PRESIDENT’S REPORT

Dr. Fujita:

Thank you. It is now my honor to welcome President Ted Carter to his first public session of the Board of Trustees.

As you all know, we welcomed President Carter to the university on January 1. And it has been wonderful to see his introduction to our community.

I have had the pleasure of joining President Carter at several engagements, and I have been impressed by the energy he brings to this work, his commitment to Ohio State’s mission of service and his dedication to learning and leading at the same time.

President Carter — The trustees and I are excited to work with you and excited for the future of Ohio State. I will now turn to you for your report.

Mr. Carter:

Thank you Chair Fujita and good afternoon, everyone, six months ago today — August 22 of 2023 — I sat with you and stood with you in this very room as you announced my appointment as your 17th president of The Ohio State University. It’s a day I’ll never forget, and it’s amazing to be here, exactly six months to the day, for my first meeting with you. As I join you now, as Chair Fujita said — 53 days into the job — I am proud to say that I’m more excited and humbled than ever to be a Buckeye.

Lynda and I have been moved deeply by the warm welcome we’ve received. Our campuses, greater Columbus and the state of Ohio already feel like home. The more we experience of Ohio State, the more we’re convinced that this is where we’re supposed to be.

As I told this board on 22 August 2023, I was drawn to Ohio State because its commitment to service parallels my own — because it operates at the highest levels of academics, research and scholarship, patient care, the arts, athletics
and so much more. This university has a unique potential to bring people together and to solve complex challenges.

The Wolfe family is an amazing example of this that we witnessed this week. On Monday, I had the honor of joining Dr. John Warner, our governor, Mike Dewine; and many of you to announce a $50 million gift from the Wolfes to support the Wexner Medical Center’s new hospital tower. We’re grateful to Mrs. Ann Wolfe and her entire family for this remarkable investment and for all they continue to do for Ohio State.

During my first eight weeks, I’ve been working to wrap my arms around this place and get a sense of those we serve. I’ve been listening and learning, and I remain committed to earning the trust of the Ohio State community.
To do that, I’ve been engaging with many constituents and stakeholders.

I’ve met with leadership of our students, faculty and staff; our college deans; and the University Senate. I’ve engaged with community partners, industry and elected leaders. And I’ve met some of the people who make the campus run so seamlessly — from the crew in Dining Services to the team in the Buck ID office during my first day on campus.

Along the way, I’m beginning to get a sense of what it’s really like to be a Buckeye. I feel the passion people have here for this university.

I’m cheering on our student-athletes. I’ve been at a lot of sporting events already. My very first one was to be able to drop the puck for our men’s hockey team against Notre Dame. And they beat Notre Dame that night, so they keep inviting me back.

I had a chance to sing “Carmen Ohio” with many of our students last month at the Ohio Union. It was an experience I’ll never forget. I’m learning what it’s really like to be a part of the Ohio State community and building relationships with people in every corner of it. I’m also making sure we have the right team in place to take this community, and the impact we have, to the next level.

To that end, I know you’ll join me in welcoming Ross Bjork to Buckeye Nation as our next senior vice president and athletics director. I’ve said it many times before: There’s no replacing Gene Smith. Throughout the search, the goal was to find someone who will build on his amazing legacy, support student-athletes and keep our amazing momentum going. Ross is the right person to do just that.

In another important area of the university, I was pleased to name Katie Hall as the senior vice president for talent, culture, and human resources. Katie’s been an outstanding partner to the Ohio State community for 24 years, and she’s led our HR operation on an interim basis since last spring. I’m excited to work with both her and Ross to make this remarkable university even greater in the future. And I’m thankful to you, the Board, as we bring them aboard.
The search for Ohio State’s next provost also remains a significant area of focus. This is important for the university. And I want to say thank you, right up front, to Dr. Karla Zadnik, who’s been acting as our interim and doing an amazing job in that important leadership role as this process unfolds.

