Finally, once we have just a bit more clarity I think we will be ready to engage with details both the financial planning process and the framework. It is really central to the strategic planning process that the financial plan through Geoff Chatas’ office and the framework through Jeff Kaplan’s office are completely coordinated. That
December 1, 2010 meeting, Board of Trustees

really has begun already, we have started initial meetings there, but that will continue to be ongoing throughout this process.

Page four is a bit of an eye-chart. Think of it more of reference. I do not want to go through the whole thing, but know that on this list, you can see we have had many meetings both large and small. I personally have met with each individual dean at least once, in many cases two or three times. I have met with each of the vice presidents as well to work with their teams to develop their plans. We continue to meet on a regular basis to discuss both high level topics, such as the overarching University goals and objectives, and specific tactics at the college and support unit level. This is active and ongoing and it is also quite an iterative process because as we learn new things at the college level, they feed up to what we talk about in the president and the provost’s office, and likewise that information feeds down and informs their individual plans as well.

Just to give you an idea of the magnitude of what we deal with, what we are dealing with in our office of two and a half people. I do not think the graduate student would like it that I call them a half of a person, but two and a half full time employees. We have now about 900 pages, like I said 370 separate strategies and 685 initiatives that we are trying to codify into strategic themes and we are trying to identify the resources that are needed to carry these things out so that we can ensure that the resources, not only that the resources are available, but we can inform the high level planning process as well.

This is really just a fun chart on page six, but what we have done is taken all 31 or 32 plans, all 900 pages, and we have chopped them up and did a whole lot of magic. I am not sure how the graduate student did this, and we put them in a database. So now we can search the database, we can look for specific terms, we have already helped several offices throughout campus to search specific terms so that they can inform their staff on what they are doing. We are able to analyze all the plans in a way that we would not be able to if they were stuck in word or pdf documents. This particular chart shows the frequency, the size of the font is basically the frequency of the occurrence of the term throughout all of the plans together, so you can see the major themes that are popping up. To make it into something that is a bit more concrete, we have actually done quite a bit of analysis and we have come up with 19 strategic themes that we see across the University and those are on page 7. I will not list them all, I will let you read them, but they should look familiar, and they align quite nicely with the six goals that we are all familiar with.

Any questions before I talk about where we are going from here. In conclusion there are four primary tasks that we are tackling now. We are refining the University’s vision and mission statements, and that is really the charge of the University leadership, the president and the provost and it is ratified by you, the Board. We are sharpening the University goals and objectives again, honed by the University leadership but ratified by you. Then we are going to take that information and inform the colleges and the support units and they will update and realign their plans to that. We are hoping to have that information ready for them in the springtime. Finally we are going to make sure, and this is really ongoing, we are going to make sure that as this information becomes available, it is going to be fed directly to the financial planning group and those that are in charge of the framework as well.

I open it up to you for questions.

(See Appendix XV for background information, page 294.)

Mr. Wexner:

Matt, I know it is an intricate process in planning, and we have talked about it in the Board, but I am wondering how far away, I am assuming there is some distance
December 1, 2010 meeting, Board of Trustees

away, but how far are you in time from saying this is the template of how we plan, so that the plans aggregate in the same format across the disparate part of the University.

Mr. O'Rourke:

I think the short answer is, we have the template, but it takes a while to syndicate it. We are trying to syndicate it first through the leadership and through the Board and then we will present it and syndicate it with the faculty. That said we have some of the deans looking at this stuff in conjunction while we review it with you as well. If you are asking me to put a date on it, I will say February. It should be ready by the February Board meeting.

Mr. Wexner:

I think it might be useful then to send the template to the Board before the meeting so people can look at it and then we can have something to talk about.

Mr. O'Rourke:

Absolutely.

Mr. Jurgensen:

Matt, first, what I am about to say goes through the filter of sort of corporate America, not academic America. It is really back on page five and it is the notion of 370 strategies. An important part of this work, the most important part is the part that deals with execution, and a big part of execution deals with communication, and in order for this to be really effective there has to be some way, it seems to me of crystallizing this down into a manageable set of things that can actually get done. So 370, my first impression suggests there is a nomenclature problem, in other words what people are calling strategies are not maybe what I would call strategies, or Jay Barney would call strategy.

Mr. O'Rourke:

You have hit the nail on the head. You are exactly right. So there is a real confusion I have found, and it is not just here at the University, it is anybody that does not do strategy all the time. There is a big confusion between an initiative and a strategy. They will say anything we are doing that is important must be a strategy because it is important. Where I am trying to help those who are less familiar with strategy and strategic planning in general to think about the five big things they want to accomplish and the strategy is simply the approach they are going to take to get there. So there in really lies the problem that we are dealing with. So even that page where I have 19 strategies where I am trying to distill, it is still too many, but it is going to require some tough calls by the deans and by university leadership to whittle those down into five or six that are manageable.

Mr. Jurgensen:

Again, with the overarching idea of One University, which suggests one University in a world of scarce resources, suggests some intelligent process for resource allocation which will be impossible to do across that many ideas.

Mr. O'Rourke:

I agree. This is a question we could talk all day about, but it really is about, I think first, the University leadership, meaning the president and the provost, and then here with the Board. Having a very tight focused message that the colleges can focus
December 1, 2010 meeting, Board of Trustees

accordingly with because it is difficult for them to focus if we are not providing a similar focus from the top. I am not saying it has not been focused today, but I am saying that when I have the same discussion, bring up the same points you just did, they say tell me where to refine it. And that is really what we are focusing on as University leadership right now.

Mr. Wexner:

Any other questions, comments? Thank you. Dr. Whitacre would you like to report on research to us. Thank you.

Dr. Whitacre:

We have a slide presentation coming up. [VIDEO CLIP]

I am delighted to provide you with an update on research at Ohio State. The presentation I am going to give you is an abbreviated version of the first inaugural State of Research Address that I gave, actually in this building, on November 3, as part of our kick-off of the celebration of research month. This address really lays out the case for the value of Ohio State, to the state of Ohio. So this is a message I think, that today particularly we need to deliver quite frequently. The topics I am going to cover today very briefly include interdisciplinary research, federally funded research, third frontier success, international research, student research initiatives and I will give a lead-off on commercialization.

Ohio State is arguably the most comprehensive research university in the country. More than 5,000 faculty, staff, and student researchers representing fourteen colleges in a myriad of academic disciplines are working together to bring a multidisciplinary perspective to solving the problems that effect Ohio, the nation, and the world.

Our researchers are finding ways to personalize medical treatments, to create a better quality of life. They are using computer simulations to discover the origin of the universes first super-massive black holes that formed 13 billion years ago. The groundbreaking computer graphics technology developed by Charles Csuri known worldwide as the father of computer art and also a member of the 1942 national championship team, is being applied to flight simulators, computer aided design, scientific visualization, magnetic residence imaging and special effects for the film industry. These activities capitalize on the strengths of our faculty whose efforts take us to new heights of innovation every day.

This year, 2010, has been a tremendous year for Ohio State research. We have made great strides in both our externally funded and institutionally funded research. We are now beginning to see the accomplishments of two very visible institutionally funded programs, the Targeted Investments in Excellence (TIE) and the Centers for Innovation. In 2006 the University invested significant resources in selected areas of scholarship. Areas in which Ohio State had the potential to become preeminent in the world as measured by impact and reputation. Ten programs were chosen to share $110 million over five years. I will highlight the accomplishments of two of the Targeted Investments in Excellence.

Public health preparedness was identified as one area where Ohio State had the potential to become an international leader. Recent threats of disease pandemics, bioterrorism, food-borne illnesses and natural disasters like the tornado that hit Wooster, underscore the importance of public health preparedness. The public health preparedness TIE led by Larry Schlesinger of internal medicine is translating scientific discoveries into clinical applications, detecting the presence of emerging infectious diseases, preventing human infection from zoonotic, or animal to human...
transmission of microorganisms, addressing food safety issues and training professionals in public health preparedness.

The climate, water, and carbon (CWC) Targeted Investment in Excellence has united researchers across several disciplines to address critical issues such as climate change, the availability of freshwater worldwide and the impact of fuel combustion on water resources and the earth’s atmosphere. CWC scientists led by Doug Alsdorf from earth sciences are making future predictions on three key questions that have formed the nucleus of the climate water and carbon initiative. Are we, man, causing an abrupt climate change today? How much water is available, and how does it vary in space and time? What strategies can be implemented to offset the impact of fossil fuel combustion on the earth’s ecosystem, and how do these effect climate change and water resources? The TIEs are now entering their fifth and final year of funding and all have developed plans for future long-term viability.

The University invested a further $16.7 million in the Centers for Innovation and innovation groups in 2009. These programs aim to spur further innovation and advance problem based research aimed at tackling issues of global importance including poverty, hunger, health and disease, access to energy, art and culture.

The international poverty solutions collaborative represent a team of more than 60 faculty members from 13 colleges. This initiative was led by Howard Goldstein from education and human ecology and Jay Barney from business. They are working to develop and evaluate comprehensive, culturally sensitive solutions that allow individuals, families and communities to thrive. This program focuses on health and wellbeing, physical environments, developing business and economic opportunities and finally families, schools and communities. The Food Innovation Center, the second of our centers for innovation is led by Ken Lee from food science and technology. This program involves more than 80 faculty members from 12 colleges. Currently 40% of the world’s current food supply is wasted due to challenges in economics, safety, health, nutrition, security, technology and food policy. This center is attacking the food crisis by designing foods for health, insuring food safety, advancing biomedical nutrition in disease prevention and promotion, and guiding global food strategy and policy decisions.

Turning now externally, Ohio Centers of Excellence is strengthening the University System of Ohio by developing distinctive missions for each Ohio university. This program was established by the Ohio Board of Regents and Chancellor Eric Fingerhut. The Centers of Excellence represent nationally recognized areas for their academic programs and world class research which draw talent and investments into the state. Ohio State’s designated centers include climate, energy and the environment, health and wellbeing, human behavior and bioinformatics, transportation for tomorrow’s economy, materials, manufacturing technologies and nanotechnology, and food production supply and safety, Dr. Ronald Sega, a former astronaut and undersecretary of the U.S. Air Force, leads the Center in Climate Energy and the Environment. Dr. Sega joined Ohio State in September 2010 as the vice president and enterprise executive for energy and the environment. His key leadership position is being shared with Colorado State University, another land grant institution. Between the two institutions Dr. Sega will lead more than 500 researchers as they work to identify national initiatives and collaborative economic development opportunities. Dr. Sega is leading Ohio State’s Institute for Energy and the Environment, which was founded in 2007.

Ohio State’s research accomplishments require a significant investment of resources. OSU researchers have shown great success in garnering new grant awards. In 2010, new grant and contract awards to Ohio State topped $5 billion for the first time in Ohio State’s history, reaching $501.4 billion. Some of this increase can be attributed to funding from the American Recovery and Reinvestment Act (ARRA), funding that was intended to create new jobs and spur economic activity. At
December 1, 2010 meeting, Board of Trustees

Ohio State, ARRA investments are being used to address important problems such as conquering disease and improving health, reversing the effects of climate change, creating new nanotechnological materials and exploring alternative energy. ARRA funding from NIH will allow Rebecca Jackson, from internal medicine, to improve the ability to predict osteoarthritis, the most common form of arthritis and a major cause of morbidity and limitation of physical activity in people over age 45. Dr. Jackson’s work will provide valuable insights into disease mechanisms and help identify novel targets for prevention and treatment of osteoarthritis.

ARRA funding through the U.S. Department of Education’s Investing in Innovation Program will allow the college of education and human ecology to scale up its well established Reading Recovery Program. This is a program that just celebrated its 25th anniversary. OSU was the first university in the country to adopt Reading Recovery, a program developed in New Zealand in the 1970’s. Reading Recovery is a highly effective short-term intervention that provides one-on-one tutoring for first grade students having difficulty learning to read and write. Ohio State along with its 14 partner institutions will train more than 3,000 new teachers and impact 1,500 schools across 40 states. Jerry D’Agostino from the school of educational policy and leadership leads this effort.

ARRA funding to Ohio State now exceeded $157 million from seven different federal agencies. The largest number of awards has come from the National Institutes of Health. The value of these investments goes beyond their immediate impact creating jobs and economic activity. The discoveries coming from these projects will serve as a cornerstone for the technology-oriented economy of Ohio and the nation.

Ohio State is proud to be a partner in Ohio’s Third Frontier Program, an unprecedented economic initiative created in 2002. Ohio State has more than 60 Third Frontier Projects with awards totaling more than $227 million. These projects have enhanced existing ties with Ohio universities, fostered new technologies across the state, created state of the art facilities and laboratories, strengthened university industry collaborations, and facilitated commercial product development. This map shows the distribution of our Third Frontier industry partners just within the state of Ohio.

The Wright Center of Innovation in Biomedical Imaging was established in 2003 and is the leader in biomedical and health care-related imaging technology and services for both human and veterinary applications. Directed by Dr. Michael Knopp, from radiology, this Wright Center deploys an array of imaging technologies, including an ultra-high field magnetic residence imaging system and new powerful PET systems to help physicians better understand disease processes and treatment.

To harness the power of the state’s abundant biomass and provide alternatives to conventional energy, Ohio Agricultural Research and Development Center (OARDC) established a bio-engineering research facility at its Wooster campus. Energy savings of as much as $3.5 billion annually could be realized if Ohio food processors begin to use agricultural and food processing waste in an electrical generation system. Floyd Schanbacher from animal sciences leads this project.

The Third Frontier is making it possible to attract eminent researchers in targeted high-tech research sectors to Ohio universities through the Ohio Research Scholars Program. We have now recruited three high-profile research scholars to Ohio State in the areas of carbon sequestration, bio-based emergent materials, or alternatives to rubber, and propulsion, propulsion systems integration.

In May 2010, Ohio voters approved a bond issue for an additional $700 million over four years, extending the Ohio Third Frontier Program through 2015. Ohio State looks forward to extending partnerships with Ohio industries, universities, and laboratories to fuel Ohio’s emergence as a major contender in the 21st century.
December 1, 2010 meeting, Board of Trustees

Our researchers have a long history of international collaborations. The Center for Automotive Research (CAR) was recently named as a partner in a consortium under the Department of Energy’s U.S. – China Clean Energy Research Center to advance technologies for clean energy vehicles. Led by the University of Michigan, the center will facilitate joint research and development on clean energy by teams of scientists and engineers from the U.S. and China.

With funding from the U.S. Agency for International Development we are partnering with Virginia Tech to strengthen food security in Africa and improve productivity, availability and marketing of key staple commodities and cash crops including rice, maize, plantains, and tomatoes. Mark Erbaugh, director of the International Programs in Agriculture in the College of Food, Agricultural and Environmental Sciences is working to boost economic development in Uganda.

Ohio State’s research excellence is a product of both new initiatives and long-established centers. For the past year we have celebrated scientific discoveries as part of the 50th anniversary of the Byrd Polar Research Center, whose research teams include some of Ohio State’s most honored researchers, like Drs. Lonnie Thompson, Ellen Mosley-Thompson, David Bromwich, CK Shum and Jason Box. Ohio State is at the forefront of climate research. This past year scientists from around the world convened in Columbus to discuss topics such as sea ice thickness changes in the Arctic and Antarctic and tidewater glacier dynamics. Byrd Polar co-sponsored the Wexner Center’s Director’s Dialogue on Art and Social Change which featured a panel of artists and scientists working together to find innovative ways of sharing information about climate change with the public.

We must certainly recognize the extraordinary achievements of our student researchers. Research plays an integral role in everything that we do – including teaching, outreach, engagement and preparation of the next generation of scholars. The importance of research in the educational programs of undergraduates is nowhere near evident as the annual Denman Undergraduate Research Forum. Created in 1996, the Denman provides students with an opportunity to showcase their research and scholarly work before a group of faculty and corporate judges. [VIDEO CLIP]

Another student research project is the Buckeye Bullet 2.5, a lithium ion powered vehicle. This car was built by a team of Ohio State engineering students and they chased down yet another international record – 307.7 mph. The vehicle eclipsed the previous 245 mph world land speed record for battery electric vehicles set in 1999.

More than 60 Ohio State students from 20 different majors designed and built a solar powered home in 2009 as part of the Solar Decathlon, an event held every other year in Washington, D.C. on the National Mall. Sponsored by the U.S. Department of Energy, the event challenges 20 collegiate teams to design, build and operate solar powered houses that are cost-effective and energy-efficient. Ohio State’s house placed in the top ten worldwide in the competition. In September 2010 the solar house was dedicated at the Columbus Zoo, and I am happy to say Ohio State has been selected to participate in the 2011 Solar Decathlon.

Finally, I would like to talk about how researchers share their discoveries. The traditional route is through publications in the scholarly literature where findings are shared and discussed with the academic community. But increasingly researchers have been encouraged to more aggressively move new discoveries and new technologies into commercializationable products that can benefit society. As Ohio State seeks to expand its role in commercialization of research, and you are going to hear about that next from Chris Poon, we thought it was important that we create an environment that facilitates and rewards research creativity and entrepreneurship. In the spirit of this goal, two new university-wide awards were established to honor Ohio State’s Innovator and Early Career Innovator of the Year. Each award
recognizes an Ohio State researcher who is actively working to promote commercialization of university intellectual property. These awards were announced at the research address on November 3.

Dr. Subha Raman, associate professor of internal medicine and medical director of cardiac magnetic resonance imaging was named the 2010 Early Career Innovator of the Year. Dr. Raman leveraged her background in electrical engineering and her expertise in cardiac imaging to build an extraordinarily exciting and impactful commercialization portfolio. She and her co-inventors have formed a university technology start-up company called EXCMR, Ltd. to commercialize a new treadmill that is partnered with cardiac imaging.

The 2010 Innovator of the Year is Dr. Ching-Shih Chen, professor in medicinal chemistry and pharmacognosy in the college of pharmacy. Dr. Chen exemplifies the “bench to bedside” goal of translational science in his approach to the development of a new class of cancer therapeutic agents. He licensed two new anti-cancer drugs to Arno Therapeutics, obtained investigational new drug approval by the FDA for both agents and has initiated clinical trials at the James Cancer Hospital for both new drugs.

I would like to invite you to visit our website to actually read more about the accomplishments of these innovators of the year, and to see the research address in its entirety. I appreciate the opportunity to provide you with a snapshot of the truly amazing work that actually takes place at the University each and every day. Thank you.

(See Appendix XVI for background information, page 303.)

Mr. Wexner:

Thank you, any questions, comments? Thank you very much.

Dean of the Fisher College of Business, Christine Poon, you are next up Christine.

Ms. Poon:

Good afternoon Mr. Chairman, President Gee, members of the Board of Trustees; I have been asked to provide an overview of some of the work we have been doing in the area of technology commercialization. This is really the mechanism that Dr. Whitacre just referred to, how do we take our most promising technology and move it out into the marketplace so that we can advance society and make a difference to the planet and to the world.

So let me begin by talking about the three goals that we set up for ourselves in beginning this project. We felt that to take on a leadership role in economic development in this region that what we needed to do first and foremost is leverage this University’s extraordinary comprehensiveness. We have just heard from Dr. Whitacre how this University ranks in the top ten in terms of research, being able to attract research dollars, both corporate and federal and state, yet we can do so much more in moving that technology out into the marketplace. We thought that in doing this we could advance our reputation as a partner in economic development in the region, in the nation, and in the world and finally we thought that success here would create an enduring additional source of income for the University.

So our technology in terms of moving out into the marketplace can take two distinct paths, the first is pretty straightforward. A corporate sponsor can come, find the technology and do a straightforward license. In that case those ongoing concerns usually have the capital, both human and financial to move that technology along. The second path that this depicts is, and I apologize, a very oversimplified version of
how the other path might work. This path is the licensing of the technology to a start-up entity. In this path the invention phase is really what Dr. Whitacre just talked about. This is the creation of the idea, the technology, the idea for a new drug, the idea for a new surgical device, and what our job is in the University is to then in this path push that out into the marketplace as a newly formed startup company. We are very fortunate in this state to be able to move those companies into the incubator phase which is made possible by the state’s Third Frontier initiatives. As the company moves along it will need to attract ever larger and larger amounts of capital. Again we are very fortunate in this state to have the nation’s number two, Tech Angels Fund of the Ohio Tech Angels. So often times they in conjunction with the Third Frontier offer that next set of financing and then finally in the later stages, venture capital and eventually a fully formed company. We do believe that over the next few years we will need to pay attention in terms of being able to attract more venture funding into this region, but for now I think we have the early parts of the ability to nurture these startup companies. We have a great network to help that move along.

The general framework that we are talking about here is to source the deal flow, source technologies and to first focus on the areas where we would project that 80% to 90% of technologies exist. Those are in the schools that are part of the health sciences area, engineering and advanced materials and of course our food and agricultural areas. The idea then is to prioritize, to find those ideas that are most likely to attract either corporate sponsors or external capital. The University has allocated resources in what we call a proof of concept center that will allow us to invest against our highest priorities, those ideas that are the most likely to attract either corporate sponsors or external capital and then finally we think being able to move the A and B ideas out into either start up entities or into corporate entities is really the framework that we are talking about.

The office of commercialization that we have proposed to set up is composed of these areas. First a scouting function, we need to be much more proactive in terms of sending scouts out into the colleges to find and identify the most promising technology. I just mentioned the proof of concepts center, this is not a bricks and mortar center, this is actually a financing center that allows us to invest in our most promising technology. The center for entrepreneurship already exists within Fisher, and this is the entity that engages students, investors and the business community around our best ideas. We have an industry liaison office which today reports to the office of research, and their major role today is to help navigate corporate sponsors within the University. We think that over time there is a proactive role that this industry liaison office can play, which is to actually go out and find the corporate sponsors for the technology and make that marriage happen. We of course have the traditional technology transfer office which we see as an office which will execute intellectual property and execute the contracts and negotiate deal terms, and finally we intend to set up resources in development which will build an endowment to allow our proof of concepts center to exist independently for generations forward.

I would say that with the activity that is ongoing today, without a lot of external resources, we have been able to produce just these companies in the last couple of years. These companies are companies that have been formed based on the technology that has come from OSU, and these companies themselves in the last few years have been able to attract another $5 to $6 million of external capital. So I think it tells you that these are the ingredients of good innovation, good technology, we have the early amounts of capital to allow these companies to form and start and we of course have the students, the business community and the inventors working together to make this possible.

Of course we think about what will we measure our success, these are some of the key and early metrics that we have set forth for ourselves. First of all how many patients, invention disclosures will we ramp up to? How many licenses can we
December 1, 2010 meeting, Board of Trustees

execute, either to startup companies or to corporate entities? What will be the commercialization revenues that we will be able to attract? How many startup companies will we be able to create? What is the follow on capital that those companies can attract, and then finally how many jobs can we create?

With that I will close and say that in the end, we believe that our University has not only the ability, but the responsibility to move this technology into the marketplace, and by doing that advance society and literally change the world.

Thank you, I would like to take any questions at this time.

(See Appendix XVII for background information, page 318.)

Mr. Schottenstein:

I have a question. I appreciate the report Chris. A year or so ago when the idea of advancing this initiative was first discussed at the Board level, I think it was Dr. Cloyd who referenced the fact that Wisconsin, I think he used that example, the University of Wisconsin was one of the national leaders, and I realized that this is a long process once you get started. My question is really related to the framework that we have now put in place, and to what extent, and I am just going to use Wisconsin as an illustration, I do not know what they do or how they do it, but to what extent does our framework compare to them? How do we benchmark against that type of practice? I would just be interested in the similarities and/or the differences.

Ms. Poon:

Carol and I have been able to personally visit a lot of universities; myself in a past life, have visited Wisconsin, but in the last year have visited many universities to understand what they are doing. I would say that our framework has the elements of the very best of all of the universities we have looked at. There is no university that duplicates what we have just discussed. I think that is good. I think that in many ways we had a blank slate to build something and we have taken that advantage to do so. I think we are far behind many of our peer institutions and so we have taken the view that now is the time to be innovative, courageous and different and so that is what we have presented here.

Mr. Wexner:

I cannot help but ask. We know we are behind, how long does it take for us to get traction?

Ms. Poon:

You know we have set some goals for ourselves over the next five years and then ten years. So we have a ten-year plan. Our hope, and I will say that some of my Trustees have said that this is absolutely not aggressive enough, but our hope is that in ten years we can be where our peers are today, where the best of our peers are today. Of course my Trustees remind me that in ten years they may be much further along and we will still be behind, so I take that on as a great challenge.

Mr. Wexner:

I wonder who that Trustee might be that you are looking at.

Ms. Poon:

Actually I think all of the Trustees were. That was a great challenge to us.
December 1, 2010 meeting, Board of Trustees

Mr. Wexner:

Any other questions, comments? Thank you very much.

Next, report a bit of business, the President's evaluation, and the Board under the leadership of Alex Shumate has taken a great deal of time and deliberation to do thorough work, and Alex do you want to lead us through this?

-0-

PRESIDENT'S EVALUATION

Resolution No. 2011-32

Mr. Shumate:

Thank you. I am pleased to present this presidential evaluation and compensation report on behalf of our committee and the Board. Mr. Chairman and members of the Board, given the significant challenges facing our nation and the state, we are in greater need than ever before of strong, compassionate and intelligent leaders to help us navigate through these difficult times. At Ohio State we are very fortunate to have as our leader someone who fully understands these challenges and these issues and is willing to roll up his sleeves to help solve them.

Such leadership is even more important given the role The Ohio State University plays in the economy and culture of the state of Ohio. President Gee fully understands that the fates of Ohio and Ohio State are intertwined. As President Gee spent his summer traveling around the state, as he often does, meeting with and listening to fellow Buckeyes, he was reminded of just how important Ohio's flagship university is to the success of the state. In a sense, all Ohioans are Ohio State Buckeyes. They are invested in this University and the University is invested in them. As has often been stated, Ohio State is the single largest economic development engine in our state. From the number of people we directly or indirectly employ, the number of students we have responsibility for training and educating each year, and the contributions of our faculty in helping to solve the problems of Ohio, our nation and our world, it is difficult to overstate the importance of Ohio State's success to the success of the state.

In President Gee, we have a transformational leader who understands where we have been, where we are, and where we still need to go. He realizes that the University and the state will need a new partnership so that both can continue to grow. But that growth can only happen if the right leadership is in place. We as a Board of Trustees are confident that we already have the exact leader in place that Ohio State needs to realize its true potential. This Board understands that there is no better one suited than President Gee to partner with the governor and the legislature to position the University and the state for success for many years to come.

The Board fully recognizes the importance of strong leadership in determining the success of the University. We are committed to having a compensation program and philosophy that recognizes our unique complex challenges that come with leading the largest land-grant university in the nation. It is vital to our success that we appropriately value the experience and loyalty of our leader and also recognize and reward demonstrated performance.

To ensure that we as a Board are appropriately measuring President Gee’s contributions to the University’s successes, you Chairman Wexner asked the Board to conduct President Gee’s annual review from the period of autumn 2009 through the summer of 2010, in the context of six strategic imperatives that we identified to guide the university from excellence to eminence. Those imperatives are:
December 1, 2010 meeting, Board of Trustees

1. Forge one Ohio State University
2. Put students first
3. Focus on faculty success
4. Recast our research agenda
5. Commit to our communities
6. Simplify University systems and structures

Further, based on those imperatives, President Gee and the Board developed the fiscal year 2010 strategic roadmap, which identifies specific goals and lists tangible and measurable strategies and actions needed to attain those goals. The following reviews President Gee’s achievements against each of these six goals.

One University

The President’s first goal is to create One university where everyone is driven by a shared common vision, trans-institutional in execution, and aligned by a strategic planning process and one integrated master plan. The President was responsible for reshaping the University’s Advancement efforts, in which we better aligned the efforts of our communications, alumni relations and development to speak and act with one voice. Similarly, he led our efforts to better integrate the missions and activities of our regional campuses with the strategic goals of the entire University. President Gee continues to engage the Board in the design and implementation of a new strategic planning process. We have also completed the One University Framework which will allow us to make strategic decisions on how to maximize our physical environment and furtherance of our other University goals.

Students First

Second, the President made it a priority to develop and execute strategies to put “Students First” and move Ohio State rapidly into the academic front ranks of American public universities; promote full diversity; and facilitate university-system wide strategies for positive student outcomes and higher education access for all qualified Ohio citizens.

The students entering our University this fall are the brightest in the University’s history. Our first year retention rate continues to surpass that of our benchmark institutions. We approve new degrees and specializations in 23 areas and new undergraduate minors in 18 additional areas. Our rankings continue to improve with 32 graduate and professional programs ranked in the top 25 nationally and Ohio State is ranked among the top public universities in the nation overall. He has continued to lead our efforts in transitioning from the quarter system to semesters and our focus on increasing the quality and the diversity of our student body.

Faculty and Staff Talent and Culture

The President has also focused on assembling a diverse and talented leadership team who recruit, support and retain a world class faculty and staff and are dedicated to transforming to a high-performance culture driven by our institutional principles and high standards of ethics and compliance. President Gee has continued to lead the University’s culture transformation efforts in which we are attempting to transform the value system that serves as the core infrastructure guiding all decision making and interactions among members of our academic community. He has surrounded himself with a strong high-functioning leadership team and a collection of faculty who are national and international leaders in their respective fields.
December 1, 2010 meeting, Board of Trustees

Research Prominence

President Gee continues to support and encourage innovative, ground-breaking, within discipline and across-discipline research that enhances the University’s reputation and contributes to Ohio and the nation at large.

Our overall funding for research increased last year and we secured more than $150 million in research funding through the federal stimulus package; and President Gee established the new interdisciplinary Research Center of Excellence in Transportation for Tomorrow’s Economy. We are pleased with his progress on the increased commercialization of university research with the creation of the new Commercialization Center, housed in the Fisher College of Business. He has continued to strengthen our ties with our friends and neighbors at Battelle on cooperative research pursuits and through our new Medicine Institute, we are well positioned to be the international leader in research on personalized medicine.

Outreach and Collaboration

Under the President's leadership we continue to develop public and public-private partnerships focused on economic development for our communities, the University and the state of Ohio, and on developing ventures that establish our international leadership.

In the last year, President Gee helped open the University’s China Gateway office in Shanghai, expanding our reach on a global scale. Back at home, through our Campus Partners affiliate, we have leveraged a small initial investment to secure millions of dollars to help address housing, workforce development, education and safety in the adjacent Weiland Park neighborhood. He led efforts to secure passage for the renewed funding of the State’s Third Frontier initiative and worked with the Governor and General Assembly on pilot construction reform in which ProjectONE was selected as one of three test projects. Our capital projects, including the medical center expansion, new Eye and Ear Institute, student union and student housing have helped create jobs and fuel growth in a tight economy.

Operating and Financial Soundness and Simplicity

Finally, the President understands the importance of moving the University to a more robust financial position with new levels of productivity and return-on-investment using simple and non-bureaucratic systems, while maintaining a high level of financial responsibility.

Our operating margins, including those of the Medical Center, and other important financial metrics continue to stay within or better than target ranges; the University has streamlined several key University processes and functions, resulting in $93 million in estimated cost savings and efficiencies; and we received a bond rating of AA1 in fiscal year 2010.

Although it was a difficult fund-raising environment given the turbulent economic times in which we find ourselves, President Gee redoubled his efforts in meeting with key alumni and friends of the University and secured 33 gifts of $1 million or more; we made great progress on our $100 million fund-raising goal for the Students First Students Now Campaign; and we held our second very successful Pelotonia event, in which we brought in even more riders and more dollars. Our long-term investment pool finished the year with a rate of return significantly higher than our benchmark institutions and Ohio State was one of those three recognized as the “Best Large Non-Profit of the Year” by Foundation and Endowment Money Magazine.
Beyond the tangible measures listed about, comments about President Gee’s performance gathered from individual Board members were unanimously positive. As one of my colleagues put it, “I would have to squint hard to find a flaw” with Gordon.

Members were consistently impressed with the President’s “brilliant,” “inspiring,” “charismatic,” and “visionary” leadership. They remarked that he has led a complete transformation on how the University acts and plans and has helped us as a Board engages with the University in a more meaningful way. Gordon has systematically placed strategically vital matters before the Board and has been open to our questions, suggestions, counsel and advice.

Board members spoke to his interesting blend of celebrity and leadership and attributed a large part of his success to his ability to cultivate positive, meaningful relationships with students, faculty, and staff, as well as the community. The Board has also been pleased with his ability to recruit an outstanding leadership team that complements him so well. Members of the Board noted his ability to recruit and how his energy and effort kept this place infused with great enthusiasm. He was described as “spectacular,” and a “force of nature.” On a number of occasions we reminded ourselves that “we are lucky to have him here as our President.”

When pressed to identify areas for improvement for President Gee, Board members had trouble finding any. Instead, we tended to focus on our concern for his personal well-being. The constant demands on his time and the pressure he puts on himself to maintain such high levels of success can surely be overwhelming at times. Therefore, it is critical that the President take regular opportunities to recharge and that we as a Board properly support him, both as president and a person so as to ensure his continued success.

This list of accomplishments barely scratches the surface of all the activities and initiatives President Gee has led over the past year. His level of achievement is simply breathtaking and we are continually impressed with his energy and talent. With so much activity taking place at a university such as ours, this process has reminded us of the dangers of the President having too many expectations placed on him on too many fronts. He needs to be allowed and encouraged to personally focus his time and energy on a smaller number of core priorities. Although we are confident he will continue to succeed in any number of areas, it is important for us to make sure that he has the time and tools he needs to be able to focus on those four or five areas that have the greatest impact on moving the University forward and on which we will partner with him most intensively.

**Recommendation for Salary Increase**

Based on the results of this evaluation process, it is abundantly clear that the President’s performance over the past year merits an increase in salary. As the faculty and staff of the University recently received an aggregate salary increase of 2 percent, we recommend that the same 2 percent be decided for the president, which would amount to an increase of $16,042.50 over his current salary of $802,125.

**Recommended Bonus**

The bonus arrangement established for the President upon his return to the University provides for a 35% bonus for achieving target-level performance; up to 40% maximum bonus for exceeding target performance; and up to an additional 10% for achievement of important multi-year goals.
December 1, 2010 meeting, Board of Trustees

It is clear, based on President Gee’s achievements against the University’s strategic objectives, that he merits a maximum bonus for exceeding target performance. He has led this University to a new echelon of achievement and he continues to do everything asked of him and more. Without a doubt, we would unanimously choose him again as our President.

Therefore, we recommend a performance bonus of 37%, which would amount to $296,798. As this Board has made a commitment to do, President Gee’s bonus will not be paid by Ohio taxpayers or student tuition dollars, but rather through the Academic Excellence Fund that was created for this purpose and is funded by private giving.

We acknowledge that these are tough economic times, but it is the strong consensus of the Board that he has guided us admirably and should be rewarded accordingly.

In conclusion, last fall President Gee was recognized by Time Magazine as one of the best college presidents in the country. Although the recognition was welcome, we do not need a magazine to tell us what we already know. The students, faculty, staff and this Board are very grateful for having the best university president in this country leading our University. Many people are unaware that the President has been recruited by other universities, none of which he has initiated or entertained, but this Board is completely committed to retaining him for his full term to ensure that Ohio State continues to progress from excellence to eminence.

Mr. Chairman, I am pleased to bring this recommendation forward for the Board’s consideration and I invite discussion.

Mr. Wexner:

Thank you. Are you making that a formal motion?

Ms. Swain:

Mr. Chairman I would like to agree with what Mr. Shumate said. In time of uncertainty President Gee’s leadership and experience have provided the University with needed certainty. Through recruitment of top students, faculty, staff and administrators, as well as surpassing development goals, leadership is highly valued by the OSU community and admired by peers around the world. I think President Gee’s forward thinking, vision and execution have exceeded our goals and expectations allowing us to leapfrog our peer institutions and he deserves to be rewarded. He is truly the best at what he does, and I agree, we are lucky to have him here.

Mr. Shumate:

Thank you very much Alex. Any other comments, discussion?

The committee put a lot of effort into this and you might talk about the interview process, or any of you might want to comment about the process that we went through.

Mr. Hicks:

I was going to say before you get to that. First of all I want to commend Alex, and I wanted to commend the process because I think the process was very fair, very transparent, very comprehensive and very inclusive. Everybody I think around the table had an opportunity to interact one-on-one, going through the objective criteria that we set out a year or so ago, and so I think the process was very, very good.
I also wanted to echo what Alex said and really commend as Alex said on your performance. I think it has been exceeding our goals that we set out a year ago, and I think we are very fortunate to have you. I also think it is very important to maybe underscore what Mr. Shumate said, I mean we are in tough times, the state, the country are in tough times, and what we are talking about here is a recognition of really outstanding performance, but it is also a recognition that this University and this institution is really a solution to many of the tough problems we are facing. Whether it is some of the research and some of the commercialization we heard about today in turning our economy around both locally in the state and in the country, whether it is the creation of 5,000 construction jobs at the medical center or something like 6,000 permanent jobs at the medical center and another 4,000 jobs, we are the solution to a lot of the challenges that face our state. We are not going to be able to provide those solutions without really strong leadership and I think we have that. So I guess in closing I think that the recommendation that we have is really outstanding, I think we are fortunate to have President Gee leading us, trying to provide those solutions, and I think it is important to recognize and reward him as appropriately. I also think it is appropriate though to say that we are counting on you a lot and we are counting on everyone here a lot to be really, really creative and coming to the table in the best ways possible to help advance the institution, advance the community and the state. I think we are fortunate to have you because I know you are going to do that.

Mr. Shumate:

In addition to reviewing the six strategic imperatives looking at the fiscal year strategic roadmap for 2010, working with Dr. Chait, individual conversations and discussions were held with each and every Board member, so we did follow a very thorough and complete process as we were directed.

Judge Marbley:

Yes, I want to echo the sentiments of Alex and Brian, but I think the one thing that is also very important that we understand is that our comments that Alex read did not arise in a vacuum, they were not a result of hear-say. It was not like Board members talk to other Board members and we decided that we should say these things about Gordon. We are a very engaged Board, this is a very active Board, we are all on various committees, and we are working diligently to accomplish the objectives and the strategic goals that we have set for ourselves, but it has been as a result of Gordon’s leadership and he is engaged with each one of us on these committees and our strategic initiatives and the like, so it is important that the public understands that when we make these comments, when we evaluate our President, it is based on our personal experiences in addition to our ability to observe the leadership that he has brought to the University. So we have had the opportunity to firsthand witness what he is doing and our evaluation is based on firsthand experiences. So, Alex when you wrote those eloquent words, you did not just make it up, no reflection on Alex, but you know many of us offered those comments ourselves based on our experience and our work with President Gee over the course of the year. So I wanted to make it clear that we have all worked with him, we know how diligently he undertakes these tasks, how hard he works and our sentiments are heart felt but are battle cries as well.

Mr. Wexner:

Thank you Monte, any other further discussion?

Upon motion of Mr. Shumate, seconded by Mr. O’Dell, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Schottenstein, Ratner, Marbley, Kass, Jurgensen, Wadsworth, and Kellogg.
December 1, 2010 meeting, Board of Trustees

Mr. Wexner:

I just want to say one thing Gordon. In difficult times it is really when the going gets tough that the tough get going and I clearly remember how the world was in October of 2008 and how it was in October of 2009, and clearly we have traction and the University is moving. I think this is a very special moment for the Board and hopefully it is one of those moments you can kind of freeze in your mind and remember to get the public recognition and such positive feedback and approval from the Board. It should make you feel good and I think it makes all of us feel proud.

President Gee:

May I comment?

First of all I would just say that one of my friends on the Board just passed me a note and said my father would be proud and my mother would actually believe all of this, so I would note that.

You know I actually had thought a little bit about what I wanted to say, but all of this is rather overwhelming in some ways because I know it comes as Judge Marbury said, that it comes from the heart, not from the head. Because I consider each of the people in this room my friend, I think that we have moved from working for each other to working with each other which is an extraordinary kind of leadership moment in my own mind at least. So I really appreciate the Board’s affirmation, I truly do. We know as Brian just said that these are times of enormous challenge in this state and this nation. We just heard it yesterday, but we also heard, as we heard from the chairman of the Federal Reserve System, from the chairman of IBM, and the president of Ford, that the future of this nation is going to be determined right on this campus. That this campus and like-minded institutions are the driving force for the economic future of this nation, and so I think in some ways that is something we all understand. I think the full force of that and therefore the responsibility we have is something that we really not only manage but to take up as our calling.

I also think that you should know that I feel very valued by this institution. We have a world class faculty and they value me and I value them very much. I think, as you know, very often that university presidents and faculty do not always have the most cordial relationship, but the faculty here has been enormously supportive of me as has the staff. We have a wonderful staff, a warm and a caring and a personally affirming staff. Our students, as you know, are really the most enthusiastic, the most spirited, the brightest, and the most interesting people and I adore them, I really do. The privilege that I have is spending time with them because they really do give me great hope. They should give all of us great hope, they are optimistic, they really do view the future as one in which that they will succeed and that optimism is something that is really compelling. So I want to recognize that.

Finally my colleagues who are here, the senior administration of the University, our deans and others, they have worked through a very difficult time and will continue to do so, but we are doing so in ways in which we do not think about what our challenges are, we look at them as what the opportunities coming from the challenges are. In terms of reinvention and reformation and reestablishment, I think this University has a unique opportunity to lead in ways that very few institutions can and do.

We heard also today I think from Carol and certainly from Chris the unique nature of the institution in terms of its leadership role. I made the statement when I came; it was just sort of out of the moment when I said that this is an excellent institution which will move to eminence. I now believe my own rhetoric and I see my own rhetoric and in word and in deed I think that we are quickly becoming not only
eminent but quickly taking on a significant leadership role, so we should acknowledge that.

Finally to all of you, I mean to the Board, what can I say? I think that we have been through refining and working with each other. I think we have had incredibly strong leadership, first with Dr. Cloyd who is not here today and with Mr. Wexner and with all of you, and we have forged a partnership which is quite unique in my own situation having been parts of a lot of institutions with a lot of boards, I can truly say and I would say this privately and I would say this in any kind of a setting that this is the best with which I have worked.

Now, let me just say, I think I want to be very clear about this. You have given me a significant performance compensation, I will do as I have in the past and most cheerfully donate that back to the University. I have established a scholarship fund which means a great deal to me. I now have two wonderful scholars on campus, one who is now one of the best horn players that we have, trumpet players, and I have a dance student also, I will have three next year, I will have four the next year. The importance of what you are doing for me allows me to grow my commitment to the University and also to do some other deeds, I call them random acts of kindness. I do not like to do things for which I am recognized, but I do not think any university president should be in the position I am to be blessed with the opportunities that I have and going out and asking other people to support the institution without me supporting it myself, and this gives me the opportunity to do so. So thanks for giving me the opportunity to support the institution and I will do so most cheerfully and most gratefully. It is a great day for me.

Mr. Wexner:

We should have a thirty second pause before the next segment of the meeting.

It is a moment of appreciation, it just is, for the institution, for your leadership, for the situation we are fortunate to be in. Having that pause I regretfully have to ask you to present the consent agenda.

President Gee:

Fortunately because otherwise I would not be able to do it. As you can tell this is an emotional moment for me too.

-0-

CONSENT AGENDA

President Gee:

Today we have one resolution on the consent agenda therefore we are seeking the approval of the following:

DEGREES AND CERTIFICATES Resolution No. 2011-33

Synopsis: Approval of Degrees and Certificates for autumn quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:
NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on December 12, 2010, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix XVIII for background information, page 322.)

Upon motion of Mr. Schottenstein, seconded by Mr. Borror, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Schottenstein, Ratner, Marbey, Kass, Jurgensen, Wadsworth and Kellogg.

-0-

Mr. Wexner:

A lot of good news today and as we begin the holiday season I wish everyone a very happy holiday and a healthy and happy new year, and look forward to all the work we have yet to do and the opportunity to get better. Thank you we will be adjourned.

Thereupon the Board adjourned to meet on February 11, 2011, at Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner                   David O. Frantz
Chairman                         Secretary
Strategic Planning Update
College and Support Unit Planning Effort
Office of Academic Affairs

December 1, 2010
The Ohio State strategic planning process incorporates five distinct planning processes into one integrated process

- **University strategic plans (Academic Plan, Roadmap)**
  - Single University plan as guiding framework

- **College strategic plans**
  - Guides college plans to align with University plan

- **Support unit strategic plans**
  - Guides support unit strategic planning to align University and college plans

- **Budget**
  - Links timing and allocation of college/support unit resources to priorities in strategic plans
  - Links President/Provost discretionary funds to priorities in strategic plans

- **Master Plan**
  - Facilities/capital projects incorporated in strategic plans
  - Feedback/approval of strategic plans includes input from Master Plan leadership

- **Integrated Ohio State strategic planning process**
  - Single University plan as guiding framework
  - Links timing and allocation of college/support unit resources to priorities in strategic plans
  - Links President/Provost discretionary funds to priorities in strategic plans
  - Guides college plans to align with University plan
  - Guides support unit strategic planning to align University and college plans
  - Facilities/capital projects incorporated in strategic plans
  - Feedback/approval of strategic plans includes input from Master Plan leadership
The outcome of the process is a single University strategic plan with aligned college and support unit plans

**Goals**
- University-wide, “big picture” directives

**Objectives**
- University-wide, desired achievement within a Goal

**Strategies**
- University-wide approaches to attaining specific Goals/Objectives

**Initiatives**
- Specific, actionable and measurable tactics

**Bottom up college and support unit planning process generates:**
- College/Unit-specific Strategies which align with University Objectives
- College/Unit Initiatives, some of which may be elevated to the University Plan
- College/Unit action steps to support University and College/Unit-specific Initiatives

**Top down University planning process generates:**
- University Goals
- University Objectives
- University Strategies
- High Priority University Initiatives

Dashboards and scorecards to measure progress at all levels
The current strategic planning effort Ohio State has been underway for more than a year, and is built on past planning.

Strategic planning efforts to date have involved the coordinated efforts of hundreds of people across the university

Activities to Date

**University Administration**
- President and Provost
  - Overall goal and objective development
  - Frequent meetings to guide process and provide input
- Senior Management Council
  - 2 retreats to ratify and refine objectives, strategies and initiatives
- University Strategy Steering Committee
  - Frequent meetings to develop concepts as needed for academic and board retreats
- Office of Academic Affairs Leadership
  - 3 retreats to review all academic unit strategic plans

**Colleges and Support Units**
- Council of Deans with support unit leaders
  - 2 retreats to ratify and refine objectives and strategies
  - Monthly updates on strategic planning progress
- Deans and Support Unit VPs
  - Development of strategic plans, aligned with university goals and objectives, in each college and support unit

**Office of Strategic Planning**
- More than 60 individual meetings with deans and support unit leaders and their teams to develop strategic plans
- Consolidation of all strategic plans into a unified database to facilitate communication
- Prepare materials for and lead all board, SMC and council of deans strategic planning retreats and other meetings
- Ongoing development of Strategic Planning Website, including strategic plans, trend tracker and performance management tools (first look spring 2011)
- Facilitate discussion with University leaders and board members to refine university vision, mission, goals and objectives
December 1, 2010 meeting, Board of Trustees

30 plans submitted from across the university represent a daunting task of alignment and coordination

- 349 pages
- 156 strategies
- 275 initiatives
Word clouds provide insight into the major themes common to all strategic plans (size represents word frequency across all plans)
December 1, 2010 meeting, Board of Trustees

19 strategic themes have emerged from the academic unit plans, and the support unit align to sustain them

- Transform OSU Culture
- Examine our departments, programs and administrative unit structures
- Create a physical environment that meets the needs of students, faculty staff and the community

- Improve academic programs and learning environments for students
- Make OSU more accessible to the citizens of Ohio
- Recruit and retain the best students possible
- Prepare students for post-degree success

- Increase the diversity of our students, staff and faculty
- Provide enhanced international experiences for students and faculty

- Improve research through collaborative efforts
- Improve University research support including commercialization

- Improve the local and global communities in which we live
- Play an active role in shaping the policies that affect the university

- Recruit and retain a world-class faculty
- Improve our stature in research, scholarship, and creative activities
- Develop and enhance interdisciplinary research and teaching opportunities
- Create a performance culture among our faculty

- Enhance development efforts and pursue non-traditional revenue sources
- Reduce costs and streamline processes

- Examine our departments, programs and administrative unit structures
- Transform OSU Culture

Degrees Conferred at

THE OHIO STATE UNIVERSITY

COMMENCEMENT CONVOCATION

December 12, 2010
December 1, 2010 meeting, Board of Trustees

COMMENCEMENT ADDRESS

David L. Tomasko

David L. Tomasko, professor in the William G. Lowel Department of Chemical and Biomolecular Engineering, is associate dean for undergraduate education and student services in The Ohio State University College of Engineering. As associate dean, he helps oversee the college's curriculum, recruitment, career services, academic advising, scholarships, financial aid, and honors programs. Prior to this appointment, he served from 2006 to 2009 as director of the university's Honors Collegium program and as deputy director of Ohio State's NSF-sponsored Center for Affordable Nanoengineering of Polymeric Biomedical Devices from 2006 to 2009. He joined Ohio State in 1993 after earning his Ph.D. in chemical engineering from the University of Illinois in 1992.

Through the Honors Collegium, he worked to create an environment for some of Ohio State's most exceptional students. He is also active in community outreach through the Ohio Home of Science and Engineering that connects Ohio State students to area schools and teachers. He currently serves as part of the College Faculty Community, whose members are recruited for their reputation as both distinguished researchers and excellent undergraduate student advisors. Highly regarded by both his faculty colleagues and students, Professor Tomasko has earned numerous research and teaching awards, and he holds a patent for polymer nanocomposite forms. His research interests are varied and range from studying the impact of delivery methods in undergraduate engineering education and engineering outreach to K-12 students to promoting the use of environmentally benign solvents in chemical and materials processing. As an outstanding teacher and mentor, he continues to create opportunities for undergraduate students in his research lab. He tirelessly counsels students, especially minority and at-risk students, to help them find their way in the academic community and in engineering.

He has been recognized for his excellence in teaching and education by multiple departmental, college, and university awards including the university’s most prestigious teaching award, the Alumni Award for Distinguished Teaching. As a recipient of that award, Professor Tomasko is part of the Academy of Teaching, which helps promote teaching excellence throughout Ohio State. Other recognitions include the College of Engineering Faculty Diversity Excellence Award, the Exemplary Service Award in the Minority Engineering Program, the Ralph L. Boyer Award for Teaching Innovation, the Lumley Engineering Research Award (three times), the Charles B. MaQuigg Award for Outstanding Teaching (two times), and the Lumley Award for Interdisciplinary Research.
J. Tinsley Oden

October 1, 2010 meeting, Board of Trustees

RECIPIENTS OF HONORS

J. Tinsley Oden

DOCTOR OF ENGINEERING

J. Tinsley Oden is an associate vice president for research and director of the Institute for Computational Engineering (ICEE) at The University of Texas at Austin. He holds the Cockrell Family Regents Chair in Engineering and the Peter O'Donnell Centennial Chair in Computer Systems.

He was founding director of the ICEE, created in 2003 as an expansion of the Texas Institute for Computational and Applied Mathematics, which he also directed for more than a decade. The institute supports broad interdisciplinary research and academic programs in computational engineering and sciences, involving faculty from colleges and 17 academic departments within the university.

After receiving his Ph.D. in engineering mechanics in 1982 from Oklahoma State University, Professor Oden held positions at the University of Alabama and Huntsville before joining the University of Texas at Austin as the Carole and Henry Grappe Professor of Engineering in 1999. He has worked extensively on the mathematical theory and implementation of numerical methods applied to problems in solid and fluid mechanics and nonlinear continuum mechanics. He is the author or editor of more than 360 scientific works, including 53 books, and has graduated 34 M.S. students and 47 Ph.D. students. The Institute for Scientific Information lists him as one of the most highly cited researchers in the world from 1981 to 1999 in refereed, peer-reviewed journals.

He is a member of the U.S. National Academy of Engineering, the National Academies of Engineering of Mexico and Brazil, and the American Academy of Arts and Sciences. He is editor of Computational Methods in Applied Mechanics and Engineering and serves on the editorial boards of 28 scientific journals, as well as numerous organizational, scientific, and advisory committees for international conferences and symposia.

His many honors for his research accomplishments include the title of Chevalier dans l'Ordre des Palmes Académiques from the French government, the Weiric Keller Rohrer Medal, the Karl O. Friedrichs Medal, the John von Neumann Medal, the C. N. Zuckermann Medal, and the C. C. Zinkievich Medal. He is an honorary member of the American Society of Mechanical Engineers and a fellow of seven international scientific/technical societies.

Carl J. Schramm

DOCTOR OF BUSINESS

Carl J. Schramm is recognized internationally as a leading authority on entrepreneurial innovation and economic growth. He is president and CEO of the Kauffman Foundation, an organization dedicated to creating new forms that grow the economy and expand human welfare. The Kauffman Foundation is the leading private U.S. funder of economic research related to growth and innovation.

His insight regarding the role of new high-growth firms in fueling economic expansion has been coined "Schramm's Law." He played a prominent role in the 2008 White House jobs summit and has served on two U.S. Department of Commerce innovation committees during the administrations of both George W. Bush and Barack Obama. He also serves on the Prime Minister of Singapore’s Research, Innovation, and Enterprise Council.

He is credited with opening a new field of economic inquiry—innovation economics—which focuses on rebuilding economies in post-conflict nations.

Before joining the Kauffman Foundation, Dr. Schramm served as a professor of health finance and policy at The Johns Hopkins University, led the nation’s premier health care industry association, founded several companies that manage health-care finance and information technology, served as executive vice president of Firstar, and established his own merchant banking firm.

Dr. Schramm is a prolific writer whose commentary often runs in such publications as The Wall Street Journal and The Financial Times. His two books, Good Capitalism, Bad Capitalism (with Robert E. Litan and William Baumol, now published in nine languages) and The Entrepreneurial Imperative, are considered international classics in their field for their insights into economic growth.

Dr. Schramm is a member of the Council on Foreign Relations and a Rittenmaeer Fellow in the Darden Graduate School of Business at the University of Virginia. He earned degrees in economics and law.
December 1, 2010 meeting, Board of Trustees

RECIPIENTS OF HONORS

John O. Riedl
DISTINGUISHED SERVICE AWARD

John O. Riedl is dean and director emeritus of The Ohio State University at Mansfield, having served in that position from 1990 to his retirement in 2003. After earning his PhD in mathematics from the University of Notre Dame, he joined the Ohio State mathematics faculty in 1946. He was named associate dean of the College of Mathematical and Physical Sciences in 1974 and later served as acting dean for two years. During his tenure in the college, he became a leader in developing and teaching both an honors program in the mathematics as well as courses for teachers of mathematics.

In 1986 he was named special assistant to the provost to investigate issues that were troubling the Mansfield Campus. He drafted a mission statement and pattern of administration for the regional campus and was appointed its dean and director the following year. Under his leadership, the Mansfield Campus achieved a stable budget and completed a successful capital campaign, enabling the creation of new endowed scholarships, a faculty development endowment, a business program, and a new learning center. A new building on the Mansfield campus was named after him in 2006.

As the campus’s top administrator, he led the completion of a campus master plan, established new academic majors, partnered with the MedCentral College of Nursing in establishing a baccalaureate program, and developed an exchange of service agreement with 32 local schools, among numerous other achievements.

Professor Riedl continued teaching throughout his administrative career, concentrating on mathematics for teachers and using technology to enhance calculus teaching. He served on numerous university-wide committees, as coordinating dean for Ohio State’s regional campuses from 1989 to 2003, and as president of the Ohio Association of Regional Campuses from 1992 to 1994.

Following his retirement, he has remained actively involved with The Ohio State University Richland County Alumni Club and with an organization promoting college access, and he continues to teach mathematics at the Mansfield Campus.

William D. Wells
DISTINGUISHED SERVICE AWARD

William D. Wells is president and CEO of Davis & Son, Inc., a Westerville-based company that develops, builds, and maintains family homes and commercial properties. As a member of The Ohio State University Foundation Board and the Ross Heart Hospital Board, and as nephew of Dorothy M. Davis and steward of the Davis family legacy of wide-ranging support for the university, he is a strong and valuable advocate for Ohio State.

Through his work with the Ross Heart Hospital Board, Mr. Wells has been a determined supporter of Ohio State’s Heart and Vascular Center, helping to strengthen heart health research through the Dorothy M. Davis Heart and Lung Research Institute. In addition, he is a longtime supporter of the Shirley Temple Fund for Breast Cancer Research and of Stefanie’s Champions, serving with his wife, Jackie, as the first honorary co-chair of the new 10-year-old cancer patient support event.

A love of athletics, especially baseball, inspired Mr. Wells and the Davis Foundation to play a leading role in building the university’s Bill Davis Stadium, one of the premier collegiate baseball facilities in the nation. Mr. and Mrs. Wells have also endowed two baseball scholarships for Ohio State student athletes and have funded the use of charter airplanes for the baseball program, allowing the athletes more study time and lessening the chance of missed classes. The family’s support extends to the Fisher College of Business, where the Davis Chair in the college’s Center for Entrepreneurship supports university-wide collaboration and involvement among students and faculty.

Mr. Wells’ community service includes membership on the boards of the Capital Area Humane Society, the Franklin Park Conservatory, where he was board president in 2007, and the National Football Foundation College Hall of Fame (Tommie Godfrey Chapter), where he served as board president from 2008 to 2010.
December 1, 2010 meeting, Board of Trustees

The Graduate School
Dean: Patrick S. Osmer

Doctor of Musical Arts
Mary Margaret Smith, Russellville, KY
B.Mus. (Western Kentucky University)
M.Mus. (Indiana University Bloomington)
Music
Dr. James Pyne

Hye-Kyung Yoon, Columbus
B.Mus., M.Mus. (Dankook University)
M.Mus. (Indiana University Bloomington)
Music
Dr. Caroline Hong

Doctor of Philosophy
Steven Guy Avery, Calabasas, CA
B.S. (Harvey Mudd College)
Physics
Dr. Samir Mathur

Caroline A. Baker, Knoxville, TN
B.A., M.S. (University of Tennessee- Knoxville)
Education
Dr. James Moore

Priya Balasubramanian, Chennai, India
B.Tech. (Anna University)
Chemical Engineering
Dr. Jeffrey Chalmers

Mary I. Ball, Ashland
B.A. (Heidelberg College)
Master’s (School for International Training Graduate Institute)
M.A. (Kent State University)
Education
Dr. Charles Hancock

Verona Barnes, Spanish Town, Jamaica
Certificate (Mico University College)
Diploma (Edna Manley College)
Master’s (Maryland Institute College of Art)
Art Education
Dr. Vesta Daniel

Barbara Lynn-Rice Barta, Columbus
M.S.
Education
Dr. Anita Hoy

William George Batchelder IV, Philadelphia, PA
M.A. (University of Saint Andrews)

Shu Su, Columbus
B.S. (Nanjing University)
M.S.; M.Appl.Stats.
Mathematics
Dr. Chiu-Yen Kao

Hongqing Sun, Shijiazhuang, China
B.S., M.S. (Tsinghua University)
M.S.
Materials Science and Engineering
Dr. Katharine Flores

Jianxin Sun, Shijiazhuang, China
B.S. (Nankai University)
M.S.; M.Appl.Stats.
Ohio State Biochemistry Program
Dr. Jeffrey Chalmers

Anastasios Taliotis, Nicosia, Cyprus
M.S.
Physics
Dr. Yuri Kovchegov

Rebecca Tirado-Corbala, Mayaguez, PR
B.S.Agr., M.S.Agr. (University of Puerto Rico)
Soil Science
Dr. Brian Slater

Frank Anthony Torma, Akron
B.A. (University of Akron)
M.A.
English
Dr. Jon Erickson

Michael Vilt, Brunswick
Bachelor’s (University of Toledo)
Chemical Engineering
Dr. W. S. Ho

Fei Wang, Anyang, China
B.Eng., Master’s (Tsinghua University)
Chemical Engineering
Dr. Liang-Shih Fan

Jie Wang, Chengdu, China
Mathematics
Dr. Charles Clemens

331
Ningyu Wang, Hefei, China
B.S. (University of Science and Technology of China)
M.S. Industrial and Systems Engineering
Dr. Stanislav Rokhlin

Ying Wang, Columbus
B.S.Biol.Sci. (Wuhan University)
Plant Cellular and Molecular Biology
Dr. Biao Ding

Timothy F. Weale, Columbus
B.S. (University of Dayton)
M.S. Computer Science and Engineering
Dr. John Fosler-Lussier

Daniel J. Wherritt, Ashland, WI
B.S. (University of Wisconsin-Madison)
Chemistry
Dr. Craig Forsyth

John Winters, Bexley
B.A. (Oberlin College)
M.A. History
Dr. John Guilmartin

Jeffrey Dale Workman, Bellaire
B.S.Agr., M.S. Agricultural and Extension Education
Dr. Scott Scheer

Xueling Xu, Wooster
Bachelor’s, Master’s (China Agricultural University)
Plant Pathology
Dr. Sally Miller

Clarissa Ann Yablinsky, Patton, PA
B.S.Mat.Sci.&Eng. (Carnegie Mellon University)
M.S. Materials Science and Engineering
Dr. Katharine Flores

Ching-Hui Yang, Taiwan, ROC
B.S. (Fu Jen Catholic University)
Molecular Genetics
Dr. Harold Fisk

Hsiao-Ching Yang, Dublin
B.A. (Tamkang University)
M.A. Education
Dr. Steven Miller

Ting-Yuan Yeh, Hsin-Chu, Taiwan, ROC
M.D. (National Yang Ming University)
Master’s (Duke University)
Biophysics
Dr. Mark Angelos

Yuh-Ying Yeh, Taipei, ROC
B.S.Chem. (National Chiao Tung University)
Molecular, Cellular, and Developmental Biology
Dr. Paul Herman

Hyounjin Yi, Incheon, Korea
B.A. (Korea University)
M.A. Economics
Dr. Lucia Dunn

Victor S. Yocco, Cardington
B.S.Ed., M.Ed. Environment and Natural Resources
Dr. Joseph Heilmich

Anna Marie Yocom, Wintersville
B.S. (Baldwin-Wallace College) M.A. Psychology
Dr. Sarah Boysen

Yang Yu, Beijing, China
B.A. (Beijing Language Institute)
M.A. Education
Dr. Keiko Samimy

Hui Zhang, Beijing, China
B.S., M.S. (Zhejiang University) Chemistry
Dr. Sherwin Singer

Yanyan Zhang, Huaian, China
B.S., M.S.Mech.Eng. (Tongji University)
M.S. (University of Houston) Mathematics
Martin Golubitsky

Chen Zhang, Nanjing, China
B.Eng., Master’s (Nanjing University of Aeronautics and Astronautics)
Electrical and Computer Engineering
Dr. Longya Xu

Yiming Zhong, Columbus
B.S. (Wuhan University)
M.S. (Chinese Academy of Sciences)
Molecular, Cellular, and Developmental Biology
Dr. Larry Lasky

Master of Accounting

Colleen M. Hurley, Strongsville
Accounting and Management Information Systems

Jin Li, Chengdu, China
B.Bus.Adm. (Sichuan University)
Accounting and Management Information Systems

Yiling Li, Guangzhou, P.R.C.
Diploma (Foshan University)
B.S. (Northern Illinois University)
Accounting and Management Information Systems

Wei Qu, Hubei, China
B.S. (Wuhan University)
Accounting and Management Information Systems

Wei Wang, Yudu, Ganzhou, China
B.S. (Central China Normal University)
B.S. (Zhongnan University of Economics and Law)
Accounting and Management Information Systems

Lisi Wu, Shenzhen, China
B.A. (Guangdong University of Foreign Studies)
Accounting and Management Information Systems

Ya-Ting Yang, Changhua, Taiwan, ROC
B.A. (National Taiwan University)
Accounting and Management Information Systems

Yan Yang, Chifeng, China
Bachelor’s (Central University of Finance and Economics)
Accounting and Management Information Systems

Xin Ye, Taizhou, China
Bachelor’s (Shanghai Lixin University of Commerce)
Accounting and Management Information Systems
Master of Applied Statistics

Jared Lee Martin, Ephrata, PA
B.S. (Millersville University of Pennsylvania)
Statistics

Chunhui Ren, Beijing, China
B.S. (Beijing Union University) M.S. (Beijing Normal University)
Statistics

Yang Yang, Shanghai, China
Bachelor’s (Shanghai Institute of Foreign Trade) M.A.
Statistics

Master of Architectural Studies

Thomas Robert Cherry, Columbus
B.S.Alf’d.Hlth.Prof. M.S. (Syracuse University)
Architecture

Courtney Elizabeth Coffman, Worthington
B.S.Design
Architecture

Joseph Anthony Ebert, Cincinnati
B.S.Arch.
Architecture

Benjamin Wilke, Columbus
B.A. (Ohio University) M.Arch.
Architecture

Master of Architecture

Arienne Leigh Longstreth, Gahanna
B.A. (Ohio University)
Architecture

Nini Ye, Shanghai, China
B.Arch. (Southeast University)
Architecture

Master of Arts

Ahmad Abdalkareem Aldamen, Columbus
B.A. (Irbid University)
Education

Asif Ali, Columbus
B.S., M.S., M.A. (University of Peshawar)
Economics

Amanda Gilcrist Amter, Blacklick
B.S.Ed. (Otterbein College)
Education

Andrew James Ashby, Seattle, WA
B.S. (University of Washington)
Economics

Mark Aaron Beattie, Gardner, MA
B.Bus.Adm. (Seton Hall University)
Education

Jennifer Marie Blair, Reynoldsburg
B.A. (Ohio Wesleyan University)
Music

Holly Marie Bower, Canal Winchester
B.S.Ed. (Ohio University)
Education

Tai Michelle Brannon, Westerville
B.S.Bus.Adm. (Miami University Oxford)
M.F.A. (Academy of Art College)
Education

Matt Reed Chacksfield, Loveland
B.S. (Georgetown College)
Education

Chin-Yu Chang, Taichung, Taiwan, ROC
Bachelor’s (National Taiwan University)
Education

Yi-lin Chung, Taipei, Taiwan, ROC
B.A. (National Hsinchu Teachers College)
Education

Clint T. Clark, Worthington
B.S. (Wright State University)
Education

Jennifer McGrory Cooper, Center Moriches, NY
B.A. (State University of New York at Albany)
M.A. (State University of New York at Stony Brook)
Education

Nicole Marie Cooper, Saline, MI
B.S. (Eastern Michigan University)
Education

Ashley Kaye Dallacqua, Coshocton
B.A., B.S.Ed. (Otterbein College)
Education

Eliana Veronica Davis, Columbus
B.A. (University of Wisconsin-Madison)
Spanish and Portuguese

Jennie Elizabeth DeMarco, Columbus
B.S.H.E.
Education

Eric Landon Egan, North Scituate, RI
B.A. (Skidmore College)
Psychology

Christopher Michael Elias, Andover, MA
B.A. (Brown University)
M.A. (University of Mississippi)
History

Hannah Elizabeth Ewing, Philadelphia, PA
B.A. (Carleton College)
History

Noel M.V. Foster, Gallup, NM
B.A.
History

David Madrid Gomez-Cambroner, Beavercreek
Bachelor’s (Wright State University)
Spanish and Portuguese

Isai Guizar-Mateos, Columbus
Licenciado (Universidad Autónoma Chapingo) M.S. (Colegio de Postgraduados)
Economics

December 1, 2010 meeting, Board of Trustees

Anand Joseph Bernard Selvaraj, Madurai, Tamil Nadu
B.Eng. (Anna University)
Computer Science and Engineering

Kurtis F Blohm, Wilmington
B.S.Chem.Eng. (Hope College)
Chemical Engineering

Michael David Boehler, Galion
B.S.Aero.&Astro.Eng.
Aeronautical and Astronautical Engineering

Brian C. Boguski, North Olmsted
Mechanical Engineering

John Cory Bowzer, Clinton, IA
B.S. (Central University of Iowa)
Environmental Science

Erin Marie Brannick, Hebron, KY
B.A. (Wittenberg University)
D.V.M.
Veterinary Biosciences

Joseph Michael Bruni, Loveland
B.S.Mech.Eng. (Duke University)
Mechanical Engineering

Jeffrey James Buehner, Columbus
B.S.All’d.Hlth.Prof.
Allied Medical Professions

Melba Judith Cantu, Cincinnati
B.S.Mech.Eng. (University of Detroit Mercy)
Mechanical Engineering

Di Cao, Tianjin, China
B.S. (Nankai University)
Statistics

Shih-Chieh Chao, Taoyuan, Taiwan, ROC
B.S. (Chang Gung University)
Electrical and Computer Engineering

Xi Chen, Columbus
B.S.Mat.Sci.&Eng.
Materials Science and Engineering

Hao-Chun Chien, Columbus
B.Eng. (Chung Cheng Institute of Technology)
Geodetic Science and Surveying

Jung Yun Cho, Seoul, Korea
B.A. (Hankuk University of Foreign Studies)
Human Ecology

John Charles Christensen, Columbus
B.S.
Statistics

Colton James Conroy, Delaware
B.S.Civ.Eng.
Civil Engineering

Lee Chelsea Cordell, Columbus
B.S.
Nursing

Kevin Allen Crawford, Columbus
B.S.
Geological Sciences

George Russell Crosthwaite, Marysville
B.S. Aero.& Astro. Eng.
Aeronautical and Astronautical Engineering

James Allen Datko, Bay Village
B.S.Civ.Eng.
Geological Sciences

Chowdary Venkata Ram Davuluri, Tanuku, India
B.Tech. (Indian Institutes of Information Technology)
Computer Science and Engineering

Alan James Detton, Westerville
B.S. (Brigham Young University)
Anatomy

Kelly Marie Deuerling, Tallahassee, FL
B.S. (University of Florida)
Geological Sciences

Hallee Zox Deutchman, Upper Arlington
B.S. (Miami University Oxford)
Materials Science and Engineering

Rohit Dinakar, Chennai, India
B.Tech. (Anna University)
Computer Science and Engineering

Raymond Patrick Dong, Westerville
Mechanical Engineering

Carla Ann Eckel, Pemberville
B.S.Nurs. (Bowling Green State University)
Nursing

Julien Jacques Finlay, Cincinnati
B.S.Mech.Eng. (Duke University)
Mechanical Engineering

Nicholas Wright Fischer, Cincinnati
B.A., M.C.R.P.
Civil Engineering

John Charles Florio, Kettering
B.S. (Wright State University)
Chemical Physics

Sara Megan Fowler, Columbus
B.S. (University of Nevada-Reno)
D.D.S. (University of Nevada, Las Vegas)
Dentistry

Durrel Lynn Fox, Lititz, PA
B.S. (Millersville University of Pennsylvania)
Statistics

James Clay Francis, Perrin, TX
Agricultural, Environmental and Development Economics

Yuan Gao, Chengdu, Sichuan, China
B.A.Honors (Sichuan University)
Environmental Science; Civil Engineering

Janet A. Gatto, Dublin
B.S.Nurs. (East Carolina University)
M.S. (Independence University- California College for Health Sciences)
Master’s (Loyola University New Orleans)
Nursing
December 1, 2010 meeting, Board of Trustees

Arijit Ghosh, Kolkata, India
B.S., M.S. (Jadavpur University) Chemistry

Cecilia S. Go, Jakarta, Indonesia
B.S. Biochemistry

Janette Goodman, Cleveland
B.S. Env.&Nat.Res. Soil Science

Elijah Katunich Gould, Grandview Heights
B.S.Weld.Eng. Welding Engineering

Ryan David Griffin, Centerville
B.S.Elec.&Cptr.Eng. Electrical and Computer Engineering

Boxuan Gu, Nanjing, China
Bachelor’s, Mech.Engr. (Southeast University) M.S. (University of Kentucky) Computer Science and Engineering

Adem Gokhan Hayal, Trabzon, Turkey
B.S. (Istanbul Technical University) Electrical and Computer Engineering

Kyle W. Hayhurst, Magnolia
B.S.Elec.&Cptr.Eng. Electrical and Computer Engineering

Matthew Paul Hodak, Perrysburg
B.S. (Miami University Oxford) Mechanical Engineering

Nathan Lee Holdeman, Columbus
B.A. (Wittenberg University) Allied Medical Professions

Janice Chia Yin Hung, Honolulu, HI
B.S.Elec.Eng. (Purdue University) Mechanical Engineering

Andrew William Hurst, Columbus
B.Civ.Eng. (University of Dayton) M.C.R.P. Civil Engineering

Mehmet Emin Inan, Sakarya, Turkey
B.S. (Istanbul Technical University) Electrical and Computer Engineering

Abdulmumin Zikanene Isu, Columbus
B.S. Food Science and Technology

Shuo Jin, Luoyang, China
B.S.Biol.Sci. (Henan Normal University) M.S. (Capital Normal University) Molecular, Cellular, and Developmental Biology

Katherine Clinton Kannen, Bowling Green
B.S. Agricultural, Environmental and Development Economics

Neelima Karanam, Hyderabad, India
B.Tech. (Jawaharlal Nehru Technological University) Computer Science and Engineering

Brian Alexander Kennedy, Memphis, TN
Bachelor’s (University of Memphis) Computer Science and Engineering

Rubab Khan, Dhaka, Bangladesh
B.A. (Columbia University-Columbia College) Astronomy

Michelle Yum Kincaid, Ellicott City, MD
B.A. (Johns Hopkins University) M.D. (University of Maryland, Baltimore) Medical Science

Bryan Todd Kinter, Smicksburg, PA
B.S.Honors (Case Western Reserve University) Evolution, Ecology, and Organismal Biology

Kyle J. Kramer, Richmond, IN
Bachelor’s, D.D.S. (Indiana University Bloomington) Dentistry

Matthew A. Kremer, St. Henry
B.S.Mech.Eng. Mechanical Engineering

Alissa Brynn Kriss, Wooster
B.S. (Indiana State University) Plant Pathology

Maureen P. Kuhrt, Columbus
B.A. (Cornell University) M.D. (University of Connecticut) Medical Science

Pradeep Kumar, Panipat, India
B.Tech. (Indian Institute of Technology Kanpur) Aeronautical and Astronautical Engineering

John Robert Lewis, Reynoldsburg
B.A., M.S. (Miami University Oxford) Statistics

Yi-Hsuan Lin, Taiwan, ROC
B.Bus.Adm. (National Chengchi University) B.S. (Taipei Medical College) Food Science and Technology

Dilip Christopher Louis, Columbus
B.Appl.Sci. (University of Windsor) Mechanical Engineering

Mark Allen McElroy, Munroe Falls
B.S.Mech.Eng. Mechanical Engineering

Stephanie Anne Metzger, Akron
B.S.Agr. Animal Sciences

Andrew Daniel Monahan, Dayton
B.S. (University of Cincinnati) Aeronautical and Astronautical Engineering

Ambikapathy Naganathan, Ramanathapuram, India
B.Eng. (Anna University) Mechanical Engineering

The Board of Trustees met Friday, February 11, 2011, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

**  **  **  **

Minutes of the last meeting were approved.

