PUBLIC SESSION

The Wexner Medical Center Board convened for its 49th meeting on Tuesday, February 20, 2024, in person at Longaberger Alumni House on Ohio State’s Columbus campus and virtually over Zoom. Board Secretary Jessica A. Eveland called the meeting to order at 12:58 p.m.

Item for Action

1. Approval of Minutes: No changes were requested to the November 14, 2023, meeting minutes; therefore, a formal vote was not required, and the minutes were considered approved.

Items for Discussion

2. Chief Executive Officer’s Report: Dr. John J. Warner, EVP at Ohio State and CEO of the Wexner Medical Center, welcomed President Carter and Interim Provost Karla Zadnik to the Wexner Medical Center Board meeting.

Dr. Warner started the meeting by officially sharing that the Wolfe Foundation — chaired by Ann Wolfe — made a $50 million philanthropic commitment in honor of the late John F. Wolfe to help fund The Ohio State University Wexner Medical Center’s new hospital tower set to open in 2026. This transformational gift is among the largest ever made to the medical center, and in recognition, the new inpatient tower will have two named spaces: The John F. Wolfe Lobby and the Wolfe Foundation Crossroads. President Carter, Dr. Fujita, Mr. Wexner, and other members of the board added additional reflections on the Wolfe Family’s legacy of service to Ohio State and the Columbus Community, and Mrs. Wolfe addressed the Board expressing her desire that this gift would serve as a catalyst for additional giving to support the new hospital tower.

He continued his report by updating the Board on the partnership between Ohio State and the State of Ohio to announce a new $20 million study to help change the face of mental health care in Ohio and also across the country. The SOAR Study is a first-of-its-kind behavioral health research initiative examining the root causes of mental illness and addiction to improve lives.
Additionally, The Proton Therapy Center at The James Outpatient Care facility is the first treatment facility in central Ohio to offer these targeted forms of radiation therapy to treat complex tumors that cannot be removed via surgery or addressed with traditional radiation oncology therapies. This achievement was celebrated, along with partners at Nationwide Children’s Hospital, with a ribbon cutting ceremony this past December. Proton therapy is already making an impact on the lives of adult and pediatric patients.

Lastly, Dr. Warner shared about the recent work that’s been done to create an accountable care organization — known as an ACO — in partnership with CVS Accountable Care. The partnership is a team-based collaborative and coordinated approach to patient-centered care for traditional Medicare fee-for-service patients who receive care from an Ohio State provider. It supports more than 13,000 Medicare patients who receive care at Ohio State with a coordinated approach to delivering high service and care.