Earlier this month, I was pleased to meet with the Intel CEO, Pat Gelsinger, out in Santa Clara, California, to reaffirm Ohio State’s partnership with the company. Their investment here in Ohio is a huge opportunity, and we are committed to their success — and the success of the semiconductor industry — right here in our state.

In January, we hosted Governor Mike DeWine on campus to announce the new State of Ohio Adversity and Resilience Study (SOAR). Backed by $20 million in state funding, this effort aims to better understand and address the root causes of addiction and mental illness. It’s a statewide study that’s going to be based right here at the Wexner Medical Center.

I want to say thank you to Trustee Brad Kastan and medical center board member Bobby Schottenstein for joining us on that special announcement. I also want to point out that that SOAR Study is the first of its kind in any state in the entire United States. We’re also grateful to the State of Ohio for $2.5 million in funding to expand mental health support for our students. This university is already doing great work in this space, and I’m thrilled that we’re going to be able to do more of it with the support of Governor DeWine and the Ohio General Assembly.

Also in January, Trustee Elizabeth Harsh, Dean Cathann Kress and I helped break ground on the Multispecies Animal Learning Center, located at Waterman Labs. This new facility will be a hub for industry and workforce development — providing hands-on training to prepare our students for careers in animal agriculture. That event was a milestone in terms of what we’re going to be able to do for this industry. But it was also remarkable to see who came to campus to be a part of that day: elected leaders, the entire agriculture community, our faculty and students. They came because they’re committed to the work we do together — and because they believe in the impact this university has in every corner of the state.

And just as I knew in Nebraska, agriculture is a top and important industry here in the state of Ohio, and I got to see all the leaders of the different aspects of the ag community at this very event. I also got to be reminded that we have representation in all 88 counties here in the great state of Ohio. It’s our commitment to the entire state.

To sustain that impact, and to expand it, there are two fundamental things we have to get right on our campuses — and I’ve talked about this since the day I got here: We have to have a safe environment. We have to have an environment that welcomes all people to do their best work.
In terms of safety, I’ve been impressed to learn what we have been doing. And maybe we haven’t talked enough about that: investments in lighting and surveillance, uniformed and non-uniformed personnel, and new transportation options. I visited our command center at Blankenship Hall just recently and had the chance to see how we monitor things in real time.

In addition to the significant focus on physical safety, the university meets continually with students — to hear their perspectives and concerns and connect them with support. We want our campuses to be places where everybody is welcome, feels like they belong, and where everyone’s voices can be heard. Free speech is an important part of that — but so is safety, civility, respect, and compassion. College campuses should be places where students, faculty and staff can engage in learning from one another and consider many different perspectives. And there are times when we may not all agree. Across the nation, some of our disagreements have turned volatile. For the most part, things at Ohio State have not reached the level they have on some other campuses. That says a lot about our students, our faculty and staff. But there are still members of our community who feel vulnerable — particularly as it relates to the war in the Middle East. And I heard that from our students. And I reminded our staff as we continue to work on this problem: We can work very hard on the safety; we understand what it means to be a secure campus. But it is very difficult to tell faculty, staff and, particularly, our students how to feel.

Moving forward from here does not require us to change one another’s positions. But it does require us to center our dialogue on what we have in common — to keep compassion and respect at the forefront. If we do that, we can have real discourse. We can openly exchange perspectives. And we can learn something from each other — even if we don’t see eye to eye. This is challenging work, but I am convinced we can do it at Ohio State. That’s because no matter how great our differences seem, there is one thing that we do all have in common: We are all Buckeyes. It’s the one thing that brings us together. We have all chosen to be part of this large and complex community. That identity is powerful enough and valuable enough for us to build on, and I look forward to doing that more in the future. This is work that we’re continuing to do. Dr. Melissa Shivers has done an amazing job bringing our students together and helping them understand how to work with each other, how to have meaningful dialogue — and that work will continue.

As I’ve said before, this is a unique moment in the world, our country and in the higher education landscape. In addition to the tone of our discourse, colleges and universities are being questioned by people across the spectrum. But I believe that Ohio State is one of the few institutions that can change that narrative, and I’m excited to do that with this university community.