**  **  **  **
February 11, 2011 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Wednesday, February 9, 2011, at 5:13 pm.

Mr. Wexner:

Before we take the roll call to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 8:00 am, at this same location.

I hereby move that the Board recess into Executive Session to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. O’Dell, seconded by Judge Marbley, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, Borror, Shumate, Fisher, Schottenstein, Brass, Marley, Kass, Jurgensen, Reid and Wadsworth.

-0-

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, February 10, 2011, at 8:05 am.

Mr. Wexner:

Good morning. I would like to reconvene the meeting of the Board of Trustees. The full Board will reconvene tomorrow morning at 10:00 am at Longaberger Alumni House.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding appointments and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mrs. Kass, seconded by Mr. Schottenstein, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marley, Kass, Jurgensen, Reid, Wadsworth and Kellogg.

-0-

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, February 11, 2011, at 10:05 am.

Mr. Wexner:

Good morning. I would like to reconvene the meeting of the Board of Trustees.

Where is my friend Brandon. You are up Brandon.

***

STUDENT RECOGNITION AWARDS

Mr. Mitchell:

Mr. Chairman we have two outstanding students for our Student Recognition Awards today. The first is Danielle Gadomski, she is a colleague of mine at the Moritz College of Law. Danielle is a third-year law student and she attended Westland High School in Galloway, Ohio where she was the valedictorian of her class. Danielle went on to attend Denison University where she graduated summa cum laude with a degree in communications and minors in political science and history.

After graduating from Denison, Danielle received the Frank and Carol Ray Scholarship to attend the Moritz College of Law. This scholarship is designated for someone who intends to start their career in public service. Since arriving on the Ohio State campus Danielle has remained on the same path of excellence. Academically, she is ranked seventh in a class of 245. She is a managing editor on the Ohio State Law Journal. She has been hired by two faculty members as their research assistant.

While accomplishing several academic achievements, Danielle has also engaged in a high level of public service and leadership. Within the law school, she served as President of Advocates for Children; as Defense Counsel for the College’s Honor Counsel; she is a Managing Editor for the Pro Bono Research group; and a member of the Public Interest Law Foundation and the Women’s Society. Outside of the college, she has worked for the Kirwan Institute for the Study of Race and Ethnicity assisting school districts with integration plans, worked as a law clerk for the Legal Aid Societies of Columbus and Cincinnati and volunteered for the Westside Free Store Ministries.

After graduation Danielle plans to work in juvenile defense, do guardian ad litem work with kids in foster care or special education advocacy.

We also have Joseph Esch who is in the College of Veterinary Medicine. Joseph received his baccalaureate degree from the University of Illinois with a major in animal science. He is currently a third-year veterinary medical student.

In addition to his outstanding academic record Joe has been quite active in student organizations having served as the Junior Delegate representing the OSU Student Chapter of the American Veterinary Medical Association at the national level. From this role he represented the College of Veterinary Medicine at the annual symposia and has moved into an influential leadership position as president of the national Student Chapter of the American Veterinary Medical Association organization. He has been sought out by the parent organization, the American Veterinary Medical Association (AVMA), to provide input from a student perspective in their bi-monthly journal, The Journal of the American Veterinary Medical Association. He is also a member of the Veterinary Business Management Association, Theriogenology Club, and the veterinary fraternity Omega Tau Sigma (OTS).

He has been the recipient of the prestigious national American Kennel Club Student Award for two years in a row for his interest and work with purebred collies. He has also been the recipient of The Selma and Edward Levy Endowed Scholarship Fund,
February 11, 2011 meeting, Board of Trustees

Harry E. Goldstein Scholarship, and the A. Hartman scholarship. He has been an active participant in college admissions and open house serving as a student ambassador and doing an outstanding job at informing the public and recruiting new talent to the profession.

Joseph currently works at Banfield, the Pet Hospital, as a pet nurse. He is also a student ambassador for the American Kennel Club and travels nationwide giving lectures to other veterinary students.

Joseph’s plans after graduation are to become an associate veterinarian at a progressive small animal veterinary hospital where he can practice high quality medicine and hopes to eventually own a veterinary hospital. He plans on being involved in his local veterinary medical association as well as the American Veterinary Medical Association through volunteer positions, encouraging veterinary students to pursue their careers in shaping the future of veterinary medicine.

Ms. Gadomski:

Hello, I am Danielle Gadomski, and I want to thank you all so much for this award. I have to hope that my best work is still to come, but I truly appreciate this recognition because it demonstrates OSU’s commitment to public service.

I first noticed this commitment to public service about three years ago when I was home sick from work with what must have been a pretty bad fever, because I answered the phone, it woke me up, and someone on the other side of the phone said that Frank and Carol Ray wanted to offer me a full tuition scholarship to OSU because of my commitment to public service. I listened to what they had to say and I promptly said okay and went back to sleep. I must have sounded extremely ungrateful at the time, and it was not until later that I even remembered the phone call had happened. I was sitting at dinner and I said to my roommate, I think someone called and offered to pay for my law school today. She kind of took a look at me in my disheveled state and said, why. She thought I had been dreaming, and I thought I had been dreaming for a while too until I came to OSU and I found out that there is a real commitment to public service here and that OSU values and invests in students who are committed to serving their community. Frank and Carol Ray are just a wonderful example of that. They have not only given me a wonderful gift to pursue my passions, but they have also been an active part of my law school career and encouraged me to continue serving the community.

I have also had several professors, Katherine Federle and Art Greenbaum, who have been the best mentors and cheerleaders that I could have asked for. Really I need to thank my parents, Michael and Kathleen Gadomski, who are here with me today. They first taught me what the value of family and stability and constant love can mean to the development of a child. Their generous spirit and dedication to serving others has really inspired me to advocate for all children to have the opportunities that my family gave me, and I would not be where I am without them.

Thank you again, all of you, for your commitment to OSU and for OSU’s commitment to public service. I hope that my work can be a part of that legacy and that I will always represent OSU well.

Mr. Esch:

Good morning Board of Trustees, it is an honor to be here today. First I want to thank my fiancée and my family for their continued support and also the College of Veterinary Medicine. I really appreciate the support given to me by Dean King and the rest of the administration from the college, including Dean Sander, Dr. Harkey, and Melissa Webber, who are here today. I also want to thank Dr. Burkhard, who is my faculty advisor, for her continued support of all my endeavors both with AVMA.
February 11, 2011 meeting, Board of Trustees

and SAPPA. The continued support you have all given to the College of Veterinary Medicine has allowed students like me to continue to grow and move forward in our endeavors.

As I look forward to the future of not only veterinary medicine here at The Ohio State University, but veterinary medicine across the country, I know that we are truly a preeminent institution. Your continued support has allowed that to happen and has allowed us to truly have a one of a kind University. Thank you very much for your support.

***

PRESIDENT’S REPORT

President Gee:

Ladies and gentlemen, thank you. First of all, Danielle and Joseph, thank you very much for being with us. I must say Brandon that the students that we see are just extraordinary. Each time that Alex and you bring these students forward it is really quite a treat for us. And, to hear them articulate their own values and the values that have made their lives as well as the value they bring the University, I deeply appreciate that.

In that regard, as I begin my report today I want to mention the news out of our Newark campus which involves, of course, our students. As you know we did have a fire there and thankfully no one was harmed, but we do appreciate the great work of the folks there and the great work of the people here in Columbus to make certain that all of those matters are being attended to. This again is our One University strategy, taking care of our own and making certain that it is taking place. I am grateful for the quick and generous responses of all of the members of our University community and the community at Newark which was very helpful also.

It has been a while since we have all been together. Since my last report the November elections occurred, and as we know brought an electoral sea change, as well as new opportunities, in my view, for Ohio State.

Two days after Governor Kasich’s inauguration I traveled with him and Mark Kvamme, who is his new director of JobsOhio, and others to Detroit. Together we met with leaders in the auto industry and made our case for investment in Ohio. As you remember, Ohio is the largest producer of cars in this country. We sometimes forget that. I was honored to do so and I just want to be very clear on the record that I stand ready to continue to partner with the governor and his team in moving Ohio forward.

I have also taken the show on the road. I believe this University is the front door through which Ohio will lead the world economically, educationally, socially, and in so many other ways. Last week I returned from making the case for the state of Ohio, and Ohio State, in several parts of China, and in Jeddah, Saudi Arabia. In Jeddah, I met with leaders of the King Abdul-Aziz University. I serve on its international advisory board, along with the chairman of Nissan, the vice chairman of Hitachi, a number of business leaders worldwide and the presidents of the universities of Helsinki, Copenhagen, Tokyo and Vienna, among others.

I was asked to be the American representative on this institutional board. The King Abdul-Aziz University is the largest and most distinguished university in that country. It was a fascinating experience and also allows me to strengthen ties with students, parents and alumni there.
February 11, 2011 meeting, Board of Trustees

In China, Dr. Sorensen, Dr. Brustein, and I met with hundreds of alumni, university leaders, high school students and their parents, business leaders and government officials. I love to tell the stories about the fact that you go into a ballroom in Shanghai and as easily as in Toledo or in Cleveland or in any of the places that support us; it is indeed a Buckeye world because of the kind of enthusiasm there. The first question I was asked by the way is whether or not we are going to beat Michigan next year. It happens everywhere.

They gave us a warm welcome and they did so not just because they are kind, but because they are fully aware of our University and the enormous reach and impact we have in all parts of the world, certainly these are our partners.

Building on that base we made fast progress on forging new academic and business partnerships, and while I operate on the general rule of “What happens in Wuhan, stays in Wuhan,” I will tell you that at the formal dinners in our honor, Dr. Brustein and Dr. Sorensen ate more than their share. They ate my share also, for which I am very grateful, but they behaved as if they had not seen food for a week. But truly we were all grateful recipients of exceptional hospitality. Everywhere we went we met with people eager to partner.

One related item regarding China will come before the Board on our consent agenda today. Having established the University’s China Gateway office last summer, we seek now to extend its capabilities by making it a Wholly Foreign Owned Enterprise. This is what you are going to hear today. Doing so, in that country, provides us now the legal framework to offer revenue generating programs in such areas as executive education, food safety and supply chain management - areas of which we are truly distinguished and with which they want to have our partnership. The country’s needs and our own expertise are now coming together. So even as we have been reaching out to the world we also have been very busy bringing leaders to campus. In November the Fisher College of Business was host to a remarkable panel including the Federal Reserve Chairman, Ben Bernanke, the chairman of IBM, and Ford, and Ohio state alumni Curtis Moody and Jeni Britton Bauer. It was a remarkable gathering by the way. The students were there, they were dressed, and their message by the way was a simple one. In our innovation economy, higher education and creativity are paramount. When asked at the end of the session about advice for graduating students, Jeni, who is the creator of Jeni’s Splendid Ice Cream recalled the advice her grandmother gave to her, and it is this, “if you cannot find a job, make a job.” I love that concept, and Jeni clearly has done that.

I do want to note a couple of leadership changes. Professor Steve Gavazzi from our Department of Human Development and Family Science has been appointed the new dean and director of the University’s Mansfield campus. Dr. Gavazzi, who has been with Ohio State since 1991, is an expert in how families influence the well-being of children and adolescents. His clinical work as a therapist has no doubt been helpful to him in navigating the higher education landscape. Mansfield is welcoming him with open arms, they are going to have a reception for him I think next Wednesday and I look forward to attending that campus honor and welcoming him.

Another transition of note is that of Larry Lewellen. I think we all know that Larry is a superb member of our University family and after incredible services as the University’s vice president for Human Resources, Larry is joining the Medical Center as vice president of Care Coordination and Health Promotion. In that capacity by the way he will continue to manage Ohio State’s health plan which he has done very effectively. He will also expand his work with our highly successful wellness program and focus on issues of quality care and cost-reduction. Larry begins that new position on March 1st and so we are now seeking to fill very big shoes. Larry has not only been a great partner but a great friend of mine, and I deeply appreciate his work.
February 11, 2011 meeting, Board of Trustees

On an entirely different note, before I close, I just have to mention this, our extraordinarily wonderful and top-ranked men's basketball team, they have played at such a high level and as you know they are simply a joy to watch. They are a team in the fullest sense of the word and I will not underscore that. I think one of the reasons that they are very successful, they have tremendous talent, but they operate as a team and so they really combine in powerful mass. To Thad Matta, a great coach and his student athletes, congratulations and thank you and please beat Wisconsin tomorrow. If you don't, I scratch off what I just said. We are with you all the way until you lose. No, we are not going to say that.

Finally I want to end my report with an email I received from a young alumnus named Abhishek Varma. He is working on his MBA at the University of Dayton but his heart still belongs to Ohio State. I received this wonderful email and Abhishek writes: “As a passionate Buckeye, I am working on taglines for a class and I came up with one that I thought I would pass along to you.” His tagline is this: “Talent does grow on trees: they are called Buckeyes.” That is great.

So add Abhishek and some 505,000 other alumni around the world engaged and thinking on our behalf, and we present a real force of nature. That Mr. Chairman is my report.

***

COMMITTEE REPORTS

Mr. Wexner:

Thank you very much.

Clearly the Board has been working hard and I think I am speaking for the Board. I think we are just getting better and better and continue to have the opportunity as a whole University to get better. That is about all one can ask for. I appreciate the leadership of the administration and the leadership of the Board. The work largely gets done in the committees of the Board and everyone should know how hard working they are and thoughtful in their work.

Let me begin the Committee reports by asking Alan Brass to report from Medical Affairs.

Mr. Brass:

Thank you, Mr. Chairman. Is Dr. Gabbe here?

Steve, come on up to the microphone, would you? I am going to ask Dr. Gabbe to just highlight a couple very important good news items that we heard yesterday in Medical Affairs. Steve, if you would cover the diabetic issue, I think that is a breakthrough one.

Dr. Gabbe:

Thank you for the opportunity; I appreciate this, to give you some exciting news. As Mr. Brass pointed out there was coverage in the press in the past week or so about Ohio State’s first islet transplant. This has been nearly a decade long process of study, research, clinical trials until this islet transplant was done. These are the islets that are isolated from the pancreas of a donor. It takes about nine hours to do that and then they are placed in the liver, through an intravenous catheter in the liver of an individual with type one diabetes, in this case it was a young woman who is one of our employees at Ohio State. These are done in very complicated cases of diabetes and this is a cure for diabetes - understanding that the patient does need to
February 11, 2011 meeting, Board of Trustees

take immune suppression medications. The patient is doing very well and we are following her closely. Kwame Osei, who heads our diabetes group, Amer Rajab, who leads the transplantation program in this area deserve great credit. This is a cure for diabetes, but as I say, it is limited to the most complicated cases. I received many, many, emails from parents of children with diabetes, one of whom has a son who is a student athlete here at Ohio State telling us how much this inspires them to know that Ohio State is now among a group of less than a dozen institutions that are able to do this work, and how this creates new opportunities for patients with diabetes. Of course having lived with type-one diabetes myself for over 40 years, this to me is just a miracle. So we should all be very proud of the good work that has been done and we look forward to expanding this program.

You may have seen the announcement of the Best Doctors in Columbus. This is a national peer reviewed database and so this was published recently and they described the best doctors in Columbus. There were about 560 of them, 87% are at The Ohio State University Medical Center. I doubt there is another metro area in the country that can say 90% of the best doctors in our community are at one medical center, and in this case they are at the OSU Medical Center. It is pretty remarkable. We were recently joined by Peter Mohler who is now directing our Davis Heart and Lung Research Institute. President Gee might remember he was a faculty member with us at Vanderbilt and he is one of the country’s leading investigators in translational research in heart disease, so we are really thrilled that he has come to join us.

We received news this past week that our emergency department was ranked fourth in the country by the University Hospitals Consortium in how effectively and efficiently it manages its patients in terms of when they arrive, how quickly they are seen, how quickly they are treated, and how quickly they are either discharged or admitted to the hospital. So great credit there to Mark Moseley, Doug Rund, and Tammy Moore, who is the head nurse in the E.D.

In closing, I wanted to update the Board on our search for the next dean of the College of Medicine. Provost Alutto and I are leading that effort. The search firm working with the search committee, chaired by Dr. Brueggemeier from the College of Pharmacy, identified over 50 candidates, they have narrowed that list to ten. Those individuals are being interviewed and three or four will be invited to campus within the next few weeks, and we hope to have the new dean of the College of Medicine named by July 1. So I appreciate the opportunity, and again thank you, Mr. Brass, for your leadership with the Medical Affairs Committee.

Mr. Brass:

Thank you, Dr. Gabbe, very much. Yesterday at the Medical Affairs Committee we had a robust agenda. Every once in a while you have to step back and think through what is happening, and at our Medical Center, we in fact have some very large items all coming together at about the same time which will begin to transform the Medical Center for the next decade or two. The first one I want to mention to you, it is a very large project, it is taking us from a manual system to a fully electronic system throughout everything we do: physicians, outpatients, inpatients, ambulatory, admitting, registration, and so on. The switch gets thrown in October, it is a huge switch, to be honest with you, it makes me a little nervous, but we are running parallel paths in everything else we are doing, checks after checks after checks, but we will be one of the few academic medical centers that will be fully electronic. The medical records, the pharmacy, the barcoding, everything there will go electronic. So, we will keep you posted on that. The staff has been working hard on that. There are 119 locations that will be impacted by this in October and we will bring up online a full patient portal where any patient that enters our system can get into our system, ask questions as it relates to their problem, whatever that may be, and get information back out, and get information as it relates to their own record. I think this
February 11, 2011 meeting, Board of Trustees

is a big deal. It is a real big deal, and we had a full presentation yesterday and I am happy to tell you that it is looking very good.

The next item we did was the medical center expansion scorecard and the bottom line on this is on time, on budget. The operating margin is 6.4%, up from 5.3%. The days cash on hand dropped four days to 56 days. It is supposed to be at 60 days, and the reason for that was we did not get the payment as it relates from the state until a couple of days after we closed the books, so we are right back up on days cash on hand where we are supposed to be. I have said before, this is something we watch very carefully because in order for us to make sure our medical center is in good financial state, we want to get that up to 100 days, so we are working hard and diligently at that.

The next item we talked about was the Medical Center Expansion Project, formally ProjectONE. We are now referring to it as the Medical Center Expansion Project. I am happy to tell you that as you know it is a $1 billion project. We have released $571 million to date, we have spent $407 million through committed contracts to date, and we have $164 million available at this point for additional contracts. Item number 22 is on the consent agenda, but we have decided to table it until the next meeting, and the reason is that we are going to fine-tune how much more cash we need to add to that so that in fact at the next Board meeting we will bring back a resolution for approval of monies for the next six months. I anticipate that to be about another $160 million. We have $40 million of circuit breakers. It is important for the Board to know that. We have not had to activate any of them. I am happy to tell you our contingency has grown from $80 million to now $90 million, and we have not had to touch that. I think the project is in good stead right now.

The next item is very, very exciting and that is Ohio State has received the largest grant in its history, it's a $100 million grant to expand our cancer center program. It was awarded to one academic center in this country that happens to be The Ohio State University. Dr. Schuller headed up our team of 40 individuals to get this award to us. At the next Board meeting, Mr. Chairman, we will be bringing forward a recommendation to move forward with that project. I will be working very closely with my colleague, Ron, on facilities as it relates to the placement of another building. We will make this part of the Medical Center Expansion project which will take the project from $1 billion to $1.1 billion, and we will make sure that in fact we have the details worked out so that we can approve that at the appropriate point. This grant, just so you know, we are up against the best cancer centers in the country. It is now coming to our location here. So Dr. Gabbe, I do not know if Dave Schuller is with us, he was with us all day yesterday, but please extend to Dave Schuller and the other forwarding colleagues, our congratulations. I also want to recognize Jeff. What we did with this grant is we sent it over to Battelle for a peer review and to pull it apart and help us put it back together just to make sure that we had it structured correctly, and they were very helpful to us as a partner. So, Jeff, would you extend our thanks to your colleagues. Jeff, you were very much a part of our success.

The next item presented was the Medical Center Development Strategic plan. We finally have one that is going forward. As part of the major university plan, that I am sure Dr. Cloyd is going to talk about, we anticipate being between 30% and 40% of that entire plan as part of the fund development program. Very specifically, we have challenges related to raising money for the Medical Center Expansion Project of $75 million, $56 million which in fact is to be raised by the end of this calendar year. We stand at $34 million today; we have $22 million to go. We have $12 million of assets out on the streets, so we have our hands full to bring that $22 million home by the end of this calendar year. The plan has been approved. Abigail Wexner, Jay Gerlach, and Cheryl Kreuger were sort of an outside advisory team as we develop this plan along with a lot of internal people, so I think we finally have a plan that lines up with our strategic plan at the Medical Center, it’s aligned with the campaign at the University and I think we are off and running.
The next item, I mentioned this once before. This is called the entire Physician Integration Program where we will very soon be approving, at the next meeting, bringing the faculty of our Medical Center into Health Services of our University so the Faculty Practice Plan will be formed legally, it will be under the health services under Dr. Gabbe, and the beauty of this is with integration. We will now have all of our physicians, we will have all our hospitals and we have our medical school all under the same umbrella as it relates to programming, research, education and allocation of resources. This will be a big deal especially as it relates to the quality of care that we are going to be doing, our ability to recruit and retain and our ability to seek additional research funding. There are 680 physicians that will in fact begin to move July 1. January 1 all new physicians are signing contracts under this new protocol. So the process is started already, 680 physicians will start July 1, and I think we should anticipate that it is probably going to take a little time to get all of those worked out. These are big decisions for our faculty to move from their existing structure to this new structure. Dr. Chris Ellison has done a yeoman job bringing this together, including working with our friends in benefits, our friends at the state as it relates to the retirement program that they are currently under, and the structure of the contracts that are in fact suitable to faculty and suitable to our University. At the next meeting we anticipate a third resolution, Mr. Chairman, which will accomplish this task.

The two items that are on the consent agenda today, as consent agenda number three and consent agenda item number four. Number three is additional fine-tuning of our Bylaws. We are working through each of our hospitals to make sure our Bylaws are consistent. Remember we put up a new medical center just about a year and half ago, and now we are going back through making sure our terminology is correct and our officers and titles and all of those processes are correct. This Bylaw also puts an expedited credential and capability in play, so in between meetings of the Medical Center, if we need to bring additional staff on there is a process to expedite the credentialing process.

Consent agenda item number four is ratification of appointments for our chairs of our respective hospitals that are ready to be brought forward to our Board for approval.

Mr. Chair, unless there are some questions, that completes nine agenda items from the Medical Affairs Committee.

President Gee:

Could I just comment on one thing, because I just whispered to our chair that the integration of our physician practice plans, we cannot underscore how critical this is to the fast-forward movement of the University and its Medical Center. This has been something that has been 40 years in the making; in fact one of my predecessors lost his job over suggesting this. We had these conversations 20 years ago. Much has changed, but I really think that what has really happened is that there is extreme confidence in the leadership of the Medical Center and in Dr. Ellison's ability to be able to make this happen. It is a matter of making that leap as a matter of trust, and I just want to acknowledge Steve and Chris. I don't know if Chris is here or not, but clearly Dr. Ellison has done a magnificent job, but I think Dr. Gabbe really deserves a great deal of credit on this. In the end, this is so critical to our ability to integrate this magnificent University into one institution. I really cannot underscore that enough, so I am very proud of this moment.

Mr. Brass:

I could not concur more, Mr. President, and I would just say to you, under Dr. Gabbe's leadership, when it works it works, and it is working. It is just working.
February 11, 2011 meeting, Board of Trustees

Mr. Wexner:

Any other questions or comments? Could I ask everyone just to stand up for a second? Take your right hand and your left hand and put them together.

Thank you. It is kind of symbolic, but I think it is important for the whole university family, clearly the Trustees, me, and Gordon, to really celebrate excellence and progress. The notion of a 40-year achievement in the practice plan, the surgery that was done, and a winner takes all competition by the Medical Center for $100 million. We probably would have been elated years ago if we said we were entering the competition, and we came in fourth or third, but we have M.D. Anderson, Massachusetts General and Cleveland Clinic, great researchers, great students, great faculty, 90% of the best doctors in central Ohio at the University. It is really worth a standing ovation, probably for a longer duration, and I think also it sets a marker of what is excellence and what is possible in all parts of the University. This is a stunning success and a superb example of how better we can be in every single aspect of the University. Obviously basketball and football and all sports set a marker that we do not like to be number three or number two, and in the Medical Center I think it is an appropriate recognition and an appropriate challenge to all parts of the University of what is possible when you have dreams and you work your dreams. Steve, congratulations to you, Gordon, and everyone in the Medical Center; really well done!

You are sitting there modestly; do you want to say something? I do not want to put you on the spot.

Dr. Gabbe:

It is such a privilege to be here at this time with the leadership we have at the University, with our One University motto to take advantage of these opportunities and we take these responsibilities very seriously. We hope to continue on this trajectory and bring you continued good news.

Mr. Wexner:

I thought we were just skating past something that was so historic, and you really have to pause and say, what happened. And the report was about nine championships and three super bowls all announced in one thing. It is just stunning, really stunning. A long time in the making, and hopefully begets success, I mean you have momentum which is a wonderful thing.

Bob, do you have an equally stimulating Audit and Compliance report.

Mr. Schottenstein:

Thank you for that introduction. If I could, I would.

I just want to echo what you said. Some of my report, both in regard to the Audit Committee meeting and also the Finance Committee meeting, we considered matters relating to the Medical Center and I will address those when they come up but really phenomenal progress and end results.

As far as the Audit and Compliance Committee goes we met yesterday. We dealt with three items; two of them appear on the consent agenda. The first of which was the acceptance of the Deloitte and Touche audit report for the fiscal year ending June 30, 2010. I am happy to report we received a clean report. We did have discussion about a number of items on the report and there was comment and reaction as appropriate by Mr. Chatas. I will note for the benefit of the members of the Board that this marks the end of Deloitte and Touche’s contract. I believe it was
February 11, 2011 meeting, Board of Trustees

a five year contract that they had with the University. By law, that needs to be re-bid and re-upped every so often, I think it is every five years. We are in the process of working to secure new independent accountants at this time and by the next meeting I suspect that will be in place. I think I would be remiss if I did not acknowledge the very strong professional work provided by Deloitte at least as long as I have been involved with the Audit Committee. We did receive a clean report as I said, and that will be on the consent agenda.

In addition, also on the consent agenda, we approved the formation of a new entity as part of the China Gateway project that President Gee referred to during his remarks earlier. The formation of this entity and the work that it will do has been previously approved and endorsed by the Academic Affairs and Student Life Committee. It came before the Audit Committee for two reasons. One to technically approve the formation of the entity and also because, as I think everyone here knows, the Audit and Compliance Committee oversees the work of all affiliates and this will become a new affiliate. So the approval of this entity will be on the consent agenda.

Finally, because there will be a new affiliate form in connection with the Physicians Practice Group, that Mr. Brass was discussing just moments ago, since that affiliate will be created in the next coming weeks, and that will be coming before the Board at the next meeting. We received an update from Dr. Ellison and Dr. Gabbe concerning the reasons for the creation of the entity, the benefits to be derived, which Mr. Brass just discussed, and how it will operate within the structure of the health system.

That concludes my report.

Mr. Wexner:

Any comments or questions? Thank you. Gil, Advancement.

Dr. Cloyd:

Thank you, Mr. Chairman. The Advancement Committee met yesterday. We had three agenda items, two of which are on the consent agenda. We also introduced another new non-trustee member to the Committee. Mr. Phil Duncan, who is the Global Design Officer of Procter and Gamble has agreed to come on the Committee and attended his first Committee meeting yesterday. He obviously will bring a wealth of personal and extended capability to help us as we move forward with the advancement model here at the University.

The advancement team, the team that has been working across the groups that comprise our advancement model, had previously shared with the Committee the goals for their work that were accepted in the financial and the engagement area and at this meeting they reviewed their proposed goals for awareness. The goals that they proposed are really based upon a fairly broad spectrum of research that they have conducted both with a number of external and internal groups, and are really designed to create a stronger awareness of Ohio State with key advocates. So we really think in terms of creating the right awareness, then getting it to the right level of engagement, and that will translate then to better philanthropic private support return for the University. So I think the team has done a nice job of tying this together.

The first thing that they propose in terms of the creation of awareness is to expand the number of national leaders who award high marks to Ohio State. You can think of these people as prominent business leaders, people that are in the media, so as we think around the country who are people that are real thought leaders and can provide an understanding of what Ohio State is. The goal that they have selected, and these are to be achieved by 2016, are to move from today where 39% of these
key national leaders are aware of Ohio State to 50% and even maybe more importantly for those that give us a very favorable rating move from 24% today to 40% in that point in time.

The second goal area is really to triple the number of advocates and ambassadors that we have who are really equipped and motivated to reinforce the key accomplishments of the University. Today, and this is largely looking at our alumni now, and if we look at it today, we have about 10% who feel that they are really properly equipped and motivated to be able to advocate for the University, and we want to more than triple that to 35%.

The final awareness goal deals with Ohioans who are obviously a very important stakeholder group to this University, and we want to double the number of Ohioans who feel a strong connection to the University. We are at 22% today in our surveys, who feel they have a strong bond, and we want to take that to 44%.

So we had some good discussion on the goals. The Committee agreed with these goals that have been set forth, and we agreed with them with the understanding that as we did with the engagement goals that these are new areas for us. We strongly agree in principle that we are focusing on the right thing. The research and activities are going to continue, and as we get more learning we may want to tweak and modify these goals somewhat, but we felt very, very good on what the team proposed.

Dr. Sorensen presented our Development Report, and it was approved by the Committee and is on the consent agenda. We are really making very good progress this year and there are two things I want to highlight. Before Dr. Sorensen arrived on the scene we had established a goal of new fundraising we wanted to have this year of $325 million, which is much, much higher than we had last year, which was probably very appropriate with someone of his stature and capability. I am happy to report that through the first half of the year we have brought in $149 million, so we are at 49% of the goal, with half the time gone, and I think that is really very good, and importantly this is 20% ahead of where we were a year ago. Really some, I think, great progress in what continues to be a really difficult economic environment externally.

The other item that I want to highlight in the development report relates to Students First, Students Now. Through the end of the year we have raised $96 million of the $100 million goal that was set for Students First, Students Now, and that has us at 96% of the goal and only 80% of the time. So let me say more to come, and we expect continued good news there.

I would also just step back and let the Board know kind of where we stand in the overall planning that we have had around the campaign and what to expect. Recall we stepped back some time ago to really prepare ourselves for what we wanted to have in the future, to really increase annual total private support coming to the University. At that time President Gee helped shape a new kind of paradigm for us when he said; you know we cannot think in terms of campaigns anymore, this is a journey. So with that more expansive thought we went out and did some benchmarking. We wanted to look at the best of the best in the publics, not only to see where we rank and what they receive versus what we receive but also to gain learning, and I want to compliment Dr. Sorensen and his organization. I think they have done a wonderful job in that regard, so it was really worth the step-back. So certainly we will come forward with a development campaign goal in 2016, but more importantly we want to set ourselves on a track to where in the next ten years we can really become the top public university in total annual private support, which we think is very important to the mission of this University, and we are in the final stages of tweaking all of our strategies on that. I am getting a little ahead of perhaps where some people would be, but I am very confident that we are going to wind up with a
strategy that we feel is stretching but fully sufficient, stretching but robust. I expect that by the April session we will be able to talk in more detail about our plans going forward, but I just want the Board to know, first of all I really compliment Dr. Sorensen and the people in the development organization for the fine work they have done. I think moving toward the more stretching vision of where we ultimately want to-be, to be the top public, is going to allow us to proceed in a more aggressive fashion, and is something that is doable that I think is going to really benefit this University.

I just want to highlight in that regard, and the final comment on the development aspect, I really appreciated the role modeling that this entire Board has been doing in terms of the guidelines that they have adopted, the way the Board is stepping up in a very different manner that was done in the past to help philanthropically both in terms of personal giving, but also in terms of giving, and as we talk this week, I have appreciated that Mr. Schottenstein has asked us to step up and be a real leader in terms of contributions for the big July 12 event with the Royal Shakespeare Company in New York City, and I think it is another example of how this Board is role modeling and I deeply appreciate it and thank everyone for what is required in this day in age.

The final item that we had, which is also on the consent agenda, entailed reviewing the progress of the advancement model over the last year. This was not a $100 million grant, Mr. Chairman, but the progress that has been made by the three organizations, Dr. Sorensen, Mr. Katzenmeyer and Mr. Griffin is just phenomenal. Because universities tend to be known for having very strong silos, being excessively bureaucratic, I am not saying that characterizes Ohio State, but if you ask most people, that is what they would think about universities. When you say in a 12 month period of time, can you transform the University in terms of how it thinks toward an advancement model, most people would say that is pretty hard to do. The Advancement Transition Team has really accomplished that. I am going to ask our Vice Chairman, Linda Kass, who really has been a remarkable leader from the Board standpoint, leading the transition team to just present some of the highlights of what this team has accomplished in this last year, and then you will see in our consent agenda that we do have a resolution which really endorses the work that has been done and to me what is very important is the Board recognizing now that we are no longer in transition teams, committee stage, we have now reached the point to where we have an advancement model truly embedded in this University and the President can just go forward and take the kinds of actions we need. I know there is still more work to be done, we do now have an advancement model at Ohio State, which we will just further refine and improve going forward. Let me close my part of the report with just a deep personal thanks to you, Linda. Your leadership has just been outstanding here and you deserve a lot of the credit for this accomplishment.

Mrs. Kass:

Thank you, Dr. Cloyd. As you mentioned at our committee meeting we did have a report that gave us the year in review and as we celebrate today the end of the successful transition year of progress and developing this core infrastructure necessary to really achieve an integrated advancement model at The Ohio State University, I would like to go through that year real briefly with you. Re-cap some history and share some key milestones in this noteworthy campus wide effort. The advancement graphic, you may have seen it before on the screen, captures the complex concept that was derived from President Gee’s One University model of harnessing the functions of alumni relations, marketing and communications and development across the entire University to more deeply engage broader audiences. So advancement is really a horizontal and a vertical integration that has its beginnings in 2008 when our president appointed a task force to examine the potential for greater organizational alignment around relationships with alumni and
friends of Ohio State - in essence, to enable the University to develop a modern, sophisticated advancement strategy. As you know from September 2008 through December 2009, two different task forces conducted research and made recommendations on how best to align all applicable units of Ohio State and OSU Alumni Association so that a comprehensive alumni engagement and relationship model could be developed and implemented. As part of the taskforce effort numerous universities were researched, 16 in-depth, so we could learn from their models. Site visits were made at Stanford University and the University of Washington. Key findings from all of these university advancement programs were incorporated in ten advancement principles that have guided the University's work. Following the final task force report in December 2009, you may recall that OSU Alumni Association unanimously passed a resolution in support of alumni alignment with the University. In January 2010, this Board unanimously supported that alignment at our meeting exactly one year ago. The agreement was formalized through a vote of the Alumni Association membership in April, 2010.

So last February President Gee asked me to chair the University Advancement Steering Committee made up of David Frantz, Archie Griffin, Tom Katzenmeyer, and then Peter Weiler and now Dr. Andy Sorensen, to guide deliberations toward a possible operational transition to this new advancement model. We met monthly. Brian Hastings from Development, Ginny Trethewey from the Alumni Association and Melinda Swan from Marketing were assigned to serve as co-chairs of what became a 20 member implementation team to launch this initiative. This core team included individuals from Academic Affairs, Athletics, Business and Finance, Enrollment Services, Human Resources, the Office of the CIO, the Medical Center and Student Life. This core group operated in somewhat of a volunteering manner across the University, building a foundation that yet had no roof as it was said yesterday. The implementation team went from the big picture to focusing on four concrete areas drawn from the original ten advancement principles I mentioned earlier. These four focal areas addressed were culture, engagement continuum, a unified and efficient core infrastructure and messaging. Drilling down from these four areas, the implementation team mobilized an additional 70 of their advancement colleagues into action teams and work groups across the University to build alliances and collaborations and shared goals where siloed functions have traditionally existed. They created opportunities for colleagues to get to know each other and challenged them to think in different ways and work in different teams. They established quarterly meetings for chief advancement officers and semi-annual gatherings of all advancement staff. To promote greater interaction and dialogue across departmental lines and traditional specific areas or silos, they utilized a social media tool called Yammer and to bring transparency they launched an advancement website and created an advancement enewsletter. As Dr. Cloyd characterized their work in our Advancement Committee yesterday, they were molding wet clay. This was a process that evolved but was approached with remarkable spirit and determination. These working groups conducted regular meetings and operated with tight turn around deadlines.

Let me share some key milestones the transition advancement team implemented just over the last 12 months. They have built a growing University wide culture around an advancement model with new teams naturally developing and working together across the University. They set specific goals for this work, as Dr. Cloyd referred, grouped as financial engagement and awareness having past the goals at this last meeting, all have been approved by the Board Advancement Committee.

Staff surveys have been conducted and comprehensive market research studies using data to guide decisions and massaging, programs and approaches that are more relevant, more impactful, powerful and that create increased engagement and awareness. Preliminary planning is under way for example for an alumni career network and enhanced regional outreach. Out of the comprehensive market research, four themes resonated with all audiences tested, Ohio State’s research
prowess, its educational value, access in diversity and economic impact. Another example is at your seats right now of how data is informing messaging and it is focused on two of those themes, education value and economic impact as it includes the fact that Ohio State graduates ranked 12\textsuperscript{th}, and this is at your seat here, nationwide in a \textit{Wall Street Journal} survey of top 25 recruiter picks. Specific milestone expectations of engagement are being mapped from pre-enrollment at OSU to post-retirement. The team is recommending a new more inclusive Alumni Association membership model and that discussion will begin with the Alumni Association board next week. They have built a unified core infrastructure of data, people and resources that had not existed, key steps have been taken to align human resource and financial systems to be more consistent and efficient and in the last 60 days the Alumni Association and University Development have announced their joint decision to bring their systems together in the new black bowed system planned to go live this summer. That decision grew out of the work of the common information source advancement action team, a great example of how these action teams have worked together to tackle complex problems. An integrated strategic plan for advancement and a leadership structure will be presented to the Board Advancement Committee at its April meeting.

In closing, I would like to say that Andy, Archie, and Tom, at the senior administrative level, and Brian, Melinda, and Ginny, as the hands on managing co-chairs of the implementation team, have modeled a collaborative partnership. The remarkable progress and spirit around this advancement journey flowed naturally from their leadership. All those involved worked under tight deadlines, setting goals and moving forward with speed and enthusiasm. The teamwork and leadership, connected vision and hard work displayed by the leaders, the implementation team, the working groups and action teams break any notion, as Dr. Cloyd said, about bureaucracy or inflexibility at a place the size of this University. We celebrate their work today and know that their discovery is ongoing. Thank you, Mr. Chairman, thank you, Dr. Cloyd.

Mr. Wexner:

Questions or comments?

Mr. Kellogg:

I would like to make a comment. As someone who served recently on the Alumni Association Board, to see this type of progress made, and to get to this point after it was something that we grappled with all of the time, is quite fulfilling and exciting. To see what was talked about in yesterday’s meeting and to see the fruition of all of that work and struggle and wrestling come to this place, obviously there is much more work to be done and more to be accomplished on this journey, but to see it get to this point is really, really gratifying and satisfying for someone who just came off of the Alumni Association Board. I would offer my commendation to everybody. It is extremely exciting to see that and know what the potential and an opportunity is as we go forward.

President Gee:

You know I was thinking about this. We celebrated today the 40 or 50 year point of progress that we made with the integration of our physicians plan and effort, this is 137 years. Our Alumni Association has been an independent entity of this University and existed in support of the University, but it has been totally independent for 137 years, so one cannot say that we came to this lightly, nor did we come to it easily, but nonetheless. I will make a note about this, we have had two great agents of change and help, Clark was on the board when we really made this proposal and so having him here and having him be part of this conversation is both affirming and helpful. Jack Fisher and I spent a lot of time talking about this because Jack was on
February 11, 2011 meeting, Board of Trustees

the Board at some time so he really gave insight. Archie Griffin, the president of our Alumni Association and senior vice president, has been just really terrific, Ginny Trethewey, Tom Katzenmeyer, Peter before, and obviously Andy, with his strong arm and strong ability, has made an enormous difference. Dr. Cloyd, as we well know, takes no prisoners and for that we are very grateful, and Linda is a tenacious warrior, really so. A year ago, taking on this task was a little bit like hand to hand combat, potentially, but instead it turned out to be roses and love and petals, and so we are grateful to you for your leadership really.

Ms. Swain:

It has been exciting being a member of the Committee and seeing this team formed, and now we have the ambitious goals formed. I am curious, Dr. Cloyd, what do you see as the main focus of the Committee going forward and the direction it is going to take or goals it has now that the goals have been set.

Dr. Cloyd:

That is a good question Alex. I think they are probably going to really cover two general areas; one will be input because there are folks on the Board that can help. A lot of what we have got to do now, as we think about awareness and engagement is a marketing activity. It is going to be a, if you will, segmented marketing activity, something that is new to the University to approach in this way. So if I think over the next 12 to 18 months, a lot of what the Committee will be trying to do is, individually or where they can outreach, be helpful to the advancement groups within the University that will be fully developing these segmented marketing campaigns, best vehicles, best ways for us to create an awareness and a true sense of engagement with the stakeholder community that we want.

The second broad area that the Advancement Committee will be paying a lot of attention to, and I think also taking an active role in, is we do anticipate later this year we will be moving forward in a much more comprehensive and externally directed way around a development campaign, whether we think in terms of our journey goal or where we want to be in 2016. Over the next 18 months there is going to be a tremendous amount of work there. So I think those two areas, and then obviously wherever we can be helpful as they continue to have to do some things internally within the University, if the community can be helpful in breaking some barriers or helping, we will. The surprising thing to me to date is they have really brought no significant barriers. The people that have been involved here are just marvelously entrepreneurial in figuring out ways that they can do things, they share resources, how do they put things together, and I just support what Linda said, I mean kudos to the leaders of the three organizations involved, and kudos to all the people that have been working the subject.

Mr. Wexner:

From my view this is one of the major strategic pillars of change and activity for the University, and we began as a Board thinking about this, I think four or five years ago, most recently the Board knows this, I am really speaking to the public. I hope there are reporters listening. Harvard reorganized itself after 316 or 317 years and they came to the amazing conclusion that alumni relations and advancement and development were a board responsibility. It was just not something that happened on the periphery. Most recently the credit rating agencies have adopted the standards of inquiry about board activities of publics and privates, and I think very fairly saying, does the Board take responsibility for advancement, which re-casts alumni relations and communications and marketing and development, and puts it in a more modern term. So I think we have been insightful, I think if we are successful in financial terms, this advancement model should produce in the near term about 10% of our budget and then go beyond because I think it is just the modern smart way for
February 11, 2011 meeting, Board of Trustees

universities to think. It begins with alumni, at least the way I think about it, you begin
with alumni, but before people are alums, they are students who develop feelings
and affection, hopefully positive ones for their Alma matter, and hopefully those
positive feelings also go to their family and their friends and their neighbors,
wherever they are now around the world. It also goes to faculty and their friends and
their family and how they feel about the University that their careers are attached to,
and then it spreads out to supporters and benefactors, business, government, so
that we have a consistent message of influence, and we can measure it in the
strength of our reputation, but we can also measure it in terms of financial results.
The advancement and development model, at least in our collective minds, has
something to do with the federal government on merit, giving us $100 million. We
have to remember to tell people it happened because that is also part of the
advancement and communications model that we are successful. We would not
forget to tell the world, and we do not forget to tell the world when we win national
championships, and when we win national championships in government grants and
in faculty and in student achievement we have to tell the world. I think this whole
recasting and thinking about communication and alumni relations and development,
it is one thing, and it has to be handled very smartly into the future. We are making
great progress. I come back to the beginning, we began thinking and working on this
time or five years ago, ahead of Harvard and ahead of the credit rating agencies, and
I think we are really getting some traction but this is a strategic imperative for the
success of the University.

Mr. Schottenstein:

I would like to make a comment on that, and I said this yesterday, and I know I am
repeating myself to this group, but I want to. I really applaud what we have done in
terms of the reorganization and creation of this Advancement Committee, a lot of
which has been about the how. I think it is hard to get to the “what” if you do not
have the how right, and I think that we have the how right. To answer your question
Alex, if I could try, this is like football to me. No one in this room would accept the
second place finish in football, and if everyone in this room is unwilling to accept a
second place finish in development, alumni giving, alumni support, and Board
support; we will win. We have to have that mindset. We can have the greatest
structure in the world, but if we do not have that mindset, we will not get to where we
need to be. We can cry about state support, we can cry about the economy, and we
can whine about whatever we want that we have no control over or at least little
control over. We control this issue, or at least we have a lot more control over this
issue than almost any other external issue that impacts our source of revenue and
our ability to succeed.

If Ohio State decides that it wants to lead the country, not just in certain areas, but in
this, we will. The tone at the top is going to determine our success. I am very excited
about it. I know I sound a little like a zealot but I think we have to be zealots. There is
no time to sit back and say next year, and I just think it is great the work you are
doing, Gil and Linda, and all others involved, and the Board I think is really ready to
stack hands, and I think this is going to take all 470,000. No one can beat us if we do
it, so we have got to do it.

Mr. Wexner:

Bob, that is well said, and it is a cultural shift not only for our Board and for what we
do, but it also drives down to the various boards of the University. I started
championing this at the arts center board about a year ago. This is a development
communications relation with the outside world as a function of the trustees of the
arts center. It is not a staff function, it is not a committee function, it is the work we all
have to do, and yes there is a committee, but we all share in the responsibility. It is a
small victory but the arts center got a $780 thousand grant from the Mellon
Foundation. This is the first time the Mellon Foundation has ever given an
February 11, 2011 meeting, Board of Trustees

interdisciplinary art institution a grant, and I am convinced in my own mind that it would not have happened if it did not become an issue that people are saying, how are we doing, where can we find new sources of supporters. Now the Mellon Foundation are not alums of the University, but they have obviously now become supporters and allied with what we are doing, unprecedented support from an institution that has no nexus of any connection to the University, except they respect the work that the University does in its arts center. I think as we drive this down through the business school and every college and every supportive board of the University, we are just going to unlock an enormous amount of energy, but it begins around this table in this room. Clearly if it is not our priority and we do not see the power and the influence we have to make these things a priority than it does not drive down to all the supporting boards across the University where there is incredible resource and power. We are at the beginning of the beginning, but clearly the objective is to be number one. I would be happy if Washington and Oregon and other schools and other institutions were coming here to find out why and how we are so good at what we do. That is just great progress.

If I can move along, Ron, can I ask you to talk about the exciting physical environment we have and the improvements.

Mr. Ratner:

As usual one of the wonderful things at these Board meetings is always being able to take the credit for everything that everybody else does. While I know that the Board leadership is significant, the depth of leadership we have across the University and in various staff and administrators as well as faculty areas is extraordinary.

We did get a report yesterday at the Physical Environment Committee from Lynn Readey who reported on the annual construction report. It is really daunting when you think about the amount of work that goes on, on our campus. Over the year there were actually 1,266 individual projects that were underway in terms of effecting our physical environment. We ended up with about $244 million of expenditures. That has been very consistent over the last four or five years; it has been at about that $250 million range. It is a staggering amount of money that we spend, basically year in and year out. Obviously it would be affected by major projects as the Medical Center Expansion really begins to show itself in terms of those numbers, they will go up a bit over the next couple of years, but that is a huge amount of money, significant expenditures, and a broad range of projects. About 77% of those projects and about 7.5% of the cost were under $.5 million. A staggering amount of projects affect virtually every element of the University, most of them by the way by count are reconstruction projects, getting into our facilities and really rebuilding them and maintaining them. We now obviously have underway 423 projects at $1.8 billion, and obviously that is effective of the Medical Center Expansion coming through there.

We celebrated some great openings during the year - Lane garage and the SAS, the Ohio Union, significant new facilities. Then we have a bunch of stuff underway. Clearly the Medical Center Expansion is the major beast in there, and Alan has already reported on that. We also have the south residential district and it is critical that we understand that this is now not a series of individuals projects, we are really thinking about districts, about the entire campus, about how one project in effect impacts on another, but this includes both the expansion and additional units in the south residences high-rises themselves, as well as a remodeling and rebuilding of almost 2,000 units there. Then the Hall Complex and the remodeling of Kennedy Commons, I will talk more about that in terms of the framework because that project fits very well into the whole re-thought campus plan that we now call the framework. Then a project that nobody is going to get really excited about, the 17th Avenue district plan which is basically the rebuilding of the underground roads and underground utilities. As mentioned this morning in the Committee meetings, as well
February 11, 2011 meeting, Board of Trustees

as yesterday, we have something like nine miles of underground tunnels that provide all of our underground utilities. Again what is critical is that not only are we doing this project that we need to do, it is just sort of a background project that has to happen. We are doing integrated civic infrastructure so as we rebuild the road structure, and we rebuild the utility structure of the campus, we are also taking a look and thinking about the way that appears at the surface level. So if we look at that entire district of campus, the ladder streets that really form the core of our academic campus here, that area will now have a completely revitalized appearance. We have across that district now a consistent landscape initiative. We have created consistent landscape standards so that as we are looking at that you will begin to really understand that this is one Ohio State, not just underground if you will, and not just in terms of the way we organize throughout our University but in the way we appear both to ourselves and to others. That led right from that extraordinary report, and I think as a Board a real thank you to the entire group of extraordinary staff members who make up FOD and really get all this accomplished.

We then went into a report on the framework plan, an update of where we are at with the framework plan which we as a Board adopted last year, and Terry Foegler, who is new to the University, has really done a remarkable job. Sometimes when people come back they actually bring additional strength and depth to the University. We have leadership that shows us how that is done and Terry is following in those footsteps, and Molly Ranz, who is just extraordinary and really understands the nature, particularly of our residential facilities. And we got a report on the update of the framework plan, that whole academic core north, the chemical and engineering building. As we are siting that building we are not just looking at the individual building, we are looking at a district, we are looking at how it affects other buildings, we are looking at how it really helps to reestablish the public and civic infrastructure, it is critical that we do that. Terry reported on a whole series of new initiatives. We are looking seriously at way finding, we will have more to tell you about that at the April meeting, again that integrated landscape plan. We are really taking a hard look again at our parking and transportation systems. We have a lot to do on that but we are beginning to make real progress there. Then we are developing an integrated capital planning model, so not only are you looking at the physical development in these individual buildings, but we are looking at how all the capital planning needs to be looked at, not just as an individual annual budget process, but as an integrated planning model. That will become very important as the Board proceeds with the strategic plan so that we can then really support that strategic plan and understand that every time we think about an area of the campus, an area of activity, we need to think about the physical facility supportive and the integrated financial planning for that.

Obviously we are doing a major restudy of two of the other residential districts. I mentioned that we are underway on the south residential district which I think will be transformative. It is going to be exciting -that construction by the way also includes an initiative in geothermal. Half of the energy for the new and remodeled residence halls will come from geothermal sources. To date we have drilled 80 of I think 460 wells. We brought up a lot of water. I was hopeful we would find oil; we have not done that yet. I don’t think we really will but there is always hope. It is in fact oil of a different sort literally. Into the future, 50% of the energy will be coming from effective geothermal source for which we will pay nothing. That is a tremendous advantage for us and it is a way forward I think in terms of thinking about sustainability on campus. We are also then looking at how we transform both the river and the north residential districts, and we have begun a very significant study there with the support of virtually the entire residence life group here, to understand what student life needs to be, again trying to make sure that we find a way to execute President Gee’s vision of having freshman and sophomores all living on campus and where should they be living, and how should they be living, and what kind of facilities, again so we can come back, integrate that with the financial plan, integrate that with the academic plan, how do we rethink living and learning environments, all that is being
February 11, 2011 meeting, Board of Trustees

brought together in an integrated fashion. Teams from across the campus are working and thinking about how that should happen.

The last comment is I think we have made some very real progress recently. Nothing that we can report formally to the Board, but I think we will be doing that shortly, and we have possibly identified some sources of funding that would help us advance the Cannon Drive reconstruction. If we can get that done and we can get that done in a shorter timeframe, we can open up land that would allow us to develop 3,500,000 square feet of additional space, improve our traffic planning significantly both in the Medical Center and throughout the campus, and again with Terry’s help we have begun to see some light at the end of the tunnel, if you will in terms of some of the funding we are going to need for that. I hope that we can come back very quickly and report that we have made real progress there because that is going to be a significant part of our work going forward.

As an active meeting, I think it is a very significant agenda of items. Much of this is going to be continuing work in progress but I am very excited with where we are at and the degree to which the framework plan is really informing what we are doing, and I think that the physical changes in every area of the campus are now being formed by a thoughtful one and deliberative process. That is my report and I do think we have a couple of items on the consent agenda, but they are pretty self-evident.

Mr. Wexner:

I forgot the number, your report was so full, but the total cap backs, if you would, this year or projects underway was?

Mr. Ratner:

We are underway on $1.8 billion and during this year we completed, or we spent $243 million. Just so you know this University spends a lot of money, and we are now doing it in a very intelligent and focused way.

Mr. Wexner:

I think that the notion of what goes into repairs and maintenance and new buildings, looking forward on average, you are probably looking at the magnitude of $500 million a year at minimum and the notion of this being a Board responsibility, and you are talking about $5 billion in a decade. That is significant in the sense of place and issues of environment, transportation and the environment for students, for faculty, for visitors. This is a significant change also in the University where the facilities were looked at in a more strategic way, and bringing in more talented people, and it becoming an issue for the whole Board not just a construction report based project by project.

Mr. Ratner:

One of the other things, the whole notion of One University, which was President Gee’s dream and statement, if you look at that you look at the way we are doing things now. It is not that this was not done well before, but now we are doing it in a much broader sense of understanding of what we are as One University. Just as an example, in the south residence project, we really have what would be three separate projects, each of them with their own budget. But then we started looking at the overall south residence district so now we have combined all of the budgets for landscape and public improvements and you will see a very significant difference in that area. Again working with our traffic and parking folks, we would have to eliminate a parking lot, which now would become open space, and it would help to link those buildings together and make a great additional campus outdoor space that would be able to be a focus of energy there. Again, every series of separate
activities that are now being looked at in an integrated way so that you bring all that energy together, with the money that we probably would have spent any way, we are now going to have a much, much better result, and I think Les, that is the kind of thing that we are now beginning to see, and we are seeing the impact of it, and it is a very significant change in the way we think about ourselves.

Mr. Wexner:

It is intangible, I think probably everybody, whether it is driving to work or in your neighborhood, you see a piece of the road that gets dug up and it is the sewer department, then they put the road back and then three weeks later you see them digging up the road and it is the wiring department or the electrical department and then the highway department comes in and recuts the curbs then somebody comes along and does the landscaping, and you think why did they not just get together and make it one project. Why are they digging the same damn holes three times? When Ron talks about looking at what goes underground and what goes over-ground, and integrating it into a master plan at the University, it comes out in a few quick sentences, but that is big stuff to deal with and have the overview and the control of all of these projects, and then the insight to bundle them, which has to make things better financially, environmentally better in terms of less disruption. So this is again a very important thing for us to have ahold of.

Ron, thank you. Judge Marbley.

Judge Marbley:

Mr. Chairman, we began the Academic Affairs and Student Life Committee, which met today, with validating data on our sustained trajectory from excellence to eminence. We have 29,000 applications for 6,700 spots. That says a lot about how we are perceived by students nationwide and internationally. It is up 10% from last year, the quality of the student body has remained constant and has continued to improve as you recall for the last five years, each class has been better than its preceding class in terms of its ACT, SAT and GPAs, and we are also up in terms of our diversity profile as well. We are doing a lot of things right here at the University.

We also discussed and began with the endorsement of a resolution authorizing the Office of Human Resources to make a separation incentive and phased retirement program available to colleges and vice presidential units. Vice President Larry Lewellen explained this program of voluntary separation incentives and how it was intended for use on a limited time basis to provide flexibility in three areas: administrative streamlining, the exit timing of retirement-eligible faculty and staff, and third, reducing costs or redirecting resources to promote efficiencies or meet programmatic goals. The program applies to regular tenured faculty and staff and includes such options as cash lump-sum payments and phased retirement for those tenured faculty and staff who meet the eligibility requirements.

The committee then heard from Vice President Javaune Adams-Gaston, (Dr. J.), who explained how her office helps engage students for success both at Ohio State and post-graduation. The path to success includes what Dr. J called transformational student experiences including internships which are identified as the most important career-related experiences, and participating in student organizations. The data demonstrated that students who participate in student organization have 10% higher grade point averages (GPA), and their GPAs hoover around 3.4 and the average GPA on campus is 3.1 and 50% of our students are involved in some type of student organization. The path to success is also based on a positive climate of diversity. 65% of Ohio State students believe the University provides an overall positive climate for diversity and 80% of minority students feel that they belong to The Ohio State University community. Enhanced learning environments likewise promote students’ success according to Dr. J.’s report. Thanks to the programs of our
University residences, 57% of students develop better study skills and 72% understand that their level of wellness affects their personal and social success. Dr. Adams-Gaston pointed out that 80% of our students use the recreational sports facilities including 70 acres of outdoor recreation opportunities and six major Columbus campus facilities.

Next we heard from Dr. William Brustein who briefed the Committee on Ohio State’s ongoing globalization initiatives. Our plan for globalizing the University is founded in two overarching international strategies: global gateways and the internationalization of the student experience.

Our global gateways will enable Ohio State to build upon faculty research partnerships, scout locations from study abroad and recruit international students. We also believe that it will establish the executive training programs, network with alumni, and partner with Ohio based companies. The China gateway in Shanghai is now well established and poised to launch a number of revenue generating programs. The next gateways are likely to be located in Mumbai and Sao Paulo.

Globalization is also taking place as student experiences further internationalize. We will now have a program which will enable our first and second year students to spend a month abroad. It will have 50 students who will participate in the first wave of programs and then we hope to increase that over time. The difference being that we already have programs which allow junior and seniors to study abroad for a semester, but we are going to now have something I believe that they call May-mester. May-mester, the students will get to spend the month of May, and that might inform them as freshman or sophomores as to what they may want to consider majoring in as upper level students and what they may want to take advantage of in terms of study abroad in their junior or senior year.

The international content of many courses is being expanded and new courses on global issues are also being developed in connection with our global initiatives. Student opportunities for education abroad are being widened and a global option certificate program which would provide global enrichment within the major is under consideration and review. The primary goal of all of these initiatives is to ensure that when our students graduate from The Ohio State University, they leave us as globally competent citizens.

We next endorsed amendments to the Rules of the University Faculty, the merger of the Department of Plant Cellular and Molecular Biology and the Department of Molecular Genetics to become the Department of Molecular Genetics. The establishment of a Master's of Mathematical Sciences degree program, the establishment of the Department of Microbial Infection and Immunity. The naming of the Marci and Bill Ingram Comprehensive Center of Autism Spectrum Disorders, the naming of the Center for Mathematics and Science Education Policy, the renaming of the Jones Graduate Tower, and the naming of internal spaces.

After also endorsing a number of routine personnel actions, the committee went into executive session. Mr. Chairman that concludes my report.

Mr. Wexner:

Thank you, Monte. Any questions? Bob.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Finance Committee met this morning. We had a number of items on the agenda beginning with the mid-year financial report, which consisted of a presentation by Mr. Chatas and happy to report that in most areas our financial performance is trending in the right direction - good progress with
February 11, 2011 meeting, Board of Trustees

enrollment. The Medical Center, as Mr. Brass alluded to earlier, very strong performance through the first six months. When it comes to state support I think that the word that Mr. Chatas appropriately used was uncertainty. This is a time of uncertainty, not just with regard to matters pertaining to the 2012 budget but also the final payment for fiscal year 2011. We continue to obviously watch that and work with the state.

Our investments performed remarkably well. In fact it is worthy to note that we won. We had the highest return of any endowment of our size in the United States. Certainly, Mr. Jonathan Hook and others deserve great credit for the progress and work that we have made in managing the endowment and other cash reserves. There is an Investment Advisory Committee, led by Marty Murrer, who serves on the Foundation Board and is one of our esteemed alums who lives in New York City. That Investment Advisory Committee meets quarterly and they have done really good work. I do want to mention, before I go into the next item on the agenda, that one of the things that our Committee has begun to look at is how we can best function in terms of the quality of our agenda, the quality of the reports that we review, and we have set out to sort of repurpose the way in which we operate. Between now and the next Board meeting we hope to finalize that work. I want to acknowledge particularly the work of Mr. Jurgensen, who along with Mr. Chatas, has been very helpful in, I think, providing focus to the kind of financial reports and tools that we want to look at on a regular basis to not just know where we stand but what lies ahead.

Other items that we considered on the agenda today, we received an update on construction projects from Lynn Readey. You have already heard what that report was about from Ron Ratner through the Physical Environment Committee. We had the annual report from Mr. Chatas concerning waivers on competitive bidding, and then there were several items which will appear on the consent agenda. First was the authorization to enter into design and construction contracts which is item number 21 on the consent agenda. Like the Medical Affairs Committee, we voted to table the release of any further funds for the Medical Center Expansion for the reasons that were discussed earlier. We had a very interesting and good discussion concerning the separation incentive which Judge Marbly just discussed a few moments ago, over the next three or four years, I think that 45% or some very significant percentage of our faculty and staff will reach retirement. In the name of streamlining and restructuring and cost savings, a plan has been proposed where by separation incentives will be made available to the various colleges and units. That plan has been endorsed by Academic Affairs, certainly the Provost is recommending its passage as well as the Chief Financial Officer of the University and the Finance Committee approved it as well and that also appears on the consent agenda. Finally, we approved the ratification of certain amendments to the University's retirement plan which is item 25 on the consent agenda. That concludes my report.

CONSENT AGENDA

President Gee:

Today we have a total of 25 resolutions on the consent agenda. We will be taking a separate vote on items number 11 and 17. We will table item 22 as requested by Mr. Brass, and approve the change to item 21, therefore we are seeking the approval for the following:

RATIFICATION OF COMMITTEE APPOINTMENTS 2010- 2011
Resolution No. 2011-34

BE IT RESOLVED, That the ratification of Committee appointments for 2010-11 are as follows:
### Academic Affairs and Student Life Committee
- Algenon L. Marbely, Chair
- William G. Jurgenssen
- James Bachmann
- James Gilmour
- Leslie H. Wexner (ex officio)

### Advancement Committee
- G. Gilbert Cloyd, Chair (Charter Trustee)
- Linda S. Kass, Vice Chair
- Douglas G. Borror
- Brian K. Hicks
- Clark C. Kellogg
- Alexis L. Swain
- John W. Kessler

**PHIL DUNCAN**
- Michael Clark (Alumni Assn Member)
- Donald H. Schrizer (Alumni Assn Member)
- John B. Gerlach (Foundation Brd Member)
- David T. Kollat (Foundation Brd Member)
- Leslie H. Wexner (ex officio)

### Agricultural Affairs Committee:
- John C. Fisher, Chair
- Robert Boggs, Vice Chair (ex officio)
- William G. Jurgenssen, Vice Chair
- Brandon N. Mitchell
- JAMES J. ZEHRINGER (ex officio)
- Leslie H. Wexner (ex officio)

### Audit and Compliance Committee:
- Robert H. Schottenstein, Chair
- John C. Fisher, Vice Chair
- Ronald A. Ratner

### DISTINGUISHED SERVICE AWARDS
Resolution No. 2011-35

Synopsis: Approval of the University’s Distinguished Service Awards is proposed.

WHEREAS the Committee on Distinguished Service Awards nominated and recommended the following list of names for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:
February 11, 2011 meeting, Board of Trustees

- Marci S. and E.W. “Bill” Ingram III
- William J. Lhota
- Tamala “Tami” Longaberger
- Randall B. Ripley
- Barbara R. Snyder
- Elizabeth J. Watters
- Joel M. Weaver

WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

NOW THEREFORE

BE IT RESOLVED, That the Distinguished Service Awards be approved for awarding as designated above.

***

Resolution No. 2011-36

Synopsis: The amendments to the Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are recommended for approval.

WHEREAS the Professional Affairs Committee, pursuant to Bylaw 3335-97-02 of The Ohio State University Medical Center Board, is authorized to recommend to the Medical Center Board the adoption of the amendments to the Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; and

WHEREAS the proposed amendments to the Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute were approved by the Medical Center Board on December 16, 2010:

NOW THEREFORE

BE IT RESOLVED, That the attached Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are hereby adopted effective immediately.

(See Appendix XIX for background information, page 455.)

***

RATIFICATION OF APPOINTMENTS TO THE MEDICAL CENTER BOARDS

Resolution No. 2011-37

Synopsis: Ratification of appointments to the Medical Center boards is proposed.

WHEREAS in June 2009, the Board of Trustees authorized the president of the University to take actions necessary and appropriate to appoint members to the Medical Center Board, the University Hospital Board, the University Hospital East
February 11, 2011 meeting, Board of Trustees

Board, the OSU Harding Hospital Board, the James Cancer Hospital Board, and the Ross Heart Hospital Board; and

WHEREAS all members of these boards shall be appointed in accordance with Medical Center Board Bylaws 3335-93-01 and 3335-104-01, and in consultation with the president of the University; and

WHEREAS the chair and vice chair of the medical center boards shall be a public member appointed annually by the Board of Trustees upon recommendation of the University president:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby ratifies the following appointments, as designated by board and terms of appointment, made by the president pursuant to the resolution adopted by this Board in June 2009:

**Medical Center Board**
Barbara Kunz – effective February 1, 2011 through June 30, 2012

**Ross Heart Hospital Board**
Charles Webb – effective February 1, 2011 through June 30, 2013

**Medical Center Board**
Barbara Kunz, Chair – effective February 1, 2011 through June 30, 2011

**University Hospital Board**
David Lauer, Chair – effective July 1, 2010 through June 30, 2011
Nancy Petro, Vice Chair – effective July 1, 2010 through June 30, 2011

**James Cancer Hospital Board**
Robert Massie, Chair - July 1, 2010 through June 30, 2011

**University Hospital East Board**
George Skestos, Chair - July 1, 2010 through June 30, 2011
Frederick Ransier, Vice Chair - July 1, 2010 through June 30, 2011

**OSU Harding Hospital Board**
Yvette McGee Brown, Chair - July 1, 2010 through June 30, 2011

**Ross Heart Hospital Board**
John Gerlach, Chair - July 1, 2010 through June 30, 2011

SEPARATION INCENTIVE AND PHASED RETIREMENT PROGRAM
Resolution No. 2011-38

Synopsis: Authorization for the Office of Human Resources, with the advice of the Office of Legal Affairs, to develop a flexible program of voluntary separation incentives including phased retirement for colleges and vice presidential units to use on an as-needed basis for regular tenured faculty and staff. This program is intended to be used on a time-limited basis, and only for departments or units where actual needs exist to gain efficiency or meet programmatic goals. It is not intended to be used broadly or on a continuing basis.

WHEREAS pursuant to Section 3335.09 of the Revised Code, the Board of Trustees of The Ohio State University is vested with authority to fix the compensation for employees of The Ohio State University; and
WHEREAS pursuant to Section 124.14 of the Revised Code, the Board of Trustees of The Ohio State University is vested with authority to carry out all matters of governance involving the officers and employees of The Ohio State University; and

WHEREAS the University desires to have more flexible programs to make positive changes in administrative streamlining; manage the exit timing of retirement-eligible faculty and staff; and meet the needs of individual colleges and vice presidential units to reduce costs or redirect faculty lines and resources to promote programmatic goals; and

WHEREAS the University anticipates that such workforce factors shall differentially effect various colleges and vice presidential units wherein these various colleges and vice presidential units will need different separation incentive programs based on their need; and

WHEREAS a flexible program of voluntary separation incentives including phased retirement will result in a more efficient operation of the University and preserve the positive culture of commitment and engagement:

NOW THEREFORE

BE IT RESOLVED, That the Office of Human Resources, with the advice of the Office of Legal Affairs, shall make available a flexible program of voluntary separation incentives, including phased retirement, for colleges and vice presidential units to use on an as-needed basis for regular faculty and staff; and

BE IT FURTHER RESOLVED, The separation incentives and phased retirement options shall be implemented as described in attachment A, effective immediately.

(See Appendix XX for background information, page 471.)

CHINA GATEWAY PROJECT: FORMATION OF A WHOLLY FOREIGN OWNED ENTERPRISE IN CHINA

Resolution No. 2011-39

Synopsis: To expand the activities of the Ohio State University China Gateway, the formation of a new Chinese entity known as a Wholly Foreign Owned Enterprise is proposed.

WHEREAS the primary purpose of the Ohio State University China Gateway is to further the reach of Ohio State as a global university; and

WHEREAS the China Gateway project has generated an enthusiastic response from Ohio State alumni in China and facilitated new agreements for programs between Ohio State units and Chinese institutions; and

WHEREAS the China Gateway LLC (LLC) is an Ohio limited liability company of which Ohio State is the sole member exercising complete control over its operation; and

WHEREAS the LLC was formed as a necessary legal prerequisite to meet Ohio State’s institutional goal of establishing a physical presence in China by June of 2010; and

WHEREAS the LLC has established a Foreign Representative Office (FRO) in Shanghai, China, as a legal prerequisite for the leasing of office space, opening of financial accounts, and hiring of staff; and

390
February 11, 2011 meeting, Board of Trustees

WHEREAS Chinese law does not permit a FRO to engage in revenue-generating activities, which require the creation of a Wholly Foreign Owned Enterprise (WFOE); and

WHEREAS the OSU China Gateway project is ready to commence revenue-generating activities that will assist the Gateway in becoming self-sustaining:

NOW THEREFORE

BE IT RESOLVED, That a Wholly Foreign Owned Enterprise be formed in China.

(See Appendix XXI for background information, page 473.)

***

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 2011-40

Synopsis: Approval of the following amendments to the Rules of the University Faculty is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on January 13, 2011:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

(See Appendix XXII for background information, page 475.)

***

MERGER OF THE DEPARTMENT OF PLANT CELLULAR AND MOLECULAR BIOLOGY AND THE DEPARTMENT OF MOLECULAR GENETICS TO BECOME THE DEPARTMENT OF MOLECULAR GENETICS
Resolution No. 2011-41

Synopsis: Approval to merge the Department of Plant Cellular and Molecular Biology and the Department of Molecular Genetics to become the Department of Molecular Genetics is proposed.

WHEREAS the research, teaching, and service programs of the two departments are complementary and the new department will bring together nearly all of the eukaryotic model system geneticists at the University under a single administrative and educational unit; and

WHEREAS the new department will be of higher visibility and have a significantly higher impact, both locally and nationally, than either of the individual departments; and

WHEREAS there will be no significant changes in the graduate or undergraduate programs or curricula as a result of the merger. Such changes will be included in the semester curriculum proposal from the merged departments; and
WHEREAS the proposal has the unanimous approval from the faculty of the affected units; an overwhelmingly positive vote at the college level; and is supported by the Executive Dean of the College of Arts and Sciences; and

WHEREAS the proposal adheres to the guidelines for the alteration or abolition of units, and was approved by the Council on Academic Affairs, and the University Senate at its meeting on January 13, 2011:

NOW THEREFORE

BE IT RESOLVED, That the merger of the Department of Plant Cellular and Molecular Biology and the Department of Molecular Genetics to become the Department of Molecular Genetics is hereby approved, effective immediately.

***

ESTABLISHMENT OF A MASTER’S IN MATHEMATICAL SCIENCES (MMS) DEGREE PROGRAM
Resolution No. 2011-42

Synopsis: Approval of the establishment of a master’s in Mathematical Sciences (MMS) Degree Program is proposed.

WHEREAS the purpose of this new degree program is to build on the increasing importance of interdisciplinary fields, especially those combining quantitative skills with other sectors of the natural and social sciences to better prepare students for stem careers; and

WHEREAS the Department of Mathematics is strongly committed to the new program, one that initially will have two specializations – Mathematical Biosciences, and Mathematics for Mathematics Educators – with others under consideration for possible future development; and

WHEREAS students will be exposed to rigorous elements of a post-graduate degree including interdisciplinary coursework, a practical research project or internship with one or more mentors, and the completion of a thesis based on that research experience; and

WHEREAS the program will train an expanding corps of mathematics postgraduates in areas of importance to the Ohio and national workforce; and

WHEREAS the proposal was reviewed by the Council on Academic Affairs, and approved by the University Senate at its meeting on January 13, 2011:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Master’s in Mathematical Sciences (MMS) degree program is hereby approved, effective upon the approval by the Ohio Board of Regents.

***

ESTABLISHMENT OF THE DEPARTMENT OF MICROBIAL INFECTION AND IMMUNITY
Resolution No. 2011-43

Synopsis: Approval of the establishment of the Department of Microbial Infection and Immunity is proposed.
WHEREAS The establishment of this department, within the School of Biomedical Science, College of Medicine, will increase the University’s ability to recruit top academic scientists with established research grant funding; provide more training opportunities for students, residents and fellows; raise the Medical Center’s national rankings; and bring international prestige to the University; and

WHEREAS similar units have been established at institutions within Ohio, within the Committee on Institutional Cooperation (CIC); and across the nation; and

WHEREAS the proposal has support from other academic units within and outside the College of Medicine; and

WHEREAS the proposal has the support of the faculty in the Department of Internal Medicine, Division of Infectious Diseases, and the College of Medicine; and

WHEREAS the proposal adheres to the guidelines for department status; was reviewed by the Council on Academic Affairs, and approved by the University Senate at its meeting on January 13, 2011:

NOW THEREFORE

BE IT RESOLVED, That the establishment of the Department of Microbial Infection and Immunity is hereby approved, effective immediately.

***

NAMING OF THE CENTER FOR MATHEMATICS AND SCIENCE EDUCATION POLICY AT THE JOHN GLENN SCHOOL OF PUBLIC AFFAIRS: BATTELLE CENTER FOR MATHEMATICS AND SCIENCE EDUCATION POLICY

Resolution No. 2011-44

Synopsis: The naming of the Center for Mathematics and Science Education Policy in the John Glenn School of Public Affairs.