We have some of the best students in the country. In fact, Ohio State was named a top producer of Fulbright scholars just last week. That’s the fifth year in a row. Our faculty are world-class educators and researchers. We’re celebrating a new record in terms of research expenditures: almost $1.45
billion just this last fiscal year. And our staff are talented and dedicated to the mission of this institution. Throughout its history, this university has changed the lives of our students, our patients and people throughout the state and across our country. It’s work we’re going to keep on doing and doing more of.

The bottom line here is simple: Ohio State is one of the best public universities there is — not just in the United States, but across the world. And there’s not a doubt in my mind that it’s going to continue to rise.

I am grateful for your support and partnership in these early months, and for the opportunity to be a part of this amazing university. It’s one of the greatest honors of my career, and I’m really proud to be here with you.

So, I will say thank you, for now, as we continue the dialogue. And, as always, Go Bucks!

CHAIRMAN’S REMARKS

Dr. Fujita:

Thank you, President Carter.

Before we move to the Consent Agenda, I would like to pause to discuss two of the hand-carry resolutions that will soon be brought forward. These resolutions express the appreciation of this Board — and all of Ohio State — for some very special members of our community.

As President Carter mentioned in his report, the Wolfe Foundation and foundation Chair Ann Islay Wolfe recently committed $50 million to support the Wexner Medical Center’s hospital tower project.

This incredible gift is the latest expression of the Wolfe family’s generosity. And it continues a commitment to Ohio State that has lasted for generations.

Cancer research, veterinary medicine, athletics, the student experience, scholarship and health care at Ohio State would not be what they are without their support.

These gifts are made in honor of the late John F. Wolfe, and we are forever grateful for his service to Ohio State.

We are equally grateful to his wife, Ann, for her leadership and partnership — and to their entire family for carrying on their legacy of service.

We are fortunate to have their support as the university continues its work uplifting the people of Ohio and communities across the globe.
We are also pleased to recognize Dr. Pierre Agostini — an emeritus professor in our Department of Physics and recipient of the 2023 Nobel Prize.

Dr. Agostini has led a truly distinguished career. After spending many years as a researcher at the French Alternative Energies and Atomic Energy Commission research site in Saclay in France, he joined the faculty of Ohio State in 2005. And even after his retirement in 2018, he has pushed science, and our society, forward through his groundbreaking scientific achievements.

The Nobel Prize committee recognized research he conducted with colleagues in Germany and Sweden to capture the movement of electrons — bodies that move as fast as 2,000 miles per second.

The tools that Dr. Agostini helped to create have nearly limitless potential to benefit humanity — such as more efficient electronics, improved medical diagnostics and more.

Perhaps most importantly, he is well known as a humble colleague, a passionate mentor and a good man.

We are grateful that Dr. Agostini could join the Research, Innovation, and Strategic Partnerships Committee by Zoom earlier today, and we will now show a short video commemorating Dr. Agostini and his work.

CONSENT AGENDA

Dr. Fujita:

We are honored now to recognize Dr. Pierre Agostini for his singular contributions to science, his colleagues and students, and our university. Including these two items we have 30 resolutions on the consent agenda for the Board's consideration and approval which includes the three hand-carried resolutions that were brought forward this week and placed on the consent agenda: 1. Personnel Actions. 2. Naming of John F. Wolfe Lobby, and 3. Naming of Wolfe Foundation Crossroads. These documents are available through our media relations team for the public upon request.

RESOLUTIONS IN MEMORIAM

Resolution No. 2024-74

JOSEPH (JOE) COCHRAN

Synopsis: The Board of Trustees of The Ohio State University expresses its sorrow regarding the October 22, 2023, death of Joseph (Joe) Cochran, former
Operations Manager and Interim Director of Secrest Arboretum and Knox County Extension Agent.

Joe tirelessly served The Ohio State University, College of Food, Agricultural, and Environmental Sciences (CFAES) until he retired in 2019. He and his colleagues were heavily invested in Secrest Arboretum on the CFAES Wooster Campus. He was instrumental in rebuilding and restoring Secrest after the 2010 tornado. Joe also led efforts in planning, design and development of the Secrest Welcome and Education Center.

During his time at Secrest, Joe initiated several new programs, including the Secrest Academy of Landscape Sciences and Arts, or SALSA, an interactive course for horticulture professionals and avid gardeners. He also worked with Akron Public Schools’ Project Rise to welcome children and families experiencing homelessness to Secrest Arboretum for an annual day of outdoor learning and leisure.

Joe’s smile was infectious, and his generosity was boundless. Thanks to his contagious love of plants and horticulture, he was an inspiration to countless arboretum visitors and educational program attendees. He relished his role as a mentor to young people and budding professionals. As a leader, he took pride in fostering a lively and inclusive work environment and always was encouraging and kind to employees and visitors. Joe supported Secrest Arboretum and its visitors well beyond his retirement. Joe’s dedication to Secrest Arboretum, CFAES Wooster Campus and The Ohio State University strengthened our connections with communities and partners.

On behalf of the university community, the Board of Trustees expresses to the family of Joseph Cochran its deepest sympathy for their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the board’s heartfelt sympathy and appreciation.

DAVID MUNN

Synopsis: The Board of Trustees of The Ohio State University expresses its sorrow regarding the November 19, 2023, death of David Alan Munn. David was an emeritus faculty member in the Agricultural Technical Institute (ATI) where he served as an associate professor of soils, agronomy, and environmental sciences.

During his 34 years at ATI, he loved teaching and counselling students, many of whom came to him long after his retirement and thanked him for the rich learning opportunities he provided.

After serving in the U.S. Army during Vietnam, he earned three degrees at Ohio State, including his Ph.D. in Agronomy in 1974. In 1976, he joined the faculty at ATI as an assistant professor. He retired in 2003 as an associate professor.

Colleagues recall David as an excellent example of servant leadership and a great citizen of the institute. He was kind, generous, thoughtful, and desired the best for all. He loved being outdoors and sparked that value in his students. He also was known for his sense of humor even during difficult times.
On behalf of the university community, the Board of Trustees expresses to the family of David Munn its deepest sympathy for their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the board’s heartfelt sympathy and appreciation.

JOHN C. RICE

Synopsis: The Board of Trustees of The Ohio State University expresses its sorrow regarding the September 25, 2023, death of John C. Rice, Assistant Professor Emeritus with The Ohio State University in the College of Food, Agricultural, and Environmental Sciences.

Mr. Rice started working with Ohio State University Extension in Muskingum County in 1965 as a county 4-H agent. In January 1968, he transitioned to serve as the Muskingum County agriculture agent. In February 1974, Mr. Rice transferred to Meigs County and served as the county agent focusing on agriculture as well as community and natural resource development. He also served as county chairman in Meigs County.

Mr. Rice was recognized as assistant professor emeritus upon his retirement on March 1, 1992.

Mr. Rice was the 1972 recipient of the Ohio Cooperative Extension Agents Association Scholarship, which enabled him to attend a National Extension Summer School at the time. In 2016, he received the Cooperator of the Year award from Meigs County Soil and Water Conservation Board.

During his career, Mr. Rice worked with numerous 4-H members, families, and farmers. Among his noted achievements were teaching farmers how to use Ohio Commercial Account Records, conducting income tax workshops, holding safety meetings with vocational agriculture teachers, and planning many vegetable schools to educate the public.

Before his work with OSU Extension, Mr. Rice worked as a teacher and bus driver for Frazeysburg High School for several years. He also served in the United States Army from 1957 to 1958.

Mr. Rice enjoyed serving others and was very active in his community. He was a member of many organizations such as the Middleport-Pomeroy Rotary Club, the Eastern Local School Board where he served as president for several years, the Soil and Water Conservation Board, and the Masonic Lodge. Mr. Rice was a lifelong farmer, raising cattle and sheep for many years. He was also an avid Ohio State football fan.