WHEREAS the John Glenn School of Public Affairs prepares students for careers in the public and non-profit sectors as well as continuing education programs offers management and leadership training for public sector and nonprofit employees; and

WHEREAS the Center for Mathematics and Science Education Policy supports Ohio’s education leaders and policymakers, strengthening their capacity to deliver high-quality, high-impact education for all students and to make Ohio a national leader in effective science, technology, engineering and mathematics (STEM) education; and

WHEREAS the Battelle Memorial Institute has provided significant contributions to the John Glenn School of Public Affairs for the operations of the Center for Mathematics and Science Education Policy:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned center in the John Glenn School of Public Affairs be named the Battelle Center for Mathematics and Science Education Policy.

***
February 11, 2011 meeting, Board of Trustees

RE-NAMING OF THE JONES GRADUATE TOWER  
Resolution No. 2011-45

Synopsis: The building located at 101 Curl Drive was originally named the Jones Tower in 1962 in honor of Lawrence Jones who at that time was the Acting and Associate Dean of the College of Engineering and the Secretary of the University Faculty & Faculty Council. In 1966 the building became the residence hall for graduate students and was re-named the Jones Graduate Tower.

WHEREAS the building is no longer used exclusively for graduate student housing:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned building be re-named Jones Tower effective immediately.

***

NAMING OF INTERNAL SPACES  
Resolution No. 2011-46

Synopsis: The naming of internal space within University facilities is proposed.

WHEREAS gifts and gift commitments have been received by donors to support the construction, equipping or furnishing of the classrooms, offices, laboratories and other noted spaces; and

WHEREAS upon the recommendation of the Office of Development, it has been proposed that the donors to these internal spaces be recognized for their generosity:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the aforementioned internal spaces in campus facilities shall be named as follows:

Page Hall, 1810 College Road
Annie Glenn Conference Room, Room 350B

Parks Hall, 500 W. 12th Avenue
Robert and Stephany Ruffolo Lecture Hall, Room 103

Knowlton Hall, 275 West Woodruff Avenue
Alpha Rho Chi Fraternity Classroom, Room 177

William Oxley Thompson Memorial Library, 1858 Neil Avenue Mall
Thomas C. Minnich Family Education Librarian’s Office, Room 222C
Mortar Board Centennial Suite, Rooms 202 and 204
Floradelle Atwater Pfahl Study Room, Room 105A

Ohio Union, 1739 North High Street
Potter Plaza, South Courtyard Plaza

Postle Hall, 305 West 12th Avenue
Midmark Emergency Care Clinic, formally known as the Dentistry Emergency Clinic

Drinko Hall, 55 West 12th Avenue
Robert E. Boyd, Jr. and Janet P. Boyd Conference Suite, Room 220A
HONORARY DEGREES

Resolution No. 2011-47

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of honorary degrees as listed below:

Zdenek P. Bazant Doctor of Engineering
Lino Tagliapietra Doctor of Fine Arts

NOW THEREFORE
February 11, 2011 meeting, Board of Trustees

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

***

DEGREES AND CERTIFICATES
WINTER QUARTER COMMINENCEMENT

Resolution No. 2011-48

Synopsis: Approval of Degrees and Certificates for winter quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 20, 2011, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix XXVII for background information, page 529.)

***

RESOLUTIONS IN MEMORIAM

Resolution No. 2011-49

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Charles B. Hicks

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 21, 2010, of Charles B. Hicks, Professor Emeritus in the Department of Management Sciences in The Max M. Fisher College of Business.

Charles Hicks was born in Kalamazoo, Michigan, in December 1916. He received his bachelor’s degree from Western Michigan University in 1938, a master’s degree from Columbia University in 1942, and his Ph.D. degree from the University of Michigan in 1950. His education was put on hold for a three-year term of service with the U.S. Army in Europe during World War II.

Dr. Hicks was a member of The Ohio State University faculty from 1949-79. He served as chair of the management sciences faculty in what is now the Fisher College of Business. Prior to coming to Ohio State he was an assistant professor of economics and accounting at Western Michigan University and during summer quarters often taught courses at other universities including the Universities of Arkansas, Maine, Michigan, Southern California, Montana State, Western Michigan, and Vermont.
February 11, 2011 meeting, Board of Trustees

He authored and co-authored books on office management and held various committee appointments with such professional organizations as the American Business Writing Association, the Administrative Management Society, and the Academy of Management. He held memberships in the honorary societies of Delta Pi Epsilon, Phi Delta Kappa, Sigma Tau Chi, Pi Omega Pi, Beta Gamma Sigma, and Alpha Kappa Psi.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Charles B. Hicks its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

William P. Smith

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 2, 2010, of William P. Smith, Associate Professor Emeritus in the Ohio State University Extension.

Mr. Smith was born in 1923 in Lowell, Ohio. He received his Bachelor of Science in Agriculture degree (cum laude) in 1947 and his Master of Science degree in agricultural economics and rural sociology in 1968, both from The Ohio State University.

Bill began his Extension career in Ohio in September 1947 as the associate county extension agent in Scioto County. In June of 1948 he became the county agricultural agent in Gallia County. He became the area extension agent for farm management at the Jackson Center in 1966, a position he held until his retirement from OSU in January 1979.

During his Extension career he provided excellent programs for farmers and citizens in southern Ohio. He had a major leadership role in organizing the Southern Ohio Tax Workshops for farm tax consultants which became an annual event. Bill gave primary leadership to the organization and development of the Gallia County Junior Fair and was known as the “Father of the Gallia County Fair.” He had a weekly newspaper column and regular radio program.

Professor Smith was recognized throughout the state and nation for his outstanding contributions. One such honor he received was the Distinguished Service Award from the National Association of County Agricultural Agents.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus William P. Smith its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Clyde H. Kearns

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 19, 2010, of Clyde H. Kearns, Professor Emeritus in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Kearns received his Bachelor of Chemical Engineering degree in 1942 from The Ohio State University, and soon thereafter entered the U.S. Army Corps of Engineers as a second lieutenant in the U.S. Army Corps of Engineers. He served during World War II from 1942-46 with service in the United States, India, and China.
February 11, 2011 meeting, Board of Trustees

He returned to Ohio State and, while working as an instructor, earned a Master of Science degree in chemical engineering in 1950. Professor Kearns served as assistant professor from 1950-59 in engineering drawing at OSU, where he also held an assistant professor appointment in chemical engineering (1957-59).

He spent four years in industry with Union Carbide Corporation at Oak Ridge, Tennessee, and Tonawanda, New York, working with nuclear reactors, radioactive isotopes, and cryogenics, and with CVI Corporation in Hilliard, Ohio, working in cryogenics and helium refrigeration.

Professor Kearns returned to Ohio State in 1963 as an associate professor of engineering drawing. He, along with a group of faculty members from several departments, developed and taught the initial course in computer programming in the College of Engineering.

In 1967 the Department of Engineering Drawing’s name was changed to Engineering Graphics. Professor Kearns was appointed associate professor in the Department of Computer and Information Science in 1969. Later that year he was promoted to full professor in both departments. He served as chairperson of the Department of Engineering Graphics from 1973-77. In January 1981 he retired from full-time teaching and taught engineering graphics courses on a part-time basis until 2006 in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Kearns was the circulation manager/treasurer for the Engineering Design Graphics Journal from 1972-77. He then served as vice chair (1977-78) and as chair (1978-79) of the Engineering Design Graphics Division. He resumed his association with the Engineering Design Graphics Journal in 1984 and continued that until 2006. He received the Distinguished Service Award in 1990 from the Engineering Design Graphics Division of the American Association of Engineering Education.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Clyde H. Kearns its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

Richard J. Solove

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 28, 2010, of Richard J. Solove: alumnus, benefactor and dear friend of the University.

Mr. Solove’s support to the University and its cancer program provides an exemplary and enduring legacy that will enable the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute to continue its leadership in the global fight against cancer in its many forms.

Mr. Solove’s name has long been associated with Ohio State and central Ohio. In 1948, he earned a degree in pharmacy at the University, and he later owned three Columbus drugstores before devoting himself fully to real estate development in 1962. It was his relationship with Dr. Arthur G. James, an OSU surgical oncologist who treated Mr. Solove’s father for cancer in the 1950s that drew him closer to the OSU cancer program. In 1999 the University acknowledged Mr. Solove’s years of support for cancer research by renaming the hospital the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute.

Mr. Solove once said that he had never given much thought to a legacy, but he added he would much rather be remembered for contributing to the eradication of cancer than
February 11, 2011 meeting, Board of Trustees

for anything else. Despite the acclaim he received in his lifetime for his many contributions to Ohio State University as well as many other organizations, he remained humble whenever he was asked about his charitable contributions, which culminated in his donation to The James of proceeds from the 2007 auction of his beloved collection of 13 vintage Rolls-Royce automobiles.

Mr. Solove said that he was “not interested in being the richest man in the cemetery. To see the rewards of your efforts in life, that is the true virtue.” He indeed saw many rewards of his efforts against cancer. His lasting gift to humanity is that future generations will see even more.

On behalf of the University community, the Board of Trustees expresses to the members of the family of Richard J. Solove its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board’s heartfelt sympathy.

***

ADOPTION AND APPROVAL OF AN INSTITUTIONAL ADVANCEMENT MODEL
Resolution No. 2011-50

Synopsis: The Board of Trustees, having established an Advancement Committee in June 2010, now recognizes the University’s progress in developing the core infrastructure necessary to achieve a more integrated, successful advancement model.

WHEREAS leadership of University Communications, University Development, and the Alumni Association have forged a stronger partnership that will advance The Ohio State University; and

WHEREAS the University assembled a group of twenty innovative thinkers and experts—the Advancement Implementation Team—to launch this initiative; and

WHEREAS more than seventy additional professionals from across the University have been engaged in initiatives that are leading to more integrated and efficient financial, human resource, and technology services as well as more effective research, messaging, fundraising, and engagement platforms; and

WHEREAS leaders of the Advancement Implementation Team crafted financial, engagement, and awareness goals for the Board’s consideration; and

WHEREAS the University is now well positioned to begin to encourage and foster the engagement of students, alumni, and other key audiences to provide multiple opportunities for engagement and support for the mission of The Ohio State University:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees gratefully acknowledges and expresses its appreciation for the dedication, hard work, and thoughtful recommendations of the Advancement Implementation Team and all others associated with their work; and

BE IT FURTHER RESOLVED, That this Board hereby approves and endorses the advancement goals presented for their consideration; and

BE IT FURTHER RESOLVED, That this Board hereby authorizes and directs the President to take all actions required to support the successful implementation of an advancement model at the University and the accomplishment of all related goals.

(See Appendix XXIII for background information, page 480.)

399
UNIVERSITY DEVELOPMENT REPORT
Resolution No. 2011-51

Synopsis: The University Development Report as of December 31, 2010, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Marion N. Rowley Chair in Human Cancer Genetics Research; the Robert J. Watkins/Procter & Gamble Professorship, the D. Warren Brown Designated Chair in Leukemia Research, The John B. and Jane T. McCoy Chair in Cancer Research, and The William H. and Laceryjette V. Casto Professorship in Interpersonal Education in Honor of Henry and Ruth Leuchter and Van Bogard and Geraldine Dunn; the establishment of thirty-five (35) new named endowed funds; and the revision of eleven (11) named endowed fund.

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation as of December 31, 2010, be approved.

(See Appendix XXIV for background information, page 481.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Chair

The Marion N. Rowley Chair in Human Cancer Genetics Research

The Marion N. Rowley Chair Fund in Human Cancer Genetics Research was established December 2, 2005, by the Board of Trustees of The Ohio State University with gifts from The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute in memory of Marion N. Rowley of Glendale, California. The funding level has been reached and the chair was established February 11, 2011.

The annual distribution from this fund shall be used for a chair supporting a distinguished scholar in human cancer genetics research at the Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, the director of the Comprehensive Cancer Center, the senior vice president for Health Sciences, and the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.
February 11, 2011 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

Amount Establishing Chair: $1,500,000.00 (grandfathered)

Establishment of Named Endowed Professorship

Robert J. Watkins/Procter & Gamble Professorship

The Procter & Gamble Faculty Excellence Award was established November 7, 1997, by the Board of Trustees of The Ohio State University with gifts from Ohio State Law Alumni employed by Procter & Gamble. The name was changed to The Robert J. Watkins/Procter & Gamble Professorship Fund and the description revised July 12, 2002. The funding level has been reached and the professorship was established February 11, 2011.

The annual distribution from this fund shall be used to support the salary and research of a professor in The Michael E. Moritz College of Law. Candidates shall be recommended by the dean of the Moritz College of Law and appointed by the University’s Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, should one be available, and from the dean of the Moritz College of Law.

Amount Establishing Professorship: $750,000.00 (grandfathered)

Establishment of Named Designated Chair

D. Warren Brown Designated Chair in Leukemia Research

The D. Warren Brown Designated Professorship in Leukemia Research was established April 6, 2001, by the Board of Trustees of The Ohio State University with
February 11, 2011 meeting, Board of Trustees

annual gifts from The Warren Brown Family Foundation in memory of Warren Brown of Marion, Ohio. With additional gifts from The Warren Brown Family Foundation the funding level has been reached and the designated chair was established February 11, 2011.

The intent of this fund is to provide salary and support leukemia research conducted by a designated chair holder. Appointment of a nationally or internationally recognized physician faculty member/scholar as chair holder shall be approved by the Board of Trustees of The Ohio State University as recommended by the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. The chair holder will utilize this title on all published articles, letters, posters, and professional papers. The activities of the chair holder shall be reviewed no less than every four years to determine compliance with the intent with the intent of the donor as well as the academic and research standards of the University.

This designated chair position shall cease to exist when annual funding from the donor ends.

Amount Establishing Fund: $173,494.05
Total Commitment: $80,000.00 per year for 5 years

Establishment of Named Endowed Funds

Stoner Scholarship Fund for OD/MPH Students

The Stoner Scholarship Fund for OD/MPH Students was established February 11, 2011, by the Board of Trustees of The Ohio State University with an estate gift from Dr. Cyrus Stoner (B.S. 1924).

Ninety percent (90%) of the annual distribution from this fund shall provide renewable graduate scholarships to students enrolled in the OD/MPH program - a program in which a student takes one year of public health classes then the standard four years of optometry classes, earning both degrees at the end. The fund is intended to support one student at each level of the program and shall be phased in over a five-year period. Each recipient shall receive one-fifth of the annual distribution. The first year one new first-year recipient shall be selected. The second year, the recipient selected the previous year shall be eligible to renew his/her scholarship and a new first-year recipient shall be selected. Each year thereafter a new first-year recipient shall be selected. Scholarship recipients shall be selected by the dean of the College of Optometry in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The remaining ten percent (10%) of the annual distribution, as well as any other unused distribution, shall be reinvested to the endowment principal.

The dean of the College of Optometry will review the endowment every five years to decide the efficacy and proper use of this fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
February 11, 2011 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Optometry.

Amount Establishing Endowment: $250,000.00

The Charles and Barbara Webb Family Endowment Fund

The Charles and Barbara Webb Family Endowment Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University with gifts from Charles R. and Barbara A. Webb of Naples, Florida, and with funds transferred from the Medical Center.

The annual distribution from this fund shall support the OSU Heart and Vascular Center for various needs including research, resident awards, medical student scholarships, and other priorities in the specialties related to heart disease. Allocation of distribution shall be made at the recommendation of the director of the OSU Heart and Vascular Center in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a reasonable fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors or their representative, and as recommended by the director of the OSU Heart and Vascular Center in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $200,000.00

The Gloria Fuller Walker Scholarship Fund in Dentistry

The Gloria Fuller Walker Scholarship Fund in Dentistry was established February 11, 2011, by the Board of Trustees of The Ohio State University with estate gifts from Gloria Walker.

The annual distribution from this fund shall be used to provide scholarship support to students enrolled in The Ohio State University College of Dentistry (formerly School of Dentistry) in the Division of Dental Hygiene who demonstrate financial need. Scholarship recipients shall be selected by the chair of the Division of Dental Hygiene in consultation with the dean of the College of Dentistry, the College's scholarship committee, and the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.
February 11, 2011 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry in consultation with the chair of the Division of Dental Hygiene.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Dentistry in consultation with the chair of the Division of Dental Hygiene.

Amount Establishing Endowment: $50,000.00

The William E. Goos Memorial 4-H Scholarship Fund

The William E. Goos Memorial 4-H Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University with gifts given in his memory from his wife Kathryn Isler (Goos) Veder, family, and friends. Mr. Goos graduated from the University in 1982 with a Bachelor of Science in Agriculture (Animal Sciences).

The annual distribution from this fund shall be used to provide scholarships to one or more students from, in order of preference, Butler, Preble, Hamilton, or Darke counties in Ohio who are members of 4-H and who will be attending The Ohio State University's main campus, a regional campus, or the University's Agricultural Technical Institute as freshmen. The scholarship may be awarded to the same students in successive years, not to exceed two years, provided the students remain in good academic standing and are progressing towards their degrees. In the event that there are no qualified students from the preferred counties, applicants from other Ohio counties who meet the other criteria may be considered for the scholarship. In the event that there are no qualified students who are members of 4-H or if the Ohio 4-H programs should cease to exist, students who are members of FFA and who meet the other criteria and are planning to enroll in the College of Food, Agricultural, and Environmental Sciences may be considered for the scholarship.

Recipients shall be selected by the OSU Extension-4-H Youth Development scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the assistant director of OSU Extension 4-H Youth Development in consultation with the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.
February 11, 2011 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, should she be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension 4-H Youth Development.

Amount Establishing Endowment: $31,290.00 (grandfathered)

Change in Name and Description of Named Endowed Funds

The Mary E. and John W. Alford Research Chair Fund in Head and Neck Cancer

The Mary E. Alford Cancer Research Endowment Fund was established on September 7, 1990, by the Board of Trustees of The Ohio State University with a gift from John W. Alford of Newark, Ohio. Additional gifts were given by the John and Mary Alford Foundation of Worthington, Ohio; by the Ronald Alford family of Westerville, Ohio; and by the Barbara and Michael (B.S.Bus.Adm. 1978) Cantlin family of Newark, Ohio. The name was changed to The Mary E. and John W. Alford Cancer Research Endowment Fund and the description was revised March 3, 2000. The name and description were revised February 11, 2011.

Until the endowment reaches $2,000,000, the annual distribution from this fund shall be used to support cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) and the Comprehensive Cancer Center (CCC). Upon reaching $2,000,000, the annual distribution will be used for a chair position at The James to support a nationally or internationally recognized faculty member or physician in the field of head and neck cancer research. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended and approved by the chief executive officer of The James and director of the CCC, the senior vice president for Health Sciences, and the dean of the College of Medicine. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief executive officer and director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be
designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, should one be available, and as recommended by the chief executive officer of The James and director of the CCC, the senior vice president for Health Sciences, and the dean of the College of Medicine.

**The Donald E. and Ruth L. McGinnis Concert Band Scholarship Fund**

The Donald E. McGinnis Concert Band Scholarship Fund was established February 3, 1995, by the Board of Trustees of The Ohio State University with gifts from friends of Donald E. McGinnis. The description was revised September 5, 1997. The name and description were revised February 11, 2011.

Seventy-five percent (75%) of the annual distribution from this fund shall be used to provide a scholarship award to a junior member of the Ohio State University Concert Band who has demonstrated outstanding musicianship and leadership in keeping with the standards set by Donald E. McGinnis during his distinguished tenure as director of the Concert Band. The scholarship is to be awarded annually and is not renewable. Recipients shall be selected by the director of the School of Music in consultation with the instrumental music faculty and the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The remaining twenty-five percent (25%) of the annual distribution shall be returned to the principal. If there is no candidate for the award in any given year, all earnings shall be returned to the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from Donald E. and Ruth L. McGinnis, should they be alive, and from the executive dean of the College of Arts and Sciences in consultation with the director of the School of Music.

**The PNC Scholarship Endowment Fund**

The BancOhio National Bank Scholarship Endowment Fund was established November 2, 1990, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from BancOhio National Bank Corporation. BancOhio subsequently was acquired by National City Bank; the fund's name was changed to The National City Bank Scholarship Endowment Fund and the description was revised July 9, 1993. National City Bank was acquired by PNC on December 31, 2008. The fund name and description were revised February 11, 2011.

The annual distribution from this fund shall be used to provide scholarships in meaningful amounts for full-time students with substantial academic promise enrolled in The Max M. Fisher College of Business, and scholarship recipients shall be known as "PNC Scholars." To be eligible, students must have a minimum grade point average of 2.75 and demonstrate a need for financial assistance. It is the donor's wish that recipients be selected from among graduates of high schools located within those counties of Ohio in which the donor, or any successor donor, conducts retail-banking
February 11, 2011 meeting, Board of Trustees

activities. It is the donor's further preference that special consideration is given in the selection process to members of racial minority groups and that the recipients are not receiving scholarships/support from other corporations. The University shall, however, have sole authority to award these scholarships subject only to the approval of the dean of the Fisher College of Business in cooperation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, should one be available, and from the dean of the Fisher College of Business.

Establishment of Named Endowed Chair

The John B. and Jane T. McCoy Chair in Cancer Research

The John B. and Jane T. McCoy Chair Fund in Cancer Research was established November 7, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from John B. McCoy (D.B.A. honorary 1993) and Jane T. McCoy of Columbus, Ohio. The funding level has been reached and the chair was established February 11, 2011.

The annual distribution shall be used for a chair position supporting cancer research with a preference for lymphoma research at the Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University.

The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and director of the Comprehensive Cancer Center and by the senior vice president for Health Sciences and the dean in the College of Medicine. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
February 11, 2011 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the
original intent of the contribution as good conscience and need dictate shall be
designated by the Foundation’s Board of Directors and the University’s Board of
Trustees. In making this alternate designation, the Boards shall seek advice from the
donors, if possible, and as recommended by the chief executive officer of The Arthur G.
James Cancer Hospital and Richard J. Solove Research Institute and director of the
Comprehensive Cancer Center, the senior vice president for Health Sciences, and the
dean of the College of Medicine.

Amount Establishing Chair $1,620,476.41 (grandfathered)

Establishment of Named Endowed Professorship

The William H. and Laceryjette V. Casto Professorship
in Interprofessional Education in Honor of Henry and Ruth Leuchter
and Van Bogard and Geraldine Dunn

The William H. and Laceryjette V. Casto Professorship in Interprofessional Education
Fund was established on June 7, 2002, by the Board of Trustees of The Ohio State
University in accordance with the guidelines approved by the Board of Directors of The
Ohio State University Foundation, with gifts from William H. and Laceryjette V. Casto
and their families. Additional gifts were received from the Interprofessional Commission
of Ohio. The funding level has been reached and the professorship was established
February 11, 2011.

The annual distribution from this fund shall be used to support and enhance the work of
a distinguished professor in interprofessional education in the College of Education and
Human Ecology, in partnership with the Interprofessional Commission of Ohio. Appointees shall be recommended to the executive vice president and provost by the
College’s dean and approved by the University’s Board of Trustees. The activities of
the holder of the professorship position shall be reviewed no less than every five years
by the dean of the College of Education and Human Ecology to determine compliance
with the intent of the donor as well as the academic and research standards of the
University.

In any given year that the endowment distribution is not fully used for its intended
purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall
be in accordance with University policies and procedures as approved by the Board of
Trustees. As authorized by the Board of Trustees, a fee may be assessed against the
endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the
University in perpetuity. Should unforeseen circumstances arise in the future so that the
need for this endowment ceases to exist, then another use as nearly aligned with the
original intent of the contribution as good conscience and need dictate shall be
designated by the Foundation’s Board of Directors and the University’s Board of
Trustees. In making this alternate designation, the Boards shall seek advice from the
donors, should they be alive, and from the dean of the College of Education and
Human Ecology.

Amount Establishing Professorship: $502,170.96 (grandfathered)
February 11, 2011 meeting, Board of Trustees

Establishment of Named Endowed Funds

The Saul and Sonia Schottenstein Chair Fund in Israel Studies

The Saul and Sonia Schottenstein Chair Fund in Israel Studies was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Saul Schottenstein via his trustee, Susan Schottenstein Diamond.

The intent of this fund is to provide a chair position dedicated to Israel studies in the College of Arts and Sciences.

Until the principal of the fund reaches $2,000,000, the annual distribution shall be used to search for candidates for the chair position. If a candidate is identified before the principal of the fund reaches $2,000,000, the annual distribution shall be directed to The Saul and Sonia Schottenstein Designated Chair Fund in Israel Studies and the College of Arts and Sciences shall supplement the fund in order to appoint a chair holder to the position. After the principal balance of the fund reaches $2,000,000, the annual distribution shall be used to support an endowed chair position in Israel studies. Per the request of the donor’s representative, to qualify candidates must meet the following criteria:

- Demonstrate ability and commitment to teach and be a community, faculty, and student resource for Israel studies.
- Be sufficiently fluent in Hebrew and be knowledgeable about contemporary Israeli society and culture. He/She must understand, acknowledge and respect the importance of promoting scholarship about the modern State of Israel as a member of the global community and a central part of the Jewish life and the homeland of the Jewish people.
- Possess expertise that may include, but is not limited to: history, philosophy, political science, music, English, near eastern languages and cultures, Germanic languages and literatures, classics, art, economics, comparative studies, or the sciences.
- Must be able and willing to teach courses on the history of modern Zionism and Israel using texts and approaches generally accepted in the field including at least one lecture course relating to an aspect of modern Zionism and Israel must be offered annually through a joint course listing with the Melton Center for Jewish Studies. Must also be able and willing to provide scholarly mentoring to students in studying and learning about modern Israel.
- Demonstrate ability and commitment to discover, research, and provide information to students who wish to have internships related to Israel and the area of Israel studies, collaborating with programs such as an internship program stationed at the Israel-American Chamber of Commerce.
- Must agree to use the official name of the Chair in all printed and electronic materials regarding the Chair including letterheads, envelopes, business cards, brochures, websites, and other publications and promotional materials.
The University agrees to honor this request to the extent allowable by federal or state law or University policy. The University reserves the right to modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy at any time in the future.

A member of the Susan and Jon Diamond family or a family designee, preferably a noted Israel studies scholar, shall serve as a member of the search committee to help identify candidates. The search committee shall be appointed by the executive dean of the College of Arts and Sciences. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the search committee and approved by the executive dean of the College of Arts and Sciences. The term of the chair holder will be determined at the time of appointment and performance in the position will be reviewed annually. Reappointment to the Chair is contingent on positive performance evaluations.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Susan Schottenstein Diamond, should she be alive, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $1,000,000.00
Total Commitment: $2,000,000.00

Dr. Willys E. and Sandina Lord Scholarship Fund

The Dr. Willys E. and Sandina Lord Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Dr. Willys Lord (D.V.M. 1937) and Sandina Lord.

The annual distribution from this fund shall be split into thirds and used to provide scholarships for three (3) students enrolled in the College of Veterinary Medicine. Scholarship recipients shall be referred to as “Lord Scholars.” The dean of the College of Veterinary Medicine shall select scholarship recipients in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the
February 11, 2011 meeting, Board of Trustees

endowment principal at the discretion of the dean of the College of Veterinary Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $389,599.28

The Carter Phillips and Sue Henry Professorship Fund in Political Science

The Carter Phillips and Sue Henry Professorship Fund in Political Science was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Carter G. Phillips (B.A. 1973).

Until the fund’s principal balance reaches $1,000,000, the annual distribution shall be reinvested in the endowment principal. After the principal balance reaches $1,000,000, the annual distribution shall provide support for a professorship position in the College of Arts and Sciences, Division of Social and Behavioral Sciences, Department of Political Science. Appointees to The Carter Phillips and Sue Henry Professorship in Political Science shall be recommended to the executive vice president and provost by the College’s executive dean and approved by the University’s Board of Trustees. The activities of the holder of the professorship position shall be reviewed no less than every five years by the executive dean of the College of Arts and Sciences to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $250,185.74
Total Commitment: $1,000,000.00
The Sarah Evans Mattox Faculty Research Fund

The Sarah Evans Mattox Faculty Research Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Sarah Evans Mattox (B.A. 1964).

The annual distribution from this fund shall be used to support a competitive faculty member in the research involving the impact of media on public opinion and society, such as advertising, public affairs journalism, strategic communication, and communication technology. Expenditures shall be approved by the executive dean of the College of Arts and Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $206,023.03

The Schnipke Family Endowment Fund for Alzheimer’s Disease Research

The Schnipke Family Endowment Fund for Alzheimer’s Disease Research was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in memory of Pauline Schnipke from her children and from The Schnipke Family, LLC of Ottoville, Ohio.

This endowment recognizes the work of Douglas Scharre, M.D. of the Division of Cognitive Neurology at the OSU Medical Center, especially the outstanding care and treatment he provided for Pauline.

The annual distribution from this fund shall be used to support medical research of Alzheimer’s disease in the Division of Cognitive Neurology in the Department of Neurology at The Ohio State University Medical Center as approved by the division director in consultation with the chairperson of the Department of Neurology, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director or chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the chairperson of the Department of Neurology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $158,000.00

**The Stanley D. and Joan H. Ross Breast Cancer Lecture Endowment Fund**

The Stanley D. and Joan H. Ross Breast Cancer Lecture Endowment Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Stanley D. Ross (B.A. 1962) and Joan H. Ross of Columbus, Ohio.

This endowment recognizes the work of William B. Farrar, M.D. at the OSU Medical Center, created by donors in appreciation of Dr. Farrar’s extraordinary dedication to caring for his patients, two of whom are family members, as well as to honor his career as an outstanding medical educator.

The annual distribution from this fund shall be used to provide educational opportunities on breast cancer for a variety of community audiences as well as medical professionals, on topics such as (but not limited to): breast health, risk factors, prevention, early detection and screening, cancer survivorship issues, and referral services to related health care services and cost reduction resources.

The Stanley and Joan Ross Family Lecture Series will be presented to the community-at-large and to OSU Medical Center patient population. The Stanley and Joan Ross Family Grand Rounds (or Continuing Education Program) will be provided for physicians and clinicians as professional educational opportunities. The annual distribution of the funds and the scheduling of the educational opportunities will be directed and approved by the chief of the Division of Surgical Oncology, in consultation on the fund allocation with the chairperson of the Department of Surgery, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief or chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a
February 11, 2011 meeting, Board of Trustees

representative of the donors and as recommended by the chairperson of the Department of Surgery in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $100,000.00

**The Brennan Athletic Scholarship Fund**

The Brennan Athletic Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Leo W. (B.S. 1972) and Beverly G. (B.S. 1972) Brennan of Atlanta, Georgia.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: $98,500.00
Total Commitment: $150,000.00

**The Tarrier Family Endowment Fund for Acute Leukemia Research**

The Tarrier Family Endowment Fund for Acute Leukemia Research was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Tim A. Tarrier and Elizabeth Tarrier of Columbus, Ohio.

The annual distribution from this fund shall support cancer research on acute leukemia at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) and the Comprehensive Cancer Center (CCC), to include but not limited to: supplies, equipment, research personnel, lab space, fellow research awards, research training opportunities, and other activities required for high quality medical research. Allocation of the distribution from this endowed fund shall be approved by the chief executive officer of The James and director of the CCC in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in
February 11, 2011 meeting, Board of Trustees

subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief executive officer of The James and director of the CCC in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from both the donors, should they be alive, and as recommended by the chief executive officer of The James and director of the CCC in consultation with the senior vice president for Health Sciences.

Amount Establishing Endowment: $80,000.00
Total Commitment: $100,000.00

The Nicholas John Sanders Memorial Scholarship Fund

The Nicholas John Sanders Memorial Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Daniel and Patricia Sanders in memory of their son, Nick Sanders.

This fund is established in memory of Nick Sanders who passed away at age 25 from a pulmonary embolism. He was a graduate of Gahanna Lincoln High School where he lettered in football and basketball. A 2004 graduate of Dartmouth College, Nicholas went on to earn a Master of Accounting degree from The Ohio State University in 2006. He completed his CPA designation requirements and worked as an accountant at Crowe Chizek and Co.

The annual distribution from this fund shall be used to recruit students to the Master of Accounting (“MAcc”) program or for scholarships for students already enrolled in the MAcc program at The Max M. Fisher College of Business. Preference shall be given to students entering or enrolled in the program who do not have an undergraduate degree or undergraduate major in accounting. Recipients shall be selected by the chairperson of the Department of Accounting and Management Information Systems in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the
need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $75,250.00

**Thomas J. Burns Accounting Honors Endowment Fund**

The Thomas J. Burns Accounting Honors Endowment Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of Thomas J. Burns and additional donors, including former students and colleagues of Thomas J. Burns.

The annual distribution from this fund shall be used to support the Accounting Honors Program and Accounting Honors students in The Max M. Fisher College of Business. The administrator of the fund shall be the chairperson of the Department of Accounting and Management Information Systems. The administrator shall inform Professor Emeritus Daniel L. Jensen, trustee of the Thomas J. Burns estate, and Karl Frey, former student and donor to the fund, about expenditures from the fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the chairperson of the Department of Accounting and Management Information Systems.

Amount Establishing Endowment: $66,057.29

**Edward J. Troyan Endowment Fund**

The Edward J. Troyan Endowment Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Edward J. Troyan (B.S. 1941).

The annual distribution from this fund shall be used to provide tuition scholarships or grants, or to enhance the quality of education offered by the College of Education and Human Ecology (formerly known as the Department of Education). Scholarship recipients shall be selected by the College’s dean in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $65,000.00

The Harriet H. and Howard B. Cary Welding Engineering Fund

The Harriet H. and Howard B. Cary Welding Engineering Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Harriet H. and Howard B. (B.I.E. 1942) Cary.

The annual distribution from this fund shall be used to enhance welding engineering education and research in the College of Engineering. Uses may include undergraduate scholarships, faculty research, and the purchase and service of teaching and research equipment to support the Welding Engineering program in the Department of Materials Science and Engineering. The program director of Welding Engineering will be responsible for distributing this support.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering in consultation with the chairperson of the Department of Materials Science and Engineering and the program director of Welding Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Engineering in consultation with the chairperson of the Department of Materials Science and Engineering and the program director of Welding Engineering.

Amount Establishing Endowment: $61,068.23

The Dan and Cathy Kraft Family Athletic Scholarship Fund

The Dan and Cathy Kraft Family Athletic Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with
The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the men's varsity football team. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the director of Athletics.

Amount Establishing Endowment: $60,000.00
Total Commitment: $150,000.00

The William D. Apple 1941 Scholarship Fund in Civil and Environmental Engineering

The William D. Apple 1941 Scholarship Fund in Civil and Environmental Engineering was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mrs. William Apple.

The annual distribution from this fund shall be used to support a scholarship for an undergraduate student enrolled in the College of Engineering majoring in civil and environmental Engineering who demonstrates academic merit and financial need. Recipients shall be recommended by the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science and approved by the dean of the College of Engineering in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering in consultation with the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
February 11, 2011 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the College of Engineering in consultation with the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science.

Amount Establishing Endowment: $59,500.00

The Janet Kay Wilson Endowed Scholarship Fund in Medical Technology

The Janet Kay Wilson Endowed Scholarship Fund in Medical Technology was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with estate gifts from Janet Kay Wilson and from Kathi Wilson in honor and memory of Janet Kay Wilson (B.S. Medical Technology, 1968).

The annual distribution from this fund shall be used to support scholarships for undergraduate students enrolled in the Division of Medical Technology in the School of Allied Medical Professions. Selection of the recipients shall be made based on financial need and academic merit. Scholarship recipients will be selected at the recommendation of the director of the Division of Medical Technology and as approved by the director of the School of Allied Medical Professions in consultation with the University’s Office of Student Financial Aid, the dean of the College of Medicine, and the College’s Student Financial Services.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the School of Allied Medical Professions and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from Kathi Wilson, if possible, and as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Endowment: $59,094.21
February 11, 2011 meeting, Board of Trustees

The Pfeifer Family Softball Scholarship Fund

The Pfeifer Family Softball Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Pfeifer Family Foundation, of Tucson, Arizona.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who pursuing a degree at The Ohio State University and is a member of the softball team. Amount Establishing Endowment: $51,365.00

The Patricia DiNunzio Ovarian Cancer Endowment Fund

The Patricia DiNunzio Ovarian Cancer Endowment Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Patricia A. DiNunzio (B.A. 1983) of Westerville, Ohio.

The endowment recognizes the work of Larry Copeland, M.D. of the Division of Gynecologic Oncology at the OSU Medical Center, especially the outstanding care and treatment he provided for Patricia.

The annual distribution from this fund shall support medical research, education/training, and other programs for prevention, treatment and cure of ovarian cancer disease in the Division of Gynecologic Oncology in the Department of Obstetrics and Gynecology. Allocation of distribution shall be made at the recommendation of the division director in consultation with the chairperson of the Department of Obstetrics and Gynecology, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director or chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor (or her designee) and as recommended by the chairperson of the Department of Obstetrics and Gynecology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: $50,000.00

The Darwin P. Geringer Memorial Endowed Scholarship Fund

The Darwin P. Geringer Memorial Endowed Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from The Benjamin P. Forbes Company of Broadview Heights, Ohio.
February 11, 2011 meeting, Board of Trustees

The annual distribution from the endowed fund shall be used to support at least one scholarship to be awarded annually to an undergraduate or graduate student majoring in Food Science and Nutrition. Qualified applicants will be of at least sophomore standing and will have demonstrated academic achievement. Previous recipients of the scholarship shall be eligible to receive the scholarship again in subsequent years. Scholarship recipients shall be selected by the Department of Food Science and Technology's scholarship selection committee in accordance with guidelines and procedures established by the dean of the College of Food, Agricultural, and Environment Sciences or his/her designee and in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs, or reinvested in the endowment principal at the discretion of the dean.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should it exist, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $50,000.00

The Ann Lowenstein Gottlieb Scholarship Fund

The Ann Lowenstein Gottlieb Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Ann and Jules Gottlieb Foundation on behalf of Lawrence Gottlieb, Lisa Senter, Lynne Blumenstock, and Jon Gottlieb in memory of their mother, Ann Lowenstein Gottlieb (B.S.Bus.Adm. 1948).

Mrs. Gottlieb was a 1948 graduate of The Ohio State University. Together with her husband, she founded ABCO Refrigeration Supply Corp. in 1949 and today their family continues to operate the multi-state air conditioning and refrigeration wholesale distribution company. Philanthropic and socially concerned, Mrs. Gottlieb served on several non-profit and community boards. With her husband, she was instrumental in the creation of the Ann and Jules Gottlieb Women’s Comprehensive Health Center of Long Island Jewish Hospital Medical Center in 1996, which was one of the first centers in the New York City area dedicated to the multi-faceted medical treatment of women, and also founded the Ann and Jules Gottlieb Family Violence Center at the Samuel Field Y in Queens, New York.

The annual distribution from this fund shall be used to award scholarships for students who are enrolled in the undergraduate program at The Max M. Fisher College of Business who have at least a 3.0 grade point average with preference given to students demonstrating financial need. Recipients shall be selected by the director of
the College’s undergraduate program office in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the dean of Fisher College of Business.

Amount Establishing Endowment: $50,000.00

The Hongor Oulanoff Memorial Lecture in Classical and/or Contemporary Russian Literature Fund

The Hongor Oulanoff Memorial Lecture in Classical and/or Contemporary Russian Literature Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Constance Alexa Oulanoff in memory of Hongor Oulanoff, professor of Russian at The Ohio State University, 1963-1991.

The purpose of this fund is to promote a better understanding and appreciation of classical and contemporary Russian literature. The annual distribution from this fund shall provide an annual lecture by a distinguished scholar of Russian literature to be selected by the chairperson of the Department of Slavic and East European Languages and Literatures in consultation with the donor or her designee and approved by the executive dean of the College of Arts and Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, or her designee, and from the executive dean of the College of Arts and Sciences in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures.
February 11, 2011 meeting, Board of Trustees

Amount Establishing Endowment: $50,000.00

The Thomas Family Football Fund

The Thomas Family Football Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Donald W. Thomas (B.S. 1960, M.S. 1961) and Margo E. Thomas from Galena, Ohio.

The annual distribution from this fund shall be used for the football program’s academic support services and resources as recommended by the head football coach or his designee from the football program staff and a member of the Student-Athlete Support Services Office staff.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: $50,000.00

The Philip M. Ewing Innovation Fund

The Philip M. Ewing Innovation Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Philip M. Ewing (B.S.Bus.Adm. 1943).

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support activities of the faculty, students, and staff in accordance with the College’s strategic plans.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of Fisher College of Business.
February 11, 2011 meeting, Board of Trustees

Amount Establishing Endowment: $35,000.00 (unrestricted)

**Virginia Eldridge Harmon and David Harmon Scholarship Fund**

The Virginia Eldridge Harmon and David Harmon Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David (B.A. and B.S. 1973, M.A. 1979) and Virginia (B.S. 1979) Harmon.

The annual distribution from this fund shall provide a scholarship to an incoming undergraduate student intending to major in the arts and sciences who represents the first generation of his/her family to attend college. The scholarship is renewable for up to four years as long as the recipient maintains a 3.0 grade point average. Scholarship recipients shall be selected by the executive dean of the College of Arts and Sciences in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the executive dean of the College of Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the executive dean of the College of Arts and Sciences.

Amount Establishing Endowment: $32,081.43 (grandfathered)

**The Robert J. and Yvonne E. Gustafson Scholarship Fund**

The Robert J. and Yvonne E. Gustafson Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University, in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Yvonne E. (Ph.D. Education 1993) and Robert J. Gustafson of Worthington, Ohio.

The annual distribution from this endowed fund shall be used to support one or more scholarships for undergraduate engineering students in the Department of Food, Agricultural, and Biological Engineering in the College of Food, Agricultural, and Environmental Sciences. Recipients shall be selected by the Department of Food, Agricultural, and Biological Engineering scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, or his/her designee, in consultation with the University’s Office of Student Financial Aid.
February 11, 2011 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration, and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $28,900.00 (grandfathered)

The Rubin Family Scholarship Fund

The Rubin Family Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Herschel Alan Rubin (B.S. 1937 Applied Optics) and the late Mrs. Elsa Alexander Rubin (B.S. 1938 Education) of East Liverpool, Ohio; Mrs. Elsa Rubin Efran (B.A. 1963 Journalism) and Dr. Jay Steven Efran (Ph.D. 1963 Psychology) of Philadelphia, Pennsylvania; and Mr. Leon Martin Rubin (B.A. 1977 Journalism, M.A 1987 Journalism) and Mrs. Susan Davis Rubin of Dahlonega, Georgia. Contributions also have been made by family and friends in memory of Mrs. Elsa Alexander Rubin.

The annual distribution from this fund shall be used to provide one or more scholarships to graduates of East Liverpool High School in Ohio. If no students qualify then it is the donors’ preference is to support graduates of other high schools in Columbiana County, Ohio. It is the donors’ desire that there be no more than four scholarships awarded at the minimum of $500 each during a given academic year. It is the donors’ preference that the scholarships are divided equally among the recipients annually. The annual distribution may be used to provide scholarships towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses. It is the donors’ desire that there be no stipulation to financial need.

The scholarship shall be distributed equally over three quarters of the academic school year. The scholarship is renewable up to twelve quarters or eight semesters, or until completion of a baccalaureate degree, whichever comes first.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal. This scholarship fund will be administered by the Office of Student Financial Aid.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: $27,731.00 (grandfathered)

The Mousa Scholarship Fund

The Mousa Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bruce E. (M.A. 1978, Ph.D. 1991) and Sara Ann Mousa.

The annual distribution shall provide one or more awards for students enrolled in the College of Education and Human Ecology. First preference will be given to students who demonstrate the criteria of an educational change agent. Factors to meet these criteria will be determined in consultation with the proposed Ed.D. program. Awards will be used to fund the time, work, and presentations necessary for the students to help publicize the proposed program at The Ohio State University. Additionally, this award will provide students with the means to be a conduit between research and impacting change within the school systems. Second preference will be to provide scholarship funding to students who have been accepted into the proposed Ed.D. program to help offset the cost to further their leadership training. Third preference will be for doctoral students studying education administration. Recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $26,000 (grandfathered)
February 11, 2011 meeting, Board of Trustees

The Pursch Family Memorial Fund

The Pursch Family Memorial Fund formerly known as The Pursch Family Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from William C. Pursch (Ph.D. 1982 Education) and Lenore Wilson Pursch of Springfield, Ohio, in loving memory of their daughters, Wendy L. Pursch Stolfo and Heidi A. Pursch Yarberry (B.S. 1999 Horticulture).

The annual distribution from this fund shall be used to provide support for undergraduate students in the College of Food, Agricultural, and Environmental Sciences who are majoring in horticulture and who are participating in study abroad programs. Preference shall be given to those students studying in England. The annual distribution may also be used to support other student experiences that contribute to their professional development in horticulture.

Undergraduate students who are selected to receive support from this fund must be in good academic standing and progressing toward their degrees. Recipients shall be selected by the Department of Horticulture and Crop Science’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the University’s Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested into the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science.

Amount Establishing Endowment: $25,660.00 (grandfathered)

T. L. Jones Scholarship Fund

The T. L. Jones Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Susan Jones Sears (B.S.Ed. 1963, Ph.D. Education 1972) of New Albany, Ohio.

The annual distribution from this fund shall be used to provide a scholarship(s) to a graduate student(s) enrolled in the Counselor Education Program in the College of Education and Human Ecology. Recipients shall be recommended by the College’s scholarship committee and approved by the dean in coordination with the University’s Office of Student Financial Aid.
February 11, 2011 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: $25,200.00 (grandfathered)

Schieber Pharmacy Scholarship Fund

The Schieber Pharmacy Scholarship Fund was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Larry (B.S. 1981) and Kim Schieber.

The annual distribution from this fund shall be used shall be used to support a scholarship in the College of Pharmacy with preference given to candidates from Pickaway County, Ohio. Scholarship recipients will be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Pharmacy.

Amount Establishing Endowment: $25,000.00 (grandfathered)
February 11, 2011 meeting, Board of Trustees

The Charles R. Verbanic Endowment Fund in Dentistry

The Charles R. Verbanic Endowment Fund in Dentistry was established February 11, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Charles R. Verbanic (B.A. 1973, D.D.S. 1976).

The annual distribution from this fund shall be used to purchase equipment for the College of Dentistry as approved by the dean of the College.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Dentistry.

Amount Establishing Endowment: $25,000.00 (grandfathered)

Change in Name of Named Endowed Funds

Allan Markowitz Graduate Award Fund in Observational Astronomy

The Allan Markowitz Graduate Award Fund in Observational Astronomy was established April 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Allan Markowitz (M.S. 1966, Ph.D. 1969). The name was corrected February 11, 2011.

The annual distribution from this fund shall be used to supplement existing assistantships or fellowships in the Department of Astronomy. The award will be given to a graduate student who is conducting research or developing a research agenda in areas of observational astronomy. Award recipients shall be selected by the chairperson of the Department of Astronomy.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the
original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the Division of Natural and Mathematical Sciences in the College of Arts and Sciences.

Lawrence C. Mitchell Engineering Scholarship Fund

The Carol Z. and Lawrence C. Mitchell Engineering Scholarship Fund was established February 6, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lawrence C. Mitchell (M.S. Industrial Engineering 1964) of Valley City, Ohio, in honor of his wife, Carol Z. Mitchell. The name was revised February 11, 2011.

The annual distribution from this fund shall provide need-based scholarships for students majoring in engineering from Medina or Lorain Counties of Ohio who are taking or have taken the freshmen honors engineering courses or the equivalent. Recipients shall be selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Engineering.

Change in Description of Named Endowed Funds

The Ruann F. Ernst and William C. Riffle Endowed Scholarship Fund

The Ruann F. Ernst and William C. Riffle Endowed Scholarship Fund was established September 18, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Ruann F. Ernst (B.S.Ed. 1968 – summa cum laude, M.A. 1969, Ph.D. 1977) and Mr. William C. Riffle of Scottsdale, Arizona. The description was revised February 11, 2011.

The annual distribution from this fund shall be used to provide merit, financial need-based scholarship support to undergraduate technology students who are United States citizens, with a first preference for engineering majors. The recipients will be pursuing a course of study in translational science, technology commercialization, or new venture creation, and entrepreneurship. The recipients will also be expected to participate in the technology commercialization program within the Center for Entrepreneurship. Scholarship recipients shall be selected by the academic director of the Center for Entrepreneurship in consultation with the Office of Student Financial Aid.
The John and Cindy Feltz Scholarship Fund

The John and Cindy Feltz Scholarship Fund was established on May 3, 2002, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John Feltz (B.E.E. 1961, M.B.A 1979) and Cindy Feltz (B.S.Ed. 1961) of Fairborn, Ohio. The description was revised February 11, 2011.

The annual distribution from this fund shall be used to provide scholarships to incoming freshmen from Greene County, Ohio. Scholarship candidates will be reviewed and recommended by the Greene County Alumni Club as long as the Club continues to exist. Scholarship recipients shall be selected by the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid in consultation with the Greene County Alumni Club as long as the Club continues to exist.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.
February 11, 2011 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors if feasible, and from the director of the Office of Student Financial Aid.

The Gordon and Mary Flax Scholarship Fund

The Gordon and Mary Flax Scholarship Fund was established May 7, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Gordon and Mary Flax of South Charleston, Ohio. The gift was made in honor of their lifetime of involvement in agriculture and home economics, and for the continued education of Clark County residents in these fields. The description was revised February 11, 2011.

The annual distribution shall be used equally to support scholarships in the College of Food, Agricultural, and Environmental Sciences including the School of Environment and Natural Resources, and in the College of Education and Human Ecology. Each college may award one or more scholarships. Eligible students must be from Clark County, Ohio, and of at least sophomore standing with a cumulative grade point average of at least 2.5. The scholarships may be awarded to the same students in successive years, not to exceed 3 years, provided the students remain in good academic standing, are progressing towards their degrees, and continue to meet the scholarship’s criteria. In the event that there are no qualified students of at least sophomore standing, freshmen who meet all other criteria may be considered for the scholarship.

Scholarship recipients shall be selected by the scholarship selection committee in each college in accordance with guidelines approved by the respective dean, and in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and the dean of the College of Education and Human Ecology.
Charles W. and Gwyenna L. Lifer 4-H Scholarship Fund

The Charles W. and Gwyenna L. Lifer 4-H Scholarship Fund was established May 7, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Charles W. and Gwyenna L. Lifer. The description was revised February 11, 2011.

The annual distribution from this fund shall be used to support at least one scholarship for an incoming freshman enrolled in the College of Food, Agricultural, and Environmental Sciences at The Ohio State University main campus, ATI, or any of its regional campuses. Qualified candidates must be current or former 4-H members who are involved in leadership activities. Preference is given to students from Richland, Knox, or Monroe Counties in Ohio. In the event that there are no qualified incoming freshmen, students of sophomore, junior, or senior standing who meet all other criteria may be considered for the scholarship.

Recipients shall be selected by the OSU Extension 4-H Youth Development scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

Change in Name and Description of Named Endowed Funds

The Nancy L. and James L. Fisher Football Athletics Scholarship Fund

The Nancy L. Fisher Football Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with original gifts from James L. Fisher of Akron, Ohio in memory of his wife Nancy. Additional gifts were given from James’ sister, Cheryl S. Fisher, of Wadsworth, Ohio, in James’ memory. The name and description were revised February 11, 2011.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team and is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.
February 11, 2011 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Cheryl S. Fisher, should she be alive, and from the director of Athletics.

**The PNC Dean's Innovation Fund**

The National City Bank Dean's Innovation Fund was established April 5, 2002, in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the National City Bank. National City Bank was acquired by PNC December 31, 2008. The name and description were revised February 11, 2011.

The annual distribution from this fund shall be used to support new initiatives in The Max M. Fisher College of Business by faculty and students as determined by the dean. Initiatives could include technology innovation and instruction, executive education projects, and M.B.A. fellowships with a potential internship with PNC. Fellowships shall be awarded in cooperation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the dean of the Fisher College of Business.

SUPPORT OF AN APPLICATION TO THE DEPARTMENT OF DEVELOPMENT
Resolution No. 2011-53

Synopsis: The Ohio State University Board of Trustees is interested in supporting the University’s application to the Department of Development for the Brownfield Revolving Loan Fund to support the Hopkins and Hayes Halls Renovations.

441
February 11, 2011 meeting, Board of Trustees

WHEREAS the State of Ohio, through the Department of Development, provides financial assistance to local governments for the purpose of addressing local needs; and

WHEREAS The Ohio State University intends to use support from the Brownfield Revolving Loan Fund Program to complete eligible activities, including but not limited to asbestos remediation in the historic Hayes Hall as part of the Hopkins and Hayes Halls Renovations redevelopment project; and

WHEREAS Hopkins and Hayes Halls Renovations is an approximately 0.64 acre property located principally at 108 North Oval Mall, Columbus, Ohio 43210 identified as Permanent Parcel Number 010-067007-00 and located within the boundary of the City of Columbus, Ohio; and

WHEREAS The Ohio State University intends to remediate the property, which formerly operated as the Department of Art History for redevelopment into Department of Industrial, Interior, and Visual Communication Design; and

WHEREAS The Ohio State University Board of Trustees is committed to working with The Ohio State University to pursue the remediation and redevelopment of the property; and

WHEREAS the Brownfield Revolving Loan Fund grant is vital to making the completion of the $1.2M Hopkins and Hayes Halls Renovations redevelopment project economically feasible.

NOW THEREFORE

BE IT RESOLVED, That The Ohio State University Board of Trustees approves and authorizes The Ohio State University to pursue use of the $141,000 Brownfield Revolving Loan Fund grant for work at the Hopkins and Hayes Halls Renovations, and the Department of Development is encouraged to fund this innovative and worthwhile project.

ACCEPTANCE OF THE REPORT OF AUDIT FOR 2009-2010
Resolution No. 2011-54

Synopsis: The report of the audit of the financial statements for The Ohio State University for 2009-2010 conducted by Deloitte & Touche is recommended for acceptance.

WHEREAS with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with Deloitte & Touche in 2006 for an annual audit of the University for fiscal years 2005-2006 through 2009-10; and

WHEREAS the Deloitte & Touche audit of the University for 2009-2010, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, and certain constructive service comments have been discussed with the Audit Committee; and appropriate procedures and responses are being developed as a result of these comments:

NOW THEREFORE

BE IT RESOLVED, That the report of the Deloitte & Touche audit for The Ohio State University for 2009-2010, including the report on the audit of the University's financial
February 11, 2011 meeting, Board of Trustees

statements and the summary of constructive service comments to management, be accepted.

RATIFICATION AND APPROVAL OF THE AMENDMENT AND RESTATEMENT OF THE OHIO STATE UNIVERSITY SUPPLEMENTAL QUALIFIED RETIREMENT PLAN, RENAMED THE RETIREMENT CONTINUATION PLAN

Resolution No. 2011-55

Synopsis: Ratification and approval of the amendment and restatement of The Ohio State University Supplemental Qualified Retirement Plan, renamed the Retirement Continuation Plan (“Plan”) is proposed.

WHEREAS the Board of Trustees originally adopted the Plan effective July 1, 2001; and

WHEREAS the University has the authority to amend the Plan from time to time; and

WHEREAS the University is required to amend the Plan to comply with the Internal Revenue Code (the “Code”) and other applicable laws, regulations, and administrative authority and desires to amend the Plan to make certain administrative changes; and

WHEREAS the University desires to obtain a favorable determination letter from the Internal Revenue Service (“IRS”) that the Plan continues to meet the qualification requirements of the Section 401(a) et seq. of the Internal Revenue Code; and

WHEREAS the Board of Trustees has reviewed and considered the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President and Chief Financial Officer for Business and Finance to fully amend and restate the Plan, effective as of January 1, 2011, in substantially the form attached as Exhibit A and incorporated herein by reference, and to submit the Plan to the IRS; and

WHEREAS the Board of Trustees has determined that the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer to amend and restate and execute the Plan on behalf of the University and to submit the Plan to the IRS prior to the date of this Resolution were proper and in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the amended and restated Plan, in substantially the form attached as Exhibit A be, and hereby is, approved, ratified and adopted effective as of January 1, 2011; and

BE IT FURTHER RESOLVED, That, the adoption and implementation of the Plan and any actions relating thereto by the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance and Chief Financial Officer that have been taken or made prior to the date of this Resolution are hereby ratified, affirmed and approved; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance and Chief Financial Officer is hereby authorized to execute any other instruments, documents or conveyances necessary to effectuate the amendment and restatement of the Plan and the submission of the Plan to the IRS.

(See Appendix XXVI for background information, page 492.)
February 11, 2011 meeting, Board of Trustees

Upon motion of Mr. Shumate, seconded by Mr. Brass, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Borror, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marpley, Kass, Jurgensen, Reid, Wadsworth, and Kellogg.

NAMING OF THE MARCI AND BILL INGRAM COMPREHENSIVE CENTER FOR AUTISM SPECTRUM DISORDERS AT THE OHIO STATE UNIVERSITY MEDICAL CENTER AND NATIONWIDE CHILDREN’S HOSPITAL
Resolution No. 2011-56

Synopsis: The naming of a virtual autism center that will recognize gifted physicians, medical researchers, social scientists, legal scholars, and educators at The Ohio State University Medical Center and at Nationwide Children’s Hospital who are working together to solve the puzzle of autism.

WHEREAS U.S. Centers for Disease Control reports staggering increases in cases of autism spectrum disorders (ASD); and

WHEREAS Columbus, Ohio is the home of two leading institutions in the field of autism research: The Ohio State University Medical Center and Nationwide Children’s Hospital; and

WHEREAS combining the efforts of these two institutions would allow scientists and faculty to attack a comprehensive range of issues, from initial diagnosis through adulthood; and

WHEREAS Marci and Bill Ingram have provided contributions to the Marci and Bill Ingram Research Fund for Autism Spectrum Disorders:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned autism center, a collaborative effort between The Ohio State University Medical Center and Nationwide Children’s Hospital be established and named the Marci and Bill Ingram Comprehensive Center for Autism Spectrum Disorders.

Name: DOUGLAS A. Berman
Title: Professor (Robert J. Watkins/Procter & Gamble Professorship)
College: Law
February 11, 2011 meeting, Board of Trustees

Name: JOHN C. BYRD  
Title: Professor (D. Warren Brown Designated Chair in Leukemia Research)  
College: Medicine  
Term: February 1, 2011, through June 30, 2015

Name: DAVID R. COLE  
Title: Ohio Research Scholar Professor  
College: Arts and Sciences  
Effective: September 22, 2010

Name: ALEXANDER R. FISCHER  
Title: Senior Advisor on Economic Development  
Office: President  
Effective: October 15, 2010

Name: STEPHEN M. GAVAZZI  
Title: Dean and Director  
Regional Campus: The Ohio State University – Mansfield  
Term: January 1, 2011, through June 30, 2016

Name: MARTHA GULATI  
Title: Clinical Associate Professor (The Sarah Ross Soter Endowed Chair in Women’s Cardiovascular Health at OSU Heart Center)  
College: Medicine  
Term: November 22, 2010, through October 31, 2015

Name: GUIDO MARCUCCI  
Title: Professor (The John B. and Jane T. McCoy Chair in Cancer Research)  
Center/Hospital/ Comprehensive Cancer Center/The Arthur G. Institute: James Cancer Hospital and Richard J. Solove Research Institute  
Term: December 1, 2010, through November 30, 2015

Name: LINDA C. MARTIN  
Title: Professor (The Sanford G. Price and Isabelle P. Barbee Chair in Teaching, Advising, and Learning)  
College: Food, Agricultural, and Environmental Sciences  
Term: January 1, 2011, through December 31, 2015

Name: PETER J. MOHLER  
Title: Director  
Institute: Dorothy M. Davis Heart and Lung Research Institute  
Effective: January 1, 2011, through December 31, 2014

Name: ELECTRA D. PASKETT  
Title: Professor (The Marion N. Rowley Chair in Human Cancer Genetics Research)  
College: Medicine  
Term: February 1, 2011, through June 30, 2015

Name: PHYLLIS K. TEATER  
Title: Chief Information Officer and Senior Associate Vice President  
Center: Medical Center  
Effective: September 1, 2010
February 11, 2011 meeting, Board of Trustees

Appointments/Reappointments of Chairpersons/Director

MEYER J. BENZAKEIN*, Interim Chair, Department of Aviation, effective January 1, 2011, through March 31, 2011.

FRANCIS A. IRELE, Department of African American and African Studies with the title Professor Emeritus, effective February 1, 2011.

DAVID L. JOHNSON, School of Environment and Natural Resources with the title Professor Emeritus, effective January 1, 2011.

JUDITH S. MAYNE, Department of French and Italian with the title Professor Emeritus, effective July 1, 2011.

KATHERINE MEYER, Department of Sociology with the title Professor Emeritus, effective February 1, 2011.

CHARLES H. DRUMMOND, Department of Materials Science and Engineering, with the title Associate Professor Emeritus, effective January 1, 2011.
February 11, 2011 meeting, Board of Trustees

A. HARDING GANZ, Department of History (Newark), with the title Associate Professor Emeritus, effective July 1, 2011.

ROBERT G. LUNDQUIST, Department of Mining Engineering with the title Associate Professor Emeritus, effective January 1, 2011.

JILL E. NOLAN, Ohio State University Extension with the title Associate Professor Emeritus, effective January 1, 2011.

STEPHEN J. SUMMERHILL, Department of Spanish and Portuguese with the title Associate Professor Emeritus, effective July 1, 2011.

JULIE A. DALZELL, Ohio State University Extension with the title Assistant Professor Emeritus, effective January 1, 2011.

HARRY L. GRABER, Department of Internal Medicine with the title Clinical Assistant Professor Emeritus, effective February 1, 2011.

WILLIAM T. GRUNKEMEYER, Ohio State University Extension with the title Assistant Professor Emeritus, effective May 1, 2011.

MICHAEL E. MILLER, Ohio State University Extension with the title Assistant Professor Emeritus, effective February 1, 2011.

PENELOPE A. PEARSON, University Libraries with the title Assistant Professor Emeritus, effective January 1, 2011.

THOMAS B. TURNER, Department of Animal Sciences with the title Assistant Professor Emeritus, effective February 1, 2011.

Emeritus Title – Change in Department

NICHOLAS A. VOTOLATO, change Department from Pharmacy to Department of Psychiatry, with the title Clinical Assistant Professor Emeritus, effective October 1, 2010.

Upon motion of Judge Marbley, seconded by Mr. O’Dell, the Board of Trustees adopted the foregoing resolutions with fourteen affirmative votes, cast by Trustees, Borror, O’Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Reid, Wadsworth and Kellogg, and one abstention cast by Trustee Wexner.

Mr. Wexner:

Before we adjourn I would like to take a few minutes, if we could, to go around the room. So I will start with Brandon. Any good welfare observations or comments, or you could say nothing.

Mr. Mitchell:

I would like to applaud Lynn Readey and Molly Ranz. As we all know there was a fire at one of the dorms in Newark and it was reported to the Physical Environment Committee yesterday that there were 44 students displaced and that they were all in hotels and allowed to go back into their dorms and get their personal belongings and personal items including their swimsuits. It seems that they are enjoying themselves at the hotel that we have them staying in. It has an indoor swimming pool, so they are having a good time there. They should be allowed back in that dorm on Sunday,
February 11, 2011 meeting, Board of Trustees

so they will not miss too much class, or be displaced for too long. I think that is a very exciting thing and luckily no one was hurt and everyone was safe.

Dr. Cloyd:

The thing that I walk away with again, I have to say is, it is wonderful that at this University in a time of where at many of the universities, particularly public universities, they see themselves in some kind of a deep hole, disaster, all about them and what kind of reactive measures can they take, that we really have a situation at this University where we can look at our current realities objectively and indeed there are some challenges, but be focused on really planning to do things that will continue to have this University advance to the eminence position we take. It is just a wonderful situation, and I think the meetings were very good in that regard.

Dr. Wadsworth:

I guess I would just echo that. The strategic planning yesterday, I think, reflected a lot of work in the past and is paying off as we anticipate how to deal with the next period of time. I thought something that could have been quite negative is something that is quite positive in terms of how we are planning and preparing for the future.

Dr. Reid:

I am particularly excited about three things. One is the med complex, great. It is just fantastic. Second, a new initiative that is beginning that Dr. J. is heading up that takes students who are very different from each other and putting them together to learn about each other over a period of time. I think that is fantastic. Third, certainly what we are doing to give students the ability to be global citizens, yet still love the state of Ohio. Very excited about that.

Judge Marbley:

Mr. Chairman, three observations. First, no one put better the results of our strategic plan than Dr. Whitacre. Dr. Whitacre leaned over to me and said you know this was really a mind expanding experience. She is our vice president of research, she is a scientist, and she is not given to hyperbole, so I think that she really summed it up quite well. That I thought, from my advantage point, that might have been one of the best meetings, if not the best meeting we have had in four years, because we thought about some really difficult issues and the talents around this table were all brought to bay about how we are going to solve some of the problems that we confront as a University. How we take those problems and turn them into opportunities, I agree with Dr. Whitacre, that was a mind expanding experience.

I also thought that what happened at the Medical Center was transformative not just because we were not even a dark horse to get the grant. It was going to go to some school in Connecticut as it started out, but we got it in any ways, but what it points to, I think the takeaway from that is the significance of our collaborative efforts. Our public, private partnerships, the assistance that was remnant by Battelle, what we were able to do with Dr. Wadsworth’s assistance, I think probably distinguished us and helped us to get it. So that was some leadership that Gordon brought to us when he kept pushing us toward private collaboration.

Third, and finally, I thought that Dr. Chait’s insights yesterday - we will look back on and find transformative as he has given us a new way to think about how we evolve from excellence to eminence, and how we widen the gap that he talked about, and how we can deliver a high quality product and a great education to our students and the metrics that we need to use that are counterintuitive in terms of doing it. So I think that we take away a lot, and we have a lot yet to do, but we understand how we go about doing it. That is important.
Mr. Schottenstein:

I spoke earlier about what I think I am most excited about. It was not the Audit Committee; it was Development, and the work we are doing in Advancement. I do want to say one thing because I know this is going to embarrass him, but Dr. Schuller was not in the room earlier when we, at your vary appropriate command Les, got up and applauded the work of the Medical Center. I said this yesterday at the Medical Affairs meeting, relative to this $100 million grant there is just something so fitting. Dr. Schuller was not only a historic leader for the James for many years, and of course still provides extraordinary leadership for the entire Medical Center, but was like a founding father frankly. I know he had 40 people working with him and the great work that Battelle did to help support the grant application was a team effort, but someone had to lead it. He led it. It is the biggest grant in the history of the University and, Dave is in here right now, so Dr. Schuller, thank you.

Mr. Fisher:

I thought we had a lot of opportunity to celebrate a lot of good things at this meeting. I think there is great potential for a lot of change for us to engage in and participate in. In the next 60 days before our April meeting and particularly as we go forward in this country, both with the budgeting emphasis at the national, state and local units of government, all those impact us in many ways, so we have a lot of opportunity here in the next several months to make a lot more positive change.

Mr. Shumate:

My comments, Mr. Chairman, would be that as I was sitting here, listening to our Committee reports, being really impressed with the substance and quality of the work that is going on in our committees, and appreciate the leadership of our committee chairs as well as the work of the committees, because as a person who is not able to serve on all the committees, it is nice to feel fully informed of the activities and to, quite frankly, be proud of the work that our committees and work groups are engaged in. The second comment would be that as I listen to Judge Marbley’s report on the Academic Affairs and Student Life Committee; just to recognize the balance that we have in our student body, when you look at the quality in terms of the tests scores, but also in terms of the diversity of our student body in our incoming classes, equally to hear about the great work going on inside the classroom because of the intelligence and the high quality students we have from an academic standpoint, but the outside of the classroom experiences that the University is offering to our students whether it is rec center opportunities, the social and civic engagement of our students as well as the international experience - so just very impressed with the focus on students and the balance that we are seeing in our student body.

Mr. Borror:

Of course I echo what my colleagues have said. I just continue to reflect on the issues that we discuss with the administration and among ourselves at the Board, are causing great substantive discussion and intellectual thought, and I think the results that are being produced and the things that are happening here are significantly better and significantly improved and are causing real meaningful change in this University, and it makes me proud.

Mr. O'Dell:

I would like to support what has already been said, but I just marvel at the momentum and the success this University is having. I know it is because of the great leadership we have in place throughout the University. I feel very confident that leadership will steer us through the difficult times ahead and that we will continue to win and excel.
February 11, 2011 meeting, Board of Trustees

Mr. Hicks:

It has been a great meeting. One of our best, we seem to say that every time we meet, they get better and better because I think they do get better and better. I think we have seen both this group and our committees and certainly the leadership working at a very high level and I think that Mr. Fisher is right, there is a lot of really big challenges ahead of us, but the opportunities are enormous. The great thing about this meeting from Wednesday to Thursday to today is that we are not waiting for somebody else to dictate what we do, we are taking advantage of the opportunities. I think we are being proactive, and I think we are being very creative, and I think every day that goes by, and every month that goes by, we are raising our game further and further up to meet the level - so just congratulations to the leadership of the University.

Mr. Ratner:

I think it has all been said. I will admit that every time I leave one of these Board meetings I am both totally energized and totally exhausted. It seems to be something that happens every time I touch Ohio State in any way. It seems to have that effect on me. It is exciting, and it is exciting to both look at what we have done and then to see the way we have opened our way to the future. There are not a lot of institutions that can say that at this point in their history and the country’s history that can really be as aggressively positive about really much, much better times to come, at the same time be looking back at a record of such achievements. That is a remarkable position to be in, and it is no doubt due to the leadership that President Gee has given and throughout the entire institution. Remarkable group of people, all the way down through our students.

The other comment I wanted to make, it came up yesterday, and we had some discussion about this; it is remarkable the contribution the student trustees make here. I think we should all be very grateful for that. You represent your fellow students so well and then you bring students forth at these meetings that, I always get sort of a chill. The hair goes up on the back of my neck when these kids talk about what Ohio State has meant to them. Small ways Board members can, in some way, contribute to, that is really the most rewarding part of this job. Thank you.

Mrs. Kass:

At this point in the circle there is not a whole lot more to add. I would definitely agree with Ron’s comment about the kind of energizing effect of our meetings together as well as about this point in time where we are all pretty exhausted, but I think the integration of what we do seems to be the most compelling thought I had at this moment. We just seem to holistically bring together our thinking and our actions and the kind of modeling that is going on. I think the advancement success over the last 12 months, I guess I want to particularly reiterate that I am just really proud of the work that has been done and the people who were involved and the leadership they showed, and how that was modeled throughout the University. I just think it is pretty amazing, and it just shows what kind of place we have here.

Mr. Jurgensen:

I think what strikes me, and it is a continuum, not just this meeting we went through, but it is when you link all the meetings of the last year or two together, is that there are two things that we are working on very hard, that we are working on a concert, and I just want to underscore the importance of that. One is planning, and planning in many forms, but I have strategic planning foremost in my mind, simultaneously with the work on culture. The reason that they are so closely aligned and need to continue to be aligned is all of us in this country, and really to a large extent, the world, the system of education we have is not working. It is not producing what we
need for it to produce as a system. As I continue to think about this, initially I would have thought that the majority of change that is required in this system to enable it to deliver what it should was not in the higher education element of the system. That higher education was closer to doing its job and the problems were more in secondary and primary, but I think as events are unfolding as we just think about the kinds of conversations that we are having about change that is taking place at Ohio State, it is becoming more evident that the majority of change, more change will occur in higher education that is going to take place, that is taking place in secondary/primary/pre-K, those notes in the system. Now the challenge of that is, if you ask people where resistance to change is the highest in the system, as a generalization, it would be in higher education. The thinking and the patterns, the patterns of behavior are most entrenched in higher education. That part of the system that events and requirements create the need to change the most is that part of the system where the resistance is the highest. That is why the linking of the cultural change is absolutely essential if any of the work on advancement, strategy, physical environment, all of that is going to be successful. It will only be successful to the extent that we are able to continue our work on altering the culture of the institution.

None of what I said is not on our radar screen, it is, but I think it is just something we are going to have to remain diligent about and we are.

Mr. Kellogg:

Two quick thoughts, one just to reiterate something that Jerry said yesterday. He talked about us needing to make sure, and he just did it again, to not underestimate the time, the energy, the effort that is required to make this foundational, continuing culture change. That really is at the core. It also ties into defining who we are and who we are going to be. Those things are tied together.

The other thing, Les, you said it earlier. It is a wonderful thing to have the opportunity to get better and to be making progress in that endeavor.

Finally, bullet words that resonate with me based on this being actually my first time to be involved in some of the committee meetings; blessed, challenged, energized, thankful.

Ms. Swain:

Two things that have stuck in my mind, first I keep reflecting on why students pick Ohio State, and I am going to continue to reflect on that through April. Our enrollment is up, our quality of students are up thanks to admissions and our enrollment strategy, then that flows into the second thing that stuck with me is making sure that we realized the consequences of our actions in terms of where we invest and divest and how that effects that balanced student that Mr. Shumate talked about. Making sure we still focus on building a quality, holistic student experience and we have talked about study abroad a lot today which is awesome. In the advancement meeting I asked what kind of student experiences make really engaged young alumni, and Melinda Swan said, "We have seen marks on students who participate in study abroad tend to be much more engaged as alumni," indicators like that. I think focusing on building that into our priorities, affordability and funding for it is definitely important, but also students need the ability to integrate that into their curriculum. It is hard to just take a quarter away and still try to graduate on time. We obviously are in a revolutionary time in our curriculums across all colleges with the switch to semesters, so this is something that definitely can be fit in. So as we focus on this wheel of engagement and how we bring in students and they become great alumni and they tell their stories and they support the University and that wheel starts turning, I am excited to be a part of pushing the wheel down the hill.
February 11, 2011 meeting, Board of Trustees

Mr. Wexner:

I think what strikes me, and I have the benefit of hearing what you have all said and thought about, and I think this is important if only to me. Gil said it, we are not the victims. You think about boards and groups and very often institutionally we all think individually and institutionally, we are the victims and in this case, we do not feel like we are the victims, not at the student level, hopefully not at any level of connection to the University and that is where we are taking the initiative and we are creating our own future. We are not the victims of the past, or of any group and that is a very healthy state of mind when you are not in a victim mode. You take responsibility for the present and the future and we can collectively be optimistic. I think the appreciation of the progress that we have, and Clark I am glad that resonated with you, is that any of us individually can ask for is the opportunity for today to be better than yesterday or the future to be better than the past. If in fact it is better and we have the opportunity yet to make it better, that is a pretty high state to be in, in terms of optimism.

The last thing, we spent a lot of time, and I am sure we will spend a lot of time trying to define what the land grant of the future is. What should the land grant mission be, and I was listening, I think pretty attentively to the meeting. I say if you can synthesize all the things that were reported and talked about, I think it begins to describe the land grant of the future. Whether it is national awards, international students, the planning, taking control of our destiny, thinking about our financial structure and intellectual structures in new and creative smart ways. I think rather than worrying about how you wordsmith it, I think we are doing, I really think we are, that is pretty good, so I am appreciative of that. So I will not worry about the wordsmithing of the land grant, we will just do it and be it.

President Gee:

I am going to be very short. First of all I really want to say, I know this is a public meeting, but I think all of you know what a privilege it is for me personally to work with you and the friendship that we share and we do have. We have wonderful friendships, and we share among each other, and I think that is important, the tone of the top. It is the fact that we do not always agree, we certainly do have times in which we move in different directions, but ultimately as we think about One University we also have to think about one Board, and I think clearly that is the case on so many different boards. There are so many different divisions that can fracture an institution and we just do not have that and I am really privileged by that. The colleagues that I work with are superb. We have a high expectation and a high level of competence in this University that is a real privilege to see and a real privilege to benefit from.

I do want to acknowledge today, you know we talk about a number of the changes that we have made, which are really transformative. The reconfiguration of the College of the Arts and Sciences, it has taken many institutions years to even talk about, and yet we did that. The move from quarters to semesters, the kind of trans institutional efforts that we are making, that does not happen without great partnerships. I really want to acknowledge our faculty, in particularly the faculty leadership that we have. I think Joe and Steve would agree with this, we have just had superb leadership from our faculty, who has in many ways prodded us to move even faster. We need to acknowledge that. This is an institution, it is not looking in the rear view mirror, and much of its leadership on the side of the faculty is so importantly engaged in that forward thinking mode. Obviously our students, our students are the most generous in terms of their enthusiasm and in terms of their advocacy for Ohio State. We could not be more privileged, wonderful staff. We are in about as strong of position as any institution can be. To lead, to be the new America university, to be the institution that does have people beat their path to our door and
February 11, 2011 meeting, Board of Trustees

    that is what we want to have. Columbus, Ohio has a wonderful airport, come and see us.

    Thank you.

Mr. Wexner:

    We are adjourned. Amen.

Thereupon the Board adjourned to meet Friday, April 8, 2011 at Longaberger Alumni House, Columbus, OH.

Attest:

    Leslie H. Wexner         David O. Frantz
    Chairman                Secretary
IMPECT STATEMENT

THE ARTHUR G. JAMES CANCER HOSPITAL
AND RICHARD J. SOLOVE RESEARCH INSTITUTE
MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS

AMENDMENTS APPROVED BY:
JAMES CANCER HOSPITAL MEDICAL STAFF ADMINISTRATIVE COMMITTEE – JUNE 11, 2010
JAMES CANCER HOSPITAL MEDICAL STAFF - JUNE 30, 2010
PROFESSIONAL AFFAIRS COMMITTEE OF THE OHIO STATE UNIVERSITY
MEDICAL CENTER BOARD – NOVEMBER 18, 2010
THE OHIO STATE UNIVERSITY MEDICAL CENTER BOARD – DECEMBER 16, 2010

I. MEDICAL STAFF BYLAWS

A. Updated and revised in order to align with new governance structure and approved revisions to Medical Center Board Bylaws.
B. Corrections throughout of titles of officers.
C. Updated and revised to reflect Joint Commission standards and University policies.
D. Updated and revised administrative responsibilities of officers.

II. MEDICAL STAFF RULES AND REGULATIONS

A. Minor administrative corrections.
B. Corrections throughout of titles of officers.
C. Updated and revised in order to align with new governance structure and approved revisions to Medical Center Board Bylaws.
BYLAWS OF THE MEDICAL STAFF
THE ARTHUR G. JAMES CANCER HOSPITAL AND
RICHARD J. SOLOVE RESEARCH INSTITUTE

3335-111-01 Medical staff name.

The board of trustees of the Ohio state university, by official action, established "the Arthur G. James cancer hospital and Richard J. Solove research institute (CHRI)." Hereinafter, the abbreviation "CHRI" shall mean the Arthur G. James cancer hospital and Richard J. Solove research institute; the term "medical staff" shall refer to the medical staff of the cancer hospital and research institute. "The medical staff of the Arthur G. James cancer hospital and Richard J. Solove research institute" shall be the name of the hospital's medical staff organization. In accordance with rules 3335-109-01 to 3335-109-20 and 3335-104-07 of the Administrative Code, the CHRI board of Ohio state medical center board (herein called "medical center board") has delegated to the medical staff of the CHRI the responsibility to prepare and recommend adoption of these bylaws.

3335-111-02 Purpose.

The purpose of the medical staff of the CHRI shall be:

(A) To maintain exemplary standards of medical care for all patients admitted to at the CHRI, consistent with a teaching environment, realizing that the continuous continuity of care and treatment of individual patients is the responsibility of the member of the attending, associate attending, clinical attending, or community associate staff to whose care the patient is admitted or transferred throughout the course of his or her illness, and to assure ongoing support and care for cancer survivors. To commit to being responsive to the needs of all CHRI patients and to communicate compassionately and effectively concerning matters of patient care.

(B) To support education and encourage research programs; research, with an emphasis on the prevention and treatment of cancer; to actively encourage patients to participate in clinical trials and other research, and to foster research programs to enhance and advance the educational and patient care programs elevate and advance the educational standards of our professions, including, but not limited to, pre and post medical or osteopathic students, nursing students, students of the allied medical professions, and students of other health professional colleges; and provide research programs to enhance and advance the educational and patient care programs.

(C) To support educational programs for health care and other professionals, patients and families, and the community, with an emphasis on cancer-related education; to elevate and advance the educational standards of our professions, including pre and post medical or osteopathic students, nursing students, students of the allied medical professions, and students of other health professional colleges.

(D) To provide a means whereby to identify and review medical problems may be reviewed, assure adherence to regulatory and accreditation standards, review and revise policies and procedures discussed, and to provide a means for establishing and maintaining standards of professional, medical and educational performance, organization, evaluation and discipline within the medical staff, and harmonious cooperation and understanding among the units comprising the CHRI.
February 11, 2011 meeting, Board of Trustees

(D)(E) To provide research, educational education, and service programs to benefit the mental, physical, and environmental health of the citizens of the state of Ohio and beyond; the region, the nation, and the world and to dedicate themselves to be responsive to the needs of their patients and to communicate effectively concerning matters of patient care, encourage facilitate dissemination of medical knowledge to health professionals and the public, and conduct research for the prevention and treatment of cancer.

3335-111-04 Membership.

(A) Qualifications.

(1) Membership on the medical staff of the CHRI is a privilege extended to allopathic and osteopathic physicians, dentists, oral surgeons, clinical psychologists, and podiatrists who consistently meet the qualifications, standards, and requirements set forth in the bylaws, rules and regulations of the medical staff, and the board of trustees of the Ohio state university. Membership on the medical staff is available on an equal opportunity basis without regard to race, color, creed, religion, sexual orientation, national origin, sex gender, age, handicap, genetic information, or Vietnam-era military or veteran status. Doctors of medicine, osteopathic medicine, dentistry, and practitioners of psychology and podiatry in faculty and administrative positions who desire medical staff membership shall be subject to the same policies and procedures as all other applicants for the medical staff.

(2) through (9) no change.

(B) Application for membership.

Initial application for all categories of medical staff membership shall be made by the applicant to the clinical department chief or designee on forms prescribed by the medical staff administrative committee, stating the qualifications and references of the applicant and giving an account of the applicant’s current licensure, relevant professional training and experience, current competence and ability to perform the clinical privileges requested. All applications for appointment must specify the clinical privileges requested. Applications may be made only if the qualifications are fulfilled as outlined in paragraph (A) of this rule. See paragraph (E)(1) of rule 3335-111-07 of the Administrative Code for exceptions to signature requirements. The application shall include written statements by the applicant that commit the applicant to abide by the bylaws, rules and regulations of the medical staff, the CHRI hospital medical center board, and the board of trustees of the Ohio state university. The applicant shall produce a government issued photo identification to verify his/her identity pursuant to hospital/medical staff policy. The applicant for medical staff membership shall agree that membership requires participation in and cooperation with the peer review processes of evaluating credentials, medical staff membership and clinical privileges, and that a condition for membership requires mutual covenants between all members of the medical staff to release one another from civil liability in these review processes as long as the peer review is not conducted in bad faith, with malice, or without reasonable effort to ascertain the accuracy of information being disclosed or relied upon. A separate record shall be maintained for each applicant requesting appointment to the medical staff.

(C) and (D) no change.
February 11, 2011 meeting, Board of Trustees

(E) Procedure for appointment.

(1) No change.

(a) If the applicant should be appointed to a category of the CHRI medical staff, the applicant agrees to be governed by the bylaws, rules and regulations of the medical staff, the CHRI medical center board, and the board of the trustees of the Ohio state university.

(b) through (d) no change.

(e) The applicant releases from any liability:

(i) All representatives of the CHRI for acts performed in connections with evaluating the applicant’s credentials or releasing information to other institutions for the purpose of evaluating the applicant’s credentials in compliance with these bylaws performed in good faith and without malice; and

(ii) All third parties who provide information, including otherwise privileged and confidential information, to members of the medical staff, the CHRI staff, the CHRI medical center board members, and members of the Ohio state university board of trustees concerning the applicant’s credentials performed in good faith and without malice.

(f) through (h) no change.

(2) The purpose of the health assessment shall be to ensure that the applicant or appointee to the CHRI medical staff is able to fully perform and discharge the clinical, educational, administrative and research responsibilities which the applicant or appointee would or is permitted to exercise by reason of medical staff appointment. At the time of the initial request for a health assessment, and at any time an appointee refuses to participate as needed in a health assessment, including, but not limited to, a drug or alcohol screening, the clinical department chief, division or department directors, or the director of medical affairs may impose a summary suspension per paragraph (D) of rule 3335-111-05 of the Administrative Code. Upon request of the medical staff administrative committee or CHRI the medical center board, the applicant or appointee will document their physical/mental status with sufficient adequacy to demonstrate that any patient treated by the applicant or appointee will receive efficient and quality care at a professionally recognized level of quality and efficiency. The conditions of this paragraph shall be deemed continuing and may be applicable to issues of continued good standing as an appointee to the medical staff.

(3) Through (7) no change.

(8) Completed applications shall be acted upon as follows:

(a) and (b) no change.

(c) By the professional affairs committee of the CHRI medical center board;
February 11, 2011 meeting, Board of Trustees

(d) By the CHRI medical center board within one hundred twenty days after receipt of a completed application and the report and recommendation of the medical staff administrative committee; and

(e) By the CHRI medical center board, or a subcommittee of the medical center board if eligible for expedited credentialing, within one hundred twenty days after receipt of a completed application and the report and recommendation of the medical staff administrative committee.

(9) through (11) no change.

(12) The recommendation of the medical staff administrative committee regarding an appointment decision shall be made within thirty days of receipt of the credentials committee recommendation and shall be communicated by the director of medical affairs, along with the recommendation of the director of medical affairs, to the professional affairs committee of the CHRI medical center board, and thereafter to the CHRI medical center board. When the CHRI medical center board has acted, the chair of the medical center board shall instruct the director of medical affairs to transmit the final decision to the clinical department chief, the applicant, and the respective section chief.

(13) no change.

(14) The director of medical affairs, who may make a separate recommendation to the CHRI medical center board, shall directly communicate the final recommendation of the medical staff administrative committee to the CHRI medical center board. When the CHRI medical center board has acted, the director of medical affairs will transmit the final decision to the clinical department chief, the applicant, the respective section chief, and the Ohio state university board of trustees.

(F) Procedure for reappointment.

(1) through (3) no change.

(4) The applicant for reappointment shall be required to submit any reasonable evidence of current ability to perform the clinical privileges requested. The clinical department chief shall review and evaluate the reappointment application and the supporting documentation. The clinical department chief shall evaluate all matters relevant to recommendation, including: the applicant's professional competence; clinical judgment; clinical or technical skills; ethical conduct; participation in medical staff affairs, if applicable; compliance with the bylaws, rules and regulations of the medical staff, the CHRI medical center board, and the board of trustees of the Ohio state university; cooperation with the CHRI hospitals personnel and the use of the CHRI hospital's facilities for patients; relations with other physicians other health professionals or other staff; maintenance of a professional attitude toward patients; and the responsibility to the CHRI and the public.

(5) through (8) unchanged.

(9) The medical staff administrative committee shall review each request for reappointment in the same manner and with the same authority as
an original application for appointment to the medical staff and shall accept, reject, or modify the request for reappointment in the same manner and with the same authority as an original application. The recommendation of the medical staff administrative committee regarding reappointment shall be communicated by the director of medical affairs, along with the recommendation of the director of medical affairs, to the professional affairs committee of the CHRI medical center board, and thereafter to the CHRI medical center board. When the CHRI medical center board has acted, the chair of the medical center board shall instruct the director of medical affairs to transmit the final decision to the clinical department chief, the applicant, and the section chief.

Balance unchanged.

3335-111-05 Peer review and corrective action.

(A) Informal peer review.

No change.

(B) Formal peer review.

(1) Formal peer review may be requested in more serious situations or where informal review has not resolved an issue or whenever the activities or professional conduct of a member of the medical staff of the CHRI:

(a) and (b) no change.

(c) Violates the bylaws, rules and regulations of the medical staff, the CHRI medical center board, or the board of trustees of the Ohio state university;

(d) and (e) no change.

(2) Formal peer review may be initiated by the clinical department chief, the section chief, the director of medical affairs, any member of the medical staff, the director chief executive officer of the CHRI, the dean of the college of medicine, any member of the CHRI medical center board, or the vice president for health services. All requests for formal peer review shall be in writing, shall be submitted to the director of medical affairs, and shall be supported by reference to the specific activities or conduct which constitute grounds for the requested action.

Balance unchanged.

3335-111-06 Hearing and appellate review procedure.

(A) No change.

(B) Request for hearing.

(1) No change.

(2) The failure of a medical staff member to request a hearing to which the member is entitled by these bylaws within the time and in the manner
herein provided, shall be deemed a waiver of the member's right to any review by the medical staff administrative committee to which the member might otherwise be entitled. The chief executive officer shall then implement the decision and that action shall become and remain effective against the medical staff member in the same manner as a final decision of the CHRI medical center board as provided for in paragraph (E) of this rule. The chief executive officer shall promptly inform the affected medical staff member that the proposed decision, which had entitled the medical staff member to a hearing, has now become final.

(C) No change.

(D) Conduct of hearing.

(1) Through (9) no change.

(10) Within fourteen days after the conclusion of the taking of all evidence and of all hearings, the medical staff administrative committee shall make a written report of its findings and its recommendation and shall forward the same together with the hearings record and all other documentation to the chairperson of the CHRI medical center board. Notice of that decision shall be sent certified return receipt mail to the affected medical staff member at the member's last known address as determined by university records by the director.

(11) The decision and record of the medical staff administrative committee shall be transmitted to the professional affairs committee of the CHRI medical center board, which shall, subject to the affected member's right to appeal and implementation of paragraph (E) of this rule, consider the matter at its next scheduled meeting, or at a special meeting to be held no less than thirty days following receipt of the transmittal. The professional affairs committee of the medical center board may accept, reject, or modify the decision of the medical staff administrative committee.

(12) The recommendation of the professional affairs committee of the CHRI medical center board shall be promptly considered by the CHRI medical center board at its next scheduled meeting. The CHRI medical center board may accept, reject, or modify the recommendation of the professional affairs committee of the medical center board.

(13) A copy of the CHRI medical center board decision shall be sent by certified return receipt mail to the affected medical staff member at the member's last known address as determined by university records.

(E) Appeal process.

(1) Within thirty days after receipt of a notice by an affected medical staff member of the action of the medical staff administrative committee the staff member may, by written notice to the chairperson of the CHRI medical center board, request an appeal. Such appeal shall only be held on the record before the medical staff administrative committee.

(2) no change.

(3) The appeal shall be conducted by the professional affairs committee of the CHRI medical center board.
(4) The affected medical staff member shall have access to the reports and records, including transcripts, if any, of the medical staff administrative committee and all other material, favorable or unfavorable, that have been considered by that committee. The member shall then submit a written factual statement specifying those factual and procedural matters with which the member disagrees, and the reasons for such disagreement. This written statement may cover any matters raised at any step in the procedure to which the appeal is related, and legal counsel may assist in its preparation. Such written statement shall be submitted to the professional affairs committee of the medical center board no later than seven days following the date of the affected member’s notice of appeal.

(5) New or additional matters not raised during the hearing procedure or in the medical staff administrative committee hearings shall only be introduced on appeal at the sole discretion of the professional affairs committee of the medical center board.

(6) Within fourteen days following submission of the written statement by the affected medical staff member, the professional affairs committee shall recommend to the CHRI medical center board that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical staff administrative committee for further review and recommendation. Such referral to the medical staff administrative committee may include a request for further investigation.

(7) Any final decision by the CHRI medical center board shall be communicated by the chief executive officer by certified return receipt mail to the affected medical staff member at the member's last known address as determined by university records. The chief executive officer shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief medical officer of OSU health system, the vice president for health services, the director of medical affairs, chief of staff, the section chief, clinical department chief and the academic department chairperson and the person(s) who initiated the request for formal peer review. The chief executive officer shall take immediate steps to implement the final decision.

3335-111-07 Categories of the medical staff.

The medical staff of the CHRI shall be divided into honorary, attending, associate attending, clinical attending, community associate attending, and limited designations. All medical staff members with admitting privileges may admit patients in accordance with state law and criteria for standards of care established by the medical staff. Medical staff members who do not wish to obtain any clinical privileges shall be exempt from the requirements of medical malpractice liability insurance, DEA registration and demonstration of recent active clinical practice during the last two years, but are otherwise subject to the provisions of these bylaws.

(A) Honorary staff.

The honorary staff will be composed of those individuals who are recognized for outstanding reputation, notable scientific and professional contributions, and high professional stature in an oncology field of interest. The honorary staff designation is awarded by the CHRI medical center board on the recommendation of the chief executive officer of the CHRI, senior vice president for health sciences, section chief, or the credentials committee after
approval by the medical staff administrative committee. This is a lifetime appointment. Honorary staff are not entitled to patient care privileges.

(B) through (G) no changes.

(H) Clinical privileges.

(1) Delineation of clinical privileges:

(a) Every person practicing at the CHRI by virtue of medical staff membership, faculty appointment, contract or under authority granted in these bylaws shall, in connection with such practice, be entitled to exercise only those clinical privileges specifically applied for and granted to the staff member or other licensed allied health professional by the CHRI medical center board after recommendation from the medical staff administrative committee.

(b) Through (g) no change.

(2) Temporary and special privileges:

(a) Temporary privileges may be extended to a doctor of medicine, osteopathic medicine, dental surgery, psychologist, podiatry or to a licensed allied health professional upon completion of an application prescribed by the medical staff administrative committee, upon recommendation of the chief of the clinical department, and approval by the director of medical affairs. The director of medical affairs, acting as a member and on behalf of the CHRI medical center board, has been delegated responsibility by the CHRI medical center board to grant approval of temporary privileges. The temporary privileges granted shall be consistent with the applicant’s training and experience and with clinical department guidelines. Prior to granting temporary privileges, primary source verification of licensure and current competence shall be required. Temporary privileges shall be limited to situations which fulfill an important patient care need and shall not be granted for a period of more than ninety days.

(b) through (e) no change.

(3) Expedited privileges:

If the CHRI medical center board is not scheduled to convene in a timeframe that permits the timely consideration of the recommendation of a complete application by the medical staff administrative committee, eligible applicants may be granted expedited privileges by the professional affairs committee or a subcommittee of the medical center board consisting of at least two members two voting members of the CHRI medical center board, the director of medical affairs and the chief of staff pursuant to hospital the medical staff policy and the CHRI hospital medical center board resolution.

(4) Through (7) unchanged.

(8) Licensed allied health professionals:

(a) Through (h) no change.
By applying for clinical privileges as a licensed allied health professional, the applicant agrees to the following terms and conditions:

(i) The applicant has read the bylaws and rules and regulations of the medical staff of the CHRI and agrees to abide by all applicable terms of such bylaws and any applicable rules and regulations, including any subsequent amendments thereto, and any applicable CHRI policies that the CHRI may from time to time put into effect;

(ii) The applicant releases from liability all individuals and organizations who provide information to the CHRI regarding the applicant and all members of the medical staff, the CHRI staff and the CHRI medical center board and the Ohio state university board of trustees for all acts in connection with investigating and evaluating the applicant;

(iii) The applicant shall not deceive a patient as to the identity of any practitioner providing treatment or service in the CHRI;

Balance unchanged.

3335-111-08 Organization of the CHRI medical staff.

(A) The chief executive officer.

(1) Method of appointment:

The chief executive officer shall be appointed by the board of trustees of the Ohio state university upon recommendation of the president, senior vice president for health sciences, and the vice president for health services following consultation with the CHRI medical center board in accordance with university bylaws, rules and regulations. The chief executive officer shall be a member of the attending medical staff of the CHRI.

(2) No change.

(B) The director of medical affairs.

(1) No change.

(2) Responsibilities:

The director of medical affairs shall be responsible to the chief executive officer, the medical director of the Ohio state university health system, and the CHRI medical center board for the quality of patient care provided in the CHRI. The director of medical affairs shall assist the chief executive officer in the administration of medical affairs including quality assurance and credentialing.

Balance unchanged.
February 11, 2011 meeting, Board of Trustees

3335-111-09 Elected officers of the medical staff of the CHRI.

(A) And (B) no change.

(C) Delegates at-large.

There shall be two delegates at-large that are members of the medical staff. Each delegate at large shall be a member of the medical staff administrative committee and shall serve on those committees of the CHRI medical center board as appointed by the chairperson of the CHRI medical center board.

Balance unchanged.

3335-111-10 Administration of the medical staff of the CHRI.

Medical staff committees.

(A) and (B) no change.

(C) Medical staff administrative committee:

(1) Composition:

(a) no change.

(b) Ex-officio non-voting membership includes: the CHRI chief operating officer executive director, the CHRI associate director for professional education, the CHRI chief nursing officer, the medical director of university hospital and/or the chief medical officer of the medical center, the dean of the Ohio state university college of medicine, the senior vice president for health sciences and the administrative director for medical staff affairs.

(c) and (d) no change.

(2) Duties:

(a) Through (d) no change.

(e) To fulfill the medical staff’s accountability to the CHRI medical center board for medical care rendered to patients in the CHRI, and for professional conduct and activities of the medical staff, including recommendations concerning;

Balance unchanged.

3335-111-12 Amendments.

These medical staff bylaws may be amended after notice is given at one meeting of the medical staff administrative committee. Such notice shall be laid on the table until the next meeting and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written or electronic ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded to the CHRI professional affairs committee, the James cancer hospital board
in successive order to the following: the professional affairs committee of the medical center board if it meets prior to the next scheduled medical center board meeting, the medical center board and the Ohio state university board of trustees. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff. Neither the medical staff, CHRI professional affairs committee, the James cancer hospital the medical center board nor the board of trustees may unilaterally amend the these medical staff bylaws. The medical staff bylaws, rules and regulations, hospital policies and the medical center board bylaws shall not conflict.
03 ATTENDING ASSIGNMENT.

(A) and (B) no change.

(C) In the case of a medical or psychiatric emergency involving a patient, visitor or CHRI staff member in an inpatient or outpatient setting, any individual who is a member of the Medical Staff or who has been delineated privileges is permitted to do everything possible to save the life or prevent serious harm regardless of the individual's staff status or clinical privileges.

05 ORDER WRITING PRIVILEGES.

(A) Definition of "Patient Orders".

(1) and (2) no change.

(A) through (G) no change.

(H) “Transfer of clinical service” means transfer of full patient responsibility from one attending physician, dentist, psychologist or podiatrist to another; the patient may remain on the same unit or a change in patient care area may also occur. Admission of a patient from an emergency service to the hospital as an inpatient involves “transfer of clinical service.”

For the purposes of order writing, two essentials of “transfer of clinical service” are necessary:

(1) The initial transfer order must indicate the release of responsibility and control of the patient, pending acceptance by the receiving service. The order may read—“transfer (or admit) to Dr , Head Service.”

(2) Transfer of service may be completed only by the receiving service writing an order to the effect—“accept in transfer (or admission) to Dr. , Head Service.”

Orders effective before the transfer must be renewed or rewritten upon transfer by signature of a responsible medical practitioner, a limited staff member, or other licensed healthcare professionals with appropriate clinical privileges. The new or renewed orders may be written before or at the time of transfer, and may become effective immediately. It is the responsibility of the receiving nurse to establish the availability of new or renewed orders. If new orders are unavailable, then the nurse may continue previous orders and immediately notify the responsible medical practitioner, a limited staff member, or other licensed healthcare professionals with appropriate clinical privileges.

(I) and (J) no change.

(K) Do not resuscitate orders.

The order for do not resuscitate indicating that the patient should not undergo cardiopulmonary resuscitation may be written only by the attending physician or his...
delegate. Verbal orders for do not resuscitate will not be accepted under any circumstances. The order for do not resuscitate may be rescinded only by the attending physician or delegate and an order must be written to annul said order. Please refer to hospital policy 03-24 Do Not Resuscitate Orders do not resuscitate orders for further details.

(L) Restraint and seclusion orders.

Restraint and seclusion orders require careful evaluation and monitoring. Please refer to hospital policy 03-30 Restraint restraint and Seclusion seclusion for further details.

11 COMMITTEES.

In addition to the medical staff committees, the medical staff shall participate in the following hospital and monitoring functions: infection control, clinical quality management, safety, and disaster planning and in other leadership council for clinical quality, safety and service advisor policy groups.

Operating Room Committee

(A) The operating room committee shall have representation from all clinical departments utilizing the operating room. Representation will include: medical director of the CHRI operating room, the section or division chief, or their designee, of: surgery, gynecologic oncology, urology, otolaryngology, radiation oncology, thoracic surgery, surgical oncology, neurological surgery, orthopedic surgery, anesthesia, and plastic surgery; epidemiology/infection control, the medical director of perioperative services for the Ohio state university health system, the CHRI medical director of quality, the director of perioperative services of the CHRI operating room, the manager of perioperative services, the director of admitting, the operating room coordinator, and the CHRI director of operations. The committee chair will be a CHRI surgeon selected by the nominating committee and shall serve a two-year term beginning on the first of July. The committee shall meet monthly and carry out the following duties:

(1) through (3) no change.

(4) Maintain written records of actions taken, and results of those actions, and make these available to each committee member, the vice president of health services, the director of medical affairs, and the chief operating officer executive director of the CHRI.

(B) no change.

Pharmacy and Therapeutics/Drug Utilization Evaluation Committee (P & T Committee)

The P & T committee shall be appointed in conformity with the medical staff bylaws and have representation from medical staff, nursing, pharmacy department, college of pharmacy, and the hospital administration. The majority of members shall be members of the medical staff. The committee shall meet at least quarterly and carry out the following duties:

(A) through (K) no change.

Transfusion and Isoimmunization Committee

(A) and (B) no change.
February 11, 2011 meeting, Board of Trustees

Infection Control Committee

No change.

Leadership Council for Clinical Quality, Safety and Service

The Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service shall consist of members appointed pursuant to the university hospital’s medical staff bylaws, and shall include the senior vice president for health sciences as an exofficio member without a vote, and the director of medical affairs and chief of staff as voting members. The medical director of university hospitals shall be the chairperson of the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service. The Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service shall authorize policy groups to be formed to accomplish necessary hospital and medical staff functions on behalf of the CHRI and university hospitals.

CHRI representatives on the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service shall be appointed as provided in the CHRI bylaws.

(A) No change.

(B) Clinical quality and patient safety committee.

(1) no change.

(2) Duties

(a) through (h) no change.

(i) Report and coordinate with the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service all quality improvement initiatives.

(C) Clinical resource utilization policy group

(1) no change.

(2) Duties

(a) through (c) no change.

(d) Report and recommend to the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service changes in clinical practice patterns in compliance with applicable governmental regulations and accreditation requirements when the opportunity exists to improve the resource management.

(D) Evidence-based practice policy group

(1) no change.

(2) Duties

(a) no change.
(b) To report regularly to the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service for approval of all new and periodically reviewed evidence-based medicine resources for use within the CHRI.

(c) Oversee the development, approval and periodic review of the clinical elements of computerized ordersets and clinical rules to be used within the information system of the CHRI. Computerized ordersets and clinical rules related to specific practice guidelines should be forwarded to the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service for approval. All other computerized value enhancement for approval. All other computerized ordersets and clinical rules should be forwarded to the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service for information.

(d) To initiate and support research projects when appropriate in support of the objectives of the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service.

(e) no change.

(f) Regularly report a summary of all actions to the Leadership Council leadership council for Clinical Quality clinical quality, Safety safety and Service service.

12 MECHANISM FOR CHANGING RULES AND REGULATIONS.

(A) And (B) no change.

(C) Before approval the Director director of Medical Affairs medical affairs or Chief chief of Staff staff shall circulate the proposed change to all medical staff, allowing adequate time for comment.

(D) and (E) no change.

(F) Amendments so accepted shall become effective when approved by the CHRI medical center board.

Balance unchanged.

13 ADOPTION OF THE RULES AND REGULATIONS.

These rules and regulations shall be adopted by the Medical Staff Administrative Committee medical staff administrative committee and forwarded for approval to the CHRI Board in successive order to the following: the professional affairs committee of the medical center board if it meets prior to the next scheduled medical center board meeting, the medical center board and The Ohio State University Board of Trustees.

14 SANCTIONS

Each member of the medical staff shall abide by policies approved by the Medical Staff Administrative Committee medical staff administrative committee of the CHRI. Failure to abide may result in suspension of some or all hospital privileges.
BACKGROUND

A number of workforce factors are expected to be of increased presence at The Ohio State University in the near term:

− The process of potential University structural changes—e.g., administrative streamlining and service centers;
− The potential need for specific colleges to make changes in available talent to achieve programmatic goals;
− The significant proportion of retirement-eligible faculty and staff; 39% of regular faculty (tenure, clinical, research) are eligible to retire within five years. For staff (regular staff only, does not include Temp or Term staff), 26% are currently eligible or will become eligible within 5 years; and
− The need to enable budget savings to be achieved where required

Given the variety of differences between individual colleges and vice presidential units, local solutions should be sought to the above workforce planning factors rather than seeking university-wide solutions. These solutions should consider the unique budget and talent needs of each college or unit and must support the retention of key faculty and staff and preservation of a positive culture of commitment and engagement.

RECOMMENDATION

In anticipation of these factors, the Office of Human Resources and the Office of Legal Affairs will develop a flexible program of voluntary separation incentives including phased retirement, with these key considerations:

− A program of separation incentives will be made available to colleges and vice presidential units for use on an as-needed basis with the support of the Office of Human Resources and The Office of Legal Affairs; this program is only available to meet defined and targeted needs on a time-limited basis, and will not be available broadly or on a continuing basis.
− The Office of Human Resources, and/or the Office of Academic Affairs with colleges, will work with colleges and vice presidential units that need assistance with workforce planning (aligning talent resources with strategic priorities).
− Under this program, a specific plan may be developed to incent appropriate groups of staff or faculty to separate, based on some combination of position, department or tenure length; participation will be voluntary.
− The plan design will consider the unique budget needs of the college or vice presidential unit through a cost/benefit analysis.
− Individuals could be deemed ineligible within an eligible group, due to the mission-critical nature of their work. The college or vice presidential unit, the Office of Human Resources, and the Office of Legal Affairs must agree on eligibility criteria and communication materials.
− The separation of individuals deemed mission-critical could be delayed for up to six months,
− All college plans must also be approved by the Office of Academic Affairs.
− The outcomes gained from the process will be documented.
**OUTLINE OF PROGRAM PARAMETERS**

**Separation Incentives**

<table>
<thead>
<tr>
<th>Eligibility</th>

All separation and phased retirement agreements are intended to be enforceable and enforced at time of separation, including tenured faculty agreements.
Background And Overview

The Ohio State University ("OSU") China Gateway project is entering into its next phase, which will require creation of a new legal entity in China. The OSU China Gateway LLC is an Ohio limited liability company (the "LLC"). OSU is the sole member of the LLC and has complete control over its operation. The LLC was formed as a necessary legal prerequisite to meet OSU’s institutional goal of establishing a physical presence in China by June of 2010. The LLC, in turn, has established a Foreign Representative Office ("FRO")¹ in Shanghai, China. The establishment of the FRO was also a necessary legal prerequisite for the leasing of office space, opening of financial accounts, and hiring of staff. The project as a whole is referred to as the "China Gateway."

In order to expand to the activities of the China Gateway to include executive education or similar types of training programs, it will be necessary to form a new Chinese entity known as a Wholly Foreign Owned Enterprise ("WFOE"). This next step was anticipated and briefly addressed in previous materials presented to the Board of Trustees during the approval process for the FRO. Chinese law requires the creation of the WFOE to permit development of the revenue generating activities that will assist the Gateway in becoming self-sustaining over the next several years. The WFOE will be wholly-owned by the LLC, and the FRO will be phased out after approval of the WFOE by the Chinese government.

Budget

The Office of the Provost is providing funding for the activities of the China Gateway project. An initial 6-month start-up budget of $241k was approved to cover expenses through the end of FY2010. The Office of the Provost has further agreed to fund the China Gateway operation for the next 12 years with $600k allocated for FY2011, with the budget decreasing by $50k in subsequent years until exhaustion. The Office of International Affairs will supplement this allocation with approximately $175k during the first three years of operation and the remainder of funds will be derived through revenue-generating programs offered at the China Gateway site.

Purpose

The primary purpose of the China Gateway is to further the establishment of OSU as a global university. To this end, the Gateway is engaged in the following activities:

- Alumni and student liaison.
- Facilitation of collaborations between OSU and Chinese institutions or organizations.
- Facilitation of OSU faculty teaching and research collaborations.
- Development of specialized executive education or training programs consistent with Chinese law.
- Relationship building within the local business community and in particular, Ohio Department of Development (ODOD) business and government contacts.
- Donor contact with interested alumni, friends, and corporations in China.

¹ The full legal name of the FRO is: "OSU China Gateway LLC (Shanghai) Representative Office."
February 11, 2011 meeting, Board of Trustees

The China Gateway project has already generated a highly enthusiastic response from OSU alumni in China and facilitated new agreements for programs between OSU units and Chinese institutions.

Legal Structure

OSU is the sole member of the LLC. This arrangement provides the Senior Vice-President for Business & Finance at OSU with the authority to appoint or remove officers, approve resolutions on behalf of the LLC, and make any necessary changes to the structure or operation of the LLC.

The LLC currently has two officers. These officers are: (1) the OSU Vice Provost for Global Strategies in the Office of Academic Affairs (President); and (2) the Program Manager for International Programs Liaison in the OSU Office of International Affairs (Secretary/Treasurer). Thus, all officers of the LLC are OSU employees. Structural changes in the LLC will be made to provide for a three member Board of Directors and for separate Treasurer and Secretary positions.

The LLC filed for permission from the Chinese State Administration for Industry and Commerce (“SAIC”) to create the FRO, which is one of the permissible vehicles for foreign entities to legally conduct operations in China. The SAIC approved the formation of the FRO. The FRO in Shanghai has a “Chief Representative” appointed by the Vice-Provost for Global Strategies (President of the LLC) and approved pursuant to Chinese law by the SAIC. The Chief Representative is the actual manager of the China Gateway operations on the ground in China. Pursuant to the requirements of Chinese law, she is employed by the FRO through one of three Chinese employment agencies approved by the Chinese government for this purpose.

The FRO is not legally permitted to engage in revenue generating activities under Chinese law. Therefore, to aid in our long-term goal of offering executive education or other types of training programs in China, formation of a new legal entity is necessary. This entity is the Wholly Foreign Owned Enterprise or “WFOE.” The WFOE will be wholly-owned by the LLC, thereby enabling the LLC to control appointments and actions of the WFOE. The current Chief Representative of the FRO will be the new manager of the WFOE, and the FRO will be phased out after establishment of the WFOE.

The minimum initial required investment for the WFOE under Chinese law is approximately $150,000, which will be paid out of the budgeted amounts described above. This investment may be used by the WFOE as operating capital. In addition, OSU has engaged Benesch, Attorneys at Law as outside legal counsel to assist in the formation of the WFOE. The legal cost for the formation of the WFOE will be approximately $74,000, payable in 12 monthly installments to outside counsel. This representation will include the preparation of all materials (Articles of Association, Business License, Tax Documents, etc.) and negotiation with the applicable governmental authorities involved in the WFOE application process. Outside counsel will also assist in deregistering the existing Foreign Representative Office.
Amendments to the Rules of the University Faculty

3335-1-05 University organization.

(A) University organization.

(1) and (2) no change.

(B) Basic educational organization of the university. The basic organization of the educational units of the university shall be departments, divisions, schools, academic centers, colleges, regional campuses, the graduate school, the federation of the colleges of the arts and sciences, and the agricultural technical institute.

(C) through (E) no change.

(F) Colleges and graduate school; establishment. For educational administration the university shall be organized into a graduate school and eighteen fourteen colleges. The following five colleges shall comprise the federation of the colleges of the arts and sciences: the college of the arts, the college of biological sciences, the college of humanities, the college of mathematical and physical sciences, and the college of social and behavioral sciences. The other thirteen fourteen colleges are: the college of arts and sciences, the college of food, agricultural, and environmental sciences, the Max M. Fisher college of business, the college of dentistry, the college of education and human ecology, the college of engineering, the Michael E. Moritz college of law, the college of medicine, the college of nursing, the college of optometry, the college of pharmacy, the college of public health, the college of social work, and the college of veterinary medicine.

(G) no change.

(H) Colleges and graduate school; administration.

(1) There shall be a dean of each college and of the graduate school and an executive dean of the college of arts and sciences who shall be a member of its faculty and the administrative head of the college or of the school. The major responsibility of each dean and the executive dean shall be that of providing active leadership in the promotion, direction and support of educational and research activities of the university, in the maintenance of a high level of morale among the faculty, and in the encouragement of the spirit of learning among the students. Further detailed duties of the deans of the colleges and of the graduate school, and the executive dean of the college of arts and sciences shall be fixed by rules and regulations promulgated by the board of trustees.

(2) There shall be an executive dean and vice provost of the colleges of the arts and sciences who is the administrative head of the colleges of the arts, biological sciences, humanities, mathematical and physical sciences, and social sciences. The major responsibilities of the executive dean and vice provost are to select, in consultation with the provost, the search committees for the college and divisional deans and advise the provost on the appointment of these deans; work with the provost on annual evaluations of the college deans; coordinate and manage central services, report to the provost on behalf of the college deans, advise the provost regarding base budgets and rebasing allocations and, following review by the provost, manage these funds for the colleges; allocate common funds
February 11, 2011 meeting, Board of Trustees

among the arts and sciences; and review budget management in the colleges. The executive dean and vice provost also administers curriculum approved by the faculty and is responsible for honors and scholars programs and for interdisciplinary centers and programs involving multiple colleges. As requested, the executive dean and vice provost will advise the provost on promotion and tenure recommendations and service as a member of the council of deans. Further detailed duties of the executive dean and vice provost shall be fixed by rules and regulations promulgated by the board of trustees.

(3) Each college, and the graduate school, and the colleges of the arts and sciences shall have a secretary and may have such other administrative officers as are necessary to carry out the program of the college or of the school. These persons shall have such duties as are assigned to them by the dean of the college, or of the graduate school, or by the executive dean of the colleges of the arts and sciences.

Balance unchanged.

3335-3-22 Council of deans.

(A) The executive vice president and provost, the deans of the colleges, the executive dean of the colleges of the arts and sciences, the senior vice president for business and finance and chief financial officer, the senior vice president for research, the dean of the graduate school, the deans and directors of the regional campuses, the vice provost for enrollment services and dean for undergraduate education, and the director of libraries shall comprise the council of deans of the university. The executive vice president and provost shall be chair of the council.

(B) The council of deans shall meet on the call of the chair. The council of deans shall serve as an advisory council to the president.

3335-3-26 Establishment of colleges and graduate school.

For educational administration the university shall be organized into a graduate school and eighteen colleges, as established in paragraph (F) of rule 3335-1-05 of the Administrative Code.

3335-3-28 Organization of the colleges of the arts and sciences.

(A) The colleges of the arts and sciences shall consist of the five colleges so designated by paragraph (F) of rule 3335-1-05 of the Administrative Code and the faculty of the arts and sciences as created by rules 3335-5-26 to 3335-5-28 of the Administrative Code.

(B) Student personnel services and student records for the colleges of the arts and sciences shall be administered by the colleges of the arts and sciences.

For administrative purposes the college of arts and sciences shall be organized into the division of arts and humanities, the division of natural and mathematical sciences, and the division of social and behavioral sciences; each led by a divisional dean, who is appointed by the executive dean of the college of arts and sciences.
There shall be a dean of each college and an executive dean of the college of arts and sciences who shall be a member of its faculty and the administrative head of the college. Each dean and the executive dean shall be appointed and reappointed by the board of trustees upon nomination of the president. Before making this nomination or recommendation for reappointment, the president shall confer with members of the faculty of the college for which the dean or executive dean is to be appointed and shall give substantial weight to faculty recommendations in reaching a decision. The president shall also consider the recommendations of the chairs of the departments and the directors of the schools in that college.

The major responsibility of the dean of each college and the executive dean of the college of arts and sciences shall be that of providing active leadership in the promotion, direction and support of educational and research activities of the university, in the maintenance of a high level of morale among the faculty, and in the encouragement of the spirit of learning among the students. In addition the dean or the executive dean shall have general administrative responsibility for the program of the college, subject to the approval of the president and the board of trustees. These administrative responsibilities shall include the duty:

1. Through (3) no change.

4. After consultation with the chairs of the departments and the directors of the schools within the college to make recommendations to the executive vice president and provost concerning the college budget, the appointments to and promotions within the staff and the membership of the college faculty. All recommendations by the deans of the colleges of the health sciences will be made to the senior vice president for health sciences who will accomplish the appropriate coordination and make recommendations to the executive vice president and provost.

The dean and executive dean of the college of arts and sciences is hereby given authority requisite to carrying out the responsibilities of his or her position. The dean and the executive dean may delegate any of his or her responsibility and authority to another member of the faculty of the college. The dean and executive dean shall be a voting member of the faculty of each department.

The usual method of communication between the dean and executive dean of the college of arts and sciences and the president or the board of trustees shall be through the appropriate staff member, then to the president and through the president to the board of trustees.

An untenured regular tenure-track faculty member will have time excluded from the probationary period in increments of one year to reflect the caregiving responsibilities associated with the birth of a child or adoption of a child under age six. Department chairs or school directors will inform the office of academic affairs within one year of the birth of a child or the adoption of a child under age six of a probationary faculty member unless the exclusion of time is prohibited by paragraph (D)(3) of this rule. The
probationary faculty member may choose to decline the one-year exclusion of time from the probationary period granted for the birth or adoption of a child under six years of age by so informing her/his TIU head, dean, and the office of academic affairs in writing before August 1 of the new mandatory review year following granting of the declination. The exclusion of time granted under this provision in no way limits the award of promotion and tenure prior to the mandatory review year (see paragraph (D)(2) of this rule). The maximum amount of time that can be excluded from the probationary period per birth event or adoption of children under age six is one year.

(2) A probationary tenure-track faculty member may apply to exclude time from the probationary period in increments of one year because of personal illness, care of a seriously ill or injured person, an unpaid leave of absence, or factors beyond the faculty member's control that hinder the performance of the usual range of duties associated with being a successful university faculty member, i.e., teaching, scholarship, or service. Requests to exclude time from the probationary period made under the terms of this paragraph must be submitted to the chair of the tenure initiating unit. Requests shall be reviewed by the tenure initiating unit promotion and tenure committee which shall advise the tenure initiating unit chair regarding their appropriateness. Such requests require approval by the tenure initiating unit chair, dean, and executive vice president and provost. A request to exclude time from the probationary period for any of these reasons must be made prior to October 1 of the year in which the mandatory review for tenure must occur. The extent to which the event leading to the request was beyond the faculty member's control, the extent to which it interfered with the faculty member's ability to be productive, and the faculty member's accomplishments up to the time of the request will be considered in the review of the request.

Balance unchanged.

3335-9-33 Standards for honors at graduation.

(A) and (B) no change.

(C) Standards for graduation "with research distinction in [special subject(s)]," "with honors research distinction in [   ]," and "with honors in [   ]" shall be as adopted by the council on academic affairs. Eligibility for these honors shall be based on a minimum of ninety credit hours of course enrollment at this university. The marks for all Ohio state coursework considered toward the degree will be included in calculating a student's eligibility for such honors. Credits in courses graded “S/U” and credits earned in repeatable coursework will be considered as counting toward the ninety credit hours. Credits in courses graded “PA/NP” and credits earned in coursework repeated in rule 3335-8-28 of the Administrative Code will not be considered as counting toward the ninety credit hours.

(D) Beyond these minimal requirements the enrollment units may establish.

3335-17-01 Administration members.

The twenty-six members from the administration shall consist of the university president, the executive vice president and provost, the senior vice president for business and finance, the senior vice president for research, the vice president for student life, the eighteen deans of the colleges, the executive dean of the college of
February 11, 2011 meeting, Board of Trustees

arts and sciences, the deans of the other thirteen colleges, the executive dean of the regional campuses, the dean of the graduate school, the dean for undergraduate education, and the director of libraries, and the three divisional deans of the college of arts and sciences.

3335-19-10 Attendance.

Members of the senate shall attempt to avoid conflicts between their academic schedule and the meetings of the senate and related committees. In the event of unavoidable conflict, it is expected the members will choose that resolution most favorable to their academic obligations. All members are expected to arrange for attendance by an alternate member at those senate meetings the member is unable to attend.

A committee member who misses all committee meetings in a quarter may be removed by the committee chair and replaced, as appropriate, by an appointment made by the executive committee of faculty council, student leadership, the office of the president, or other relevant appointing body. Any mitigating circumstances should be reported to the committee chair and the chair should keep and report attendance records to the university senate office and the senate constituencies.
February 11, 2011 meeting, Board of Trustees

(APPENDIX XXIII)

**Advancement Goals**

*To be achieved by 2016*

**Advancement Financial Goals**
(Approved by BOT Advancement Committee 9/16)

- Become America’s #1 public university in total private support.*
  - *(Ranked 11th based on 2007-2009 results)*
- Raise $2.5 billion from a comprehensive fundraising campaign.

**Advancement Engagement Goals**
(Approved by BOT Advancement Committee 10/28)

- Double the number of annual donors.
  - *(From 120,000 to 240,000)*
- Earn a very satisfied rating from 50% of alumni for providing opportunities to be or stay involved with the University.
  - *(Currently 30%)*
- Demonstrate yearly increases in the number of volunteers actively serving Ohio State.
  - *(Baseline to come)*

**Advancement Awareness Goals**
(To be considered by the BOT Advancement Committee 2/10)

- Expand the number of national leaders who award high marks to Ohio State.
  - *(From 39% to 50% in awareness and from 24% to 40% in very favorable ratings)*
- More than triple the number of advocates and ambassadors who are equipped and motivated to reinforce key university accomplishments and attributes.
  - *(From an estimated less than 10% to 35%)*
- Double the number of Ohioans who feel a strong connection to the University.
  - *(From 22% to 44% who report a very strong bond)*

* This goal is set for completion in 2020.

(APPENDIX XXV)

Project Data Sheet for Board of Trustees Approval

Boiler Replacement
OSU-080267
Project Location: McCracken Power Plant

- approval requested and amount
  professional services $2.6M

- project budget
  construction w/ contingency $12.6M
  other costs (fees, equipment) $2.6M
  total project budget $15.2M

- funding sources
  university bond proceeds

- project schedule
  design/bidding 07/11 – 04/13
  construction 04/13 – 04/14

- Framework context
  o this project is consistent with the Framework principles to improve existing campus infrastructure and provide for future growth

- project scope
  o replace the decommissioned boiler #8 in order to supply increases in campus steam demand anticipated by the OSU Medical Center expansion and the Chemical and Biomolecular Engineering and Chemistry Building; this is also expected to support potential expansion of sophomore student housing
  o the replacement boiler is also expected to meet imminent steam requirements of current projects

- project status and update
  o pre-design stage will evaluate boiler configurations adaptable to heat recovery in a combined cycle application and whether cogeneration and combined heat and power system should be pursued in the future at the Columbus campus

- project team
  University project manager: Tom Carmody
  A/E: tbd
  major contractors: tbd

Office of Administration and Planning

Core Campus Projects

- Hospital Kitchens Renovation
- Selected Tunnel Replacement Projects
- Boiler Replacement
Project Data Sheet for Board of Trustees Approval

Selected Tunnel Replacement Projects

OSU-081049
Project Location: N/A

- approval requested and amount
  professional services $1.5M

- project budget
  construction w/ contingency $8.9M
  other costs (e.g., equipment) $1.5M
  total project budget $10.4M

- funding sources
  university bond proceeds

- project schedule
  design/bidding 07/11 – 06/12
  construction 06/12 – 10/16

- Framework context
  - this project is consistent with the Framework principles to improve existing campus infrastructure and provide for future growth

- project scope
  - upgrade and extend the life of deteriorated utility tunnel sections across campus
  - areas included will be College Road between Page Hall and Hagerty Hall, the intersection of College Road and 18th Avenue; beneath the west end of 18th Avenue at the intersection of Magruder; beneath 19th Avenue immediately south of Hackett Hall; beneath Neil Avenue from south of 12th Avenue to north of South Oval Drive; beneath the entrance to the Virgil Hall parking lot

- project status and update
  - construction phasing will be determined during design and will be based on a review of the tunnel assessments and priorities identified in the 2006 Infrastructure Master Plan

- project team
  University project manager: Al Stazzone
  AEC: Hals
  major contractors: Hals

Office of Administration and Planning
February 2011
Project Data Sheet for Board of Trustees Approval

Campus Electric Capacity, Phase 2 (New Substation)
OSU-081042
Project Location: N/A

- approval requested and amount
  construction contracts $50.0M

- project budget
  construction w/ contingency $50.0M
  other costs (des, equip, misc.) $7.8M
  total project budget $57.8M

- funding sources
  university bond proceeds

- project schedule
  AEP construction 09/10 – 06/11
  design/bidding 02/10 – 07/11
  construction 07/11 – 12/12

- Framework context
  - this project is consistent with the Framework principles to improve existing campus infrastructure and provide for future growth

- project scope
  - this project will construct a new electrical substation to meet current and future campus electrical demands; the substation will be built to support mid-range needs but designed such that campus growth, expansion of on-campus generation and backup power systems can be supported over the next 50 years
  - the new substation will be the primary source of power to buildings west of the Olentangy River
  - the new substation will also provide redundancy to the existing substation to improve electrical reliability in support of business continuity and risk management planning
  - campus electrical demand will exceed the capacity of the current substation within the next five to eight years due to the expansion of the Medical Center, growing laboratory and research activities and the Student Life housing plan to increase conditioned student housing
  - energy conservation will offset a portion of the growth but will not eliminate the need for a new substation

- project update
  - design is nearly complete and the project is preparing for bidding in order to begin construction as soon as AEP has completed their project
  - AEP construction to install a new power feed to the substation will complete in a couple of months; once they are complete OSU will begin construction on the substation

- project team
  University project manager: Tom Cawney
  AEP: Patrick Engineering Inc.
  major contractors: TBD

Project Data Sheet for Board of Trustees Approval

Hospital Kitchens Renovation
OSU-091575

Project Location:
- Rhodes Hall – University Hospital
  234,178 ASF / 480,976 GSF
- James Cancer Hosp & Solove Research Inst
  116,584 ASF / 265,423 GSF
- Ross Heart Hospital
  106,654 ASF / 287,575 GSF

- approval requested and amount
  construction contracts $9.3M

- project budget
  construction w/ contingency $9.3M
  other costs (fees, equipment) $2.8M
  total project budget $12.1M

- funding sources
  auxiliary funds

- project schedule
  design/bidding – phases 1-3 04/10 – 05/11
  design/bidding – phases 4-7 04/10 – 08/11
  construction – phases 1-3 08/11 – 03/12
  construction – phases 4-7 08/11 – 04/13

- Framework context
  - this project is consistent with the Framework principles by renovating existing facilities for more efficient and effective use

- project scope
  - this project will renovate the existing patient and café food kitchen serving University Hospitals in Rhodes Hall, the James Cancer Hospital and the Ross Heart Hospital
  - renovations will take place over several phases and several years
  - phases 1 thru 3 will renovate the Chilled Production Kitchen in Rhodes; Hospital Center #1 in Rhodes; and Hospital Center #2 in the James
  - phases 4 thru 7 will renovate Hospital Center #3 and #4 in Rhodes; expand the dishroom in Rhodes; renovate Seasons Café server/service area in Rhodes

- project update
  - design is nearly complete on the first phases and the project is preparing to bid
  - project is proceeding on time with all phases complete by mid-2013

- project team
  University project manager: Conrie Feldharm
  A/E: FRCH Design Worldwide Cleveland
  general contractor: TBD

February 2011

491
RATIFICATION AND APPROVAL OF THE AMENDMENT AND RESTATEMENT OF 
THE OHIO STATE UNIVERSITY SUPPLEMENTAL QUALIFIED RETIREMENT 
PLAN, RENAMED THE RETIREMENT CONTINUATION PLAN

Background on the Plan: 
The University’s Supplemental Qualified Retirement Plan was originally adopted 
effective July 1, 2001 and was renamed the Retirement Continuation Plan (the "RCP") 
effective January 1, 2002. The RCP is maintained for faculty and staff members whose 
retirement contributions to the state retirement system are limited under IRS rules and 
whose compensation, as determined by the University, exceeds those IRS limits.

The RCP is a “tax-qualified” retirement plan – i.e., participants do not pay taxes on their 
account balances (including earnings) until those balances are distributed. In order to 
remain taxqualified, the RCP must meet certain requirements under the Internal 
Revenue Code. The RCP must be restated to incorporate IRS rules and guidance 
issued since the last restatement. As such, the University was required to update the 
RCP and submit it to the IRS for a letter of determination by January 30, 2011.

Summary of Changes Required by the IRS:

During the past few years, the IRS and Treasury Department have issued guidance 
under the Pension Protection Act of 2006 (PPA); the Heroes Earnings Assistance and 
Relief Tax Act of 2008 (HEART); and the Worker, Retiree, and Employer Recovery Act 
of 2008 (WRERA). The IRS requires that tax-qualified plans seeking a determination 
letter incorporate this guidance. This Section describes the key pieces of guidance that 
have been incorporated into the RCP.

1. Compensation and Differential Wages (Section 1.07 of the RCP). HEART requires 
differential wages to be treated as taxable wages and as compensation for certain plan 
purposes. As background on differential wages, when reservists are called to active 
duty in the military, they often receive less compensation from their military salaries 
than they do from their civilian salaries. Some employers voluntarily choose to make up 
this difference by making payments called “differential wage” payments. Historically, 
military differential pay has not qualified as wages for purposes of withholding income 
taxes and employment taxes. HEART provides that differential wage payments made 
after December 31, 2008, should be treated as wages for federal tax withholding 
purposes. HEART also requires differential wage payments to be included in the 
definition of compensation for purposes of Internal Revenue Code Section 415, which 
sets limits on the amount of contributions that can be made to a tax-qualified retirement 
plan each year. HEART does not require employers to pay differential wages. Instead, 
if an employer pays differential wages, it must treat those wages as compensation for 
plan purposes. Section 1.07 of the RCP was revised to do that.

2. Survivor Benefits (Section 7.02 of the RCP). HEART requires all tax-qualified plans 
to treat a participant who dies on or after January 1, 2007 while performing qualified 
military service as being reemployed on the day before death. Consequently, the 
participant's survivors are entitled to receive any additional benefits that they would 
have received under the plan if such participant returned and terminated employment 
on account of his or her death (such as accelerated vesting). Survivors are not entitled 
to additional benefit accruals relating to the period of qualified military service.

3. Rollovers (Section 7.04(b) of the RCP). PPA and WRERA liberalized the rules 
governing rollover distributions. First, distributions may be rolled over from a pre-tax 
account in the RCP to a Roth IRA. Second, if an RCP participant's beneficiary is not 
the participant's spouse, that nonspouse beneficiary must be allowed to elect a rollover 
distribution.
February 11, 2011 meeting, Board of Trustees

Purpose of the Resolution:

The resolution ratifies and approves the amendment and restatement of the RCP, effective as of January 1, 2011, and its submission to the IRS. The resolution also ratifies the action of the Senior Vice President for Business and Finance and Chief Financial Officer in signing the amended and restated RCP.
THE OHIO STATE UNIVERSITY

RETIREMENT CONTINUATION PLAN

PLAN DOCUMENT

Amended and Restated Effective as of January 1, 2011
The Ohio State University
Retirement Continuation Plan

The Employer hereby amends and restated the Plan. The Plan originally was effective July 1, 2001. The Plan was amended effective January 1, 2002, to incorporate guidance issued under Section 401(a)(9) of the Code and other changes. The Plan was subsequently amended in July 2006 to incorporate changes requested by the Internal Revenue Service in the determination letter application process. The Employer adopts this amended and restated Plan document, effective January 1, 2011, to include these past amendments and provisions required under the Pension Protection Act of 2006, the Heroes Earnings Assistance and Relief Tax Act of 2008, and the Worker, Retiree, and Employer Recovery Act of 2008, and other applicable laws, regulations and administrative authority.

The purpose of the Plan is to provide additional retirement benefits to employees not available under the State Teachers Retirement System of Ohio ("STRS"), the Ohio Public Employees Retirement System ("OPERS"), or The Ohio State University Alternative Retirement Plan ("ARP").

Article I – Definitions

The following words or phrases whenever used in this Plan shall have the following meanings unless the context clearly demands otherwise:

Section 1.01 — Account

Shall mean the sum of all the Participant’s individual sub-accounts, including earnings and losses thereon.
Section 1.02 — Annuity Contract(s)

Shall mean any type of annuity contract(s) issued by a Funding Company(ies) to effect the purposes of the Plan.

Section 1.03 — Appropriate Request

Shall mean a request by a Participant in the form and manner provided by the Plan Administrator that is appropriate for the intended purpose. If the Plan Administrator and the Plan’s recordkeeper so agree, an Appropriate Request may be executed over the telephone or internet. To constitute an Appropriate Request, such request must be completed correctly and if required to be in writing, duly executed and delivered to the Plan Administrator or its designated representative.

Section 1.04 — Beneficiary

Shall mean the Beneficiary or Beneficiaries entitled to any benefits under a Participant’s Account upon the death of a Participant.

Section 1.05 — Board

Shall mean the Board of Trustees of the Employer.

Section 1.06 — Code

Shall mean the Internal Revenue Code of 1986, as amended from time to time.

Section 1.07 — Compensation

Shall mean the compensation paid to an Employee by the Employer for a Plan Year, as reported on Internal Revenue Form W-2, Box 1 or such successor box which describes “wage, tips, other compensation”, plus any amount which is contributed by the Employer pursuant to a salary reduction agreement and which is not includable in the gross income of the Employee under Sections 125, 132(f), 402(a)(8), 403(b), 414(h)(2) and 457(h) of the Code. Notwithstanding the above, the following shall be excluded from Compensation:
(a) Reimbursements, expense allowances and taxable fringe benefits;
(b) Section 911 of the Code earned income;
(c) Moving expenses;
(d) Non-qualified stock options taxable at time of grant or exercise;
(e) Vesting in Section 83 of the Code property;
(f) Disqualifying dispositions of qualified stock options;
(g) Imputed income, including taxable group term life insurance;
(h) Receipt of deferred compensation;
(i) Bonuses paid under long-term compensation plans which are subject to vesting; and
(j) Payments made for accrued but unused sick leave or vacation leave.

In determining the amount or allocation of any contribution that is based on Compensation, only Compensation paid to a Participant for services rendered to the Employer while employed as an Employee of the Employer shall be taken into account. Further, notwithstanding anything to the contrary herein, severance amounts paid after severance from employment shall be excluded from Compensation. For purposes of this Section 1.07, “severance amounts” are any amounts paid after severance from employment, except a payment of regular compensation for services during the Employee’s regular working hours, or compensation for services outside the Employee’s regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments provided such payment would have been made prior to a severance from employment if the Employee had continued in employment with the Employer, provided such amounts are paid by the later of two and one-half (2½) months after, or the end of the year that includes the date of, the Employee’s severance from employment with the Employer (as defined in applicable guidance).
For purposes of this Section 1.07, an Employee has a "severance from employment" when the Employee ceases to be an employee of the Employer maintaining the Plan, and an Employee does not have a "severance from employment" if, in connection with a change of employment, the individual's new employer maintains such Plan with respect to the individual. The determination of whether an Employee ceases to be an employee of the Employer maintaining the Plan is based on all of the relevant facts and circumstances.

For purposes of applying the limitation in Article V, Compensation under this Section 1.07 also shall include the following exceptions:

(i) Compensation shall be based on the amount actually paid or made available to the Participant (or, if earlier, includible in the gross income of the Participant) during the Limitation Year, regardless of the date of participation; and

(ii) Compensation shall not include amounts paid as compensation to a non-resident alien, as defined in Section 7701(b)(1)(B) of the Code, who is not a Participant in the Plan to the extent the compensation is excludable from gross income and is not effectively connected with the conduct of a trade or business within the United States.

This Plan shall not consider a Participant's Compensation for any Plan Year in excess of the limitation under Section 401(a)(17) of the Code.

Effective January 1, 2009, an individual receiving a differential wage payment, as defined by Section 3401(h)(2) of the Code, shall be treated as an Employee of the Employer making the payment (rather than an Employee who has incurred a severance from employment); and the differential wage payment shall be treated as compensation for Plan purposes, including Section
415 of the Code and any other Code section that references the definition of compensation under Section 415 of the Code.

If all Employees of the Employer performing service in the uniformed services described in Section 3401(b)(2)(A) of the Code are entitled to receive differential wage payments (as defined in Section 3401(b)(2) of the Code) on reasonably equivalent terms and, if eligible to participate in a retirement plan maintained by the Employer, to make contributions based on the payments on reasonably equivalent terms (taking into account Sections 410(b)(3), (4), and (5) of the Code), then the Plan shall not be treated as failing to meet the requirements of any provision described in Section 414(u)(1)(C) of the Code by reason of any contribution or benefit which is based on the differential wage payment.

Section 1.08 — Custodial Account

Shall mean the group or individual account or accounts established for each Participant by the Employer pursuant to a written contract between the Employer and a Funding Company, in a manner consistent with Section 401(f) of the Code.

Section 1.09 — Date of Employment

Shall mean the first date on which an Employee performs services as an Employee for the Employer.

Section 1.10 — Disability

Shall mean a physical or mental condition of a Participant which would qualify him for benefits under his Employer’s long-term disability plan.

Section 1.11 — Employee

Shall mean any person who is receiving compensation for personal services rendered in the employment of the Employer.
Section 1.12 — Employer

Shall mean The Ohio State University.

Section 1.13 — Employer Contributions

Shall mean contributions made in accordance with Section 3.03.

Section 1.14 — Funding Company(ies)

Shall mean the entity designated by the Employer to provide funding options under the plan.

Section 1.15 — Hour of Service

Shall mean each hour for which an Employee is paid or entitled to payment for the performance of duties for the Employer.

Section 1.16 — Limitation Year

Shall mean the Plan Year.

Section 1.17 — Married Participant

Shall mean a Participant who is lawfully married on the date Plan benefits are payable.

Section 1.18 — Normal Retirement Date

Shall mean the first day of the calendar month coincident with or next following the Participant’s 65th birthday.

Section 1.19 — One-Year Period of Severance

Shall mean a twelve (12) consecutive month period beginning on a Severance From Service Date and ending on the first anniversary of such date, provided the Employee does not perform services as an Employee for the Employer during such period.
Section 1.20 — Participant

Shall mean any Employee who becomes a Participant pursuant to Article II and continues to be entitled to any benefits under the Plan.

Section 1.21 — Period of Service

A Period of Service shall commence on an Employee's Date of Employment or Reemployment Commencement Date, whichever is applicable, and end on his Severance From Service Date. All Periods of Service shall be aggregated on a uniform and consistent basis.

Notwithstanding the preceding paragraph of this section, if an Employee severs from service by reason of a quit, discharge, or retirement during an absence from service of twelve (12) months or less, and if such Employee then performs services as an Employee within twelve (12) months of the date on which the Employee was first absent from service, then such Period of Severance shall be taken into account for purposes of vesting.

Section 1.22 — Period of Severance

The period of time commencing on an Employee's Severance From Service Date and ending on the date on which the Employee again performs an Hour of Service for the Employer.

Section 1.23 — Pick-Up Contributions

Shall mean contributions made in accordance with Section 3.02. These contributions are intended to be contributions described in Section 414(b)(2) of the Code. Therefore, although designated as Employee contributions, such Employee contributions are being paid by the Employer in lieu of contributions by the Employee.
Section 1.24 — Plan

Shall mean The Ohio State University Retirement Continuation Plan, as amended from time to time. For purposes of the Code, this Plan shall be considered and administered as a "profit sharing plan" that is administered as a "discretionary plan".

Section 1.25 — Plan Administrator

Shall mean the Employer. The Employer may, in its sole discretion, delegate any of the duties of the Plan Administrator to a third party or parties selected by the Employer.

Section 1.26 — Plan Year

Shall mean the twelve (12) month period commencing January 1, except that the first Plan Year shall be a short Plan Year commencing on July 1, 2001, and ending on December 31, 2001.

Section 1.27 — Reemployment Commencement Date

Shall mean the first day following a One-Year Period of Severance in which an Employee performs services for the Employer.

Section 1.28 — Severance From Service Date

Shall mean the earlier of:

(a) The date on which an Employee quits, retires, is discharged, or dies; or

(b)  
   (1) The first anniversary of the first day of a period in which an Employee remains absent from service (with or without pay) with the Employer for any reason other than quitting, retirement, discharge or death, such as vacation, holiday, sickness, disability, leave of absence or lay-off; or

   (2) The second anniversary of the first day of a period in which an Employee remains absent from service (with or without pay) with the Employer by reason of pregnancy, the birth of the Employee's child, the placement of a child with the Employee in connection with the
adoption of such child by such Employee, or the need to care for such Employee's child during the period immediately following such child's birth or placement.

For a Participant who is absent from service on account of pregnancy, the birth of the Employee's child, child placement or child care, the period between the first anniversary of the first day of the absence and the second anniversary of the first day of the absence is neither a Period of Service nor a Period of Severance.

Section 1.29 — Valuation Date

Shall mean the last day of each Plan Year and any other day determined by the Plan Administrator.

Section 1.30 — Year of Service for Vesting

An Employee shall be credited with a "Year of Service for Vesting" upon the earlier of:

(a) the first anniversary of the twelve (12) consecutive month period beginning on the date the Employee first performs an Hour of Service after the Employee has attained the age of eighteen (18) (employment commencement date) and each anniversary thereof; or (b) the completion of the Employee's first full contract year, if less, after the Employee has attained the age of eighteen (18).

Article II — Eligibility and Enrollment

Section 2.01 — Eligibility for Pick-Up Contributions

Eligibility to have a Pick-Up Contribution, if any, is limited to those Employees selected by the Plan Administrator and listed in Appendix A.

Notwithstanding the above paragraph, in order to have Pick-Up Contributions made on a Participant's behalf, the Participant must file an Appropriate Request with the Plan Administrator within sixty (60) days after the time he is initially eligible for Pick-Up Contributions. The Appropriate Request must be in the form of a one-time irrevocable election. If the Participant fails
to file an Appropriate Request in a timely manner, the Participant will be treated as having forever waived the right to have Pick-Up Contributions made on his behalf. The Plan Administrator may, at its discretion, add Employees to, or delete Employees from, Appendix A. Eligibility for Pick-Up Contributions shall begin after all of the mandatory employee contributions to the ARP, OPERS, or STRS are made each year.

Section 2.02 — Eligibility for Employer Contributions

Eligibility for an allocation of the Employer Contribution, if any, is limited to those Employees selected by the Plan Administrator and listed in Appendix A. The Plan Administrator may, at its discretion, add Employees to, or delete Employees from, Appendix A. Eligibility for an Employer Contribution and the amount of the Employer Contribution may vary from year to year and from Participant to Participant and the fact that an Employee receives such contribution one year does not mean that he is entitled to such contribution in any future year.

Article III — Contributions and Allocations

Section 3.01 — Types of Contributions

Contributions to the Plan shall consist solely of the following:

(a) Pick-Up Contributions; and

(b) Employer Contributions.

Section 3.02 — Pick-Up Contributions

Each Employee, within sixty (60) days after becoming eligible to receive an allocation of Pick-Up Contributions, must file a one-time irrevocable election in the form of an Appropriate Request with the Plan Administrator which shall direct that the Employer withhold a specific percentage of Compensation from the Employee’s paycheck. The Participant’s election of such percentage of Compensation shall be subject to the approval of the Employer.
Pick-Up Contributions shall be allocated to the Pick-Up Contribution sub-account of each Participant's Account in an amount equal to the amount withheld by the Employer from the Participant's Compensation for the purpose of contributing such amount to this Plan.

Section 3.03 — Employer Contributions

The Employer may make an Employer Contribution to the Plan at the Employer's discretion. The Employer has discretion as to the amount of the contribution. The Employer shall designate the Plan Year for which each Employer Contribution is made and shall make such Employer Contribution not later than the time prescribed by Section 404 of the Code or any successor statute or guidance.

The Employer Contribution, if any, shall be allocated to the Employer Contribution sub-account of each Participant's Account. With respect to each Plan Year, the Employer shall list the Employer Contributions, if any, made to each Participant for such Plan Year in the attached Appendix A.

Section 3.04 — Prohibition Against Assets Returning to Employer

The assets of the Plan shall never inure to the benefit of the Employer. Notwithstanding the prior sentence, Plan assets may revert to the Employer in the following situations:

(a) In the case of an Employer Contribution or Pick-Up Contribution which in the sole opinion of the Plan Administrator is made by virtue of a mistake of fact, the contribution may be returned to the Employer within one (1) year after the payment of the contribution;

(b) If an Employer Contribution is conditioned upon initial qualification of the Plan under Section 401(a) of the Code, or any successor provision thereto, and if the Plan does not so qualify, then any contributions made to the Plan may be returned to the Employer within one (1)
year after the date of denial of qualification of the Plan but only if such application is filed by the
end of the applicable remedial amendment period under Section 401(h) of the Code.

Article IV—Participant Accounts

Section 4.01—Annuity Contract(s) and Custodial Account(s)

Plan assets shall be held in Annuity Contract(s) or Custodial Account(s). The administration of the Annuity Contract(s) and Custodial Account(s) shall be subject to an agreement between the Employer and the Funding Company(ies) that satisfies the requirement of Section 401(f) of the Code. Annuity Contracts and Custodial Accounts shall conform to all provisions of the Plan.

Section 4.02—Separate Accounts

The Funding Company shall maintain a separate Account for each Participant, which Account shall reflect the Participant's interest in the Annuity Contract(s) or Custodial Account(s), as applicable. Within each Participant's Account, sub-accounts shall be established to reflect the contributions made by the Employer under Article III.

Section 4.03—Valuation of Separate Accounts

As of each Valuation Date, the Funding Company(ies) shall adjust the Accounts to reflect contributions, earnings, gains, losses, withdrawals and distributions.

Section 4.04—Assumption of Risk by Participant

Each Participant (or his Beneficiary) assumes the risk in connection with any decrease in value of his Account, and such Account shall be the sole source of payments to be made to each Participant (or his Beneficiary) under the Plan.
Section 4.05 — Election of Investment Fund

Each Participant shall have the exclusive authority to direct the investment of his Account among the investment funds designated by the Employer. Such directions shall be made in accordance with procedures adopted by the Plan Administrator. If a Participant fails to designate an investment fund, all contributions allocable to his Account shall be placed in the investment fund selected by the Plan Administrator until Participant direction is received. A Participant shall be permitted to change his investment directions in accordance with procedures adopted by the Plan Administrator.

Article V — Limitations on Contributions

Section 5.01 — Annual Addition Limitation

(a) Notwithstanding any provisions of the Plan, the Annual Additions which a Participant is entitled to under the Plan, shall not, in any Limitation Year, exceed the applicable limitations of Section 415 of the Code. Such Section is hereby incorporated by reference.

(b) If the Annual Addition allocable under this Plan (but for this Section) would exceed the limitations of Section 415(c) of the Code, the excess Annual Addition under this Plan shall be allocated pursuant to Treasury Regulation Section 1.415-6(b)(6)(iii). Notwithstanding the foregoing, (i) for purposes of this Plan, “Annual Additions” shall be determined in accordance with the aggregation rules under Section 415(i) of the Code and (ii) effective for Limitation Years beginning on or after July 1, 2007, in correcting an amount that exceeds the limitations of Section 415(c) of the Code, the Employer may use a correction method as set forth under the Employee Plans Compliance Resolution System, or any successor thereto, but may not use any other correction method.
(c) For purposes of this Section, "Annual Addition" shall mean:

1. Employer contributions
2. Employee contributions
3. Forfeitures
4. Amounts allocated to individual medical accounts as described in Sections 415(f)(1) of the Code which is part of a defined benefit plan maintained by the Employer; and
5. Amounts derived from contributions paid or accrued, which are attributable to post-retirement medical benefits allocated to the separate account of a key employee under Section 419A(d)(2) of the Code in a welfare benefit plan maintained by the Employer.

Restorative payments allocated to a Participant's Account, which include payments made to restore losses to the Plan resulting from actions (or a failure to act) by a fiduciary for which there is a reasonable risk of liability under applicable federal or state law, where similarly situated Participants are similarly treated do not give rise to an "Annual Addition" for any Limitation Year.

**Article VI — Vesting**

**Section 6.01 — Pick-Up Contributions**

A Participant shall at all times have a one hundred percent (100%) non-forfeitable interest in the value of his Account attributable to Pick-Up Contributions.

**Section 6.02 — Employer Contributions**

A Participant shall have a one hundred percent (100%) non-forfeitable interest in the value of his Account attributable to Employer Contributions after he is credited with one Year of Service for Vesting. In addition, if a Participant dies or becomes Disabled, or upon attaining his Normal Retirement Date, he shall have a one hundred percent (100%) non-forfeitable interest in his Account attributable to Employer Contributions.
Section 6.03 — Forfeitures

If a Participant's employment terminates and he receives a distribution of his vested Account, any nonvested portion of his Account shall be forfeited, and the amount forfeited shall be applied towards the Employer Contribution or to pay Plan expenses in the current Plan Year.