Mr. Rice earned a bachelor’s degree in animal science in 1957, and a master’s degree in agricultural education in 1973, both from The Ohio State University. During his time as an Ohio State student, Mr. Rice was a member of the general livestock judging team, worked in the meat lab, and worked with cattle and horses.
February 20-22, 2024, Board of Trustees meetings

On behalf of the university community, the Ohio State Board of Trustees expresses to the family of John C. Rice, its deepest sympathy and sense of understanding of their loss.

It is directed that this resolution be inscribed upon the minutes of the Board of Trustees, and that a copy be tendered to his family as an expression of the board’s heartfelt sympathy and appreciation.

KEIKO KOMIYA SAMIMY

Synopsis: The Board of Trustees of The Ohio State University expresses its sympathy regarding the November 25, 2023, death of Faculty Emerita Keiko Komiya Samimy, professor of teaching English to speakers of other languages (TESOL) in the Department of Teaching and Learning, College of Education and Human Ecology. She was 71.

Professor Samimy had a long and distinguished career in the field of foreign and second language teaching and learning. She joined the College of Education in 1988. As a native of Japan, she spoke fluent Japanese and had working knowledge of Italian, French and Spanish.

She was a prolific and influential scholar whose major work fell into two primary categories. Earlier in her career, she focused on the impact of "affective variables" (such as emotions) on the learning of foreign languages. This work led to an area where she is known as one of its pioneers: foreign language anxiety. Her publications in this domain in the 1990s shed important light on the nature and impact of the fear that can be associated with learning another language.

This body of work created a foundation from which many other scholars have drawn their inspiration and knowledge. For example, her 1996 co-authored article, "Foreign Language Anxiety and Language Performance: A Study of Learner Anxiety in Beginning, Intermediate, and Advanced-Level College Students of Japanese," was frequently cited. So was her 1999 co-authored "Revisiting the Colonial in the Postcolonial: Critical Praxis for Nonnative-English-Speaking Teachers in a TESOL Program" in TESOL Quarterly also was cited hundreds of times.

In the 2000s, Samimy’s focus shifted to a second primary concentration: the experiences of nonnative English speaking (NNES) professionals. In fact, she was an early leader of a group of internationally based scholars, the Non-Native English Speaking Teachers Caucus (NNEST), founded in 1997, which went on to establish this as a significant field of research and teaching.

At Ohio State, where Samimy taught until her retirement in June 2017, she created graduate-level courses on this topic that were among the first to be offered at any American university. They grew to be extremely popular and in great demand.

In terms of grants, in 2007, Samimy collaborated with colleagues to receive a five-year, $1.5 million grant from the U.S. Department of Education, Office of English Language Acquisition, Language Enhancement and Academic Achievement for Limited English Proficient Students. The ESL – Content Teachers Collaborative trained content and English-as-a-second-language teachers in the knowledge
base and skills to help them improve the academic achievement, literacy and English language development of what was then Ohio’s more than 40,000 ESL students.

Samimy first served as co-director, then took over as director when her colleague left Ohio State. During the project, 23 different Ohio school districts took part. Professional development included workshops and graduate-level courses, including cutting-edge distance learning to reach teachers throughout the state.

It was also at Ohio State where Professor Samimy distinguished herself in another important way: as a skilled and beloved mentor to a very large number of graduate students, many of whom have gone on to their own noteworthy careers in the academic world. As a teacher and a scholar, as well as a valued colleague, Professor Samimy, in her always gentle and dignified manner, created a rich legacy of devotion and success that is a model to others.

On behalf of the entire university community, the Board of Trustees expresses to the friends and family of Professor Emerita Keiko Komiya Samimy its deepest sympathy and compassion for their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the board’s heartfelt sympathy and appreciation.

STEVEN JAY SCHWARTZ

Synopsis: The Board of Trustees of The Ohio State University expresses its sorrow regarding the November 25, 2023, death of Steven Jay Schwartz, Professor Emeritus of Food Science and Technology in the College of Food, Agricultural, and Environmental Sciences.