Article VII — Distributions

Section 7.01 — Time of Distribution

Distribution of a Participant's vested Account may begin as soon as administratively possible after the date the Participant terminates employment, retires on or after his Normal Retirement Date, dies, or becomes Disabled.

Section 7.02 — Methods of Distribution

A Participant or Beneficiary may elect that his benefit be paid in the form of a lump sum or an annuity, subject to the terms of the applicable Annuity Contract(s) and Custodial Account(s) issued by the Funding Company.

Section 7.03 — Distributions After Death

If the distribution of a Participant's interest has begun in the form of an annuity and the Participant dies before his entire interest has been distributed to him, the remaining portion of such interest shall be distributed as provided in the Annuity Contract or Custodial Account.

If a Participant dies before he has begun to receive any distributions from his Account, his death benefit shall be distributed to his Beneficiary in the form of a lump sum no later than December 31 of the calendar year following the calendar year in which the Participant died, or, if the Beneficiary so elects, in the form of an annuity available from the annuity provider selected by the Plan Administrator, with the first payment being made no later than December 31 of the
calendar year following the calendar year in which the Participant died. If the Beneficiary fails to make any election, he will be treated as if he elected a lump sum distribution.

In the case of a death or Disability occurring on or after January 1, 2007, if a Participant dies while performing qualified military service (as defined in Section 414(u) of the Code), the survivors of the Participant are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Participant had resumed and then terminated employment on account of death.

Section 7.04 — Direct Rollovers of Eligible Distributions

(a) Notwithstanding any provision of the Plan to the contrary that would otherwise limit a Distributsee's election under this Section, a Distributsee may elect, at the time and in the manner prescribed by the Plan Administrator, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributsee in a Direct Rollover.

(b) For purposes of this Section, the following definitions apply:

(1) Eligible Rollover Distribution — An Eligible Rollover Distribution is any distribution of all or any portion of the balance to the credit of the Distributsee, except that an Eligible Rollover Distribution does not include: any distribution that is one of a series of substantially equal periodic payment (not less frequently that annually) made for the life (or life expectancy) of the Distributsee or the joint lives (or joint life expectancies) of the Distributsee and the Distributsee's Designated Beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; the portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to Employer securities); and any hardship distribution described in Section 457(d)(1)(A)(iii) of the Code made after December 31, 1998.
(2) Eligible Retirement Plan — An Eligible Retirement Plan is an individual retirement account described in Section 408(a) of the Code, an individual retirement annuity described in Section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, a qualified trust described in Section 401(a) of the Code, an annuity contract described in Section 403(b) of the Code, and an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan, that accepts the Distributee's Eligible Rollover Distribution. An Eligible Retirement Plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is an alternate payee under a Qualified Domestic Relations Order, as defined in Section 414(p) of the Code.

For distributions made after December 31, 2007, a Participant or Beneficiary may elect to roll over directly an Eligible Rollover Distribution to a Roth IRA described in Section 408A(b) of the Code.

(3) Distributee — A Distributee includes an Employee or former Employee. In addition, the Employee's or former Employee's surviving spouse and the Employee's or former Employee's spouse or former spouse who is the alternate payee under a Qualified Domestic Relations Order, as defined in Section 414(p) of the Code, are Distributees with regard to the interest of the spouse or former spouse.

(4) Direct Rollover — A Direct Rollover is a payment by the Plan to the Eligible Retirement Plan specified by the Distributee.

(5) Non-spouse Beneficiary Rollover — For distributions after December 31, 2009, a non-spouse Beneficiary who is a "designated beneficiary" under Section 401(a)(9)(E) of the
Code and the Treasury Regulations thereunder, may, by a Direct Rollover, roll over all or any portion of his or her distribution to an individual retirement account or annuity described in Section 408(a) or 408(b) of the Code ("IRA") that is established on behalf of the Beneficiary and that will be treated as an inherited IRA pursuant to Section 402(c)(11) of the Code.

In order to be able to roll over the distribution, the distribution must otherwise satisfy the definition of an Eligible Rollover Distribution. A non-spouse Beneficiary may not roll over an amount which is a required minimum distribution ineligible for rollover, as determined under applicable Treasury Regulations and other Internal Revenue Service guidance, including Q&A 17 and 18 of Notice 2007-7, 2007-5 Internal Revenue Bulletin 395. If a Participant dies before his or her required beginning date, then the non-spouse Designated Beneficiary may deposit into such IRA all or any portion of the distribution that is deemed to be an Eligible Rollover Distribution. In determining the portion of such distribution that is considered to be a required minimum distribution that must be made from the IRA, the Beneficiary may elect to use either the 5-year rule or the life expectancy rule, pursuant to Treasury Regulation Section 1.401(a)(9)-3, Q&A-4(c).

Although a non-spouse Beneficiary may roll over directly a distribution as provided above, the distribution is not subject to the direct rollover requirements of Section 401(a)(31) of the Code, the notice requirements of Section 402(f) of the Code, or the mandatory withholding requirements of Section 3405(c) of the Code. If a non-spouse Beneficiary receives a distribution from the Plan, the distribution is not eligible for a "60-day" rollover.

If the Participant's named Beneficiary is a trust, the Plan may make a Direct Rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a Designated Beneficiary within the meaning of Section 401(a)(9)(E) of the Code.
Section 7.05 — Acceptance of Transfers or Rollovers

No transfers or rollovers (direct or otherwise) shall be permitted to this Plan from another plan or annuity.

Section 7.06 — Alternate Payees Under Qualified Domestic Relations Orders

Notwithstanding anything in the Plan to the contrary, if a Domestic Relations Order directs the Plan to make a distribution prior to the Participant's earliest retirement age as defined in Section 414(p)(4) of the Code to an alternate payee and if the Domestic Relations Order satisfies Section 414(p)(11) of the Code, the Plan shall comply with such Order. Effective April 6, 2007, a domestic relations order that otherwise satisfies the requirements of a Qualified Domestic Relations Order will not fail to be a Qualified Domestic Relations Order: (a) solely because the Order is issued after, or revises, another domestic relations order or Qualified Domestic Relations Order; or (b) solely because of the time at which the order is issued, including issuance after the annuity starting date or after the Participant's death. Such a domestic relations order is subject to the same requirements and protections that apply to Qualified Domestic Relations Orders.

Article VIII — Minimum Distribution Requirements

Section 8.01 — General Rules

(a) Effective Date. The provisions of this Article will apply for purposes of determining required minimum distributions for calendar years beginning with the 2003 calendar year.

(b) Precedence. The requirement of this Article will take precedence over any inconsistent provisions of the Plan.

(c) Requirements of Treasury Regulations Incorporated. All distributions required under this Article will be determined and made in accordance with the Treasury Regulations under Section 401(a)(9) of the Code.
Section 8.02 — Time and Manner of Distribution

(a) Required Beginning Date. The Participant's entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant's required beginning date.

(b) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

(1) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary, then, distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70 1/2, if later.

(2) If the Participant's surviving spouse is not the Participant's sole Designated Beneficiary, then distribution to the Designated Beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(3) If there is no Designated Beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(4) If the Participant's surviving spouse is the Participant's sole Designated Beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse begin, this Section 8.02(b), other than Section 8.02(b)(1), will apply as if the surviving spouse were the Participant.

For purposes of this Section 8.02(b) and Section 8.04, unless Section 8.02(b)(4) applies, distributions are considered to begin on the Participant's required beginning date. If Section 8.02(b)(4) applies, distributions are considered to begin on the date distributions are required to
begin to the surviving spouse under Section 8.02(b)(1). If distributions under an annuity purchased 
from an insurance company irrevocably commence to the Participant before the Participant's 
required beginning date (or to the Participant's surviving spouse before the date distributions are 
required to begin to the surviving spouse under Section 8.02(b)(1)), the date distributions are 
considered to begin is the date distributions actually commence.

(c) Forms of Distribution. Unless the Participant's interest is distributed in the form of 
an annuity purchased from an insurance company or in a single sum on or before the required 
beginning date, as of the first distribution calendar year distributions will be made in accordance 
with Sections 8.03 and 8.04 of this Article. If the Participant's interest is distributed in the form of 
an annuity purchased from an insurance company, distributions thereunder will be made in 
accordance with the requirements of Section 401(a)(9) of the Code and the Treasury Regulations.

Section 8.03 — Required Minimum Distributions During Participant's Lifetime

(a) Amount of Required Minimum Distribution For Each Distribution Calendar Year. 
During the Participant's lifetime, the minimum amount that will be distributed for each distribution 
calendar year is the lesser of:

(1) The quotient obtained by dividing the Participant's Account Balance by the 
distribution period in the Uniform Lifetime Table set forth in Treasury Regulation Section 
1.401(a)(9)-9, using the Participant's age as of the Participant's birthday in the distribution calendar 
year; or

(2) If the Participant's sole Designated Beneficiary for the distribution calendar 
year is the Participant’s spouse, the quotient obtained by dividing the Participant’s Account Balance 
by the number in the Joint and Last Survivor Table set forth in Treasury Regulation Section
1.401(a)(9)-9, using the Participant's and spouse's attained ages as of the Participant's and spouse's birthdays in the distribution calendar year.

(b) Lifetime Required Minimum Distributions Continue Through Year of Participant’s Death. Required minimum distributions will be determined under this Section 8.03 beginning with the first distribution calendar year and up to and including the distribution calendar year that includes the Participant's date of death.

Section 8.04 — Required Minimum Distributions After Participant’s Death

(a) Death On or After Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is a Designated Beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant’s death is the quotient obtained by dividing the Participant’s Account Balance by the longer of the remaining life expectancy of the Participant or the remaining life expectancy of the Participant’s Designated Beneficiary, determined as follows:

(A) The Participant’s remaining life expectancy is calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(B) If the Participant’s surviving spouse is the Participant’s sole Designated Beneficiary, the remaining life expectancy of the surviving spouse is calculated for each distribution calendar year after the year of the Participant’s death using the surviving spouse’s age as of the spouse’s birthday in that year. For distribution calendar years after the year of the surviving spouse’s death, the remaining life expectancy of the surviving spouse is calculated using the age of the surviving spouse as of the spouse’s birthday in the calendar year of the spouse’s death, reduced by one for each subsequent calendar year.
(C) If the Participant's surviving spouse is not the Participant's sole Designated Beneficiary, the Designated Beneficiary's remaining life expectancy is calculated using the age of the Beneficiary in the year following the year of the Participant's death, reduced by one for each subsequent year.

(2) No Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is no Designated Beneficiary as of September 30 of the year after the year of the Participant's death, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant's death is the quotient obtained by dividing the Participant's Account Balance by the Participant's remaining life expectancy calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(b) Death Before Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. If the Participant dies before the date distributions begin and there is a Designated Beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant's death is the quotient obtained by dividing the Participant's Account Balance by the remaining life expectancy of the Participant's Designated Beneficiary, determined as provided in Section 3.04(a).

(2) No Designated Beneficiary. If the Participant dies before the date distributions begin and there is no Designated Beneficiary as of September 30 of the year following the year of the Participant's death, distribution of the Participant's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(3) Death of Surviving Spouse Before Distributions to Surviving Spouse Are Required to Begin. If the Participant dies before the date distributions begin, the Participant's surviving spouse is the Participant's sole Designated Beneficiary, and the surviving spouse dies
before distributions are required to begin to the surviving spouse under Section 8.02(b)(1), this
Section 8.04(b) will apply as if the surviving spouse were the Participant.

Section 8.05 — Definitions

(a) Designated Beneficiary. The individual who is designated as the Beneficiary under
Section 1.04 of the Plan and is the Designated Beneficiary under Section 401(a)(9) of the Internal
Revenue Code and Treasury Regulation Section 1.401(a)(9)-1, Q&A-4.

(b) Distribution calendar year. A calendar year for which a minimum distribution is
required. For distributions beginning before the Participant’s death, the first distribution calendar
year is the calendar year immediately preceding the calendar year which contains the Participant’s
required beginning date. For distributions beginning after the Participant’s death, the first
distribution calendar year is the calendar year in which distributions are required to begin under
Section 8.02(b). The required minimum distribution for the Participant’s first distribution calendar
year will be made on or before the Participant’s required beginning date. The required minimum
distribution for other distribution calendar years, including the required minimum distribution for
the distribution calendar year in which the Participant’s required beginning date occurs, will be
made on or before December 31 of that distribution calendar year.

(c) Life expectancy. Life expectancy as computed by use of the Single Life Table in
Treasury Regulation Section 1.401(a)(9)-9.

(d) Participant’s Account Balance. The Account Balance as of the last Valuation Date
in the calendar year immediately preceding the distribution calendar year (valuation calendar year)
increased by the amount of any contributions made and allocated or forfeitures allocated to the
Account Balance as of dates in the valuation calendar year after the Valuation Date and decreased
by distributions made in the valuation calendar year after the Valuation Date.
(c) Required beginning date. The required beginning date is April 1 of the calendar year following the calendar year in which the Participant attains age 70½ or retires, whichever is later.

Section 8.06 — 2009 Required Minimum Distributions

Notwithstanding any other provision of Article VIII, a Participant or Beneficiary who would have been required to receive required minimum distributions for 2009 but for the enactment of Section 401(a)(9)(H) of the Code ("2009 RMDs"), and who would have satisfied that requirement by receiving distributions that are (1) equal to the 2009 RMDs or (2) one or more payments in a series of substantially equal distributions (that include the 2009 RMDs) made at least annually and expected to last for the life (or life expectancy) of the Participant, the joint lives (or joint life expectancy) of the Participant and the Participant’s Designated Beneficiary, or for a period of at least ten (10) years ("Extended 2009 RMDs"), will be given the opportunity to elect to stop receiving such distributions. If he does not elect to stop distributions, he will receive such distributions for 2009. Notwithstanding any other provision of this Plan, and solely for purposes of applying the Direct Rollover provisions of the Plan, a Direct Rollover will be offered only for distributions that would be eligible rollover distributions without regard to Section 401(a)(9)(H) of the Code.

Article IX – In-Service Withdrawals

Section 9.01 — Emergency Withdrawals

In the event that the Plan Administrator, upon written request of a Participant, determines, in its sole discretion, that the Participant has suffered an unforeseeable financial emergency, the Employer shall pay to the Participant from the vested Account an amount necessary to meet the emergency, after deduction of any and all taxes as may be required. For purposes of this Plan, an unforeseeable financial emergency is an unexpected need for cash arising from an illness,
casualty, loss, sudden financial reversal, or other such unforeseeable occurrence. Cash needs arising from foreseeable events, such as the purchase of a house or education expenses for children, shall not be considered to be the result of an unforeseeable financial emergency. Distributions for an emergency shall be made from the Participant's sub-accounts pro-rata. However, no distribution shall be made from contributions, and earnings attributable to such contributions, that have been credited to the Plan less than two (2) years. It is intended that the Plan Administrator's determination as to whether a Participant has suffered an "unforeseeable financial emergency" shall be made consistent with Section 457(d)(1)(A)(iii) of the Code.

Article X – Beneficiaries

Section 10.01 — Designation of Beneficiary

Each Participant may designate a Beneficiary to receive benefits under the Plan upon the Participant's death by filing with the Employer written notice identifying the Beneficiary. The spouse of a Married Participant shall automatically be his Beneficiary unless the Participant designates another Beneficiary pursuant to Section 10.02. The estate of a single Participant shall automatically be his Beneficiary unless the single Participant has designated a Beneficiary. A Participant may revoke or change such Beneficiary designation by written notice filed with the Employer without the consent of the Beneficiary. However, a Married Participant shall only change his Beneficiary designation in accordance with Section 10.02.

If there is any doubt as to the right of any Beneficiary to receive any amount, the Employer may retain such amount until the rights to the amount are determined, or it may pay such amount into any court of appropriate jurisdiction, in either of which events neither the Employer nor the Funding Company(ies) shall be liable for any interest on such amount, or shall be under any
liability to any person in respect of such amount. In the event that such amount is retained by the Employer, the entire amount shall be invested in an investment selected by the Plan Administrator.

Section 10.02 — Change in Designation: Married Participant

In the case of a Married Participant, any designation of a Beneficiary or any revocation or change in a Beneficiary which has the effect of designating a person as Beneficiary who is not such Married Participant's spouse will not be valid unless the spouse consents in writing to such designation, revocation, or change.

The terms of such consent must acknowledge the effect of the consent and the consent must be witnessed by a notary public or Plan representative. The designation of a non-spouse Beneficiary must specify whether the spouse consents to a designation of a Beneficiary that can be changed without further consent on the part of the spouse or the spouse is only consenting to a designation of a specific Beneficiary that cannot be changed without the spouse's consent. A consent that permits designations by the Participant without any requirements of further consent by the spouse must acknowledge that the spouse has the right to limit consent to a specific Beneficiary and the spouse voluntarily relinquishes said right. The provisions of this section shall not be applicable if the Employer is satisfied that the required consent cannot be obtained because the Participant does not have a spouse, because the spouse cannot be located, or because of such other circumstances as the Secretary of the Treasury may prescribe by regulations.

Any consent by a spouse, or the establishment that the consent of a spouse cannot be obtained, shall only be effective with respect to such spouse.
Article XI – Amendment and Termination

Section 11.01 — Amendment of Plan

The Board shall have the right to amend this Plan in any and all respects at any time and from time to time; provided, however: (a) no amendment shall increase the duties or liabilities of the Funding Company(ies) without their written consent; (b) that no amendment shall deprive any Participant of any of the accrued vested benefits to which he is entitled under this Plan; and (c) that no amendment shall provide for the use of funds or assets held by the Plan other than for the benefit of Participants and their Beneficiaries and, subject to Section 3.04, no funds held by the Plan shall ever revert to or be used or enjoyed by the Employer prior to the satisfaction of all liabilities hereunder to its Participants and their Beneficiaries.

Section 11.02 — Termination of Plan

The Employer reserves the right to terminate the Plan at any time. In the event of termination of the Plan or a partial termination of the Plan or a complete discontinuance of contributions, the Accounts of affected Participants shall become one hundred percent (100%) vested and shall not thereafter be subject to forfeiture.

Article XII – Administration of the Plan

Section 12.01 — Authority

The Employer shall be the Plan Administrator. The Employer shall maintain, or cause to be maintained, records on the employment and compensation history of each Participant in sufficient detail to permit an accurate determination of any benefits to which the Participant may be entitled under the Plan. The Plan Administrator and any delegates shall direct their duties with respect to the Plan (a) solely in the interest of the Plan’s Participants and Beneficiaries and (b) for the
exclusive purpose of providing benefits to the Plan's Participants and Beneficiaries and defraying reasonable expenses of administering the Plan.

Section 12.02 — Payment of Plan Expenses

The Employer may determine that certain expenses will be borne by Participants.

Section 12.03 — Plan Administrator's Right to Administer and Interpret the Plan

The Plan Administrator shall have the absolute power, authority and discretion to administer and interpret the Plan and to adopt such rules and regulations as in the opinion of the Plan Administrator are necessary or advisable to implement, administer, and interpret the Plan, or to transact its business. Such rules and regulations as are adopted by the Plan Administrator shall be binding upon any persons having an interest in or under the Plan.

Section 12.04 — Claims Procedure

A claim for benefits under the Plan must be made to the Plan Administrator in writing. The Plan Administrator shall provide adequate notice in writing to any Participant or Beneficiary whose claim for benefits under the Plan has been denied, setting forth the specific reasons for such denial, written in a manner calculated to be understood by the Participant or Beneficiary. If a claim is denied, in whole or in part, the Plan Administrator shall send the claimant a notice of denial explaining the reasons for denial of the claim. A claimant whose claim has been denied, or his authorized representative, may request a review of the denial, but such a request must be in writing, and must be submitted to the Plan Administrator within sixty (60) days after the claimant's receipt of the notice of denial. The review of a claim which has been denied shall be made by the Plan Administrator within ninety (90) days of the receipt of the request for review, unless the Plan Administrator determines that special circumstances require additional time, in which case a decision shall be rendered not later than one hundred twenty (120) days after receipt of the request.
for review. The decision on the review shall be in writing and shall include specific reasons for the decision, written in a manner calculated to be understood by the claimant, and specific reference to the pertinent Plan provisions on which the decision is based. The Plan Administrator shall have the absolute authority, power and discretion to adjudicate claims.

Article XIII — Miscellaneous Provisions

Section 13.01 — Employees’ Plan

This Plan is created for the exclusive benefit of the Employees of the Employer and shall be interpreted in a manner consistent with its being an Employees’ plan as defined in Section 401(a) of the Code. Subject to Section 3.04, no funds contributed to this Plan nor any assets of this Plan shall ever revert to or be used or enjoyed by the Employer, nor shall any such funds or assets ever be used other than for the exclusive benefit of Employees of the Employer and their Beneficiaries and defraying reasonable Plan expenses.

Section 13.02 — Additional Limitations on Liability

Neither the Employer, its Employees, trustees, and officers, nor the Plan Administrator in any way guarantees this Plan against loss or depreciation, nor do they guarantee the payment of any benefit which may become due hereunder to any present or former Participant or Beneficiary.

Section 13.03 — General Undertaking of All Parties

All parties to this Plan and all persons claiming any interest whatsoever hereunder agree to perform any and all acts and execute any and all documents and papers which may be necessary or desirable for the carrying out of this Plan or any of its provisions.

Section 13.04 — Agreement to Bind Heirs, Etc.

This Plan shall be binding upon the heirs, executors, administrators, successors and assigns, as such terms shall apply, of any and all parties hereto present and future.
Section 13.05 — Invalidity of Certain Provisions

If any provision of this Plan shall be held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision hereof and this Plan shall be construed and enforced as if such provision had not been included.

Section 13.06 — Right to Employment

Nothing contained in the Plan or any modification hereof, or the creation of any fund or account for the payment of any benefit, shall be construed to give any Employee, Participant or Beneficiary any right to employment or continued employment with the Employer which he would not have had, had the Plan not been created.

Section 13.07 — Incapacity

In the event that any Participant is unable to care for his affairs because of illness or accident, any payment due may be paid to the Participant's spouse, parent, brother, sister or other person deemed by the Plan Administrator to have incurred expenses for the care of such Participant, unless a duly qualified guardian or other legal representative has been appointed.

Section 13.08 — Governing Law

The Plan shall be construed, administered and enforced in accordance with the laws of the State of Ohio other than such laws as are specifically preempted by federal law.

Section 13.09 — Tax Qualification

This Plan has been adopted, based upon the condition precedent that it be approved and qualified by the Internal Revenue Service as meeting the requirements of the Code and the Treasury Regulations issued thereunder with respect to qualified retirement plans. Notwithstanding any other provision in this Plan, if the Commissioner of the Internal Revenue Service or his delegate determines that the Plan, or the Plan as it may be amended by the Employer in an effort to receive
such approval, does not qualify under the applicable provisions of the Code, the Employer will
make such changes required to so qualify the Plan.

Section 13.10 — Number of Counterparts

This Plan may be executed in any number of counterparts, each of which when duly
executed by the Employer shall be deemed to be an original, but all of which shall together
constitute but one instrument, which may be evidenced by any counterpart.

Section 13.11 — Masculine, Feminine, Singular and Plural

The masculine shall include the feminine and the singular shall include the plural and the
plural the singular wherever the person or entity or context shall plainly so require.

Section 13.12 — Withholding Taxes

The Plan Administrator may make any appropriate arrangements to deduct from all amounts
paid under the Plan any taxes required to be withheld by any government or government agency.
Each Participant and/or Beneficiary shall bear all taxes on amounts paid under the Plan to the extent
that no taxes are withheld, irrespective of whether withholding is required.

Section 13.13 — Prevention of Escheat

If the Funding Company(ies) is unable to make payment to any Participant or other person
to whom a payment is due under the Plan because it cannot ascertain the identity or whereabouts of
such Participant or other person after reasonable efforts have been made to identify or locate such
person (including a notice of the payment so due mailed to the last known address of such
Participant or other person as shown on the records of the Employer), such payment and all
subsequent payments otherwise due to such Participant or other person shall be treated as forfeited
three (3) years after the date such payment first became due; provided, however, that such payment
and any subsequent payments shall be reinstated retroactively no later than sixty (60) days after the

date on which the Participant or person is identified or located.

Notwithstanding any provision of this Plan to the contrary, service credits and contributions

with respect to qualified military service will be provided in accordance with Section 414(u) of the

Code.

IN WITNESS WHEREOF, the Employer has caused the Plan to be executed as of the date

written below.

APPENDIX XXVII

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

March 20, 2011
Donna A. James

Donna James is managing director of Landon & Associates LLC, the advisory services firm she founded in 2006. She is a trusted resource and advisor for senior business leaders and small businesses on issues related to governance, new business development, strategy, financial and risk management, and leadership development. A national business leader with executive experience at the highest corporate levels, she also serves on the board of directors for Coca-Cola Enterprises, CNO Financial, Limited Brands, and Time Warner Cable.

Previously, Ms. James was president of Nationwide Strategic Investments—a division of Nationwide Mutual Insurance Company. In this role, she was responsible for developing and executing growth strategies for five U.S. and global financial subsidiaries and affiliates. She also spearheaded a new business innovation team and a venture capital fund to discover, analyze, and commercialize opportunities in financial services. Prior to joining Nationwide, Ms. James was an accounting professional with PricewaterhouseCoopers. She holds a BS in accounting from North Carolina Agricultural and Technical State University, two honorary doctorates, and designation as a CPA (non-practicing).

Ms. James has served in many leadership and advisory roles at The Ohio State University. She served on the Wexner Center for the Arts board of trustees and was co-chair of the National Council of Ohio State Women, an organization to promote networking and mentoring among university alumnae. She has been a featured speaker in the MBA for Working Professionals Program, and served as panelist for Fisher College’s Women’s Leadership Summit.

In Columbus, Ms. James founded and chairs the board of the Center for Healthy Families, a nonprofit organization focused on transforming the lives of pregnant and parenting teens and their children. She also serves as a board trustee for Ohio Health and as executive director of the African American Leadership Academy.

Ms. James received the 2010 Lettie Pate Whitehead Evans Award from the Board of Directors Network, the national Beta Gamma Sigma Business Achievement Award, and the YWCA Women of Achievement Award. She is a member of the Junior Achievement Business Hall of Fame and the National Historically Black College and Universities Hall of Fame. Black Enterprise Magazine named her one of the top 75 in Corporate America in 2005. In 2010, Ms. James was named by President Obama as chair of the National Women’s Business Council, a nonpartisan advisory group to the president, Congress, and the Small Business Administration.
Solomon H. Snyder
DOCTOR OF SCIENCE

Solomon H. Snyder, MD, is a world-renowned neuroscientist and distinguished service professor of neuroscience, pharmacology, and psychiatry at Johns Hopkins University. He was a founding member of the Department of Neuroscience at Johns Hopkins in 1980 and served as head of the department from 1980 to 2006, when it was renamed the Solomon H. Snyder Department of Neuroscience.

A 1962 graduate of Georgetown Medical School, Dr. Snyder trained as a research associate at the National Institutes of Health from 1963 to 1965, and was a resident in psychiatry at Johns Hopkins University School of Medicine from 1965 to 1968. He joined the faculty there in 1966 as an assistant professor of pharmacology and, in 1970, was granted full professorship.

Dr. Snyder is a pioneering figure in the field of neuropsychopharmacology. His key discoveries have contributed in innumerable ways to the advancement of scientists' understanding of the neurobiology of brain disorders and their treatments. Of the many discoveries originating from his laboratory, two of the most notable are the characterization of opiate receptors—leading to a greater understanding of pain perception and its treatment—and the role of nitric oxide in neurotransmission. His lifelong efforts have had a major impact on the understanding of molecular mechanisms of drug action, and on drug discovery in the pharmaceutical industry for the treatment of Alzheimer's and Parkinson's diseases, stroke, and schizophrenia.

Dr. Snyder is the author or coauthor of more than 1,000 journal articles. He has written six research books and serves on major scientific editorial boards. In 2005, Dr. Snyder was awarded the nation's highest scientific honor, the National Medal of Science. Numerous other recognitions include the Albert Lasker Award, the Albany Medical Prize, the Bower Award of the Franklin Institute, and the Gerhard Prise of the Society for Neuroscience. He is a member of the U.S. National Academy of Sciences and a fellow of both the American Academy of Arts and Sciences and the American Philosophical Society.

Ellen J. Tressel
DISTINGUISHED SERVICE AWARD

Ellen J. Tressel has defined her role as an ambassador for The Ohio State University in ways both exceptional and engaging. In North Olmsted, Ohio, where she and her husband, head football coach Jim Tressel, to the university in 2001, she began to fill compelling needs at Ohio State and in the community through service and stewardship.

Ms. Tressel’s belief that a world-class library is at the heart of a learning community was manifested in her leadership during the extremely successful campaign for renovation of Thompson Library at Ohio State. Serving as co-chair with her husband, she worked tirelessly to secure resources for the magnificent structure that now stands at the head of the Oval. In addition, the Tressels have been generous in their personal support of Thompson Library.

Ms. Tressel has been an equally enthusiastic volunteer in an effort to raise funds and awareness for the James Cancer Center and Solove Research Institute, serving as honorary co-chair for the Power to Change Lives Campaign that helped raise more than $104 million to support cancer research and expansion programs. Her philanthropic efforts also include ProjectONE, a $1 billion expansion project for The Ohio State University Medical Center. A frequent speaker to community groups, she donates her honoraria to the Tressel Family Fund for Cancer Research and Prevention.

Ms. Tressel’s community involvement is far reaching and includes service on the boards of directors for The James Foundation, Mount Carmel College of Nursing, Nationwide Children’s Hospital Center for Child and Family Advocacy, West Ohio United Methodist Conference, and Buckeye Boosters. She and her family also remain engaged in the Youngstown area, most recently providing funding for the Watson and Tressel Training Site at Youngstown State University.

Ms. Tressel is an alumna of Youngstown State University, where she earned a degree in business education in 1975, and a graduate of the Security Industries Association program at the Wharton School of Finance. Her financial career began at her family business, The Youngstown Welding and Engineering Company. She later joined brokerage firm Butler Wick and Co., where she held the post of vice president of trading before relocating to Columbus.
February 11, 2011 meeting, Board of Trustees

The Graduate School
Dean: Patrick S. Osmer

Doctor of Musical Arts
Mary Davis Fetherston, Columbus
B.Mus. (Peabody Conservatory of Music)
M.Mus. (University of Cincinnati)
Music
Dr. Mark Rudoff

Eunsook Lee, Yongin City, Korea
B.A. (Sangmyung University)
M.A. (San Francisco Conservatory of Music)
Music
Dr. Loretta Woliver

Gregory Austin Lyons, Ruston, LA
B.Mus.Ed. (Wheaton College)
M.Mus. (Central Michigan University)
Music
Dr. Susan Powell

Joseph Michael Van Dyke, Circleville
B.S., M.Mus. (Austin Peay State University)
Music
Dr. Caroline Hong

Chien-Hui Wong, Penghu, Taiwan, ROC
B.Mus. (Taipei Municipal Teachers College)
M.Mus. (Lee College)
Music
Dr. Steven Glaser

Doctor of Philosophy
Dalia Abdelhamid Sayed Abdelhamid, Cairo, Egypt
B.S. (Cairo University)
M.S.
Pharmacy
Dr. Pui-Kai Li

Sumayyah Abdullah, Arima, Trinidad and Tobago
B.S.Honors (Spelman College)
Public Health
Dr. Randall Harris

Bruce M. Adcock, Latham, NY
B.S. (Lafayette College)
M.S.
Computer Science and Engineering
Dr. Bruce Weide

Josephine E. Aimiwu, Worthington
B.S.Pham. Sci.
Pharmacy
Dr. Kenneth Chan

Akhshata Anand Almad, Columbus
Bachelor’s, Master’s (University of Mumbai)
Neuroscience Graduate Studies Program
Dr. Dana McTigue

Jihoun An, Busan, Korea
B.S.Hort. & Forestry (Dong-A University)
Master’s (Ewha Womans University)
M.S. (University of Saskatchewan)
Education
Dr. Samuel Hodge

Godwin Tayese Apaliyah, Columbus
B.A. (University for Development Studies, Ghana)
M.S.
Rural Sociology
Dr. Joseph Donnermeyer

Joshua Wayne Askin, Columbus
B.S.Mat.Sci. & Eng. (University of Pittsburgh)
M.S. (Universität Augsburg)
M.S.
Materials Science and Engineering
Dr. Wolfgang Windl

Nurcan Atalan-Helicke, Columbus
B.S. (Middle East Technical University)
M.A. (Bilkent University)
Geography
Dr. Becky Mansfield

Sarah L. Ball, Grove City
B.A. (Capital University)
Molecular, Cellular, and Developmental Biology
Dr. Jiayuh Lin

Michael Ryan Betz, Elizabeth, PA
B.A.
Agricultural, Environmental and Development Economics
Dr. David Kraybill

Sarah Marie Carver, Albion, MI
B.S.Biology (Albion College)
Microbiology
Dr. Olli Tuovinen

Hao-Hsun Chang, Taipei, Taiwan, ROC
B.S. (National Taiwan University)
M.S.
Food Science and Technology
Dr. David Min

Chia-Yi Chen, Columbus
B.S.Chem. (National Central University, Taiwan)
Chemical Physics
Dr. Arthur Epstein

Hsiao-ping Chen, Taipei, Taiwan, ROC
B.Art.Ed. , M.A.
Art Education
Dr. Sydney Walker

Inchul Choi, Seoul, Korea
B.Eng., M.S. (Inha University)
M.S.
Mechanical Engineering
Dr. Walter Lempert

Taeyoung Choi, Columbus
B.S.Physics (Seoul National University)
Physics
Dr. Jay Gupta

Gabriel Jaime Colorado Zuluaga, Medellin, Colombia
B.S.Forestry, Magister (Universidad Nacional de Colombia)
Environment and Natural Resources
Dr. Amanda Rodewald

Angelo R. Costanzo, Columbus
B.A.Honors (University of California, San Diego)
M.A.
Linguistics
Dr. Brian Joseph
February 11, 2011 meeting, Board of Trustees

Vicki Sue Daiello, Cincinnati
B.F.A. (Ohio Wesleyan University)
M.A.
Art Education
Dr. Candace Stout

Duaa Adel Dakhlallah, Columbus
B.S. (Mutah University)
Molecular, Cellular, and Developmental Biology
Dr. Clay Marsh

Jason Michael Davis, Cleveland Heights
B.A. (University of Chicago)
M.A.
Geography
Dr. Becky Mansfield

Kimberly Desneiges de La Harpe, London
B.S. (University of Portland)
Chemistry
Dr. Terry Gustafson

Kevin Patrick Driver, Columbus
B.S. (University of Louisville)
M.S.
Physics
Dr. Alan Hirvela

Lei Fang, Columbus
B.S. (University of Science and Technology of China)
M.S.
Physics
Dr. Jonathan Godbout

Allison Fisher, Plain City
B.A. (University of Houston-Downtown)
M.A.
English
Dr. David Herman

Stacey Lea Fossey, Skippers, VA
B.S.Biology (Virginia Polytechnic Institute and State University)
D.V.M. (Louisiana State University, Baton Rouge)
Veterinary Biosciences
Dr. Cheryl London

Kevin Chi Foy, Buea, Cameroon
Bachelor’s (University of Buea)
Master’s (Umea University)
Microbiology
Dr. Pravin Kaumaya

Dharanesh Mahimapura Gangaiah, Wooster
D.V.M. (University of Agricultural Sciences, Dharwad)
M.P.H. (Govind Ballabh Pant University of Agriculture and Technology)
Veterinary Preventive Medicine
Dr. Gireesh Rajashekara

Xhuljeta Gjini, Casselberry, FL
Diploma (Aleksander Xhuvani University)
M.A. (University of Central Florida)
Education
Dr. Alan Hirvela

Melvin Gonzalez Rivera, San Juan, PR
B.A., M.A. (University of Puerto Rico)
Spanish and Portuguese
Dr. Javier Gutierrez-Rexach

Patrick J. Gray, Chambersburg, PA
B.S. (Pennsylvania State University)
Chemistry
Dr. Robert Fox

Rockendra Gupta, Columbus
B.Tech. (Nagpur University)
M.Tech. (University of Mumbai)
Food Science and Technology
Dr. V M. Balasubramaniam

Ning Han, Nanping, China
B.Eng., M.S. (Zhejiang University)
M.S.
Chemical Engineering
Dr. Jessica Winter

Mildred Marie Harris, Columbus
B.A. (Princeton University)
M.S. (Columbia University, Main Div.)
Social Work
Dr. Denise Bronson

Joseph Michael Heer, Chillicothe
B.S.Chem.Eng., M.S. (Case Western Reserve University)
Chemical Physics
Dr. James Coe

Christopher John Henry, Columbus
Ohio State Biochemistry Program
Dr. Jonathan Godbout

Mohamed Darwish Hessein Hassona, Columbus
B.Pharm., Master’s (Helwan University)
Ohio State Biochemistry Program
Dr. Altan Wani

Romina Marie Garret Holbert, Fairborn
B.S.Biol.Sci., M.Ed. (Wright State University)
Education
Dr. Eric Anderman

Yolanda Feimster Holt, Columbus
B.S. (Western Carolina University)
M.Ed. (North Carolina Central University)
Speech and Hearing Science
Dr. Robert Fox

Mohammad A. Hotait, Columbus
B.S. (American University of Beirut)
M.S.
Mechanical Engineering
Dr. Ahmed Kahraman

Zivojin Jakovljevic, Parma
Diploma (Saint Sava School of Theology)
M.A. (Lutheran School of Theology at Chicago)
M.A.
Slavic and East European Languages and Literatures
Dr. Daniel Collins

533
February 11, 2011 meeting, Board of Trustees

Firdaus Husain Janoos, Pune, India
B.Eng. (University of Pune)
M.S. Computer Science and Engineering
Dr. Raghu Machiraju

Sarah Javid, Columbus
B.S. (James Madison University)
Biophysics
Dr. Richard Fishel

Yuxiong Ji, Nanying, China
B.Eng., Master’s (Tongji University)
M.S., M.Appl.Stat. Civil Engineering
Dr. Mark McCord
Dr. Rabi Mishalani

Monica Johnson, Bangalore, India
B.Eng. (Bangalore University)
M.S. (Wright State University) Industrial and Systems Engineering
Dr. Steven Lavender

Hahn Chul Jung, Kwangju, Korea
B.S., M.S. (Yonsei University) Geological Sciences
Dr. Douglas Alsdorf

Hana Kang, Highland Park, NJ
B.A. (Rutgers University -New Brunswick)
M.A. East Asian Languages and Literatures
Dr. Marjorie Chan

Akiko Kashiwagi, Fujisawa, Japan
B.A. (Tokyo University of Foreign Studies)
M.A. (University of Findlay)
M.A. East Asian Languages and Literatures
Dr. Mineharu Nakayama

Dr. Margaret Wyszomirski
Dr. Karen Hutzel

Joonshik Kim, Columbus
B.Eng. (Inha University)
M.S. Electrical and Computer Engineering
Dr. Fernando Teixeira

Sang Hyun Kim, Daegu, Korea
B.A. (Kyungpook National University)
M.S. (South Dakota State University)
M.A. Education
Dr. Philip Smith

Anil Kumar, St. Louis, MO
B.S.Agr., M.S. (University of Agricultural Sciences, Dharwad)
Plant Cellular and Molecular Biology
Dr. Richard Sayre

Yun Soo Lee, Korea
B.S.Ed., M.A.Educ. (Seoul National University) Education
Dr. Phillip Ward

Huseyn Lekesiz, Bursa, Turkey
B.S.Mech.Eng., Master’s (Uludag University) Mechanical Engineering
Dr. Noriko Katsube

Maria Alejandra Leon Garcia, Guadalajara, Mexico
Licenciatura (University of Guadalajara) Master’s (Seoul National University) Education
Dr. Robert Lawson
Dr. Ann Allen

Elisa Leyva-Guerrero, San Luis Potosí, Mexico
Licenciado (Universidad Autónoma de San Luis Potosí) Plant Cellular and Molecular Biology
Dr. Patrice Hamel

Lin Li, Anshan, China
B.S.Mat.Sci.&Eng. (Zhejiang University)
M.S. Materials Science and Engineering
Dr. Peter Anderson

Ruth Li, Patchogue, NY
B.A., B.S. (Bucknell University) Integrated Biomedical Science Graduate Program
Dr. Douglas Kniss

Yanyan Li, Nanjing, China
B.S. (Nanjing Normal University) Food Science and Technology
Dr. Steven Schwartz

Kathryn Linder, Hilliard
B.A. (Whitworth College) M.A. Women’s Studies
Dr. Linda Mizejewski

Yu-Yu Liu, Kaohsiung, Taiwan, ROC
B.S. (National Tsing Hua University) Ohio State Biochemistry Program
Dr. Sissy Jhiang

Paul R. Malackany, Canton
B.A. (Miami University Oxford) M.A. Sociology
Dr. Randy Hodson

Sivom Manchiraju, Rishikesh, India
B.Tech. (Jawaharlal Nehru Technological University) Master’s (Michigan State University) M.S. Materials Science and Engineering
Dr. Peter Anderson

Jesse Lynn Martin, Spencerville
B.S. Physics
Dr. Arthur Epstein

Hamsa Priya Mohana Sundaram, Chennai, India
B.Tech. (Jawaharlal Nehru Technological University) Master’s (Indian Institute of Science) Chemical Engineering
Dr. Michael Paulaitis

Lawrence James Mrozek, Columbus

The Board of Trustees met Thursday, April 7, and Friday, April 8, 2011, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

**  **  **

Minutes of the last meeting were approved.

**  **  **
April 8, 2011 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, April 7, 2011, at 9:10 am.

Mr. Wexner:

Good morning. I would like to convene the meeting of the Board of Trustees. The full Board will reconvene tomorrow morning at 9:00 am.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding employment, compensation and discipline and to discuss matters required to be kept confidential by State Statute.

Upon motion of Judge Marbley, seconded by Mrs. Kass, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Wexner, Borror, O'Dell, Shumate, Hicks, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Reid, Wadsworth and Kellogg.

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Friday, April 8, 2011, at 9:15 am.

Mr. Wexner:

Try to keep our cell phones turned off. We are very concerned about electronic interference. The minutes of the February Board meeting have been distributed to all members of the Board. If there are no additions or corrections I would ask that the minutes be approved as distributed.

Where is my friend, Brandon? Would you handle the Student Recognition Awards? Thank you.

STUDENT RECOGNITION AWARDS

Mr. Mitchell:

Our first recipient is Samantha Boch from the College of Nursing.

Samantha is a first-generation college student from Bremen, Ohio. In the four years that she has been at Ohio State she has taken advantage of a multitude of opportunities to travel, serve, learn, and connect with people.

As a dual degree student in Nursing and women’s, gender and sexuality studies, her career interest include serving the health care needs of disadvantaged women and
April 8, 2011 meeting, Board of Trustees

girls in underserved areas as a women’s health nurse practitioner. Through five Buck-I-Serve trips, she has worked with non-profits in New York City and Nepal; Habitat for Humanity in Mississippi and Florida; and flood victims in Iowa.

Through her participation in honors and scholars programs, she facilitates “Girls’ Circles” in Columbus for inner-city middle school children to promote self-esteem and teamwork. The OSU honors community has benefited from her involvement on the Honors Advisory Board, the Romophos Sophomore Honorary, Health Science Scholars Leadership Council, Sigma Theta Tau International Nursing Society and SPHINX Senior Class Honorary. Samantha’s honors thesis in the College of Nursing is “Faculty and Nursing Students’ Knowledge, Attitudes and Behaviors about Lesbian, Gay, Bisexual, and Transgender People.”

Since coming to Ohio State, Samantha has been a resident in the Alumnae Scholarship Housing Program in which she shares in all planning, management, and decision-making. This past year, she was selected as their attendee for Ohio State’s Homecoming Court. Samantha is a Buck-I-Serve student director and serves as a student nurse associate at the Ohio State University Medical Center.

After graduation, Samantha plans to become a travel nurse for a few years and then to eventually become a Women’s Health Nurse Practitioner that works with the underprivileged population and advocates for social change.

Our second award recipient is James Riley Cruttenden, and he is from the College of Arts and Humanities.

Riley is a Columbus native, he graduated from Upper Arlington High School.

Riley is an art student in sculpture planning to graduate this spring with a Bachelor of Fine Arts with honors. He has served on the Curriculum and Honors Committees for the Arts and the Dean’s Student Advisory Group for two years. He is a two-time winner of the Fergus Memorial Scholarship. He has been a curator for Fabrication Notion, which is a lecture and demonstration series and a co-founder of the Denny Hall Humanities Art Gallery.

Riley is particularly recognized for his willingness to help, his enthusiasm for his school work, his ability to foster good communication between student and administrative perspectives, and his overall personality led Dean Shanda to simply state "Riley Cruttenden is truly a joy to know and work with."

Riley is pursuing a studio-based research project for his honors degree, and curated Tisket TASKet, an event with artist Oliver Herring. After graduation, he is participating in a month-long, architectural study abroad program led by Professor Jacqueline Gargus. After that program he plans on seeking professional internships in contemporary art museums around the nation and continuing his studio-art practice before applying to graduate programs in sculpture.

Ms. Boch:

Thank you. I would first like to thank the Board for recognizing me for this award today, but I would also like to extend thanks to Dean Lenz and Dr. Linda Bernhard who came from the College of Nursing today to support me. I would also like to thank my Aunt Peggy, my dad and my twin brother who are also here today. I have been very fortunate and lucky to have the support that I do throughout college and throughout my life, and I am very fortunate to be here. Thank you.
April 8, 2011 meeting, Board of Trustees

Mr. Cruttenden:

I would also like to thank the Board and Sebastian Knowles who is here to support me as well as my mother Linda, and our great family friend Lori Smith. I wanted to share something that I probably should not with the members of the Board. That is the fact that I did not want to come to Ohio State. It was no fault of your own. I grew up three miles west of this building in Upper Arlington, and I really wanted to spread my wings. I wanted to get a taste of something different, someplace new. I ended up coming here, and it was the best decision of my life. I have had incredible opportunities, amazing professors, and just met the most wonderful friends that anyone could ask for, and they are friends that are going to stay with me for life.

So thank you so much for making sure that there are incredible doors waiting for me to open when I got here. I think that the rewards and the returns on investments as well as the arts and culture activities are much harder to quantify as they are harder to see, but they are so important. Please make sure that those doors continue to be waiting for other students when they get here. Thank you very much.

Mr. Kellogg:

What led you, as opposed to spreading your wings and going elsewhere, was that somebody or something, or a combination of factors?

Mr. Cruttenden:

To be honest, I was actually going to go to Rutgers University; I enrolled in classes and I was signing my loan agreements, and I had this moment of terror. I had never signed my name loaning out $16,000 for one year, and I knew that would not even cover all the expenses, so I applied to Ohio State just to be sure. It started with that and it turned out to be so much more.

Mr. Wexner:

Clark, I think your question about what brings a student here, and James' response, reminds us all of the fundamentals and the mission of a land grant and how important it is. For that same value proposition and maybe coincidence of location, I would not have gone here. It always resounds in a positive way with me when you see those patterns repeating and the quality of education that is attainable, and I can attest that it is possible, that Ohio State will make a positive influence on your life. Congratulations.

-0-

PRESIDENT'S REPORT

President Gee:

Thank you very much. First of all congratulations to our students and Brandon, thank you very much, we really appreciate that.

Well there is much to report since we met several months ago. A few days after our last Board meeting we announced the transformative gift of $100 million from Les and Abigail Wexner and the Limited Brands Foundation. Now that is a staggering amount of money, I want you to know, and I have already spent it. I want you to know that it is an unprecedented investment in the University, and one of the nice things about this investment is the fact that it is generating a lot of other investment in the institution of which Dr. Sorensen will tell you about. I am going to return to the impact of that gift a little bit later.
This is always the time in which we celebrate the great work of our Trustees, present and those who have accomplished a great deal on behalf of the University. Our outgoing Trustees have contributed in numerous ways. Doug Borror, my friend who sits right next to me, who always wears Ohio State. The thing I love about Doug is that not only does he have great ties, but he has the most incredible Ohio State socks. I do not know where you get those Doug, or if you knit those, but we all know that Doug has been a tenacious supporter of this University in so many different ways, but today what we want to celebrate is the fact that Doug has been the most outspoken advocate for students that we could possibly imagine. Doug, your good work is evidence by the students that are here today and by those 65,000 who are out there generously grateful for what you have done.

Speaking of our students, of course Alex Swain, who by any measure is an average student, but not an average student, she is the most remarkable human being that you could possibly imagine, represents herself, her family, but the enthusiasm that she has for this University, and maturity for which she has engaged on this Board is something that I think we all take great pride in, so Alex, you will be leaving the Board, but you will not be leaving our hearts and our minds, as well not Doug. So would you please give both of these people a great round of applause?

And well deserved indeed, as we all know, I also want to congratulate Mr. Wexner on his reappointment to the Board by Governor Kasich. We all continue to look forward to working with him and his strong, strong leadership.

Another remarkable milestone is the sending off of 2,120 new alumni with a powerful commencement address by Donna James. The crowd, one of my favorite moments always, is the crowd of families and friends in the Schott, and this year they seemed especially large and especially happy so that made the day very special.

Among the graduates was Jantel Lavender, the first and only four-time Big Ten Player of the Year, and I can tell you from personal experience, she is a very strong woman. She came across the stage, lifted me up in the air, and I nearly was not able to finish the commencement ceremony. What a fabulous person. The reason I am making this point is that, as Clark well knows, our winter commencement coincides with the national tournament, and there is this wonderful picture that is on the national stage. Our four senior players on our basketball team, right before they played in their game in Cleveland, they had a wonderful shot of them which went out on the national media, all with their caps on, ready to play basketball, but all of them graduated and did a wonderful job that day. I think that is very special. I, of course, want to congratulate both of our teams and our coaches for the great work that they did on behalf of the University.

During the past several weeks I have been traveling around the state and across the country, preaching, as I say, the gospel of Ohio State. I visited alumni and families and friends in Arizona, Colorado, Florida, Washington D.C., New York City, and Boston. Closer to home I continue to travel the state, starting my county tours; I was in Mansfield and Lima to see both of our campuses there.

The University spirit obviously is found in great supply from the residence halls at our smaller campuses literally to the halls of Congress. On our Columbus campus we celebrated the first birthday of our Student Union and in typical style for our Student Union there was a giant group hug around the exterior of the building with balloons and cupcakes for all. It was very special.

On the academic and administrative side we have made two substantial new appointments. The first is that of David Williams, who will join us this month as the new dean of the College of Engineering. Dr. Williams served as president of the University of Alabama at Huntsville. He also has an extremely strong record of
teaching and research and has developed numerous long-standing public-private partnerships.

I also, at this time, acknowledge the outstanding work of Greg Washington who served so capably as our interim dean and moved the College forward in many important ways.

At a press conference, with Governor Kasich, at our Medical Center a couple of weeks ago, we simultaneously celebrated the innovation of our faculty and announced the University’s new Vice President for Technology Commercialization, Brian Cummings, who led the University of Utah to the top spot in the nation in terms of technology commercialization. He will join us on June 1.

At that press conference, Governor Kasich also emphasized the need for our public universities to be less encumbered by state regulation. The entrepreneur university, as we are now calling them, and he made a very strong case, of which we are now making that case with our colleagues in the legislature, and they are receiving that message very clearly and enthusiastically I might also note.

I want to note also that the governor’s proposal released last month does reduce our funding by a relatively modest amount. That is good news, particularly when compared with other states around the country. As we take a look out there, there is no doubt that bipartisan and continued strong support for education in the state is in great abundance, and we are very grateful for that.

Now as I wind down, I will admit here, among friends, that also during the past few weeks I hosted a group of students at the Lady Gaga concert. It was one of those experiences that is quite difficult to describe. I am not certain if you have ever been to one of these concerts but being lectured to on morality and self-expression by a 24 year old woman in a see-through dress is surely memorable. I will just leave it at that.

Finally, in closing, I would like to return to my opening comments about the truly remarkable gift from the Wexners. It has already, as I said, inspired many of our alumni and friends around the world. Many have supplied their own responses on our website to the chairman’s prompt of “But for Ohio State . . .” that has become a battle cry for us. We now have thousands of interesting stories. What we have done, Les, is we have collected some of the most moving of them and combined them with photographs from the announcement event with students. It is my great pleasure Les, on behalf of our alumni and friends of this University, all who cherish your leadership, and the Ohioans and others from around the world who will benefit from this magnificent gift, a small leather bound copy of just a few of the letters and a few of the members of that day for you and your family. Please accept this with our gratitude. That is my report. Thank you.

Mr. Wexner:

I think we can move forward now with our Committee reports and I would like to ask Gil Cloyd to report for Agricultural Affairs.

-0-

COMMITTEE REPORTS

Dr. Cloyd:

Thank you, Mr. Chairman. The Agricultural Affairs Committee met on Thursday. Participating in our meeting was our new director of the Ohio Department of Agriculture, Jim Zehringer. We are very happy to have his participation. On the
agenda, the first thing we did was have an update on the recovery from the tornado on the Wooster campus and really there has been marvelous progress there. One of the things that became very evident as it was reviewed was the wonderful cooperation in the local public fire safety personnel, as well as The Ohio State University personnel, and through the recovery people kept coming back to the theme of the strength of One University. Our facilities group has just done a great job - the insurance group. A lot of work is being done so that there has been really excellent progress in recovery of the campus. The other thing that was emphasized and is going to be a learning opportunity for further detail is really the disaster plan that was in place, and it was noted that often times when we, and this is a big collective we, when we are involved in our really busy work and our important work, and we have to go through various drills, disaster drills, or things like that, how it can seem like a nuisance, but they had done that and just how critical that was to the very positive and rapid recovery that occurred up there in Wooster in talking about having the command center with all the key local groups in place within two hours after the tornado impact on the campus - so it is some good learning for us and really the importance of having these disaster plans and the right kinds of drills and moving forward.

Overall, in terms of full recovery, the costs are still not fully identified. It looks like the facilities themselves, it will be about $20 million in damage on the facilities and the estimate right now would be a $30 million overall cost when we include clean-up and other things that are engaged there. Progress is, I would say, positive at this point as we look to the insurance interactions as well as to the other granting agencies. I think that we are fairly positive right now in terms of what would be the impact in the financial context from this. Obviously we are going to have some lost research time which is difficult, and one of the things that again the University has done a nice job has been helping the faculty and a lot of the graduate students as they deal with a lot of uncertainty right now about their future research programs. But in response to, you know, just a horrible tragedy with the tornado that hit up there, there has been a really excellent response. Fortunately, I think you know that is where we are putting the P3, the containment facility for animal and plant bio hazardous material. That building was missed, and we asked the question though, what if it was fully operational since it has bio hazardous materials? What if it got hit by a tornado? It was gratifying to know that the thing that has been actually constructed to withstand that kind of a tornado, and even if it would have taken a direct hit, there would have been no problem with any release of any pathogenic agents that you would not want coming out of the facility.

We then had a review by Dean Lonnie King of the Health Science cluster and opportunities of the University and the interaction with the Agricultural Department. We have a relative unique situation here, and we are only one of four campuses in the nation that has the cluster of the Health Science Colleges that we have here at Ohio State, with an Agricultural and Environmental Science College. When we reviewed some of the various kinds of major pressing problems facing the world, the opportunity for trans-college interaction in research on important societal problems is really key. Just a couple of facts: we have a lot of joint work going on with the food safety and the food security area. I was dumbfounded to the fact that there are fifty-five million cases of food borne illness in the United States each year, and obviously when we think about what happens in a global context, the whole subject of food safety and how do you ensure food safety is a major item in front of us and the collaboration is good.

In another area, just figuring out how are we going to feed the world’s population. We are between six and seven billion today. Best estimates say that by 2050 we are going to be above nine billion people on the planet and key to being able to feed people and maintain the health of people is going to be something that can really benefit from research, not only from the food agricultural area but also as it works with the health care institutes. As you know, Dr. King is basically an epidemiologist...
extraordinaire and he talked about the issues you face today when you have the interactions of almost seven billion people with 30 billion animals, and he noted that in recent times of new diseases that we have had 70% of them have emerged from animals into man. So again, the opportunity for collaborative research to address important societal needs exists here.

And then, he talked some about the opportunity we are seeing as we move forward in the genomic research areas, in the health science area, and a focus to personalize medicine; how we can actually help personalize nutritional approaches for people so that they can benefit in a health context and a lot of that is being done now in the cancer research area but moving beyond even as we think about tomatoes rich in lycopene, you know, so that you can benefit of not having prostate cancer but across a whole broad front of getting a better understanding of the genomic and the metabolic issues that different people face; how can you tailor nutrition to maintain health; it's another rich area for research opportunities.

We then talked a little bit about the budget impacts, and both in our extension service and our agricultural research, they will see decreases in this next year and 10% have been flat after that. Dean Moser said that you know these things are going to be painful, but at this point in time I believe they feel they have got the programs in place, the plans in place, that they will be able to address that aspect.

We then concluded with a very interesting update on our Food Innovations Center from Dr. Lee, and he talked about the second green revolution and of course this in part deals with how we are going to feed all these people that I mentioned a moment ago. This kind of population increase, and clearly the innovation in the food area, has been a key that has allowed the world to grow as it has to date and still feed a lot of people. An interesting figure that the director offered us was that if we looked at what agriculture research has done here in the United States over the last couple of decades, we have moved from a situation where at one point in time the food budget of the household was 20 percent of the household expenditures. It is now ten percent of the household expenditures, and it was an interesting way to think about the positive impact of nutritional innovation that I had not thought about previously.

Again, in the Food Innovation Center, we are leveraging the breadth of the intellectual capital at Ohio State. There are 80 faculty and 12 colleges involved. Right at this point in time, a little over $16 million in research investment in that area, and I will not really go through all of the programs that Dr. Lee gave us a headline on, but I was very encouraged that coming back to the kinds of problems that Dean King had outlined there is research directed in all of those areas. I was also very happy to see how we are not only helping society here; we are really helping in the economic recovery here in Ohio. We mentioned two pieces of research coming out of the Food Innovation Center. One is a novel approach on how we can really prevent salmonella transmission in eggs, and it is a secret manufacturing process that the university is getting patented technology, and Dr. Lee could not tell us exactly what it was yet so I am going to be very anxious to see what it is when it comes out in the future. But the point is, by still within a years’ time frame, we can think of this in a commercializeable context, but it will be not only again the dual thing we like to see of helping society, because it is a way to help address the food borne illnesses that come from salmonella contamination in eggs, as well as stimulating economic development in Ohio with the new businesses that will be created and this new way to actually, it is probably a wrong term, but I will say pasteurize the eggs so that the salmonella is not there. And the other invention that has come out of Ohio State is from a heart health standpoint, how can you enhance the soy ingestion. Now when I lived in Asia, soy is everywhere, you know, but the American is never just totally taken to soy as some other cultures have. But we have developed a way that we can have enhanced soy addition in good tasting bread that is Ohio State technology and now this is now on the market and again creating commercial opportunities not only in terms of returns that the University can have but...
April 8, 2011 meeting, Board of Trustees

also importantly jobs creation here in Ohio. Now I have promised this to Blake Thompson, but if you would like a slice of this maybe Blake will give you some after the meeting. And that concludes my report.

President Gee:

First of all, thanks for that report. I think that there are a couple things that I have to say, one is the fact that we are very fortunate to have Dr. King here who, I think, is just a remarkable leader. He is the world’s expert, I have to say this, and I think that some of the board knows this, something called, I’m probably murdering the name, zoonotic, which is the transference of disease from animals to humans and as you can imagine that is an issue of immense importance and the fact that he is here doing this great work.

The second thing, you talk about the green revolution, Ohio State is not late to this game. As you know, this is one of our areas of significant opportunity in terms of food and food production. We think we can lead the world in that regard, but we were really early on that regard. The green revolution, which they speak of in India and which India finally has been able to feed itself, and Dr. Moser is here, but much of it was propelled by Ohio State work, and in fact, one of our great silent heroes here on this campus is a guy by the name of Rattan Lal. He received the Swaminathan Award just two years ago, one of the two most important food prizes in the world because of the fact that he was one of the leaders in the green revolution, came from the Punjabi, was educated at the Punjabi Agricultural University which is really a university that Ohio State helped to establish and is one of the leading agricultural research centers in the world now and then came to Ohio State and remained with us but was always very concerned about the world, about India, which now has 1.2 billion, growing to 2 billion people by about 2025. So think about the impact of the University.

The third thing I have to say, you know, when I travel, I always remember my first term here when I would go and see food processing plants. The Ohio State tomato, which we developed here, is one of the reasons we have one of the largest set of food processing plants in the world, in this Heinz, all the ketchup, it is all due to us. I think it’s important for us to emphasize and celebrate that in today’s world, and I really appreciate your point and your conversation about that, Gil.

Mr. Wexner:

Questions, comments?

Gil, you know, I think for all of us, the notion of economic development and application of science tech transfers is very much on our minds, and obviously I think about it, and you and I talk about it, and Gordon and I talk about it, and I am just listening to it and something just occurred to me and it is kind of an epiphany, but I am trying to stimulate more thinking. We have a significant relationship in Africa with a small country, Burkina Faso, and we are very interested in growing cotton, we are very interested in improving their education, and one of the things we are very interested in, and we have made some contribution in terms of fresh water and safe water, clean water, and our business doesn’t know much about how to dig a water well, or whether they are good ones or bad ones, but we have relationships very high with the prime minister, and we are investing in people from our enterprise. I think the significance in telling the stories, it never occurred to me that all of these things connect to Ohio State, whether it is water, food, technology, growing cotton, spinning cotton, and other things that we do, and what I am trying to do is use myself as kind of the example. I think all of us touch things that touch the University, and I think it’s just sometimes we forget, at least I have, and it never occurred to me to make the connection until I was listening to you about the research and the development, and we can talk offline, but I hope that stimulates other people to
things and people they know, business that connect to the University, applications of research, and students. It never occurred to me to ask myself if we have students here from that country. Just practical things.

President Gee:

We certainly do. We have students from 150 countries here.

Dr. Cloyd:

Your comment is well made, Mr. Chairman. As Ohio State has a global impact and a positive societal impact globally, I think it is very fair to say the impact we are going to have in helping to feed and provide proper nutrition to the people of the world is going to be one of the most significant things that this University will continue to do. Because, I mean, to be to start this is a personal thing, it's kind of a statistical thing if someone says "oh yea, we are somewhere north of six billion in population today and by 2050, you know, we are going to be ten billion or more", and you kind of sit there and think about it, and it is a number, but then when you really start to internalize that, what does it mean? How are all these people going to be fed? Where's their water going to come from? How are we going to keep proper nutrition for people in the world? These are things that, within the lifetime of a lot of people in this room, is going to be a very, very significant issue that needs to be faced, and I am very glad that we have Dean Moser and all of the health science college units here really thinking about and doing the kinds of work that is going to address that otherwise catastrophic problem that the world is going to face.

President Gee:

And that's an area in which, as we talked about strategically, that we want to find discriminating areas, distortions if you will, in which we can lead. This is an area, in which we, in many ways, do lead the world, and it is accelerating, and it is a significant problem. Just so they continue a way to make diet Dr. Pepper, I am fine about that. Ok good, thank you.

Dr. Cloyd:

Plano, Texas is in good hands.

Mr. Wexner:

Any other questions, comments? Alex, do you want to report on the Committee of Trusteeship, please?

Mr. Shumate:

Thank you, Mr. Chairman. We have one action item that I would like to propose. As you know, the Committee on Trusteeship is charged with recommending officers for election to the full Board. Normally we would be making these recommendations at this particular meeting; however, our Committee is recommending that the process for the election of officers, which will be conducted in its normal fashion, be moved to the next meeting of the Board of Trustees, and I would like to make that in the form of a motion.

Mr. Wexner:

Thank you. The motion has been made. Discussion? Questions? Comment?
April 8, 2011 meeting, Board of Trustees

Dr. Frantz:

Yay or nay vote. We do not need to do roll call. So all in favor? Opposed? Motion carries Mr. Chairman.

Mr. Wexner:

Yes, good. Bob Schottenstein, Audit and Compliance Committee Report.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit and Compliance Committee met yesterday at 12:30 pm, and we had one item for action, that item appears as item 17 on the consent agenda. It is a matter that also came up and will be discussed, I suspect, by Mr. Brass at the Medical Affairs Committee. It is a resolution for the approval of the Faculty Group Practice which is a number of years in the making. The matter had been presented to our Committee a number of times as well as to the Medical Affairs Committee, and the purpose of its presentation yesterday was to take final vote, and the Audit and Compliance Committee unanimously recommended that the Faculty Group Practice be set up and other than that, I have no other items to report today.

Mr. Wexner:

Any questions? Comments? Bob, thank you. We will go back to Gil again for the Advancement Committee.

Dr. Cloyd:

Chairman, the Advancement Committee met yesterday and received several important updates and discussed two items that are on our consent agenda. First, Dr. Sorenson led a review of our advancement strategy update. The Committee had previously agreed to the goals for our advancement model in the broad areas of financial awareness and engagement and these eight overall goals or objectives, in which we have previously reported to the Board, are all interrelated and well aligned with the University’s overall strategy. So the advancement team then has developed 11 strategic approaches or initiatives to deliver against these eight objectives, and I am going to outline the 11; 1) increase the value share with our leadership gifts, 2) expand major gifts’ capacity, 3) integrate the corporate foundation in research relations, 4) build a pipeline of planned gifts, 5) cultivate a strong annual giving culture, 6) transform the alumni membership and services model, 7) establish an office of volunteer relations, 8) align outreach efforts in top regional markets outside of Ohio, 9) implement an effective marketing campaign, 10) craft a personal approach to all Ohioans, and 11) shape a disciplined messaging process.

Now the team that has been working the advancement model overall has developed metrics for each of these strategic initiatives, and there was a good discussion on the approach the advancement team has developed, and the committee supported these strategic initiatives as the right ones. We agreed we are going to dedicate most of our June meeting to coming back and doing a deeper dive on the overall marketing approach that we are going to have, because besides being listed as a specific strategy, I think you can understand it covers an awful lot of what we want to achieve in the advancement area. And, the advancement model now is allowing us to do this for the first time in a really integrated way across all of the various ways that we reach the stake holders of Ohio State.

The Committee then reviewed a proposal for the University to proceed with plans for a comprehensive fundraising campaign. Now since January 1, 2009, Ohio State has been in a planning phase for a comprehensive fundraising campaign. The working goal for this campaign is $2.5 billion and the timeline is January 1, 2009 through
June 30, 2016. Now during the planning phase, the University has completed a number of very important activities and to name a few of these: 1) recruitment of a volunteer leadership and campaign steering committee, 2) approved counting guidelines, 3) tested a preliminary university case statement, 4) completed a comprehensive stewardship project, which I really have to thank President Gee for expending vast amounts of his time in really important interactions with stakeholders of Ohio State locally and outside of the state, 5) started leadership gift conversations, 6) we conducted a feasibility study, 7) conducted an extensive benchmarking for goal setting and learning, and 8) established key indicators for a public launch. Now all of the University fundraising units have developed their campaign working goals, and the University has developed a comprehensive strategic and resourcing plan to deliver the campaign. This was all assessed as being positive both from a sufficiency and a robustness standpoint.

Now with the recommendation of the campaign steering committee on February 7, 2011, and the Foundation Board of Directors on March 4, 2011, we have received the recommendation for the University to transition from the planning phase to the quiet phase of the campaign and the Advancement Committee is recommending that to the full Board today for approval as a part of our consent agenda.

I would say that the key will be then as we move from the planning phase to the quiet phase with this. We will hope to raise, before we get to the public phase, 40% to 50% of our total working goal, and we are projecting that this would occur by fall 2012. So if we enter, now move from the planning to the quiet phase, we would anticipate that the work would be done that we want before the public phase by 2012. I really would like to thank Dr. Sorenson, his entire staff for really some tremendous work that has been done to develop this strategic approach, and I would really like to give special thanks to Brian Hastings. He has just been an outstanding collaborator and leader to work with on this over the last 18 months or so, but I think it is an excellent plan.

The Committee then reviewed the University development report as it was presented by Dr. Sorenson, and as of February 28, of this year, total fundraising activity for this year is $296 million. Now this includes the very generous gift from you, Chairman Wexner, Abigail, and the Limited Brands, and let me offer my personal thank you in a public realm for this extraordinary gift. But when we exclude this very, very special gift, we also are making very positive progress in our development efforts, and when we look at total fundraising activity, excluding this marvelous gift, we are 21% ahead of where we were a year ago at this time and in an environment which is obviously still a challenging environment out there. I am especially pleased to report the Students’ First Students Now campaign has surpassed its $100 million goal with three months ahead of schedule which is just terrific. We have now raised $107 million so this is terrific. Overall, really exceptional progress on the development front and the committee is recommending approval of the development report which is also included in our consent agenda.

We then had initial briefings on a couple of very interesting areas. The first being in the social media utilization at OSU, and I think I can speak for all Committee members, this was a real eye opener for us. We found that Ohio State University today is second only to Harvard in how they measure at universities the use of social media. I think that is great. I was astounded by it, and maybe I should not have been, but it was kind of nice, and I think that I even felt better about, and unfortunately Professor Chait is not here today, we are closing on Harvard, so you know we are going to pass those guys not too far in the future I am sure. It is obviously a very important vehicle, when we think about our advancement model to communicate with and engage with students. It was very encouraging to learn that we are engaging the students now, here at Ohio State, not only in what do they want to have in social media here at Ohio State but actually in the design of what we are doing. This is going to culminate in one aspect, on July first, where we are going to
be launching “OSU Mobile”, and this is going to be the first of its kind of a university mobile phone application that we’ll be able to have. So at one site, students and others that pick up this mobile application are literally going to access the University - everything from where is this particular building, and show me a map of how I can walk to get there, to what restaurants are there, to understanding about course work, and it was interesting as they took the students feedback. One of the main things they wanted in this phone application was understanding of academics. So students will be able to find out what are schedules for various classes; they have their own personal one. They will even, through this phone app, be able to find out what kind of grades they get in their course. It is going to be a one stop shop, mobile phone application that really will give people access to Ohio State University. It is going to be a marvelous tool for students and also, when we think of even their life after Ohio State, another way to maintain a strong connection on what is going on at Ohio State and very consistent with what we want to do on an advancement model and particularly as we start thinking about target segmentation to key stake holders and what’s the best way to interact with them and keep them engaged.

The final item, Mr. Griffin provided a report on plans for “Year of the Alumni” at Ohio State, and this initiative had its genesis in the Alumni Association as they looked on how to celebrate the 100th anniversary of the Alumni Advisory Council. So rather than just one time celebratory event, they are creating a year of activities with the alumni of Ohio State in a variety of different formats that will engage the alumni in this celebrating, and this will be everything from internet based interactions and videos, interviews with key buckeyes like Mr. Kellogg that our alumni will be able to have, to regional activities that will be held to foster Ohio State University, the ties to the University, and so I really felt very, very positive, and there was only time for Archie to give us the first look at this but it was really terrific to see this kind of activity, and again I think it speaks to the different kind of thinking that is coming into the advancement model - thinking of not only how do I have an event that celebrates something, but how do I use a very important event like this to create an ongoing engagement with our alumni over the full year. So it was really terrific. That concludes my report, Mr. Chairman.

President Gee:

I am sorry, this is so fascinating to me, but just a couple of things, kind of “oh wow” things. One is the fact that Ohio State has the leading program on social media for journalists in the country. In fact, we have the only one, and it really started with a program we have had for a long time, the Kiplinger Program. The Kiplinger family has, for years, brought in, they used to bring in journalists for a year, to spend a year on our campus doing a variety of different things, then it got down to six months because of the change in the nature of journalism, and now we have a one week program. I just hosted them. We had six hundred applications from the best journalists, literally in the world, and we had 24; they only select 24. We had people from Columbia and South America, the Jerusalem Post, the Los Angeles Times, the Financial Times of London, the New York Times, the Washington Post, all of the leading journalists are here, and they spend a week on our campus. First of all it is a great way to talk about our campus but secondly, it really shows the power of the social media because these institutions are really recognizing what is happening, and Deborah Jasper leads this program and is literally the kind of mother of all this stuff, and we are grateful to have her. She showed one thing though that was fascinating to me. Yale University spent hundreds of thousands of dollars two years ago to put out a video about the University, and they got 8,000 hits. A student at Yale, in his dorm room, put together a video that accomplished the same thing, and it was fun; there was a dance, and people were singing, which got 800,000 hits. The point is the fact that the people that we are impacting think differently about the world than the people that are putting together these videos and that’s where we have to move. Social media has become a phenomenon that is beyond us, but we have to capture it.
April 8, 2011 meeting, Board of Trustees

Mr. Schottenstein:

I do really commend Gil, and Linda, the Vice Chair of Advancement, and everyone involved. After sitting here and listening to their report, you could just turn the clock back, and I think that everyone realizes this, but if you just turn the clock back 24 months, we might have wanted to do every single thing that you just discussed, but we did not have the process or the architecture, if you will, to do it, and we did not have the alignment between marketing and the alumni association and fundraising and development; we did not have gift counting guidelines; we had not done the benchmarking that you all spearheaded that was really well done; we did not have any kind of a strategic direction; and we did not have the One University command that Gordon gave to us, and I think that the momentum, the positive momentum that we have now first of all, it could not have come at a better time for all of the financial reasons and budgetary reasons that we know about, but it's really going to give us, I think, amazing, just have a lot of up-side, and I am really, deeply appreciative, and I think it is just great for Ohio State.

Dr. Cloyd:

Thanks Bob. You know, and one other element build I would add in there that I think that is key, the Ohio State University faculty and staff broke the traditional paradigm of siloism and insularity at a university. The people that have been involved in this - it is just totally amazing. They have not moved forward reluctantly to an advancement model, they have embraced it, and they have brought their energy and their passion and all of us, in our various lives, have spent times and things like organizational and cultural change and know how difficult that can be. It is an overstatement to the hard work they are doing, but they have made it easy here. Our faculty and staff at Ohio State and the way that the students have jumped in now, it is amazing. It totally breaks the stereotype of how universities are supposed to act, and it is always inspirational to me to see it. It is just terrific.

Mr. Wexner:

I concur, Bob. There are a lot of paradigm shifts and things to celebrate in the university - momentum successes - good to be reminded. Ron, do you want to talk about our Physical Environment Committee.

Mr. Ratner:

We had discussion about renewal and deferred maintenance. Terry Foegler did a great job of giving us a report and part of the problem here is always getting your arms around really what Ohio State is. We talk about all the things we are doing, and you like to think about “Wow, how are we going to house all of these things?” This place is really huge. We have done this before and some people might not have heard it. Just on the Columbus campus alone we have got 30 million square feet of buildings. In total, by the way, the University controls 17,000 acres of land. On the campus here we have 460 buildings in that 30 million gross square feet. These are staggering kinds of numbers. The replacement cost of the current assets that we have on our campus, just the vertical assets, the out of the ground assets if you will, is about $10 billion. So here is a sense of the kind of physical facilities that we have, and as many of you know, when we did the framework study last year we also came up with a really excellent tool, a condition assessment tool, to assess what the physical condition of our buildings are. We are using that model now, and it is interesting to see, you know, it has been about a year that we have been able to use it. We are actively using it. We use it to track both the condition of the facilities and the use of the facilities. We are now going through, by the way, a second round of assessments, because we now assess every building on our campus every three years, and it is not just sort of a generic up against a notion of how long the system will last and the idea that there is a 25 year life for a given element of a building. We
are actually going in 64 different systems in every building, specifically assessing their condition, the need for replacement and putting all that back together in a tool which we can interact with, to get our arms around the overall deferral and maintenance cost.

We have spent some time also understanding what the definitions are and I do not want to get into all that detail, but there is an idea that the referral and deferred maintenance, the total liability, by the way, would be to bring the entire campus up to a “like new” condition. One of the things we are going to have to determine as a Board is we are going to have to set a target, particularly as we start to integrate this with the financial planning model and the strategic planning model. What condition do we want to see our campus in? Do we want to get it to 80%? That is a growth that some institutions use of the in effect “like new” condition and we start to look at the cost, particularly as you break them down by different areas of the campus: residential life, athletics, different areas of the campus as to what both the total percentage of that area had and the total deferred maintenance, if you will, the renewal cost. It is not only deferred maintenance but it’s the normal renewal that comes up as you go through the life of a building. We found out, and it did not surprise me very much in one sense but really shocked me in another, that the actual, the academic and the academic supports basis: classrooms, labs, office space, the library, have the highest percentage of our overall liability. Just to give you a sense of this, it’s about 50% of the physical space on campus, but it represents about 85% of the renewal deferred maintenance liability. This is an area that we are really going to have to concentrate in and the other thing about this area is it is an area in which we have to spend a lot of time looking, not only at the physical condition but the functional obsolesce. It is not a question only of what kind of condition the buildings are in, in terms of just the wear and tear on them, but are these buildings still the kind of buildings we need? Is the space the kind of space we need? Is it the right kind of office space; particularly is it the right kind of lab spaces? Gil was mentioning a lot of the stuff that we are doing throughout the university. A lot of those activities need a very specific kind of space. Do we have the right space?

We also need to start to think particularly as we go, and this was one of the outcomes of the entire report, was that we are really going to need to find a model, particularly a capital model that will allow us to do some of the expenditures we need to do, as well as then really an integrated planning model so that when we look at the strategic plan and we make decisions, for instance, if we are going to have a higher percentage of students in stem education, in science technology, engineering, math, that has specific facilities implication both in terms of our existing facilities and then while we have committed to this no net new academic space. We know we are going to need different academic space so those are the kind of challenges that we have begun to have a sense that we really have our arms around the issue. We did, I guess some of us were a little surprised, we have heard before that the state’s percentage of the Ohio State budget has been dropping every year and it has in the capital areas as well. Whereas in our overall budget, I believe state support is what about 13% or so of our total budget. If you looked at the historic project funding over the last ten to fifteen years, the state has actually represented about 50% of the capital replacement budget, of the capital budget on campus. That has changed a little bit in the last year, year and a half, because we did a significant amount on debt funding for the medical center and for some other student housing and other needs, but even with that we have to really recognize that that state funding has been trending down. It has been the same in absolute dollars but it has trended down in terms of real dollars because of the impact of inflation, but as that is going to continue to decline we are going to need to identify new sources of capital funding. It is going to be a significant challenge and again that means we to have to be very focused, understand the facilities, understand their condition, understand again how we use the facilities. We are going to need to get more creative, you know, do we need the amount of office space we have? Does everybody need individual office space? We need to look at some of the private sector models because clearly in the
private world and in the corporate world, if you’re offices happen to be in New York and you are having to pay $80 or a $100 per square foot for rent, it focuses the mind real quickly on how much office space you really need and yet we have that same issue here. How do we begin to look at what we really need? What is the appropriate use of our facilities? So that is another thing that we need to begin to focus on and again a lot of this is going to come out of the integrated financial and strategic planning model.

So that was an interesting report. There are a lot of next steps. One of the critical next steps is we need to get an understanding of our underground structure. We have a terrific assessment tool. I think we know the condition and where we need to spend money in terms of our vertical buildings and stuff about ground, but we have clearly got a significant amount on buried investment, and we do not have a good condition assessment on that. We are working on it. We will have that and be able to report on that pretty quickly. There are some other updates on some of the initiatives that we undertook on the framework process. We are beginning, as you know, to start on the infrastructure in the academic core, beginning in the underground infrastructure. The underground infrastructure, the pipes and tunnels under the ground, but also the improvements above that so that the area of 17th and Woodruff Avenues are the ones we are working on but as that area gets to have a lot of underground improvements, we are also doing the landscaping improvements and that area is going to become much friendlier from a pedestrian point of view.

A good thing to report is that we did get an agreement from the city of Columbus to fund the design of the first phase of relocating Cannon Drive. That opens up a significant amount of additional ground. I think about a million and a half dollars if I recall.

President Gee:

The overall package would be about $35 million but I really feel very good. Our discussions with the mayor, I think we all realize, and by the way it opens up space on our campus, a lot of it entrepreneurial space for about 3.2 million square feet.

Mr. Ratner:

It does two things, it opens up, what is exciting about this is, you know, it is a complete win. We put the road where it should be. We really can address a much better open space relationship to the river, to the river corridor. The road gets where it should be and at the same time we deal with some flood plain issues and then open up this other area of about 3 million square feet of potential building but, you know, over what would obviously be a many year horizon.

President Gee:

You know, and it allows us the opportunity to be a better neighbor with our colleagues at Battelle too which is what we are anxious about.

Mr. Ratner:

And again, the city just came right in on this. I think the mayor understood clearly what the benefits were and the city’s responsibility. They really need to be an active partner so that is just a terrific program. That folds right into the fact, by the way, that the city is working very aggressively, and we are working very closely with the city on the program to remove the 5th Avenue dam. Again it would be one of those elements that would really help us start to transform the Olentangy River corridor. I complement our staff because every time they show drawings of this they draw the river in a bright blue color, and every time I look on Google Maps and I look at the condition of the river, it is very rarely bright blue, but it will get there. Part of this is as
you remove the dam you start to get some of the natural landscape reoccurring and the water flow reoccurring and you can begin to get a much better condition for the river, and it will become, in effect, a much better neighbor for us.

We are making real progress on some of the way-finding strategies. We have a great consultant on board. We are integrating that with the Medical Center and some of the initiatives that Gil mentioned, you know, it’s not just having the right signage, it is also having that signage in effect, all available to you on a smart phone. How do you get around a campus and consistency? It is amazing when you log the different ways we actually name and number and identify buildings, offices, spaces in those buildings. It is a kaleidoscope. So we are going to get some consistency in that and I think, a much better, much more exciting program.

The other thing I wanted to report on is - I think many of you know that we went out to the streets, so to speak, to request expressions of interest from the campus. The Campus Partners actually did that, for some potential development projects, both at 15th and High and at South of campus Gateway, and we got such a strong response both local and national that we actually delayed a response date in order to give some people who had yet to hear about the process time to really come back to us. And again, I think we did a really great job there because instead of going out with our ideas of what could happen, we went to the market and said “ok” to people who know the business and are going to either know or learn something about our campus. What do you think should happen here? What can happen? So we are going to go through what I think will be a very interesting process on that.

We then had a report on construction projects. As you know, in addition to the Medical Center expansion which I think Alan will cover, we are settling some other ambitious projects on campus. The South High Rise, by the way, would rank us the third largest project in Ohio State’s history, right behind the Medical Center obviously and then rebuilding the “shoe” a number of years ago. That is going very well. Some minor problems with some unexpected sub-surface conditions when we are drilling the geothermal wells, and we are going to have to deal with that, but that will fit in the normal process. It is creating a bit of a blip, but I don’t think it will affect the ultimate ability to get these done on time and within our original budget. We then reported on both Kunz Hall and the OARDC facility that we are building. This animal and plant research facility which again I think is extremely well done and will be a real asset to Wooster and then the hall complex and other residential complex that is really in the South area. They are all on time. They are all on budget. Staff did a great job. By the way, they have a really very excellent presentation format so as Trustees we can look at it, understand it, and have everything in a very condensed, coherent kind of way.

We do have two items on the consent agenda. A construction project authorization for Sullivan Hall and a routine easement near the Newark campus. Just a little personal parenthetical comment: I have managed to go through this entire Board meeting paperless. I think, as a result of getting everything on my iPad, I have probably saved at least two trees. Because if you look at the Board books that we are asked to carry around, you’ll find that they are very cumbersome. And I would actually urge that we start to look at that. Staff did a great job of making that material available. You think about the amount of stuff we get and the amount we throw away for a typical Board meeting, not just here, but in all of our lives. It has actually been very helpful. I also wanted to mention that because, for those of you who think I am looking at my iPad during the meeting that I am, you know, visiting other cites or going off to email, that it really is my Board information. With that, I conclude my comments.

Mr. Wexner:

April 8, 2011 meeting, Board of Trustees

Dr. Cloyd:

Yes, Mr. Ratner. You know I cannot tell you how personally happy I am to see this comprehensive approach to the subject to deferred maintenance and renewal costs. This has been something that I think has troubled a lot of us for a long period of time and not only to understand what the magnitude of the cost was the University had as we thought about our financial plans, but as you articulated very well, what should have our priorities and if we do something what should we do. What should it be? To hear the kind of comprehensive approach that we are taking to this, I think is terrific. It leaves me though with two questions. Do you feel now that within the University, in a One University context, and it is particularly about setting the priorities and what should we do in facilities that were organized now and internally to reach efficient decision making on that aspect, because obviously there has been a lot of siloism in this area in the past, and then secondly, do you have any timing on when you think that the plan will come back in some form of a, this is what we think we should be doing.

Mr. Ratner:

I do not know that I can really answer the first one. I think we are making progress. Again we are in much better shape than we were, but it is an example, this question of who assigns space. Some space should be assigned within the local unit. It is clearly very specific to that local unit and yet a comment was made during our meeting yesterday that the gentleman that is responsible for assigning academic space on campus said that about 54% of the academic space is actually controlled centrally and the rest is controlled by locality, by department, and that he was running off to a meeting with two deans to talk about the assignment of classroom space, and I kind of thought for a moment, wow deans at this University ought to have something better to do, very honestly, then spend their time assigning classroom space. Yet we are clearly in much better shape, we know what it is. Even if it is still within the actual control of some of the separate units, it is identified centrally, we are looking at it centrally, and it is very cooperative. Again these different departments, even though some of them still desire to retain the actual control over that space, they are very cooperative of this process of understanding what it is, where it is, and how we use it, and how it can be cross-assigned. We are making real progress there. I think we are going to have to come to some tough decisions. The University is going to come to difficult decisions about exactly where you put the control of that space.

The other thing that I would like to do, if you get to a point where we also have a better ability to actually look at the cost of space and have some better costing model, because right now we use a lot of averaging costs, so for instance we do not have everything properly metered. Historic buildings are hard to meter because the nature of their systems. We do not know exactly what we spend room by room, space by space on energy costs so that we do not necessarily, for instance, have the ability in some of our research grants to completely recover the funds that we should be recovering, because we cannot charge properly, because we do not have the right metering systems. Again, some of that gets back to controls, some of it gets back to just getting ahead of the game, some of that modeling of costs would help us when it comes to this business of assignment. We are better than we were, we are not completely there. As far as the end result of this, I think if we were not currently doing the strategic plan, that has also a significant financial plan imbedded in it, I do not know if I could give you any good answer for that. I am hopeful that a coincident with the completion of the strategic plan and the financial plan will then have an integrated capital planning model that will take this work that we have done and relate it back to the priorities of the University and then to a capital strategy. That is going to be the really complex part of this. How do you find the funds; where do you allocate them; how do you bleep over them? It is not a one-year problem; it is not a
budget problem; it is a financial planning problem, because it is a 10 or 15 year horizon.

The last comment I would make about that, and it is something that came up in my mind yesterday, and it is something that I am concerned with, is that we built a lot of new facilities on our campus over the last 10 to 15 years. I was shocked at how much of the campus really is new within that time period. As you know you go through sort of a honeymoon phase, the first year or so of a new building, you spend a lot of money on it, getting it to really come on stream and then there is probably about 10 to 15 years in which you really do not have to spend a whole lot, but at that point then have significant renewal needs coming up. So if you look at the bubble of new construction that we have gone through, and I do not expect on having as much new construction on campus over the immediate future, but in the 10-year period where you will have a much bigger renewal need that is going to relate to all those buildings that will begin to age. Both keeping ahead of that on the buildings, making sure that we are not getting into a deficit, but then just recognizing as we look along toward financial planning, and you go out into multi-year planning that is going to be a very big burden, because the numbers we are looking at are a ten-year model of renewal need but there is just going to be a big burden that sits out there. We will get there. It is really part of this integrated planning. It is why I am so excited that we have both the physical tool and then the ability to get the financial model.

Mr. Wexner:

Ron, a follow in. Do you think you have enough resources to do the work when you describe it in terms of $10 billion of buildings and 33 million more feet coming? It sits there quietly. It does not squeak when you talk about deferred maintenance and utilization. You have provided great leadership, and we have put resources in but are we at a place where you really need more?

Mr. Ratner:

My sense is that we do not need more in terms of our resources. We need to use outside resources very aggressively on this because as we are going through, for instance, an extensive investigation of the underground, the infrastructure I mentioned before, you really do not want to add your people to do that. I think we are doing a much better job being a good client, if you will, getting the right people to do the right kind of analysis and study for us. There is a bubble of work that will come through the University. I think at the leadership level we are well staffed for that; we have made some very good appointments in that area in the last year or so, and I think that is working very well. Jeff provides great leadership overall, Terry, and a number of people in that area. Lynn is terrific, so there are some excellent people in that area. My sense, Les, is that when we actually determine what we are going to do, and we might end up finding out that we have some very specific areas that we are going to add people, if we in fact get to a more aggressive program, I think we can relate more to the implementation phase rather than the analysis phase.

Mr. Wexner:

Thank you. Any other questions, comments? Very good, thank you. Monte.

Judge Marbley:

Mr. Chairman, the Academic Affairs and Student Life Committee met yesterday. During that meeting the Vice President for Student Life, Dr. Javaune Adams-Gaston, began by discussing a new initiative that will bring an integrated approach to student career services at Ohio State. Currently, career services for OSU students are delivered for the most part through student’s college of enrollment. By centralizing those functions, we will give all students access to high quality career services.
The On-PACE, and PACE is an acronym for Personalized Actionable Career Experiences, and it was fashioned by a student. That plan will provide for multi-year career development programs as well as the unified web presence for Ohio State career services. The plan specifically aims to increase access to internships and international experiences. Indeed, 90% of our students say that the internship was the most important aspect of their undergraduate experience and 67% of those students were offered positions from internships. Internships play a critical role in placement. The program also calls for enhanced interaction between students and faculty who can guide career building endeavors, and it envisions additional partnerships with business and industry as well as government and non-private sectors. One way to bring our alumni and our students closer together is for our alumni to hire our students in internship positions, and so I think that will be the next phase of On-PACE.

We then heard from Dr. Ron Sega, who as you recall, is OSU's new Vice President and Enterprise Executive for Energy and Environment, speaking of green, Mr. President. Ohio State and Colorado State University (CSU) are sharing Dr. Sega’s talents as he works to explore energy and environmental related research in economic development opportunities for both our institutions. Green commercialization, we like to think of it.

At Ohio State Dr. Sega is also leading our sustainability initiatives, which he says must be smart, efficient, practical, comprehensive, and responsible. He plans for enhanced sustainability efforts at our institution and those include the integration of five functions: 1) energy and environmental research, 2) academics and students, 3) campus operations, 4) energy and environmental policy, and 5) our land-grant mission and outreach. I will add parenthetically that what he is doing here and what CSU represents are parallel endeavors. Nuanced however, given whatever our strengths might be, these would be the strengths of CSU. The One University approach to sustainability will allow OSU to make energy and environmental sustainability a consideration in all that we do.

One of the other things that we discussed was this will be part of our joint commercialization enterprise, so it is not existent outside of the commercialization efforts that will be spearheaded in large part by Dr. Cummings. Dr. Sega highlighted two initial key aspects of OSU’s being a leader in sustainability, and one is a plan to develop the Ohio State campus as a test bed for real-world research for industry, academics and operations – all working as a team; and two, the unique Ohio State, Colorado State partnership, which would be a national model for collaboration.

The Committee next endorsed several resolutions, the most visible, which is a joint resolution with Columbus State Community College, establishing the Preferred Pathway Program. Mr. President, you discussed that, it was in the Dispatch, I believe it was Wednesday’s Dispatch front page above the fold, and just briefly I know that you have all reviewed it, but Columbus State students who have earned an associate of arts or associate of science degree will be guaranteed admission to OSU, of course consistent with the University policy. That raised some questions within the Committee, just practical questions as to whether that influx of students will in any way impact on the ability of our students from regional campuses also to matriculate at OSU, and it will not.

Our Committee also endorsed amendments to the Classified Civil Service Rules, the naming of the Lima Community Heritage Art Gallery as the Farmer Family Art Gallery, the naming of the media room in the Woody Hayes Athletics Facility at the Les Wexner Football Complex as the Jeffrey Greiner Family Media Room, the re-naming of Park and Stradley Halls as Park-Stradley Hall, and the re-designation of appointing authority and delegation of authority for the administration of classified Civil Service staff and collective bargaining. Finally, the Committee endorsed the name of the clubhouse at Buckeye Field as the Phyllis Bailey Clubhouse. Because I
April 8, 2011 meeting, Board of Trustees

am someone who grew up and came of age in the ‘70s, I mistakably said at the
meeting yesterday, the Philip Bailey Clubhouse, and most of you know Philip Bailey
as lead singer for Earth Wind and Fire.

The meeting concluded with the Committee’s endorsement of a number of routine
personnel actions. Mr. Chairman that concludes my report.

President Gee:

Mr. Chairman can I just make one note; I see that Ron Sega is back there. Dr.
Sega and I spent several days in Washington, we made a determination that once
we really have this collaboration solidly put together between ourselves and
Colorado State, let me just remind you this is the first vice president of its kind in
the country. Colorado State has a unique program in climatology, one of the best in
the world. They are the people who predict tsunamis and hurricanes and so forth,
and of course our own programs are of significant value. We spent two days in
Washington, in the turmoil of Washington visiting with both of our congressional
delегations, the Ohio and the Colorado delegation, seeking their joint cooperation
in terms of working closely with this in terms of funding but also in terms of
collaboration on a variety of levels. I think that it would not be overzealous in stating
that we were very well received, the presence of Colorado State and I, and Dr.
Sega, along with Stacy Rastauskas, who represents us in Washington. It was really
a significant moment, they were all surprised to see two people from two different
parts of the world, and we now think about this as a project from the Appalachia to
the Rockies. It is really going to be something that is a signature effort on our part,
and I am very grateful for the work that is going into this.

Mr. Wexner:

Any other questions, comments? What is going on in Medicine, Alan?

Mr. Brass:

Thank you, Mr. Chairman. The Medical Affairs Committee did have its meeting, as
did the other Committees. First of all let me also compliment Ron. Medical Affairs
Committee is working awful close with our environment because as we are
expanding the medical campus, the environmental issues in fact are right there with
us. I also would like to compliment you for the work done, Ron.

There are a number of things; actually we have five items on the consent agenda
today, so I am going to move through the report fairly quickly because it is a lengthy
one. I first want to start with a couple announcements that I think the Board and the
audience would appreciate. One of the signs of a great medical center happens
once a year. That is the national match for your residents, the best of the best
coming to your medical school and medical facilities and for the first time in the
history, and this is a process that is an interesting process, the school gets a vote,
and the students get to vote, and you try to match them up to see if we get the best
ones, and the best ones also want us. For the first time in our medical school history,
we have had 100% matches on first round. That is really neat, and what is
stimulated by that is that a lot of those will move on to fellowships and MD/PhD
programs and hopefully stays within our University. So I think Dr. Gabbe is to be
congratulated and everyone else that is involved in that.

I want you to be aware of the fact that we called the expansion project, ProjectONE,
when we were starting this project a couple of years ago. We brought Kaufman Hall
in here to do the first test of our forecast of all the numbers and programs. Since
then we have had Deloitte in two additional times, we now have Deloitte in for a third
time to test it again as we are getting ready for the 2011-2012 budget, as we are
trying to put together the strategic plan for the medical system. We are having
Deloitte test the numbers again to make sure that everything is in the proper order based on our forecast. Remember the plan has circuit breakers up and down so if we in fact see something going on we can tweak the program as we are going through. So far, everything is holding fine, but I want you to be aware that Deloitte is in for the third time and actually our fourth review within a couple of years.

One of the big things that is about to happen at the medical system in October is we go fully automated. That is an easy statement and something that if you are close to facilities and delivery systems and clinical systems, that is a deep breath when that switch gets flipped, because we are talking about millions of patients, millions of records. Of course we will do parallel paths, but I want the Board to be aware this is a lot of work that has been done by the staff, and it is going to in fact put our medical center on the map as one of the few that will be fully automated, and I mean fully.

Next thing I would like to just mention to you that I think you will find of interest. The three key indicators we watch from a financial standpoint; $2 billion of the $5 billion budget at the University, and we have got to keep track of our numbers, our operating margin right now as we are closing out this year in a few more months is running at 6.3% up from a budget of 5.4%, so we are holding well on our operating margin as it relates to days cash on hand, we are at 58 days; we want to be in the 60’s by the time we close; it is looking very promising that is where we will end up being. It was not very many years ago we were in single digits, so it is coming along and each day’s cash on hand is about $4 million for our enterprise.

The debt to service coverage, which is very important as it relates to how financially are we able to carry our debt, we are running at 6.1 with a budget of 5.7, so we are really doing pretty well right now. I do want to give a yellow light. The yellow light is we are going into a very difficult state budget. We all know that, but as it relates to the health care system, with the federal government having problems and they're a match program for Medicaid, with the state budget having problems with its Medicaid program, Medicaid is going to be an issue we are going to have to watch this next year very carefully. In addition, we have the prison contract which is a very large contract for our health system, and we are going to want to watch that, and we are in negotiations with them right now which is state driven and reimbursements for physicians and is also one that we are going to have to watch which comes through the state as it relates to Medicaid, to Chip’s program, and a few others. So we want to watch our budgetary process very carefully against the forecast. Now I am going to talk more about that in a second.

As it relates to our expansion program, good news, everything is on budget, everything is on time. We have the biggest bathtub in the world sitting out there. It is about to be filled with a lot of concrete here very soon, so it is going very, very well. On the consent agenda is authorization for $111.3 million of additional authorization for funding. We have already authorized $571 million towards this project. So this would be an additional $111.3 million that we will hopefully be approving today. As it relates to our contingency budget, since this is such a large project, I want the Board to be aware of this; we started with a little over $80 million of contingency. Through value engineering and so on, we moved it up to almost $100 million of contingency. We were able to reduce the amount of money by line item and today we are standing in excess of $90 million of contingency left. The biggest issue we did was we approved that bathtub around the whole medical complex expansion program. So the medical center expansion project is doing very, very well. I also want to report out that we have had no accidents or any safety issues on a project of this size and with that kind of traffic pattern with two huge cranes up already and others coming that is something we are tracking very carefully.

The next thing we discussed at the Medical Affairs Committee, and I want to encourage us to have a presentation here when we can fit it in, is the radiation oncology program. We heard it at the Medical Affairs Committee. This is a
remarkable program that has come from a lot of issues and a lot of problems to something that is almost best in class. And that is one of the reasons that we were so successful in getting this one of a kind grant of $100 million, and there are a lot of lessons to be learned mostly through its leader. We have a wonderful, wonderful person, Dr. Chakravarti, and I would like to have him present at this Board as to how he has improved the program to the point that it is today, and I think it would make us very proud; it did the Medical Affairs Committee. My colleagues might want to add something to that a little bit later. Two-thirds of our cancer patients get radiation oncology. Now the statistic that is not good is that in a very, very good program, you retain about 95% of your patients for radiation oncology back at your home cite. Ours is running shy of 30%. A lot of opportunity for growth, a lot of opportunity for continuity of care and I think we will be seeing facilities and the right physicians. He has replaced 75% of the faculty that were here, and he is nine for nine on recruiting super-stars at this time. They are coming in from Yale, Hopkins, Michigan, and so on. Bobby?

Mr. Schottenstein:

The other thing is Dr. Chakravarti, who gave just a spectacular presentation to the Medical Affairs Committee, his eyes are on the prize so to speak. When it came to benchmarking, he only wanted to benchmark against the absolute best in class, and I thought that the plan he put in place was a winning plan, and he is executing on it.

Mr. Brass:

And Dr. Steve Gabbe, and Dr. Caligiuri, I know Steve is here, and Dr. Caligiuri are responsible for bringing him here, and since then, he in fact is just done a remarkable job, a tremendous job.

Well that leads us to the next consent agenda item which is to authorize an addition to the medical expansion project, which is now a $1 billion, to become a $1.1 billion operation, construction project. So Ron, your numbers have to be changed already. But we did go through that, and I would like to show you just two quick slides as to where it is going and why it is going. This is your new medical center with the green space and Cramblett and everything removed from it which is part of the project right now. This is what it is going to look like. If you will notice the parking garage on the left, one of the options was to take that out of there and put a wing in there. By doing that, that would cost us an additional $25 million just to replace the parking garage and we would have used $25 million of the $100 million just on that replacement facility. The decision was not to do that. We came up with a better decision through Steve Gabbe and the program team and our architects and Friedl Bohm and others and can I have the next slide please? The new program will basically add, instead of building, it will take our new project up another floor. Now these are not typical floors, these are eighteen feet each floor. So you will see our new medical center building is now 20 stories. It is 273 feet tall from ground and is the 20th highest medical facility in the world now. It is a very large building. We did get clearance from FAA and everybody else that we needed to for helicopters and so on, but you will see radiation is actually going on floor number two. The first floor is the ground floor. The first floor is where you see diagnostic imaging, the next one up is radiation and that is where we will be housing this and from a clinical operation standpoint, this in fact gives us the greatest program as it relates to moving patients, in-patient and out-patient. About 20% of our radiation oncology is coming from in-patient; 80% is coming from out-patient. So on the consent agenda today is a proposal to add the $100 million to the medical expansion project and to move forward with that.

The staff did test one item, we did authorize them to begin planning of this early, and we already submitted the bill to the federal government, and the good news is we have already been paid. So the turn-around was very quick, and it is probably really
good in light of maybe a shutdown at midnight tonight so our accounts receivable is zero right now with that. Ok, thank you very much; can we turn the lights back on?

The next item on the consent agenda is something that Bobby Schottenstein has already mentioned, and that is the Faculty Practice Plan. We have a lot of heroes around here. Dr. Chris Ellison is one of those heroes. This man has put enormous time into bringing together a Faculty Practice Plan that will become inside the health sciences system upon our approval today. This program has been in the works for a couple of years. It involves 807 physicians. It is going to go active as soon as we approve it today with the first sign-ups being all of our directors and leaders coming into the practice plan and into employment contracts followed by all of the specialists and all of the other physicians that will sign-up one-by-one under an employment contract coming into our enterprise. So what we are actually doing is creating the faculty group practice in the health sciences, that is what the resolution reads, and I am happy to tell you just recently, Dr. Chris Ellison was voted in by the medical staff to become the first president of that group and I think the Board, also in its minutes, I would so like to add this to show our appreciation to Dr. Chris Ellison for a job well done. He has really carried that ball on this one. A lot of legal work involved, a lot of Steve Gabbe’s time and others, but Chris has been our focal point, and he has brought this one home. Now, why is it important? Just this week, the Healthcare Reform Law, which is 8,000 pages, has been signed. This week, the Federal Register will have 66,000 pages of regulations related to that 8,000 page law. Those institutions that have their medical system and hospitals and their manage care programs under one arm will be in such great position as relates to the new payment bundle plan. Had we not been in the position we are, it would have been to our detriment as it relates to the future of this medical system and to our University, so I very much appreciate the job that Dr. Gabbe and Dr. Ellison have done. Mr. Chairman, the last two items are amendments to bylaws both at the University Hospital and to the James Cancer Hospital. They involve things like updating a joint commission on accreditation committee works and so on. That would complete my report unless some of my colleagues want to add anything from Medical Affairs.

Dr. Wadsworth:

This radiation oncology presentation was very interesting and fascinating in a number of different dimensions. One of the dimensions that was of interest to me is that it really was a department that needed to change and be upgraded. I think in general it is interesting to ask the question: how long does that typically take to establish a reputation? You can lose it overnight, but to develop a department with world class people and have them associated with the university is about a five to ten-year cycle, and it is just worth, I think, us keeping that in mind as we plan for the future and this gentleman, Dr. Chakravarti, he has probably done it as fast as you can and will probably be at the low end of the five to ten but that is realistic, and he agreed to that assessment, you know, by the time that you recruit and change people out and start to publish and win money and get new facilities, but it was a tremendous demonstration on how to make a change in such a positive way. I think we were all stimulated by the presentation.

Mr. Brass:

And we asked him why he came, just like we asked our student, and he said because of Dr. Gabbe and because of Dr. Michael Caligiuri. It shows you, great people recruit great people; great institutions get matches on residencies. Everything grows on itself. Dr. Gabbe, any comments you want to make?

Dr. Gabbe:

I appreciate this report, Alan.
President Gee:

I was just going to note that we cannot underscore this enough. This puts us into the front end of medical centers in this country where we actually have an integrated faculty. It makes us very, very powerful. One of my predecessors, I have noted this, proposed that and lost his job, so I entered into this with some trepidation, but none the less it has really been proven and Dr. Ellison has done a fabulous job, no doubt about it, but all of this is a vote of confidence in Steve Gabbe and all of his leadership, because they would not have gone that direction without that strong, strong belief in his leadership because he is the one who integrates.

Mr. Brass:

Mr. Chairman that completes my report.

Mr. Wexner:

Thank you. Questions, comments?

Dr. Cloyd:

I would like to come back to I think it was the first item in your report. When we push this button and go to the electronic records system, without asking you to enumerate the data testing that has been done, what level of confidence should we have that we will not have a big "oh no" when we push that button?

Mr. Brass:

I have asked that same question. Should I sleep that night or not? The answer is - we are going to run parallel tracks so the whole system will be manually operating as well as electronically. I think we can sleep at night. We will have glitches. It is a huge, huge conversion, but the fact that we are going to maintain everything manually on parallel tracks, Gil, I think is the right decision, and I think we should sleep at night pretty well.

President Gee:

I tell you, the one that is going to be the moment of either celebration or I will be pumping gas in Vernal, Utah, is when we move from quarters to semesters, that first moment. You can imagine that. That will be a moment for all of us.

Mr. Wexner:

Questions, comments? Alan, thank you very much. Finance Committee, Bob?

Mr. Schottenstein:

Thank you, Mr. Chairman. Let me first mention, I should have mentioned this before when I talked about the Audit and Compliance Committee meeting, that we received, since our last board meeting, formal approval from the state auditor to engage PWC, Price Waterhouse Coopers, as the external auditor for the University. By law we were required to replace Deloitte after Deloitte having served in that capacity for a number of years and the contract with PWC who will now be both auditing, not just the university, but they will also be doing a separate standalone audit for the very first time, given its size and its scope and its importance, the medical center. The contract with PWC will run through, I think, 2015, and I just wanted to bring everybody up to date on that.
April 8, 2011 meeting, Board of Trustees

As far as the Finance Committee meeting goes, many of the items that we dealt with have already been discussed, and I am going to enumerate them very quickly, but before I do, the primary purpose of the meeting was to receive a report from Mr. Chatas on our financial condition through the first six months of this year, and in some respects, also through the first eight months with some additional information that he had along with an update on where things stand in the light of the state budget and the possible constraints and challenges that it will post for Ohio State. In a word, our financial condition is good. In most areas, we are trending in the right direction, but what I would like to do is ask Geoff if he would not mind just presenting a summary of the key items in terms of our condition and also issues relevant to the state of Ohio.

Mr. Chatas:

Thank you, Mr. Schottenstein. I briefed more fully the Committee yesterday, but we had strong financial results for the first six months of the fiscal year. Revenues across the University were up 6%. They were up 7% at the University itself and 6% at the medical center year over year. That total is approximately $130 million of incremental revenue over the same period last year. At the same time, expense growth was well below that 6%, so the net margin growth was quite strong across both the University and the health system.

I also reported on the performance of the endowment. The endowment had strong results for the six months with net investment income up $233 million, a very strong result, and that represents through February, through the end of February, an increase of 14.2% of the endowment and if you look at the total result of the prior fiscal year, we were able to report that we had an endowment performance of over 15% and that put us number four of all endowments across the United States that were between a billion and five billion, so that is 62 endowments, and we were number four, so Jonathan Hook and his team had an excellent result.

Finally, I reported on the cash flows that resulted in strong cash flow performance and if you combine that with the $880 million of debt financing, we have quite a strong equity position. So today, we have substantial cash and short term investments on the balance sheet as we go into the next budget year.

That was the financial report highlights. I also reported on the current proposed budget at the state, so I will give you just a brief overview. Many of you may have already heard some of this, but the highlights are: first of all, before the budget came out the new chancellor, Chancellor Petro, announced that it is the state’s intention that based on strong revenue performance, the state will be making our 12th month payment this year, so although that is certainly not in the bag, if that is paid in June, that will be a check for $25 million that we will receive that was not planned for in the current budget cycle. In terms of the next biennium, the governor’s current proposed budget, the brief highlights as it relates to Ohio State, the proposal is a 15% cut in our state support, state share of instruction, that’s about $64 million. That represents the federal stimulus money that will not be repeating. On top of that, the state anticipates- if you look across the board at all of our line items that is a 9% decrease in our line items, which is about $8 million. So those reductions together, it’s about 14%, which represents about $72 million as we go into the planning process. We certainly were looking at broader ranges than that, so in that sense we think we will be well able to weather that kind of decrease. The piece that is not yet finalized is the impact of the state budget on the health system. There are two components there: the prison contract and the Medicaid rates, so we will continue to engage with the state and monitor that and have a better assessment at the June board meeting of how that will all flow through the budget.

In terms of the impact on the University, the key things that will be coming back to the Board and will offset some of that decline will be looking at; first of all, tuition
increases. Currently the Governor has proposed a 3.5% cap on tuition increases. The president of the IUC asked that be raised to 8%, so we will be reviewing the final number and making recommendations to the Board as to actions to take on tuition, hopefully in June. We will also, at that meeting, look at housing and dining rates and other fees and, as I did mention to Alex and the other student leaders that we have met with, that we intend to have a very strict cap on those fees and that the general cap will be $50. We will look at other individual differential fees as we look at the competitive landscape, but we will be mindful of trying to keep the impact on our students as limited as we can as we go into the budget process. We will also look at the overall enrollment plan for next year as well as other issues such as salary and benefits. The intent would be to report back the full impact of this budget in June as it unfolds, but that is where we stand today. Thank you.

Mr. Schottenstein:

If I may, Mr. Chairman, just conclude the report, unless there are any questions for Geoff. The only other items, and I will be very brief, we received an update on quarterly waivers; the policy that we have as a University is that on contracts in excess of $250 thousand, there are circumstances on which competitive bidding can be waived and when that is done, the CFO of the university is required to report that to the Finance Committee and that report was given. We received an update on the construction projects run, and Alan has discussed those in detail in terms of the big hospital project as well as the various projects that Ron discussed in terms of being on time and on budget.

We then dealt with a number of items that are on the consent agenda, and I think all of them, except for two, have already been reported on; the authorization to enter into a $300 thousand construction contract which is a very small part of the Sullivan Hall renovation as item 18 on the consent agenda, the authorization to allow another $111 million to be released to help pay for the new hospital project, as well as the authorization to incorporate the radiation oncology floor within the medical center expansion to increase the size of that project is on the consent agenda, and then two additional items that have not yet been mentioned today in the interest of streamlining and cost savings; we approved what is item 20 on the consent agenda which revises certain rules and policies of the university relating to vender relationships and vender purchasing, basically giving a little more authority to the chief financial officer to engage in activities that will benefit streamlining and cost savings. Finally, we approved the increase of golf course membership dues, not the daily rates, but the golf course membership dues at the Scarlet and Gray course, item 22 on the consent agenda. That concludes my report.

Mr. Wexner:

Questions, comments to Bob? You got off easy, Bob.

-0-

CONSENT AGENDA.

President Gee:

Yes, thank you Mr. Chairman. Today we have a total of 22 resolutions on the consent agenda. We will be taking a separate vote on item 21; therefore we are seeking approval for the following:

AMENDMENTS TO THE BYLAWS AND RULES AND REGULATIONS OF THE MEDICAL STAFF OF THE OHIO STATE UNIVERSITY HOSPITALS
Resolution No. 2011-59
April 8, 2011 meeting, Board of Trustees

Synopsis: The amendments to the Bylaws and Rules and Regulations of the Medical Staff of The Ohio State University Hospitals are recommended for approval.

WHEREAS the proposed amendments to the Bylaws and the Rules and Regulations of the Medical Staff of The Ohio State University Hospitals were approved by the Professional Affairs Committee on February 18, 2011:

NOW THEREFORE

BE IT RESOLVED, That the attached Bylaws and Rules and Regulation of the Medical Staff of the Ohio State University Hospitals are hereby adopted, effective immediately.

(See Appendix XXVIII for background information, page 641.)

***

AMENDMENTS TO THE BYLAWS AND RULES AND REGULATIONS OF THE MEDICAL STAFF OF THE ARTHUR G. JAMES CANCER HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE

Resolution No. 2011-60

Synopsis: The amendments to the Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are recommended for approval.

WHEREAS the proposed amendments to the Bylaws and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute were approved by the Professional Affairs Committee on February 18, 2011:

NOW THEREFORE

BE IT RESOLVED, That the attached Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are hereby adopted effective immediately.

(See Appendix XXIX for background information, page 704.)

April 8, 2011 meeting, Board of Trustees

DEGREES AND CERTIFICATES
SPRING QUARTER COMMENCEMENT
Resolution No. 2011-62

Synopsis: Approval of Degrees and Certificates for spring quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 12, 2011, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix XXXVII for background information, page 812.)

A JOINT RESOLUTION OF THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES AND THE COLUMBUS STATE COMMUNITY COLLEGE BOARD OF TRUSTEES ESTABLISHING THE PREFERRED PATHWAY PROGRAM
Resolution No. 2011-63

Synopsis: The introduction of a new collaborative initiative between The Ohio State University and Columbus State Community College (CSCC) indicates their commitment to a regional strategy for higher education designed to expand access, increase student attainment, and meet the economic advancement goals of Ohio. The Preferred Pathway Program will facilitate improved transitions and a guaranteed path to an Ohio State University baccalaureate degree for qualified students transferring from Columbus State.

WHEREAS the future growth and prosperity of the state of Ohio depend on increasing educational attainment within the state and closing the educational gap between Ohio and competing states and nations; and

WHEREAS the state of Ohio has set a goal of increasing the number of baccalaureate degrees; and

WHEREAS “From Excellence to Eminence: The One University Enrollment Plan” calls for Ohio State to increase its transfer student population; and

WHEREAS Columbus State Community College is an open access institution, providing opportunities to diverse learners and committed to assisting all students from all backgrounds who seek to pursue postsecondary education; and

WHEREAS Ohio State and Columbus State have a long-standing history of mutually beneficial collaborations; and

WHEREAS these institutions are committed to addressing regional workforce needs; and
April 8, 2011 meeting, Board of Trustees

WHEREAS these institutions believe their partnership can be expanded to address those needs in a more strategic and sustainable fashion; and

WHEREAS the partners recognize the resource constraints faced by the state of Ohio, and are committed to thoughtful stewardship of public funds, and seek to maximize the use of regional assets already in place and to ensure that future investments increase access without duplicating resources; and

WHEREAS the partners are committed to advancing the University System of Ohio principles of access, quality, affordability and efficiency, and economic leadership:

NOW THEREFORE

BE IT RESOLVED, That The Ohio State University and Columbus State Community College establish a Preferred Pathway Program that will guarantee access to an Ohio State baccalaureate degree for qualified students transferring from Columbus State; and

BE IT FURTHER RESOLVED, That the Preferred Pathway Program will be based upon the design principles that follow:

Section 1: Guaranteed Admission. Columbus State Community College students who have earned an Associate of Arts or Associate of Science degree will be guaranteed admission to The Ohio State University, consistent with university policy.

Section 2. Curricular Alignment. Columbus State faculty will work with Ohio State faculty to bring appropriate lower-division degree coursework into the Columbus State curriculum, such that CSCC associate degrees provide appropriate preparation for an expanded number of Ohio State baccalaureate degree programs.

Section 3. Shared Advising. The partners will collaborate in joint advising opportunities. Ohio State and CSCC advisors will collaborate to provide advising to students prior to matriculation, train advising staff, and interface with faculty.

Section 4. Student Services. Ohio State will provide an enhanced orientation program for Columbus State students, develop First Year Experience programs for those students, and extend appropriate Student Life and acclimation programs to them.

Section 5. Data Sharing. The partners will engage in active, detailed data sharing. The ability to track success at the level of the individual student will enable the institutions to improve the quality of processes and student learning in a systematic manner and ensure public accountability.

Section 6. Stewardship. The partners are committed to using the public resources entrusted to them in order to provide the finest in educational opportunities. Through the Preferred Pathway Program, the institutions will work to ensure the seamless transition of Columbus State students into the Ohio State experience and to then foster the success of those students. Connecting the two institutions through this program eliminates uncertainties for central Ohio students and families, promotes the higher educational goals of the state, increases Ohio’s pool of skilled workers, and boosts its economic development and diversification.

AMENDMENTS TO THE CLASSIFIED CIVIL SERVICE RULES OF THE OHIO STATE UNIVERSITY

Resolution No. 2011-64

596
April 8, 2011 meeting, Board of Trustees

Synopsis: Amendments to Chapters 3335-49, 3335-51, 3335-55, 3335-57, 3335-59, 3335-65, 3335-67, 3335-73, 3335-79, 3335-81, 3335-83, and 3335-89 of the Ohio Administrative Code governing the University’s Classified Civil Service related to procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at The Ohio State University and opting out of provisions of the Ohio Revised Code and Ohio Administrative Code; reclassifications, certification; classification program; applications; examinations; appointments; probationary periods; leave policies; performance management, removals, or demotions; sick leave; reduction in force; payroll and compensation; and definitions of terms are proposed.

WHEREAS in accordance with Section 124.14(F) of the Ohio Revised Code, the Board of Trustees shall carry out all matters of governance involving the officers and employees of the University, including employees in the Classified Civil Service; and

WHEREAS Resolution 2008-47, adopted by the Board of Trustees in November 2007 authorizes the Office of Human Resources, as the University’s Appointing Authority relating to all matters of governance involving Classified Civil Service employees, in consultation with the Office of Legal Affairs, to make periodic recommendations to the Board regarding the enactment and revision of Classified Civil Service Rules; and

WHEREAS the most recent revision of the University’s Classified Civil Service Rules was in September 2010, and the Office of Human Resources now has recommended a number of further needed revisions in the Rules with respect to procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at The Ohio State University and opting out of provisions of the Ohio Revised Code and Ohio Administrative Code; reclassifications, certification; classification program; applications; examinations; appointments; probationary periods; leave policies; performance management, removals, or demotions; sick leave; reduction in force; payroll and compensation; and definitions of terms for Classified Civil Service staff; and

WHEREAS these revisions in the Classified Civil Service Rules, as shown on the attached documents, will enable the University to streamline processes, enhance our efficiency and effectiveness, and provide more effective leaves policies and general management of Classified Civil Service employees; and

WHEREAS the University has complied with Ohio Revised Code Section 111.15 in promulgating these revisions to the Classified Civil Service Rules, and the University additionally has provided reasonable notice to all affected University employees and interested groups and a period of time during which such employees or interested groups could submit comments about the proposed Classified Civil Service Rules:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the revisions to the Classified Civil Service Rules as set forth in the attached amendments to the Classified Civil Service Rules, effective June 1, 2011.

(See Appendix XXX for background information, page 764.)

NAMING OF THE CLUBHOUSE

Resolution No. 2011-65

Located in Softball Stadium,
On The Ohio State University’s Main Campus:
The Phyllis Bailey Clubhouse

597
April 8, 2011 meeting, Board of Trustees

Synopsis: The naming of the clubhouse at Buckeye Field, located at 2410 Fred Taylor Drive on the main campus of The Ohio State University.

WHEREAS this facility, originally opened in 1988, underwent a major renovation and was re-dedicated in 2009; and

WHEREAS the renovated facility nearly doubled the field’s capacity; and

WHEREAS the renovated facility includes indoor and outdoor batting cages, a three-plate bullpen, a 650-square foot press box, player clubhouse and locker room, new dugouts, coaches and umpires dressing room and concession areas; and

WHEREAS Phyllis Bailey has provided significant contributions to the renovation of Buckeye Field:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Clubhouse at Buckeye Field be named The Phyllis Bailey Clubhouse.

***

NAMING OF THE LIMA COMMUNITY HERITAGE ART GALLERY

Located in Reed Hall,
At The Ohio State University Lima Campus:
Farmer Family Art Gallery

Synopsis: The naming of the Lima Community Heritage Art Gallery, located in Room 160 Reed Hall, 4240 Campus Drive on the OSU Lima Campus; the arts center of the campus.

WHEREAS the Reed Hall is the arts center of the Lima campus where the majority of plays, choral concerts, art shows, and performing arts and lecture series events are held; and

WHEREAS Martha Farmer has provided significant contributions to The Ohio State University Lima campus for over twenty years; and

WHEREAS Martha Farmer has provided contributions to the Lima Community Heritage Art Gallery for construction, remodeling and ongoing support:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Lima Community Heritage Art Gallery in Reed Hall at The Ohio State University Lima campus be named the Farmer Family Art Gallery.

***

NAMING OF THE MEDIA ROOM

Located in Woody Hayes Athletic Center,
At the Les Wexner Football Complex,
On The Ohio State University’s Main Campus:
April 8, 2011 meeting, Board of Trustees

Jeffrey Greiner Family Media Room

Synopsis: The naming of the media room in the Woody Hayes Athletic Center at the Les Wexner Football Complex located at 535 Irving Schottenstein Drive.

WHEREAS this state-of-the-art facility, originally dedicated in 1987 in memory of the late Woody Hayes, has been redesigned to improve the teaching environment and solidify the Buckeyes’ football practice facility as one of the nation’s best; and

WHEREAS the renovated Woody Hayes Athletic Center at the Les Wexner Football Complex will advance Ohio State’s athletic reputation and help attract and retain the best prospective student-athletes; and

WHEREAS Jeffrey Greiner has provided significant contributions to the renovation of the Woody Hayes Athletic Center at the Les Wexner Football Complex:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned Media Room in the Woody Hayes Athletic Center at the Les Wexner Football Complex be named the Jeffrey Greiner Family Media Room.

***

RE-NAMING OF PARK HALL AND STRADLEY HALL

Resolution No. 2011-68

Synopsis: Park and Stradley residence halls located at 110 and 138 West 11th Avenue are being renovated.

WHEREAS as part of the renovation, the two buildings will be adjoined by an eleven story connector; the first floor of the connector will serve as an entry way and a front desk for the new building; and

WHEREAS once adjoined, the two buildings will be considered one building with only one address, 120 West 11th Avenue; and

WHEREAS the original buildings were constructed in 1958 and named in honor of Joseph Park, Dean of Men, and Bland Stradley, Vice President of Student Affairs; and

WHEREAS the two residence halls are becoming one; and

WHEREAS the University wishes to continue to honor Joseph Park and Bland Stradley:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned new residence hall be named Park-Stradley Hall.

***

RE-DESIGNATION OF APPOINTING AUTHORITY AND DELEGATION OF AUTHORITY FOR THE ADMINISTRATION OF CLASSIFIED CIVIL SERVICE STAFF AND COLLECTIVE BARGAINING

Resolution No. 2011-69

599
April 8, 2011 meeting, Board of Trustees

Synopsis: Proposal to amend the designation of the Associate Vice President for Human Resources as the University's Appointing Authority for all personnel issues related to the University's classified civil service staff and law enforcement officers and/or peace officers to the Vice President for Human Resources.

WHEREAS Resolution 2008-69, adopted by the Board of Trustees in December 2007 designates the Associate Vice President for Human Resources as the University's Appointing Authority for classified civil service staff and collective bargaining; and

WHEREAS the title of Associate Vice President for Human Resources has been changed to Vice President for Human Resources; and

WHEREAS in accordance with Section 124.14(F) of the Ohio Revised Code, the Board of Trustees shall carry out all matters of governance involving the officers and employees of the University, including employees in the Classified Civil Service; and

WHEREAS the Board of Trustees desires to make clear its delegation of authority to the Vice President for Human Resources of all rights, powers, and authority as the University's Appointing Authority, to include any and all authority required for the administration of our classified civil service staff and collective bargaining:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the President, and pursuant to Chapter 3335 of the Ohio Revised Code, the Board of Trustees hereby designates and appoints the Vice President for Human Resources as the University's Appointing Authority for all classified civil service staff in accordance with Chapter 124 of the Ohio Revised Code and all University law enforcement officers and/or peace officers in accordance with Chapters 109 and 3345 of the Ohio Revised Code; and

BE IT FURTHER RESOLVED, That the Board of Trustees hereby delegates and assigns to the University's Appointing Authority full authorization, pursuant to Chapter 4117 of the Ohio Revised Code, to negotiate, ratify, fund and otherwise administer any and all collective bargaining agreements on behalf of the University; and

BE IT FURTHER RESOLVED, That the Vice President for Human Resources shall report to the Board of Trustees from time to time, as the Vice President deems appropriate or as the Board requests, on actions taken pursuant to this resolution, effective immediately.

***

PERSONNEL ACTIONS

Resolution No. 2011-70

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 11, 2011, meeting of the Board, including the following Appointments, Reappointment, Appointments/Reappointment of Chairpersons, Leave of Absence without Salary, Professional Improvement Leave, Professional Improvement Leave – Cancellations, Professional Improvement Leave – Continuation, and Emeritus Titles, be approved.

RESOLUTION IN MEMORIAM

Resolution No. 2011-71

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Robert S. Dorsey

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 11, 2011, of Robert S. Dorsey, of West Chester, Ohio, former member of the Board of Trustees.

Robert Dorsey was born in Lafayette, Louisiana. He received his B.S. in Mechanical Engineering degree from The Ohio State University in 1949. He was a member of The Ohio State University football team and lettered in 1947 and 1948. He was inducted into Tau Beta Pi, the engineering honor society, and Pi Tau Sigma, the international mechanical engineering honor society. Mr. Dorsey was also a member of the Kappa Alpha Psi fraternity, and in 1987 he was inducted into SPHINX as an honorary member.

He volunteered for the U.S. Army Reserves and was drafted into the segregated U.S. Army. Mr. Dorsey served in the 92nd Infantry Division and worked as a water purification specialist for a combat engineering battalion. He was honorably discharged in March of 1946.

Mr. Dorsey worked for General Electric (GE) for 38 years. He helped develop the engines used in airplanes such as the B-1, B-2, F-14, F-16, and F-18. He also participated in the joint venture between GE and a French company, SNECMA, which created the CFM56 engines used in many commercial jets. After leaving GE in 1987, Dorsey worked with Belcan, a consulting firm, analyzing problems associated with military engines.

In 1970, Robert Dorsey was appointed by the late Governor James A. Rhodes as a member of The Ohio State University Board of Trustees to fill the remainder of the term vacated by Frederick E. Jones; he served from 1970-72. Mr. Dorsey served on the
April 8, 2011 meeting, Board of Trustees

OSU Athletic Council from June 1974 to May 1983; the Ohio State University Alumni Association (OSUAA) Board of Directors from 1983-1988; as President of the OSUAA Board from 1985-1987; and as Past President of the OSUAA Board from 1988-1993. He also served on the Alumni Advisory Council from July 1981 to May 1983. He was the recipient of the University’s Distinguished Service Award in 1975. He was very active in fund raising for the OSU Development Fund. He served on the Development Fund Board from 1971-1972; the OSU Foundation Board from 1985-1990; the Campaign for Alumni House Committee and the Campaign Committee.

On behalf of the University community, the Board of Trustees expresses to the family of Robert S. Dorsey its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board’s heartfelt sympathy.

APPROVAL TO PROCEED WITH PLANS FOR A COMPREHENSIVE FUNDRAISING CAMPAIGN

Resolution No. 2011-72

Synopsis: Authorization to proceed with plans for a comprehensive fundraising campaign which includes transition from the planning phase to the quiet phase.

WHEREAS the Campaign Steering Committee of The Ohio State University Foundation has been meeting regularly since November 2008; and

WHEREAS the University has been in the Planning Phase for a comprehensive fundraising campaign since January 1, 2009; and

WHEREAS under the guidance of the Campaign Steering Committee, the University has initiated recruitment of volunteer leadership, approved campaign counting guidelines, tested a preliminary University case statement, completed a comprehensive stewardship project, started leadership gift conversations, established key indicators for public launch, and conducted a feasibility study; and

WHEREAS the Campaign Steering Committee recommended on February 7, 2011, that the University transition from the Campaign Planning Phase to the Quiet Phase; and

WHEREAS the Executive Committee of The Ohio State University Foundation Board, acting on behalf of the full Board of Directors on March 4, 2011, unanimously supported the recommendation of the Campaign Steering Committee:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees acknowledges and expresses its appreciation for the leadership and service of the Campaign Steering Committee and The Ohio State University Foundation Board; and

BE IT FURTHER RESOLVED, That this Board hereby approves proceeding with plans for a comprehensive fundraising campaign with a working goal of $2.5 billion and a timeline of January 1, 2009, through June 30, 2016; and

BE IT FURTHER RESOLVED, That this Board hereby authorizes the plan for a comprehensive fundraising campaign and directs the president, provost, deans, and directors of other fundraising units to finalize recruitment of membership for campaign committees and to assess support for and finalize their Campaign fundraising goals by summer 2012.
April 8, 2011 meeting, Board of Trustees

(See Appendix XXXI for background information, page 791.)

UNIVERSITY DEVELOPMENT REPORT
Resolution No. 2011-73

Synopsis: The University Development Report as of February 28, 2011, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The E. Thomas Boles Jr. M.D. Chair in Pediatric Surgery and the Chair of Excellence in Cardiovascular Medicine, the revision of The Marion N. Rowley Chair in Cancer Research, the establishment of sixteen (16) named endowed funds, and the revision of one (1) named endowed fund.

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Foundation as of February 28, 2011, be approved.

(See Appendix XXXII for background information, page 801.)

Establishment of Named Endowed Chair

**The E. Thomas Boles Jr. M.D. Chair in Pediatric Surgery**

The College of Medicine Surgery Chair Fund was established February 2, 1996, by the Board of Trustees of The Ohio State University with gifts from Dr. E. Thomas Boles, Jr., of Columbus, Ohio. The funding level has been reached, and the chair was established April 8, 2011.

Dr. Boles served as a full-time faculty member of the College of Medicine at The Ohio State University from 1954 to 1991. He was chief of the Department of Pediatric Surgery at the Columbus Children’s Hospital from 1969 to 1991 and chief of the Division of Pediatric Surgery in the Department of Surgery at Ohio State from 1971 to 1991. Upon retirement, he became an emeritus faculty member.

The annual distribution from this fund shall support a chair in the Division of Pediatric Surgery in the Department of Surgery to be held by a nationally or internationally recognized physician faculty member who is the director of the Division and/or surgeon-in-chief of Pediatric Surgery at Nationwide Children’s Hospital. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Surgery in consultation with the dean of the College of Medicine, the senior vice president for Health Sciences, and the chief executive officer of Nationwide Children’s Hospital. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.
April 8, 2011 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice and a recommendation from the chairperson of the Department of Surgery in consultation with the dean of the College of Medicine, the senior vice president for Health Sciences and the chief executive officer of Nationwide Children’s Hospital.

Amount Establishing Chair: $1,999,533.30 (grandfathered)

Change in Name and Description of Named Endowed Chair

The Marion N. Rowley Chair in Cancer Research

The Marion N. Rowley Chair Fund in Human Cancer Genetics Research was established December 2, 2005, by the Board of Trustees of The Ohio State University with gifts from The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute in memory of Marion N. Rowley of Glendale, California. The funding level was reached and the chair was established February 11, 2011. The name and description were revised April 8, 2011.

The annual distribution from this fund shall provide for salary support of a chair position in the field of cancer research at The Arthur G. James Cancer Hospital and the Richard J. Solove Research Institute (The James). The position shall be held by a nationally eminent faculty member as recommended by the chief executive officer (CEO) of The James and director of the Comprehensive Cancer Center (CCC) in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences. The activities of the chair holder shall be reviewed not less than every four years by the dean and senior vice president to determine compliance with the intended focus as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the CEO of The James and director of the CCC in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The related research activities of the chair holder shall also be supported and include research personnel, equipment, supplies, and other necessary expenses of an active researcher involved in quality medical research in the field of cancer.

If funds for The Marion N. Rowley Chair in Cancer Research are no longer needed in the area of cancer research, they shall be used to fund research into the study and cure of diseases affecting the mind of the elderly, including such afflictions as Alzheimer’s disease, as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine.
April 8, 2011 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the CEO of The James and director of the CCC in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

Establishment of Named Endowed Fund

Karen A. Holbrook 4-H Teen Leadership Endowment Fund

The Karen A. Holbrook 4-H Teen Leadership Endowment Fund was established April 8, 2011, in accordance with the guidelines approved by the Board of Trustees of The Ohio State University, with gifts from 4-H friends of Dr. Karen A. Holbrook in recognition of her service to Ohio 4-H Youth Development.

The annual distribution from this fund will be used to support teen leadership development programs and activities within the Ohio 4-H Youth Development program. This support may include but is not limited to: training for teen leaders or volunteers working with teens; research and program development in the area of teen leadership; and support for teens attending leadership training/development opportunities nationally, statewide, regionally or locally. Expenditures shall be approved by the assistant director of OSU Extension for 4-H Youth Development.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension for 4-H Youth Development.

Amount Establishing Endowment: $25,400.00 (grandfathered)
April 8, 2011 meeting, Board of Trustees

Change in Description of Named Endowed Fund

**Dorothy R., Thomas A., and John E. Hamrick Memorial Scholarship Fund for Pickaway County**

The Thomas A. and John E. Hamrick Memorial Scholarship Fund for Pickaway County was established December 5, 1986, by the Board of Trustees of The Ohio State University with gifts from George H. Hamrick (B.S. 1951, M.S. 1959, chair of the Pickaway County Office for Ohio State University Extension 1957-1984) and his wife Dorothy R. Hamrick (B.S.Ed. 1947) in memory of their sons. The description was revised July 9, 1993, and the name and description were revised October 4, 2002. Per George Hamrick’s request, the name and description were revised May 4, 2007, to honor the memory of his wife who passed away in 2006. The description was revised again April 8, 2011.

The annual distribution from this fund shall be used to support one or more scholarships for undergraduate or graduate students enrolled in any degree program on the Columbus campus in the College of Food, Agricultural, and Environmental Sciences. Criteria for selection shall include outstanding scholastic achievement and leadership potential demonstrated through extracurricular activities. First preference is for students with financial need who are from Pickaway County, Ohio. Second preference is for student from Gallia or Ross County, Ohio. Scholarship recipients shall be selected by the College’s scholarship selection committee in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University’s Board of Trustees. In making this alternate designation, the Board shall seek advice from George Hamrick, if possible, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

**Establishment of Named Endowed Chair**

**Chair of Excellence in Cardiovascular Medicine**

The Chair of Excellence in Cardiovascular Medicine Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from community leaders and other advocates of the heart program at The
Ohio State University Medical Center. The description was revised September 18, 2009. The funding level has been reached and the chair was established April 8, 2011.

The annual distribution from this fund shall provide a chair position supporting a nationally or internationally recognized physician faculty member in the Division of Cardiovascular Medicine to foster innovation and excellence in the field. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as approved by the senior vice president for Health Sciences and by the dean of the College of Medicine, in consultation with the director of the OSU Heart Center and the director of the Division of Cardiovascular Medicine (unless either director is a candidate). The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. If in the future the field of cardiovascular medicine ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, if possible, and from the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Chair: $1,529,011.41 (grandfathered)

Establishment of Named Endowed Funds

The James F. and Patricia C. Dietz Engineering Scholarships Fund

The James F. and Patricia C. Dietz Engineering Scholarships Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from James F. (B.Ch.E. 1969, M.S. 1970) and Patricia C. Dietz.

The annual distribution from this fund shall provide three or more half tuition scholarships to be known as the James F. and Patricia C. Dietz Chemical Engineering Scholarships. The award criteria in order of priority will be: undergraduate students of sophomore standing or higher majoring in chemical and biomolecular engineering at The Ohio State University. First consideration will be given to students from Botkins High School (or its successor) in Shelby County, Ohio. If multiple students are eligible from Botkins High School (or its successor), the preference will be given to those with demonstrated financial need. If no Botkins High School (or its successor) students are available, consideration will be given to students from Shelby County, Ohio. If multiple students are eligible from Shelby County, Ohio, then preference will be given to those with demonstrated financial need. If no Botkins High School (or its successor) or Shelby County students are available, consideration will be given to students with demonstrated financial need.

Scholarship awards will be renewable for students who remain in good academic standing (not on academic probation or maintaining full-time status) not to exceed three years total.
April 8, 2011 meeting, Board of Trustees

The donors’ intention is to fund at least one sophomore student, one junior student, and one senior student each year whenever possible.

The annual distribution from this fund shall also provide one scholarship each year equivalent to 12.5% of Ohio State’s tuition to be known as the James F. and Patricia C. Dietz Engineering Scholarship. The award criteria in order of priority will be: an incoming first year undergraduate student from Botkins High School (or it successor) in Shelby County, Ohio, who plans to major in engineering. First preference will be given to students entering The Ohio State University main (Columbus) campus or an OSU regional campus. If no students from Botkins High School (or its successor) in Shelby County, Ohio, plan to enroll in engineering at The Ohio State University, then the scholarship may be awarded to a Botkins High School (or its successor) student who plans to enroll in engineering at another university.

The College of Engineering will develop brochures regarding application for this scholarship and distribute these brochures to Botkins High School (or its successor) in Shelby County, Ohio. Based on the applications received, a list of prospective scholarship candidates will be shared with the donors and the final selection will be made by the chairperson of the William G. Lowrie Department of Chemical and Biomolecular Engineering with assistance from the College of Engineering Scholarship Committee and in consultation with the University’s Office of Student Financial Aid.

Any remaining annual distribution shall be used to fund one or more general engineering scholarships for students enrolled in the Ohio State College of Engineering with demonstrated financial need.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the dean of the College of Engineering.

Amount Establishing Endowment: $408,166.85

The Yardley Family Endowed Scholarship Fund in Dental Hygiene

The Yardley Family Endowed Scholarship Fund in Dental Hygiene was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Lou Ann Moritz Ransom (Cert.Grad.Dent.Hyg. 1958) of Columbus, Ohio, to honor her sisters’, Jeanne Yardley Bogen and Mary Yardley Giannola, accomplishments in dental hygiene, as well as her own accomplishments in the field.
April 8, 2011 meeting, Board of Trustees

The annual distribution from this endowed fund shall provide scholarship support to a student who demonstrates financial need and is pursuing a degree in dental hygiene. It is the desire of the donor that the fund provide full in-state tuition, books, fees, and equipment, along with licensure and examination costs. The scholarship is renewable as long as the recipient maintains a cumulative grade point average of 3.0. It is the donor’s preference that the Yardley Scholarship is awarded as early in the student’s educational experience as possible.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarship recipients shall be selected by the chair of the Division of Dental Hygiene in consultation with the dean of the College of Dentistry, the College’s scholarship committee, and the University’s Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry in consultation with the chair of the Division of Dental Hygiene.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the College of Dentistry in consultation with the chair of the Division of Dental Hygiene.

Amount Establishing Endowment: $214,667.00
Total Commitment: $322,000.00

The Robert H. Zerbst MBA Scholarship Fund

The Robert H. Zerbst MBA Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Robert H. Zerbst (M.B.A. 1973, Ph.D. 1974).

The annual distribution from this fund shall be used to provide scholarship support to M.B.A. students enrolled at The Max M. Fisher College of Business. Selection of the recipients shall be made by the director of the Graduate Programs Office in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of
April 8, 2011 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: $64,000.00
Total Commitment: $100,000.00

The Dr. Charles W. Miller Family Endowed Scholarship Fund

The Dr. Charles W. Miller Family Endowed Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with initial gifts from Dr. Ross W. Miller (B.S.Agr. 1978, M.S. 1980, D.V.M. 1984) and Dr. Diane Sharkey Miller (M.S. 1980, Ph.D. 1982) and additional support from Mrs. Elizabeth Anatra (B.S. 1974, M.S. 1976) and Dr. Ellen Hartz (D.V.M. 2008) in memory of their parents and grandparents, Dr. Charles W. Miller (D.V.M. 1943) and Mrs. Bernece C. Miller.

Dr. Charles Miller conducted a general practice in Crestline, Ohio, for 36 years and was active in organized veterinary medicine. He held numerous positions in local and state associations including past president of the Ohio Veterinary Medical Association, member of the Ohio Veterinary Medical Board, and Distinguished Alumnus of the College of Veterinary Medicine.

The annual distribution from this endowed fund shall be used to provide one (1) scholarship for a third- or fourth-year student enrolled in the College of Veterinary Medicine who intends to practice food animal medicine. If no candidates met these criteria, then a student interested in equine medicine and surgery may be awarded the scholarship. Scholarship recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: $55,000.00
The Arbogast Endowed Dental Scholarship Fund

The Arbogast Endowed Dental Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Marion V. Arbogast (D.D.S. 1960).

The annual distribution from this fund shall be used to provide need-based scholarships for second-year dental students who are natives of Ohio, have a minimum grade point average (GPA) of 2.0, and demonstrate superior clinical ability in their first year. The scholarships will be renewable until graduation, provided the student maintains a minimum 2.0 GPA. Scholarship recipients shall be selected by the dean of the College of Dentistry in consultation with the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the College of Dentistry.

Amount Establishing Endowment: $53,456.45

Shi-Chuan and Shwu-Ching Lee Engineering Scholarship Fund

The Shi-Chuan and Shwu-Ching Lee Engineering Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Shi-Chuan “Sam” Lee (M.S. 1972, Ph.D. 1974).

The annual distribution from the endowed fund shall provide one or more scholarships to undergraduate students majoring in electrical and computer engineering. First consideration shall be given to outstanding candidates who are residents of Taiwan. If there are no candidates from Taiwan, consideration will be given to students majoring in electrical and computer engineering with demonstrated financial need. Selection will be made by the chairperson of the Department of Electrical and Computer Engineering with assistance from the College of Engineering Scholarship Committee and in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering in consultation with the chairperson of the Department of Electrical and Computer Engineering.
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the dean of the College of Engineering in consultation with the chairperson of the Department of Electrical and Computer Engineering.

Amount Establishing Endowment: $50,788.95

Herve Romain Scholarship Fund

The Herve Romain (B.A. 1997) Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Suzanne Levy (B.A. 1996), David Firestone (B.S.Bus.Adm. 1992), and friends.

The annual distribution from this fund shall provide one annual scholarship to a student with a minimum 3.0 grade point average (GPA) who is enrolled in the School of Music and has selected music industry as a major or minor. Scholarship recipients shall be selected by the executive dean of the College of Arts and Sciences as recommended by the director of the School of Music in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Suzanne Levy or David Firestone, if possible, and from the executive dean of the College of Arts and Sciences in consultation with the director of the School of Music.

Amount Establishing Endowment: $50,139.00

Russell G. and Melissa Warner Bow Fund

The Russell G. and Melissa Warner Bow Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Russell and Melissa Bow.
April 8, 2011 meeting, Board of Trustees

The annual distribution from this fund shall be used to fund an annual community book reading as approved by the dean/director of the OSU Newark campus. The selection of the book will correspond with a common reading for students. Members of the campus community and the community at large will be invited to participate.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, if possible, and the dean/director of the OSU Newark campus.

Amount Establishing Endowment: $50,000.00

William W. Fallon and Ralph S. Fallon Endowment Fund in Civil Engineering

The William W. Fallon (B.C.E. 1952, M.S. 1952) and Ralph S. Fallon (B.C.E. 1921) Endowment Fund in Civil Engineering was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from William W. Fallon.

The annual distribution shall support emerging priorities in the Department of Civil and Environmental Engineering and Geodetic Science which are directly related to enhancing the experience of students majoring in civil engineering. The annual distribution may not be used for scholarships, recruitment, or faculty/staff support. Expenditures shall be recommended by the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science and approved by dean of the College of Engineering.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering in consultation with the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and the dean of the College of Engineering in consultation with the
The Timothy and Karen Stokey Family Scholarship Fund

The Timothy and Karen Stokey Family Scholarship Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Karen Stokey.

The annual distribution from this fund shall be used to provide scholarships for first-year undergraduate students enrolled at the Columbus campus who are graduates from Dover High School in Dover, Ohio, and who have a grade point average (GPA) of 3.5 or higher. The fund shall be used to provide scholarships in increments of $1,000 annually. The scholarship shall be distributed equally over three quarters of the academic school year and may be used for the cost of tuition, room and board, and books and supplies. This scholarship is renewable up to one year provided the student maintains a 2.8 GPA. The fund will be administered annually by the Office of Student Financial Aid in consultation with the scholarship committee of The Ohio State University Alumni Club of Tuscarawas County.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the Office of Student Financial Aid.

Amount Establishing Endowment: $50,000.00

The Richard Clarke Arnold Memorial Fund for Parkinson’s Disease Research

The Richard Clarke Arnold Memorial Fund for Parkinson’s Disease Research was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Su Au Arnold (B.A. 1969), who retired after 35 years of service to the University and resides in Columbus, Ohio.

The annual distribution from this fund shall be used to support basic, clinical, and translational research related to Parkinson’s disease including but not limited to the cost of supplies, equipment, salaries, education, and travel. Annual distribution may also be used to support the growth of the Parkinson’s Center and maintain the level of excellence of care for Parkinson’s patients. Expenditures shall be approved by the
The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, if possible, and from the chairperson of the Department of Neurology, the senior vice president for Health Sciences, and the dean of the College of Medicine.

Amount Establishing Endowment: $27,000.00 (grandfathered)

Wilbur Blount Memorial Fund

The Wilbur Blount (B.S. 1951, M.D. 1959) Memorial Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from family and friends.

The intent of this fund is to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this fund shall be used by the vice president for Student Life to support programs for students in furtherance of the diversity mission with particular attention to, but not limited to, programs for African Americans or other underrepresented groups. The University may modify any criteria found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Student Life.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, if possible, and from the vice president for Student Life.

Amount Establishing Endowment: $25,155.00 (grandfathered)
Ohio 4-H Shooting Sports Endowment Fund

The Ohio 4-H Shooting Sports Endowment Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of the Ohio 4-H Shooting Sports Program.

The annual distribution from this fund shall be used to support Ohio 4-H Shooting Sports. This support may include, but is not limited to, educational workshops and training for volunteers, educational camps and workshops for youth, and awards and recognition opportunities for youth and volunteers. Expenditures shall be recommended by the Extension professional responsible for Ohio 4-H Shooting Sports and approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension – 4-H Youth Development.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director for OSU Extension – 4-H Youth Development.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, if possible, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director for OSU Extension – 4-H Youth Development.

Amount of Endowment: $25,100.13 (grandfathered)

Ohio Expositions Commission Chair’s Scholarship Endowment Fund

The Ohio Expositions Commission Chair’s Scholarship Endowment Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Ohio Expositions Commission.

The annual distribution from this fund shall be used to provide at least one (1) scholarship to a Junior Fair exhibitor at the Ohio State Fair. Recipients must be entering The Ohio State University Columbus campus, ATI or any of its regional campuses and majoring in Animal Sciences. In the event that there are no qualified students majoring in Animal Sciences, applicants enrolled in the College of Food, Agricultural, and Environmental Sciences who meet the other criteria may be considered for the scholarship.

Candidates shall be nominated by the Ohio State Fair Scholarship Committee and selected by the College’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and
executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the University’s Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion may be used to support an area of need within OSU Extension-4-H Youth Development or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the state 4-H leader.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University’s costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation’s Board of Directors and the University’s Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $25,000.00 (grandfathered)

Ohio Expositions Commissioner’s Scholarship Endowment Fund

The Ohio Expositions Commissioner’s Scholarship Endowment Fund was established April 8, 2011, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Ohio Expositions Commission.

The annual distribution from this fund shall be used to provide at least one (1) scholarship to a Junior Fair exhibitor at the Ohio State Fair. Recipients must be entering The Ohio State University Columbus campus, ATI or any of its regional campuses and majoring in Animal Sciences. In the event that there are no qualified students majoring in Animal Sciences, applicants enrolled in the College of Food, Agricultural, and Environmental Sciences who meet the other criteria may be considered for the scholarship.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Candidates shall be nominated by the Ohio State Fair Scholarship Committee and selected by the College’s scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation with the University’s Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion may be used to support an area of need within OSU Extension-4-H Youth Development or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the state 4-H leader.
April 8, 2011 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, if possible, and the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: $25,000.00 (grandfathered)

AUTHORIZATION FOR CURE ADDITION TO THE MEDICAL CENTER EXPANSION PROJECT UTILIZING HRSA GRANT

Resolution No. 2011-74

Synopsis: Authorization of the revised Medical Center Expansion to include CURE expansion of capacity.