Dr. Schwartz held the Carl E. Haas Endowed Chair in Food Industries in the Department of Food Science and Technology at the Ohio State University from 1996 until his retirement in 2018. Before joining the faculty at Ohio State, he was a Professor of Food Science at the North Carolina State University from 1983 to 1996.

His research program involved innovative food science and nutrition discoveries that directly impacted human health. As the Haas Endowed Chair, he leveraged his research and relationships within The Ohio State University and beyond to adeptly forge important industry collaborations that would actively support the research and discovery work taking place within the department.

His leadership and his ability to collaborate across disciplines resulted in several initiatives. He served as a co-founder of the Food Innovation Center and director of the Nutrient and Phytochemical Analytic Shared Resource of the OSU Comprehensive Cancer Center. In addition, he served as site director of the Center for Advanced Processing and Packaging Studies. He utilized this National Science Foundation IUCRC Founded Center to foster partnerships between industry and universities for the mutual benefit of both parties and the advancement of food processing and packaging research.
Dr. Schwartz also served as the director of the Center for Advanced Functional Foods Research and Entrepreneurship. He utilized this interdisciplinary center that is comprised of a diverse group of scientists, medical professionals, and policy experts to serve as a catalyst for research and development of novel functional foods and components that enhance health.

His final professional accomplishment was spearheading the OSU Discovery Themes Initiative entitled Personalized Food and Nutritional Metabolomics for Health, known as Foods for Health (FFH). Dr. Schwartz’s work in food and nutritional metabolomics was the foundation behind this impactful discovery theme.

Dr. Schwartz brought prestige to Ohio State as an elected Fellow of the American Association for the Advancement of Science which recognizes meritorious efforts to advance science or its applications. He was an enthusiastic collaborator and committed mentor to a countless number of students, visiting scholars, and young faculty.

On behalf of the university community, the Board of Trustees expresses to the family of Professor Steven J. Schwartz its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the board’s heartfelt sympathy and appreciation.

RESOLUTION OF RECOGNITION FOR DR. PIERRE AGOSTINI
Resolution No. 2024-76

Synopsis: The Board of Trustees of The Ohio State University wishes to recognize and congratulate Dr. Pierre Agostini, professor emeritus of physics, for winning the 2023 Nobel Prize in Physics.

Born in Tunisia, Pierre Agostini received multiple degrees from Aix-Marseille University in Marseille, France, including his doctorate in physics. He worked as a researcher at the French Alternative Energies and Atomic Energy Commission (CEA) research site in Saclay before joining The Ohio State University in 2005 as a Professor of Physics. Upon his retirement in 2018, the Board of Trustees conferred him emeritus status in recognition of his distinguished academic career at the institution.

Agostini continues to engage in research activities and mentorship to this day. Working in collaboration with Hagenlocker Chair of Physics Louis DiMauro for over 30 years, the Agostini-DiMauro Atomic Physics Research Group studies ultra-fast and strong-field atomic physics, both theoretically and experimentally. Their research in particular uses ultra-fast laser pulses to study the movement of subatomic particles.

In October 2023, the Royal Swedish Academy of Sciences awarded Agostini (alongside Ferenc Krausz from the Max Planck Institute of Quantum Optics in Germany and Anne L’Huillier from Lund University in Sweden) with the 2023 Nobel Prize in Physics “for experimental methods that generate attosecond pulses of light for the study of electron dynamics in matter.”

Because electrons can move at approximately 2,000 miles per second, it is exceedingly difficult to capture their movement. Agostini and his fellow Nobel laureates, however, pioneered the creation of light pulses lasting merely attoseconds (one quintillionth of a second) to track electron movement.

In recognizing this work, the Nobel Prize committee noted the limitless possibilities that this research can unlock, citing that Agostini and the other awardees “have given humanity new tools for exploring the world of electrons inside atoms and molecules.” The committee further identified the broad potential that such research may have across a wide variety of different disciplines, including in engineering, where tracking the movement of electrons could allow for highly increased efficiency in the operations of electronics, and in medicine, where the use of attosecond pulses could have significant diagnostic applications.

Agostini’s groundbreaking scientific achievements have meaningfully advanced both science and society more broadly. Even beyond these impressive advancements, though, Agostini is widely regarded as an exemplary colleague, a caring and humble man who cares deeply about science, education, and promoting and supporting others.

On behalf of the entire university community, the Board of Trustees congratulates Dr. Pierre Agostini, professor emeritus of physics, for winning the 2023 Nobel Prize in Physics, and expresses its deep admiration for his decades of innovative
research and significant contributions to the university community. It is directed that this resolution shall be inscribed upon the minutes of the Board of Trustees, and a copy will be tendered to Agostini as an expression of the Board’s heartfelt appreciation of his accomplishments both presently and throughout his career.

RESOLUTION OF APPRECIATION FOR THE ROBERT F. WOLFE AND EDGAR T. WOLFE FOUNDATION, ANN ISLAY WOLFE, CHAIR

Resolution No. 2024-77

Synopsis: The Board of Trustees of The Ohio State University warmly expresses its gratitude to the Robert F. Wolfe and Edgar T. Wolfe Foundation and foundation chair Ann Islay Wolfe for their $50 million philanthropic commitment to help fund The Ohio State University Wexner Medical Center’s new hospital tower made in honor of the late John F. Wolfe.

At Ohio State, the Wolfe family’s multigenerational philanthropic investments have supported countless priorities including cancer research, veterinary medicine, athletic facilities, scholarships, and eight endowed chairs and professorships. The Wolfe family has provided civic and philanthropic leadership for organizations across the community, including COSI, the Franklin Park Conservatory, the Scioto Mile and the Columbus Zoo and Aquarium. Ann Islay Wolfe, chair of the Wolfe Foundation, has devoted her time to championing health care including serving as the longtime chair of the Nationwide Children’s Hospital Foundation Board.

This newest gift — one of the largest ever made to The Ohio State University Wexner Medical Center — was inspired by John F. Wolfe’s altruistic philosophy and unwavering dedication to supporting the momentum of Ohio State’s health care system.

John F. Wolfe’s legendary generosity spanned many decades in which he donated his time and counsel by serving on various boards, steadfastly supporting the vision and growth of the university. That civic leadership grew from family tradition. Just like his father, cousin, and many other family members, including his wife Ann, John F. Wolfe understood the importance of advocacy in a community’s development. He strongly believed in the unlimited potential of a nationally renowned academic medical center at Ohio State, and his legacy continues to shape the present and future of health care in Columbus, across the State of Ohio and beyond. This transformational gift exemplifies his passion for service and the Wolfe Foundation’s ongoing dedication to the community.

The gift will greatly help Ohio State continue to meet and exceed the unique health care needs of the rapidly growing central Ohio region at the new inpatient tower. At 1.9 million square feet and 24 floors, the hospital is the single-largest facilities project undertaken at the university. It is designed for flexible and team-based care that prioritizes the patient and their family. The hospital’s interdisciplinary focus will allow for collaborative teaching, research and clinical trials throughout the building. With up to 820 private rooms and 51 neonatal intensive care beds, it will add much-needed capacity to care for the rapidly growing central Ohio community.
In recognition of the impact of this gift, the new inpatient tower will have two named spaces: The John F. Wolfe Lobby, as well as the Wolfe Foundation Crossroads, which will serve as the primary physical connection point to The James.

Philanthropic commitments such as this gift from the Wolfe Foundation play a critical role in accelerating progress toward new treatments and teaching opportunities for the generations to come.

On behalf of the entire university community, the Board of Trustees expresses its deep gratitude to The Robert F. Wolfe and Edgar T. Wolfe Foundation and Ann Islay Wolfe for their continued support of Ohio State. It is directed that this resolution shall be inscribed upon the minutes of the Board of Trustees, and a copy will be tendered to the Foundation and Mrs. Wolfe as an expression of the Board’s heartfelt appreciation.