WHEREAS on September 18, 2009 the Board of Trustees adopted the resolution “Authorization for ProjectONE”, approving the revised Medical Center Expansion Project; and

WHEREAS the Medical Center Facility Master Plan – Clinical Expansion includes CURE, the cancer hospital component of the Medical Center Expansion; and

WHEREAS CURE includes construction of expanded radiation oncology services; and

WHEREAS on December 29, 2010, the federal Health Resources and Services Administration (HRSA) awarded approximately $100M in grant funding to The Ohio State University to be expended as part of CURE for an expanded cancer ambulatory program for radiation oncology services; and

WHEREAS the Medical Center Expansion Project plans provide for CURE to include the following expanded space, to be accomplished by a corresponding increase in the total authorized project budget:

Cancer Ambulatory Program, Radiation Oncology Services $100M

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the expanded cancer ambulatory program radiation oncology services as part of the authorized revised Medical Center Expansion Project, as detailed in this resolution. All other provisions of the September 18, 2009 Board of Trustees resolution “Authorization for ProjectONE” remain unchanged.

**FACULTY GROUP PRACTICE**

Resolution No. 2011-75

Synopsis: Approval of the creation of the Faculty Group Practice in the University Office of Health Sciences is proposed.

WHEREAS effective December 15, 2002, the University’s Board of Trustees established “The Ohio State University College of Medicine [and Public-Health] Medical Practice Plan for the College Central Practice Group” (the “Practice Plan”) for the purpose of advancing the goals of The Ohio State University College of Medicine (“COM”) to provide education, research and service in medical disciplines through patient care services, and

WHEREAS the Senior Vice President for Health Sciences, under authority delegated to him by the University Board of Trustees, approved Ohio State University Physicians, Inc. (OSUP) as the College Central Practice Group, and

WHEREAS the OSU Medical Center is committed to shaping the future of medicine by creating, disseminating and applying new knowledge, and by personalizing health care to meet the needs of each individual; and

WHEREAS The University and OSUP desire to utilize an Integrated Model for the delivery of teaching, research and patient care services by the faculty of the COM using the medical facilities of OSUP and the Health System to (i) benefit the COM and its faculty, the Health System and the patients of the COM’s faculty and (ii) improve the national ranking of the University as an academic medical center, and

WHEREAS it is essential for full integration under an Integrated Model that OSUP-employed physicians be employed solely by the University, and together with the physicians in the University’s Specialty Care Network, practice within a newly constituted Faculty Group Practice; and

WHEREAS the Senior Vice President for Health Sciences, the Dean of the College of Medicine and the leadership of the College of Medicine have recommended the establishment of a Faculty Group Practice organization within the Office of Health Sciences for the purpose of employing the physician faculty of the University while still maintaining OSUP as the College Central Practice Group to administer the patient care practice of all its members including collection of fees, payment of all members’ patient care costs and expenses, departmental academic enrichment and teaching and research fund payments as well as distribute all Practice Income to the Faculty Group Practice organization:

NOW THEREFORE

BE IT RESOLVED, That there is hereby created within the Office of Health Sciences the Faculty Group Practice which will employ the physician faculty of The Ohio State University College of Medicine in accordance with established University procedures; and

BE IT FURTHER RESOLVED, That all OSU Medical Center department chairs and medical center physician leaders with system-wide appointments shall become employed either by the Faculty Group Practice or the Specialty Care Network on or before July 1, 2011; and

BE IT FURTHER RESOLVED, that the Senior Vice President for Health Sciences and the Dean of the College of Medicine are hereby delegated the authority to take appropriate actions to employ all physician faculty either by the Faculty Group Practice or the Specialty Care Network in accordance with established University procedures.

REVISIONS TO THE POLICY ON PURCHASING AND COMPETITIVE BIDDING

Resolution No. 2011-78

Synopsis: Authorization for the adoption of the revised policy on purchasing and competitive bidding is requested.

WHEREAS it is the policy of The Ohio State University to solicit competitive bids or proposals in making University purchases in all cases wherein the best interest of the University will be served by such competition; and

WHEREAS the University's policy on purchasing and competitive bidding has been established by the Board of Trustees through Resolutions 84-61, 85-29, 86-41, 87-38, 87-39, 88-55, 92-78, 95-17, 2002-97 and 2008-70 and there is a need to revise and update the University’s policy on purchasing:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby revises the policy on purchasing, as follows, effective immediately:

1. Under the direction of the Senior Vice President for Business and Finance, the Director of Purchasing shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the University.

Except as provided below, all equipment, materials, supplies, and services shall be purchased through solicitation of competitive bids or proposals except where such equipment, materials, supplies, or services are purchased pursuant to Sections 4115.31 to 4115.35 and 5147.07 of the Revised Code, or where the amount of such purchase of equipment, materials, and/or supplies is less than $25,000 or where the purchase of services, or any combination of services, equipment, materials, and supplies, is less than $50,000. The above threshold amounts notwithstanding, the University may require competitive bidding for purchases below these threshold amounts if it determines that such bidding is in the best interest of the University. Contracts shall be awarded to the lowest responsible and responsive bidder. In accordance with policies and procedures established by the Office of Business and Finance, the University may accept or reject any or all bids or proposals in whole or by item. For any contract authorized by the University’s policy on purchasing, the
April 8, 2011 meeting, Board of Trustees

University is authorized to make multiple awards as provided for in the University’s request for bids or proposals.

The President and/or Senior Vice President for Business and Finance, or his or her designee, may grant a waiver from competitive bidding when he or she determines that an emergency or a sufficient economic reason exists, or that the equipment, materials, supplies, or services can be purchased only from a single supplier (sole source).

The President and/or Senior Vice President for Business and Finance, or his or her designee, may grant a waiver from competitive bidding when he or she determines that the services to be purchased are technical and specialized consulting services that are temporary in nature and there are sufficient economic reasons to support such a waiver and where such terms and conditions are in the best interest of the University. The exercise of this authority shall be subject to the oversight authority of the Senior Vice President for Business and Finance.

The President and/or Senior Vice President for Business and Finance, upon recommendation of the appropriate University office responsible for University collections and with any necessary budgeting approval, is authorized on behalf of the University, on a continuing basis, to purchase (including through the commissioning of such work or objects), without competitive bidding, objects of fine or decorative art or other objects to be collected for and on behalf of the University, from funds authorized for such purposes, upon such terms and conditions as are deemed to be in the best interest of the University, but not to exceed $1 million per art work or collection based on an appraisal(s) acceptable to the University. This provision rescinds Resolution 84-61.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, equipment, materials, supplies, or services through any non-profit or governmental agencies or consortia (including but not limited to the Inter University Council Purchasing Group) whose contracts meet the competitive bidding requirements as determined by the University, upon such terms and conditions as are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to enter into agreements, without competitive bidding, for entertainment acts, performers, and artists, and their selected, required, or contractually mandated promoters or associated vendors, as scheduled by various University departments, upon such terms and conditions as are in the best interest of the University.

Resolution 87-38 is hereby reconfirmed and the President and/or Senior Vice President for Business and Finance, in consultation with the Vice President for Research, is authorized on behalf of the University, on a continuing basis, to negotiate and to enter into, without competitive bidding, agreements, including purchase agreements, as are necessary or desirable to acquire, finance, install, equip, maintain, operate, and update current generation and subsequent new generation supercomputing equipment developed by or for use with Cray Research, Inc. supercomputing equipment.

In accordance with Section 5513.01(B) of the Revised Code, the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, through Ohio Department of Transportation agreements, machinery, materials, supplies or other articles upon such terms and conditions that are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive
April 8, 2011 meeting, Board of Trustees

bidding, books, periodicals, and other related items for the University Libraries’ collections.

In compliance with Section 125.081 of the Revised Code and any applicable court decisions, the University shall set aside a number of purchases each year for bidding by certified minority businesses only. The bidding procedures for such contracts shall be the same as for all other contracts except that: 1) only minority business enterprises certified by the State of Ohio Equal Employment Opportunity Coordinator shall be qualified to submit bids; and 2) the cost of products and services may not exceed the estimated market price by more than approximately 10%. If bids are rejected because of this cost consideration, the purchase shall be offered again for bid by all interested vendors in accordance with standard bidding procedures.

Resolution 95-17 is hereby reconfirmed, and notwithstanding any other provision of this policy on purchasing, the Vice President of Health Services shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the Hospitals of the University and their related facilities, in accordance with this University Purchasing Policy. The exercise of this authority by the Vice President of Health Services shall be subject to the oversight authority of the Senior Vice President for Business and Finance who shall review the application of this delegation of authority every three years.

Resolutions 87-39 and 88-55 are hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized, on a continuing basis, to purchase, without competitive bidding, equipment, materials, supplies, or services through the University Hospital Consortium, Inc., and the Hospital Helicopter Consortium of Central Ohio, whose contracts meet the competitive bidding requirements as determined by the University, and upon such terms and conditions as are in the best interest of the University. This provision rescinds Resolution 86-41.

The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements, to purchase services for blood and organ products for transplantation, without competitive bidding, upon such terms and conditions as are in the best interest of the University. This provision rescinds Resolution 86-41.

The President and/or the Senior Vice President for Business and Finance is authorized on behalf of the University to employ reverse-auctioning procurement methods for the purchase of goods and services, in accordance with the competitive bidding requirements as determined by the University.

Resolution 2002-97 is hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, equipment, materials, supplies, or services through participation in state of Ohio term schedules in which the vendor guarantees that the State will receive the lowest price as offered to the federal government and in which the vendor agrees to accept all of the State’s terms and conditions.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, the renewal of licenses and maintenance agreements for existing software applications, upon such terms and conditions as are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis and without competitive bidding, to negotiate and enter into real estate lease agreements in accordance with existing University procedures, upon such terms and conditions as are in the best interest of the University.
April 8, 2011 meeting, Board of Trustees

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, municipally based and other single-source supplies of utility services, upon such terms and conditions as are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding and in support of the mission of WOSU Public Media, products and services available solely through the Public Broadcast Service, National Public Radio and the National Program Service (including but not limited to programming fees and promotional products), upon such terms and conditions as are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, necessary services for authorized student exchange programs with other institutions of higher education, upon such terms and conditions as are in the best interest of the University.

The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements to purchase physician services in support of the University Health System, without competitive bidding, upon such terms and conditions as are in the best interest of the University.

Notwithstanding any other provision of this policy to the contrary, any contract or purchase, whether competitively bid or not, for goods or services which contract or purchase is in excess of $1 million must have the prior written approval of the Senior Vice President for Business and Finance or his or her designee within the Office of Business and Finance.

Notwithstanding any other provision of this policy to the contrary, any contract or purchase for goods or services for which competitive bidding is waived, and which contract or purchase is in excess of $500,000 must have the prior written approval of the Senior Vice President for Business and Finance or his or her designee within the Office of Business and Finance.

Only the President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements with various financial institutions and advisors relating to financial consulting services, banking, brokerage, leasing, asset financing and related financial services without competitive bidding, upon such terms and conditions in the best interest of the University.

All contracts or purchases for goods or services for which contract or purchase is in excess of $250,000 for which competitive bidding is waived, shall be reported to the Board on a quarterly basis.

A report of all contracts or purchases for goods or services for which competitive bidding is waived shall be provided to the Board of Trustees Office on an annual basis.

This policy applies to all funds administered by The Ohio State University and applies to the purchases of all products and services that are not conditions of existing contracts that have been previously negotiated and competitively bid. Also, this policy applies only to purchases of products and services acquired from outside of The Ohio State University and its affiliates.

April 8, 2011 meeting, Board of Trustees

**AUTHORIZATION FOR INCREASE IN GOLF COURSE MEMBERSHIP DUES**
Resolution No. 2011-79

Synopsis: Approval of golf course membership dues and daily green fees for the calendar 2011 year golf season FY2012 at the recommended levels is requested.

WHEREAS each year the Athletic Council reviews projections for the coming year’s budget and recommends golf course membership dues; and

WHEREAS the Athletic Council has approved increases for golf course membership dues and daily green fees shown on the attached table; and

WHEREAS the Athletic Council’s recommendations have been reviewed and are recommended by the appropriate University administration:

NOW THEREFORE

BE IT RESOLVED, That the recommended increases for golf course membership dues and daily green fees for calendar year 2011 golf season FY2012, be approved.

(See Appendix XXXV for background information, page 809.)

Upon motion of Mr. Brass, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Borror, O'Dell, Hicks, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Wadsworth, and Kellogg.

***

**EASEMENT – RIGHT OF WAY**
Resolution No. 2011-80

LICKING COUNTY, OHIO
COUNTRY CLUB DRIVE, NEWARK, OH

Synopsis: Authorization is requested to grant the Ohio Department of Transportation a transfer of land for a right of way, adjacent to the existing right of way, along Country Club Drive at the Newark Regional Campus.

WHEREAS the Department of Transportation has requested this grant of right of way along Country Club Drive at the Newark Regional Campus. The right of way will be a grant of temporary easements in four parcels totaling 0.138 acres along the east side of Country Club Drive and transfers in perpetuity of two parcels totaling 2.009 acres. The grant shall be temporary for areas needed in construction and in perpetuity consistent with the existing right of way along Country Club Drive. The transfer is proposed without consideration to the University as the street improvements will improve traffic flow in front of the Newark campus, increase safety and visibility, and improve access to the Newark campus for students and the general public; and

WHEREAS the purpose of the right of way is to allow the Department of Transportation to widen Country Club Drive and add a turn lane to improve traffic flow and better serve the Newark Regional Campus. The appropriate University offices have determined that the grant of this right of way is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President shall be authorized to take any action required to affect the grant of easements and right of way along Country Club
April 8, 2011 meeting, Board of Trustees

Drive, Newark, Ohio, upon the terms outlined above and any additional terms and conditions deemed to be in the best interest of the University.

(See Appendix XXXVI for background information, page 811.)

Upon motion of Mr. Borror, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolutions, cast by Trustees, Wexner, Borror, O'Dell, Hicks, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Wadsworth and Kellogg.

Dr. Frantz:

We need a motion and a second. Motion carries, Mr. Chairman.

Upon motion of Mr. Borror, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolution with eleven affirmative votes, cast by Trustees, Borror, O'Dell, Hicks, Schottenstein, Brass, Ratner, Marbley, Kass, Jurgensen, Wadsworth and Kellogg, and one abstention cast by Trustee Wexner.

Mr. Wexner:

This just about completes the agenda. I thought, before we conclude, maybe we can go around the table and see if there are any other comments. We have had a very productive day and a half and a productive month, so we will give every trustee an opportunity to comment. We will begin with you, Brandon.

Mr. Mitchell:

I will start my comments on a sentimental note. I want to thank Alex. Since this is her last meeting as my big sister, I would like to thank her for everything she did in helping nourish me and get me up to date in being a Trustee and teaching me what it meant to actually be a student trustee and how to listen and introducing me to everyone who I would need to talk to and just guiding me along. It is going to be tough to look to my left in our office and not see her there to throw things at or play games with, so I just want her to know that she will be missed.

One more thing, Alex and I had a bet about who could get the first “here! here!” from Andy Sorenson, and I just got one. Just between us two.

Mr. Kellogg:

That is just between you and Alex though, because there have been a few “here, here’s” earlier.

Dr. Cloyd:

Don’t you hate to follow Brandon? Let me add, first of all, my thanks to Alex and Doug for the great service and colleagueship on the Board. It has been a true pleasure. We are going to miss both of you. The only other comment I have is, again, I am ecstatic at the progress I see us making and the advancement model, the opportunities it is opening for the University, and I think we are already starting to see great progress on the development front, and I am just very, very optimistic.

Dr. Wadsworth:

I could say the same thing about Alex and Doug. Thank you for your service. We have had a very positive meeting. I see so many strong things advancing. I am very impressed.
April 8, 2011 meeting, Board of Trustees

Judge Marbley:

I want to thank Alex, and I want to thank Doug. Doug has really kept us focused on what is really important because after all is said and done, we are here for the students and I do not know that anyone has reminded us of that as well as Doug has during his time on the Board and he set a high bar for those of us who are on the Academic Affairs and Student Life Committee, and I think that you deserve a great deal of praise for having done that so we never forget why we are here. So, thank you very much.

Mr. Brass:

Well I am not to be the one that leaves Alex or Doug out, that is for sure, but thank you very much for a job well done, just a job well done. It has been fun, and I will tell you, we will miss you. Do not forget, I get one pair of socks after you wash them. It was a great, great meeting. Thank you.

Mr. Hicks:

A very good meeting, a lot of momentum, a lot of interesting dialogue. I have been very impressed in the reports that we have heard in terms of the personnel that we are recruiting, whether it is Bryan Cummings or our new dean of engineering or the folks that Dr. Gabbe has recruited. What is remarkable is how one or two individuals can really make a difference, and I think we saw that in radiation oncology.

I would also say to Alex and Doug, it has been a pleasure serving with you. We had an opportunity to get together with some of their family last night and you guys have both done a wonderful job on the board, and it was wonderful to see your families and have them share with you, and share with us, a celebration of your time here. Thank you very much.

Mr. Kellogg:

I would like to say a couple things. One, obviously I am a relatively new trustee, and I have not had the chance to be around Doug and Alex as many of you have but nonetheless, in the short time, it is not so much what the dash says between the association, it is how you live that dash, and I have been tremendously inspired by Doug, his passion and his enthusiasm, his caring for the University, and Alex has been fantastic to get a chance to know so, I too, would like to commend you on your service and I am going to miss you even though it has been short.

I also would like to say, you know, when James and Sam, I mean one of the highlights for me in the couple of board meetings that I have been to is the recognition of the students, and I go back to Judge Marbley’s point, that it does give you a sense of recalling and reminding you of why we are here and to hear their stories and backgrounds just a little bit is always inspiring.

I would just like to commend the various committee chairs. The reports, the level of work that has been done, the momentum, I mean I come of a really personal high in my professional life from the three or four weeks of March Madness, which is fantastic for somebody who loves basketball, but when you sit in here, and you get a chance to see the breadth and quality and the importance and the significance of the work that is going on here, it takes you to a whole other level of appreciation for the people that are making it happen because at the end of the day that is what it is about: the quality of the people and their purpose and their caring and their passion and their professionalism, and that is all on five star display here. I just want to commend all our committees and the staff and faculty that are all part of what is transpiring here and the leadership of our President. It is very, very inspiring. Extremely inspiring from my perspective.
April 8, 2011 meeting, Board of Trustees

Mr. Jurgensen:

Alex and Doug, all the best. You have done a wonderful job, and I know we will continue to see you around so that is good. Clark, you did a great job, and I know all of us were hoping we would have the chance to see you labor on that final game, that was going to be neat. I think the thing I am struck by, and I feel that some of the people in the audience feel the same way, when you listen to all of these reports, even though we go through the committees and everything, and it is really almost overwhelming, is that for many of us that come to the Board via a corporate or business background, whenever you have a background with academia, there always used to be a very large gap in practice, between what goes on in corporate America, generally speaking, and what goes on in academia, relating to the management of the business. I mean the administrative end of it, not the mission of it but whether it is managing physical assets or financial planning, financial analysis, strategic planning, investment management, all of these functions that are away from what we do in teaching and research really, but enable what we do in teaching and research. The practice of managing all of those things, the professionalism, the approaches, the processes, the reporting, and all of that, there used to be an enormous gap between, I think what many of us would observe happens in our companies versus what happens in academia. That gap is significantly closing here and there are many things that Ohio State does today. In terms of the management, a lot of these things that are every bit as good and maybe in some instances better than what happens in corporate America. Now, what makes that even more significant to me as I have thought about it is that a lot of businesses are bigger than the University in terms of revenues or assets, but as I look around the table and contemplate the businesses that we all came from, in many senses, none of our businesses are more complex. As a matter of fact, the University is significantly more; the business I came from is pretty simple. We insure cars, houses, and to some extent, commercial activities and businesses. It is a big business but is pretty straightforward. It is pretty simple. It pales in comparison to the complexity of Ohio State and so, when you think about this gap shrinking in business practice, it is pretty amazing.

I am always astounded, no matter what it is we are talking about or whatever it is that is raised or brought up in the meeting, how President Gee can immediately recall to mind a statistic or an aspect about that as it related to Ohio State. It is astounding and it just reinforces, again, what a big, enormous, impactful place this is.

Mrs. Kass:

Well my two sentiments have been stated already, but I will repeat them for everyone. One is what Judge Marbley said about students, and you know it is wonderful to have a role model in a student and I think Alex, you have taught us all a lot, and I think that it brings us back to what we are here for and also the promise of the future. These are the students that we have here and I feel very good about where we are going when we have students like Alex and Brandon. Doug, I have really enjoyed getting to know and thank you for your focus on students and for what we all are here for. We are going to miss you both, but I know we are going to see you both.

Clark, what you said was really on my mind in terms of all the chairs of all the committees and what has been said and how everyone has really shown such immense leadership, and it is just an honor to be among everyone.

I particularly wanted to thank Gil, today, just because of, I think your leadership on the Campaign Steering Committee as we are going ahead in the campaign, you have really lead us very well, and we are very, very fortunate for that.
I guess I just want to say that all of this that we have talked about has been emanating from all these strategies and things we are trying to wrap our arms around are really coming from this wonderful template that you, President Gee, have set for us in One University as we are integrating everything that we have talked about here. That kind of has really stayed in my mind today. Thank you.

Mr. Ratner:

First, like everybody else, obviously both of the two trustees that are leaving have made enormous contributions, not just to the University, and I just speak very personally, just getting to know them. One of the privileges on this Board actually is getting to know a group of really wonderful people and getting to work with them, and I have said this before, I think the student trustees here have been extraordinary. Every time one of them leaves the Board, I say “how are we ever going to replace that student trustee?”, and I turn around and it seems to happen that we have a source of extraordinary young people who have just added immensely, and it may seem to me, because I don’t lose their persona as students, they clearly are students, and yet they do not try to pretend. Alex, the benefits that you have brought and the talent that you brought, to be able to be both a student, and clearly in that role, and yet to display incredible maturity and wisdom, you know, that is very hard. A lot of people would candidly, you know, it would be very false and pretentious about that, and there is nothing at all about what you have done with that. You deal one on one with people who have 30 or 40 years more experience in life and in roles similar to this and you both, not only do you hold your own, you often end up leading the conversation.

And then there is Doug, who is just always able to, usually at the end of the meeting, he will ask a very quiet question and you realize you just got skewered completely. Doug, I will certainly miss that. You keep all of us honest in a very quiet and a very deliberate way.

The comment I wanted to make, in a more general sense, is that when I first came on the Board, I think it has been three years or so, I think President Gee was giving a presentation of the sort of “One University” concept of some of the changes he wanted to see happen in this place, and I remember sitting there saying “wow, that’s an extraordinary vision”, but I was appointed the remaining term of another trustee who resigned so I only have eight years and I said “I will never see any of this come to fruition in these eight years. You cannot move an institution of this size; you cannot make change in an institution of this scale”, and it is not so much whether it is academia or corporate world, it is just scale and size and what was remarkable as I sat and listened to the presentations and from each of the committee chairs, is how much change really has occurred, how significantly we are altering the landscape of the University; how we are moving it in the direction that President Gee set forth, and it is really a tribute to the people who have done the work, not really to the trustees. We sit here and we take credit for work that extraordinary staff and faculty and administrators have done, but it is that ability to really change a very large institution, whether it is the oncology program or whether it is advancement. You go around the room and you think about how many places we are really affecting significant change, redirecting the University, refocusing its energies. That is just extraordinary, and it has this entrepreneurial spirit around here that we can make things happen and make them happen quickly and effectively that is just shocking, because I have never been around an institution of this scale that had anything like that agility. That is a real compliment and I think, Gordon, it is mostly the kind of leadership that you have set at the top and then the extraordinary people that you have been able to gather around you. It is just fun to be a part of that.
April 8, 2011 meeting, Board of Trustees

Mr. Schottenstein:

Well said and I just echo what everyone has said. First, I want to just make clear that I think that we are making unbelievable progress and to quote you, Mr. Chairman, and others, we are getting better and this is a very, I think, exciting time for the University, and I think we are fortunate to be in the position that we are in. Archie just walked out, and as he was walking out I was listening to what everybody said. I think it was in the early '70s that Woody Hayes wrote this book called “You Win with People” and I remember when the book came out, I was too young and not bright enough to figure out the title. I thought why didn’t he title it ‘You Win if you Score More Points’, I mean, duh. Obviously he meant something else, and we have talked about a number of people and I just want to say, too, Alex, thank you so much. I do not think we can ever lose sight of how important the voice of the students are and how much it matters what you and now Brandon, and those who have come before you and those that will follow have done for the benefit of this Board as student trustees. I echo what everyone has said, and Doug, there has been no powerful voice since I have been on this Board for the students than you. On a personal level, Doug, and I go back a few years, to say the least our fathers were very close friends, and Doug, and his entire family, I have a lot of affection for, and I am going to personally miss you on this Board. We are fierce competitors, at least for many years we were, but we have always remained good friends. I wish you only the best and I know we will see you often, and we will miss your socks.

The only other thing that I would like to add. I would like to reinforce the comments I made about advancement and the great work that so many have done, and also just in terms in the committees that I serve on, particularly Audit and Compliance and Finance, I do want to single out the extraordinary work of Geoff Chatas as our new chief financial officer. There are just so many great people sitting out there who I think are doing such great work for us; Dr. Gabbe, Dr. Sorenson, Jeff Kaplan, I am leaving people out, but just in terms of how closely that our committee works with Geoff and how he is helping us become a smarter, higher performing committee in terms of financial reporting, financial analysis, financial strategy, and it could not have come at a better time, and I just want to note that and that is one of the reasons that we are getting better.

Mr. O’Dell:

I just want to say that it is a great honor to serve on this wonderful Board and this great University. It is an amazing experience and certainly, I want to thank Alex for her two years of service and Doug for his nine. For the last two years, with Alex, and for the last eight years that I have been on this Board, it has been an absolute pleasure and joy. You have made great contributions - just a wonderful, wonderful opportunity.

A side point, I was lucky enough to go to Newark for the NCAA tournament and after the game, the cheerleaders, band, and all of the fans who had gone up there hung out in the lobby of the team hotel, and I was there for that. At about two o’clock in the morning, the team finally came back in, because it was a late game. You would have been very, very proud of your band, your cheerleaders, your team, your coaches, and all of the fans. It was a touching, sad moment with great cheering. I am very proud of all of the people involved in that and this University is in a great place. We have got great momentum, great leadership, Les, congratulations on your reappointment and thank you for that amazing gift and thank you for this opportunity.

Ms. Swain:

First, I want to let you all know how much I appreciate last night and the opportunity to, just pour my heart out there a little bit and to publicly thank my parents. Few opportunities like that to show my appreciation for everything that they do, but once
April 8, 2011 meeting, Board of Trustees

again, like last night, I am going to revert to a little humor to keep my emotions in check. So one of my hobbies, stress relievers, is getting in my car and singing very loud. I don’t care if anyone pulls up next to me and sees me. Ironically, this morning, the song on the way over was a 1998 hit from the New Radicals, “You Get What You Give” and I love that that came up and as much as I have tried to put as much as I can into this opportunity, it has given back tenfold, and I have just appreciated that so much. I just want to thank you all, so many people out there for being friends, mentors, and role models. This is an awesome team, I think, and it has been just awesome to be a part of and OSU is doing so many amazing things, and it has truly been an honor to be a part of this team.

Mr. Borror:

Well, thank you everyone. First of all, for your great comments, and it truly has been an honor to be a part of this group. Everyone has reflected upon breadth and the depth here at Ohio State and when I was appointed, I came in and realized that there were a lot of places that you could spend your energy and your time, and I realized that I was not going to be the whiz in medicine that Alan is or have a particularly deep background in accounting and finance, and I was, as I said last night, a graduate of the College of Arts and Sciences, and I was a history major and believe in the liberal arts education, and when I asked for and was appointed to the Academic and Student Affairs Committee, I immediately started to get engaged and spend time with the University, so much so that I was rewarded with the Committee chairmanship my second year on the Board of Academic and Student Affairs and held that position for four more years. I reflect back, as Ron said, you do not get to see the change but the amount of change and things that were initiated in that time are things that you would go back and think about. First, there was a debate, largely in the administration about whether or not to rebuild the Ohio Union and how big it should be, and I think our Committee was very instrumental in making sure the Ohio Union was built as a showpiece that it is today and move forward. We also instituted the first new housing construction project since the ‘70s with the William Hall complex that was built on South campus, and we started to institute the renovation of the south, well I guess I want to say remodeling of our south residence towers, which was frankly going nowhere until President Gee got here, which is now a wonderful new complex, but we gave back to the students in that way. From an academic standpoint, we all get to focus on all the things that we think are big from a business standpoint, so when we go to build a hospital, it is getting a budget and putting it together and getting it approved and all of the processes that you need to do that. You have no idea how easy that is compared to getting the curriculum changed to reduce the number of hours that students must have to be from 192 to graduate to 181. That was one of the most personally challenging moments to go meeting after meeting with academias, and they are all wonderful, but my goodness it was very, very revealing. Not to mention then the switch from quarters to semesters, that was also initiated. It has not been completed yet. It started at the same time as the hour reduction but that only took four years. The quarters took eight. So, you can see that there is just a number of things that go on, from a student standpoint, that I think have a huge impact, and I am very, very proud to be involved in.

I have watched this Board evolve, watched the leadership change, watch the leadership grow. It is significantly better and the University itself is in a great position, going forward. President Gee, as I said, you are, I believe, the best university president in the free world, and it has been an honor serving with you and serving with each and every one of you on this Board. It has been a pleasure and I consider you all friends. Thank you very much, and I will continue to be a part of Ohio State when I can. Thank you.
April 8, 2011 meeting, Board of Trustees

President Gee:

Well, absolutely, Doug and Alex, I have expressed over the last 24 hours, my personal appreciation and deep affection for both of you, so I would just second that again.

There are so many things I could say. I would just like to reflect on the fact that I am grateful for the people for whom I work; the faculty, the staff, and the students. These have been extraordinarily challenging times, and I think that the senior leadership of this University will agree that our students, our faculty, our staff have been the margin of excellence. They have really worked very, very hard to make the kinds of changes and to work in a collaborative way to do what we are doing. There are a lot of institutions in this country in which there is such a strong division between aspirations and expectations in terms of the various groups you represent. I think that we should all recognize that.

The second thing is that all of our loving alumni, 507,000 now, we had 505,000 until two weeks ago, and many of whom write and tell me how to run the University. I am grateful for them; I really am for their enthusiasm. I am also grateful for the people for whom I work which are all of you, and I have always told you that I am fully cognizant of the fact that I work for you, and it is a privilege.

I think, Mr. Chairman, what I would like to note on today; we have had a series of meetings in which we have fully vetted and vented in terms of some of the issues that we are confronting, but I think we have done so within the lines of good governments, and I think that this is a tribute to you, and I think it is a tribute to everyone on this Board. I think that we are as well governed in terms of the way that we govern ourselves as any institution I see. When you go through good times, good governments prevail; it is easy. When you go through challenging times and good governments prevail, it is a remarkable tribute to the people around this table, and I really appreciate them.

Mr. Wexner:

To Alex and Doug, I think it is not retirement, and it is not graduation; it is commencement. I hope you think about today in those terms. It begins a different and hopefully more significant relationship with the University. I was thinking when we were talking about the improvements in radiology, and Dr. Chakravartii would not be here if he did not have the support of Dr. Gabbe, and Dr. Gabbe would not be here if not for President Gee, and President Gee probably would not be here but for Dr. Cloyd, and the Board picking President Gee, and I think that what really struck me was the subject of leadership, and leadership is like the wind, you can’t describe it sometimes, but you sure as hell feel it. When there is no wind, it’s calm, and you know it and when there is a strong wind you feel it, and I think we are very blessed to have that leadership. I think that leadership also comes from the Board. What the University should appreciate, we should appreciate collectively amongst ourselves is that, I think, we are not observers and critics but we are really engaged and participating in the University and my reflection in just listening to the committee reports and how many hours go into those meetings and things outside of the meetings, that engagement and participation of all the leaders is a significant positive differential, the time and energy that is put in and the quality of the work that comes out and the collaboration amongst ourselves with the administration.

The last thought is that it is tough some times because there is diversity of opinion, and I think that diversity of prospective is a very healthy thing as long as it is channeled through commonality of purpose, and I sense that there is a common purpose across the University, the Board, the administration, faculty, and students. Hopefully it is felt the same. We are in this together in working to make the University better and better. A lot of energy comes out of this year, these days, and I hope that
April 8, 2011 meeting, Board of Trustees

we all feel that energy. It is difficult to get momentum and when you have it, you feel it. It is like the wind; maybe you can’t measure it in human energy, but you sure as hell know when you have it, and it is a fragile and wonderful thing. I am very appreciative and thank everyone. I think if there is no further business we can stand adjourned. Thank you.

Thereupon the Board adjourned to meet Friday, June 24, 2011 at William Oxley Thompson Library, Columbus, OH.

Attest:

Leslie H. Wexner David O. Frantz
Chairman Secretary
II. MEDICAL STAFF BYLAWS

A. Updates and revisions to align bylaws with verbatim language of Joint Commission standards and CMS rules.
B. Substantial updates and revisions to comply with new Joint Commission Medical Staff standards.
C. Revisions to clarify medical staff appointments and re-appointments.
D. Revisions to clarify focused professional practice evaluation and ongoing professional practice evaluation.
E. Revisions to clarify when clinical privileges can lapse versus be suspended or terminated.
F. Various updates, revisions and minor administrative corrections to align and reflect the recently revised Medical Center Board Bylaws and duties of the Professional Affairs Committee.
G. Insertion of specific releases for sharing of quality and medical staff information within the Medical Center as well as with third party payors, regulating agencies, accreditation bodies and other health care entities.
H. Updates and revisions to peer review bylaws in order to reflect current process and laws.
I. Updates and revisions to leave of absence bylaws in order to reflect current process.
J. Revisions to temporary and special clinical privileges to align with Joint Commission standards and reflect current process.
K. Updates and revisions to further define roles and responsibilities of medical staff officers and department chairs.
L. Updates and revisions to further define roles and responsibilities of medical staff committees and reflect current practices.
M. Various minor administrative corrections throughout.

II. MEDICAL STAFF RULES AND REGULATIONS

D. Updates and revisions to align with language of the Joint Commission standards and CMS rules.
E. Updates and revisions in order to reflect changes for medical record entries and orders due to implementation of electronic systems.
F. Updates and revisions to further define roles and responsibilities of medical staff, medical staff committees and reflect current practices.
G. Various other minor administrative corrections.
Amendments to the Bylaws of the Medical Staff
of The Ohio State University Hospitals

3335-43-02 Purpose.

The purpose of the self-governing, democratically organized medical staff, which is accountable to the Ohio state medical center board for the quality of care provided to the patients of the Ohio state university hospitals, shall be:

Balance unchanged.

3335-43-03 Patients.

(A) and (B) no change.

(C) All patients admitted to the Ohio state university hospitals should cooperate and be an integral part of the teaching program of the college of medicine. Should a patient, or on the behalf of the patient, the patient's next of kin, or guardian, representative, refuse to participate or cooperate in the teaching program of the Ohio state university hospitals or the college of medicine, the medical staff member responsible for the care and treatment of the patient will encourage participation in the Ohio state university's teaching programs, but will simultaneously inform patients, or when appropriate, the patient's representative, of their right to refuse participation. Students, including pre- and post-M.D., but not limited thereto, shall be under the direction and control of the members of the medical staff to whom the patient is assigned upon admission to the Ohio state university hospitals or transfer within the Ohio state university hospitals' services. The Ohio state university hospitals respect the patient's right to participate in decisions about his or her care, treatment and services, and further respects the patient's right to refuse care treatment and services, in accordance with law and regulation.

3335-43-04 Membership.

(A) Qualifications.

(1) no change.

(2) All members of the medical staff of the Ohio state university hospitals shall, except as specifically provided in these bylaws, be members of the faculty of the Ohio state university college of medicine, or in the case of dentists, of the Ohio state university college of dentistry, and shall, except for members of the limited staff, be duly licensed to practice in the state of Ohio. Members of the limited staff shall possess a valid training certificate, or an unrestricted license from the applicable state board based on the eligibility criteria defined by that board. All members of the medical staff and limited staff shall comply with provisions of state law and the regulations of the state medical board. Only those physicians, dentists, and practitioners of psychology and podiatry who can document their education, training, experience, competence, adherence to the ethics of their profession, dedication to educational and research-goals, and ability to work with others with sufficient adequacy to assure the medical center board and the board of trustees of the Ohio state university that any patient treated by them at university hospitals will be given the high quality of medical care...
provided at university hospitals, shall be qualified for membership on the medical staff of the Ohio state university hospitals.

All applicants for membership and members of the medical staff must provide basic health information to fully demonstrate that the applicant or member has, and maintains, the ability to perform requested clinical privileges. The chief medical officer of the medical center, medical directors, the department chairperson, the credentialing committee of the Ohio state university medical center board, or the Ohio state university medical center board may initiate and request a physical or mental health evaluation of an applicant or member. Such request shall be in writing to the applicant. All members of the medical staff comply with medical staff and the Ohio state university policies regarding employee and medical staff health and safety; uncompensated care; and will comply with appropriate administrative directives and policies to avoid disrupting those operations of the Ohio state university hospitals which adversely impact overall patient care or which adversely impact the ability of the Ohio state university hospitals employees or staff to effectively and efficiently fulfill their responsibilities. All members of the medical staff must also comply with the university integrity program requirements including but not limited to policies on professionalism, disruptive behavior, annual education and training, conflict of interest, HIPPA compliance, and access and communication guidelines. Medical staff members must also comply with the university integrity program requirements including but not limited to billing, self referral, ethical conduct and annual education.

3. Exclusion of any medical staff member or licensed health care professional from participation in any federal or state government program or suspension from participation, in whole or part, in any federal or state government reimbursement program, shall result in immediate termination lapse of membership on the medical staff of the Ohio state university hospitals and the immediate termination lapse of clinical privileges at the Ohio state university hospitals as of the effective date of the exclusion or suspension. If the medical staff member’s or licensed health care professional’s participation in these programs is fully reinstated, the affected medical staff member or licensed health care professional shall be eligible to apply for membership and clinical privileges at that time. It shall be the duty of all medical staff members and licensed health care professionals to promptly inform the medical director chief medical officer of any action taken, or the initiation of any process which could lead to such action taken by any of these programs.

4. An applicant for membership shall at the time of appointment or reappointment, be and remain board certified in his or her primary area of practice at the Ohio state university hospitals. This Board certification must be approved by at least one of the American board of medical specialties, or other applicable certifying boards, including certifying boards if applicable for doctors of osteopathy, podiatry, psychology, and dentistry. All applicants must be and remain certified within the specific areas for which they have requested clinical privileges. Applicants who are not board certified at the time of application but who have completed their residency or fellowship training within the last five years will be eligible for medical staff appointment. However, in order to remain eligible, those applicants must achieve board certification in their primary area of practice within five years from the date of completion of
April 8, 2011 meeting, Board of Trustees

their residency or fellowship training. Applicants must maintain board certification and, to the extent required by the applicable specialty/subspecialty board, satisfy recertification requirements. Recertification will be assessed at reappointment. Failure to meet or maintain board certification shall result in immediate termination of membership on the medical staff of the Ohio State University hospitals. Waiver of this threshold eligibility criteria is as follows:

(a) A request for a waiver will only be considered if the applicant provides information sufficient to satisfy his or her burden of demonstrating that his or her qualifications are equivalent to or exceed the criterion in question and that there are exceptional circumstances that warrant a waiver. The department chief must endorse the request for waiver in writing to the credentialing committee.

(b) and (c) no change.

(d) The Ohio State medical center board’s determination regarding whether to grant a waiver is final. A determination not to grant a waiver is not a “denial” of appointment or clinical privileges and does not give to a right to a hearing. The prospective applicant who requested the waiver in a particular case is not intended to set a precedent for any other applicant. A determination to grant a waiver does not mean that an appointment will be granted. Waivers of threshold eligibility criteria will not be granted routinely. No applicant is entitled to a waiver or to a hearing if a waiver is not granted.

(5) All applicants must demonstrate recent clinical activity in their primary area of practice during at least the last two of the last four years to satisfy minimum threshold criteria for privileges within their clinical departments.

(6) and (7) no change.

(B) Application for membership.

Initial application for medical staff membership for all categories of the medical staff shall be made by the applicant to the chief of the clinical department on forms prescribed by the medical staff administrative committee stating the qualifications and references of the applicant and giving an account of the applicant’s current licensure, relevant professional training and experience, current competence and ability to perform the clinical privileges requested. All applications for appointment must specify the clinical privileges requested. Applications may be made only if the applicant meets the qualifications outlined in paragraph (A) of this rule. The application shall include written statements of the applicant to abide by the bylaws, rules and regulations and policies and procedures of the medical staff, the medical center board, and the board of trustees of the Ohio State University. The applicant shall produce a government-issued photo identification to verify his/her identity pursuant to hospital/medical staff policy. The applicant shall agree that membership on the medical staff requires participation in the peer review process of evaluating credentials, medical staff membership and clinical privileges, and that a condition for membership requires mutual covenants between all members of the medical staff to release one another from civil liability in this review process as long as the peer review was taken in the reasonable belief that it was in furtherance of quality health care based upon a reasonable review and appropriate procedural due process. In addition for community affiliate medical
staff in order to optimize the clinical organization resource utilization and planning of the Ohio state university hospitals, the chief of the clinical department may require that the community affiliate medical staff member identify categories of diagnosis, extent of anticipated patient activity, and service areas to be utilized and may prepare a statement of participation for the applicant, which shall be made a part of the application for appointment. A separate record shall be maintained for each applicant requesting appointment to the medical staff.

(C) Terms of appointment. Initial appointment to the medical staff shall be for a period not to exceed twenty-four months. During the first six months of the initial initial appointment, except for medical staff appointment appointments to the physician scholar medical or limited staff categories, without clinical privileges, appointees shall be provisional for six months regardless of the date of the appointment. During the period of the provisional appointment all applicants shall be subject to focused professional practice evaluation (FPPE) in order to evaluate the privilege-specific competence of the practitioner who does not have documented evidence of competently performing the requested privilege at the organization continuous review and reconsideration pursuant to these bylaws. Full appointment FPPE requires the evaluation by of the chief of the clinical department with oversight by the credentials committee and the medical staff administrative committee. If, after Following the six-month FPPE period, the chief of the clinical department may: 1. does not recommend the provisional initial appointee to transition to ongoing professional practice evaluation (OPPE), which is described later in these bylaws for full appointment, the chief of the clinical department may recommend to the medical staff administrative committee to; 2. extend the provisional FPPE period, which is not considered an adverse action, for an additional six months not to exceed a total of twelve months for purposes of further monitoring and evaluation; or 3. terminate the provisional initial appointee’s medical staff membership and clinical privileges. In the event that the medical staff administrative committee recommends that an adverse action be taken against a an initial provisional appointee, the provisional initial appointee shall be entitled to the provisions of due process as outlined in these bylaws.

(D) no change.

(E) Procedure for appointment.

(1) The written and signed application for membership on the medical staff shall be presented to the applicable chief of the clinical department. The applicant shall include in the application a signed statement indicating the following:

(a) through (f)

(g) The applicant further agrees to disclose to the medical director chief medical officer of the Ohio state university hospitals the initiation of any process which could lead to such loss or restriction of the applicant’s professional licensure, board certification, DEA registration, membership in any professional organization or medical staff membership or privileges at any other hospital or health care facility.

(h) The applicant agrees that acceptance of membership on the medical staff of the Ohio state university hospitals authorizes the Ohio state university hospitals to conduct any appropriate health assessment including but not limited to drug or alcohol screens on a practitioner at any time during the normal pursuit of medical
staff duties, based upon reasonable cause as determined by the chief of the practitioner’s clinical department or the medical director chief medical officer of the Ohio state university hospitals or their authorized designees.

(2) The purpose of the health assessment shall be to ensure that the member of the medical staff is able to fully perform and discharge the clinical, educational, administrative and research responsibilities which the member is permitted to exercise by reason of medical staff membership. At the time of the initial request for a health assessment, and at any time a medical staff member refuses to participate as needed in a health assessment, including but not limited to a drug or alcohol screening, the chief of the clinical department or the medical director may impose a summary suspension per paragraph (D) of rule 3335-43-05 of the Administrative Code this shall result in automatic lapse of membership, privileges, and prerogatives until remedied by compliance with the requested health assessment. Upon request of the medical staff administrative committee or medical center board, the applicant will document provide documentation the applicant's physical and mental status with sufficient adequacy to demonstrate that any patient treated by the applicant will receive care of a generally professionally recognized level of quality and efficiency. The conditions of this paragraph shall be deemed continuing and may be applicable to issues of continued good standing as a member of the medical staff.

(3) An application for membership on the medical staff shall be considered complete when all the information requested on the application form is provided, the application is signed by the applicant and the information is verified. A completed application must contain:

(a) Peer recommendation from at least three individuals knowledgeable with "first-hand" knowledge about the applicant's clinical and professional skills.

(b) through (l) no change.

(4) The chief of the applicable clinical department shall be responsible for investigating and verifying the character, qualifications, and professional standing of the applicant by making inquiry of the primary source of such information and shall within thirty days of receipt of the complete application, submit a report of those findings along with a recommendation on membership and clinical privileges to the medical director chief medical officer of the Ohio state university hospitals.

(5) The medical director chief medical officer shall receive all initial signed and verified applications from the chief of the clinical department and shall make an initial determination as to whether the application is complete. The credentials committee, the medical staff administrative committee, the professional affairs committee, and the medical center board have the right to render an application incomplete, and therefore not able to be processed, if the need arises for additional or clarifying information.

The medical director chief medical officer shall forward all complete applications to the credentials committee. The applicant shall have the burden of producing information for an adequate evaluation of applicant's qualifications for membership and for the clinical privileges requested. If the applicant fails to complete the prescribed forms or fails
to provide the information requested within sixty days of receipt of the signed application, processing of the application shall cease and the application shall be deemed to have been voluntarily withdrawn which action is not subject to hearing or appeal pursuant to rule 3335-43-06 of the Administrative Code.

If the chief of the applicable clinical department does not submit a report and recommendation on a timely basis, the completed application shall be forwarded to the medical director chief medical officer for presentation to the credentials committee on the same basis as other applicants.

(6) Completed applications shall be acted upon as follows:

(a) By the credentials committee within thirty days after receipt of a completed application from the medical director chief medical officer.

(b) By the medical staff administrative committee within thirty days after receipt of a completed application and the report and recommendation of the credentials committee.

(c) no change.

All applications shall be acted upon by the Ohio state medical center board within one hundred twenty days of receipt of a completed application. These time periods are deemed guidelines only and do not create any right to have an application processed within these precise periods. These periods may be stayed or altered pending receipt and verification of further information requested from the applicant, or if the application is deemed incomplete at any time. If the procedural rights specified in rule 3335-43-06 of the Administrative Code are activated, the time requirements provided therein govern the continued processing of the application.

(7) The credentials committee shall review the application, evaluate and verify the supporting documentation, references, licensure, the chief of the clinical department’s report and recommendation, and other relevant information. The credentials committee shall examine the character, professional competence, professional conduct, qualifications and ethical standing of the applicant and shall determine, through information contained in personal references and from other sources available to the credentials committee, including an appraisal from the chief of the clinical department in which clinical privileges are sought, whether the applicant has established and meets all of the necessary qualifications for the category of medical staff membership and clinical privileges requested.

The credentials committee shall, within thirty days from receipt of a complete application, make a recommendation to the medical director chief medical officer that the application be accepted, rejected, or modified. The medical director chief medical officer shall forward the recommendation of the credentials committee to the medical staff administrative committee. The credentials committee or the medical director chief medical officer may recommend to the medical staff administrative committee that certain applications for appointment be reviewed in executive session. The recommendation of the medical staff administrative committee regarding an appointment decision shall
be made within thirty days of receipt of the credentials committee recommendation and shall be communicated by the medical director chief medical officer, along with the recommendation of the medical director chief medical officer to the professional affairs committee of the medical center board, and thereafter to the medical center board. When the Ohio state medical center board has acted, the chairperson of the board shall instruct the medical director chief medical officer to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

(8) At any time the medical staff administrative committee first recommends non-appointment of an initial applicant for medical staff membership or recommends denial of any clinical privileges requested by the applicant, the medical staff administrative committee shall require the medical director chief medical officer to notify the applicant by certified return receipt mail that the applicant may request an evidentiary hearing as provided in paragraph (D) of rule 3335-43-06 of the Administrative Code. The applicant shall be notified of the requirement to request a hearing as provided by paragraph (B) of rule 3335-43-06 of the Administrative Code. If a hearing is properly requested, the applicant shall be subject to the rights and responsibilities of rule 3335-43-06 of the Administrative Code. If an applicant fails to properly request a hearing, the medical staff administrative committee shall accept, reject, or modify the application for appointment to membership and clinical privileges.

The final recommendation of the medical staff administrative committee shall be directly communicated to the medical center board by the medical director chief medical officer, who shall make a separate recommendation to the medical center board. When the Ohio state medical center board has acted, the chairperson of the board shall instruct the medical director chief medical officer to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division. The chairperson of the board shall also notify the dean of the college of medicine and the chief executive officer of the Ohio state university hospitals of the decision of the board.

(F) Procedure for reappointment.

(1) At least ninety days prior to the end of the medical staff member’s appointment period, the chief of the clinical department shall provide each medical staff member with an application for reappointment to the medical staff on forms prescribed by the medical staff administrative committee. The reappointment application shall include all information necessary to update and evaluate the qualifications of the medical staff member. The chief of the clinical department shall review the information available on each medical staff member, and the chief of the clinical department shall make recommendations regarding reappointment to the medical staff and for granting clinical privileges for the ensuing appointment period. The chief of the clinical department’s recommendation shall be transmitted in writing along with the signed and completed reappointment forms to the medical director chief medical officer at least forty-five days prior to the end of the medical staff member’s appointment period. The terms of paragraphs (A), (B), (C), (D), (E)(1), and (E)(2) of this rule shall apply to all applicants for reappointment. Reappointment to the medical staff shall be done on a
April 8, 2011 meeting, Board of Trustees

regular basis for a period not to exceed twenty-four months. Only completed applications for reappointment shall be considered by the credentials committee. An application for reappointment is complete when all the information requested on the reappointment application form is provided, the reappointment form is signed by the applicant, and the information is verified, and no need for additional or clarifying information is identified. A completed reappointment application form must contain:

(a) Peer recommendation from an individual(s) knowledgeable about the applicant's clinical and professional skills when sufficient information concerning the applicant is not available within the clinical department.

(b) Evidence of required immunizations if applicable since last appointment.

(c) Evidence of current professional medical malpractice liability insurance required for the exercise of clinical privileges.

(d) Verification of primary source documentation of:

(i) through (v)

(e) Information from the national practitioner data bank.

(f) Verification that the applicant has not been excluded from any federally funded health care program.

(g) Specific requests for any changes in clinical privileges sought at reappointment with supporting documentation as required by credentialing guidelines.

(h) Specific requests for any changes in medical staff category.

(i) A summary of the member’s clinical activity during the previous appointment period.

(j) Patterns of care as demonstrated through quality assurance records.

(k) Verification of completion of annual educational requirement as set forth in the university integrity and HIPAA programs.

(l) Complete disclosure by medical staff members of claims, suits, and settlements, if any.

(m) Continuing medical education and applicable continuing professional education activities. Documentation of category one CME that at least in part relates to the individual medical staff member’s specialty or sub-specialty area and are consistent with the licensing requirements of the applicable Ohio state licensing board shall be required.

(2) no change.

(3) The medical director chief medical officer shall forward the reappointment forms and the recommendations of the chief of the clinical department to the credentials committee. The credentials committee shall review the request for reappointment in the same
manner, and with the same authority as an original application for medical staff membership. The credentials committee shall review all aspects of the reappointment application including source verification of the member's quality assurance record for continuing membership qualifications and for clinical privileges. The credentials committee shall review each member's performance-based profile to ensure that the same level of quality of care is delivered by all medical staff members with similar delineated clinical privileges across all clinical departments and across all categories of medical staff membership.

The credentials committee shall forward its recommendations to the medical director chief medical officer at least thirty days prior to the end of the period of appointment. The medical director chief medical officer shall transmit the completed reappointment application and the recommendation of the credentials committee to the medical staff administrative committee.

Failure of the member to submit a reappointment application shall be deemed a voluntary resignation from the medical staff and shall result in automatic expiration of membership and all clinical privileges at the end of the medical staff member's current appointment period, which action shall not be subject to a hearing or appeal pursuant to rule 3335-43-06 of the Administrative Code. A request for reappointment subsequently received from a member who has been automatically expired shall be processed as a new appointment.

Failure of the chief of the clinical department to act timely on an application for reappointment shall be the same as provided in paragraph (E)(5) of this rule.

(4) The medical staff administrative committee shall review each request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The medical staff administrative committee shall accept, reject, or modify the request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The recommendation of the medical staff administrative committee regarding reappointment of a member shall be communicated by the chief medical director officer, along with the recommendation of the chief medical director officer, to the professional affairs committee of the medical center board, and thereafter to the medical center board. When the Ohio state medical center board has acted, the chairperson of the board shall instruct the chief medical director officer to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

(5) When the decision of the medical staff administrative committee results in a decision of non-reappointment or reduction, suspension or revocation of clinical privileges, the medical staff administrative committee shall instruct the chief medical director officer to give written notice to the affected member of the decision, the stated reason for the decision, and the member's right to a hearing pursuant to paragraphs (A) and (B) of rule 3335-43-06 of the Administrative Code. This notification and an opportunity to exhaust the appeal process shall occur prior to an adverse decision unless the provisions outlined in paragraph (D) of rule 3335-43-05 of the Administrative Code apply. The notice by the chief medical director officer shall be sent certified return receipt mail to the affected member's last known address as determined by the Ohio state university records.
(6) and (7) no change.

(G) Resumption of clinical activities following leave of absence.

1. A member of the medical staff who takes a leave of absence for medical reasons has the duty to disclose to his or her chief of clinical department and the medical director any medical leave of absence that may potentially impact his or her ability to discharge his or her clinical and teaching responsibilities. Upon return from a leave of absence for medical reasons the medical staff member must demonstrate his or her ability to exercise his or her clinical privileges upon return to clinical activity. The credentials committee, the medical director, the chief of the clinical service or the medical staff administrative committee shall have the authority to require any documentation, including advice and consultation from the committee for licensed independent practitioner health that might have a bearing on the medical staff member’s ability to carry out the clinical and educational responsibilities for which the medical staff member is seeking privileges. Such leave of absence shall be granted at the discretion of the chief of the clinical service and the chief medical officer. Such leave shall not extend beyond the term of the member’s current appointment. A member of the medical staff who is experiencing health problems that may impair his or her ability to care for patients has the duty to disclose such impairment to his or her chief of clinical department and the chief medical officer and the member shall be placed on immediate medical leave of absence until such time the member can demonstrate to the satisfaction of the chief medical officer that the impairment has been sufficiently resolved and can request for reinstatement of clinical activities. During any leave of absence, the member shall not exercise his or her clinical privileges, and medical staff responsibilities and prerogatives shall be inactive.

2. The member must submit a written request for the reinstatement of clinical privileges to the chief of the clinical service. The chief of the clinical service shall forward his recommendation to the credentialing committee which, after review and consideration of all relevant information, shall forward its recommendation to the medical staff administrative committee and professional affairs committee of the medical center board. The credentials committee, the chief medical officer, the chief of the clinical service or the medical staff administrative committee shall have the authority to require any documentation, including advice and consultation from the member’s treating physician or the committee for licensed independent practitioner health that might have a bearing on the medical staff member’s ability to carry out the clinical and educational responsibilities for which the medical staff is seeking privileges. Upon return from a leave of absence for medical reasons the medical staff member must demonstrate his or her ability to exercise his or her clinical privileges upon return to clinical activity.

2)(3) All members of the medical staff who take a leave of absence for medical or non-medical reasons must be in good standing on the medical staff upon resumption of clinical activities. The member shall be granted leave of absence in excess of his or her current appointment and the usual procedures for appointment and reappointment, including deadlines for submission of application as set forth in this rule, will apply irrespective of the nature of the leave.
Absence extending beyond his or her current term or failure to request reinstatement of clinical privileges shall be deemed a voluntary resignation from the medical staff, and in such event, the member shall not be entitled to a hearing or appeal.

3335-43-05 Peer review and corrective action.

(A) Informal peer review.

All medical staff members agree to cooperate in informal peer review activities that are solely intended to improve the quality of medical care provided to patients at the Ohio state university hospitals. Information indicating a need for informal review, including patient complaints, disagreements, questions of clinical competence, inappropriate conduct and variations in clinical practice identified by the clinical departments or divisions and medical staff committees shall be referred to the chair of the practitioner evaluation committee. The practitioner evaluation committee chair or his or her designee will consult with the affected medical staff member and obtain information or opinions from knowledgeable persons within the medical center as well as external peer review consultants pursuant to criteria outlined in these bylaws. Following the assessment by the practitioner evaluation committee chair or his or her designee, the practitioner evaluation committee may make recommendations for educational actions of additional training, sharing of comparative data or monitoring or provide other forms of guidance to the medical staff member to assist him or her in improving the quality of patient care. Such actions are not regarded as adverse, do not require reporting to any governmental or other agency, and do not invoke a right to any hearing. At the conclusion of the evaluation, the practitioner evaluation committee chair or his or her designee submits a report to the applicable clinical department chief, who shall consult and the chief medical director officer. The chief of the clinical department and the chief medical director shall evaluate the matter to determine the appropriate course of action. They may, as they deem necessary, consult with the affected medical staff member or obtain information or opinions from knowledgeable persons within the medical center as well as outside consultants. At the conclusion of their evaluation, the chief of the clinical department and the medical director shall make an initial written determination on whether:

(1) The matter warrants no further action;

(2) Informal resolution under this paragraph is appropriate. The chief of the clinical department and the chief medical officer shall determine whether to include documentation of the informal resolution in the medical staff member’s file. If documentation is included in the member’s file, the affected member shall have an opportunity to review it and may make a written response which shall also be placed in the file. Informal review under this paragraph is not a procedural prerequisite to the initiation of formal peer review under paragraph (B) of this rule; or

(3) Formal peer review under paragraph (B) of this rule is warranted.

In cases where the chief of the clinical department and chief medical director officer cannot agree on the need for formal peer review, the matter shall be submitted for formal peer review and determined as set forth in paragraph (B) of this rule.

If the chief of the clinical department and the medical director determine that informal resolution is appropriate, they may consult with the
medical staff member, make recommendations for educational actions of additional training, sharing of comparative data or monitoring, issue informal letters of warning or provide other forms of guidance to the medical staff member to assist him or her in improving the quality of patient care. Such actions are not regarded as adverse, do not require reporting to any governmental or other agency, and do not invoke a right to any hearing. The chief of the clinical department and the medical director shall determine whether it is appropriate to include documentation of such actions in the medical staff member's file. If documentation is included in the member's file, the affected member shall have an opportunity to review it and may make a written response which shall also be placed in the file. Informal review under this paragraph is not a procedural prerequisite to the initiation of formal peer review under paragraph (B) of this rule.

(B) Formal peer review.

(1) Formal peer review may be initiated when a member of the medical staff of the Ohio state university hospitals:

(a) through (f) no change.

Formal peer review may be initiated by a chief of a clinical department, the chief medical director officer, any member of the medical staff, the chief executive officer of the Ohio state university hospitals, the dean of the college of medicine, any member of the board of the Ohio state university hospitals, or the vice president for health services. All requests for formal peer review shall be in writing, shall be submitted to the medical director, and shall specifically state the conduct or activities which constitute grounds for the requested action.

(2) The chief medical director officer shall promptly deliver a written copy of the request for formal peer review to the affected member of the medical staff, in a confidential manner. The chief medical director officer shall then conduct a preliminary review to verify the facts related to the request for formal peer review, and within thirty days, make a written determination. If the chief medical director officer decides that no further action is warranted, the chief medical director officer shall notify the person(s) who filed the request for formal peer review and the member accused, in writing, that no further action will be taken.

(3) Whenever the chief medical director officer determines that formal peer review is warranted, he or she shall refer the request for formal peer review to the formal peer review committee. The affected member of the medical staff shall be notified of the referral to the formal peer review committee, and be informed that these medical staff bylaws shall govern all further proceedings.

(4) The senior vice president for health sciences or designee shall exercise any or all duties or responsibilities assigned to the chief medical director officer under these rules for implementing corrective action and appellate procedure if:

(a) The chief medical director officer is the medical staff member charged;

(b) The chief medical director officer has a financial interest or a relationship with any person that may have an improper effect
on the exercise of his or her judgment in the matter, or may be perceived to have such an effect.

(5) no change.

(6) Upon receipt of the written report and recommendation from the formal peer review committee, the chief of the clinical department shall, within seven days, make his or her own written recommendation for corrective action and forward that recommendation along with the findings and recommendations of the formal peer review committee to the chief medical director officer.

(7) The chief medical director officer shall have ten days to decide whether to accept, reject or modify the recommendation of the chief of the clinical department. If the chief medical director officer decides the grounds are not substantiated, the chief medical director officer will notify the formal peer review committee, the chief of the clinical department, the person(s) who filed the complaint and the affected medical staff member, in writing, that no further action will be taken.

If the chief medical director officer finds the grounds for the requested corrective action are substantiated, the chief medical director officer shall promptly notify the affected medical staff member of that decision and the corrective action that will be taken. This notice shall advise the affected medical staff member of his or her right to request a hearing before the medical staff administrative committee pursuant to rule 3335-43-06 of the Administrative Code and shall also include a statement that failure to request a hearing in the timeframe prescribed in this rule shall constitute a waiver of rights to a hearing and to an appeal on the matter and the affected medical staff member shall also be given a copy of the rule 3335-43-06 of the Administrative Code. This notification and an opportunity to exhaust the administrative hearing and appeal process shall occur prior to the imposition of the proposed corrective action unless the emergency provisions outlined in paragraph (D) of this rule apply. This written notice by the chief medical director officer shall be sent certified return receipt mail to the affected medical staff member's last known address as determined by university records.

(8) If the affected member of the medical staff does not make a written request for a hearing to the chief medical director officer within thirty-one days after receipt of the adverse decision, he or she shall be deemed to have waived the right to any review by the medical staff administrative committee to which the staff member might otherwise have been entitled on the matter.

(9) no change.

(C) Composition of formal peer review committee.

(1) and (2) no change.

(3) An outside external peer review consultant may serve as a member of the formal peer review committee whenever:

(a) A determination is made by the chief of the clinical department and the chief medical director officer that the clinical expertise needed to conduct the review is not available on the medical staff;
April 8, 2011 meeting, Board of Trustees

(b) The objectivity of the review may be compromised; or

(c) Whenever the chief medical director officer determines that an outside review is otherwise advisable.

If an outside reviewer is recommended, the chief of the clinical department shall make a written recommendation to the chief medical director officer for selection of an outside reviewer. The chief medical director officer shall make the final selection of an outside reviewer.

(D) Summary suspension.

(1) Notwithstanding the provisions of this rule, a member of the medical staff shall have all or any portion of his or her clinical privileges suspended or appointment terminated by the chief medical director officer or the chief of the member's clinical department whenever such action must be taken immediately in the best interest of patient care when there is imminent danger to patients or to the patient care operations. Such summary suspension shall become effective immediately upon imposition and the medical staff member shall be subsequently notified in writing of the suspension by the chief medical director officer. Such notice shall be issued by certified return mail to the affected medical staff member's last known address as determined by university records.

(2) A medical staff member whose privileges have been summarily suspended or whose appointment has been terminated shall be entitled to a hearing and appeal of the suspension pursuant to rule 3335-43-06 of the Administrative Code. If the affected member of the medical staff does not make a written request for a hearing to the chief medical director officer within thirty-one days after receipt of the adverse decision, it shall be deemed a waiver of the right to any review by the medical staff administrative committee to which the staff member might otherwise have been entitled on the matter. If a timely, written request for a hearing is made, the procedures of rule 3335-43-06 of the Administrative Code shall apply.

(3) Immediately upon the imposition of a summary suspension, the chief medical director officer or the appropriate chief of a clinical department shall have the authority to provide for alternative medical coverage for the patients of the suspended medical staff member who remain in the Ohio state university hospitals at the time of suspension. The wishes of the patient shall be considered in the selection of such alternative medical coverage. While a summary suspension is in effect, the member of the medical staff is ineligible for reappointment to the medical staff. Medical staff and hospital administrative duties and prerogatives are suspended during the summary suspension.

(E) Automatic suspension.

(1) Notwithstanding the provisions of this rule, a temporary suspension in the form of withdrawal lapse of a medical staff member's admitting privileges, effective until medical records are completed, may be imposed automatically by the chief medical director officer after a warning, in writing, of delinquency for failure to complete medical records as defined by the rules and regulations of the medical staff. The chief medical director officer shall notify the chief executive officer of the Ohio state university hospitals of the action taken.
(F) Reporting responsibility.

When a decision on corrective action is taken which constitutes a “formal disciplinary action” as may be defined in Ohio state law, or as may be required to be reported pursuant to federal law, including the health care quality improvement act, the chief medical director officer shall ensure that a report of said action is made in order to maintain compliance with applicable state or federal law or regulations. The chief medical director officer shall ensure that such reports are amended as may be required to reflect subsequent actions taken under the hearing and appeal rights afforded in these bylaws.

When applicable, any recommendations or actions that are the result of a review or hearing and appeal shall be monitored by the chief medical director officer on an ongoing basis through the Ohio state university hospitals' quality management activities.

3335-43-06 Hearing and appeal process.

A Right to hearing and to an appeal.

(1) and (2) no change.

B Request for hearing.

(1) The request for a hearing shall be submitted in writing by the affected medical staff member to the chief medical director officer within thirty-one days of notification by the chief medical director officer of the intended action. The chief medical director officer shall forward the request to the medical staff administrative committee along with instructions to convene a hearing.

(2) The failure of a medical staff member to request a hearing, to which the member is entitled by these bylaws within the time and in the manner herein provided, shall be deemed a waiver of the right to any review by the medical staff administrative committee. The chief medical director officer shall then implement the decision and that action shall become and remain effective against the medical staff member in the same manner as a final decision of the Ohio state medical center board as provided for in paragraph (F) of rule 3335-43-05 of the Administrative Code. The chief medical director officer shall promptly inform the affected medical staff member that the proposed decision, which had entitled the medical staff member to a hearing, has now become final.

C Notice of hearing.

(1) After receipt of a timely request for hearing by the chief medical director officer from a medical staff member entitled to such hearing, the medical staff administrative committee shall be notified of the request for hearing by the chief medical director officer and shall at the next scheduled meeting take the following action:

(a) Instruct the chief medical director officer and chief of staff to jointly appoint within seven days a hearing committee, consisting of five members of the medical staff who are not members of the medical staff administrative committee, are not direct competitors, do not have a conflict of interest, and who
have not previously participated in the formal peer review of the matter under consideration.

(b) Instruct the hearing committee to schedule and arrange for a hearing which hearing, or initial hearing, should more than one hearing be required, shall be conducted not less than thirty days nor more than sixty days from the date of the receipt of the request for hearing by the chief medical director officer; provided, however, that a hearing for a medical staff member who is under suspension, which is then in effect, shall be held as soon as arrangements may be reasonably made.

(2) no change.

(D) Conduct of hearing.

(1) The hearing committee shall select a chairperson from the committee to preside over the hearing. The chairperson may require a representative for the individual and for the medical staff administrative committee (or the medical center board) to participate in a pre-hearing conference. At the pre-hearing conference, the chairperson shall resolve all procedural questions, including any objections to exhibits or witnesses, the role of legal counsel, and determine the time to be allotted to each witness’s testimony and cross-examination. The hearing committee shall have benefit of Ohio state university legal counsel. The hearing committee may grant continuances, recesses, and the chairperson may excuse a member of the hearing committee from attendance temporarily for good cause, provided that there shall be at no time less than four members of the hearing committee present unless the affected staff member waives this requirement.

All members of the hearing committee must be present to deliberate and vote. No member may vote by proxy. The person who has taken action from which the affected staff member has requested the hearing shall not participate in the deliberation or voting of the hearing committee. The hearing shall be a de novo hearing, although evidence of the prior recommendations and decisions may be presented.

(2) through (8) no change.

(9) The medical staff administrative committee shall submit a written report, including its recommendation to the chairperson of the medical center board within fourteen days of the final vote by the medical staff administrative committee. An adverse action which must be reported to the state medical board or the federal government, including the national practitioner data bank, shall entitle an affected medical staff member to the procedures of this rule. The affected member of the medical staff shall be notified of the decision of the medical staff administrative committee by the chief medical director officer.

(10) no change.

(11) The recommendation of the professional affairs committee shall be promptly considered by the medical center board, at its next scheduled meeting. The medical center board, or the executive committee of the university hospitals board, may accept, reject, or modify the recommendation of the professional affairs committee. The medical center board may remand the matter back to the medical staff administrative committee for further action as directed.

657
April 8, 2011 meeting, Board of Trustees

(12) no change.

(E) Appeal process.

(1) through (6) no change.

(7) Any final decision by the medical center board shall be communicated by the chief medical director officer and by certified return receipt mail to the affected medical staff member at that member's last known address as determined by university records. The chief medical director officer shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief executive officer of the Ohio state university hospitals and the vice president for health services, chief of staff, the chief of the clinical department, and the person(s) who initiated the request for formal peer review. The chief medical director officer shall take immediate steps to implement the final decision.

3335-43-07 Categories of the medical staff.

The medical staff of the Ohio state university hospitals shall be divided into six categories: physician scholar medical staff; attending medical staff; courtesy A medical staff; courtesy B medical staff; community affiliate medical staff; and limited staff. Medical staff members who do not wish to obtain any clinical privileges shall be exempt from the requirements of medical malpractice liability insurance, DEA registration and demonstration of recent active clinical practice during the last two years, but are otherwise subject to the provisions of these bylaws.

(A) Physician scholar medical staff.

(1) Qualifications: The physician scholar medical staff shall be composed of those faculty members of the colleges of medicine and dentistry who are recognized for outstanding reputation, notable scientific and professional contributions, and high professional stature. This medical staff category includes but is not limited to emeritus faculty members. Nominations may be made to the medical director chair of the credentialing committee who shall present the candidate to the medical staff administrative committee for approval.

(2) no change.

(B) no change

(C) Courtesy A medical staff.

(1) no change.

(2) Prerogatives:

The courtesy A medical staff may:

(a) Exercise such clinical privileges as are granted pursuant to these bylaws.

(b) Admit, consistent with their clinical privileges, patients who complement the clinical teaching program. At times when inpatient beds at the Ohio state university hospitals or other resources are in short supply, patient admissions of courtesy A medical staff may proceed with the approval of the chief medical director officer.
medical staff shall be subordinate to those of attending medical staff.

(c) no change.

(3) no change.

(D) Courtesy B medical staff.

(1) Qualifications: The courtesy B medical staff shall consist of those faculty members of the colleges of medicine and dentistry who do not qualify for attending medical staff appointment. This category is comprised of referring physicians who desire to be associated with the Ohio state university hospitals to refer and follow patients. Courtesy B medical staff members shall not possess clinical privileges, shall not be eligible to vote on medical staff policies, rules and regulations, or bylaws, and shall not be eligible to hold office.

(2) and (3) no change.

(E) Limited staff.

Limited staff are not considered full members of the medical staff, do not have delineated clinical privileges and do not have the right to vote in general medical staff elections. Except where expressly stated, members of the limited staff are bound by the terms of these bylaws, the rules and regulations of the medical staff, and the limited staff agreement.

(1) Qualifications:

(a) through (c) no change.

(2) Responsibilities:

Each member of the limited staff shall:

(a) Through (f) no change.

(3) No change.

(4) Temporary appointments.

(a) Limited staff members who are Ohio state university faculty may be granted an early commencement or an extension of appointment upon the recommendation of the chief of the clinical department, with prior concurrence of the medical director associate dean for graduate medical education, when it is necessary for the limited staff member to begin his or her training program prior to or extend his or her training program beyond a regular appointment period. These appointments shall not exceed sixty days.

(b) no change.

(5) No change.
April 8, 2011 meeting, Board of Trustees

(F) Community affiliate medical staff.

This is a closed medical staff category that was created as a onetime grandfathering category for medical staff members of the Ohio state university hospitals east prior to July 1, 2007.

(1) Qualifications: Community affiliate medical staff shall consist of those doctors of medicine, osteopathic medicine, dentists and practitioners of podiatry or psychology who:

(a) Do not qualify for an attending medical staff appointment; and

(b) Are either current members of the Ohio state university hospitals east medical staff or community affiliate members seeking reappointment; and

(c) Satisfy the requirements and qualifications set forth in rule 3335-43-04 of the Administrative Code and are already appointed to the community affiliate medical staff pursuant to these bylaws.

A community affiliate medical staff member shall meet and maintain the same standards for quality patient care applicable to all members of the medical staff. Community affiliate medical staff members shall be subject to these bylaws and the rules and regulations of the medical staff except as provided in this paragraph. The community affiliate medical staff member shall not be required to obtain appointment to the faculty of the Ohio state university. The community affiliate medical staff member shall not be subject to the requirement for board certification within the community affiliate medical staff member's respective area of practice if that requirement was waived when he or she became a member of the Ohio state university east medical staff. Teaching and research accomplishments shall not be required in determining the qualifications of applicants to this category of the medical staff.

To optimize the clinical organization, resource utilization, and planning of the hospitals, the chief of the clinical department may require that the applicant for community affiliate medical staff membership to identify categories of diagnosis, extent of anticipated patient activity, and service areas to be utilized and may prepare a statement of participation for the applicant which will be made a part of the application for appointment.

(2) Prerogatives:

A community affiliate medical staff member may:

(a) Admit patients consistent with the limitations of bed and service allocations established by the medical director and approved by the medical staff administrative committee, and the medical center board. At times when inpatient beds or other resources are in short supply, patient admissions of community affiliate medical staff shall be subordinate to those of attending medical staff. If, in the judgment of the medical director, a balanced teaching program is jeopardized, following consultation with the chief of the clinical department, and with the concurrence of a majority of the medical staff administrative committee, the medical director may restrict admissions of members of the
community affiliate medical staff. Patients admitted under the care of the community affiliate medical staff will not be required to participate in the educational mission of the Ohio state university hospitals. Ordinarily, no coverage by the limited medical staff will be afforded, with the exception of emergency medical services.

(b) and (c) no change.

(3) Responsibilities:

Each member of the community affiliate medical staff shall:

(a) and (b) no change.

(c) Not be eligible to vote on medical staff policies, rules and regulations, or bylaws or to hold office. The community affiliate medical staff member may vote for and be eligible to hold the position on the medical staff administrative committee reserved for the representative of the courtesy A and community affiliate medical staff as set forth in paragraph (D) of rule 3335-43-09 and paragraph (C) of rule 3335-43-10 of the Administrative Code. Members of the community affiliate medical staff may serve on non-elected medical staff committees as provided by these bylaws.

(d) no change.

(G) Clinical privileges.

(1) Delineation of clinical privileges:

(a) Every person practicing at the Ohio state university hospitals by virtue of medical staff membership, faculty appointment, contract or under authority granted in these bylaws shall, in connection with such practice, be entitled to exercise only those clinical privileges specifically applied for and granted to the staff member or other licensed health care professional by the Ohio state medical center board after recommendation from the medical staff administrative committee.

Each clinical department shall develop specific clinical criteria and standards for the evaluation of clinical privileges with emphasis on invasive or therapeutic procedures or treatment which present significant risk to the patient or for which specific professional training or experience is required. Such criteria and standards are subject to the approval of the medical staff administrative committee and the medical center board.

(b) no change.

(c) The chief of the clinical department shall review each applicant's request for clinical privileges and shall make a recommendation regarding clinical privileges to the chief medical director officer. Requests for clinical privileges shall be evaluated based upon the applicant's education, training, experience, demonstrated competence, references, and other relevant information, including the direct observation and review of records of the applicant's performance by the clinical department in which the
clinical privileges are exercised. Whenever possible the review should be of primary source information. The applicant shall have the burden of establishing the applicant’s qualifications and competency in clinical privileges requested and shall have the burden of production of adequate information for the proper evaluation of qualifications.

(d) no change.

(e) Medical staff members who are granted new or initial privileges are subject to FPPE, which is a six-month period of focused monitoring and evaluation of practitioners.

(f) Upon resignation, termination or expiration of the medical staff member’s faculty appointment or employment with the university for any reason, such medical staff appointment and clinical privileges of the medical staff member shall automatically expire.

(g) Medical staff members authorize the Ohio state university hospitals and clinics to share credentialing, quality and peer review information pertaining to the medical staff member’s clinical competence and/or professional conduct. Such information may be shared at initial appointment and/or reappointment and at any time during the medical staff member’s medical staff appointment to the medical staff of the Ohio state university hospitals.

(h) Medical staff members authorize the Ohio state university hospitals to release information, in good faith and without malice, to managed care organizations, regulating agencies, accreditation bodies and other health care entities for the purpose of evaluating the medical staff member’s qualifications pursuant to a request for appointment, clinical privileges, participation or other credentialing or quality matters.

(2) Temporary privileges:

(a) Temporary privileges may be extended to a doctor of medicine, osteopathic medicine, dental surgery, psychologist, podiatry or to a licensed health care professional upon completion of an application prescribed by the medical staff administrative committee, upon recommendation of the chief of the clinical department, and approval by the chief medical director officer. The chief medical director officer, acting as a member and on behalf of the medical center board, has been delegated responsibility by the medical center board to grant approval of temporary privileges. The temporary privileges granted shall be consistent with the applicant's training and experience and with clinical department guidelines. Prior to granting temporary privileges, primary source verification of licensure and current competence shall be required. Temporary privileges shall be limited to situations which fulfill an important patient-care need, and shall not be granted for a period of more than ninety (90) days.

(b) Temporary privileges may be extended to visiting medical faculty or for special activity as provided by the Ohio state medical or dental board.
April 8, 2011 meeting, Board of Trustees

(c) Temporary privileges granted for locum tenens may be exercised for a maximum of ninety (90) days, consecutive or not, any time during the twenty-four (24) month period following the date they are granted.

(d) Practitioners granted temporary privileges will be restricted to the specific delineations for which the temporary privileges are granted. The practitioner will be under the supervision of the chair of the clinical department while exercising any temporary privileges granted.

(e) Special privileges. Upon receipt of a written request for specific temporary privileges and the approval of the clinical department chief and the chief medical officer, an appropriately licensed practitioner of documented competence, who is not an applicant for medical staff membership may be granted special privileges for the care of one or more specific patients. Such privileges shall be exercised in accordance with the conditions specified in these bylaws.

(f) Practitioners exercising temporary privileges shall abide by these medical staff bylaws, rules and regulations, and hospital and medical staff policies.

(g) The temporary and special privileges must be in conformity with accrediting bodies’ standards and the rules and regulations of the professional boards of Ohio.

(3) Expedited privileges.

If the medical center board is not scheduled to convene in a timeframe that permits the timely consideration of the recommendation of a complete application by the medical staff administrative committee, applicants may be granted expedited privileges by a subcommittee of the professional affairs committee of the medical center board consisting of two voting members of the board, the medical director and the chief of staff pursuant to medical staff policy and the medical center board resolution. Certain restrictions apply to the appointment and granting of clinical privileges via the expedited process. These include but are not limited to: an involuntary termination of medical staff membership at another hospital, involuntary termination of medical staff membership at another hospital, involuntary limitation, or reduction, denial or loss of clinical privileges, a history of professional liability actions resulting in a final judgement against the applicant or a challenge by a state licensing board.

(4) Podiatric privileges:

(a) through (d) no change.

(5) Psychology privileges.

(a) through (c) no change.

(6) Dental privileges.

(a) through (c) no change.

(7) Oral and maxillofacial surgical privileges.
All patients admitted to the Ohio state university hospitals for oral and maxillofacial surgical care shall receive the same medical appraisal as all other hospitalized patients. Qualified oral and maxillofacial surgeons shall admit patients, shall be responsible for the plan of care for the patients, shall perform the medical history and physical examination, if they have such privileges, in order to assess the medical, surgical, and anesthetic risks of the proposed operative and other procedure(s), and shall be responsible for the medical care that may be required at the time of admission or that may arise during hospitalization.

(8) Other licensed health care professionals.

(a) Clinical privileges may be exercised by licensed health care professionals who are duly licensed in the state of Ohio, and who are either:

(i) Members of the faculty of the Ohio state university, or

(ii) Employees of the Ohio state university whose employment involves the exercise of clinical privileges, or

(iii) Employees or members of the medical staff.

(b) A licensed health care professional as used herein, shall not be eligible for medical staff membership but shall be eligible to exercise those clinical privileges granted pursuant to these bylaws and in accordance with applicable Ohio state law. If granted such privileges under this rule and in accordance with applicable Ohio state law, other licensed health care professionals may perform all or part of the medical history and physical examination of a patient. Licensed health care professionals with privileges are subject to FPPO and OPPE.

(c) Licensed health care professionals shall apply and re-apply for clinical privileges on forms prescribed by the medical staff administrative committee and shall be processed in the same manner as provided in rule 3335-43-04 of the Administrative Code subject to the provisions of paragraph (G)(8) of this rule.

(d) Licensed health care professionals are not members of the medical staff, shall have no authority to admit or co-admit patients to the Ohio state university hospitals, and shall not be eligible to hold office, to vote on medical staff affairs, or to serve on standing committees of the medical staff unless specifically authorized by the medical staff administrative committee.

(e) Each licensed health care professional shall be individually assigned to a clinical department and shall be sponsored by one or more members of the medical staff. The licensed health care professional’s clinical privileges are contingent upon the sponsoring medical staff member’s privileges. In the event that the sponsoring medical staff member loses privileges or resigns, the licensed health care professionals whom he or she has sponsored shall be placed on administrative hold until another sponsoring medical staff member is assigned. The new sponsoring medical staff member must be assigned in less than thirty days.
Licensed health care professionals must comply with all limitations and restrictions imposed by their respective licenses, certifications, or legal credentials as required by Ohio law, and may only exercise those clinical privileges granted in accordance with provisions relating to their respective professions.

Only applicants who can document the following shall be qualified for clinical privileges as a licensed health care professional:

(i) Current license, certification, or other legal credential required by Ohio law.

(ii) Certificate of authority, standard care agreement, or utilization plan.

(iii) Education, training, professional background and experience, and professional competence.

(iv) Patient care quality indicators definition for initial appointment. This data will be in a format determined by the licensed health care professional subcommittee and the quality management department.

(v) Adherence to the ethics of the profession for which an individual holds a license, certification, or other legal credential required by Ohio law.

(vi) Evidence of required immunization.

(vii) Evidence of good personal and professional reputation as established by peer recommendations.

(viii) Satisfactory physical and mental health to perform requested clinical privileges.

(x) Ability to work with members of the medical staff and the Ohio state university hospitals employees.

The applicant shall have the burden to produce documentation with sufficient adequacy to assure the medical staff and the Ohio state university hospitals that any patient cared for by the licensed health care professional seeking clinical privileges shall be given quality care, and that the efficient operation of the Ohio state university hospitals will not be disrupted by the applicant’s care of patients in the Ohio state university hospitals.

By applying for clinical privileges as a licensed health care professional, the applicant agrees to the following terms and conditions:

(i) The applicant has read the bylaws and rules and regulations of the medical staff of the Ohio state university hospitals and agrees to abide by all applicable terms of such bylaws and any applicable rules and regulations, including any subsequent amendments thereto, and any applicable Ohio state university.
hospitals policies that the Ohio state university hospitals may from time to time put into effect.

(ii) The applicant releases from liability all individuals and organizations who provide information to the Ohio state university hospitals regarding the applicant and all members of the medical staff, the Ohio state university hospitals staff, the Ohio state medical center board and the Ohio state university board of trustees for all acts in connection with investigating and evaluating the applicant.

(iii) The applicant shall not deceive a patient as to the identity of any practitioner providing treatment or service in the Ohio state university hospitals.

(iv) The applicant shall not make any statement or take any action that might cause a patient to believe that the licensed health care professional is a member of the medical staff.

(v) The applicant shall not perform any patient care in the Ohio state university hospitals that is not permitted under the applicant's license, certification, or other legal credential required under Ohio law.

(vi) The applicant shall obtain and continue to maintain professional liability insurance in such amounts required by the medical staff.

(j) Licensed health care professionals shall be subject to quality review and corrective action as outlined in this paragraph for violation of these bylaws, their certificate of authority, standard of care agreement, utilization plan, or the provisions of their licensure, including professional ethics. Corrective action Review may be requested by any member of the medical staff, a chief of the clinical department, or by the medical director chief quality officer or his or her designee. All requests shall be in writing and shall be submitted to the medical director chief quality officer. The medical director chief quality officer shall appoint a three-person committee to review and make recommendations concerning appropriate corrective action. The committee shall consist of at least one licensed health care professional and one medical staff member. The committee shall make a written recommendation to the medical director chief quality officer, who may accept, reject, or modify the recommendation. The chief quality officer forwards his or her recommendation to the chief medical officer for final determination.

(k) Appeal process.

(l) A licensed health care professional may submit a notice of appeal to the chairperson of the Ohio state medical center —board professional affairs committee within fourteen days of receipt of written notice of any adverse corrective action pursuant to paragraph (E)(6)(j) of this rule these bylaws.
(ii) If an appeal is not so requested within the fourteen-day period, the licensed health care professional shall be deemed to have waived the right to appeal and to have conclusively accepted the decision of the chief medical director officer.

(iii) The appellate review shall be conducted on the record by the professional affairs committee of the Ohio state medical center board the chief of staff, the chair of the licensed health care professionals subcommittee and one medical staff member from the same discipline as the licensed health care professional under review. The licensed health care professional under review shall have the opportunity to present any additional information deemed relevant to the review and appeal of the decision.

(iv) The affected licensed health care professional shall have access to the reports and records, including transcripts, if any, of the hearing committee and of the medical staff administrative committee and all other material, favorable or unfavorable, that has been considered by the medical director chief quality officer. The licensed health care professional shall submit a written statement indicating those factual and procedural matters with which the member disagrees, specifying the reasons for such disagreement. This written statement may cover any matters raised at any step in the procedure to which the appeal is related, and legal counsel may assist in its preparation. Such written statement shall be submitted to the professional affairs review committee no later than seven days following the date of the licensed health care professional’s notice of appeal.

(v) New or additional matters shall only be considered on appeal at the sole discretion of the professional affairs committee.

(vi) Within thirty days following submission of the written statement by the licensed health care professional, the professional affairs committee the chief of staff shall make a final recommendation to the chair of the professional affairs committee of the medical center board. The professional affairs committee of the medical center board shall determine whether the adverse decision will stand or be modified and shall recommend to the Ohio state medical center board executive committee that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical director review committee for further review and recommendation. Such referral to the medical director review committee may include a request for further investigation.

(vii) Any final decision by the medical center board shall be communicated by the medical director chief quality officer and by certified return receipt mail to the last known address of the licensed health care professional as determined by university records. The medical
director chief quality officer shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief executive officer of the Ohio state university hospitals and the vice president for health services and the chief of the applicable clinical department or departments. The medical director chief medical officer shall take immediate steps to implement the final decision.

(i) A medical staff member may employ or utilize the services of a non-licensed health care professional, professional assistant in the administration of patient care if this assistant has a defined job description, has received credentials review and approval by the appropriate hospital reviewing body, and is operating within existing standards, policies, and procedures of the Ohio state university hospitals. The medical staff member shall be responsible for all patient care activities performed on the medical staff member’s behalf.

(9) Emergency privileges.

In case of an emergency, any member of the medical staff to the degree permitted by the member’s license and regardless of department or medical staff status shall be permitted to do everything possible to save the life of a patient using every facility of the Ohio state university hospitals necessary, including the calling for any consultation necessary or desirable. After the emergency situation resolves, the patient shall be assigned to an appropriate member of the medical staff. For the purposes of this paragraph, an “emergency” is defined as a condition which would result in serious permanent harm to a patient or in which the life of a patient is in immediate danger and any delay in administering treatment would add to that danger.

(10) Disaster privileges.

Disaster privileges may be granted in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy and only when the following two conditions are present: the emergency management plan has been activated and the hospital is unable to meet immediate patient needs. Such privileges may be granted by the chief medical director officer or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff. These privileges will be limited in scope and will terminate once the disaster situation subsides or at the discretion of the chief medical director officer.

(11) Telemedicine.

Telemedicine involves the use of electronic communication or other communication technologies to provide or support clinical care at a distance. Diagnosis and treatment of a patient may now be performed via telemedicine link.

(a) A member of the medical staff who wants to render care via telemedicine must so indicate on his or her application for clinical privileges.

(b) Generally, a member of the medical staff will be entitled to may request to exercise via telemedicine the same clinical
privileges via telemedicine for which he or she has already been granted privileges. The credentials committee, the chief of the clinical service, the chief medical director officer, or the medical staff administrative committee and the medical center board shall have the prerogative of requiring documentation or making a determination of the appropriateness for the exercise of a particular specialty/sub-specialty via telemedicine.

3335-43-08 Organization of the medical staff.

(A) Each member of the attending medical, courtesy A and B medical, community affiliate medical, limited, and physician scholar medical staff shall be assigned to a clinical department and division, if applicable, upon the recommendation of the applicable chief of the clinical department.

(B) Names of clinical departments and divisions.

1. Anesthesiology
2. Emergency medicine
3. Family medicine
4. Sports medicine
5. Internal medicine. The following divisions are designated:
   - Cardiovascular medicine
   - Dermatology
   - Endocrinology, diabetes and metabolism
   - Gastroenterology, hepatology and nutrition
   - General internal medicine and geriatrics
   - Hematology
   - Hospital medicine
   - Human genetics
   - Infectious diseases
   - Medical oncology
   - Nephrology
   - Pulmonary, allergy, critical care and sleep medicine
   - Rheumatology - immunology
6. Neurological surgery
7. Neurology
   - Cognitive neurology
   - Electrodiagnostics
   - Epilepsy
   - General neurology
   - Multiple sclerosis and neuroimmunology
   - Neuromuscular disease
   - Neurooncology
   - Sleep
   - Stroke
8. Obstetrics and gynecology. The following divisions are designated:
   - General obstetrics and gynecology
April 8, 2011 meeting, Board of Trustees

Maternal - fetal medicine
Female pelvic medicine and reconstructive surgery
Gynecologic oncology
Reproductive endocrinology and infertility

(8) Ophthalmology

(9) Orthopaedics

Podiatry
Sports medicine

(10) Otorhinolaryngology

(11) Pathology. The following divisions are designated:

Anatomic pathology
Clinical pathology

(12) Pediatrics. The following divisions are designated:

Ambulatory pediatrics
Adolescent medicine
Allergy
Biochemical disorders
Cardiology
Clinical genetics
Dermatology
Endocrinology/metabolism
Gastroenterology
General pediatrics
Handicapped child
Hematology/oncology
Infectious diseases
Neonatology
Nephrology
Neurology
Nutrition
Pediatric education/research and evaluation
Pharmacology/toxicology
Psychology
Pulmonary

(13) Physical medicine and rehabilitation. The following division is designated:

Pediatric physical medicine and rehabilitation
Rehabilitation psychology

(14) Plastic surgery

(15) Psychiatry. The following divisions are designated:

General psychiatry
Child psychiatry
Geriatric psychiatry
Health psychology
April 8, 2011 meeting, Board of Trustees

(45) Radiation oncology.

Pediatric radiation oncology

(46) Radiology. The following divisions are designated:

- Diagnostic radiology
- Nuclear medicine

(47) Surgery. The following divisions are designated:

- Cardiac surgery
- General and gastrointestinal surgery
- Pediatric surgery
- Plastic surgery
- Surgical oncology
- Thoracic and cardiovascular surgery
- Transplant
- Trauma, critical care and burn
- Vascular diseases and surgery

(48) Urology.

(49) Dentistry. The following divisions are designated:

- General dentistry
- Oral and maxillofacial surgery

(C) The directors of the divisions in the Ohio state university hospitals shall be appointed by the chiefs of the clinical departments in the Ohio state university hospitals in which the divisions are included. Clinical divisions may be added or deleted upon the recommendation of the chief of the clinical department with the concurrence of a majority of the medical staff administrative committee.

(D) Qualifications and responsibilities of the chief of the clinical department.

The academic department chairperson shall ordinarily serve also as the chief of the clinical department. Each chief of the clinical department shall be qualified by education and experience appropriate to the discharge of the responsibilities of the position. Each chief of the clinical department must be board certified by an appropriate specialty board or must establish comparable competence. The chief of the clinical department must be a medical staff member at the Ohio state university hospitals. Such qualifications shall be judged by the respective dean of the college of medicine or dentistry. Qualifications for chief of the clinical department generally shall include: recognized clinical competence, sound judgment and well-developed administrative skills.

(1) Procedure for appointment and reappointment of the chief of the clinical department.

Appointment or reappointment of chief of the clinical department shall be made by the dean of the respective college of medicine or dentistry in consultation with elected representatives of the medical staff and the chief medical director officer.
(2) Term of appointment of the chief of the clinical department.

The term of appointment of the chief of the clinical department shall be concurrent with the chief's academic appointment but shall be no longer than four years. Prior to the end of said four-year term, a review shall be conducted by the dean of the college of medicine and such review shall serve as the basis for the recommendation for reappointment pursuant to paragraph (D)(1) of this rule.

(3) Duties of the chief of the clinical department.

Each chief of the clinical department shall be responsible for the following:

(a) Be accountable for all clinical professional and administrative activities within the clinical department.

(b) Maintain continuing review of the professional performance of all medical staff members and other licensed health care professionals with clinical privileges within the clinical department. Determine the qualifications and competence of all personnel who are not independent practitioners who provide patient care within the clinical department. Provide for the orientation and continuing education of all persons in the clinical department.

(c) Conduct a periodic review, at least every four years, of the clinical performance of each clinical division director.

(d) Make recommendations to the credentials committee regarding the criteria for membership on the medical staff and for the delineation of clinical privileges in the clinical department and continuously review, at least biennially, the clinical privilege delineation form for adjustments to services.

(e) Review the clinical performance including the physical and mental health of all medical staff members and other licensed health care professionals of the clinical department in accordance with these bylaws and make recommendations for appointment and reappointment to the medical staff and for clinical privileges for each medical staff member of the clinical department.

(f) Be responsible for the enforcement within the clinical department of these bylaws, rules and regulations of the Ohio state university hospitals.

(g) Be responsible for the maintenance of quality control programs and assure that the quality and the appropriateness of patient care within the clinical department is continually monitored and evaluated according to the clinical department's and the Ohio state university hospitals' quality criteria.

(h) Make recommendations, at least annually, to the medical director on the space and resource needs of the
clinical department, including off-site space and resources needed for patient care which is not currently available.

(a) Clinically related activities of the department;

(b) Administratively related activities of the department, unless otherwise provided by the hospital;

(c) Continuing surveillance of the professional performance of all practitioners in the department who have delineated clinical privileges;

(d) Recommending to the medical staff the criteria for clinical privileges that are relevant to the care provided in the department;

(e) Recommending clinical privileges for each practitioner of the department based on relevant training and experience, current appraised competence, health status that does not present a risk to patients, and evidence of satisfactory performance with existing privileges;

(f) Assessing and recommending to the relevant hospital authority off-site sources for needed patient care, treatment, and services not provided by the department or the hospital;

(g) The integration of the department or service into the primary functions of the hospital, developing services that complement the medical center's mission and plan for clinical program development.

(h) The coordination and integration of interdepartment and intradepartmental services;

(i) The development and implementation of policies and procedures that guide and support the provision of care, treatment, and services. This includes the development, implementation, enforcement and updating of departmental policies and procedures that are consistent with the hospital's mission. The clinical department chief shall make such policies and procedures available to the medical staff;

(j) The recommendations for a sufficient number of qualified and competent persons to provide care, treatment, and services;

(k) The determination of the qualifications and competence of department or service personnel who are not licensed independent practitioners and who provide patient care, treatment, and services;

(l) The continuous assessment and improvement of the quality of care, treatment, and services;

(m) The maintenance of quality control programs, as appropriate;
(n) The orientation and continuing education of all persons in the department or service;

(o) Recommending space and other resources needed by the department or service; and

(p) Hold monthly clinical department meetings or insure that monthly clinical division meetings are held. In clinical departments with monthly clinical division meetings, the chief of the clinical department must hold clinical department meetings at least quarterly. And ensure open lines of communication are maintained in the clinical department. The agenda for the meetings shall include, but not be limited to, a discussion of the clinical activities of the department and communication of the decisions of the medical staff administrative committee. Minutes of departmental meetings, including a record of attendance, shall be electronically available and/or distributed to all medical staff members in the clinical department, and such minutes shall be kept in the clinical department and the medical director’s office.

(q) Develop and implement policies that guide and support the provision of department services and make recommendations on the proper number of qualified and competent persons needed to provide care within the service needs of the clinical department.

(k) Provide for the integration of the clinical department and its services into the primary functions of the Ohio state university hospitals and coordinate interdepartmental and intradepartmental services.

3335-43-09 Elected officers of the medical staff of the Ohio state university hospitals.

(A) Chief of staff.

The chief of staff shall:

(1) Serve on those committees of the Ohio state medical center board as appointed by the chairperson of that board.

(2) Serve as vice chairperson of the medical staff administrative committee.

(3) Provide for communication between the medical staff and the Ohio state medical center board in matters of quality of care, education, and research.

(4) Serve as liaison between the Ohio state university hospitals administration, medical administration, and the medical staff in all matters of mutual concern within the Ohio state university hospitals. In consultation with the medical director-directors and the chief medical officer, seek to ensure that the medical staff is represented and participates as appropriate in any Ohio state university hospitals deliberation which affects the discharge of medical staff responsibilities.

(5) Call, preside, and be responsible for the agenda of all general medical staff meetings.
April 8, 2011 meeting, Board of Trustees

(6) Make medical staff committee appointments jointly with the medical director(s) and chief of staff-elect in consultation with the chief executive officer of the Ohio state university hospitals and with the approval of the medical center board, with the exception of the members of the medical staff administrative committee and nominating committee.

(7) Fill any vacancy which occurs in the position of courtesy or community affiliate medical staff representative to the medical staff administrative committee.

(8) Be spokesperson for the medical staff in its external professional and public relations.

(9) Be representative to the council of the academy of medicine of the city of Columbus and Franklin county, or select a representative to serve on the council.

(10) Serve as chairperson of the nominating committee of the medical staff.

(B) Chief of staff-elect.

The chief of staff-elect shall:

(1) Serve on those committees of the Ohio state medical center board as appointed by the chairperson of the medical center board.

(2) Serve as chairperson of the nominating committee of the medical staff.

(3) Carry out all the duties of the chief of staff when the chief of staff is unable to do so.

(4) Keep records of all meetings of the medical staff and oversee the inclusion of changes in the bylaws, rules and regulations of the medical staff.

(C) Representatives of the medical staff elected at-large.

(4) There shall be three medical staff representatives elected at-large. Each representative shall be a member of the medical staff administrative committee and shall serve on those committees of the Ohio state medical center board as appointed by the chairperson of the medical center board.

(2) Each representative shall have responsibility for a group of medical staff committees, as defined in the rules and regulations.

(D) Representative of the courtesy A or community affiliate medical staff.

(1) There shall be a member of the courtesy A or community affiliate medical staff, elected solely by courtesy A and community affiliate medical staff members, who shall serve on the medical staff administrative committee as provided by paragraph (C) of rule 3335-43-10 of the Administrative Code.
April 8, 2011 meeting, Board of Trustees

(2) The courtesy A or community affiliate medical staff member representative shall be selected from written or electronic nominations made by members of the courtesy A and community affiliate medical staff. Nominees shall be submitted in writing or electronically to all members of the courtesy A and community affiliate medical staff for voting no later than March first of the election year.

(3) The representative so elected will serve a two-year term beginning July first, and the representative may serve for a total of three successive terms if so elected. Upon completion of three successive terms, a representative may not serve again without a period of two years out of office.

(4) Any vacancy shall be filled from among the membership of the courtesy A and community affiliate medical staff by the chief of staff. The member so appointed shall serve until the next scheduled election, unless removed by a majority vote upon written ballot of the courtesy A medical staff. Grounds for removal shall be the same as referenced in paragraph (E)(6) of this rule.

(5) No other provisions of this rule shall apply to the courtesy A medical staff representative. Members of the courtesy A and the community affiliate medical staff shall not be eligible to vote for or hold other elected office in the medical staff organization.

(E)(D) Qualifications of officers.

(1) Officers must be members of the attending staff at the time of their nomination and election and must remain members in good standing during the term of their office. Failure to maintain such status shall immediately create a vacancy in the office involved.

(2) The medical director, associate medical directors, assistant medical directors and chiefs of the clinical departments shall not be eligible to serve as chief of staff or chief of staff-elect unless they are replaced in their Ohio state university hospitals administrative role during the period of their term of office.

(E)(E) Election of officers.

(1) All officers (other than at-large officers) shall be elected by a majority of those voting by written or electronic ballot of the attending staff.

(2) The nominating committee shall be composed of five members. The chief of staff and the chief of staff-elect shall serve on the committee and shall select three other members for the committee. The chief of staff-elect shall be its chairperson.

(3) Nominations for officers shall be accepted from any member of the medical staff and shall be submitted either electronically or in writing to the nominating committee.

(4) The committee’s nominees shall be submitted to all voting members of the attending staff no later than March first of the election year.

(5) Candidates for the office of chief of staff-elect shall be listed and each attending staff member shall be entitled to cast one vote. Candidates for the at-large positions shall be voted upon as a group. Each voting member of the attending staff shall be entitled to vote for three at-large
candidates. The three candidates with the highest number of votes shall be elected. A majority of the votes shall not be necessary.

(6) Grounds for removal of an elected medical staff officer shall be malfeasance, misfeasance, or nonfeasance in office as documented by written charges submitted to the chief of staff, or to the medical director if charges are filed against the chief of staff. An officer may be removed from the elected position by a majority vote upon written or electronic ballot of the attending staff following a regularly scheduled meeting or a meeting scheduled for that purpose. Automatic removal shall be for failure to meet those responsibilities assigned within these bylaws, failure to comply with medical staff rules and regulations, policies and procedures of the medical staff, for conduct or statements that damage the reputation of the Ohio state medical center, its goals and missions, or programs, or an automatic termination or suspension of clinical privileges that lasts more than thirty days.

(G)(F) Term of office.

(1) The chief of staff and chief of staff-elect shall each serve two years in office beginning on July first. The chief of staff-elect shall be elected in the odd numbered years. A former chief of staff may not succeed the immediately preceding chief of staff-elect.

(2) The at-large representatives shall each serve two years, beginning July first. The at-large representatives may succeed themselves for three successive terms (six years total), if so elected. Upon completion of the three successive terms, the representative may not serve again without a period of two years out of office as an at-large representative. The representative may be elected chief of staff-elect at any time.

(H)(G) Vacancies in office.

(1) A vacancy in the office of chief of staff shall be filled by the chief of staff-elect. If the unexpired term is one year or less, the new chief of staff shall serve out the remaining term in office and shall then serve as chief of staff for the term for which elected. If the unexpired term is more than one year, the new chief of staff shall serve out the remaining term only.

(2) Vacancies in the office of chief of staff-elect shall be filled by a special election held within sixty days of the vacancy by the nominating and election process set forth in paragraph (F) of this rule. The new chief of staff-elect shall become chief of staff at the end of the term of the incumbent.

(3) Vacancies in the at-large representatives and courtesy A and the community affiliate medical staff positions shall be filled by appointment by the chief of staff.

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

(A) Chief medical officer.

The chief medical officer is the senior medical officer for the medical center with the responsibility and authority for all health and medical care delivered at the medical center. The chief medical officer is responsible for overall quality improvement and clinical leadership throughout the medical center, physician
alignment, patient safety and medical staff development. The appointment, scope of authority, and responsibilities of the chief medical officer shall be as outlined in the Ohio state medical board bylaws.

(B) Chief quality officer.

The chief quality and patient safety officer of the Ohio state university medical center is referred to herein these bylaws as the chief quality officer. The chief quality officer reports to the chief medical officer and works collaboratively with clinical leadership of the medical center, including the director of medical affairs for the James cancer hospital, nursing leadership and hospital administration. The chief quality officer provides leadership in the development and measurement of the medical center’s approach to quality, patient safety and reduction of adverse events. The chief quality officer communicates and implements strategic, operational and programmatic plans and policies to promote a culture where patient safety is an important priority for medical and hospital staff.

Medical director directors.

The medical director shall be a physician and shall be a member of the attending medical staff at the Ohio state university hospitals. The medical directors of the hospitals of the Ohio state university report to the chief executive officer or the executive director of the respective hospital and chief medical officer. Each medical director will collaborate with the chief quality officer, the chief medical officer and the clinical department chiefs to develop, execute and monitor the quality and safety programs of the hospital. The appointment, scope of authority, and responsibilities of the medical director directors for the Ohio state university hospitals shall be as further outlined in the Ohio state medical center board bylaws.

(B) Medical staff committees.

(1) Appointments:

Appointments to all medical staff committees except the medical staff administrative committee, nominating committee and all health system committees, shall be made jointly by the chief of staff, chief of staff-elect, and the medical director directors with medical staff administrative committee ratification. Representatives from the Ohio state university hospitals to health system committees shall be appointed jointly by the chief medical officer of the health system and the medical director. Unless otherwise provided by these bylaws, all appointments to medical staff committees shall be for one year and may be renewed. The chief of staff, chief medical officer, medical director, and the chief executive officer of the Ohio state university hospitals may serve on any medical staff committee as an ex-officio member without vote.

(2) Meetings:

Each medical staff committee shall meet at the call of its chairperson and at least quarterly. Committees shall maintain records of proceedings and minutes of meetings and shall forward all recommendations and actions taken to the chief medical director officer who shall promptly communicate them to the medical staff administrative committee. The chairperson shall control the committee agenda, attendance of staff and guests, and conduct of the proceedings. A simple majority of appointed voting members shall constitute a quorum.
April 8, 2011 meeting, Board of Trustees

(3) Peer review committees:

The medical staff as a whole and each committee provided for by these medical staff bylaws is hereby designated as a peer review committee in accordance with the laws of the state of Ohio. The medical staff through its committees shall be responsible for evaluating, maintaining and/or monitoring the quality and utilization of patient care services provided by the Ohio state university hospitals.

(C) Medical staff administrative committee:

(1) Composition.

(a) This committee shall consist of the following voting members: chief of staff, chief of staff-elect, chiefs of the clinical departments, three medical staff representatives elected at large, one medical courtesy A or the community affiliate medical staff representative chief medical director officer, the medical director, and the chief executive officer of the Ohio state university hospitals. Additional members may be appointed to the medical staff administrative committee at the recommendation of the dean or the chief medical officer of the OSU health system subject to the approval of the medical staff administrative committee and subject to review/renewal on a yearly basis. The chief medical director officer shall be the chairperson and the chief of staff shall be vice-chairperson.

(b) Any member of the committee who anticipates absence from a meeting of the committee may appoint as a temporary substitute another member of the same category of the medical staff to represent him or her at the meeting. The temporary substitute shall have all the rights of the absent member. The chief executive officer of the Ohio state university hospitals may invite any member of the chief executive officer's staff to represent him or her at a meeting or to attend any meeting.

(c) All members of the committee shall attend, either in person or by proxy, a minimum of two-thirds of all committee meetings.

(2) Duties.

(a) To represent and to act on behalf of the medical staff, subject to such limitations as may be imposed by these bylaws, by the bylaws of the Ohio state medical center board, the bylaws or rules of the board of trustees of the Ohio state university.

(b) To have primary authority for activities related to self-governance of the medical staff.

(c) To receive and act upon committee reports.

(c)(d) To delegate appropriate staff business to committees while retaining the right of executive responsibility and authority over all medical staff committees. This shall include but is not limited to review of and action upon medical staff appointments and reappointments whenever timely action is necessary.

(d)(e) To approve and implement policies of the medical staff.
April 8, 2011 meeting, Board of Trustees

(e)(f) To provide a liaison between the medical staff, medical director, chief executive officer, and the medical center board.

(f)(g) To recommend action to the medical director directors and chief executive officer of the Ohio state university hospitals on matters of medico-administrative nature.

(g)(h) To fulfill the medical staff's accountability to the medical center board and the board of trustees of the Ohio state university for medical care rendered to patients in the Ohio state university hospitals, and for the professional conduct and activities of the medical staff, including recommendations concerning:

(i) Medical staff structure;

(ii) The mechanism to review credentials and to delineate clinical privileges;

(iii) The mechanism by which medical staff membership may be terminated;

(iv) Participation in the Ohio state university hospitals' performance improvement activities; and

(v) Corrective action and hearing procedures applicable to medical staff members and other licensed health care professionals granted clinical privileges.

(h)(i) To ensure the medical staff is kept abreast of the accreditation process and informed of the accreditation status of the Ohio state university hospitals.

(i)(j) To review and act on medical staff appointments, reappointments, and requests for delineation of clinical privileges. Whenever there is doubt of an applicant's ability to perform the privileges requested, the medical staff administrative committee shall have the authority to request an evaluation of the applicant's clinical activities relevant to requested privileges.

(j)(k) To report to the medical staff all actions affecting the medical staff.

(k)(l) To inform the medical staff of all changes in committees, and the elimination of such committees as circumstances shall require.

(l)(m) To appoint committees (for which membership is subsequently appointed pursuant to section 3335-43-09 of these bylaws) to meet the needs of the medical staff and comply with the requirements of accrediting agencies.

(m)(n) To establish and maintain rules and regulations governing the medical staff.

(n)(o) To perform other functions as are appropriate.
Meetings. The committee shall meet monthly and shall keep detailed minutes which shall be distributed to each committee member and to the medical center board through the professional affairs committee.

Voting. At a properly constituted meeting, voting shall be by a simple majority of members present except in the case of termination or non-reappointment of medical staff membership or permanent suspension of clinical privileges, wherein a two-thirds vote of members present shall be required.

Credentialing committee of the hospitals of the Ohio state university health system:

Composition:

The credentialing responsibilities of medical staff are delegated to the credentialing committee of the hospitals of the Ohio state university health system, the composition of which shall include representation from the medical staff of each health system hospital.

The credentialing committee of the hospitals of the Ohio state university health system shall be appointed by the chief medical officer of the health system. The chief of staff and director of medical affairs or medical director of each health system hospital shall make recommendations to the chief medical officer for representation on the credentialing committee of the hospitals of the Ohio state university health system.

The credentialing committee of the hospitals of the Ohio state university health system shall meet at the call of its chair, who shall be appointed by the chief medical officer of the health system.

Duties:

(a) To review all applications for medical staff and licensed health care professional appointment and reappointment, as well as all requests for delineation, renewal, or amendment of clinical privileges in the manner provided in these medical staff bylaws, including applicable time limits. During its evaluation, the credentialing committee of the hospitals of the Ohio state university health system will take into consideration the appropriateness of the setting where the requested privileges are to be conducted;

(b) To review biennially all applications for reappointment or renewal of clinical privileges;

(c) To review all requests for changes in medical staff membership;

(d) To assure, through the chairperson of the committee, that all records of formal peer review activity taken by the committee, including committee minutes, are maintained in the strictest of confidence in accordance with the laws of the state of Ohio. The committee may conduct investigations and interview applicants as needed to discharge its duties. The committee may refer issues and receive issues as appropriate from other medical staff committees;
April 8, 2011 meeting, Board of Trustees

(e) To make recommendations to the medical staff administrative committee through the chief medical director officer regarding appointment applications and initial requests for clinical privileges. Such recommendations shall include the name, status, department (division), medical school and year of graduation, residency and fellowships, medical-related employment since graduation, board certification and recertification, licensure status as well as all other relevant information concerning the applicant's current competence, experience, qualifications, and ability to perform the clinical privileges requested;

(f) To recommend to the medical staff administrative committee that certain applications for appointment be reviewed in executive session;

(g) The committee, after review and investigation, may make recommendations to the chief medical director officer, chief of staff or the chief of a clinical department, regarding the restriction or limitation of a member's clinical privileges for noncompliance or any other matter related to its responsibilities;

(h) To review all grants of special or temporary privileges; and

(i) To review requests made for clinical privileges by other licensed health care professionals as set forth in these bylaws.

(j) To recommend eligibility criteria for the granting of medical staff membership and privileges.

(k) To develop, recommend, and consistently implement policy and procedures for all credentialing and privileging activities.

(l) To review, and where appropriate take action on, reports that are referred to it from other medical staff committees and medical staff members.

(m) To perform such other functions as requested by the medical staff administrative committee, the professional affairs committee or medical center board.

(3) Licensed health care professionals subcommittee.

(a) Composition:

This subcommittee shall consist of licensed health care professionals who have been appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code and shall also include the director of nursing who shall serve as chair of the subcommittee. The subcommittee shall include a certified nurse midwife, a certified registered nurse anesthetist, a certified nurse practitioner, a clinical nurse specialist, and other appropriate licensed health care professionals.

(b) Duties:

(i) To review, within thirty days of receipt, all completed applications as may be referred by the credentialing
committee of the hospitals of the Ohio state university health system.

(ii) To review and investigate the character, qualifications and professional competence of the applicant.

(iii) To review the applicant’s patient care quality indicator definitions on initial granting of clinical privileges and the performance based profile at the time of renewal.

(iv) To verify the accuracy of the information contained in the application.

(v) To request a personal interview with the applicant if deemed appropriate.

(vi) To forward, following review of the application, a written recommendation for clinical privileges to the credentialing committee of the hospitals of the Ohio state university health system for review at its next regularly scheduled meeting.

(vii) To develop relevant policies and procedures regarding the scope of service and scope of practice to be granted to each licensed health care professional specialty. These policies and procedures shall be ratified by the credentialing committee and medical staff administrative committee, and be approved by the medical center board.

(E) Committee for licensed independent practitioner health.

(1) Composition:

The committee shall consist of medical staff members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code.

(2) Duties:

(a) To consider issues of licensed independent practitioner health or impairment whenever a self referral or referral is requested by an affected member or another member or committee of the medical staff, the Ohio state university hospitals staff, or any other individual.

(b) To educate the medical staff and the Ohio state university hospitals staff about illness and impairment recognition issues, including at-risk criteria, specific to licensed independent practitioners. At a minimum there will be an educational presentation made at each medical staff meeting as required by paragraph (A) of rule 3335-43-11 of the Administrative Code.

(c) To provide appropriate counsel, referral and monitoring until the rehabilitation or disciplinary process is complete and periodically thereafter, if required, to enable the medical staff member to obtain appropriate diagnosis and treatment, and to provide appropriate standards of care.
April 8, 2011 meeting, Board of Trustees

(d) To consult regularly with the chief of staff, chief medical officer and medical director of the Ohio state university hospitals.

(e) To advise credentials or other appropriate medical staff committees on the credibility of any complaint, allegation or concern, including those affecting the quality and safety of patient care.

(f) To assure, through the chairperson of the committee, that all proceedings and records, including the identity of the person referring the case, are handled and maintained in the strictest confidence in accordance with the laws of the state of Ohio.

(g) To initiate appropriate actions when a licensed practitioner fails to complete the required rehabilitation program.

(F) Bylaws Medical staff bylaws committee.

(1) Composition:

The committee shall consist of those members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code. The chairperson shall always be the chief of staff-elect.

(2) Duties:

(a) To review and recommend amendments, as appropriate, to these medical staff bylaws to the medical staff administrative committee at least every two years.

(b) To receive from members of the medical staff or the medical staff administrative committee any suggestions that may necessitate amendment of these bylaws.

(G) Infection control committee.

(1) Composition:

The medical staff members of the committee shall consist of those members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code. The committee shall also include representatives of nursing, environmental services, and hospital administration as may be invited from time to time by the chief of staff. The chairperson shall be a physician member of the medical staff with experience or training in infectious diseases.

(2) Duties:

(a) To oversee surveillance and institute any recommendations necessary for the investigation, prevention, containment of nosocomial and clinical infectious diseases of both patients and staff at all facilities owned, operated, or controlled by the Ohio state university hospitals and subject to JCAHO standards.

(b) To take necessary action through the chairperson of the committee, and the Ohio state university hospitals’ epidemiologist, in consultation with the medical director of the Ohio state university hospitals, to prevent and control emerging spread or outbreaks of infections; isolate communicable and
infectious patients as indicated; and obtain all necessary cultures in emergent situations when the responsible medical staff member is unavailable.

(H) Ethics committee.

(1) Composition:

The committee shall consist of members of the medical staff, nursing, hospital administration, and other persons who by reason of training, vocation, or interest may make a contribution. Members shall be appointed as provided in these bylaws. The chairperson shall be a medical staff member who is a clinically active physician.

(2) Duties:

(a) To make recommendations for the review and development of guidelines or policies regarding ethical issues.

(b) To provide ethical guidelines and information in response to requests from members of the medical staff, patients, patient's family or other representative, and staff members of the Ohio state university hospitals.

(c) To provide a support mechanism for primary decision makers at the Ohio state university hospitals.

(d) To provide educational resources on ethics to all health care providers at the Ohio state university hospitals.

(e) To provide and enhance interaction between hospitals administration and staff, departmental ethics committees, pastoral care services, and members of the medical staff.

(J) Practitioner evaluation committee.

(1) Composition.

This multi-disciplinary peer review committee is composed of clinically-active practitioners. If additional expertise is needed, the practitioner evaluation committee may request the assistance from any medical staff member or recommend to the chief medical officer an external review.

(2) Duties:

(a) To meet and keep minutes, which describes issues, opportunities to improve patient care, recommendations and actions to the chief quality officer and chief of the clinical department, responsible parties, and expected completion dates. The minutes are maintained in the quality and operations improvement office.

(b) To ensure that ongoing and systematic monitoring, evaluation, and process improvement is performed in each clinical department.

(c) To develop and utilize objective criteria in practitioner peer review activities.
April 8, 2011 meeting, Board of Trustees

(d) To ensure that the medical staff peer review process is effective.

(e) To maintain confidentiality of its proceedings. These issues are not to be handled outside of PEC by any individual, clinical department, division, or committee.

(1) Composition:

The leadership council shall consist of members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code, and shall include the senior vice president for health sciences, and the dean of the college of medicine and the chairperson of the professional affairs committee of the medical center board as ex-officio members without a vote. The chief medical director officer shall be the chairperson of the leadership council.

(2) Duties:

(a) To design and implement systems and initiatives to enhance clinical care and outcomes throughout the integrated health care delivery system.

(b) To serve as the oversight council for the clinical quality management and patient safety plan.

(c) To establish goals and priorities for clinical quality, safety and service on an annual basis.

(3) Clinical quality and patient safety committee.

(a) Composition:

The members of this group shall be appointed pursuant to these bylaws and shall include medical staff members from various clinical departments and support services, and shall include the director of the clinical quality management policy group, and representatives of nursing and hospitals administration. The chairperson of the policy group shall be a physician member of the medical staff.

(b) Duties:

(i) To coordinate the quality management related activities of the clinical departments, the medical information management department, utilization review, infection control, pharmacy and therapeutics and drug utilization committee, transfusion and isoimmunization, and other medical staff and the Ohio state university hospitals committees.

(ii) To implement clinical improvement programs to achieve the goals of the Ohio state university hospitals quality management plan, as well as assure optimal compliance with accreditation standards and governmental regulations concerning performance improvement.
(iii) To review, analyze, and evaluate on a continuing basis
the performance of the medical staff and other health
care providers; and advise the clinical department
clinical quality sub-committees in defining, monitoring,
and evaluating quality indicators of patient care and
services.

(iv) To serve as liaison between the Ohio state university
and the Ohio peer review organizations through the
chairperson of the policy group and the director of
clinical quality.

(v) To make recommendations to the medical staff
administrative committee on the establishment of and
the adherence to standards of care designed to improve
the quality of patient care delivered in the Ohio state
university hospitals.

(vi) To hear and determine issues concerning the quality of
patient care rendered by members of the medical staff
and the Ohio state university hospitals staff and make
appropriate recommendations and evaluate action plans
when appropriate to the medical director, the chief of a
clinical department, or the Ohio state university hospitals
administration.

(vii) To appoint ad-hoc interdisciplinary teams to address the
Ohio state university hospitals-wide quality management
plan.

(viii) To annually review and revise as necessary the Ohio
state university hospitals-wide clinical quality manage-
ment plan.

(ix) To report and coordinate with the leadership council for
clinical quality, safety and service of all quality
improvement initiatives.

(4) Clinical resource utilization policy group.

(a) Composition:

The members shall be appointed in accordance with paragraph
(A)(6) of rule 3335-43-09 of the Administrative Code and shall
include medical staff members from various clinical departments
and support services the directors of clinical quality and case
management, and representatives of nursing and hospitals
administration. The chairperson of the policy group shall be a
physician member of the medical staff.

(b) Duties:

(i) To promote the most efficient and effective use of the
hospitals of the Ohio state university health system
facilities and services by participating in the review
process and continued stay reviews on all hospitalized
patients.

(ii) To formulate and maintain a written resource
management review plan for the hospitals of the Ohio
state university health system consistent with applicable governmental regulations and accreditation requirements.

(iii) To conduct resource management studies by clinical department or divisions, or by disease entity as requested or in response to variation from benchmark data would indicate.

(iv) To report and recommend to the leadership council for clinical quality, safety and service changes in clinical practice patterns in compliance with applicable governmental regulations and accreditation requirements, and when the opportunity exists to improve the resource management.

(v) To oversee evaluation and cost effective utilization of clinical technology.

(vi) To oversee the activities of the utilization management committee of the hospitals of the Ohio state university health system. This oversight will include the annual review and approval of the utilization management plan.

(3) Evidence-based practice policy group.

(a) Composition: The members shall be appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code, and shall include medical staff members from various clinical departments and support services, representatives of nursing, pharmacy, information systems, hospitals administration, and the chair of the clinical quality and management policy group. The chairperson of the policy group shall be a physician member of the medical staff.

(b) Duties:

(i) To oversee the planning, development, approval, implementation and periodic review of evidence-based medicine resources (i.e., clinical practice guidelines, quick reference guides, clinical pathways, and clinical algorithms) for use within the Ohio state university hospitals and its affiliated institutions. Planning should be based on the prioritization criteria approved by the leadership council for clinical quality, safety and service and review should focus on incorporating recent medical practice, literature or developments. Annual review should be done in cooperation with members of the medical staff with specialized knowledge in the field of medicine related to the guideline.

(ii) To report and recommend to the leadership council for clinical quality, safety and service specific process and outcomes measures for each evidence-based medicine resource.

(iii) To oversee ongoing education of medical staff (including specifically limited staff) and other appropriate Ohio state university hospitals staff regarding the fundamental
concepts and value of evidence-based practice and outcomes measurement and its relation to quality improvement.

(iv) To initiate and support research projects when appropriate in support of the objectives of the leadership council for clinical quality, safety and service.

(v) To oversee the development, approval and periodic review of the clinical elements of computerized ordersets and clinical rules to be used within the information system of the Ohio state university hospitals and its affiliated institutions. Computerized ordersets and clinical rules related to specific practice guideline should be forwarded to the leadership council for clinical quality, safety and service for approval. All other computerized ordersets and clinical rules should be forwarded to the leadership council for clinical quality, safety and service for information.

vi To regularly report a summary of all actions to the leadership council for clinical quality, safety and service.

3335-43-13 Amendments.

The bylaws committee shall review the bylaws and rules and regulations as need arises but not less than every two years. This committee shall recommend changes to the medical staff administrative committee.

These bylaws may be amended after notice is given at a meeting of the medical staff administrative committee, and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded in successive order to the following: the Ohio state medical center board and the board of trustees of the Ohio state university. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff. Significant changes to these bylaws shall be reported in writing to the medical staff and other individuals who have clinical privileges. Neither the medical staff, nor the Ohio state medical center board may unilaterally amend these medical staff bylaws. The medical staff bylaws, rules and regulations, and policies and the medical center board bylaws shall not conflict.

3335-43-13 Amendments and adoption.

(A) Medical staff responsibility.

The medical staff bylaws committee shall have the initial responsibility to formulate, review at least biennially, and recommend to the professional affairs committee of the medical center board any medical staff bylaws, rules, regulations, policies, procedures, and amendments as needed. Amendments
to the bylaws shall be effective when approved by the university board of trustees. Amendments to the rules and regulations shall be effective when approved by the medical center board.

Such responsibility shall be exercised in good faith, in a timely manner and in accordance with applicable laws and regulatory standards. This applies as well to the review, adoption, and amendment of the related rules, policies, and protocols developed to implement the various sections of these bylaws.

The organized medical staff shall also have the ability to propose amendments to the medical staff bylaws, rules and regulations, and policies and procedures and propose them directly to the professional affairs committee of the medical center board. If the voting members of the organized medical staff propose to adopt amendments to the bylaws, rules and regulations or policies, they must first communicate the proposal to the medical staff administrative committee. When the medical staff administrative committee proposes to adopt amendments to the bylaws, rules and regulations or policies, it communicates the proposal to the organized medical staff.

Conflict between the organized medical staff and the medical staff administrative committee will be managed by allowing communication directly from the medical staff to the professional affairs committee of the medical center board on issues including, but not limited to amendments to the bylaws and the adoption of new rules and regulations or policies. Medical staff members may communicate with the professional affairs committee of the medical center board by submitting their communication in writing to the chief of staff, who shall then communicate on their behalf to the professional affairs committee of the medical center board at its next regularly scheduled meeting for final determination.

In cases of urgent need to update the medical staff bylaws or rules and regulations in order to comply with law, statute, federal regulation, or accreditation standard, the medical staff administrative committee and the professional affairs committee of the medical center board may provisionally approve an urgent amendment without prior notification to the medical staff. The medical staff shall be immediately notified by the medical staff administrative committee. The medical staff shall have the opportunity for review of and vote on the provisional amendment. If the medical staff votes in favor of the provisional amendment, it shall stand. If there is conflict over the provisional amendment, process for resolving conflict between the organized medical staff and the medical staff administrative committee shall be implemented.

(B) Methods of adoption and amendment to these bylaws.

Proposed amendments to these bylaws may be originated by the medical staff bylaws committee, medical staff administrative committee or by a petition signed by twenty-five percent (25%) of attending medical staff members.

Each attending medical staff member will be eligible to vote on the proposed amendment via printed or secure electronic ballot in a manner determined by the medical staff administrative committee. All attending medical staff members shall receive at least thirty (30) days advance notice of the changes to be adopted:

(a) The medical staff receives a simple majority of the votes cast by those members eligible to vote.
April 8, 2011 meeting, Board of Trustees

(b) Amendments so adopted shall be effective when approved by the university board of trustees.

(C) Methods of adoption and amendment to medical staff rules, regulations and policies.

The medical staff may adopt additional rules, regulations and policies as necessary to carry out its functions and meet its responsibilities under these bylaws.

Proposed amendments to the rules, regulations and policies may be originated by the medical staff bylaws committee or the medical staff administrative committee.

The medical staff administrative committee shall vote on the proposed language changes at a regular meeting, or at a special meeting called for such purpose. Following an affirmative vote by the medical staff administrative committee, rules and regulations may be adopted, amended or repealed, in whole or in part and such changes shall be effective when approved by the organized medical staff, and the medical center board. Policies and procedures will become effective upon approval of the medical staff administrative committee.

In addition to the process described above, the organized medical staff itself may recommend directly to the professional affairs committee of the medical center board an amendment to any rule, regulation, or policy by submitting a petition signed by twenty-five percent (25%) of the members of the attending medical staff category. Upon presentation of such petition, the adoption process outlined above will be followed.

(D) The medical staff administrative committee may adopt such amendments to these bylaws, rules, regulations, and policies that are, in the committee's judgment, administrative, technical or legal modifications or clarifications. Such modifications may include reorganization or renumbering, punctuation, spelling, or other errors of grammar or expression. Such amendments need not be approved by the entire medical center board but must be approved by the vice president of health services. Neither the organized medical staff nor the medical center board may unilaterally amend the medical staff bylaws or rules and regulations.

The medical staff bylaws, rules and regulations, medical center board bylaws, and relevant policies shall not conflict. The medical staff bylaws committee shall assure that there is no conflict.

3335-43-14 Adoption.

(A) These bylaws shall be adopted by the medical staff administrative committee and forwarded for approval in the same fashion as provided in rule 3335-43-12 of the Administrative Code.

(B) Upon adoption of these bylaws by the Ohio state medical center board, these bylaws shall replace any previous bylaws, rules and regulations of the medical staff of the Ohio state university hospitals.

(C) From time to time certain administrative policies and procedures associated with processes described in these bylaws for corrective action, fair hearing and appeal, credentialing, privileging and appointment shall supplement the bylaws at the recommendation of the appropriate committee and the medical staff administrative committee and be forwarded to the Ohio state medical center board for ratification. (B/T 10/29/2009, 5/14/2010)
April 8, 2011 meeting, Board of Trustees

(A) "Shall" as used herein is to be construed as mandatory.
(B) These bylaws should be construed to be gender neutral.

3335-43-14 Rules of construction.
(A) "Shall" as used herein is to be construed as mandatory.
(B) These bylaws should be construed to be gender neutral.
84-04 Consultations.

(A) Consultation requirements.

When a patient care problem is identified that requires intervention during the hospital stay that is outside the attending or courtesy medical staff member's area of training and experience, it is the responsibility of the attending or courtesy medical staff member or his or her designee, who is appropriately credentialed by the hospital, to obtain consultation by the appropriate specialist. The consultation may be ordered by the responsible medical practitioner, a member of the limited staff, or another licensed healthcare professional with appropriate clinical privileges as designated in these rules and regulations. If a consultation is ordered prior to ten a.m., the consult shall occur on the same business day. If a consultation is ordered after ten a.m., the consult shall occur within twenty-four hours. Irrespective of consultations each patient is continuously assessed and reassessed and his or her plan for care is modified as necessary.

(B) Responsibility to monitor consultations.

It is the duty of the medical staff through its clinical departmental chiefs and the medical staff administrative committee to assure that members of the staff comply in the matter of requesting consultations as needed.

(C) Consultation contents.

A satisfactory consultation shall include examination of the patient, examination of the medical record, and a written opinion signed by the consultant that is made a part of such record. If operative procedures are involved, the consultation note, except in an emergency, shall be recorded prior to the operation. (B/T 9/6/2002, B/T 11/4/2005, B/T 6/6/2008, 9/18/2009)

84-05 Privileges for giving orders.

(A) Definition of "patient orders."

A patient order(s) is a prescription for care or treatment of patients. An order can be given verbally, electronically or in writing to qualified personnel identified by category in paragraph (C) of this rule, and shall be authenticated by the licensed medical practitioner. Patient orders may be given initially, renewed, discontinued or cancelled. Throughout these rules and regulations, the word "written" and its grammatical derivatives, as used to describe a non-verbal order, refer to both written and electronically entered orders.

(B) Electronic ordering.

Electronic orders are equivalent and have the same force as written orders. Electronic orders have been expressly structured to mirror these rules and regulations and all policy guidelines adopted by the medical staff and hospital administration.

(C) Responsible medical practitioner.

The licensed physician, dentist, podiatrist, or psychologist (under medical doctor supervision) member of the medical staff responsible for the care and
treatment of the patient is responsible for all orders for the patient. Attending, courtesy, and honorary medical staff may designate members of the limited staff, or other licensed healthcare professional with appropriate clinical privileges to write or electronically enter orders under their direction. The attending staff member may also designate members of the pre-M.D. medical student group to write or electronically enter orders, but in all cases these orders shall be signed by the physician, dentist, podiatrist, psychologist, or designated limited staff member who has the right of practice of medicine, dentistry, psychology, or podiatry, and who is responsible for that patient's care. All non-verbal orders must be authenticated by the medical practitioner prior to the execution of the order(s) by the hospital or outpatient nursing staff or other professional groups.

Patient orders written or electronically entered by "off-service" limited staff or consultant staff must be authenticated by the responsible practitioner or the practitioner's designee, who is appropriately credentialed by the hospital. Exception may be made in the event of preoperative orders or in the instance of acknowledged co-management, e.g. the intensive care unit or recovery room.

(D) Telephone and verbal orders.

Telephone and verbal orders may be given by the responsible attending physician, dentist, podiatrist, psychologist, member of the limited staff, or other licensed healthcare professional with appropriate clinical privileges only to health care providers who have been approved in writing by title or category by the medical director, the executive director of the hospitals, and each chief of the clinical service where they shall exercise clinical privileges, and only where said health care provider is exercising clinical privileges, responsibilities which have been approved and delineated by job description for employees of the hospitals, or by the customary medical staff credentialing process when the provider is not an employee of the hospitals. Lists of the approved titles or categories of providers shall be maintained by the chief medical director officer. Verbal orders should be utilized infrequently. The individual giving the verbal or telephone order must verify the complete order by having the person receiving the information record and "read back" the complete order to assure the quality and safety of patient care. The job description or delineated privileges for each provider must indicate each provider's authority to receive telephone or verbal orders, including but not limited to the authority to receive orders for medications. The order is to be recorded and authenticated by the approved health care provider to whom it is given as "verbal order by," or "V. O. or T. O. by," recording the licensed healthcare practitioner's name and the time of the order. All telephone and verbal orders for D.E.A. schedule II controlled substances, patient seclusion, or patient restraint must be authenticated within one day twenty-four hours by the a licensed physician, dentist, podiatrist, psychologist, limited staff member, or other licensed healthcare professional with appropriate clinical privileges. All other verbal and telephone orders must be authenticated within forty-eight (48) hours by a licensed physician, dentist, podiatrist, psychologist, limited staff member, or other licensed healthcare professional with appropriate privileges.

(E) Standing orders.

Standing orders for emergency uses are approved only for the coronary care unit and the allergy clinic.

(F) Preprinted orders.
April 8, 2011 meeting, Board of Trustees

Preprinted order forms for patients must be reviewed, dated, timed and signed by a responsible medical practitioner, a limited staff member, or other licensed healthcare professional with appropriate privileges before becoming effective.

(G) Investigational drug orders.

Evidence of informed patient consent must be available to a nurse or pharmacist before an investigational agent is ordered and administered. Investigational drugs may be ordered only upon authorization of the principal or co-investigator or other delegated physician, dentist, psychologist, or podiatrist named in FDA forms 1572 or 1573. Registered nurses or pharmacists who are knowledgeable about the investigational agents may administer the drugs to patients.

(H) Change of nursing service.

"Change of nursing service" means official and physical movement (transfer) of a patient from any permanent care unit to another with or without change in attending physician, dentist, psychologist, or podiatrist or clinical service. Orders effective before transfer must be reviewed, renewed, rewritten or reentered upon transfer by the responsible medical practitioner. The new or renewed orders may be written or electronically entered before or when the patient arrives on the receiving unit and may become effective immediately.

In each case of "change of nursing service," it is the responsibility of the receiving nurse to establish the availability of renewed or new written or electronically entered orders. Prior orders shall remain in effect until new orders are available. This should be done within eight hours of transfer.

(I) Transfer of clinical service.

Transfer of clinical service means transfer of full patient responsibility from one attending physician, dentist, psychologist, or podiatrist to another; the patient may remain on the same unit or a "change of nursing service" may also occur. Admission of a patient from an emergency service to the hospital as an inpatient involves "transfer of clinical service."

For the purposes of writing or electronically entering orders, two essentials of "transfer of clinical service" are necessary:

1. The initial transfer order must indicate the release of responsibility and control of the patient, pending acceptance by the receiving service. The order may read -- "transfer (or admit) to Dr., thoracic surgery service."

2. Transfer of service may be completed only by the receiving service writing or electronically entering an order to the effect -- "accept in transfer (or admission) to Dr., cardiology service."

Orders effective before the transfer must be renewed, rewritten or reentered upon transfer by the responsible medical practitioner, a limited staff member, or other licensed healthcare professional with appropriate privileges. The new or renewed orders may be written or electronically entering before or at the time of transfer, and may become effective immediately. It is the responsibility of the receiving nurse to establish the availability of new or renewed orders. If new orders are unavailable, then the nurse may continue previous orders and immediately notify the responsible medical practitioner.

(J) Patient orders and the "covering" medical practitioner.
April 8, 2011 meeting, Board of Trustees

"Coverage" of patient responsibilities for another physician, dentist, psychologist, or podiatrist for a brief period of time does not constitute or require "transfer of clinical service" unless so desired and agreed upon by the physician, dentist, psychologist, or podiatrist and patient.

(K) Hospital discharge/readmission orders.

Hospital discharge from standard inpatient units or day care units to outpatient status requires appropriate discharge orders. Readmission to any inpatient unit requires new, rewritten/reentered or renewed orders by the responsible medical practitioner, a limited staff member, or other licensed healthcare professional with appropriate privileges.

(L) Orders in emergency vehicles.

These rules and regulations apply to university hospital's owned and/or manned emergency care and retrieval vehicles.

(M) Do not resuscitate order.

Do not resuscitate orders must be written or electronically entered in strict compliance with the comprehensive policy guidelines published by the medical staff administrative committee and hospital administration. See hospital procedure manual section 03-24.

(N) Hospital admission/observation orders.

Hospital admission/observation requires appropriate admission/observation orders. Admission to any inpatient unit or placing a patient in observation status requires new, rewritten/reentered or renewed orders by the responsible medical practitioner or limited staff member.

84-12 Medical records.

(A) Each member of the medical staff shall conform to the medical information management department policies, including the following:

(1) Chart contents

The attending medical staff member shall be responsible for the preparation of a complete medical record of each patient. The medical record may contain information collected and maintained in electronic, paper or microfilm form. This record shall include the following:

(a) Identification and related data.
(b) Statement of present complaint.
(c) History of present illness.
(d) Previous personal history.
(e) Family history.
(f) Physical examination.
(g) Special reports, as those from:
(i) The clinical laboratory, including examination of tissues and autopsy findings, when applicable.

(ii) The x-ray department.

(iii) Consultants, as verified by the attending medical staff member’s signature.

(h) Provisional diagnosis.

(i) Medical and surgical treatments.

(j) Progress notes.

(k) Discharge disposition, condition of patient at discharge, and instructions given at that time.

(l) Summary and final diagnosis as verified by the attending medical staff member's signature.

(m) Documentation of informed consent.

(n) Pre-sedation or pre-anesthesia assessment and plans of care for patients receiving anesthesia.

(o) The legal status of patients receiving mental health services.

(p) Emergency care provided to the patient prior to arrival, if any.

(q) Evidence of known advance directives.

(r) All reassessments and any revisions of the treatment plan.

(s) Any and all orders related to the patient’s care.

(t) Every medication dispensed to an inpatient at discharge.

(u) Every dose of medication administered and any adverse drug reaction.

(v) Any referrals and communications made to external or internal providers and to community agencies.

(w) Postoperative documentation records, including the patient’s vital signs and level of consciousness; medications, including IV fluids, blood and blood components; any unusual events or postoperative complications; and management of such events.

(x) Postoperative documentation of the patient’s discharge from the post-sedation or post-anesthesia care area by the responsible licensed independent practitioner or according to discharge criteria.

(y) An intra-operative anesthesia record.

(z) A post-anesthesia follow-up report written within forty-eight hours after surgery.
Signed and dated reports of nuclear medicine interpretations, consultations, and procedures.

(2) Deadlines and sanctions.

(a) A procedure note shall be entered in the record by the responsible attending medical staff member or the medical staff member's designee, who is appropriately credentialed by the hospital, immediately upon completion of an invasive procedure. Procedure notes must be written for any surgical or medical procedures, irrespective of their repetitive nature, which involve material risk to the patient. Notes for procedures completed in the operating rooms must be finalized in OR web the operating room information system by the attending surgeon. For any formal operative procedures, a note shall include preoperative and postoperative diagnoses, procedure(s) performed and description of each procedure, surgeon(s), resident(s), anesthesiologist(s), surgical service, type of anesthesia (general or local), complications, invasive lines either added or deleted, estimated blood loss, any pertinent information not included on the O.R./anesthesia record, preliminary surgical findings, and specimens removed and disposition of each specimen. Where a formal operative report is appropriate, the report must be dictated completed immediately following the procedure. The transcribed operative/procedure report must be signed by the attending medical staff member. Any operative/procedure report not dictated completed or any procedure note for procedures completed in the operating rooms not completed in OR web the operating room information system by ten a.m. the day following the procedure shall be deemed delinquent and the attending medical staff member responsible shall lose operating/procedure room and medical staff privileges the following day. The operating rooms and procedure rooms will not cancel cases scheduled before the suspension occurred. Effective with the suspension, the attending medical staff member will lose all privileges to schedule elective and add-on cases. The attending medical staff member will only be allowed to schedule emergency cases until all delinquent operative/procedure reports are completed. All emergency cases scheduled by suspended medical staff members are subject to the review of the medical director and will be reported to the suspended medical staff members' chief of the clinical department and the medical director by the operating room staff. Affected medical staff members shall receive telephone calls from the medical information management department indicating the delinquent operative/procedure reports.

(b) Progress notes must provide a pertinent chronological report of the patient's course in the hospital and reflect any change in condition, or results of treatment. In the event that the patient's condition has not changed, and no diagnostic studies have been done, a progress note must be completed by the attending medical staff member or his or her designated member of the limited medical staff or practitioner with appropriate privileges at least once every three days.

Each medical student or other licensed health care professional progress note in the medical records must should be signed or
counter-signed by a member of the attending, courtesy, or limited staff.

(c) Birth certificates must be signed by the medical staff member who delivers the baby within one week of completion of the certificate. Fetal death certificates and death certificates must be signed and the cause of death must be recorded by the medical staff member with a permanent Ohio license within 24 hours of death.

(d) Outpatient visit notes and letters to referring physicians, when appropriate, shall be dictated completed within three days of the patient’s visit.

(e) Reports in the electronic signature system All entries not previously defined must be signed within five (5) ten business days of availability completion.

(f) Queries by clinical documentation specialists requesting clarification of a patient’s diagnoses and procedures will be resolved within five business days of confirmed notification of request.

(g) Office visit encounters shall be closed within one week of the patient’s visit.

Discharges

(a) Patients shall be discharged only on written or electronically entered order of the responsible medical staff member, limited staff member, or other licensed healthcare professional with appropriate clinical privileges. At the time of ordering the patient's discharge or at the time of the medical staff member’s next visit to the hospital (if the attending medical staff member has authorized a member of the limited staff to sign the order of discharge), the attending medical staff member shall see that the record is complete. The attending medical staff member or his or her designee, who is appropriately credentialed by the hospital, is responsible for verifying the principal diagnosis, secondary diagnoses principal procedure, and other significant invasive procedures in the medical record by the time of discharge. If a principal diagnosis cannot be determined in the absence of outstanding test results, the attending medical staff member or his or her designee, who is appropriately credentialed by the hospital, must record a "provisional" principal diagnosis by the time of discharge.

(b) The discharge summary for each patient must be completed by the responsible attending medical staff member or the medical staff member's designee, who is appropriately credentialed by the hospital, before the patient’s discharge or transfer to a non-OSU health system facility. All other discharge summaries must be completed by the responsible attending medical staff member or the medical staff member’s designee, who is appropriately credentialed by the hospital, within three days of discharge. An electronic discharge instruction form will suffice for the discharge summary if it contains the following: hospital course including reason for hospitalization and significant findings upon admission; principal
and secondary diagnoses; relevant diagnostic test results; procedures performed and care, treatment and services provided to the patient; condition on discharge; medication list and medication instruction; the plan for follow-up tests and studies where results are still pending at discharge; coordination and planning for follow-up testing and physician appointments; plans for follow-up communication, and instructions.

(c) A dictated complete summary is required on all patients who expire, regardless of length of stay.

(d) A handwritten short stay summary may be substituted for a discharge summary for newborn stays.

(e) Any discharge summary, abbreviated discharge summary, short stay summary or electronic discharge instruction forms must be signed by the responsible attending medical staff member.

(f) All medical records must be completed by the attending medical staff member or, when applicable, by the attending medical staff member's designee, who is appropriately credentialed by the hospital, within twenty-one (21) days of discharge of the patient. Attending medical staff members shall be notified prior to suspension for all incomplete records. After notification, attending medical staff members shall have their admitting and operative scheduling privileges suspended until all records are completed. A list of delinquent incomplete records, by attending medical staff members, shall be prepared and distributed by the medical information management department once each week. If an attempt is made by the attending medical staff member, or the attending medical staff member's designee, who is appropriately credentialed by the hospital, when applicable, to complete the record, and the record is not available, the record shall not be counted against the attending medical staff member.

(g) Records which are incomplete, more than twenty-one (21) days after discharge or the patient's visit are defined as delinquent.

(4) Confidentiality.

Access to medical records is limited to use in the treatment of patients, research, and teaching. All medical staff members are required to maintain the confidentiality of medical records. Improper use or disclosure of patient information is subject to disciplinary action.

(5) Ownership.

Medical records of hospital-sponsored care including pathological examinations, slides, radiological films, photographic records, cardiographic records, laboratory reports, statistical evaluations, etc. are the property of the hospital and shall not be removed from the hospital's jurisdiction and safekeeping except in accordance with a court order, subpoena, or statute.

(6) Records storage and security.

Hospital records, pathological examinations, slides, radiologic images, etc., shall be maintained by the hospital. Microfilms, paper, electronic
tape recordings, magnetic media, optical disks, and such other acceptable storage techniques shall be used to permanently maintain patient records. In the case of readmission of the patient, all previous records or copies thereof shall be available for the use of the attending medical staff member or other health care providers.

(7) Informed consent documentation.

(a) Where informed consent is required for a special procedure (such as surgical operation), documentation that such consent has been obtained must be made in the hospital record prior to the initiation of the procedure. Such documentation shall be in compliance with the hospital's policy and procedure manual section 03-27.

(b) In the case of limb amputation, a limb disposition form, in duplicate, must be signed prior to the operation.

(8) Sterilization consent.

Prior to the performance of an operative procedure for the expressed purpose of sterilization of a (male or female) patient, the attending medical staff member shall be responsible for the completion of the legal forms provided by the hospital and signed by the patient. Patients who are enrolled in the Medicaid program must have their forms signed at least 30 days prior to the procedure. Informed consent must also be obtained from one of the parents or the guardian of an unmarried minor.

(9) Criteria changes.

The medical information management department shall define the criteria for record completion subject to the approval of the medical staff.

(10) Entries and authentication.

(a) Entries in the medical record can only be made by staff recommended by the medical information management department subject to the approval of the medical staff.

(b) All entries must be legible and complete and must be authenticated, timed and dated promptly by the person, identified by name and discipline, who is responsible for ordering, providing, or evaluating the service furnished.

(c) The electronic signature of medical record documents requires a signing password. At the time the password is issued, the individual is required to sign a statement that she/he will be the only person using the password. This statement will be maintained in the department responsible for the electronic signature system.

(d) Signature stamps may not be used in the medical record.

(A) These rules and regulations may be amended upon recommendation of the medical staff administrative committee.
Proposals for amendment to the rules and regulations may be made by any member of the attending staff. Such proposals shall be referred to the medical staff bylaws committee for review. Notice shall then be given at any meeting of the medical staff administrative committee. Two-thirds vote of the members present shall be required for adoption.

Before approval the medical director or chief of staff shall circulate the proposed change to all medical staff, allowing adequate time for comment.

Amendments so accepted shall become effective when approved by the Ohio state medical center board.

These rules and regulations shall not conflict with the rules and regulations of the board of trustees of the Ohio state university.

Standards of practice.

Surgical schedules shall be reviewed by the attending surgeon prior to the day of surgery. Attending surgeons must notify the operating room prior to the first scheduled case that they are physically present in the hospital and immediately available to participate in the case. Attending surgeons may accomplish this by being physically present in the operating room or by calling the operating room to notify the staff of such immediate availability. The operating room must be informed of the attending surgeon’s availability prior to anesthetizing the patient. The only exception is in an emergency situation, where waiting might compromise the patient’s safety.

All medical staff members must abide by the quality and safety protocols that may be defined by the medical staff administrative committee and the medical center board.

Inpatients must be seen daily by an attending physician with no exceptions to provide the opportunity of answering patient and family questions.

Adoption of the rules and regulations.

These rules and regulations shall be adopted by the medical staff administrative committee and forwarded for approval in the same fashion as provided in Section 84-16.

Mechanism for changing rules and regulations.

These rules and regulations may be amended pursuant to the medical staff bylaws section 3335-43-13.

Amendments so accepted shall become effective when approved by the Ohio state medical center board.

Each member of the medical staff and those having delineated clinical privileges shall have access to an electronic copy of the rules and regulations upon finalization of the approved amendment changes.

Sanctions.

Each member of the medical staff shall abide by policies approved by the medical staff administrative committee and by the Ohio state university hospitals. Failure to abide may result in suspension of some or all hospital privileges.
April 8, 2011 meeting, Board of Trustees

84-18 Adoption of the rules and regulations.

These rules and regulations shall be adopted by the medical staff administrative committee and forwarded for approval in the same fashion as provided in Section 84-16.

84-19 Sanctions.
